THE CRESTON REVIEW

VOL. XX. CRESTON, B. C., FRIDAY, JUNE 15, 1928 No. 19

Wyndel

Mrs. J. B. Redd was a business visitor at Nelson a couple of days last week.

John Hindley of Longbeach was a business visitor here a few days with his brother, Charles Hindley, prior to sailing for England.

Mrs. Moisson and family left Sunday for Wycliffe, where they will reside in future. Mr. Moisson has secured employment at Kimberley.

Mrs. M. Hagen was also a business visitor at Nelson the fore part of the week.

BIRTH—On June 8th, to Mr. and Mrs. Pat. Downey, a son.

Strawberries are moving fast now. Monday (i.e.) shipments totalling about 450 crates. Two refrigerator cars were spotted on the Association siding on Monday.

Mr. Murdin of Nelson was a between trains caller on Sunday.

The home of Mrs. R. Uri was a merry scene on Saturday afternoon, when about 25 members of Wyndel Women's Institute met there in honor of Mrs. Logan of Elnora, Alberta, who is a sister of Mr. and Mrs. T. Sigsworth, and a delegate to the recent Women's Institute convention in Calgary. The rooms were beautifully decorated with cut flowers—white peonies, gold iris and greenery predominating—being the colors of the Institute. Mrs. Logan gave an interesting talk on institute work in Alberta, which was followed by two contests of skill. The first was won by Mrs. V. E. Johnson, and the second by Mrs. E. Uri. Music and a sumptuous tea rounded out a most enjoyable afternoon.

Miss Irene Huscroft of Creston was here for the weekend, a guest of Mr. and Mrs. Ogilvie.

Dance on Saturday night, 16th, under the auspices of the baseball club. Hike Brothers' orchestra. Gents $1; ladies 50 cents.

Canyon City

Jock McRobb, who is at present employed on a pole cutting contract near Thrums, was home for the weekend.

Alf. Nelson, who is driving one of his own trucks on a gravel haul contract at Macleod, Alberta, is home for the week.

Miss Kerr, of the Creston school teaching staff, and Mrs. Truscott, sr., of Creston, were weekend visitors with Mr. and Mrs. Knott.

Mr. and Mrs. Vance got back on Saturday from a three week's visit with their daughter in Portland, Oregon.

Apple thinning is under way in the Canyon section, the Wealthys needing particular attention of this sort. Winter varities will not be as heavy as the bloom indicated.

Manford Samuelson left early last week for Boswell, where he is working on a government road crew.

Mrs. Wearmouth is just home for a two weeks' visit with her daughter, Mrs. Waite, of Creston.

John Zachodnick is the first strawberry shipper, having the first crate out on June 5th. The berry crop will be a heavy one if we have the right sort of weather.

WARNING—To volunteer strawberry pickers and housebreakers: Anyone found trespassing on my private property will be prosecuted. E. NOUGUIER, Canyon.

Erickson

Mrs. F. V. Staples and children left on Tuesday for Cranbrook, where she is visiting her sister, Mrs. H. McKowan.

Ray McKelvey and Alf. Speaker were visitors at Spokane a few days last week.

Miss Edith Littlejohn, who has been in Vancouver for some time, is visiting with her father, W. G. Littlejohn.

Erickson orchardists are this week putting on the fourth spray. Just present the usual June drop is not at all excessive.

Mrs. T. W. Bundy and daughter, Norma, left for Cranbrook on Tuesday.

Express shipments of fruit are on the increase. The strawberry cutting on Monday totalled 102 crates.

Misses Marcella Banford, Madeline Putnam and Ruth Cartwright spent the weekend with Mrs. T. Dickson at Putnam. Palmer & Staples, Limited, mill. Mrs. Dickson is now occupying the house occupied by Mrs. F. Staples last winter.

Erickson

Mr. and Mrs. Cam and Mrs. Telerico were Creston callers on Tuesday.

Mrs. C. M. Loasby of Vancouver was renewing Erickson acquaintance on Thursday.

Messrs. Hart Sang and Simpkins of Cranbrook were business callers on Thursday last.

Mrs. Ashley Cooper, who has been visiting her daughter, Mrs. Pascuzzo, for the past three weeks, left for her home in Trail on Thursday.

Mrs. Martin returned on Saturday from a visit with her parents, Mr. and Mrs. Sinclair, at Creston.

Miss Grace Brander left on Monday on a visit with her mother at Fort Steele.

Ernie Attree of Cranbrook was a Thursday visitor with Mr and Mrs. Bleumenauer.

Misses I'Anson of Vancouver arrived on Saturday on a visit with their uncle and aunt, Mr. and Mrs. Dennes.

Alice Siding

Mr. and Mrs. Bill Barraclough and family of Fernie are here at present on a visit with his brother, Jack.

John Parkin, jr., of Michel is here at present on a strawberry harvest visit with his parents, Mr. and Mrs. John Parkin.

Frank Sinister, who has been in charge of road construction work in the Sirdar-Kuskanook section the past few weeks, is home again.

The police are on the trail of the parties who broke into Chas. Clay's (Midford ranch) a few days ago and made off with $25 in cash as well as some effects.

With the berry picking season under way Principal Rukas has a pretty light attendance at school, which will not close until the 29th.

Misses Reeves and Mrs. Ireland have arrived from Kimberley to help with the strawberry harvest at the Kelly ranch. Mrs. F. Kelly and daughter, Florence, from Kimberley motored in for a weekend visit with Mr. and Mrs. J. W. Kelly.

H. Stewart has reconstructed the shack on the old Pendry ranch and is using it for a packing shed on his strawberry acreage on the upper (Churchill) place.

Ranchers are this week at work cutting the first crop of alfalfa.

The train stop for the strawberry pickup at Alice Siding commenced at the first of the week. Fred Ash is again in charge of the shipping.

Lister

A. Letoille left on Monday for Nelson and points west in quest of summer employment.

The strawberry shipping season at Lister opened on Saturday, June 9th, when the Sam Demchuk ranch had a crate for export. Since then the Stephens and Baker ranches have also commenced berry shipping.

Hay cutting commenced at the first of the week, when Col. Fred Lister started the harvest of the first clover crop. Haying will be general before the week is out.

Ed. Langston is busy at present with the erection of quite a commodious barn on his (Ivar Christensen) ranch. Mr. Butler of Canyon is here helping with the work.

W. H. Dobson of the Ogilvie Milling Company, J. C. Brodie of the Imperial Oil Company, and W. Kettlewell, representing Wood-Vallance, Toronto, were business visitors at Lister this week.

Miss Carol Helghe of Vancouver arrived at the ranch on Tuesday on a visit at the ranch with her brother, Harry.

Gordon Harry of Nelson is spending the week here recuperating from a recent illness.

John Hewitson was host at a young people's party on Saturday night, the guests including a number from Rosebud as well as Lister. There was an enjoyable time with music and dancing and a very tempting lunch.

The best news that has come this way lately was the arrival on Monday of Mr. Blaine, water rights engineer at Nelson, who is making a preliminary survey of Burton and other creeks with a view if possible to provide the settlement with a domestic water supply. He was going to Rosebud on Tuesday but will be back by the end of the week accompanied by Water MacDonald of Victoria, comptroller of water rights, and the two will make a thorough inspection of local water supplies and we expect to see a survey party put to work at once to make a thorough report on the whole water situation.

For May the school at Lister registered an average attendance of 96.6—a showing that has seldom been equalled since the school was opened. Those awarded high standings were: Grade 4—Polly Cravenko, Douglas McKee, Frank Yerbury, Lloyd Lacktree, Frank Cowley. Grade 3—Kirk Beard, Harry Cravenko, Randall Smith. Grade 2b—Gladys McCullough, Cyril Bird, Manning Powers. Grade 1a—Kitty Beard, Raymond McKee, Kate Cravenko. Grade 1b—Tom Cowley, Gilbert McCullough. Regularity of attendance were: Cyril Bird, Jack Bird, Kirk Beard, Kitty Beard, Frank Cowley, John Cowley, Tom Cowley, David Cowley, Charles Malthouse, George Mitchell, Manning Powers, Agnes Sinclair, Wallace Sinclair, Frank Yerbury.

Lewis—Boffey Nuptials

Creston's second June wedding was solemnized on Thursday morning at Trinity United Church parsonage when Rev. J. Herdman officiated at the marriage of Elizabeth, second daughter of Mr. and Mrs. Fred Lewis, to Herbert Boffey. The bride's costume was of pink and white beaded georgette and she carried a bouquet of roses, lillies and fern. The bridesmaid was her sister, Miss Lillian Lewis, gowned in powder blue and carrying a bouquet of snapdragons and fern. The groom was supported by his brother, Fred Boffey. After the ceremony there was a reception and wedding dinner at the home of the bride, to which just the immediate friends and relatives were invited, and early in the afternoon the young couple left on a motor trip to Banff and Lake Louise, the bride travelling in navy blue with hat to match. On their return Mr. and Mrs. Boffey will reside on the groom's ranch near town. Both the bride and groom are well and favorably known and will have the best wishes of a wide circle of friends for a happy and prosperous future.

WARNING—Six strawberry pickers, house with stove for accommodation. Victor Carr, (Alice Siding), Creston.

WANTED — Twelve good, reliable strawberry pickers. Good accomodation for outsiders. E. Nouguier, Canyon.

FOR SALE—Pool tables and equipment, will sell cheap and give good terms. Enquire at pool hall. D. S. Timmons, Creston.

CORPORATION OF THE

Village of Creston

HAMILTON, CANADA

WORLD HAPPENINGS BRIEFLY TOLD

A bill introduced in the legislature of New Brunswick prohibits the erection of advertising billboards of any kind along the highways of the Province.

In the United States, Canada and Newfoundland the Carnegie Foundation has paid about $18,000,000 in pensions to college teachers since 1905.

Canada's acceptance of the principle of Frank B. Kellogg's anti-war campaign was received at Washington with satisfaction, and the movement to outlaw war is now considered as definitely launched.

Z. McIlmoyle, assistant deputy minister of agriculture in the Alberta Government, died recently, following a stroke. The late Mr. McIlmoyle was born at Lakefield, Ont., in 1876. He came West in 1899.

Captain Charles Kingsford-Smith, the Australian flier, lived in Vancouver with his family from 1903 until 1912. The family came from Australia, returning there after nine years. The father, W. C. Kingsford-Smith, and the flier's elder brothers were in business while in Vancouver.

Major-General J. H. MacBrien received a telegram offering him a Moth seaplane for personal use in connection with his work on behalf of aviation in Canada. The donor is Sir Charles Wakefield, C.B.E., known as the patron saint of aviation in England.

Sir George Frampton, the noted sculptor, who died recently, executed the Victoria memorial in Winnipeg. Other Victorian memorials from his hand are to be found in cities as far apart as Leeds, Newcastle and Calcutta. Sir George Frampton was also responsible for the memorial to Nurse Cavell.

W. D. Gregory, prominent Toronto barrister, announced that he would not accept the "K.C." offered him by the government. This is the second time that Mr. Gregory has refused this honor, the Drury government having offered it in 1921. "I feel strongly that the practice of giving certain barristers precedence is out of harmony with the Democratic standards that generally prevail in Canada," said Mr. Gregory.

First Dentist: "A fellow can't be too careful about joking with his patients."

Second: "No, I lost a patient yesterday because I pulled a good one."

BOILS.

Minard's will dry up boils. It kills the inflammation and disinfects.

MINARD'S "KING OF PAIN" LINIMENT

Winnipeg Newspaper Union Fashion

Distinguished Model

A distinguished model featuring the diagonal closing, circular skirt at front, plain back and up-in-the-front waistline. Crepe satin, new light weight kasha, tweed, canton faille crepe, wool crepe, flat silk crepe or crepe Roma are appropriate materials for style No. 910. Farmers' Marketing Tour

Canadian National Railways' Tour To Great Britain and Denmark, 1928.

(Continued)

Before entertaining us to lunch Mr. Marsh gave a very informative and comparative talk on the British bacon industry, illustrating his remarks with a number of slides of bacon from many different countries and special cuts arranged for the purpose.

From the Marsh and Baxter plant we proceeded direct to Birmingham, where we were received by the Lord Mayor, Alderman A. H. James, C.B.E., J.P., after which we were taken through the magnificent City Hall and shown some of the art treasures there. In the evening we saw a charming musical comedy "Up with the Lark," a block of the best seats in the house having been reserved for us.

Sunday was spent quietly in Birmingham, our itinerary including a motor tour of the environs of the city and a talk on Denmark by Mr. J. Nugent Harris, of London. Mr. Harris had lived for some years in Denmark, and his love for that country shone all through his delightful address, which was accompanied by a remarkable selection of Danish slides. On Monday morning, after a brief tour of the Birmingham Market, we proceeded south to Kenilworth Castle, one of the most extensive baronial ruins in England. Kenilworth dates from 1120, and was presented in 1362 by Queen Elizabeth to her favorite, Robert Dudley, who was wont to entertain her there in magnificent style.

Our next stop was Warwick. Warwick Castle, described as the "most princely seat in the Midlands," is still occupied by the Warwick family. Warwick is a fine old country town with winding streets and many ancient buildings. The castle, which was visited by some of our party, dominates the town. The earliest building dates from the 10th century although the present castle is 15th century.

Shakespeare's country is a few miles from Warwick. The house in which Shakespeare was born remains little altered, and wandering through the rooms we saw on walls and ceilings the signatures of many famous visitors, amongst them Scott, Carlisle, Thackeray and Browning. The village of Shottery Hathaway is about a mile away. It was a delight to visit this beautiful and well preserved old place, today the property of the nation. The cottage contains much of the old furniture and many of the old fittings. We also visited Holy Trinity Church, set amid the trees on the bank of the Avon. Here Shakespeare is buried and here also is the grave of his wife. The font at which Shakespeare was christened is still to be seen in this church and the parish register, containing a record of his birth on April 26th, 1564, and of his death on April 26th, 1616, is also preserved.

Our stay at Oxford was short, but we were fortunate in being able to stroll through the grounds of one of the colleges and in seeing the memorial to the poet Shelley. The statue, beautifully wrought in marble, shows the drowned poet lying exactly as he was found after having been washed up by the sea. When first set up its stark realism created a sensation.

Our next stop was at Windsor Castle, which is still used by the Royal Family. Here we were privileged in seeing the State Apartments, the magnificence of which words fail to describe.

The castle overlooks the River Thames and has been the place of residence of English kings for centries. Here James I., of Scotland, King John, of France, and King David, of Scotland, were held prisoners, and in one of the gardens James I. saw from his prison Joan Beaufort, his future wife.

A vault in the castle in which repose the remains of Henry VIII., Charles I., and Queen Jane Seymour, is connected by a subterranean passage to another vault where are buried George III., George IV., William IV. and Edward VII. Queen Victoria and her daughter, Princess Alice, are buried in Frogmore Mausoleum which lies in the park adjoining the castle.

Near Windsor Castle is Eton College, which was founded by Henry VI., in 1540.

From Windsor we proceeded to the King's farm, to be shown over the buildings by Mr. Murray Conacher, the manager. Mr. Conacher paraded some of the King's Prize Hereford's and showed us fine examples of Devon and Jersey breeds. The Royal Farm is 1,200 acres in extent. Before leaving we were entertained to a delightful tea in the Royal Dairy.

This was our last stop before London, and excitement was at fever heat as we proceeded down the magnificent paved road which leads from Windsor to the Metropolis. Night was falling as we threaded our way through the steadily increasing traffic. Double deck buses with which we were to become more familiar in London, began to make their appearance as we reached the outskirts of Greater London. At last after passing many unbroken miles of buildings, we found ourselves in Oxford Street, then Regent Street, and finally at our hotel, the "Regent Palace" just off Piccadilly Circus in the very heart of the West End.

We rose bright and early on our first day in London, for we had seven engagements facing us, including the reception by His Royal Highness, the Prince of Wales. Our first trip was to Covent Garden, once the garden and burial ground of monks, but now London's greatest distributing centre for fruit and vegetables. Here we were given our first inkling of the enormous consuming power of the people of Greater London, for we saw before us one day's supply fruit and vegetables for a population equal to Canada. It was easy to believe that one province of Spain alone sent 4,000,000 cases of oranges to this great market, and a great pleasure to learn that some varieties of Canadian apples had won a leading place in public favor.

Our next engagement was to visit the Cockspur Street offices of the Canadian National Railways, where we were cordially received by Mr. C. J. Smith, the European Vice-President, together with his department chiefs. The run of this fine building, owned by the C.N.R., was given to us, and we had the pleasure of seeing the latest copies of Canadian papers. An interesting feature of the fine offices, which house a busy staff of some one hundred people, is a magnificent mural frieze by Frank Brangwyn, R.A.

(To Be Continued.)

No Rest With Asthma.—Asthma usually attacks at night, the one time when rest is needed most. Hence the loss of strength, the nervous debility, the loss of flesh and other evils which must be expected unless relief is secured. Fortunately relief is possible. Dr. J. D. Kellogg's Asthma Remedy has proved its merits through years of service. A trial will surely convince you.

Wool Prospects Good

Substantial Increase In Export Of Wool From Canada

A very substantial increase is to be noted in the export of wool from Canada in the last fiscal year. This increased from 5,223,981 lbs. worth $1,538,660 the year before, to 11,140,101 lbs., worth $3,149,967.

According to the Canadian Co-operative Wool Growers, Limited, wool prospects are very good with the condition of the new wool bright and the shinkage average. Foreign market conditions are also reported excellent.

Sores Heal Quickly.—Have you a persistent sore that refuses to heal? Then, try Dr. Thomas' Eclectric Oil in the dressing. It will stop sloughing, carry away the proud flesh, draw out the pus and prepare a clean way for the new skin. It is a recognized healer among oils and numbers of people can certify that it healed where properly applied.

Recipes For This Week

(By Betty Barclay)

SCALLOPED DISHES

Pour over layers of well-seasoned meat, fish or vegetable enough medium cream sauce to cover. Sprinkle well with buttered crumbs and bake until brown. When combined with starchy dishes such as potato or macaroni, use thin cream sauce. Medium cream sauce calls for 1 cup milk, 2 tablespoons flour, and 2 tablespoons butter. Thin cream sauce calls for 1 cup milk, 1 tablespoon flour and 1 tablespoon butter.

ORANGE STRAWBERRIES

1 box strawberries.
Juice 2 oranges.
1 cup sugar.
½ cup heavy cream.
2 tablespoons powdered sugar.
¼ teaspoon vanilla.

Wash and hull strawberries, cover with orange juice, mixed with one cup sugar, and chill thoroughly. Serve in champagne glasses. Beat the cream until stiff. Add powdered sugar and vanilla, and, with the pastry-bag and tube, pipe a border around each glass.

Travelling Clinic In Alberta

Visiting Sparsely Settled Districts Where Medical Services Are Hard To Obtain

During the month of May, a travelling clinic, with two doctors, a dentist and three nurses, is touring through the northern sections of Alberta. The travelling clinic is a new phase of public health work, developed to cope with conditions in sparsely-settled districts where medical and dental services are difficult to obtain. Where there are doctors or dentists, the clinic co-operates with them. It does educational work, examinations and, in special cases, minor operations.

Minard's Liniment for insect bites.

SUNDAY SCHOOL LESSON

JUNE 17

THE CRUCIFIXION

Golden Text: "God commendeth His own love toward us, in that, while we were yet sinners, Christ died for us."—Romans 5.8.

Lesson: Mark 15.16-47.

Devotional Reading: Isaiah 53.7-12.

Explanations and Comments

The Crucifixion, verses 22-27. — They led Jesus away to be crucified, going outside the city, as was the Jewish usage (Acts 7.58), to Golgotha. Golgotha means "the place of a skull." We call the spot Calvary, from the Latin word calvaris, skull. It was customary to give one about to be crucified a stupefying drink, and they offered such to Jesus, wine mixed with myrrh, but He refused it. Matthew says He tasted it and then refused it. Jesus regarded the suffering before Him as part of the cup which the Father had given him to drink, and He would drink it to the dregs.

The garments of the crucified—the headdress, shoes, outer garment, girdle, and seamless inner robe—were the perquisites of the executioners, and the soldiers cast lots to see what each should have.

"There have been many like these soldiers, unmoved by the most pitiful tragedy, save by what they could get out of it. In the Great War, when mothers gave their sons, wives their husbands, and men themselves, and the nation poured out its money in a passion of service, the profiteer thought only of his own greed. He had no call to service; he saw only a chance to get rich. He got rich, but his wealth is blood money."—Joseph Fort Newton.

It was the third hour, nine o'clock in the morning, when they crucified Him. The accusation placed above Him on the cross was "The King of the Jews." Pilate knew of no crime of which Jesus had been guilty, and by this inscription he sought to annoy the priests, who, as he expected, considered it an insult to themselves, John 19.21-22. That all who passed by might read it, the inscription was written in Hebrew, Latin, and Greek (John 19.19, 20), the languages spoken at this time throughout the civilized world.

On either side of Jesus a thief was crucified. "Crucifixion was terrible and disgraceful enough in itself, but if Jesus had hung upon His cross with nothing near him to disturb the impression of His calm serenity and innocence, it might have happened that the people who stood and watched would have lost sight of the disgrace and would have felt the majesty of the sacrifice. Already that place of suffering might have seemed as glorious as it has seemed to the world since. But as it was, they went to the prison and dragged out two wretched culprits who were waiting for their doom. That there might be no doubt about the disgracefulness of the Saviour's sufferings, they hung Him between two thieves." — Phillips Brooks.

Don't Make a Toy Out of Baby

Babies Have Nerves

By RUTH BRITTAIN

Much of the nervousness in older children can be traced to the over-stimulation during infancy, caused by regarding baby as a sort of animated toy for the amusement of parents, relatives and friends. Baby may be played with but not for more than a quarter of an hour to an hour daily. Beyond that, being handled, tickled, caused to laugh or even scream, will sometimes result in vomiting, and invariably causes irritability, crying or sleeplessness.

Fretfulness, crying and sleeplessness from this cause can easily be avoided by treating baby with more consideration, but when you just can't see what is making baby restless or upset, better give him a few drops of pure, harmless Castoria. It's amazing to see how quickly it calms baby's nerves and soothes him to sleep; yet it contains no drugs or opiates. It is purely vegetable—the recipe is on the wrapper. Leading physicians prescribe it for colic, cholera, diarrhea, constipation, gas on stomach and bowels, feverishness, loss of sleep and all other "upsets" of babyhood. Over 25 million bottles used a year shows its overwhelming popularity.

With each bottle of Castoria, you get a book on Motherhood, worth its weight in gold. Look for Chas. H. Fletcher's signature on the package so you'll get genuine Castoria. There are many imitations.

CHAPTER XXV.—Continued.

Sam had been in our law courts. He had listened to many learned friends disagreeing with other learned friends, and he had become somewhat of a learned friend himself. He had one rule, "admit nothing—deny everything—remember you were not there when it happened." So, when a well-dressed young man came asking for a Finnish girl with red hair Sam knew nothing. In Sam's limited sphere the relations between men and women were elemental and simple. Maybe the police wanted his red-haired girl—that might be. Well Sam did not want to lose her, she was a good girl, honest girl—she rang up the right change. Sam did not usually trust any white girl with change, but he was glad now that he had found one whom he could not catch, for it might be she was honest all the time.

"No," Sam did not know—Sam did not know anything. Sam did not tell Helmi, either, "nice girl, Helmi—if wanta fella she could get plentee—no use gettin' nice girl all excite."

Helmi went back to the "Good Eats Cafe" one day to see if it would be possible for her to be given longer hours. The dollar a night was not going to be sufficient for her needs. Her room rent was fifteen dollars a month, and even at that she suspected the Corbetts were paying some of it. She would like to go to work at two o'clock in the afternoon if Sam could arrange it. He had been away for a few days and another Chinaman had been in charge.

When Helmi arrived old Sam was at his accustomed place behind the desk, very elegant in a new black suit and a white tie. He wore a white flower in his buttonhole, and resembled a church usher on Mother's Day. Helmi remembered how they looked in Miss Abbie's church. He was very friendly with her, and bowed cavalierly over her hand. Helmi had learned to suspect polite men of being drunk, but old Sam was always sober. The cafe, too, was festive in its appearance. Flowers in bloom were on the tables. A drooping fuschia in the window rained its crimson and purple blossoms down like a spraying fountain, and squares of embroidery hung on the walls. Helmi wondered at the changes. It must be some Chnese holiday, she thought.

Sam came around from the desk to greet her, and she noticed further improvement—Sam had false teeth, with some gold ones. His nails were daintily manicured and his hands heavily perfumed. "Nice led-haired girl," he said, shaking her hand sideways; "good girl cally tlay. Old Sam got nice liddle white girl now all his own. Soon she come, my girl—grand girl—Mrs. Sam Lee—drivee big car—my girl."

As he spoke a big gray car with silver mountings drew up to the curb, and a lady in a scarlet suit came out. She came into the "Good Eats Cafe," filling the doorway with color, like some strange tropical bird. Helmi's eyes were so dazzled by the vision that in her admiring survey she had not yet reached the face.

A shout came from under the drooping black hat, and the beaming lady bore down upon Helmi. "Helmi, my love, come to me! I always knew I would find you."

"Rose Lamb!" cried Helmi, breathless with excitement. "Rose, are you out?"

"Hush," cautioned Rose, dimpling and drawing her shoulders up, "I was never in. You and I met at a Young Ladies' Seminary—no tradesman's daughters allowed—remember! Not that good old Sam minds—he's been in jail, and it makes them broad to go to jail; but for the sake of my social position, mum's the word. Sam, tea for two please. Sit down Helmi, and let me look at you.

Have you been converted lately? O Lord, do you remember how we were prayed over? I got to be their little pet lamb—pure as the driven snow—but I drifted! Well where have you been?"

Helmi told her.

"Married? That's bad. But I knew it. I saw it in you—you were that kind. And your man has sort of been mislaid, temporarily. He is only a miner—let him go—its beastly poor pay, I hear."

"But I want him to come back," said Helmi, "I love him, Rose."

"Ain't that like you, Helmi? Of course you do, and you have a baby, and I suppose you keep it too."

"I sure do," said Helmi.

Sam Lee had gone into the kitchen, and Helmi leaning close to Rose, said; "Rose, did you marry old Sam?"

"Kid, you've said it," replied the bride; " sure did—license, ring and all, Sam Lee, widower, Rose Annabel Lamb, spinster—Anglican clergyman doing the job."

"Rose, how could you ?He is not only a Chinaman, but old—very old; he must be at least sixty."

"Sixty!" Rose almost shouted. "Don't kid yourself—he's eighty. I wouldn't look at anyone only sixty—he might outlive me. Sam is safe — he'll snuff out like a gentleman. Little Rosie, all alone—think of it!—with some forty thousand bones. How's that!"

"No good," said Helmi, shaking her head; "no good."

"Kid, I couldn't work. I hate dishwater and I couldn't scrub—it always made my nose sore. I hate work and what could I do? If I had lots of money I'd run straight. Old Sam is not so bad, and the gray car is a pippin.

Come and see our house, Helmi; it's swell—rugs of blue and rose, with one little tea house in the corner; tapestries in gold blossoms, lamps of hammered brass—oh, come and see it. Sam, some more ginger! Thanks, old top. Lots of room for you, too, Helmi. I'll give you a room in rose and gray with fresh flowers every morning. Come Helmi, let's have a little run in the car. I've been pinched once for speeding, but I'm careful now. I want to tell you about what happened after you left."

Helmi went with Rose to the car and steppel in after her. The sudden rush of air, the delightful feeling of motion, the sensation of freedom, with these Helmi's fears fell away. Impulsively she hugged her friend's arm. "Oh, Rose, its good to see you," she said.

Two men on the sidewalk regarded them closely. One watched them with wicked-wise eyes, cynical and hard, the only gleam of gladness in them due to his suspicions being verified. The other man's eyes burned with a great sorrow and a bitter disappointment.

"You see what I said," remarked the first, "that woman driving the car is well known in the underworld. Lately she has come here as the mistress of a rich Chinaman. The Finnish girl is one of the gang, as you can see. Mr. Doran, you are well out of it."

Jack leaned back against the doorway, sick at heart.

"Now I want to tell you something," said Major Cowsett, for it was he; "that girl has no legal hold on you. Col. Blackwood did not record the marriage. He knew her history, you see. She has therefore no hold on you, so do not worry about that."

Jack turned away without speaking.

The loom of life went on with its weaving, but from Helmi's life the golden thread had gone. But, of course, the flying shuttles cannot stop to look for ends. The loom of life does the best it can with the threads its shuttles are able to bring, but it takes no responsibility for the pattern.

CHAPTER XXVI.

Mrs. Kalinski and Mrs. Corbett were having a cup of tea in the latter's big room one afternoon when Mrs. Corbett had finished her duties as janitor's wife who could be got by the hour to "do out" rooms for the tenants.

"I've turned out Mrs. Rowan and Mrs. Snider today, given Mrs. Brown a lick and a promise, and put Mrs. Flickdahl off until tomorrow," said Mrs. Corbett, as she set the peanut butter and strawberry jam on the table and proceeded to cut slices from the loaf. Mrs. Kalinski was still "waiting."

"It's a long time—the last month," said Mrs. Corbett soothingly, "sure every day brings it one day nearer, and it's yourself has everything ready and fine and nothin' to do but to hop into bed and call the neighbors and good old Dr. Eckhardt. I never saw a woman any readier than you are, with the name and all."

(To Be Continued.)

Badminton players find a drink of hot tea of great benefit after a strenuous game. In leading Badminton clubs of Canada, Red Rose Tea is a great favorite. No other tea offers such brisk, zestful flavor and rich quality. Put up only in bright, clean aluminum packages. 14EW

Our Foreign Words

Few People Know That Hundreds Are Used Every Day

How many foreign words do you use in a day? Perhaps hundreds.

It is true that by usage many words have become part of our own speech, but pool is Keltic, ill is Scandinavian, yacht is Dutch, waltz is German, phantom is Greek, and extra is Latin.

Nearly every military term is French, grenade is Spanish, macaroni is Italian, caste is Portugese, chintz is Hindu, lilac is Persian.

Sabbath comes from Hebrew, alcohol is Arabic, bosh is Turkish, sago is Malayan, and tea is Chinese.

SUMMER COMPLAINT
Nearly Lost Her Little Girl

Mrs. Theodore Rivett, Anthony, Ont., writes:—"Last Fall I nearly lost my little girl as she was suffering terribly from summer complaint. She became very thin and weak; had no appetite, and could hardly walk across the room without falling down. At last my mother advised me to get a bottle of

and after she had taken a few doses she was relieved.

I also found it a grand remedy for cramps, and would not be without a bottle of it in the house for anything."

Has been on the market for over 80 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

Glass Windows In Ancient Times

Art Of Glass Making Was Known To the Early Egyptians

Glass windows are not the relatively modern things they are commonly reputed to be. According to Dr. M. Blaschke, a German ceramic chemist, they were in use in ancient Rome. Most of the panes did not exceed 12 by 16 inches in size, though a few larger ones have been found.

Glass-making, known for many centuries in Egypt, came to Rome relatively late. During the time of Cicero, who died in 43 B.C., glass objects of any kind were rarities, and glass windows were unknown. A hundred years later most households owned some, and by the time the empire was well established glass was fairly common. The famous mosaics of the later empire, notably at Ravenna and Constantinople, were made largely out of bits of glass.

AVOID THE PAINS OF RHEUMATISM

This Trouble Comes Through Weak, Watery Blood

Many people suffer rheumatic pains that could be avoided by building up the blood. Rheumatism comes with thin, watery blood, and can only be driven out of the system by enriching and purifying the blood. To make rich, red blood no medicine equals Dr. Williams' Pink Pills. These pills actually make new blood, driving out all poisonous secretions, and creating a condition of robust health. Thousands of rheumatic sufferers can testify to the value of Dr. Williams' Pink Pills. Among them is Mr. Jos. A. Fully, Bobcaygeon, Ont., who says:—"As a worker in the woods for years I was exposed to all kinds of rough wintry weather. The result was that I was finally laid up with rheumatism. I could hardly stir, and was confined to bed. Medicine seemed to have little or no effect and the best encouragement the doctor gave me was that with the coming of warm weather I would be better. But instead of getting better, I grew worse. My joints were badly swollen, and my legs so stiff they would hardly support my body. At this stage I read that Dr. Williams' Pink Pills were recommended for rheumatism and decided to try them. The results were beyond my expectations. After a few weeks the swelling had disappeared, and the stiffness gradually wore away, and much sooner than I expected all traces of rheumatism had disappeared. The next winter when I went into the woods I took a supply of Dr. Williams' Pink Pills with me, and they kept me in the best of condition. My experience should give encouragement to other rheumatic sufferers."

You can get these pills through any dealer in medicine, or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Teeth and Health

Issued By The Canadian Dental Hygiene Council and Published By The Saskatchewan Dental Society

CROOKED TEETH

Nature is no bungler; but plans wisely. So it is that she has intended teeth should occlude, or come together, in certain definite relationships, with cups interlocking as "the cogs of two wheels which work in harmony."

But quite frequently her aim is thwarted, and there is an abnormal relationship known as mal-occlusion.

Many and varied causes as we have been cited contribute to this condition as: meddlesome extractions; decayed shedding; tardy eruptions; improper masticating habits; faulty diet; deforming habits of the young child; and general diseases affecting tooth development.

But there is a type of mal-occlusion, without the so-called "crooked teeth." The teeth may in fact be exceptionally well formed and placed normally in the arch, so that in this type the arch "per se" is at fault, either exhibiting a deformity, or being in improper relationship to its fellow.

Mal-occlusion may be very noticable, evincing a protruding or retruding jaw, or other facial deformity; but again, the facial contour may not be altered from normal to any appreciable extent.

Apart from this relationship to facial expression, however, mal-occlusion may lead to serious disturbances of the teeth themselves.

It may be that due to this condition that one or several teeth are receiving excessive stress, resulting in a diseased condition of the tissues enveloping the tooth, or teeth, and menacing the life of the teeth involved.

Moreover, teeth that are not functioning properly through disease, may be weakened structurally, leaving them more prone to decay; and in any event, they are not receiving the benefits of normal tooth exercise or of the mechanical cleansing, through excursive masticatory movements, which, after all, is the best defence against the forces of tooth decay.

Little Helps For This Week

"All things whatsoever ye would that men should do to you, do ye even so to them."—Matthew vii. 12.

And each shall care for the other,
And each to each shall bend,
To the poor a noble brother,
To the good an equal friend.
—Ralph Waldo Emerson.

No curse has fallen on us till we cease
To help each other.—George Eliot.

Try do to others as you would have them do to you, and do not be discouraged if they fail sometimes. It is much better that they should fail in obeying the greatest rule laid down by our Saviour than that you should.
—Charles Dickens (Letter to his son)

Queer Law In Venezuela

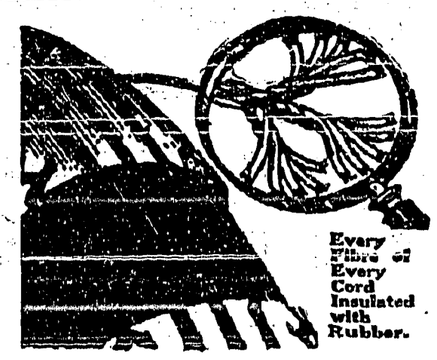
Two Horns Must Be On Every Motor Vehicle

One horn is not enough for the automobiles of Venezuela. Under the latest law, double facilities for making a noise are required in that republic, a hand horn for the city and electric horn for the country.

Actual practice shows that the drivers usually do not stop with two horns, but have three, one hand operated and the other two electrical.

The button for one of the electric horns is on the steering wheel, while the other is placed on the left door of the car and is operated by pressure of the driver's knee.

Some men's only business is pleasure and the only pleasure of others is business.



Gum-Dipped Tires Save You Money

Gum-Dipping is an exclusive Firestone process. It insulates and impregnates every fibre of every cord with rubber and prevents the cords from chafing against each other.

In ordinary tires these cords are uninsulated. In flexing they chafe against each other, causing internal heat and friction which softens the rubber, causing blowouts and tire failure.

These better tires cost you no more, yet they give thousands of extra miles. See your nearest Firestone Dealer.

"A GREAT TONIC," SAYS MRS. RUSSELL

After Taking Lydia E. Pinkham's Vegetable Compound

Fenwick, Ont.—"I am taking Lydia E. Pinkham's Vegetable Compound during the Change of Life for nervous feelings, loss of appetite and to gain strength. It is a great tonic and I have taken a dozen bottles of it. It was recommended to me by a friend and now I recommend it to all women for such troubles as come at this time."

—Mrs. W. V. Russell, R. R. No. 5, Fenwick, Ontario.

Creston School Standings, May

Division 1 — F. McLellan, Principal. Proficiency: Grade 8—Clementine Marshall, William Bayle, Tom Crawford. Grade 7 — Dorothy Marshall, Mary Maione, Jack Young.

Perfect attendance—Mary Morabito, Dorothy Marshall, Dorothea MacDonald, Le Roy Johnson, Roland Miller, Jean Hendeason, Minnie Downes, Frances Lewis, Marjorie Learmonth, Elsa Willis, Jack Young, Mary Maione, Marguerite Ferguson, Herbert Couling, Andrew Miller, Tom Crawford, Frank Morrow, Margaret Blinco, Hazel Hopwood, Betty Speers, Dora Nickel, Joan Hilton, Fay Pendry, Manuel Irving, Olive Greer, Harold Beninger, William Bayle, Earl Christie, Fred Alderson.

Division 2—Miss Rendall, Teacher. Highest standing: Grade 6—Herbert Dodd, Sarah Quinn, Iris Taylor. Grade 5—Bert Morrow, Reetha Phillips, Nellie Payne.

Perfect attendance—Hubert Beninger, Herbert Dodd, James Downes, Robert Dickson, Helen Hopwood, Harry Johnson, Hesper Lewis, Vera McGonegal, Harold MacLaren, Frances Moore, Molly Moore, Arthur Nichols, Kate Payne, Reetha Phillips, Sarah Quinn, Allan Speers, Arthur Speers, Lambert Spencer, Daisy Trevelyan, Clifford York, Kathleen Greer, Velma Rentz, Edith Rentz, Tony Morabito, Martha Torchia.

Division 3—Miss Wade, Teacher. Proficiency—Marion Quinn, Eleanor Spratt, Stewart Spiers. General improvement—Holger Johnson.

Perfect attendance—Douglas Alderson, Doris Bayle, Raymond Bevan, Arthur Dodd, George Dodd, Clarence Embree, Margaret Henderson, Stuart Hilton, Holger Johnson, Aileen Klingensmith, Hughena McCreath, Hazel McGonegal, Lloyd McLaren, Marion Quinn, Stuart Spiers, Eleanor Spratt, Ethel Sutcliffe, Charlie Taylor, Yvonne Murrell, Margaret Torchia.

Division 4—Miss Holmes, Teacher. Grade 3 Senior: Proficiency—Rachel Morrow. Improvement — August Morabito. Writing improvement — William Richardson. Grade 3 Junior: Proficiency — Doris Ferguson. Improvement — Doris Beninger. Writing improvement — Edra Walkey. Grade 2 Senior: Proficiency—Beryl Palmer. Improvement — Gladys Davies. Writing improvement — Irwin Nickel.

Perfect attendance— Elena Androsoff, William Craig, Doris Ferguson, Maisie Ferguson, Joan Greenwood, William Kernaghan, Thomas Lewis, Gordon Martin, Helen McCreath, Irwin Nickel, Gerald Phillips, Jean Ryckman, Ariel Schade, Ruth Spencer, Jessie Spratt, Richard Trevelyan, Robert Willis, William Greer, Ruth Davis, Treasa Torchia, Gladys Davis.

Division 5—Miss Kerr, Teacher. Class leaders: Grade 2—Doris Walters. Grade 1, Class A—Ruby Palmer. Class B—Mary Watson. General improvement—Margaret Dent. Writing improvement—Ardrey Weir.

Perfect attendance—George Crawford, Elsa Forester, Charley French, Russel Gabellhei, Dorothea Greenwood, Marguerite Grant, Fred MacKay, Victor MacKay, Jimmy O'Neil, Eva Phillips, Tom Quinn Mary Ross, Dorothy Klingensmith, Elmer Walkey, Mary Watson, Ardrey Weir, Campbell York, Ernest Hill, Mary Richardson, Georgina Paulson.

Kitchener

Sixteen of the scholars at Kitchener school registered perfect attendance during May according to the report just issued by Miss Hobden, and those taking the high standings are: Grade 8—Wesley Blair, Dennes Bush. Grade 7—Edith Nelson, Richard Molander. Grade 6—Selmer Anderson, Willard Blair. Grade 4— Myrtle Anderson, John Nelson. Grade 4b—Henry Nelson, Curt Anderson. Grade 2—Leonard Bohan, Robert Johnson. Grade 1—Alice Bohan, Joe Langlois. The perfect attendance list is as follows: Frank Abar, Clarence Anderson, Curt Anderson, Myrtle Anderson, Alta Blair, Wesley Blair, Dennes Bush, Alice Bohan, John Bohan, Leonard Bohan, Robert Johnson, Jack Langlois, Richard Molander, Edith Nelson, Henry Nelson.

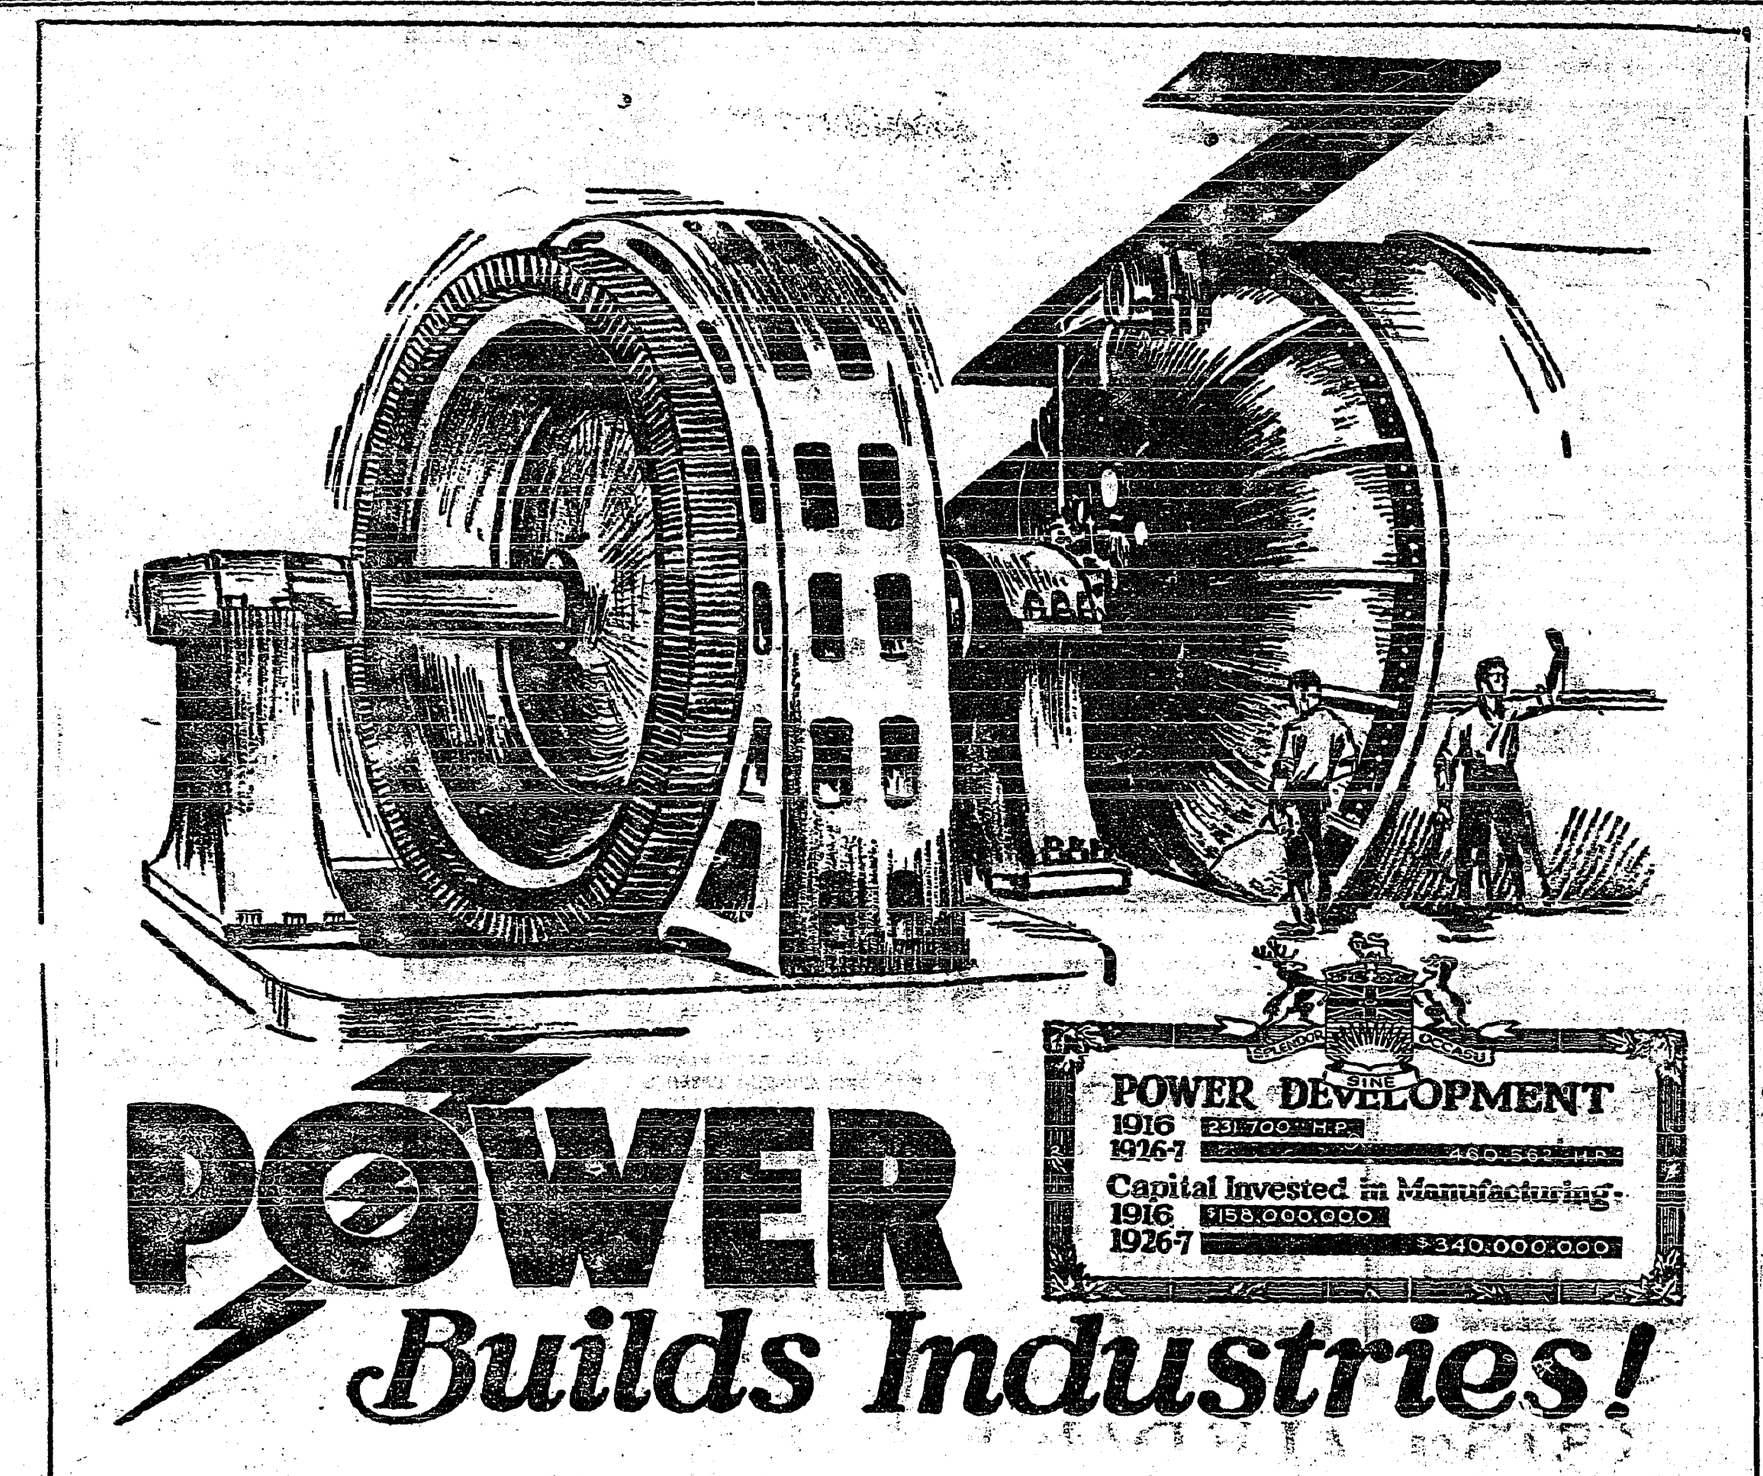
V. MAWSON



BRITISH Columbia's Power resources are the envy of the world. With Power, the riches of the world can be won; with Power, ores can be mined . . . smelted; transportation problems solved; manufacturing industries developed, and with them population . . . pay-rolls. Power is British Columbia's strongest bid for more industries . . . more people.

Of the millions of horsepower available in our province, but half a million are now harnessed to turn the wheels of industry. The great hydro-electric development at Bridge River will ultimately generate more than 600,000 horsepower, while the output at Bonnington Falls and other points is being steadily increased. The Campbell and Chilko Rivers, on the mainland, and the Nimpkish on Vancouver Island, are capable of tremendous power development for the conversion of our forest and mineral resources into fabulous wealth.

Two of British Columbia's Electric Power systems are among the greatest in Canada, each generating more than 400,000,000 kilowatt hours in 1927. This represents an increase in the last ten years of 98% . . . truly a remarkable achievement!

Foreign authorities speak of this record as a measure of the great vitality of British Columbia.

Today we rank third in power and industrial development among Canadian provinces. We have made greater progress per capita than any!

It is the policy of British Columbia to foster the development of the hydro-electric powers for the benefit of the public. They are allotted to private enterprises on condition that they will be developed within a certain time, so that no exploitation of public assets may take place.

Millions of dollars are now earmarked for Power development in our province. Dams are being built, turbines installed . . . transmission lines erected to care for the imminent industrial development.

Thousands of dollars are being expended weekly on materials and wages; thousands are feeling the immediate benefits of this enterprise.

Side by side with our power development, Industrial Expansion has kept pace. Today 17% of Canada's external trade is handled by British Columbia. During the past decade, our basic industries have increased 101.3%. Our total payroll, including all classes, is estimated at 210 million dollars. Today, our Lumbering, Mining and Fishing industries employ 72,517 people, paying them 175 million dollars in wages . . . distributing an average wage ranking among the highest in Canada.

These 175 millions in wages are a great contribution to our annual internal trade in the province. They have given our industrial workers a buying power ranking second in the Dominion and have largely been responsible for our ever increasing prosperity, as evidenced by the fact that the number of automobiles registered in the province last year was 76,187 as compared with 8,596 in 1916.

British Columbia's steady and varied industrial development has changed the conception in Eastern Canada and the United States of our province. No longer are we entirely dependent on the East for our manufactured products. British Columbia is increasingly furnishing her own needs. She now ranks third in the whole Dominion as a manufacturing province.

Our phenomenal Power and Industrial growth has focused the attention of the great industrialists and investors on our province. Today, British Columbia in the eyes of the world, stands for Power, Progress and Plenty. May our efforts of the next ten years stabilize and increase our Prosperity!

Read these announcements and understand your province's progress . . . clip them out and send them to friends. If you desire extra copies of these announcements a note to this newspaper will bring them. Advertise your Province!

Printed Butter Wraps at The Review

Local and Personal

WANTED—Strawberry pickers and packers. Fred Lewis, Creston.

Vital statistics for May give the Valley a nett gain of five in population. There were five births, no deaths and one marriage. Of the new arrivals three were boys.

May payroll for public works department employees in charge of J. D. Spiers totalled close to $9000. The disbursment of this amount is helping out local business materially.

A full crew of men and teams are at work on the North and South Highway at the Porthill end and by the end of next week the road should be in travellable shape for autoists.

FOR SALE—3 sad irons, iron bedstead, washtub and board, 2 kitchen chairs, pair goose feather pillows, O'Cedar mop, all kinds cooking utensils. Mrs. W. K. Brown Creston.

Revenues were fairly buoyant at the Creston office of the provincial police, which had a May intake of $870. Of this amount $671 was from auto licenses, and $121 police court fines.

The Creston Valley all star baseball team met with defeat by a 13 to 8 score in the clash with Kimberley at Exhibition Park on Sunday afternoon. There was a large turnout of fans to see the game.

Capt. J. F. Oatts, in charge of the local forestry work, who has spent the past few weeks at coast points recuperating his health, returned on Wednesday, and is feeling considerable better for the holiday.

The Henry Lyne ranch in the Grandview Heights district, was last week purchased by C. W. Allan. The orchard has a record for production that has few equals, but was hit severely by the 1924 blizzard.

Erickson branch of Christ Church Ladies' Guild are giving a lawn social at the home of Mrs. R. J. Long on Wednesday, June 20th, 2.30 to 5.30 p.m. Apron sale, afternoon tea, ice cream, home cooking. All are welcome.

The date of the B.C. provincial election has been set for July 18th, with nomination day on June 27th. A. L. Palmer has been named returning officer, and left yesterday for points down the lake putting up the proclamations.

FOR SALE—Bee supplies, consisting of frames and foundation, hives and queen excluders. Also a few good drawn combs. Would like to buy one section of spring tooth harrow. Enquire Co-Operative Store, Creston. Chas. Clay, Creston.

Ten free enlargements were given away by the Creston Drug & Book Store in May. One free enlargement is given away for the return of film finishing envelopes amounting to $5. The enlargements are from your own negative and measure 8 x 10 inches.

Miss Lizzie Lewis, whose marriage to Bert Boffey took place yesterday, was guest of honor at a shower at the home of Mrs. Fred Smith on Tuesday night, when a host of young friends generously remembered her with a great variety of miscellaneous gifts.

At the June session of Creston Board of Trade on Tuesday night President Mallandaine, Geo. Johnson and C. O. Rodgers were named delegates to attend the convention of the Associated Boards of Trade of Eastern B. C. at Rossland the latter part of the month.

The cool and slightly showery weather that has prevailed this week is keeping down strawberry shipments somewhat. From all points in the Valley about 1000 crates a day are moving l.c.l., and Wynndel expects to be moving them in car lots from the pre cooler today.

Rev. J. and Mrs. Herdman and family were weekend visitors at Benners Ferry, where he exchanged work with Rev. D. DeLong, who was the speaker at Trinity United Church on Sunday evening, and on Monday night addressed a largely attended open meeting of the Beaver Brotherhood.

A class of eight candidates received the apostolic rite of confirmation at the hands of the Bishop of Kootenay at Christ Church on Friday night. At the same service Rev. A. Garlick was officially installed as rector of the parish. There was quite a large turnout, and after the service there was a reception in the Parish Hall.

R. B. Staples, sales manager of Sales Service, Ltd., was here from Kelowna yesterday. He has just completed business calls on the fruit trade at all prairie points and says crop conditions and trade generally could hardly be better. B.C. strawberries have the entire prairie market to themselves and with berries selling at popular prices he expects to see the big 1928 crop disposed of at prices equal to 1926.

East Is Coming West

The recently announced decision of the General Motors Corporation of Canada to proceed immediately with the erection of a million dollar manufacturing and assembly plant at Regina is gratifying news, not alone to the citizens of the capital city of Saskatchewan, but to all Westerners, because it indicates that at long last the leaders of industry in the East have come to a realization of the fact that they cannot continue indefinitely to supply the rapidly growing western market from factories located thousands of miles away, and compelling the western purchaser to pay greatly enhanced prices by reason of freight charges based upon the high clasification imposed upon finished articles.

Western people have contended for some time now that the logical industrial development in Canada is the establishment of branch factories in the West. There was a time, not more than a couple of decades ago, when the view prevailed that the western market could be supplied not only from Eastern factories, but from Eastern wholesale houses. Gradually, as western population grew and the volume of business increased, branch wholesale houses were opened in Winnipeg, and since they have gradually spread all over the West, until today wholesale establishments located in all the larger western centres of population very largely supply western needs.

The same development which thus characterized the business of wholesaling and distribution must inevitably now follow in the work of manufacturing itself. Freight charges on the transportation of necessary raw materials into the West will be substantially lower than charges on the finished products, while the opening of western factories may, and in all probability will, encourage the production for use of certain raw products of the West which today lie undeveloped because of a lack of market.

The decision to locate branch industries in the West is furthermore pleasing to Western people because it indicates recognition by Eastern industrial leaders of the fact that, if they are to command the support and sympathy of the West, and if past lines of separation between east and west are to be wiped out, and a new national viewpoint developed, the East cannot continue to merely accept the cream of western trade and profits in years of good crops and times of plenty, but must come west and throw in their lot more whole-heartedly with the people here and, while benefitting in years of abounding prosperity, also carry their share of the burden in years of slim crops and business depression.

With wonderful activity prevailing in the work of prospecting and developing the immense mineral areas of the northern portions of the three prairie provinces, with large schemes of power development now receiving attention, and with the new, larger, more national viewpoint gaining headway among the financiers and industrial leaders of the East, there is every reason for saying that a new erea in the history of Western Canada is opening.

While the West will long continue to excel as an agricultural country, and will steadily expand its annual production from its rich prairie lands, it seems safe to predict that from this time onward industrial development will move along in keeping with the agricultural growth and mineral development of the country.

Such development offers the best and most practical solution of one of the West's big problems, namely, the unemployment difficulty which annually presents itself because of the seasonal nature of the basic industry of this country. In this connection it is pointed out that the "peak" period of production in Regina's new industry will be in the late winter and early spring months, before active outdoor building operations, railway construction and road making gets under way, and when under present conditions unemployment is at its maximum.

Viewed from all standpoints, therefore, the whole West can unite in welcoming the momentous decision of one of Canada's greatest industrial concerns to establish a large branch plant in the heart of the prairie west. Its action will be but the forerunner of many similar decisions by other large manufacturers, and a resultant development from which every Western centre, and every Western citizen, will benefit.

Gold Meal For Edison

Its 1928 gold medal for Science has been awarded by the Society of Arts and Sciences to Thomas A. Edison, the inventor. Plans for a large public testimonial in New York when the Medal is formally presented to Mr. Edison are nearing completion. It is expected that the event will bring together ambassadors of foreign governments and head of leading scientific societies, universities and industries.

Federal Income Tax Collections

Federal income tax collections for the fiscal year 1927-28 totalled $56,570,972, an increase over the preceding year of $9,000,000, in spite of the reduction in the income tax last year. Montreal's share of the payments was $17,374,963; Toronto's $13,320,640, and Vancouver's $5,440,359.

Children may cry for the moon until they get big enough to want the earth.

Too Much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with *physicians. One spoonful in water* neutralizes many times its volume in stomach acids, and at once. The symtoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now.

Be sure to get the genuine Phillips' *Milk of Magnesia prescribed by physi*cians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Alberta Sells Railway

Purchasers Obtain Rights and Titles To the Lacombe and Northwestern Railway

A cheque for $1,510,582.59, turned over to the provincial treasurer of Alberta, by the Canadian Pacific Railway, on May 10th, purchased the Lacombe and Northwestern Railway. The company obtained full possession, right and title of the latter property, with all securities and capital stock of the land of the company. The new directors are: D. C. Coleman, vice-president of the Canadian Pacific; G. A. Walker, solicitor at Calgary; George Fox, superintendent at Edmonton; C. D. Porter and George Hutton.

NO BETTER MEDICINE FOR LITTLE ONES

Is What Thousands Of Mothers Say Of Baby's Own Tablets

A medicine for the baby or growing child—one that the mother can feel assured is absolutely safe as well as efficient—is found in Baby's Own Tablets. The Tablets are praised by thousands of mothers throughout the country. These mothers have found by actual experience that there is no other medicine for little ones to equal them. Once a mother has used them for her children she will use nothing else. Concerning them Mrs. Charles Hutt, Tancook Island ,N.S., writes:—"I have ten children, the baby being just six months old. I have used Baby's Own Tablets for them for the past 20 years and can truthfully say that I know of no better medicine for little ones. I always keep a box of the Tablets in the house and would advise all other mothers to do so."

Baby's Own Tablets are sold by all medicine dealers or will be mailed upon receipt of price, 25 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont.

Great West Airways

First Commercial Flying Company On Prairies Is Established At Calgary

Backed by many of Calgary's prominent citizens, managed by Capt. F. R. McCall, D.S.O., M.C., D.F.C., and known as the Great West Airways, Limited, the first commercial flying company on the prairies west of Winnipeg, is expected to be in operation within one month, with Calgary as base, it is announced. The objects of the company are to carry on the business of aviation in all its branches, including the giving of instruction to pilots and air engineers.

For Sprains and Bruises.—There is nothing better for sprains and contusions than Dr. Thomas' Eclectric Oil. It will reduce the swelling that follows a sprain, will cool the inflamed flesh and draw the pain. It will take the ache out of a bruise by counteracting the inflammation. A trial will convince any who doubt its power.

New Market For Purebred Hogs

B.C. Branch Of Canadian Swine Breeders' Association Cultivating Market In Antipodes

For the past year the secretary of the B.C. branch of the Canadian Swine Breeders' Association has been engaged in seeking new markets for purebred hogs, paying spcial attention to Australia and New Zealand. As a result many demands have been received, interest being stimulated by New Zealand's removal of the embargo on stock with a clean bill of health.

Many people are almost crippled with corns. But it is needless suffering which can be speedily ended with Holloway's Corn Remover.

Britain's Air Mail Grows

Air mail activities in Britain are growing rapidly. Letters dispatched from London last year totalled 27,000 pounds, as compared with 17,000 in 1926. Air parcels were 74,000 pounds in 1927, and only 55,000 pounds in 1926. Ten thousand pounds of letter mail were carried to European destinations alone in the past 12 months.

The outcome of a basketball game and buckwheat cakes depends upon the batter.

A safe and sure medicine for a child troubled with worms is Mother Graves' Worm Exterminator.

Always heat a new range gradually. This will prevent the possibility of its cracking.

For Hay Fever—use Minard's.

Your Boy Needs Cuticura Soap

Cuticura Shaving Stick 25c.

Air Patrol On Hudson Straits

Straits Open For Navigation Much Earlier Than Even Friends Of Route Anticipated

Flying operations have been resumed in Hudson Straits, and reports from the air bases reveal that the ice has already cleared out of the eastern end of the channel and is broken up in the centre and western sections. It is the opinion of the airmen and marine officials stationed in the straits that an ice breaker could open a channel right through the straits at present. No ice breaker is available, but the department announces that a vessel of this type will be available before next spring.

The time when the straits will become easily navigable is as yet doubtful, but it is quite clear that ice conditions are not nearly as heavy a handicap as has always been supposed and that the straits will be open much earlier than even the friends of the route anticipated.

Fur Farming Leases

Already there are 800 applicants for fur-farming leases in the swampy St. Paul de Metis district of Alberta, recently made available for fur-farming purposes.

A reliable antiseptic—Minard's.

The cost of the Suez Canal was about $127,000,000.

Japan Buys Canadian Poultry

Japanese Government To Purchase Birds For Experimental Farms

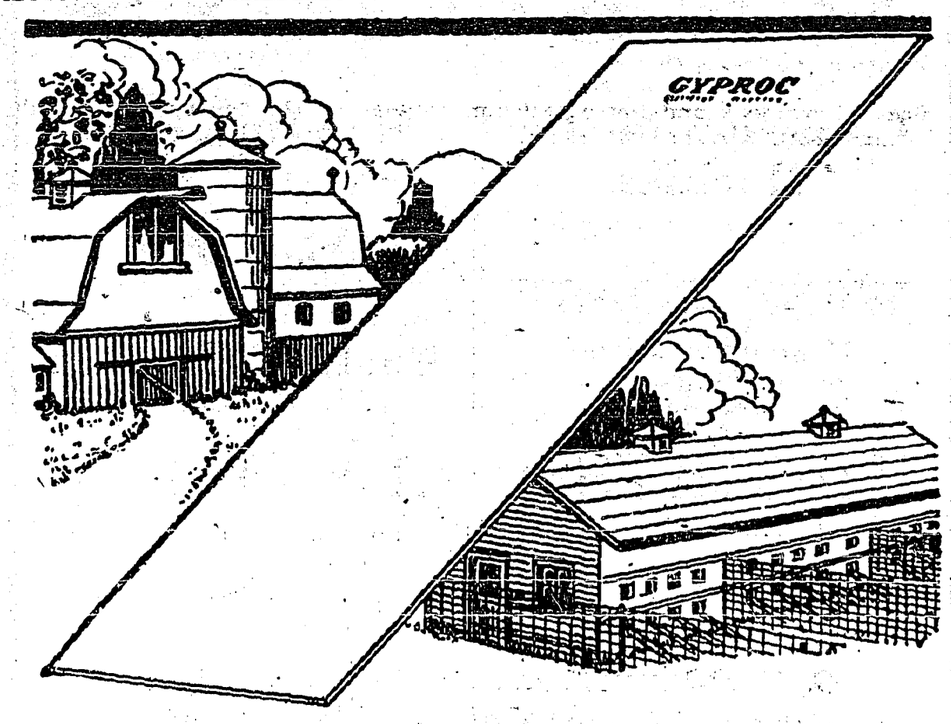
According to a recent report, the Japanese Government has sanctioned a programme for the purchase of 1,000 birds annually, for five years, for its five experimental farms. Some of this poultry will probably be bought in British Columbia, and is one more evidence of the splendid publicity which Canadian stock received at the World's Poultry Congress in Ottawa last year.

Miller's Worm Powders are complete in themselves. They not only drive worms from the system, but repair the damage that worms cause and so invigorate the constitution that it speedily recovers from the disorders of the digestion that are the result of the work of these parasitic intruders. They do their work thoroughly and strength and soundness follow their use.

Lindbergh's famous plane, the Spirit of St. Louis, has been placed in the Smithsonian Institute at Washington. Years hence, folks will look at it and say: "Wonder how he ever did it in that old crock?"

For Rheumatism use Minard's Liniment.

Nearly 50 men of more than 60 years of age are inmates of Canadian prisons.



"Modernize" Your Farm This Modern Way

Nearly every building on the farm can be greatly improved and "modernized" by Gyproc.

This famous wallboard is recommended by leading contractors for both new and old construction because it gives advantages offered by no other material—fire-safety, rigid strength, economy and cold and heat resistance.

All these vital advantages! And you get them for nothing—because Gyproc costs no more than products that have none of Gyproc's remarkable qualities.

Gyproc makes durable, permanent walls and ceilings in less time and at less cost. Gyproc Joint Filler on the joints assures a smooth, flat surface which takes any decoration—particularly suitable for Alabastine.

SEND FOR FREE BOOK

Canada Gypsum and Alabastine Limited, Winnipeg, Canada

Please send handsome free booklet, "Walls that Reflect Good Judgment" which contains valuable information on Gyproc for farm use.

CONSUMERS OF BRITAIN HAVE NO FEAR OF POOL

Regina.—At the International Pool Conference held here, a message of goodwill was brought by the delegates from the British Isles.

Four distinguished visitors from England and Scotland told the conference of the desire of hundreds of thousands of co-operative consumers in the Old Land to remove the barrier that appears to exist as between the two classes of co-operatives and each work for the other in complete confidence with the one object in view — the creation of a truly co-operative body composed of both producer and consumer.

A. W. Golightly, representing the English Co-operative Consumers' Organization, broke the ice on the question and told of the suspicion with which the creation of the wheat pools of Canada was viewed at the start. The Rochdale co-operatives, he said, had had bitter experiences in the last 70 years with trusts and combines, and the formation of the wheat pools had first appeared to them as a trust in another guise.

He frankly told how his organization had wondered whether it meant another effort to squeeze the co-operative consumer, whether one class of co-operative would be set against another. He added that the power which the Canadian pools possessed in the economic structure of the world was enormous. "And we wondered how you were going to use that power," he said.

Alarm, however, had given way to admiration. "I am satisfied after meeting your leaders, after listening to inspiring addresses, after hearing your general sales manager, to go back to my friends in England and tell them that the Canadian people have adopted the best method of handling their product co-operatively," he added, amid loud and prolonged cheering from the delegates.

Mr. Golightly's colleagues amplified his remarks and Peter Malcolm of the Scottish co-operatives, caught the fancy of the audience by saying that his organization desired to buy the wheat of Western Canada, raised and sold in a co-operative way, in order to use it in the bread co-operatively made by his people and sold to those who were in his co-operative society. "The vessels that bring your co-operative grain to us should return to you with our co-operative made goods," he said.

Not Wanted In England

Harry Thaw Is Refused Permission To Land At Southampton

Southampton, Eng.—Harry Thaw, arriving at Southampton aboard the Aquitania for a visit to England, was refused permission to land by the immigration officials. Thaw had obtained a British visa before sailing but nevertheless was not allowed to land.

He was informed that the home office had issued an order of prohibition and it is supposed that he will be obliged to return to New York on the Aquitania.

To Honor Airmen

Winnipeg, Man.—In honor of four gallant pioneers of the air, four new stations in the western region of the Canadian National Railways have been named Fitzmaurice, Lindbergh, Alcock and Hinchcliffe, and a fifth is to be called Endeavor, the name of the 'plane in which Walter Hinchcliffe and Hon. Elsie Mackay attempted to fly the Atlantic.

Expect Cable Conference Report

London.—The report of the Imperial Cable Conference, in which the Dominion governments are represented, will be made shortly, the Canadian Press has learned. It is believed the committee will produce some scheme for maintaining cable communications intact.

No Danger Of War

Toronto.—Sir John Aird, president of the Canadian Bank of Commerce, after an extensive trip in Europe, stated in an interview here, that he considered that there was no danger of another outbreak of war.

No Evidence Of Grafting

Immigration Inquiry Report Exonerates Members Of Parliament

Ottawa.—The parliamentary immigration inquiry report was tabled in the House of Commons. The document contains little of a drastic nature, but thirteen recommendations for the improvement of Canadian immigration activities in Canada.

Evidence in detail respecting the organization of the department of immigration was heard at thirty-six meetings of the special committee which conducted the inquiry. All phases of the department's immigration and colonization work—carried on both separately and in conjunction with governmental and voluntary organizations—were examined into and the testimony of a long list of witnesses was received.

Ald. M. J. Coldwell, Regina, who made charges last summer that members of Parliament had trafficked in special immigration permits, was numbered among the witnesses.

The report contains no findings of wrongdoing or trafficking in special immigration permits by members of the Federal Parliament or others. Tabling of annual returns at each session of Parliament showing particulars of these permits granted is, however, suggested. Steps to speed up British immigration to Canada by improving the overseas medical inspection system and the granting of assistance to young Canadian agriculturists similar to that given by the British authorities to British emigrant boys feature the report. Efforts towards reduced ocean passage and railway rates are also advocated.

Reindeer For Northern Canada

Would Supply Food For Eskimo Bands In Northern Areas

Ottawa.—Importation of herds of reindeer into the Mackenzie basin with a view to supplying food for the Eskimo bands which inhabit this remote part of Canada is being undertaken by the government.

In the House of Commons, when estimates of the department of Indian Affairs were under consideration, Hon. Charles Stewart, minister in charge of the department, told of privation which had been suffered by the Eskimo in the past and the efforts which were being made to eliminate it.

Mr. Stewart also informed the House that the department was having some trouble providing relief for Indians in the Northern territories, and declared something must be done, in co-operation with provincial governments, to provide hunting grounds outside the present reserves. If placed in competition with white men the Indian would starve to death.

Conducting Another Search For Fliers

Quebec Man Believes Nungessor and Coli Landed In Labrador

Quebec.—That he was morally convinced that the French fliers Nungessor and Coli had landed with their monoplane, White Bird, somewhere in the Labrador country and that he had the intention of conducting a new search party this summer in that district was the statement made here by Dr. Louis Cuisinier. Dr. Cuisinier has returned from Greenly Island, where he had gone to the rescue of the stranded crew of the Bremen. Dr. Cuisinier said that the search party would be sent in specially equipped aeroplanes.

Many Nations Represented

Toronto.—It is expected that 65 nations will be represented in Toronto when the Baptist World Alliance holds its fourth congress here, June 23-29. About 7,000 delegates are expected, representing some 12,000,000 baptists throughout the world. The roll call of nations on Saturday, June 23, probably will be the most picturesque session.

Change Is Approved

Toronto.—Reorganization of the Canadian Dental Association with provision of an executive body in which all provinces will have representation, was approved at the annual convention. Dr. J. W. Clay, of Calgary, president, stated the change would make for a strong national body.

PRESENTED AT COURT

Miss Ruth Draper, the American actress, caused a stir in English society when she was presented at court. In the past the understanding has been that it was useless for any actress to seek presentation while she was still actively engaged in her profession, but court officials have pointed out that the general ban on stage folks has been a dead letter since the days of Queen Victoria.

Agree On Peace Pact

No Difference Of Opinion Between Canada and Britain

Ottawa.—There is no conflict of opinion between the Prime Minister of Canada and Sir Austen Chamberlain, British Foreign Secretary, with regard to the proposed Kellogg treaty for outlawing war.

This was made clear by Premier Mackenzie King in the House of Commons, when he replied to a question put by E. J. Garland, U.F.A., Bow River.

Mr. Garland had drawn the attention of the Prime Minister to his answer to C. H. Cahan, Conservative, St. Lawrence-St. George, on May 18, when Premier King declared that it was erroneous to suggest that the British Government could not sign the Kellogg treaty without the concurrence of the Dominions.

Premier King referred Mr. Garland to his communication to Mr. Kellogg where he he had set forth that the treaty would be submitted to parliament.

Request For Railway Cars

None Available and Fish Shipments Accumulating At Prince Rupert

Ottawa.—A request for railway cars to carry an accumulation of halibut from Prince Rupert, B.C. to the Eastern markets was made in the House of Commons by J. C. Brady, Conservative, Skeena.

Within the last few days 490,000 pounds of halibut have been brought to Prince Rupert ready for market.

Only three cars were available and these had been secured by U.S. shippers. He asked the Minister of Railways to take some action to assist the Canadian shippers to obtain cars.

Hon. C. A. Dunning, Minister of Railways and Canals, promised assistance.

Universities Elect Dr. Laing

Montreal.—Dr. G. H. Laing, dean of the faculty of arts of the University of Saskatchewan, Saskatoon, was chosen president of the National Conference of Canadian Universities at a session of the conference.

Pass Estimates For Defence Department

Amendment Presented To House On Cadet Training Defeated

Ottawa.—When estimates of the Department of National Defence were before the House of Commons, Miss Agnes MacPhail, Progressive, Southeast Grey, moved that a vote of $500,000 for cadet service be reduced to $1. Miss MacPhail's amendment was declared lost and the item itself carried.

During the debate, Miss MacPhail asked Hon. J. L. Ralston, Minister of National Defence, how he accounted for the fact that his department was the only one which "interfered" with education which was under provincial jurisdiction.

To this the minister replied that no training was carried out without the consent of the provincial governments. No teacher was compelled to take cadet training nor were any of the schools under compulsion to do so. He declared the strongest advocates of peace were those who had done their share in military training in their youth.

Included in the votes were $2,315,000 for the non-permanent militia; $4,950,000 for the permanent force; $2,725,000 for the naval services; $1,669,694 for the Royal Canadian Air Force, and $3,195,000 for civil air operations.

May Hold Exhibition Of Canadian Goods

Plan For Publicity Campaign In Britain Being Discussed

London.—Canadian products should become very well known in Britain if Parmalee's scheme succeeds. Exhibitions of Canadian products are going to be held in the near future at Birmingham, Aberdeen, Belfast, Manchester, Glasgow, Dublin, Leeds, and Bristol, and a striking publicity campaign will be put into operation. A permanent staff, composed entirely of Canadians, will be created in London so as to be ready at any moment to run exhibition campaigns on behalf of Canadian products. Canadian artists will design the stalling and posters.

Parmalee is staying two months in order to perfect the scheme, which has been welcomed by trading authorities and the British government as a noteworthy enterprise.

Burial Of Hon. C. W. Cross

Edmonton.—With every manifestation of sorrow and respect, the body of the late Charles W. Cross, K.C., first attorney-general of Alberta, and since 1905 prominent in public life in the province, was laid to rest here. The crown, the province, the city, bench and bar, the various other learned professions, and men who are leaders in many diverse activities united in the last tribute .The funeral service was conducted by Rev. Dr. D. G. McQueen, pioneer Edmonton pastor.

Grant For Health Department

Ottawa.—For the Federal Health Department, $657,000 has been passed by the House of Commons. The votes included $130,000 for administration of food and drug acts; $210,000 for marine hospitals; $200,000 for quarantine, and $100,000 for venereal disease.

U.S. PRESIDENTIAL POSSIBILITY

The present United States secretary of commerce, Herbert Hoover, is regarded as the leading Republican candidate for the presidency of the United States. The above is the most recent portrait of Mr. and Mrs. Hoover taken at their Washington home.

PROTEIN CONTENT BEST BASIS FOR GRADING WHEAT

Ottawa.—The proposal that the protein content be made the basis on which wheat be graded was dealt with by the committee on agriculture in its report submitted to the House.

It came to the conclusion that the nearest approach to an ideal index of the baking strength of wheat was by determining the variety and quantity of protein, the latter to be ascertained by chemical test. At present the baking strength is determined on the variety and percentage of hard kernels.

The report stated that so far as export trade was concerned there was not sufficient evidence as to the effect of the proposed change from the present system of grading to that of the protein test to warrant a recommendation that it be adopted, but did recommend that a full inquiry into that phase of the question be made.

The committee also urged that seed warehouses be maintained to collect and distribute seed of approved varieties; that an experimental flour mill be established and that inspectors be stationed at all transfer points between the Head of the Lakes and the seaboard in order to prevent mixing of wheat.

The changes, if carried out, would necessitate amendments to the Canada Grain Act.

The resolution states that in Canada, Great Britain and the U.S., and probably most other countries consuming Canadian wheat, baking strength was an important factor in deciding its value, and this strength means the quantity and quality of protein.

Except in the case of Durum wheat, at present graded in a class by itself, and possibly one or two other varieties grown in relatively small quantities, the protein in contract grades could be assumed to be good quality.

Cost of making protein tests should range from 50 to 75 cents, which would not be a serious difficulty notwithstanding the fact that laboratories would have to be installed at all inspection points. The committee suggested that data be obtained as to the cost of installing and maintaining laboratories. Individual tests would require about two hours. A large number of tests could be conducted simultaneously and there would be no delay in testing and dispatching cars to terminal points.

The definite proposal in the resolution could be put into effect insofar as carlot shipments were concerned but the committee was not satisfied that wheat sold locally in wagon loads could take advantage of this scheme. This practice of Kansas City wheat pool members, whereby farmers and elevators forwarded supplies jointly to laboratories, pointed a way to solution of the street wheat problem and should be investigated.

Introduction of protein as a factor in wheat grading would be an incentive to grow the best milling varieties.

According to L. H. Newman, Dominion cerealist, and in the opinion of the agriculture committee, these grades are classed as desirable: Early Red Fife, Marquis, Ruby, Red Bobs, Selections, Renfrew, Kitchener, Garnet and Reward.

The cereal division of the Federal Department of Agriculture and provincial governments should continue efforts to zone Canada's wheat area with a view as to varieties most likely to prove satisfactory in each case.

The committee expressed the opinion that Garnet Wheat, hitherto excluded from No. 1 Northern, should be eligible for that grade.

Brandon Goes Wet

Brandon, Man.—Brandon, noted prohibitionist centre of the province, went "wet" when the electors voted in favor of the opening of beer parlors in the city. The vote was: "For," 3,214; "Against," 1,951, a majority of 1,263.

The tourist who takes his automobile to Europe with him, can now arrange to have it ready for him at the time he lands, with the tank filled and the licenses procured.

Why Not Enjoy City Conveniences

Install a Sanitary Toilet and Bath Room and be up-to-date

We make a specialty of installing the most modern and up-to-date Plumbing Systems, with Pressure Pumps and Tanks.
