INCORPORATION AND RAILWAY

Interesting Subjects Under Consideration by Board of Trade—Reports From Delegate and Committee

Stewart as the logical port for the Peace River, was brought most forcibly to the attention of the Associated Boards of Trade in convention in North Vancouver last month by W. R. Smith, delegate of the Stewart Board, according to a report and newspaper clippings of the proceedings read in the meeting of the local Board last Tuesday evening. It appears from the report that while the whole of the south is concentrating upon satisfactorily solving the present P.G.E. problem, Mr Smith introduced an angle of the situation that created a great impression. His solution would appear to be pregnant with good common sense. The giving of a land grant for the construction of a railway from Peace River to Stewart would encourage the building of the road through a country of great potential wealth thus stimulating settlement and development, creating a very profitable business for a north and south line like the P. G. E. This suggestion even placed a new angle on the solution of the problems of B.C.'s pet railway.

Incorporation

The committee appointed by the Board to investigate the question of village incorporation rendered the following report:

Your Incorporation Committee beg to report that after considerable investigation, we find the following:

That incorporation would not necessarily increase taxation.

That the Government can be expected to pay 60 per cent of the cost of the upkeep of the roadways of 5th and Brightwell streets.

That the cost of overhead such as Clerk should not exceed $900 per year; Commissioners $300 per year; office rent, $400 per year; total overhead, $1600 per year.

That $500 per year could be allocated to the Fire Department and $50 per year for street lighting; total $550.

That this will leave a maximum of some $1900 per year for other purposes.

That as most of the sidewalks have recently been renewed little expenditure on these would be immediately necessary.

That we feel reasonably certain that with the growth of the town the revenues will increase from year to year.

That incorporation would give us facilities that at the present are impossible.

We recommend that this matter be thoroughly discussed by this Board and the general public, and a list of questions compiled to ask Mr Baird in a public meeting to be called when he visits Stewart.

All correspondence and data in connection with this matter is attached hereto.

Signed by
H.W.M. Rolston.
W. Reid Tooth.
G.W.Smith.

Considerable discussion ensued after the reading of the report and it was decided to give as much information on the question as possible through the medium of the Portland Canal News in order that any weak points that may not have occurred to those who have the investigation in hand, may be pointed out by any person interested. It was further decided to make all information on the question available to the public for their investigation.

A statement of the receipts and expenditures of the five villages in the province incorporated under this act was also read. In this it developed that these villages ranged in population from 150 to 1000, and that all without exception operated since incorporation without a deficit. They spent during that year all the way from $413.74 to $7,619.42 on street work; from $112.75 to $964.91 on fire protection; from nothing to $1608 on street lighting; from nothing to $3983.77 on scavenging. According to letters from their village clerks their incomes for that year ranged from $2,808.49 to $12,369.93, without increasing taxation.

The Act requires that all meetings of the commissioners, who are three in number, shall be open to the public.

STEWART-HYDER LOCAL NEWS

Mr rnd Mrs H. Zeffertt left Saturday for Vancouver.

The W.A. to the Hospital will hold a masquerade dance Oct. 29.

Geo. A. Clothier, district resident engineer, arrived from Anyox Monday night.

B. N. Sharp, mining engineer from Spokane. is looking over Bear river properties.

A son was born to Mr and Mrs D.J.McLean in the Stewart General Hospital at 4 a. m. Tuesday, Sept. 7.

C.P.Hickman, of the Fisheries Department, arrived from the south Saturday and left on his annual trip to the fish ladder at Meziadin lake.

A. W. Lewthwaite of Vancouver has been spending the week looking over the district, particularly the timber in the Bear river valley, in which he is interested with London capital.

W. H. Watson returned Tuesday from Vancouver.

Mrs S.G.McNeil left Saturday for a visit in Vancouver.

The Boy Scouts plan to hold a cabaret dance Friday, Sept. 24.

James Morice returned Saturday from a visit to his old home in eastern Canada.

Fred Nash, P.L.S. from Terrace arrived Tuesday to survey the Eldorado group.

C.W.Homer, Provincial Assessor, this week paid Stewart his annual business visit.

A shipment of 425 sacks, of Porter Idaho ore, went south on the Prince George Saturday.

Election returns will be received Tuesday night at both Liberal and Conservative headquarters.

The exterior of the Newell building has been made much more attractive by fire-proof sheathing and paint.

Wm. Bunting returned last Saturday from Wallace, Idaho, where he bonded the Stampede group to the Hecla Mining Co.

F. J. Crossland of Vancouver, one of the leading mining engineers of the province, arrived Saturday to examine a number of mining properties.

Wesley (Blackie) Irwin and Victor (Shorty) de Pessimier left during the week for a winter's trapping on the Whitewater and Porter creek.

The regular meeting of the W.A. to the Hospital will be held Oct. 13 at the home of Miss Ryan. Any lady wishing to join please hand her name in to the Secretary.

Presentation to Miss Crawford

A tea was given on Saturday afternoon, Sept. 4, by Mrs. J. Campbell for the girls of the Stewart Basketball Team, among whom was Miss Edith Crawford, popular bride-elect, who was presented by her team mates with a Brown Betty tea set.

FRED STORK M. P. VISITS STEWART

Fred Stork, Member for this riding in the last Parliament, and Liberal Party candidate in the present electoral contest, arrived by special boat from Anyox Thursday night for the purpose of holding meetings here and at Premier. Mr Stork is apparently standing the strain of the campaign exceptionally well, and feels very confident of success at the polls on the 14th.

Be a Hick for once and come to the Hic-Hard Time Dance—Thursday, Sept. 16, given by S. B. B. Club.

CELEBRATION ON LABOR DAY

With glorious weather and the town chuck-a-block with holiday makers, the Labor Day celebration exceeded, from the standpoint of complete success, the anticipations of even those who were most vitally interested. And that everyone assimilated the utmost enjoyment is as much a source of gratification for the spensors of the celebration as the fact that it netted the hospital a sum which clears this institution of debt and assures its operation for some time to come.

The day's success may be attributed to perfect organization, hard work on the part of the various committees and the enthusiastic participation of the Moose Lodge, who know how to celebrate. Of course the boys from the mines, who came down in large numbers, and the citizens in general, both from Stewart and Hyder, gave their heartiest co-operation toward swinging every event up to the topmost peak of enjoyment.

The parade was unique, and funnier than that. Headed by Miss Kate Ryan, garbed as a Red Cross nurse and representing the Hospital organizations, the Moose Legionaires, including large delegations from Ketchikan and Prince Rupert, put on a show that sent the spectators into spasms of laughter, while at the same time engendering a respect for the Lodge who would give their wholehearted help toward the support of a worthy cause.

At Athletic Park the wrestling on horseback, which was an innovation here, created considerable interest, also the packhorse race, tug of war and the baseball game. In the tug of war the team from the Dunwell mine out-pulled the Services Club and were in turn defeated by the Premier huskies. Stewart won the baseball game from Hyder by one run in the last inning. Booth entertainments of various kinds provided a variety to the amusements.

The dance in the Opera House, Klondike camp in the Services Club Hall, and appetizing supper and hot-dog stand in a large tent midway between, kept the crowd happy until 3 a. m. In the imitation Klondike Camp were various games of chance, including such oldtime favorites as roulette, craps and black-jack where thousands of dollars in perfectly good phoney money were won and lost.

It was a great day—and night.

Harvest Thansgiving at church

Labor Day Celebration
Preliminary Statement

Receipts	
Premier Gold Mining Co.	$ 25.00
Ore Mountain M. Co.	10.00
Dalby B. Morkill	10.00

Stamps etc.	1.75
Balance on hand	720.24
Total	963.40

Final statement next week.

CARD OF THANKS

The Board of the Stewart Hospital Association wish to express their thanks to the Premier Gold Mining Company, the Ore Mountain Mining Company and to Dalby B. Morkill for their generous gifts in cash; to the women who supplied cakes and refreshments for the dance; to the members of the Womens' Auxilliary and their assistants for work done for the Labor Day celebra-

(Continued on Page 4)

SUDDEN DEATH OF W. MITCHELL

The sudden death from heart failure of William Mitchell, at 3 o'clock last Wednesday afternoon, came as quite a shock to the town, a number of people having been talking to him a short time before. Deceased was well known locally as a friend of anyone in trouble, and as a result had a large number of very good friends. Coming here in 1920 he operated a second hand store on Fifth street, which he recently sold with the intention of going south some time this fall.

At the time of the fatal attack no one was with him, though Herbert McEwan, who was fixing a lock, heard him groaning outside and went to the door just in time to see him slipping off a log on which he had been sitting. Mr McEwan opened the neck of his shirt, at which act he spoke his last words, "that is good." Calling assistance, Mr McEwan carried him to his room and sent for the doctor, but the dying man was beyond human assistance and passed quietly away.

There is little known here of his relatives except that a sister, Mrs Ross A. Fullerton, resides in Vancouver. The funeral was held at 10 a. m. today.

Deceased was born in eastern Canada 75 years ago. Coming west as a young man he traveled extensively in frontier towns.

JUST BY WAY OF COMPARISON

The Cripple Creek mining district of Colorado has been, and is now, for that matter, a great mining camp. It is a world-famous mining district. The big mine of the camp is the Portland mine, owned by an English syndicate, who paid $10,000,000 for the property, buying from Stratton, original locator of the claims, and the discoverer of this mineral field.

The Mining Congress Journal is authority for the statement that the Portland mine has been in production since 1892 and during that period up to the present time has made a gross production of $55,000,000 and has paid dividends to shareholders in the amount of $11,000,000. Assuredly, the Portland mine of the Cripple Creek district of Colorado is a mighty fine big property. It has distinctly "made good" for the people who are mining it and the shareholders have gotten their money back and a great deal more, with earnings assured for many years to come.

But let us compare the record of the Cripple Creek mine with that of the Premier mine located in a practically unknown and unsung mining district—the Portland Canal camp, partly in Alaska and partly in British Columbia. The Premier mine went into production in 1921 and in the five years intervening has paid to the shareholders almost ten million dollars in dividends.

The Cripple Creek mining district has been good, is good now, but the enormous possibilities of the Portland Canal camp make the Colorado camp sink into insignicance beside it.

Col. Wm. T. Perkins, the well-known former Klondiker and Nomeite, has mined in the Cripple Creek district and is now concerned in the Portland Canal district. He has just returned from a trip of inspection of the new camp in the north, and gave the Alaska Weekly a review of the activities now in progress there. We are going to repeat, for it is well worth repetition, his opinion of the Portland Canal district:

"I have just returned from my recent trip to the Portland Canal district of Alaska and British Columbia more firmly convinced with the truth of my opinion expressed at the time of my first visit, namely, that here in the wonderfully picturesque setting, on the boundary line of mountain and water separating Alaska and Canada, is destined to develop one of the greatest producing and milling mining centers in the world."—Alaska Weekly.

To the Electors

A VOTE FOR BRADY is a vote to have a Representative from Skeena in the NEXT GOVERNMENT.

The Principle involved in this election is that of SELF PROTECTION and PRESERVATION.

The Liberal Party Has Apparently No Policy!

The CONSERVATIVE PARTY is advocating Protective Legislation that will solve our Industrial and Economic problems, which are vital issues.

They protect our people against unemployment, preserve and make Our Country a Great Industrial Nation.

Great Britain gained her Industrial Supremacy by embargos and High Protective Tariffs, maintaining it until She Adopted free trade.

The United States, with no greater natural resources than Canada, became and is the greatest industrial nation in the world by high protective tariffs.

ABRAHAM LINCOLN said: "I do not know what you mean by high protective tariffs, but I do know that if we buy a machine made in a foreign country, we have the machine and they get our money; but if we buy a machine made in our own country, we have the machine and the money too."

The Prosperity, High Wages, Ample Employment, and Opportunities created in the U. S. A. by this policy have for years been the magnets that have drawn millions of our native-born sons and daughters to that Great Republic.

BRADY and the CONSERVATIVE PARTY ask you to support the policy of benefitting by the experiences of the above mentioned nation.

A VOTE FOR BRADY is a vote to keep our native-born sons and daughters in Canada

A VOTE FOR BRADY is a vote to have our natural resources manufactured in Canada instead of abroad as now, thereby increasing employment and prosperity.

A VOTE FOR BRADY is a vote for CANADA and YOURSELF.

BRADY and the CONSERVATIVE PARTY advocate a CUSTOMS SMELTER for the NORTH COAST.

Brady Campaign Committee.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

BRITISH COLUMBIA
The Mineral Province of Western Canada
Has produced Minerals valued as follows: Placer Gold, $77,663,045; Lode Gold, $122,808,459; Silver, $74,111,397; Lead, $89,218,907; Copper, $197,642,647; Zinc, $39,925,947; Coal and Coke, $273,048,953; Building Stone, Brick, Cement, $44,905,886; Miscellaneous minerals, $1,594,387; making its mineral Production to the end of 1925 show
AN AGGREGATE VALUE OF $920,919,628
The substantial progress of the Mining Industry of this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895 inclusive, $94,547,241; for five years 1896-1900, $57,605,967; for five years 1901-1905, $96,507,968; for five years 1906-1910, $125,534,474; for five years 1911-1915, $142,072,603; for five years 1916-1920, $189,922,725; for the yea. 1951, $28,067,641; for the year 1922, $35,158,843; for the year 1923, $41,304,320 for 1924, $48,704,604, for 1925, $61,492,242
PRODUCTION DURING LAST TEN YEARS, $404,649,375
Lode mining has only been in progress for about 25 years, and only about one-half of the Province has been prospected; 200,000 square miles of unexplored mineral-bearing land are open for prospecting.
The mining laws of this Province are more liberal and the fees lower than of any other province in the Dominion, or any Colony in the British Empire. Mineral locations are granted the discoverers for nominal fees.
Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.
Full information, together with Mining Reports and Maps, may be obtained gratis by addressing
THE HON. THE MINISTER OF MINES, Victoria, British Columbia.
N. B.—Practically all British Columbia Mineral Properties upon which development has been done are described in some one of the annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B. C. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information. Reports covering each of the six Mineral Survey Districts are published separately, and are available on application.

SELUKWE REPORT FOR JULY

The official progress report for the month of July of the Selukwe Gold Mining & Finance Co. Ltd., and published in the London papers, has just been received here It reads as follows:—

No. 3 level.—Drift 336 on "D" ore body has been advanced a further 30 ft. and a 20-ft cross-cut driven. This work was all in milling ore. Drift 336 has been discontinued as the face is in the granite dyke which was encountered in drift 334. Drift 334 has been advanced another 120 ft. and two 10-ft crosscuts were driven. The face is still in granite (office note: cable since received states now through the dyke.) The "C" ore body has been located between the two dykes by a 20-ft. cross-cut driven in a N.W. direction from drift 334—8 ft. wide, good milling grade with patches of high grade. This is an important development, as it indicates that "C" ore body continues up to the granite dyke (office note: since located on far side of dyke,) thus having a total proved length to date of 320 ft.

Diamond Drilling.—Three diamond drill holes driven in a north westerly direction from drift 331, No. 3 level, traced the vein matter of "C" ore body in a south-westerly direction 450 ft. past the present limits of the tunnelling on this ore body. Two holes showed only low scattered values, but one hole passed through 100 ft. of low value, containing 8 ft. of $20 ore. Several cross-cuts are now being run from drift 331, in a north-westerly direction, so as to enable this ground being further drilled below No. 3 level from more suitable stations, and, to date, 70 ft. of cross-cutting has been done.

No. 3 intermediate level—The raise from this level was continued 25 ft. in high-grade ore, of the approximate value of $100 per ton.

Intermediate level above No. 3 level.—A 20-ft. cross-cut from raise 352 has cut "C" ore body 44 ft. above No. 3 level. Values occur over a width of 15 ft., the best being $22 across 5 ft. More work will be done in this area with a view to picking up high grade.

Footages.—During the month 320 ft. of drifting, cross-cutting and raising has been accomplished and 1230 ft. of diamond drilling. 130 tons of high grade of a value of approximately $100 a ton were bagged for shipment. The diamond drilling and tunnelling accomplished during the month has given very satisfactory results. The drilling indicates that further valuable ore shoots will be found between our "C" ore body and the Premier, probably below No. 3 level, and the tunneling has not only increased the known length of "C" and "D" ore bodies, but has also cut "C" ore body 44 ft. above No. 3 level.

Proper ageing makes healthful beer

AMONG the measures taken in the plants of the Amalgamated Breweries to assure that the beer made for the people of British Columbia is of the purest and most healthful character there is a factor not often brought to the attention of the public.

That is proper ageing, under the most favorable conditions known to the science of brewing. The stability afforded the brewing industry in British Columbia by the legal, above-board and Government Controlled sale of beer, by the glass in licensed premises and by the bottle in Government Stores, affords the Amalgamated Breweries an opportunity to maintain an ample and sufficient reserve that is allowed to mature slowly and naturally.

The ageing of beer in the plants of the Amalgamated Breweries completes the physical and chemical processes that the malt and hops undergo in the course of brewing and is among the reasons why the people of British Columbia are provided with beer of high quality.

Pure and healthful beer is the product of the finest materials plus the utmost care, and most elaborate and scientific equipment is required. In its making it is absolutely sterilized, and prolonged filtering leaves it crystal clear and a delight to the eye. Then comes the ageing that removes every trace of the rawness often found in beers that are too "young," and that makes it bland and digestible—really a pre-digested liquid food, high in nourishing qualities.

The valuable sugars, proteins, mineral salts and organic phosphorous compounds are united in close and homogenous union, and, most important of all, fermentation is totally ended, leaving the alcoholic strength low—4.25 per cent. as provided for by law—and just sufficient to stimulate the digestive system in the most favorable manner.

Visitors are welcome at all times to inspect the model plants of the Vancouver Breweries Ltd., Rainier Brewing Co. of Canada Ltd., Westminster Brewery Ltd., Silver Spring Brewery Ltd., and the Victoria Phoenix Brewing Co. Ltd., where the beer supplied to the people of British Columbia is made.

This advertisement is not published or displayed by the Liquor Control Board or by the Government of British Columbia.

PRINCE RUPERT EXHIBITION

Some wonderful exhibits of farm and dairy products will be shown at this exposition, which will be held September 14th to 18th. One of the main features will be a Grand Agricultural Exhibit from the Fraser Valley. This display will be personally in charge of Tom Reid, Reeve, and Claire Lemax, Clerk of the Municipality of Surrey, both of these men being experts in this line. Besides being a wonderful display, this feature will be of unlimited educational value to the people of the north.

Election results will be announced to the public on Tuesday evening, the opening night of the fair, by special leased wire and operator, in the Exhibition building.

There will be a six-round bout between Joe Manilla of Ketchikan, Alaska, and Charlie Bellanger, of Victoria, B.C., which promises to be one of the most exciting bouts ever put on in the north. There will also be three preliminary bouts; the first between two local men, Henry Nelson and Ed Saunders; the second between Young Alberto, of San Francisco and Dido Gurvich of Prince Rupert, and the third between Jack Burns, Aberdeen, Washington, and Jack Hughes, Prince Rupert.

Arrangements have been made for two baseball games between Ketchikan and Prince Rupert for the championship of the north.

Music will be furnished by the famous Rainbow Orchestra of Calgary, Alberta, the Prince Rupert Boys Band, the Kincolith Silver Band and the Greenville Concert Band.

On Thursday evening the Eagles and Elks Lodges from Ketchikan will put on a Midnight Frolic in the Westholme Theatre. This will be worth seeing. This show was put on by the same company in Ketchikan for two nights to crowded houses.

Grand Masquerade Ball will be held Friday evening.

Saturday is to be "Indian Day" which will open with a big parade, followed by field sports, championship baseball and football, and a dance in the evening. The sports will be confined strictly to natives.

With a Grand Concert by the Greenville Concert Band in the Westholme Theatre Sunday evening, September 19th, the Fair will be brought to a close.

CELEBRATION ON LABOR DAY

(Continued from Page 1)

tion; to members of the Moose Lodge for the fun in the parade; to the electrician, carpenters and helpers, and owners of trucks and cars for work without pay; to the electric company for light. to the restaurants for supper supplies; to the donors of the splendid cake and vase of roses for raffles; to the competitors for contesting for nominal prizes; to the rock drillers for their practice without remuneration; to the sellers of tickets and tags; to the gamblers in the Klondike Camp, and lastly to the members of the committee in charge and the organizations in town which supported them, all of whom contributed to the achievement of such a gratifying result.

Local Stocks

(By H.W.M.Rolston & Co)

The most marked feature of the week's trading was the sudden drop recorded in Dunwell, which stock for no apparent reason dropped some 50 points. With heavy sales being recorded, it is expected that the present low levels will not last long. The final call of 25 cents per share has been made on the Dunwell stock. It is reported from authentic sources that the Dunwell is amply financed to complete the program laid out, which ultimate plan is to bring the mine to a productive basis.

It has been specially noted this summer that numerous large operating companies have had their representatives looking over the district and it is expected that before snow flies information will be made public to the effect that some of the operating companies have become financially interested in the camp.

The market closed as follows:

	Bid	Asked

MILK ON PORRIDGE

Out in Point Grey, Vancouver, are two healthy specimens of boy life. They get porridge aplenty each morning, but they will not eat it unless they have Pacific Milk. Their mother is quite proud of the fact that they can tell if she puts any other kind of canned milk on the cereal. She tried three different times.
