# The Evening Sun

Vol. 1 MINER {GRAND FORKS COLUMBIA.} JAN. 10, 1902. No. 56

## WARMING UP.

### Local Politicians Now in Active Training.

In regard to possible candidates for municipal honors at the forthcoming elections in Grand Forks, rumors are as thick as the most sensational could desire.

For mayoralty candidates, Tracy Holland's seems to be the name most frequently mentioned; although yesterday a petition was circulated requesting James Anderson to accept the nomination, which acceptance has practically been made. On the other hand, however, the knowing ones confidently state that the dark horse in the contest and the one who will lead the bunch when the votes are counted next Friday, is Robert Harvey, who all along and even at the present writing announces that he is not a candidate, but—well, time will tell.

Probably the most interest is attached to the slate which "the clique" has made up for the board of aldermen. Street gossip yesterday had it that this list included J. W. Jones, W. K. C. Manly, Harry Sheads, Ald. Temple, Joe Manly and A. D. Matthewson. All of these but the last named are gentlemen who are well known in the lower town's commercial and political circles, and the stand they take on most local questions is also well known.

Mr. Matthewson is an employee at the smelter, and it is said that while he has no experience or claims as a municipal officer, nor as a representative resident of Grand Forks, his name is slated with the idea of corraling the "smelter vote" for the entire ticket. This hardly does credit to the men who labor on the hill, since they are as wide awake and capable of judging a man on his own merits and the value he would be as a city guardian—irrespective of whose names his was coupled with—as is any other element in the city.

Indications go to show the present contest will be the most spirited yet held in Grand Forks. And new entries are coming forward every hour.

---

George Hicken, who left here a week ago for the new Nevada gold fields, has arrived at his destination, and yesterday Grand Forks friends received a dispatch from him stating that he had been over the ground and that it is all right. This will doubtless cause a still further exodus of the prospecting fraternity from this district to the new eldorado. Among others, Tom Parkinson expects to leave for these fields some time next week.

---

Geo. Chapple has been awarded the contract by the Grand Forks city council for laying a 2,300-foot water main, commencing at the old power house and extending through the North addition, whose wants it will supply. Operations were commenced yesterday afternoon, and the work must be completed within 20 days.

---

G. C. Hodge, superintendent of the Vernon and Nelson Telephone company, is in town today on the company's business.

---

The Liberal association of Grand Forks, at a meeting held Monday night, though no resolutions were recorded to that effect, took a stand similar to that taken by the Liberal association of Columbia. That association recognizes the fact that, until the Liberals of the interior are accorded fair representation with coast partisans, they may not be found working in harmony with them. Interior Liberals are heartily tired of being corraled and used as ballast by the coast politicians, and have concluded that as long as they submit, such action will be continued; hence, before taking positive action, they will await the movement of other interior associations. It is to be hoped that the Liberals throughout the interior will awaken to a realization of the injustice meted out to them by the coast leaders, and firmly rebel against its continuance.

---

Pittsburg, Jan. 9—The famous Queen's univers ty hockey team from Kingston, Ont., met its first defeat in the United States tonight at Duquesne garden, in one of the fastest and cleanest games seen here for a long time. The All-stars of Pittsburg were responsible for the visitor's down fall. The score was 2 to 1, all made in the second half.

---

New York, Jan. 9.—The world's standing high jump record with skates was broken tonight at Brooklyn by W. B. Smith, of Montreal, Canada. Smith jumped 4 feet and 6 inches.

---

Saratoga, N. Y., Jan. 9.—Andrew Carnegie has offered to give this village $20,000 for a free library building.

The New Winnipeg Hotel.

.. THE EVENING SUN..

H. S. TURNER.

FRIDAY, JAN. 10, 1902

This is the last day in which names can be added to the voters' list for the local municipal election, which is to occur next Thursday.

The wages paid to labor come from the products of labor—not from the capitalist. This is the first item to learn from the lessons of political economy.

A dispatch from Victoria conveys the intelligence that the legislative assembly has been called to meet on February 20th, which is one day earlier than last year The result of the municipal election in Vancouver is said to have some significance, as the defeated candidate for mayor was supported by J. F. Garden, M. P. P., and Captain Tatlow, M. P. P., supported by the News-Advertiser, which is edited by ex-finance minister Cotton, and it is intimated that Cotton may be asked to join the Dunsmuir government as finance minister.

A. D. Morrison. the Grand Forks jeweler, has purchased the gore lot on Market street, adjoining his residence in Columbia, from Hay, McCallum & Wright.

The annual meeting of the Grand Forks board of trade will be held on Monday next, when officers of the board for the ensuing year will be chosen.

The Granby smelter is operating full force again, but will not be worked to its capacity of 1,300 tons per day till about the first of next month.

Mrs. Bell, wife of J. W. Bell, who resides across the river, in South Grand Forks, died last night at 12 o'clock. Deceased was a middle aged woman and a member of Knox Presbyterian church. The remains are to be shipped to Caledon East, Ont., this afternoon, the bereaved husband accompanying them.

New York, Jan. 8.—Copper unchanged, lake $12 to $12.50; electrolyetic $12 and casting $11.50. London prices 10s higher, spot closing at £27 10s. Lead is dull and unchanged at $4, but in London prices were 3d higher at 10 10s.

Melita, Man., Jan. 9.—The farmers of Arthur municipality will petition the legislature of Manitoba for an act permitting them to issue debentures to raise funds with which to build grain elevators.

# COLUMBIA, B. C.

## Situation, Environments and General Resources.

The City of Columbia is situated near the junction of the North Fork of the Kettle river with the main Kettle river, and is distant about 300 miles east from Vancouver.

The natural situation of the city for beauty is not excelled in America. A verdure-clad and flower-bespangled rolling prairie, traversed by a river of bright, sparkling water, fringed with forest trees and surrounded by mountains, forming a charming combination of picturesqueness and grandeur.

The Columbia and Western railway, which was constructed by the Canadian Pacific Railway company, has its station, freight warehouses and yards in the centre of Columbia; and the Vaucouver, Victoria and Eastern Railway company has located its depot freight sheds and yards along the east line of the corporation, thus giving the city connection with two great transcontinental lines.

The Canadian Pacific Railway company has large interests in the city, having selected the site on account of the superior natural advantages as a railway centre.

The climate, taken all the year around, is the best in Canada—part of the summer is rather hot and dry, but the rest of the year is enjoyable.

Throughout the Kettle River valley there is an extent of fertile agricultural land, part of which is now being cultivated.

Apples, plums, pears, prunes, cherries and all the small fruits grow abundantly. The vvlley surrounding Columbia, divided into small fruit and vegetable farms, will sustain a large population.

Building material is plentiful in the district. Lumber can be procured at fair prices, and brick, lime and stone of good quality can always be obtained when required.

The mining interests are of the first importance to this country, and will do much to build up Columbia. Large mineral lodes have been discovered through the mountains adjacent to the city, and what were mere prospects a short time since are now large paying mines.

Water is supplied the city by pumping from a beautiful spring of exceptional purity, capable of supplying a city of 50,000 inhabitants.

The Granby's smelter and converter—the most modern and perfect plant of the kind in America—employing hundreds of men. is contiguous to the city.

Owing to the fine climate, the central situation, the beautiful environments, the bright prospect for future growth and prosperity, Columbia will be an educational centre, a city of homes, as well as a wholesale distributing point; and when finally allied and wedded to her sister city, will be the best and largest city in the interior.

Ottowa, Jan. 9.—The department of militia has been advised of the issuance of an army order with reference to gratuities for distinguished conduct. The secretary of state has decided that the gratuity of £20 granted to soldiers who have been awarded distinguished conduct medals shall be issued under similar conditions to non-commissioned officers and men of any colonial force serving in South Africa.

Vancouver, Jan. 9.—The Stave Lake Power Co. has asked for an extension of time in connection with the carrying out of their agreement with the city, whereby they were to deposit $25,000 as a guarantee that certain things would be done to safeguard the city's interests in connection with the proposed establishment of an electric power plant at Stave Lake.

Toronto, Jan. 9.—The Ontario legislature opened yesterday.

## PRIVATE BILL NOTICE

NOTICE IS HEREBY GIVEN THAT AT the next session of the Legislative Assembly of British Columbia application will be made on behalf of the Corporation of the City of Grand Forks and the Corporation of the City of Columbia, British Columbia, pursuant to resolutions passed by the municipal councils of the said cities on the fifteenth and thirteenth days of August last, respectively, and approved by the electors at a poll taken the 28th day of August last, for an act to amalgamate and incorporate the said cities as one city municipality under the name of "The Corporation of the City of Minor." with all the rights and powers held by either and with all the rights and powers conferred by any statute on city municipalities within British Columbia; and to vest in the new city all the assets of both the said cities; and to validate certain bylaws of the said cities; to validate all general debentures of both the said cities (whether already issued or hereafter to be issued in pursuance of the said resolutions) and charge same on an equal footing as valid and subsisting debentures of the new city: and authorize and legalize certain expenditures; and to contain other special provisions in accordanee with the said resolutions.

Dated the 14th day of October, 1901.

ERNEST MILLER,
Solicitor for the city of Grand Eorks.
CLEMENT & SPENCE,
Solicitors for the city of Columbia.

## *PUBLIC NOTICE.*

PUBLIC NOTICE is hereby given to the electors of the municipality of the city of Columbia, that I require the presence of the said electors at the Fire hall, Columbia street, on Monday, the thirteenth day of January, 1902, at 12 o'clock noon, for the purpose of electing persons to represent them in the municipal council as Mayor and Aldermen, also for the purpose of electing three school trustees.

The mode of nomination of candidates shall be as follows:

"The candidates shall be nominated in writing; the writing shall be subscribed by two voters of the municipality as proposer and seconder, and shall be delivered to the returning officer at any time between the date of the notice and 2 p. m. of the day of the nomination, and in the event of a poll being necessary, such poll will be opened on Thursday, the sixteenth day of January, at the Fire hall, Columbia street, from 8 a. m. to 4 p. m. of which every person is hereby required to take notice and govern himself accordingly."

### QUALIFICATIONS FOR MAYOR:

The persons qualified to be nominated and elected as Mayor of said city shall be such persons as are male British subjects, of the full age of twenty-one years, and are not disqualified under any law, and have been for the six months next preceeding the day of nomination, the registered owner, in the land registry office, of land and real property in the city of the assessed value, on the last municipal assessment roll, of one thousand dollars or more, over and above any registered incumbrance or charge, and who are otherwise duly qualified as municipal voters;

### QUALIFICATION FOR ALDERMEN.

The persons qualified to be nominated for and elected as Aldermen of said city shall be such persons as are male British subjects of the full age of twenty-one years, and are not disqualified under any law, and have been for the six months next preceeding the day of nomination, the registered owner in the land registry office, of land or real property in the city of the assessed value, on the last municipal assessment roll, of five hundred dollars or more, over and above any registered incumbrance or charge, and who are otherwise qualified as municipal voters.

### QUALIFICATIONS FOR TRUSTEE·

Any person being a householder in the School district, and being a British subject of the full age of twenty-one years, and otherwise qualified by the Public School Act to vote at an election of School trustees in the school district, shall be eligible to be elected or to serve as a School trustee.

Given under my hand at Columbia, the 4th day of January, 1902.

J. A. McCALLUM
RETURNING OFFICER.
