INVITES PROPOSALS ON VICTORIA PIERS

Tenders to Be in by Dec. 9 for Two Concrete Structures.

Piers, Victoria—An Ottawa dispatch announces that proposals have been invited by the Dept. of Public Works, at Ottawa, for the construction of two piers for Victoria; tenders to close at Ottawa on Dec. 9, 1913, 4 p.m. (The official call stating where specif. may be obtained has not reached Vancouver).

The piers, which are part of the big development scheme of Victoria harbor, are to be known as Piers Two and Three and are between Rithet's wharf No. 2 and the breakwater.

The harbor scheme calls for two additional piers. One will be next the breakwater and the fourth between Pier Three and Rithet's wharf.

The first plans called for the construction this year of Piers One and Two but owing to the work now proceeding on the breakwater it was afraid it might interfere with construction there, so it was decided to build Piers Two and Three.

The two piers will have four slips—three being eight hundred feet long; and one a thousand feet.

The piers are 250 feet wide and each slip has a width of 300 feet.

The specifications call for reinforced concrete work throughout so that the piers will be thoughly modern in every respect.

The arrangement will be as follows: On the east the breakwater, then a space that will be left vacant until that great work has been completed; then will come a pier, then a slip 300 feet wide; then another pier and then a vacant space where a fourth pier will be built. The two piers now to be built will give 3,400 feet of dockage and this will be at least doubled when the others are built, so that the present plan provides in all for a mile and 1,500 feet, approximately, of dockage.

MOVE TO REINVITE STEEL PIPE PROPOSALS

When the Victoria city council resumed the discussion of the water commissioner's report on Tuesday evening, a resolution was to have been moved by Ald. Gleason to reject the tenders for the rivetted steel pipe and to call for new tenders.

The engineers recommended the award of the contract for the telephone wire to F. H. Folsom at an advanced price of $10.375, in place of the original bid of $8.625, or an additional $90 a mile, brought about by the extra expense of doing the work in wet weather.

The award of the contract for the trestles is dependent to a certain extent upon the concrete pipe line, which was given to the Graff Construction Co. subject to certain conditions.

Up to a late hour yesterday the Record had received no definite advices as to whether Ald. Gleason's proposal to invite new tenders had carried.

This contract had been tentatively awarded to the Macdonald Godson Co. of Vancouver.

SCHOOL BUILDING PLANS ARE COMING UP SOON

Schools, Vancouver—The question of new schools will probably result in plans being drawn for several buildings soon. The school trustees have approved a new 8-room building on the Children's Aid Grounds; an 8-room building in Central Hastings Townsite and 8-room additions to the Livingstone and Model schools. As the school board has dispensed with the services of its regular architect it is likely that private architects will be asked to prepare the plans for the buildings.

INVITE PROPOSALS ON CLEARING UNIVERSITY SITE

Clearing, Point Grey—Archts. Sharpe & Thompson, London building, are receiving proposals until noon. Nov. 15, for the clearing of about 150 additional acres of land comprised in the site for the proposed buildings of the University of British Columbia.

The Value of Spare Moments

From every section, and from all sorts and conditions of men, messages come to tell of earnings increased and futures brightened through study of I. C. S. Courses during spare time.

One letter gives the romance of a young man in California that began with little or no education; another tells the story of a high school graduate in Maine that found himself educated for everything but to make a living. Here are the heart-trobs of a fellow that toiled 12 hours a day and studied his Course as best he could; of a foremen or superintendent that enrolled because his ambition aimed at still bigger things.

No matter where you live, how little spare time you have, or how brief your schooling, the I. C. S. can raise your salary. That statement is backed with 20 years of success and a record of 400 or more advancement letters received every month.

I. C. S. Courses have made draftsmen, foremen, and superintendents of shop hands; building contractors, architects, structural and concrete engineers of carpenters and masons; advertising men, window trimmers, chemists, illustrators, and designers of clerks; electrical, mechanical and steam engineers of laborers; mine inspectors, foremen, and mining engineers of mine workers; bridge engineers, surveyors and mappers, civil engineers, gas engineers, automobile runners and civil service employees of young men willing to use their spare time to mold a career.

Suppose you were to increase your earnings only $20 a month—what a fine return that would be on your spare-time investment! Yet some have increased their earnings $250 a month.

Mark and mail this coupon and you will receive free information how you can increase your earnings by spare-time study.

GET FLOOR CONTRACT ON VANCOUVER CLUB BLDG.

The B. C. Hardwood Floor Co., Ltd., has been awarded the contract for the laying of the whole of the hardwood and fir floors of the above club.

The specifications of the architects, Messrs. Sharpe & Thompson, call for a very high grade of material and workmanship, the floors being an exceptional feature of the interior finish; that of the large dining room 50ft. by 60 ft., will be the finest in British Columbia.

We understand that the B. C. Hardwood Floor Co., Ltd., was selected for this new task because of the highly satisfactory work put in by that company on the floors of the new St. Paul's Hospital, and of the new Merchants' Bank of Canada, Hastings st, for the same contractors, the Norton Griffiths Steel Construction Co., Ltd.

The B. C. Hardwood Floor Co. has recently been acquired from the Executors of the late Mr. T. B. Walker, by Messrs. Conway & Ross, who have added the "Limited" to the name of the Company, and are now moving it to 2635 Granville st, Fairview, close to Broadway and Shaughnessy Heights, where they are equipping offices, workshop, etc., especially for the flooring business.

Mr. Ross has been all his life in the flooring business and has been manager of the B. C. Hardwood Floor Co. for some time past and is now manager of the new company.

Dept. Bldgs., Ottawa—The commission of architects appointed by the government to direct the preparations of designs for the new departmental buildings at Ottawa has just submitted its report outlining the conditions of the competition.

It will be open to competitors throughout the British Empire. There will be at least two buildings and probably a third one for the courts. Half a million superficial feet of floor space will have to be provided.

Designs of a general character will first be submitted and from this number the best six will be selected and the authors of these will be asked to elaborate their designs. The one finally selected will get the job of superintending the work based on his plans and will be given a five per cent commission. The cost of the buildings will probably aggregate five million dollars.

The other five competitors who will be asked to develop their general designs will each receive $3,000. The sketches will be received up to January 2, next. Then three months will be given for the best half dozen to develop their plans.

The competitors whose plans are accepted will be given a further period of four months to prepare working plans. Afterward tenders will be called for, but, in view of the time allowance, this will not be before next autumn.

The cost of the building will aggregate $5,000,000 dollars. The other five competitors will be asked to develop their general designs and each will receive $3,000. The sketches will be received up to January 2, next. Then three months will be given for the best half dozen to develop their plans.
