VOL. 6, NO. 7 STEWART, BRITISH COLUMBIA, FRIDAY, JULY 11, 1924 $5 THE YEAR

DUNWELL MINE TO SHIP SOON

Great Ore Shoot Is Holding Strong in North Drift—Road Construction Being Rushed

With a developed length, at Thursday night of this week, of 528 feet of ore in one shoot, the Dunwell mine has probably one of the largest continuous ore shoot known in this district. It is not all high-grade, mind you, but throughout the brecciated and laminated vein deposit there are nuggets and plasters of silver, deposits of argenntite and here and there a fleck of free gold, all giving evidence of the fact that the Dunwell is a mine in the making. In the 528 feet of drifts on the No. 3 level, cross cuts have been run every 50 feet from the hanging to the foot wall, and the results have been all the same, the opening up of a wonderful shoot of high grade milling ore, with enough of the native and argentite to sort and ship for ready money to carry on operations.

No. 4 tunnel on the Dunwell is now in 196 feet, and it is anticipated that within the next 50 feet what is known as the west vein will be struck. This tunnel will be driven 800 feet to get under the showing in No. 1 tunnel, where drifting is now in progress on the wonderful high-grade shoot.

The management are conservative. They report values averaging from $8 to $10 in the big ore shoot of No. 3 drift, but admit that in this shoot are many occurrences of very high grade ore. Samples taken last night from the face of the north drift are full of argentite, the same as has occurred throughout this level.

Work on road construction to the mine is being rushed, it being the company's intention to commence shipping ore this fall. All material for the work is on the ground, the camp established, survey well under way, and the grading crew working on the lower end of the road.

Glacier Creek Progress

Glacier Creek tunnel is now in 15 feet, with a machine drill hammering away, and guesses are that the first vein will be struck soon. There have been no surveys made as yet, and definite announcement as to where and when the vein should be encountered cannot be made. Ten men are employed on two shifts with a heavy Ingersoll Rand drifter drill.

Efficient Management

Irrespective of the fact that there is more mining development than ever up the Bear river this year, there are today four or more miles less wagon road than there was four years ago. In other words the Bear river has lost on an average one mile or more of road per year. It is safe to say that there is not a parallel of this efficient management anywhere else in the province.

START WORK ON N AND S

Supplies have been taken in to the North and South Line property and mining operations started this week under the management of Gus Seiffert who, with Jack Pederson, bonded the property from James McKay last fall. The first work will be to drive a prospect tunnel 80 feet in length to crosscut the vein at a depth of 80 feet, and the construction of a permanent camp. The N & S, (a convenient abbreviation) is easily accessible, lying just north of the Dunwell at an elevation of only 2600 feet, and few transportation difficulties are met with.

The property consists of two claims, approximately 100 acres. Considerable surface prospecting was done last fall by the bonders on a strong vein of galena ore that shows from 10 to 20 feet wide and was traced for upwards of 1000 feet. Numerous assay samples taken went from $4 to $12 in gold, an average of 60 oz. in silver and 40 per cent lead. If any considerable quantity of ore such as this is blocked out, the property can quickly be put on a shipping basis by the construction of about two miles of wagon road.

Watch the Americus Girl

Joe Cullen, who is steadily plugging away at his property the Americus Girl, brought in some samples of nice looking ore yesterday, placing it in the News exhibit. This property is well situated on the south side of Bitter creek, on the ridge between it and Bear river. The camp is only a few hundred feet above the road. Mr Cullen is now getting some depth on the showing and says it is commencing to look interesting.

New Vein on Daly Alaska

Work on the Daly Alaska is at present confined to stripping and surface cutting on a new showing recently discovered, which consists of four feet of fine-looking sulphide ore.

Premier Pays Regular Dividend

The Premier Gold Mining Co. on July 5 distributed another dividend of $400,000, being 8 cents a share on a capitalization of $5,000,000. This brings the total dividends of the "Wonder Mine" up to $5,688,000, all of which has been made since the company started operations less than five years ago, besides which the mine has paid for all operating expenses, and equipment running into millions. Profits of operation for the first four months of this year were $815,000, before making deduction for depletion. The first dividend was paid Dec. 31, 1921, the amount being $400,000. Since that date a similar or larger amount has been paid each quarter.

STEWART-HYDER LOCAL NEWS

Mrs J. A. Hall returned Saturday from a visit of several weeks in Seattle.

E. J. Conway, field engineer for the Granby, spent the week end in camp.

W. E. Griffiths, representing Canadian Ingersoll Rand Co., arrived on the Cardena.

A spark from the western chimney of the Hotel King Edward set fire to the roof Monday evening. The blaze was extinguished from within, it being unnecessary to use the town apparatus.

July 4 being the birthday anniversary of the late Fred Dorey, Mrs H. Comer and Mrs W. B. George of Stewart went over to the Hyder cemetery and decorated his grave with flowers, also those of Sam Fry and William Murphy, who died with him in a fire last May.

O.H.Evinghouse, president of the Chief Metals Mining Company, who recently acquired the Star group, southeast of the Big Missouri, and C.A.Burns, one of the heavy shareholders, arrived Saturday from Seattle, and left early in the week for the property, in company with the manager, Dan Anderson.

Machine Shop Starts

Messrs Bryden and Lee, both experienced men in their lines, have opened a plumbing, sheet metal and machinery repair shop in the old Sheet Metal Works on Brightwell street, their first job being the plumbing in the new Universal Supply Store now nearing completion on 5th street.

Mr Bryden is a qualified and experienced mechanical engineer who recently arrived from Victoria and has been for some weeks past looking over the local situation. Mr Lee is a similarly qualified plumber and sheet metal worker from the same city.

The entry of such men into the business life of Stewart is the greatest possible indication of its growth and expansion. Therefore they can be assured of a real welcome by all who have the progress of the town at heart.

Mrs P.R.Backus returned Saturday from a visit to Ketchikan and Rupert.

Mrs D. A. Smitheringale returned Saturday from a round trip to Chicago.

The Pioneer picture show in Hyder has reopened under the management of Louis Johnson.

George Young, district road superintendent, left for Alice Arm on the Marmion Wednesday after looking over things general.

Your Postmaster may spare you a copy of the 1924 Prince Rupert Exhibition Prize List. Try to have Entry Sheet reach an exhibitor. Use address Box 707, Prince Rupert.

S. P. Fitzgerald, president and managing director of the Independence Co., returned Saturday from a business trip to Seattle, Victoria and Vancouver.

While playing grass Hockey last Monday evening Mrs Hugo Stratford suffered a painful injury, being struck with a hockey stick and having the bridge of her nose broken.

Gone To Munro Group

A. N. McDonald, Pat McBride and J. E. Munro left this week for the Munro group, located on the west side of Salmon Glacier about three miles from its foot, to do some work. They have already done considerable development on a series of comparatively small but high-grade veins that occur on the property, driving several tunnels, for which the lay of the ground is particularly adapted, the mountainside being almost precipitous. They took in 3500 pounds of supplies on the trip, and figure that this will last them through.

They also expect to do some work on the Sunrise group, on August mountain, at the head of Salmon glacier, owned by McBride and McDonald. Last year they located three veins on the Sunrise, one of which, 18 inches wide, is traced for 400 feet and assays from $73 to $180 per ton, principally in silver. The other two veins are larger, but the ore is not so rich.

Big, Bad Black Bear

Beautiful gardens are an attraction not only to human beings. The other day a black bear wandered into the garden of W.B.George and started to have a feed of green peas. This not meeting with the approval of the owner, and there being no trespassers law that will prosecute bears, Mr. George had no other recourse but to despatch the intruder with his high-powered rifle.

RAILROAD CO. INCORPORATED

Articles of incorporation have been filed in Juneau for the Terminal Railway and Power Co. of Hyder Alaska, the incorporators being J.Arthur Hall, president of the Salmon River Bank, of Hyder, and owner, with Lindeborg Bros., of the Hyder townsite; P.R.Backus, mining and civil engineer, a pioneer of this district who has had a wide experience in railroad work, and Jas. R. Keefer, a prominent attorney of Seattle.

Mr Hall, when seen by the News, said that while it is too early yet to go into details, only the preliminary steps having been taken, it is the intention to go ahead with construction at the earliest possible moment, the district having reached a point in its development where more adequate means of transportation than those now available, are an absolute necessity.

Roughly, it is the plan of the company to construct a standard-guage railroad up the Salmon valley from Hyder to the boundary line at 13-mile, with a spur up Texas creek. Later the main line may be extended to the head of the Salmon basin, depending, of course, on tonnage available.

Working On Terminus

Work was started this week in earnest on the Terminus, the contractor, George Tonkin, and his crew, who will do 300 feet of tunneling and drifting, leaving for the property Sunday, accompanied by Harry Heywood, the mine manager. The latter made a trip up last week and reports that the trail to the camp site is in good shape for pack horses, the bridges across Bear river and American creek having been put into repair. Victoria papers arriving Monday night report that assays made in the provincial assay office on three samples of Terminus ore gave 410 oz. silver and 17 per cent lead; 150 oz. silver; 132½ oz. silver and 14 per cent lead, respectively.

ALMOST READY FOR BUSINESS

Universal Supply Company Have Fine Store Almost Completed To Fill a Long Felt Want

With their new store, a two-story modern building, nearing completion on 5th street, the Universal Supply Co will soon be open for business, handling all sorts of furniture, building and mining supplies, as well as musical instruments, and as representative of a number of manufacturers, will be able to supply almost any need of the community.

Godfrey W. Smith, who heads the new firm, was formerly of the well known firm of Smith & Champion, Victoria. With the able assistance of his brother-in-law, Alex Strachan, Mr Smith has done all the construction work, even to the building of the chimneys; the only work they required outside assistance on was the plumbing and wiring, the former being done by the new firm of Bryden & Lee.

Good store accommodation is provided on the ground floor, with commodious living quarters upstairs; in fact, so modern is the building that the wiring, which was done by H. Hooton, provides for a radio receiving set, enabling Mr Smith, in his liesure hours, to listen in on the big concerts of the south.

As soon as certain finishing work has been completed, which will require about another two weeks, Mrs Smith will join her husband and become a resident of Stewart.

It was Mr Smith's close contact with the development of the camp, spread over a number of years, that convinced him of the prosperity which the future held in store for the district and influenced him to engage in this new undertaking.

New business firms in any community are sign posts of prosperity and progress, and it is when men of Mr Smith's long experience in the business life of this province leave the comforts of the south and come into the business life of the town, that the realization is borne home of the growth that the near future will produce. It is a sign of the times, welcome to all who have looked forward for years to the time when their faith in the mineral deposits of the camp would cause to spring up here in Stewart a strong, virile community, taking a prominent place among the prosperous towns of the province.

A COMMENT

THE UNVEILING of the Cenotaph in memory of the men from this district who fell overseas during the great war, was a ceremony long to be remembered with a feeling of satisfaction by the many who were present, not only from Stewart, but also from our sister community of Hyder, Alaska.

The International Service Club who were responsible for its erection, were particularly fortunate in obtaining the services of a man such as the Rev. Mr. Ashley, himself a returned man, private in the P. P. C. L. I., one of Canada's first, and crack regiments, to officiate, and in the assistance given him by the Rev. Mr. Reddick of Hyder, and Father Allard; for on these three men all denominatiions could centre; in addition to which, with the people from Hyder two great nations were represented.

It would not be fitting to touch upon this subject without mentioning the committee who so ably carried out the work, and particularly Messrs S. G. Lawrence, H. Hooton and E. A. Lewis. It was due to their untiring effort that the occasion was the success that it was.

DON'T MENTION IT

The Weather Man must have a spite against Stewart this year, for never in its history was such a Dominion Day planned or organized as was this year provided for by the committee in charge, which was drawn from every organization in the community. Fine weather right up to the day, then pouring rain, followed next day by a continuation of fine weather, appears to give sufficient justification for the charge.

It is to be particularly regretted, for many splendid items had been provided for, the committee having the hearty co-operation of the entire town, all working hard to make it a gala day. In addition to this, a number came down from Premier and over from Hyder with their base-ball and football teams, to play the local boys. Besides all these, numbers came into town from nearly every property in the district. OH!!

Later—Now we know that not only the Weather Man but all his friends had it in for Stewart on the 1st of July, for just at this point, in response to many shouts of "fire!" the editor was called away to assist in extinguishing a blaze on the roof of the largest building in town. This is what he gets for having the temerity to even talk about the day; and if this article is not brought to a close here, the country will go dry, or the roof will fall in on his head; so good-by, Mr. Reader, good-by.

SPEAKING OF FLIES

Not many house flies, but how time flies! Pretty soon snow flies.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment for stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 10 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stockmen may form associations for range management. Free, or partially free permits are available for settlers, campers and travellers, up to ten head.

JULY FOURTH CELEBRATION

Hyder Holds Festivities in Honor of Nation's Birthday—Stewart Joins with Great Glee

Hyder's Fourth of July celebration was a success in every sense of the word, the largest concourse gathering that ever assembled in Alaska's Mining Hope. Stewart residents took full consolation for their disappointment caused by rain on the First, by attending in a body, this town being practically deserted for most of the day.

The celebration started in the morning with a parade in which Stewart floats formed the leading feature, the principal attraction of these being a Crawford Transfer truck, on which the young girls of the grass hockey team made a pretty picture in grass suits designed after the fashion made famous by belles of the Sandwich Islands. A large program of children's sports went through without a hitch, appropriate prizes being given.

In the afternoon the best ball game of the season was pulled off, Hyder winning by a score of 3—1. Hyder's new pitcher, Sinclair, is a tower of strength to the team, and to him must be given a major portion of the credit for winning the game. Rev. F.E.Reddick was selected as receiver for the shoots and curves, and held down the plate with distinction. Stewart's battery was McNeil and Seiffert. Both sides showed lack of batting practice, the pitchers having things pretty much their own way. Williams and Grashio umpired. Perhaps the greatest interest, on account of considerable money having been wagered, centered on the horse race which took place immediately after the ball game, and the boxing contests, held in Pioneer hall in the evening. The race, which was a match between W.J.Crawford's Flossie and T. W. McDonald's Paddy O'Dowd, was won by the former, with Tommy Whitely in the saddle.

Sam McNeil Files Gentle Protest With Joe Grashio

Billy Hill of Stewart lost the main boxing bout on points to Harold Blanton of Hyder. Billy gave away considerable weight and a bunch of years. He did not try to protect his face, taking everything that came his way with a grin. Blanton was the aggressor all the time, and the decision is considered fair. Berney McDonald won on points over Lorne Jamieson in one of the three-round preliminaries. In the other preliminary, between Brown and Graham, the latter fell in the second round, striking his head on the floor, and was taken to the hospital in an unconscious condition.

Sam McNeil refereed the bouts and the judges were Joe Green, Scotty Evans and T.W.McDonald

Cleaning and pressing, 6th and Victoria. Mrs Coughlan.

BRITISH COLUMBIA

The Mineral Province of Western Canada

Has produced Minerals valued as follows: Placer Gold, $76,962,203; Lode Gold, $113,352,655; Silver, $63,532,655; Lead, $58,132,661; Copper, $179,046,508; Zinc, $27,904,756; Coal and Coke, $250,968,113; Building Stone, Brick, Cement, $39,415,234; Miscellaneous minerals, $1,408,257; making its mineral Production to the end of 1923 show

AN AGGREGATE VALUE OF $810,722,782

The substantial progress of the Mining Industry in this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive, $94,547,241; for five years, 1896-1900, $57,607,967; for five years, 1901-1905, $96,507,968; for five years, 1906-1910, $125,534,474; for five years, 1911-1915, $142,072,603; for five years, 1916-1920, $189,922,725; 1921, $28,066,641; for the year 1922, $35,158,843; and for 1923, $41,304,320.

PRODUCTION DURING LAST TEN YEARS, $350,288,862

Lode mining has only been in progress for about 33 years, and not 20 per cent. of the Province has been even prospected; 300,000 square miles of unexplored mineral-bearing land are open for prospecting.

The mining laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

THE HON. THE MINISTER OF MINES, Victoria, British Columbia.

LOCAL NEWS

Vince Lade left Monday night for a visit in Rupert.

A. Schriock, the well known cook, returned Saturday from a trip outside.

Hugh MacDougall started this week on the construction of a house on his property in Hyder, B. C.

H. Brown, liquor vendor at Anyox, arrived Monday evening to relieve Wm. Noble, vendor for Stewart, who left on the Cardena for his annual vacation.

Hal Hambleton of Fresno Cal., left for the south Saturday after spending a week on the Daly Alaska, in which his brother Eddie, of Vancouver, is heavily interested.

Label and address mineral samples to Fair Office, Prince Rupert. The Canadian National Railways will, no doubt, welcome the Biggest and Best Display ever made on the Pacific.

Miss McConkey left on the ore ship Anyox for Anyox to visit friends before proceeding to her home in Vancouver. She was accompanied by her friend, Miss Viola Dill, who had arrived from Maple Bay the same morning in the course of a holiday trip to northern points.

The Cardena brought in an Ingersoll Rand steel sharpener for the Dunwell.

Jack Lee, 11-year-old son of Thomas Lee, arrived from Victoria on the Cardena Monday evening.

A. Harvey, for many years one of Victoria's leading wholesale liquor merchants, visited the camp this week.

Joe Jackson, discoverer of the Texas creek galena belt last summer and now vice president of the Texas Creek Comstock Co., returned Saturday from a trip to Seattle and Portland.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for wharf extension and repairs, Bella Coola, B. C.," will be received at this office **until 12 o'clock noon (daylight saving), Tuesday, July 22, 1924,** for the construction of an extension and repairs to the wharf at Bella Coola Skeena District, B. C.

Plans and form of contract can be seen and specification and forms of tender obtained at this Department, at the office of the District Engineer, Old Post Office Building, Victoria, B.C. Prince Rupert, B. C.; Namu, B. C. and Bella Coola, B. C.

Tenders will not be considered unless made on printed forms supplied by the Department and in accordance with conditions contained therein.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Minister of Public Works, equal to 10 per cent of the amount of the tender. Bonds of the Dominion of Canada or bonds of the Canadian National Railway Company will also be accepted as security, or bonds and a cheque if required to make up an odd amount.

Note.—Blue prints can be obtained at this Department by depositing an accepted cheque for the sum of $10.00 payable to the order of the Minister of Public Works, which will be returned if the intending bidder submit a regular bid.

By order,
N. DESJARDINS,
Acting Secretary.
