Leg. Library 88

THE CASCADE RECORD

Published in the Interests of the Boundary and Christina Lake Mining Districts

VOL. I. CASCADE, B. C., JUNE 10, 1899. No. 31.

Among the Miners

With the trail now being built from Norway mountain, to strike the Columbia & Western two or three miles above Gladstone, it looks as though the Burnt Basin would have direct connection with Rossland in a short time. It is said that a trail is also being built by the business men of Gladstone to connect that town with the Norway mountain trail.

News from the Burnt Basin this week continues to be of a most satisfactory nature. A. J. Littlejohn, manager of the force at work on the Mystery group, came down from the property yesterday with Chas. Willarson, one of the owners. The tunnel is now in about 90 feet, and one lead has already been cut. In about 20 feet more a second and larger body is expected to be reached. Then a No. 2 tunnel will be started some distance below No. 1, and later a third tunnel will be driven still further down the hill. The management are more than pleased with the outlook and results thus far, and intend to push the work as much as possible, two shift now being at work.

A short time since work was stopped on the Ennismore, the men being transferred to the Mystery, the same people controlling both claims. A new force will soon begin work on the Ennismore and will explore that claim.

Mike Shick has gone to the Lardo, and Mr. Alexander, from Rossland, is now in charge of the work on the Mother Lode. Thus far one vein of free milling ore has been stripped for some 200 feet, and another of high grade ore, from five to six feet wide, has been uncovered. Still another vein, said to assay 13 per cent in copper, has been stripped nearly 1000 feet. It is the plan of the management now to run a 300-foot tunnel for the purpose of crosscutting these ledges. New and commodious buildings are being built for the accommodation of the workmen.

T. G. Elgie, manager of the Pleasures of Hope claim, returned from Rossland this week and stopped over a day in Cascade. He is pleased with the result of the development thus far, the shaft being down 25 feet, and the mineral increasing with depth. This claim is under bond to the St. George Mines Development Co., Ltd., of Toronto, which has made one payment on the bond, and has the money in bank for others. All the treasury stock of the company offered was taken up at 25 cents, the par value being one dollar. Mr. Elgie believes the property will eventually justify all that has been said about it. It lies between the Tammany and Mother Lode groups.

Dan M. Clark came in on Wednesday from the Burnt Basin where he has been working on the Hill Top, which adjoins the well known Tammany group. "Dan" does not say much, but he evidently knows a good thing when he sees it. The samples that he brought speak for themselves. He reports a 7 foot ledge of quartz, which has every appearance of being rich in values. We hope to be able, in our next issue, to report the Hill Top as one of the rich claims of the Burnt Basin district.

A contract has been let on the John Bull, and the contractors have begun work. The tunnel is now in about 25 feet.

Christina Lake Mines.

Al. Peon has been doing work on the Alphonse, just north of Shamrock mountain, that is showing that claim up in splendid shape. Those who have seen it, claim it will surely make a mine. There are twelve feet of ore now in sight.

J. E. Mills was in town Wednesday, having just come down from old Shamrock, where with W. I. Patterson, he has been working the Sultana and Prudential. Mr. Mills is quiet reticent, and believes in letting the claims speak for themselves, but believes he has a good thing. That the values in gold are there he found by pulverising and panning some of the ore, the result being a string of colors and some small nuggets.

The Tennessee, up Sutherland creek, owned by J. K. Kelly and others has a ninety-foot tunnel, and by many is believed to be a most meritorious property, all four sides of the tunnel being in ore.

J. P. Graber has received assay returns of $72 84 in gold and silver, from samples of rock from the Glen Craig claim, located about two miles from Cascade, just above Minton. No work has been done yet, but the railway graders cut the ledge for him. On the Dyke Head, close to town, the satisfactory assay of $40, in copper and gold, has recently been gotten. The claim has a tunnel to a considerable depth, having been worked most of the winter.

MINING RECORDS.

In the Grand Forks Mining Division From May 31st to June 5th.

LOCATIONS.

May 31--Estella, Burnt Basin, Ulrich Keck and James Jones; Livingston, Summit Camp, J. M. O'Toole; Condor, Morning Creek, Richard Thenier and H. B. Cameron; Lookout Fraction, Wellington Camp, J. P. Shannon and H. D. Barnes; Orma and Patridge, Gladstone mountain, James McMurnie and W. M. C. Dormell; May Fraction, Summit Camp, W. F. Harris; Black Hawk, Black Eagle and Iron King, Texas creek, John Hansen and James Peterson.

June 2--Mineral Boy, Bonanza mountain, W. T. T. Clyde and Felix Lawern, Jr.; Blue Jay and Blue Bird, North Fork, Barbara Ponnders, Porcupine, Pass creek, J. F. Williams; Rainbow, May Flower and Iron King, Pass creek, Wm. Minion and J. W. Clark; Josie Fraction, Summit Camp, A. L. Rogers, et al.

June 3--Horseshoe, Hardy mountain, Mrs. H. McEwen; Horseshoe Fraction, Summit Camp, A. Walford, et al.; Victoria, Hardy mountain, Hugh Sweeney; Albion, Summit Camp, J. E. Walters; Troublesome, Pass creek; G. A. McKague; indsey, Texas creek, J. M. Jardon.

June 5--Bunker Hill, Seattle camp, Robert Clark; Great Western, Seattle camp, P. Fernion; Michigan, Pete auture; "E." and Spokane Widow, Summit Camp; T. E. O'Brien and Wm. Ketcham; Canyon Creek. Canyon creek, R. J. Cameron; Anglo Alliance, Gladstone mountain, R. J. Cameron and C. S. Warren; Gladstone, Canyon creek, R. J. Cameron and J. D. Miller; Big Horse Fraction, Summit Camp, G. R. Naden and Isaac H. Hallett; Pandora Fraction, Summit Camp, J. W. and Robers Young; Golden Eagle Fraction, Volcanic mountain, Niels Larson and A. J. Harrrs; American Eagle, Volcanic mountain, D. D. McFarland.

Has Bought and Will Build.

Stanley Mayall, one of the managers of the B. C. Syndicate store, this week bought a sightly plot of ground, on which he will at once begin the erection of a commodious cottage, with bathroom and other modern convenionces. It will be located on the knoll just southwest of town, across the railway, and commands a magnificent panoramic view of river, valley and mountain. Contractor Ferguson has the plans and specifications, and expects to have lumber on the ground next week.

Send it Back East.

The Cascade Record will be sent to any place in Canada or the United States for one year on receipt of $2. It pays special attention to mining in the Boundary and Christina lake sections, and aims to give the most reliable information in regard to this fast developing country.

LOCAL AND GENERAL.

T. F. Gaine and J. H. Good left over the Dewdney trail for Rossland. Mr. Gaine will visit Nelson before he returns.

J. I. Daniel, the stage man, says that he will soon have two good coaches on the route between Bossburg and Grand Forks.

The cottage of Purchasing Agent McLeod is rapidly nearing completion, and he expects to occupy it with his family in another week.

Major R. G Edwards Leckie, who negotiated the sale of the B. C. mine, in Summit camp, for $300,000, was in Cascade on Thursday.

Outgoing mail, commencing tomorrow, will once more leave Cascade in the early morning, instead of at 2 p. m. as heretofore. The change is a welcome one.

J. H. Blome, photographer, of Grand Forks, has been taking some excellent views in Cascade this week, including several of the cascades. He will be in town again shortly and remain for some little time.

The Lake View hotel, at McRae Landing, on Christina lake, formerly Foster's, has been reopened by R. S. Pearce as manager. Mrs. Veitch and daughter will have charge of the dining room. The location is a good one, and the house should do well.

SPLATTERED WITH GOLD

Magnificent Specimens of Rose Quartz Brought to Town.

IT COMES FROM THE GRIZZLY BEAR

Located Close to the John Bull, Near Gladstone, and Has a Well-Defined Eighteen-Inch Ledge,

Beautiful free gold samples do not all come from the Burnt Basin, as was proved this week, by a big chunk brought down by T. F. Carden, the Cascade assayer, from the Grizzly Bear claim, almost adjoining the property of the John Bull Mines, Ltd., close to Gladstone.

Mr. Carden, accompanied by Frank Asprey, had been making a tour of the various promising camps and after looking over the splendid showings in the Burnt Basin, had gone across to the east side of McRae creek, where they knew the surface indications were of a most promising character. Here they secured the sample referred to from the Grizzly Bear claim, owned by James Cameron, and situated close to Gladstone. The astonishing showing, of a piece of rose quartz, fairly splattered all over with free gold particles, simply dazzled them at first, and they could hardly believe their eyes. But the yellow stuff was in plain sight to the naked eye. It needed no more to tell that tests were not needed to learn that the ore was of a very high grade character, and the piece brought down was admired by all.

Mr. Carden says there is a vein of about 18 inches of this quartz, which is so rich, and that his sample was taken from the surface. The B. C. Mining & Mercantile Syndicate has taken an option on the Grizzly Bear. There are other claims in the vicinity which it is thought will surprise the world with their rich showings before long.

JIM JEFFRIES THE WINNER.

Knocked Fitzsimmons out in Eleven Rounds.

The prize fight, which has been the talk of the sporting world for the last few weeks took place yesterday at the Coney Island Sporting Club, near New York City Jim Jeffries, the boilermaker, knocked out Robert Fitzsimmons, the blacksmith and champion pugilist of the world.

From reports received in Cascade by wire it was learned that eleven rounds in all were fought by the two big fellows, Fitzsimmons being fairly beaten in that space of time. Jeffries, and his friends, did not look for the battle to last much over 10 rounds, and their judgment proved correct. Jeffries is a Californian and is only 24 years of age, while Fitzsimmons is much older, being a native of Australia.

IN AND AROUND CASCADE.

R. F. Petrie has been appointed as assistant to R. R. Gilpin in the Grand Forks custom house.

If the rush into Eholt reaches the proportions promised, it will evidently be a warm town for the next few months.

In local circles this week, each day the leading inquiry has been, "What is the latest phase of the stage line fight?"

Prof. Vinter F. Cooper, the blind phrenologist, who is now traveling through the Boundary, was in Cascade last Saturday.

H. P. Griffin has purchased five acres of land at English Point, on Christina lake, and will improve the tract this summer.

Julius Black returned Saturday night from Spokane. and Ira Black has gone to the Slocan to look after some assessment work.

Miss Louise Cameron, sister of Postmaster Cameron, arrived Tuesday evening from Ontario, and will make her home in Cascade.

Rounders and tinhorns have been having a hard time of it lately in both Grand Forks and Greenwood, as the police have made them move right on.

The Eastern Townships Bank, intimately connected with the new smelter to be erected at Grand Forks, will shortly open up a branch in that city.

Angus K. Stewart, inland revenue officer, of Greenwood, is spoken of as collector for the customs house which, it is expected, will be established in that city.

Slim Cosgrove, the genial print, who has toured from the Atlantic to the Pacific, has been doing the Boundary country and stopped over in Cascade this week.

Greenwood is making great preparations for the Dominion Day celebration, which will take place Monday and Tuesday, July 3 and 4. A $3,000 expense fund is being subscribed.

Burns & Co., the universal meat merchants, are making immense shipments of cattle from Calgary to west coast points. A large drove of hogs was recently brought to Cascade by this firm.

The Redfield & Wilson mill, formerly located at Moodyville, on Christina lake, is now three miles above Grand Forks, on Kettle river. The firm still has about 200,000 feet of good lumber at the lake.

Tuesday evening a regular meeting of the Cascade Taxpayer's Association was held, when the resignation of Secretary O'Reilly was read, and W. B. Willcox was appointed to fill out the unexpired term.

The Columbia Telephone Co. now has its wires strung into and beyond Grand Forks, and will soon have offices open in Cascade and the Forks, with the best of sound proof cabinets for the accommodation of customers.

C. H. May, who does the bulk of packing for development outfits hereabouts, recently made a trip up Baker creek, and says that a good pack trail is greatly needed up that water course. Such a trail would also be available for many Sutherland creek claims. Here is a pointer for our member, Mr. Martin.

GETTING READY FOR DOMINION DAY.

Grand Forks Will Celebrate in Right Royal Style.

There will be a big celebration at Grand Forks on Dominion Day.

As Canada's natal day this year falls on Saturday, the event will be celebrated on July 1st and 3rd.

A splendid program has been arranged for the two days celebration. Over two thousand dollars will be distributed as prizes for the horse races and athletic games and sports. There will be a double hand drilling contest, for which the first prize of $150 will be offered and a second prize of $50. The horse races promise to be a very attractive feature. The events will include running races notably a two hundred yard, three hundred yard, a quarter mile dash, half mile and races of five eighths of a mile.

The base ball teams of the Boundary will compete for the handsome silver cup recently offered for competition by Mayor Lloyd A. Manly. Five thousand people are expected for the two days celebration. A 20 piece brass band will be in attendance.

Chose a School Site.

A meeting of those interested was held at the townsite office Monday, to confirm the selection of a site for a new school building in Cascade, which was recently picked out by the trustees, Messrs. Rochussen, McRae and Ferguson. The trustees had decided on two lots in block 32 of the original survey, which is a sightly location just north of the church site. This was confirmed by the unanimous vote of the meeting.

The two lots are donated by the owners of the townsite, and are considered to be most desirable property. The government estimates for this year provided for $1,500 for school purposes in Cascade. A goodly share of this will doubtless be used for the erection and furnishing of a suitable building, on which work will be started as soon as the details are arranged.

Thomson Stationery COMPANY,
WHOLESALE AND RETAIL
Stationers

IN AND AROUND CASCADE.

Bossburg is getting ready for a big celebration on July 4th, and Northport will do likewise.

H. P. Griffin, who is summering at English Point, looking after his mining and ranching iuterests, was in town Tuesday.

P. J. O'Reilly, until recently connected with the Record, left yesterday for Nelson, B. C., where he expects to go into business.

T. S. Curtie, of Knowlton, Quebec, father of G. T. Curtis, of Cascade, arrived from his eastern home Wednesday evening and will remain here.

Walter C. Archer has located a townsite, about a mile northeast of the junction of McRae and Day creeks, not far from the Burnt Basin mining district. It comprises 480 acres.

Republic is already building up again after its disastrous fire of last Saturday. E. C. Finch, of Rossland, the mining man, is reported to have bought 100 lots there since the fire.

The Record is pleased to note that it was misinformed last week in regard to the death of Fred A. Brown at Columbia. Mr. Brown is improving, and shortly expects to be around again.

Sunday evening sermon at the church service will hereafter be at 8 o'clock instead of 7:30, as formerly. Those interested are requested by Rev. Joseph McCoy, pastor, to take note of this.

The fire alarm rang out Thursday morning the cause being the ignition of a lace curtain in the upper part of Wm. Wolverton's store. It was quickly put out before serious damage was done.

Mrs. H. Wilkin, of Helena, Mont., mother-in-law of Manager C. J. Eckstorm, of the Railroad Headquarters Hotel, arrived in Cascade Monday and will make her home in the Gateway City.

Hugh McDermott, an old time resident of the Similkameen, was drowned in the river of the same name, about two miles above Princeton, while trying to swim his horses across the swift stream, last Thursday.

James Lawrence, of the Lawrence Hardware Co., Nelson, was in Cascade Wednesday on his first trip through the Boundary country. He says the C. P. R. is contracting to deliver freight after July 1 by rail to Cascade.

The board of license commissioners for the Boundary creek license district, will meet in Cascade next Thursday at 11 o'clock in the forenoon. It is expected that there will be a large attendance of hotel men from all over Rossland riding.

The baseball boys, known as the Cascade Giants, are practising daily—between showers—and propose to put up a hard fight for the $100 prize and the silver cup trophy, to be hung up at the Forks on Dominion Day—three weeks from today.

H. Stoecke, has sold out his butcher shop in Camp McKinney and will enter the same business in Greenwood. Wednesday he was in Cascade, en route to Brooklyn, where he will get four cars of cattle for P. Burns & Co., and drive over the mountains for the Boundary trade.

JAMES M. MARTIN, M. P. P., IN CASCADE.

Our Member Inquired Into Needs of This Locality.

James M. Martin, our member in the provincial legislature, has been taking a trip through the Boundary part of his Rossland riding, taking a survey of things in general as well as matters political, and inquiring as to the most needy places in which to spend our share of the $15,000 appropriated by the government for roads and trails in this riding.

Mr. Martin reached Cascade on his return trip last Saturday and spent a day in this city. His attention was called to the pressing necessity of repairs on the wagon road between here and English Point; of the need of a trail for three or four miles up Baker creek; of repairs to the Dewdney trail, and of some trail work needed at Gladstone, all of which he made note of.

Assurances were given that a small debts court would be created at Cascade—the need of which has been felt for months.

Issued 561 Free Miners' Licenses.

Recorder S. R. Almond, of the Grand Forks mining division, in his report to the minister of mines, for the year ending December 1, 1898, gives the following data in regard to the work done in his office during that period:

Number of free miners' certificates	561
Location records	860
Certificates of work	791
Certificate of improvements	17
Conveyances and agreements	466
Abandonments	75
Filings	352

The revenue for the office for the same time was: Free miners' certificates, $3,687; mining receipts, $6.196,10, giving a total of $9,-833 10.

And it All Happened in Kaslo.

Only four copies of the Kootenaian, Kaslo's great paper, were printed this week when the cajurem of the cylinder press got tangled with the dooflewer and knocked the flipflop back onto the nonpariel italic. The press is badly disabled and a new mpzjyhuda will have to be secured from New York.—Sandon Paystreak.

Fine Job Work.

FREE MINER'S LICENSES.

According to the latest amendments to the mineral act, the law was so changed as to make all licenses expire on May 31st, it being held that this would be in the interest of the miners themselves as licenses have in the past been allowed to lapse through a forgetfulness of their date of expiry.

Considerable misunderstanding has arisen as to the exact meaning of the act, but the intent is that the act is to apply only to licenses taken out after the law went into operation. Here is what Attorney-General Martin says on this precise point:

"The 'Placer Mining Act Further Amendment act' was carefully drawn and if I had to draw it again I would not change a word of it. Licenses issued before the act comes into force are unquestionably good for the term for which they were taken out, and those who have taken out extra licenses in the fear that they might have lost their properties have just been contributing so much to the revenue gratuitously. There is a saving clause in the act but even without that clause there would be no reason to fear that the licenses would have been rendered invalid. The act only applies to licenses issued after the act came into operation. This should be clear to anyone who reads it over. For my own part I may say that I'm holding some property on a license taken out in February last. It has not been renewed, nor will it be until the proper time—and I'd like to see someone jump my claim!"

GOOD MEN LEFT OUT.

The recent cancellation of all appointments of justices of the peace throughout the province, and the appointment of 401 persons to the same positions, is far from satisfactory, even to government organs. It was evident that the plan was one intended largely to reward party workers and to let out those not included in the list. The most pronounced government supporters in the press of the province are most severe in their condemnation of the general results of this move.

For instance, here is the way the Greenwood Times handles the subject:

"Had the government placed the names of the electors in a hat and extracted therefrom the number necessary to make up the list of newly elected justices of the peace, the appointments would have given greater satisfaction. A more unsuitable job lot of appointments could not be imagined. Under the new order of things Princeton containing two or three houses and about double that number of residents has six justices of the peace, while Greenwood has none, and Midway none. The nearest justice of the peace to the city is Charles Hay of Columbia. James Kerr, than whom there was not a more consciencious nor more intelligent justice in the country, is not included in the re-appointments. The only possible reason for this is that Mr Kerr did yeoman service in securing the election of a supporter of the present government.

"The truth is that the present government is composed of about as poor a lot of politicians as can be found anywhere. All the details that go to make a party strong are neglected and everything is centralized in the Hon. Joseph Martin Members who know the wants and requirements of their respective districts are not consulted and every act of the government creates dissatisfaction. The duties of the members are limited to acting as voting machines in the house and apologists for political blunders in their constituencies. If the government is to escape disaster it must be disciplined by its supporters. Its members must be taught to recognize that they are the leaders of a party only when they carry out the wishes of the party. Under present conditions the rank and file have nothing to do but attempt to justify actions that they know are politically foolish and ill-timed."

One of the busiest spots these early summer days is the office of Mining Recorder Almond, at Grand Forks. As a rule, one must stand in line for a hour or two to receive attention in turn. If a sub-recording office was established in Cascade, with a careful experienced officer, it would relieve the recorder and be a great convenience to hundreds of prospectors.

Last winter the opposition press of the province howled long and loud against the anti-Japanese legislation and the alien placer law, saying it would surely be disallowed by the Federal government. The government press pooh-poohed the idea, but last Monday it was disallowed, as predicted, because the Imperial government stated it was inimical to the best interests of the Empire. It remains to be seen what the outcome of the alien placer act will be.

It must be interesting to the politicians who, twenty years ago, prophesied that the C. P. R., would not earn enough money "to pay for its axle grease," to note that the stock of the great corporation is now quoted above par in the money markets of the world. The then claimed absurdity of its running through British Columbia, "a sea of mountains," is proving to be a boomerang of the most agreeable type to the stockholders.

NOTE AND COMMENT.

Business considerations have forced the London newspapers to give up their Sunday editions. The hardworked employees will thank their lucky stars for this.

The French people have demanded the release of Dreyfus, convicted of selling military secrets to the Germans, and the prisoner is now on the way home. So complete are the changes of sentiment in France that it would not be surprising if Dreyfus became its president one of these days.

In the annual report of the minister of mines, less than one page is devoted to the Grand Forks mining division. The north fork of Kettle river and Christina lake camps are barely mentioned. Of course the country is new but the Record will predict that, if the provincial minerologist visits this section during the fiscal year, the next report will show a very different state of affairs

---

For several seasons, according to the New Westminister Sun, experiments have been made in sprinkling some Eastern roadbeds with petroleum to lay the dust. Recently driveways have been sprinkled in this way. The cost is said to be comparatively light, as the oil lays the dust effectually and for weeks at a time. The British Columbia system of street sprinkling for a month past has shown that it possesses all these advantages. The dust has been laid for several weeks now and it hasn't cost anybody a cent.

The effort of the Rossland Board of Trade, to secure an additional representative in the Dominion parliament for the Kootenays, will meet with general approval. In the redistribution bill as brought down, British Columbia was left out in the cold. This province is also unrepresented in the Dominion cabinet, notwithstanding its growing importance. These things are bound to be changed, as the importance of British Columbia gradually but surely asserts itself.

Notice.

Notice is hereby given that one month after date I intend to apply to the Chief Commissioner of Lands and Works for permission to purchase the following described land:

Situated on the east shore of Christina lake, in the Yale district, having outlet of Baker creek, and starting from a post marked "S. C. Chezum's S. W. corner post," thence east one mile to south east corner post, thence north one half mile to north east corner post, thence west one mile to north west corner post, thence south along shore of lake to starting point, containing 320 acres more or less.

S. C. CHEZUM.

Dated June 3rd, 1899.

Notice.

Notice is hereby given that the partnership heretofore existing between the undersigned, publishers of the Cascade Record, is this day dissolved by mutual consent, P. J. O'Reilly retiring. The business will be continued by W. B. Willcox.

W. B. WILLCOX.
P. J. O'REILLY.

Cascade, B. C., June 1st, 1899.

BY THE WAYSIDE

Everyone in town was startled by the ringing of the fire alarm last Thursday morning, but fortunately the incipient blaze was put out before serious consequences ensued. It should be a plain lesson, however, to the few in Cascade who have thus far failed to place barrels of water on their roofs, as requested by the fire wardens. A pailful or two of Kettle river liquid, at the right time, might save many thousands of dollars worth of property.

Several weeks since Jack Stewart had a valuable horse stolen from the stable in Cascade, though no effort was spared to recover the animal, thus far they have been without success. It also appears that recently a number of similar thefts have occurred, but until this week no trace of the thieves was found. Thursday, however, four men were arrested at Pullman, a small town south of Spokane, in the Palouse country, the names said to be Harry Poole, two Hoskins brothers and one Wauson, having three four-horse teams, one two-horse team, four wagons, a trail wagon, harness, etc., in their possession. It is said that the outfits were stolen from Greenwood on May 22, the prisoners being the freighters in charge. They drove across the line, through the Okanogan, through central Washington and down into the Palouse country, a distance of 1200 miles. They were tracked by Thomas McNeil, who claims to be the owner of the stolen property, and are now in custody awaiting requisition papers.

Hoskins has been freighting through this country for some time and is well known in Cascade. The B. C. store attached his outfit some time ago on a merchandise account for $600, which was paid into court pending the result of the action.

It is to be hoped that, if the charge is proven, the horse thieves will get a speedy and heavy sentence. In the state of Washington it is well known that horse stealing is a crime for which a severe penalty is meted out. We have no room on this side of the border for that kind of people, and the sooner they realize this the better for all concerned.

The Record was the only paper in this section last week that contained the announcement of the taking over of the International Flyer stage line by the Columbia Stage Company. It appears, however, that the stockholders of the Marcus & Republic Transportation and Express Company, the corporation owning the Flyer, are all at outs over the sale, and thereby hangs a tale, with several amusing and interesting chapters. During the week several exciting episodes have taken place, and all the details, if gathered and published, would make spicy reading for the general public.

J. I. Daniel, a large stockholder in the old Flyer line, seriously objects to to the transfer of stock, stages, harness and other ictas to the Columbia Stage Company, and of course has the backing of Grand Forks, the people of which did everything to help the new line along. He claims ownership in some of the outfit and has tried to retain it, but thus far Manager Rogers, of the Columbia line, has come out ahead in the fight. Messrs. Plummer and Ridpath of the M. & R. Co., secured an order from a Spokane court restraining Daniels from interfering. On Tuesday, four Flyer horses, claimed by Daniel, were driven down to Toulou's, but Daniel ordered them brought back to this side of the line. This was done and the animals were tied to trees just north of Russell. Wednesday an exciting race occurred between Daniel and Rogers to get to the horses first. At Hall's Rogers jumped on a saddle horse, got to Russell ahead, secured the horses and brought them to the barn in Cascade. The two men nearly came to blows here, and it is said did have an encounter at the Forks In the meantime W. A. Ragsdale, acting for Daniel, was arrested in Bossburg for bringing the horses back to British soil.

It is probable that the controversy will be thoroughly aired in the courts, and also that the Grand Forks people, thoroughly opposed to anything that savors of Columbia, will move heaven and earth to establish a new stage line to run to Bossburg.

While the counter injunctions are pending in the courts between the Kaslo & Slocan and the C. P. R. in regard to building their new lines through the Duncan pass, to get into the Lardo country, both roads have large forces at work on other portions of the line, some 800 men altogether being employed. Duncan City and Argenta are consequently lively points at present.

MINES AND MINING

Brief Bits From Many Camps.

The big pumping plant has been installed at the Winnipeg mine, and is now at work taking the water out.

The Little Bertha Gold Mining Co., Limited, of Greenwood, has been incorporated with a capital of $1,000,000.

Recently, from a streak of quartz on the Contention group, situated near Pierre lake, an assay of $236 in gold was secured.

The Nelson and Vernon Telephone company have extended their system to the Sunset and Mother Lode mines.

Clarence McCuaig, the Montreal mining promoter, has purchased 100,000 shares of the stock of the Blacktail mine in Republic camp

The Katy L., in Providence camp, is an extension of the well known Combination. The ledge on the former has been stripped and a five foot body of ore is in sight.

The John Bull Mines, Ltd., has recorded the bill of sale of the John Bull and Marinette claims, near Gladstone, from Messrs. Cameron, Forrest, Good, Dixon and Darrow to the new corporation.

The Skylark, in Skylark camp, is one of the oldest locations in Boundary creek. It was worked when the ore had to be packed to Marcus, and $25,000 worth of ore was shipped this way.

Hon. Chas. H. Mackintosh, managing director of the British America Corporation, is reported to have organized another company in London, with a capital of $20,000,000, for the purpose of taking over mining properties in B. C.

The Paymaster, near the new town of Beaverton, on the west fork of Kettle river, has been bonded by Messrs. Shields, Beath and Woods to an eastern syndicate for $15,000, and development will be at once inaugurated. Surface assays gave $14.20 in gold and silver.

The Sunset group in Deadwood camp, owned W. L. Hogg, of Montreal, has been acquired by the Montreal Boundary Creek Mining Co., with a capital of $2,000,000. Some 1,300 feet of work has been done, and the 60-foot solid ledge of ore gives average assays of $20 J. H. Macfarlane is the capable manager of the property, which is located close to the well known Mother Lode. As soon as the railway is finished the big plant already ordered, will be brought in and installed on the property.

Church Service

Divine service will be conducted by Rev. Joseph McCoy, M. A. tomorrow (Sunday) at 11 a.m. and 8:00 p.m., Standard Time, in the school-house. Sabbath school at 2:30 p.m. in the same place. All are cordially invited to attend.

Don't forget the Record Job Department when needing stationery.

Started on The Contract.

G. L. Woodard, who is associated with E Hildebrandt, in the contract for the 20,000 fence posts for enclosing the new railway, wherever needed, from Cascade to Midway, which was let last week by Chief Engineer Tye, started on Monday with a force of men for the scene of operations, a few miles above Gladstone.

It will probably take four or five weeks to complete the order, and the 8½x5 posts will all be gotten out in or near the swamp on the Brooklyn wagon road, where McPherson Bros. & Stout's railway sawmill was first located. A dozen men will be given employment.

CASCADE BAKERY

HERE IS THE EXACT WORDING

Of the Act Making Eight Hours a Day's Labor in Metalliferous Mines.

The Record has been asked by local mining men for the exact wording of the order of the government, by which the eight-hour act goes into effect next Monday, the 12th instant. We give it here verbatim as it appeared in the official British Columbia Gazette, on page 723, in the issue for May 11th:

NOTICE—In Re "An Act to Amend the 'Inspection of Metalliferous Mines Act.'"

Mine owners, agents, managers of mines and lessees are hereby notified that, 30 days from date, the Inspector of Mines will enforce section 4 of the above-mentioned Act:—

"(13.) No person shall be employed underground in any metalliferous mine for more than eight hours in every twenty-four hours."
