THE CRESTON REVIEW

Vol. XXV. CRESTON, B. C., FRIDAY, AUGUST 31, 1934 No. 22

Alice Siding Plans Irrigate

District from Schade Corner to School—Pump from Old Goat River Channel Most Likely Source of Supply.

Practically every grower in the area from the Schade corner through to the Marshall place, near Alice Siding schoo , was out on Saturday night for a meeting at the Compton packing shed to devise ways and means f getting a supply of irrigation water for that particular district.

The chair was occupied by Jas. Compton. with E. W. Payne acting as secretary. Mr. Compton very briefly outlined the purpose for which the meeting was called, and observed that in view of the very dry season at present prevailing and of previous years when water could have been used to advantage, there was little need to dwell on the necessity of the move to secure a water supply.

Various plans to secure relief were submitted. Reference was made to the overflow from the Goat Mountain Waterworks Company supply near the C.P.R. reservoir on the mountain, and there was also the present surplus from the East Creston system from Arrow Creek, both of which would combine domestic with irrigation supplies.

The most likely source of supply, however, was the old Goat River channel. With the putting in of less than 500 feet of pipe it would be possible to pump from this stream into a reservoir on the F. W. Ash ranch which enjoyed the highest convenient elevation in the whole district, aud would provide a gravity flow to all places in the proposed district, with possibly two exceptions.

Possible sources of supply featured the evening,s discussion. Financing such a project was not seriously put forward the feeling being that until an estimate had been secured it was useless to talk cost. In the area to be served it was estimated there w s between 400 and 500 acres. The meeting was inform d that if a pumping system was put in the water rights now held by Jas. Compton and W. A. Pease would be turned over to the district for a domestic system if such could also be installed.

The outcome of the eeting was the adoption of a resolution that Messrs. F. Simister, N. Schade, Geo. Nickel and E. Payne be named a committee to interview F. Putnam, M.P.P., and also to arrange, if possible, for Mr. Blaine, the provincial water rights branch engineer at Nelson, to make a preliminary survey and submit a report as to probable cost, etc. With this done another meeting will be called to further discuss the project.

Alice Siding

Birth—On August 29th, to Mr. and Mrs. Cecil Hamilton, a daughter.

Miss Joan Hilton left at the first of the week on a visit with friends at Vancouver

Prunes commenced moving out at the first of the week, along with the later varieties of plums.

E. Hoverman and Gus. Steiner of Wynndel are away on a business trip to points in Saskatchewan.

Mr. and Mrs. Frank Baraclough of Calgary, Alberta, spent a few days here with their cousin, Jack Barraclough.

R. Alderson arrived from Turner Valley on Saturday and is helping with the getting off of the Wealthy apple crop.

Rev. A. O. Thomson of Creston is holding Presbyterian Church service and Sunday school each Sunday at 2 p.m., at the schoolhouse.

J. J. Freney, J. Page and L. Lopochuk of Rossland were visitors here a couple of days last week, guests at the home of W. A. Pease.

Miss Gwen Webster, who is on the nursing sta of the General Hospital, Vancouver, is holidaying with her parents, Mr. and Mrs. J. H. Webster at present.

Mr. and Mrs. H. MacDonald, who have been on a visit at the coast, were here for a few days on their return to Calgary, Alta, guests of the latter's parents, Mr. and Mrs. J. H Webster.

Earl Pease and R. Walker, of Cloverdale, got back from a trip to Macleod, Alberta, at the end of the week and after a day's stay with the former's parents, Mr. and Mrs. W. A. Pease, left for their homes at the coast.

Almost every rancher in this district was out for the irrigation meeting at the Compton packing shed on Saturday night. A committee was named to go fully into the project and report at the earliest possible date.

Announcement is made this week that J. J. Freney has resigned as principal of Alice Siding school and that J. Page of Rossland has been engaged to replace him, school to open on Tuesday. Mr. Freney intends to spend the next couple of years at the University of Alberta, at Edmonton. Mr. Freney is just about the best teacher Alice Siding school has had and his resignation will be heard of with regret by pupils, parents and trustees alike.

Kitchener

Mr. and Mrs. N. P. Molander and son, Richard, were Sunday visitors at Moyie.

Miss Helen Oja left on Monday for Wynndel where she is at present employed.

Little Miss Germaine Foisy left on Thursday for Fernie on a visit with friends

Little Miss Louise Lepage is away on a visit with her aunt, Mrs. Allan Moore, at Fort Steele.

Louis, Selmer and Myrtle Anderson and N. K. Devlin were Thursday visitors at Cranbrook.

Miss Jessie White left on Thursd y for Fernie where she is spending a few days at her home

Mrs. Fritz Molander and son, Barry, left on Friday for Calgary, Alberta, on a visit with relatives.

B. Johnson and son, Robert, left on Tuesday for Spokane, to join Mrs. Johnson, who is holidaying there.

The latest purchaser of land from W. L. Hathaway is H. Bohan. He has acquired ten acres northeast of Kitchener.

Kitchener baseball team played Creston Athletfcs at Creston on Sunday afternoon. The score was 7-5 in favor of Kitchener.

Alex. Ellis and O. Peterson, who have been prospecting up Goat River the past three months, returned on Sunday and will not be going back.

Mrs. Wm. Jones of California is here on a visit, a guest of Mrs. G. A. Hunt. Mrs. J nes was formerly Miss Grace Rendall of Nelson, who taught Kitchener school some years back.

Canyon City

Mrs. Richmond of Cranbrook is a visitor here this week, a guest of her sister, Mrs. Humble.

Miss Joyce Clayton is a Nelson visitor this week, a guest of her sister, Mrs. John Chapman.

Mrs. Jim Bateman returned last week from a month's visit with old friends at Calgary, Alberta.

Jock McRobb, jr., and a friend have returned to Trail after a five-day visit with the former's parents, at Canyon.

Mrs. Gilchrist of North Bay, Ontario, is here on a visit with her neice, Mrs. Humble. She is returning east from a visit at Penticton.

W. Ridd was here from Waldo to spend the weekend with Mrs. Ridd, and Bill, jr., who is here from Edmonton, Alberta, on a holiday visit.

Mrs. E. Langston and three children have returned to Coalhurst, Alberta, after spending a month with her parents, Mr. and Mrs. A. Halstead.

Miss Francess Knott, who has been at Vancouver the past year, returned last week, and will have charge of the junior room when school opens on Tuesday next.

Vic Grundy left last week for Salmo, where he is in the employ of West Kootenay Power & Light Company, Limited, on pole line construction work in that section.

Awaiting better color the movement of Wealthy apples is rather slow out of Canyon. If Macs are to come off next week there will be considerable of a rush to clean up Wealthys.

Creston Intermediates, Kitchener, Alice Siding and Canyon teams will compete in the baseball tournament at the C.C.F. picnic at Diamond Park on Labor Day. Along with this wi l go races and other sports and in the evening the jitney dance.

Sixty ratepayers were out on Monday night for the special meeting at which it was unanimously agreed to establish a high school, teaching all grades, which will be under way early in September. Chairman W. E. Searle of the school board outlined the proposal which is to be only temporary provided a consolidated high school is established at Creston. An additional $400 was voted on top the $1400 voted at the annual meeting in July, of which latter amount $600 was to provide tuition for Canyon pupils at Creston. With this extra $400 there will be $1000 available for the high school, which will be in the basement on which $100 has been expended on fitting up, with Messrs. Cook and Hewitt in charge. Inspector Manning has approved of the undertaking and is on the lookout for idle equipment which can be used at Canyon. It was announced 15 pupils are in sight for school opening.

Wynndel W.I. Flower Show

Lateness of Season Shortens Display—Sweet Peas and the Roses Best Entered—Have School Children's Display

A number from Creston were at Wynndel Wednesday afternoon for the flower show sponsored by Wynndel Women's Institute, and staged in the community hall. Due the lateness of the season the display was not as large as expected.

The blooms were attractively arranged and the judging in this department was handled by W. G. Littlejoh , of Erickson. With the flowers was also a school exhibit, open to all grades of Wynndel school, which featured writing, drawing and painting. This work was judged by Rev. A. and Mrs. Walker of Creston, and the winners were:

Grade 8—Clara Wittman, Campbell Payette Grade 7—Wicnie Moon, Olive Uri. Grade 6—Jennie Pearson, Sidney Davidge. (Special prize donated by W J Cooper won by Gordon Martell). Grade 5—Rolf Hindley, Frank Hagen Grade 4—Ronald Wall, Rosemary Wolrum. Grade 3—Peter Elasoff, Mike Markin. Grade 2—Doris Huscroft, Kirk Patalla. Grade 1—David Hindley, Vera Packman.

The winners in the flower class were: Asters, Mrs. R Andestad, Miss Ethel Towson. Dahlias, Mrs. A. Joy, 1st and 2nd. Sweet Peas Miss E. Towson 1st and 2nd. Marigold—Mrs. R. Andestad, Mrs. A. E. Hackett. Cosmos, J. Hulme, Mrs. R. Andestad, J. Hulme. Gladioli—Mrs. A. Joy, Mrs. R. Andestad. Snapdragon, Mrs. Hackett, Mrs. R. Andestad. Carnations, Miss E Towson, 1st and 2nd. Rose, Mrs. A. Joy and Mrs. W. Towson

In connection with the fair the ladies served tea and light refreshments, and there was the hot dog stand. There were also a couple of drawing contests in which a blanket was one by Mrs. Nath orst, and an electric toaster was captured by Miss Nora Payne of Creston.

Erickson

Bob Currie, Tom and Jim Alton were Fernie visitors at the weekend.

Ray Crisler of Tochty is spending a week here, a guest of Ray McKelvey.

Mr. and Mrs. J. Mermet were visiting with Fernie friends a few days last week.

School is due to open Tuesday morning with prospect of an enrolment on a par with last term.

Frank Putnam, M.P.P., was at Harrop on Wednesday, where he officiated at the opening of the annual fall fair.

Mrs. Jarvis and daughter of Regina, Sask., who have been visiting with Mrs. McKelvey, left for home on Tuesday.

Mrs. T. Mercier is leaving this week for Salmo, to join her husband, who is employen there, and where they will reside for a few months.

Mr. and Mr . O. Whittacre returned Tuesday from a short business trip to Calgary, Alberta, and are now occupying the house on the former Sherwood ranch.

Miss Margaret Fraser left last week for Alexis Creek, B.C. visiting at Spokane, Vancouver and Sheshelt en route. Her mother accompanied her as far as the former city.

Miss C. Walker, a former teacher at Erickson school, who has spent the summer in Eastern Canada, is here this week on a visit with Misses Edith and Winnie Paifreyman, en route to her home at Fanny Bay. While east Miss Walker was a visitor with Miss Ruby Martin at Lacolle, Que., and reports the Martin family comfortably settled and prospering

Mr. and Mrs A. Ledeau of Coleman, Alberta, arrived this week and have taken possession of the former Whittacre ranch, which they purchasek some weeks ago, in the Connell subdivision.

The new home of Mr. and Mrs. E. Haskins will be housewarmed next Thursday evening, September 6th, with a bridge drive, sponsored by Erickson Christ Church Guild. Cards at 8.15 and the admission is 35 cents. Everybody welcome.

BRIDGE

Under the auspices of Erickson Christ Church Ladies' Guild, at the new

E. HASKINS Residence
ERICKSON

on

Thurs., Sept. 6

Cards at 8.15 p.m.

EVERYBODY WELCOME!

Admission . . 35c.

Wynndel

Mrs. Garrett left on Monday on a visit with relatives at Calgary, Alberta.

Lester Martell is in the Champion, Alberta, district for the harvest season.

Miss Leah Abbott, who has been holidaying at McBain's Lake, returned home on Friday.

A. Martell, jr., is at present employed at Erickson, where he is driving truck for Ron. Stewart.

J. B. Winlaw's mill has closed down for the season. The cut of logs was complete on Saturday.

Miss Ruth Joy left for Nelson last week, where she has secured employment and will be remaining.

Mrs. R. Berry and children, who have been here on a holiday, have returned to their home at Robson.

W Markin was a patient in Cranbrook hospital last week, where he underwent an opperation for appendicitis.

Mr. and Mrs. Stan Ogenski of Slocan are holidaying here with the latter's parents, Mr. and Mrs. M. Hagen.

Monday, Labor Day, Wynndel post office will be open for one hour only, 8.30 to 9.30 p.m. for mail delivery only.

Miss S. Benedetti, who has been employed at Boswell, passed through to Cranbrook, where she has secured a position.

C. Ogilvie was a patient at Creston hospital last we k. Miss Thelma Andestad was also a day patient, ha ing her tonsils removed.

School is due to re-open on Tuesday next, 4th, with Mrs. McGregor again in charge of the junior room, and Miss Sutton, of Vancouver, as principal.

B. Mackwood of Lethbridge, Alberta; P. McNeil and Mr. Carpenter of Hillcrest, Alberta, were visitors here last week, guests of Mr. and Mrs. A. Martell.

Mr. and Mrs. Taylor and daughter, Marion, of Calgary, Alberta; Mrs. Wade, jr. and sr., of Plymouth, England, are visiting here, guests of Mr. and Mrs. E. Wall.

Mrs. B. Murgatroyd and daughter, Peggy, returned last week from a holiday at the coast, and expect to be leaving shortly to make their home again at Revelstoke.

Wynndel and Sirdar tennis players were at Destinay Bay on Sunday and took on players from Boswell and visitors at the tousist camp. The locals won five of the seven games played.

Mrs. Vic Johnson, Mrs. J. G. Abbott and Miss O. Hagen were the only members of Wynndel Womens Institute who were able to attend Creston Hospital Women's Auxilary meeting on Thursday afternoon. They report a most enjoyable gathering.

Lister

Frank Baker is well along with his painting contracr at the junior room of Lister school.

Frank Yerbury is home again after a two months' stay at points in West Kootenay.

School is due to open on Tuesday morning and will again be in charge of Misses Curtis and Webster.

After a two weeks' holiday supervising things at his ranch, Jos W. Bell returned to Kimberley at the weekend.

Creston Valley Post Canadian Legion September meeting is at Lister schoolhouse on Tuesday, 4th, at 8 p.m.

Mrs. R. Stevens got back on Tuesday from a five weeks' visit with relatives and friends in Edmonton, Alberta.

The trustees have awarded the work of janitor for 1934-35 to Mrs. A. W. Sinclair, who commences duty on Tuesday next.

Rev. M. T. C. Percival will be here on Sunday for 11 a.m. Anglican service, which will include a celebration of Holy Communion.

Unless a very heavy wind blows up further damage from forest fires seems remote. The blaze here has pretty well burned itself out and the crew has been reduced to one man, R. T. Millener, who is patrolling the area.

Fred Huscroft and Wallace Sinclair have been fortunate enough in catching on at harvesting work in the High River, Alberta, section.

B. B. Stallwood of Nelson arrived at the end of the week, and with Mrs. Stallwood, is a guest of the latter's parents, Col. and Mrs. Lister.

A. Daus and E. Herman have joined the Listerites who are putting up hay on the flats. P. Rylan is working with J.W. Pendry who is hay cutting on the Garretson acreage on the south end of the Reclamation Farm.

Pears Finished Prunes Started

Mixed Cars Dominate Shipping—Wealthys Still Come Strong—Prunes Just Starting Roll—New Freight Tariff.

Mixed car shipping still continues to feature the fruit shipping from Creston valley points, with a slight slowing up in the outgo over the past week. So far Alberta centres have been taking the bulk of the shipments.

Wealthy apples are much to the fore in these assorted cars, with some Gravensteins which are more popular than for some time past. Crabapples, pears, plums, cucumbers, tomatoes and peppers complete the load. The season's first straight car of apples rolled last week to Winnipag from the Long, Allan & Long shed at Erickson. It was a car of household Wealthys.

Wealthys still continue deficient as to color, but color or no color, a rush order to finish the harvest of these may be looked for next week, in order to clear the way for the Macs, which are showing more red than the Wealthys Up to the middle of the week the estimate was that half the Wealthys have been gathered.

Pears will be cleaned up this week. Bartletts have all moved but there are still some Flemish Beauty to come in. Hyslnp crabapples are arriving, along with some prunes, but it will be early in the week before the latter will be available in quantity. Prunes are counted u on to be popular as they will be pretty well tree ripened and are to hit the market at a likely time; with the holidays over preserving will be the order of the day in many homes.

In connection with pears and plums the Exchange pre cooler is again demonstrating its worth. With cold storage it has been possible to hold back plums until sufficient had accumulated to go out in the preferred mixed cars, which take a minimum of 24,000 pounds if they carry 5000 pounds of stone fruit; otherwise the minimum is 30,000 pounds. With storage for pears it has been possible to assemble this fruit in the rather limited quantities specified in mixed car orders

The apple market still continues to look good. In Eastern Canada the shortage is apparent in the some considerable movement of Wealthys from the Okanagan to Ontario and Quebec centres, and the increased number of enquiries for later varieties. For the overseas trade prospects are equally encouraging. Enquiries are more numerous, and prices offered show a nice raise from those of a month ago.

The C.P.R. put into effect a new freight tariff on Tuesday. Shipping houses report the new rates as lower compared with the previous tariffs, but not quite so good as the lowered rates that were available most of last season. There is no change in the rate on export but a cut of almost 25 per cent. has been made on apples destined for sale in eastern Canada.

Cherry growers shipping through the Exchange will get their statements and cheques this week, and while prices will not enable ranchers to spend the winter in the south, returns will certainly be somewat better than some of the pessimists have been forecasting. Payments will also be made on raspberries.

Boswell's contribution to shipping is confined pretty well to Red Gravensteins, which are enjoying quite a popularity. They will move about two carloads of these, mostly household.

AT THE HOSPITAL

Miss Mary Bell, Ernest Maranda, Willie Hurack of Creston, and Mrs. A. Barnes of Canyon are improving.

Clarence Ogilvie and Mrs. T. Sulem, of Wynndel; Mrs. O. Goriepy and Joyce Donkin, Creston, are undergoing treatment.

Mrs. Ed. Lewis and W. T. Gilchrist, Creston, and Thelma Andestad, of Wynndel, received treatment and returned home.

Mrs. Joe Mermet of Erickson underwent a major operation on Tuesday, and is progressing as well as can be expected.

WORLD HAPPENINGS BRIEFLY TOLD

Raymond Poincare, former premier of France, who "saved the franc" in 1925, recently observed his 74th birthday.

The price of flour in London was reduced one shilling per bag of 280 pounds. The new price is 31 shillings and sixpence including the four shillings provided by the Wheat Quota Act.

Premier Mitchell F. Hepburn, of Ontario, declared his government would welcome introduction of unemployment insurance by the Dominion administration.

Ten United States army bombing planes, comprising the Alaska flight squadron, landed at Bolling field, Washington, recently, completing their 10,000 mile round trip to the north.

Kidnapping, not murder, is the most heinous crime of this era, B. K. Sandwell, editor of the Toronto Saturday Night, declared in a recent address.

The discovery of a vegetable fluid which may supersede the use of blood for purposes of transfusions was made known to the delegates of the 26th annual convention of the Vegetable Growers' Association of America at Toronto.

Premier Benito Mussolini is not necessarily unfavorable to restoration of a monarchy in Austria or even over a combined Austria-Hungary, he told Archduke Otto Von Hapsburg in a secret interview recently in Italy.

"We shall not only oppose a recommendation of a 40-hour week as the means for relieving unemployment, but we are firmly opposed to such a system," was the conclusion of an inquiry by the League of British Industries, in a report on the question.

Amy Johnson Mollison will be the first woman pilot on the regular cross-channel service. She accepted a post as commercial pilot with Imperial Airways, explaining she wants the maximum practice before she enters the London-to-Australia air races with her husband next October.

Prospecting for diamonds will be undertaken for the first time in British Columbia's history by Thomas W. Hindmarsh and George Ogsden, both of Vanderhoof, B.C. Leases on two 10-acre pieces on the Nechako river, sought by the two men for this purpose, were approved by the provincial cabinet.

Wheat Exports

Total Exports For Past Twelve Months Show Falling Off

Wheat sent to the United Kingdom in July totalled 8,214,546 bushels of the value of $6,575,382 compared with 10,372,234 at $7,861,321 a year ago, the bureau of statistics announced. The total export of wheat to all countries during the past 12 months was 70,000,000 bushels less than in the previous 12 months and to the United Kingdom about 42,000,000 less.

July export of wheat flour to the United Kingdom was 264,595 barrels, valued at $935,326, compared with 235,044 valued at $824,972 a year ago. The export to the United Kingdom in the past 12 months was 2,718,114 barrels, valued at $9,331,958, compared with 2,373,063, valued at $7,639,050 in the previous 12 months. The export to the United Kingdom is about half of the total export to all countries.

Must Be A Habit

Magistrates Free Man Because Change Carried In Left Pocket

In which trouser pocket does a man carry his change? The question arose in a recent case in a Rhyl, Wales, court. A man accused of stealing a shaving brush from a drug store said he placed it in his right hand while he put his left hand in his pocket for the money. The druggist then showed him a dearer brush, which he bought. Near home he found he still had the cheaper brush in is right hand and before he could return it the police came. After his testimony the magistrates placed their hands in their trouser pockets. Their money was in their left-hand pockets, and they freed the man.

Living In Poverty

But Paul Poiret, Famous Dress Designer, Expects To Stage Comeback

Still living in his penthouse apartment in Paris, but dependent for food and clothing upon charity and a 70-cent daily unemployment dole, Paul Poiret is dreaming of a comeback in the dressmaking realm he once ruled.

"I spend most of my time with scissors and cloth," said the former king of Paris dressmakers, as he told of his misfortune. "I cut out dresses. Sometime someone will buy one and I will start on the road back to success."

"I haven't given up," he declared firmly, although he has been out of work for 18 months and stands in line with thousands of others to get his card punched and receive his dole.

He does not know how much longer he will be able to keep the penthouse apartment, sole remaining sign of his former great wealth.

Once Poiret's entertainment in his chateaux and his three yachts attracted the aristocracy of the world.

Folks Are Generous

Detective Dressed As Mendicant Collects $40 In Six Days

A Scotland Yard detective disguised himself as an ex-sailor selling matches, when he was in search of a "wanted" man. In this disguise he stood on a prominent London sidewalk for six days and eventually secured his man. He also received nearly $40 from kind-hearted passers-by. Most of the contributors merely passed him a copper or two without bothering to take his matches.

Authorities of Scotland Yard have ordered the money to be paid into police funds.

Glass domes have been installed on British military aeroplanes to protect machine gunners from wind and increase the accuracy of their firing.

Little Journeys In Science

INSECTICIDES

(By Gordon H. Guest, M.A.)

Insecticides are classified into poison sprays, or stomach poisons, and contact poisons. The former cause death when taken internally, while the latter bring about destruction of life by mere contact. Pyrethrum belongs to the contact class of insecticides. Arsenic compounds are usually found in poison sprays. Finely divided lead arsenate suspended in water is used extensively and is very effective. Calcium arsenate is much cheaper and more abundant than lead arsenate. It is used to wage war against the bollweevil, which is very destructive to the cotton plant. It is also used to destroy the potato beetle. Aeroplanes are employed to drop the calcium arsenate in the form of a fine dust upon the cotton plant.

Oil emulsions, produced by the addition of fish-oil soaps to oil, are used to a considerable extent. Nicotine, a complex compound found in tobacco, is rapid and effective in the destruction of insects. Lime-sulphur spray is used against scale insects. This is prepared in concentrated form by boiling together water, sulphur, and slaked lime. Prussic acid is used as a fumigant in greenhouses and on nursery stock. It is an extremely poisonous substance.

Many of the poison gases used in the late war have been tested to discover if they might be used in the warfare against insects. One of these, chloropicrin, is the most promising. Only a few of the more important insecticides have been mentioned. Science is continually developing new destructive agents and more efficient ways of applying them in this everlasting struggle of mankind against insects and fungi.

It's easier for a woman to hold a strong man than her own tongue.

"JACK MINER AND RELIGION"

By REV. W. E. McKILLOP, D.D.

Jack Miner, the Canadian naturalist, lecturer and author, was recently asked to what were his religious beliefs. The bird lover paused for a moment and then quietly replied very emphatically:

"I believe in any religion that is for the betterment and uplift of humanity. I belong to the Methodist Church, which is now part of the United Church. I suppose the principal reason for this is, when I was but 24 years of age, I was married; my wife belonging to that church. As I belonged to no church then, I felt it my duty to go with her. I firmly believe there would be more happy lives and happy homes if husbands and wives attended the same religious services, whether it be Roman Catholic or Protestant.

Well, you say you believe in any religions that are uplifting and for the betterment of humanity, and yet you belong to the United Church."

"I believe," replied Jack Miner, "every man should belong to some church which gives him one central place of worship and which will cause him to take a more active part in Christianity than he would if he drifted from one church to another."

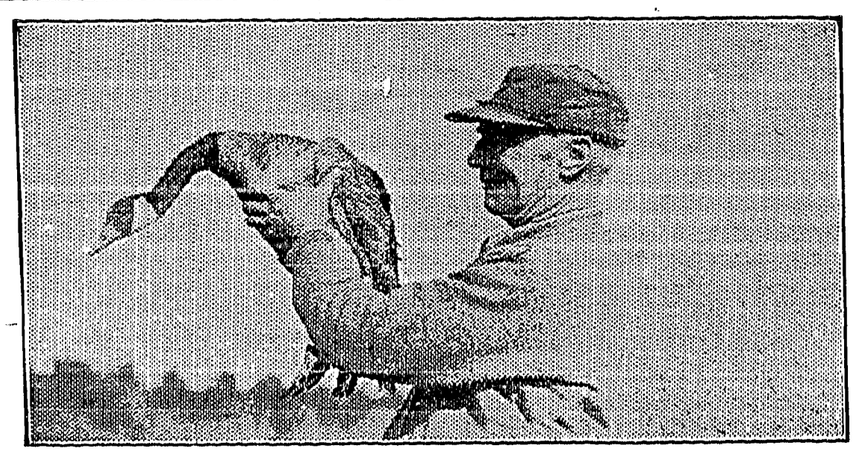
"When you have been away from home every Sunday, I have seen you making your way to various services in different churches, from early Roman Catholic mass to the Jewish Synagogue. Why do you drift around like this?" asked the reporter.

"Well," said Jack Miner, "it's an education and keeps a man from becoming too narrow-minded and broadens his spiritual side of life. I always make it a point to try to be home with my family for Sunday worship but occasionally on long lecture tours, I am unable to be there. But, I will say this, when I am away, I try to attend some religious service and I receive a blessing by attending it, no matter in what church or service it may be."

The next question asked the famed naturalist was on his opinion of church union:

"That is something I have not thought very much about, except in this way; if we want to do big business financially, we amalgamate our banks. So if we want to do big business for Christianity, why not amalgamate our churches? We don't worship our churches, or at least I hope we don't," said the naturalist. "We worship God. So if we can do greater things in the Christian world at home and abroad by uniting three Christian churches, then I'm in favor of church union." "But," he continued "it always takes time to get things working harmoniously and I am only sorry church union wasn't unanimous, for it is so much nicer when all are of one accord and things go smoothly."

Jack Miner himself possesses a unique personality. His sanctuary might be similarly termed. Those who know his home are aware of the two entrances, one through the baseball diamond, which he keeps for the boys of the community, and the other directly in front of his home. A cement path, in which a motto is engraved, runs from each entrance. That through the baseball diamond contains the inspiring quotation: "Rejoice and be ye glad!" And that in front of the house, "We thank God for our home".



Jack Miner about to liberate a tagged Canada Goose to study their route of migration. One side of the tag has Jack Miner's Post Office address, while on the opposite side of the tag is a verse of scripture, which is Jack Miner's unique way in spreading the Gospel to the Indians and Eskimos of the far north.

SUNDAY SCHOOL LESSON

SEPTEMBER 2

Golden text: "He hath showed thee, O man, what is good; and what doth the Lord require of thee, but to do justly, and to love kindness, and to walk humbly with thy God?" Micah 6:8.

Lesson: Micah, chapters 2-4 and 6.1—7.6.

Devotional reading: James 1:22-27.

Explanations And Comments

A Dramatic Scene: God Presents His Indictment of the Faithless People, verses 1-5. The prophet Micah, in a burst of oratorical passion, declares that God will contend, or plead (the figure is that of a complainant in court), with the people before the mountains, as judges. "Hear, O ye mountains, and ye enduring foundations of the earth," the prophet cries; "for Jehovah hath a controversy with his people, and he will contend with Israel." The mountains are spoken of as "enduring", for they have outlived many generations of peoples.

Jehovah now speaks. He is the plaintiff; the prophet is his attorney; Israel is the defendant; the mountains are the judges. "O my people," Jehovah exclaims through his attorney, "what have I done unto thee? and wherein have I wearied thee? testify against me"—show cause for your disobedience. No answer comes, for the only answer that could be made is that the fault lies in the people, not in Jehovah.

The Divine Conception of True Religion, verse 8. To all of this, verses 6 and 7, Micah replies with what is the greatest saying in the Old Testament, which combines the characteristic messages of Amos, Hosea, and Isaiah. The keynote of Amos' teaching, as we have seen, is justice; that of Hosea, love; and the characteristic note of Isaiah's message as we shall shall see, is humble fellowship with God. "He hath showed thee, O man, what is good (good is here synonymous with obedience to the will of God), and what doth Jehovah require of thee but to do justly, and to love kindness, and to walk humbly with thy God?" With this definition of religion may be compared the last verse of our text from Amos two weeks ago: "Let justice roll down as waters, and righteousness as a mighty stream"; last week's Golden Text from Hosea: "I desire goodness, not sacrifice; and the knowledge of God more than burnt-offerings"; and verses twelve and thirteen of Deuteronomy 10: "And now, Israel, what doth Jehovah thy God require of thee, but to hear Jehovah thy God, to walk in all his ways, and to love him, and to serve Jehovah thy God with all thy heart and with all thy soul, to keep the commandments of Jehovah and his statutes?"

Recipes For This Week

(By Betty Barclay)

ORANGE NUT BISCUITS

(Makes 18 medium sized biscuits)

2 cups sifted flour
4 teaspoon baking powder
1 teaspoon salt
¼ cup sugar
¼ cup shortening
½ cup finely chopped nuts
1 egg
Orange juice
1 tablespoon orange marmalade.

Sift dry ingredients together. Cut in shortening. Add nuts. Beat egg; pour into measuring cup; add enough orange juice to make ⅔ cup. Combine with dry ingredients and add marmalade. Knead a few seconds on slightly floured board. Cut and bake in hot oven (425 degrees F.) for 10 to 15 minutes.

Note: A little more orange juice will be needed with some flours to make the dough soft.

CARROTS AND PEAS

2 cups cubed carrots
1 cup cooked peas
3 tablespoons butter
3 tablespoons flour
½ teaspoon salt
⅛ teaspoon pepper
2 teaspoons sugar.
1½ cups milk.

Boil the carrots until tender. Combine with the cooked peas, reheat and serve with melted butter or make a sauce of the flour, butter, milk and seasonings, add the cooked carrots and peas, reheat and serve hot.

Office Boy—"I ain't feeling so good; kin I have the afternoon off?"

Boss—"Why don't you tell me your grandmother is dead?"

Office Boy—"I'm saving her for later in the season."

It takes a wise man to give a woman advice without incurring her enmity.

Agricultural Notes

Interesting Items Gleaned From Many Sources

Canada exported 37 live cattle to Hong Kong, China, for dairying purposes during the first three months of 1934.

Hogs graded in Canada during the 32 weeks of 1934 up to August 9, totalled 1,882,717, as against 1,968,651 in the corresponding period of 1933.

The general effect of the customs changes in the Fiji Islands is to increase the margin of preference to imports from Canada and other Empire countries.

There has been more tomato puree, tomato sauce and ketchup, and tomato soup imported into the British Isles from Canada than from any other country during the first six months of 1934.

Reports from Moscow show that there has been considerable difficulty in the Russian production of harvesting machinery, particularly harvester combines, and this has had an effect on harvesting arrangements.

The total stocks of Canadian wheat in Canada on July 31, 1934, were 193,322,863 bushels—18,417,325 bushels less than the total on the corresponding date in 1933, but 61,478,057 bushels more than on July 31, 1932.

Shipments of livestock from Western to Eastern Canada for the 31 weeks of this year, up to August 2, (1933 figures within brackets) included 48,575 (33,062) cattle; 484 (145) calves; 140,015 (199,375) hogs, and 45,000 (33,945) sheep.

For the first six months of 1934, Canada exported to the London (England) market the following canned fruits: 71,722 cases of pears; 14,385 cases of loganberries; 2,882 cases of peaches, and 40,964 cases of canned apples.

A trial shipment of Ontario apples in hampers made in 1933 to Egypt has been well received. It consisted of Ganos, Baldwin, and Ben Davis, mentioned in order of preference. The Ganos in particular, says the Canadian Trade Commissioner in Egypt, should be able to find an outlet in Egypt so as to meet the demand for red apples.

The meat from which soup has been made becomes rather tasteless, but it still contains most of its nourishment. Therefore, it may be used in hash, meat pies and ragouts, where the flavour of vegetables and seasoning compensates for the lack of meat flavour.—Beef, How to Choose and Cook It, Dominion Department of Agriculture Bulletin.

The Japanese wheat crop of this year is estimated at 44,491,150 bushels. It is considered that the annual consumption of wheat is about 45,000,000 bushels, so that the five-year plan instituted two years ago by the Japanese government to grow sufficient wheat for domestic purposes seems to be almost attained in the second year of the attempt.

Latest estimates of wool production for the five principal exporting countries (Australia, New Zealand, South Africa, Argentina, and Uruguay) for the 1933-34 season which has just ended (except in South America) point to a net decrease, greasy basis, of nearly 200 million pounds, or 9 per cent., in comparison with the 1932-33 season.

Open Cans With Claws

Glacier Park Bears Enjoy Everything But Spinach

Glacier Park bears eat anything that comes in cans—anything except spinach—according to Dr. George R. Ruhle, chief naturalist.

Ruhle found a ranger's cabin that had been broken into. Every can had been opened.

"The bears had eaten everything," he said, "except the spinach."

To sceptics who doubted the bears' ability to open tin cans, Ruhle explained:

"They just ram a claw through the tin and draw it around the edge—as slick a job as any can opener will do."

A new radio typewriter has transmitted a weather map with tabulated weather data in 7½ minutes, as compared with about 15 minutes required by the wire machines now in service.

Boys Girls

Here's a PAINTING BOOK FREE for the asking!

● And a chance to WIN one of the many fine prizes!

You are just going to love the Painting Book prepared for you by the makers of Keen's Mustard... pages of dandy pictures that you can colour with your own paints or crayons!

Tell Mother you are going to the store to get a KEEN'S GIFT BOOK!

Get your copy right away, for your dealer has only a limited number for free distribution, and we don't want YOU to miss out on this gift. You, too, will say "It's as Keen as Mustard!"

And maybe you will win a fine prize—in money, a bicycle, roller skates or a ping pong set, baseball, bats or dolls or doll's carriage, etc. Wouldn't that be grand?

Remember, you don't have to buy anything to get this book, though when you tell Mother she will probably want you to bring a tin of KEEN'S MUSTARD back with you. So get busy. Ask for your book today. Start painting and show folks what a swell artist you are.

If you cannot get the Book from your grocer, write to us for it, enclosing 2c stamp to cover cost of mailing and packing. Address 1000 Amherst St., Montreal, P.Q.

KEEN'S D.S.F. Mustard

OCCASIONAL WIFE

By

EDNA ROBB WEBSTER

Author of "Joretta", "Lipstick Girl" Etc.

SYNOPSIS

Camilla Hoyt and Peter Anson, young and in love, marry secretly, deciding to live their own lives apart until Peter is able to provide for her. Peter is a young, struggling sculptor trying to win a competition for a scholarship abroad and Camilla is the adopted daughter of a wealthy family. She is not to inherit money when she comes of age and so is studying commercial art in the hope of landing an agency job. Others in the story are Avis Werth, another wealthy girl who is trying to win Peter, Sylvia Todd, Peter's model, and Gus Matson, his former roommate with whom he has quarrelled. After a party at an exclusive club, when the rest of the members of the party go to a cabaret to continue the gaiety, Peter and Camilla slip off to the beach by themselves and fall asleep on the sand. When they awake it is early morning and Avis and another boy are standing near them. This makes it necessary for Camilla to announce before the party that she and Peter are married. Camilla urges Peter to accept some of her earnings to help him along, but Peter refuses and they quarrel. After Camilla has gone from the studio, Avis Werth calls and persuades Peter to accept a loan of $1,000. Peter finishes his exhibit and asks Avis and Camilla for suggestions as to a name for it. Camilla suggests "Eager Youth," and Avis "Inspiration". Peter adopts the latter title and Camilla, heartsick, goes to Peter's studio for quiet and to think. Peter and Avis follow later, and as the lights are turned on, see the statue has been shattered to pieces. Avis accuses Camilla of doing this, and Camilla, stunned by the disaster, and hurt and horrified by the accusation, faints.

At Camilla's suggestion, Peter enters as his exhibit a statue he had sculptured especially for her as a wedding gift. They named it "Land of Hope".

Camilla's advertising campaign and Tiny Tots broadcast was a great success, and Mr. Hoyt expressed his pleasure and surprise on learning that Camilla was the author and artist who was so ably stimulating business for his company.

Peter's exhibit was awarded the Paris scholarship, and he prepares for his journey to France. After the ship's departure from New York, he is on his way to his cabin when he meets Avis Werth.

(Now Go On With The Story)

CHAPTER LVIII.

It was in such a mood, when Peter had been exceptionally gentle and solicitous during the evening, that Avis ventured upon a long-dropped subject while they smoked and talked in a secluded corner of the deck together. He had not mentioned Camilla's name in her presence that day, and she risked the remark after referring to Camilla first in a casual manner.

"Poor little impulsive thing! I suppose it accounts for her genius. A girl like that never should fall in love. Her emotions are too violent, and jealousy is always her fatal undoing—like her breaking your statue. I'm sure you forgave her for that, after what happened."

He turned quickly to face her. "Why, Camilla never did that!"

"Oh—" she caught her breath softly, "then she didn't tell you, after all?"

"Tell me what?" sharply.

"Why—all about it. She came to me the next day and begged me to help her some way to make it up to you. I supposed she had told you, after the way you won the exhibit."

"You don't mean—that she deliberately destroyed it, and then—" desperately.

Avis gestured hopelessly. "She wasn't really wholly to blame. Just saw red, or green, whatever jealousy makes you see, and did it in a sudden fit of revenge—then instantly regretted it." Her voice was smooth, soft, convincingly sympathetic.

Peter was silent for awhile. Finally, he asked in a hollow voice, "But what did she come to you about?"

"Told me that she had persuaded you to enter the other group in the exhibit and begged me to try to influence Uncle John and the committee in your favor."

He sat forward suddenly with a groan. "Is that—why I—?"

She shook her head with a slow smile. "On my honor—no, Peter. I went to see him, but his vote already was cast for you and I hadn't a thing to do with it. As for his influencing the committee, I knew that was impossible and never suggested such a thing. It would have hurt his pride to allow him to think that I would venture to persuade him. Fortunately, it turned out all right for you. It was obvious that Uncle John was not the only one who voted for your piece, but it happened that his vote was the deciding factor. You won by a single vote."

He smoked in silence again, and she was wise enough not to intrude then into those hurt, bewildered thoughts which she knew were struggling within him. After awhile, she reached over and touched his hand lightly.

"I'm sorry, I shouldn't have mentioned it, but I have felt so sorry for Camilla all this time and I think about it often. She must be very madly in love with you to have done a thing like that."

"Mad enough," he exclaimed with vehement coldness, "but that can't be love! How could anyone be cruel to the one you loved?"

She hesitated then, "I'm sure I couldn't, but there are all kinds of love, you know. Camilla is so emotional that she expresses everything she feels in action. But there is also deep, quiet, steadfast love."

"How do you know so much about it?" he asked colorlessly.

She drew a quick breath, sighed. "Ah, that is another story—that I—couldn't tell you, Peter."

"You have been — hurt, too?" gently.

"Not—by love But what is one to do when there is no love with which to be hurt?"

He hesitated a moment. "Then you are in love with some man who doesn't—reciprocate?"

She nodded silently her head resting against the back of the chair and her half-open eyes watching him covertly.

"I'd say he was all kinds of a sap not to wake up and find himself," Peter declared forcefully, then sighed deeply. "Gosh, this love business is a wild, untamed thing, anyway. Why do people select their life partners by impulse and emotion instead of by practical reasoning as we venture into any other kind of business?"

"Because there is no getting away from love, I guess," pensively.

"Well, what is it, then? How do we recognize it when we do find it? Why isn't it complete for us?"

"Why, Peter, you talk as if you never had been in love!"

"Why?" tersely.

"Because you would know the answers to all those questions."

Silence Then "Well, I don't." He could not escape from that strangling sensation which Avis' revelation about Camilla had given him. The thought that she, his precious Camilla, would so betray and humiliate him at the very climax of his ambitious efforts tortured him life the closing efforts tortured him like the closing of a garrote around his neck. He might have doubted her guilt, had Avis not told him so simply and as if unaware that she was betraying the other's confidence in her No, it was true enough; but the more he revolved the thing in his mind, the more confused and hurt and angry he became.

He brooded in silence for awhile, into which Avis did not intrude. Finally, he arose impatiently as if the inertia of sitting quietly was no longer to be endured. "Should you like to go in?" he asked tensely. "I'm not much of a companion this evening This thing has got me—about Camilla. I hope you understand that I'm not—"

"Of course," she interrupted kindly, "I'm only so sorry that I mentioned it, Peter."

"I'm glad—mighty glad to know it," he contradicted. "More than anything else, I hate deceit. It helps a lot to know just how things stand."

"Well, don't you do anything rash—like jumping overboard."

"Not on your life I think I have discovered one more thing tonight—that love isn't worth all the suffering we take with it."

"Oh, Peter, dear don't be cynical," Avis pleaded

"I'm not. Only being sensible."

She laughed softly "You are much too romantic to renounce love. Get a hold of yourself, please. Good night, Peter."

He smiled down at her with a new tenderness. "Good night, little pal."

She carried away with her the light in his eyes, hugging it to her heart; remembered the vehemence of his renunciation of love. That would do for a beginning, she exulted. If she could take him along that far toward her goal within four days, what might she not accomplish in a year? By that time, she could make him wonder what he ever saw that was attractive about Camilla. She would make herself indispensable to his life.

Camilla resolutely followed the routine of her days and thanked the benevolence of blessed, fatiguing, mind-occupying work. If two days could be so interminable and wretched as this, how was she going to endure the year ahead of her? She tried to convince herself that as time passed, she would become accustomed to Peter's absence and would be happier. But she did not want time and absence to dull her need of Peter. If so, what then? She would have nothing left Nothing for which to live and hope and work. Life then would be just a monotonous existence, without aim or reason or pleasure.

And what if Peter, immersed in his work, involved in his new life, discovered that his longing for her was dulled? Protest beat with broken wings within her breast.

Resolutely, she put her thoughts aside and summoned her will to concentrate upon the fictional lives of her characters. She was working at the office, but nowhere could she prevent her thoughts of Peter entering.

Her secretary announced a gentleman to see her. "He said it was urgent, but would not give his name," Miss Scott explained.

Camilla frowned with annoyance. "Probably another high-class beggar who got in with his air of importance. This radio publicity makes me a good target for such people. I'll see him for a minute."

MADE-IN-CANADA GOODS

Little Helps For This Week

"Study to show thyself approved unto God, a workman that needeth not to be ashamed." 2 Timothy 2:15.

"And let us not be weary in well-doing; for in due season we shall reap if we faint not." Galatians 6:9.

The task Thy wisdom has assigned,
Oh, let me cheerfully fulfill;
In all my works Thy presence find,
And prove Thine acceptable will.
—C. Wesley.

What is my next duty? What is the thing that lies nearest to me? That belongs to your every-day history. No one can answer that question but yourself. Your next duty is to determine just what your next duty is. There may be something you neglect, or something you know you ought to do. You would know your duty if you thought in earnest about it and were not ambitious of great things. If it is something commonplace that will make life dreary it will soon lead you to something more. Your duty will commence to comfort you at once, and will at length open the unknown fountain of life in your heart.—G. MacDonald.

The coldest inhabited spot on earth is Verhoyansk, Siberia.

King Owns Rare Stamp

In King George's stamp collection there is a five pound stamp which was prepared when the late King Edward come to the throne. The stamp was designed and engraved and some of the issue printed, but it was decided not to use it and the general public never saw the stamp.

"Look here, manager—two years ago I dined here and couldn't pay my bill. You threw me into the street."

"Indeed, sir? I'm very sorry, sir."

"Don't mention it. I'm afraid you'll have to do it again."

"Blue" Spells

Reduce some women to the petulant shadow of their own smiling selves. Others take the Vegetable Compound when they feel the "blues" coming on. It steadies quivering nerves . . . helps to tone up the general health...gives them *more pep . . . more charm.*

He'll know what to do next time

Blake Baldwin, who had just arrived in town on business, sat in the hotel lobby looking decidedly "down in the dumps." An acquaintance eyed him with concern and asked:

"Why the sad expression?"

Blake raised his head. "To tell you the truth," he said, "my thoughts were at home. My little girl took sick just before I left on this trip, and I've been worrying about her ever since."

"Why don't you call your home now by long-distance telephone?" said the other.

"Jove! That's a great idea," said Blake, darting for the telephone booth. A few minutes later he emerged, smiling.

"Everything's O.K.," he said. "The little girl's better. And thanks for the tip about the telephone call. I'll know what to do next time."

PETER MARKEN, Applicant.
Dated July 23, 1934.

Local and Personal

Due to shortage of space we are compelled to hold over till next week a letter to the editor on municipal affairs.

Mrs. Curran of Nelson was a holiday visitor with Mr. and Mrs. W. J. Craig. She returned Thursday morning.

Rev. Dr. Douglas of Vancouver, superintendent of Presbyterian Missions in B C. and Alberta, was here on official business yesterday.

The September meeting of Trinity Tnited Church Ladies' Aid will be at the home of Mrs. Fred Smith, at 3 p.m. Thursday 6th.

The school trustees have decided to have the school kalsomined along with some other necessary repairs. A new flagpole is also to be erected.

Miss Violet Brown of Edmonton Alta., arrived on Saturday on a visit with her sousins, W. H. and T. J. Crawford. a guest at the home of the former

Monday is Labor Day. a statutory holiday, and all places of business in town will be closed. The postoffice wicket will be open from 10 to 11 a.m. only.

Mr. and Mrs. R. B. Staples of Kelowna were renewing acquaintances in Creston at the first of the week, and were guests of Mr. and Mrs. F. V. Staples.

Mrs. John E. Johnston re-opens her class on September 1st, in in pia 'o playing and theory Pupils coached for festivals and examinations. Studio, Hillside Road.

Presbyterian Church services are being held regularly at West Creston schoolhouse each Sunday afternoon at 4 o'clock, by the pastor of St. Stephens, Rev. A. O. Thomson.

Creston Wolf Cubs will reassemble in the Parish Hall on Saturday, September 1st, at 10.30 a.m. All boys wishing to join must be eight years of age, and have the consent of their parents.

Christ Church Anglican Sunday school will resume next Stnday, at 10 30 a.m. Two new classes have been forned, and will be in charge of Mrs. M. T. C. Percival and Mrs. W. H. Cartwright.

Mr. and Mrs. F. C. Rodgers got away by auto on Monday on a combined business and pleasure trip to points in the Okanagan. They went via Spokane and will make a stay at Wenatchee, Wash.

The exterior appearance of Creston Motors building at Barton Avenue and Canyon Street is being improved with the putting on of a new coat of stucco. The work is in charge of A. A. Bond of Canyon.

Sirdar

J. Geno has secured employment at the Borosoto ranch during the haying season.

Mr. Jones, district engineer, was a businesf visitor here later proceeding to Nelson by car.

George Connell of Erickson was a visitor at the home of Mr. and Mrs. James Wilson, Sunday.

John Rogers left early last week for Grand Forks where he will be the guest of Robert McCabe for several days.

Misses Frances and Sylvia Talarico were visitors to Cranbrook last week, where they were staying with friends.

C. Moore is making a survey of the new highway near the quarry. It is over this part the heaviest rock cut will be encountered.

The water guage at Slough bridge reads 4.00, a fall of 0.30 for the week. The water level as it exists today makes the hay transportation easy.

James S. Wilson was a business visitor to Creston, Friday.

Mr. Deverson of Crawford Bay was a business visitor to Atbara, Saturday.

F. Martello has accepted the principalship of Sirdar school for another year. His appointment will mean the inauguration of first year high school at Sirdar.

Robert and Murray McCabe returned to their home in Grand Forks at the beginning of last week, after a holiday spent here the guest of Mr. and Mrs. T. Rogers.

Alf. Palmer road superintendent, Creston, was here at the beginning of the week, inspecting the highway. Graveling has now commenced over the recently made highway in this sector.

J. MacGregor, C.P.R. lineman, was here for several days removing the telegraph wires across Slough bridge to a temporary position so that the wires would not interfere with the handling of piles.

Those attending the dance at Boswell on Saturday evening were: Misses Margaret and Daisy Rogers, Hughie Simpson, Mr. Gustaveson, Frank Hamilton, Dominic Pascuzzo, Alfred Bysouth and Charles Wilson.

Mr. Borosoto, of the People's meat market, Trail, was here at the beginning of the week for the purpose of arranging the extensive hay cut required for his (the late I. Lewis) ranch. Gus Bendetti of Wynndel will be in charge of operation.

C. A. Cottrell, general superintendent, and W. Neal, general manager, C.P.R., made an inspection of the new work underway at the Slough bridge at the begining of the week; proceeding westward by trackmotor later. Good progress is being made with the pile driving.

Hospital Women's Auxiliary

Creston Hospital Women's Auxiliary met in regular August session on Thursday afterno n last. The president, Mrs. R Stevens, was in the chair, and 25 members were in attendance, along with number of visitors from the Canyon and Erickson Anxiliaries and Wynndel Women's Institute.

Reports were received from Mrs. Hare, representative on the hospital board, as well as from the buying committee. Mrs. McKenzie and Mrs. John will be the visiting committee for the next month.

It was decided that the proposed Made-in-Canada exhibition and sale be held on Saturday, September 29th. Following the regular business there was an hour of sociability. Mrs. Stevens spoke of the pleasure it gave the local auxiliary to have so many visitors present.

A short programme was submitted to which a piano solo was contributed by Miss Evelyn Olivier, solos by Mrs. F. Rose and Mrs. J. P. Ross, recitation by Mrs. George Jacks. Tea was served by Mrs. W. L. Bell, Mrs. A. E. Davies, Mrs. McKenzie, Mrs. Fransen, Mrs. J. Foster, Mrs. Speers and Mrs. F. Staples.

Legion Auxiliary Meets

The August meeting of the Ladies Auxiliary to Creston Valley Post Canadian Legion was held on Tuesday evening, with the president, Mrs. W. V. Jackson, in the chais, and 14 members answering roll call.

Correspondence for the month was very light. Mrs. R. Watson submitted a very satisfactory financial statement for the year. Mrs. F. Putnam turned in an equally good report for the visiting committee which had been active in looking up sick in their homes as well as the hospital, remembering those visited with flowers and gifts.

A social gathering and cup and saucer shower was arranged for Wednesday evening for members of the auxiliary and their husbands. Mrs. John Hall, Mrs. D. Ross and Mrs. Powell very kindly donated the prizes. The sale of poppies was discussed and it was decided to have the secretary write early to various local bodies in the hope of receiving orders promptly. Three-month committees were struck, as follows: Ways and Means—Mrs Powell, Mrs. Vigne, Mrs. Johnston and Mrs. J. Andrews. Social—Mrs. Putnam, Mrs. Ross. Sick committee—Mrs. Hall, Mrs. Putnam. The supper hostesses were Mrs. Andrews, Mrs. Cowling and Mrs. Gardiner.

FOREST FIRES
in BRITISH COLUMBIA

2000 fires each year.

$2,000,000 wasted each year.

500,000 acres denuded each year.

300,000,000 feet of lumber destroyed each year.

Most of these fires are the result of carelessness.

"Old Timers"

THE EATON Fall and Winter Catalogue, that has just been delivered to its hundreds of thousands of readers throughout the West, marks the Fiftieth Anniversary of our entry into the business of selling by mail.

The first Catalogue, of course, was published in Toronto, and our first customers necessarily were from the East. But it was not long, surely, before the West—at that time still very much in the "frontier" stage of development—began to avail itself of the convenience of Mail Order buying, and the satisfaction of dealing with EATON'S. And it would be interesting to know who our earlier friends in the West were, and if they are still alive, well, and convinced that "It Pays to Buy from EATON'S."

The other day, for instance, we had a letter from a gentleman referring to a purchase he'd made by mail from EATON'S in 1898. The purchase was a pair of blankets which, incidentally, are still in service! This was 36 years ago, and a friend of 36 years' standing is a friend indeed. But there may be EATON customers in the West today who can recall dealing with us by mail even before that. And it would give us a real thrill to hear from them.

Do you know of any?

The authorities at Ottawa have just named returning officers for B.C. constituencies to be ready for a federal election. For Kootenay West C. B. Garland of Nelson, and formerly of Creston, has been selected.

Mr. and Mrs. Robert Kerr and Mrs. McMillan and daughter, of Midway, are spending a few days in Creston, guests of Rev. A. and Mrs. Walker Mr. Kerr has 30 years service to his credit with the customs department.

Next week's social feature is a bridge at the new home of Mr. and Mrs. E. Haskins. Erickson, in aid of Erickson Christ Church Guild, on Thursday, September 6th, with cards at 8.15 p.m. The admission is 35 cents.

In connection with nominating of a Liberal candidate for the Yale constituency coast papers are prominently mentioning the name of R. B. Staples, formerly of Creston, who contested Kootenay West in 1921 in the Liberal interests.

Mr. and Mrs. R. J. Forbes got back on Tuesday from a few days' visit with the latter's brother at Gleichen, Alberta. On their trip east they were accompanied as far as Claresholm, by Mrs. Forbes' sister, Miss Gooderham, who has been a summea visitor at Creston.

A pretty fine sample of what Erickson soil and irrigation can produce in the way of peaches was on display at the S. A. Speers store yesterday. They were the J. H Hale variety and from the ranch of Bert Young, and were equal to the best—even from Yakima.

At the Presbyterian Church morning service at 11.30 Pastor Thomson's subject will be "How to be Happy." At 7.30 p.m., he speaks on "If Canada Sees Red which Red Should She See." This is a Labor Day topic of paramount interest A cordial welcome to all.

All students intending to register at Creston High School for the first time, are asked to interview the principal before the opening of the fall term. Mr. Levirs will be at the High School for the purpose of interviewing such pupils or their parents from 10 a.m. to 12 noon on Friday and Saturday August 31st and September 1st.

Two-Pant Suit Sale

—

When Mr. GEO. MATHISON

Special Representative of

"CLOTHES OF QUALITY"

VISITS US on

TUESDAY, SEPT. 4th

Arrangements have been made with the makers of "CLOTHES OF QUALITY" for a special price on all TWO PANT SUITS sold during this representative's visit.

He brings with him the newest patterns for Fall and Winter, in the finest of British Woollens. Authentic models from London and New York.

REMEMBER THE DATE

REV. M. C. PERCIVAL, Minister.

CRESTON

SUNDAY, SEPT. 2

CRESTON—8.30 a.m., Holy Communion; 10.30 a.m., Sunday School; 7.30 p m., Evensong.
LISTER—11 a.m., Holy Communion and Sermon.
YWNNDEL—3.00 p.m., Evensong.

Arthur Couling, who is with the West Kootenay Power & Light Company construction crew at Salmo, was home on Sunday. About 25 miles of pole line is being erected to bring in power for some of the mines in that section.

Creston Athletics were handed a 10 8 trimming in a baseball game Sunday afternoon at Exhibition Park with a star team selected from Kitchener and Canyon talent. Niblow and Hale of Canyon did batter work for the winners and Cherrington and Schade for the losers.

Ken. Biccum, Geo. Lacey and H. Nicholson pulled out Monday afternoon for Summit Lake, up Boundary Creek, where they are joining a Dominion government survey party that is working along the international boundary line. They will probably be gone three months.

Word was received on Wednesday that Mr. and Mrs. W. Fraser, who have been on a visit in Scotland and England since early in July, were leaving from Windsor, Ontario, via Chicago, for Creston. They are traveling in a new 1935 Dodge coupe, which they purchased through Connell Motors, Erickson.

Mrs. A. R. Lynn, and Misses Marjorie Hamilton, Marion McDonald, Jean Henderson, Jean McCreath, Dorothy Olivier and Hazel Sinclair, with Jeff Collis. A. R. Lynn, Lloyd Couling, Ben and Tom Crawford, of Creston tennis club invaded Boswell on Wednesday afternoon for a series of games. In the men's doubles and singles Boswell had much the best of it, but in the ladies' play Creston showed superiority. Supper was served after the games and the visit was much enjoyed.

A despatch from Ottawa of August 28th indicates that Messrs. Haskins, Barrett and Hembling will supervise the marketing of the 1934 B.C. apple crop under the provisions of the Natural Products Marketing Act. Their office will be at Kelowna. According to the despatch "fruit growers in the interior of B.C. will be registered and a local board elected to succeed the provisional board. The scheme gives authority to the local board to regulate the time and quality of fruit placed on the market" Before March 31st, 1935, a poll of all registered growers will be taken to determine whether the plan shall continue.

Now It Could Be Done

Probably it is as direct reaction to the appalling state of irritant unrest which keeps international nerves continually on edge that more is being written and heard now of peace and its perpetuation than was heard or written during the great fiasco which terminated in the framing of the Treaty of Versailles.

The Anglo-Saxon world, at least, has come to the conclusion that a treaty inspired by revenge and nurtured by fear is altogether too provocative an instrument to produce anything more than a mere armistice or truce. That section of the world now is convinced that the Christian virtues of humility and fraternity could and would provide a better background for an abiding peace featuring the essential conditions of harmony and mutual co-operation.

It is hard to concede that mankind is devoid of capacity to bring about this condition or state. In fact, when one scans the war efforts of the belligerent nations between 1914 and 1918, one is forced to conclude that only the Will is lacking. Were the efforts made then to destroy life and property exerted now to preserve life and property, world peace quickly would be achieved. There is no doubt of it.

If doubts be cherished, they would quickly be dissipated by reference to the recently published "War Memoirs" of David Lloyd George. First as Britain's Minister of Munitions then as her premier, Mr. Lloyd George was primarily responsible for organizing the country's human and industrial resources for victory. How far-reaching, how extensive that organization was, is vividly revealed in the pages of his narrative. All essential industries were brought within the compass of his authority. All were made to contribute their full quota to the national effort. That gigantic organization was established for the dual purpose of building up the allied, and of breaking down the enemy, capacity to endure. The achievement shows conclusively what can be done by organization on the grand scale.

Considering the efficacy of war-time organization and effort, surely it is not foolhardy to suggest that, were all the major nations of the world to unite in organizing in the cause of peace, lasting and prosperous peace would ensue. And were the same efforts applied to solving the economic problems of the peoples of the world unquestionably they, too, would yield.

It is a strange commentary on civilization and human progress that sacrifices to win a war should be described as "heroic" and, as such, borne with determination and a grin, while sacrifices to win a peace should be branded as humiliating and intolerable. It is strange, too, that war could be financed with no insuperable difficulty, while finances required in an economic depression to keep innocent people from starvation, present apparently insurmountable obstacles to the governments concerned.

Nicholas Murray Butler, noted American liberal, recently translated the financial cost of the world war into graphic and startling terms. It cost 400 billion dollars. "With that money," he says, "we could have built a $2,500 house, furnished it with $1,000 worth of furniture, placed it on five acres of land worth $100 an acre, and given this home to each and every family in the United States, Canada, Australia, England, Scotland, Wales, Ireland, France, Belgium, Germany and Russia. We could have given to each city of 20,000 inhabitants and over in each country named, a five million dollar library and a ten million dollar university. Out of what was left we could have set aside a sum at five per cent. that would provide a $1,000 yearly salary for 125,000 teachers, and a like salary for another army of 125,000 nurses."

Four hundred billion dollars was expended in a war which took 30,000,000 lives. Surely, a similar amount expended in a peace, would save a similar number from sufferings attendant upon economic depression.

Recover Sunken Gold

Five Million Dollars Removed From Hold Of Steamer Laurentic

Bullion valued at £1,000,000 ($5,000,000), was removed by a private salvage firm from the sunken steamer Laurentic, which went to the bottom with a German torpedo in 1917, the London Mail says.

Admiralty divers salvaged £5,000,000 between 1918 and 1924 and abandoned the remaining £1,000,000 because the ship had been smashed and buried in the sand.

Salvage operations on the steamship Laurentic, a 15,000-ton White Star liner which lay in 120 feet of water, are known to be among the most difficult ever attempted.

British navy divers clad in rubber suits made more than 5,000 dives to recover £5,000,000 worth of bullion.

The Laurentic was sunk off the mouth of Lough Swilly in Northern Ireland, in a position exposed to westerly and northwesterly gales.

Mail By Rocket

German Invention May Shoot Letters From Dover To Calais

A rocket mail service may be established between Dover, England, and Calais, France. The enterprise would employ the "Zucker" aluminum rocket, a German invention which was exhibited at the International Air Post Exposition in London the first part of May.

It is estimated that by means of the rocket service letters may be shot across the English Channel, a distance of 21 miles, in one minute.

It is reported locally that the inventor, after demonstrating the practicability of such a service, intends to approach the British and French governments with a view to arranging for a regular rocket mail service, a British syndicate being formed for the purpose. Under the proposed scheme, Calais would be the receiving and dispatching point for the continent.

Looseness Of the Bowels During the Summer Months

DR. FOWLER'S EXT-OF WILD STRAWBERRY

It is seldom, during the summer, that most people are not troubled with some form of looseness of the bowels.

Generally it develops into Diarrhœa, Dysentery or Summer Complaint, and has a tendency to weaken the system.

Do not check the discharges too suddenly.

Do not experiment with a new and untried remedy, but take Dr. Fowler's Extract of Wild Strawberry, a remedy that has been used by thousands of families during the past 88 years.

Do not accept a substitute. Be sure and get "Dr. Fowler's" when you ask for it.

Put up only by The T. Milburn Co., Ltd., Toronto, Ont.

Fight Auto Invasion

French-Canadians Do Not Want Cars On Mount Royal

The only city in the Dominion which boasts a mountain in its midst is in the middle of a small war about the mountain.

Mount Royal, the rearing landmark from which the metropolis of Canada derives its name, is the bone of contention in an argument as to whether automobiles shall be allowed for the first time in history to scale its summit.

The mountain broke into the headlines when Ald. J. Allan Bray ventured the suggestion motorists be permitted to wind their way upward to its wooded dells and broad expanses of green overlooking the modern city. An immediate storm of protest broke and thousands of citizens voiced their determination to preserve the primitive natural charm of Montreal's namesake for future generations to enjoy.

One of the few fortresses yet remaining against the advance of the automobile age, Mount Royal has continued to share its picturesque quaintness with Bermuda's motorless avenues. To date, only pedestrians, bicyclists and the horse-drawn Victorias which are heritages of another age in Montreal, are allowed on the mountain and the French-Canadians, who regard the great rock as part of the rich tradition of their land, declare the honking of the automobile horns will never be allowed to break its spell.

Have Suffered Most

Thousands Of German Professors Seek Work In Foreign Countries

Some 7,500 academic and professional refugees from Nazi Germany are now attempting to create a new existence for themselves in foreign countries, the New York Emeregency Committee in Aid of Displaced German Scholars reveals. It is declared that "of all classes affected by the National-Socialist revolution in Germany, the academic and the professionals have suffered the most."

A high commission for refugees coming from Germany is co-ordinating the work in various countries. Sixty German scholars have been placed in American institutions of higher learning. More than 1,300 German scholars have been displaced, of whom 600 to 700 have or will shortly emigrate. Between 5,200 to 5,500 professional people have left Germany and 1,500 to 1,600 of the 7,000 German university students forced to quit their studies have sought refuge outside Germany.

Alberta Teachers

Considerable Versatility Is Demanded By School Boards

Some Alberta school boards apparently demand considerable versatility of talents in their school teachers. This was revealed at Edmonton as the hearing of appeals for alleged wrongful dismissal of teachers continued before Judge MacDonald, sitting as a board of reference.

A young woman teaching in the Willingdon district claimed she had been dismissed because she could not play the piano.

Another board, through its chairman, stated that the teacher had been dismissed because she was too high strung and was continually banging the pupils on the heads.

Wanted His Razor

Portland Man Would Shave With Blade That Almost Killed Wife

You can choose your own title for this one. Here's the story.

A little man entered the police station at Portland, Oregon, and asked for the razor which his wife used to slash her throat in an unsuccessful suicide attempt a few days ago.

"What do you want with the razor?" a police sergeant asked. "I want to shave!" was the cool reply.

It was suggested that he buy a new razor.

Gigantic Cunard White Star Liner

Some Startling Facts About The New Queen Of The Seas

The name of the new Cunard White Star superliner now known as No. 534 will be divulged 24 hours before the hull slips down the ways at Clydebank, Scotland. Queen Mary, attended by King George V., will launch the new steamer. The ship will be at least 1,018 feet long and register 73,000 or more gross tons. She will cross the Atlantic from England and France in four days. The cost of the superliner has been estimated at $30,000,000. The vessel will have 11 decks, one the first class promenade being 750 feet long, just 35 feet less than the entire length of the Mauretania. She will be five times the length of the original Cunarder, the Britannia. The height to the masthead will be 250 feet. The rudder will weigh 163 tons. The Aquitania's is but half this weight. The steel plates range from 8 feet in length to 30 feet, and weigh from 200 to 6,000 pounds.

There will be 2,000 portholes and windows, the panes of glass ranging from 12 inches in diameter to large oval panes two feet in height. The anchor cables, wire hawsers and ropes for the ship will be more than four miles in length. The anchors, of special design, will be the world's largest. There will be 60,000 cubic feet of refrigerating space. The automatic steering gear will be the largest on any ship. The ship will be driven by single-reduction geared turbines supplied with steam from high-pressure watertube boilers. There will be four screw propellers, each driven by an independent set of machinery. The driving machinery will be placed in two separate engine rooms. Four turbo-generators will supply power to the auxiliary machinery. Three others will supply light and power for the hotel services in the ship. Oil fuel will be used. The propellers will each weigh 35 tons and measure 20 feet from tip to tip. There will be 257,000 turbine blades, varying in length from two to 18 inches and geared to the thousandth part of an inch. The Clyde River has been widened and deepened for the launching at a cost of $400,000. The new superliner is being built in the yards of John Brown & Co. Ltd., where the Aquitania was built.

There will be three funnels. The first funnel will be more than 70 feet in height, the other two lower. This arrangement will keep the decks and ventilators clear of funnel gases. The hull of the first Cunarder, the Britannia, could be passed through any one of the funnels of the new superliner. The ship will contain 50 miles of plumbing pipes. The electric lighting system is sufficient to service a city of more than 150,000 inhabitants, such as Quebec, Hamilton or Ottawa. Steam will be generated in 27 enormous boilers. The number of tubes in the main and auxiliary condensers will approximate 60,000. The electrical wires used would reach from Halifax to Vancouver and then 400 miles out into the Pacific ocean. The giant's stacks will be thirty feet in diameter, exceeding the Holland Tube, between New York and Jersey City, by six inches. From the keel to the top of the foremost funnel is equal to the height of an 18-story building. The engines of the 534 will generate 200,000 horsepower—enough to tow Staten Island across the Atlantic. The make up of the ship will require 35,000 tons of steel. The catering department will contain 200,000 pieces of crockery. Ten miles of carpets will be used in covering the ship's floors. Tableware, including knives, forks, spoons, etc., will total 100,000. The ship's decorations will cost $2,500,000. Her steadiness will be assured by a million-dollar gyroscopic device weighing 300 tons. This device will keep the ship steady in the roughest sea. The captain's bridge will be 100 feet about the water line. The steamer's ventilators will be large enough to swallow a subway car. The sun deck will contain shady garden lounges, palm courts and swimming pools, giving a tropical aspect to the surroundings during all the seasons. The steamer will be insured for approximately £7,000,000.

The "lost world" of southern Venezuela is being explored by a scientific expedition.

Commemorate Early Flight

Aeroplanes Kept In Air From Dawn To Dusk At Edmonton

The twenty-fifth anniversary of flying in Canada was effectively commemorated at Edmonton recently when some 15 members of the Edmonton and Northern Alberta Aero Club kept an aeroplane aloft for 15 hours, 15 minutes in "a dawn-to-dusk" flight.

In common with other flying clubs across the Dominion, the flights were carried out, each machine staying in the air for shifts of one hour, to be replaced by another before the first had touched the ground.

Pilot C. North Sawle, hopping off at 5:00 a.m., was the first to commence the flight, while Pilot Sven Jensen was the last to land when he brought his machine down at 6:35 p.m. after a black rain cloud and thunder made the sky too black to continue.

Miss Margaret Fane was the only woman pilot to take part in the commemoration of the flight made by "Casey" Baldwin, who hopped off in his crudely-made "Silver Hawk" 25 years ago, August 16, in Nova Scotia.

London's Newest Building

Has Hotel Service And Every Accommodation For Tenants

"Flatels" is the newly coined name to describe a $10,000,000 block of flats which is being completed in London. The name is intended to describe flatlets having hotel service. There will be 50 flats, accommodating 1,200 people. As far as possible every daily want of the tenants—food, clothing or service—will be available within the building. A shopping expedition of the flat-dwellers will be merely a trip to the ground floor, and there will be restaurants, dining rooms, barber shops and beauty parlors. A novel feature will be a terrace, 16 feet wide, surrounding the top floor of the building. It resembles a liner promenade deck and will be available for sun-bathing and exercise.

Tests have shown that actors or speakers in a hall should speak louder in cold weather, because the heavy clothing of the audience absorbs more sound.

The total length of the Amazon river from the head waters of the Ucayali is about 3,300 miles.

CAN'T SLIP OR SLIDE
FALSE TEETH
Don't use any old kind of remedy to keep false teeth in place—use a reliable, recognized one which dentists prescribe such as Dr. Wernet's Powder—the largest seller in the world—grips teeth so secure yet comfortable they feel natural. RELIEF COSTS ARE SAID TO BE ON THE DECLINE

Montreal.—The number of people in Canada receiving direct relief at the end of July showed a considerable decline, the total being 990,098, says the Gazette in a special despatch from its Ottawa correspondent.

The despatch continues:

This total was divided amongst the nine provinces as follows: Ontario, 300,000; Quebec, 285,000; Saskatchewan, 180,260; British Columbia, 88,100; Manitoba, 56,800; Alberta, 47,350; Nova Scotia, 23,100; New Brunswick, 9,100; Prince Edward Island, 388.

Important decreases in the number on relief were shown by the provinces of British Columbia, Alberta, and Manitoba, while Saskatchewan, due to the desperate conditions created by the prolonged drouth, showed an increase. The decline in British Columbia is attributable largely to the industrial recovery enjoyed there, both mining and lumbering showing notable advances. A slight improvement in general conditions and the absorption of many men by harvesting operations explains the drop in the number of relief recipients in Alberta and Manitoba.

In May, 1932, the total number receiving direct relief aid in British Columbia was 64,262. In March, 1933, it reached the peak figure of 109,949, or nearly 16 per cent. of the total population. Six months later it dropped back to 80,885, but it jumped up to 105,690 in April of the present year. By the end of July it had fallen again to 88,100.

Saskatchewan's figure in May, 1932, was 156,738, but for some reason it fell to 40,000 in September of that year, and then jumped to 143,000 in March, 1933. Then came another drop to 40,000 in August of that year. The peak for that province was reached in February this year, the total then being 236,338, or 25 per cent. of the population.

U.S. Builds New Ships

Twenty-Four Fighting Ships Are On The Program

Washington. — The United States navy department have let contracts for the construction of 24 fighting vessels. Eleven of the ships will be built by private shipbuilding firms and 13 by navy yards. Estimated cost of the ships was not made public.

The ships contracted for will include two 10,000-ton six-inch gun cruisers, two 1,850-ton destroyer leaders, four 1,500-ton destroyers and three submarines of around 1,300 tons each to be constructed by private ship builders. Navy yards will build two 10,000-ton cruisers, one with eight and the other with six-inch guns. These yards also will construct four undersea craft and seven light destroyers.

Fisher Body Contest

Western Youths Win $5,000 Scholarships

Chicago.—Two of the six major scholarships awards for competitions held by the Fisher Body Craftsman's Guild went to Canadian youths, it was announced at the international convention of the guild.

The major awards are valued at $5,000 and the Canadian boys winning were J. Ross Farquharson, 20, of Vancouver (1909 Trafalgar street), and Harold Rasmussen, 15, of Regina (2251 Winnipeg street).

Six other scholarships awarded for miniature coaches of superb workmanship to Canadians included: Lawrence Drebert, Edmonton, $1,000, senior, and Vernon M. Parish, Medicine Hat, Alta., $500, senior.

Huge Indian Dam Opened

Madras, India.—The gigantic Meltur dam, which is to fertilize 1,000,000 acres of land, was opened by Governor Sir George Stanley. With a cubic content of 54,000,000 feet the dam embodies the largest single block of masonry in the world, and also contains a "waterfall" of 95 feet over a width of 630 feet.

'Fair Wage Act

B.C. Boys Dismissed When Minimum Wage Law Becomes Effective

Victoria.—Many British Columbia youths aged 20 and 21 and with several years' experience in their work, have received only $5 or $6 per week but have now been discharged by their employers because of the province's new mercantile minimum wage of $12.75 per week for such labor, Hon. George S. Pearson, minister of labor, reported.

The minister publicly requested all youths so discharged to communicate with him and he said he had received reports from more than 60. In turn, he has written to the firms involved and has asked them to reconsider the dismissals, stating that they are big enough to take part in reconstruction of the wage system in the mercantile industry without hurting themselves.

"This is a thing which needs co-operative effort," he said.

"We have no desire to prevent any firm from doing business and we want to feel that everybody is working together to raise the wage standard back to a level permitting decent living conditions."

Twenty per cent. of the 60 youths who submitted their cases were with one firm, the minister said.

Ransom Payment Illegal

Claimed It Is Contrary To Law To Pay Kidnap Ransom Money

Toronto.—Payment of kidnap ransom or blackmail demands is illegal in Canada, Attorney-General Arthur W. Roebuck said here. Though the criminal code does not cover payment of ransom specifically, a clause making it an indictable offence to "wilfully obstruct, pervert or defeat the course of justice" may apply, he said.

Stating that in the absence of alteration by Canadian legislation the English common law applies in Canada, the attorney-general quoted two English legal authorities to show the payment of moneys in such a case is regarded in England as "aiding and abetting" a crime.

"So long as the people of Canada are prepared to pay blackmail we are not likey to get rid of the racketeer," he added.

Selling Wheat Holdings

Statistics Show Amount Held In Storage Is Dropping

Ottawa.—Canada is selling its big wheat holdings, it is shown by the Dominion bureau of statistics. In the week ending August 17, internal wheat holdings dropped from 187,231,597 bushels to 185,123,667, a reduction of 2,107,930. At the same time Canadian wheat in American elevators amounted to 10,386,124 bushels, compared to 5,262,942 last year.

United States wheat in Canada was placed at the negligible figure of two bushels, compared with 3,700,660 bushels last year.

In transit, wheat on the lakes amounted to 3,691,531 bushels, compared with 4,098,415 bushels for the previous week and 3,239,639 bushels for the corresponding week in 1933.

Road To Jasper

Work On Edmonton To Jasper Highway To Be Started Soon

Edmonton.—Completion of gravelling the Edmonton-Jasper highway by the provincial government will start at an early date and operations will commence on the stretches of the road immediately east of Jasper national park boundaries and west of Edson, Hon. J. J. MacLellan, minister of public works, reported on his return from an inspection trip over the highway. When completed this will give an all-weather road between Edmonton and Jasper. Work is being undertaken following an announcement of a federal loan of $125,000 for the purpose.

Alert Police Force

Winnipeg. — "The best prevention against the kidnapper is an alert police force with a good record for detection of crime," said Sidney E. Smith, president of the University of Manitoba and nationally known legal authority, discussing methods of combatting kidnapping.

KIDNAPPERS INVADE CANADA

John S. Labatt, president of the Labatt Brewing Company of London, Ont., who was "snatched" by kidnappers between Sarnia and London and was held for $150,000 ransom.

Work For The Empire

Co-operation Would Lead The World To Peace And Stability

Vancouver. — A British commonwealth, solving its own problems through cooperation and leading the world to peace and economic stability, was pictured at Vancouver Canadian Club luncheon in an address by Baron Thomas James Cheshyre Tomlin, member of the privy council.

"Is it too much to hope that this spirit of helpfulness and co-operation will spring up in the empire and flourish as a flower in a field of stubble?" he asked. "Through it we may attain the highest measure of common good and teach the world our problem. Let us make our future as glorious as our past."

Lord Tomlin thought the world was suffering from chronic indigestion from over-production and too hasty consumption of new inventions. He reminded his audience he knew something about inventions for he had been chairman of the royal commission on awards to inventors.

Lord Tomlin paid a tribute to the United Empire Loyalists and expressed the hope that their spirit of co-operation would live in Canada to assist the Dominion in working out its problems.

Regulate Hay Exports

Shortage Of Hay And Straw In West May Make This Necessary

Ottawa.—Because of the shortage of hay and straw in many parts of Canada, particularly the West, the government will take steps to regulate exports by license, it was learned here unofficially.

The situation in the prairie provinces, and in the Maritimes to a lesser extent, is pressing, according to representations to the government. Regulation of these exports by licensing would be to protect the farmers from speculators.

Burnt-out areas in the United States are badly in need of hay and that country contemplates taking off the $5 a ton duty for the entry of Canadian hay.

Want Regulations Altered

Cattle Shippers Cannot Afford Stopover On Bay Route

Prince Albert.—Immediate alteration in regulations that at present interrupt the direct shipment of cattle to Churchill was urged here by leading livestock producers of Saskatchewan and Alberta.

W. E. Cutt, manager, of the Saskatchewan Livestock Pool, and Jack Byers, manager of Western Stock Growers, Calgary, were emphatic in declaring Churchill would suffer unless arrangements which force a stopover at Hudson Bay Junction for feeding are changed.

"Shippers cannot afford to stop over on a run of only 760 miles," Mr. Cutt stated. Direct runs of 40 hours were not uncommon in the overland journey from Calgary to Montreal, he said, and travelling time to the northern port was only 38 hours, including a stop of more than an hour at Melfort.

They were enthusiastic over the potentialities of the port should regulations be changed, and declared treatment at the hands of officials was also of the best.

Post Office Efficiency

Letter With Only Street Name Delivered Safely

Calgary. — "Third Avenue, West, Canada," was the address placed on a letter mailed in London, England, some time ago and it has reached its correct destination. The envelope also bore the name of the addressee.

It landed from the Old Country at Montreal where postal officials were puzzled but marked "try Verdun." Verdun, Lachine and Ville Ste. Pierre successively reported the letter was not for them so it was sent on to Ottawa.

A postal official at Ottawa knew of the numerical system of street naming in Calgary and so the missive was sent here where the name and address "clicked".

Canada And Naval Defence

Should Defend Pacific Coast With Own Navy

Montreal.—"Canada should defend the Pacific coast with her own navy and let the British navy police the Atlantic," according to the suggestion of Sir Reginald Yorke Tyrwhitt, admiral of the British fleet, who sailed aboard the liner Montcalm.

"Perhaps we cannot expect you to protect both coasts," said the admiral, "but you might protect one with your own navy. You could leave the Atlantic coast for us to look after, while perhaps you could look after the Pacific yourselves."

Attempts To Burn Elevator

Yorkton, Sask. — Royal Canadian Mounted Police are investigating attempts made to burn the Northern and Wheat Pool elevators at Saltcoats. Waste soaked in coal oil was found in the compressor room under the gang way in both elevators. This had been ignited but lack of air forced the fire out. Planks above the deposit of waste had been scorched.

CANADIAN WINS MARATHON FROM EMPIRE'S BEST

H. Webster, of Hamilton, Ont., winner of the Men's Marathon at the British Empire games, entering the Stadium at the White City, London, for the last spurt of the long grind. D. McN. Robertson of Scotland finished second.

MAY PUT BAN ON PUBLICATION OF WHEAT REPORT

London.—Chances of publication of the 1,500-word document dealing with the world wheat problem, which will be submitted to the 21 interested governments, appeared slim on the eve of the final session of the international wheat conference.

While a high authority said the conference will be urged to publish the document, an overwhelming opposition to the proposal was uncovered by a canvass of the various delegations.

Argentine and Russian delegates strongly favor revealing the contents of the closely guarded document, but Canada, United States and Australian delegations are opposed, and most of the Europeans present favor the latter group.

Knowledge that influential interests in England, the United States and other countries, which bitterly oppose further government control, would bring strong pressure to bear if the present proposals were publicized was given as the chief reason for secrecy. Conference sessions here have been behind closed doors.

The document which will go to the governments, it was learned, however, contains proposals for a flexible quarterly export quota agreement as well as for continuation of the annual quota method used during the crop year ended July 31, 1934.

The quotas would be allotted from an estimated world demand of 600,000,000 bushels, but upward of 60,000,000 would be held "in reserve" for distribution during the year if changed conditions warrant such action.

It was understood, too, the document contains proposals for continued reduction in acreage and for extension of the world wheat pact beyond its expiration date, Aug. 1, 1935.

Years Of Isolation

Russian Colonists Were Ice-Bound For Five Years

Moscow.—Forty-four Russian colonists, ice-bound for five years on lonely Wrangel island in northern Siberian waters, were reached by a group of Soviet scientists on the icebreaker Krassin, according to word reaching here.

Their lonely years of isolation were supposed to have ended last year, when the Cheliuskin sailed for Wrangel island. But that expedition sank, while its 102 passengers were rescued by aeroplane after months on an ice floe north of the Behring Straits.

Wireless messages reaching here described the uncontrollable enthusiasm with which the colonists greeted the relief party.

Precious Metal Salvaged

Silver From Sunken Steamer Egypt Taken To England

London.—Carrying gold and silver bars worth nearly $1,000,000, the Italian salvage vessel Artiglio tied up in Plymouth.

The precious metal is part of the cargo of the steamer Egypt, sunk off Ushant 14 years ago while carrying $5,000,000 in bullion. Four millions were recovered during the past two years, but this year the work was much more difficult, as the vessel had settled deep into the ocean bed.

The cargo brought in by the Artiglio was obtained after two months of hard work.

Returned For Revision

Plans For Proposed Bridge At Vancouver Sent Back

Ottawa.—Plans for the proposed first narrows bridge at the entrance of Vancouver harbor have been sent back to the designers with a request the location of certain piers be changed so as to provide for a larger main span. This action was taken after a sub-committee of the cabinet listened to views of opposing interests in the matter of the width and height of the main span of the proposed bridge.

Creston Liberals have been invited to send a full delegation to Cranbrook on September 17th, for a Liberal get-together to form an association for Kootenay East and arrarge a nominating convention date. Last year the federal redistribution legislation transferred Creston vallry from West to East Kootenay.

S. F. M. Moodie of Victoria, along with Dr. Allan Harris, M.P.P., of Summerland, were in town on Friday. The former is federal Liberal organizer and was on h s way to Cranbrook to arrange for the holding of a convention to nominate a standard bearer in Kootenay East. Mr. Moodid is confident of a Dominion election before the end of December.

Mr. and Mrs. Alex. McKay of West Creston had the bad luk, to lose their home and most of its contents by fire which broke out at an early hour Saturday morning. The cause of the blaze is a mystery as they and the family were away from home all day haying and there had been no fire in the house.
