SLIGHT INTERFERENCE IN VICTORIA CIVIC WORK

(Special to the Record)

Municipal Work, Victoria—The bulk of Victoria's programme of municipal work will be continued despite the war troubles, as long as there are funds on hand to pay contractors.

The acceptance of the $18,000 paving plant wil be delayed until next year, the extension of the garbage wharf is called off, and certain contemplated expenditures in the waterworks service are eliminated, as are smaller items in various depts., representing a saving of about $100,000.

The paving work under way has gone so far that it must be proceeded with.

The northwest sewer work must also proceed, as well as the big extensions to the Sooke Lake waterworks system. Work on the latter will only stop when the fund is exhausted.

The Canadian Mineral Rubber Co. has resumed surfacing work on Fort st, from Linden ave. to Yates st. The city's promise of 20,000 yards per month to the company has not been kept, as both the Fairfield road and Oak Bay paving projects are regarded as practically "off" for this season.

Painting Contract.

W. J. Barclay has been awarded the contract for painting the bldgs. at the Isolation Hospital at $398.

Steel Pipe Contract.

Pipe, Victoria—The contract for laying steel pipe on conc. foundations at the Northwest sewer outfall will be awarded soon. Only one tender was received, from Hutchinson Bros. & Co., Ltd.; referred to the city engineer.

SEVERAL PROPOSALS IN FOR FRASER RIVER JETTY

Jetty, Fraser River—Several tenders were submitted at Ottawa for the construction of the second section of the north jetty at the mouth of the Fraser river, the period for receiving tenders having ended. It was feared that the war conditions would operate to suspend much work now being carried on by the public works department, but this fear was dispelled by the official announcement from Ottawa that there would be no suspension.

CONTRACTS AWARDED FOR NEW ROAD WORK

Roads, Surrey—At the meeting of the Surrey council, contracts were awarded as follows: Contract 50, Boothroyd road gravelling, T. G. Owen, $387.50; contract 51, Campbell River road east of Semiahmoo road, J. Brannigan, $150; contract 52, Clover Valley road, south of Townline road, W. B. Childs, $136.50; contract 53, Coast Meridian road south of Hjorth road, W. Bothwell, $425.

SAYS THAT SEATTLE WILL BUILD ALL CONCRETE PIERS

An important announcement is made by Mr. R. Bridges, of Seattle, that hereafter concrete will be used exclusively in the erection of new piers and other harbor structures in that harbor.

Mr. Bridges is a member of the Seattle Harbor Commission, which is expending more than $6,000,000 in harbor improvements.

TAKING PROPOSALS FOR MORLEY BOARDING SCHOOL

School, Morley, Alberta.—The Dept. of Indian Affairs, Ottawa, is taking proposals until Aug. 24 for erecting a boarding school bldg. at Morley, Alta.

THREATEN TO DEMOLISH NEW WESTMINSTER BLDG.

The New Westminster council has announced its intention of tearing down a stores and rooming house bldg. owned by Sing Kee in that city, on the ground of being unsanitary.

Drinking Fountains.

A contract for installing two drinking fountains at each of seven South Vancouver schools has been awarded to Jorgeson Brothers at $292.

The school board has decided to expend $150 on additional grading of the Gordon School grounds.

Kelowna Creamery.

Mr. H. Rive, Dairy Commissioner for the Province, is at Kelowna, where he will assist in the formation of a co-operative creamery for that district.

Materials To Be Used

7012—2000 brk, 700 yds pl, 8 bbls cmt.

SETTLEMENT MADE BY B. C. UNIVERSITY BOARD

University Point Grey—The following statement has been given out by the B. C. University board in connection with the erection of the proposed science bldg.:

The Board of Governors of the University of British Columbia has been most anxious to proceed with the letting of the contract for the science building, for which tenders have been received. Twenty-three contractors had applied for and received plans and specifications. Owing to the very greatly disturbed financial condition dependent upon the war situation, only seven tenders were received. Under the circumstances the Board has returned the tenders unopened and is considering the question of advertising for tenders for excavation, the concrete work and such other work as may be involved in carrying the building to this stage.

By this means it would be possible to provide against delay in the completion of the building on the one hand and to guard against undue risk possibly involved in the award of the whole contract under present disturbed conditions.

MATERIALS REQUIRED IN ASHCROFT BUILDING

Public Building, Ashcroft—Materials specified in the Dominion 2-sto. and bsemt. public bldg. at Ashcroft, for which tenders have been closed by the Dept. of Public Works, at Ottawa, include:

Concrete footings, cement finish, damp proofing, concrete, stone and three low base hot water furnaces, brick construction, steel, wrought and cast iron work, galvanized iron, sheet metal, marble and tile work, felt and gravel roofing, hardware, floors, birch finish, plumbing, hard wall plastering, Keen's cement finish, plate glass, electric wiring and fittings.

Courtney Building.

Public Bldg., Courtney—Materials specified in the 2-sto. and bsemt. Dominion public bldg. at Courtney, for which proposals have been invited by the Dept. of Public oWrks, at Ottawa, include:

Concrete footing and foundation, cement finish, damp proofing, stone and brick construction, steel girders and columns, pressed brick facing, steel, wrought and cast iron work, galvanized iron, cornices, slating, copper, felt and gravel roofing, marble and tile work, septic tank, plumbing, metal lath hard wall plastering, hardwood floors and finish, plate glass, hot water heating, electric wiring and fittings.

WILL PREPARE PLANS FOR SEWERAGE SYSTEM

Sewers, Vancouver—The Point Grey engineers have been instructed to prepare plans without delay for a system of sewers to drain the district east of Alma Road. As soon as the plans are ready steps will be taken at once to have the work undertaken.

An arrangement has been made between members of the board of works and the joint sewerage commission whereby extensive sewerage will be installed in Ward Seven and the west end of Ward Six. Levels will also be taken for the outfall sewer at Rupert St. and work undertaken as soon as possible.

The engineers are now ready to submit their plans for the Renfrew St. sewer outfall. The Rupert St. outfall sewer is intended to drain the district from Slocan to Renfrew Sts.

CONTRACT IS AWARDED FOR STEEL PIPE SUPPLY

Pipe, Cranbrook—The council has awarded a contract for about 5,000 tons of steel pipe for waterworks purposes, to J. B. Turney & Co., of Lethbridge, Alta.

Meters, Calgary—The following contracts for the supply of water meters have been awarded by the city coun-Bldg., Winnipeg, 40 trident disc cil: Walsh & Charles, 50 Travellers meters at $16.38 each; 10 trident 2-in. style 3, at $65.00 each; National Meter Co. 10 No. 9 2-in. Nash, at $65.00 each, 100 No. 9 1-in. Nash, at $21.80 each; Western Supply & Equipment Co., Calgary, 10 Sleman meters, at $10.70 each.

FIRE & INSURANCE

Hotel, Phoenix—The Maple Leaf hotel, a fr. bldg., has been destroyed by fire; Geo. Rumberger, Phoenix, owner; some insurance.

ARCHITECTS INVITED TO INTERNATIONAL COMPETITION

Melbourne, June 30. 1914—The Australian government announces an international architectural competition for the purpose of selecting the architect of the Parliament House and possibly incidentally additional architect for other government structures of the new Federal Capital City, Canberra.

Only tentative outline sketch designs for the building are requested, and eight (8) prizes are offered aggregating £6000, the first being £2000, in addition to commission for service at the scale of the Royal Institute of British Architects.

Designs may be submitted in either Melbourne or London before March 31, 1915, and wil be judged by the following jury of architects:

George T. Poole of Australia.
John J. Burnet of London.
Victor Laloux of Paris.
Otto Wagner of Vienna.
Louis E. Sullivan of Chicago.

The decision of the jury will be final.

A program will be issued to any practicing architect on application to the High Commissioner for Australia in London. Works Departments of British Colonies, or British Embassies at Berlin, Madrid, Paris, Rome, St. Petersburg, Stockholm, Vienna, Washington, from whom also copies of text in French or German may be had on request. Copies in Esperanto may be obtained from the High Commissioner or from the Esperanto headquarters at Geneva.

The importance of this event is not to be measured by that of the foremost building of the commonwealth, but by the opportunity to establish an architectural standard not only for the entire future seat of government in Australia, but for a great new democracy of scope, scale and modern advantages as well as the climatic conditions differing radically from any prototype in Europe or elsewhere.

Coal, Prince Rupert—Tenders will be erceived up to 4 p.m. Monday, the 17th of August, for the supply of 500 tons of washed Nut Coal.

Forms of tender and specifications at office of A. Brookshank, Purchasing Agent.

Postoffice, Lacombe.—The Dominion Government Department of Public Works contemplates erecting a postoffice. Sec., R. C. Desrochers, Ottawa.

The Value of Spare Moments

From every section, and from all sorts and conditions of men, messages come to tell of earnings increased and futures brightened through study of I. C. S. Courses during spare time.

One letter gives the romance of a young man in California that began with little or no education; another tells the story of a high school graduate in Maine that found himself educated for everything but to make a living. Here are the heart-trobs of a fellow that toiled 12 hours a day and studied his Course as best he could; of a foremen or superintendent that enrolled because his ambition aimed at still bigger things.

No matter where you live, how little spare time you have, or how brief your schooling, the I. C. S. can raise your salary. That statement is backed with 20 years of success and a record of 400 or more advancement letters received every month.

I. C. S. Courses have made draftsmen, foremen, and superintendents of shop hands; building contractors, architects, structural and concrete engineers of carpenters and masons; advertising men, window trimmers, chemists, illustrators, and designers of clerks; electrical, mechanical and steam engineers of laborers; mine inspectors, foremen, and mining engineers of mine workers; bridge engineers, surveyors and mappers, civil engineers, gas engineers, automobile runners and civil service employees of young men willing to use their spare time to mold a career.

Suppose you were to increase your earnings only $20 a month—what a fine return that would be on your spare-time investment! Yet some have increased their earnings $250 a month.

Mark and mail this coupon and you will receive free information how you can increase your earnings by spare-time study.
