MARMOT RIVER CAUSES NEW MINING RUSH

A new strike of high grade ver ore on Marmot River has eated much local excitement. hile there has been consider- le prospecting along both forks past years, it was not until t season that the section re- ved the attention due it. Re- ts of the work were so satis- tory that as soon as the snow nt this season prospecting the tion was undertaken in rnest.

On the north fork of the Mar- t William Fraser and H. C. gee have held the Fraser oup and North Fork Basin oup for years and the work disclosed ore bodies rich in er. The new find is across a row strip of glacier from the ser Group and almost direct- pposite Stewart on the other e of the mountain. An assay urn off the surface of the new covery went over $700 to the .

ER ACTIVITY ON MARMOT.

onsiderable development is taking place but no exten- work is under way any- ere. It is a season of explor- n and examination. A small w is taking out some good on the Patricia group, owned Dr. R.E. McKechnie and associates of Vancouver.

The B.C. Exploration Co., of Vancouver, is doing exploratory work on the Magee group. Dr. W.L. Uglow, mining geologist, is making a study of the Marmot section and was joined there this week by H.T. James of Vancouver.

Several other groups are under bond and development is contemplated.

STEWART BEATS ALICE ARM

In a game that was exciting even if it was one-sided the Stewart ball team defeated Alice Arm 10-1 on the Hyder grounds on the Fourth of July. Tiny Daly on the mound for the local team pitched his customary good game. Stewart got 19 hits off the opposing pitchers. Alice Arm's fielding was also bad. In the evening Hyder beat Alice Arm 5-2.

Prospectors Get Into the Hills

Weather conditions are now such as to permit prospectors to reach the high places and in consequence the town is almost deserted. A most successful season is being predicted. Reports of new discoveries are already coming in and some very good assays have been obtained. Miners are scarce and wages are good.

GOOD PROGRESS ON NEW WHARF.

Construction work on the new dock of the Dominion Government is making good progress and another three weeks should see it completed.

Writing from London, F. D'A. Vincent says that London is beginning to interest itself in this district.

Tar and Feathers

Jack Sutherland, organizer of the Alaska Labor Union, was given a coat of tar and feathers at Hyder Wednesday morning by oldtimers of Alaska. It is alleged this was the culmination of a list of alleged offences on the part of Sutherland against the northern code. The episode transpired in a public spot but information is lacking as to the participants. Jack Sutherland is said to be none the worse for the experience as his clothing was not removed when he was decorated. Hyder is very excited over the affair and the fact that oldtime Alaskans took the law into their own hands is deeply deplored. It would appear that it was not the intention to do the victim bodily harm but make an object of him.

A.E. Bryan, M.E., partner of B.O. Erickson, has arrived from Seattle.

Fresh milk on ice at Tooths.

S.C.A. FAVORS INCORPORATION

At a meeting of the Stewart Citizens Association Wednesday night a move to incorporate Stewart under the Village Act was made. W.C. Ross, barrister, was instructed to attend to the matter and a petition requiring the signatures of two-thirds of the adult residents will soon be in circulation.

A resolution calling on the Provincial Government to provide better road superintendence here was adopted. It was pointed out that the road superintendent lives in Anyox and spends little time here. Repair work up Bear River this season came in for criticism.

It was decided to wire the Provincial health department a request that sanitary conditions here be looked into. Sanitary Officer White reported that things were very unsatisfactory.

WILL HANDLE WOOD AND COAL

The Portland Canal Wood & Coal Co. was ushered into the world this week by Milton Cunningham and Howard Mitchell and according to the partners it is here to stay. For its wood the company is co-operating with the Lawrence & Workman mill. Scows for transporting the wood from the mill to Stewart are under construction and a landing platform will be erected on the wharf approach.

GEOLOGIST HERE FROM OTTAWA

Stuart J. Scofield of the Dominion Geological Survey, arrived last Sunday and has taken a party to Salmon River section to continue the examination begun last season by J.J.O'Neill who has since joined the staff of a mining company.

Mrs. D.L. Pitt and daughter arrived from the south Sunday.

Mrs. W. D. Sunderlin arrived last Sunday and is delighted with Stewart.

Motorboat Teco arrived Monday with a cargo of powder.

Hyder Igloo, Pioneers of Alaska, was organized in Hyder Sunday night and it it was a merry gathering of sourdoughs.

Dan Woodmore won the bearskin raffle which was held at Tooth's.

The ss. Prince John will call regularly every Thursday morning until furthur notice.

SIX PROPERTIES WORK ON BEAR

Up Bear River valley, back of Stewart, six properties are now working. A trial shipment of silver ore from one of them—the Bayview, immediately back of town—will be made soon. The Bayview has a showing of very high grade ore on the surface and it is an economical shipping proposition. It is owned by George and Will Cameron and is under bond to R.H. Thompson of Everett, Wash. J.L. Stamford is in charge.

The Lakeview on Glacier creek is under bond to P. Welch and associates. Work is under direction of Al. Harris. Development went on all last winter with such good results it was decided to continue.

On Goose creek, the Algunican Development Co. will diamond drill the Fitzgerald group. Supplies have been taken in by the railway which was recently put into operation again.

C. G. Skoning and associates of Spokane are opening up the Nabob group owned by Jack Watkins.

The Redtop, under bond to New York interests by McNeill Bros., is working under direction of Gus Sciffert.

On Bitter creek C.N. Tubman has a crew on Jack Harkley's L-L.&H. group.

Miss Creig of Victoria, cousin of Grant Mahood, arrived Sunday to spend her vacation here. She is a teacher in one of the Victoria schools.

Miss Alice Gibson has arrived from Seattle to spend the summer with her parents, Mr. and Mrs. H.P. Gibson.

Don't go home hungry. Get a lunch at Tooth's Smoke Shop.

Mrs. E.M. Beales of the Beverley suffered a bad fall Monday on account of the condition of the sidewalk.

C.H. Joy, representing the Sabulite explosive spent the week in the district.

Miss L.M. Smith, sister of Martin and Harry, arrived from Seaside, Ore., by the last boat.

Geo. P. Challenger of the B. C. Exploration co. arrived from Vancouver on the Prince John.

Silver Springs is ice cold at Tooth's Smoke Shop.

WATER NOTICE.
DIVERSION AND USE.

TAKE NOTICE that W.A.Meloche, whose address is Stewart, B.C., will apply for a license to take and use twenty cubic feet per second of water out of Cascade creek which flows into Silver Lake and drains Long Lake in the Salmon River Water Shed. The water will be diverted from the stream one and one-half miles easterly of the point where it flows into Silver Lake and will be returned to the stream at the point where it drains into Silver Lake. This water will be used for mining purposes in connection with the Spider Group of mining claims consisting of Spider Nos. 1, 2 and 3 and upon record as such at the office of the Mining Recorder at Stewart, B.C. This notice was posted on the ground June 12th, 1920. A copy of this notice and an application pursuant thereto and to the "Water Act 1914" will be filed in the office of the Water Recorder at Prince Rupert, B.C. Objections to this application may be filed with said Water Recorder or with a Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in the local newspaper.

W.A. MELOCHE, Applicant.

The date of the first publication of this notice is June 19, 1920.

STEWART, B.C., July 2, 1920

The editor, printer publisher and printers devil, pro tem must again make apologies for the idiosyncrasies of this otherwise newsy little sheet.

Our friend "Jimmy' found on reaching Rupert, wither he went in connection with the special edition, that unavoidable business made his presence necessary in Vancouver.

Not having had anything to do with the trade for 11 years the office force now find that the attendant grief has not lessened any since the 'good old days.

Everything is, not where it ought to be, and nothing is where it should be, but—carry on.

Sewerage, sanitary inspection, elecrtric light, water, fire protection and—incorporation—are subjects liable to be brought up at the forthcoming Citizen's Association meeting. If you have money at stake in Stewart and feel interested; how about showing your interest tangibly?

New, powerful and the explosive....

THE war brought forth a new and powerful explosive—"T.N.T." We have harnessed this new explosive, which is now obtainable for industrial purposes. Progressive miners who want to lower the cost per ton production, are now using—

SAFE **SABULITE** SURE
"The Modern T. N. T. Explosive."

IT cannot be exploded by fire friction or ordinary shock. It does not give off any poisonous gas—no waiting after blast for air to clear. Contains no nitro-glycerine or other liquid, so cannot freeze. It goes further than dynamite—being lighter in weight—runs about 25 per cent more to the case. It has at least 25 per cent greater gas expansion than any explosive now in use. SABULITE is equally valuable for outdoor construction as it is for mining purposes.

BRITIS COLUMBIA
The Mineral Province of Western Canada

Has produced Minerals valued as follows: Placer Gold, $75,436,103; Lode Gold, $97,121,786; Silver, $46,839,631; Lead, $42,294,251; Copper, $145,741,069; Other Metals (zinc, iron, etc.), $13,929,817; Coal and Coke, $187,147,652; Building Stone, Brick, Cement, etc., $28,843,272, making its Mineral Production to the end of 1919 show

AN AGGREGATE VALUE OF $637,353,581.

The substantial progress of the Mining Industry in this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive, $94,547,241; for five years, 1896-1900, $57,605,967; for five years, 1901-1905, $96,509,968; for five years, 1906-1910, $125,534,474; for five years, 1911-1915, $142,072,603; for the year 1916, $42,290,462; for the year 1917, $37,010,392; for the year 1918, $41,782,474.

PRODUCTION DURING LAST TEN YEARS, $313,976,022.

Lode mining has only been in progress for about 20 years, and not 20 per cent. of the Province has been even prospected; 300,000 square miles of unexplored mineral-bearing land are open for prospecting.

The mining laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees. Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to $5 an acre; second-class to $2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of $10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of $300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of $10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from for one year from the death of each person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfilment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

BAYVIEW STRIKES SOME FINE ORE

Cood reports are coming in from the Bayview, which is just at Stewart's back door, being not over a mile on an air line from the town. Last week 14 inches of clean galena was found in a hitherto unprospected part of the group, and with this discovery the lead is traced across one claim, a distane of 1500 feet. The first assay on the new ore gave $11.80 in gold and 69 ounces in silver.

YOUR OPPORTUNITY IN A SILVER MINE

No need to tell you about the Dolly Varden Mine, or the wonderful silver deposits in the Alice Arm district of British Columbia, which bid fair to surpass the Canadian Cobalt. Pick up your daily paper or any reliable mining journal, and you will get all the news. But here's where we come in and where you may come in if you care to.

Adjoining the fabulously rich Dolly Varden mine on two sides is the Royal Group of seven claims. One at least of the Dolly Varden veins has been proven to cross on to claims one and two of the Royal. This particular lead has been explored, and high assays in silver obtained. It is not a time to temporize; action is demanded, and The McLennan Silver Mines Limited is organized and incorporated to take over and develop these seven claims. They are mostly explored, and high assays in silver have resulted. Here is where the small investor has an even break—an equal proportionate chance with the large investor. Capitalized at $1,500,000; shares par at $1:00; $950,000 is held in the treasury. The promoters' and owners' stock is pooled and placed in the hands of a trustee. At a few cents on the dollar you can get in on this proposition. We ask you to investigate. Full information, maps and photographs will be cheerfully furnished upon request. Send no money till you are satisfied but do not delay if you are interested.
