PORT REGULATIONS—ARRIVAL

1 Landing at most ports is prohibited until after the ship has been passed by the Health, Immigration and Police authorities. Due notice will be given regarding attendance of Cruise Members and delay and discomfort to all will be avoided by prompt attention to these important matters.

PARTY REGISTRATION

2 Experience has shown that at most ports shore excursions can be operated more efficiently and with greater regard to comfort, by the division of Cruise Members into separate parties, viz, A, B, C, D, etc. Prior to reaching each port, programmes will be distributed to enable Members to study shore and party arrangements. It is realized that Members will wish to move with friends and for this reason it is not desirable that allotments to parties should be made by the Cruise Management without giving Members an opportunity to voice their preference for one party or another. Members should decide with whom they would like to go sightseeing and keep their parties together.

Timely advice will be given Members regarding party registration and distribution of Identification Party Cards.

SHORE EXCURSIONS

3 To ensure their own comfort Cruise Members are respectfully requested to adhere to the hour shown for the movement of their party and to **move only with their party.**

DISEMBARKATION

4 Members will best study their own comfort and convenience by avoiding crowding in the corridors or at the gangway. Fifteen minutes before the assembly hour for each shore party, a gong will be sounded throughout the ship. Members should remain on deck or other convenient place pending such notification.

MOTOR CARS

5 In filling motor cars for shore excursions, the Cruise Management work on the rule of placing three persons in each five-seated car and five persons in each seven-seated car, in addition to the driver. To ensure prompt despatch of motor cars Cruise Members are requested to proceed ashore promptly when their party is called.

An additional charge will be made Members who desire exclusive use of motor car for two persons. Details at Cruise Office.

It is respectfully notified that conveyances cannot be held for those arriving late, as the common comfort and convenience of all must be studied by the Management.

The co-operation of Members of the Cruise is earnestly solicited by the Management, looking to the convenience, comfort and pleasure of all concerned.

MONTEVIDEO

The City of Montevideo is the Capital of the Republic Oriental del Uruguay. This part of South America was discovered by the famous Spanish navigator Juan Diaz de Solis, in the year 1516. At that time the whole country had only about five or six thousand inhabitants, composed of the Charrua, Yaro and Chana Indians, at the hands of which the above-mentioned intrepid navigator met his death on landing from his ship to claim land in the name of Spain. After this date the land was slowly colonized and many Jesuit and Franciscan missionaries tried to convert the original inhabitants but it was only in 1726 that Don Bruno Mauricio Zabala, a bold Spanish navigator founded the city of Montevideo, with six families composed of 33 persons, two years prior to which he had built a fort for the protection of same. For a considerable number of years this territory passed hands several times between Spanish, Portuguese, Brazilian and British, and it was only in 1825 that Uruguay was declared a free country after completely beating the Spanish. Great Britain was the first country to recognize Uruguay as a free and independent country.

The only current of immigration, up till a few years ago, came from Spain, which gave this country quite a Spanish aspect, and which easily formed the character of the inhabitants in that line. But in the last few years, the tide of immigration has changed, the newcomers being easily absorbed with the old residents, and now this large city is quite cosmopolitan, with its skyscrapers and palatial buildings, which completely enshadows its old houses with their colonial courtyards and flat roofs.

The eminent Dr. J. B. Teran, has stated that Montevideo is now the Athens of South America, owing to its magnificent buildings and the high culture of its inhabitants, its present population easily passing 700,000.

Last year the coastwise avenue was finished, which joins the famous beaches of Ramirez, Pocitos, Buceo, Malvin and Carrasco, and during the summer season, thousands of tourists enjoy the wonderful bathing and the

coastwise avenue seems an unterminable stream of motor cars, extending nearly 30 kilometers.

Uruguay is a democratic republic, its President, Ministers, and other Officials residing in Montevideo, where the Capitol Building has been erected. The interior of this building is of national marble, granite and gold, and it is impossible to believe its beauty until it has been visited. The splendour of the combination of the coloured marbles, reminds one of a rainbow. Over $14,000,000 has been spent, up to date, on its construction, and the palace has not yet been completed.

At the Parque and Carrasco Hotels, Casinos are run, where Roulette and Baccarat are played.
