THE CRESTON REVIEW

Vol. XX. CRESTON, B. C., FRIDAY, FEBRUARY 1, 1929 No. 48

St. Stephen's Has Successful Year

The annual meeting of St. Stephen's Presbyterian Church was held on Tuesday evening. S. A. Speers occupied the chair. A good representative attendance of the congregation was present. The utmost enthusiasm prevailed when glowing reports were presented by the respective organizations.

The financial statement showed the total income for 1928 the highest in the history of the church, setting a new record for liberality on the part of the congregation. On behalf of the board of managers, W. S. McAlpine reported that all the obligations had been honorably dischargrd and that a handsome balance was on hand to be carried forward.

M. J. Boyd gave the session report showing that 17 new members had been added to the roll during the year and much valuable work done. Rev. W. A. Greer reported that three marriages had been solemnized, 8 children baptized and three funerals conducted.

The Ladies' Aid report submitted by Mrs. (Dr.) Henderson revealed a year of unparalled activity. Many meetings were held and much sympathetic attention given to improvements to the church. Electric light has been installed and the roof shingled. The strangers and the sick were visited and many community services rendered. The Aid's financial report given by Mrs. Hare showed that marked success had attended all the efforts of the year, when approximately $850 was received, being an advance over previous records.

Mrs. M. J. Boyd, on behalf of the Women's Missionary Society, stated that Mrs. S. A. Speers had been made a life member, and that the invitation extended the Presbyterial to meet in Creston had been accepted. Mention was also made of the delegation sent to council meetings at Vancouver and a donation sent to the hospital at Vegreville, Alberta. $100 had been sent to the treasurer.

The interesting Sabbath School report presented by Jessie Learmonth showed 1928 as the banner year taken financially and numerically. The enrollment is 105 scholars and 11 officers.

Allan Speers reported a very successful year for the Standfast Club. Regular monthly meetings have been held and many outings enjoyed. Toys and books were sent to the Chinese. Over $50 was raised by the club.

For the Maple Leaf Mission Band, Dorothea McDonald reported that a spirit of deep interest had been manifest and much good accomplished during the year in a great variety of ways, with an income of $50.

The Ellen Dow Mission Band report submitted by Betty Speers referred to the joyful vacation at Kuskanook and other meetings. Much practical work had been done, and close to $100 put in the exchequer.

A very hearty vote of thanks was extended to all the helpers, and after the transattion of business a sumptuous supper was served. —Contributed.

Wynndel

Miss Marie Hook of Spokane was a visitor with her grandparents, Mr. and Mrs. J. J. Grady, last week.

Mrs. Harry Benney of Creston was a visitor with her sister, Mrs. Geo. Huscroft, last week.

Quite a large number of Wynndelites were in the crowd at the dance in the hall at Sirdar on Monday evening.

At a meeting of the K.K. Klub last week it was decided meetings in future would be twice monthly.

The old schoolhouse is undergoing spring cleaning and will be in nice repair when the community chairs arrive.

Mrs. Towson was hostess at a whist party in her home last week. The high scores were made by Mrs. Rudd and John Battle, and consolations fell to Mrs. R. Dalbom, and P. Cockle.

Despite the very cold wind three sleighloads set out on Saturday evening for a surprise party on Mr and Mrs. Pederson. Games and dancing were the order of the evening, and a splendid evening was spent by all.

Misses Ewing and Randall were hostesses at a very enjoyable evening given at their home last week. The guests were Misses D. Butterfield, F. Wood, O. Hagen, E. Towson, S. L. and A. Benedetti, E. Hagen, E. Davis and B. Hulme.

Saturday, February 2nd, has been booked by the K.K. Klub for a hard times dance in old school house. Good prizes for "best" dresses. 50 cents fine on those not in regulation dress. Admission 50 cents. Ladies bring refreshments. Ladies without lunch 50 cents. Orchestra music. Come and enjoy yourself.

At a general meeting of Wynndel Women's Institute held on January 17th, various committees were formed. Mrs. Matt. Hagen was elected head of the ways and means committee. Misses Olga Hagen and A. Benedetti were named auditors. Mrs. Geo. Huscroft is publicity convener. The purchasing of chairs for the hall at Wynndel has been under consideration for some time and with a donation of $20 from the K.K. Klub the Institute has been able to order 100 chairs, which it is hoped will be here before the middle of February. A court whist drive and dance is planned for St. Valentine's night. The collection for the Otha Scott endowment fund was $1.85.

Canyon City

Miss Blodwin Rogers, neice of Dave Rogers, who has been visiting with him for the past four months, left last week to visit relatives at prairie points before returning to her home in California.

Miss Nissie McRobb has taken a position in Nelson. She will take further study in business college, and will be away for some time.

Everyone is glad to hear of the good recovery of Mrs. Halstead from a month's illness with pneumonia. Miss Freda Lewis of Creston and her daughter, Arlene Halstead, were her nurses.

Three sons of Mrs. Halstead from Winnipeg, Man., have come to visit their mother in her severe illness, and will remain for another week. A son-in-law of Mrs. Halstead is also here.

Mrs. John Johnson was taken to Cranbrook a few days ago, and operated upon her arrival at 10 p.m. It was a case of appendicitis. Mr. Johnson accompanied her, but her recovery is so satisfactory that he was able to return on Saturday.

Miss Mabel Abbott has returned to her home here for a time, and has given up her position in Nelson.

Nelson has found occupation also for Misses Kathleen and Ruth Clayton. They both like their situations and progress well.

Mrs. Jessie Strong was a visitor with her parents, Mr. and Mrs. Hickey recently, and has returned to resume her position in Nelson.

The annual meeting of Canyon Hall Association will be held at the hall on Saturday, February 2nd, at 8 p.m. prompt. All members are requested to attend.

A. Wesling was laid up for a few days with influenza but is again back on the job at the Rodgers mill at Creston.

The annual meeting of Canyon Mission Band was held in the church on Friday last. Officers for the ensuing year are: Agnes Johnson, president; Bessie Hurl, vice-president; Holly Bond, secretary; Clara Nygaard, treasurer. Mrs. Bond was again chosen leader.

There was a very enjoyable social held at the Community Hall on Saturday under the direction of the Farmers' Institute. The attendance was not very large owing to the cold dip in the weather, but all had a good time with cards, games, etc., followed by supper and dancing until midnight.

Erickson

Birth—To Mr. and Mrs. Bert Boffey, on January 22nd, a son.

Frank Celli got back on Sunday from a business visit to Calgary, Alberta.

Mr. Webster, Swift & Co. representative, Cranbrook, was a business visitor the latter part of the week.

Mrs. T. W. Bundy was a bridge hostess on Thursday last at which the high score honors went to Mrs. Mallandaine, and the consolation honors to Mrs. McKelvey.

Mrs. Frank Staples and daughter, Helen, were visiting with Cranbrook friends a few days last week.

By a vote of 40 to 18 Erickson on Saturday decided against the establishment of a beer parlor. The referendum was taken under the provisions of the Liquor Control Plebiscites Act, voters going to the polls in sub zero weather accompanied by a gale out of the north. Those opposing beer were the more aggressive and in spite of the severe weather got out most of their available vote. John Hall was in charge of the voting.

Sirdar

We are glad to hear that Miss Lucy Pascuzzo is progressing favorably.

Mrs. Heap returned on Saturday from a two weeks' vacation with her sister, Mrs. Whiteside, at Crowsnest.

Sirdar encountered its coldest weather of several winters on Monday morning when it went down to nine below, and remained around the zero mark all of the day.

Mrs. Swannell of Vancouver arrived on an extended visit on Monday with her daughter, Mrs. R. Bleumenauer.

Sam Lombardo was united in marriage in Michel on Saturday last. The bride was Miss Caruso. Quite a number of residents of Sirdar went to Michel on Thursday last to witness the ceremony, including Tony Lombardo, F. Lombardo, Kathleen Lombardo, Mrs. Parento and daughter, Mary; Misses Rosie, Annie and D. Pascuzzo. They all returned on Sunday with the bride's parents, brother and sister, and the happy couple gave a dance in Sirdar Community Hall on Monday night, which was well attended by friends of the bridegroom, especially those from Wynndel, from which point there were some fifty guests.

Alice Siding

Mrs. Jas. Compton left on Sunday for Nelson, on a visit with her daughter, Miss Ivan, who has been on the sick list.

Miss Helen Moore, who has been a visitor since Christmas with her parents, Mr. and Mrs. George Moore, has returned to Cranbrook.

The whist club had its meeting last week on Friday night at the home of Mrs. Martin when the prizes were won by Mrs. Pease and Victor Carr. This week the club meets at the Carr home.

The free rural mail delivery is due to commence today and will come every Tuesday and Friday, leaving Creston at 4 o'clock. H. S. McCreath is putting on a motor truck and will give a parcel delivery service up to 500 pounds weight.

Weather history has certainly been made in the Valley this winter. W. A. Pease is authority for the statement that he has seen thousands and thousands of Januarys, but the 1929 January is the first one to go without a thaw.

The surprise party crowd were on the rounds on Friday night when they invaded the home of Mrs. Marshall fully equipped to stage a most enjoyable dance and bringing with them an equally enjoyable lunch, which was served about midnight. The music was by Ron. Smith, violin; Misses Athena Schade and Eileen Hendy, piano; and Gerald Craigie and Bob Marshall, drums.

GRAND THEATRE
Saturday, Feb. 2

Leads all other Racing Dramas

Ken Maynard
in
The Upland Rider

King Ken in a Western racing story that has ten times the thrills and spills of any racetrack picture you have ever seen; and a love story as beautiful and thrilling as a western sunset.

Local and Personal

Ted Bush is leaving this week for Kimberley where he is booked to box six rounds on Monday with Murdo Morrison.

Miss F. Stark, who has been here for about three months visit with her father, Robert Stark, is leaving this week on her return to Italy.

For Sale—Five tons second cut No. 1 alfalfa, baled, will consider part trade for calves or young stock. W. K. Beard, Camp Lister.

For Sale—Small Jonathan apples in first class condition. 65 cents per box delivered any where in town. Leave orders at my shop. V. Mawson.

Up to the end of the month license plates had been issued at Creston for over 100 autos. This is just about double the number sold in January 1928.

Members of Creston Valley Post Canadian Legion are reminded that the February meeting will be held at the club on Tuesday night next, February 5th.

Free rural mail in the Alice Siding section commences 4 p.m. today, with H. S. McCreath in charge. The service will be on Tuesdays and Fridays, leaving at 4 p.m.

Alfalfa For Sale—Second cutting, $20 a ton at Chas. O. Rodgers' office. Or delivered in 2 ton lots in Creston, or no further haul. No. 1 alfalfa. Chas. O. Rodgers, Creston.

About five dozens of spoons were turned in by friends of Christ Church Ladies' Guild at the teaspoon shower given in the Parish Hall on Tuesday afternoon of last week. Tea was served.

Mrs. Benson, who has been visiting her daughter, Mrs. S. Gaskill, has returned to her home at Kimberley. Mr. Gaskill is in charge of construction of the new W. M. Archibald residence.

The local telephone business passes into the control of the new owners, Kootenay Power & Development Company, Limited, this morning, but for the present there will be no change in operating staff or hours.

The cold weather kept down the attendance at the L.O.B.A. bridge in the lodgeroom on Thursday afternoon last. There were four tables of players and the prize scores were made by Mrs. Fransen and Mrs. A. L. Palmer.

In addition to leading the Barred Rock class at the Grand Forks egg laying contest, W. S. McAlpine's birds were only nine eggs short of leading the whole of the 50 pens in egg production at the end of last week.

The final game in the series for the cup presented by President W. Fraser was played at the curling rink on Thursday night. The winner was the Bundy rink who scored three on the twelfth end to beat the Craig quarette 11 to 12.

Although electricity is in more general use and gasoline lamps are in more general use, there is no falling off in the demand for coal oil. For 1928 the local branch of the Imperial Oil Company had sales averaging about 3000 gallons a month.

For Sale — Victor Orthophonic phonograph and 40 records. Mrs. A. L. Palmer, Creston.

The Ladies' Guild of Christ Church are to be hostesses at a masquerade ball in the Parish Hall next Friday night, February 8th. Prizes for the best ladies and gentlemen's fancy and comic costumes, which are to be homemade. The admission is 75 cents, and music by Mrs. Lister's orchestra.

The outstanding Chevrolet is here. See it at the demonstration at the Grand Theatre Tuesday night, when a special representative of the firm will be here and display the new machine in moving pictures and slides, to be followed by a dance in the Grand Theatre ballroom to which all are invited.

The first of the 1929 series of bridge drives under the auspices of Christ Church committee was held in the Parish Hall on Friday night, at which the prize scores were made by Miss Stark and Mr. Oakley. Second prizes went to Mrs. Garlick and W. Kemp. Due to the severe weather the turnout was lighter than usual.

The severest weather since the blizzard in December, 1924, was encountered at the weekend. A 40 mile gale blew out of the north all day Saturday night, Sunday and most of Monday night. 11 below zero was recorded Monday morning and the mercury never got above two below zero all day. It was 5 below Tuesday morning. Wednesday was 13 below and 5 below on Thursday.

$333,000 Value 1928 Production

Notwithstanding the December, 1924, blizzard, which took a heavy toll of apple trees, figures submitted in the carefully prepared statement of President Mallandaine at Creston Brard of Trade annual meeting on the 22nd, show that since 1914 the Valley's production of fruit and vegetables has increased 600 per cent. in value. Ten years ago the gross value of these crops was set down at $57,000. For 1928 the president figures the crop was worth at least $333,000.

While figures that far back were not presented covering forest production, the gain of the past year over 1927 is quite striking. For 1927 the outgo of railway ties was shown at 85,000, while for 1928 the tie shipments totalled 106,000. Shipments of lumber in 1927 were shown at 3,340,000 feet while in 1928 shipments totalled 3,600,000 feet. The lumbering payroll a year ago was $130,000 and it had grown to $160,000 in 1928.

According to President Mallandaine's figures the Valley imported last year some 50 carloads of hay and five carloads of oats. 22 carloads of oil and gas were received at Creston, along with 9 cars of brick, 3 cars of cement and 20 cars of coal.

In fruit and vegetables the outgo was about 160,000 boxes of apples, 4089 boxes pears, 5209 crates of plums and prunes, 2500 crates of raspberries, and 37,327 crates of strawberries, besides about 50 tons that went for jam. 5016 crates of cucumbers were shipped and 10,741 crates of ripe tomatoes.

Board of trade officers for 1929 are: President, Major Mallandaine; vice-president, C. W. Allan; secretary-treasurer, R. J. Forbes; auditor, Dr. Henderson; executive, C. F. Hayes, Geo. Johnson, C. O. Rodgers, S. A. Speers, H. S. McCreath.

WORLD HAPPENINGS BRIEFLY TOLD

The Turkish assembly ratified the pact for renunciation of war and the government instructed its ambassador at Washington to sign the pact.

The Rev. Dr. S. Parkes Cadman, pastor of Central Congregational church, Brooklyn, says he has been invited to deliver the sermon at the opening of the League of Nations conference at Geneva on Aug. 25.

Premier Stanley Baldwin announced in the House of Commons examination will be held into the 60-year-old project for a tunnel under that a comprehensive non-party re- the English Channel.

Several persons were killed and a thousand buildings destroyed in the populous Greek district of Tavala in Constantinople by a terrific fire whipped by a fierce wind which laid waste an extensive area.

Japan has notified the League of Nations that manufacture and distribution of narcotics in Korea had been taken out of the hands of private companies and made a government monopoly.

Every effort will be made to secure for Canada the winter sports of the Olympic games in 1932, it was decided at a meeting in Toronto of the executive committee of the Canadian Olympic committee.

"Flu" Is Here In Dead Earnest

SICKNESS IN NEARLY EVERY HOME IN WESTERN CANADA

Watch your little cold—beware of everyone who is coughing or sneezing—avoid crowded places, above all stop your grippy cold at the beginning.

Doctors and nurses who have had long experience in handling grippe cases advocate Catarrhozone Vapor as an effective means of protection.

It is very simple to use Catarrhozone, and the whole family can enjoy its germ-killing protection at the cost of a few cents.

Put a teaspoonful of liquid Catarrhozone in a pint of water. Place this on a stove or lamp and bring the water to a boil. The vapor which rises contains the most powerful disinfectants. As you breathe this healing vapor, you kill the germs that cause colds, catarrh, flu, and grippe. Splendid for children,—equally good for the parents. Far better to protect the whole family in this way than to have a housefull of sickness. All druggists sell Catarrhozone in 50c. bottles.

Edmonton Telephone System

As showing the growth of business in Edmonton, "The Journal" points out that whereas 24 years ago some 660 citizens of the then town of Edmonton voted $27,000 for the purchase of the Edmonton district telephone system (for the use of 289 subscribers), the system has now grown to represent a capital investment of $2,500,000, with subscribers numbering 15,000.

Experimental Farm System

Canada Has Largest System Of Its Kind In The World

The Canadian Governmental Experimental Farm system now embraces 27 farms, seven sub-stations, one horse-breeding station, one fox ranch, 10 plant pathological laboratories and 201 illustration stations at different points in the nine provinces of the Dominion. The system is the largest of its kind in the world.

CHILDHOOD AILMENTS

Can be Quickly Banished With Baby's Own Tablets.

The ailments of childhood are many but nine-tenths of them are due to one cause and one cause only—a disordered condition of the stomach and bowels. To quickly banish any of the minor ailments of babyhood and childhood the bowels must be made to work regular and the stomach must be sweetened.

No other medicine for little ones has had such success as has Baby's Own Tablets. They banish constipation and indigestion; break up colds and simple fevers; correct diarrhoea and colic and promote healthful sleep by regulating the functions of the stomach and bowels. Concerning them Mrs. L. M. Brown, Walton, N. S., writes:—"I cannot speak to highly of Baby's Own Tablets as I have found them excellent for childhood ailments."

Baby's Own Tablets are sold by medicine dealers, or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Winnipeg Newspaper Union Fashion

Baby's New Ensemble

Give the darling new babe a right start to good health and happiness by choosing the correct garments for him, and he will repay you with his smiles and coos. Style No. 221 consists of a dress with bishop sleeves, gertrude petticoat, with or without gathered ruffle, nightgown, kimona that is perforated for short sack and a bib. To complete the layette, a band, knitted shirt and diapers should be included. Nainsook, batiste, soft lawn, muslin or cotton crepe is appropriate for all the little garments except the kimono or sack, which is usually made of cashmere, crepe de chine, flannel or fine broadcloth. A touch of embroidery gives a French appearance. Pattern for layette in one size only and costs 25 cents in stamps or coin (coin is preferred). Wrap coin carefully. Emb. No. 11127 (blue) costs 25 cents extra.

SUNDAY SCHOOL LESSON

FEBRUARY 3

THE HOLY SCRIPTURES

Golden Text: Open thou mine eyes, that I may behold wondrous things out of thy law. Psalm 119.18.

Lesson: Deteronomy 6.4.9; Joshua 1.8, 9; 2 Kings 22.8-20; Nehemiah 8.1-8; Psalm 19.7-14; Luke 24.25-32; Acts 17.10-12; 2 Timothy 3.14-17.

Devotional Reading: Psalm 119. 105-112.

Explanations and Comments

The Value of The Scriptures, Psalm 19.7-11—The law of Jehovah, the testimony of Jehovah, the precepts of Jehovah, the commandments of Jehovah, the ordinances of Jehovah—all of these expressions are terms for the Scriptures of the Old Testament, especially for the Sacred Law which they contain. "The Christian Church has legitimately extended the words to the larger body of Scripture which forms the Bible." This, the Psalmist declares, is perfect, restoring the soul; sure, making wise the simple; right, rejoicing the heart; pure, enlightening the eyes—"imparting refreshment and vigor to the soul, giving new life and hope: dying eyes are glazed, a sick man's eyes are heavy and dull, health brightens them"; true, and righteous altogether.

The fear of Jehovah is clean, enduring for ever. "When among the five terms, each clearly significant of the Scriptures, the Psalmist introduces the abstract expression 'the fear of the Lord,' he must mean the awe, the obedience, the discipline and inspiration of the Book whose praise is the burden of his song" (George Adam Smith).

More to be desired are they than gold, yea, than much fine gold.

"The Word like a deep, deep mine,
And jewels rich and rare
Are hidden in its mightly depths
For every searcher there."

Then with heart aglow, the Psalmist cries, "More to be desired are they than honey, and the droppings of the honeycomb"—the purest of the honey. "Moreover by them is thy servant warned; in keeping them there is great reward."

"If only we would obey the leadings of Christ, as the planets of the sun, our lives would be full of light and health and liberty. We should be restored to perfect health; our simplicity would be made wise, our hearts would be gladdened; our eyes would be enlightened; our poverty enriched, and our dispositions sweetend" (F. B. Meyer.

Toes Made Comfortable Sore Corns Removed

Quick, safe relief is almost instantaneous if you apply PUTNAM'S CORN EXTRACTOR. Shoes won't pinch or hurt. One single drop of Putnam's stops the pain. A few applications make the corn dry up and drop off. Putnam's Corn Extractor gives satisfaction. Thousands use it every day. Get a bottle from your druggist. Refuse a substitute for "Putnam's" the one sure relief for sore corns.

Vancouver Grain Exports

Grain exports from Vancouver for the calendar (1928) year will exceed 90,000,000 bushels, according to Merchants' Exchange figures.

It Testifies for Itself.—Dr. Thomas' Eclectric Oil needs no testimonial of its powers other than itself. Whoever tries it for coughs or colds, for cuts or contusions, for sprains or burns, for pains in the limbs or body, well know that the medicine proves itself and needs no guarantee. This shows why this Oil is in general use.

A New York sculptress excels in carving horses out of cheese. Her horses can be melted into welsh rarebits, later emerging as nightmares.

Going Upstairs Had to Sit Down Breath So Short

Mrs. H. Brousseau, Magog, Que., writes:—"For many years I suffered with shortness of breath; then four years ago I had palpitation of the heart, and was so bad I had to sit down two or three times when going upstairs. I read about

MILBURN'S HEART AND NERVE PILLS

so I got a box, and in no time I felt better, so I took three boxes more and I have never had shortness of breath since."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Royal Bank Annual Meeting

The sixtieth annual meeting of shareholders of The Royal Bank of Canada marked the close of the most successful year in the history of the bank. The report submitted showed that both the assets and the profits of the bank constituted a record for Canadian banking.

Dealing with the question of trade relationship between Canada and the United States, Sir Herbert Holt, the President, said:

"No country imports more goods from a single market than Canada imports from that country. The value of these imports during the twelve months ending September 30, 1928, aggregated 790 million dollars, a total more than 300 million dollars in excess of Canadian sales to that market during the same period. Such an unbalanced trade relationship is injurious to the national welfare of this country.

"In spite of the fact that the present trade relationship between the two countries is disproportionately favorable to the United States, there is active discusion of further tariff increases that seem likely to shut out the few competitive items which Canadians now sell there. It would seem that those who propose such tariff changes fail to realize that checks upon Canadian prosperity automatically check the volume of goods which can be brought from the United States, and that on the other hand continued improvement in Canadian conditions brings corresponding increases in the volume of goods which they can sell us. From this viewpoint it might be considered economic statesmanship for the United States to discover means to increase their purchases from Canada, rather than to consider measures which will constitute new trade barriers.'

General Manager's Address

Discussing the policy of developing the latest resources of our country, Mr. Neill said in part:—

"During the past two or three years many existing industries have been reorganized to meet the requirements of expanding business. Mergers have been effected to ensure production on the most efficient basis, and many new industries have been started. Through a number of different investment bankers who are our customers, we have had the opportunity to assist in such financing, with the result that numerous new and valuable connections have been secured for the bank. I am glad to be able to report that in every such case credits granted have been liquidated to our satisfaction, and despite the number of new issues that have been made, we are carrying no undigested securities."

He pointed out that in this period of prosperity reserves should be built up against less prosperous times. The public has the right to expect sound leadership in government and industry and with such leadership there can be no doubt concerning the wonderful prospects that the future holds in store for Canada.

Training For The Blind

Need For More Varied Occupation Says Major Timmins

Fifty per cent. of the blindnesss in the Dominion could be prevented ir proper measures were taken by those liable to suffer injury to their eyes while at work or play declared Major A. N. Timmins, general manager of the Canadian National Institute of the Blind at a meeting of provincial field officials at the offces in Regina.

Major Timmins is touring the country to observe the work of the institute and in his short talk pointed out the need of an intelligent and intensive training for the blind. He declared that with such training the blind could work at almost any occupation besides the standard basketwork, reed work and broom making. In Saskatchewan alone, he said, some 150 blind persons would thus be enabled to earn their own living and not be a burden on society.

He said that over $100,000 worth of goods made by the blind had been sold in this province in 1928 by the sales department through women's organizations. Of this sum the broom sales amounted to $25,000. The total sales for the Dominion and Newfoundland totalled one million dollars.

Cattle in Fine Condition

Owing to the light snowfall around High River, Alberta, this year, the cattle and horses on the Prince of Wales' ranch and on other ranches in the vicinity are in excellent winter condition, and it has not yet been necessary to do any feeding, according to W. L. Carlyle, manager of the E. P. Ranch.

Help for Asthma. Neglect gives asthma a great advantage. The trouble, once it has secured a foothold, fastens its grip on the bronchial passages tenaciously. Dr. J. D. Kellog's Asthma Remedy is daily benefiting cases of asthma of long standing. Years of suffering, however, might have been prevented had the remedy been used when the trouble was in its first stages. Do not neglect asthma, but use this preparation at once.

Revenue From Poultry

In 1913 revenue from the poultry industry in Alberta amounted to $2,250,000. In 1927, 14 years later, revenue from this source was $10,093,000, according to the poultry commissioner for Alberta.

In all infantile complaints that are the result of the depredations of worms in the stomach and intestines Miller's Worm Powders will be found an effective remedy. They attack the cause of these troubles, and by expelling the worms from the organs insure an orderly working of the system, without which the child cannot maintain its strength or thrive. These powders mean health and improvement.

"You naughty child! Such good soup! I wonder how many children would be glad to get half that."

"I should, for one, mother."

Minard's Liniment for Coughs and Colds.

Germany Buys Douglas Fir

Canadian Product Seems to Meet Requirements for Special Purposes

Douglas fir because of its superior quality in clearness and strength, is the leading Canadian product to find a sale in the German market. It is increasingly substituting for pitch pipe, because of the latter's gradual increase in price, while at the same time it has to compete against supplies from Washington and Oregon. It appears regularly to fill requirements for special purposes, being used for interior finishing, decking and deck boards, while plywood and logs are also imported when price is competitive.

Roofs Made Beautiful

A roof was once something to keep out the rain. Now with the growth of air travel it is becoming something to gaze upon with a sense of the beautiful, and architects are paying attention to this new development in their art. The proof of the roof is going to be in the viewing.

Speeding around corners is a straight road to the hospital.

Are You Ready

When your Children Cry for It

Baby has little upsets at times. All your care cannot prevent them. But you can be prepared. Then you can do what any experienced nurse would do—what most physicians would tell you to do—give a few drops of plain Castoria. No sooner done than Baby is soothed; relief is just a matter of moments. Yet you have eased your child without use of a single doubtful drug; Castoria is vegetable. So it's safe to use as often as an infant has any little pain you cannot pat away. And it's always ready for the crueler pangs of colic, or constipation, or diarrhea; effective, too, for older children. Twenty-five million bottles were bought last year.

Fletcher's CASTORIA

CRUMBLY TEETH

Help your children to have sturdy bodies, sound bones and strong teeth. Give them

Scott's Emulsion

rich in vitamins. It serves the needs of childhood equally as well as it does grown people.

Scott & Bowne, Toronto, Ont. 25-60

THE CRIMSON WEST

— BY —

ALEX. PHILIP

Published by Special Arrangement With Thomas Allen, Publisher, Toronto, Ont.

CHAPTER XIII.—Continued.

Connie raised her head. "Oh, no, I don't think so, Andy; that must slip on," she objected.

Andy made a pretence of studying the article in question.

"Yes, yes, sure! That's right! that's right!" he conceded quickly.

Andy's pipe was now sending out billows of acrid smoke. Connie moved beyond the smoke screen. Much to Andy's relief, she sat for a moment silently studying the advertisement. When she raised her head there was a look of wistful yearning in her blue eyes.

"Oh, Andy," she said dreamily, "it must be lovely to feel those soft silky things next your skin."

"I'm—I'm sorry, Connie," stuttered Andy, "but I 'ave a roast in the oven—I——"

"Just a minute Andy," she pleaded, "there is something else I want to ask you." She sorted the papers for a moment.

"God 'elp me, what will it be now?" thought Andy, as he braced himself for the next question.

"Andy, what is a camisole?"

A look of profound relief crossed the little Australian's face.

"A camisole," he explained with an air of wisdom, "is a fish. It's a——"

He was interrupted by Connie's peal of laughter. "Oh, Andy," she cried, "you're a funny man!" She turned and ran laughing down the hill.

"Strike me lucky!" exclaimed Andy as he mopped his brow. "It's enough to make a blighter's 'eart bleed. The poor motherless kid comin' to a bloke like me to ask such questions."

He watched Connie as she slowly ascended the trail, still studying the magazine pages.

"But 'ow the 'ell can I 'elp 'er?"

He pondered deeply for a moment, but, seemingly unable to answer the question, shook his head sadly and turned to his duties.

Fortunately for Janet's peace of mind, none of her friends had recognized in the photograph of the new champion of Canada the handsome young man they had met at her home. They were puzzled by her decision to spend a holiday in the wilds until she casually mentioned that Mr. McLean was arranging for their entertainment, and she accepted with a smile the sly teasing that followed.

The party arrived by special train a day earlier than originally planned, and as Janet stepped to the platform Donald was for a moment disconcerted by the warmth of her greeting and the softness in her eyes as they rested on him.

That afternoon Connie came riding down the hill holding in her hand an enormous bouquet of Alpine flowers. She leaped from her horse and ran blithely around the corner of the big building. Andy, dressed in white coat and hat, came smilingly forward to meet her.

"Andy, here are some rare flowers Dad sent for——" She ceased speaking abruptly as Donald, leading Janet and her friends from a tour of the kitchen, came through the door.

Donald's face lighted with a glad smile as he saw Connie.

"Miss Rennie, I want you to meet Miss Wainwright."

Connie's face burned with embarrassment as all eyes turned toward her, and the mass of wild flowers held crushed to her breast quivered as though shaken by a breeze. She glanced about her quickly, strongly tempted to flee the spot.

For a moment the society belle and the girl of the mountains eyed each other silently. Janet stared at Connie as if she were some strange creature unclassified by science. Connie for the first time was gazing on a stylishly-clad member of her own sex. Janet's dress of white silk shimmered in the sunshine, and her broad-brimmed white hat, with lining of pale rose, gave to her beautiful face a ruddy glow.

Connie's eyes roved in admiring awe from the neat high-heeled shoes to the silken hose and skirt, and then to the flowered hat set jauntily on thick shining coils of dark hair.

There was a certain dewy freshness, a native frankness, about the girl of the woods that made Janet appear artificial. Their eyes met, and Connie's lips parted in a timid smile, revealing two rows of perfect milk-white teeth and forming two tiny dimples in her brown cheeks. Her lonely heart longed for the friendship of this wonderful girl, but the smile quickly faded when she saw that Janet's eyes remained cold and appraising.

Janet scrutinized Connie's faded blue overalls and coarse cotton shirt, which, even though loose and ill-fitting, could not conceal the graceful lines of the childish figure. Confused by the cold reception, her eyes wide and misty with a hint of pain, Connie turned quickly away.

Moving with the easy grace and freedom that an empress might envy, Connie walked to the side of her cayuse, and with characteristic bird-like motion sprang to his back. Her moccasined feet struck his sides, and with ears flattened Pegasus leaped forward with a speed that sent Connie's hair streaming. His spurning hoofs sent a cloud of dust in their faces, then horse and rider went tearing down the hill.

Janet stood staring after the flying rider, a look of blank astonishment on her face.

Connie's visits to the mill ceased, but from the highest point on the bluff she watched the merry-makers with keen interest as, dressed in natty riding costumes, they rode their horses, disported themselves in bathing-suits on the sandy beach, paddled the lake in light, graceful canoes, or chugged about in the shiny white motor-boat. For two evenings she sat with a feeling of dreary loneliness while Donald and Janet floated on the placid like in one of the tiny canoes, their subdued voices and gentle laughter coming up faintly from below.

During the evenings she spent with Donald, Janet was assailed by fleeting emotions in which she tried to define her attitude toward him. She felt that the time was not far distant when some definition would be necessary. In a number of artful ways she had tried, but without success, to lead him to talk of himself. When she put a direct question she saw the lines about his mouth tighten, and his reply carried a tone of such unmistakable rebuke that her face reddened and the subject was instantly dropped.

On the night before Janet's departure a dance was arranged, to which the clerical staff of the Cheakamus Mill was invited. Gillis promised a special feature on the programme in the form of an old-fashioned square-dance with his "red-shirts" as the performers.

All that day the skies drizzled continuously; lake and mountain were hidden under a heavy mist. The inclement weather did not dampen the ardour of the merry crowd, who, in slickers and oilskins of every description, gathered flowers and trees to decorate the big dining room that was to be used as a dance-hall.

That night, lights gleamed from every window of the big room, which had undergone a sudden transformation. The walls were one mass of wild flowers, and on the beams overhead small cedars and jackpines stood upright in rows, adding a pungent odour to the air, already burdened with the sweet smell of wild flowers. The music of the phonograph flowed out of the open door to vibrate softly through the dripping trees.

Connie learned of the dance, and after dark she slipped quietly down into the valley. She crouched by the open window, heedless of the rain dripping from the eaves, her eyes glued upon the enchanting scene within. She saw Donald and Janet gliding across the floor, and she marvelled at the grace of their movements. The hum of talk, the constant ripple of feminine laughter, the rustle of silken skirts, were all foreign to Connie. She felt a touch of intense and utter loneliness, like a stranger in a strange land.

Janet seemed to have thrown aside her cloak of reserve; she brimmed over with an unwonted gaiety, but at times her big brown eyes held a troubled look as they rested on Donald.

Gillis's "redshirts" filed in to give an exhibition of old-fashioned dancing. Half the men wore handkerchiefs tied about their arms to indicate that they were impersonating ladies. Blackie played the violin, while "Fightin'" Jack's roaring voice did the "callin' off." Gillis informed the company that Blackie "didn't know a note of music from a post-hole." But what he lacked in technical knowledge was made up in the immense volume of sound he produced from the instrument, and the speed he set for the whirling dancers to follow soon had them dripping with perspiration. There were shouts of Homeric laughter, big feet thumped the floor as they girated through the intricate steps of the quadrille, and above all sounded the hoarse voice of "Fightin'" Jack in the colorful jargon of "callin' off."

"Birdie jump out and Jackie jump in;
Jackie jump out and give Birdie a swing.
All the men left; back to pardner;
And grand right and left.
Chickadee right and pack-rat left.
Meet your pardners and all chaw hay.
Gents sashay and put on style,
Re-sashay and with a little more style,
Little more style, gents, little more style."

At the finish the girls loudly applauded the efforts of this picturesque crew, and after a short breathing spell they again took the floor and danced until sheer exhaustion forced them to quit. Mopping their dripping faces with big red bandanas, they trooped boisterously outside.

Near midnight the rain ceased, and as Donald walked with Janet to her cabin the moon came suddenly from behind a dark wall of clouds to set the lake sparkling under its soft light.

"Too wonderful a night to sleep," said Janet softly.

"Shall we walk to the lake?" asked Donald.

She nodded assent.

They stood near the edge of the lake in the light of the moon and looked across at the towering snow-fields etched against th star-spangled sky. There were lights still shining from the big room they had just vacated, and the night watchman's lantern bobbed jerkily as he made his rounds. Across the lake the light from the trapper's cabin shone on the calm surface of the water. The faint, weird call of a loon wafted to their ears was echoed and re-echoed in soft cadences from the surrounding hills. A faint breath of wind came out of the rain-washed forest, laden with the sweet perfume of earth and flowers, and caressed their faces like loving fingers. Donald took a deep breath that seemed more like a sigh.

(To Be Continued.)

Nothing Like Zam-Buk FOR THE SKIN

Little Helps For This Week

Now are we sure that Thou knowest all things.—John xvi. 30.

Only God knows the trials that we bear,
The weary longing for a different fate,
The daily struggle and the anxious care,—
He knows, and we can wait.

Only God knows,—we have no want beside!
Our Father watches o'er us from above;
We feel our weakness, but His hand will guide.
He knows, and He is Love!

—Mary Dickinson.

Trust him implicity, submit to Him cheerfully, and you will find that all shall be well; that more grace will be given you; that the heavier the trial the larger will be the blessed measure of the strength. The Shepherd is leading you in the right way to His own blessed fold. Leave it all to Him.

—Alexander McKenzie.

CUTICURA HEALS LARGE PIMPLES

Caused Itching Burning, Also Disfigurement.

"My complexion was completely marred by pimples which varied in size. Some were large, hard and scaly, while others were just red and festered. They caused an itching, burning sensation, also disfigurement.

"After using scores of remedies for over two years, with but little results, I sent for a free sample of Cuticura Soap and Ointment. I was so pleased with the results that I purchased more, and after using two cakes of Cuticura Soap and one large box of Cuticura Ointment I was completely healed." (Signed) W. E. Blackburn, 20 Bellevue Ave., Toronto, Ont.

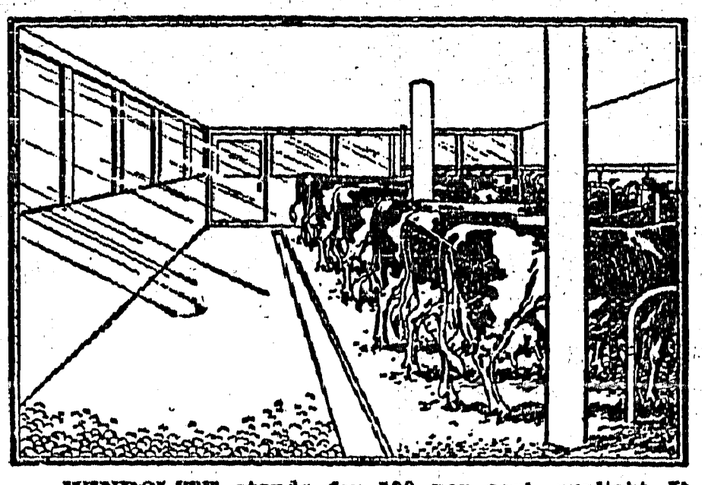
Use Cuticura to clear your skin.

Sample Each Free by Mail. Address Canadian Depot: "Stenhouse, Ltd., Montreal." Price, Soap 25c. Ointment 25 and 50c. Talcum 25c.

Cuticura Shaving Stick 25c.

WINDOLITE *The Improved Glass Substitute*

MADE IN ENGLAND



WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip,—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 135 to 140 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price $1.50 Per Square Yard, f.o.b., Toronto.

Use WINDOLITE and let
YOUR PLANTS

YOUR CATTLE
Bask in 100 % Sunlight
Send for booklet "WINDOLITE"

COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer, Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays, are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass, that it freely admits the Ultra-Violet rays, and that its use has a most beneficial effect on the growth and development of plants and chickens and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their sheds.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

THE CRESTON REVIEW

Issued every Friday at Creston, B.C. Subscription: $2.50 a year in advance, $3.00 to U.S. points.

C. F. HAYES, Editor and Owner.

CRESTON, B.C., FRIDAY, FEB. 1

Women's Instiute Work of 1928

During the year eleven meetings were held with an average attendance of 27.3. There were 14 directors' meetings, with an average attendance of 4.6.

The outstanding Institute event was the Kootenay Boundary District conference, held in Creston early in October. This was an unqualified success, thanks to the splendid spirit of co-operation displayed by all members of Creston and District Institute. Mrs. Gordon, head of the B.C. Women's Institutes, was present throughout. In the much regretted absence of Mrs. Barrow, president of the district, and of Mrs. Pitts of Nelson, Kootenay's member of the provincial board of directors, Mrs. Gordon presided during the conference.

Mrs. McLachlan, superintendent of institutes, also took an active part. The delegates were billeted at the homes of Creston Institute members and friends, and a dining room was operated in Trinity United Church basement, which was very much appreciated. On all sides we hear praise of the manner in which the conference was arranged and the delegates entertained.

Creston board of trade arranged a motor drive for the delegates, which they much enjoyed. Mrs. R Stevens represented Creston as official delegate, and was elected a member of the district executive for 1929, and was subsequently named secretary for the district.

Acting on a resolution passed at the 1927 distr.ct conference at Kaslo it was decided at the February Institute meeting to compile a local history of Creston. This has been undertaken by Mrs. J. W. Dow and Mrs. Mallandaine. The former read a paper on early days in Creston at the September meeting.

During the year four bridge drives have been held. One was staged in Mrs. Beninger's hall, which she generously allowed the Institute to use, and was followed by music and dancing. Another was held at Mrs. Maxwell's residence.

In March a birdhouse competition was held for the public school pupils. There was a large entry, which was judged by Mrs. J. W. Dow, Dr. Lillie and Geo Hendren. Prizes were awarded in four classes.

At the March meeting C. B. Twigg gave an address on gardening dealing particularly with the soil and ways of improving it for garden purposes. In April Mrs. M. Young gave a demonstration on budding roses.

First aid kits at the schools have been replenished. Baby clothes have been supplied in one case during the year. A cemetery committee was named at the April meeting consisting of Mrs. Crawford, Mrs, McLaren and Mrs. Hayes. $20 has been allotted the W.I. by the Cemetery Association to be used in cemetery improvements. The committee has laid plans to be carried out in the spring to have some planting done to beautify the grounds. Major Mallandaine has donated some sumach shrubs for this purpose, and Jas. Cook has promised some lilac bushes.

In May the usual bulb display, tea and sale of cooking took place. In June the annual flower show was held. Although the number of entries was smaller than usual the display was good. On July 2nd a tag day in aid of the Crippled Children's Hospital in Vancouver was arranged and carried out by Institute members. Tea collections during the year was also sent to this institution.

In answer to an appeal to the Institutes to contribute $100 each to the Otha Scott endowment fund for the Queen Alexandra Solarium, it was decided in June to give $50 at once, and a further $50 before the end of the year.

An effort was made to train some girls to represent Creston in the girl's judging competition at the Vancouver exhibition Owing to difficulties experienced in obtaining necessary information it was impossible to carry out this plan.

The Institute awarded a prize to the pupil in highest standing in the matriculation class in the high school, and a prize to the best pupil in Entrance class of the public school.

Creston sent a large exhibit of quilts to a display and competition which was held in Vancouver in April, and very narrowly missed taking the prize for the largest number of quilts sent in.

$20 was donated toward prizes at the fall fair, in the needlework classes. The Institute entered an exhibit in the big collection of cooking, and won first prize.

At the November meeting a grandmothers' tea was the feature of the afternoon. A number of guests were entertained and a quilt begun, which has since been completed by members and is to be raffled. The money so raised will be used on the Otha Scost endowment fund.

Plants or flowers have been sent to several members who have been ill. We also put a wreath on the monument on Armistice Day. Four members have left Creston during the year. Mrs. R. Walters and Mrs. G. Bayles were entertained at an afternoon social at Mrs. Cook's previous to their departure. Mrs. Greenwood and Mrs. Burnett left at short notice so there was no opportunity for any farewell entertainment. Mrs. M. Young left in May on a visit to England, and was given a handkerchief shower before she left.

The membership at June 30th, on which the per capita grant is based, was 56, but several have joined since then. Eight Christmas hampers were distributed, the Boy Scouts taking care of the delivery. In a drive to obtain a mile of dimes for the Crippled Children's Hospital $10.45 was secured by Creston public and high schools.

NAVIGABLE WATERS PROTECTION ACT

R.S.C. CHAPTER 140

Creston Power, Light & Telephone Company, Limited, hereby give notice that they have, under Section 7 of the said Act, deposited with the Minister of Public Works at Ottawa, and in the Office of the District Registrar of the Land Registry District of Kootenay at Nelson, B.C., a description of the site and the plans of High Tension Transmission Line crossing proposed to be built over the Kootenay River at South East Quarter of Section 4, Township 8, West Kootenay District, British Columbia.

And take notice that after the expiration of one month from date of the first publication of this notice the Creston Power, Light & Telephone Company, Limited, will, under Section 7 of the said Act, apply to the Minister of Public Works at his office in the city of Ottawa, for approval of the said site and plans, and for leave to construct the said High Tension Transmission Line.

Dated at Creston, B.C. this First day of February 1929.

Date of first publication, February 1, 1929.

CRESTON POWER, LIGHT & TELEPHONE COMPANY, LIMITED.
GUY CONSTABLE.

According to the dairy inspector the consumption of milk is on the increase at Cranbrook.

Vernon public library has over 200 members. There are 1240 volumes on the library shelves.

Too many attractions of other sorts is crippling the attendance at Cranbrook skating rink this winter.

Only 11 members turned up for the annual meeting of Penticton board of trade one night last week.

Due an outbreak of spinal meningitis Greenwood schools were closed for a couple of weeks in January.

Fourteen more residents of Vernon own their own homes now than a year ago, according to the News.

Fire losses at Cranbrook last year were less than $4500 according to the annual report of the fire chief.

Producing 3500 tons of ore a day it is now stated the Sullivan mine at Kimberley can run for 25 years steady.

Press reports of extensive mining developments has brought Greenwood a serious unemployment problem.

The Gyro Club at Penticton will this year fully equip two of the public wards of the hospital in that town.

The Cranbrook District Co Operative Society have decided to sell out their store business at Cranbrook.

The United Church at Cranbrook reports an intake of close to $1000 a month for 1928—$11,604 to be exact.

Bonners Ferry had it 20 below zero on the morning of January 23rd—about the coldest ever encountered there.

With an enrollment of 275 the United Church Sunday school at Cranbrook has an average attendance of over 200.

Th Courier claims Cranbrook business houses are doing almost double the business they handled fifteen years ago.

$937 was collected in police court fines at Penticton last year. Just about half the collections of the year previous.

Only 15 rinks competed at the annual Crows Nest curling bonspiel held at Fernie last week. Nine of them were Fernie rinks, too.

Mrs. R. B. White has been elected school trustee at Penticton. She polled almost double the vote of her closest male opponent.

A horned owl measuring 4 feet from tip to tip was shot at Midway one morning last week—just after it had breakfasted off a 14 pound turkey.

To revive interest in the Farmers Institute at Grand Forks monthly Saturday afternoon meetings with musical programmes are being held this year.

Because it is cheaper to burn wood than coal thus causing the school to freeze up scholars at New Denver's seat of learning are forced to drink from dipper and pail instead of the modern water tap.

The children's pig club at Midway—the best in the province—won $275 in prize money last year, which has been divided amongst the 26 members.

At Kaslo the cold snap was so severe on Saturday night that the electric light plant could not supply the necessary "juice" to permit the moving picture theatre to operate.

FOR SALE—One remodelled Coleman table lamp, $5.75, at V. Mawson's.

FOR SALE—Portable phonograph and 50 records, will sell cheap. L. Androsoff, Creston.

For SALE—Set general purpose bob-sleighs, can be seen at McKay's blacksmith shop, Creston.

FOUND—Logging tongs. Owner can have same on proving property and paying expenses. Enquire Review Office.

Too Much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symtoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

This Changing World

Annual stock-taking is a wise procedure on the part of every individual and nation; it is absolutely essential in the case of the man in business if he is to make a success of the enterprise in which he is engaged. This is true whether the man be the manager of a large industrial concern, or the owner of a small country store. It also applies to the man who is engaged in the business of farming because to succeed he must know where he made money and where he lost it; he must find the leakages before he can plug up the holes.

Any such stock-taking should include a study of the trend of business throughout the country and the world to the extent that such study is possible. Especially, in view of the close commercial relations existing between them, and the fact that they do a larger business with each other than with any other country, the people of Canada and the United States should understand not only what is taking place in their own country, but also in the neighboring country. For these reasons recent analysis of United States business in 1928 as compared with 1927 are of value to Canada.

These comparative studies reveal some startling developments and trends in business. For example, soft coal output decreased 6.1 per cent. and petroleum production 0.9 per cent. while the output of electricity increased 9.2 per cnt., thus indicating the rapidity with which electric power is overtaking steam power. Railway carloadings dropped 0.6 per cent. and gross railway income by millions of dollars, but freight movement by motor trucks progressed over a larger mileage, and mail and express movements were heavier, while the output of automobiles increased 24 per cent., thus showing the modern trend to more rapid transportation of commodities.

Department store sales increased 1.1 per cent., mail order sales jumped 14.9 per cent., and chain store sales 17.1 per cent. On the other hand, wholesale trade fell off 1.5 per cent., indicating steady progression in more direct selling from producer to ultimate consumer. Possibly one of the effects of this development is found in the increase of 1.2 per cent. in the number of business failures, notwithstanding the year was one of great production, large constructive development and prosperity.

The modern trend in the larger use of electricity, more and still more and efficient machinery, and more direct and rapid transportation is emphasized by the fact that, in a year of amazing growth in production and construction, employment decreased 3.3 per cent. In contrast with this is the fact that union wage rates were 0.4 per cent. higher, indicating that, while there was decreased employment, those in employment were paid slightly higher wages.

The buying power of United States farmers rose 6 per cent., revealing an improvement in the agricultural situation. Business profits rose 11 per cent., savings bank deposits 8.9 per cent., life insurance sales 5 per cent.

The above figures would seem to indicate certain factors and lessons deserving of earnest consideration by all business men. The fact that business profits rose 11 per cent. but business failures increased indicates that the business man who keeps himself informed of, and adjusts his operations in conformity with, changing conditions succeeds while the uninformed and ultra-conservative loses out. To the artizan, clerk and working man the figures seem to say that in this machinery age the man with knowledge and initiative, in a word, the efficient man, is in demand and at even higher wages, while the inefficient finds increasing difficulty in securing work.

The same economic forces are at work in Canada as in the United States, and the same tendencies are to be noted, the only difference being that this country is not so highly industrialized and has much greater natural resources still in an undeveloped state calling for manual labor. In the commercial world, especially in the retail merchant class, the problem of the mail order house, the chain store, the consolidation of merchandizing in the hands of great concerns, and the allied problems of transportation and distribution, are becoming quite as acute, and if he is not to go under the small dealer must meet these changing conditions. He cannot do it alone, single-handed, but his chances of success are good through co-operation.

In the past few years, and particularly in 1928, a great change has taken place on our western Canada farms through the introduction of the combine, the motor truck, and the building of good roads. Through these means production will be increased on the one hand, while less human labor will be required—that is, there is the same tendency in agriculture as in manufacturing industry. This means that, large as western farms are on the average compared with other countries, they will, as operating units, become larger, with all the changes involved. Here, too, the further application of co-operative principles and methods will make for success.

Guard Against FLU — Sore Throat The First Warning.

Few families will escape. This epidemic constitutes a real danger. Health authorities everywhere warn the public of the danger of the common cold. "Flu" usually starts with Sore Throat. Unless the germs are killed by some antiseptic treatment a serious malady may develop.

A simple treatment is to gargle the throat three times daily with Nerviline. The antiseptic properties of Nerviline quickly destroy the germs in the throat. Of course if the chest is sore Nerviline should be rubbed over the affected area—lots of rubbing—it can't burn a blister, but will bring out the congestion and break up the cold.

To prevent "Flu" or colds from gaining headway Nerviline will prove most effective. It is hardly necessary to point out that the bowels should be stimulated, and the system purged of all waste materials. For this purpose Dr. Hamilton's Pills are recommended. They act without griping or discomfort of any kind. This combination treatment of Nerviline and Dr. Hamilton's Pills will prove a very satisfactory prevention for Grippe, Flu, etc.

Recipes For This Week

(By Betty Barclay)

BAKED ORANGE CUSTARD

3 egg yolks
1 egg white
½ cup sugar
Few grains salt
Grated rind 1 orange
¼ cup orange juice
1¼ cups milk

Beat yolks and white of eggs until light; add sugar, salt, grated orange rind and orange juice. Scald milk in double boiler; pour gradually, while stirring constantly, over egg mixture; pour into buttered custard cups, placed in a pan of hot water, and bake in a moderate oven until custard becomes firm. Cool, and serve with whipped cream on top, or turn out and surround with sections of orange and orange syrup.

THOUSAND ISLAND DRESSING

1 cup mayonnaise
2 hard-cooked eggs
2 tablespoons tomato catsup
2 tablespoons pimento stuffed olives
2 tablespoons chili sauce
2 tablespoons pickled onions.

To the mayonnaise add all of the other ingredients finely chopped.

Fertilizers From Trail, B. C.

Further experiments with superphosphate from the smelter at Trail, B. C., will be conducted in 1929 by the Alberta Department of Agriculture in conjunction with the Dominion experimental farms and C.P.R. experimental farms. An abundant quantity of this fertilizer will be available to meet demands.

NEW HEALTH FOR TIRED-OUT WOMEN

Found in the Rich, Red Blood Dr. Williams' Pink Pills Actually Make.

Anaemia comes on gradually, beginning with langour, indisposition to mental or bodily exertion, irritability and a feeling of fatigue. Later comes the palpitation of the heart, headaches, frequent backaches and often disturbed digestion and an inability to obtain rest at night. Cases of this kind, if neglected, become more serious, but if taken in time there is no need to worry. Dr. Williams' Pink Pills, which are free from any harmful or habit-forming drug, are just the tonic needed to remedy this wretched state of health. These pills actually make the rich, red blood that stimulates and strengthens every organ and nerve in the body. Thus strength and activity return, the appetite improves and restful sleep is had. What Dr. Williams' Pink Pills can and will do is shown by the case of Mrs. D. B. Fanning, Seal Harbor, N.S., who says:—"I was in a badly run-down condition. I was pale, my appetite was very poor ,and the least exertion would leave me completely tired out. In fact I was hardly able to do much work about the house. I decided to try Dr. Williams' Pink Pills and after taking a few boxes can truthfully say I had gained greatly in health and strength and was able to go about my work with no sign of the former weakness. I cheerfully recommend them to all others who may be in a run-down condition."

You can get the pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Galahad had his good points, but only our higher civilization could produce a drug clerk who says, "Thank you" after selling a postage stamp.

Complete in itself, Mother Graves' Worm Exterminator does not require the assistance of any other medicine to make it effective. It does not fail to do its work.

Rover's Punishment

Nurse (suspiciously): "What have you been doing, Miss Ellen?"

Ellen: "Rover's eaten my dolly's slippers, so I've just been punishing him."

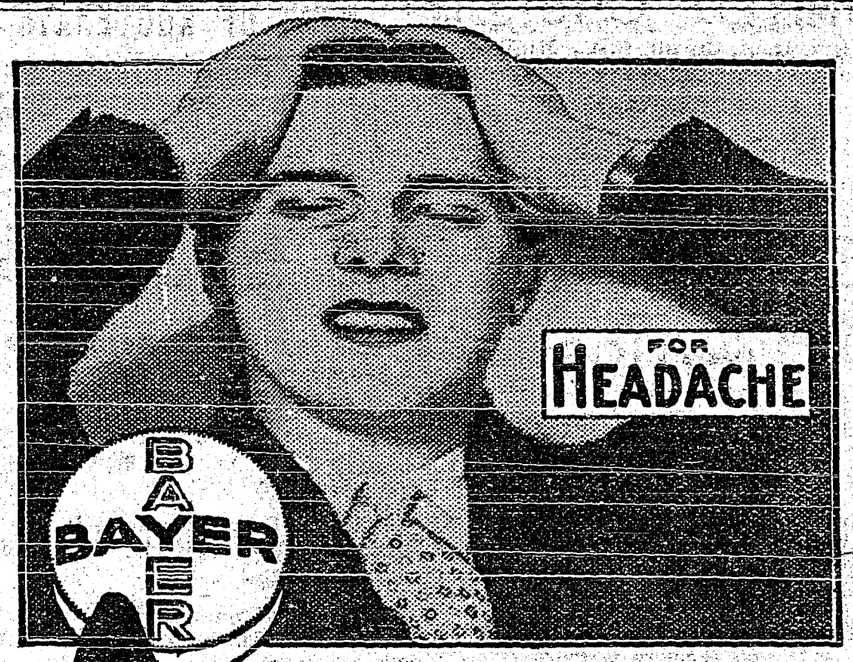
"How?"

"I've been to his kennel and drinked his milk."

Ranching Days Recalled

The memory of ranching days in Alberta is preserved by the place-names, Stavely, De Winton, Cochrane, and Stimson.

Minard's Liniment for the Grippe and Flu.



ASPIRIN

Headaches may be swiftly and safely relieved by an Aspirin tablet. A most efficient remedy, and there's no after effect; its use avoids much needless suffering. Try it next time; see how soon its soothing influence is felt. Just as helpful when you have a cold; neuralgia, neuritis, rheumatism, lumbago. Just be certain you get real Aspirin—the genuine has Bayer on the box, and on every tablet. All druggists, with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trademark.

Farm Machinery Purchases

Farmers Of Southern Alberta Made Heavy Investments Last Year

Accordng to an estimate appearing in "The Lethbridge Herald," some $7,250,000 was spent in Southern Alberta during 1928 for new autos, trucks, tractors, combines and other such farm machinery. The classificaton is as follows: Automobiles and trucks, $2,500,000; Combines, $1,000,000; tractors, $1,250,000, and other machinery, $2,500,000. At harvest time a survey showed there were 551 combines and 2,250 trucks in operation on the Lethbridge railway division.

"Dad, what is influence?"

"Influence, my boy, is what you think you have till you try to use it."

Paring a corn is both risky and ineffective. It is much better to use Holloway's Corn Remover and eradicate them entirely.

A woman graduate of Glasgow University has become Scotland's first woman minister.

Alberta Wool

Over Fifty-seven Thousand Dollars Realized By Sheep Association.

Cheques to the value of $57,898.57 have been sent out to members of the Alberta Sheep Breeders' association for wool shipped out and ranging in price from 24 to 38 cents a pound. The wool was shipped to the Canadian Co-operative Wool Growers, Toronto, where it was graded under government inspection.

Mothers Value this Oil.—Mothers who know how suddenly croup may seize their children and how necessary prompt action is in applying relief always keep at hand a supply of Dr. Thomas' Eclectric Oil, because experience ha staught them that this is an excellent preparation for the treatment of this ailment. And they are wise, for its various uses render it a valuable medicine.

"All men are born free and equal!" "Yes, but some get married."

Use Minard's Liniment for the Flu.

Most men who go to court don't go to get justice, but to get even.

Don't Let Foods Stale

Foods that ordinarily stale quickly will stay fresh and tempting a surprisingly long time if you cover them with Para-Sani Heavy Waxed Paper.

Your grocer, druggist or stationer has Para-Sani in the handy, sanitary knife-edged carton. For those who prefer a lighter paper put up in sheet form ask for Appleford's "Centre Pull" Packs.

EMBARGO BRINGS PROTEST FROM RAILWAY HEADS

Montreal.—The partial embargo placed against central European colonists by the Dominion department of immigration and colonization drew from the Canadian Pacific and Canadian National railways today a formal protest.

The decision, it was claimed in a statement issued by the presidents of the companies, will not only work distinct hardship on both transportation systems but will destroy the faith the governments, whose people are affected, have in Canada.

The companies deny they are interested in moving colonists from non-preferred countries in Europe rather than those from Great Britain or other northern European or preferred countries.

The attitude of the transportation companies was outlined in a statement issued to The Canadian Press by the railway presidents, E. W. Beatty and Sir Henry Thornton.

Will Urge Negotiation Of Trade Agreement

Chinese Nationalist League Would Develop Business With Canada

Vancouver.—Development of trade between China and Canada through the negotiation of a treaty between their government and that of Canada is a major recommendation to be voiced at the annual convention of Kuomintang, Chinese national government at Nanking, by the seven delegates from Canada. Seventy-five representatives of all branches of the Chinese National League in Canada are now holding their annual conclave at Canadian headquarters, Gore avenue and Pender street, and will elect their representatives before the sessions end Jan. 31.

An increase in the number of consuls throughout the Dominion will also be sought by the delegates from Canada. Consulates are at present maintained only at Ottawa and Vancouver.

There are 75 branches of the league in Canada, with three divisions, governing the east, middlewest and west. There is a Canadian membership of more than 10,000.

New Railway Station

C. N. R. Station At The Pas Is Officially Opened

The Pas.—Another chapter in the development of northern Manitoba was written today when the Canadian National Railways' new $75,000 station was officially opened here.

A ceremony was held at the new station, which is situated in the heart of the town. Maj. J. G. MacLachlan, district engineer of the C. N. R., turned the station key over to V. I. Smart, general superintendent of transportation, who opened the door of the station to the public.

New Senator Appointed

Ottawa.—Hanca J. Logan, former Liberal member for Cumberland, N. S., in the House of Commons, has been appointed to the Senate, filling the vacancy in that body caused by the death of Senator W. B. Ross Announcement of the appointment was made at the prime minister's office.

Canada's Record Wheat Yield

Ottawa.—Canada's yield of wheat for the year 1928 amounted to 533,571,700 bushels. This is the highest on record and the first time that Canada has harvested a crop of over half a billion bushels. This announcement was made in the crop report just issued by the Dominion bureau of statistics.

Director of Cattle Association

Brantford, Ont.—R. B. Fait, for 25 years editor of the Farm Journal, has been appointed director of extension of the Holstein Friesian association of Canada. His headquarters will be in Brantford.

Class B Fairs

New Dates Are Set At Meeting Held In Winnipeg

Winnipeg.—The establishment of an eastern and a western circuit of B class fairs, and the setting of dates for fairs in each circuit, was the principal result of a session of the Western Canadian Fairs association held at the Fort Garry hotel.

The Western Canada Association of Exhibitions, which comprises the class A fairs concluded their convention in the afternoon.

Archie Wilson of Saskatoon, heads the Western Canada Association of Exhibitions for the coming year, being elected president to succeed H. W. Abbott of Edmonton at the closing session. H. G. Smith, Regina, was re-elected vice president of the organization and S. W. Jones, Saskatoon, will continue in office as secretary-treasurer.

Johnny J. Jones was awarded the contract for midway shows at class A fairs.

Because the circuit of the Western Canada Fairs Association had become so unwieldy by reason of the large number of fairs, it was divided into two circuits, and the dates for fairs set as follows:

Eastern circuit—Carman, June 28 to July 1; Estevan, July 3 to 6; Portage la Prairie, July 8 to 10; Dauphin, July 11 to 13; Prince Albert, July 15 to 17; Melfort, July 18 to 20; Yorkton, July 22 to 27.

Western circuit—Weyburn, July 8 to 10; Assiniboia, July 11 to 13; Lethbridge, July 15 to 20; Red Deer, July 22 to 24; Camrose, July 25 to 27, Vegreville, July 29 to 31; Vermilion, Aug. 1 to 3; Lloydminster, Aug. 5 to 7; North Battleford, Aug. 8 to 10.

Prizes For Research.

Two Will Be Given for Best Work in Cancer Investigation

London.—The grand council of the British Empire cancer campaign announced approval of an offer of two prizes of $2,500 each, in 1931 and 1933, for the best original piece of work in the investigation of cancer carried out in the British Empire. They will be known as the Garton prizes.

The report of the Medical Research Council, summarizing the work of various research centers in 1927, claims malignant growths in the early stages of cancer can be removed by the radium treatment as efficaciously as by any surgical means.

King's Condition Improves

London.—Continued improvement in the health of the King today led the court officials to begin planning the regular levees and other functions of the season. The first levee, at which the Prince of Wales will preside, will be held at St. James palace on Feb. 26. The King's physicians have made it known that he must spend no more winters in England, and that he must seek a warmer climate for several months each year.

Believes Soviet Rule Over

Montreal.—The Soviet experiment in Russia had failed tragically and its endurance was now but a question of the patience of the Russian people, according to his imperial highness the Grand Duke Alexander Michailovitch, brother-in-law of the late czar, cousin by marriage to King George, who has arrived here. The grand duke was certain that his countrymen would not suffer the yoke of the communists very much longer.

To Tour Europe

Ottawa.—Arrangements have been concluded here for the European tour of a large party of Canadian club members. The group which it is expected will draw members from every part of the Dominion, is to sail from Montreal aboard the liner Laurentic June 8.

Is Acting Postmaster

Ottawa.—William H. Pennock, for several years assistant postmaster at Ottawa, has been named acting postmaster. The vacancy was created by the death recently of Andrew G. Acres.

RECEIVES IMPORTANT POST

Dr. Charles R. Best, callaborator with Dr. F. G. Banting in the discovery of insulin, has been appointed to the chair of physiology of the University of Toronto. He succeeds Prof. J. J. R. MacLeod, who left Toronto to return to the University of Aberdeen.

Exhibition May Be Re-Established

Winnipeg Ratepayers Will Vote On Question in March

Winnipeg.—An exhibition which the promoters hope will take a prominent place among the exhibitions of the Dominion is being planned at Winnipeg, according to Wesley McCurdy, director, speaking to western exhibition authorities meeting here yesterday.

Winnipeg ratepayers will vote March 15 upon the question of whether or not they wish to authorize expenditure of $850,000 for the re-establishment of the city's exhibition.

Will Take King To Sussex

London.—Preparations are going forward for the removal of King George to Bognor in Sussex as soon as his doctors decide that the time is opportune. The King will travel the 65 miles to the coast resort in a large car fitted so that he can lie as comfortably as in his bed at Buckingham palace.

Wrote For "Punch"

London.—Rudolph Chambers Ledmann is dead at Bourne End after a long illness. He was famous as an oarsman and rowing coach and also for the light, witty verses which he contributed to "Punch."

Needs Britain's Protection

Iraq Is Not Sufficiently Prepared to Defend Itself

London.—Differences between the British and Iraq governments over the ability or otherwise of Iraq to defend itself have resulted in the resignation of the Iraq cabinet under Premier Aska Jafar Pasha of Askeri.

The British authorities hold the view that Iraq, placed under Britain's protection after the war, is not yet ready to assume full responsibility for its defence.

A treaty between the British and Iraq governments in 1923 provides the responsibilities of Great Britain as a mandatory power shall be terminated when Iraq is admitted to the League of Nations.

Iraq has a population of nearly 3,000,000, practically all Mohammedans. Its chief city is Bagdad, and the territory is east of Arabia, comprising 150,000 square miles.

The real difficulty it is pointed out in London is that even the existing agreements between Great Britain and Iraq are not fulfilled particularly with regard to military and financial matters, including railways and forts.

Crosses Atlantic In Steamer's Lifeboat

Stowaway From England Had Feet Frost-Bitten During Voyage

New York.—Matthew Badderley, youthful cheese cart driver of Cheshire county, England, completed a stormy crossing of the Atlantic in a lifeboat, an uncomfortable but not a dangerous journey, for the lifeboat all the time was hanging in its davits on the liner Lancastrian. For 10 days the stowaway stuck it out through storm and cold, living on the emergency rations in his hiding place. He kept his hands warm against his body, but his feet were frost-bitten and just before the ship reached quarantine the pain drove him forth.

He collapsed while telling his story but was revived and put to bed in the ship's hospital. He will be sent back to his cheese cart.

Treating Drug Addicts

Geneva.—Noatake Sato, the Japanese League of Nations representative, has informed the international opium committee that Japan was successfully applying medical treatment to Korean morphine addicts. Out of 684 cases, 660 had been sent to hospitals and cured.

BACK FROM THE BARRENS

Although he had not been out of the Barren lands for fifteen years, George Yandle, trapper, maintained a fine sense of civilization. The first thing he did when he got to The Pas—he did not even wait until he reached Winnipeg—was buy himself a pair of spats with zippers. Yandle acted as interpreter when Count Ilia Tolstoy entertained the Eskimos in the far north. The photograph, which was taken outside the Canadian National Railways station in Winnipeg, just after the trio's arrival, shows Yandle; Tolstoy, in the centre; and W. J. Casel, photographer. Count Tolstoy, who is the grandson of the great Russian writer and philanthropist, headed an expedition into the Barrens to study the migration habits of the caribou, and some unusual photographs were obtained of the immense herds. After spending a day in Winnipeg, the party, together with five Eskimo dogs, worth $65 apiece, went to Timagami, the Ontario forest reserve, for further study of wild animals, and thence to New York.

URGES BETTER FEELING BETWEEN TWO NATIONS

New York.—J. Ramsay MacDonald, former premier of Great Britain, in an article under his name in the current issue of The Nation, Liberal weekly, makes a plea for the understanding public men of the two nations "to meet and drag from the obscure corners of sulky suspicion the things that make difficulties between us."

The relations between the United States and Great Britain grow increasingly unhappy," he says. "A spirit is growing in the two countries which is estranging them and is encouraging a kind of squabbling criticism which destroys mutual understanding and forebearance."

"Have both of us failed to observe how easy it is to slip into war for nothing, how ready popular imagination is to be set on fire by anyone—even an almost anonymous newspaper proprietor—who cares to light a match?" he asks, then continues:

"This is no case for private and unofficial action and conferences. The governments must act. Both countries ought to appoint five or six outstanding men to discuss our differences. Mayhap fresh air would clean our minds of them."

South African Tourists Greeted By Snowstorm

Students Wanted Thrill and Got It In Toronto

Toronto.—In the midst of a blinding snowstorm 37 students of South African universities arrived here in the course of their tour of United States and Canada.

"Just what we wanted," one of them exclaimed heartily, though citizens of Toronto were finding the storm troublesome.

"We were counting on Canada for the thrill of real cold weather, lots of snow and the novelty of ice hockey," T. Thorpe, Capetown university spokesman for the visitors said.

The students were the guests of Toronto university and left for Montreal for a visit to McGill university. Before completion of the tour the students will have been away from home for three months and will have travelled 25,000 miles.

Ratifies Kellogg Treaty

Action of Lithuania May Affect Dispute Between Russia and Poland

Kovno, Lithuania.—The Lithuanian government ratified the anti-war Kellogg pact.

Ratification of the Kellogg pact by Lithuania has significance in its bearing upon negotiations between Russia and Poland for a special protocol applying the pact in a localized sense to the states that touch the western frontier of Russia. Poland and Lithuania have been at odds over frontier questions and over the ownership of Vilna, a city which Lithuania claims as its legitimate capital but which is now held by Poland.

Decline in Dairy Production

Winnipeg. — High spring feed prices and tempting offers by American buyers for dairy cows caused a falling off in total dairy production for 1928 in Manitoba, according to Alex. McKay, president of the butter manufacturer's section of the Manitoba Dairy association. The year, on the whole, was successful, the president intimated in his address.

Wireless For 'Planes

Toronto.—Provincial air force 'planes will be equipped this year with wireless, so they may send reports to headquarters from any distance up to 400 miles it has been announced.

Report Severed Relations

Berlin.—An entirely unconfirmed report circulated in Berlin said Japan had severed diplomatic relations with Russia. The source of the report was not known.

Announcement!

The announcement in the Creston Review of December 28, 1928, and January 4, 1929, re GARAGES GOING ON CASH BASIS was signed by the following:

PREMIER GARAGE,
KOOTENAY GARAGE,
CRESTON MOTORS.
ERICKSON BATTERY SERVICE STATION.

This was an error, and should have only been signed by the following:

Premier Garage, Creston
