WORLD'S GREATEST TRAVEL SYSTEM

CANADIAN

In recent years Canada has become increasingly popular as the holiday playground of the World's peoples (for where else on the earth's surface may one find such a variety of scenic splendour on so vast a scale?)—now made so easy of access by the fast and efficient transportation services of Canadian Pacific.

Canada itself and everything in it, from the Great Lakes and Prairies to the towering ice-capped mountains, is fashioned by Nature on a gigantic scale and the journey from coast to coast is an unforgettable experience. Vast forest lands extend for hundreds of miles and one glimpses a thousand shimmering streams. In the Rocky Mountain region there is exquisite beauty such as no brush or pen could adequately describe, but amid the unspoiled wildness of it all, there is the unobtrusive hand of the World's Greatest Travel System to guide you and provide for your comfort.
