ORGIA RIVER AND FISH CREEK

nt Mahood Organizing or Big Operations Two roperties Now Under is Control

rant Mahood, one of the suc-ful operators of the camp, left for the east on business r starting operations on the Creek for the American ng and Milling Co., and king up the work done this mer on the Georgia river perty, which he recently ac-ed under bond.

speaking of his company's s Mr Mahood said that a of men are now at work at Creek getting things in e for the extraction and ment of high-grade ore, for ch this property is so well wn. Last winter 58 tons e shipped for testing pur-s that averaged $97 per ton, rding to the smelter run, a e that will allow of a very dsome profit over mining and ping costs.

n the Georgia river property liminary work done by Mr hood during the past three ths for examination pur-es, consisting of stripping open cutting, has exposed veins, all carrying phenom-l values in gold. This prop-y, for years looked upon by se who know it, as one of the t spectacularly rich gold pro-itions in British Columbia, fair to rival the famous En-er mine when developed to milar stage.

new vein, located and strip-for 25 feet three weeks ago, f a most promising nature. llminary shipped sampling, m the bottom of the cut, gave following assry returns in er named: Gold, 35.42 oz. ue $708.40; 120.84 oz. value 16.80; 6.54 oz. value $130.80; 3 oz. value $183.20; 12.52 oz., ue $250.40; 8.04 oz., value 0.80. In addition to this ex-tionally high gold content e was as well fair silver val-, ranging from 7 to 46 ounces. ile running very high, as e samples unquestionably no native gold was found by assayer in them. This is int-sting in view of the fact that ples taken from other veins quently show free gold some which can be seen in the News exhibit any day, which were n from the property before Mahood acquired control.

ave Joinville has moved into new bungalow on Fourth et.

DENNY DID NOT DROP OUT HERE

Maurice D. Leehey, Seattle, was a caller at the office of the Mining Truth a few days ago and after returning to the Sound metropolis, left for a fall visit to Alaska.

Mr. Leehey took exception to some correspondence from Victoria, regarding Salmon river developments, as published in the last issue of Mining Truth, and in which it was stated that the British interests represented by H. S. Denny had shut down work and relinquished all options held in the Salmon river district.

"The statement that H. S. Denny has relinquished all options held in the Hyder district is not true," Mr. Leehey stated. "Mr. Denny still has an option on Daly Alaska and 49 Group, which he has not relinquished. He never had an option on the Big Missouri, which has been under option for over a year to A. B. Trites. He has not abandoned work. The only excuse for that statement is that underground development on Daly Alaska was stopped temporarily in order to put the men at surface work, which can be done more advantageously during the summer than later in the year.

"Neither is it true that the Daly Alaska price to him was $850,000. Mr. Denny's option on 850,000 of the 1,000,000 treasury shares is at a price to net the company $245,000, for all development work."

TENNIS CLUB VISITS ANYOX

Representing the Stewart tennis Club in a series of return games against the Anyox Club, Mesdames Gibson, McLeod, Dayton, Miss Fraser, J. Wilson, A. H. McCallum and Sam Frye left Saturday on the G.T.P. boat and were picked up off the mouth of Observatory Inlet by the Granby launch Azurite, and taken to Anyox, where they were royally entertained by the contesting club. During the games, which were played Sunday, the Stewart club carried off two events, Sam Frye winning the men's singles from Ballton and Mrs Dayton and A.H. McCallum the mixed doubles from Mrs Munroe and Mr Cole. This was considered a very good result in view of the fact the Stewart club is very much younger and smaller than that of Anyox. The local players returned to Stewart on the Cardena Monday.

STEWART-HYDER LOCAL NEWS

Lawrence, the watchmaker.

Mrs. Duncan McLean returned this week from a visit in Vancouver.

Alex Frazer has about completed the construction of his new hotel in Hyder B.C.

The Dunwell Mines Co. have erected a warehouse on Victoria street between 5th and 6th.

Dr. Alfred H. Bayne, the Prince Rupert optician, was in town this week on professional business.

W. R. Tonkin left on the Cardena for Seattle after spending a week here in connection with his mining interests.

J. Killas, of Prince Rupert, arrived Saturday with pool tables and other equipment for his pool hall at the Premier mine.

Duck hunters are getting busy on the Stewart flats, but ducks are scarse this year owing to the road being built around the foot of the hill.

Traversy Bros., the local painting firm, have moved their shop from Hyder Alaska to Hyder B. C., taking up their new premises in the lower floor of the Olympic Club building.

Jack Harkley has received word that the next meeting of the Western Branch of the Canadirn Institute of Mining and Metallurgy will be held in Trail, commencing October 17.

A new sidewalk has been built on Kingsway in Hyder, B. C. by Fraser, Charlton and Hicks and it is to be hoped that other property holders will follow the lead of these public spirited citizens by doing their bit.

Albert Lindquist, who was recently taken south by Constable Williams for the purpose of having a mental examination made, is now reported to have been released by the medical authorities in Prince Rupert, being found mentally sound.

The Canadian National Steamship Service announce a change of schedule for their boats running into this port. Commencing Sunday, the 7th of October, the Prince Rupert only will come here, arriving at 7 a.m. and leaving at noon of the same day each week.

F. D'A. Vincent and his charming little daughter, left for the south Saturday, after spending a week in the camp as the guests of the B.C. Silver mine. While here Mr Vincent, who is a member of the London Stock Exchange, visited the Premier and other operating properties, and takes back to London a very good understanding of local conditions

A. G. Larson, consulting engineer for a number of local properties, left on the Cardena for the south.

Duncan C. McRae, of McRae Bros., Limited, Prince Rupert, printers and stationers, has spent the week in town on business.

Naas river Indians have taken up with the government the proposition of changing the name of Meziadin 12ke back to its original name of Tatusader, which means the home of little ducks.

BILLY DANN HITS THE TRAM

While driving his car, containing two passengers, along the Salmon valley road, coming from Thirteen-mile, Wm. Dann, proprietor of the Hotel Stewart, struck the hanging running cable of the Premier tram line at about 10:45 last Sunday evening, throwing his big car, by actual measurement, 24 feet off of the road. It appears that Mr Dann was coming slowly down the road, and when crossing under the tram line at about 5½ miles from Hyder, between towers 75 and 76, when suddenly some powerful agency took hold of his car, carrying it at a sharp angle off the road. Applying his brakes and throwing his engine into reverse, Mr Dann stopped the car and all climbed out, wondering, in a state of bewilderment, what was going to happen next. Then a bucket of ore came along, taking up the slack in the cable and lifting the car several feet into the air. When projections on the side gave way the car fell back to earth and, by a remarkable coincidence, lit right side up, on its wheels. Then they came to town, the car managing to pull through, under protest. The damage is such that Mr Dann has received instructions from the insurance company to take the car to Rupert for repairs.

Knocked Down by Car

Struck, knocked down and dragged under the wheels of a motor car was the experience of Mrs. W. R. Tooth, while walking home from Hyder about 5:80 last Friday evening. Driving a strange car, and not familiar with its mechanism, the driver had just passed another car by the rock bluffs, and not having very good control, struck Mrs. Tooth, who was walking along the outside edge of the road. The wheels carried her body underneath, and dragged her several feet, grinding gravel into her arms and ankles, and bruising her body. It took three men to extricate her from under the car and out of what might have been a serious accident. Mrs. Tooth is now recovering from the shock, and her wounds are rapidly healing.

Swan---Jackson

Eva Florence Swan, youngest daughter of Captain and Mrs Swan, of Oak Bay, Victoria, was married at St. Mary's Church, Oak Bay, by Archdeacon Sweet, to Cyril Goodwin Jackson of Stewart, second son of the late Rev. Jackson, of England.

Both are well and popularly known locally, and on their arrival here on Sunday, October 7, will be welcomed back to Stewart, where they will take up their residence in the home built this summer by Mr Jackson on Columbia street.

Prior to the wedding service the son of Mr and Mrs H. Scovil was christened Henry Evelyn Derrick, Archdeacon Sweet officiating. Mrs Scovil is a sister of the bride. Mr Scovil left recently for Victoria to be present at both ceremonies.

BUSY BUILDING ROADS-BRIDGES

Work started this week on the Indian wagon bridge, crossing Cascade creek, 16-Mile, on a 60-foot King truss span, 60 feet above the water and with some 170 feet of trestle approach. This bridge and road, about a mile of which will be built this year, will prove very helpful to not only the Indign mine, but also all operators on the west side of the creek.

The road into the new cemetry has now been brushed out, and a certain amount of grading and graveling will be done this fall.

As soon as the surveyors are finished on Cascade creek bridge, they will survey the various routes aronnd Muddy gulch hill, on the Bear river road above Bitter creek. This being done now will enable the department to adopt the best possible route and start construction early next season. A small crew of men have been at work on the road beyond the hill all summer, making a permanent highway around the foot of the mountain.

Three lots on the southeast corner of Columbia and Eighth streets have been allotted to the department, and are now being cleared for future use.

Work on the Bear river bridge is well under way, under the superintendancy of Paul McMaster, who arrived from the south recently with a crew of experienced bridge builders. A temporary strncture, for the accommodation of traffic, will be built alongside the present bridge. Paul has been with the government for many years, and is acknowledged as one of the best bridge builders in the business. He has recently finished a suspension bridge across the Kitsault river, near Alice Arm.

DIAMOND DRILLS NOW ON M C

Good Results in Tunnel On Red Bluff Claim and Winter's Development Plans Laid Out

C. A. McKenzie, manager of the Prince John and M. C. mining companies, stated to the News during the week that very satisfactory progress is being made on both operations. A diamond drilling contract on the M. C. property has been let to Boyle Bros., and is now well under way. The stone house being erected on the property is nearing completion, and will form the nucleus of a permanent of a permanent camp. On the Red Bluff claims of the Prince John very satisfactory results are being obtained with the crosscut tunnel that was run in and out the ore at about 100 feet from the portal, giving about 100 feet of depth. Mr. McKenzie expressed himself as being very pleased with the appearance of the lead and the values contained therein. A good camp has been established near the portal of the tunnel, with the intention of continuing development throughout the winter. Twenty-six men are employed on the two properties.

W. R. Tooth, Dan Woodmore, Kenny McLeod and H. B. Stoner returned during the week from a prospecting trip up American creek. Leaving here with pack horses some weeks ago, the party found it necessary to cut four miles of trail along the creek flats above the Mountain Boy group, thus opening up a very promising section of the district. They staked a group of six claims, containing some very promising mineralization. Unfortunately, the heavy rains and fog prevented very much close prospecting, but sufficient results were obtained to compensate for the time and energy expended. Very little more work would provide a horse trail to the American creek glacier, two miles beyond the property staked by the party.

WHAT IS WRONG?

THE NEWS has no grudge against, nor quarrel with, the Premier management, or any of its shareholders, individually or collectively, but it takes issue on a principle.

We understand that J. Killas, a born Greek, from the city of Prince Rupert, has been granted the privilege of operating a pool room aud tobacco stand at the Premier mine. Some call it a concession and this, probably, is the more correct term, for otherwise he would never have been allowed to open up this line of business on Premier property. We understand also that Mr. Killas is the proprietor of a very nice and well established business in Prince Rupert, and we do not doubt but that he is a natuarlized British subject. Both of which are aside from the question.

WE BELIEVE in the principle that all foreigners coming into Canada should be given every opportunity for advancement. This his Prince Rupert business does. But what we also believe in is this, that when big corporations like the Premier have a concession such as this dry canteen is, every effort should be made by the management to grant it to some man who, by his services to this country in the World War, has become incapacitated for hard labor. In the event of such a man not being available---which is a remote possibility---it should be granted to one born in this country. There are thousands of crippled returned men to whom such a concession would have been most welcome and who are just as capable of handling it as any foreign importee.

What is the matter?

Is there something wrong somewhere?

Hundreds of thousands of dollars of the Canadian taxpayers' money is being annually spent abroad for the purpose of enticing foreigners to Canada, while at the same time thousands of Canadians are emigrating to the States and overseas.

WHAT is the idea? Is it to make good cushy jobs for political wire pullers? Or to feed the Atlantic transportation companies good hard-earned taxpayers' money?

THIS Killas incident is only one of many such, happening all over western Canada every day

WHERE are the promises, shouted from the house tops by every politician in Canada to the men in the trenches from 1914 to 1918? And to the people of Canada as a whole?

WHAT is the government of Canada doing, that it allows these things to happen?

IF OUR Representatives in Parliament have the welfare of the country and the people at heart to the extent that they say they have, why do they not see to it that such plums as the incident mentioned are awarded to our own people?

WHY cannot legislation be enacted that will force foreign managed corporations as well as Canadian to, when all things are equal, give the preference to our own people? Can it be that these same corporations have strings on our Members of Parliament?

COMING closer to home. Does the Premier management wish to infer that Canadians are inferior to foreigners? Or is it that the same management prefers to have foreigners in and around the mine? If not, why did it not give this concession to a Canadian born? Or a man who has served in the Canadian forces overseas? If they do, why should it not be possible for the Government to enact some sort of legislation as mentioned above? Or force the Premier to make a change in management?

DO the Guggenheims, or Messrs Keith, Price and other shareholders in the Premier, appreciate the services of the Canadian Soldier in France? Do they appreciate the suffering of the wounded? The sacrifice of the dead? Or the price paid for Victory by the people of Canada as a whole? If they do, why not by a word make such things as the Killas incident impossible? And see to it that the people born in the country, who fought for the country, be given preference?

LITTLE BOY BLUE

At the request of a number of subscribers we publish the following poem which, at a meeting of notable writers many years ago, was pronounced the most beautiful ever produced. It is from the pen of Eugene Field, famous as the "Children's Poet."

The little toy dog is covered with dust,
Yet faithful and true he stands.
And the little toy soldier is red with rust
And his musket moulds in his hands,
Time was, when the little toy dog was new,
And the soldier was passing fair,
But that was the time when our Little Boy Blue
Kissed them and put them there.

"Now don't you go till I come," he said,
"And don't you make a noise!"
Then off he romped to his little bed
And dreamed of his pretty toys.
But while he was dreaming, an angel song
Awakened our Little Boy Blue.
Oh, the days are many, the days are long,
Yet his little toy friends are true.

Aye, ever faithful and true they stand,
Each in his same old place,
Awaiting the touch of a little hand,
And the smile of a little face.
And they wonder, while waiting the long years through,
In the dust of his vacant chair,
What has become of Our Little Boy Blue,
Since he kissed them, and put them there.

Synopsis of Land Act Amendments

Minimum price of first class land **reduced** to $5 an acre; second-class to $2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of $10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of $200 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of $10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 10 acres, may be leased as homesites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANT ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from for one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfilment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1928.

GRAZING.

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range [illegible] under Commissioner. Annual grazing permits issued based on numbers ranged, priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers up to ten head.

Now Shipping Zinc

The Black Rock mine of Deep creek shipped to the Trail smelter 540 tons of zinc ore for two weeks ending Aug. 31, 1923; during the year 2366 tons. Besides this, a large tonnage has gone to an eastern smelter. The next shipments will be made to the Canton, Ohio, smelter. Mr. John Gorrien, the prssident and manager, has returned from Minneapolis and is busy installing the mill, which will be operated with power supplied from the electric sub-station in Northport, the poles and wires having been placed in position this summer.

An Unique Gift Offered

A great native-copper nugget weighing about three tons, from the Copper River district, Alaska, has been offered to Seattle on the condition that it be placed in Pioneer Square, and that transportation companies agree to bring it to that city. It would have to move by rail from Strelna to the coast and then by boat. The Galena Bay Mining Co., who made the offer, agrees to sled the specimen in winter 16 miles to get it to the railroad.

Some Statistics

From August 14 to August 21, 21,576 wet tons of ore were mined at Hidden Creek. Total tonnage for the month of August, 21 inclusive, 54,039 wet tons. From August 13 to August 18 inclusive, 19,631 wet tons of ore were treated at Anyox smelter. This was made up as follows: Hidden Creek ore, 18,924 wet tons; outside ore, 707 wet tons. Average price of copper for the week, 13.875c. From August 14 to August 20 inclusive, 1380 short tons of coal were charged at the coke plant, and 940 short tons of coke were produced.

FIFTH STREET STEWART

BRITISH COLUMBIA

The Mineral Province of Western Canada

Has produced Minerals valued as follows: Placer Gold, $76,542,203; Lode Gold, $109,647,661; Silver, $59,814;266, Lead, $51,810,891 Copper, $170,723,242; Zinc, $24,625,839; Coal and Coke. $238,-289,565; Building Stone, Brick, Cement, $36,605,942; Miscellaneous inerals, $1,358,839; making its Mineral Production to the end of 1922 show

AN AGGREGATE VALUE OF $734,259,619

The substantial progress of the Mining Industry in this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive, $94,547,241; for five years, 1896-1900, $57,607,967; for five years, 1901-1905, $96,509,968; for five years, 1906-1910, $125,-534,474; for five years, 1911-1915, $142,072,603; for five years, 1915-1920, $189,922,725; 1921. $28,066,641: for the year 1922, $35,158,843.

PRODUCTION DURING LAST TEN YEARS, $339,280,940

Lode mining has only been in progress for about 33 years, and not 20 per cent. of the Province has been even prospected; 300,000 square miles of unexplored mineral-bearing land are open for prospecting.

The mining laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

THE HON. THE MINISTER OF MINES, Victoria, British Columbia.
