PORTER IDAHO REMARKABLE

Two New Veins In Tunnel And Stringer of Bonanza Gold—Shipments Will Be Increased

Remarkable ore has been encountered at the Porter Idaho, according to a statement made public by the management. The 300-foot tunnel, which is nearing completion, encountered two veins of exceptionally good ore at between 250 and 270 feet from the portal. One of these is five feet wide and the other seven feet. Just before reaching the first one a small stringer from two to six inches wide was encountered, cutting diagonally across the tunnel in such a manner as to justify the expectation that it will join the first vein a short distance from the tunnel. This stringer, Mr Porter said, carries exceptionally high gold values, assaying around 20 oz. per ton in gold, with a good silver content. At the time Mr Porter was in town the tunnel had still to be driven 30 feet to reach its objective.

According to his statement the upper workings are proving more than satisfactory. The high-grade shoot has widened and two shifts are drifting both ways from the bottom of the winze, extracting ore faster than the pack train can take it away, and the number of horses will be about doubled, and 35 to 40 head will be put on. At present about 2½ tons of high-grade ore is delivered at the beach daily and a considerable tonnage is accumulating for shipment south on the first boat in August.

Wharfage for Marmot

Last Sunday J. P. Forde, Federal Government Public Works Engineer, in charge of the district of British Columbia and the Yukon, accompanied by Alexander Halkett, assistant engineer, arrived from the south on the departmental launch Walrondo, to look over departmental matters locally, and to survey a site for a float at Marmot Bay. This float will be large enough to enable steamers to tie up to it, and will be connected with the shore by a piled approach.

Dr. G. A. Sutherland, of Port Coquitlam, arrived Saturday and made a visit to the Dominion group, at the head of the north fork of Marmot river, in which he is heavily interested. The doctor expressed himself as highly pleased with the appearance of the property.

ENGINEERS ON GEORGIA RIVER

Three mining engineers and metallurgists, well known in Cananian and other mining sections, left early this week for Georgia river to make a thorough examination of the Georgia River Mining Company's properties. They are B. W. W. McDougall, W. Salkeld and Thos. Thompson. W. Beaton of Vancovver, who is directing operations, spent several days with them on the property.

They will make a most exhaustive examination, thoroughly sampling all mineral occurrences, mapping and platting the ground with a view to co-relating the numerous ore showings so that a real plan of permanent development may be worked out. Their operations will consume probably two weeks' time, as it is estimated that in the neighborhood of 300 samples must be taken for assay, after which a week at leest of good hard office work will be required.

The trail crew who went down about two weeks ago is reported to be making excellent progress, and by the time the development program is decided upon it will be possible to take in heavy machinery to open up this high-grade gold belt in a practical manner.

F. C. OUTLAND GETS GOOD ORE

F. C. Outland of Seattle, president and manager of the Outland Silver Bar company, owning a group of claims at the junction of the Salmon and Chickamin glaciers, this week brought in some beautiful specimens of ore from a vein which his crew is now developing. The ore shows galena and grey copper in quartz gangue, the latter being heavily stained with silver bromides. The tunnel face at the present time, Mr Outland says, carries over three feet of this character of ore, and he is more optimistic than ever over the outlook for the property. He has done some work there every summer for the past five years, and has accumulated a considerable tonnage of shipping ore which he will have packed down the glacier and hauled out to the wharf before long.

School Board Election

At the School Board election held recently, W. R. Tooth was elected trustee and Walter G. Broad auditor.

STEWART-HYDER LOCAL NEWS

Any moss on your roof? Look out for fires!

R. J. Lundvall left last Saturday on a trip to Vancouver.

B. B. Smith left for Seattle Monday night on mining business.

R. F. Hill, manager of the Lakeview, returned Tuesday from a trip outside.

E. M. Haynes Postoffice inspector, looked over the local mail dispensary this week.

Professor J. M. Turnbull has returned to Vancouver after examining the Dunwell mine.

Henry Bell-Irving, head of the A.B.C. Packing Co. of Vancouver, passed through on the Cardena.

Jack Marshall has returned from Rupert and Porcher Island after an absence of several months.

Tom Powers, wharf superintendent for the Premier, has returned from Vancouver, where he went several months ago for eye treatment.

George Clothier, resident mining engineer, accompanied by Mrs Clothier, returned Saturday to continue his examination of mining properties here.

Professor Koch, geologist, of the Department of Science, Ottawa, passed through on the Prince Rupert last Saturday, accompanied by Mrs Koch.

Frank E. Woodside, president of the B. C. Chamber of Mines, left for Rupert last Saturday after putting in a strenuous week looking the camp over and talking to local meetings.

E. B. Fugier, directing head of the North Country Mining Co., operating the Gloria group at the head of Bulldog creek, has purchased Mrs Martin's residence on 7th street, Stewart, and will bring his family here.

American Visitors

Capt. Louis Lefko of Tulsa, Oklahoma, attorney and one-time investigator and counsel for the Better Business Bureau of the Associated Advertising Clubs of the World, is looking over the district. Mr Lefko prospected the Death Valley country in the old days, and seems to see possibilities in this area. He will take some claims after prospecting around.

Richard Black, of the University of North Dakota in civil engineering, is with Mr Lefko on the tour of investigation. Mr Black has had considerable experience in the field in civil and mining work, and is highly pleased with the outlook of this territory.

Choice lot, Hyder B. C., for sale. Apply P.C. News office.

H. D. Cameron, manager of the Extenuate, returned Tuesday from Vancouver.

Major C. B. North, manager of the B. C. Silver, returned Monday from a trip outside.

Mrs and Miss McCulloch, who have been visiting George Cameron, left for the south Saturday.

J. A. Hall, president of the Salmon River Banking Company, left Monday night on a business trip south.

J. M. and Miss Ruth Lemon, who have been visiting Mr and Mrs Frank Haugh, left for their home in Rupert Saturday.

Babe Fortin, who pitched for the Stewart baseball team until he injured a hand a few weeks ago, left Tuesday night for Vancouver.

L. Jesson, vice-president and manager of Boyles Bros., the diamond drillers, arrived from Vancouver Saturday, accompanied by Mrs Jesson.

P. Campbell, for many years customs officer at Prince George, has arrived to succeed Arthur Noble at Silver Heights, who has been transferred to Ocean Falls.

Henry Roden, district attorney with headquarters in Fairbanks, Alaska, called on the News last Saturday. Mr Ronen is one of the most widely quoted authorities on Alaskan mining law and is the author of a standard book on this subject. He was once in the newspaper business in Tanana.

Jack Pederson Returns

Jack Pederson, one of the first prospectors of the Portland Canal district, who is heavily interested in the Emperor Mines and also, with Harry Howson, has the Sunshine group under bond, arrived Monday night from Vancouver, where he spent the winter financing the Sunshine Syndicate. His co-director in the syndicate is John Hart, former Minister of Finance for B.C. The syndicate shares have a par value of $500 each, which is somewhat difierent from some of the flotatieas thrown on the market during the winter.

Here Is Something Different

The "Packers, Skinners and Truck-drivers of Stewart" are to hold their first annual picnic on Sunday, August 2, and are cordially inviting their fellow operators of Hyder, Alaska. Application for tickets must be made by Thursday, July 30, to Jack Scott. Picnic leaves Crawford Transfer office at 10 a. m. rain or shine.

MISS LOIS COMER HAS PASSED AWAY

Miss Lois Florence Comer, daughter of Mr and Mrs Harry Comer of Stewrrt, died in the Vancouver General Hospital last Tuesday night after an illness of 14 weeks, at the age of 22.

During her six years' residence in Stewart Lois endeared herself to the community by her happy disposition, a trait which she maintained until the end, sending her regards to her friends here a very short time before her death.

Leaving Stewart about a year ago, she entered the hospital to train for a nurse, was making excellent progress and had won her cap, when stricken with an illness which proved fatal. Her parents were with her at the end.

She was born in England and came as an infant with her parents to British Columbia. She is survived by them and three brothers, Harold, Jimmy and Jackie, all of Stewart, who have the sympathy of this community.

The funeral was held in Vancouver yesterday.

FRED STORK IN STEWART

Fred Stork, Federal member for this district, visited Stewart early in the week. Owing to his duties as member of the House of Commons, Mr Stork has been exceptionally busy since his last visit here a year or so ago, and therefore on his arrival this time was greatly impressed not only with the growth of the town and its air of permanency. As to the possibility of a Federal election this year, he said that so far nothing had been decided, but that personally he is in favor of holding it this fall. Whether or not there is an election Mr Stork will return to Stewart about October.

Dick Greenwell will be here early in August with a display of ladywear.

ORE COMING OUT FROM THE SPIDER

Pack Train Bringing Down High-grades from Well-Known Property While Development Proceeds

Joe Green, who returned last week from the south, has lost no time in starting operations on the Spider property which he bonded last winter from the original owners, Chas, Larson and Wm. Hamilton. A crew of men is at work under the foremanship of Dan Woodmore, sorting and sacking ore from the dumps accumulated during former operations, cleaning out the long tunnel in preparation for winter operations, and starting construction of a permanent camp to replace the buildings destroyed by snow.

The Spider group lies near the head of Long Lake in the Salmon Basin section, and a short distance east of the Silver Crest, the ore of the two properties being practically identical, consisting of native silver and stephanite (silver sulphide) in a calcitic quartz gangue.

In 1919 the Spider was bonded by the Algunican Development Co. of Belgium for $45,000, and they are reported to have spent $150,000 in development before being forced to throw up the bond on account of the rate of exchange against Belgian money. A tunnel was driven 700 feet along a small high-grade vein to crosscut a wide mineralized zone toward which the smaller vein strikes.

This spring Joe Green organized the B. C. Bonanza company to take over the Spider and the adjoining Web group, which he bonded from W. R. Tooth and associates of Stewart.

Wm. McGrew's pack train is busy taking in supplies and packing out high-grade ore, which is stored for the present at 11-mile near the end of the Salmon valley wagon road. and will be brought to the wharf when sufficient tonnage has accumulated for a reasonable smelter shipment. It is the intention to keep a stream of ore coming down the hill by working continuously. The Spider has always been considered one of the best properties in the Salmon river section.

Thor Johnson, partner in the Johnson store in Stewart, arrived Monday from Rupert.

Mrs H. F. Kergin and family of Alice Arm passed through last Saturday on their way to Prince Rupert to attend the funeral of Mrs Kergin's father, the late Capt. McCroskie.

A FUTURE BUSY PORT

THERE was a time when they moved houses from Stewart to Hyder, Alaska, and then back again to Hyder, B. C. and some ambitious people went so far as to wish to move houses back to Stewart. Now, another movement has commenced; William Fraser, an oldtimer in Stewart, is moving his house to Marmot Bay, and will thereby become one of the first residents of what is fast becoming another town at the head of Portland Canal, made possible by mining activities in the Marmot River section. Marmot Bay, near the mouth of the river, is quite a busy place, being the base of road construction as well as considerable mining, and now the Government are to put in a landing stage, sufficiently large to accommodate steamers.

The head of Portland Canal is truly becoming a busy place, and the activity now most noticible is only in its infancy. It does not take much vision to see, ten years from now, the head of Portland Canal the busiest port in northern B. C.

THAT BEER SITUATION

THERE are two beer parlors in Stewart. We understand that the proprietor, or proprietors, as the case may be, of one of these has taken very violent exception to the editorial published in these columns last week, in which certain iniquities were pointed out.

No names were mentioned in the editorial—but does the coat fit? It would appear that it does, for we understand that one proprietor is taking exception.

We understand also that, according to his viewpoint, reported to have been made public, this newspaper, its management, its editor and employees, are everything except what they should be.

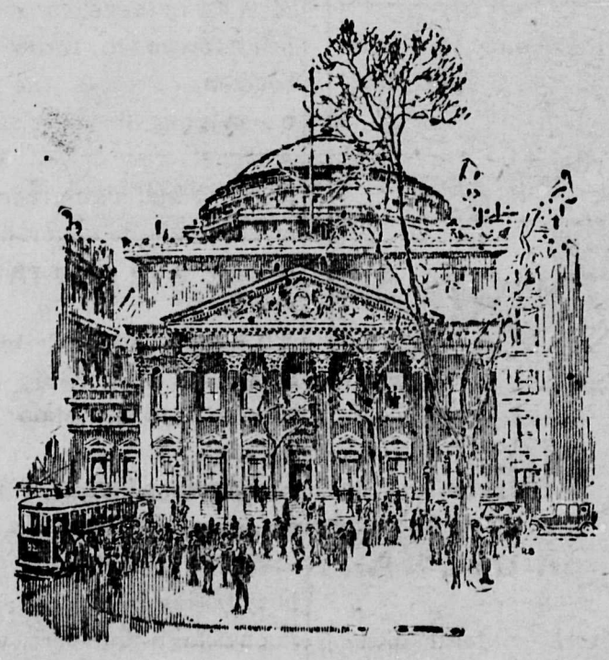
Supposing this is all admitted, does or has that made it any more convenient, or less insulting, for women to walk along a certain section of Fifth street?

One thing is certain, that the condition complained of has to an extent improved since the editorial was run; nevertheless this paper calls for Attorney General Manson to be more vigilant.

"He who excuses himself, accuses himself."

HOLIDAY IN THE NORTH

Stewart has of late been visited by several prominent business men of Vancouver, who in each case were greatly surprised by the tremendous mineral possibilities of this district, and on leaving the camp on their return home were full of optimism for its future. Each of these men, on returning south, will perform great missionery work for the Portland Canal, and there is not the least doubt but that greatly increased interest will be stirred up and Vancouver as a whole will become more and more alive to what the mineral resources of the Portland Canal, and northern British Columbia, really mean to every industry in this province. Vancouverites who have visited Stewart are comparatively few in number, and it is to be hoped that many more will come to understand that instead of spending their holidays in the south, they can get just as good a holiday in the north, and at the same time learn something that is of use to them in their daily life.



DEPENDABLE SERVICE

For more than a century the Bank of Montreal has endeavoured to serve its customers loyally and well, ever mindful of the fact that a Bank's charter is justified by the willingness of the Bank to play a constructive part in the economic life of the community it serves.

Through a widespread system of Branches, each of which has behind it the entire resources of the institution, it makes available to small and large customers alike an adequate and dependable service.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing, and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

BRITISH COLUMBIA
The Mineral Province of Western Canada
Has produced Minerals valued as follows: Placer Gold, $77,382,653; Lode Gold, $118,473,190; Silver, $68,824,579; Lead, $70,548,578; Copper, $187,489,378; Zinc, $32,171,497; Coal and Coke, $260,880,048; Building Stone, Brick, Cement, $42,225,814; Miscellaneous minerals, $1,431,349; making its mineral Production to the end of 1924 show
AN AGGREGATE VALUE OF $859,127,386
The substantial progress of the Mining Industry of this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895 inclusive, $94,547,241; for five years 1896-1900, $57,605,967; for five years 1901-1905, $96,507,968; for five years 1906-1910, $125,534,474; for five years 1911-1915, $142,072,603; for five years 1916-1920, $189,922,725; for the yea. 1951, $28,067,641; for the year 1922, $35,158,843; for the year 1923, $41,304,326 and for 1924, $48,704,604.
PRODUCTION DURING LAST TEN YEARS, $372,604,641
Lode mining has only been in progress for about 25 years, and only about one-half of the Province has been prospected; 200,000 square miles of unexplored mineral-bearing land are open for prospecting.
The mining laws of this Province are more liberal and the fees lower than of any other province in the Dominion, or any Colony in the British Empire. Mineral locations are granted the discoverers for nominal fees.
Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.
Full information, together with Mining Reports and Maps, may be obtained gratis by addressing
THE HON. THE MINISTER OF MINES, Victoria, British Columbia.
N. B.—Practically all British Columbia Mineral Properties upon which development has been done are described in some one of the annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B. C. Reports of the Geological Survey of Canada, Pacific Building, Vancouver, are recommended as valuable sources of information.

GORDON BETTLES FINDS CINNIBAR

Gordon Bettles, for whom the town of Bettles, Alaska, was named, made a strike of cinnabar, probably the greatest in the history of the world, Capt. Wallace Langley, master of the steamer Santa Ana, declared on his arrival in Seattle.

Capt. Langley said: "The strike was made 200 miles from Bethel and about four miles from the Kuskokwim river on the trail It is easy to take out the ore and transport it to the river boats. Five leads were uncovered and traced for a distance of six miles.

Local Stocks

(Quotations by H.W.M. Rolston & Co)

Striking commercial ore in the long crosscut tunnel on Porter Idaho at a depth of some 250 ft. caused a heavy demand in this stock with very few offerings.

News from L & L Glacier that ore for shipment was actually coming down the hill preparatory to being taken to the wharf, caused this stock to remain steady at the new high level, with practically none offerihg on the southern markets.

It is also rumored that the Bayview intends shipping when trail conditions warrant.

Very favorable development work is progressing on the following properties: Independence, Lakeview, Marmot Metals, Emperor Mines, Silver Crest, National Silver, Rufus, Terminus and many other properties which are graduating from the prospect stage.

Authentic reports from operating companies on Georgia river that a lot of development on a large scale is scheduled for next year, is bringing Georgia river into the public eye, and we suggest that this section be watched so that local people can get some of the cream, like the Porter units on the Marmot. Georgia River district has shown some of the highest grade gold ore yet found in or around the Portland Canal.

As authentic reports on mining properties can be made, it is suggested that local managers give what information they wish made public, to the editorial staff of the Portland Canal News. This not only helps the mine in question, but puts the local brokerage house in a position to answer intelligently the many outside inquiuies.

Local stocks closed as follows:

	Bid	Asked
B. C. Silver	$ 1.10	$ 1.40
Dunwell	3.30	3.90
Glacier Creek	.14	.19
Independence	.—	.15
Indian	.05	.07

FINE VISIT AT PREMIER MINE

About sixty Stewart residents including the basket ball team and representatives of the tennis club, went to the Premier mine Wednesday evening, and since their return are all praising the hospitality extended to them by Manager Dale L. Pitt and every employe with whom they came in contact.

Two sets of tennis were played, resulting Stewart 6, Premier 2, and Premier 7. Stewart 5. Darkness prevented the deciding set from being played. The basket ball, refereed by Mr Pitt, was hotly contested, and resulted in a win for Premier, 19—12. This was followed by an outdoor dance on the tennis court which was greatly enjoyed, as was also the luncheon, supplied by the mine management.

The visitors left at midnight for home, arriving here at about 2:30 a. m.

Dr. H. A. Whillans, Physician and Surgeon. Office, corner 6th and Victoria Sts. Hours, 12 o'clock, noon, to 3 p. m., and by appointment. [
