An occasional ore strike has recently been made in the vicinity of Camp McKinney. A short time ago W. Youmkin when digging a well on his pre-emption ran on a nice vein of quartz and galena ore carrying fair values and a similar experience happened Ed. Hollinger and Jim Copland on the Lulu claim. A fine section of country lies between McKinney and the Forks of Rock Creek which a few years ago was covered with mineral claims but since the old camp was deserted and capital could not be coaxed to look at likely prospects on the outskirts some of the old guard who would not desert them have turned the ground covered by the mineral claims into pre emptions. By the irony of fate the fickle goddess of Fortune which was ever ready to flout them when they sought her offerings by means of the prospecting pick is now ready to guide their blind footsteps on to ore ledges when like other backwoods ranchers they go to dig a well.

SCHURMAN ON GOLDWIN SMITH

Cherish Goldwin Smith's Uplifting Visions Says President of Cornell—Glowing Tribute

ITHACA, June 23—The late Goldwin Smith, his work and his influence, were taken by President Schurman to-day for the text of his annual address to the graduating class of Cornell university. "The foundation of Goldwin Smith's political philosophy," said Dr. Schurman "was the maxim he caused to be carved on the stone seat which he placed on the campus of Cornell university 'above all nations is humanity.' An Englishman by birth he was proud of the history, ideals, and tradition and loyal to the genuine interests of England, but he sternly refused to identify those interests and ideals with territorial acquisitions, with selfish aggrandizement, with the subjugation and domination of weaker people in Asia and Africa, with unprovoked assaults against the nations of Europe or America, or with reckless and bellicose diplomacy which makes it difficult to settle international disputes by methods of peace, or by friendly arbitration. It was the moral greatness of England that he persistently championed and that moral greatness, was, he felt, in essential harmony with the welfare of all mankind.

WORLD CITIZENSHIP

"This same spirit of world citizenship enabled him to take a dispassionate view of public affairs in the United States and Canada where he spent the last half of his life. In full sympathy with the democracy of the new world, no man saw more keenly or exposed more clearly the narrow and local selfishness which lies in its bosom or the blunders and follies into which it may be betrayed by ignorance and passion. Yet democracy was his creed, and he made it his business as a writer, to hold democracy up to its ideal to lift it above the level of lower forces from whose influence it can never escape.

UNION OF ENGLISH SPEAKING NATIONS.

"While his heart beat for all mankind he cherished a special vision of the union of English speaking nations, particularly the union of Canada and the United States, and to the furtherance of this he devoted much of his best thought and energy. The particular form of union he projected between Canada and the United States may never be realized. The opening of the Canadian northwest in the 20th century is a most potent factor in the development of Canadian nationality and it came too late for him to appraise its force. But that the two English speaking nations on this continent are destined to be thrown more closely together in the future will already appear pretty certain to anyone who considers the implications of that British-American policy which we call the Monroe doctrine and the significance of the emergence of powerful Asiatic nations confronting Canada and the United States on the other side of the Pacific with all the problems arising out of intercourse and agitation, of trade and commerce, of political and religious action and reaction and of national and international prestige recognition. Whatever its national destiny may be, Canada has at all events the same international future as the United States. For the future of both is determined by their location on the American continent, the disconnection with the politics of Europe and the consequent political and military alignments of European nations, and their position with the Pacific uniting rather thrn separating them to the hundreds of millions of Asiatics who are now developing into great and powerful nationalities just over the western horizon of California British Columbia and Alaska. These mighty forces operating upon the two kindred American nations can scarcely fail to mould them to a common international destiny. And, thus, in substance, if not in form, Goldwin Smith's dream of continental unity may be fulfilled.

UPLIFTING VISIONS

"It may also come, and it is already rapidly approaching, the moral union of all the English speaking nations and their alliance in fact if not in form for the purpose of maintaining the of the world and the settlement of international disputes by the arbitration of The Hague tribunal which is at this moment settling for Great Britain and the United States, their century old dispute over their respective rights in the North Atlantic fisheries. Let us at any rate cherish such uplifting visions and dreams."

CONTRACTS TO BE AWARDED SHORTLY

Kettle Valley Railway Construction will be Started at Both Ends of Line.

Within a week or ten days contracts will be awarded for the construction of sections of the Kettle Valley Railway and work will be commenced on both ends of the line, at Midway and at Merritt, the latter point being a station on the Spences Bridge-Nicola branch of the C. P. R. By July 10th, the date on which construction must be started on the railway according to the agreement between the railway company and the Provincial Government, the dirt will commence to fly.

It is the intention of the Kettle Valley Railway Company to utilize the old grade of the Midway & Vernon Railway from Midway as far west as Rock Creek, a distance of about ten miles. Beyond Rock Creek there will be some deviation from the route which was to have been followed by the Midway and Vernon line, and surveyors are now at work locating the new line in that district.

The board of valuators appointed to fix the price to be paid by the Kettle Valley Railway for the old grade of the Midway & Vernon line completed its inspection of the grade last week. This board was composed of Messrs. R. F. Green of Victoria and L. M. Rice, of Vancouver and Seattle, appointed respectively by the government and the Kettle Valley Railway Company, and his honor Judge Forin, of Nelson, who was chosen as the third member. At present the board is awaiting the result of advertisements which have been inserted in the press calling for all claims against the Midway & Vernon Company in connection with the old grade. These claims will all be received early in July and it is expected the board will by the middle of the month announce its findings.

Vernon, B. C., June 23.—Penticton is to become the principal division point of the Kettle Valley Railroad, according to an announcement made here by Mr. James J. Warren, the president of the company. Mr. Warren met the town Council on Tuesday night and stated that he was ready to put in a gang of men on construction work in this city as soon as he could make arrangement for Lake Shore frontage and right-of-way.

Mr. Warren's proposal is thought here to be a very liberal one. He asks for a deed to about 1100 feet of lake shore for the depot. He will purchase the right of way through town and also the necessary ground for a round house and yard. A wharf will be built 900 feet in length at a cost of $50,000. Mr. Warren stated that the Penticton pay-roll would probably amount to $60,000.

KILLED IN RUNAWAY

Princeton Miner Dragged Over Rough Trail by Frightened Horse.

Princeton, June 21.—A sad accident resulting in the death of Mr. J. W. Stewart, occurred while he was returning from town to the United Empire camp, where he was employed as a miner. It appears that the two-wheeled cart in which he was riding partially upset, throwing the unfortunate man out, his feet catching firmly in the box. The horse became frightened and dragged the helpless form over rough ground, his head and shoulders striking any obstacles which the animal in his mad fright did not attempt to obviate.

The accident occurred at the crossing of the One-Mile Creek and was first observed by Mrs. Jackson, then by her husband, both of whom strove valiantly to prevent the accident. He owned a ranch near Five-mile, and leaves a wife and four children in the east. He was a native of Nova Scotia and had been in these parts about five years.

NEWS-ADVERTISER'S NEW MANAGER.

John Nelson of Victoria Times Now in Charge as Manager

The Gazette extends congratulations all round for the changes made on the News-Advertiser in Vancouver which this week comes under the business management of John Nelson who has for years had the business management of the Victoria Times. Under his management, hampered as it doubtless was, the Times made wondrous strides in advance and had it been as strong in its editorial department as it was in its news gathering and other departments it would have been a power in journalism in this province. The Gazette also congratulates Mr. Nelson on the wider sphere of usefulness and opportunity now open to him on the News-Advertiser and if he is given an absolutely free hand, as doubtless he is, things will begin to hum from now on within the purlieus of the old News-Advertiser. Editorially the News-Advertiser was always strong if it was a bit slow in the matter of news gathering, and with a new editor in Mr. Scott who had already won his spurs in journalism in the maritime provinces, at the editorial helm, the tradition for editorial solidity will be maintained, and the new manager will have the benefit of seeing this department add strength to the whole concern instead of being a weakness.

It is now with special satisfaction that the Gazette extends congratulations on this occasion when we remember that the News Advertiser's new manager was given his first stunts in editorial and managerial experience by the editor of this paper back in old Ontario, and that when we came to this province nearly twenty years ago he was left in the editorial chair, the boy editor of the old Advocate.

MARKETING OF B. C. FRUIT

Quality of Exports to Prairie Provinces is Praised but Methods are Criticized.

As regards the marketing of fruit received in the North West provinces from British Columbia, Mr. J. C. Metcalfe, the commissioner has made a report to the department of agriculture at Victoria as to the condition in which the fruit arrived at various points. Generally the fruit was praised as of good quality, but exception was frequently taken to the methods of packing and grading. "A point" he says "which growers and shippers ought to bear in mind is the fact that although all fruit might be marketed in the provinces of Alberta and Saskatchewan, it will be advisable to market a percentage of the output in the province of Manitoba, for the purpose of not only selling fruit, but for the advertising of it and also the possibilities of fruit growing in this province, removing the impression that exists in the minds of some that we are not growing or producing any appreciable quanity of fruit as yet.

"It is to be hoped growers and shippers will use every endeavor to put up a good product this season for these markets, because prices will be ruled to a great extent by Oregon and Washington competitive prices and we must be prepared to meet them. Prices f.o.b. there, plus the duty and any advantage we may have in freight rates will be the ruling prices for the same variety and grade of fruit in B.C."

JOE MARTIN TURNS TURK

The Stormy Petrel Bears Out His Reputation.

London, June 31.—Mr. Joseph Martin comes out definitely against the party under whose influence he won his seat in St. Pancras.

He says in a letter in the press that he has lost all confidence in the government, and he adds that it is the duty of every Radical to speak out before the political peace now being patched up by Messrs. Balfour and Asquith is completed and the Liberal party completely destroyed.

Eastern papers, and in fact the press in Canada, United States and Great Britain generally, bore eloquent tribute to the worth of the late Goldwin Smith. The publication of the fact, however, that in his will the greater part of his immense fortune has been left to Cornell University is not to the liking of some of the eastern Canadian papers which are of opinion that we have educational institutions in Canada with as high ideals and in greater need of cash that could have absorbed some to it, and a little promiscuous distribution over a number of them would have been more consistent with the views he taught in life than in allowing one big alien concern to get it all. Nevertheless the money was his own to do with it as he might see fit and there was after all a certain measure of consistency in the act. Goldwin Smith's avowed ideal in life was to heal the schism in the Anglo-Saxon race existing since the revolution of 1776 and to that end he claimed to strive, holding himself unhampered by any national lines within the pale of the English speaking peoples. Entertaining that view, no institution among the Anglo-Saxon races could be considered alien to him, but that is a height of altruism to which few of us would care to soar or would be justified in doing if we were so disposed.

Apparently the Similkameen Valley is not alone in its lack of success in procuring from the Great Northern all the train service they need and particularly the doing away with that wretched lay-over at Oroville, for that railway has not been very fortunate in the matter of satisfying the public in this province. Down on the Fraser there has been a great deal of complaint. The Columbian in referring to it says:

"There would not be such an outcry against inadequate train service on the Great Northern's local lines if the people really felt that the policy of the railway company was to meet the needs of the people as far as was possible. The exercise of a politic attitude on the part of the Great Northern railway officials will do much to allay the feeling of injustice which is uppermost in the minds of the residents along the line in Surrey and Delta at present. Nor is it wise for the railway authorities to ignore the complaints of the people of the Fraser valley, for once a bad feeling is engendered it is hard to eradicate. For the future good of all interests it is to be hoped a little wisdom will pervade all parties and a mutual recognition of difficulties and needs be the result of the present conferences." So far as the Oroville lay-over is concerned it is most annoying to reach Oroville early in the evening and have to wait there all night before being allowed to complete the small part of the journey remaining.

JUST PUBLISHED

Webster's NEW INTERNATIONAL Dictionary, (G. & C. Merriam Co., Springfield, Mass.) surpasses the old International as much as that book exceeded its predecessor. On the old foundation a new superstructure has been built. The reconstruction has been carried on through many years by a large force of trained workers, under the supervision of Dr. W. T. Harris, former United States Commissioner of Education, and reënforced by many eminent specialists. The definitions have been rearranged and amplified. The number of terms defined has been more than doubled. The etymology, synonyms, pronunciation, have received unsparing scholarly labor. The language of English literature for over seven centuries, the terminology of the arts and sciences, and the every-day speech of street, shop, and household, are presented with fullness and clearness. In size of vocabulary, in richness of general information, and in convenience of consultation, the book sets a new mark in lexicography.

400,000 words and phrases.
6000 illustrations.
2700 pages.

Town and District.

F. H. Parsons, of Olalla, was a visitor in town this week.

The Penticton Press has changed hands, being taken over by a local company.

When you are down in the mouth just think of Jonah he came out all right—then smoke an "Estimo" cigar.

Naramatta held a very successful regatta last week when all lake towns tried conclusions as to their skill in aquatics.

L. W. Shatford went last week to the eastern end of the riding and from there he was going to the coast on a brief business trip.

J. H. Kennedy, chief engineer V. V. & E., went up the line last week to note progress on construction and confer with his engineers.

H. B. Meausette came up from Kereneos on Tuesday to do an important piece of plumbing for Dr. McEwen that will take him a few days to execute.

The usual rumor that the Oroville lay-over is to be done away with has been revived but nothing definite is to hand concerning the bona fides of the report.

Mr. Chamberlain had company over the Hope trail. He was in time to join a party that was starting over, among whom was Mr. Corrigan and son Jack.

Volpe, the Italian on whom the murderous assault was made at Princeton last week, is making a satisfactory recovery and the wound healing nicely.

The Italian Carmenuchi Dominic who tried to behead his fellow-laborer got his hearing at Princeton last week and was taken to Kamloops by chief constable Bunbury.

Joe Wilmhurst superintendent of roads in the Greenwood district is looking over the country between Cascade and Rossland to find the best route for the provincial trunk road.

Frank Bailey is surveying a new government road from Merritt which is to cut off four miles in distance between there and Princeton and give better and safer gradients than the present road.

The Bunker Hill screens arrived last week for the mill and other machinery will be coming along soon. The work of installing is going ahead as rapidly as possible and the ditch is also making rapid progress.

The Merritt Herald gives a vigorous roast on the head of the copper tempering article appearing in the Vancouver Province, which discovery was alleged to have been made by a man in the Nicola Valley.

Alfred Wilkinson who has been working on the vanner floor of the stamp mill for the past year left last week to visit friends in the east and perhaps get hold of a desirable piece of land in the Alberta district.

Contractors on the Oroville-Wenatchee branch when working last week in the vicinity of Oroville ran into an old Indian burial ground and unearthed about 200 skeletons, believed to have been on an old Indian battlefield.

School closed for the term on Thursday last and the teacher, Miss Macpherson started on a trip around the world the same day. She was to sail from Montreal on July 4th, going with an excursion being got up by the teachers of Manitoba.

Constable R. Hewatt, of Princeton, went through to Fairview last Saturday, with his family and household effects to enter on the duties of his new position. Until a constable is assigned to the Princeton field, constable Sproule will look after the Princeton field along with Hedley.

The new teacher engaged by the school board to teach next term is Mrs. M'Gowan, from Vancouver, who comes well recommended as a successful teacher. She is a sister of Mrs. Reveley with whom she will doubtless reside and parents are looking forward with pleasure and satisfaction to the prospect of successful and skilful direction of the school.

The directors of the Vernon fair have issued their prize list which shows that this is like to prove by all odds the most important and extensive they have ever held. The fair takes place Sept. 14th, 15th and 16th and enteries close September 10th. J. A. Meldrum is the secretary. The list shows it to be essentially a farmer's fair, but nevertheless the fruitgrower will also have an inning and Similkameen fruit should be represented. The compiler of the prize list is to be specially congratulated on the matter appearing on pages 89 to 93. Get a copy of the prize list.

The local road gang have been working during the past week levelling off White street and piling up the boulders therefrom which are to be used for the fill on the new road to the station. It is understood that chief engineer Gamble is expected in shortly to fully decide on what plan is to be followed before full plans for building it are decided upon.

Some cows lying on the track caused the wreck of a freight train on the S. & O. near Okanagan Landing. Some of the residents in that vicinity have been in the habit of allowing their cows to pasture on the right-of-way, and as most of the trains pass in the day time they did not count on this train coming along in the night. Fortunately no lives were lost but seven cars were wrecked.

Hedley will make a big tournout at the Dominion Day celebration in Princeton to-morrow. Nearly everybody feels like having a little outing and with the train being held until 8 o'clock in the evening they can get back home in good time and be ready for work next day. There is a possibility of the train being held until 10 o'clock, but so far as excursionists are concerned the earlier hour will suit most of them best.

There was a good turnout of golfers on Saturday afternoon for the games of foursomes arranged to take place. One set tied for first place. Hincks and Miss Mclean played against French and Mrs. Hamilton and when the handicaps were deducted each stood 35. Megraw and Mrs. Jones played against Martin and Mrs. Rotherham the scores with handicaps deducted being 42 to 53. Hetrick and Mrs. Jamieson played against Whiteman and Miss Smitheram the scores with deductions being 37 and 55.

The streets were enlivened on Friday afternoon and evening with the straims of an itinerant brass band that was somewhat of a new experience for Hedley. As for the show there seemed to have been a difference of opinion on the part of those who were there as to its merits; but with those who came in contact with the manager in a business way there was but one opinion as to his grousing and kicking propensities. In one kick he made he found before he got through with it that he had kicked not wisely but too well. Messrs. Cosgrove and Salsbury as advance agents have given the public some good entertainment in aggregations like the Juvenile Bostonians and the Musical Eckhardts, but they will do well in future to drop from their list all concerns that are not prepared to carry out, without kicking or grumbling the arrangements made by advance agents.

NOTICE TO DELINQUENT CO-OWNERS

To D. J. Purdy, Robert Wisely, and W. A. Chesley, or to any person or persons to whom they may have transferred their interests in the Borden, Hope and Laurier mineral claims situate at the mouth of Tenas Creek in the Osoyoos Mining Division of Yale District.

You and each of you are hereby notified that we have expended three hundred and seven dollars and fifty cents in labor and improvements on the above mentioned claims in order to hold the said claims under the provisions of the Mineral Act, the said labor being done for the year ending 5th of August, 1909, and if within 90 days from the date of this notice, you fail or refuse to contribute your porportion of such expenditures together with all costs of advertising, your interest in said mineral claims will be the property of the undersigned under Section 4 of "Mineral Act Amendment Act 1900.

Dated this 1st day of April, 1910.

THE KEREMEOS PAGE

KEREMEOS, the Centre of Lower Similkameen----Famed for Fruit Growing

Town and Lower Valley.

Mr. and Mrs. M. B. Ewart are expected home from their honeymoon trip on Friday.

Remember the annual school meeting in the school house on Saturday next at ten a. m.

Porter Gibson left on Monday for Vancouver where some business interests demanded his attention.

Miss Fleming who has been visiting her aunt, Mrs. W. M. Frith for the past three months left on Tuesday for Greenwood where she will spend some time before returning to her home in Manitoba.

Miss Hannah Knudson, who holds high rank in the Salvation Army at Victoria, attended the nuptials of her sister here last week and is remaining for a visit with her parents, Mr. and Mrs. John Knudson.

Tommy Daly who has been attending the Hill Military Academy at Portland, Ore., returned home last week. He not only passed a most creditable examination but also had some experience on the baseball diamond which will stand him in good stead.

Mr. C. Armstrong, son of G.C. Armstrong, of Winnipeg, Man., arrived in Keremeos on Thursday last and will spend the summer with his uncle, J.J. Armstrong, in hopes that the change of climate will benefit his health which has not been very robust of late.

A most enjoyable evening was spent in Richter's Hall at Keremeos Centre on Monday last, the occasion being a farewell dance for Charley Loudon, who is leaving the store to join his father at Loomis, Wash. and engage with him in sheep ranching, in which he is engaged on a large scale.

Harry Armstrong who has been spending the past few weeks with his mother at Hot Lake, Oregon, was in Keremeos on Monday, having dropped off here for a day on his way home. Mrs. Armstrong has gone on to the coast on a visit to friends there. She was much improved by the treatment at Hot Lake.

The Keremeos Sunday School have their plans all ready for the picnic at Ashnola Creek on Friday. Rigs will leave here at 9.30 and accommodation will be provided for all who wish to go. A jolly good day's sport is promised in which field games and lunch baskets will be prominent features. A cordial invitation is extended to Sunday School children and their friends in Hedley to participate in the frolic.

The Clanam Company played to a small house here on Saturday evening but appear to have got all that was coming to them. There may exist a difference of opinion as to the merit of their performance but none as regards their business methods. A favorite stunt of the manager's is to obtain favors on the understanding that he will reciprocate in the usual way but when the time comes he fails to make good. Evidently they do not figure on a return trip.

On Saturday afternoon last a very painful accident happened to Gwendola, the little two year old daughter of Mr. and Mrs. J. R. Shaw of this place. The little one pulled a basin of boiling hot water off the table spilling it over her face, neck and arms. Fortunately Dr. McEwen happened to be on his way to Keremeos and soon had the little sufferer's injuries dressed and made as comfortable as possible. She is progressing as favorably as could be expected under the circumstances.

A farewell tea, given by the ladies of St. Johns Church, in the parlors of the Hotel Keremeos on Thursday afternoon last in honor of Rev. Mr. Ransome, who was leaving here for other fields of labor, was largely attended. Though the retiring clergyman has been here but a comparatively short time he has made some very warm friends and genuine regret was expressed that conditions should have so changed it as to render it inadvisable to attempt to keep a resident clergyman in the parish. Mr. Ransome left on Friday, going first to Nelson to meet and consult with the Bishop of the diocese of Alberta and afterwards to Kamloops where he will supply for a month. Service will be held here quarterly, as of old, by Rev. Mr. Cleland, of Penticton; the first service to be on July 31st.

Mr. J. J. Armstrong, manager of the Keremeos Land Company, has received a large shipment of fruit boxes, apple plum and peach and is prepared to supply all requirements of the fruit growers in this district. He has also a goodly supply of labels which are very attractive in design and if generally used by the growers of this district will be an effective neans, in themselves, of advertising the fruit of Keremeos. Our fruit is second to none, but it must be properly packed and tastefully labelled in order to create the best impression on the outside market. Shippers cannot afford to overlook these two important features.

A quiet wedding took place at the residence of Mr. and Mrs. John Knudson, Keremeos, on Wednesday last, June 22nd. at 12 o'clock, noon, when their second daughter, Miss Mary Louise, was united in the holy bonds of Matrimony to Mr. Henry Lawrence of Nelson, B. C., Rev. Geo. Kinney performing the marriage ceremony in the presence of immediate friends of the contracting parties. Miss Mabel Knudson, sister of the bride made a very pleasing bridesmaid, while the part of best man was ably filled by Mr. Arthur Mattice. A dainty wedding breakfast followed the marriage, after which the happy bridal couple took the eastbound train for Nelson, where they will make their home. We join their many friends in wishing them a full measure of matrimonial bliss.

John Pringle, who is acting as advance agent for his company—the Pringle Stock Co. of Vancouver and Victoria, had an unpleasant experience when driving over from Penticton to bill this town. He was driving alone in a rig belonging to the Central Hotel livery when a pole-strap broke and in the mix-up following he was thrown from the rig and stunned. Fortunately the stage was close at hand and brought him into town. The Pringle Stock Company will play here three nights beginning July 4th, presenting "The Convict's Daughter," "Reaping the Harvest," and "What Happened to Jones?" They carry eight people, and are highly spoken of along the route which they have been playing.

Mr. Robert Gibson has just completed the unique and rather arduous task of planting three and three-quarters acres in cucumbers. We have always understood that it is impossible to grow pickling cucumbers in this district, owing to the fact that they grow so rapidly here that cucumbers that are to small in the evening are two large in the morning for picking purposes. Naturally we felt a little curious to know to what purpose Mr. Gibson was planting such a large acreage of this vegetable with a very limited local market in sight. Enquiry elicited the information that Mr. Gibson had secured, at enormous expense about eight pounds of seed of a new and as yet comparatively little known variety called the "Everlasting" which are splendid keepers and remain quite fresh and appetizing until on late in January. He is growing in quantities which it is expected will permit of shipping to outside points in car lots.

(Received too late for last issue.)

E. M. Crooker's father who has been visiting him left for home on Monday.

Rev. Mr. Ransome conducted farewell service in St. John's church here on Sunday evening last.

The teachers and scholars of the Keremeos Sunday School will hold their annual picnic this year at the the Ashnola on July 1st. A cordial invitation is extended to Sunday School children and friends in Hedley to join in the day's fun. A good program of sports will be provided for the children.

Lorne Coleman visited his parents a couple of days this week, having driven over from Penticton with Mr. Russell who is in charge of the G. N. survey party working on the proposed Oroville-Penticton line. Mr. Russell went down to Oroville intending to return to Penticton via the Okanagan route, over the line of survey. While the railroad company have not declared their intentions, the nature of the survey work they are doing would indicate the commencement of construction work at no very distant date.
