/////// Vancouver. B. C. May 23rd/19.

C. J. Black, Esq.,

Auditor of Agencies, B-67977.

Montreal.

Dear Sir:-

Canned Fish in storage at Vancouver Wharf.

Yours of the 14th inst.

You no doubt have since received my letter of 10th with full particulars of adjustments made.

D/R 2212 issued Aug. 1st, as a correction against the original D/R 3 2212 of October, was not discovered until after I had adjusted the salmon records. Clerk cancelled the charges on D/R 2351; but did not advise me what he had since discovered, and how handled.

The transaction is now O.K., and I have instructed clerk that in future when making a supplementary report, to cover a correction he should note same on original so the transaction can be immediately connected up.

Yours truly,

T. A..

Vancouver, B.C.

Canned Fish in Storage at Vancouver Wharf.

In connection with my letter of April 9th. re above, I am today in receipt of Delivery Reports 2351, 2352, 2356, 2357, reporting various lots as delivered, which should have been reported months ago, and which you will note were in the list sent you.

Regarding Lot No. 2925 - storage $17.75 - please refer to carbon copy of D/R 2351 where you will find the amount of $17.75 is crossed out, stating storage was collected on D/R 2212, 1/8/18, and which according to my ~~xxxxxx~~ records was taken to debit on B/Sheet Oct.14/18.

I attach for your information copy of letter dated Oct.12th. which concerns this item, and if it is correct that the two numbers 2925 and 2992 are the same, why is the amount of $17.75 again taken to debit on balance sheet W/E April 30th.?

Please let me have ~~your~~ an explanation.

OK. 2212 O/n Aug 1 18

//////// Vancouver. B. C. May 10th/19.

C. J. Black, Esq.,

Auditor of Agencies, B-67977.

Montreal.

Dear Sir:-

Canned Fish in Storage at Vancouver Wharf.

Yours of April 10th.

I am attaching a statement of differences, as shown by you, with details as to disposition according to records.

When the Company decided, some time ago, to store only salmon for immediate shipment, the regular salmon clerk was taken off that work, and the handling of the records left to a clerk in the shed foreman's office. I find the records rather unsatisfactory, and that salmon in store has not been frequently checked and compared with the records.

To add to our trouble, some of the records have vanished, and I am unable to confirm some of D/R references as shown on attached statement.

Records were transferred from the salmon shed to the foreman's office, when the former was closed, and D/R 1841 April 1916 to 2051, October 1917. Also R/R 1400, September 1916, to 1566 December 1917 and the shed orders around same date cannot be found. All old records have been thoroughly gone over, and the above xxx have without doubt been destroyed or shipped as scrap.

///////// Vancouver. B. C. May

2 C.J.Black, Esq.,

I trust you will be able to locate the D/R's quoted in attached statement. Apparently D/R 2004 has been duplicated. as I find salmon book quotes this number as dated April 24/17 and also May 4/17. It would look as if this particular number had not reached your office.?

The clerk in charge has failed to obtain orders from owners to clear culls and samples. resulting in several lots being short. Owners advise their records clear in such instances, and I thought it advisable to write off these balances without opening up the question of their giving us an order to clear at this late date.

I also find several instances of wrong loading, and to follow up the transactions is very puzzling. Many large lots of exactly the same goods arrive from the same cannery to the one consignee. Marks onarrival are all alike, and results in small re-shipments being taken out of the wrong lot.

We appear to periodically pick up odd cases that cannot be matched up to any particular lot. These are placed in over berth and considrable fish is sold by the Company. We very seldom get a claim,and can only presume that these cases are short loaded to C.A.Line and other steamers.

I find it is difficult to get this business down to a fine point; But for some time past the efforts to do so have been very limited. The instructions and method of handling has again been gone into, and the asst' agent will personally follow this up with salmon

clerk and see that the work receives proper attention in future.

If there are any particular D/R references that you are unable to confirm I may be able to dig up sufficient information to make up a duplicate D/R to cover.

My report #1666 to cover this check.

Yours truly,

T. A.

Dear Sir:-

Salmon in Store at Vancouver Wharf.

Yours of the 20th inst.

Other work will prevent my checking up this account for some time to come.

I think you are aware that we do not now store salmon for local delivery. We only allow consignments for export to enter our sheds for storage. All local and overland is taken care of, by arrangement, at other docks and the Mainland ~~Xxxxxxx~~ Storage Co.

I am attaching a statement of all canned fish supposed to be in store as at March 27th. Perhaps you would compare this with your records, and advise us differences in records.

Yours truly,

T. A.
