Dear Sir:-

Salmon in Store at Vancouver Wharf.

Referring to your letter April 13th with enclosing letters returned herewith.

I since wrote you fully, April 15th, explaining the situation, and presume that action has since been taken by the Traffic Department with a view of taking care of teamed salmon that, for various reasons, did not load to ship as intended.

Yours truly,

T.A.

Dear Sir:-

Salmon in Store at Vancouver Wharf

Your letter of 3rd instant.

Please note my letter of 25th ult., to above agent and his reply April 7th re S/Dr. 98¢, B/Sheet 14/3/26 for storage on a shipment of ten cases salmon which was teamed to our dock to go forward on S.S."Waitemata", but owing to a shortage of labels, was shut out and remained on our dock until March 7th before being forwarded on S.S."Aorangi".

You stated in your letter above-mentioned, you had the question of teamed shipments, on hand for some time in our sheds, under discussion with D.F.A. and C.A. Line, and would write me fully within the next few days. Please let me hear from you early with return of file.

Yours truly,

C. J. Black

Auditor of Agencies.

//////// Vancouver.B.C. July 10th/23.

G. L. McCrea? Esq.,
Wharf Agent,
Vancouver.B.C.

Dear Sir:-

Salmon Storage Account.

Following up our conversation of date regarding various overs and shorts in salmon lots. The following cases (and part cases) on hand at the various sheds should be investigated and disposed of in some direction:-

Pier H. 1 Case Pilchards Dodwell Co. ex Tees 19/10/22
1 Case ½ Flats 758 Harve) F.A.Gosse & Co.
1 part case 894 F.A.G. Bordeaux) ..
I understand the last two cases were taken down to our sheds to fill out, and were left when shipment cleared.
1 Part Case Lot # 7941
.."A" 1 .. 7684
1 Case 6371
1 .. 7876
1 .. 7658
1 .. 6852
1 Part Case 7750
1 .. 7075
1 .. Pilchards No lot # or marks.?
Shed 1. 1 Part Case 6242
3 1 Case ..)These four cases have been looked into by
3 .. 6303)Mr.Kirkwood, and I understand he is in a position to put into F.C.A. lock-up

We have 75 Cases in Pier "H" Balfour Guthrie,
23 ... shed 1 H.Bell Irving
4 . .. .

These are not under Lot # a/cbeing teamed, and are being handled under special account.

I would suggest that Mr. Kirkwood look into the records covering the above broken lots, endeavour to have owners advise disposition, and remove to the F.C.A. lock-up , for disposition, any balances owners are not claiming. We should try and keep these shorts and overs cleared up at short intervals. instead of allowing them to stand open indefinitely. A little closer attention from Mr Blurton and Mr Kirkwood would, I think, reduce the number of differences found by us in our periodical checks of this storage account.

Yours truly

T.A.

//////////// Vancouver. B. C. July 10/23.

C. J. Black, Esq.,
Auditor of Agencies,
Montreal.

Dear Sir :-

Salmon in store at Vancouver Wharf.

I enclose my report #2062 covering check of ~~xxxxx~~ salmon storage accounts. Attached please find satement of balances in store at close of business June 23rd. Also corrections on D/Rs 3187, 3155 & 3060 account adjusting balances on Lots 7737, 7090 & 5036. I presume that you will compare with your records and advise any differences, if any.,

You will note that we find a number of petty shortages and overs, and I have taken steps to adjust these. As per my remarks on attached statement, sheet #6, we cannot avoid having these differences account of the method of breaking cases for use in culling and sampling. The monthly check is being made, and shortages, due to culling, are cleared ~~xxxxxkxx~~ promptly by obtaining the necessary order from owner.

I have now suggested to Agent that, when we have cleared a case account of culls and samples; but part of it still remains on hand, checker should specially card such case so that it will not be confused with other cases in that lot when checking up sheds at the end of each month. Such broken case to remain with that particular lot until the final balance has been shipped from our sheds. If then left on hand by owners we will move it to a local lock-up within the shed. If owner fails to claim within a reasonable time we will then place in F.C.A. lock-up and ask him for disposition. This will permit checker to ignore such broken case when turning in monthly shed check, and cut down the number of differences to be looked into by salmon clerk when comparing shed check with his salmon records. The "on hand" clerk will list up all balances removed to local lock-up, and periodically clear them up if not claimed by owners. Mr. McCrea agrees that this would be an improvement, and is instructing accordingly.

There is a marked improvement in the manner of keeping the general records in connection with this account, and our check of same is quite satisfactory.

Yours truly,

T.A.

/////// Vancouver.B.C. March 13th,1923.

C. J. Black, Esq.,

Auditor of Agencies, B-223552.

Montreal.

Dear Sir:-

Salmon Storage - Lot #7095.

Yours of February 5th addressed to Mr. McConnell.

D/R 3085 Sept.14th should have shown 1000 Cases delivered from above lot, instead of 100 Cases,. Form 1676 to shed duly covered 1000 Cases; but clerk failed to check this record against Form 1703A, and made error in entering delivery against salmon record as 100 Cases.

Agent was, unfortunately, obliged to place a long service clerk in charge of the salmon records. This particular clerk is a good man to take charge of Stationery Supplies, or some other light duty, but has very little head for anything that requires thought.

The checkers, in sheds where salmon is stored, are supposed to list all salmon in store at the end of each month (should a steamer be loading this list is made as soon as ship clears) and hand same into salmon clerk to verify with his records of balances carried. I find that he allowed checkers to discontinue this practice in, or about, July last. He claims to have then xxxx made up lists, from his records, as to what salmon was supposed to be in sheds, and this was sent to the checkers for verification. He states that no differences were advised him, and he presumed that his records agreed with salmon in store.

On requesting to be shown these lists I am told that he destroyed them after they having served the purpose.? He even did not have a carbon copy of the lists he claims to have sent to checkers. Sometime in January this point came to the attention of one of the staff, and instructions were again issued that checkers must send in monthly lists of salmon in store. The January list on being checked up revealed the errors referred to in your letters of February 5th and 6th.

As pointed out to agent, it was hardly likely that lists sent checkers in Sept. Oct. Nov. and Dec. would fail to show up the error of 250 Cases in Lot #7137, your letter February 6th,. The clerk did not send the lists to checkers, or, he failed to show that balance of 250 C/s for four consecuitive months; which was hardly likely. We may be able to check clerk's statement in this connection.

In looking into these discrepancies I find other directions in which this clerk, and checkers, have failed to carry out instructions, and this has led me into our method of handling Wharfingers Receipts, which is covered by your file G-145796.

Mr. McCrea has never had an opportunity of getting a personal thorough grasp of the details of our method of handling this traffic, and, at his request, we are now going into considerable detail. It is very difficult for him to give me his attention without frequent interruptions and this retards our efforts. However, it will pay to take t the time to do so; as he is an agent that will personally check up and see that instructions to his staff are correctly carried out.

I will write you further under file G-145796.

SALMON STORAGE

I am today in receipt of a corrected ~~xxxxx~~ report, 3085, 2nd sheet, dated September 14th 1922, correcting the number of packages delivered Lot No. 7095 a/c Wallace Fisheries, from 100 cases to 1000.

The original report reads 100 cases delivered and balance in store of 900 cases.

Kindly look into this and advise why this difference was only reported discovered on January 30th, and why 100 cases were reported delivered, if the whole consignment of 1000 cases had been shipped out on September 14th.

Auditor of Agencies.

//////// Vancouver,B.C. March 13th,1923.

Montreal.

Dear Sir:-

Salmon Storage - Lot # 7137.

Yours of February 6th to Mr. McConnell.

Please see my general explanation in letter of date re. Lot #7095, your letter Feby.5th,.

Form 1676 duly covered 250 Cases delivered Sept.14th out of Lot #7137; but clerk failed to enter in salmon record or check against Form 1703A sent your office.

We, of course, have now been assured that proper check will be made in future, and these errors avoided, but I have little faith in the clerk in charge of these records.

Agent will personally keep an eye on his work, and make a change if necessary improvement is not forthcoming.

Yours truly,

T.A.

SALMON STORAGE.

In furtherance of my letter of the 5th inst, I have to-day received another additional report 3085 dated September 14th, reporting 250 cases Salmon delivered Lot 7137 and balance N I L.

I would refer you to the following reports;--

D/R.	3086	September 15th	325	c/s delivered	balance	425
	3087	18th	25			400
	3096	29th	150			250

You will note that on these dates, according to the reports I received correct balances were reported, therefore would like an explanation why this additional report should be dated September 14th when the other reports showed that the balance in store included the 250 cases now reported delivered.

Please advise.

Auditor of Agencies.

//////// Vancouver.B.C. Feby.2nd/22.

C. J. Black, Esq.,

Auditor of Agencies, B-174222.

Montreal.

Dear Sir:-

Salmon in Storage at Vancouver Wharf Dec.12/21.

Yours of the 17th ult.

Lot 5108 showed in records as 1388 cases and explains why I did not catch this difference.

It is now presumed that lot 5582 - 5000 Cases- was discharged and placed in shed close to balance of lot 5108. Records show 4999 cases clearing out of lot 5582; But owners do not claim any balance on this lot, and are giving us an order to clear 1 casex used in culling. Evidently 1 case of lot 5108 has been checked as belonging to lot 5582. D/R 2922 Feby.1st will show 1 casex clearing lot 5582, and this casex has now been carded as lot 5108' making balance 10 cases on hand.

Under the circumstances I think this adjustment will have to be accepted as being the correct solution.

Yours truly,

T.A.

C. J. Black, Esq.,

Auditor of Agencies, B-174222.

Montreal.

Dear Sir:-

Check of Salmon in Storage at Vancouver Wharf
December 12th,1921.

Yours of the 23rd ult.

D/R 2885 covering 25 cases lot 6208 was correct as originally reported, and was loaded to S/S "Makura" Dec. 10th.

Owners issued this sub-order Dec. 5th to cover, and on the 10th issued sub-order for 50 cases to load to S/S "Waukawa"sailing Dec. 18th. Clerk issued the necessary orders on checker for both shipments; but failed to issue D/R covering the 50 cases. When checking up sheds Nany 13th this shortage was discovered, and an incorrect adjustment was made. Amended D/R should have been issued to cover the 50 cases omitted from D/R report Dec. 12th. It will only complicate matters to issue further amended reports, and I have made necessary explaining notation against the lot.

This 50 case shipment was not marked up for the Waikawa when I checked sheds on Dec.12th. therefore 75 cases on hand as shown by me was correct.

I might say that clerk in charge of salmon records was transferred to this work a few months ago. He is one of the long service men who has more service than brains, and it is very difficult to educate him. However, he is [illegible]

2 C.J.Black, Esq.,

and complaints will be eliminated in the near future.

Yours truly,

T.A.

Check of Salmon in Storage
at Vancouver Wharf Dec. 12th.

Referring to the above and sheet #6 of your report.

Lot No. 6208 a/c Gosse Millerd & Co D/R 2885 of Dec. 10th showed a delivery of 25 cases, leaving balance in storage of 75 cases, which quantity you recorded as being in stock on Dec. 12th. I have today received a corrected delivery report altering the delivery from 25 cases to 75 cases leaving a balance of 25 cases in storage on Dec. 10th.

Will you please look into this and advise how 75 cases were shown to be in storage on your report of Dec. 12th when according to this corrected delivery report only 25 cases could have been on hand at that date.

Montreal.

Dear Sir:-

Suplementary D/R 2398 dated Dec. 30th,1921
and received January 23rd/22.

Yours of the 14th ult.

This was a slip-up on the part of checker Faulls, who delivered shipment on the regular number 2 expense bill under pro 12/9550. Shipment was consigned to the Mainland Transfer Co. they are not in the salmon business, and the lot evidently consigned to them for carting and distribution. We put it through our salmon records in the usual way, and checker should only deliver on presentation of our salmon delivery order. The M.T.Co. took out their No. 2 and took it direct to shed and obtained delivery. They should have been referred to salmon clerk for salmon delivery order. Check of salmon in sheds on Jany.13th caught this error and brought about adjustment.

I do not appear to have received your B-174222 dated January 13th. Letters under that file dated January 17th, 19th and 23rd, duly to hand. However, I have pointed out to clerk that too many errors and corrections are being made in handling this account.

Yours truly,

T.A.

Supplementary D/R 2398 dated
Dec. 30th 1921 and Rec. Jan. 23rd

The above delivery report advises 25 cases Salmon delivered a/c Mainland Transfer Co. A footnote reads "Delivered by Foreman W.Faull on Pro 12/9550 without a Salmon order" Reported 17/1/22". Please advise why delivery was made without an order and not reported until nearly three weeks after date of delivery. I would also point out to you that it is becoming a regular practice to forward amended and supplementary reports to this office, days and in many cases weeks, after goods have been delivered.

See my B-174222 of yesterday's date in this connection. Will you please take this matter up with Agent as it should not be allowed to continue, and advise.

Dear Sir:-

Check of Salmon in Storage at Vancouver Wharf
December 12th/21.

Yours of the 19th inst.

You will note that B.C.C.S. Tariff 245 provides a special storage rate on canned fish. Shed storage rates on other traffic cannot therefore be applied in this instance.

Yours truly,

T.A.

Check of Salmon in Storage
at Vancouver Wharf Dec. 12th.

Yours of the 9th inst regarding M[redacted].DesBrisay's a/c. I note that Storage has been assessed on the 278 Cases in question, for 4 months (3 Months @ 50¢ & 1- Month @ 75¢)

As this consignment was not shipped out, but delivered locally, should not the regular shed storage rate have been assessed?

Please advise.

Dear Sir:-

Check of Salmon in Storage at Vancouver Wharf,
December 12th, 1921.

Yours of the 28th ult.

Various lots, 5448 to 5477 totalling 6292 cases, shown on your memo sheet 2 were all omitted from D/Rs 2806 & 07 August 25th/21 and I now attach suplementary reports to cover.

Lot 5705 - 705 Cases. We find that this lot was duplicated under Lot 5732, but you were not advised to cancel the latter. D/R 2830 reported out 705 Cases underLot 5732 instead of Lot 5705. I now attach D/R 2181 to correct your records.

Lot 5834, 29 Cases. Lot 5108, 9 Cases would appear to be correct. Records show D/Rs sent you as follows:-

Lot 3875.

D/R 2397	Aug.30/19.	1	Case.
2408	Sept.18	12	
2409	Sept.19	2	
2437	Oct.31	402	
2445	Nov.10	22	
2454	.. .22	30	
2477	Jan.2/20.	40	
2585	Aug.5	85	This was covered by order for 87 cases; but only 85 C/s shipped. Records reduced to read 85; but I am unable to locate any correction sent you.?
2752	May 20/21	33	
2761	June 6	10	
2786	Jul 29	2	
2790	Aug.1	32	
		671	

Lot 5108.

D/R 2711	Mar.8/21.	1328 C/s
2729	Apl.7	50
2786	Jul.29	1
		1379

2 C.J.Black, Esq.,

Lot 5834, D/R 2846 Oct. 14/21 omitted to show 1 C/s, and I now enclose suplementary to cover.

Lots 6164 & 6167 have since been corrected and agree with your records. These alterations due to shipper cancelling part of shipments ordered loaded to C.A.Line steamer. Shipper's order reduced accordingly, and the balances remain in store.

Regarding M. DesBrisays shipments. Release orders called for local delivery, and I doubt if it would be advisable to place these balances back into our salmon storage under the original lot numbers. Delivery order is in the hands of the owner, and when he calls for the remaining balances will be referred to the office for additional storage. The latter will then be taken care of under regular storage account Form 1055. In fact; part of these shipments have recently been delivered, and storage of $23.10 protected will appear on F.1055 W/E Jany.7th/22.

If the release orders also cover reforwarding instructions, and, for some reason, the quantity changed I would agree that our records should be corrected; But on local delivery, we do not know when the order will be presented at sheds, and we cannot very well question the matter until owner does call to complete delivery.

Yours truly,

T.A.

Check of Salmon in Storage
at Vancouver Wharf, Dec. 12th.

Attached you will find sheets marked 1&2 giving details of the differences between my records and those you sent. Regarding sheet 2, I can find no trace of these lots having been delivered, therefore, please advise as soon as possible, and send the required reports. The same applies to sheet 1, first three items.

Regarding the quantity of salmon held over for shipment, sheet 6&7. I am unable to check these as actually being in storage, for as you are aware, when I receive delivery reports on which storage has been assessed the transactions are closed out in my book. I have, however, noted date to be shipped by steamer.

With regard to sheet 6 a/c M.Des Brisay, you state:- "Consignees only took out part delivery of these shipments, and additional shed storage to be collected when balance called for"

Why did the Agent not send in corrected reports, as out of 963 cases, 685 cases have remained in storage since Sept/21 and on which considerable Storage Charges have already accrued.

Please advise.

C. J. Black, Esq.,

Auditor of Agencies, 237520.

Montreal.

Dear Sir:-

Salmon in store at Vancouver Wharf.

Yours of the 19th inst.

Differences shown on the attached memo are explained as follows:-

Lot 5495.	cleared by D/R	2936	17/2/22	8 Cases	
		2950.	18/3	20	
		2981	27/4	100	
		2986	3/5	54	
		2987	4/5	2	184 Cases.
Lot 5813	..	2840	6/10/21.	1000 Cases	
		2848	18/10/21	365	1365 Cases.
Lot 6380	..	2939	21/2/22	1000	1000 Cases.
Lot 6384	..	2941	23/2/22	1 Case	1 Case.

Lot 7248 & 49 Duplicates of Lots 7228 & 9. see corrn attached.

Lot 6705 The difference of one case is due to the fact that relief clerk omitted to show one case delivered on his D/R 3306 June 21st I now enclose supplementary report covering. The storage of .33 Cts was duly billed and collected, and is to S/Dr Group "A" item #20 July 7th. Debit will now be taken in the usual way W/E July 31st, and above S/Dr absorbed to clear it.

Yours truly,

T.A.
