THE CRESTON REVIEW

Vol. XXI. CRESTON, B. C., FRIDAY, OCTOBER 18, 1929 No. 33

Council Transacts Routine Business

$208.00 Village Share of Cost of Main Highway Hard Surface Road Repair—Fire Equipment Put in Shape for Winter.

Repairing the hard surface road between the Mercantile corner and the Presbyterian Church, cost a total of $832, according to a bill rendered the village council by the public works department at the October session on Monday night. The village share of this is $208 and the clerk was instructed to issue a check in full payment.

Including this latter amount the accounts ordered paid by the commissioners were in the neighboreood of $750, in which is included the grant of $100 to the fall fair, and $116 to pay for the iron pipe used in making drainage improvements on Victoria Avenue at the Guy Constable property. At this session the usual grant of $25 was made the Children's Aid Society.

G. J. Bayle, who is now living at Northport, Wash., will be written to notifying that the retaining wall in front of his residence on Fourth street is in dangerovs shape, and asking that needed repairs be made immediately.

All the 2½ idch fire hose is being shipped back to the Gutta Percha Rubber Company at Calgary, which firm has agreee to take it in exchange for 2-inch hose, which is the size required for use by the fire brigade. Chairman Jackson was authorized to test out all the fire hose, hydrants and chemical and have these in shape for the winter season.

A letter from the board of trade asking to be supplied with some copies of publicity literature the council in April assured the board the village was about to publish, was ordered fyled.

All the commissioners will constitute a committee to look the village over and recommend the streets which will receive attention this fall in the usual autumn s reet gravelling work.

Canyon City

Miss Woodward has just arrived from Pembroke, Ontario, on a visit with her aunt, Mrs. Tom Hickey

The ladies' aid of the United Church are having a concert with a cafeteria supper at the hall on Saturday night, October 26th.

The apple movement has been held up a few days this week due to a congestion of fruit at the packing warehouses both at Creston and Erickson.

The unusually fine weather that has prevailed practically all month will enable orchardists to pretty well complete apple picking by the end of this week

The usual harvest thanksgiving service will be held at the United Church on Sunday afternoon at 4 o'clock. The church will be decorated and there will be special music.

Jim Bateman has just completed the erection of a 20 x 60-foot addition to his poultry shed and intends going extensively into white Leghorns.

R. Lowerison has just purchased the W. Abbott ranch and will get poseseion shortly. Mr. and Mrs. Abbott have not definitely decided on where they will locate in future. They have been residents of Canyon almost a dozen years, having purchased the former W. Carver place.

Mr. and Mrs. Staples are leaving this week to again take up residence at Red Deer, Alberta, from which town they moved to Canyon some five years ago, since when they have occupied the former Witherhead and Alf. Nelson places on lease.

Alice Siding

Jim Taylor and Bill Vaness left last week for Arrow Creek where they are working on the new irrigation system installation.

Mrs. Roy Pease and daughter left at the end of the week on a visit with friends in Vancouver.

Tom Trevelyan is now numbered among the Valley's 300 auto owners. He has just taken delivery of a remodelled Chevrolet from the Kootenay garage, Creston.

Miss Annie Parkin of Sirdar spent the weekend with her parents, Mr. and Mrs. J. W. Parkin.

Ole Ringheim, who has been operating a truck on the gravel haul from the Stewart ranch, is off work at present. He had his hand badly cut by the flywheel of his car last week, necessitating half a dozen stitches by Dr. Henderson.

Bears are doing some damage in the orchard on the Guy Constable ranch, operating in the early hours of the morning the past week.

Vic. Grundy and Harold Cam of Sirdar were business visitors here last week, purchasing a quantity of dressed pork from Frank Simister.

While in operation one day last week the rock crusher broke from its anchorage and crashed across the road and through the fence on the Guy Constable ranch before coming to a standstill.

Wynndel

Mrs. R. Uri and Mrs. R. Andestad, the Wynndel delegates to the Women's Institutes' conference at Nelson, left for that city on Wednesday last.

Mrs. Packenham and family, who have been visiting with Mrs. Joy for the past week, have left for their home in Erickson.

Anglican Church service on Sunday afternoon at 3 o'lock, will be the annual harvest thanksgiving service.

Miss P. Foxall returned on Thursday from a short visit with Nelson friends.

At a meeting of the Anglican Women's Auxiliary on Wednesday last at the home of Mrs. Davidge, it was decided to hold a sale of work on November 16th, to be followed by a dance.

Miss M. Irving of Creston was a weekend visitor with Miss M. Joy.

E. A. Hackett, who has been in Alberta for some time past helping with the harvest, returned on Saturday, and reports a good crop at the points at which he worked in the Lethbridge section.

Mrs. T. E. Slingsby left at the weekend to join Mr. Slingsby at Natal where he has secured employment.

E. Foxall of Nelson was a weekend visitor at his home here.

Apple harvest is nearing an end at Wynndel. The Co-Operative Fruit Growers expect to close the packing shed at the end of the week.

A meeting of the Co-Operative Fruit Growers will be held in the old schoolhouse on Saturday at 8 p.m., when J. B. Dickey of the Canadian Fruit Distributors, Calgary, Alberta, will address the meeting.

Erickson

Mr. and Mrs. Geo. Cartwright were motor visitors to Cranbrook on Saturday accompanying their daughter, Mrs. MacDonald, and children, home.

Mr. and Mrs. Frank Staples were motor visitors to Cranbrook on Thursday

Richard Hall who has spent a two weeks' vacation with his parents, Mr. and Mrs. John Hall, returned to Revelstoke on Thursday.

Mrs. Clements of California, who has spent the past three months at the ranch with Mr. and Mrs. H. Clements, returned home on Tuesday.

Mrs. W. R. Long was a Nelson visitor at the end of last week where she was attending the Women's Institute convention.

Miss Joan Kemp is a visitor at Boswell at present, leaving on Thursday.

Lee Heric, who has spent the last three weeks at the ranch here, left on Monday to resume work at Yahk.

Mr. and Mrs. Frank Staples returned on Tuesday from a visit at Spokane.

Mrs. Wukly, who has been visiting at the Heric ranch for some time, left on Saturday for Cranbrook and Kimberley, to visit daughters there, before returning to her home in Washington.

Erickson is justly proud of the showmade by local residents at Creston's fall fair. Mrs. Telford scored most points in the cooking class. and Mrs. G. Cartwright was second in the whole fair for first prizes won.

Fast work is being made at distributing the steel pipe for the supply of irrigation water to the different ranches from the big cement main pipe line. Steel pipe laying will be completed from appearance before the big main is ready for use.

Surely Erickson is in the banana belt. On October 7th, E. J. C. Richardson was picking pickling cucumbers for market, while on the 10th Sam Fraser was still picking tomatoes for shipping, and they are still ripening on the vines.

Sirdar

R. Heap returned on Sunday after a week's visit with friends at Lethbridge and other Alberta points.

Jas. Wilson of the Grey Royal Granite works returned on Thursday from a business visit at Cranbrook.

Mrs B. F. Whiteside of Crowsnest was renewing acquaintances in Sirdar at the first of the week.

Mr. and Mrs. J. Coutts of Cranbrook were visitors with Mr. and Mrs. T. Rogers on Wednesday.

Theo. Lane of Trail is a Sirdar visitor this week, a guest of Mr. and Mrs. George Cam.

Mr. and Mrs. Cameron and family left on Tuesday for a visit with Mr. and Mrs. Ryckman at Kellogg, Idaho, and then are going to visit with Mrs. Cameron's parents at Penticton.

P. Cherbo was combining business with pleasure on a visit to Kimberley last week.

Mrs. Martin left on Tuesday on a visit with friends in Fernie.

Kitchener

Mr. and Mrs. Bliss are spending a few days on a visit with Bonners Ferry friends this week.

Quite a large crowd from Kitchener were at the dance at Yahk on Saturday night.

Mr. and Mrs. Foisy were motor visitors to Bonners Ferry during the past week.

Mr. and Mrs. Albenson of Kimberley were Sunday visitors at Kitchener.

Miss Popoff of Nelson is a Kitchener visitor, a guest of Mis Laura Andeen.

Marcel Senesael has again returned to Kitchener after a short return visit to the hospital at Cranbrook, and is feeling much his oldtime self.

Miss Mildred Andeen left this week for Cranbrook.

Messrs. Ragosell and McLellan of Kaslo are spending a few days in Kitchener.

Mrs Payne and Mrs. Manuel of Creston were Saturday visitors with Mrs. Senesael.

Birth—On October 11, to Mr. and Mrs. W. B. Henley, a daughter.

Lister

Mr. and Mrs. Kin. Demchuk of Vancouver have just arrived on an extended visit with the former's parents, Mr. and Mrs. Sam Demchuk.

The Comunity Society had eight tables of players out for their court whist on Saturday night at which the prize scores were made by Mrs. D. J. McKee and W. P. Edwards. A splendid lunch was served to close proceedings just before midnight.

There was a fair turnout at the open meeting of Lister-Huscroft Farmers' Institute at Lister school on Monday night at which S. R. Bowell, Dominion egg inspector, gave a talk on grading and marketing eggs, and at the close of his address answered numerous questions on this subject that were put to him.

Never since the settlement was inaugurated has there been such activity as was in evidecce the past week in the matter of purchasing Lister farms, no less than seven twenty-acre tracts passing into new hands. The most important transfer was that of the former Lowes and Stone-Langston farms, which were purchased by Fred Lemke of Nordegg, Alberta, who will move here with his wife and family in the spring. The former Henry Christensen place was sold to Ludwig Katina, who is at preaent in Nelson, and with his wife will arrive in the spring to stay permanently. Gottleib Peltzer has purchased the Burgess place and with his wife and two children are expected to move in shortly. Adolph Sommerfeld has secured the John Head farm. He is also a married man and should become a permanent resident almost immediatly. The other sales were the former Millington ranch, which Mr. Dent, who is at present living at Creston, has purchased, while "Jock" Osborne, who has been living here for some months past, has purchased the former Noble farm.

For September school shows average attendance of 98 per cent., which is remarkably good for the opening month. Those taking highest standings were: Grade 6—Douglas McKee, Frank Yerbury. Grade 4—Douglas Sinclair, Ruby Ross, Kirk Beard. Grade 3—Cyril Bird, Gladys McCullough, Raymond McKee, Manning Powers, Kitty Beard. Grade 2—Alice Wellspring Vivian Ross, Frank McCullough. Grade 1—Eric Jacks, Margaret Sinclair, Millie Beard Gilbert McCullough, Raymond McCullough.

Perfect attendance—Cyril Bird, Frank McCullough, Gilbert McCullough, Raymond McCullough. Raymond McKee, Manning Powers, Douglas Sinclair, Margaret Sinclair, Alice Wellspring.

Orchestra Makes Debut Oct. 29th

First of Series of Popular-Price Concerts—T. Goodwin Again Conducts Musicians—Program to Feature Two Soloists.

In announcing the first of a series of concerts the Players' orchestra wish to correct an error in last week's issue in which it was stated that Mr. Stephens of Canyon was the new leader. No change has been made in conductor, as the orchestra is still in charge of T. Goodwin, who so successfully handled the Players last season, and who is now preparing the orchestra for its first concert appe rance at the Grand theatre on Tuesday evening, October 29th.

Music lovers are taking a keen interest in the progress of this talented group. Much good work has been done in the two years' life of the organization. What was raw material at the orchestea's inception is now showing real talent and in attempting the program to be presented on the 29th, will demonstrate that neither time nor effort has been spared in the endeaver to present the best in music. The initial program will be of music prepared by J. S. Zamecnik. It will be varied, with two soloists during the evening, which will go a long way in providing an evening of exceptionally good music.

The series of concerts arranged for the season will be progressive in nature. Each concert will be of more difficult music and by composers of the old school. Each will be carefully prepared and every effort will be made to give a true interpretation of the composer. The conductor has made a special study of selecting music best suited to the talent and instrumentation at hand.

In these concerts the idea will be not only to present music by the local amateurs, but also to obtain soloists of a high order to balance the bill. Programs will be available to concert patrons and explanatory references will be made by the conductor.

High School Tennis

On Monday afternoon the final games of the high school tennis tournament were held. A great deal of interest has been shown in this event since a prize was to be given to the best boy and girl players in the school. For three weeks the school court has been crowded, some players staying till after six o'clock each night practising for the tournament. By Monday. however, out of the 16 contestants who took part, only four were left, Jean McCreath and Marce la Sanford; Gweedo Benedetti and Claude Simpson. In the first gome on Monday Marcella found herself up against strong opposition, losing out by a score of 6—2. In the next game Claude proved to be too much for Gweedo, defeating him 6—1. The two winners will receive their prizes at the next meeting of the literary society. This week the high school students are busy preparing for the fall examinations, which begin today.

What Is Education?

Educational policies and educational methods are today the subject of world-wide investigation, study and discussion, and particularly so in all English-speaking countries. Perhaps in no previous period has the subject of education received more attention from the masses of the people. To a greater extent than ever before parents are showing a real interest and deep concern. They are in a questioning and questing mood, anxious to know whether accepted policies, systems and methods are productive of the best results.

It is also true that our schools and higher institutions of learning are costing more, and that the bills which have to be met by the taxpayers in order to provide and maintain their school systems are mounting year by year, and already constitute a large percentage of the annual tax levy. The vast majority of taxpayers do not object to this if,—and this is the vital matter,—they are obtaining decidedly better results in the education of the younger generation, and all that they have a right to expect from such increased expenditures.

The higher standard of living now so universal, as contrasted with thirty, forty, fifty years ago, has the effect of enabling parents to give their children high school and university training to an extent hitherto unknown. Tens of thousands of children now proceed to high school, collegiates, and colleges who not so long ago would have completed their academic training when they finished with public school. And the demand is for still greater facilities for secondary education, especially for those resident in rural areas and the smaller hamlets and villages scattered all over the land.

The question arises in the minds of many: Are all these young people being truly educated? Are the thousands of young men and women annually gathering from our universities with the right to add B.A., M.A., and other letters after their names educated in the truest and highest acceptation of the word? Or are they merely equipped with certain tools which many of them do not know how to use for their own advancement and the welfare of the human family?

Dr. George A. Coe, veteran educationist of Northwestern University, and recently retired from Teachers College, is convinced that a good education is education for good living. "What an absurdity it would be to certify as well-educated a youth who has never been socially awakened,—well-educated, yet negligible as far as social well-being and social progress are concerned." Dr .Coe presents "ten points" by which a truly educated man can be detected, which are worthy of consideration:

1. An educated man is one who is trained to use the tools of human intercourse with readiness, precision, and accuracy. We mean, especially, language and the rudiments of number.

2. An educated man must be able to study and to think without guidance from others. He must be—to some extent—a thinker, not a mere imitator.

3. An educated man must have sufficient knowledge of nature to understand the main processes upon which human life and happiness depend.

4. An educated man knows enough of history to enable him to understand the main achievements of man.

5. An educated man is acquainted with the major resources for intellectual and esthetic enjoyment. He knows nature, literature, music, and the other arts sufficiently to choose superior to inferior enjoyments.

6. An educated man is marked by his interests as well as by his trained abilities. His attention is habitually attracted by significant rather than trivial objects, events, pursuits, and enjoyments.

7. An educated man must have not only this general culture, but also training for a specific occupation. Focalized activity that is directed toward some sort of efficiency has to be included.

8. An educated man must have toward his fellows the habitual attitudes that are commonly called ethical,—such attitudes as honor and honesty, helpfulness and good-will and co-operation.

9. An educated man must have loyalties to at least some of the important organizations and institutions of society, such as one's family, one's country, one's church.

10. If there is an inclusive meaning in life, the sort of education that I have been outlining should include some apprehension of, and feeling for, the divine; the ideally educated man will reverence God, and know how to worship.

Woman Salvages Ships

Mrs. Cox, of Glasgow, Scotland, is believed to be the only woman salvager in the world. She helped raise the German fleet sunk at Scapa Flow, in 1919. In the five years she has aided in raising 26 destroyers and two battle cruisers.

Poor Year For Tree Seed

The season of 1928 was a poor one for the collection of forest tree seed throughout the western provinces, and orders received by the Forest Service of the Department of the Interior, Ottawa, for seed could be filled only in part.

To Return German Property In Canada

Gross Value Of Holdings In Dominion About Thirteen Millions

German property in Canada taken over during the Great War will be returned as a result of The Hague settlement, to which the Dominion is a party.

Thomas Mulvey, K.C., custodian of enemy property, will leave shortly for Berlin to conclude the details of the transfer. The gross value of German property in custody in Canada is said to be approximately $13,000,000, comprising real estate, bonds and corporate securities.

India Buys Canadian Grain

First Shipment To Be Made From Montreal Shortly

Thirty-two thousand quarters of grain will be shipped from Montreal to India in the near future at a carrying charge of 22s. 6d. per ton, it is announced by Thomas Harding and Son, agents of the S. S. Zurichmoor. It is believed this will be the first consignment of Canadian grain ever shipped to India. The local agents have not yet been notified of the particular type of grain required.

WAS ALWAYS AILING NEVER FELT WELL

Health Restored Through the Use Of Dr. Williams' Pink Pills

"I am one of the many who have found new health through the use of Dr. Williams' Pink Pills," says Mrs. Everitt Dowe, South Nelson, N.B. "For some years I never felt well, and at times was so weak that I would be confined to bed. At the very best I was in an ailing condition and found it difficult at all times to do my housework. I was subject to headaches, poor appetite, breathless at the least exertion, and very pale. Before Dr. Williams' Pink Pills were recommended to me I had tried several medicines and felt that I would always be an invalid. A friend strongly urged me to take Dr. Williams' Pink Pills, and finally I consented to do so, but without much hope that they would help, where other medicines had failed. But in this, to my joy, I was mistaken. I had not been taking the pills very long when I knew they were helping me. As I continued their use I found my appetite improving, I slept better at night, and my strength was gradually returning. I continued taking the pills for several months, when I again found myself a well woman, and I believe that had it not been for Dr. Williams' Pink Pills, I would today be a helpless invalid. The pills have since been taken by others in our family, with the same beneficial results. I strongly urge every weak woman to try this grand health-building medicine."

If you will send your name and address to The Dr. Williams' Medicine Co., Brockville, Ont., a little book, "Building Up the Blood," will be mailed you postpaid.

You can get these pills through any medicine dealer or by mail at 50c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Egg-Marketing Record

New records for the co-operative marketing of eggs in the western provinces have been established for the first eight months of 1929. To August 31, the Canadian Poultry Pool, Limited, the central selling agency for the western provinces, has handled more than 7,000,000 dozen eggs.

The walking speed of the average man is aboutt three miles an hour.

The Most Beautiful BLACK you have ever seen

"THE most beautiful black you've ever seen!" "All my friends admire my *new* black silk!" "The coat I thought was hopelessly spotted is now a new, beautiful black!" These are typical comments from women who have used these true, jet black dyes.

Diamond Dyes Black never gives cloth a greenish or bronzy look, as so many black dyes do. Like Diamond Dyes Red and all the other Diamond colors, it is easy to use and gives such beautiful results because it is rich in pure anilines. It's the anilines in dyes that give them brilliance, depth and fastness; make them go on smoothly and evenly, without streaking or spotting. And Diamond Dyes *contain the highest quality anilines that money can buy.* The *white package* of Diamond Dyes is the highest quality dye, prepared for general use. It will dye *or tint* silk, wool, cotton, linen, rayon, or any mixture of materials. The *blue package* is a special dye, for silk and wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. When you buy—remember this. The *blue package* dyes silk or wool only. The *white package* will dye every kind of goods, including silk and wool. Your dealer has both packages.

Diamond Dyes

Sun Proof

EASY TO USE—BETTER RESULTS

Diamond Dyes contain the highest quality anilines money can buy. And it is the anilines that count. They are the life of dyes; the source of their rich colors; brilliance and permanence.

Real English Pantomine

Colossal British Production, "Humpty Dumpty," Coming Soon

Old Country folk who have long craved to see a real English pantomine, and Canadians who have heard so much of these sumptuous musical entertainments from friends will welcome the news that at last a British producer, Mr. Philip Rodway, has had the courage to send us one of these colossal productions in "Humpty Dumpty," which will be seen at the Grand Theatre, Regina, for three nights and Wednesday matinee, commencing October 21st.

When "Humpty Dumpty" was presented in Toronto, it was an instantaneous hit which is proven by the following from the Toronto Daily Telegram.

"This season's triumphant march of the British theatre into the hearts of Canadians made notable progress last night when a large audience at the Princess Theatre acclaimed Philip Rodway's presentation of the Birmingham Pantomine Company in the musical pantomine extravaganza, "Humpty Dumpty." A story drawn from fairyland it is, but one that appeals to young and old—a message of good cheer and optimism, with new faces and new songs, diverting, wholesome, fascinating.

"Wee Georgie Wood, of course, is the outstanding star. The diminutive player is a gifted actor exuding personal magnetism, with that rare ability to change a crowded scene from merriment to pathos merely by altering the expression of his face or the tone of his voice. He can build up mass interest in some conceit or other till it soars high, and then crash it down in a heap with a lightning-like flash of irresistible wit. His smile is impish in its compelling good humor. Then, in an instant, he adopts a mask of sadness, and the composite face of all the little boys ever lost in snowstorms tears at the heart-strings of the audience. His part is that of "Humpty Dumpty," a nondescript lad out of a broken egg. Few who see it will forget his classic imitation of a boy in the process of being washed at bedtime by his mother. Later as a Scotch laddie with a dog, his antics are inimitable and his Highland accent, by the way, worthy of Lauder himself. Furthermore, Al. Johnson never knew as well as "Wee Georgie" how to talk to an audience in intimate fashion. It is some feat to get a Toronto theatre singing unaccompanied songs. "Wee Georgie" did it last night at the Princess."

The Oil Of Power. — It is not claimed for Dr. Thomas' Eclectric Oil that it will remedy every ill, but its uses are so various that it may be looked upon as a general pain killer. It has achieved that greatness for itself and its excellence is known to all who have tested its virtues and learned by experience.

Warden (to prisoner)—"You say you want a key. What in thunder are you going to use it for?"

Inmate—"I want to sleep home at nights—I was only sentenced to 30 days in jail."

For Sprains — Use Minard's Liniment.

To Exchange Ambassadors

Great Britain Has Entered Into Agreement With Russia

Great Britain and Russia have agreed to an exchange of ambassadors, thus paving the way for full resumption of trade and commercial relations between the two countries. The agreement, which is subject to parliamentary approval in England, was reached in a secret meeting at Lewes, England, between Right Hon. Arthur Henderson, foreign secretary of Great Britain, and Russian ambassador, Valerian Dovalesky, who came from his Paris post.

Acids in Stomach Cause Indigestion

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach. The delicate stomach lining is irritated, digestion is delayed and food sours, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestants are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist some Bisurated Magnesia and take a little in water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bisurated Magnesia (in powder or tablet form—never liquid or milk), is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

MACDONALD VISIT WILL RESULT IN LASTING BENEFIT

Washington.—"We do hope and believe that the steps we have taken will be warmly welcomed by the people whom we represent, as a substantial contribution to the efforts universally made by all nations to gain security for peace—not by military organization—but by peaceful means, forced by the people and enforced by a sense of justice in the civiliezd world."

These are the concluding words of a joint statement issued by the prime minister of Great Britain and the president of the United States.

The statement declared the governments of Great Britain and the United States accepted the peace pact of Paris as not only a declaration of good intentions, but a positive obligation to direct national policy in accordance with the pledge to renounce war as an instrument of national policy. As a result of this attitude, historic problems might be approached from a new angle, for conflicts between military forces could not take place.

The prime minister and president therefore agreed those questions should become the subject of active consideration, and conversations between the two governments and begin in the same method as was pursued in the naval disarmament discussion of this summer.

The statement asserted the naval conversations had brought the governments so close together that obstacles in previous conferences arising out of Anglo-American disagreements, now seem substantially removed. But agreement could not be completed without the co-operation of the other naval powers. Both the prime minister and the president felt confident such mutual understandings would be reported as would make an agreement next January possible.

"In view of the security offered by the peace pact, we have been able to end, we trust forever, all competitive building between ourselves, with the risk of war and waste of public money involved, by agreeing to parity of fleets, category by category," the statement said.

Conversations of the most private and free nature between J. Ramsay MacDonald and Herbert Hoover, extending over a period of five days, ended with the issuance of the statement, and after having inaugurated what may become the custom of word of mouth communication between the heads of the British and American peoples.

Incidentally Mr. MacDonald has gained for himself a great personal triumph in Washington and throughout the United States, to which triumph his daughter, Ishbel, has contributed not a little.

The profound, the immense, valud, which no observer here doubts attaches to the unprecedented conference of the prime minister with the president, is suggested in the final sentence of the joint statement: "We hope and believe that the steps we have taken will be warmly welcomed by the people whom we represent," and the more tangible substance of that value seems to lie in the announcement that in the new atmosphere created by the peace pact, discussions of historic problems between the two nations will be begun.

Throughout the visit of the prime minister to Washington he has continually laid emphasis upon the Paris pact, referring to it in his senate address as a "monument in history."

It is now proposed in the circumstances of war being declared "unthinkable" and the assumption that war is banished, to go forward toward the solution of problems "involving important technical matters requiring detailed study," thus making the pact not only a promise, but at the same time a background and motive force in international politics.

Wedding Is Postponed

Denver, Colo.—The Denver Post says that the wedding of Henry Bradley Martin, Jr., and Valerie French, granddaughter of the late Field Marshal French, of England, has been postponed for one year.

Defends Bishop Lloyd

Saskatchewan Premier Commends Work Of Anglican Clergy

Saskatoon.—A defence of the immigration work of Bishop G. Exton Lloyd, plans for more educational facilities in the province, the establishing of an office in England to encourage a greater influx of British immigrants, and an attack on Peter Veregin, Doukhobor leader, featured an address by Premier J. T. M. Anderson to visiting clergy, graduates and students of Emmanuel College here. The occasion was part of the third day's program of the Anglican College's jubilee.

During his luncheon address Dr. Anderson lauded the important and valuable work of the clergy in the progress and welfare of the province, especially during the pioneering days of the West.

The Premier was introduced by Bishop Lloyd who welcomed him as a churchman, Premier and "straight man." He spoke principally on the educational problems confronting the government of the province at the present time and pointed to the great work yet to be done in Ile a La Crosse and Cumberland areas particularly. He said it was possible schools would be established there in the near future.

Grain Board Assistants

Appointments Announced Of Three Representatives For Manitoba, Saskatchewan and Alberta

Ottawa. — The three assistant grain commissioners appointed under the amended provisions of the Canadian Grain Act were announced this afternoon by Hon. James Malcolm, Minister of Trade and Commerce, as foolows:

Manitoba—Professor T. J. Harrison, Manitoba Agricultural College.

Saskatchewan—Hon. R. S. Dundas, of Pelly, Sask.

Alberta—W. H. Blatchford, Calgary. The above appointments were made by the cabinet on the recommendation of the Board of Grain Commissioners.

The appointments are in pursuance of amendments made to the Canada Grain Act at the last session of Parliament following an extensive investigation by the standing committee on agriculture and colonization.

The commissioners of the board appointed some time ago consist of E. B. Ramsay (chief commissioner), Hon. C. M. Hamilton and Dr. D. A. MacGibbon.

Large Increase In Federal Income Tax

Yukon Only District Not Ahead Of Last Year

Montreal.—Collections of the Federal Income Tax for the six months ended September 30 last, totalled $63,020,630, an increase of about 20 per cent. over the same period last year when collections were $52,972,358, says a special despatch from Ottawa, published in the Montreal Gazette. Figures were made public by Hon. W. D. Euler, Minister of National Revenue. All collections districts in the Dominion with the exception of Yukon showed an increase.

Afghan Minister Expelled

London, England.—Shuja Ed Dowler, Afghan minister at London, who remained at the legation here after the downfall of his king, Amanullah, has been expelled from Great Britain. Some morning papers said the expulsion took place several weeks ago and said it was for "impersonal reasons."

Will Make Four Speeches

Washington.—Four speeches will be delivered by Prime Minister Ramsay MacDonald during the course of his Canadian trip. The premier is planning to speak in the cities of Toronto, Ottawa, Montreal and Quebec. From Quebec, he sails for England on October 25.

Pensions Too Late

London, Ont.—Six aged London men and women whose applications for old age pensions had been approved and who were scheduled to receive payments beginning November 1, have died since their cases were passed upon.

MAY BECOME QUEBEC CHIEF JUSTICE

Hon. Lucien Cannon, solicitor-general in the King ministry, who, according to rumors circulated in Liberal circles, is in line for chief justiceship of the province of Quebec.

'Plane Was Wrecked In Forced Landing

Missionary and Family With Pilot Narrowly Escape Death

Prince Albert.—Missing for three days in the north country, the aeroplane carrying Pilot Alva Malone, a missionary, and his family, was discovered a mass of wreckage near Lac la Ronge, Sask. It was disclosed that the machine was damaged beyond repair, when a forced landing was followed by a crash and the passengers narrowly missed death.

Pilot Malone reached Lac la Ronge after walking from the scene of the mishap. The missionary, Rev. W. N. Fisher, en route with his wife and two children to take over the Anglican mission at Lac la Ronge, decided to continue their journey by canoe.

Making Tour Through West

Premier King Plans To Speak Twice In Each Province

Ottawa, Ont.—Premier King visits Western Canada this autumn. He will traverse both the northern and southern routes across the prairies and British Columbia, going westward to Prince Rupert, down to Vancouver and Victoria, and returning through the southern routes. He expects to make two speeches in each province.

Mr. King will be accompanied on the tour by Senator Andrew Haydon. Colonel The Hon. J. A. Ralston, Minister of National Defence, who will be in the west at the same time, will join the Prime Minister at several points where public appearances are to be made.

Service Will Start On December First

Prairies To Have Air Mail Within Six Weeks

Ottawa.—The extension of the air mail service on the prairie beginning December 1 is a step toward a national service. Mail trains will carry the heavy mail while first class mail will be carried by 'planes.

Beacons will be installed at Regina, Saskatoon, Edmonton, Calgary and Banff next month. When service is in full operation eighteen hours will be cut in time from Vancouver to Montreal, and twenty-four hours from Montreal to Vancouver. The disparity in time of the eastern and western service will be due to train connection required in the picking up of the mail. Air mail service down the McKenzie River will start about October 27, and will be twice a week from Edmonton as far north as Aklavik.

With the close of navigation on the St. Lawrence, the winter air service on the north shore of the St. Lawrence will begin. Another service to start with the close of navigation is from Leamington to Pilie Island.

No Invitation Received

Canada Not Formally Asked To Attend Naval Conference

Ottawa, Ont.—Canada has received no formal invitation to attend the five-power naval disarmament conference in London, next January, Premier King states. Preliminary correspondence on the subject showed that the dominions would be welcome to participate directly in the parley, but there had been no definite invitation. The premier said he would consider the question of Canada's representation when a definite invitation is received. Asked if he would go himself, he replied that he thought that would be unlikely. It was too near the opening of the Dominion Parliament, he pointed out.

Canadian Drowned In South

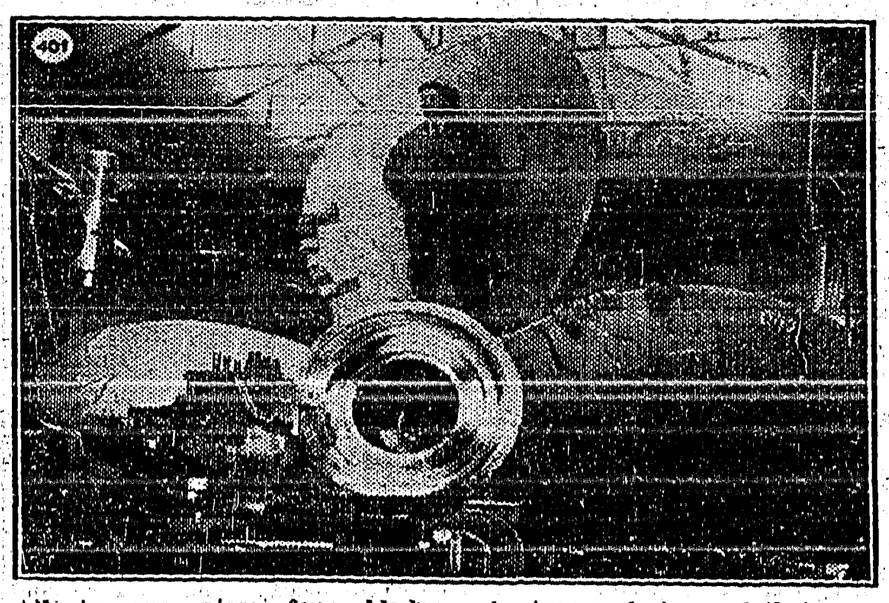
Vancouver Men Lose Lives At Long Beach, California

Long Beach, Calif.—Two men, visitors here from Vancouver, B.C., were drowned in a rough sea running off the beach. They were Chester Palmer, railroad engineer, and A. McPhee, a Canadian Government locomotive inspector.

Indentification was made by Joseph McCramer, Los Angeles, who accompanied them to the beach.

Palmer and McPhee were swept beyond their depth by an exceptionally large wave. Their bodies were recovered within a few minutes, but efforts to revive them failed.

World's Largest Bronze Propeller



All in one piece—four blades and boss—the propeller shown above in the process of manufacture is the world's largest bronze propeller. It has just been made in the Charlton Works of J. Stone & Co., Ltd., for the new Canadian Pacific liner "Empress of Japan," which will take up service between Canada and the Orient next July.

More than 35 tons of special bronze was used in casting this "wheel," which is over 20 ft. in diameter. There are two of these on the new 25,000-ton vessel. They will absorb 15,000 shaft horse power each and will drive the liner at a speed of 21 knots.

A strange feature of their manufacture is that the bronze is poured into the molds from below, thus ensuring perfect metal in all parts. After the casting has cooled and the molds have been removed the enormous screw is turned on a lathe and then planed in a special machine that keeps its pitch accurate.

The "Empress of Japan" for which this propellor was made will be 662 feet long, will have a breadth of 83½ feet and all of this will be sent through the water at a speed of 21 knots by two propellers weighing 20 tons apice.

LITTLE DEMAND FOR WHEAT FOR SOME TIME YET

Winnipeg.—At least six weeks must elapse before there is increased demand from European buyers for North American wheat according to a report issued by E. A. Ursell, statistician to the Board of Grain Commissioners, Fort William.

An optimistic note concerning the present serious grain storage situation at head of the lakes ports, however, is contained in Mr. Ursell's statement, received here from Fort William. He points to the increasing movement down the lakes, and forecasts that shipments from prairie points can be handled at lake head ports without more serious congestion, provided the present movement is continued. He also points to the additional storage capacity provided at Georgian Bay ports this fall.

Toronto.—No immediate solution was seen of the present grain congestion situation by Sir Henry Thornton, president and chairman of the Canadian National Railways, he said, in an interview here.

"I know that it will cause a very substantial reduction in our net earnings, and this is upsetting after our starting off with such bright hopes of a banner year," Sir Henry said.

"There must be a compromise of some kind soon," he said, "one side is bound to crack."

"I hope the farmers get plenty for their wheat," he said, "but I hope something happens soon to relieve this situation."

Doukhobors Flocking To New Settlement

Radicals Joining Sons Of Freedom At Porto Rico, B.C.

Victoria. — Information reaching Victoria is to the effect that radical Doukhobors are drifting into British Columbia from Saskatchewan and the United States, and have swelled the Sons of Freedom at Porto Rico, some 18 miles from Nelson, from 150 to 400 persons. Premier S. F. Tolmie said he was seeking the co-operation of the Federal Government in restraining this movement.

At the same time, Premier Tolmie received a telegram from Independent Doukhobors of Thrums and Castlegar, who declared that their brethren at Porto Rico were exiled, short of food and facing serious privation. To them the premier replied that the Sons of Freedom at Porto Rico were in no sense exiled, that they would return to their former homes or work so long as they obeyed the laws of the country.

"They are not under any restrictions which do not apply to all citizens of the province," he said. "If unusual cases of privation exist we are prepared to relieve them, but we do not propose to countenance any violation of the laws of this country," the premier stated.

Sea Monster Reappears

Has Been Seen Again In Cowichan Lake, B.C.

Cowichan Lake, B.C.—Appearance of a "great headless monster" in the placid waters of Cowichan Lake recently has been reported here and the story is received with mingled terror and curiosity. Several search parties have been sent out to verify the original chronicle brought in by James Thomas, of Riverside, who claims that he saw the creature while cruising in his powerboat.

Several months ago a visiting doctor reported having seen a sea serpent in Cowichan Lake and was jeered. The creature reported by the doctor has evidently reappeared.

B.C. Pioneer Dead

New Westminster, B.C. — Charles George Major, 80, resident of British Columbia for 70 years, and a pioneer link with the Cariboo gold rush days, died at his home here. Mr. Major drove the first stage coach over the Cariboo highway during the hectic days of the gold rush. Later he became official administrator for the county of New Westminster.

THE CRESTON REVIEW

Issued every Friday at Creston, B.C. Subscription: $2.50 a year in advance; $3.00 to U.S. points.

C. F. HAYES, Editor and Owner.

CRESTON, B.C., FRIDAY, OCT. 18

HOME BREW

These many moons ago a select committee of Creston Board of Trade was named to assemble the facts and figures and draft the necessary memorial to be discussed with the minister of public works acquainting Hon. Mr. Lougheed with the real necessity of his department providing Creston with a public building. Offhand one recalls that quarters have to be provided for the road superintendent and local forester and their lines of equipment; the provincial police officer with a courtroom, etc.; the assistant horticulturist, the registrar of voters, and a store for the liquor vendor. At the present time Creston carries on with a courtroom about the size of a biscuit box, that is overcrowded if less than a dozeu people crowd into it, besides in other directions being poorly laid out and undersized for such a purpose. A better location is sadly needed for the forestry work, and better accommodation for both he and the road superintendent would be conducive to more efficiency. For the horticulturist, vendor and vote registrar the cash monthly rent is placed at $70, or over $800 a year, which would certainly pay interest on the investment in a building that would facilitate all local department of government work, and be a credit to the village. The government has just set a precedent for Creston to argue its case on, in that tenders have been opened for such a structure at Princeton—a place of less consequence than Creston—that will cost at least $25,000 complete. Here is a chance for Col. Fred Lister, M,P.P., to "show his stuff" in this part of his riding.

In the report supplied us last week in connection with the school sports at the fall fair the information is vouchsafed that it is "Unfortunate that very little school spirit is in evidence in the village school and that the principal is handicapped by boys refusing to take part." After some intimate experience with the athletic features of the fair prior to the time they were organized on the excellent standard that now prevails the Review can readily appreciate that the principal has his troubles in securing entrants for the different events. The Keview, however believes there is a simple remedy for this state of affairs and the cure lies in having the trustee board appropriate a sum that certainly need not exceed $100 and with these funds put on a field day exclusively for the Creston school, which, we take it, would be compulsory in that it would take the place of the regular school session for the afternoon on which the sports were staged. Our idea would be to hold these sports the second afternoon of a three-day fair, with the winners competing next day in the Valley schools' field day for the championship shield. It seems quite safe to say that Creston is about the only town in the province boasting a five-room public and two-room high school that does not stage an annual field day, and in that way do something to encourage athletics in the community. Under the plan outlined it is more than likely there would be a good turnout of fathers and mothers who could co-operate to great advantage with the teachers in seeing to it that all the young hopefuls face the starter in these events to determine the entrants for the championship sports next day.

While many others are showing considerable ability in setting forth reasons as to why the 1929 fall fair was below the standard of other years, tbe Review wishes extend its congratulations to the board of directors for the grit and generally good management displayed in staging an exhibition in a year when the community was sadly deficient in the sort of spirit requisite and necessary for putting over a fall fair. Considering the season the Valley has experienced and the resultant temper of most residents, there is no reason to be ashamed of the display which, with the exception of fruit, has been duplicated on other occasions. Even if no better purpose had been served than that of keeping unbroken Creston's record for holding a fair commendation would still be due the management ment, because the local aptitude for doing its best when it knows the worst 1930 is bound to see a wonderful revival in practical interest in the autumn exhibition. In order, however, to capitalize 100 per cent. on this repentant spirit the Review believes it will be well to hold the annual meeting at the earliest possible date so that those interested can be familiarized with the shortcomings of this year and absorb any and all ideas that may be submitted for the better conduct of the 1930 exhibition.

Local and Personal

W.E.Card wishes to inform the general public that he is still continuing selling Crystal ice cream until further hotice in the Review.

Creston Farmers' Institute have an interesting announcement this week. They are offering best grade potatoes at $3 per 90-lb. sack, cash with order.

Members of Creston Valley Post of the Canadian Legion are reminded of the annual meeting on Monday night, October 21st, at the town hall at 8 o'clock.

An important sale of residential property was put through this week by F. H. Jackson who has sold the Capt. Crompton property on Victoria Avenue to Chas. Murrell.

Rev. W. A. Greer, a former pastor of Creston Presbyterian Church, who is now in Vancouver, is taking service at Mount Pleasant Presbyterian church in that city this month.

Sacrament of the Lord's Supper will be dispensed at St. Stephen's Presbyterian Church on Sunday morning, October 27th, with a preparatory ser ice on Friday evening, 25th.

High water mark for a church silver tea was established on Saturday when the intake at Christ Church Ladies' Guild tea at the home of Mrs. F. H. Jackson was just over $21.

The Women's Institute will celebrate their fourteenth anniversary with a bridge whist at the Parish Hall on Friday evening, October 25th, cards to start at 8.15. Admission 50 cents.

The Valley will this year furnish a record for cash intake on shooting and trapping licenses. To date payment of this sort at Creston office of the provincial police are well over $1000.

At the Kootenay-Boundary Women's Institute conference at Nelson last week Mrs. R. Stevens was again elected one of the members of an executive of five, and was chosen district secretary-treasurer.

Since the end of June and up till the middle of October the Valley rainfall has been hardly more than 1½ inches. The official records snow July precipitation at .14; August .49; and September .50.

CRESTON FARMERS INSTITUTE

The egg market is very firm throughout the Kootenay. Prices to producers are: Extras 50c. Firsts 45c. Pullet Extras 35c. Dealers are paying for live fowl: No. 1, 21-22c. Light fowl, 15c. Roasters 24c.

Notices are up for the annual meeting of the Ladies' Conservative Club, which will be held on Tuesday afternoon, October 22nd, at 3 o'clock, at the Parish Hall. Mrs. Mallandaine is the retiring president.

The village share of the cost of hard surface road repairs on Main street between the Mercantile corner and the Presbyterian Church was $208, and the bill was passed for payment at the council meeting on Monday night.

Mrs. R. Stevens was a visitor at Nakusp this week, where she was attending sessions of the newly-organized Arrow Lakes district Women's Institute conference, remaining for a few days visit with old friends in that town and at Burton.

Burglars forced an entrance via a back window into the S. A. Speers store some time early Tuesday morning and got away with about $15 in cash. So far as known no store goods were taken. The provincial police have the case in hand.

E. G. Timmons has been notified of his appointment as official radio license issuer for Creston and district. This will prove a great convenience to radio owners who, in the past, have had to get their licenses to operate their radios from Ottawa.

In a re-check of the prize winners the prize given for most first prizes has been won by Sam Moon, with a total of 16, with Mrs. G. Cartwright secnnd, with a showing of 15. The prize is a tubstantial one, a gasoline lantern donated by the Wood-Vallance firm at Nelson.

Pastor Todd, who has been in charge of the full gospel Penticostal mission, holding services in the Legion Hall, for about four months, left on Wednesday for Vancouver Island, where he expects to take charge of similar work at either Duncan or Port Alberni. For the present the local work will be in charge of Mr. Hewitt.

Creston Knights of Pythias are looking forward to the biggest night in the lodge's history on Thursday evening next, October 24th, when Dr. T. Fletcher the B.C. grand chancellor commander, is to pay his official visit, and along with him is expected to come J. M. Lampert of Boise, grand chancellor for the state of Idaho, who will be accompanied by delegations of Pythians from both Sandpoint and Bonners Ferry.

At the meeting of the Community Players on Monday night several new members were added, giving the organization ample talent from which to select tuose who will take part in the plays to be submitted thia season. Mrs. Winchcombe, Miss Edith Crawford, and Messrs. Dr. McKenzie, F. V. Staples and H. Purchase were named a board of directors who will have charge of the selection of plays and those to fill the different roles.

RANCH FOR SALE

Ten acres with about 300 fruit trees, mostly McIntosh and Delicious, irrigation, with or without equipment, revalued by S.S.B., long term payment at 5 per cent., best buy in Creston Valley. Geo. Davie, Canyon.

Watch Crystals

I have placed in stock an ussortment of Watch Crystals and can repair all broken crystals on any make of watch from sizes 12 to 18.

LETTERS TO THE EDITOR

Larger Sizes Penalized

Editor, The Review:

Sir:—Your editorial of October 4th surely carries with it the approbation of the Creston valley fruit rancher.

Too long has Creston fruit been played with, or ignored as occasion arises by the powers that be in the Okanagan section.

Your mention of the recent injustice toward the entire Kootenays in the favoring of the Okanagan with a reduced fruit rate to the coast is very timely.

Surely the Okanagan must be afraid of Kootenay's competition on the Vancouver market alone. But, Mr. Editor, here is another question up before the fruit grower in general.

The larger sizes of both Macs and Delicious are being penalized on the market now, and what on earth for? It is a mighty queer situation after being told for the past fifteen years or more, that the prairie consumer wanted big apples only, and that story being maintained year after year, especially as our apples got smaller owing to the sizing of our trees and the lack of average precipitation, etc.

The Macs are penalized when bigger than 113's

Now what does that mean when the prizes in our local shows have been for years within a size or two smaller than this? Also I would suggest that the premier judgment as to sizes is contained in the B. C. Fifth Annual Prize List, which says that 125's are the ideal size for Macs.

Now, what is wrong there?

Then again, consider the Delicious sizing. Our local prizes have been won by exhibits of 96's and 113's to 125's. The B. C. Fifth Annual says that's about right and recommends 104's

But, here again the price list says we are wrong. 80's and smaller are the only good ones, and the larger apples are not worth as much and this at a time when we orchard men have been striving as best we may to grow all big ones. With an irrigation project of about $150,000 to back our opinions, too, a total investment of some $200,000 before we are sprinkling.

All this to supply the insistent demand from the prairie buyers for bigger apples, but now that is all knocked into a cocked hat and we must only grow medium and small sizes. The whole injustice comes just at a time when the price is up, indicating a ready sale for any old size at all. Add to this the unexplained low price of Delicious which seems just about low enough to embarrass the sale of the later shipments of Macs and we have a pretty pickle indeed.

I wonder just how many of those larger sizes will reach the consumer at two-bits less and just who will get the two-bits in the shuffle.

Maybe the powers that be will make another switch next year, just to have something more to chuckle over at our expense and just to keep us jumping sideways for another term of years to readjust our orchards that we will not be zigging when the market is zagging.

Here's hoping that the fruit grower will soon take his own business into his own hands and tell the marketeers where to go and how to get there. A good many of us are getting a little tired of this infernal fruit marketing and are accumulating too many gray hairs in the struggle to keep our heads above water and pay our way.

A Public Danger.

Caught Disease On the HANDS!

Skin disease threatens us every day. Invisible germs of blood-poison, eczema, etc., are waiting to infect the least cut or sore place. The money you use carries germs—you get them on the handles, rails and straps of the trains and street cars, and in a score of other ways.

Solely through Zam-buk, Mr. Henry C. Davis, of South 17th Street, Kansas City, U.S.A., has just escaped a virulent type of eczema, contracted, he suspects, through use of public towels.

"I had medical advice," he says, "tried in addition all sorts of so-called eczema remedies, without finding the hoped-for relief. Zam-buk treatment soon gave positive results. It took away the painful irritation and quickly purified and healed the deep troublesome sores."

WORLD HAPPENINGS BRIEFLY TOLD

The National Research Council has been asked to appoint an associate committee on weed control research.

The Earl of Harewood, father-in-law of Princess Mary, died at his ancestral estate, October 6. He was 83 years old.

Admiral Sir Richard Phillimore, first and principal naval aide de camp to His Majesty, has been placed on the retired list. Vice-Admiral Sir H. W. Richmond is promoted admiral.

Lady Schultz, wife of the late Sir John Christian Schultz, former Lieutenant-Governor of Manitoba, and Senator, died October 7, at Winnipeg.

R. B. Morley, general manager of the Industrial Accident Prevention Association, Toronto, was elected Canadian representative on the executive committee of the National Safety Council at Chicago.

Canada and the other British Dominions will be represented at the proposed five-power naval disarmament conference in London, England, next January, according to present plans.

If Miller's Worm Powders needed the support of testimonials they could be got from mothers who know the great virtue of this excellent medicine. But the powders will speak for themselves and in such a way that there can be no question of them. They act speedily and thoroughly, and the child to whom they are administered will show improvement from the first dose.

The tulip tree of the Great Smoky Mountains has no relative in America, and only one elsewhere in the world—in far-away western China.

As a vermifuge an effective preparation is Mother Graves' Worm Exterminator, and it can be given to the most delicate child without fear of injury to the constitution.

Surplus oil, for which there is insufficient storage, can be pumped back into the earth to remain there for future use.

Children's Colds Best Treated Externally

THAT's why modern mothers prefer Vicks—it cannot upset delicate stomachs. Rubbed on throat and chest, it acts two ways at once:

(1) Its healing vapors, released by the body heat, are inhaled direct to the air passages;

(2) It "draws out" the soreness like an old-fashioned poultice.

acts 2 ways at once

VICKS VAPORUB

OVER 17 MILLION JARS USED YEARLY

X-Ray In New Role

Is Aid To Manufacturing and Notably In Aviation

The X-ray, an instrument of physicians and surgeons, has become a tool of the foundry room, and its benefits to the metal industry have been of considerable aid to manufacturing, notably in aviation, according to the statements of W. L. Fink, metallurgist, before the National Metals Congress at Cleveland.

The shadowgraphs of the X-ray show shrinkage, blow holes, pin hole porosity and other imperfections in castings which never would be discovered by other means of examination, he asserted. As a consequence, the metal frames of airplanes can be thoroughly tested before construction of the plane is completed, a safety device that would be available in no other way.

By the same means castings generally have been improved, Fink declared.

DO NOT NEGLECT YOUR LITTLE ONES

At no time of life is delay or neglect more serious than at childhood. The ills of little ones come quickly and unless the mother is prompt in administering treatment a precious little life may be snuffed out almost before the mother realizes the baby is ill. The prudent mother always keeps something in the medicine chest as a safeguard against the sudden illness of her little ones. Thousands of mothers have found, through experience, that there is no other medicine to equal Baby's Own Tablets and that is why they always keep a box of the Tablets on hand—why they always feel safe with the Tablets.

Baby's Own Tablets are a mild but thorough laxative which by regulating the bowels and stomach banish constipation and indigestion; break up colds and simple fevers and promote healthy, natural sleep. Concerning them, Mrs. Isaac Sonia, St. Eugene, Ont., writes:—"I have been using Baby's Own Tablets ever since baby was a month old and have found that they reach the spot and do more good than any other medicine I have ever tried. I always keep the Tablets in the house and would advise all other mothers to do so." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Test Was Successful

Value Of Instruments To Overcome Perils Of Flying Through Fog Is Proved

Completion of the first airplane flight with a cockpit entirely shut off from light was announced by Harry F. Guggenheim, president of the Daniel F. Guggenheim Foundation for the promotion of Aeronautics, as the final successful test of a group of instruments designed to overcome the perils of flying through fog.

Lieut. James H. Doolittle, seated in the darkened cockpit, took off from Mitchell Field, and flew along the path of a directing radio beacon to a safe landing.

Praise For British Diplomacy

Proposals To Egypt Marvel Of Tact, Says American Paper

The Chicago Tribune says: "The British proposals to Egypt reveal British diplomacy and Imperial statesmanship at their best, and that is the best in the world. Americans must read them with admiration mingled with envy, for when will the United States in its important and often delicate relations have the benefit of so much tact, skill, and sane judgment as Mr. Henderson's proposals display?"

Women and Asthma. Women are numbered among the sufferers from asthma by the countless thousands. In every climate they will be found, helpless in the grip of this relentless disease unless they have availed themselves of the proper remedy. Dr. J. D. Kellogg's Asthma Remedy has brought new hope and life to many such. Testimonials, sent entirely without solicitation, show the enormous benefit it has wrought among women everywhere.

Doctor (to patient's landlady): "Just keep him in bed, and above all see that he does not eat too much."

Seaside Landlady (grimly): "Certainly I will; I have two or three other boarders who really ought to be in bed, too."

Minard's Liniment for Warts.

SUNDAY SCHOOL LESSON

OCTOBER 20

USEFUL WORK A CHRISTIAN DUTY

Golden Text: "If any will not work, neither let him eat."—2 Thessalonians 3.10.

Lesson: Genesis 2.15; Exodus 20.9; Nehemiah 6.3; John 5.17; 9.4; Acts 20.33-35; 2 Thessalonians 3.6-12; Ephesians 4.28.

Devotional Reading: Psalm 8.1-9.

Explanations and Comments

God Oordained Work, Genesis 2. 15.—In the story of the Garden of Eden, we are told that God placed man there to cultivate and care for it. The work was waiting for him.

"With the Christian conception of God, we cannot believe that work has been made a human necessity merely to supply the body with food and other material things. With one creative word God could have met the material needs of all mankind and for all time. The word was not spoken, because character and intelligence were meant to be the first fruits of labor, and material things by-products. This is shown by the moral and intellectual evils which follow and degrade those who yield to absolute idleness. Civilization is at its highest in those lands where the climate is most productive to labor. Where work is declined, evil must be accepted." — Thomas Tiplady.

Man Must Work, Exodus 20.9. — We think of the Fourth Commandment as directing the keeping of the Sabbath aright, and often forget that it first of all directs us to labor on the six other days. It enforces the six days' work as well as the seventh day's rest.

"No man is born into the world whose work
Is not born with him. There is always work
And tools to work withal, for those who will:
And blessed are the horny hands of toil."

—Lowell.

The Prior Importance Of Work, Nehemiah 6.3.—Four times Nehemiah's enemies, Sanballet and Geshem, sent an urgent request to him to meet them for a conference on the Plains of Ono. That they wished to do him harm, was plain. Of course Nehemiah could not be so easily duped, but what a great answer was his: "I am doing a great work, so that I cannot come down: why should the work cease (as it undoubtedly would without his directing, impelling power), while I leave it and come down to you?" His answer would have been the same had the invitation been for pleasure or his own advantage in any way. He stood in the path of duty, and therefore in the very line of God's will, and he would not budge an inch. The greatness, the overwhelming importance of his work of rebuilding the walls of Jerusalem, the priority of its demands to all things else, filled his mind and heart.

No one need endure the agony of corns with Holloway's Corn Remover at hand to remove them.

Her Father — You have been a very naughty girl and I'm going to spank you.

Little Elsie—Would you strike a lady?

From Mother of Six

"I think Lydia E. Pinkham's Vegetable Compound is wonderfull I have had six children of which four are living and my youngest is a bonnie baby boy now eight months old who weighs 23 pounds. I have taken your medicine before each of them was born and have certainly received great benefit from it. I urge my friends to take it as I am sure they will receive the same help I did." —Mrs. Milton McMullen, Vanessa, Ontario.

New Cure For Paralysis

English Doctor Says Induced Malaria Has Been Tried Out Successfully

Induced malaria as a successful treatment of paralysis, is revealed in a recent report of Surgeon Rear Admiral E. T. Meagher, covering experiments on a number of cases in English and Welsh hospitals.

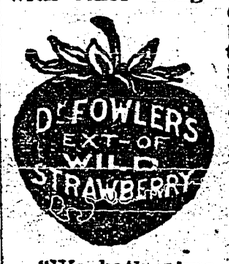
"The treatment of general paralysis," his report states, "by induced malaria, offers more promise of success than any other form of treatment that has been given extended trial."

The treatment, which includes either artificial malaria inoculation or exposure to malarially infected mosquitoes, has been found, says Dr. Meagher, to increase the length of life, to render existence more natural, and to produce improvement in the physical condition and the mental state.

"The response in individual cases," he states, "varies from a negative result to apparent complete recovery."

A Severe Attack of Dysentery Checked by 4 Doses

Mr. I. Burtonwood, 620-22nd St. W., Saskatoon, Sask., writes:—"My child, when only seven months old, had a very severe attack of dysentery, and after three days' treatment with other things we decided to use Dr. Fowler's. On this day his bowels had moved twenty-three times in eleven hours, but four doses checked it.



"A short time ago we offered it to a neighbor whose baby was troubled, and it too was relieved within thirty hours.

"We both always keep a bottle of 'Dr. Fowler's' handy at all times.

This medicine has been on the market for over 80 years; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

An Easily Made Dessert

Caramel Pudding, one of the most delicious desserts one can serve, and one especially loved by children, can be said practically to make itself. Here it is:

Place an unopened can of Borden's Eable Brand Condensed Milk in a kettle of boiling water and simmer for two and a half hours, being careful not to let the kettle boil dry. Remove can, cool and chill. Remove top of can, cutting along the side of can—not the top—so that the contents may be removed whole; place on a serving dish and garnish with broken nut meats and whipped cream—or use plain unsweetened cream, with or without garnish.

An Oil Without Alcohol.—Some oils and many medicines have alcohol as a prominent ingredient. A judicious mingling of six essential oils compose Dr. Thomas' Eclectric Oil, and there is no alcohol in it, so that its effects are lasting.

Unique Clock Is Success

Having run without being wound for a year, the weather clock at Zurich, Switzerland, has been declared a success. In the 12 months it has kept perfect time. It has no apparent source of power, but is run by the variation of temperature, a two-degree change setting the thermometer-like mechanism in motion to wind it without human attention.

Never judge a man by his actions when he is away from home.

Minard's Liniment for Neuritis.

You Must Have Sugar

Sugar is one of the much needed elements in a balanced diet.

WRIGLEY'S supplies sugar in a convenient way. The flavor is an extra delight.

Then too—you know you aren't adding weight. Sugar is a fuel that burns up needless fat.

When tired or hungry, pep yourself with WRIGLEY'S

Pleased With Canadian Hospitality

British Delegation To Institute Of Pacific Relations Show Appreciation

In a telegram from Victoria, B.C., where they took the boat for Japan, the British delegation to the institute of Pacific Relations, wired Premier Mackenzie King an appreciation of Canadian hospitality. The deelgation crossed Canada en route to Kyoto.

The message, signed by Lord Hailsham, Lord Chancellor of England and head of the delegation to the Institute of Pacific Relations, said: "I desire to express to you, and through you to the people of Canada, our most cordial thanks for the magnificent hospitality extended to us in our journey across the Dominion."

Premier King replied: "I thank you warmly for your kind message. I extend best of wishes to each member of the British and Canadian delegations."

Teacher: "What is the little boy called who has never known a mother's care?".

Small Boy: "An incubator kid, ma'am."

MOST people rely on Aspirin to make short work of their headaches, but did you know it's just as effective in the worse pains from neuralgia or neuritis? Rheumatic pains, too. Don't suffer when Aspirin can bring such complete comfort without delay, and without harm; it does not affect the heart. In every package of Aspirin you will find proven directions with which everyone should be familiar, for they can spare much needless suffering.

The Singing Fool

By HUBERT DAIL

Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club, wins fame as a composer of popular songs. He marries Molly Winton, a ballad singer, and makes her famous, too. Molly and Al have a baby, Junior, whom Al adores. Molly becomes interested in John Perry, Al's close friend, and one night she tells Al she has ceased to love him. Al refuses to believe it, but when Molly fails to show up for a New Year's Eve celebration at the Club Bombo, where Al is part owner, he rushes home to find she has packed up and left, taking Junior. She leaves a note suggesting that she loves John Perry and that Al need not try to persuade her to come back.

CHAPTER XVII.

"This is Mr. Stone. Is the car in?"

"No, Mr. Stone," came the answer. "Mrs. Stone took it out."

"When?"

"Tonight, about an hour ago. She said she might not be back for several days.

"Was my baby with her?"

"Yes, sir, and a gentleman."

"I see. Thank you."

Al had struggled hard to keep his voice calm. He didn't want to ask too many questions; that would excite the suspicion of the garage people and Molly's flight might get into the newspapers.

He walked to the nursery window; down below he could see the crowds in black masses still moving slowly up and down the sidewalks, welcoming the glad new year. He shook his head—no, there wasn't a chance of finding Molly tonight. He couldn't call the police because there was no definite charge he could make against her. Besides, it wouldn't be the thing to do; it would mean publicity and ghastly scandal that would involve his baby. Al thought his rage had passed now and that he was thinking clearly. He went to the doorway and heard the maid puttering about in her little back room.

"Celeste?"

"Yes, sir."

"If you haven't gone to bed will you step here a moment?"

"What time did Mrs. Stone leave?"

"A little over an hour ago."

"Ah. She and Junior were alone?"

"Yes, sir."

So—John Perry had waited for her outside, thought Al.

"She didn't say how long she would be gone?"

"She just said she would be gone a long time and that everything was explained in the letter to you."

Al saw from the girl's expression that she had some idea of the purpose of Molly's hasty flight.

"Celeste, I want to ask you something. Please don't say anything to anyone about Mrs. Stone's departure."

"Yes, sir, I understand. I—I feel very sorry."

"Don't worry. And Celeste — I'll remain at the apartment for a time, at any rate. You needn't worry about your position."

"Yes, sir, thank you. Goodnight, sir."

When the maid disappeared Al entered Molly's room. He had believed himself calm when he talked to Celeste, but now he realized that he had been merely numbed by the sense of his tragedy. He was trying to plan, trying to read the future, while at the same time searing thoughts were burning him up. At one moment he raged inwardly against the heartless cruelty and contemptible deception of Molly and Perry, but the next instant he was on the verge of tears at the thought of losing Junior.

Where was he? Oh, yes, in Molly's room — the light aroma of her perfume filled the air. There was her sumptuous bed, with the high posts and costly coverlet of lace over pink satin. Here was her dressing table, with empty cosmetic jars and bottles strewn about. The drawers of the dresser were pulled out here, too, showing the same evidence of hurried packing as the nursery.

He quickly staggered out and sought the nursery again. Without thinking, he picked up Junior's woolly dog, holding it in his hand as he paced up and down. What would Molly be likely to do in her flight; where would she be likely to go? These were hopeless questions and Al knew it. She would very likely place herself in John Perry's hands and Al could not read that inscrutable mind.

Then he became aware that he was clutching at Junior's toy dog, like the proverbial drowning man grasping at the straw. It was his one link with his curly-haired boy; wherever Junior was he would sooner or later be calling for his favorite toy. He might be crying for it at this moment.

The thought brought Al to a stand-still; he sank into the nearest chair and looked around. If Molly's room spoke eloquently of her recent presence this nursery was fairly alive with the feeling of Junior. The fairy tale pictures on the wall and the tiny bright blue chairs brought up pictures, adorable memories of Al's little loved one, who had made these walls ring with his chatter and laughter. Suddenly Al turned the face of the woolly dog toward him and its shoe-button eyes stared down at him as if eternally questioning—Where was his little master? Al slumped down in his chair, breaking under the strain, his shoulders twitching convulsively as he sobbed.

But this lasted only a moment; he quickly pulled himself together and stood up. He had told Celeste he would stay on in the apartment, but he could not bear to face this empty room day after day? Yes, he must, on the slim chance that something might lead to his finding Junior, something might bring Junior back. Now he did not think of Molly, but only of Junior.

He quickly walked to the hallway for his hat, overcoat and stick.

"Celeste," he called, "I'm going out. Don't be worried if I don't come back tonight."

. . . . Al was walking along the street, where the crowds had thinned out, for it was well on toward morning. Occasionally he met a band of drunken revellers, but he stalked by them with unseeing eyes, going nowhere in particular, but feeling the necessity for walking, walking.

All the time his mind worked furiously. Had Molly given up her stage job with The Merry-Go-Rounders; had she quit the show flat? He must see Marcus in the morning and find out. Marcus might have some idea of her whereabouts.

Now Al saw the dark expense of Central Park before him and, without thinking he turned in the first entrance he reached. There were the low, snow-covered hills, the bare trees whispering gently in the winter wind, the reflections of the skyscraper lights in the cold water. Here was the Japanese bridge where he had taken Junior walking only last Sunday. He stopped as if waiting for someone or something.

At that moment a dark limousine came speeding past him on the driveway. Was it Molly's car? He sprang forward.

Quickly as Al moved, the limousine was faster. It looked like a Rolls, but he couldn't be sure. And it was too dark for him to read the license plate. He stopped; there were ten thousand cars in New York that resembled Molly's. He went on, walking the streets until daylight. Then he headed for home, threw himself on his bed, fully clothed, and fell into a sleep that was tortured by nightmares.

He awoke with the sun streaming through his windows, tossed off his clothes, bathed, shaved and dressed hastily for the street. The first man to see was Marcus.

Marcus was in his office. He looked up in genuine surprise when Al walked in, pale and haggard.

"What's the matter, Al?"

"Nothing much. Has Molly quit your show?"

"Yes, didn't you know?" A shadow crossed Marcus' face. "She quit last night, just like that," Marcus snapped his fingers. "With no explanation except that she was tired and needed a rest. The press department got busy on it. Didn't you see the morning paper?"

(To Be Continued.)

A Speedy Traveller

Rabbit Can Keep Ahead Of Ford Motor Car

The driver of a motor-car in Switzerland, tells the story of the astonishing speed and long-sustained effort which a rabbit is capable of. He happened to start one, which on its flight kept to the road. In order to keep up with the rabbit, the man had to speed up to about 34 miles an hour, and the sturdy little creature held out for over a league before it finally jumped into ditch by the roadside.

The electric eel of Brazil and Guiana can administer a shock strong enough to overcome a horse.

Radio Sets Installed

Prisoners At Sing Sing Prison Can Listen In

In each of the 1,800 cells of the new extension at Sing Sing Prison is a radio receiving set, after the manner of the ultra-modern metropolitan hotels. The installations have even made, it was officially confirmed today, following reports by prison employees, and in the future convicts with terms of from two years to life may listen to concerts, to news of the outside world, sermons and bedtime stories.

The guests of the state of New York may listen in, but they may not tune in. They must listen to what comes over the air from the central receiving station in the prison auditorium, whether the program be to their taste or not. The privilege was extended after the new rules, curtailing motion picture theatre visits from seven nights a week to two, went into effect.

The Mutual Welfare League bears the expense of installing and maintaining the radio equipment.

Little Helps For This Week

"Make sure thy friend."—Proverbs vi. 3.

Believe me better than my best,
And stronger than my strength can hold,
Until your royal faith transmutes
My pebbles into gold.
—Elizabeth Stuart Phelps.

To win and hold a friend, we are compelled to keep ourselves at his ideal point, and in turn our love makes on him the same appeal. All around the circle of our best beloved, it is this idealizing that gives to love its beauty, and its pain, and its mighty leverage on character,—its beauty, because that idealizing is the secret of love's glow; its pain, because that idealizing makes the constant peril of its vanishing; its leverage to uplift character, because this same idealizing is a constant challenge between every two, compelling each to be his best. "What is the secret of your life?" asked Mrs. Browning of Charles Kingsley; "Tell me, that I may make mine beautiful too." He replied, "I have a friend." —William Channing Gannett.

Little John was interested in the rafters on the sleeping porch. "What are those round things Daddy?" he asked.

"They are knot holes, Son."

"Well, if they are not holes, what are they, Daddy?"

Have Splendid Record

Ontario's Flying Firemen Not Confined To Patrol Work

In addition to organized forces of land patrols, the Ontario Government is trying to safeguard the valuable forest reserves from fire by patrols from the air. Up to the end of August, air patrols employed by the provincial government had flown 9,900 hours or 3,300 hours more than the total flying time on a similar service last year. Not only do these flying firemen do patrol work, but when a fire is detected they land at a fire protective service station, load men and fire fighting material, and take them as near as possible to the scene of the fire.

Reduce the Acid

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour.

Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Go prove this for your own sake. It may save a great many disagreeable hours.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.
