THE CRESTON REVIEW

Vol XXI. CRESTON, B. C., FRIDAY, JULY 26, 1929 No. 21

Bad Forest Fire Rages, Kitchener

Partially Destroys 50,000 Feet in Logs on Skidway—Wipes Out Green Timber Forming Kid-Hazel Creeks Watershed.

The worst fire the district has known in at least three years is raging in the Kitchener country, in the territory between Kid and Hazel Creeks, with a crew of about 90 men working to prevent its further spread. All the unemployed at Creston and Kitchener to the number of about 50 are on the job, along with another 40 from the woods and mill crew of Cranbrook Sash & Door Company, near whose mill the fire is raging.

The fire appears to have been caused by someone dropping a cigarette stub or unextinguished march, as the blaze originated near one of the logging roads and fanned by a high wind on Thursdav afternoon was not long getting out of control.

No great loss has been sustained in the destruction of standing timber and the work has been directed to putting in trenches on both sides of the outbreak to prevent its getting into a stand of white pine and cedar on the east side, as well as a stand of timber on the west side of of Kid Creek.

Cyrille Senessel, who has has a logging contract with Cranbrook Sash & Door Company, will sustain a loss on a few skidways accounting for probably 500 loggs. These w ere burned on both ends will cut out only one tie instead of the expected two as the logs were in 16 foot lengths. The saving of these logs is entirely due the use of the gas pumps and hose which the forestry officials had stored at the mill. The pumps were placed in Hazel Creek and handling abuut 800 feet of hose were able to put out the blaze in the log piles.

Although the blaze has been pretty well confined to cutover lands and little standing timber has been damaged, the blaze has swept through the green timber on the watershed of both Kid and Hazel Creek and the flow of water in these streams in bound to suffer and spoil the fishing in the former, which has been particularly good of late.

Erickson

Miss E. Murphy, who has made her home here for some time, left on Wednesday for Salmon Arm.

Mrs. Telford and Sandy arrived home on Friday from a two weeks' holiday visit with relatives at Champion, Alberta.

Miss Reid has just notified the trustees that she will not be returning next term. She has taken a school near Nanaimo.

Mr. and Mrs. A. Klingensmith are here from California on a visit with the former's brother, E. W. Klingensmith.

Jack Hall of Vancouver has just arrived on his usual vacation visit with his parents, Mr. and Mrs. John Hall.

Miss M. Stewert, A. Verch and J. Brogan of Yahk were weekend guests of Mr. and Mrs. Lee Heric.

Mrs. Stocks, a former well known resident of the district. but who now resides in Toronto, Ontario, has been visiting old friends here the past week.

Telford's store looks quite natty in its new dress of cream and green—the Imperial Oil Company colors.

Mr. and Mrs. Lee Heric were Bonners Ferry visitors on Sunday, making the trip in their new Oldsmobile coach.

Misses Dorothy and Ruth McKowan and Edna Collier of Cranbrook are visitors with the formers' grandparents, Mr. and Mrs. G. Cartwright.

At rhe inaugural meeting of the school board E. E. Cartwright was again named chairman. with R. M. Telford, secretary-treasurer.

Ray Crisler was a visitor to Lumberton on Sunday where he umpired the Creston-Lumberton baseball match.

The irrigation district trustees met at end of the week and decided on using steel pipe for the distribution system and have let the contract for this as well as its installation. Mr. Maglio of Nelson is to do the pipe laying on both the main and laterals.

Mr. and Mrs. R. J. and Mr. and Mrs. W. R. Long were Sunday visitors at Bonners Ferry, the latter making the trip in their new Chevrolet coupe from the Kootenay garage at Creston.

Mr. and Mrs. Percy Boffey were motor visitors to Cranbrook on Monday to which town they took their eldest daughter, Mary, who was injured in an auto mishap a few days previous, to consult Dr. Green.

Cranbrook Courier: "Roy Telford, storekeeper of Erickson, is one of the oldest and speeaiesr ball players in East Kootenay. He played in Cranbrook and Moyie twenty-five years ago. His exhibition in centre field for Creston was a credit to a man of his years. Both he and Steve Clark should be photographed together for future players to gaze upon.

Use Steel Pipe Irrigation Laterals

Irrigation District has Let All Contracts for Pipe and Laying—Scotland Make of Steel Pipe Landed Creston Mid-October

No time is being lost by the trustees of the East Cresron Irrigation district in letting contracts and placing orders for the construction and material required for the big project.

In these details the trustees have completed their work with the decision at the end of the week to use steel pipe in the 4, 6, 8 and 10 inch sizes for the distribution system, and contracting with A. Maglio of Nelson for the digging of the trenches for and laying the steel pipe.

The order for the pipe was immeniately cabled the firm in Scotland which will manufacture the pipe, and a guarantee has been giveu that it will be delivered at Creston within twelve weeks of the date of placing the order.

Mr. Maglio, who also has the contract for the ditch digging and laying the big concrete main, as well as building a 12-foot road along the ditch for the delivery of the cement pipe, is expected to have a crew at work on the main ditch this week and a ditcher will be brought ifi in ample time to have the lateral ditches all ready by the time the steel piye arrives so that no time will be lost in laylng the distribution line pipe, which wlll go down to a depth of three feet.

The reinforcek concrete main will be of the Hume patent, which was originated in Australia and is guaranteed so be the best available today. It will be manufactured on the Cardinal rauch at Arrow Creak, where there is an excellent gravel deposit, with the pipe allowed to season for five weeks before going underground. The contract for distributing the pipe along the ditch has been awarded H. S. McCreath. There will be about six miles of it. probably in 8-foot lengths.

21-inch pipe will be used from the intake on Arrow Creek to a point somewhere in the rear of the Pntnam ranch, and from there west to the Creston villlage boundary it will be 18-inch. The forms and other equipment for its manufacture are now eu route from the plant of the B.C. Concrete Company, Vancou ver. who have the contract for the supply of all the cement pipe.

Wynndel

Mrs. Victor Johnson and daughter left last week for Slocan, to spend a holiday with her husband there.

Mrs. Vankougnet and family of Boswell, were renewing Wynndel acquaintances last week.

Miss. F. Simpson of Calgary, Alberta, is holidaying here this month, a guest of Mr. and Mrs. Sexsmith.

G. Taylor is now travelling in a stylish Ford coupe, having traded in his touring a few days ago.

The strawberry season is now over. Raspberries will be short with the continued hot weather.

Steenstrup Lands Heating Contract

New Plant Fully Installed Before School Open—Capacity Ample Heat Added Rooms—Cost Installed Complete Under $4000

The trustees have lost no time in making arrangements for the installation of steam heating plant in the central school for which work a sum not to exceed $4000 was voted at the annual school district meeting on the 13th. At a special meeting of the board on Saturday the contract for the work complete was let to Sam Steenstrup, the work to be finished prior to school open ing on September 3rd,

The original plans have been altered slightly with a view to giving the maximum of heat for the minimum of fuel. The new plant will keep the basement well above the freezing point, and radiators will be installed to also keep the hallways comfortable, while in each of the four rooms will be three radiators warranted to keep the temperature up to the required standard.

The plant is of capacity that will provide heating for any additions that may be made to the main building. It is a coal burner and in order to conserve fuel the grates to be installed will be the required size to handle the present school. When additions are made the grate space can be increased accordingly. It is also agreed that when the plant is to be used instructor will be sent to instruct the janitor how to handle the plant to best advantage.

Installation will commence just as soon as all the equipment is here, and this will be supplied entirely by the well known firm of Metals, Limeted, Calgary. Electric machines will be shipped for use in the pipe threading and other installation work and no time will be lost completing the job.

Under the terms of the agreement Mr. Steenstrup agrees to remove the present heating plant, which will become his own property.

Lister

Mrs. D. J. McKee left at the end of tne week for Kimberley, where she will spend the next month on a visit with relatives and friends.

Mrs. Mert. McCullough is at Boswell this week on a visit with her mother, Mrs. Ike Lewis.

Col. and Mrs. Lister were visitors at Spokane a few days at the end of the week

Mrs. and Miss Hazel Hobden and Harry Helme are leaving this week on a motor trip to Vancouver, and will be away for a couple of weeks.

Harold Langston is now nnmbered amongst the 300 auto owners in the Creston Valley. He is handling a re. built Ford secured from Gunner Larson. His purchase makes 18 auto owners in this section

Miss Vera Lister is spending part of the summer vacation in camp at Kuskunook, where she is a guest of Mrs. McLauen.

Lister Trading & Supply Company, Limited, are just taking into stock another carload of Ogilvie flour and feeds.

Col. Lister was a business visitor at Nelson this week, leaving on Tuesday.

Mr. Church, the P. Burns Co. representative, and Mr. Detson, representing Metals, Limited, of Calgary, Alberta, business visitors on Tuesday. The latter is looking over the wuterworks district plans with a view to bidding on the supply of pipe.

At the initial meeting of the school board on Tuesday night it was decided to call for bids on the janitor work, wood supply, school repairs, and painting the exterior of the school building. All tenders close on Juiy 30th.

The school board had its inaugural meeting on Tuesday night, at which John Bird was relected chairman, and Mrs, Fred Powers, secretary-treasurer.

Recalling the Days of Real Sport!

Baseball

The Game of the Season!

Cranbrook vs. Creston

EXHIBITION PARK CRESTON

SUN., JULY 28

Starting 2.30 p.m. Prompt.

Don't miss this clash of these oldtime rivals!

Creston Victors Lumberton 17-10

Hammer Out 11 Runs in One Stand at Bat—Five Victories in Succession—Cranbrook Plays Here Sunday Afternoon.

In a game marked by snappy pitching and fielding for five innings, a couple of innings of erratic ball, and then the last three innings of fine pitching by Fortin, Creston defeated Lumberton at Lumberton on Sunday by a score of 17 to 10.

Batteries were Fortin, Brogan and Watson for Creston; DeHarney, McRae, Lewis and Pascuzzo, DeHarney for Lumberton.

The game was featured by heavy hitting by both teams, although at the end of the fifth inning the score was but 3-2 in Creston's favor. In the sixth Creston went on a rampage and added 11 more, while in the seventh Lumberton fell on Brogan for seven runs, aud Fortin went back in the box and held them safe for the remainder of the game.

Lumberton has the heaviest hitting team Crestan has been up against this year, but Fortin's lefthand pitching checked them at critical times.

This makes five wins in a row for Creston and they hope to make it six on Sunday when Cranbrook plays the return game at Creston at 2.30 p.m. At Lumberton the teams lined up: Lumberton—Mason, McDonald, DeHarney, McRae, McMaster, Pascuzzo, Carnes, Calgary, Lewis. Creston—S. Benedetti lf.; Felford cf.; McKelvey 1b.; F. Boffey rf.; Watson c.; Brogan 2b.; Dodds ss.; L. Benedetti 3b; Fortin p.

Ray Crisier umpired the game. Cranbrook will be here with a picked team this Sunday, July 28th, and Lumberton plays the return engagement with Creston here on Sunday, August 4th.

Sirdar

Miss Dorothy Cam returned to Nelson on Sunday.

Mr. Cook of Kimberley was a Sirdar visitor on Monday and Tuesday.

Mr. and Mrs. B. F. Whiteside of Crowsnest were visitors with Mrs. Martin a few days last week, returning home on Saturday.

E. W. Ryckman of Spokane is a visitor at present with Mr. and Mrs. J. Cameron.

Mrs. Sid. McCabe was taken to Cranbrook hospital on Sunday, where she is to undergo an operation for appendicitis.

Jas. Wilson left on Thnrsday on a business trip to Cranbrook and Kimberley.

Mrs. Art. Wallach and family of Cranbrook are holidaying here at present.

Grade 8 Exam. Results Pleasing

Kitchener, Huscroft, Wynndel Have 100 Per Cent. Pass—Creston Graduates 16 of 17—Erickson and Canyon 2 of 5.

The education department at Victoria has just handed out she list of successful candidates in the June examinations for promotion to high school. Out of a total of 24 candidates from the different schools in the Valley 15 have been successful. At Kitchener, Huscroft and Wynndel Misses Ford, Hazel Hobdeu and Ewing. the respective principals, have secured a 100 per cent. pass, while at Creston Principal Stallwood gruduates five out of six, along with the 11 who were promoted on recommendation. At Canyon and Erickson in each case two out of five were successful. Those promoted:

Creston—Arthur M. Nichols 436, Frances Lewis, 410, Frances M. Lewis, 408, Minnie Downs 400, Jean Henderson 360.

Promoted on Recomendation—Jack I. Young, Roland D. Miller, Dorothy L. Marshall, M. Iris Taylor, Herbert L. Dodd, Evelyn H. Linn, Sarah Quinn, Faye D. Tompkins, Elsa J. Willis, Marjory E. Learmonth, LeRoy Johnson.

Canyon—Robert F. Hale 408, Holly E. M. Bond 377.

Erickson—Muriel R. Thurston 429, Sydney Scott 372,

Huscroft—B. Muriel Tedford 413, Alice Demchuck 395.

Kitchener—Richard Molander 468, Edith A. Nelson 434.

Wynndel—Alice M. Davis 399, J. Whitfield Abbott 360.

In sizing up tne situation at Canyon it will be well to remember that for three months that section had an epidemit of mumps, flu and scarlet fever that greatly militated against regularity at school attendance, in addition to which the principal was off duty three weeks due flu and an appendicitis operation. As a preventafive against the spread of scarlet fever the school was also closed anothar ten days.

Canyon City

Mrs. Hetherington of Nanton, Alberta, is a visitor here at present, a guest of her parents, Mr. and Mr. T. Hickey.

Miss Frances Knott, who has been teaching at Sandon the past year, has arrived home for the summer vacation.

Miss Emma Samuelson and John Anderson were at Nelson on Wednesday attending the funeral of the late Mrs. (Rev.) Helquist, whose death occured at Cranbrook with interment in Nelson cemetery.

The Canyon cherry crop is now on the move in full force, and is the biggest ever. Where irrigation nas been used the cherries are of splendid size.

Mr. and Mrs. Fenessey of Lethbridge, Alberta, are here at present on a holfday visit with Mr. and Mrs. Norman Strong.

Invitations are out for the marriage of Miss Arleen, youngest daughter of Mr. and Mrs. Halstead, to Jeffrey Knott. The wedding will take place at the Canyon United Church. Jeff is now located near Seattle.

Notices are up for the special meeting of the ratepayers of Canyon school district to be held at the schoolhouse on Saturday night. The business is to consider rescinding the resolution passed at the annual meeting fixing Principal Kolthammer's salary at $100.

A. G. Samuelson has purchased all the timber on the land west of the old sawmill, embracing about 200 acres, and has men at work taking out the posts, poles and logs.

The apple crop continues to size well but with the limited moisture supply on unirrigated lands rain will have to come quickly if normal growth is to be maintained.

Miss Helga Nelson, who has been visiting with her sister at Exshaw, Alberta, has just returned, and is now in chare of the office work of Nelson's Fruit.

FOR SALE—2½ acres of standing green oats. Goo, Mawson, Creston.

SALADA has the finest flavour in the world and it costs only one-third of a cent a cup

'Fresh from the gardens'

What Is a Good Government?

Hon. R. B. Bennett, in addressing a meeting at Stratford, Ontario, recently asked a question, and in answering it, gave a definition of a good government. He said:

"Is it not time that we had a government that would look after the interests of Canadians and Canadians only? You say that is a selfish policy. Ah, my friends, all good governments are selfish and the measure of the goodness of a government is the measure of its selfishness."

Mr. Bennett was, of course, discussing the relative merits of the tariff policies of the Liberal and Conservative parties, and especially so in the light of the impending tariff changes at Washington. These being issues of a partizan character it is not our intention to discuss them, or express any opinion in regard to them. But it is quite in order to analyze and discuss Mr. Bennett's dictum that "all good governments are selfish," and that the measure of the goodness of a government is the measure of its selfishness.

Governments under our democratic system of responsible government are, or should be, but a reflection of the people themselves. They are brought into being by the expressed will of the people and are supposed to give expression in legislation and administration to the wishes of the people. Therefore, if a good government is a selfish government, it follows that selfishness is the sign manual of a good people, and that the selfishness of any people is the measure of their goodness. Do the Canadian people believe this? Are they prepared to accept it as true?

Acceptance of this doctrine would be to deny all the teachings of Christianity. It would be to nullify and reject the Golden Rule. It would set up a standard of conduct for nations and peoples that could have but one result,—continual warfare.

If the measure of the goodness of a government is the measure of its selfishness, then a "good" government in Manitoba, Saskatchewan, Alberta, or any of the other Provinces, would be one which pursued a policy designed to advance its own interests regardless of the interests and welfare of any other Province, or of the Dominion, or the Empire as a whole. Such a policy would mean endless friction, constant turmoil, the ultimate smash-up of Confederation.

Suppose, for example, that rightly, or wrongly, the Western Provinces of Canada insisted that their particular interests demanded the complete removal of all customs tariffs, and they refused absolutely to give any consideration to the views, the interests, the welfare of the Eastern Provinces which believe in customs tariffs. What would be the results?

All government is a matter of compromises. No one group of people, no one community, no one province, can selfishly insist upon acceptance of its views and its policies to the detriment of all other groups, communities and provinces. But if selfishness is to be the measure of a good government, then insistence by each group, or community, or province, upon its own views and policies means that any and all compromise will be impossible, and government itself must fall.

Acceptance of Mr. Bennett's doctrine would condemn the governments of Great Britain for many decades past as the worst governments in the world, because it has been the policy of British Governments to adopt policies of unselfishness, to assume heavy burdens and accept great responsibilities in behalf of backward peoples and smaller and weaker nations. Great Britain unselfishly entered the war against Germany in defence of the rights and integrity of Belgium. Following the war Britain waived all debts owing to her by other allied countries, save, and except an amount sufficient to cover her own indebtedness to the United States. These are but two comparatively recent examples of British policy, but it is being exemplified at almost every meeting of the League of Nations. That League, for example, could not exist five minutes if the nations of the world were animated by, and acted upon Mr. Bennett's definition of what constitutes a good government.

The most selfish form of government is an absolute autocracy. How would Mr. Bennett like Premier Mackenzie King to adopt the selfish attitude of Mussolini in Italy, take all powers of government into his own hands, and prohibit any opposition parties from functioning? That's selfishness in government. Is it good? Whatever Mr. Bennett may think, the people of Canada want none of it.

Suggests Powerful Signals For Vessels

Sea Should Be Better Illuminated Says French Writer

A well-known French writer has pointed out that ships have been backward in making use of the great improvements made in modern electric lighting. He states that in this modern age of illumination the sea is the only part of the globe which is plunged into obscurity at nightfall, and recommends that ships should employ powerful signals like the headlights of motor cars. Undoubtedly the weakness of ships' lighting is a contributory cause to many collisions that occur at night, and the fuller study of the possibilities of more powerful electric lighting is worthy of the labors of the Conference (the International Conference for the Safety of Life at Sea.)

Dandruff

Rub Minard's into your scalp four times a week. Prevents falling hair.

MINARD'S "KING OF PAIN" LINIMENT

Holstein Bull Goes East

Prize Winner From Strathmore Purchased By Quebec Interests

The Raymondale Farm, at Vaudreuil, Quebec, recently purchased a Holstein bull from the Canadian Pacific supply farm in Strathmore. This young bull, Strathmore de Winton Matchless, was junior champion last year at Calgary, Edmonton and Saskatoon, although defeated at other shows by his herd mate Strathmore McKinley Fairchild Wayne.

Horses Live In Zoo

The stable of a London horsekeeper is a zoo, the animals sharing the house with the horses. There are 100 horses in the stable and with them, living contendedly, are two Indian monkeys, a wild hare, a vixen, pigeons, rabbits, canaries and foreign birds.

No Unemployment Problem In Iceland

Country Offers Great Opportunities Through Undeveloped Land

Iceland has no unemployment problem, not because folks have to work to keep warm up there, but because Iceland is an undeveloped land of great opportunities.

The unemployed of Reykjavik totalled eight men on May 1. Six of them were more than 60 years old and in ill health. The other two said they had just left their jobs, and could get better ones.

Iceland, peopled with only 100,000 inhabitants, could comfortably find accommodation and employment for 900,000.

Iceland wants dirt farmers, not men to keep the bright lights of Reykjavik burning. The native Icelanders are good farmers, but not scientific agriculturists.

Government authorities maintain that Iceland could produce far greater quantities of agricultural products than at present, as the soil and climate are excellent for many crops.

LIFE WAS A BURDEN

Health Restored Through the Use Of Dr. Williams' Pink Pills

"I am writing to express my gratitude for what Dr. Williams' Pink Pills have done for me," says Mrs. W. J. Dowling, Tottenham, Ont., and further says: "I was so badly run down that I felt that life was a burden. The doctor said my trouble was due to poor blood, but his medicine did not help me. My face was sallow, my lips bloodless and at the least exertion my heart would palpitate so violently that I would have to lie down. My feet and legs would swell and cramp, and all my friends thought I was in a decline. In this condition I was urged by a friend to try Dr. Williams' Pink Pills. I got three boxes, and to my delight, by the time I had used them I began to feel better. I got a further supply and kept on taking them. Daily I felt myself growing stronger. The color returned to my cheeks and lips and I felt a new interest in life. To sum up I can now say that I am feeling fine, for which I give the credit to Dr. Williams' Pink Pills, which I strongly recommend to all weak girls and women."

A useful book, "Building Up the Blood," will be sent free on request by the Dr. Williams' Medicine Co., Brockville, Ont.

Dr. Williams' Pink Pills are sold by all druggests or will be sent by mail post paid, on receipt of price, 50c. Try them today.

Moose Jaw Tourist Camp

Additional facilities are being provided at Moose Jaw Auto Tourist Camp. Last year about 7,000 people used the camp and the present season is expected to witness a considerably increased attendance.

Miller's Worm Powders seldom fail. They immediately attack the worms and expel them from the system. They are complete in themselves, not only as a worm destroyer, but as a highly beneficial medicine for children, correcting weak digestion and restoring the debilitated system to healthfulness, without which the growth of the child will be retarded and its constitution weakened.

Farm Planning

Town planning in Alberta is now being extended to include farm planning. The farmer may secure expert advice concerning the plans for his house and barns, and the lay-out of his farm.

Relieves Asthma At Once. If you could read the thousands of unsolicited letters received by the makers from grateful users you, too, would realize the remarkable powers of Dr. J. D. Kellogg's Asthma Remedy. All cases, incipient and chronic, are benefited by this great family remedy. Why suffer or experiment with worthless preparations when the genuine Kellogg's can be purchased everywhere.

Waiter: What's de matter with dat egg, boss?

Diner: It was served too late to be good egg and too soon to be good chicken.

Canadian Teachers' Federation

1930 Convention Will Be Held At Edmonton

The selection of the venue for the 1930 convention of the organization, the election of the executive committee and the adoption of a number of resolutions comprised the final business transacted at the closing session of the tenth annual conference of the Canadian Teachers' Federation at Quebec.

Edmonton, Alberta, was chosen for next year's conference at a date to be decided later by the executive committee.

The following members were elected to the executive committee of the federation: G. H. Ford, New Westminster, B.C.; A. J. Powell, Ford, Sask.; J. R. Mackay, Saskatoon, Sask.; A. E. Heard, Winnipeg, Man.; J. E. Robertson, Toronto, Ont.; Miss L. E. Brittaur, Montreal, Que.; H. C. Ricker, West St. John, N.B.; J. A. D. Good, Truro, N.S.; and C. B. Jelly, Summerside, P.E.I.

New 'Plane Is Climber

British Machine Reaches Four Mile Height In Fourteen Minutes

An all-steel airplane that can climb to a height of four miles in less than 14 minutes is the latest addition to Britain's air fleet.

The plane is a single-seater equipped with a super-charger and specially-geared Jaguar motor developing 400 horse power. With a full load of machine guns and ammunition in addition to electrically heated clothing and oxygen breathing apparatus, it can climb to a height of six miles. Its top speed is 185 miles an hour.

The plane is intended to take off from a home defense aerodrome and to climb rapidly to get above enemy raiding machines as soon as information is received that they have crossed the coast.

Developing Trade

Increased Travel To the West Indies Follows Inception Of New Service

Since the inception of the new service between Canada and the British West Indies, by the R.M.S. Lady Nelson, in December last, the Canadian National steamships' boats have been practically booked to capacity on every sailing. Traffic from Canada to the West Indies has developed tremendously since the inception of the new Canadian National liners, and there has also been an increase of travel from the West Indies into Canada particularly in the summer time when attractive rates give the West Indies business man an opportunity of going to Canada to study the markets there.

Corns cause much suffering, but Holloway's Corn Remover offers a speedy, sure, and satisfactory relief.

Very Considerate

"I just had a 'phone call from Skippy. He's the most considerate boy I ever knew."

"What did he have to say?"

"He wanted to know if I got home all right from the dance he took me to last night."

Keep Minard's Liniment in the Medicine Chest.

Denied Entrance To States

Young Toronto Inventor Claims He Has More Powerful Substitute For Gasoline

Denied entrance into the United States even for an hour, during which time he had expected to lay his invention before officials of the General Motors Corp., Jack Star, 197 Grace Street, Toronto, claims that he has a lighter and more powerful substitute for gasoline.

Mr. Star is a comparatively recent arrival in Canada, his name in Europe being Jacob Starselski. He is a former racing motorcyclist, and said he had been working on his formula for nine years and had visited Europe, Asia and the continent in search of sources of supply. He carries credentials from Sir Herbert Samuel, British commissioner for Palestine, Mustapha Kemal Pasha and other notables. His researches have involved great expense and long study, he says, and he is working now to obtain world patents on his discovery. He declares he had made arrangements with Frank J. Kinzinger, attorney, of Detroit, to assist him. He was denied entry to Detroit, however, for an hour, although he had offered to leave his car with the authorities at the ferry dock.

It isn't the girl who fires up quickly that makes the best match.

Are You Ready

When your Children Cry for It

Baby has little upsets at times. All your care cannot prevent them. But you can be prepared. Then you can do what any experienced nurse would do—what most physicians would tell you to do—give a few drops of plain Castoria. No sooner done than Baby is soothed; relief is just a matter of moments. Yet you have eased your child without use of a single doubtful drug; Castoria is vegetable. So it's safe to use as often as an infant has any little pain you cannot pat away. And it's always ready for the cruelest pangs of colic, or constipation, or diarrhea: effective, too, for older children. Twenty-five million bottles were bought last year.

Fletcher's CASTORIA

RUSSIA BREAKS OFF RELATIONS WITH CHINA

Moscow.—Russia has brokeo off diplomatic relations with China.

The Soviet government made public its reply to the Chinese note, the latter having come in response to an ultimatum from Russia. In this note the Soviet Union said that all means of reaching an amicable settlement had been exhausted.

The note placed the entire responsibility for all consequences upon the Chinese government. It announced also that all Soviet diplomatic and consular officials and all government commercial representatives would be recalled at once from China.

It further declared that all Soviet officials would be recalled from the Chinese Eastern Railway; that all railway communications between Soviet territory and China would be suspended, and that the diplomatic and consular representatives of the Nanking government would be ordered immediately to leave the Union of Soviet Socialist Republics.

The Russian action in breaking off diplomatic relations with China came at the expiration of time set in an ultimatum which the Soviet Union dispatched to the Central Republican headquarters on July 13. That ultimatum gave the Nationalist Government, at Nanking, three days in which to rescind its action in seizing the Chinese Eastern Railway in Manchuria.

It also demanded restoration to office of the Russian officials who had been deposted from their places in the railway and the liberation of all Russian nationals who had been imprisoned. By the terms of the ultimatum, the closing of Russian institutions in Manchuria, such as banks, railway unions, and business syndicates was also to be rescinded.

Lower Potato Crop

Canadian Acreage Shows Five Per Cent. Decrease From 1928

Ottawa.—The Canadian potato acreage indicates a five per cent. decrease from 1928 figures, with 568,000 acres as compared with 599,063 acres last year. Western provinces report practically the same acreage while Ontario, Quebec and the Maritimes all report slight to fairly heavy decreases. In British Columbia a good crop is anticipated. In the prairie provinces dry weather conditions are creating fears that the potato crop will be light this year.

Torrential Rains In India

London, Eng.—Exchange Telegraph dispatches from Bombay said widespread floods were reported in the Sind division of that province. At Sukkur Barrage the entire township has become submerged, with 12 deaths. In Middle Sind hundreds of cattle died from exposure in torrential rains. Miles of desert have been transformed into a huge lake.

Northcott Will Appeal

San Francisco, Cal.—Counsel for Gordon Stewart Northcott, convicted slayer of little boys on his Wineville "murder farm" were ordered to file briefs on his appeal before August 5, by the state supreme court. Northcott is under sentence of death and his mother is serving a life term in San Quentin for participating the same crime.

Will Rescue Stranded Airmen

Ottawa, Ont.—The department of marine has made arrangements to have the Canadian government vessel "Acadia" call at Port Burwell in about ten days and take off the Chicago flyers who are stranded there following the destruction of their 'plane. The "Acadia" will take the flyers to Fort Churchill.

B. C. Fire Losses Higher

Vancouver.—Fire losses in British Columbia during 1928 amounted to $2,607,554, against $2,622,005 in 1927, showing an increase of more than forty-four thousand dollars, according to the annual report of J. A. Thomas, provincial fire marshal.

Had Miraculous Escape

Vancouver Salesman Pinned Under Interurban Car Had Hand Injured

Vancouver. — Charles Kinneburgh aged 60, a Vancouver salesman, was pinned for more than a half hour in his demolished touring car under a big steel British Columbia electric interurban car, but escape with a bruised hand. The interurban had to be jacked up before he could be released.

Kinneburgh was driving across the intersection when the interurban crashed into him, overturned his car and ran up on top of it. Although the electric car was crowded, no one on board was injured.

Kinneburgh was imprisoned in the driving seat of his automobile with only his head and shoulders visible. Police squads, railway employees and ambulance men laboured feverishly to extricate him, but without success until a large jack was brought and the interurban lifted. The imprisoned man directed the operations, although suffering agony because of the manner in which his hand was caught. After his release it was found at the General hospital that he had suffered no other injury.

London-Paris Electric Railway Is Planned

Scheme Would Employ Fifty Thousand Men For Ten Years

London, Eng.—The Observer says that the committee on English channels and communications, which will report late this year probably will outline plans for an electric railway from London to Paris at an estimated cost of $900,000,000.

The reported plan calls for a road which it would take 50,000 men ten years to build.

The plan contemplates twin tunnels under the English channel, the Observer said, each 23 feet in diameter and 44 miles long. The line would use a railway track on a seven-foot gauge.

Tremendously powerful electric locomotives would be used to haul trains from London to Paris in the rapid time of 2 hours and 45 minutes, if the plan outlined by the newspaper is carried out.

Government Is Powerless

Cannot Refuse Clearance To Liquor Boats Under Present Law

Ottawa.—"The matter of refusing clearances to liquor-laden boats destined to the United States is not within the competence of the federal government as the law stands at present, nor can it come within that competence until authority for such a course has been given by act of parliament."

This was the statement of Hon. W. D. Euler, minister of national revenue, in an interview. "I adhere to the sentiments expressed on that subject last session, and I am convinced that subsequent developments have borne them out.

No Cause For Alarm

Edmonton.—General conditions in the west do not give cause for any alarm over the danger of unemployment this winter, was the opinion expressed by Hon. Robert Forke, federal minister of immigration, on reaching here from the East. He was accompanied by W. J. Egan, deputy minister, and had on his program an immigration conference with the provincial government.

Grain Board Appointment

Ottawa. — The appointments in connection with the re-organization of the grain board will not be made until the first August meeting of the Dominion cabinet, Hon. James Malcolm, Minister of Trade and Commerce, made this announcement. The minister declined to intimate how many of the present board would be replaced by new men.

Four Die In Fire

Cornwall, Ont.—Explosion of a coal-oil stove is believed to have caused a fire which swept five residences on Guy Street, East Cornwall, causing the death of four persons who were trapped in the burning building and injuring four others. Property loss is estimated at $25,000 to $30,000.

MAKING TOUR OF CANADA

Rev. W. C. Poole, Christ's Church, Westminster, president of the World Sunday School Association, who is making a tour of Canada.

Canada Wins Kolapore Cup

Eight Marksmen Recapture Famous Trophy Lost Last Year

Bisley Camp, Eng.—Canada won the Imperial Kolapore Cup. Eight marksmen picked from the Canadian Bisley team recaptured the famous trophy Canada lost in 1928, by a margin of 33 points over the Mother Country, with India, Guernsey and Jersey following in that order.

The Canadian team aggregate was 1,083, while the Mother Country aggregated 1,050. The cup was shot for at three distances, 300, 500, and 600 yards.

Canada had gained a lead of 18 points at 300 yards. At the 500-yard distance their team aggregate had reached 729 points to 703 for the Mother Country.

The standing of the five contesting countries at the 300-yard distance, first of the three ranges, was. Canada, 360; Mother Country, 342; India, 336; Guernsey, 333; Jersey, 325.

Churchill Coming To Canada

Former Chancellor Of Exchequer Will Visit Alberta Oil Fields

Calgary, Alta.—Rt. Hon. Winston Churchill, former chancellor of the exchequer of Great Britain and occupant of other important cabinet posts in the Old Country will visit Calgary for three days in August. He will arrive late on August 24, and will remain until August 27. He will then proceed to Banff for a brief visit before going to the coast. This information was received through private sources.

He will visit Turner Valley oil fields and possibly some of the coal areas in the Calgary district.

Reviews Boy Scouts

Premier King Addresses Contingent Going To International Jamboree

Ottawa.—Canada's Boy Scouts contingent to the International Jamboree opening at Birkenhead, England, on July 27, was reviewed on Parliament Hill by Premier W. L. MacKenzie King. Later, addressing the Boy Scouts and leaders—representative of every province of the Dominion and the Yukon Territory—in the Hall of Fame, in the parliament building, the Prime Minister made an inspiring appeal to the youth of this country for a full realization of citizenship in this Dominion and in the Empire.

Postpones Atlantic Flight

Unlikely That Coste Will Make Attempt This Year

Paris.—It appeared improbable here that Dieudonne Coste would make another attempt to fly across the Atlantic this year. He has not abandoned his plan, but when asked when it might be carried out he replied laconically: "There is no hurry." The backers of the flight, who built the aeroplane and its motors, have been silent concerning a new attempt, which gave support to the growing belief that it was not likely to be in 1929.

Received By Prince

Professor W. L. Carlyle Visits His Employer At St. James's Palace

London, Eng.—Professor W. L. Carlyle, manager of the "E.P." ranch at High River, Alta., was recently received by the Prince of Wales at St. James's Palace.

Nothing was said as to the conversation between the Prince and his ranch manager, but undoubtedly his royal highness evinced a keen desire to know how the ranch was progressing. He has often intimated he was looking forward to another visit to the ranch.

Berlin-London Television Service

London, Eng.—Within two or three months a telegraphic transmission service for photographs, pictures and similar matter will be opened between London and Berlin for the general public. This announcement was made in the House of Commons by Hon. H. B. Lees-Smith, postmaster-general.

Expect Larger Apple Crop

Ottawa.—Canada will have a big apple crop this year. The commercial crop is expected to be 11 per cent. greater than last year and 21 per cent. greater than the five-year average with a total of 3,609,417 barrels.

Revisit Scene of Exploits

Left to right they are James Stephens, C.P.R. pensioner; and Tom Wilson, discoverer of Lake Louise in the early eighties. The photograph was taken recently at Banff. Mr. Stephens, who now lives at Oak Lake, Man., was astonished at the changes at Banff since he first saw the place fifty years ago. Then it was all virgin forest; nowadays it has a first-class hotel and what were rough tracks through the timber are now bridle paths, fine roads and railway tracks. Indians were a source of continual danger in his youth; today they are an important part of the local attraction. Mr. Wilson, like Mr. Stephens, well into the seventies, is also like him one of the original trail blazers of the Canadian Pacific Railway in the Rockies. The wonderful air of the mountains has kept them both young as the photograph shows.

WILL REQUIRE LESS HARVEST HELP THIS YEAR

Winnipeg.—Not more than 25 per cent of the harvest help that hustled westward to the prairie provinces last summer to assist in harvesting a bumper crop will be required this year to clear a comparatively small showing of grain, a promising crop indeed last spring, but one that has suffered from the ravages of a boiling sun, continuous waves of intense heat and lack of moisture.

Where a force of 50,000 husky young men from Eastern Canada augmented by several thousands young Englishmen brought overseas for the purpose, were put to work last year harvesting thousands of acres of wheat, probably 10,000 and certainly not more than 15,000 will be sought to work in the west's heat-stricken fields next month.

This was an estimate given recently by J. A. Bowman, general superintendent of employment for Manitoba, when interviewed by the Canadina Press.

The unemployment situation throughout the west is not considered serious, in the opinion of Mr. Bowman. Hundreds of men are workless in Winnipeg and other centres at the present time, he said, but the situation was not at all unusual.

No difficulty is anticipated by the Manitoba unemployment bureau in placing hundreds of available men now here when harvesting gets under way.

He added that only a small number of outside help would be needed if the dry weather that is now prevailing in all three prairie provinces continues for another week.

Will Head New Bank

Hon. Sir Robert Borden Elected President Of Barclay's Bank, Canada

Montreal.—The Right Hon. Sir Robert Borden, former prime minister of Canada, was elected president of Barclay's Bank, Canada, at the first meeting of the shareholders held here.

Sir Robert will assume his new duties on September 3, when the bank will commence business. Arthur B. Purvis was elected vice-president, and J. R. Booth was appointed manager.

In addition to Sir Robert and Mr. Purvis, the following were elected to the board of directors: Hon. L. A. Taschereau, premier of Quebec; A. A. Magee, W. O. Stevenson, H. P. Alton, and J. S. Crossley.

Defer Driving Golden Spike

Ottawa.—The golden spike which will mark the completion of the Hudson Bay Railway will not be driven this year after all. Chief Engineer Czowski, of the Canadian National Railways, has returned from an inspection of the railway and reports that a million yards of ballast must still go down, and it will be October before this work can be carried out. It will be 1930 before the railway can be considered as completed to tidewater.

Many Students From West

Kingston, Ont.—Queen's summer school, in progress now, attracts students from all parts of Canada, Saskatchewan sends 23, Manitoba 3, Alberta 8, and British Columbia four. Two are from the United States and one from China. Canadian history is strongly emphasized. The students enjoy the historic places in Kingston and the use of Queens library.

Preparing For Trip

Friedrichshafen, Germany. — Dr. Hugo Eckener has stated definitely that the next flight of the dirigible, Graf Zeppelin, to the United States, has been planned for the first week in August, but that the date has not yet been fixed.

Poland Honors Aviator

Warsaw, Poland. — The Polish schooner Iskrka will bring the body of Major Ludwik Idziowski back to Poland, where honors will paid it. Religious ceremonies have been held throughout Poland in memory of the aviator.

THE CRESTON REVIEW

Issued every Friday at Creston, B.C. Subscription: $2.50 a year in advance; $3.00 to U.S. points.

C. F. HAYES, Editor and Owner.

CRESTON, B.C., FRIDAY, JULY 26

Need a Salary Schedule

After the trustees get squared away on such matters as the consolidated high school conference, installing the new heating plant, and securing new teachers if any are required, early attention should be given to establishing a salary schedule and scale of annual increase, and give the ratepayers ample time to digest it before seeking its confirmation at the next annual meeting.

The salaries for the ensuing year are not exactly equitable. As adopted, the principal of the public school, who has to give some supervision to four other rooms in addition to his own, is paid precisely the same as the teacher in the second room of the high school who has no other-room supervision whatever. And in Division 5 observe also a teacher who has been on the staff just two months drawing exactly the same pay as the instructor in Division 4 who has been on the staff four or five years and certainly of equal ability.

Had the salary scale been operative this year the trustees would have been spared the embarassing situation that has been created whereby they are denied the right to give high school principal Levers an advance of $200, to $2000 per annum, but have the right to pay up to the latter figure for some unknown with no more experience or better qualifications than this year's high school head—and most likely with less ability because with Mr. Levers allowed until the end of July to turn in his resignation the chances are that most every likely experienced teacher will have been engaged elsewhere.

The present hit and miss system of adjusting salaries by the annual meeting process from year to year is unfair to both teachers and trustees, and certainly not in the best interests of education generally.

Water Conservation

At this time when Creston, in common with all other centres that depend on mountain streams for a supply, is experiencing an acute water shortage, and citizens are called upon to confine their use of the aqua pura to just about the necessities of the household, it will be particularly interesting to peruse some figures that show just how quickly water can be handled.

A half-inch opening will run off 1350 gallons per hour, or 972,000 gallons in a month—and this latter figure is just about double the maximum capacity of the big new reservoir put in by Goat Mountain Waterworks Company last autumn.

A quarter-inch opening will run off 375 gallons per hour, or 270,000 gallons per month. A sixteenth-inch opening will dispose of 30 gallons per hour, or 21,600 gallons per month, while a thirty-second inch opening gets away with 8 gallons per hour, or 5500 gallnns per month. A leaky tap wasting 40 drops a minute wastes 2½ gallons per day.

No matter how roundly you may abuse the waferworks company for the present shortage it wont alter the foregoing figures, which ought to convince residents who are getting an average supply that due economy should be observed if residents on the higher parts of the town are to have ample for the careful housewife's daiiy needs.

Institute was Discreet

At the July meeting the local Women's Institute did the wise thing in having nothing to do with a resolution sent from Bonnington institute which asks that bible reading be inaugurated in the public schools of the province.

This is a matter the Schooi Trustees' Association of British Columbia has repeatedly sefused to take any such action at their annual conferences and usually by sizable majorities.

In addition to the trustees, rhe teachers generally are not in favor of it. Where those directly in charge of educational affairs oppose the innovation it is just as well for community organizations such as the institute to adopt the hands off policy.

And when it is recalled that a former fully ordained and experienced minister of the gospel is now minister of education surely the matter of bible reading will have most serious attention.

As it grows older Creston and District Women's Institute is undoubtedly growing wiser. Not so many years ago the ladies just simply couldn't resist endorsing any and every resolution sent them, with an especial weakness for demanding ferries and highway betterments everywhere but in the Creston area.

Kitchener

Mr. and Mrs. C. Senesael, and Misses Vera and Hazel McGonegal, are on a motor trip to Spokane, where they will spend a week visiting friends.

Harry and Helen Heise of Cranbrook are Kitchener visitors at present, guests of Miss Clara Hunt.

Miss Mildred Andeen, and Catherine Cavanaugh are spending the week in Nelson, guests of Mrs. LaPage.

Mrs. Geroux, who has been visiting with her daughter at Perry's Siding, returned home on Saturday.

Col. and Mrs. Mallandaine of Creston were visitors here on Monday guests of Mr. ond Mrs. Hathaway.

Mr. and Mrs. Dan Guy left on Thursday for their home in Lewiston, Idaho. They were much taken with the scenic beauties of the district, and hope to pay another visit to Mr. and Mrs. Neligh at Leadville later on.

Mr. and Mrs. and Curt Anderson were weekand visitors at Cranbrook.

Mrs. B. Johnson and Irene Cavanaugh spent Tuesday in Cranbrook, making the trip by auto.

Mrs. Lawson and daughter of Spokane have been spending a few days here the guests of Mrs. Simpson and Mrs Knowlen.

Mrs. Hathaway was hostess to a number of Kitchener ladies at the Hathaway home on Monday.

Alice Siding

Mr. and Mrs, Victor Martin and family from Saskatchewan spent a few days here at the end of the week on a visit with his parents, Mr. and Mrs. J. C. Martin.

The outgo of raspberries is now large enough to warrant the tnain stop at the Smith crossing, which was resumed on Friday last. There is also considerable cherries on the move.

Albert Cox, who with Mrs. Cox and daughter vacated the Vaness ranch last fall to live at Cranbrook, is now workine as wiper at Sirdar for the C.P.R., and will probably be moving there to reside.

Mr. Cameron of Kimberley was a guest of Mr. and Mrs. John Kelly a few days last week.

At the inaugural meeting of Alice Siding school board Victor Carr was re-elected chairman, and W. H. Mather is again secretary and treasurer.

Although apples continue to size satisfactorily the long dry spell is beginning to effect the size of the peaks in this section.

Mr. and Mrs. Earl Pease and family arrivep by motor on Thursday last, and will be making a few weeks' stay with his parents, Mr. and Mrs. W. A. Pease at the Alberta ranch. They are from Cloverdale.

Mr. and Mrs. Frank Martin of Staveley Alberta, motored in for a weekend visit with his parents, Mr. and Mrs. J. C. Martin, and report crop prospects excellent in the Staveley country at present.

Mr. and Mrs. McDonald are back from a holiday at United States points, and with the latter's parents, Mr. and Mrs. John Kelly, are now away on a visit with frienes in Saskatchewan.

Local and Personal

Mrs. Stocks, a former well known resident of Creston, who has been living in Toronto the past four years, is rehewing acquaintances in all parts of the Valley this week, and is a guest of Mrs. Manuel. Mrs. Stocks is en route to visit coast and Trail friends.

R. B. Staples, sales manager for the Sales Service, Limited, arrived from Kelowna on Sunday for a short business visit. In the south end of the Okanagan the irrigation water supply is exhausted, but the situation is a little better in the Vernon district.

Messrs. Morgan, Hodgins and Campbell from the inspector's office, Vaucouver were here last week on the annual check-up of the local branch of the Bank of Commerce, and were well pleased with the showing the Creston branch has made the past twelve months.

O. W. Hvmphrey of South Slocan, representing the New York Life Assurance Company, was here on a business visit, Saturday. He is also president of Creston riding Liberal association and states that the federal Liberal candidate in West Kootenay, D. D. McLean, is making a favorable impression wherever he visits.

Many friends here of Miss Thelma West will hear with interest of her marriage on Thursday last to Donald Merrill, principal of the high school ot Stirling, Alberta, and formerly of Hillspring. The marriage was solemnized at the Alberta Temple, Cardston, and the newlyweds are spending the honeymoon in Yellowstone National Park.

16 out of 17 candidates from Creston public school were successful in passing from Grade 8 into high school at the June departmental examinations, the results of which were announced at the coast on Tuesday. 11 of these were passed on recommendation. Of the students writing, representing all schools in the Valley except Sirdar and Alice Siding, 15 out of 24 graduated.

About thirty members of Creston lodge Knights of Pythias visited Acme Lodge of Bonners Ferry on Thursday evening last under the leadership of district deputy grand chancellor Col. Mallandaine and local officers. Three candidates were also taken along and given their first degree by the officers of Bonners Ferry lodge. The work was put on very impressively by these officers and the interest shown by the Bonners Ferry brethren indicated that the lodge was in a flourishing condition. After lodge a first-class lunch was given the boys, and then followed the oratory and story telling, and in this degree the Creston members excelled, led by Dr. Henderson, Dick Palfreyman and Jimmy Wilson.

About the finest meeting in the history of Creston L.O.B.A. was that of Monday night when the ladies had an official visit from Miss Florence Williams, Grand Worthy Mistress of the order in B.C., of Vancouxer, who was accompanied by Miss Carnes of the same city. Proceedings consisted of the exemplification of a degree, and this was followed by an address on the aims and accomplishments of the order by Miss Williams, whose talk was thoroughly appreciated. Rev. P. McNabb also delivered a timely address. At the close of lodge these was an excellent banquet spread to raund off an eveniug that all thoroughly enjoyed. The occasion was favored with an attendance of a delegation of L.O.B.A. members from Cranbrook, and amongst the visitors were Mesdames McLeary, Reeves, Voisy, Cocks, Brown, Gould, Kamol, Steward, Storie and Brawn. With the excepcion of the former two the party made the trip by auto, returning the same night.

WORLD HAPPENINGS BRIEFLY TOLD

Negotiations between representatives of the German and Belgian governments for settlement of the long-pending marks questions have been concluded and an agreement has been signed.

The first loans issued in British Columbia under the Canadian farm loan scheme, and it is believed the first issued in Canada, have been made through the provincial loan board.

Peping's "hello boys" went on strike because their wages were not paid on time. They did not stop work, but staged a "go slow" strike, carrying on their duties in leisurely fashion, and inconveniencing patrons.

Aaron Sapiro, famous co-operative marketing expert from the United States, will again tour Saskatchewan this summer in the interest of a 100 per cent. membership for the Wheat Pool. The tour will start the latter part of August, according to a brief telegraphic despatch recently. Mr. Sapiro's voice broke down during a recent tour of the West.

KEEP CHILDREN WELL DURING HOT WEATHER

Every mother knows how fatal the hot summer months are to small children. Cholera-infantum, diarrhoea, dysentry, colic and stomach troubles are rife at this time and often a precious little life is lost after only a few hours illness. The mother who keeps Baby's Own Tablets in the house feels safe. The occasional use of the Tablets prevent stomach and bowel troubles, or if trouble comes suddenly—as it generally does—the Tablets will bring the baby safely through. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

More than 1,350 shocks were felt during the Japanese earthquake of 1923, which took a toll of 200,000 lives.

The Friend Of All Sufferers... Dr. Thomas' Eclectric Oil is a valuable remedy to all those who suffer pain. It holds out hope to everyone and realizes it by stilling suffering everywhere. It is a liniment that has the blessing of half a continent. It is on sale everywhere and can be found wherever enquired for.

The minimum resistance to the forward motion of the wings of an airplane is obtained with a thin wing which has a low lifting capacity.

Minard's Liniment for Earache.

Rubber jewelry is the latest fad. We wonder if wedding rings will carry a no-blowout guarantee.

A Severe Attack of Dysentery Checked by 4 Doses

Mr. I. Burtonwood, 620-22nd St. W., Saskatoon, Sask., writes:—"My child, when only seven months old, had a very severe attack of dysentery, and after three days' treatment with other things we decided to use Dr. Fowler's Extract of Wild Strawberry. On this day his bowels had moved twenty-three times in eleven hours, but four doses checked it.

"A short time ago we offered it to a neighbor whose baby was troubled, and it too was relieved within thirty hours.

"We both always keep a bottle of Dr. Fowler's handy at all times.

This medicine has been on the market for over 80 years; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

Japan Favors Canadian Wheat

Wheat From Dominion Has Supplanted U.S. Product In Japanese Market

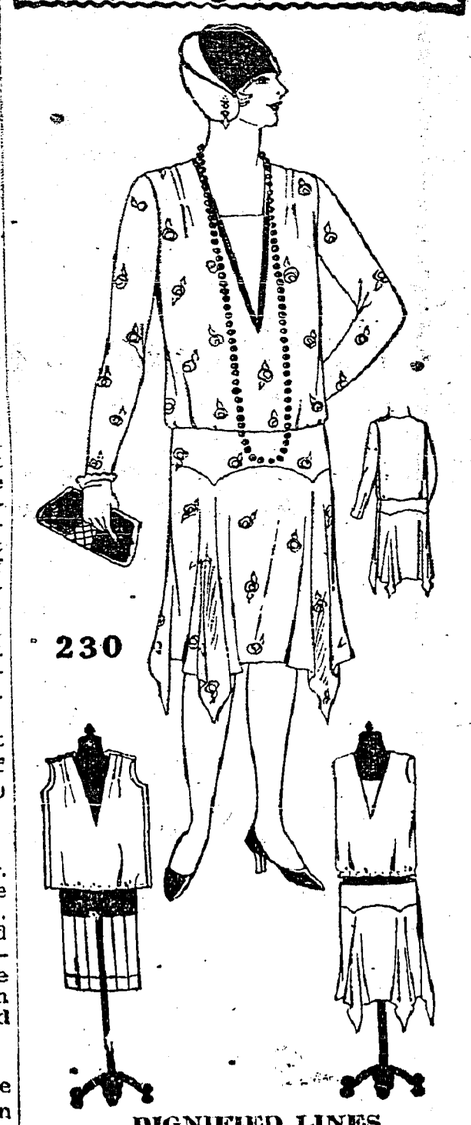
Quality and price are the factors which have enabled Canadian wheat to completely supplant the United States produce in the Japanese market, declares Tutchiro Shoda, president of the Nisshin Flour Mills Company, Limited, who was in Vancouver in the course of a trip of inspection which will take him to the wheat centres of Canada, United States and Europe.

The company which Mr. Shoda heads imports an average of 250,000 tons of Canadian wheat annually. It is all shipped through Vancouver.

Mr. Shoda has been in the milling business for thirty years and operates 12 flour mills in all parts of Japan with a combined capacity of 25,000 barrels per day.

Manchurian wheat offers no serious prospect as a possible rival for Canadian wheat in the Japanese market, according to Mr. Shoda, on account of the uncertainty of deliveries, lack of handling facilities and absence of organized grading.

Winnipeg Newspaper Union Fashions



DIGNIFIED LINES

An attractive printed silk crepe with smart uneven hemline in handkerchief drape, with shaped hip yoke to secure slender appearance for the larger woman is seen in Style No. 230. The molded bodice has French V at front to break the width. It is finished with vestee forming a becoming square neckline. It is especially lovely in sheer printed crepe for more formal occasions. Flat silk crepe, crepe satin, georgette crepe, crepe Elizabeth and canton-faille crepe are smart suggestions. Pattern is designed in sizes 16, 18, 20 years, 36, 38, 40, 42, 44 and 46 inches bust measure. Size 36 requires 3⅜ yards of 40-inch material with ¼ yard of 10-inch contrasting. Price 25 cents in stamps or coin (coin preferred.)

Judgment Is Reserved

Privy Council Withholds Decision On Dominion Fisheries Act

The judicial committee of the Privy Council reserved judgment on the appeal of the Dominion of Canada from a ruling of the Canadian Supreme Court which held that sections 7a and 18 of the Canadian Fisheries Act of 1914, were ultra vires of the Dominion parliament.

The important point at issue is whether under the British North America Act which gives it power to legislate "on seacoast and inland fisheries" the Dominion parliament can set up a system of licensing of fish canners as it sought to do under the sections of the fisheries act.

The provinces of British Columbia, Quebec and Ontario, are respondents in the action as well as British Columbia fishermen of Japanese origin.

Fresh Supplies In Demand. — Wherever Dr. Thomas' Eclectric Oil has been introduced increased supplies have been ordered, showing that wherever it goes this excellent Oil impresses its power on the people. No matter in what latitude it may be found its potency is never impaired.. It is put up in most portable shape bottles and can be carried without fear of breeaking.

More than half the arable land in Japan is in rice.

SUNDAY SCHOOL LESSON

JULY 28

THE STORY OF DANIEL

Golden Text:—"They that are wise shall shine as the brightness of the firmament; and they that turn many to righteousness as the stars for ever and ever."—Daniel 12.3.

Lesson: Daniel 1.1-21; 2.13-19; 4.19; 7.28; 8.15-18; 9. 20-23; 10.1-19; 12.9.

Devotional Reading: Psalm 46.

Explanations and Comments

The First Captives Taken To Babylon, 1.1, 2.—It was in the third year of Jehoiakim's reign, 606 B.C., that Nebuchadnezzar, King of Babylon, first besieged Jerusalem and carried back with him to the land of Shinar (the old name of Babylon; Gen. 10.10), Jewish captives, together with some of the treasures of the temple which he then had placed in the treasure-house of his god Marduk. Among the captives were Daniel and three other youths of our lesson. Daniel belonged to a family of high rank in Jerusalem, and, according to Jerome, was at this time only a boy.

The Training Of Daniel and His Companions In Babylon, verses 3-7. Nebuchadnezzar directed Ashpenaz, the master of his convicts, to take the Jewish youths of noble birth who were especially fair and bright and wise, and were therefore potential candidates for official positions, and teach them the language and wisdom of the Chaldeans. The king also directed that the youths were to be nourished with a portion of the food and wine which were prepared for himself. After three years they were to become his attendants.

Among the youths selected were Daniel and three companions, Hananiah, Mishael, and Azariah. Daniel's name meant "God is Judge"; Hananiah's, "Jehovah is gracious"; Mishael's "Who is what God is?" and Azariah's, "Jehovah has helped." Ashpenaz called them instead Belteshazzar, Shadrach, Meshach, and Abed-nego, giving them names which, it is thought, had reference to Babylonian deities.

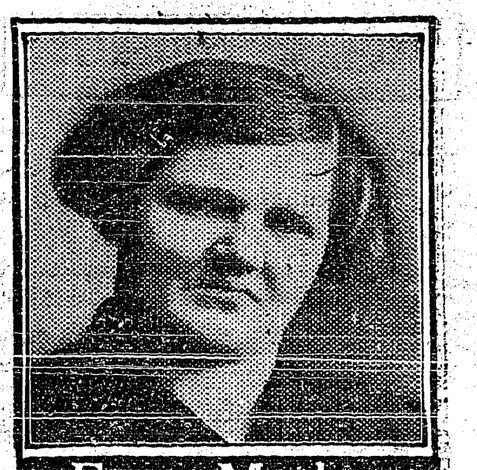
Minard's Liniment for Rheumatism.

Registered Seed

It is hoped to have the plant of the Saskatchewan Registered Seed Growers' Limited, on South Hill, Moose Jaw, ready to handle the registered seed from the 1929 crop. This follows the passing of estimates in the House of Commons, on behalf of the Department of Agriculture, of $150,000 for the seed cleaning plant and warehouse at Moose Jaw.

A woman first sheds a few tears—and then proceeds to open the telegram.

A spool of thread was unknown 125 years ago.



From Mother of Six

"I think Lydia E. Pinkham's Vegetable Compound is wonderful! I have had six children of which four are living and my youngest is a bonnie baby boy now eight months old who weighs 23 pounds. I have taken your medicine before each of them was born and have certainly received great benefit from it. I urge my friends to take it as I am sure they will receive the same help I did."
—*Mrs. Milton McMullen, Vanessa, Ontario.*

Lydia E. Pinkham's Vegetable Compound

Lydia E. Pinkham Med. Co., Lynn, Mass., U. S. A. and Cobourg, Ontario, Canada

Record Of Fire Losses

Fire losses in Canada during the week ended July 10, 1929, are estimated by "The Monetary Times" at $239,500, as compared with $139,200 for the previous week, and with $264,750 for the corresponding week of last year. From January 1, 1928, fire losses totalled $11,135,950, and from January 1, 1929, to July 10, 1929, they were $12,976,250.

The course of true love never runs smooth, and in later years the bachelor is often glad of it.

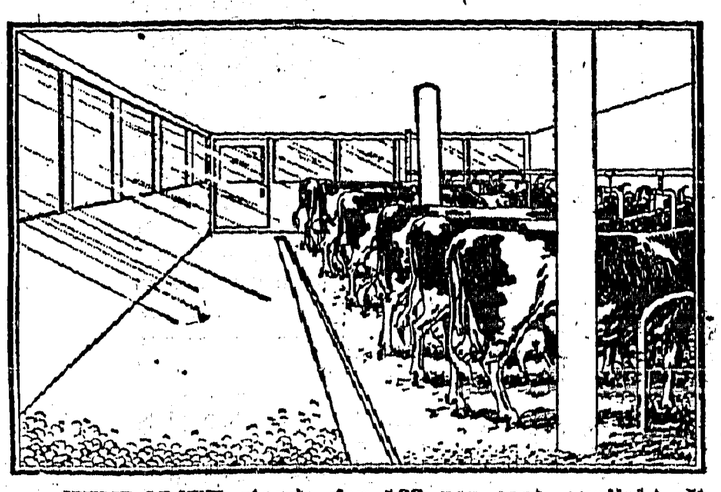
WINDOLITE *The Improved Glass Substitute*

MADE IN ENGLAND



WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip,—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 135 to 190 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price $1.50 Per Square Yard, f.o.b., Toronto.

Use WINDOLITE and let
YOUR PLANTS
YOUR CHICKENS
YOUR CATTLE
Bask in 100% Sunlight
Send for booklet "WINDOLITE"

COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer, Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass, that it freely admits the Ultra-Violet rays, and that its use has a most beneficial effect on the growth and development of plants and chickens and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their sheds.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

The Singing Fool

By HUBERT DAIL

Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

Marcus, the famous Broadway producer, heads a party of four that visits Blackie Joe's night club in downtown New York. Al Stone, Blackie's chief comedian and singing waiter, begs Molly, the ballad singer, to render a love song he has just written for her. Molly is disdainful and refuses even to read the song. Al is in love with her but she tells him harshly that she will never marry a waiter. Then she leaves her dressing room and goes to the Marcus table, trying to ingratiate herself with the famous producer. Al is in despair, Grace, the cigarette girl, who loves Al and wants to see him happy, asks him what is the matter.

CHAPTER V.

"Nothing's the matter, kid," said Al, making a show of throwing off his depression. But his wan smile belied his words.

Grace gazed hopefully up into his face. Her expression said plainly that if he would only confide in her she was sure she could help him.

Slowly he studied her young, sensitive features. She was an awfully sweed kid, undoubtedly, and he liked her, but—

At that moment someone else arrived to interrupt his thoughts. Blackie, all excitement, entered the corridor, calling out:

"Get ready Al—you're on next!"

Al turned lack-lustre eyes toward Blackie. Then, suddenly, a plan that had been forming vaguely in his mind ever since Molly's harsh exit, took definite shape. He drew himself up and said quietly:

"Blackie, I'm quitting tonight."

Blackie retreated a step as if he had been struck, while a little cry of amazement escaped Grace. Her hand went to her mouth in a quick gesture of apprehension. Blackie was the first to recover himself.

"Don't be a fool, Al," he said earnestly, putting a hand on his singing waiter's shoulder. You've got a good job here and a following among the customers. You can't quit off-hand like this — why, it wouldn't be fair to me or to yourself."

Al nodded slowly. Yes, he had thought of that. But there were other things to be considered.

"You won't miss me," he suggested. "You've got lots of talent. And I simply couldn't sing a comic song tonight—it's impossible the way I feel. And Blackie—I don't want to be a waiter any more. I want to write. The waiter racket will never get me anywhere—I know it!"

Al's vehemence increased as the words poured from his mouth. He saw his way clearly now—he would leave this place and never see Molly again. That was the only way to solve his problem. Suddenly his sense of reserve was lifted from him; he determined to give Blackie his complete reason.

"The only reason I've hung on here," he exclaimed passionately, "was to be near her! She's turned me down and—it hurts. She's the only person in the world I want, and without her . . . . Well, you can see now why I can't stay."

His voice trailed off at his concluding words and his shoulders sagged hopelessly. Blackie nodded. Again his hand rested comfortingly on Al's shoulder. He could see how vitally this affected his prize singing waiter—why, the boy's whole world had been turned upside down?

"Molly—eh?"

Al's head came up at the mention of the beloved name. He nodded.

"I wrote her a song—a love song. I poured my heart into it because it was for her. I wanted her to sing it, so she'd know how I felt toward her, but do you know what she did? She wouldn't even look at it; she laughed . . . . I found the song-sheet here on the floor where she had walked on it."

Al glanced down at his hand, which still held the crumpled ballad. There was nothing more for him to say now; Blackie understood at last.

If Al's explanation of his sudden decision astonished Blackie, it produced reactions that were much more startling and complicated in little Grace. She was not only hurt because Al was hurt, but, for the first time, resentment flamed up in her toward Molly. How could Molly, who was able to put such a wealth of feeling into the rendering of a ballad, act in such an unfeeling way toward Al?

Grace's slim white fingers pressed hard against the sides of her cigarette tray until the skin went white. A sudden wave of passionate anger toward the other girl swept over her; she wanted to turn, rush into the main room, and upbraid Molly for her heartlessness. Keen-eyed Grace knew that Molly had left Al to go to the Marcus table. She knew Molly was trying to worm her way into the good graces of the producer.

Then the anger passed as quickly as it came, while an expression of tender sadness crossed Grace's face. She realized that these admissions of Al's meant that she could never mean anything to him, never have a chance to help him. They meant that he would pass out of her life completely, perhaps within a few moments. She felt tears welling up in her eyes, but she bravely fought them down..

By this time a plan was emerging in Blackie's mind to aid his singing waiter. After all, Al was his friend as well as his star performer in the floor show, and he wanted to do him a good turn if he could.

"Why don't you read your song to Molly" he suggested, with assumed carelessness..

"She won't listen," Al answered. "To her I'm only a waiter — a mug!"

"Then why don't you sing it to her?" continued Blackie, springing his idea. "She's out there now — she'd have to listen."

Al shook his head. "I can't sing it. It's a love song—a ballad. You know I've never been able to sing the heart-throb stuff. That's not my line. I'm a comic."

"You haven't sounded so darn comic," Blackie countered quickly; "telling us all this. How do you know you can't sing a heart song? Have you ever tried it—I mean in public?"

"No, I've never tried one on the floor," Al admitted, "but I've tried rehearsing them and I was an awful flop."

"Yes, but don't you see, this is different. You wrote this song for Molly and you feel it. If you go out there and forget yourself, and sing it at her, you can make her feel it. Take a chance—they can't kill you. If the song goes over she'll understand for the first time how you really feel about her. Look what you stand to win!"

Al stared into the earnest eyes of Blackie, almost convinced. Could he do it, could he put the same feeling into his singing that had possessed him when he wrote the song. If he could he might be able to touch Molly's heart, as Blackie suggested.

Little Grace watched anxiously the play of expression on Al's face. She saw clearly what Blackie was driving at before Al saw it, and she hoped desperately that he could prevail on Al to try the song. If the words touched Molly's heart at least Al would be happy, which would make Grace happy.

"I'll do it," he said finally, with a gesture of decision. "I'll show her I'm something better than a waiter. I'll put everything I have into that song!"

Blackie wrung his hand. "Go to it, boy," he said enthusiastically. "You'd better make your entrance as soon as you can—while you're in the mood. Meanwhile, I'll see how the show's going."

When Blackie disappeared Grace also vanished down the corridor. But as Al came out into the main room a moment later he heard his name called. Grace slipped over to his side, looked up into his face with a forced, wistful smile and whispered:

"I'll be rooting for you, Al!"

"Will you, kid? Say, I appreciate it."

He raised his hand, patting her lightly on the cheek, as he would have caressed a sister. He noticed that her cheek was too warm, but he thought it was merely from excitement.

As he turned nervously away Grace raised her hand to her face, where his hand had rested for an all too brief moment. The spot was burning. She saw him move lightly across the room and approach the pianist to give him the new music. The pianist's mouth opened in astonishment at the idea of Al Stone, the comic, singing a heart song. Then Grace saw the man she loved heading for another woman. Would he put it over?

(To Be Continued.)

An Airplane's Buoyancy

A plane requires air to sustain it and on which the aeroplane propeller can "bit" in order to pull the plane along, and the entire air belt around the earth is as much a part of the earth and as much subject to the earth's gravitation as the oceans on the earth's surface. No plane could fly beyond the earth's gravitation area. A body ceases to feel the pull of the earth's gravity at a distance of about 215,000 miles from the moon. Here it would have no weight, the gravitation attraction of earth and moon being at that point equalized.

Brick Yard For Prince Albert

It is reported that the International Clay Products Company, of Estevan have purchased property in Prince Albert with the intention of making bricks there.

The Newest Discovery

American Chemical Society Told Gasoline Can Be Made From Trees

Gasoline made from trees is announced in a report to the American Chemical Society by Dr. Jacque C. Morrell and Dr. Gustav Egloff of Chicago.

They have produced an anti-knock motor fuel from the tar in the Douglas fir. While this fuel now is in the laboratory stage, the report says it can be made in commercial quantities from present wood waste.

"The development of a practical and economic means of converting wood waste into motor fuels," says the report, "has a deeper significance than the immediately important factor of conservation—it provides a source of motor fuels for the future which is under the direct control of man.

"Our great storehouses of potential motor fuel from petroleum, coal and oil shales are heritages from past ages, while wood tars and other vegetables are producible under controlled conditions.

Approximately 24 per cent. of the standing tree is converted into useful products, while 76 per cent. is wasted.

Little Helps For This Week

"The eternal God is thy refuge, and underneath are the everlasting arms."—Deut. xxxiii. 27.

What though the way be rough and steep?
What though we stumble as the blind?
There's joy reserved for those who weep,
The everlasting arms are kind.

What matters it if sorrows come?
What though the night be dark and long?
The darkest cloud but hides the sun;
The everlasting arms are strong.

One great purpose in all affliction is to bring us down to the "Everlasting Arms." What new strength and peace it gives us to feel them underneath us! We know that, far as we may have sunk, we cannot go any farther. Those mighty arms can not only hold us, they can lift us up. They can carry us along. Faith, in its essence, is simply a resting on the everlasting arms. — Theodore L. Cuyler.

Government To Aid Berry Growers

The B.C. Government has undertaken to assist berry growers to preserve their surplus crop of the 1929 season and is advancing a loan to a company to be known as Berry Processors Limited, which will have plants at Victoria, New Westminster and Hatzie.

MOST people rely on Aspirin to make short work of their headaches, but did you know it's just as effective in the worse pains from neuralgia or neuritis? Rheumatic pains, too. Don't suffer when Aspirin can bring such complete comfort without delay, and without harm; it does not affect the heart. In every package of Aspirin you will find proven directions with which everyone should be familiar, for they can spare much needless suffering.
