BUILD CAMP AT TERMINUS

Operations Uuder Ground Suspended While Winter Quarters Are Being Constructed

H.A.Heywood, manager of the Terminus property left Monday morning for Victoria to have a talk with the directors. The policy of the company, to continue the work all winter, is already determined, but certain details have to be worked out, beside which Harry is entitled to a vacation and a visit with his wife, anyway, He has worked this summer as hard as anyone in the hills.

Before going south he gave contractors in the tunnel a chance to cave in, which they were glad to do. They had driven 225 ft. on their 300-foot job, and had bucked the dirtiest weather ever known in this section. Their blankets were covered with mold and although they made big money, they were more than glad to get down to the bright lights.

Lumber for winter camps is arriving on the ground. Ernie Armstrong and his crew, consisting of Jack Grey, Ernie Beale and Dave Mahood, bucking it through against an almost impossible trail. Mrs Armstrong and Mrs Grey are at the American Creek Roadhouse, where the boys make headquarters.

M. Little, M.E., is in charge of operations while Mr Heywood is outside. The camp vacated by miners is now occupied by carpenters. When Heywood returns he will have a modern camp to move into. Getting under the shaft is going to cost some more money, but the human equation had to be considered.

Notice to Hunters

"Prospectors' firearms" licences do not permit shooting unless actually engaged in prospecting. Those wishing to shoot while not engaged in prospecting, should secure the proper licence. The fee for birds and deer is $2.50; for big game, $5. Prosecution will likely be instituted against offenders.

Salvation Army

Capt. F. Dorran of the Salvation Army arrived this week in connection with the annual drive put on by that popular and helpful intsitution. He has announced the Hyder committee as follows: Earl Hinckley, Reverend Hatton, Chas. F. Sandford, John Hovland, Miss Marion Hunt, Mrs M.F.Thomas.

Independence in Fine Shape

S. P. Fitzgerald, president and general manager of the Independence Company, returned Saturday from a trip south. Sam says there is an increasing interest in the Portland Canal mines on the outside, and there will be plenty of money avaslable for development purposes.

Mr Fitzgerald says the Independence is financed for another year at least. He dosen't give a great deal of attention to stock quotations, preferring to do his mining underground rather than on paper. He plans on making an ore shipment in March.

Outsider Reported Leased

According to report that appears to have considerable foundatiou, the Outsider mine has been leased as from the 1st of October to Victor Bengston and Carl Eklund, both employees of the Granby Co. at Anyox. Mr Eklund has operated the Rambler quartz mine at Anyox under lease for the company for some time. So far as is known locally there have been no changes made at the Outsider as yet, the staff employed by the Granby company being kept on.

Forced Into a Fortune

P. E. Rees returned Saturday from a short visit to his home in North Bend, Wash. Mr Rees is one of those fortunate individuals whom "Lady Luck" seems to have under her special care. Originally interested with Clay Porter in the Idaho group on Marmot river, now the Porter Idaho, he sold out once and quit the country. But the deal fell through and Rees was forced to take back an interest that represents a small fortnne.

S. Killas and F. Duclos, of the Premier pool hall, arrived Monday night from Rupert.

The United Services entertainment billed for October 3 has been postponed to the 17th.

Pat McBride and Homer Ficklin have left for the Dease lake country, going overland from Stewart.

Jesse J. Kahn, president of the Daly Alaska, left for Vancouver Saturday, after spending a week on the property.

Chas. E. Herron, who has been here for two weeks in connection with the Hyder Jumbo property, left last Saturday for New York.

A. Noelte, father of Mrs Stickney, arrived yesterday from Rupert on his private yacht, and figures on spending the winter here.

St. Mark's Church W. A. have decided to hold a Hallowe'en party for the children from 7 to 9 p.m., followed by a sheet and pillow-case dance from 9:30 to 2:30 in the Hotel Stewart Oct. 31

Big Deal Goes Through On Gold Cliff Property

A new discovey on the Bear river, immediately across the ridge from the big Premier mine, and about opposite the Dunwell, has been bonded by A. B. Trites, of Vancouver.

The property contains a wide fissure vein of high-grade silver-lead ore assaying $267.40 per ton, that has been traced on the surface over 1200 feet in one direction from the discovery. Indications are that the vein is very wide, and apart from the persistent clean ore, carries a substantial body of good-grade concentrating ore.

Before leaving Stewart Mr Trites let a contract for 500 feet of crosscut tunnel to tap the vein at some 700 feet below the apex, and in addition has put a crew of men to work to build trail, camp and open up another level that will follow in on the ore body below the water-fall, where the showing is most promising.

The property was first carefully examined by A. St. Claire Brindle, Mining Engineer, of Vancouver, who brought Mr Trites in from that city, and with him spent several days on the ground. Later, after returning from the property, Mr Trites declared that it is the most promising prospect he has seen in Northern B. C., and aside from the Premier, affords indications of becoming one of the greatest mines in the Portland Canal District.

Consisting of 18 claims, in two groups, situated on the west side of Bear river, about 2½ miles from Stewart, the property extends from the river bank to an elevation of some 4000 feet at the International boundary. The main showing, a fissure vein, runs from an elevation of 2200 to about 3600 feet, and is traceable on the surface for more than 1200 feet. It strikes diagonally up the mountain, and dips at an angle of about 65 degrees, with indications that with work it can be traced to much lower levels. An interesting feature of the property is the fact that the big main vein, as well as several others that have not yet been opened, are directly related in genesis to the contact. Ideally situated from a working and shipping standpoint, the property has ample timber, and water power that can be developed.

Wm. Dann of the Hotel Stewart purchased the nucleus of the property last fall, and this summer, in partnership with Jim Douville, staked and acquired certain other ground which as a whole they later prospected, and for part of the summer had a small crew of men on the property. Frank Riva, with Jim Douville, discovered the large showing, and later became a part owner. The vendors in the deal are Mr and Mrs Wm. Dann, Mrs Dann having herself staked some of the ground, Jim Douville and Frank Riva.

Having completed all arrangements pertaining to the opening up of the property, Mr Trites leaves for Vancouver on the Cardena Monday night, leaving Mr Brindle to take charge of the operations, with instructions to vigorously prosecute development.

STEWART-HYDER LOCAL NEWS

Keep in mind the Mooseheart day dance, Oct. 27.

W.E.Griffiths, of the Ingersoll Rand Co., is back again.

Bert Smith, H. Jackson and D. Jackson of Premier, spent the week end in Rupert.

F. N. Cronholm, manager of the Cronholm-Bartholf properties, left for Seattle Monday.

Rev. Theodore Hatton arrived Saturday with his wife and three children, and will be minister at the Methodist Church in Hyder.

W.E.Dunkle, well-known mining engineer, arrived Saturday and has been spending the week examining properties on Texas creek.

Dr. H. A. Whillans, Physician and Surgeon. Office, corner 6th and Victoria Sts. Hours, 12 o'clock, noon, to 3 p. m., and by appointment.

John Stewart is constructing a house on 6th street.

J.A.Williams, P. C., returned Saturday from an official trip to Rupert.

Mrs Wm. Tompkin and daughter Mary left for Vancouver last Saturday.

R. W. Wood, president of the Premier Gold Mining Co., left for Vancouver Saturday after spending the week at the mine.

D. Brewster, an oldtimer well known to many Stewart residents, arrived from the south Saturday. Mr Brewster is a carpenter-contractor.

There will be a Harvest festival at St. Mark's Church, commencing at 7:30 o'clock Sunday evening, followed by a sacred concert in the Hotel Stewart hall at 9 p.m., to both of which everyone is cordially invited.

Hospital Meeting

At the annual hospital meeting held in Moose hall last evening for the purpose of electing officers, the following were chosen as members of the board for the coming year: W. J. Crawford, chairman: Oliver Smith, seeretary; G. C. Andrew, H. D. Rochfort and G. W. Smith, members of the board. Appreciation of the work of the members of the retiring board, and particularly that of the secretary, was expressed by a number present. At the suggestion of the secretary it was decided ts employ for the winter a part-time janitor at the hospital. The following financial statement was rendered and accepted:

Receipts	
Patients' fees,	$1160.70
Workmen's Comp. Bd.	1172.50
Provincial Gov't. grant	857.00
Donations	
Provincial government	200.00
Premier Gold Mine	200.00
New Year's dance	32.50
Minstrel troupe	24.60
July 1st celebration	212.81
Women's Auxiliary	30.00
Bal. from last year	59.79
Total	$3949.90
Expenditures	
Salaries	$1300.00
Board allowances	1023.25
Sundries	55.00
Snow shoveling etc.	75.50
Plumbing	124.70
Fuel etc.	315.75
Drugs	221.58
Laundry	131.95
Repairs	212.62
Light and water	95.00
Fence and woodshed	284.16
Total	3803.51
Balance in hand	146.39
Bills receivable	295.00

W. A. Allen of the Dominion Rubber Co., came in on the Cardena.

J. A. Miller, representing the Sullivan drills, arrived on the Cardena.

November 10, Armistice Day, has been declared Thanksging Day this year.

A. H. McCallum, interested in various properties in the Salmon river watershead, left for Victoria Saturday.

Henry Rochfort shot a goose on the waterfront. And in the carcass. It weighed 8 pounds and then some. Avordupois.

Mrs H.A.Whillans, Miss Whillans and Miss Flour, who have been visiting Dr. Whillans for the past three weeks, left Saturday on their retnrn to Victoria.

The subscription list opened in the Portland Canal News office for the purpose of raising funds for use in improving the cemetery, was during the week increased by a subscription from Mrs Saunders of $2, and Harry Thomey $5.

ASSOCIATION ACTIVITIES

Many Matters of Municipal Interest Considered at a Well Attended Meeting Wednesday Night

Considerable animated discussion took place at the special general meeting of the Citizens' Association held in Moose hall last Wednesday evening. The first question that produced varying expressions of opinion was that in connection with the local fire department. Constable J.A. Williams consented, subject to certain conditions, to take charge of the town's fire-fighting force and become its chief, to be assisted by W.R.Tooth. After ways and means of providing an adequate supply of water for fire purposes had beed discussed, the finance committee of the department was requested to consult the Stewart Public Utilities Ltd. and the International Electric Co. with a view to ascertaining what sort of proposition one or both these companies will consider in return for the required water supply.

Reply to the Association's protest concerning the change in C.N. steamship services schedule were read and considered unsatisfactory, with the result that the secretary was instructed to wire the management continuing the protest, and requesting the same service given last winter when the changes were made.

The report of the hall committee was then read and adopted subject to certain amendments and additions, chief of which was that when the town of Stewart is incorporated, it may at any time purchase the stock of the Hall Company at par. Thus is provided means whereby the proposed hall and property can become the possession of the community as a whole. As soon as the Board of Trade have accepted the report a public meeting will be called under the joint auspices of the two organizations, and the entire project will be submitted.

Dale L. Pitt, general manager of the Premier, has gone out on a trip to Vancouver.

It was necessary this week to omit a considerable amount of mining news that will not spoil by being held over for a week.

In keeping with a promise given, some 20 members of the United Services Club turned out Wednesday afternoon and constructed a picket fence around the hospital. Some members could not leave their occupations so hired substitutes.

HEADS THE WHOLE EMPIRE

SULLIVAN MINE, Kimberly, second biggest silver-lead-zinc mine in the world. Produces over 50,000,000 pounds of lead, 50,000,000 pounds of zinc and 1,000,000 pounds of silver. Has ore in sight to last another 20 years. Owned by Consolidated Mining & Smelting Company.

Premier Mine, Portland Canal, Richest silver-gold mining property on the continent. Capitalized at $5,000,000, it has already returned more than its entire capital stock in dividends. Produces yearly about 125,000 ounces of gold and 4,275,000 ounces of silaer. Deposits in sight guarantee its operation for another ten years at least.

Britannia Mine, Howe Sound, Largest copper mine in British Empire. This property has produced 144,715,880 pounds of copper, 796,656 ounces of silver aud 16,816 ounces of gold since 1910. New mill erected recently and ore uncovered guarantees annual production of 30,000,000 pounds of copper.

Granby Mine, Observatory Inlet, Copper-silver-gold property. Output since 1914 totals 223,481,461 pounds of copper, 2,610,857 ounces of silver and 51,141 ounces of gold. Ore in sight will keep mine operating for another 20 years, it is estimated.

Belmont Surf Inlet mine, Princess Royal Island, Gold-silver-copper. Has produced since 1916 about 750,000 tons of ore, containing about 3,500,000 pounds of copper, 220,000 ounces of gold, and 125,000 ounces of silver.

Nickle Plate mine, Hedley; Has produced gold valued at about $7,750,900 since 1904. Is equipped with stamp mill and cyanide plant.

British Columbia minas are producing:

Two-thirds of Canada's output of copper.

Ninety per cent of its production of zinc.

One-half of its total lead production.

One-fifth of its gold and silver.

About one-third of its total metal output

And one-fifth of its production of coal.

These are a few of the facts behind the mining industry of this Province: a few of the facts that indicate the remarkable future ahead of it.

The Sullivan mine at Kimberley, about 14 miles from Cranbrook, has ore iu sight to keep it going for another 20 years. J. J. Warren, managing director of the Consolidated Mining and Smelting Company, owners of the mine, is authority for that statement.

But the Sullivan is only one of the big dividend paying mines in British Columbia.

The Premier mine, located in the Portland Canal mining district, is another property that has been paying huge dividends to its shareholders. Since its incorporation in 1919 the Premier Mining Company has overcome many obstacles but it has also reaped the rewards of foresight and confidence.

This month it will pay its quarterly dividend of $400,000. It has already returned nearly ninety per cent of its capital stock in dividends What is more important still, ore in sight guarantees payment of at least 32 per cent on its capital for another 15 years.

Britannia mine on Howe Sound is the largest copper mine in the British Empire. Its history reads like a romance but its production has been as tangible as any other of the big mining properties. It has paid big dividends, but it has also reinvested huge sums in development of its great railway and hydro-electric system.

Handicapped by fire which destroyed its modern mill, it has since rebuilt, on more modern plans than ever and with a view to producing on a larger scale

of the series dealing with the establishment of the BANK OF MONTREAL at representative points in CANADA and elsewhere

IN PARIS

THE PARIS subsidiary of the Bank of Montreal is situated in a quarter rich in historic interest.

From a lofty column in Place Vendôme the statue of Napoleon looks out upon an imposing square the construction of which began in 1686 under authority of Louis XIV.—a square which has witnessed many of the city's greatest demonstrations and which now mirrors the social and business life of Paris.

Here, in the heart of the capital of France, the Bank of Montreal in 1919 established a subsidiary office in the Ritz Hotel Building. In February, 1922, the business of this office had become so extensive that enlarged quarters were opened near by at No. 6 Place Vendome.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age and by aliens on declaring intention to become British subjects, conditional upon residence, occupation and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers range, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

THAT PLACER EXCITEMENT

Looks Like Grady Found Something, but Nothing To Warrant a Stampede At This Time

When asked for a statement concerning the placer excitement in the Dease lake country Geo. Clothier, Resident Mining Engineer, informed the News that he wired H. W. Dodd, Government Agent at Telegraph Creek for information concerning the strike, and received the reply that some gold had been found on a small creek, but so far not in sufficient quantity to cause any rush or excitement. In expressing an opinion of the district Mr Clothier added that the placer grounds of the Dease lake country offer very great promise, and will some day produce a great deal of gold.

William Grady who, with H.L. Ford, discovered gold on a tributary of Eagle river, in the Cassiar district, British Columbia, and which is causing something of a stampede into that section, says concerning the strike:

"There is coarse gold there, and undoubtedly in considerable quantities. In all my mining experience I have never seen anything like it. I had no chance to determine the extent of our strike. I had nine dogs with me which I had to feed with food obtained with my rifle. I had to do my own cooking, and besides, I did not have proper tools. All I did was to scratch a little along the rim. It is from eight to ten feet to bedrock. The ground can be easily worked with pick and shovel, and drainage is easy. The place is only sixteen miles from a government trail and can be reached without difficulty. I know we have discovered something big—I wish I knew how big. I also wish the discovery had been made earlier in the season. However, I hope to be able to give out some news within a short time, that will be more definite and satisfactory."

The foregoing statement appeared in the Wrangell Sentinel of September 11, the day that the Stikene river boat Hazel B. No. 4 arrived from Telegraph Creek, bringing Mr Grady out to Wrangell to lay in an outfit of supplies, tools etc., and who, later advices say, is now enroute to the scene of the discovery.

When Grady stepped ashore at Wrangell, the Sentinel article says, he was surrounded by a crowd eager to hear his story.

He exhibited a poke containing several ounces of coarse gold, and told the people who had gathered to greet him that the discovery was made on Little Eagle creek, at a place about 12 miles east of Dease lake. Gold was found on a section of the creek where it cuts through a red porphyry dyke. The banks are about 400 feet high, and the creek has four forks.

Captain Sid Barrington, commander of the Hazel B, who with his entire crew left his boat and along with others travelled a hundred miles or more to stake claims reached Wrangell pretty well tired out but extremely enthusiastic. He told the Sentinel that in his opinion the importance of the new discovery is not overestimated.

Under date of September 12, Captain Barrington, of the Barrington Transportation Company, who had just reached Wrangell after his return from a hasty trip to Eagle creek, where he located a claim, wired his business associate, Captain F. G. Sterling, of Seattle, as follows:

"Arrived back from creek. It looks very good. Jerry Galvin and crew of six men are going in. Also about eight men more of the local talent from here."

Mr Galvin is a wellknown former Nome mining man, who is now concerned in a lode property near Wrangell.

On September 16 a press report from Wrangell stated that Hugh R. Chilberg of Ketchikan is heading a party composed of L. Gernantes, W. J. Harbke and Angus Morrison, en route to the new strike. This party is well equipped to remain throughout the winter if necessary. Mr Chilberg is a son of J.E. Chilberg, the former Seattle banker and mining man, who is now operating the Saltchuck mine near Ketchikan. The party was organized at Saltchuck.

The Hazel B. departed from Wrangell on a return trip to Telegraph Creek September 15. On board were some 20 men en route to the new diggings.

BRITISH COLUMBIA

The Mineral Province of Western Canada

Has produced Minerals valued as follows: Placer Gold, $76,962,203; Lode Gold, $113,352,655; Silver, $63,532,655; Lead, $58,132,661; Copper, $179,046,508; Zinc, $27,904,756; Coal and Coke, $250,968,113; Building Stone, Brick, Cement, $39,415,234; Miscellaneous minerals, $1,408,257; making its mineral Production to the end of 1923 show

AN AGGREGATE VALUE OF $810,722,782

The substantial progress of the Mining Industry in this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive, $94,547,241; for five years, 1896-1900, $57,607,967; for five years, 1901-1905, $96,507,968; for five years, 1906-1910, $125,534,474; for five years, 1911-1915, $142,072,603; for five years, 1916-1920, $189,922,725; 1921, $28,066,641; for the year 1922, $35,158,843; and for 1923, $41,304,320.

PRODUCTION DURING LAST TEN YEARS, $350,288,862

Lode mining has only been in progress for about 33 years, and not 20 per cent. of the Province has been even prospected; 800,000 square miles of unexplored mineral-bearing land are open for prospecting.

The mining laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

THE HON. THE MINISTER OF MINES, Victoria, British Columbia.

than ever and with a view to producing on a larger scale than ever. Its production will now amount to at least 30,000,000 pounds of copper annually.

The Granby Consolidated Mining, Smelting and Power Company's mine at Anyox, Observatory Inlet, is another of the huge mining properties of British Columbia. Producing chiefly copper, it has also silver and gold. For years it has been one of the big dividend-paying, producing mines, and deposits in sight insure its continuance on the same basis for many years to come.

Gold values are the chief characteristic of the profit-paying Belmont-Surf Inlet mine, owned by the company of the same name. It has plenty of ore in sight and indications are that it will continue to number among the leading dividend-paying properties of this Province for many years.

The Nickel Plate mine at Hedley is another profitable venture. It has rewarded its backers and with its present very modern stamp mill and cyanide plant promises to be a big producer for some time to come.

But these are only a few of the mines in British Columbia producing on a paying basis. There are others, maybe not so large, but returning dividends in proportion to their invested capital.

They are all proof of the fact that the day of hit-or-miss flotation of mining companies has passed: that British Columbia is Canada's great mineral-producing Province, and that it will assume greater importance in that connection still, as the huge mineral wealth known to exist in nearly every section of British Columbia comes under development.—Exchange.

Local Stocks

In the midst of a continued dull market, local stocks have remained, to an extent, inactive during the week.

There has, however, been a certain amount of trading in Dunwell, Glacier Creek and Porter Idaho, and it is anticipated that as soon as the fall slackness that commenced with what appears to have been a determined bear movement is over, these three stocks will prove strong favorites.

	Bid	Asked
B. C. Silver	$ .40	$ .60
Dunwell	4.00	4.70
Glacier Creek	.33	.39

MINERAL ACT
Certificate of Improvements.
NOTICE

"Maggie Jiggs Fraction," "A. M. Fraction," and "O'Brien Fraction," Mineral Claims, situate adjoining the Indian Mine on Salmon River in the Portland Canal Mining Division of the Province of British Columbia.

TAKE NOTICE that the Indian Mines Corporation Limited, Free Miner's Certificate No. 44191C, intends, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements for the purpose of obtaining a Crown Grant of each of the above Claims.

And further take notice that action, under section 85, must be commenced before the issuance of such Certificate of Improvements.

Dated this 27th day of June, A. D. 1924. 19
