COMPLETING PLANS FOR LOCAL POST OFFICE BLDGS.

Post Offices, Vancouver—Mr. H. H. Stevens, M.P., who recently returned from Ottawa, stated to the Record that plans are now being completed by the Government draughtsmen at Ottawa for the proposed postal stations to be erected here and in all probability tenders will be invited in the near future.

One of the bldgs. is to be erected at the corner of Gore Ave. & Keefer St. and is estimated to cost about a quarter million dollars, while the other is to be erected in South Vancouver on 43rd Ave. and Main St.

Mr. Stevens added that while at Ottawa he did all in his power to urge an early start on these structures but that the Gov't. would have to hold off for a short time owing to the financial situation created by the war outbreak.

Public Works, Burnaby — Engineer Macpherson has been requested by the Board of Works to submit at the next meeting a detailed list of the money required to carry out the municipal works that will be necessary up to the first of the year. Owing to the shortness of funds only the most urgent improvements will be carried out.

The Board is undecided whether or not to proceed with the erection of two stories or one just at present and this will probably be decided upon at this meeting. J. H. Bowman, who is drawing the plans for this structure, is awaiting the decision of the board before proceeding with them.

The proposed structure will be of brk and terra cota exterior, modern in every respect and estimated to cost about $60,000.

An amendment has been made to the electrical by-law by the Fire and Police Commissioners providing for all hotels, apartment houses, rooming houses, and schools, to have fire alarms installed in the shape of a gong on each floor. NEW WESTMINSTER HARBOR WORK NEARING COMPLETION

Harbor Work, New Westminster, B. C.—In about a month or six weeks it is expected that the last pile will be driven, the seawall complete and rocked and the turn made at the upper end of the wharf which will complete the Harbor scheme, which was started about 18 months ago.

With the completion of this work it is likely that the city will move the plant down to the foot of 10th street to fill in the site of the proposed market bldg., for which the city now has $25,000. Plans for the market will be under way in the near future as well as other bldgs. in connection with it.

ARCHITECTS INVITED TO INTERNATIONAL COMPETITION

Melbourne, June 30. 1914—The Australian government announces an international architectural competition for the purpose of selecting the architect of the Parliament House and possibly incidentally additional architect for other government structures of the new Federal Capital City, Canberra.

Only tentative outline sketch designs for the building are requested, and eight (8) prizes are offered aggregating £6000, the first being £2000, in addition to commission for service at the scale of the Royal Institute of British Architects.

Designs may be submitted in either Melbourne or London before March 31, 1915, and wil be judged by the following jury of architects:

George T. Poole of Australia.
John J. Burnet of London.
Victor Laloux of Paris.
Otto Wagner of Vienna.
Louis E. Sullivan of Chicago.

The decision of the jury will be final.

A program will be issued to any practicing architect on application to the High Commissioner for Australia in London. Works Departments of British Colonies, or British Embassies at Berlin, Madrid, Paris, Rome, St. Petersburg, Stockholm, Vienna, Washington, from whom also copies of text in French or German may be had on request. Copies in Esperanto may be obtained from the High Commissioner or from the Esperanto headquarters at Geneva.

The importance of this event is not to be measured by that of the foremost building of the commonwealth, but by the opportunity to establish an architectural standard not only for the entire future seat of government in Australia, but for a great new democracy of scope, scale and modern advantages as well as the climatic conditions differing radically from any prototype in Europe or elsewhere.

The Value of Spare Moments

From every section, and from all sorts and conditions of men, messages come to tell of earnings increased and futures brightened through study of I. C. S. Courses during spare time.

One letter gives the romance of a young man in California that began with little or no education; another tells the story of a high school graduate in Maine that found himself educated for everything but to make a living. Here are the heart-trobs of a fellow that toiled 12 hours a day and studied his Course as best he could; of a foremen or superintendent that enrolled because his ambition aimed at still bigger things.

No matter where you live, how little spare time you have, or how brief your schooling, the I. C. S. can raise your salary. That statement is backed with 20 years of success and a record of 400 or more advancement letters received every month.

I. C. S. Courses have made draftsmen, foremen, and superintendents of shop hands; building contractors, architects, structural and concrete engineers of carpenters and masons; advertising men, window trimmers, chemists, illustrators, and designers of clerks; electrical, mechanical and steam engineers of laborers; mine inspectors, foremen, and mining engineers of mine workers; bridge engineers, surveyors and mappers, civil engineers, gas engineers, automobile runners and civil service employees of young men willing to use their spare time to mold a career.

Suppose you were to increase your earnings only $20 a month—what a fine return that would be on your spare-time investment! Yet some have increased their earnings $250 a month.

Mark and mail this coupon and you will receive free information how you can increase your earnings by spare-time study.
