ALBERTA BUILDING

Regina.

Prospects for a good year of construction work at Regina are beginning to look brighter. The Fred Lewis company of Winnipeg will open an office in Regina about the fifteenth of February, in order to make preparations for the erection of several large buildings for which they have been awarded the construction. One of the largest undertakings that this company will handle, will be the question of the new Cameron and Heap warehouse. It is estimated that this will cost in the neighborhood of $80,000.

It is announced that several large apartment blocks will be erected in Regina during 1914. F. G. England has purchased a site on 12th avenue, and has announced his intention of erecting a large up-to-date apartment block on it. A. W. McGregor will erect an apartment block which will cost between $30,000 and $35,000 and A. G. Powell also intends erecting one at a cost of about $30,00.

Medicine Hat

Among the structures in view for this year are the new high school, telephone building, two or three apt. blocks, two fire halls, immigration hall, addition to the federal bldg., not to speak of the numbers of residences that it is known are to be erected. In one district alone it is expected that 100 houses will be built. Nor does the above programme, now being outlined, include what is in sight in the way of factory construction, which will undoubtedly, as usual here, be of no slight importance.

Assigned Contract Secure

That the contract for paying, assigned by the M. P. Cotton Co. to the Cotton Co., is satisfactory, is indicated in the decision of the board of works not to reinvite tenders.

The fate of the subway contract is still in abeyance.

The Value of Spare Moments

From every section, and from all sorts and conditions of men, messages come to tell of earnings increased and futures brightened through study of I. C. S. Courses during spare time.

One letter gives the romance of a young man in California that began with little or no education; another tells the story of a high school graduate in Maine that found himself educated for everything but to make a living. Here are the heart-trobs of a fellow that toiled 12 hours a day and studied his Course as best he could; of a foremen or superintendent that enrolled because his ambition aimed at still bigger things.

No matter where you live, how little spare time you have, or how brief your schooling, the I. C. S. can raise your salary. That statement is backed with 20 years of success and a record of 400 or more advancement letters received every month.

I. C. S. Courses have made draftsmen, foremen, and superintendents of shop hands; building contractors, architects, structural and concrete engineers of carpenters and masons; advertising men, window trimmers, chemists, illustrators, and designers of clerks; electrical, mechanical and steam engineers of laborers; mine inspectors, foremen, and mining engineers of mine workers; bridge engineers, surveyors and mappers, civil engineers, gas engineers, automobile runners and civil service employees of young men willing to use their spare time to mold a career.

Suppose you were to increase your earnings only $20 a month—what a fine return that would be on your spare-time investment! Yet some have increased their earnings $250 a month.

Mark and mail this coupon and you will receive free information how you can increase your earnings by spare-time study.

OFFICIAL PROPOSALS

SYNOPSIS OF COAL MINING REGULATIONS.

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to any one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

Designs of a general character will first be submitted and from this number the best six will be selected and the authors of these will be asked to elaborate their designs. The one finally selected will get the job of superintending the work based on his plans and will be given a five per cent commission. The cost of the buildings will probably aggregate five million dollars.

The other five competitors who will be asked to develop their general designs will each receive $3,000. The sketches will be received up to April 2 next. Then three months will be given for the best half dozen to develop their plans.

The competitors whose plans are accepted will be given a further period of four months to prepare working plans. Afterward tenders will be called for, but, in view of the time allowance, this will not be before next autumn.
