Section 13—As at March 31, 1975, deposits with the Treasury at credit of the Public Service Superannuation Fund amounted to $327,075,481.

Section 14—Interest earned by the Fund amounting to $19,193,261 was received from the Minister of Finance. The distribution of this amount to the

accounts of the Fund is set out in the explanatory notes to the financial statements. It includes credits to employee and employer contributory accounts calculated at 4 per cent per annum for employees entering the Service subsequent to April 1, 1958, and 5 per cent per annum for those entering the Service prior to that date on the balance on the accounts at April 1 and October 1, 1974, and credits to Contributory Pensions Account calculated at 5 per cent per annum on the balances at April 1 and October 1, 1974. Unappropriated interest amounting to $6,385,556 was credited to Reserve Account.

Section 17—All moneys received and paid out under the provisions of this Act are shown in the statement of changes in Fund balance and the assets and liabilities appertaining to the granting of superannuation allowances are shown in the statement of financial position. These financial statements are attached to this Report.

Sections 18, 19, 20, 21, 22, and 47—During the year, 421 allowances were granted, as follows:

	To Former Contributors Under	
	Part I	Part II
Normal retirement	312	58
Total and permanent disability	5	3
Deferred allowances	18	3
Dependents upon death in service	21	1

Of the 421 allowances granted, 410 were on the 2-per-cent formula and 11 were on the money purchase formula.

As at March 31, 1975, there were 440 former contributors with credits in the Fund who were eligible to apply for deferred superannuation allowances after attaining the minimum retirement age.

Refunds totalling $149,728 were paid to 42 contributors upon grant of allowance in respect of excess and voluntary contributions.

Section 18A—Transfers totalling $976,772 were received from five reciprocal pension plans in respect of 17 contributors upon grant of allowance and in respect of 51 contributors following transfer of service.

Transfers totalling $433,383 were made to four reciprocal pension plans in respect of two contributors upon grant of allowance and in respect of 24 contributors following transfer of service.

Section 24—Refunds totalling $148,389 were made to the spouse or estate in respect of 45 contributors who died in service.

Section 25 (1)—Refunds totalling $2,791,659 were made to 2,923 former contributors who left the Service, including 86 with more than 10 years of countable service who elected to receive a refund. Of these, 14 were eligible to receive a superannuation allowance immediately and 72 were entitled to leave their credits in the Fund in order to receive a deferred superannuation allowance after attaining the minimum retirement age.

As at March 31, 1975, there were 333 former contributors who had left the Service more than four years prior to that date and who, while not entitled to leave their credits in the Fund in order to receive a deferred superannuation allowance, had not applied for a refund of their contributions. Individual credits amounting to $57,703 are listed in the attached schedule.

Section 29—Administration expenses amounting to $167,656 were paid from Consolidated Revenue Fund.

Section 37—Payments to the Minister of Finance totalling $190 were made from the credits of two former contributors.

Sections 58A, 58B, 58C, 58D, 58E, and 58F—Supplementary allowances totaling $382,526, paid in the period April 1, 1974, through June 30, 1974, were charged to the Reserve Account. Effective July 1, 1974, these supplementary allowances were merged with the contributory allowances and charged to Contributory Pensions Account. When determined by the consulting actuary, the capitalized value will be transferred to the Contributory Pensions Account from the Reserve Account and any resulting deficit in the Reserve Account will be recovered from future excess interest earnings.

Section 58G—Cost-of-living supplements totalling $687,578 paid in the period July 1, 1974, through March 31, 1975, were charged to Contributory Pensions Account. When the accumulated payments exceed 1 per cent of the average annual total of contributory salaries, cost-of-living supplements are to be financed by additional employee and employer contributions, each at the rate of one-half per cent of salary, with a further similar increase when the accumulated payments again exceed 1 per cent of the average annual total of contributory salaries. Projections indicate the first increase in contributions will be effective on or about December 1, 1976.

By special arrangement, Crown Life Insurance Company reimbursed the Fund amounts totalling $81,120, representing that portion of the superannuation allowances received by former employees of the Liquor Administration Branch that had been purchased from the Company prior to August 1, 1961.

Comparative, statistical, and detail schedules of contributions, refunds, and allowances granted and in force at the year-end are attached to this Report.

PART III—DEATH BENEFITS FUND

As at March 31, 1975, there were 2,800 superannuants participating.

During the year, 99 claims amounting to $63,300 were paid from funds provided, as follows:

	$	Per Cent
Contributions by superannuants	33,624	53.12
Contributions by Government	29,676	46.88
	63,300	100.00

Individual payments are listed in the attached schedule.

LEGISLATION

The *Public Service Superannuation Act* was amended at the 1975 Session of the Legislative Assembly. The more important changes are as follows:

(1) Restating the persons to whom the Act applies, in line with the *Public Service Act* and the *Public Service Labour Relations Act.*

(2) Amending the formula for calculating the highest average salary for pension purposes of persons who have been receiving benefits under a group disability salary continuance plan.

(3) Permitting employees who transferred to a reciprocal employer and elected prior to June 1, 1973, to have their contributions transferred

to the voluntary account of that employer's pension plan to reinstate those contributions and their service under this Act.

(4) Permitting the spouse of an employee who dies in service, being eligible for an allowance, to select a plan with or without a temporary annuity.

(5) Bringing the re-employment provisions in line with those of reciprocal pension plans.

(6) Removing the provisions of and all reference to the former Part II of the Act, being no longer required as a result of the restatement of persons to whom the Act applies.

(7) Amending the formula for calculating the cost-of-living supplements for pensioners.

[1] Nonactive—out of service less than three years.

[2] Allowances in respect of former members of the Legislative Assembly.

[3] Including supplementary allowances in the period April 1, 1946, through March 31, 1970. Supplementary allowances were paid from excess interest earnings in the period April 1, 1970, through June 30, 1974, when they were merged with contributory allowances and charged to Contributory Pensions Account.

[4] Effective July 1, 1974, cost-of-living supplements are charged to Contributory Pensions Account, but are to be financed by additional employee and employer contributions.
