THE CRESTON REVIEW

VOL. XXIV — CRESTON, B. C., FRIDAY, JUNE 2, 1933 — No. 11

Schools' Field Day is Success

Outside Schools' Pupils Much to the Fore—Huscroft Sisters Outstandnig Performers—Canyon Best Rural School

The third annual track meet of the Creston Valley schools, held at the High School track on May 27th, was favored with exceptionally fine weather and an enthusiastic crowd of spectators. Commencing at 11 in the morning, event followed event without a hitch, terminating with the presentation of prizes by Col. Mallandaine. The latter, in a well received address, complimented the students on their showing in the sports and presented the trophies and medals with a few nicely chosen individual comments.

The thanks of the committee are tendered to Col. Mallandaine and to all the officials who so altruistically devoted their time and energy to making the meet a success

For the first year, records were taken and in some cases these will stand as high marks for succeeding contestants to aim for. Outstanding individual performances were made in the intermediate broad jump for boys and the junior bro d jump for girls.

The Camp Lister trophy for rural schools was won by Canyon, with a total of 49 points. Herbert Dodd, placing first in the 440, 220 and 100 and third in the broad jump, took the senior boys' championship with 16 points for the second time, winning the Masonic trophy for the aggregate, and the Canadian Legion trophy for the 100.

Minnie Huscroft retained the Creston Valley Teachers' Association trophy for senior girls' championship, gathering 15 points with first in the 100, broad and high jump, and won the Creston High School Athletic Association trophy for the 100.

Raymond Humble collected 15 points with first in the high jump and pole vault, second in the broad jump and third in the 100 and 220, to take the K.P. trophy for intetmediate boys. He also won the Creston Board of Trade trophy for the intermediate pole vault.

Margaret Huscroft, with first in the 100 and high jump and third in the broad jump, took the K.P. trophy for the intermediate girls, with a total of 11 points.

Erwin Rylan and Elmer Hagen tied with 6 points each for the Track Association trophy for junior boys; the former taking second in the 75 and broad jump; the latter, first in the broad jump and thi d in the 75. Babs Spencer won the Track Association trophy for junior girls, with first in the high and broad jumps and second in the 50, to total 13 points. Complete results follow:

SCHOOL POINTS: Creston Public 81, Canyon 49. Creston High 44, Huscroft 42, Wynndel 36, Lister 23, Erickson 19, Arrow Creek 2.

SENIOR BOYS—

Totals: Herbert Dodd, Creston H.S., 16; Bill Bourdon, Creston P.S., 10; Sydney Scott, Creston H S., 9; Frank Morth, Creston P.S., and Ray Humble, Canyon, 6; Irving Ferguson, Creston P.S., and Kenneth Packman, Wynndel, 3; Tom Tedford, Canyon, 1.

100 yards—H. Dodd, S.Scott, F.Morth. Time 11.4.

220 yards—H. Dodd, S. Scott, I. Ferguson. Time 25.8.

440 yards—H. Dodd, S. Scott, I. Ferguson. Time, 58.2.

High jump—B. Bourdon, K. Packman, H. Dodd. Height, 4 ft. 7 in.

Broad jump—F. Morth, R Humble, T. Tedford. Length, 17 ft. 1 in.

Pole vault—B. Bourdon, R. Humble, I. Ferguson. Height, 8 ft. 9½ in.

SENIOR GIRLS—

Totals: Minnie Huscroft, Huscroft, 15; Margaret Huscroft, Huscroft, 7; Yvonne LaBelle, Creston H.S., 6; Irene Bourdon, Creston H.S., 4; Hilda Hagen, Creston H.S., 3.

100 yards—Minnie Huscroft, Margaret Huscroft, Y. LaBelle. Time 12.6.

High jump—Minnie Huscroft, Margaret Huscroft, I. Bourdon. Height, 4 ft. 6 in.

Broad jump—Minnie Huscroft, I. Bourdon, Margaret Huscroft. Length, 14 ft. 7 in.

Basketball throw—Y. LaBelle, H. Hagen. Length, 63 ft. 10½ in.

INTERMEDIATE BOYS—

Totals: Raymond Humble, Canyon, 15; Peter Heric, Erickson, 12; Sam Nastasi, Creston P.S., 8; Tom Tedford, Canyon, 6; Ariel Schade, Creston P.S., 3; Charles Kolthammer, Canyon, 1.

100 yards—P. Heric, S. Nastasi, R. Humble. Time, 11.8.

220 yards—S. Nastasi, P. Heric, R. Humble. Time, 27.8.

High jump—R. Humble, P. Heric, T. Tedford. Height, 4 ft. 4½ in.

Broad jump—T. Tedford, R. Humble, P. Heric. Length, 16 ft. 6 in. made by R. Humble in jumping off tie for second place.

Pole vault—R. Humble, A. Schade, C. Kolthammer. Height, 7 ft. 2 in,

INTERMEDIATE GIRLS—

Totals: Margaret Huscroft, Huscroft, 11; Rachel Morrow, Creston P.S., 8; Hilda Hagen, Creston H.S., 5; Aileen Klingensmith, Creston H.S., 4; Babs Spencer, Canyon, and Ruby Palmer, C.P.S., 3; Theo. Tompkins, Creston H.S. and Joan Heric, Erickson, 1.

100 yards—M. Huscroft, R. Morrow. A Klingensmith. Time, 13.0.

High jump—M. Huscroft, A. Klingensmith, T. Tompkins. Height, 4 ft. 1 in.

Broad jump—R. Morrow, B. Spencer, M. Huscroft. Length, 13 ft. 7 in

Basketball throw—H. Hagen, R. Palmer, J. Heric. Length, 57 ft.

JUNIOR BOYS—

Totals: Erwin Rylan, Lister, and Elmer Hagen, Wynndel, 6; Manning Powers, Lister, and Oswald Uri, Wynndel, 5; Eric Pakenham, Erickson, 3; Carl Nygaard, Canyon, and Bud Lowther, Creston P.S., 1.

75 yards—M. Powers, E. Rylan, E. Hagen. Time, 10.

Broad jump—E. Hagen, E. R lan, C. Nygaard. Length, 13 ft. 2 in.

High jump—O. Uri, E. Pakenham, B. Lowther. Height 4 ft. 7 in.

JUNIOR GIRLS—

Totals: Babs Spencer, Canyon, 13; Gladys McCullough, Husceoft, 8; Olive Speaker, Erickson, 3; Vergene Bohmer, Arrow Creek, 2; Jessie Spr tt, Creston, 1.

50 yards—G. McCullough, B. Spencer, J. Spratt. Time, 7.2.

Broad jump—B. Spencer, G. McCullough, V. Bohmer. Length, 14 ft. 1 in.

High jump—B. Spencer, O. Speaker, V. Bohmer. Height, 3 ft. 9 in.

SPECIAL EVENTS—

Boys under 9, 50 yards—L. Tedford. B. Huscroft, L. Johnston. Time, 7.8.

Girls under 9, 50 yards—L. Butterfield, A. Cooper, N. Huscroft. Time, 8.0.

Boys under 10, 50 yards—K French, L. Tedford, F. Hagen. Time, 7.6.

Girls under 10, 50 yards—V. Watson, H. Gustafson, J. Sakata. Time, 7.8.

Boys under 11, 50 yards—E. Davis, T. Johnston, R. McKee. Time, 7.4.

Boys under 11, baseball throw—B. Lowther, F. Hagen, F. McCullough. Distance, 152 feet.

Girls under 11 years, 50 yards—G. Walker, M. Nygaard, E. Ostendorf. Time, 7.4.

Everyone at the meet admired the pluck shown by the scholars from Arrow Creek school, which only opened last September and had 15 entries. The only way most of these had to reach Creston was to walk the whole distance, which they did, but after the seven mile tramp they were hardly in shape to get right in to the running events, and it was largely due to this cause that they did not make a better showing.

Organize C.V.S.A.A.

As the Teachers' Association, which has hitherto sponsored the track meet, is now defunct, an organization meeting took place the day of the meet. A new association, the Creston Valley Schools Athletic Association was formed. The association is to consist of one representative from each school board and one from each school staff in the Valley, together with one delegate each from the Knights of Pythias, Wild Rose Lodge, and the local branch of the Canadian Legion. These delegates are empowered to act with representatives from any other society whom they they wish to invite.

The first meeting of the new Association is called for June 10.

Mr. E. Cartwright took the chair at the organization meeting, with E. Marriott acting as secretary.

Porthill Keeps Right on Winning

Trim Canyon 7-1 at Recreation Park Opening at Huscroft—Wynndel Keeps on Winning—Erickson Beats Eastport

The outstanding feature of league baseball the past week is the presentation of a silver cup by Cecil Moore of Central Motors, which will go to the winner of the league championship each year. The trophy will stand on an ebony base and will be 16 inches high and suitably engraved. Another notable feature was the lodging of a protest by Wynndel against Creston Intermediates at Sunday afternoon's contest, on the ground that "Smoky" was ineligible to pitch for the Creston nine. This will be settled at a meeting of the league executive this week.

The biggest turnout of the week was at the Huscroft recreation park where Porthill is now playing its home games and they celebrated the day by taking a 7-1 victory from Canyon. Both pitchers were effective and the score would have been much closer had Canyon's defense been more effective. For the winners King struck out ten, and Niblow had seven strikeouts to his credit. Hawks of Porthill was the batting sensation getting three hits on four trips to the pan. And for good measure the Porthill infield pulled off a fast double play.

Erickson appears to have profited by trying out some of the talent of former days, and nosed out Eastport on the boundary town grounds 8-4. Fred Boffey twirled half the game and in addition to doing a good job he was also effective at bat. Roy Penson hurled the other half of the game and held Eastport safe all the way Frank Romano wore the mask and pad for Erickson.

The chief excitement of the day, however, was at Creston where Wynndel had it over the Intermediates 15-8. With the count 15-3 the losers decided to take Miller out of the box at the end of the seventh, replacing him with "Smoky," who had already this season hurled for them as well as Wynndel. And here's where the protest originated, Wynndel claiming the dusky hurler was disqualified, the league constitution forbidding a pitcher who had worked for two teams getting back into action with the first team he had played with. "Smoky" started the season with the Intermediates, later pitching for Wynndel. While lodging the protest Wynndel decided to finish the game, and a cluster of five tallies was gathered by the Intermediates before the berry pickers settled down to the steady game they had played the previous eight innings. The batting feature was furnished by McIntyre of Wynndel who clouted out a homer in the fifth with none aboard. L. Benedetti and Rushcal were battery for the winners, and Miller, "Smoky" and Miller were Intermediate battery.

The Intermediate-Athletics game scheduled for Sunday was played on Wednesday evening at Exhibition Park with the honors going to the Athletics by a 12-5 margin. For the winners the battery was H. Couling and Schade, with Miller, "Smoky" and Miller in the points for the Intermediates. M. R. Joyce made his first appearance as umpire and handled the game with his usual satisfaction.

A meeting of the league executive was held after Wednesday night's game at which Wynndel's protest on "Smoky" pitching for the Intermediates on Sunday was threshed out and resulted in Wynndel withdrawing the protest.

This Sunday there will be but two games. Porthill will be here to meet Wynndel at 2.30, and Eastport will be at Canyon. Creston Atnletics and Intermediat s met Wednesday in order that the pick of these two teams, along with Erickson, which has an off day Sunday, can be at Kimberley for the return game on Sabbath, 4th.

TUES., JUNE 6

EIGHT p.m.

Everybody Welcome!
ADMISSION FREE!

Creston FARMERS' INSTITUTE

Canyon City

Birth—On May 24th, to Mr. and Mrs. Fritz Molander, a son.

Andy Wickholm and son, George, were visitors at Windermere a couple of days last week, with his son, Will, who is living there.

Mrs. Barnhardt of Glenlily is a visitor here this week, with her parents, Mr. and Mrs. F. Knott.

Quite a number from here were at Huscroft on Sunday afternoon for the league baseball game at the new diamond, in which Canyon took a 7-1 beating from Porthill.

D. Rylan of Camp Lister was calling on some of the Canyon residents last week soliciting cash contributions to help pay the lawyer who will defend Comrade Evans who comes up for trial at Kamloops early in June

M. LeGrandeau is the latest to acquire a car—a reconditioned Ford from Central Motors, Creston.

Canyon scholars made a wonderful showing at the schools' track meet at Creston on Saturday afternoon. With a total of 49 points the students made the best showing of all country schools, and were four points ahead of Creston high school. Babs Spencer won the junior girls championship, and Raymond Humble intermediate boys' championship.

About forty residents were out for the school meeting on Saturday night, at which the teachers' salary question was the main item of business. A year ago some trouble was encountered because the trustees undertook to fix salaries prior to the annual meeting. To avoid this the Saturday meeting was called at which it was decided to make a cut of 20 per cent., which will mean the principal will receive $1000 next year, and his assistant $825, and notice to this effect will be sent the teaching staff at once.

Sirdar

Many people from Sirdar attended the Victoria day dance at Boswell on Wednesday evening.

The water register at Slough bridge, Atbara, shows, 12.85 a rise of 1.1 for the week. The water is still riley, and the lack of driftwood to date is noted this year.

Fishing was in full swing during the week, and many fishermen from Creston and district were trying their luck, which on the average was only fair.

Charles Wilson left on a business trip to Cranbrook and Kimberley the early part of the week.

S. Cherbo, on a bicycle, made the trip to Cranbrook and back in record time without incident. It is his intention to undertake the strenuous ordeal of cycling to Winnipeg and back in the very near future. Bicycling in this district has become a great sport and nearly all of the young generation is in possession of a bicycle.

Messrs. J. S. and Charles Wilson were at Rosencath twice during the week, quarrying out granite in the white and rose emerald colors to meet orders on hand.

A very enjoyable community social was held in the hall on Saturday evening. Cards and dancing featured the evening. A cake was raffled during the evening and Clifford Neil of Kuskanook was the lucky holder of the ticket.

A double header ball game took place between Boswell and Sirdar teams on the Boswell grounds on Sunday, which resulted on both occasions in 17-10 and 11-9 wins for Sirdar. Sirdar batteries were Clifford Neil, and B. Gustaven, J. Metcalf; Boswell batteries being, Ray Cummings and Stan Hepher, Umpires were, B. Milligan and Bebbington. Charles Wilson was base umpire. The games, which were clean ones throughout, were enjoyed by a large gathering in attendance. A return game is to be played on Sirdar grounds in the course of a few weeks.

Trinity Y.P.S. Closing Season

Had Membership of 67—Great Variety to Meetings—Debates, Talks. Banquets, Programmes—Resolution Against War.

The Young People's Society of Trinity United Church have just completed a very successful season and during the summer will meet only once a month. The membership has reached a total of 67 and the average attendance has been around 35. Some interesting features of the meetings have been as follows: A debate, Resolved, "That war is never justified." Those taking part were Reetha Phillips, Elizabeth Armitage, Verner Cook and George Connatty. Edith Cook gave an interesting reading on "Marine Missionaries of Canada." A sleigh drive with supper afterwards, was a very enjoyable event, as was parents' night, when the members entertained their parents. W. J. Truscott gave a talk on "Young People's Problems." Miss Carr, R.N. gave three interesting and instructive talks on first aid. Miss F. Connell gave three readings on the world's great missionaries, Livingstone and Moffat. The Presbyterian Young People were entertained and a fine evening of games and contests was had. An address by Richard Penson, "Technocracy, the next step." Rev. Geo. Kinney was much enjoyed in his moving picture show and lecture. A resolution, which was threshed out in the meeting, was passed. The resolution was as follows: Resolved, "That we believe that war is absolutely unjustifiable and that it is our Christian duty to refuse to bear arms or in any way participate in all future wars." This was sent to the conference at Vancouver and received favorable comment. Miss Frances Knott is to be especially commended for the splendid variety of games and contests she has provided as convener of the entertainment committtee. Albert Avery has proved a splendid president and has had the unqualified support of the executive and convenors of the various committees. To celebrate the holiday and to round out a season of pleasant meetings, the society is going mountain climbing on June 3rd. The first meeting to be held on summer schedule will be on the first Thursday in July.

WORLD HAPPENINGS BRIEFLY TOLD

Canada's net debt (Dominion) was placed at $2,599,089,000 with the annual intresei $121,687,300.

An aluminum observation and sleeping car, will be the Pullman Company's exhibit at the century of progress, Chicago.

Gregory M. Zinovieff, twice expelled from the Communist Party for oppositionist activities against Joseph V. Stalin's leadership has confessed his sins and pleaded for reinstatement.

A payroll increase of $150,000 a month in the Douglas Fir Plywood industry of the United States Pacific Northwest, Portland, Oregon, will be put into effect by July. It will affect 6,000 workers.

Far surpassing the record of boom years, a tremendous tourist invasion of Winnipeg is predicted by Mayor Ralph H. Webb, who has returned from a two weeks' trip to the United States.

King George's gallant old racing yacht, Britannia, has taken to the water for the 40th season. In her long career she has taken part in more than 500 contests, and won more than 20 prizes.

Establishing something like a record in voyages of the preventive service of the Royal Canadian Mounted Police, the customs cruiser, "Adversus," clipped 16 days off her estimated time for a trip from Halifax to Vancouver.

The four big powers of western Europe are "responsible for peace or war in Europe and in the world," Under-Secretary for Foreign Affairs Fulvio Suvich told the Chamber of Deputies at Rome, Italy, in a discussion of Premier Mussolnin's four-power peace pact.

Tobacco is being grown as an experimental crop on the Headingly Provincial Prison Farm, Hon. D. G. McKenzie, Manitoba Minister of Agriculture, announced. If the crop is harvested the tobacco will be given to prisoners for their smoking requirements.

Canadians Like Ice Cream

Total Consumption In Year Over Eight Million Gallons

It is evident from a report issued by the Canadian government bureau of statistics on the ice cream produciton in Canada for 1931 that Canadians have an appetite for ice cream. The total consumption in the year under review was 8,234,272 gallons, an increase of 2,783,138 gallons, compared with the total production in 1921. The 1931 production was valued at $11,161,595. The Canadian government bureau of statistics states that ice cream is an article of food. It possesses all the elements of a real food, being easily digested, palatable and highly nutritive.

The production of ice cream in the Dominion is carried on chiefly by the dairy and confectionery industries.

The per capita consumption of ice cream according to the latest figures is .79 gallons. The provinces showing the highest per capita consumption were Ontario, British Columbia and Nova Scotia with 1.09 .89 and .87 gallons resectively.

A Powerful Generator

Part Of Equipment Of New Laboratory At Cambridge

The wonderful Ludwig Mond Laboratory at Cambridge, just opened, contains an apparatus for splitting the atom on a scale unknown before. It is an electrical generator which will provide a current of tens of thousands of amperes, comparable with the output of the largest of London's power stations. So intense is the current that if it were left flowing for a tenth of a second, the copper of the coil through which it passed would melt. Actually the experiment has to be completed in 1,100th of a second. London Tit-Bits.

Employer: "How would you like to swap jobs with me, Johnnie?"

Office Boy: "All right!"

Employer: "And what would you do first?"

Office Boy: "Fire the office boy!"

Hudson Bay Marine Rate Lowered

New Rates Come At Opportune Time To Give Route a Fair Trial

The Hon. James F. Bryant, K.C., Minister in charge of Insurance, has announced that as a result of prolonged negotiations carried on by the Saskatchewan Government, new and effective Marine Insurance rates in respect to exports to be forwarded by the Hudson Bay Route have been obtained by the Saskatchewan Government.

The new Marine Insurance rates on traffic through Hudson's Bay mean a saving of 33⅓ per cent. on the general Marine Insurance rate into the Bay, quoted last year, and a saving of 20 per cent. on the lowest rate quoted last year for a favorable period by a New York firm of underwriters. Last year the Marine Insurance rate covered a period of seven weeks. Under the new agreement the period of navigation with Marine Insurance has been extended to three months and ten days with provision for a further extension to October 31st at a rate to be quoted.

Taking advantage of the presence in Canada last fall of Lieutenant-Colonel Robert Walker Roylance and Commander Boxford of Lloyds, London, the Hon. James F. Bryant and Arthur E. Fisher, Superintendent of Insurance for Saskatchewan, had a conference with them in Winnipeg and opened up negotiations with Lloyds for a review of the Marine rates into Hudson's Bay. Following this the government submitted a brief to Lloyds and later had an agent of the government carry on negotiations for reduced rates in London.

Following the loss of the "Bright Fan" last year, the Marine Underwriters were nervous about writing marine insurance on the Hudson Bay Route and were at first not disposed to give any concessions until more successful results could be shown, raising the objection that the Hudson Bay Route was subject to the two great dangers to shipping, namely, ice and fog, and that the season was very short. When there has been, up to date, only a few voyages in a season, the underwriters figured that a single casualty might quite likely absorb the whole or more than the whole of the money received by way of premium. Last year the unfortunate loss of the "Bright Fan" more than took away all the cargo premiums received during the season.

The Government of Saskatchewan has succeeded in obtaining a special concession and a special marine agreement. It provides for full insurance irrespective of declarations for not exceeding $500,000 on any on bottom. The Saskatchewan contract of insurance will take care of all shipments of grain, produce and cargo, including refrigerated interests and advances. The contract applies for a period of twelve months from May 1st, and covers cargoes at and from places and ports in Canada to ports and places in Canada, United Kingdom, continent of Europe or world generally. The net rates obtained for the Hudson Bay for the season of 1933, are as follows:

Sailings between 10th of July and 10th of August—1.25 per cent.

Sailings between 10th of August and 10th of October—1.00 per cent.

Sailings between 10th of October and 20th October—1.75 per cent.

Sailings after 20th of October held covered at rates to be arranged.

The Saskatchewan contract of Marine Insurance was effected with the C. T. Bowring & Company Insurance Limited, of London, England, one of the members of Lloyds and one of the largest Marine Insurance writers in the world. In the Bowring syndicate for the purpose of the Hudson Bay Marine Insurance, under the agreement are grouped as underwriters the Royal Exchange Assurance, British Traders Insurance Company, Limited, London Assurance, Sea Insurance Company, Limited, Provincial Insurance Company, Limited or Hull Underwriters Association Limited, Canton Insurance Office Limited, Switzerland General Insurance Company, Limited, Merchants Marine Insurance Company, Limited, General Accident, Fire and Life Assurance Corporation, Federal Insurance Company, Yorkshire Insurance Company, Limited, British Foreign Insurance Company, Limited, the Indemnity Mutual Marine Assurance Company, Limited, The Standard Marine Insurance Company, Limited, and Lloyds Underwriters.

The Marine Assurance agreement obtained by the Saskatchewan Government came at the opportune time to assure a fair trial of the Hudson Bay Route. The rates on hulls and cargoes using Churchill had previously constituted an unnecessary and unjustified handicap against the Hudson Bay Route and imposed a very heavy burden on the trade. In addition to the general attitude of the underwriters occasioned by the loss of the "Bright Fan" last year, the special concessions made by the Federal Government in favor of Port Churchill last year were withdrawn and harbor tolls and dues comparable with other Canadian ports are being established at Churchill for the coming year, and regular tariffs and elevator charges are being established. This tended to make the attraction of shipping and trade over the Hudson Bay Route very difficult in view of the freight tariffs and the apathy of the railways in routing traffic by the Bay Port.

Marine Underwriters have in the past inserted in their Marine Insurance policies a provision which is known as the British North American Warranty clause, whereby the ship is insured under the condition that she will not ply to British North American ports or if she does will be charged an additional premium which varies with the season. This clause has been vigorously contested for many years but still obtains as regards hulls, and cargoes using Canadian ports, except Vancouver and Prince Rupert, and except hulls in case of Halifax and cargoes through St. John. The additional premium for suspension of the North American Warranty in respect of vessels using the Hudson Bay route prior to the present Saskatchewan agreement, only covered entry to Hudson's Straits on and after August 10th and leaving Churchill on or before September 20th. A still further heavy premium was required if vessels enter before or leave after these dates.

The additional insurance premiums, over and above the basal premium, payable on a typical cargo steamer, about 7,500 tons dead weight, using the Hudson Bay Route between August 10th and September 30th, would have been approximately $9,000 based on a ship valuation of £10 per gross ton or £50,000 insurance value. A further extra 10 per cent. additional premium of £5,000 or $24,300, was recently asked by underwriters on the basis of the ship entering the straits one month earlier, that is, on July 10th, arriving at Churchill July 15th and leaving on a date to be agreed. The prohibitive nature of these rates is clearly seen when viewed in their relation to voyage earnings, which in 1932 averaged $25,000 from Churchill, the steamers arriving in ballast. The above charges apply only to the steamers and are paid by the ship owners. Cargo insurance is entirely separate and additional and is paid either by the shipper or consignee.

The new Marine Insurance rates will assist in keeping the port open and cutting down the costs of exports and imports to the Western farmer. It constitutes a long step forward in the direction of securing the maximum use of Churchill as a western Canadian port. The Saskatchewan agreement as to Marine Insurance rates will fix all the rates on the Hudson Bay route for the year.

The Saskatchewan Government recognized the necessity and have appointed a competent and experienced traffic staff who are sympathetic to the Hudson Bay Route to secure the maximum volume of export and import traffic for that route. The action which has been taken in the matter will help to give Western Canada the benefit of stimulated trade as a result of the preference granted at the Ottawa Conference.

Six-Horse Dray Team Sold

Famous Horses Will Be Missed On Winnipeg Streets

Winnipeg's famous six-horse dray team, for years a feature of the Royal Winter Fair at Toronto will be seen no more in Canada, for the entire outfit has been sold by Shea's Brewery to the Anhauser Busch Company of St. Louis, reputed as the largest brewing company in the world.

The price, admittedly tempting, was paid in U.S. funds and the beautiful harness went with the famed equine six-in-hand. The horses were shipped south and "Andy," their well-known driver, went with them to make delivery.

Pat Shea, Sr., the man who came to Winnipeg without a dollar in his pocket 50 years ago as a railroad contractor's laborer, now a feeble old man, made no effort to hide his feelings. There were tears in ris eyes as the six magnificent imported Clydesdales were harnessed and led from their Winnipeg barns for the last time.

In tests of laughing gas during operation on cats in the Royal Veterinary Hospital in London, the tabbies "laughed" as do humans when under the anaesthetic.

The man who is always late to work usually is early at the pay window.

SUNDAY SCHOOL LESSON

JUNE 4

JESUS FACES HIS BETRAYAL AND DENIAL

Golden Text: "He was despised, and rejected of men; a man of sorrows, and acquainted with grief."—Isaiah 53:3.

Lesson: Mark 14:10-72.

Devotional Reading: Psalm 42:6-11.

Explanations and Comments

Preparations For the Paschal Meal, verses 12-16.—Jesus directed the disciples to secure a guest chamber in Jerusalem where they might partake of the Paschal Meal. This they did, and "made ready for the Passover." Their preparations must have included attending to the roasting of the lamb, securing unleavened cakes and bitter herbs and the wine. The room belonged to some friend, not one of the inner group of disciples, and the arrangements were made secretly, for there was danger of Jesus' being arrested before the meal could be shared.

Announcement Concerning the Betrayer, verses 17-21.—After sunset Jesus and The Twelve came to the place appointed for partaking of the Paschal Feast. As they were eating Jesus made a startling announcement,—one of them, one who was eating bread with Him, a table companion, would betray Him. Thus Jesus emphasized the heinousness of the deed, for table companionship involved especially sacred obligations.

"It was the dropping of a Lyddite shell into their midst, destroying the whole atmosphere of peace" (C. R. Brown). One by one they anxiously inquired, "Is it I?" Each could as readily believe himself guilty of so enormous a sin as any other one of the group who had companied with Jesus so closely and so long. The form of the Greek implies a negative answer, as if each one said, "Surely it is not I!" "The foretelling of the crucifixion had left them cold, indifferent or incredulous. The statement that there was an actual traitor amongst them stirred them deeply."

"It is one of The Twelve, he that dippeth with Me in the dish," was Jesus' reply. They did not have knives and forks and spoons, but with their hands dipped the bread into the dish of bitter herbs or a dish containing a mixture of vinegar, spices, dates, figs, etc. Probably there were several dishes on the table, one for each group of three or four, so this reply did not definitely indicate the traitor. To John, Jesus indicated that it was Judas, John 13:26.

"For the Son of man goeth, even as it is written of Him," added Jesus. "This phrase admirably expresses the co-operation of Divine purpose and free human will; and by the woe that follows [Woe unto that man through whom the Son of man is betrayed!] He refutes all who would make of God's foreknowledge an excuse for human sin" (Expositor's Bible). "Good were it for that man if he had not been born." This is a proverbial expression for the most terrible destiny.

In verses 43-46 of this chapter we are told that Judas, as he had agreed with the chief priests and scribes, brought the multitude to Jesus in his retreat in the Garden of Gethsemane and betrayed his Lord to them with a kiss. Matthew 27:3-5 tells Judas' remorse when Jesus was condemned to death, of his bringing the chief priests and elders the thirty pieces of silver, which he had received from them as the price of his deed, and then of his going out and hanging himself.

Had Modest Beginning

Tulip Festival At Holland, Michigan Is Becoming Famous

Developing from a modest beginning four years ago, the Tulip Festival at Holland, Michigan, proves that a profusion of lovely flowers, as well as the manufacture of better mousetraps or the writing of better books, will cause the world to make a beaten path to the place where the desirable things are to be seen. With charactristic diligence and thoroughness, the citizens of Holland have increased the tulip display to a planting of 3,000,000 bulbs, which means a lot of tulips. The Hollanders of Michigan are to be congratulated for their efforts, rewarded last year by the presence of visitors from 19 states and from Canada. The Tulip Festival is already becoming as widely known and as much worth travelling to see as the blossoming of the cherry trees in Washington. Michigan is proud to have within her borders a community with this commendable spirit which has combined Old World customs and remembrances with natural loveliness, beauty and civic enterprise.—Detroit Free Press.

Apples boast a strong power over potatoes. A stream of air passed first over the fruit is said to dwarf the sprouts of the vegetables.

Service Invaluable To Canada

Federal Veterinary Service Protects People By Keeping Animals Healthy

Canada has travelled along serenely without any serious trouble among her flocks and herds of live stock for some time and there has almost been a tendency to complain about the costs of maintaining the Health of Animals Branch which guards the health of our stock. Farmers and city men alike should be deeply thankful that Canada has such a service and that this humble but efficient part of the Dominion Department of Agriculture have had well-thought-out regulations to administer and that through their strict enforcement not only the health of our animals but human health as well has been protected from epidemics of diseases such as have visited less fortunate nations.

If our own people have been slow to recognize the worth of our Federal Veterinary service others have not. In a recent issue of the Scottish Farmer the report of Canada's Veterinary Director-General, Dr. Geo. Hilton, was the subject of favorable comment. References to the outbreaks of foot-and-mouth disease in Great Britain indicated the enlarged costs which such epidemics added to pure bred stock imported into Canada. Quoting our contemporary: "The fact that Canada did not lift the ban on Scottish cattle until a period of five months had elapsed without an outbreak, shows how important it is for this country (Scotland), to maintain a clean bill of health. . . . .

"Foot-and-mouth disease has not yet invaded Canada, and there have been complaints occasionally at the drastic measures adopted to protect the Dominion from the risk of infection; but it is a wise policy not to take risks where foot-and-mouth disease is concerned."

Similar strict regulations govern all dangerous contagious diseases and live stock men are warned under penalty to inform the nearest official should they note any suspicious cases. In this way diseases which might affect live stock over a large area can be promptly checked, and any possible danger to humans be avoided as well. Notable instances of the service rendered the Canadian people as a whole by the Branch are the campaigns against and reduction of tuberculosis in cattle, the practical elimination of dourine in horses, a disease which also affected humans, and the gradual reduction of other animal troubles through constant research into new and better ways of combating them.

Might Be Called Exclusive

Golf Club At Chesterfield Inlet Has Four Members

Perhaps the most exclusive and certainly the most unique golf links in Canada is Hudson's Bay at Chesterfield Inlet. It has a membership of four, consisting of two missionaries, a Hudson Bay Company factor and his assistant.

A life membership in this select gathering of golf enthusiasts may be had at a cost of ten polar bear teeth. Still in the process of building, only three holes have been completed, 400, 250 and 300 yards in length, respectively. They are played three times in succession, par for the nine holes being 36.

The problem of greens has been solved by using hard-packed sand from the beach while the tundra moss makes an excellent fairway. Important on the roster of the club are the caddies—four Eskimo boys, one for each member.

Making Visitors Comfortable

A special order of the Pope requires that the great copper ball at the top of the dome of St. Peter's, which is big enough to hold sixteen people, will be lined with a wood fibre composition to keep it cool. In the hot weather the ball becomes so hot that visitors who climb up to it for the matchless view of Rome are almost stifled.

The total capacity per day of the flour mills of Canada during last year was nearly 112,000 barrels.

British Columbia is the largest silver-producing province in Canada.

CHAPTER XI.—Continued.

Haskell saw that his own real difficulty lay in overcoming Williamson's earlier prejudice and winning his personal liking. That called for shrewd psychology, but on that point he knew he could make Alan Baker look like a stammering farm boy.

The next evening, when Williamson arrived, Haskell first of all took him on an inspection tour of the post. Finished with that, they stopped and talked together on the slope, a little distance from the barracks. A respectful distance behind them Corporal Whipple waited, note paper in hand, ready to scrape and salute if they glanced his way or asked for any figures.

Haskell was elated, he was secretly exultant, at his success so far in "working" his superior officer. Williamson was openly pleased with the inspection. Barracks, cabins, dog teams, canoes, guns—everything was in capital shape.

This auspicious beginning was all well enough, Haskell felt, but his trouble with Baker was the all-crucial thing. It was going to make or break him. The whole outcome depended on Williamson; depended on whether the division commander would believe his story or Baker's. As yet he did not know what Williamson thought. The superintendent had heard a few of the bare facts on his way down the Mackenzie, but he had left headquarters before Baker's buying-out papers had reached there for his signature.

Haskell decided that the old officer had been favorably prepared for the story now; and he led into it gradually, shrewdly. Starting with the Midnight Sun robbery, he gave a detailed account of this last month, down to the hour when Pedneault stole the launch and joined Baker's venture.

"What hurts me the worst, sir," he added, with a consummate show of real sorrow, "is the refusal of these men to co-operate with me or let me help them. Maybe I'm at fault; I don't know. But by way of example, sir, if Corporal Hardsock had told me about needing gas and oil, he could have had every drop at the post. But he wouldn't tell me; he st—I mean, he took it. An Indian brought me word about him waiting at En Traverse Lake for Baker. I figured Baker might need extra supplies or help, so with Whipple I went down there right away. We tried desperately to get in connection with Baker. Even shot signals for him to wait. But he scorned our offer.

"When I got back here," Haskell went on, "I planned to go up the Alooska and take him supplies. I wanted to put everything I had at his disposal. He's the best man-hunter in the country, and I felt he would get those criminals if anybody could. I didn't give a d—n—if you'll pardon me, sir—about him being so hostile to me personally. All I cared about was to help him run down those bandits. If they escape, it will be a blot on the splendid record here at Endurance. But, as I explained, Pedneault told me a lie about some trouble at an Indian camp, and ran off with the launch."

As he watched his superior's reactions, Haskell smiled to himself. His generous praise of an enemy was having its calculated effect. He was doubly damning Baker by praising him. He was gaining Williamson's sympathy, his approbation. He had beaten down the old officer's former prejudice against him ,and had instilled a subtle hostility against Baker and the two deserters.

For moments afterwards Williamson made no comment. Surprised and alarmed at discovering this bad blood here at an important post, the old officer gazed silently down upon the purpling river.

His gray eyes, which through forty years of self-sacrificing service, had looked upon human weakness and hardships and heroisms, were filled with a profound sorrow. What cut him to the quick was this blow at his

What Cut Him to the Quick Was This Blow at His Faith in Alan Baker.

faith in Alan Baker. He had always liked Alan, had trusted him as he trusted few men; and had fought for his promotion. He, who had given forty years of his life to the service at a miserable salary; who with his brother officers of the old guard had unselfishly watched other men of their generationn carve out fortunes in timber, ranches, land and mines in the developing West—he had thought of Baker as of one to carry on that tradition and spirit of loyalty to the Force.

Now, according to Inspector Haskell's account, Baker had quit because his commission last fall had not come. At the beck of a higher salary he had tossed aside loyalty and his invaluable work here in the North. He had made a miserable failure of a patrol, had imbued the other men with insubordination, and then bought out.

Stern and impartial, Williamson could not help feeling that Haskell, though a newcomer and not fully experienced yet, had been fair, and more than fair, in this trouble with Baker and these other men. Baker had certainly had a fearful moral lapse from the man he used to be. Without doubt his failure to get commissioned had set him brooding and had worked a pernicious harm on a once-superlative man.

As he looked thoughtfully at Haskell, Williamson considered it very creditable of him to praise a man who had done him so much injury. And he thought it showed exceptional stuff in the inspector to remain in service, to stick with his hard thankless work here in the North, when he had come into a large inheritance and might be leading a pleasant life in Ottawa. Playing no favorites whatsoever but trying to give every man his just dues, the old officer felt that his former uncharitable opinion of Haskell had been entirely wrong, as wrong and misplaced as his faith in Alan Baker.

Presently, in slow decisive tones, he said: "You did right to demote Baker after that patrol. It was foolhardy of him to split his detail. Constable Younge over there will pay the price of that mistake for the rest of his life. And about those other men, I think the rough sledding you've had with them is easily explained. Baker was in charge before you came; he was rather lax on discipline so long as the work got done. One of the things urged against him when he was up for commission was the fact that he was too familiar with his subordinates. When you came and insisted on stricter discipline, I presume they resented it. The fault is theirs, not yours. I'm backing you to the limit against them and against Baker, too, if he tries to stir up any further trouble."

Haskell drew a deep breath. His story had gone across handsomely. In half an hour of skilful talk he had accomplished more than Baker could match in a month of labor and heavy expense and danger.

* * * * * *

For Alan and Featherof there at MacMillan's trading post after their discovery of the catastrophe, the waiting was the worst of it—the long hour after hour of grim, self-enforced delay.

"We've got to let them get out of timber country into the open Thal-Azzah," Alan spoke to Buzzard, who was looking to his experience and leadership in this fraught crisis. "There we can be sure of sighting their canoes. They'll have no shelter there, when we drop down on them. We'll make ourselves give them a fifteen hour start on us."

It was his cold man-hunting wisdom that spoke; but all his being clamored to start instantly, flinging himself against those men and tearing Joyce away from them before twilight fell.

He forced himself to go up to the trading store and cook a meal, for they had eaten nothing since dawn.

He remembered the little automatic Joyce always carried; remembered the hard bulge of it that time he lifted her down from the window. Knowing her spirited pride, her passionate nature, he had fearfully imagined her choosing a proud escape from her horror. . . . .

When he and Buzzard had forced themselves to eat supper and were putting the things in order again, as though for Joyce to come back and find, they heard a far-away drone miles down the Big Alooska. A breeze whipped the faint sound away for several minutes. When they caught it again, the sound was clear and unmistakable. They once had heard that same low throaty drone approaching across En Traverse Lake to destroy their 'plane and stop their venture.

It's Haskell. He's coming to smash us. He didn't quit with that one attempt. I don't think—even if he knew that you and I are all that stands between Joyce and a horror—I don't think he'd hesitate a second. Buzzard, you stay here. I'm going down to the landing. I don't want you to be involved in—I suppose it'll be called murder.

He went out through the trading hall and down to the landing, and crouched there behind the machine gun. With his hand on the spade grip, training the weapon down river, he waited.

But, as he listened to the launch tearing wide open up the treacherous Alooska, he grew convinced that Whipple never would or could drive it at so demoniac a clip. Frank Pedneault was the man behind that wheel.

Uncertain, in a dilemma, he reasoned: "Haskell might have forced him to make the trip. But Ped would never throw himself into it like that, he'd never risk his life that way, unless it was something he felt like putting all his heart into."

Lifting the binoculars, he focused them on the first bend below. When the launch came tearing into sight and thundered on up toward the post, he saw at a glance that it carried but one man—a man with his hat jammed low on his eyes and a dead pipe in his teeth.

Swinging the launch around in midstream like a toy, Pedneault gently nosed it in beside the 'plane. "Thank Lord, you're here, Alan. . . . . Was afraid you'd be gone—"

"Ped! What are you doing up here? You're on some patrol?"

"Patrol h—l!" Pedneault panted, breathless and excited. "I caught onto your idea. Elizabeth told me about it, too. She's aching for you to win out. Larry and I talked it over. I said, 'By Lord, I'm going, Larry! I'm going to be in on that with Alan and Bill!" So I euchred the launch away from Haskell, pitched off, and streaked for here. Brought you some extra gas if you need any."

Alan was staggered.

(To Be Continued).

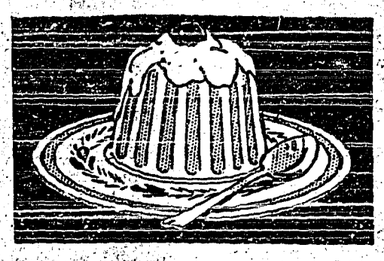
HELP FOR TIRED WIVES

Take Lydia E. Pinkham's Vegetable Compound

Wives get tired during these hard times. They are the ones who must bear the burdens of the family. When the husband comes home with less money in his pay envelope . . . it is the wife who must struggle along and make the best of things.

If you are tired . . . worn out . . . nervous, try Lydia E. Pinkham's Vegetable Compound. What you need is a tonic that will give you the strength to carry on.

98 out of every 100 women who report to us say that they are benefited by this medicine. Buy a bottle from your druggist today . . . and watch the results.



Old Fashioned "Cream Cooking" at the cost of milk!

That's what you get when you use St. Charles. It is not only economical and convenient but it is double rich in cream and gives a delicious cooked-in-cream flavour to every dish you use it for.

Borden's ST. CHARLES MILK
UNSWEETENED EVAPORATED

IT'S LIVER THAT MAKES YOU FEEL SO WRETCHED

Wake up your Liver Bile —No Calomel necessary

For you to feel healthy and happy, your liver must pour two pounds of liquid bile into your bowels, every day. Without that bile, trouble starts. Poor digestion. Slow elimination. Poisons in the body. General wretchedness.

How can you expect to clear up a situation like this completely with mere bowel-moving salts, oil, mineral water, laxative candy or chewing gum, or roughage? They don't wake up your liver.

You need Carter's Little Liver Pills. Purely vegetable. Safe. Quick and sure results. Ask for them by name. Refuse substitutes. 25c. at all druggists.

THE RHYMING OPTIMIST

By Aline Michaelis

DEFINITIONS

Hope is a door which, swinging wide,
Lets glowing sunlight flood inside
The darkened chambers of a life
And shine away its fear and strife.

Love is a veil of rosy hue
Which changes every dreary view,
From barren cliff to desert's face,
Into a fair, enchanted place.

Peace is a clock which ticks away
In changeless rhythm, hour and day;
Untouched by tumult or defeat,
It sounds, insistent, very sweet.

Faith is the key which sets ajar
The gate to where all treasures are,
And he who clasps it in his hand
Holds all of good at his command.

Compassion is the little light
Whose gleam goes dancing through the night,
And only cold and hungry men
Know how it quickens hope again.

Veracity Of Women

World's Greatest Prevaricators Said To Be Men

History's accounts of Captain John Smith being saved by Pocahontas and of Washington's love for veracity — the cherry-tree incident included— are attributed by Dr. A. S. Rosenbach, noted bibliophile, to the imagination of American historians.

"They are, in fact, two of the finest pieces of lying ever invented for the readers of American history," Dr. Rosenbach said in an address before the Pennsylvania Library Association.

Dr. Rosenbach's topic was the "Great Liars in History and Fiction." He said Casanova and Benvenuto Cellini should rank "among the greatest."

"You can count the really great liars on the fingers of one hand — and there's not one woman among them," he declared.

Army tanks make good snow plows, British army post towns found recently after a snowstorm.

Little Helps For This Week

"The Lord shall preserve thy going out and thy coming in from this time forth, and even for evermore."—Psalm 121:8.

Lord Thou hast been our dwelling place in all generations."—Psalm 90: 1.

With grateful hearts the past we own;
The future, all to us unknown,
We to Thy guardian care commit,
And peaceful leave before Thy feet.

We are like to Him with whom there is no past or future, with whom a day is as a thousand years, and a thousand years as one day, when we do our work in the great present, leaving both past and future to Him to whom they are ever present. Fearing nothing because He is in our future as much as He is in our past, and as much and far more than we can feel Him in our present. Partakers thus of the divine nature, resting in that perfect All-in-All in whom our nature is eternal too, we walk without fear, full of hope and courage and strength to do His will, waiting for the endless good which He is always giving as fast as He can get us able to take it in.—G. MacDonald.

Run On Dicken's Works

Boom Created By Circulation War Among London Dailies

The works of Charles Dickens are enjoying what is described as a sudden unprecedented boom in sales in London, the result of a circulation war now being waged on the Fleet Street front among four popular London dailies.

Recently the Laborite Daily Herald had the inspiration to improve its sales by "giving away" 4-guinea sets of Dickens for 11 shillings plus coupons. The response was enormous. Almost immediately three other papers —the Daily Mail, the Daily Express and the News Chronicle—announced simultaneously similar offers for 10 shillings and coupons.

The printing presses are working night and day to cope with the demand for the works of Dickens. It is impossible to estimate accurately the number of copies sold, but it is believed it must run well into the millions. Too bad Dickens is not alive to enjoy and reap the benefits of this boom.—St. Thomas Times-Journal.

Find Grave Of Composer

Long sought by musicians and historians, the grave of Calixa Lavalle, composer of "O Canada," has been discovered in the Mount Benedict Cemetery, Boston, it was announced. Steps are being taken to have the composer's remains transferred to his native land.

THE CRESTON REVIEW

Issued every Friday at Creston, B.C. Subscription: $2.50 a year in advance. $3.00 to U.S. points.

C. F. HAYES, Editor and Owner

CRESTON, B.C., FRIDAY, JUNE 2

HOME BREW

One resident, who is much taken with the idea of the village employing a handyman as outlined in last week's Review, points out that in still another direction the civic employee can be made a little more self-supporting. The new duty would be that of town constable and with his appointment the village would take over the administration of justice and be able to collect all fines levied at the police court on cases emanating from within the corporation boundaries. The idea has merit to it, but set opposite whatever income there will be must be the expense that will be incurred in providing for the unfortunates who are unable to pay their fines, and who may have to be detained in custody for periods too brief to permit the village turniug them over to the province to keep at the Nelson jail. When the cost of fitting up a ba tile, plus the cost of feeding those locally incarcerated, plus the travelling expense of those sent down to Nelson, is all figured up it will likely be found that the village will be better off by leaving the police work as at present.

Another ratepayer points out that should the village try out the handyman proposal and should the appointee find idle time on his hands after looking after the various duties assigned him, his spare moments could be employed to good advantage at Park pavilion, which is very sadly in need of a coat or two of paint—not only to give it an outward appearance more in keeping with the general prosperity of the town itself, but also to lengthen t e life of the structure, which is now almost 14 years old and to date has had no attention whatever in the "Save the surface and save all" direction. Now that the village has finally secured a certificate of indefeasible title to the structure it should lose no time in practising what it preaches to the citizens in the matter of clean up and paint up. And while we are discussing Exhibition Park no harm can come of reminding that if the village wishes to make the property the maximum revenue producer a neat high board fence will be required, on providing which the council could insist on taking a per centage of the revenues collected at sports events of various sorts. With this improvement also in prospect it would look as if the handyman could be kept tolerably busy for at least the first year of his tenure of office.

Along with discarding the tractor and getting back to the old fashioned horse power, rural Canada also appears to be reverting back to the good old days when the average farm household killed a porker or two and smoked or salted them down for use in the warmer weather. This conclusion is drawn from a recent federal health bulletin covering 1932, which states that the per capita consumption of pork last year was 91 pounds and that it was greater than the consumption of all other meats combined, including poultry. Beef consumed was 56 pounds per capita, mutton and lemb about seven pounds. poultry was about 11 pounds. The consumption of pork, mutton, turkey, duck and goose was greater than in the previous year but the use of beef and chicken declined. No did Canadians use s many eggs as in 1931. The per capita c nsumption of hen fruit was 28 dozens.

Human nature seems to be pretty much the same these times—particularly the destructive element. Last week when the village council was endeavoring to put the fear of the law into those grownups and children alike who have been apprehended breaking down the shade trees, the editorial columns of the Miner bore evidence that at Rossland the situation was even worse, and less than a month ago the Cranbrook Courier was stuck for words to adequately express its disgust and voice its threats as to what was coming to the vandals who destroyed the trees at the park playground in the divisional city. Says the Miner "A few years ago the Board of School Trustees caused to be planted around the school grounds a number of small maple trees which were thriving beautifully until the pupils at the school took the matter in hand and began to destrov them. Not only have almost all of the trees been broken, but the neat boxes which had been placed about the trees to protect them have been wrecked."

With the oncoming provincial election not likely to be set for a date earlier than September, another of those appear-in-person chances for voters to register will be available on Monday, June 19th. While this opportunity is quite convenient for persons living in close proximity to Creston, no such advantage accrues to hundreds of voters whose place of domicile is without the Creston Valley, and whose right to register is just as important as those the more fortunately located. If Col. Lister, by coming out as an independent Tory, has not cut himself off from the favors dispensed by the Tolmie administration, it would be a mighty fine thing for the local member to wire Victoria asking that authority be given the local registrar of voters to appoint at least one deputy at each polling place in the Creston riding who will be fully authorized to enroll all qualified persons who appear before them on the third Monday in June. No time should be lost in asking for these wider powers of registration, in order that the news may be broadcast as to who have been appointed for the work.

Saved $4.00 by Buying in Creston

For May accounts we this week supplied a local firm with 2000 duplicate Statement—ruled, punched and perforated, to quote shop talk—at our regular price of **$18.00.**

Previously this customer bought these in Toronto at a price of $21.50, plus express, which would be at least fifty cents, making the total cost not less than **$22.00.**

These are actual figures and the name of the firm can be supplied. And the $21.50 all went out of Creston, never to return—except fifty ceuts the order taker spent for lunch, in his hurry to get on to Cranbrook for the night, and the price of a few gallons of gas.

This is just one sample of several we can quote to demonstrate the luxury, along with poor business ideals, of those who buy from the out-of-town order taker without even giving the Review opportunity to quote prices and submit sompies.

The Review can beat or meet competitors' prices, so what is the object of buying from the outsider who contributes nothing to the upkeep of the community or your business.

THE CRESTON REVIEW
PHONE 1

LETTERS TO THE EDITOR

Explanations in Order

Editor Review:

Sir,—Perhaps when the Board of Trade is of a mind to give explanations they would tell the people of the Valley just how they square the resolutions they passed some years ago, the effect of which were to oppose the building and opening for traffic of the high level highway across the boundary line, with their motto so much emphasized in connection with their proposals to open the port of Rykerts for the import of foreign fruits.

The village council on the contrary evidently bear no such motto since without explanation they decided against implimenting the board's recommendation for the provision of a recognised parking and tie up place for the farmers horse drawn conveyances.

And just in passing, since your editorial page provides such food for thought, and since in is open season now for the slating of all sitting members of the legislature of whatever political stripe, and Col. Lister has recently announced his candidature in the riding as an independent, it might not be irrelevant to remind your readers that the colonel has consistently obtained each session larger votes for this district for public works expenditures than has been done for the majority of the ridings in the province; his motto at least has been the "good of the Valley" as well as being that of other people and organizations.

Local and Personal

"Red" Cranna and Bill Donaldson were motor visitors at Bonners Ferry on Sunday.

Mrs. J. S. Irvine of Fernie was a visitor here a few days this week, a guest of her sister, Mrs. Mallandaine.

Excavation work for Creston's new hospital on East Grandview Heights was commenced at the first of the week.

Mrs. M. York and daughter, Blanche, left on Tuesday on a visit with relatives at Ottawa, and other Ontario points.

RANCH FOR SALE—Small ranch, 3½ acres, partly improved, good location. Mrs. T. M. Edmondson, Creston.

LOST—Opposite King George Hote on road from railway crossing, engineer's field book. Reward. Leave at Review office.

The June meeting of Creston Valley Post Canadian Legion will be held at the schoolhouse at Lister on Tuesday evening, 6th.

Birth—At Kootenay Lake General Hospital, Nelson, on May 25th, to Mr. and Mrs. Frank Garrett (nee LaBelle), of Blake, a daughter.

Creston Tennis Club membership rates are reduced to: Full season, single, $4. Family, 3 or more persons, $10. Monthly, $1 50. Junior, $1.

Creston brass band will give the third of their series of outdoor concerts on Saturday evening. This week they will play in front of the Grand theatre.

Mrs. John Spratt was a weekend visitor with Nelson friends and was present at the nurses' graduation exercises for Kootenay Lake General Hospitay in that city on Saturday night. Her eldest daughter, Miss Dorothea, was one of the graduating class, having just completed the three year course of training.

Erickson

J. Pollock, who has been with Mensinger Motors for some months past, has returned to his home in Fernie.

Mrs. T. Wilson and young daughter arrived on Sunday on a visit with her parents, Mr. and Mrs. J. E. Healey.

Miss Neola Clark is a patient at Creston hospital at present.

Mrs. Adam Mensinger, who has been visiting at Calgary, Alberta, for the past month, returned home on Monday.

Mrs. D. Putnam was a visitor at Bonners Ferry on Tuesday, making the trip with Mr. and Mrs. C. Senesael.

Mrs. T. W. Bundy left on Sunday on a visit with her sister, Mrs. MacDonald, at Summerland.

Mrs. D. W. Dow, who has been at Nelson for some time past, is a visitor at the Bundy home.

Mr. and Mrs. Percy Boffey were Nelson visitors at the first of the week for a few days.

Mr. and Mrs. J. M. Craigie were visitors at Bonners Ferry, Sunday, making the trip by auto.

Wynndel

C. Rudd, who has been here on a visit with his father, has returned to his home in Lewiston, Idaho.

Mr. and Mrs C. B. Twigg of Creston were visitors here last week.

Mr. and Mrs. Ken Dewar and Donald are visitors with Mrs. Dewar's father, John Bathie.

Chas. Moore of Creston was doing some land survey work on the Botts ranch at the first of the week.

Owing to previous booking of dance at Canyon for June 2nd, Wynndel's hospital benefit dance has been postponed.

Mrs. Mason and son, Wilfred, of Kimberley, were Victoria Day visitors here, guests of her daughter, Mrs. W. J. Cooper.

Mrs. A. Rudd, who has been visiting at Montana points, arrived home at the end of the week.

The apple blossom tea at the home of Mrs. P. Hagen on May 24th was a great success, both socially and financially. The weather could not have been better, and dainty tea tables were set beneath the apple trees, then in full bloom. Ice cream was disposed of in quick time, and Mrs. Davidge, as palmist, was well patronized. The intake clear was $6.50.

Wynndel children brought home a number of prizes from the track meet at Creston on Saturday. Isabel Hagen, Lonise Butterfield, Nick Making getting firsts and Dennis Huscroft second in running. Frank Hagen was second in baseball throw. Honors at jumping were taken by E. Hagen, first in broad jump, and Oswald Uri first, high jump.

Alice Siding

Public school principal J. J. Freney is leaving today (Thursday) for Rossland, for the King's Birthday holiday at his home in that town.

Miss Gladys Webster, who teaches at Michel, with a couple of friends, motored in on Wednesday last for Victoria day with her parents, Mr and Mrs. J. H. Wedster.

Chas. Raymond is back from Piapot, Sask., where he has spent the past six weeks at spring work on his farm at that point.

Repairs to the hard surface road between town and the Constable ranch are now complete and the highway is in splendid shape. There is still som work to complete on the ditches and culverts.

All the cattle were rounded up on the flats at the end of the week and have been taken to a point about eight miles south of Yahk for the high waterseason, and will be in charge of Charlie Brixa, as herder. About 300 head were in the drive, and next day another 130 head belonging to Jas. Davis were taken up.

Public school inspector Manning was here on Tuesday on business in connection with the summer Grade 8 examinations. As last year, Principal Freney will preside at Wynndel centre.

Baseball has been introduced at Alice Siding and the talent is working out three nights a week at the pasture field at the E.L.T. Taylor ranch. Harry Webster has been chosen captain, and Harry Ostendorf is lending valuable assistance as coach.

Kitchener

The softball game at Yahk between the Kitchener Pine Katz and the Dumb Doras on Victoria Day was won by Kitchener, the score being 8-7. Batteries were: Pine Katz, Jessie White and Helen Oja and Hazel McGonegal. Yahk, Elaine Baum, and Leia Birch.

The return softball game with Yahk will be played here on Sunday 4th, at 2.30 p.m.

Miss Vivian Langlois spent a few days here last week, leaving for Creston Monday afternoon. She goes to Nelson this week to resume her commercial course at Nelson business college.

A dance was held at the airport on Tuesday last, with a large crowd in attendance. Music was by Geo. Priest, violin; Mrs. Blair, piano, with A. Anderson master of ceremonies.

Pine Katz softball team played Huscroft at Huscroft on Sunday afternoon, Huscroft winning by a 7-6 margin. Batteries were: Kitchener, Margaret Torchia and Hazel McGonegal. Huscroft, Mae Webster and Alice Demchuk.

The Pine Katz softball club are to have a bridge and dance at Hunt's Hall, Friday, June 9th. Cards at 8 p.m. prompt. Gents 35 cents. Ladies 15 cents. Good supper and music.

Lister

A party of about 30 Lister-Huscroft young people spent Victoria Day on a picnic outing at Herman Lake, on the Bonners Ferry-Troy highway, making the trip by the Fred Huscroft truck, and having a successful holiday.

Mr. and Mrs. C. H. Phillips of Kimberley are spending this week at the ranch here.

Mr. and Mrs. A. E. Dent and family were weekend visitors with his brother, near Bonners Ferry, making the trip by democrat.

Both the Lister and Huscroft schools had their athletic talent at Creston for the schools' track meet on Saturday, and thanks are due Jim Helme and Fred Huscroft for providing transportation.

Arthur E. Element, who recently purchased the Priest ranch at Huscroft, was married at Bonners Ferry on Monday to Miss Holloway of Winnipeg, Man, who arrived from the Manitoba capital that morning. They are to make their home at the groom's ranch and heartiest congratulations are extended.

At the schools' track meet at Creston on Saturday Lister pupils were to the fore in the junior events, Erwin Rylan standing tie with a Wynndel pupil for junior championship, while Manning Powers was tied with another Wynndel boy for second highest points. In Minnie and Margared Huscroft the Huscroft school had the senior and intermediate girls champions.

All points in the valley as well as centres in Idaho, were represented in the crowd at the Huscroft recreation grounds on Sunday for a picnic and sports day, the features of which were a baseball game between Lister and Copeland Camp 3, in which Lister won handily 16 to 8, and Lister-Huscroft ladies' softball team nosed out a 7-6 win from Kitchener Pine Katz in a very thrilling contest. In the league baseball game Porthill trimmed Canyon 7-1. There were races for the children and a day of much interest for all, thanks to careful planning and much hard work by a committee headed by K. Demchuk and Harry Yerbury.

Shall Broadcasting Become a Monopoly?

Canadian policy regarding radio broadcasting is a very live subject for discussion and naturally so because the radio has become such an intimate thing in the homes of Canada. It is to the radio that many people, and more especially those in rural parts or where a daily paper is not immediately available, now look to supply them with the correct time, weather forecasts, latest market prices, outstanding news events throughout the world, music for a little dance, religious services, and entertainment of all kinds. It is, therefore, only natural that policies and regulations governing radio broadcasting are of interetst and concern to Canadians as individuals as well as to Canada as a nation.

Following investigation of the subject, a Royal Commission reported unanimously in favor of nationalization of broadcastng in Canada. Later a Parliamentary committee endorsed the policy, and finally, by a non-partizan vote in the House of Commons it was adopted. There was almost complete unity on the subject and Canadians everywhere were prepared to welcome and assist in the development of a great national undertaking and service. That was only a year ago, but that unity has disappeared and dissatisfaction is being voiced by the press, numerous organizations, and individuals everywhere. It is rare indeed to hear of any person who is satisfied. This general dissatisfaction has been aired in Parliament and Premier Bennett has promised further study of the whole subject by a special Parliamentary committee next session in an effort to bring back the old unity that prevailed a year ago.

What caused such a complete change in public opinion in a few months cannot be discussed in detail, but from the very beginning the Radio Commission appointed seems to have had a faculty of antagonizing people and of being too dictatorial. It first inaugurated a series of orchestral and symphony concerts. At first these were appreciated by many, but when no variety in programmes was forthcoming, nothing but symphonies and orchestras from Toronto and Montreal, people who desired something else began to criticize. Then followed a series of restrictive regulations and prohibitions imposed on all stations. But the final act of the Radio Commission which does not appear to have pleased anybody was the alteration of the wave lengths of stations throughout Canada in such a manner as to shut out many of the most popular programmes from United States stations in an apparent effort to compel Canadians to listen to the Canadian Commission's programmes whether they desired to do or not.

The Commission being a national body, and in an official sense Canada being a bi-lingual country, the Commission is perforce required to present programmes in French as well as in English. Thus many of its programmes are quite un-understandable to thousands of people in the Provinces, other than Quebec, and while they do not object to programmes being broadcast for the French-speaking portion of the population, they do resent the action of the Commission in so changing wave lengths that they cannot listen to other programmes. Furthermore, many people feel that these French programmes might well be confined to Quebec and not carried from coast to coast.

Announcement is now made that the Radio Commission proposes to build two high power broadcasting stations, one in Saskatchewan and one in British Columbia, and that with the erection of these stations at a cost of approximately a quarter of a million dollars all present stations will be reduced to 100-watt power, thus reducing them to the status of stations with a range limited to a small local district. The result must be the closing of all such stations because they cannot command the commercial support necessary for their maintenance and operation.

In other words, it is not merely public control of radio broadcasting in Canada,—which the vast majority of people favor,—that is now contemplated, but the creation of a Government monopoly of broadcasting, which is quite a different thing, and a proposal which has aroused strong protest.

What is the intention back of this latest decision? It seems to be stated by W. A. Beynon, M.P. for Moose Jaw, who, in a letter to a radio association, says in part: "If the principle of national broadcasting is going to be carried to its logical conclusion, it means the ultimate wiping out of all small stations. This, it seems to me, is inevitable, and the whole question is—shall we continue the policy of national broadcastng or go back to the individual, privately owned broadcasting stations? That national broadcasting will be more economical there can be no doubt. Whether it will, or will not suit the public better, or even whether it will or will not serve them better is another question."

Here is a question in regard to which the people most concerned,—the listeners-in,—should make their views and wishes known to their local M.P. in order that he may present their views to the Parliamentary committee next session. And in the meantime, it would appear that the proper policy for the Radio Commission to pursue would be to stay their hand in the expenditure of large sums of public money in the erection of new broadcasting stations until that Parliamentary committee conducts its investigations and reports its findings.

The colors of the king of England's racing stable are purple, gold braid, scarlet sleeves and black velvet cap with gold braid.

Many new small factories are being started in Japan.

Tons of gold bullion placed in a secret "war chest" before Japan went off the gold standard are said to exist in Tokyo.

Headaches and Dizzy Spells Nerves In Bad Condition

MILBURN'S HEART AND NERVE PILLS

Mr. Neil Crawford, Hamilton, Ont., writes:—"My nerves were in such bad condition I found it almost impossible to get a good night's sleep.

I was also bothered with headaches and dizzy spells.

I tried many different remedies, but they did not seem to give me much relief, but after I had taken Milburn's Heart and Nerve Pills I could hardly believe the change they had made in my condition."

For sale at all drug and general stores; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

To Salvage Gold

Italian Vessel Engaged In Raising Treasure From Sunken Liner

The Italian salvage ship "Antiglio" has sailed for a final attempt to raise approximately $1,500,000 in gold still in the strong room of the sunken P. and O. liner "Egypt," lying 70 fathoms deep off Point de Raz.

In four previous summers of work the Italian divers recovered $2,500,000 of the total cargo of $5,000,000 in gold and silver which the liner carried from London on her last voyage, May 19, 1922. The "Egypt" sank in 20 minutes after being rammed in a fog by the French freighter "Seine." Of the 44 passengers and 291 crew, 96 lives were lost.

After finishing with the "Egypt," the "Antiglio" probably will be engaged by the Egyptian government to seek gold and other treasure from Napoleon's ships which were sunk by Lord Nelson off Aboukir Bay in 1798.

NOT A PAIN AT 78

She Feels Like 48

Aches and pains are not inevitable in old age. When they do come, there is always a cause for them—a cause that can be overcome. Here is a little lesson on growing old, by a woman of 78:—

"For the last five years I have taken Kruschen Salts and I tell you truthfully I could not live without them. I am 78 years old. I have not a pain in my body, and I feel as young as I did at 48. I give the credit to Kruschen Salts. No one will believe my age."—(Mrs.) C. M.

Most people grow old long before their time because they neglect one vital need of health—the need for internal cleanliness. Eventually they start the healthy Kruschen habit. Then, probably for the first time in their lives, they start getting rid every day of all waste matter from the system. And almost immediately they feel their youth has returned; they feel energetic and happy. In a word, they've got that famous "Kruschen Feeling."

Earned Gratitude Of Indian Mohammedans

Lord Lothian Arranged Return Of Valued Robe To India

Lord Lothian, former Under Secretary of State for India, has earned the undying gratitude of numbers of Indian Mohammedans by arranging for the return to India of a holy robe on which is inscribed the whole of the Koran. The Koran is the highly reverenced Mohammedan Bible. The robe was taken away from India at the time of the mutiny of 1857. It has remained in England in the hands of a noble family. Through Lord Lothian's intervention the owner has made a gift of it to the Muslim University of Aligarh, where the robe has been placed in a prominent position in a showcase and is venerated by the faithful. Little is known about the history of the robe.

Child Prodigies Banned From French Stage

Any Under Thirteen Are Not Allowed To Appear

France has definitely banned child prodigies from the stage. Legally no one under thirteen is allowed to appear, but special licenses have been issued. The Cabinet has decided that no more of these will be given. Children working for the films are included, and many child stars are affected. The decision followed the receipt of reports by the Ministries of Health and Public Education that children on the stage are made to work long hours without sufficient time for study.

The Prairie Crop Acreage

Two-Third Of Field Crop Acreage Of Canada In Three Western Provinces

Over two-thirds of the field crop acreage of Canada is concentrated in the three prairie provinces, and most of this area is seeded to the grain crops, with wheat predominant. Roughly speaking, the specialized wheat areas cover the southern short grass plains from the Red River Valley of Manitoba to the foothills of Alberta and attain their greatest width in central Saskatchewan.

The nearest neighbor of the Hawaiian Islands is California, 2,000 miles away.

Plan Long Flight

New York To Bagdad Is Aim Of British Fliers

Some time this summer James A. and Mrs. Amy Mollison, famous British husband-and-wife aviators, will hop from Roosevelt Field, New York, on an attempt to set up a new long-distance record by flying non-stop to Bagdad or beyond.

If they make Bagdad they will have beaten by some 700 miles the record of 5,340 miles established in February of this year by the British airmen, Nicoletts and Gayford, when they flew from England to South Africa.

Roosevelt Field was chosen by the Mollisons as the starting point for their first dual aerial adventure because it is the only suitable airport having a concrete runway.

The laden weight of their machine will be such that experts have advised the flying couple that there is no aerodrome in England having sufficient length and firmness for taking off purposes.

Their machine, now in process of construction in England, will be shipped in parts to New York and will be re-assembled at Roosevelt Field. It is a twin-engined monoplane of the De-Havilland "Dragon" type, and would normally accommodate six passengers, pilot and baggage.

Three vast cylindrical tanks, placed so close together that they resemble the boiler of a giant locomotive behind the pilot's seat, replace the passenger's seats.

Only one pilot's seat is provided in the forward cockpit, with just enough elbow room for the Mollisons to change over the controls of the air. There is a hatchway only one foot in height to enable them to crawl from the cockpit, underneath the tanks, to a tiny cabin in the tail of the machine.

The gasoline capacity will enable the machine to fly up to 6,000 miles in average conditions. With a tail-wind during parts of the journey the 8,000-mile limit should be exceeded.

Other details regarding the machine and its equipment are being kept secret, but it is not believed that the aeroplane will carry radio.

Records Carefully Kept

Plenty Of Documents About Hudson's Bay Company Trading Posts

"Never has the frontier life of any country been as carefully recorded and as thoroughly documented as the journals of the fur trade posts of the Hudson's Bay Company in Canada," said Dounglas MacKay, speaking to the Kinsmen's Club of Montreal.

"Under the terms of the original royal charter, London as the head office of the Hudson's Bay Company, remains the repository for all the company's archives, and the gathering of these from the posts and outposts a few years ago resulted in an accumulation of nearly six tons of documents," Mr. MacKay declared. The work of organizing and cataloguing this material has been proceeding under the direction of the company's archivist in London.

At the present time, this vast quantity of historical documents, which is in reality the richest source of material of western and northern Canadian history, is in better shape for the use of accredited historians than ever before.

Within His Rights

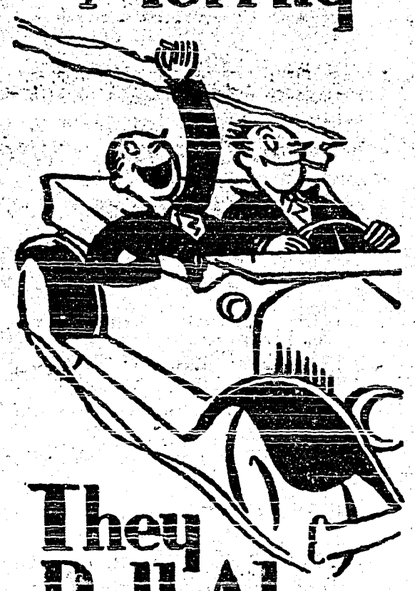
Man Considered Dead By Courts Objects To Paying Income Tax

How can a man who is officially dead be made to pay an income tax? That is what Jean Baptiste Arnaux, fifty-seven-year-old roadman of Maubeuge, France, may ask the courts. He served through the World War, but when he applied for papers to prove that he was an ex-service man, he was told that the records showed that he had died when he was only a few days old. He appealed, unsuccessfully, to the courts, and is now considering refusing to pay his tax on the ground that dead men cannot be taxed.

A Heavy Responsibility

The city council of Chicago, by resolution, has given Alderman John Coughlin, the Beau Brumell and dean of that body, the sole responsibility of designating the date when Chicagoans may put on their straw hats.

Merrily



They Roll Along

No wonder they're merry—rolling their own with Ogden's Fine Cut. It's so easy to roll a smoother, more satisfying cigarette with this fragrant cigarette tobacco.

... And they're using "Chantecler" papers, of course. Ogden's Fine Cut and "Chantecler"—that, Sir, is the finest combination any man can use for rolling a really better cigarette.

Your Pipe Knows Ogden's Cut Plug

Modern Home In Sweden

Disabled Poor Will Have Every Care and Comfort

Sweden is completing constructions of its new home for the disabled poor at Nynashamn, near Stockholm, and it is declared to be the most modern in Europe. Latest equipment for curing rheumatism, nerve diseases, asthma, and other afflictions has been installed by the State Pension Board. Five experienced physicians and a large staff of assistants and nurses will be in charge of the medical work. The new home has several hundred rooms and wards, laboratory, terraces and galleries for sunbaths and a well-equipped gymnasium. There is also a large assembly hall for lectures, stage performances and movies. Success at rehabilitating the disabled penniless has been encouraging in Sweden, as about 60 per cent. of the patients treated have regained ability to earn their own living.

The office bachelor says the difference between an animated doll and a modern girl is that the latter doesn't holler "Mamma" when squeezed.

Nearly 1,000 new manufacturing plants were opened in Osaka Japan, in the last year.

HAMILTON, ONTARIO

ACCEPTANCE OF TITLES IN CANADA IS OPEN QUESTION

Ottawa, Ont.—Premier R. B. Bennett declined to say there would be no titles granted to Canadians until parliament had considered the broad question of the acceptance of honors from the king. Titles could be granted by the king, Rt. Hon. Mackenzie King, Liberal Leader, was told, without the consent or approval of parliaments or ministers. It was the considered view of the government the Nickel anti-titles resolution of 1919 no longer restrained Canadians from accepting titles.

The short incident ended in a verbal clash between the two party leaders. "I do not wish," said Mr. King, "to deprive the Prime Minister of being made a life peer, if that is the intention of his majesty, but all I would ask him is that before a title of that kind is accepted by himself or anyone else, an opportunity be given this parliament to express its views with respect to titles in this country."

"I suppose I should say," replied the Prime Minister, "that if the Liberal Leader thinks he has added to the courtesies of debate, or established for himself any firmer position in the regard and esteem of the people of the country by the observations he has just made in answer to an explanation with respect to the limitation of the prerogative of the crown, then I am content."

"I am content, also," retorted Mr. King, "if the Prime Minister thinks his lecture will improve the amenities of parliament. What I said was perfectly reasonable in the circumstances. It was a remark which was understood by members of the House and which will be understood by the country in the spirit in which it was meant."

"Hear, hear," agreed the Prime Minister, turning to other considerations.

Although no reference was made to it in the House, parliamentary corridors soon buzzed with rumors concerning the king's birthday list of honors. It was agreed nothing stood in the way of a Canadian being tendered and accepting a title in the June list from London or, unless parliament took some action in the meantime, the New Year's list.

The whole question of titles will likely be introduced anew in the House next session, but whether this will be before or after the New Year is uncertain.

Lord Wemyss Dies

Was Great Grandson Of King William IV.

Cannes, France.—Admiral of the fleet, Lord Wester Wemyss, great grandson of William IV., third cousin of King George, first and last baron of his name, who signed the armistice for Great Britain, died at his villa here at the age of 69.

Rosslyn Erskine Wemyss, made a baron in 1919, joined the navy in 1877 and gained fame as commander of the squadron which landed troops in Gallipoli in April, 1915, only to withdraw them the following winter.

As chief of naval staff and chief naval adviser at the Paris Peace Conference of 1919 he won high praise for settlement of naval terms.

Economic Council Advocated

Ottawa, Ont.—Establishment of an economic council in Canada, to comprise half a dozen men of outstanding ability, was advocated before the Canadian Political Science Association here. It should be a "thought organization," and one of its chief functions would be to advise governments on economic and social questions.

Liquor Exports Illegal

Ottawa, Ont.—Exportation of liquor to the United States even for medicinal purposes is prohibited under existing regulations, states the department of national revenues. At phesent no beverage beyond 3.2 alcoholic content can be granted clearance to the republic, officials said.

W. N. U. 1996

Ramsay MacDonald Criticized

Viscount Snowden Makes Scathing Attack On Former Colleague

London, Eng.—Viscount Snowden, of Ickornshaw, made a scathing attack on Prime Minister Ramsay MacDonald, his former National Government cabinet colleague, in the House of Lords.

"I would suggest that the government should look into the case of the Prime Minister, not only in his own interests, but in the interest of the country," Lord Snowden said, "for it is a positive danger to the country that its affairs should be in the hands of a man who, every time he speaks, exposes his ignorance or incapacity."

The viscount, for years a colleague of Mr. MacDonald in the Labor Department, declared the Prime Minister might better have saved time and expense than to have gone to Washington for President Roosevelt's economic discussions.

"There were no results," Lord Snowden said, "except a repetition of the platitudes which we have heard scores of times in connection with the forthcoming conference."

The speech was made in the course of a debate on British policy at the world economic conference opening June 12.

World Traveller

Journalist Has Praise For the West Coast Of Canada

Montreal, Que.—Near the end of a journey which has afforded him many adventures, John A. Clift, journalist, formerly of Ottawa, now residing in London, is in Montreal on his way home after a trip around the world. Mr. Clift has brought books of notes about Stromboli in partial eruption; about a weird midnight funeral procession of a low-caste Hindu in Bombay; painted natives fishing sharks in the waters of Fiji, and chasing the emu in the wheat fields of Australia.

The cost of living had fallen considerably in Australia, New Zealand and the South Sea Islands, and many people who formerly wintered in the south of France are crossing the equator and enjoying the summer weather of the antipodes, he added.

Of all the sights the traveller saw in his long journey, none was more striking or more impressive than that of the coast-line of Vancouver Island, British Columbia, and the State of Washington with snow-capped mountains in the background.

Oxford Group

Large Number Of "Changed" Canadians Gathering At Quebec City

Ottawa, Ont.—While members of the Oxford Group team, led by Dr. Frank D. Buchman, are in Ottawa for the next few days, trains from as far west as Vancouver are speeding eastward with special carloads of "changed" Canadians to attend the final session to be held in Quebec City from May 26 to June 5.

Dr. Buchman said that the experience of the team in North America since its arrival last fall has been truly remarkable.

Time To Fight Grasshoppers

Winnipeg, Man.—The Manitoba Department of Agriculture opened its campaign against the grasshopper menace by shipping three tank railway cars of poisoned bait into southern Manitoba. Hatching of eggs has been halted by rains but entomologists believe the time is ripe to strike the first blow.

Russia Plans To Attend

Moscow, Russia.—The Soviet government has formally announced its intention to participate in the London economic conference by making public the names of its delegates. Foreign Commissar Oaxim Litvinoff, as was expected, was appointed chairman of the delegation.

Believe France Will Default

Paris, France.—Belief that France will default on her debt payment due to the United States June 15 seems to have approached certainty in quarters close to the government. The amount of the French instalment due for payment June 15 $40,738,000.

H.B.C. SCOUT

A lucky Canadian scout is King's Scout Eric Liddell of Vancouver, who has been selected by the Hudson's Bay Company to go with its supply ship "Nascopie" into the Arctic this summer, to pay a fraternal visit to English and Scottish Rover Scout apprentices at H.B.C. posts.

Big Housing Campaign

Move To Clean Up Slum Conditions In England

London, Eng.—The government fired the opening shot of a gigantic housing campaign when the ministry of health issued circulars to all housing authorities and county councils in England and Wales calling on them to co-operative in a five-year slum-clearance plan and in providing cheap-rent houses for working men.

The policy is one government circles believe will open a new era in housing. It marks a sharp departure from the government subsidy schemes which have been in operation for two decades. Except in limited cases the subsidies will be terminated and the field thrown open to the private builder.

Under the plan money will be provided largely by building societies. These societies, whose fund consist mainly of savings of small investors, now can lend only on first mortgages up to 70 per cent. of the value of the mortgaged property. They will be empowered to lend up to 90 per cent. of the value, and the government and local authorities together will guarantee any building society against any loss on the additional 20 per cent.

Well-Known Sea Captain

Follemer, 65, one of the best known

Vancouver, B.C.—Captain Gustave sea captains and pilots on the British Columbia coast and Arctic waters, died in hospital here after a month's illness. Catain Follemer was in the service of the Hudson's Bay company and commanded the famous Arctic ship "Lady Kindersley" when that vessel was abandoned in the Arctic ocean late in the summer of 1924.

Game Law Changes

Seek More Uniformity In Western Canada Regulations

Edmonton, Alta.—Important changes in the game laws of the prairie provinces are in prospect by the respective governments shortly. As a result of the conference in Edmonton between the Alberta, Saskatchewan and Manitoba game commissioners last week, recommendations will be made to their respective ministers, with a likelihood of approval and early adoption.

Uniformity in the fur tax is one of the chief points involved in the prospective changes. The game commissioners are agreed that there should be the same rate for this tax in the three provinces and that there should also be full co-operation in its collection. New regulations under the act, embodying this change, if finally approved, will be issued early in July.

Agreement has also been reached for a uniform rate on bird and big game licenses. In the case of Alberta, it is understood, only slight changes will be involved.

General approval of a system of leased areas for trapping purposes was expressed by the game experts, who agreed that such a system would be in the interests of conservation. The question will be investigated during the year, with a view to gathering information leading up to possible legislation at the next sessions of the legislatures.

Purchase Russian Railway

Japanese Approve Plan To Acquire Railway In Manchuria

Tokyo, Japan.—The cabinet has approved procedure proposed for the purchase from Soviet Russia of the Chinese Eastern Railway in Manchuria.

Three steps were suggested:

1. The state of Manchukuo is to negotiate the purchase under Japan's guidance, fixing the amount and the terms of payment.

2. Because of doubts concerning Russia's clear title to ownership, Manchukuo is to buy merely a transfer of the undoubted control of the railway by the Soviet.

3. Manchukuo is to purchase various mining and timber concessions held by Russia in connection with the Chinese Eastern, thus eliminating Soviet influence in north Manchuria.

The sale negotiations are authoritatively expected to open shortly in Tokyo.

University Is Sued

Calgary, Alta.—The court of appeal has reserved judgment in the $30,000 Sirrell estate case, in which seven residents of England are suing the University of Alberta. The plaintiffs claim they are rightful heirs to the estate, which was handed over to the university when authorities were unable to locate relatives of Henry Sirrell after the latter had died intestate at Del Monte, Alta.

UNITED STATES DELEGATES TO WORLD PARLEY

Here are the three delegates selected by President Roosevelt to represent the United States at the World Economic Conference to be held in London this month, when the nations of the earth will endeavour to formulate plans for pulling the world out of the morass of depression. At the left is Cordell Hull, Secretary of State; right is James M. Cox, of Ohio, who was the Democratic nominee for the Presidency in 1920, and in the centre is Senator Key Pittman of Nevada.

FRANCE BRINGS NEW PROBLEM TO WORLD COURT

Geneva.—France brought a new problem before the disarmament conference, when Foreign Minister Joseph Paul-Boncour opposed the destruction of heavy war material and advocated its preservation for use by the League of Nations against an aggressor.

Destruction of heavy war material is provided for in the British plan which is supported by the United States, Italy and Germany, as well as by its authors.

Thus did the foreign minister of France revive and give new emphasis to the old Tardieu scheme for the internationalization of heavy mobile guns, tanks and other offensive weapons.

A German spokesman, commenting afterwards, said that M. Paul-Boncour's announcement meant France no longer accepts the British project, for which she has signed acceptance.

M. Paul-Boncour explained to the conference that the powers which are committed to give financial help to the country which is victim of an aggression would avoid waste by turning over war materials to the League instead of having them manufactured anew by or for the state attacked.

The French minister flatly announced that France would not reduce her armaments unless a definite system of mutual assistance is created, supplemented by genuine supervision of armaments.

The supervision, he said, must especially cover armaments which are manufactured in private factories.

Preferred List

Many Prominent Men In List Of Customers Of J. P. Morgan and Company

Washington.—The names of men high in public and business life were put into the record of a senate committee in the presentation of a list of preferred customers of J. P. Morgan and Company.

Among them were William H. Woodin, now secretary of the United States treasury; William Gibbs McAdoo, Charles Francis Adams, Owen J. Roberts, John R. Nutt, John J. Raskob and Newton D. Baker. None of them was in public office, however, at the times they were recorded as having been sold stock by the Morgan Company at preferred prices.

As list after list of prominent men were put into the record, the imperturbable head of the company, J. P. Morgan, told the committee, under questioning, that he had paid income taxes in England for the years of 1931 and 1932. He previously had testified that because of financial losses, he did not pay taxes in the United States for those years.

Under the British laws, losses of capital generally cannot be deducted from income taxes returned in Great Britain. Such losses may be deducted under the United States laws.

Woman Lawyer

Newfoundland Judge Gives Welcome To Woman Practitioner

St. John's, Nfld.—Miss Louise Saunders, the first woman lawyer to practice in Newfoundland courts, was welcomed by Central District Court Judge F. J. Morris, K.C., when she appeared on behalf of a client in a civil action.

In congratulating her on her success attained in her examinations and in wishing her an extensive practice Judge Morris said that under modern conditions it was not too much to hope that she would attain the "woolsack," the chief justiceship.

Patrol Boat Makes Seizure

Victoria, B.C.—Making her first seizure since her arrival here from the east coast, the Royal Canadian Mounted Police patrol boat "Adversus" picked up the Vancouver gasboat "Aldeen" Sunday with 135 cases of Canadian liquor on board.

Local and Personal

Mrs. Jas. Cook is spending a few days with friends in Sirdar this week

TOMATO PLANTS—For sale quantity choice tomato plants. R. Stewart & Son (Alice Siding), Creston.

Col. and Mrs. Mallandaine and their guest Mrs. Irvine of Fernie, were Spokane visitors a couple of days at the first of the week, returning on Tuesday.

The Woman's Auxiliary of Christ Church announce a Jig Saw Tea at the Parish Hall, Saturday June 3rd. 3 to 5 p.m Tea served. Prizes given. Admission 25 cents.

Mrs. Howard Allan, and son, James, who have been visiting with her parents, Mr. and Mrs. Jas. Cherrington, left for their home at Trail at the first of the week.

Rev. Jas. Youngson of Nelson, who took the services in the Presbyterian Church on Sunday, was a guest of Mr. and Mrs. W. H. Watcher during his stay in Creston

Mr. and Mrs. F. C. Rodgers, Mrs. E. Archibald and Mrs. F. V. Staples were motor visitors to Invermere for a few days at the first of the week, returning on Wednesday.

The Cranbrook Courier announces that Rev. T. Scott of Grand Forks, a former rector of Christ Church, Creston, is to be married to Miss Betty Green of that town, on June 6th.

The June meeting of Creston and District Women's Institute will be at the home of Mrs. W. H. Crawford, Friday, 9th, at 3 p.m. A thrift needlework competition has been arranged.

Mr. and Mrs. R. M. Chandler and Mr. and Mrs. A. Weir were visitors at Bonners Ferry on Sunday for the big musical movie success, "42nd Street," showing at the Rex theatre at the week-end.

Mr. and Mrs. Osborne Brown, who have spent the past five months at their home on Grandview Heights, left on Tuesday for Calgary, Alberta, where they will make their home for the next few months.

Mr. and Mrs. J. D. Farris were at Bonners Ferry on Thursday for the closing exercises at the high school in that town. Their daughter, Edna, was in the graduating class in 1933, being one of the 27 to complete the course this year.

At their meeting Thursday night last the K.P.'s struck the committees to handle the children's Dominion Day celebration on July 1st, which is to be bigger and better than 1935. Sports will be in evidence all day, and a dance at night.

Congratulations are being extended Mr. and Mrs. R. Thomson, Cloverdale, on the araival of a daughter on May 22nd They were former popular residents of Creston, Mr. Thomson being on the sales staff at Creston Drug & Book Store.

Wives of returned men and ex-war nurses are reminded of the meeting on Thursday afternoon next, at 3 o'clock, at the Legion Hall in the Mallandain block at which Mrs. McDonald of Revelstoke will speak and a Legion Woman's Auxiliary organized.

The schools' track meet on Saturday was highly successful and the athletic field at the high school was found adequate for the good conduct of the sports. The event is to be staged under new auspices in future and the meeting to complete organization of a new association will be held June 10th.

W. McL. Cooper, manager of Creston Co-Operative Fruit Exchange, got away on Monday on a visit to the wholesale centres of Alberta and Saskatchewan. There has been the usual brisk demand for Creston asparagus this year, but rhubarb prices are too low to yield any profit at all on the local crop.

Hearty congratulations are this week extended Miss Dorothea, eldest daughter of Mr. and Mrs. John Spratt, on successfully completing her three year course in nursing at Kootenay Lake General Hospital, Nelson. The graduating exercises were on Saturday night and with 82 marks ranked second in theory and practise.

The pupils of Mrs. J. E. Johnston have their annual recital and entertainment at the Parish Hall, Friday, evening, June 9th, with an admission of 35 cents. The features will be piano solos and duetts, character songs, elocution numbers and folk singing by senior girls. After expenses are paid proceeds will be donated Creston hospital.

W. Ramsay, district engineer, and his assistant, P. W. Dalgas, of Nelson, were here at the first of the week, making an inspection of the highway east of town prior to the taking over of the single unemployed men by the Dominion government at June 1st. They were accompanied by Col. McDonald and Maj. Harcourt, representing the federal authorities.

The feature of the May meeting of Wild Rose Lodge Knights of Pythias on Thursday evening last was the election of officers for the final six month of 1933, when the following were elected:

C.C.—Fred Hagen.
V.C.—F. J. Hale.
Prelate—A S. Reed.
M. of W.—Will Rodgers.
K.R.S.—J. Romano.
M. of F.—W G. Hendy.
M. of E.—A. E. French.
M. at A.—E. C. Clark.
I.G.—Fred Menhinick.
O.G.—D Butterfield.

The old officers will be in charge until the end of June, the new ones being due for installation at the first meeting in July.

J. B. Munro, deputy minister of agriculture and superintendent of Farmers' Institute, is to address the meeting at the Parish Hall on Tuesday next, June 6th. Mr. Munro is attending the district conventions in the Kootenays and has accepted an invitation to meet local farmers. He has a great deal to do with the drafting of legislation dealing with agricultural problems. After his address the meeting will be open for discussion, and any suggestions for the improvement of farming conditions, will be welcome. Chas. Moore will give an interesting talk on the practical side of placer mining. He has working models of sluice boxes and rockers, and also samples, all of which were used in the series of lectures delivered in Nelson recently. Admission is free. Meeting commences at 8 p.m. prompt.
