VOL. XXIV — CRESTON, B. C., FRIDAY, SEPTEMBER 15, 1933 — No. 25

Council Donates $100 Swim Pool

This Amount Frees Pool of all Debt—Much Correspondence re Pole Line License—Discuss Street and Road Improvements

Reeve McFarland and Councillor Henderson handled the business of the September meeting of the village council Monday night, Councillor Jackson being at Nelson on council business in connection with the sitting of the royal commission on municipal finances. The feature of the meeting was the voting of $100 to clear off the remaining debt on the community swimming pool.

Most of the correspondence had to do with an expected application from West Kootenay Power & Light Company to erect a pole line along Canyon street. The provincial inspector of electrical equipment wrote asking what the council was going to do about it, and in similar terms was a letter from the deputy minister of public works who, in addition, pointed out that the department was interested in that particular highway and must be consulted before any permission is given or withheld. Creston Electric Company was also heard from with another letter pointing out that under the Village Act the council had sole power to grant licenses to erect pole lines, and as Creston Electric was already giving the village a fine electric service it expected the council to live up to its agreement to keep out unnecessary opposition. Nothing will be done in the matter until the West Kootenay makes a formal application.

There was a letter and financial statement from the swimming pool committee showing a debt of $101.30 and asking for a grant to wipe this out. The statement showed that the pool had cost $1290, but $260 of this had been taken care of by voluntary labor, and $929 had been paid in cash, leaving the unpaid balance $101. Full detail was furnished as to money spent on labor, materials, etc., as well as the material and labor donated.

Including the grant to the pool, the September accounts passed for payment totalled $494, in which was $83 for lumber which has been used for sidewalks and the bill for sidewalk construction formed the month's big labor expenditure.

Trouble is being encountered in collecting some of the trade licenses, but no action was taken A special meeting may be called to lay out the fall campaign of s reet and road improvements, one of which will be the putting of Creston Avenue road in first-class shape, now the new hospital is about ready for opening.

Canyon City

Miss F. Knott left at the first of the week for Vancouver, where she has secured a position and will be residing permanently.

With sunny weather prevailing since the first of the week the Canyon haymakers are losing no time in putting up all the available feed on their cuts on the flats at Creston.

Fred Bond has taken on the work of supervising the harvest of the fruit crop at the H. Langston (Martin) ranch at Erickson.

at TWO p.m.

Come and see this wonderful labor saver. Bring a few pieces of ironing along.

BEATTY BROS., Limited

Manufacturers of

Ironers, Washers, Vaccums, Floor Polishers

The Kootenay Telephone Company has just completed the placing of about two miles of new poles in the Canyon district.

The Ladies' Hospital Auxiliary have booked the evening of Friday, October 27th, for a hallowe'en masquerade dance at the community hall.

Work is being rushed on the erection of the power house at Goat Rivey canyon by West Kootenay Power & Light Company, some of the men who had been working on house wiring having been called in to take care of wiring work at the power station.

Canyon orchardists who ship through the Exchang received orders to commence picking McIntosh Reds on Wednesday to fill an order of the household grade. The last of the Wealthys are also being picked and will be available for export.

Sray dogs have brought grief to Tom Hickey. All summer he has had a young deer running about the yard as tame as a kitten, but it was killed by dogs that strayed on to the ranch at an early hour one morning the past week.

Wynndel

A. Cory of Medicine Hat, Alberta, was renewing acquaintances in the district last week.

Mr. and Mrs. J. Fierntio and family of Cranbrook are holidaying here, guests of Mrs. Fierntino's parents, Mr. and Mrs. J. Benedetti.

Miss H. Andestad was a Nelson visitor a few days last week.

Miss E. Towson, who has been visiting in Winnipeg, Man., returned home on Saturday.

Rev. A. and Mrs. Walker of Creston were visitors here on Thursday for a meeting of the Ladies' Aid, which was held at the home of Mrs. J. G. Abbott.

Rev. M. T. C. Percival, the Kimberley-Creston Anglican rector, was visiting in the district on Friday and was here for service on Sunday afternoon. Announcement was made that next month's service would be the annual harvest festival.

Next week's attraction is the W.I. fall fair at the community hall Wednesday, September 20th, with children's sports, bran tud, hot dogs, afternoon tea, etc. Don't miss it.

Two more pupils have been added to the roll of the junior school room, making the number of new beginners nine—the largest number enrolled at one time in the school's history.

A disastrous accident happened on Friday evening to R. Koch, who resides on the Pat Downey ranch. He was returning from Creston with a load of feed and a mower, and when coming down the school hill one of the horses fell, nd on getting up started a runaway. Mr. Koch, who was helping the fallen horse to get on its feet, was knocked down and run over by the quite heavy load. The democrat was wrecked, feed scattered, and one of the team broke its leg while crossing the track at the station and had to be shot. The team was owned by J Patalla.

Kitchener

Mr.and Mrs.Frank Hueson and daughter, Sheila, left last week on a visit at Alberta points.

Mr. and Mrs. Wm Slean and son, Billy, of Corbin, arrived on Thursday on a visit at the home of the latter's parents, Mr. and Mrs. N. P. Molander.

Mrs. Alfred Howard left on Thursday on a visit at Cranbrook, returning on Saturday by bus.

Mrs. Gordon McPhail and daughter, Nadine, left on Saturday for Blewett, where Gordon is teaching school, and where they will reside.

Master Jackie Cavanaugh left on Tuesday for his home at Kimberley, after an extended visit with his aunt, Mrs. B. Johnson.

Alex. Ellis, who has been on two weeks' vacation at Vancouver, where he was visiting relatives, returned last week.

Kitchener public school opened for the fall term on September 5th, with Miss Jessie White again in charge as principal. 18 pupils are enrolled, which includes one new beginner.

Rev. F. G. M. Story of the Full Gospel Tabernable, Creaton, held service in Kitchener schoolhouse on Sunday morning. It was an interestrng and helpful service. A number of fine choruses were sung wall rolls being used,besides the hymns. The first part of the service was for the children and the latter part for the older folk Mr. Story's theme was Gentile world supremacy, ending in disaster, and succeeded by Christ's Messanic reign upon the earth. The subject was illustrated with a life size painting of the Nebuchadnezzar image, and also by another large colored Dispensational Chart of the Course of Time from the birth of Christ unto th end. Services will be continued every Sunday morning at 10.30, with Mr. Story continuing his addresses on prophesy themes.

Big Entry List Wynndel Fair

Big Display in All Departments Assured—Entertainment Provided—Brass Band in Attendance—Opens 2 p.m., Sept. 20

Given suitable weather, everything now indicates that Wynndel's annual fall fair on Wednesday, September 20th. will be still bigger and better than the eminently successful exhibition of 1932. Entries already to hand are most encouraging, and some of them as far away as from Fernie, and closing date not till Monday, September 18th, at 10.30 p.m., with all exhibits to be placed by 10 p.m., Tuesday, 19th.

The fair will be staged at Wynndel's community hall, with doors to open to the public at 2 p.m., Wednesday, 20th. The official opening address will be made by Col. Mallandaine of Creston. Creston brass band will furnish music throughout the afternoon, and the school ports, in charge of Doug. Butterfield, will start at 4 p.m. Admission to the fair will be 25 cents to non-exhibitors.

In the hall special interest will attach to the display of heirlooms, as well as the freaks on nature, along with which will go an excellent display of indian work, which will be in charge of Mrs. T. Dunseath. Mrs. W. Fraser of Creston has consented to take charge of the school children's section, and fortune telling by a new and efficient palmist will be a special attraction.

The linen chest, which is on raffle, will be on display, and a refreshment booth handling and providing everything in that line including candy and hot dogs will be in competent hands, with which will go the old reliable bran tub.

The fair is sponsored by Wynndel Women's Institute and is directly in charge of the directors, Mrs. F. C. Robinson, Mrs. O. H. Davidge, Mrs. E. Uri, Mrs. E. Hackett, Miss Flo. Wood, with Miss Olga Hagen as secretary.

In 1932 the fair enjoyed an entry of over 600 and this is sure to be exceeded this year, assuring a wonderful display of the best in the culinary and canning arts, in needlecraft, as well as the products of field, garden and orchard, to say nothing of a poultry department that has been enlarged over last year

This will be the only regulation fall fair Creston valley will have this year and will, undoubtedly, attract a large attendance.

Sirdar

The water guage at Slough bridge stands at 4.35. This is a drop of .70 for the week.

The Workmen's Meat Market were here this week for another shipment of beef, transporting same by truck to Trail.

Clifford Neil of Kuskanook and F. Hamilton of Kootenay Landing were visitors at Creston on Saturday.

D'Arcy Scott of Calgary, who has been the guest of Sydney Rogers for the past week, returned home on Saturday.

Pat McDonald of Cranbrook was a Sunday visitor with Mr. and Mrs. T. Rogers.

M sses Rose and Annie Pascuzzo, and Mr. G. McDonald of Vancouver, were visiting at the home of Mr. and Mrs. G. MacKenzie, Creston, on Tuesday of last week.

Mrs. W. Mitchell of Trail, who has been spending the summer here, the guest of her brother-in-law and sister, Mr. and Mrs. James Pascuzzo, left for Regina on Sunday.

A carload of coal from Lethbridge has just been taken delivery of by Sirdar residents. Clarence Wilson of Wynndel has charge of the hauling from the car to the homes.

Miss Margaret Rogers has returned from Grand Forks, where she has spent the past three weeks, the guest of Miss Nettie McCabe.

Charles and Gwen Wilson were visitors at the home of Mr. and Mrs. J. E. VanAckeren, Canyon, on Sunday.

What might have proved a very serious accident was narrowly averted when an auto left the road just west of the quarry siding. Fortunately it turnad over and landed right side up, the passengers all escaping injuries.

Misses Margaret and Daisy Rogers were visitors at Creston Saturday evening, attending the show. The latter, who is attending high school in Crestnn, spent the weekend at her home here.

The Misses Rutledge of Fort William, Ontario, who have spent the past six weeks, guests of their uncle and aunt, Mr. and Mrs. C. Neil of Kaskanook, returned home last week.

Haymaking, which commenced last Monday, came to a sudden standstill owing to heavy rains. Unfortunately hay already cut will become useless, and will curtail available supply. The haymakers are anxiously waiting advent of good weather to renew their efforts at harvesting.

Hunters are preparing for the opening of the season in erecting blinds on the flats. It is reported that while geese are plentiful, grouse and ducks are not so numerous as in former years, although it is possible an influx of ducks may take place previous to the opening of the season.

Lister

Alf. Kokott is the only Listerits helping with haying operations on the flats at Creston. He is helping J. W, Dow put up his usual cut.

Mrs. Thos. Walls of Sandpoint arrived this week on a visit at the home of Col. and Mrs. Lister.

A. W. Sinclair finished his 1933 honey harvest at the end of August. The severe winter is responsible for a yield quite a bit lighter than last season.

The Oliver (Langston), Yerbury and Jacks ranches are on the Wealthy apple marketing list this week, but will complete picking before the week is out.

Mrs. Bamford of Erickson was here this week on a visit with Mr. and Mrs. John Bird.

Rev. C. Basse of Creston was here on Sunday afternoon for Lutheran Church service at the schoolhouse.

Commencing with last Sunday the Church of England Sunday school resumed after a holiday during July and August.

Ernest Stevens arrived from Trail at the first of the week, and will be taking a three weeks' vacation this month.

The softball girls are having a dance at the schoolhouse next Friday night, 22nd, with Canyon orchestra music.

Douglas McKee and Frank Dodgson have filled their contract for a supply of 27 ricks of wood for the Lister school.

Rev. M. Percival, the Kimberley-Creston Anglican rector had a fine turnout and a uicely decorated schoolroom for the harvest thanksgiving service on Sunday morning. At the service the youngest son of Mr. and Mrs. Charles Huscroft was christened—William Roger.

Alice Siding

R. Alderson arrived from Turner Valley, Alberta, at the end of the week, to help with the orchard harvest at the Hosmer ranch.

Mrs. Hamilton of Calgary, Alberta, who has been here for a few weeks with her son, Cecil, left for home on Tuesday.

The haymakers made great headway on the flats cut of feed the first three days of the week, but yesterday's very heavy rains has halted operations.

Several from here have been taken on at the Exchange packing house at Creston, including Mrs. McDonald, Nora Miller, Everard Constable, F. W. Ash and Will Miller.

Public school inspector Manning of Cranbrook was here at the middle of last week on important school business.

Mr. and Mrs. Murray of Penticton spent the weekend here, guests of the latter's parents, Mr. and Mrs. A. A. J. Collis, leaving later to visit Mr. Murray's parents in Alberta.

Gordon Stace Smith was with a party from Creston high school in charge of O. Sostad, who spent Saturday and Sunday at the forestry lookout at the head of Thrmpson Creek.

Ronald Gibbs of Penticton is a visitor here and at Creston this week, a guest of his uncle and aunt, Mr. and Mrs, F. W. Ash.

Blasting operations are in full swing at the gooseneck diversion on the main highway, and the intention is to have it open for traffic before the month is out.

Tom Mountford of Wynndel, the United Front party candidate in the provincial election election, was calling on some of the electors here the past week.

Move to Nelson

Mr. and Mrs. W. H. Fortin left on Tuesday for Nelson where they will be residing temporarily. Mr. Fortin has been local manager for the Shell Oil Company at Creston for the past three years, and in business and athletic circles enjoyed a wide popularity in which Mrs. Fortin, nee Josephine Pederson, shared equally, and both will certainly be missed from Creston. A company of their friends tendered them a sendoff party at the Fortin home on Saturday evening and as a souvenir of their stay in Creston "Babe" was presented with a sterling silver cocktail mixer.

Swim Events at Flower Show

Institute Flower Show, Sept. 23, to Feature Water Sports—A Splendid Display of Blooms is Prospect—Refreshment Booth

The September meeting of Creston and Di trict Women's Institute, on Friday afternoon, at the h me of Mrs. R. Stevens, attracted a fine turnout, with much enthusiasm manifest in connection with the Institute's flower show and school fair to be held September 23rd. The president, Mrs. C. F. Hayes, was in charge and most of the session was taken up with arranging details of the fall fair.

Following the removal from Creston of Mrs. (Dr.) Warren, vice-president, it was announced that Mrs. Mallandaine had been named to fill the vacancy. No news had as yet been received as to the success of the Institute's needlework exhibit at Vancouver exhibition. Mrs. Stevens and Mrs. W. Fraser undertook to arrange a tea when the goods return from the coast so that everyone may have an opportunity to see the work that was on exhibit.

The attention of the gathering was directed to the fact that there are 2397 Women's Institutes and 275 Saskatchewan homemaker's clubs, with a membership of 71,000 joined up with the Federated Women's Institutes of Canada.

In connection with the fair on the 23rd Mrs. Fraser consented to take charge of the school children's section, and it was decided to hold water sports for the youngsters at the swimming pool and a live committee of men has been secured to look after this feature. In connection with the fair it was reported a generous cash response had been made to the canvass for prize money.

Committees were named to handle the fair, at which the institute will operate a tea room, and all members are asked to provide refreshments for the tea. At the close tea was served by Mrs. W. H. Crawford and Mrs. M. Ross.

Women's Institute

FLOWER SHOW

and SCHOOL FAIR

will be held in

Park Pavilion, Creston

Sat., Sept. 23

at 2.30 p.m.

Exhibitors who are not members of the Institute will be charged a fee of 50 cents to cover all entries.

An exhibitor may not enter more than two exhibits in any one class.

Exhibits in the Flower Show must be in the hall before noon on September 23rd.

Exhibits in the School Fair must be in the hall between 3 and 5 p.m., on September 22nd.

Class.

1. Pansies, collection.
2. Single Nasturtiums, collection.
3. Sweet Peas, collection.
4. Asters, 6 blooms, ass rted.
5. California Poppy, vase.
6. Poppy, any othervariety.
7. Petunia, collection.
8. Marigolds, 6 blooms.
9. Roses, 3 blooms.
10. Pinks, 6 sprays, assorted.
11. Snapdragon, 3 stalks.
12. Galardius, 6 blooms.
13. Carnations, 6 sprays.
14. Verbenas, collection.
15. Schizanthus, collection.
16. Phlox Drummondi, collection.
17. Ziunia, 3 blooms, assorted.
18. Stocks, collection.
19. Best arranged flowers for table decoration.
20. Scabius, collection.
21. Salpiglosus, ollection.
22. Cosmos, collection.
23. Gladioli, 3 stalks, assorted.
24. Chrysanthemums, 3 sprays, assorted.
25. Da lia, 3 blooms, assorted.
26. Any other variety of flowers.

HOUSE PLANTS

27. Geranium.
28. Begonia, non-tuberous.
29. Begonia, tuberous.
30. Fern.
31. Primula.
32. Any other variety house plant.

SPECIAL PRIZES

33. Single flower in bud, vase.
34. Best single entry.

Exhibitors must provide plain glass containers for their own exhibits, except Class 19.

ENTRIES will be received by the Secretary, Mrs. Charles Murrell, up to September 21.

WORLD HAPPENINGS BRIEFLY TOLD

First silver to be flown out from Great Bear Lake was valued at approximately $4,000. It was flown out to Edmonton by Pilot John Bythell.

Ocean-borne traffic at the five ports of the Kwantung Leased Territory in Manchuria in the first seven months of this year was greater than in the same period of 1931 and 1930.

The whole village of Capelan, a small Portuguese fishing community near Ponta Dalgada, was enriched recently when 100 pounds of ambergris were found in the carcass of a whale which stranded on the beach.

Dr. Hugo Eckener has concluded an agreement with the Brazilian Government for all-year Zeppelin service between Europe and Brazil. Brazil agreed to erect suitable housing facilities for the airship.

William Cody Bradford, 60, a nephew of Colonel William F. (Buffalo Bill) Cody, shot himself to death at his home in Casper, Wyoming. He was believed to have been despondent because of ill health.

The U.S. Government is considering asking the next session of congress for authority to negotiate commercial treaties embodying reciprocal tariff concessions, particularly with Canada and Latin-America countries.

Hubert Scott-Paine will make a second and determined effort to wrest the Harmsworth speed-boat trophy from Gar Wood, American title-holder, in 1934. A definite statement to this effect came from the British pilot in Sarnia.

Kitsilano Boys' Band, fresh from its world triumph at the Chicago World's Fair, was welcomed home to Vancouver by thousands of persons and massed bands gathered at the railway station. Later they were officially welcomed at the Canada Pacific exhibition.

International Highway Practically Completed

Attractive Scenic Route From Peace River District To San Diego

A new international tourist highway connecting Canada and the United States is practically completed and will be known chiefly under the name of the Sunshine Highway. This highway, the only international project of its size east of the Rocky Mountains, connects Alberta's extensive highway system with that of the States of Montana, Nevada and California, making an attractive scenic route along the eastern side of the Rockies from the Peace River District in Northern Alberta to San Diego, California, on the south, a distance of more than 2,500 miles.

Announcement of the completion of the new route was given at the Sunshine Trail Convention recently held in Lethbridge, Alberta. That stretch of the new highway running through Alberta, from the United States-Canadian border southwest of Lethbridge to the Peace River, a distance of 725 miles, has been completed for some time. Montana is now engaged in completing the last link of the highway in that State.

For the larger portion of the distance this highway is an all-weather route, being gravelled in Alberta to 50 miles north of the city of Edmonton, about 420 miles. The route through Mntana, which is Highway No. 91 of that state, is all-weather road the entire distance. From Salt Lake City north to Peace River is a distance of over 1,600 miles.

The new highway gives easy access to the Rocky Mountain resorts of Montana and Alberta by connecting all-weather roads.

Australia's New Currency

Water-Mark Shows Head Of Prince Of Wales

The head of the Prince of Wales, in profile, is one of the innovations introduced in the new currency notes shortly to be put into circulation in Australia. The prince's head will replace the commonwealth coat-of-arms water-mark. When held up to the light the features of the heir to the throne will be seen facing those of the King.

Another change is that the promise to pay in gold has been deleted.

Clock Made Many Trips

Timepiece Of Pacific Liner Now In Radio Room At Regina

A clock which made 262 trips across the Pacific Ocean to China on the old "Empress of Japan," and which for the past 11 years has been lying in an office in Vancouver now adorns the radio operating room of CKCK, Regina, Saskatchewan.

Some 12 years ago, Bert Hooper, engineer of CKCK, but then wireless operator on the staff of the Canadian Marconi Company, was placed on board the "Empress" by his company as operator in charge of the ship's wireless system.

Mr. Hooper had then been with the Marconi Company some six years and was aboard the "Empress" for nearly two years.

When the "Empress" was sold and dismantled records and some of the equipment was taken ashore and placed in the Vancouver office of the Marconi Company.

Some weeks ago Mr. Hooper visited the coast and called upon his old chief, L. S. Hawkins, superintendent of the Pacific Coast Division of the Canadian Marconi Company.

Before leaving he was presented with the timepiece which hung in the wireless operating room of the "Empress."

Recipes For This Week

(By Betty Barclay)

RIPE GRAPE JAM

4½ cups (2¼ lbs.) prepared fruit.
7 cups (3 lbs.) sugar.
½ bottle fruit pectin.

To prepare fruit, slip skins from about 3 pounds fully ripe grapes. Simmer pulp, covered, 5 minutes. Remove seeds by sieving. Chop or grind skins and add to pulp. Add ½ cup water and if desired, grated rind of 1 orange. Stir until mixture boils. Simmer, covered, 30 minutes. (Wild grapes, Malagas and other tight-skinned grapes may be stemmed, crushed whole, simmered with ½ cup water 30 minutes, sieved, and then measured. With tight-skinned grapes add juice of 1 lemon to water. Use 4 cups prepared fruit.)

Measure sugar and prepared fruit into large kettle, mix well, and bring to a full rolling boil over hottest fire. Stir constantly before and while boiling. Boil hard 1 minute. Remove from fire and stir in bottled fruit pectin. Pour quickly. Paraffin hot jam at once. Makes about 11 glasses (6 fluid ounces each).

FRUIT RAISIN SALAD
(Serves 6)

Lettuce.
6 oranges.
¾ cup seeded raisins.

Arrange shredded lettuce on individual salad plates. Peel and slice oranges and arrange in circles on lettuce. Fill center of circle with raisins which have been steamed until plump. Serve with Sweet French dressing or with orange juice mixed with equal parts of honey or jelly.

Modern Wireless Station

Erected On Site Where Marconi Made Earliest Experiments

Signor Guglielmo Marconi is "extremely gratified" to know a modern wireless station has been erected on Signal Hill, site of his earliest experiments in trans-Atlantic wireless telegraphy.

Following the opening of the new Signal Hill Station, the inventor of the wireless telegraphed Premier F. C. Alderdice as follows: "I recollect with keenest pleasure my associations with your country and the generous support given me by its government during my earliest tests with trans-Atlantic wireless communication, and am extremely gratified to know that on the very site where those tests were carried out, a modern station is now installed embodying latest developments."

Reverence For Ancestors

Though Quong Lee, believed to be the world's first Chinese telephone subscriber, is long since dead, his name is listed in the new San Francisco telephone directory. It has appeared regularly for 55 years, and telephone company officials said they presumed Quong's sons and grandsons continue to have his name listed because of the Chinese reverence for ancestors.

SUNDAY SCHOOL LESSON

SEPTEMBER 17

SOLOMON

Golden Text: "Enter into His gates with thanksgiving. And into His courts with praise."—Psalm 100:4.

Lesson: 1 Kings, Chapters 5-8.

Devotional Reading: Psalm 100.

Explanations and Comments

The Great Procession With The Ark And The Tabernacle, Chapter 8:1-5.—It was during the Feast of Tabernacles, which began on the fifteenth of the seventh month and lasted seven days (Leviticus 23:34), that the elders of Israel and all the heads of the tribes brought up the ark of the covenant out of the city of David, which is Zion. "Both the House of Commons and the House of Lords were present, as we would put it, for 'the elders' were the chosen representatives of the people, and 'the princes of the fathers' houses' were the hereditary leaders. In addition, there was a vast attendance of the rank and file."—R. C. Gillie. Two processions advanced from different directions. One came from Gibeon and bore the sacred tabernacle with its goats'-hair covering and boards of acacia wood, and all its holy vessels—the brazen altar, the golden candlesticks, the table of showbread, and the brazen serpent. On Mount Zion this procession joined the other which bore the ark away from its temporary tent erected for it in Jerusalem by David. As the two processions proceeded to the temple, Solomon and a great congregation with him sacrificed a host of sheep and oxen. The road (such was the traditional picture preserved by Josephus) was flooded with streams of blood. The air was darkened and scented with the clouds of incense; the songs and dances were unintermittent. Onward the procession moved up the slope of the hill. It entered court after court of the temple. It reached the 'Holy Place'."—Stanley. By this lavish slaughter Solomon was honoring God in the best way known in those days. It was a primitive method of saying that king and people set no limits to the honor they would show Jehovah.

The Contents Of The Ark, Chapter 8:10.—There was nothing in the Ark save the two tables of stone. Hebrews 9:4 speaks also of a golden pot holding manna, and Aaron's rod that budded, but the next verse adds, "of which things we cannot now speak severally." Hebrews is here incorrect, or else the pot and rod were once in the ark and were lost during its sojourn among the Philistines. The tables of the law in the Ark were a constant reminder that God's promises to be with His people depended on their keeping His laws.

"If a man love Me, he will keep My word," said Christ, "and my Father will love him, and We will come unto him and make our abode with him." The indwelling of the Spirit in our human temples depends upon our obedience to Christ's words.

Indian Wants Gold Teeth

Joe Dillon, full-blooded Slavey Indian, is coming south of Fort Smith, N.W.T., for the first time in his life. He is bound for San Francisco on holiday after selling a big silver claim for $33,000, and his first act will be to get a set of gold teeth for himself and his squaw. Their teeth are all right, but what's the use of having $33,000 if you can't let the world know about it?" Joe said.

Some men boast that they can't be fooled twice in the same way, but there are lots of other ways

Labrador Huskies Ready For Byrd Expedition

About Fifty Wolf-Dogs Have Been Carefully Selected

Labrador huskies will work hand in hand with aeroplanes during the next Byrd expedition to "Little America," starting from Boston, October 1.

The expedition will last two years, with the S.S. Pacific Fir (8,000 tons) and the barquentine "Bear of Oakland," as the supply ships. Two or three aeroplanes are to be taken along, to augment those used in the last expedition by the United States explorer, as well as something like 50 magnificent specimens of Labrador and Quebec husky, or wolf-dog.

Some 45 of these malemutes have been sent to Wonalancet, New Hampshire, which is where rear Admiral Byrd selected his first batch of dogs for the Antarctic. Arthur Walden, veteran dog racing man, makes his home in the New England city, and it was Walden's leader, Baldy, who accompanied Byrd on all expeditions until the day when, getting old and feeble, he walked out into the icy cold, and was never seen again.

The canines were loaded at Quebec into a huge truck, each of them crated, and sent off to Wonalancet.

With plans for the expedition, which will be one of scientific research, under way for the last two years, or more, nothing is being left to chance, and the same careful selection was made of dogs as of members of the expedition.

According to plans, the expedition will get under way Oct. 1, after the S.S. Pacific Fir has been re-christened, and will steam out of Boston harbor, to make its way along the Panama Canal, through that waterway, and into the Pacific Ocean, then heading for New Zealand, which will be where they will leave civilization behind.

Geological and meteorological studies will be carried out, as well as oceanographical researches, which the expedition will also delve into the cosmic ray. They expect to return with priceless information.

Real Globe-Trotter

Eighty-Year-Old Woman Making Fortieth Trip Around World

Mrs. Jane Lee of Kansas City, eighty-year-old woman with snow-white hair, has just stopped in Paris again on her annual trip around the world. She has been making this trip for forty years, for she says she doesn't like to stay in one place.

Mrs. Lee knows the Yukon, has sailed to the Antarctic Circle and this year is doing a thorough job of the Balkans.

Advance In Television

Berlin's big radio show registers marked advances in television. New devices increase picture transmission from the old limit of 90 lines to 180 lines on a 15 by 15 centimeter surface, with almost perfect results. In transmitting 25 pictures per second 1,000,000 points are flashed off. It is this speed and closeness that give excellent reproductions.

Occasional Wife

by EDNA DOBB WEBSTER
Author of "JORETTA," "LIPSTICK GIRL" etc.

SYNOPSIS

Camilla Hoyt, young and beautiful, falls in love with Peter Anson, fellow student in an art school. She is the adopted daughter of a wealthy family, and he is a poor, struggling sculptor. On their first date Peter spends most of his money to show Camilla a good time, and then decides he must give her up because he cannot stand the financial pace. A chance meeting, however, paves the way for another date. This time they walk in the park. Camilla tells Peter that she is not rich; or, at least, will not inherit the Hoyt fortune. Peter in turn confesses he is practically penniless. They fall into each other's arms.

(Now Go On With The Story.)

CHAPTER VIII.

When Camilla and Peter had gratified the weeks of their longing for love of each other with incoherent words and repeated kisses, Peter held her off and exclaimed, "To think how near I came to losing you! And I should have, if you had not told me the truth!"

"That was why I dared to tell you, because I had to. And at the same time, I was sure that when I did it would be the end. There is no explaining the way things happen, is there?"

Peter was silent for a minute, then turned aside from her suddenly and exclaimed, "But, Camilla, don't you see, dear—your not being Miss Hoyt makes it all the more impossible for you to love me."

"What do you mean, Peter" alarmed.

"Because I have no money, either. I can't take care of you—oh, for years—perhaps never. Mrs. Hoyt is right—you must find someone to love who has plenty of money to take care of you."

"But didn't I just tell you that I was preparing to take care of myself?"

"Oh—that! For awhile—yes. But you must think of your future."

"That is just what I am thinking of—what my future would be without love."

"Surely, there is someone you could care about who has money and influences that will give you the happiness you deserve." He did not sound very convincing but he was trying to be generous.

"There is no one in the world who can make me happy, except you, Peter." She pressed her head close on his shoulder like a forlorn child seeking protection.

"Precious! Camilla, you make me wild. If only I could make you happy!"

"You can if you love me enough," softly.

"Love you! I love you too much! But I can't take care of you for ever so long, and perhaps I never could give you what you have had."

"Will you stop saying that, Peter?" she demanded severely. "I don't want the things I have had—ever. I want you—oh, Peter, darling, I love you so! Don't send me away from you." Her hands reached up and clasped around his neck. Her lips lifted to his. Peter took them, eagerly, lost to all practical reasoning.

They murmured together. "I won't, darling, I promise. We'll find a way."

Presently, it was Camilla who drew away suddenly and exclaimed, "Why, Peter, it is you who should marry a girl with a fortune, so you can be free to study and work without worrying about money. That would mean everything to you. I'm sorry I forgot your side of it, Peter dear, I'll go away and take care of myself and find someone else." Now it was Camilla who tried to be cheerful and convincing and generous.

Peter drew her close with an indulgent laugh. "You precious little goose! What should I have to work for if I lost you? Having you would be my surest chance of success, Camilla. With you for my inspiration, the sky's the limit for me. We shall dream and work together, you and I. There are dreams in your eyes, that promise me so much, darling. How we shall live, together!"

"You are sweet!" she told him, timidly caressing his face.

"But I haven't told you all about me, dear. I have no family here, except some older brothers and sisters who are married and involved in their own affairs. I lost my mother and dad when I was only a kid, and I lived with my oldest sister until I could take care of myself. I wasn't very old when I started on my own."

"Such a brave little fellow you must have been! Why should I be afraid that you can't take care of me some day, then?"

"Well, that's different. I get along somehow on very little. You are sure you don't mind that I came to America in the steerage class and my mother wore a shawl over her head?"

"Why, Peter Anson! Why should I mind that? So did my mother come to America with a shawl over her head and suffer the bewilderment and fears of Ellis Island.

"What's the difference ,anyway," she continued, "just a few generations? We all came from across the Atlantic, yet the first arrivals scorn the later ones. Because they beat us to it, I suppose. But as soon as the biggest high-hats have prospered with freedom and the democracy that they never practice, they go back where they come from. They 'go abroad' to exploit their wealth to the poor relatives they left behind, to buy continental culture, to absorb the genius of great foreign masters or revel in the historical grandeur of the old world. Even you believe that to complete your education, you must go abroad. Then why are you ashamed to have come from there?"

"You are marvelous!" Peter, declared solemnly.

"So are you! Do you know what you reminded me of the first time I saw you?"

"'Aye tank aye go home'?" he laughed.

Her finger tapped his cheek with gentle reproof. "Of course not! Will you stop being ridiculous? You always make me think of Viking ships and brave adventurers in search of conquest and new lands. You are like your beautiful, brave country. Your hair is like the gold of the sun that never sets in that long northern summer, your strength is like the rugged cliffs of the coastline, your eyes are like the sparkling blue ice of the stern winters."

He chuckled with joy at her delightful fancy. "Do I still remind you of an iceberg since I've kissed you?"

"No, I've changed my mind about your being an relation to ice. You must be the fire of the northern lights, the son of Aurora Borealis," she bantered.

"Just for that, I'll burn you up," he warned her, kissing her again. He held her away to exult in her beauty. "Shall I tell you what you remind me of?"

"Please do! I hope it is something very nice."

"Everything nice—of sunny southern skies and brilliant flowers, intoxicating fragrance and sparkling blue waters, of glamorous tropical moonlight and music and gay laughter."

"I hope I always shall remind you of such lovely things, Peter."

"Happy, dearest?"

"So happy. I shall never be unhappy again."

"Or blue?"

"Nor blue!"

After awhile, he said, "But we haven't planned for the future at all. There is so much to decide. Everything is different now."

"Peter," she said severely, "if you let our love change your plans and ambitions the least bit, I shall be very unhappy."

"But I didn't have you in those plans. Now I have you and want to fit you into them from the beginning."

"Please tell me just what you had planned to do before you found me." Her tone was as matter-of-fact as if they were only new business partners.

"But that is the past—before I found you," Peter objected.

"Tell me, anyway," she insisted.

"Why, there was nothing very definite accept that I was going to work very hard and sacrifice everything to succeed. I had planned to enter something in the National exhibit next fall to compete for the Paris scholarship. On the long chance that I won it, I hoped to make enough to pay my expenses over there by doing anything I could — just as I've worked my way through National. Perhaps a guide or interpreter. I know French pretty well—and Swedish and Scandinavian."

"I have Spanish and French and some Italian," Camilla added. "We might start a foreign language school."

"Or build a tower of Babel."

"We'll let the children do that," she reminded him, slyly.

"There you are! Now the children come into the picture. And you say I needn't change my plans."

"Oh, but that's a long time from now—when you are rich and famous, when your figures decorate the cities of the world."

"Why, I'll be so old then—" they laughed together.

Camilla said presently, "Forgetting all that now, you must promise me, Peter, to go right on with your work as you had planned before. If you don't, I shall go away and never see you again."

"You couldn't!"

"I shall if you let me hurt your work. I love you too much to hurt you like that."

"So much that you could leave me if you believed it would be better?"

"Yes, Peter."

"Oh, my dear!" his voice held awe. "But you are to remember that losing you would hurt me now more than anything else that could possibly happen to me. Shall we both go on with our plans as we had made them, for awhile, just seeing each other when we can, then?"

"Not going to the Majestic and the Maddox. Oh, Peter, that was terrible. You must let me pay you back the money you spent that night."

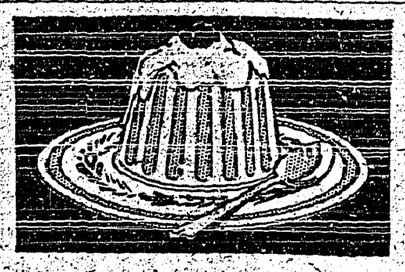
"Don't say that, dear. If I always have as much pleasure from the money I spend as that gave, I'll get enough from life. Please don't mention it again."

"All right. But you must not spend your money on me again. We can walk and talk together in the park often, and have little picnics this summer when you are not too busy."

So they planned confidentially, as only lovers who know little of the caprices of life may dare; for to them the future always beckons along a straight shining road.

(To Be Continued.)

"Do I Still Remind You Of An Iceberg?"



Old Fashioned "Cream Cooking" at the cost of milk!

That's what you get when you use St. Charles. It is not only economical and convenient but it is double-rich in cream and gives a delicious cooked-in-cream flavour to every dish you use it for. B24

WEAK WOMEN

Take Lydia E. Pinkham's Vegetable Compound

Have you ever felt that you were too weak to do anything . . . that you did not have the strength to do your work?

Women who are weak and run-down should take a tonic such as Lydia E. Pinkham's Vegetable Compound. Headaches and backaches that are the result of a tired, run-down condition often yield to this marvelous medicine.

98 out of every 100 women who report to us say that they are benefited by this medicine. Buy a bottle from your druggist today . . . and watch the results.

W. N. U. 2037

THAT DEPRESSED FEELING IS LARGELY LIVER

Wake up your Liver Bile —Without Calomel

You are "feeling punk" simply because your liver isn't pouring its daily two pounds of liquid bile into your bowels. Digestion and elimination are both hampered, and your entire system is being poisoned.

What you need is a liver stimulant. Something that goes farther than salts, mineral water, oil, laxative candy or chewing gum or roughage which only move the bowels—ignoring the real cause of trouble, your liver.

Take Carter's Little Liver Pills. Purely vegetable. No harsh calomel (mercury). Safe. Sure. Ask for them by name. Refuse substitutes. 25c. at all druggists. 33

THE RHYMING OPTIMIST

By Aline Michaelis

HOW FRAIL IS BEAUTY

How frail a thing is beauty
To touch the heart-strings so!
The swirl of dancing shadows,
The willows bending low.
The jade and emerald water,
The far-flung, breaking wave;
How frail a thing is beauty,
That yet a life can save!

O, beauty let me clasp you
And hold you close always,
Walk with me in the splendour
Of morning's golden haze;
Reveal your still reflection
Upon the sleeping lake
And greet me with the twilight
When starry hosts awake!

A gleam, a hint a promise
A sunset's fleeting gold;
How frail a thing is beauty
That yet a life can mold!

A Strange Illusion

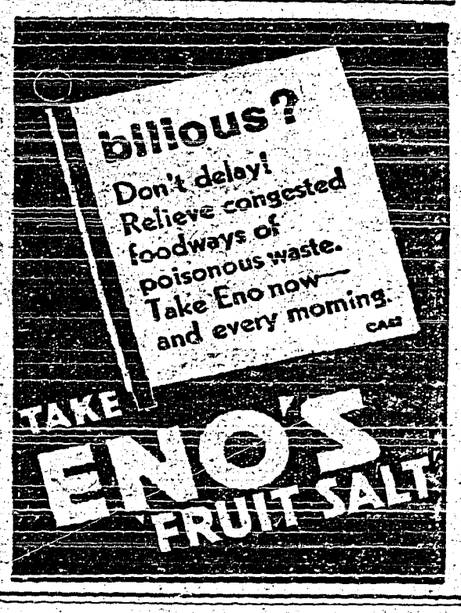
Telescope Convinced People Man They Saw Was Not Flagpole Sitter

A flag-pole sitter in Montreal seemed impossible but the office staff of one of the upper storeys of the Aldred Building were sure that they saw a person seated on a stool atop a flagpole on a nearby building.

For many minutes the amazed audience gazed intently at this new spectacle. Only after a powerful telescope was sent for did they discover their mistake. The telescope revealed a man sitting on a stool on the roof of a building beyond the one which supported the pole. Strangely enough from all sides optical illusion caused the man to appear to be seated on the flag-pole. He sat still for more than 30 minutes and this added to the deception.

Give any man half a chance and he will say something that he will regret later.

Norway will boost government taxes.



Little Helps For This Week

"O the depth of the riches both of the wisdom and knowledge of God; how unsearchable are His judgments, and His ways past finding out."—Romans 11:33.

No star is ever lost we once have seen.
We always may be what we might have been.
Since good, though only thought, has life and breath,
God's life can always be redeemed from death.
And evil in its nature is decay,
And any hour can blot it all away;
The hopes that lost in some far distance seem
May be the truer life, and this the dream.

—A. A. Proctor.

St. Bernard has said: "Man if thou desirest a noble and holy life, and unceasingly prayest to God for it, if thou continue constant in this thy desire, it will be granted to thee without fail. And if God has not given it to thee, thou shalt find it in Him in eternity; of this be assured." Therefore do not relinquish your desire though it be not fulfilled immediately, or though you may swerve from your aspirations or even forget them for a while. The love and aspiration which once existed live forever before God, and in Him ye shall find the fruit thereof; that is, to all eternity, it shall be better for you than if you had never felt them.—J. Tauler.

Train Accidents

Seven Passengers Killed On Canadian Roads Last Year

Last year there were seven passengers killed and 339 injured in train accidents, the Dominion Bureau of Statistics says in a report issued recently. This was an average of one killed for every 3,000,000 carried ,and one injured for every 62,000.

Injuries to passengers ranged from scratches and bruises to more serious injuries. Two passengers were killed in collisions, two fell from trains, two were killed getting on or off trains, and one from other causes.

There were 57 employees killed in train accidents and 957 injured, says the report, a low record for the last 22 years. There were 94 persons killed at highway crossings, of which 78 were motorists, and of this number 30 were killed at protected crossings

Waterspout Chases Ship

Huge Volume Of Water Follows Liner Five Miles

A waterspout playing tag with an ocean liner was the adventure experienced by passengers on the "Duchess of Bedford" during a violent wind storm. The liner was on her way down the St. Lawrence from Montreal to New York on a cruise.

The giant spout, which measured 60 feet across the base and at times as much as 500 feet in height, chased the liner for almost five miles at a speed of approximately 17 miles per hour, passengers reported.

Paris plans to build many schools.

Cover Shelves with HANDI-ROLL

C. F. HAYES, Editor and Owner

CRESTON, B.C., FRIDAY, SEPT. 15

Last Chance Tuesday

Just a reminder that Tuesday, 19th, is positively the last chance you will have to get your name on the voters list to be used at the provincial general election on November 2nd—and so far as we know there is no method of swearing in your vote, or being vouched for, or any other method of being entitled to a ballot other than by having your name appear on the printed list.

We reiterate that on that day you must appear in person before the registrar, F. H. Jackson, and from present appearances none of the candidates in the field are likely to be providing transportation to the office of the registrar for your convenience.

This matter of getting on the list is your own personal affair, and this election by far the most important in B.C.'s history. See to it that you are on the list.

The Wynndel Fair

The pleasure of your company is requested at Wynndel on the afternoon of Wednesday, 20th, for the annual fall fair at the community hall.

Last year the exhibits well filled the building and from present appearances this year's display will be larger and also better. Substantial prizes are given for everything in the fruit and vegetable line, as well as needlecraft, cooking, canned goods, flowers, etc.

If you want to see just what the well known Wynndel section can produce be sure and visit the fair, which is sponsored by the Wynndel Women's Institute, an organization that is doing a splendid community work, including substantial help for Creston's public hospital, so that in addition to seeing a real worth while fair you are helping a cause that is entitled to practical consideration from our readers.

Visit the Flower Show

And while we are saying a good word for community organizations and fairs might we direct your attention to the flower show and school fair Creston Women's Institute are having at Park pavilion on Saturday afternoon, 23rd.

Attractive prizes are offered for the many seasonable blooms which are now at their best and a very competent committee is in charge to make sure that they are shown to the very best advantage.

The growing of flowers is something that should be encouraged and one of the best ways to do the encouraging is to help make the show a success by your personal inspection of the very fine display that is assured.

Along with encouraging floraculture your patronage will materially assist a commendable welfare work carried on by the institute, which can only be in proportion to the funds made available for its use by affairs such as the flower show.

The New Freight Rate

The new schedule of freight charges on straight carloads of apples which took effect on Monday should help considerably in putting an end to the shipment of apples in bulk and will also make it more difficult for the trucks to compete with the railways.

The new rate to Lethbridge works out at 19 cents per box, a charge the truckman can hardly meet, assuming his load is 100 boxes of 50 pounds each—two and a half tons per trip.

In connection with bulk there has been no reduction in the charge for carrying apples in bulk or bins, which is still $1.13 per hundred pounds, taking Winnipeg as destination. But a cut has been made in the standard box rate which until May 30th will be 95 cents per 100 pounds, making it nine cents per box cheaper to ship in regulation boxes than in bulk.

If this saving of nine cents per box is passed along to the grower, as is believed in some quarters, on Creston's expected crop of not less than 150,000 boxes the new rate will bring quite a few extra hundred dollars into the valley this season.

Again Orderly Marketing

The "off again on again" situation in connection with orderly marketing of the 1933 apple crop is decidedly "on again" according to press reports out of the Okanagan the latter part of the week.

It looks now as if almost 85 per cent. of the Okanagan tonnage will be quite effectively controlled, although exact details of the plan are not yet announced.

In connection with the 85 per cent. it is pointed out that half of it will most likely go to export and be clear of the uncontrolled 15 per cent. all of which will be sold on the prairie market.

Selling over one desk has not actually been adopted but the method of operation will be very similar, with pooling of returns among shippers, and pro rating of orders received.

PROVINCIAL ELECTIONS ACT

Nelson-Creston Electoral District

NOTICE IS HEREBY GIVEN that I shall, on TUESDAY, SEPTEMBER 19th, 1933, at the hour of 10 o'clock in the forenoon, at my office in the office of C. B. Twigg, District Agriculturist, Postoffice Block, Creston, hold an adjourned sitting of the Court Of Revision for the purpose of revising the list of voters for the said electoral district.

And notice is further given that any person claiming to be entitled to be registered as a voter in the above named electoral district may apply in person to have his name entered on the list of voters for the said electoral district, at the said sitting of the adjourned sitting of the Court of Revision, notwithstanding the fact that his name has been omitted from the list of applicants for registration, or that he has omitted to apply for registration at the time or in the manner otherwise provided by the Provincial Elections Act.

Dated at Creston, B.C., this 13th day of September, 1933.

F. H. JACKSON,
Deputy Registrar of Voters, Nelson-Creston Electoral District.

T. Wilson is spending a few days at Cranbrook this week

Bob Currie and Peter Heric were visitors at Fernie at the weekend.

Mrs. L. Wheatley of Spokane arrived on Tuesday on a visit with her son, Lee Heric.

The crew at the Long, Allan & Long packing shed has been enlarged with the starting up of the grader on Saturday.

BIRTH—On September 10th, to Mr and Mrs Jas. Dodds, a daughter.

Ray Crisler was a Cranbrook visitor a few days the past week.

The report is current that Ray Crisler has sold his interest in the Erickson Service garage to his partner, Lloyd Leadbetter.

Apple haulers complain of the bad shape of the high road into town. This week it has been necessary for some of the truckmen to carry shovels in order to fill in the bad ruts about opposite the Wickstrom ranch.

New Rates Hit Bulk Shipping

C.P.R. Cuts the Rate on Boxed Apples Materially, Effective at Once—Graders Now Running—Wrapping Cox Orange.

The hum of the graders, the rustle of fruit wraps, the rattle of trucks in the shipping room and the thud up the nailers is heard in the local shipping houses commencing with the first of the week when both the Exchange and Long, Allan & Long put quite a crew of girls and men at work along with starting up the graders for the season.

Bartlett pears are now over and this week will clean up the Wealthy apples of which the crop has been at least up to the estimate. Creston rolled six cars of bulk Wealthys, some of which were mixed bulk, at least one car being heavier to bulk crabapples than Wealthys, while others carried quite a per centage of pears and crabapples.

Arrivals this week are principally prunes and the later varieties of plums, with the former a short crop and consequently in good demand. Hyslop crabs are coming strong, and a good start has been made on Cox Orange apples, with these latter being wrapped for the export trade. In connection with the overseas market both houses report a considerable volume os enquiries for Cox Orange, Jonathan and Delicious and the outlook is good for disposing of thes on the Old Country market in the export sizes.

At their Erickson warehouse Long, Allan & Long have half a dozen girls wrapping pears and Cox Orange, the grader going into operation on Saturday, at which time A. E Towson joined the warehouse staff as receiver, a position he capably filled last season.

At the Exchange the staff of helpers in the packing section look fine in their uniforms of blue. Ten girls were at work on Tuesday on the graders and wrapping pears and Cox Orange, with the grader busy chiefly on the run of Wealthys going out household.

In shipping circles chief interest this week centres in the new schedule of freight rates which went into effect on Monday, in which the 100-pound rate on boxed apples was cut srom 56 to 38 cents, Lethbridge; 65 to 47 cents, Calgar ; and 65 to 47, Medicine Hat, with the minimum car set at 37,500 pounds. At the new rate it is now cheaper to ship boxed apples than bulk, the latter rate to Lethbridge being 40 cents per hundred as in the past. In the matter of minimum cars, however, an exception is made where not less than 5000 pounds of soft fruits are carried, in which case the minimum is 24,000 pounds, with apples taking the new rate.

The World Wheat Situation

People who had the privilege of listening to Premier Bennett's speech before the members of the Montreal Board of Trade at the banquet tendered to him on his return from attending the World's Economic Conference, and the Wheat Conference of the leading wheat exporting and importing countries which followed the larger world gathering, undoubtedly learned many things about world matters, and especially wheat, which were entirely new to them and must have impressed them with the magnitude of the problem which now confronts Canada in disposing of its chief article of export,—wheat.

Prior to the Great War, Canada was rapidly forging ahead to first place among the wheat exporting nations of the world. Gradually the United States, which had been the great exporter, was relinquishing her position as a wheat exporter and more and more rapidly approaching the stronger economic position where her production of wheat would not be more than sufficient to meet her own domestic requirements. In fact, it was confidently stated by persons in authority that in a few years the United States would be a wheat-importing rather than a wheat-exporting nation.

Canada, Australia and the Argentine found their markets in Great Britain and the principal countries of continental Europe, France, Germany, Italy, Spain, Holland, Belgium, all of which countries took large quantities of imported wheat either directly from the country of origin, or indirectly though the London and Livepool markets. Then came the Great War. Wheat was in greater demand than ever. Europe was willing to pay almost any price to get it. To meet the demand of the Allied nations it was urged as a patriotic duty upon the people of Canada, equal almost to enlisting in the army, to raise wheat and more wheat. Greater production of food-stuffs was the slogan, and the most intensive organization was directed to bringing about that larger production. The United States again turned to quota production of wheat because of the prevailing high prices and unlimited market.

The war taught the nations of Europe the lesson of the importance of being able to feed their people in times of war or other emergency. Germany learned the lesson. Italy learned it, France learned it, and, while not directly involved in the war, Spain learned it through the high price she had to pay for wheat and other imported food commodities.

For a time after the war, while the necessary work of reconstruction of their countrysides and industrial towns and cities was under way, the countries of Europe still offered a good market for imported wheat and at a high price. But the governments of these countries organized to raise more wheat, meet their own requirements and thus safeguard themselves against starvation on the one hand, or the possibility of being required to pay excessively high prices on the other hand in the event of a further war or world emergency. They offered bonuses to their farmers to produce wheat, they fixed uneconomic high price for domestic grown wheat, they imposed prohibitive tariffs on imported wheat, they arbitrarily governed all importations, and fixed minimum quantities of imported wheat that might be used by millers and in the making of bread.

Premier Bennett outlined the effect of these things in his speech. The four great wheat exporting nations are Canada, Argentine, Australia and the United States, the chief of which is Canada, while the great wheat importing nations are generally listed as being Great Britain, France, Germany, Italy, Spain. But, Premier Bennett pointed out, whereas European countries in 1930 produced approximately 900,000,000 bnushels of wheat, in 1933, just three years later, they produced 1,220,000,000 bushels, an increase of 320,000,000 bushels.

Even more illuminating was Premier Bennett's statement that this year France will produce between 75,000,000 and 100,000,000 more bushels of wheat than Canada; Italy will produce 75,000,000 bushels more than Canada; Germany and Spain combined will produce 125,000,000 bushels more than Canada. These countries were the former buyers of our Canadian wheat; now they are producing more than Canada.

Mr. F. E. Murphy, who was the United States Government delegate to the wheat conference in London, gives the wheat production of these four European countries this year as 1,015,000,000 bushels, against Canada's estimated crop of 300,000,000 bushels, Argentine's 220,000,000 bushels, Australia's 174,000,000 bushels, and United States' 499,000,000 bushels. In other words, these four European countries will produce almost as much wheat this year as the four chief exporting nations. In addition, the Danubian countries,—Hungary, Roumania, Jugo-Slavia and Bulgaria,—will produce in the neighborhood of 327,000,000 bushels. Russia is steadily increasing her wheat production and, while unquestionably her own people need it, the Soviet authorities nevertheless export large quantities in order to finance necessary purchases abroad.

In the face of this situation, brought about, so Premier Bennett declared, by a condition of things expressed in one little four-letter word, Fear,—fear of starvation in the event of another war which contingency is still hanging over Europe, and fear of ransom, or, in other words, of being again compelled to pay excessively high prices for imported wheat in order to stave off starvation,—the World wheat conference entered into an agreement which provides on the one hand for a limitation of exports of wheat from the chief exporting nations and a reduction in the acreage sown to wheat by the four largest exporters of wheat, and, on the other hand, for no further increase in production by European countries, except Russia, for a removal of some of the restrictions now imposed by European countries designed to reduce the consumption of wheat by the use of substitutes, and for an eventual reduction in the tariffs now imposed on imported wheat when the price reaches a certain stipulated figure.

Admittedly this agreement is in the nature of an experiment. Whether it will prove practical in actual operation remains to be seen, because there are many factors which enter into the calculation entirely beyond the control of man. However, the facts and figures here presented are undoubtedly of vital interest to the people of Western Canada and provide much food for serious thinking and planning on their part.

Bowel Complaints of Children During the Summer Months

Mothers should look well after their children during the hot summer months. Despite all they can do the children may be seized, at any time, with diarrhoea, dysentery, summer complaint, or other forms of bowel trouble.

There is a safe remedy in Dr. Fowler's Extract of Wild Strawberry; a remedy that has received the endorsement of legions of Canadian mothers during the 88 years it has been on the market. Don't experiment. Get "Dr. Fowler's" and be on the safe side.

Prototype Kilogram Valuable

Only About Thirty Standard Measures Are In Existence

A secret mission in the charge of a high official of the London Board of Trade, recently took first, to Paris and then to Sevres, the "British prototype kilogram."

This is Britain's official copy of the "international standard kilogram," on which all metric and scientific measures of weight are based.

At Sevres, which is the home of the international committee of weights and measures, the "British prototype" was compared with the international standard.

These comparisons have been made only once before since 1889.

The international and the British kilograms were weighed against each other on a balance sensitive to a hundredth part of a milligram. There are 28,350 milligrams to an ounce.

The prototype is made of a platinum alloy called irido-platinum. In spite of the high resistance of this metal to external influences the British kilogram could have changed its weight by a few hundredths of a milligram or so. If minute changes occur they are reported to parliament.

Plans for the journey were kept secret lest bandits might attempt to steal the prototype. A kilogram of iridio-platinum is worth several hundred pounds sterling as metal alone, while a "prototype kilogram" is naturally worth far more than its price as metal, for there are only about 30 in existence—one for each of the principal nations.

Progress In New Gold Fields

Large Amount Of Work Done On Labrador Claims

Remarkable progress has been made already in the Labrador goldfields, according to Hon. W. J. Walsh, Newfoundland's Minister of Agriculture and Mines, who has returned to St. Johns from the Lake Wabush district.

He was accompanied on the expedition by Dr. O. K. Snelgrove, geologist, and J. W. Foote, mining engineer. All three seemed enthusiastic about the future of Labrador.

They reported that of the 22 concessions granted by the Newfoundland government since the Labrador was opened to prospectors last fall, nearly one-half are being actively investigated by field parties. The Lake Wabush camp, which is reached after a 200-mile aeroplane trip from Seven Islands, Quebec, had a population of 39 when they left.

Mr. Walsh and his party spent a week in the interior. They said flies were unusually scarce. Unsettled weather conditions had interfered somewhat with the work of the field parties but despite this a remarkable amount of work had been accomplished.

Miniature Paintings

Microscope Needed To See Fine Work Of English Artist

Painter of miniatures so small that 20 of them will fit on a postage stamp, Stanley A. Burchett, of London, formerly of the Grenadier Guards, claims that they are the smallest pictures in the world. Two, about an eighth of a postage stamp in size, have been purchased by the queen. One is a seascape showing a sailing vessel at dawn, and the other a still-life of marigolds in a blue vase. To appreciate the pictures fully it is necessary to use a microscope. Many find it difficult to believe that the miniatures are real water-colors painted with a brush.

Dentistry In Olden Times

Even the ancient Egyptian had to be told to "open wide" and probably had trouble with his false teeth dropping out occasionally, according to Dr. J. K. Lowry, McGill University specialist in his branch of dental science. He told of dental work done by the Egyptians as early as 3400 B.C., in a talk before a local service club. He also described known traces of dentistry among the Greeks, Etruscans and the Romans.

Japanese tea exported during 1932 showed an increase of 4,072,000 pounds over 1931.

More than 250,000 persons are now employed by the British post office department.

Freight Car Was Elusive

Ex-Sergeant Proved He Did Not Abandon His Post

An ex-sergeant brought an atmosphere of comic relief into the military tribunal at Paris, which is still hearing appeals from war-time court-martial sentences when he successfully appealed against a sentence passed in 1918 of 15 days' imprisonment for twice abandoning his post.

Sergeant Nigon was ordered to escort a freight car containing 5,000 gas masks. When the convoy stopped for the night he went to sleep, and when he awoke up the box-car had disappeared.

The railway authorities assured him it would come back. It turned up two days later.

He was then told the train would proceed again next morning but when he looked for it again it had disappeared. Eventually he discovered it had arrived at its destination without the loss of a single gas mask.

In reply to questions he said he did not sleep in the box-car because a soldier was only allowed to sleep in a horse car during the war. If he had slept next to it on the track he would have been run over. He did not get inside because if he had done so they would not have been able to shut the door. He declared he did not abandon his post because a post is a fixed point and the box-car was a movable object.

"It was a phantom car," he said. "It kept disappearing."

He was acquitted and the sentence quashed.

Has Radio Wave Pains

Tacoma Dairyman Is Obliged To Ground Himself To Obtain Relief

Scientists have started an investigation into the unique case of Martin Bodker, dairyman in the Tacoma district, who suffers intense pains from radio waves unless he grounds himself.

Tacoma and Seattle specialists have declared they were baffled.

Bodker some years ago began to suffer intense pain. Physicians could find nothing wrong with him, but the pains much like rheumatism, persisted from time to time.

One day he put his hands on a water faucet while suffering pains, and they immediately vanished. When he took his hand off the faucet the pains returned. Bodker wrapped a cane with copper wire, bored a hole through the floor of his living room, and "grounded" himself.

The case was brought to the attention of Los Angeles physicians by one of Bodker's relatives living there, and Bodker was persuaded to go to that city.

Military Command Changes

Toronto Officer Goes To Victoria To Take Over Military District

Major-General E. C. Ashton, C.M.G., V.D., district officer commanding military district No. 2, Toronto, is leaving shortly for Victoria where he will take over military district No. 11, which includes the province of British Columbia and the Yukon Territory.

Brig.-General T. V. Anderson, D.S.O., district officer commanding military district No. 10, with headquarters at Winnipeg, replaces Major-General Ashton at Toronto, and it is understood Brigadier W. B. Beeman, D.S.O., whose appointment to command military district No. 11 became effective a short time ago, will go to Winnipeg to succeed Brig.-General Anderson.

STRING BEANS BRETONNE

Two tablespoons butter; 1 medium onion; 1 tablespoon flour; 1 cup evaporated milk; ½ cup water; 2 cups cooked string beans, cut in one-inch lengths; salt; pepper; paprika.

Melt butter. Fry thinly-sliced onion until yellow, but not browned. Stir in flour. Add gradually evaporated milk and water. Stir until thickened. Add cooked string beans, cut in one-inch lengths and seasoning. (Serves six).

France has ruled that motion picture films in foreign languages can be shown in only 15 theatres in the country.

Commodity prices in Belgium are increasing.

ASHAMED OF HER FIGURE

Husband Persuaded Her To Take Kruschen

By following her husband's adv'ce, this woman made a tremendous improvement in her appearance—she actually took off 32 lbs. of her excess fat. Telling of her experience, she writes:—

"A year ago I was troubled with rheumatism, nervousness and other complaints. And I got so fat that I was ashamed of my figure. I was persuaded by my husband to take Kruschen Salts. Before I began, I weighed 161 lbs. After taking Kruschen for a short time the rheumatism was less painful, my nerves got stronger, and my step lighter. Then I knew that Kruschen was doing me good, so I persevered with it and got my weight down to 129 lbs., a reduction of 32 lbs. of unwanted fat. I am not boasting when I say that I feel younger and more active, have a much better figure and am healthier than I have been for years."—(Mrs.) J. S.

Kruschen is a blend of six mineral salts which assists the internal organs to throw off each day those waste products that would otherwise accumulate in the form of fatty tissue.

Chance Meeting Recalls Rescue During War

Ship Inspector Meets Sailor He Saved From Torpedoed Vessel

A thrilling rescue in the days when British ships carried on a hazardous trade along routes infested with mines and German "subs" was recalled at Montreal harbor when Captain R. H. Monks, deputy port warden, boarded the steamer "Clan Alpin" in the course of an inspection.

Accosted by a member of the crew who asked if he remembered him, Captain Monks found himself unable to recall who the man was. The seaman then proceeded to identify himself as the man whose life the Montreal port official had saved during the Great War when Captain Monks' ship had been torpedoed off the Irish coast. About to jump into the one remaining lifeboat the ship's master heard groans from some place on the deck. Returning he found a member of the crew, badly wounded. Picking the man up, Captain Monks carried him to the lifeboat only a minute before a terrific explosion sent the ship to the bottom.

After two days on open sea they were picked up by an American destroyer and taken to an Irish port, where the wounded man was given treatment.

Founded Centuries Ago

History Of Bavarian City Dates Back For 1,700 Years

In this year of centenaries, tricentenaries and bicentenaries all over the world, the Bavarian boosters of Weissenburg are inviting all and sundry to celebrate with them the 1,700th anniversary of their city's founding.

It was back in 233 that the hardy local tribesmen first broke through the fortified military road built by the Romans, destroyed the citadel of Biricianis and built with its stones a castle called the Wizinburc. Fragments of the city wall erected at that time, with 31 towers and a number of big gates, still remain. The Ellinger gate, in particular, is considered one of the finest medieval structures of its kind in all Germany.

Human Loud Speaker

Official possessor of the toughest lungs in the United Kingdom, W. B. Anglis, town crier of Marlborough, Wiltshire, England, aged 63, won the championship from twelve rivals in the National Town-Criers annual contest at Lyme Regis. The three judges sat in a tent 100 yards from the yelling contestants.

CUBANS MUST RESTORE ORDER SAYS ROOSEVELT

Washington.—President Roosevelt threw a protective squadron of warships around Cuba while his secretary of the navy hurried aboard the cruiser "Indianapolis," at Annapolis, for a quick journey to the capital of the island republic.

The president had a company of marines in readiness at Quantico, Va., but he was withholding intervention as the last resort to restore order in the island.

The battleship "Mississippi" steamed down the Atlantic coast to stand by off Key West. Six or eight other craft, including a cruiser, destroyers and subchasers were within steaming distance of such ports as Guantanamo, Santiago and Havana.

Washington.—Amid fresh reports of Cuban disturbances President Roosevelt called for the speedy establishment of a government to maintain order in the island republic.

Mr. Roosevelt outlined the United States policy to the diplomatic representatives of south and central America who were called to the White House while American warships were concentrating about the troubled island.

To the spokesmen from the neighboring republics, he declared it was the desire of the United States to avoid intervention and that everything possible to make this unnecessary was being done. He said the key to the American policy toward Cuba in this crisis was that the Cuban people obtain as rapidly as possible a government of their own choosing and, equally important, a government that would maintain order.

New York Flyer Wrecked

Fourteen Passengers Killed And Many Injured In Collision

Binghampton, N.Y.—Fourteen persons were killed and 25 others injured, some of them so seriously they are expected to die, as a milk train travelling at a fast speed plowed into a Chicago to New York flyer of the Erie Railroad at the city's eastern outskirts. The flyer, en route to New York, had been stopped by a switch engine at work ahead.

All of the dead were taken from a wooden coach that sandwiched between cars of steel, and three cars from the end of the flyer telescoped like an accordion.

M. H. King, of Elmira, engineer of the milk train, running between Hornell and Hoboken, said: "I didn't see the signal light in time to stop. It happened too quickly. We were coming around a curve."

Vice-President R. E. Woodruff, of the Erie Railroad, said the engineer of the milk train was aware he did not have a clear track.

Fulfilling Pledges Of Economy

Nova Scotia's New Premier Gets Down To Business

Halifax, N.S.—Less than 12 hours after his inauguration as Nova Scotia's premier, Hon. Angus L. Macdonald announced his new cabinet's first order-in-council had been a proclamation bringing into effect the provisions of the Nova Scotia Old Age Pensions Act, passed in 1931. He disclosed also the cabinet's initial moves towards fulfilling pre-election pledges of economy.

Estimated savings of $25,000 annually were effected through abolition of two deputy ministerial posts—those of agriculture and health—and reduction in the number of liquor commissioners from two to one.

In addition, the cabinet appointed three of its members as a committee to ascertain means of further reducing expenditures of government.

Heads Medical Council

Ottawa, Ont.—Dr. R. H. Arthur, of Sudbury, Ont., was elected president of the Medical Council of Canada at its annual meeting here, succeeding Dr. W. A. Thomson of Regina. The council is the governing medical board for the Dominion and has the final say on the examinations which must be passed before a doctor may practice in Canada

Backs Western Farmers

Higher Reward For Services Necessary States Hon. J. F. Bryant

Toronto, Ont.—"The farmers of western Canada are not a bunch of 'Reds' although a few "Reds' are found in their ranks," Hon. James F. Bryant, Minister of Public Works and acting Minister of Agriculture for Saskatchewan, told the directors' luncheon of the Canadian National Exhibition. He said they are trying to bring about better conditions in rural life.

"They have seen the dawn of a new day, and in any matter which affects agriculture the voice of the western armer will be heard," declared the minister. The farmer who endeavors to raise on his own farm the means of livelihood for himself and his family, and does not seek to gain wealth, is as a rule in a comfortable position during the present economic conditions.

"It is not production, but distribution, that is the chief difficulty. Falling prices have failed to check the constantly increasing supplies and there is a growing belief among our farmers that something is radically wong with rural life," said Mr. Bryant. "Agriculture must receive a higher reward for services rendered."

Forest Fires In Manitoba

Settlers And Summer Campers Forced To Leave Homes

Winnipeg, Man.—Fire-fighting resources of Manitoba have been taxed to the limit to check forest fires scattered across eastern and central Manitoba. Outbreaks were reported from 21 districts. Chief concern, however, was felt for the blaze which roared over a five-mile front between Rennie and Whitemouth, in the southeastern portion of the province.

Motorists returning to the city found driving between Rennie and Whitemouth difficult and precarious. Dense smoke from smouldering peat beds obscured the highway. Automobiles crawled along through the murky pall with windows closed to keep out choking fumes. More than 100 men patrolled the fire zone, the blaze being reported under control.

Families of settlers and summer campers were evacuated from the danger zone. Only the men remained behind to keep a watchful eye over a fire that destroyed valuable timber stands, razed the station and section house at Rennie, and threatened small settlements before rain came to the aid of forest rangers.

Accepts Important Post

Saskatchewan University Professor Goes To Carnegie Institute At Pittsburgh

Saskatoon, Sask.—Dr. Lloyd L. Dines, professor of mathematics at the University of Saskatchewan, for the past 18 years, and for the past two years administrative head of the junior college there, has accepted the position of head of the Department of Mathematics at the Carnegie Institute of Technology, at Pittsburgh, President W. C. Murray announces. The position carries a greatly increased salary.

Dr. Dines has long been known as one of the leading mathematicians in Canada and as honored as a fellow of the Royal Society of Canada in recognition of his successful research work. He was highly appreciated here as a teacher and administrator. He received his training at the University of Chicago.

Professor D. B. Delury will continue Dr. Dines' classes in mathemtics during the coming year, Dr. Murray intimated.

Want Game Guardians

Calgary, Alta.—Appointment of a body of game guardians in Alberta, to handle protection of game now done by the Royal Canadian Mounted Police, was suggested to the provincial government by the Alberta Fish and Game Association in annual convention here. Steps to prohibit shooting of all migratory birds with rifles and modern high power pneumatic guns also was urged.

Nearly 40,000 people attended a religious festival at the Carfin Grotto in Scotland recently to observe the anniversary of the opening of the place.

W. N. U. 2011

SIDNEY T. SMITH

President of the Winnipeg Grain Exchange, who announced the "pegging" of wheat prices for the first time in the history of the Exchange, and said the "peg" would remain until the market is stabilized.

Project Has Been Success

Colonization Of Special Kind Working Well In Quebec

Quebec, Que.—The Grancher system of placing with farmers and their families healthy children from city homes where there are cases of tuberculosis was introduced last year by the Quebec Bureau of Health, and according to Hon. Athanase David, provincial secretary, the experiment has been successful. "The children have become attached to country life and have no wish to return to the cities, and in a number of cases the farmers have gone to the extent of legally adopting the children. This is a good kind of colonization," said Mr. David, who has been delving into the doings of the provincial bureau of health since his return to work after a few months abroad.

The Grancher system gets its name from the fact Professor Grancher, now deceased, organized this system of family placement 30 years ago at a time when public attention in France was turned to the scourge of tuberculosis. The work still goes on in France but it is done under private initiative on the basis laid down by Professor Grancher, and funds are also provided by private purses. Mr. David studied this system in France and launched the project in Quebec without waiting for private initiative to start the work.

Three Children Burned

Quyon, Que.—Three children, Kathleen, Olive and Felix Jean-Marie, were burned here when they dropped a match in a tin can filled with gunpowder. They suffered serious burns and were rushed to hospital at Ottawa. The can of gunpowder had been hidden away in the bottom of a cupboard 25 years ago.

British Farmers Favor National Milk Pool

Overwhelming Majority Shown When Vote Was Taken

London, England.—British farmers have voted overwhelmingly in favor of a national dairy pool. The result of the poll showed 96.42 per cent. in favor and 3.58 per cent. opposed. A two-thirds majority was necessary.

With its national and regional pools the scheme will be one of the biggest undertakings in the United Kingdom. Farmers will sell their milk through the pools which will divide the profits among participants according to the amount of milk each delivers.

The national board which will be in charge, will be responsible not only for marketing and supply contracts but will also have the task of utilizing surplus milk for cheese-making and the manufacture of dry milk on a large scale. The board assumes control October 1 for a trial period until the new year when the scheme itself becomes operative.

The scheme applies to England and Wales.

Indian Chief Well Known

Head Of Sioux Tribe Dies After Long Illness

Prince Albert.—Chief George Kinyewakaw, of Griswold, Man., head of the Sioux Indians in Canada for many years, passed away recently at the Round Plain Indian reserve and was buried September 2, according to word reaching here. The 74-year-old Indian chief was visiting Sioux friends in the reserve and he became ill on August 20 after having assisted in haying. He had been suffering for years from an internal ailment.

Chief Kinyewakaw was one of the best known Indians in Canada. He was one of the central figures in the colorful Winnipeg Board of Trade celebration in 1920, held in honor of veteran Red River settlers and trail blazers of the Canadian northwest. He was a successful farmer at Griswold.

Subject To Penalty

Calgary, Alta.—Out of Calgary's 2,300 married jobless, 1,711 are subject to a penalty, which came into effect September 1, because they are behind 100 hours or more on their work cards which contain their record of employment on relief jobs. Many are appealing their cases before relief officials who have started a close check on men refusing to work in return for relief granted.

Threaten To Destroy Trees

Kelowna, B.C.—Threats of "smashing down the trees" of those who would not come into an agreement were heard at a meeting of Kelowna fruit growers who asked of the shippers a guarantee of a cent a pound minimum for all apples picked and shipped.

A SCENE FROM THE WHEAT CONFERENCE

Our picture was taken after one of the hectic sessions of the World Wheat Conference in which delegates from thirty-four nations sought an opportunity for an international agreement on wheat production. The main figure in the group coming out of Canada House is that of Right Hon. Stanley Bruce, chief delegate from Australia, who played a big part in the proceedings, which concluded harmoniously

MACHINE AGE NOT TO BLAME FOR ECONOMIC ILLS

Leicester, England.—Applied science, Sir Frederick Gowland Hopkins told the British Association for the Advancement of Science, "should take no blame" for the paradox of poverty amidst plenty and the replacement of human labor by machinery.

Sir Frederick, head of the association, made the statement during his presidential address in which he outlined the strides of science in describing life in terms of chemistry.

"It is not within my capacity," he continued, "to say anything about the paradox and its cure, but I confess that I see more present danger in the case of 'money versus man' than danger present or future in that of the 'machine versus man'."

Concerning the replacement of human labor, he said:

"It is surely right that those in touch with science should insist that it will continue. It need not involve a revolutionary change if there is real planning for the future. No one can say what kind of equilibrium the distribution of leisure is fated to reach. In any case an optimistic view as to the probable effects of its increase may be justified."

Sir Frederick referred to words of Sir Alfred Ewing, which he said were still being echoed—"that the command of nature has been put into man's hand before he knows how to command himself."

"I confess," he declared, "that if civilization escapes its other perils I should fear little the final reign of the machine. We should not altogether forget the difference in use which can be made of real and ample leisure compared with that possible for very brief leisure associated with fatigue, nor the difference between compulsory toil and spontaneous work."

High Quality Of Wheat

Samples Of New Crop Show High Protein Content

Winnipeg, Man.—Protein content of the first 100 samples of new crop western Canada wheat is on a par with the average for last year, laboratory tests announced recently, reveal. The content is slightly lower than the first-run last year in Manitoba, but higher in Saskatchewan, according to a report prepared by T. A. Aiken, head of the grain research laboratory of the board of grain commissioners.

Alberta wheat was not available in sufficient quantity to permit a test.

Maximum content of 112 samples of No. 1 hard from Manitoba and 63 from Saskatchewan is shown at 17.2 per cent., while the average content is 13.9 and 14.7 per cent. for the respective provinces.

The average of 344 samples of No. 1 northern from Manitoba was 13.6, while 319 samples from Saskatchewan averaged 14.9 per cent.

S.S. Gardenia May Be Last Vessel To Take On Cargo This eSason

Churchill, Man.—Elevator machinery hummed here with the arrival of the S.S. Gardenia to take on what may be the last cargo of grain to be shipped from Manitoba's northern port this season.

With her arrival in port, preparations fo loading 230,000 bushels of grain were immediately under way and when the "Gardenia" steams out of the harbor the 2,000,000-bushel government elevator will have less than a ship's cargo in store. The leftover will total only 38,000 bushels of wheat. She is the ninth vessel to take an overseas grain cargo from the Hudson Bay port this season.

Apprentices For Farmers

Winnipeg, Man.—Plans for an agricultural apprenticeship scheme to provide more permanent help for the farmer and employment for the young men who find it impossible to get jobs, is being considered by the joint committees of the agricultural and seasonal unemployment bureau of the Winnipeg Board of Trade.

F. H. Jackson was at Nelson the fore part of the week representing the village at the sitting of the provincial royal commission investigating municipal financing and municipal affairs generally.

At the council meeting on Monday night a grant of $100 was made the community's swimming pool which will enable the committee in charge to pay off the balance of the pool's indebtedness.

Service at the Presbyterian Church on Sunday morning will take the form of a rally day service. The Sunday school will assemble at 11.20 for the marking of attendance. Service will be at 11.30.

Rev. J. F. Bell of Cranbrook took the morning service at the Presbyterian Church on Sunday, and on his trip was accompanied by Mrs. Bell. It was an exchange of work, N. G. Smith officiating at Cranbrook.

A great variety of cars are passing through Creston this year. A look over the register at the Lone Pine auto camp shows 18 different makes in the 96 that made the stop. 18 of them were Chevrolets and 15 Fords.

Central Motors reports the past week the best of the year for auto sales, which include a Ford V8 Ford standard sedan to Frank Staples; a Ford V8 deluxe sedan to L. Clark of Gray Creek, and a 1927 Ford coach to E. Marriott.

Creston and District Women's Institute have the annual flower show and school fair at Park pavilion, Saturday, Sept 23rd, in connection with which there will be an afternoon of swimming sports at the swimming pool.

Amongst the notable registrations at the Lone Pine auto camp last month were Mr. and Mrs. R. C. M. Yates of Canterbury, England and Messrs. W. H. Fennell and C. B. Hi l from Fort St. John, on the extrem north boundary of B.C.

Mrs. M. Royce and children, Peggy and Charlie, of Trail, who have been visiting with Mr. and Mrs. W. J. Avery the past week, have left for Salmon Arm, accompanied by Mrs. Avery, in which town they will visit with the ladies' brother.

If you want to see just what Wynndel district can produce in fruits and vegetables as well as in all lines of ladies' work and cooking, visit the fall fair on Wednesday afternoon, September 20th, opening at 2 p.m. Creston brass band will be in attendan e.

Records kept by W. J. Avery, proprietor of the Lone Pine auto camp show 96 cars, carrying 348 passengers made an over-night stay. Of the registrations 54 were from Alberta, 23 from B.C., 13 from Saskatchewan, 4 from the United States and one each from Manitoba and England.

The Women's Auxiliary of Creston Valley Post Canadian Legion will resume their regular meetings on Tuesday evening, September 19th, at 8 o'clock. The meeting is in the Legion Hall, Maliardaine Block, and all relatives of returned men interested in the work are cordially invited to attend.

Services at St. Paul's Lutheran Church will be dropped for two Sundays. Sunday, 17th, Rev. C. Baase is holding his regular monthly services at Kimberley, Cranbrook and Yahk, and after that he will be away two weeks visiting Crows Nest points. The next service at Creston will be October 1st.

Student pastor N. G. Smith, who has been in charge of St. Stephen's Presbyterian Church for the past 16 months will take his last service here on Sunda evening at 7.30. He is returning to Knox College and will spend a short vacation at home before going back to college at Toronto, Ontario.

Trinity United Church basement was filled to capacity on Thursday evening for the C C.F. meeting at which Dr Lyle Telford of Vancouver delivered an address that was listened to with great interest throughout, with John Murrell, president of Creston local of the C.C.F., as chairman. Since the meeting the report is current that Dr. Walley of Nelson is favorite for C.C.F. candidate in Creston-Nelson.

Mrs. R. Roebuck and Mrs. F. A. Tompkins were joint hostesses at the latter's home on Wednesday evening last at a farewell party for Miss Edna Birch Farris, who left at the end of the week for Missoula, Montana, where she is to take a course in nursing. Cards were the feature of the evening with a lunch at midnight, the guest of the evening being remembered with many dainty and useful gifts.

Miss Mary Malone, whose marriage takes place later in the month, was guest of honor at a kitchen shower at the home of Miss Beryl Nichols on Monday evening, which was attended by many of her young friends. Music and bridge were the features of the evening with the prize at cards going to Mrs. A. Weir. A delightful lunch was served after which the guest of the evening was remembered with a very fine collection of kitchen utensils.

The official records for August show that one degree of frost was recorded at Creston on the morning of August 31st, when the mercury went down to 31. The hottest day was the 13th when the mercury went up to 94 in the shade. On six days during the month the heat was at 90 or over. The rainfall for the month was just a little less than two inches.

Announcement is just made of the marriage at Ottawa, Ontario, on September 2nd, of Miss Marion Louise, eldest daughter of Mr. and Mrs. A. R. Swanson of Kimberley, and formerly well known residents of Creston. The bride was a great favorite in Creston's younger set while resident here and has the good wishes of a host of friends for a very successful future. The groom is Albert S Whitely, and the newlyweds are to reside at Ottawa.
