CONTRACT IS AWARDED FOR NEW DRILL HALL

Drill Hall, Victoria—A dispatch from Ottawa states that the contract for the erection of Victoria's new drill hall has been let to Parfitt Brothers of Victoria, for $236,815. Mr. A. Parfitt, of that firm, when informed, said that the commencement of the work will be begun the moment the contract is formally signed, which should not be later than the first week in January.

Major W. Ridgway Wilson, the architect of the Drill Hall, has returned to Victoria from a visit to Ottawa in connection with the extension of the plans.

The tenders, of which there were some half dozen, he was informed, all considered satisfactory in comparison with the architect's estimate.

The contract calls for the roof to be on within twelve months of the signing of the contract, and the completion of the whole building within eighteen months. The contract is under the Fair Wages schedule issued by the Labor Bureau for all Government contracts.

The bldg. will be erected on the plot of land bounded by McBride street, Bay street and Field street, with the main entrance on Bay. This is a handsome gateway under a square tower, from which access is gained to the interior, which is taken up by the main hall 100 by 200 feet.

In the tower is accommodation for the bands, and on either side of the entrance are oroms for the Commanding Officers and Adjutants of two regiments, and in the left wing similar rooms for the officers of a third regiment. On the right front is a room for the British Campaigners, and at the rear of the hall offices for the brigadier and his adjutant. Armories, gunsheds and stores occupy the remainder of the ground floor, while underneath in the basement is the Ambulance store, access to which is gained by an inclined roadway. In the basement, too, is the regimental swimming bath.

On the second floor ner the four officers' messes and kitchens, sergeants' messes and reading rooms for the men and above these again three suites for caretakers, comprising four bedrooms, sitting-room and kitchen.

The bldg. itself is of red brick, faced with cut-stone-and-battlemented.

MINOR ALTERATIONS IN "DRYDOCK" PLANS

Drydock, Vancouver—Discussing the drydock scheme which is to be carried out at North Vancouver, H. H. Stevens, M.P., states that the detailed plans and specifications had been submitted to the department at Ottawa and some minor alterations had been suggested in order to bring them into conformity with drydocks under construction at other seaport centres by the government. These changes were now being made and the minister of public works had stated to him that the department was ready to go ahead with the scheme and that the full amount of subsidy would be authorized, namely $5,500,000.

JETTY CONTRACT HELD UP, WAITING APPROVAL

Jetty, Fraser River—H. B. A. Vogel, secretary of the North Fraser Harbor Commission, reports that the Dominion Govt. has awarded a contract for dredging and constructing the jetty at the mouth of the Fraser River, but that the award is being held up until the Harbor Commission's engineer can be appointed and examine the specifications of the contract.

REPORT DISCOVERY OF MARBLE DEPOSIT

It is reported that a large deposit of fine white marble has been discovered about 100 miles up the coast of British Columbia. Recently several marble propositions have been opened on Texada Island and the marble used in the recently completed Victoria Theatre in Victoria is from this place.

MAY INVITE TENDERS ON BIG BRIDGE TODAY

Bridge, Vancouver—It is understood that the board of directors of the Burrard Inlet Tunnel & Bridge Co. will hold a meeting today, at which contract tenders may be invited for the construction of the proposed Second Narrows bridge.

It is said that figures will be asked for based on the original plans prepared by Sir John Wolfe Barry, of London, which cost has been variously estimated at from $1,100,000 to more than $2,000,000.

These plans have been approved by the authorities at Ottawa.

The bridge directors recently asked the provincial govt. to guarantee a bond issue, as an alternative to taking over the entire bridge construction project.

The authorities replied, in substance, that plans for a less costly bridge should be prepared and the impression prevails that the bridge directors in debating the question of inviting tenders on the "Barry" plans are largely actuated by a desire to see just what the lowest figures will amount to.

The details of this proposed bridge have been published on numerous occasions, and there is no way of learning just what plans will finally be adopted.

HAVE PERSPECTIVE OF SEASIDE RESORT

Hotel, White Rock, B. C.—A company known as the White Rock Resort & Development Co., with offices in Room 15, 619 Hastings W., Vancouver, are displaying in the Granville St. offices of the Great Northern Railway, a perspective view of a proposed seaside resort hotel for White Rock, B. C., on the beach near the international boundary line.

So far as known no detail plans have been prepared, and enquiry at the local offices of the company on Saturday failed to elicit any further information, as the manager was out.

The perspective shows a 2-sto. hotel bldg., with a board walk leading to a beach pier.

CHURCH IS BURNED AT MAILLARDVILLE

Church, Maillardville—The Maillardville church has been totally destroyed by fire with a loss of $10,000; and $4,000 insurance. It is believed the structure will be rebuilt.

The Value of Spare Moments

From every section, and from all sorts and conditions of men, messages come to tell of earnings increased and futures brightened through study of I. C. S. Courses during spare time.

One letter gives the romance of a young man in California that began with little or no education; another tells the story of a high school graduate in Maine that found himself educated for everything but to make a living. Here are the heart-trobs of a fellow that toiled 12 hours a day and studied his Course as best he could; of a foremen or superintendent that enrolled because his ambition aimed at still bigger things.

No matter where you live, how little spare time you have, or how brief your schooling, the I. C. S. can raise your salary. That statement is backed with 20 years of success and a record of 400 or more advancement letters received every month.

I. C. S. Courses have made draftsmen, foremen, and superintendents of shop hands; building contractors, architects, structural and concrete engineers of carpenters and masons; advertising men, window trimmers, chemists, illustrators, and designers of clerks; electrical, mechanical and steam engineers of laborers; mine inspectors, foremen, and mining engineers of mine workers; bridge engineers, surveyors and mappers, civil engineers, gas engineers, automobile runners and civil service employees of young men willing to use their spare time to mold a career.

Suppose you were to increase your earnings only $20 a month—what a fine return that would be on your spare-time investment! Yet some have increased their earnings $250 a month.

Mark and mail this coupon and you will receive free information how you can increase your earnings by spare-time study.

COMPETITION OPEN.

Masonic Temple, Toronto—Competitive designs for this structure will be received up to noon on the 20th day of January, 1914. The conditions of competition have been prepared by a competent professional adviser who will also report upon the merits of the various designs. For copy of conditions apply to Mr. W. H. Best, No. 131 Avenue Road, Toronto.

Dept. Bldgs., Ottawa—The commission of architects appointed by the government to direct the preparations of designs for the new departmental buildings at Ottawa has just submitted its report outlining the conditions of the competition.

It will be open to competitors throughout the British Empire. There will be at least two buildings and probably a third one for the courts. Half a million superficial feet of floor space will have to be provided.

Designs of a general character will first be submitted and from this number the best six will be selected and the authors of these will be asked to elaborate their designs. The one finally selected will get the job of superintending the work based on his plans and will be given a five per cent commission. The cost of the buildings will probably aggregate five million dollars.

The other five competitors who will be asked to develop their general designs will each receive $3,000. The sketches will be received up to April 2 next. Then three months will be given for the best half dozen to develop their plans.

The competitors whose plans are accepted will be given a further period of four months to prepare working plans. Afterward tenders will be called for, but, in view of the time allowance, this will not be before next autumn.

The cost of the building will aggregate $5,000,000 dollars. The other five competitors will be asked to develop their general designs and each will receive $3,000. The sketches will be received up to January 2, next. Then three months will be given for the best half dozen to develop their plans.
