THE CRESTON REVIEW

Vol XX. CRESTON, B. C., FRIDAY, AUGUST 31, 1928 No. 30

Alice Siding

Mr. and Mrs. Jonah Brubacker have removed from Lister back to their former home on the Beazer ranch.

Frank Martin left on Monday by auto for southern Alberta, to help with the harvest.

John Miller, jr., got away on Friday for Staveley, Alberta, where he will remain for harvest and threshing.

Bill Radcliffe of Kimberley was a motor visitor on Monday with Mr. and Mrs. A. G. Cox.

Mr. and Mrs. Joe. Taylor and family, and Miss Smith, all of Calgary, Alberta, are visiting with their sister in-law, Mrs. Fred Taylor.

W. A. Pease, who recently completed the installation of an irrigation system from the hills back of the Jack Smith ranch, is using the water supply to excellent advantage on the ranch and stables.

Miss Gladys Webster left on Saturday for Blackie, where she will be in charge of the public school for another year.

The most enjoyable party of the season was held at the home of Ron. Smith one night last week. There were about sixty guests and dancing was the feature with music by Bob Marshall, drums; Hector Stewart and Gladys Stewart, accordeon; Ron. Smith, violin, and a very sumptuous lunch about midnight.

Erickson

Mr. and Mrs. E. W. Klingensmith were Bonners Ferry visitors a couple of days early this week.

Mrs. H. A. McKowan and daughter of Cranbrook were weekend visitors with the former's parents, Mr. and Mrs. Geo. Cartwright.

Miss Jean and Lyle Kemp accompanied Mr. and Mrs. Twigg on a motor trip to Cranbrook at the first of the week.

School is due to re-open on Tuesday, September 4th, with Miss White of Fernie, principal; and Miss Ried of New Westminster in charge of Division 2.

The Crisler garage has had quite a busy week week of it. He has disposed of his Chevrolet truck to Fred Smith, who will use it at log hauling at Fruitvale. He disposed of a Ford touring to Perley Putnam.

Mr. and Mrs. W. R. Long returned on Saturday from their wedding trip, which included calls at Portland, Seattle and other coast points, and are getting settled in their new residence on the Woodbine ranch.

W. V. Jackson, who has been in charge of fruit inspection here and at Creston the past month, left on Wednesday for Robson, and will be in charge of inspection at Arrow Lake points the balance of the season.

R. J. Long got back last weekend from Vernon, where he had been attending a directors meeting of the Associated Growers.

In order to give still better service and to facilitate operations generally a 18 x 22 foot addition has just been placed to the Crisler garage, A. E. Penson having the contract. The enlargement has been specially fitted up for the storage of parts and will also give improved quarters for the office. In spite of garage expansion at Creston, Ray states the Erickson Battery and Service station has enjoyed a greatly increased trade this season.

Long—Cowling Nuptials

St. Mary's Church, South Vancouver, was beautifully decorated on the occasion of the wedding of Florence, only daughter of Mr. and Mrs. G. Cowling, 545 Fifty-fifth avenue east, and Mr. William R. Long, eldest son of Mr. and Mrs. Long of Creston, Rev. James McDougall read the service under an arch of sweet peas and fern.

Given in marriage by her father, the bride wore a charming period gown of white georgette with close fitting bodice and frilled skirt of French tulle edged with silver. Her Brussels net veil was hand embroidered and worn Spanish style with a wreath of orange blossoms. Ophelia roses and sweet peas formed her shower bouquet. Miss Patricia Coltart, as bridesmaid, wore a period gown of silver and primrose shot taffeta and a white mohair hat trimmed with primrose velvet ribbon and carried a shower bouquet of mauve and pink asters and sweet peas. Miss Sylvia Fletcher was a dainty flower girl in a dress of mauve georgette over pink silk and carrying a basket of pink sweet peas. Mr. Frederick McLellan of Creston was groomsman. The ushers were Mr. E. Fitch, Mr. M. Hamilton, Mr. H. Parkes and Mr. W. Armstrong. During the signing of the register Miss Patricia Coltart sang "O Promise Me," and Mr. Crawford played the wedding music.

Later a reception was held at Maple Hall where Mrs. Cowling assisted the wedding party to receive, wearing a becoming gown of Sandalwood georgette, a black picture hat and a corsage boquet of roses. Mrs. J. Wright of Victoria also received, wearing a handsome blue crepe satin gown. Presiding at the urns were Mrs. Coltart and Mrs. Fletcher. Vocal solos were given by Miss L. Thornley.

Later Mr. and Mrs. Long left on a motor tour in the United States, the bride travelling in an ensemble of kasha with a matching hat.

For Rent—Five room house on ranch next Robt. Starks. Apply A. Anderson, Victoria Avenue.

Estray—Roan bull calf. $5 reward for information leading to recovery of the animal. E. Nouguier, Canyon.

Horse For Loan—For his keep I will loan good work horse to reliable party for two months. W. V. Jackson.

Canyon City

Geo. Hewitt, who has been working at Calgary, Alberta, for the past few months, is spending a few days at the ranch this week.

Mr. Shuttleworth of Kimberley is a holiday visitor at Canyon, a guest of Mr. and Mrs. P. Knott.

Mrs. Wearmouth has just returned from a week's visit with friends in Spokane.

School is due to re-open for the fall term on Tuesday morning. Principal Kolthammer and Miss Vera Lister, will again be in charge.

Rev. Mr. Heiquist of Cranbrook, who has been taking Norweigan services here monthly for the past few years, was here on Sunday at what will likely be his final appearance, as he has accepted a call to a church in the United States.

W. G. Wearmouth is busy with an addition to his house. It will be 18 x 30 feet, and two storeys.

Principal and Mrs. Kolthammer, Miss Emma Samuelson and Martin Nelson make up a motor party from Canyon who are holidaying in Spokane and district this week.

Raymond and Helen Humble have just returned from a holiday visit with their aunt, Mrs. Richmond, at Cranbrook.

Sirdar

Rev. W. A. Greer was here on Wednesday evening taking Presbyterian service at the schoolhouse.

Miss Grace Brander was a Creston caller on Friday. Mr. and Mrs. Newbury were at the metropolis on a business call the following day.

Norman Backus arrived back from Cranbrook on Thursday.

Mr. and Mrs. Dennes and son, Richard, arrived home on Sunday after a very enjoyable motor trip to Calgary, Alberta, and Vancouver.

Miss Eileen Heap was a weekend visitor with Mrs. Grady at Wynndel.

Mrs. Whiteside is a visitor here from Crowsnest, arriving on Monday.

Mr. and Mrs. Altamare and family of Natal are visitors this week with Mr. and Mrs. S. Pascuzzo.

Mrs. Tom Rogers and son, Sidney, are leaving Wednesday for Vancouver, where Sidney will enter the high school in that city.

Miss Lily Simpkin was a visitor with Mrs. Frank Sinister at Alice Siding on Tuesday.

Misses Marguerite and Daisy Rogers were visiting with friends in Cranbrook last week, returning on Sunday.

Clifford Cook, who has been visiting with his aunt and uncle, Mr. and Mrs. C. Neil, for the past six weeks, left for his home at Ottawa, Ontario, on Thursday.

Norman Backus takes this opportunity of expressing a very sincere appreciation of the sympathy and many kindnesses shown him in his recent bereavement.

Lister

George Hurry, Albert Tedford and son, Clarence, left at the end of the week for the Barons district, Alberta, to help with the harvest and threshing.

Mrs. John Bird and son, Cyril, are spending a few days with Cranbrook friends this week.

W. S. Bush and son, the well known Creston painters and decorators, are here this week at work on the painting of the residence of Mr. Hewitson.

Frank Baker is another Listerite to depart this week to take a hand at prairie harvest operations.

Mr. and Mrs. Brubacker, who have been living here for the past six months, have returned to their old home in the Alice Siding section for the present.

Miss Alice Curtis of Slocan City has been engaged by the trustees to take charge of the Lister school the coming term, and will commence her duties on Tuesday morning.

Rev. A. Garlick of Creston will be here on Sunday morning for the usual Church of England services—morning prayer and Holy Communion.

Mr. and Mrs. C. H. Phillips of Kimberley were Sunday to Tuesday visitors at the Phillips ranch here.

Mr. and Mrs. Sam Whittaker of Cranbrook spent a few days here this week, a guest of the latter's mother, Mrs. A. Hobden.

Local and Personal

Rapel's All-Canadian shows will play Creston today and tomorrow, with afternoon and evening bills. A great variety of clean entertainment at attractive prices is guaranteed. The tents will be pitched on Barton Avenue, opposite the town hall.

The village bank account this week bulged to the extent of $1568, being Creston share of the liquor profits for the six months ending March 31st, and represents the biggest remembrance of the sort the village has ever received for the half-yearly period.

An error was made last week in stating that the old King George Hotel building had passed into the ownership of Peter Andestad. The buyer is B. Morabito who is already busy remodelling it and will use one of the apartments for his own residence The building will be fitted up for apartments or business purposes as the demand warrants, according to Mr. Morabito.

Dr. Fry, B. Hawks, O. C. Wilson, Judge McNaughton and Mr. Bottom of Bonners Ferry were calling on Creston friends on Tuesday afternoon. The three former are heavy owners in Drainage District No. 8 at Porthill, where they had been supervising harvest operations, and came on to Creston to renew acquaintances. They state that none of the wheat in No. 8 will run less than 40 bushels to the acre, and there will be a considerable yield as high as 60 bushels.

Creston Valley Post Canadian Legion had their first annual picnic on Sunday at Goat River Crossing, but due the uncertain weather the attendance was smaller than anticipated. About 120 children and adults were on hand and ample motor transport was in evidence to get the crowd to the grounds. There were races for the children, who were also abundantly supplied with free ice cream, lemonade, candies, etc., and for the adults the tug of war and boxing bout were the features. There was a very fine spread of good things to eat, and the affair was very much enjoyed by all present.

Wynndel

Mrs. Warren and family, who have been visiting with Mrs. Gregory, returned to their home at Moosejaw, Sask., last week.

Victor Carr of Alice Siding was combining business with pleasure on a visit here last week.

Mrs. J. V. Orr of Minneapolis arrived last week for a visit with her mother, Mrs. Ringheim and family.

Miss Severn, who has been a visitor with Miss Ringheim, returned to her home at Trail last week, and was accompanied by E. Ringheim.

Mr. and Mrs. H. A. Bathie left last week for Claresholm, Alberta. C. Ogilvie was another departure last week to help with the prairie harvest.

Mrs. C. Gregory was the recipient of a miscellaneous shower on Saturday evening. Many useful gifts were showered on the bride and an enjoyable evening spent by all.

Mrs. H. A. Bathie, jr., and Mary, of Rossland, arrived on Sunday.

Mrs. E. LeBarge and baby, James, of Rossland, arrived on Sunday for a visit with her parents, Mr. and Mrs. James Wood.

Walter Cooper and son, Allan, were Nelson visitors a few days at the first of the week.

School will reopen on Tuesday, September 4th. The services of Miss Ewing of Trail have been secured for the senior room, and Miss Randall, also of Trail, will take charge of the junior room.

Miss Eileen Heap of Sirdar was a visitor here, the guest of Miss A. Hook, at the home of the latter's grandparents, Mr. and Mrs. J. J. Grady.

Dance in old schoolhouse on Saturday, September 8th. Admission $1 to gentlemen, and ladies 50 cents, supper included. T. Svenson and R. Walde, violin and accordeon.

Many Wynndelites were interested in the announcement at the first of the week of the marriage at Rossland on Saturday, when Gerald, son of Mr. and Mrs. Ashley Cooper, former residents here, was married to a Miss Harrison. They are to reside at Rossland.

WORLD HAPPENINGS BRIEFLY TOLD

Stephanos Skoulloudis, premier and foreign minister of Greece in 1915 and 1916, during which he was a proponent of Grecian neutrality, is dead.

Vancouver will be the scene of the 1929 convention of the Canadian Pharmaceutical Association, it was decided at a session of the convention in Toronto.

President Coolidge has accepted the resignation of Secretary Hoover from the cabinet and appointed Wm. F. Whiting, of Holyoke, Mass., to succeed him.

Unofficial announcement is made that the Western Canada Airways Ltd., will make Regina a stopping place on the trans-Canada air mail route, provided the municipal air harbor is put into proper shape.

Captain Donald MacMillan and his crew of 11 men will leave Anetalok Bay, Labrador, where they have been quartered during the past year and will start back to civilization at once, according to radio advices.

Petting parties and the recent increased use of cigarettes by women are responsible for the spread of "trench mouth," Dr. Isador Hirschfeld, of New York, declared today at the seventh annual convention of the American Dental Association.

Raymond Poincare, premier of France, was host at a party held on the 68th anniversary of his birth. The party consisted of a simple family luncheon at his modest country home, at Champigny, a few close friends having been invited.

Parisian police are working out an elaborate system of identifying criminals by their ears. While the fingerprint system is admittedly good, it is said, there is some uncertainty about it. With ears, however, no two sets of which are alike, police hope to construct a better system of criminal tracing.

GUARD BABY'S HEALTH IN THE SUMMER

The summer months are the most dangerous to children. The complaints of that season, which are cholera infantum, colic, diarrhoea and dysentery, come on so quockly that often a little one is beyond aid before the mother realizes he is ill. The mother must be on her guard to prevent these troubles, or if they do come on suddenly to banish them. No other medicine is of such aid to mothers during hot weather as Baby's Own Tablets. They regulate the stomach and bowels and are absolutely safe. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Buffalo At Elk Island

Elk Island National Park is a reservation for the preservation and propagation of the buffalo. Seven hundred and twenty-six buffalo are now in this park, together with a number of mule deer, elk, and moose.

Farmer (to friend): "I hear, Bert, that while ye were in the city ye took up this here golf. How'd ye like it?"

Bert: "Well, it ain't bad. It's a bit harder than hoein' turnips an' a bit easier than diggin' potatoes."

A Rubdown

Exercise will not cause stiffness if you'll massage your body with Minard's.

MINARD'S "KING OF PAIN" LINIMENT

Farmers' Marketing Tour

Canadian National Railways' Tour To Great Britain and Denmark, 1928

(Continued.)

The return to Edinburgh was made under pleasanter conditions, sunshine replacing mist and snow. That evening dinner was followed by one of the most interesting and certainly most discussed addresses of the tour. This was the talk by Dr. F. A. E. Crew, Director of the Animal Breeding Research Department, Edinburgh University, who spoke on "Animal Breeding—Some Scientific Aspects." Dr. Crew's address was remarkable, not only for the skill with which he traced the discovery of scientific laws and set forth the limitations of selection, but for the point of view taken. The modern breeds, he contended, had their beginnings in the vision of an artist, the breeder, and the more or less accidental appearance of one or more superior individual animals, and again and again Dr. Crew stressed the aspect of the ideal without which there could be no truly great advance.

Nor was the evening remarkable only for the inspiring address of Dr. Crew, for during the dinner we were introduced to haggis, which was piped in with all honors by Mr. Sharpe of our own party, and afterwards were entertained by the Earl of Elgin, who himself, sang for us in a rich baritone "My Hairt's in the Hielands," his favorite song, first telling us that it was sung in his honor at the Canada Club, in Toronto, when he visited there. He also told us how, after spending a week in hospital at Winnipeg, he was convalescing at the home of a friend in that city, listening to the radio, when to his surprise he heard the announcer at C.N.R.W. (the Canadian National Railways' Broadcasting Station) wishing him a speedy recovery. The Earl, a grandson of the 8th Earl, who long ago was stoned in Montreal, gave us the most delightful example of comradely informality that we had experienced in the tour.

The occasion was also noteworthy for the presence of so many of Scotland's leaders of scientific agriculture, including Sir Robert Greig, Mr. Archibald MacNeilage, editor of the Scottish Farmer and Secretary of the Clydesdale Society, both of whom spoke to us, and for the excellent chairmanship of Mr. W. A. Wilson, Agricultural Products Representative for Canada, who set the proceedings to a happy note which was not the least enjoyable feature of a memorable evening.

Hitherto our engagements had prevented us from viewing Edinburgh itself, but the morning of our last day in "The Athens of the North" gave us our opportunity.

From the Castle we were able to see the beauty of her setting, the majesty of her seven hills, the handsome buildings, the spacious grandeur of Princes Street, the noble monuments, the wynds and closes of the Old Town and, beyond the city, the loveliness of the countryside. As the Tower of London is to England, so is Edinburgh Castle to Scotland. Here again the past enveloped us. Once more we were in touch with its struggles, its victories, its defeats, its heroisms, its cruelties and sacrifices. The esplanade by which we had approached the Castle was for centuries the scene of executions by axe and stake. Here scores of "witches" were strangled and burned. How strange to learn then that this very esplanade is held to be part of Canada! In the reign of Charles I., the esplanade was declared an integral part of Nova Scotia (New Scotland), so that baronets created under the commission of William Alexander, Earl of Stirling, might "take seisin" of their new possessions, a decree which has never been annulled.

The Castle is entered by the drawbridge over the old moat. The pathway is cut through the solid rock, and the walls of the portcullis gate are 15 feet thick. Accompanied by a guide who evidently loved every inch of Castle and rock, we saw the Argyll Battery on the edge of the cliff, St. Margaret's Chapel, the Palace Yard, the Crown Room, the old Parliament Hall and the National Memorial.

St. Margaret's Chapel is the smallest Norman Chapel in Britain, being only 17 feet by 11. Today the children of soldiers of the garrison are baptized in it. In the Palace Yard, at the time of our visit, surrounded by wreaths of poppies in honor of Earl Haig, we saw the window of Mary Queen of Scots' bedroom, where was born James the Sixth of Scotland, and First of England. The Crown Room contains the "Honors of Scotland," the crown, sceptre and sword of state and other jewels comprising the Scottish Regalia. Here too is the oak chest in which the regalia lay concealed for over 100 years, after having been hidden under the pulpit of the Church of Kinneff, Kincardineshire at the time of Cromwell.

The Old Parliament Hall, once the meeting place of the earlier Scottish Parliaments, is now a museum of offensive and defensive armour, specimens of which were demonstrated to us.

How shall one describe the National Memorial to the soldiers and sailors, and others who fell in the Great War? Here is enshrined the heart of Scotland. In the central shrine—the bare rock thrusting through the floor—a simple steel casket, cedar-lined, reposes. It contains the Rolls of Honor of the Scottish Nation. They were carried there by twenty-eight bearers and placed in the casket by the Prince of Wales. Then began the filing past of pilgrims from every part of Britain, at their head the King and Queen. In the Hall of Regiments and round the shrine itself the story of the War is told in stained glass, in bronze panels and in mural relief. The nation in arms, the sailor, the soldier, the civilian, the nurse, the V.A.D., the fallen, the wounded, the sick, the widowed, the fatherless are symbolised, the gaining of the victory, and the price that was paid.

No man can walk through Scotland's Hall of Honor without being touched to the depth of his soul or read unmoved the words behind the shrine: "The souls of the righteous are in the hands of God. There shall no evil happen to them. They are at peace."

(To Be Continued.)

No high-grade tea can be expected to retain its full flavor and strength unless packed in moisture-proof, metal-lined containers. Successful tea planters ship their tea in aluminum—the same rust, dust and damp-proof material which keeps Red Rose Tea always so fresh, strong and flavory. 2-W

Giant Dirigible Flight Delayed

British Machine Will Not Be Ready For Flight To Canada This Year

The giant dirigible R-100, which Great Britain is building in competition with the German LZ-127, will not fly to Canada and the United States this year, Commander C. D. Burney told the Associated Press.

Failure of contractors to deliver parts on scheduled time and the necessity for extended trial flights have caused postponement until next year.

Commander Burney said that the winter would be no deterrent to the flight and if the R-100 is ready by the early months of 1929 she will make the flight by the southern route.

Trial flights will take at least two months and there is no chance of their beginning before December.

A Prime Dressing For Wounds. — In some factories and workshops carbolic acid is kept for use in cauterizing wounds and cuts sustained by the workmen. Far better to keep on hand a bottle of Dr. Thomas' Eclectric Oil. It is just as quick in action and does not scar the skin or burn the flesh.

No Thought Of Retiring

"The newspapers retire me occasionally, but I will give sufficient notice before leaving office," said Hon. Howard Ferguson, premier of Ontario, when asked in an interview as to rumors that he might retire from the Conservative leadership. Mr. Ferguson has returned from a tour of Europe.

Minard's Liniment cleanses cuts, etc.

Chinese Pheasants Released

Saskatchewan hunters will have added to their respective hunters' paradises a novel feature with the introduction of the Chinese ring neck pheasant, a bird that is very similar to the Hungarian partridge. Thirty of these birds have been introduced into Saskatchewan, and were released half-way between Loverna and Alsask, in the western area.

BABY GIRL HAD DIARRHŒA WHEN CUTTING TEETH

Mrs. A. J. Murray, Gull Lake, Sask., writes:—"Last summer, my baby girl was cutting teeth and became very weak with the effects of diarrhœa. I didn't know just what to do for her as she couldn't retain anything. At last one of my neighbors said to me, 'Haven't you any

why, I wouldn't be without it where there are children.'

"My husband went to town and got a bottle, and the very first dose helped her wonderfully, and in three days she was well over the diarrhœa and was running around as well as ever."

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

SUNDAY SCHOOL LESSON

SEPTEMBER 2

PAUL IN THESSALONICA

Golden Text: "The opening of Thy words giveth light."—Psalm 119.130.

Lesson: Acts 17.1-15; Romans 15. 18-20; 1 Thessalonians 5.12-23.

Devotional Reading: Psalm 119. 9-16.

Explanations and Comments

Three Sabbaths In the Synagogue at Thessalonica, verses 1-4.—"Although at Philippi we had suffered greatly, and had been insulted, yet on we came to your city and boldly declared to you the gospel of God in spite of great opposition"—in some such words Paul wrote to the Thessalonians (1 Thess. 2.2). From Philippi Paul and his companions passed through the cities of Amphipolis and Apollonia on the way to Thessalonica. There they tarried several months, as we know from Paul's letters to the church he founded in that city. "You remember, brethren," Paul also wrote, "how we worked day and night to support ourselves, while we preached unto you the gospel of God: for we would not be a burden to any of you" (1 Thess. 2.9).

Our historian, however, records only Paul's preaching for three successive Sabbaths in the synagogue. He "reasoned with them from the Scriptures," Luke says; that is, he cited Scripture passages which were prophetic of the Christ; he then showed that Jesus fulfilled these prophesies, that it behooved the Christ to suffer and to rise again from the dead, and thus he reasoned, or argued, that the Jesus whom he proclaimed to them is the Christ.

Mary Queen of Scots once cried out to John Knox: "You teach one thing, the Church of Rome teaches another; which shall I believe?" Knox's answer is memorable: "Ye shall believe neither, madam; ye shall believe God, who spaketh His word, and save as we agree thereto, ye shall believe neither of us." Every conviction should be tested by the spirit and teaching of Christ.

The result of Paul's preaching was that many of the devout Greeks (Greeks who attended the synagogue and worshiped God), and many of the chief women, were convinced of the truth of his message and "consorted with Paul and Silas," cast their lot in with them and shared their way of life. They were afterwards zealous in extending the good news that Paul brought them, for in his letter Paul says, "From you hath sounded forth the word of the Lord, not only in Macedonia and Achaia (Greece), but in every place your faith to Godward is gone forth."

Recipes For This Week

(By Betty Barclay)

NECTAR ICE CREAM

1 pint milk.
1 egg yolk.
¼ cup sugar for custard.
1 pint whipping cream.
½ cup sugar, caramelized.
1 teaspoon vanilla.
1 cup nectars raisins, plumped and cooled.

Caramelize sugar, add 1 cup scalded milk and stir until dissolved. Add remaining sugar to egg yolk and combine with milk to make a custard. Cook until the custard coats the spoon. Remove from fire, add cold milk, cream, vanilla and salt. Freeze to a mush consistency, then add raisins and continue freezing until hard.

FLOATING ISLAND

3 egg whites.
4 tablespoons sugar.
3 egg yolks.
¼ cup sugar.
⅛ teaspoon salt.
1½ cups scalded milk.
½ teaspoon vanilla.

Beat the whites until stiff. Add 4 tablespoons sugar. Drop by tablespoonfuls into a shallow pan of hot water. Bake in a moderate oven until delicately brown. Remove cooked whites into a serving dish.

Prepare custard sauce; Mix yolks, sugar and salt in a bowl, add scalded milk slowly. Return to double boiler and cook until a coating is formed on metal spoon. Remove immediately. Add flavoring. Pour around cooked whites in a large shallow bowl. Chill before serving.

If we do not watch, we lose our opportunities; if we do not make haste, we are left behind; our best hours escape us.

For the first time a film has been shown in an aeroplane. It took place in a machine travelling from Paris to London.

Want Royal Commission

Should Study From Every Angle Problems Of Immigration and Assimilation

Speaking of the resolution passed recently at the Saskatoon conference of provincial groups interested in immigration, that a royal commission should be appointed by the government of Canada to "study from every angle problems of immigration and assimilation," J. A. Stoneman, president of the United Farmers of Canada, Saskatchewan section, said that a royal commission, efficiently constituted, would command the confidence of the public. "It can perform a great deal of work which members of the House of Commons have neither the time nor facilities to do," he declared. The suggestion of a commission had been already approved by the U.F.C. Saskatchewan section and organized labor, as well as by the Canadian Legion at its last national convention, he pointed out.

Muscular Rheumatism Subdued. — When one is a sufferer from muscular rheumatism he cannot do better than to have the region rubbed with Dr. Thomas' Eclectric Oil. Let the rubbing be brisk and continue until ease is secured. There is more virtue in a bottle of it than can be fully estimated.

Young Farmer Wins Prizes

Success Attends Efforts Of Graduate Of School Of Agriculture

A 19-year-old farmer, I. C. Shank, of Athabasca, 85 miles north of Edmonton, won a first prize for wheat grown in 1927, and a first for 1928 oats at the Edmonton Exhibition held recently.

This young man, after one year's course at the Alberta Government School of Agriculture, at Olds, took up the growing of registered seed grain on a farm of his own at Athabasca, and in open competition with other exhibitors in the province of Alberta, achieved the success noted.

Had Dandruff And Pimples 2 Years Cuticura Healed

"I was troubled for two years with dandruff and pimples. The pimples were scattered over my face, neck and head. They were hard, large and red, and festered and scaled over. They itched and burned badly, and when I scratched, it caused them to spread. The dandruff affected the growth of my hair, and it fell out badly. I lost a lot of sleep on account of the trouble.

"I sent for a free sample of Cuticura Soap and Ointment and after using it I got relief. I purchased more, and after using three cakes of Soap and two boxes of Ointment I was healed." (Signed) J. W. Polenchuk, Donwell, Sask.

Use Cuticura Soap, Ointment and Talcum to promote and maintain skin purity, skin comfort and skin health; the Soap to cleanse and purify, Ointment to soothe and heal, and Talcum to powder and refresh.

Sample Each Free by Mail. Address Canadian Depot: "Stenhouse, Ltd., Montreal." Price, Soap 25c. Ointment 25 and 50c. Talcum 25c.

Cuticura Shaving Stick 25c.

CHAPTER XXXI.—Continued.

Jack was lying on the couch while Eva sat beside him, the light so shaded that he could not see her face. She sat motionless through it all. He told of his return from the north and finding her gone; of his suspicions, confirmed, as he thought, by seeing her in Edmonton; of his sudden resolve to enlist; and lastly of his meeting with Arthur Warner. "I don't know," he concluded, "what is the explanation of the Winnipeg affair, but I know Helmi is innocent. She was sent to that place by someone and is shielding that person. Look at her letters, Eva—read them—and to think I doubted her and left her alone when she needed me!"

Eva took the letters in her cold hands, but she could not read a word.

"I got the news of my baby from another man," said Jack brokenly, "and it was his money Helmi got instead of mine to help her. Helmi had to beg for work and suffer insult. See what she says there—'No one wanted a girl with a baby.' Wasn't it damnable, Eva? I rage when I think of it. I blame myself—I shouldn't have believed anything. I knew how sweet and good and true she was—I knew! But the person that sent her for the dope and then slid out is the person who should be shot, and I'll sift it to the bottom when I go back. . . . . Poor Helmi, bearing it all because she was too honorable to tell!"

In his excitement and deep emotion Jack did not notice that his sister had not spoken, but sat with bowed head, like a broken lily.

It was one of the soft nights when the blossoms are just beginning to scent the breeze, when there are those indescribable stirrings and whisperings of spring. Even if nations are at war and planning the destruction of each other, trees leaf and blossoms open. The streets seemed quiet to Jack; but for the heavy rumbling of the busses no one appeared to be abroad.

Suddenly the silence was broken by a weird, spitting noise as of giant fire-crackers; a sound of deadly import to the people of England, for it gave warning of the approach of enemy air craft.

"It's an air raid," Eva answered, without stirring. "They run to the tube stations; but I never go—I feel safer here—I have a dread of being smothered in those terrible places. I've been through three air raids already. So I am not afraid."

Eva spoke with a composure which was not assumed; anything was better than the maddening remorse that had swept over her as Jack told his story.

Jack went to the window and looked down into the street. Through the open window came the drone of the enemy's Zeppelins, malevolent, horrible, like the buzzing of some poisonous fly. Then came the continuous cannonading of the anti-air craft guns, like wildest days of battle. The searchlights combed the sky with their ghostly fingers, and people came tearing out of their houses and raced through the dark streets.

Jack had often wondered how people would act during an air raid. He felt no fear for himself—it didn't occur to him that he could be in danger here in London—his fear was for Eva. "Hadn't we better go, Eva?" he asked anxiously; "it seems to be almost above us. Is the tube far away?"

"Not far—but I never go. Come away from the window. There—that's a bomb—not far away . . . . we're in for it, Jack, they're coming nearer. . . . . Come here, Jack, I feel dizzy—come to me—I want to tell you something. I knew your Helmi in Winnipeg. She is not to blame—I sent her, Jack. Forgive me — I sent her to the Chinaman's! Ask her to forgive me, too. I have been sorry ever since. . . . "

A bomb burst in the square. There was a shattering of glass and a crashing of masonry; a horrible confusion of noises, tearings, screamings, concussions, clanging fire-engines.

By a strange chance the house in which Eva had her suite stood, though many houses in that vicinity fell. All the windows were shattered, and on the window sill of the room in which they stood was thrown the body of a little dead dog.

On the floor, where she had fallen, Eva lay, a piece of shrapnel in her cheek.

Jack stayed in London until Eva was out of danger. She would recover, the white-uniformed doctor at Guy's told him, but of course she would be badly scarred.

Behind her bandages, Eva smiled feebly. "It's all right Jack," she said wanly, holding his hand; "better women than I have been blown to pieces. Maybe God is giving me a few more years to atone for what I have done. I have been a poor sport, Jack—I needed a smash of some kind—I am not complaining. Life is queer, Jack, isn't it? I wanted to show Humphrey I wasn't as selfish and shallow as he thought. He told me in the last quarrel we had, and the only one, that I would never be an old woman—I would only be a stale novelty. I was determined to show him I had some thought of doing things for other people, so I came here and got into the V.A.D. work. What I really wanted to do was to drive an ambulance in France, but I was afraid, not of death, but of disfigurement. I hate ugliness so — far more than sin.

"It was my hatred of ugliness, not of sin," Eva continuel, "which cured me of the drug habit. I had learned to take dope just because it gave me a thrill—it saved me from dullness; but I saw an addict—one of the doctor's patients—a woman something like me, but horrible to look at — pasty-faced, dead-eyed, mouth agape — and I could see I might some day be like that. So, Jack, I never touched it again."

Eva paused for a long time; "But now, with a blue scar on my cheek and my nose broken I will not be afraid. I will go to France. Maybe I can take the place of some better and happier woman, and when the shell comes marked for her, it will take me instead. And Jack," she continued, "you will tell Helmi all of this and ask her to think kindly of me as she can. She loved me once with all a young girl's adoration."

Jack kissed his sister tenderly with a deep sorrow in his heart. He could not reproach her—there was no need, but his own heart was aching with the sorrow of it all. Sin and sorrow—the age-old partnership—sin and sorrow. By one man sin came into the world and death by sin; but the one who sins is not always the one who suffers.

Jack had cabled Keith, his former partner, from Paris to send to London one thousand dollars. But when he reached London he found that no reply had come. Thos. Keith of Winnipeg, could not be found. He had left the city over a year ago, and his creditors had not been able to trace him.

Jack sat on one of the wooden benches in the cable office in London and thought, in a queerly detached way, of what this meant to him. He wondered at his own calmness in the face of such a smashing blow, for the gold mine on the Nehanni, with all the comfort and luxury it would bring him, had been much in his thoughts during the cheerless months of imprisonment. He had planned many generous surprises for his companions, too. . . . . And now it was all over. He had been following a false light. . . . . He had been warming his hands at a painted fire.

Well, there was about two hundred dollars coming to him from the War Office, and he would be given transportation home. Prisoners who had escaped through a neutral country were not allowed to go back into the army.

When the Olympic sailed out of the harbor at Liverpool into the muddy waters of the Mersey, Jack stood on the deck looking back at the receding shores of England. Behind him lay bitter thoughts and much disillusionment; the futility of war; the hideous wastage of young life; the horrible suffering and slaughter . . . and Eva, his only relative! He choked with bitter memories as he thought of it all. Then there came to him, beating up through all this, like a fountain of sweet water in the sea, the memory of Arthur Warner and his unselfish love, and of Helmi, with her clear, sweet soul and her honorable silence.

Jack walked to the prow of the vessel and looked away into the gray distance. Behind him lay the sorrow for the past, with its mistakes and regrets. Before him lay Canada—his own country—Helmi, and little Lili.

A Friend to Women

Lydia E. Pinkham's Vegetable Compound

LYDIA E. PINKHAM MEDICINE CO.
Lynn, Mass., U.S.A.
and Cobourg, Ont., Canada.

MOST people know this absolute antidote for pain, but are you careful to say Bayer when you buy it? And do you always give a glance to see Bayer on the box—and the word *genuine* printed in red? It isn't the genuine Aspirin without it! A drugstore always has Bayer, with the proven directions tucked in every box:

Aspirin (registered in Canada) is the trade mark indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trade mark.

A New Map of the
Manitoba and Patricia (Ontario) Mining Areas
is now ready for distribution

DISTRICTS COVERED:
Narrow Lake
Woman Lake
Clear Water Lake
Rainbow Lake
Red Lake
Central Manitoba
La Pas

PARTIAL LIST OF MINES INDICATED:
Hudson Bay
Sherritt Gordon
Mandy
Howey
Jackson Manion
Dunkin
Bathurst
Central Manitoba
San Antonio
Eldorado
Callinan Flin Flon

OWING to the tremendous activity and wide spread interest manifest in the Manitoba and Patricia, Ontario, mining districts, we have prepared a comprehensive map covering these areas. It also shows the new Favorable Lake gold area.

The location of the prominent properties now under development are indicated.

This map, 32 by 22, is divided into five sections and a key map, showing the comparative locations of these areas with proximity to railroads and power lines.

A request on the coupon below will assure a copy reaching you, without obligation.

Teeth and Health

Issued By The Canadian Dental Hygiene Council and Published By The Saskatchewan Dental Society

THE CANINES

You have referred to your dog Rover as a canine—that is what he is. This tooth, then, that is the first in line behind the incisors, is called the canine, from being extra well-developed as in the dog and other carnivorous animals.

It is the most primitive type of tooth, and is known also as the cuspid, and as the "eye tooth," this last being only a popular designation.

Being observant, you have likely noticed that of the temporary teeth, this one was the last to be lost — serving thus, to keep the upper and ridges in right relationship for their permanent successors during the process of shedding the temporary teeth.

But it may be that it remained in place unduly long, for not infrequently in the upper jaw, the permanent cuspid, though developing, does not erupt, in which case the temporary cuspid should be retained as long as it remains firm and sound, depending solely on the advice and responsibility of your dentist.

Now notice this point: Overlying the root of the upper canine, is an elevation, the "canine eminence," which serves to keep the tissue at the angle of the mouth well filled out. Then should you lose this tooth, this eminence disappears, with the resultant falling in of this tissue, giving you prematurely the appearance of age.

So, if you would keep your youthful appearance, beware. See to it that your "eye-tooth" stays sound, and free from the clutches of your dentist's forceps.

Little Helps For This Week

"Give, and it shall be given unto you; good measure, pressed down, and shaken together, and running over, shall men give into your bosom."—Luke vi. 38.

Dig channels for the stress of love,
Where they may broadly run;
And love has overflowing streams
To fill them every one.

For we must share if we would keep
That good thing from above;
Ceasing to give we cease to have,
Such is the law of love.
—Richard Chenevix Trench

It is only the most pitiable of heart poverty that feels as if it could do nothing to add to the happiness of other lives, and does not even make the attempt. And where no love is given, the life shrivels and narrows until none can be received. The soul itself is refreshed and enlarged by the stream of love that flows through it; this is the true well of water springing up within unto everlasting life.—Lucy Larcom.

Both parties should remember that they are married for worse as well as better.

Sleep and Repose

Doctor Says Sleep Becomes a Vicious Habit When Carried To Excess

Sleep becomes a vicious habit when carried to excess, said Dr. H. M. Johnson, "sleep expert" at the University of Pittsburgh. Most people, Johnson believes, get sufficient rest in the course of six and a half to nine hours to carry them through the day and make their work enjoyable.

Sleep is vicious, he said, when it interferes with more interesting activities. Dr. Johnson studied 90 persons of both sexes ranging in age from 16 to 63 years in an attempt to discover the secrets of sleep. Women are less restless than men as a rule, he finds, and spend more time in bed. Persons engaged in mental activity during the day, sleep less than persons engaged in work that only feebly stimulates.

Are You Ready

When your Children Cry for It

Baby has little upsets at times. All your care cannot prevent them. But you can be prepared. Then you can do what any experienced nurse would do—what most physicians would tell you to do—give a few drops of plain Castoria. No sooner done than Baby is soothed; relief is just a matter of moments. Yet you have eased your child without use of a single doubtful drug; Castoria is vegetable. So it's safe to use as often as an infant has any little pain you cannot pat away. And it's always ready for the cruellest pangs of colic, or constipation, or diarrhea; effective, too, for older children. Twenty-five million bottles were bought last year.

CASTORIA

Scouts Enjoy Week's Camp

Creston Boy Scouts held their third camp just south of the old Reclamation Farm dyke accross the Kootenay. The troop went into camp August 19th, and that day was mostly spent in pitching tents and fixing conveniences.

On Monday everyone was up with the lark and fishing, boating and swimming were the order of the day. After supper a camp fire was lighted, round which all gathered for singing, with cake and cocoa before turning in. Tuesday an expedition was made up Corn creek from the school and a nice lot of trout taken which made a welcome addition to the bill of fare. Wednesday was visitors day but only Mrs. Payne, Mrs. Chas. Murrell, Nora Payne and Yvonne Murrell came out. Thursday a party went up Corn Creek taking the fire trail above the falls. Good fishing was found and a bag of 66 trout resulted. Our old friend George Seymour was called on and provided with a breakfast of trout and also came and spent the evening with us and told many interesting stories around the fire. The balance of the party went with Mary Murrell to Johnson's point in the boats, visited the site of the last camp, and had the points of interest and Indian pictures pointed out made more interesting by Mrs. French's Indian legends which the Review published a short time ago.

Friday the boats were taken into the Kootenay and a trip was made below the mou h of Goat river. This proved a somewhat strenuous day and it was quite late when camp was reached, the return trip up the river taking longer than was anticipated. Two small steelhead and a bass was the bag which was disappointing as every body had visions of a real good fish supper, Miss Marjorie Hamilton was a visitor and made the days outing with us.

Saturday morning it rained until just after dinner, which was served in the big tent. It cleared up, however, and a game of football in bathing suits was played with much vigor, followed by a bath to get rid of the mud. After supper a camp fire was lighted and all gathered round for the last night's singsong which was kept up past the usual time and closed with O Canada and God Save the King.

12 Scouts, with Mary Murrell in charge of the cooking department, took part in the camp. The patrol was divided into three parties of four each in charge of one of the Patrol leaders who each took a day of duty. This works well, though at the start it was hard to make some of those who were with us for the first time realize that they had to be on hand when required. In this respect it is felt that special mention should be made of Patrol Leader Jack Payne who was certainly the most efficient officer around the camp. While some improvements could be made the discipline was, on the whole, good. With regard to swimming only two of those who came to camp are unable to swim and two more can swim a little. The rest can take care of themselves in the water and became quite expert in diving off the top of the dam. Herbert Couling, George Murrell and Jack Payne, certainly deserve honorable mention in this respect.

We wish to thank all the mothers for the good cakes and pies which they provided for us and also our very best thanks to Mary Murrell, who was in sole charge of the cooking department this year, owing to a dearth of big sisters. Mr. C. French was also good enough to supply us with milk.

The usual weekly meetings will be again held and it is hoped that all Scouts will be in their places. While it is a fact that few troops have any number of first class Scouts there is no reason why we should not have some in Creston and some King Scouts too. Let's just get the idea of scouting and what it stands for into our heads and we shall soon have a strong efficient troop in Creston.

MINERAL ACT

Form F

Certificate of Improvements

NOTICE

Rhomberg Fractional Mineral Claim, situate in the Nelson Mining Division of Kootenay District. Where located: On Fawn Creek, near the Reno Mine.

TAKE NOTICE that I, A. H. Green, acting as agent for W. H. Rhomberg, Free Miner's Certificate No. 14889D, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under Section 85, must be commenced before the issuance of such Certificate of Improvements.

Dated this 19th day of July, 1928.

A. H. GREEN,

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Control Dam, Okanagan River, B.C." will be received until *12 o'clock noon (daylight saving), Tuesday, September 18, 1928*, for the construction of an earthen mound and timber superstructure control dam accross the Okanagan River at Penticton, Yale District, B.C.

Plans and form of contract can be seen and specifications and forms of tender obtained at this Department, at the offices of the District Engineer, 119 Baker Street, Nelson, B.C.; Victoria Builders Exchange, 2569 Prior Street, Victoria, B.C., and the Building and Construction Industries Exchange, 615 West Hastings Street, Vancouver, B.C., also at the Post Office, Penticton, B.C.

Tenders will not be considered unless made on printed forms supplied by the Department and in accordance with conditions contained therein.

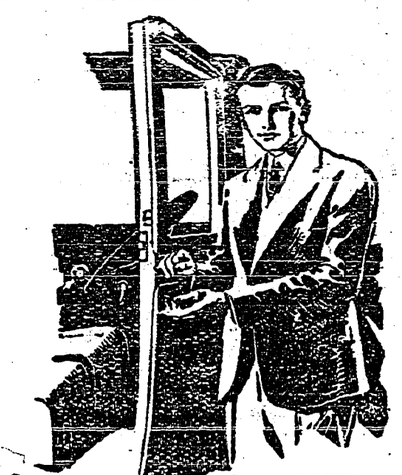
Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Minister of Public Works, equal to 10 per cent. of the amount of the tender. Bonds of the Dominion of Canada or bonds of the Canadian National Railway Company will also be accepted as security, or bonds and a cheque if required to make up an odd amount.

Note.—Blue prints can be obtained at this Department by depositing an accepted cheque for the sum of $20.00, payable to the order of the Minister of Public Works, which will be returned if the intending bidder submit a regular bid.

By order,

S. E. O'BRIEN,
Secretary.

Department of Public Works.
Ottawa, August 18, 1928.



Take a Ride and you will know

ONE of the most spectacular achievements in automotive history is the manner in which today's "Bigger and Better" Chevrolet is increasing its margin of leadership as the world's largest builder of automobiles.

Come, take a ride! Learn the reasons why people prefer Chevrolet.

Know Chevrolet performance! Wherever hills are steepest, the fame of the Chevrolet motor is greatest—because it is built on the valve-in-head principle, which provides all the power advantages of overhead direct firing.

Chevrolet's delightful smoothness is achieved by the use of invar-strut alloy pistons, and by the accurate balancing of reciprocating parts.

Chevrolet flashes out and away when you open the throttle because it offers the advantages of light invar-strut pistons, large valves, and carburetor equipped with an acceleration well. Come, take a ride—today! UC-25-8-28C

The G.M.A.C. . . General Motors' own deferred payment plan affords the most convenient and economical way of buying your Chevrolet on time.

PRODUCT OF GENERAL MOTORS OF CANADA, LIMITED

BRITISH COLUMBIA

The Mineral Province of Western Canada

Has produced Minerals valued as follows: Placer Gold, $78,174,795; Lode Gold, $130,651,919; Silver, $86,689,046; Lead; $121,850,734; Copper, $221,501,079; Zinc, $59,508,692; Coal, $271,204,668; Structural Material and Miscellaneous Minerals, $53,502,301; making its mineral production to the end of 1927 show an

Aggregate Value of $1,048,837,828

The substantial progress of the Mining Industry of this province is strikingly exhibited in the following figures, which show the value of the production for successive five-year periods: For all years to 1895, inclusive, $94,547,241; for five years, 1896-1900, $57,607,967; for five years, 1901-1905, $36,507,363; for five years, 1906-1910, $125,534,474; for five years, 1911-1915, $142,072,603; for five years, 1916-1920, $189,923,725; for six years, 1921-1926, $281,915,492; for 1927, $60,720,358.

Production Last Ten Years, $453,266,721

Lode mining has only been in progress for about 25 years, and only about one-half of the Province has been even prospected; 200,000 square miles of unexplored mineral bearing land are open for prospecting

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown Grants.

Practically all British Columbia Mineral Properties, upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B.C., Reports covering each of the six Mineral Survey Districts are published separately, and are available on application. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.

Full information together with Mining Reports and Maps, may be obtained gratis by addressing

THE HON. THE MINISTER OF MINES,
Victoria, British Columbia.

Printed Butter Wraps at The Review

Local and Personal

Mr. Miller, teller at the Bank of Commerce, left on Saturday on a two weeks' vacation at Vancouver, and in his absence the cash is being handled by Mr. Purchase of the Penticton branch.

C. B. Twigg is a visitor at Natal, Fernie and Cranbrook this week, where he is placing the awards in fruit and vegetables in the fall fairs in those centres. Mrs. Twigg accompanied him.

With Mrs. Lister's orchestra and V. Hild, banjo, furnishing the music the Rod and Gun Club dance on Monday night, 3rd, promises to be the best of the season. The admission is $1, which includes supper.

Christ Church Sunday School is resuming operations after a two months vacation on Sunday morning at 10 o'clock. R. Harris will be in charge, succeeding the former superintendent, H. G. Greenwood.

Mr. and Mrs. R. L. Robinson of Edmonton, Alberta, were visitors a few days last week with his parents, Mr. and Mrs. J. W. Robinson. They were on their honeymoon, and left on Friday for Portland, Oregon.

Mrs. O. W. Humphrey of South Slocan was a Saturday-Sunday visitor with Mrs. W. H. Crawford, returning from a motor holiday visit at Banff and Lake Louise. She was accompanie by her daughter, Miss Myra.

Place your order today with H. S. McCreath to be sure of a coal supply. The heavy demand for cars to move the prairie grain crop is likely to prevent coal delivery from early September till the middle of December.

W. H. Browne of Nelson, grazing assistant, had busy days at Wynndel and Creston on Thursday and Friday last, issuing the usual permits to cut hay on the Creston flats. Over 100 permits were taken out this year.

In the report of the sports winners at the Co-Op. picnic on the 15th inst. mention was overlooked of the quarter-mile pony race, the winners of which were Helene Nouguier and Eleanor Blair, both of Canyon City.

Much sympathy is felt for H. L. Robinson in the death of Mrs. Robinson, which took place at Rossland hospital on Monday afternoon, just five days after she had become the mother of twins, a boy and a girl. The young couple had been married hardly a year, taking up housekeeping here immediately after their marriage early last September. Mr. Robinson had gone to Rossland about a week ago, and was with his wife when the end came.

Milk is a Perfect Food

It combines in a delightful form all of the vital things our systems need. And when Milk is handled the way we handle it it is the most wholesomefood obtainable.

Our chief business in life is producing and selling good Milk.

Where Co-operation Is Needed

The movement of ten thousand unemployed British miners to Canada to work as harvest hands in the grain fields of the West is so significant, and may have such far-reaching results, that it warrants additional consideration to that already given in a previous article in this column.

Suppose the situation was reversed and there was a surplus of tens of thousands of farmers' sons and farm hands in Western Canada who could not find employment, while, on the other hand, there was a shortage of miners in the coal-mining districts of the British Isles, and the experiment was tried of transporting an army of men from the grain fields of the West to the mines of Britain.

Under such circumstances the sympathy of the people of Canada would go out to their sons as they journeyed to an unfamiliar country to engage in work of which they had no knowledge or training, and to live under conditions entirely new to them. There would be hope in the hearts of the relatives and friends of those men that the British people and the mine bosses would be considerate in their treatment, lenient in their judgments, sympathetic and patient in assisting the strangers to adjust themselves to their own environment and make good.

Fortunately for Canada its sons do not have to go abroad in order to find work and opportunity, because nowhere in the world today is work more plentiful, nowhere do greater opportunities present themselves than in Canada. This very fact shou'd, however, but provide a greater incentive to our people to extend a heartening welcome and a helping hand to these British miners.

Judging by numerous statements made by these men, the vast majority of them have come to Canada with the right spirit,—a real determination to "make good" and achieve not merely a temporary but a permanent success in this country. They come wholly inexperienced in the work they are to undertake. Instead of working eight hours a day, they will be required to work from early dawn till dark, but the spirit of the men was expressed by one of them on the eve of sailing when he said that eighteen hours at work in the open fields and fresh air of the prairies would not be any worse than eight hours under ground in a coal mine.

Enroute over the ocean, the first group of miners wirelessed back to the British Government that they were determined to succeed, and at the port of landing in Canada, and again at Winnipeg, Regina, Moose Jaw, and other points of distribution, man after man expressed the same view, namely, that they were anxious to make a success in Canada and were hopeful of securing work after the harvest and becoming permanent citizens of the Dominion.

These men by the act of their coming to Canada as harvest hands have shown that they prefer work, even hard unaccustomed toil, to living in idleness on the "dole" in Britain. Each and every one of them had to pass a rigorous physical examination before being allowed to sail. They are, therefore, the pick of the unemployed miners, and, animated by a desire to "make good" they should succeed if given a fair chance, and a helping hand and encouragement.

That chance, assistance and encouragement should be forthcoming in large measure from the Canadian people as a whole and, in particular, from the individual farmers who employ them. It will be necessary to show these men how their work should be done and how to do it. This will require tact and patience. Too much must not be expected of them. And the man who makes an honest effort to learn, who shows a real determination to work and render service to his employer, is deserving of every encouragement.

Such encouragement cannot be better shown than by a kindly, sympathetic attitude a personal interest in the man's welfare, and, in all cases where it is possible to do so, by the offer of a job for the winter. The knowledge that, if he shows a disposition to make good, he will be provided with work for the winter, and thus given his opportunity to become a permanent settler in Canada, will provide the greatest possible incentive to a man who is desirous of achieving that result. And it is settlers of this British type of which Canada stands in need.

If both parties to this unique experiment strive to make it a success there is no reason why it should not succeed, and if it does prove successful, —its success being judged by the results of the movement as a whole rather than by individual cases,—then it will, in all probability, prove the beginning of a new and worthwhile immigraton from the congested groups of the unemployed in the British Isles to the open spaces of Canada, where, through their labor, such people will be an important factor in bringing large tracts of vacant lands under cultivation, and in providing the necessary man-power to develop many of the as yet untouched natural resources of the Dominion, thus making comfortable homes for themselevs and adding immeasurably to the productive capacity, wealth and prosperity of Canada, and incidentally of the Empire as a whole.

No Menace To Consumer

British Delegate Returns Home Favably Impressed With Wheat Pool

"We do not agree with those who see in the pools the menace of a monopoly to the disadvantage of the consumer," writes Henry J. May, general secretary of the International Co-operative Alliance, who was one of the principal speakers at the recent international wheat pool conference.

Mr. May expresses his views in the Co-operative News, published in Manchester, England.

He states that the economy of production on large scale methods, the elimination of the middlemen's profits and improvement in selection of seed, made it possible for wheat pool members to reap larger profits from their crops and at the same time to give better values to the consumers.

Dairying An Important Industry

Dairying is one of the oldest and one of the most important of the industries of Canada. It owes its modern development to the introduction of the factory system for the making of cheese and butter, to the invention of the centrifugal cream separator, and to the facilities afforded by improved methods of cold storage.

Huskies For Byrd Expedition

Will Collect 100 Dogs In Quebec To Be Used In Polar Venture

To procure 100 huskies for Commander Richard E. Byrd's forthcoming Antarctic Polar venture, is the task that has been entrusted to a party that has left Quebec on board the SS. North Shore, in quest of the right type of canine for the hazardous undertaking. The party is to comb the north shore of the St. Lawrence. When secured, the hundred dogs will be loaded on the steamer and brought to Quebec to be shipped to the Pacific coast, where they will be picked up by Commander Byrd.

WAS VERY DELICATE

New Health Came Through Using Dr. Williams' Pink Pills

Mrs. Caspar Miller, Lourdes, N.S., says that twice in her lifetime she has reason to be thankful for what Dr. Williams' Pink Pills did for her. She says:—"I was a very delicate girl going into womanhood, when I first found benefit from Dr. Williams' Pink Pills. I was a sufferer with cramps and pains every month and was hardly able to move around at all. One day when I was very sick a friend came in to see me, and she said to my mother, 'Why not try Dr. Williams' Pink Pills, I know they will do her a world of good." The result was my mother got six boxes and I began their use, and I soon found benefit from them. By the time I had taken them all I felt an altogether different girl and no longer suffered from cramps and pains.

Then a few years ago I was attacked with influenza, and was sick for six weeks. Again I started taking Dr. Williams' Pink Pills, and again they brought me good health. I am the mother of a family and do all my own work, so you see I have to keep in good health, and depend upon these pills to keep me so. Now I always recommend Dr. Williams' Pink Pills to any of my friends who may be sickly."

If you are suffering from any condition due to poor, watery blood, or weak nerves, begin taking Dr. Williams' Pink Pills now, and note how your strength and health will improve. You can get these pills through any dealer in medicine, or at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Sugar Beet Culture

Can Be Raised In Widely Separated Parts Of the Dominion

In an analysis of sugar beet culture in Canada, the Department of the Interior, through its Natural Resources Intelligence Service, points out that beets of excellent quality for sugar can be grown in many widely separated parts of the Dominion — good seed being produced as well. Formerly good seed had to be imported from France, Germany, Russia and Denmark. Outstanding localities for sugar beet growing are the warmer parts of Ontario, the Okanagan Valley of British Columbia, South Alberta and the Maritime Provinces.

Choked For Air. Some little irritant becomes lodged in the bronchial tubes, others gather, and the awful choking of asthma results. Nothing offers quite such quick and positive relief as Dr. J. D. Kellogg's Asthma Remedy. The healing, soothing smoke of vapor penetrates, clears the passages and gives untold relief. It has behind it years of success. It is the sure remedy for every sufferer.

Reindeer For Hudson's Bay Area

12,000 Reindeer From Alaska To Be Sent Overland

Shortly after the fawning season is over, 12,000 reindeer will be herded from Alaska to the shores of Hudson's Bay, according to N. A. Branson, of the Dominion Reindeer Company. This is due to the rapid increase of the herd of 1,249 animals started in Alaska thirty years ago. Progress will be slow, the herd travelling about ten miles per day. But, first, the shortest route must be found and charted.

Protect the child from the ravages of worms by using Mother Graves' Worm Exterminator. It is a standard remedy, and years of use have enhanced its reputation.

Where People Are Good

The nearest thing yet discovered to approach "heaven on earth" is the little island of Eigg, in the Inner Hebrides. There is no record of a police case within living memory or the natives, according to the report brought back by scientists and historians who have visited there.

Minard's Liniment for Every Pain.

Master Mason CUT PLUG SMOKING TOBACCO IN PACKAGES AND 1/2 LB. TINS *A mixture of very fragrant and mild tobaccos*

Sodium Phosphate

Dry Product From Saskatchewan Sent East As Trial Shipment

The Sodium Phosphate Refining Co., at Fusilier, Sask., recently put through a trial run and shipped 700 pounds of the dry product to Toronto and a similar shipment to Montreal, via the Canadian Pacific Express, for test. If this product proves as successful as anticipated, carload shipments to the two centres will follow shortly. The firm has about 8,000 tons of the raw material to dehydrate before winter — about 27 cars. The winter may find the plant working twenty-four hours a day.

If one be troubled with corns, he will find in Holloway's Corn Remover an application that will entirely relieve suffering.

Year's Shipment Of Wheat

In the 1927-28 crop year ended July 31, last, a total of 261,000,000 bushels of wheat was handled through the elevators at the head of the Great Lakes, situated at Port Arthur and Fort William, Ontario, on Lake Superior.

Veterinaries use Minard's Liniment.

Knowledge may be power, but it is seldom powerful enough to move a stubborn man.

Heavy Apple Crop

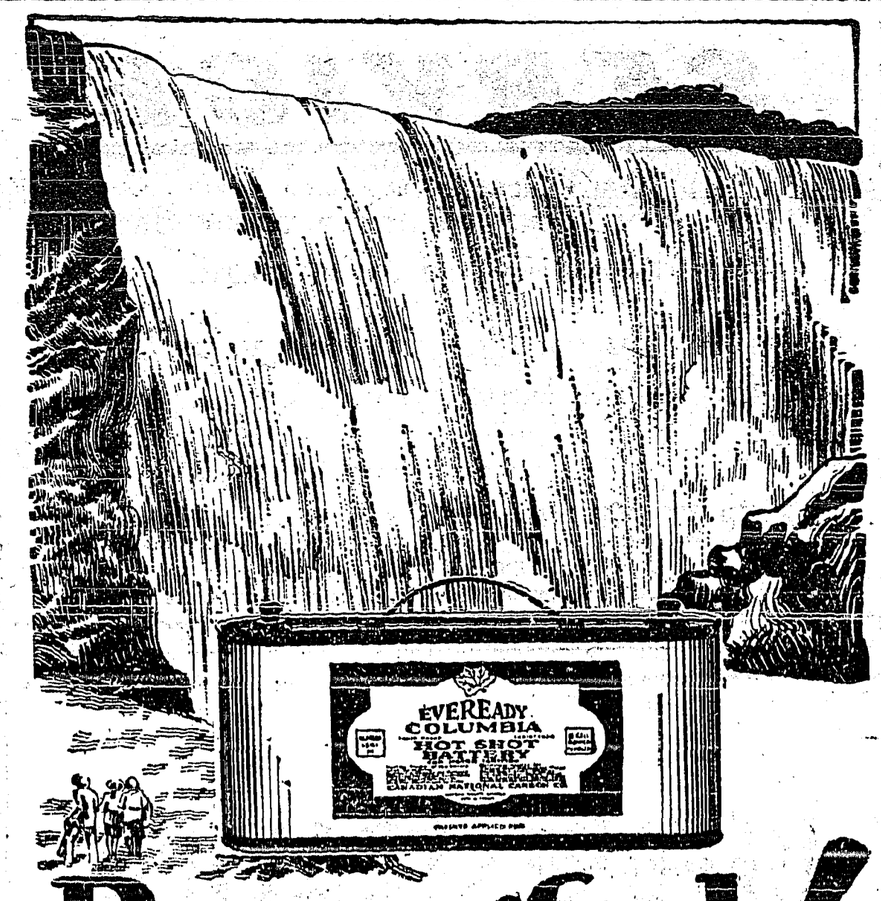
Increase Of Almost 900,000 Boxes Of Apples From Okanagan District Is Indicated

An increase of almost 900,000 boxes in the shipment of apples from the Okanagan fruit district is indicated in a report issued today by T. P. White, superintendent of car service, Canadian National Railways, Winnipeg. The latest estimates indicate that the "McIntosh" crop will amount to 1,252,460 boxes as compared with 738,493 boxes last year, or an increase of 513,967 boxes or 69 per cent. The total apple crop, which comprises largely the "McIntosh" and the "Wealthy" brands, is expected to amount to 3,928,355 boxes this season, which is an increase of 890,845 boxes over last year.

Many infants are infested by worms which cause great suffering, and if not promptly dealt with may cause constitutional weaknesses difficult to remedy. Miller's Worm Powders will clear the stomach and bowels of worms and will so act upon the system that there will be no recurrence of the trouble. And not only this, but they will repair the injuries to the organs that worms cause and restore them to soundness.

Social Worker: Do you believe in the transmigration of souls?

Fisherman: Well, no sir. I likes 'em fried in the ordinary way.



Powerful!

90,000 Horsepower is the amazing total amount of current produced by Eveready batteries in a single year!

The strong current and uniform long life of these Dry Cells and Hot-Shots have made them the first choice for all types of farm ignition.

Always buy Eveready Hot-Shot for work in exposed places. The metal cases protect your power supply against exhaustion during damp nights or in wet weather.

Look for the name Eveready before purchasing. If it's not an Eveready it's not a Hot-Shot.

Eveready Ignitors are the longest lived single Dry Cells made. For use in unexposed places.

GOVERNOR SMITH STATES POLICY IN VIGOROUS SPEECH

Albany, N.Y.—With all the force at his command Alfred Smith, governor of the state of New York, told an expectant nation what he would do if elected president. In aggressive fashion, he accepted the Democratic nomination with a speech which not only set forth his stand on prohibition, agriculture, foreign relations and other public questions, but accused the Republican administration of a failure to keep faith with the people.

As millions listened-in by radio, the new leader of the Democrats advocated modification of both the Volstead law and eighteenth amendment, reiterated that he would give the problem of controlling crop surpluses his immediate attention if elected, assailed the administration's Nicaraguan and Mexican policy, and pledged himself to a "real" endeavor to outlaw war.

He also called for a reorganization of Federal Government activities on a business basis; declared that neither he nor the Democratic party contemplated "sudden or drastic" changes in tariff schedules; reaffirmed his stand for public ownership and control of waterpower; promised a square deal for war veterans; stressed the need for inland waterway development, reforestation and conservation of natural resources, and advocated "progressive legislation for the protection and care of working men and women."

While standing "squarely" on the Democratic platform declaration for restrictive immigration, the nominee asserted that he was "heartily in favor of removing from the immigration law the harsh provision which separates families," and was "opposed to the principle of restriction based upon the figures of immigrant population contained in a census 38 years old."

British Warship Not Welcome

Soviet Government Will Not Permit Warship To Transfer Bodies Of Submarine Crew

Moscow, U.S.S.R.—The Soviet news agency Tass says that in response to a British request through the Norwegian mission to Moscow, that Great Britain be allowed to send a warship to transfer the bodies of the crew of the recently raised submarine L-55 from Leningrad to England, the Soviet Government has replied that it cannot consent to a British warship entering Soviet territorial waters.

The Soviet Government would not object to a warship of a friendly nation such as Norway or a British merchantman coming.

The L-55 was sunk in 1919 while assisting the white Russians against the Bolshevik Government but recently was raised by the Soviet authorities, who found a number of skeletons of British seamen.

May Remodel Liquor Act

British Columbia May Follow Lines Of Quebec System

Victoria, B.C.—"We are just stock taking now," Hon. R. P. Pooley, attorney-general in the new Conservative cabinet stated. "We can't say much about things until we have finished that."

The attorney-general intimated however, that there would be lots of action soon and agreed that the liquor act was one that would receive early attention. Conservatives in touch with party leaders have suggested that the British Columbia act may be remodelled somewhat after the lines of the Quebec Act.

Would Adopt Drastic Measure

Toronto. — The Chief Constables' Association of Canada, in session here, appointed a committee to urge Ottawa to fingerprint all immigrants, lengthen the residence period required for naturalization from three to ten years, make criminal misconduct grounds for deportation of even naturalized citizens, and widen the identification act to fingerprint even vagrants.

Advice To Dairymen

Hon. C. M. Hamilton Says Industry Here Is Not Behind Other Countries

Ottawa, Ont.—Bringing back some friendly advice for Canadian dairymen, Hon. C. M. Hamilton, minister of agriculture in Saskatchewan, reached Ottawa. He is returning from the world's dairy conference in London, where 1,800 delegates represented nearly every country in the world.

"Canadian dairying," Mr. Hamilton observed, "does not appear to be behind other countries in the line of production and manufacturing. The main difficulty seems to be in the uniform high standard of the herds. In that, we are somewhat lacking but it is not surprising since, in a number of the provinces, dairying is largely a side line.

"To establish ourselves in the British market, as producers of butter or cheese, bacon or any other agricultural product, we must not only place on the market the highest quality but also a steady volume. Merchants whose customers have developed a taste for a certain thing, want to be able to supply it continuously and that is where we sometimes fall down."

Mr. Hamilton tells of the Hon. W. R. Motherwell's travels. He has motored all over the British Isles and is going to France, Belgium, Germany, Italy and "finally up to the Scandinavian countries to see if they have anything on us in the line of agriculture."

Joins Scottish Club

Lord Lovat Becomes Honorary Member Of Club In Toronto

Toronto.—A distinguished Scot was added to the honorary membership of the Scottish Club of Canada, when the club honored Lord Lovat, parliamentary under secretary for Dominion Affairs, who is in Toronto for the purpose of conferring with the Ontario government on immigration matters. In accepting the honor his lordship reminded the membership that they could do much good by extending a friendly hand to boys who come out from the British Isles.

Less Drunkenness In England

Convictions Show the Lowest Total For Nine Years

London, Eng.—According to the official statistics of convictions for drunkenness in England published today, the most sober city in the Kingdom is the most historic seaport Plymouth and the city with the most proportionate convictions is the pretty but rather sleepy cathedral town of Norwich, in Norfolk.

Convictions throughout the country totalled 65,000 during the year, a decrease of 1,900 and the lowest total in nine years.

Support For Stresemann

Berlin, Germany.—Foreign Minister Stresemann, meeting with the new German cabinet for the first time since his recent illness, made an extensive report on the foreign situation with emphasis on the forthcoming renunciation of war treaty ceremonies at Paris and the League of Nations meeting at Geneva. He found the cabinet members in accord with him.

Will Be Proclaimed King

Belgrade, Jugo-Slavia.—Transition of Albania from a republic into monarchy is being rapidly consummated, according to advices received here from Tirana and from frontier points. These reports state that Ahmed Zougu, president of the republic, is to be proclaimed king within a few days.

Charged With Violating Sales Tax Act

Toronto.—Police acting under orders of the federal government arrested eight men and two women here on charges of violating the Dominion Sales Tax Act. The accused are all officials and employees of manufacturing firms. Bail in each case was fixed at $5,000.

Police Active At Coast

Vancouver.—Determined to put an end to the epidemic of safe cracking in Vancouver, Acting Chief of Police Dan Leatherdale announced that a powder squad of special automobiles and armed with sawed-off shotguns will patrol the city each night.

FIGHT ILLEGAL LIQUOR EXPORT

Gordon N. Shaver, K.C., has been appointed by the attorney-general of Ontario to act as special crown prosecutor in the proceedings against liquor export companies at Windsor as a result of seizure of about $5,000,000 of liquor along the Canada-United States border by the Ontario liquor control board in its fight against illegal export.

Prosperous Saskatoon

City's Financial Position Never Better Than At Present Time

Saskatoon, Sask.—Saskatoon's financial position was never better than at the present time. Due to better tax collections, the city has entirely wiped out its current loans from the bank and has on deposit today approximately $80,000.

This is the first time in the history of the city that this condition has existed, and it is said to be due entirely to the improved business conditions experienced here.

Earlier in the year there was one occasion when the city was able to wipe out its current bank loans, but there was no surplus.

Eye Tests For Motorists

Suggest Tests For Visual Efficiency For Drivers In Saskatchewan

Saskatoon, Sask.—Something of practical value and of more than passing interest to Saskatchewan motorists is being negotiated by the Saskatchewan Optometric Association in session here.

Harry S. Hay, Saskatoon, has submitted to the meeting a proposal whereby a test of visual efficiency for drivers would be possible.

The association appointed a committee to conduct a thorough investigation of the visual tests to which drivers are subject. This committee will make its report at the next meeting.

Alberta Experimental Tests

May Establish Permanent Experimental Farm In Peace River District

Edmonton.—Experimental tests of an extensive nature are being carried on in Alberta, in common with other parts of the west, stated Dr. J. H. Grisdale, of Ottawa, deputy minister of agriculture. In this province, the work concerning grains and grasses is being undertaken on a large scale while growing of suitable range feeds and tobacco is also receiving special attention.

Dr. Grisdale left for a visit to the Peace River country. While in that area, he will likely select a location for a permanent experimental station as the one now operated at Beaver Lodge is held under a lease. After looking over property in the Grande Prairie, Wembley, and Beaver Lodge districts, he will submit a recommendation as to what section should be acquired by the federal government for the development of its permanent work in the north.

University Women Meet

Membership Of Federation Now Stands At Nearly Two Thousand

Vancouver.—Women's place today, her participation in world affairs, and her limitations because she is a woman, were some of the topics discussed at the fourth triennial conference of the Canadian Federation of Univesity Women by Mrs. Bertha Landes, former mayor of Seattle.

Mrs. Landes said that "the woman who deliberately turns her back upon marriage, upon a home and children is making the greatest mistake of her life, but forcing these things upon women only breeds unhappiness for all."

The membership report of the federation was read by Miss Marjorie Gregg, of Ottawa. The various efforts to increase the membership, which now stands at 1,802, within twenty-seven affiliations, were outlined.

Banff Motor Highway

Ten Miles Of Bituminous Surfaced Road To Be Built As Experiment

Banff, Alberta.—The entire motor highway from the eastern to the western gates of the Banff National Park may be paved with a bituminous surface if experiments now under way under the supervision of J. A. Harkin, commissioner of parks for the Dominion Government, are successful. This information was given out by Mr. Harkin himself.

Mr. Harkin said that the present experiment will include the building of bituminous surfaced roads for five miles east and five miles west of Banff, making ten miles in all

Labour Premier's Canadian Tour

Ex-Premier Rt. Hon. Ramsay MacDonald at the throttle of a Canadian Pacific engine at Schriber with his daughter Sheila standing in the door of the cab. Miss Sheila had ridden in the engine from Schriber to Bolkow, Ontario, while on their trip to the West. "It was most exciting," she said. Mr. Ramsay MacDonald and his three daughters were delighted with the scenery of Northern Ontario along the Canadian Pacific main line.

MIGRATION PLAN IS ESSENTIALLY BRITISH PROBLEM

Toronto, Ont.—While the province of Ontario is willing to co-operate in every possible way in bringing the immigration scheme suggested by Lord Lovat to fruition, Premier Ferguson expressed the opinion that the matter was essentially a British rather than an Ontario problem.

Discussing the conference held with Lord Lovat in his office here, the premier stated that he looked forward with great optimism to the final result although he admitted that the paramount question of finance had not been definitely settled.

The premier pointed out that the Ontario government was already lending money to Ontario farmers and financing settlers in Northern Ontario.

Under the scheme the British government is working directly with the Dominion Government and financial details are being worked out between these two governments.

"Would the British Government be willing to finance the scheme if Ottawa decided not to enter into agreement," the premier was asked.

"That is what we were discussing yesterday," replied the premier.

"It will also be a subject of further conference when I meet Lord Lovat again. The British Government is willing to assist in financing the men and I gather from Lord Lovat that the discussions at Ottawa have been satisfactory."

The premier expressed the opinion that if the farmers of Ontario paid a yearly wage rather than seasonal, no difficulty would be encountered in keeping the men on the farms.

Vessels Are Leaving For Hudson Bay

Ship Movements From Montreal To Bay Have Been Numerous This Season

Montreal.—Ship movements from Montreal to Hudson Bay have been fairly numerous this season with departure of dredges, hopper barges and other craft for service at Fort Churchill, terminus of the Hudson Bay railway, where a modern ocean harbor is being developed. Three more vessels sailed recently from the Canadian Vickers shipbuilding plant, comprising another 8-yard dipper dredge, Churchill No. 1, which was constructed by that firm, a self-propelling hopper barge. Chesterfield, which was built by the Collingwood Shipbuilding Company and the powerful tug, Dainty, purchased by the Canadian Government from the Irish Free State.

Refused To Fly With Lindbergh

Little Girl Has Distinction Of Being First One To Pass Up Chance

Wabash, Ind.—Marilyn Lochwood, 9, granddaughter of Mrs. Eva Pettit, turned down a personal invitation of Colonel Charles A. Lindbergh to take a flight in a 'plane with him as pilot.

Answering the Colonel's request, the little girl said: "I never fly with anyone but my dad."

Lindbergh said, "Young lady, you have the distinction of being the first person to refuse to fly with me."

Hints At Separate Agreement

Toronto.—Premier Ferguson says that Britain must finance her own immigrants, following his discussion with Lord Lovat. He said, however, that in the event of the Federal Government not entering into satisfactory arrangement with Lord Lovat, Ontario might make her own pact with the British Government.

Use Niagara Falls As Screen

Niagara Falls, Ont.—An interesting addition to the attractions of Niagara Falls was suggested by Mayor H. P. Stephens who claimed that it was possible to project motion pictures on the American Falls, at a meeting of the committee in charge of the illumination. A special committee will investigate the proposal.

Local and Personal

BIRTH—On August 26th, to Mr. and Mrs. Donald Bradley, a daughter.

John Blinco is spending a few weeks at Vancouver, leaving on Sunday.

Dr. and Mrs. Lillie were weekend visitors with friends at Bonners Ferry and Sandpoint.

Miss Elsie Davies of Fernie was a weekend guest of her sister, Mrs. Chas. Armstrong.

PIGS FOR SALE—Young pigs, ready August 30, $5 each. R. Stewart, (Alice Siding), Creston.
