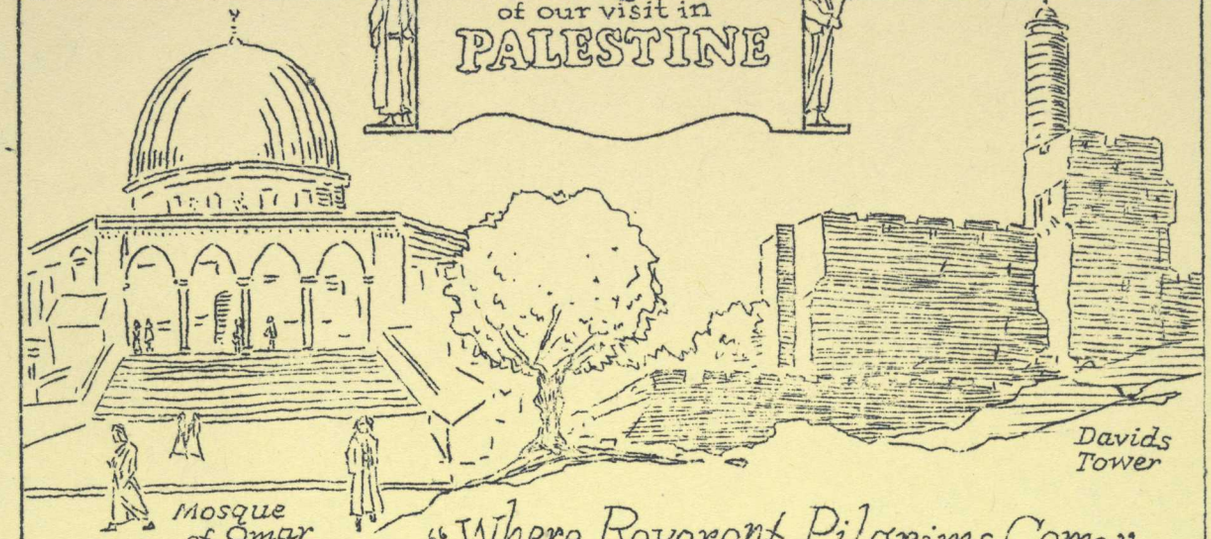
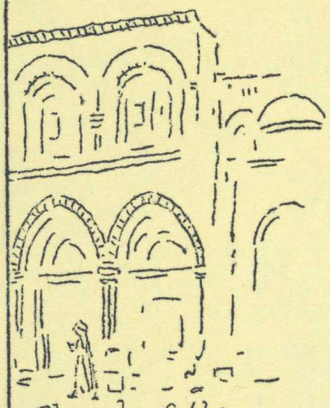
Memogram of our visit in PALESTINE



"Where Reverent Pilgrims Come"

Jerusalem, Palestine
Sunday, December 26, 1926



We landed at Haifa, last Friday morning, and have spent three well-filled days of sight-seeing.

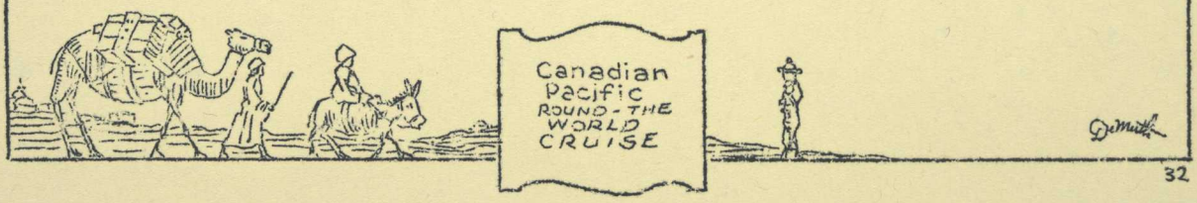
Some of us went on an optional excursion by motor car to the Sea of Galilee, remaining over for Christmas Eve at Nazareth.

The main party came by train directly to Jerusalem, whence a number of us have made excursions to Jericho and the Dead Sea.

We have motored to the Mount of Olives and Bethlehem, where special Christmas Services made our visit one to be remembered.

In Jerusalem, we celebrated Christmas Day, surrounded by countless reminders of biblical happenings.

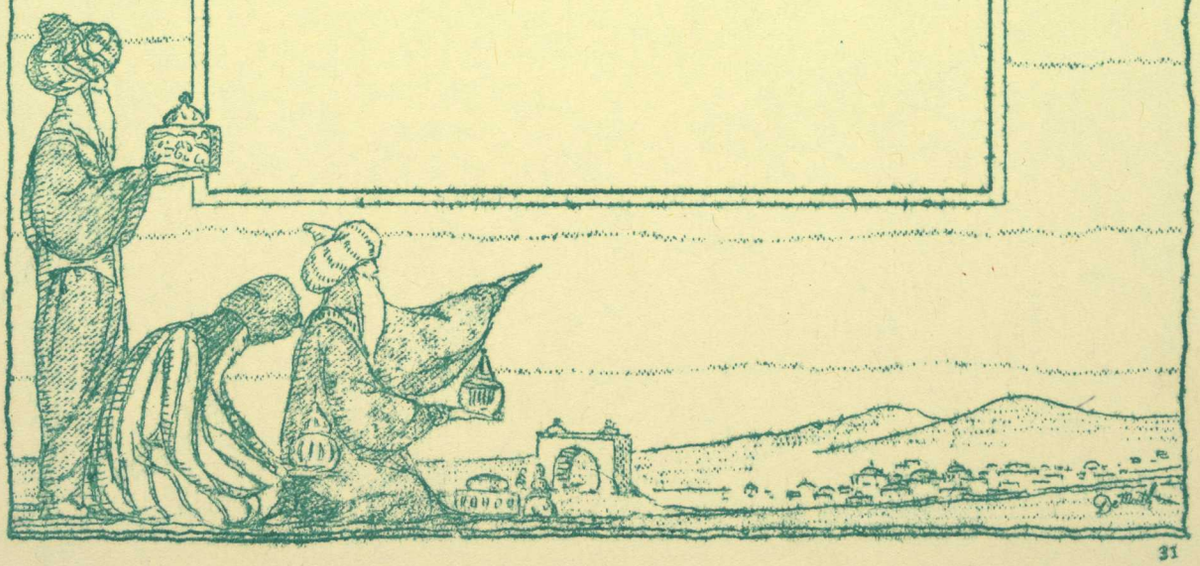
Tomorrow, we proceed by train to Cairo for a stay in Egypt.

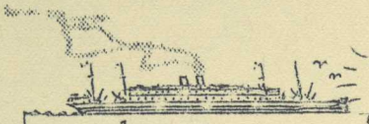


Christmas Greetings

THERE is No Custom More Universal in Celebration than is Christmas Day

We Rejoice that, as Members of the Canadian Pacific Fourth Annual *Round-the-World-Cruise*, We are Privileged to Arrive in the Holy Land at This Time When All The World Reverently Turns Its Face Toward Bethlehem





Aboard

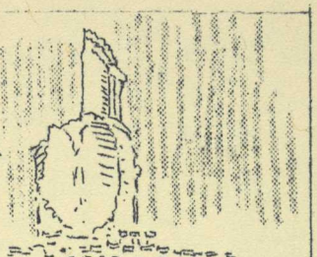
A "Nice" Party



La Tour d'Auguste - La Turbie

A Perfect Day was Yesterday!

Ideal weather for our motor trip over the Route de la Grande-Corniche, via La Turbie to Nice. Luncheon and dancing at the sumptuous Hotel Negresco.

A stroll along the Promenade des Anglais - shopping - in the marvelous galleries - then we returned via Villefranche and Beaulieu-sur-Mer to Monte Carlo for tea - but that was not all -----

In the evening, most of us went to the Casino of Monte Carlo - and a glorious experience, it was! *(The Bank was able to carry on again, today)*

We have just passed the islands of Corsica, Elba and Monte Cristo - tomorrow morning, we shall see Stromboli as we approach Naples, our next port-of-call on the Canadian Pacific fourth annual ROUND-THE-WORLD-CRUISE.

CHANGE IN ALGIERS SHORE PROGRAMME

OWING to the late arrival of the *Empress of Scotland* at Algiers, it becomes necessary to alter the arrangements for shore excursions. It is regretted that this is necessary but in order to maintain our more important shore excursion features at Ports beyond Algiers it is imperative that the ship sail from Algiers not later than Midnight Tuesday.

Our programme will be fully carried out in respect to sightseeing in Algiers and dinner ashore substituted for luncheon. It is regretted that our limited time makes the *optional trip* to Blidah impossible.

NEW PROGRAMME

PARTY A ~~ Lunch on board at 12:00 Noon. Leave ship at 1:00 P.M. for sightseeing by motor car, afterwards proceeding directly to the *ORIENTAL HOTEL* for dinner at 7:00 P.M. After dinner, return to ship by motor car.

PARTY B ~~ Lunch on board at 12:00 Noon. Leave ship at 1:30 P.M. for sightseeing by motor car, afterwards proceeding directly to the *HOTEL ST. GEORGE* for dinner at 7:00 P.M. After dinner, return to ship by motor car.

PARTY C ~~ Lunch on board at 1:00 P.M. Leave ship at 2:00 P.M. for sightseeing by motor car, afterwards proceeding directly to the *HOTEL CONTINENTAL* for dinner at 7:00 P.M. After dinner, return to ship by motor car.

The Gong will be sounded *15 minutes* before each party time for departure from ship

Important!

The *Empress of Scotland* will sail *PROMPTLY* at Midnight

At Sea · 13th December, 1926

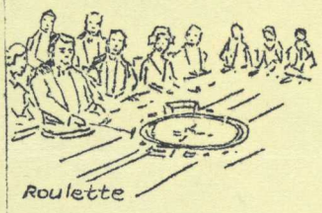
Dancing



Roulette

The Biggest Thrill of All

FLORA AND MARTIN DeMuth

The "Island of Eternal Springtime" proved most enchanting. We dropped anchor at Funchal on Thursday evening and most of us went ashore by tender soon after dinner to attend the Ball arranged in our honor at the Casino Pavao. Such delightful dancing! Madeira wine, perhaps, on the terrace overlooking the beautiful city and the harbour below us - or a fling at the roulette wheels in the game room ...

What a great day was Friday! We went up Terreiro da Lucta (3285 feet above the sea) on the cog-wheel railway - to the Chalet Restaurant - then down the cobblestone slide in the famous toboggan sleds - shopping - Reid's Palace Hotel - We expected to leave at 5 p.m. .....

But the outstanding feature of our visit was furnished by *Old Father Neptune* himself when he showed so much objection to our leaving that the Good Ship *Empress of Scotland* decided to remain overnight. We shall always remember the boat ride from shore to ship - an experience most exciting and well worthwhile.

-and now we are steaming on to Gibraltar

Everybody Happy.

GOODBYE *and* Good Luck!

JUST to say "Goodbye" but, we trust, only for a little while. That you have enjoyed your *Cruise Round the World* under the house flag of the Canadian Pacific is our earnest hope.

We hold ourselves fortunate and happy in having had you with us on our adventure.. That you have all returned happy and well, gives us the keenest satisfaction and pleasure.

Ours has been a "Lucky Cruise" throughout, practically every detail of our programme having been carried out as laid down.

That continuous "Good Luck" may be yours for all time is our earnest wish.

"Goodbye and Good Luck!"

Our Good Ship *Empress of Scotland* arrived at Balboa, C.Z., Monday morning, 4th of April, 1927.

We went ashore for an excursion by motor car about Balboa, Fort Amador, Balboa Heights, Quarry Heights, Panama City - and to Old Panama to see the ruins that have recently yielded fabulous hidden treasures to excavators.

In the evening, we dined and danced at the Hotel Tivoli...

The next day, Tuesday, 5th of April, we passed through Panama Canal, the World's Greatest Mechanical Wonder, to Cristobal and Colon on the Atlantic side, leaving at 11.00 P.M. for Havana.

"Where Romance Lives"

Arriving from Cristobal at noon, today, we have just returned to the *Empress of Scotland* for dinner after an extensive excursion by motor car through Havana and environs.

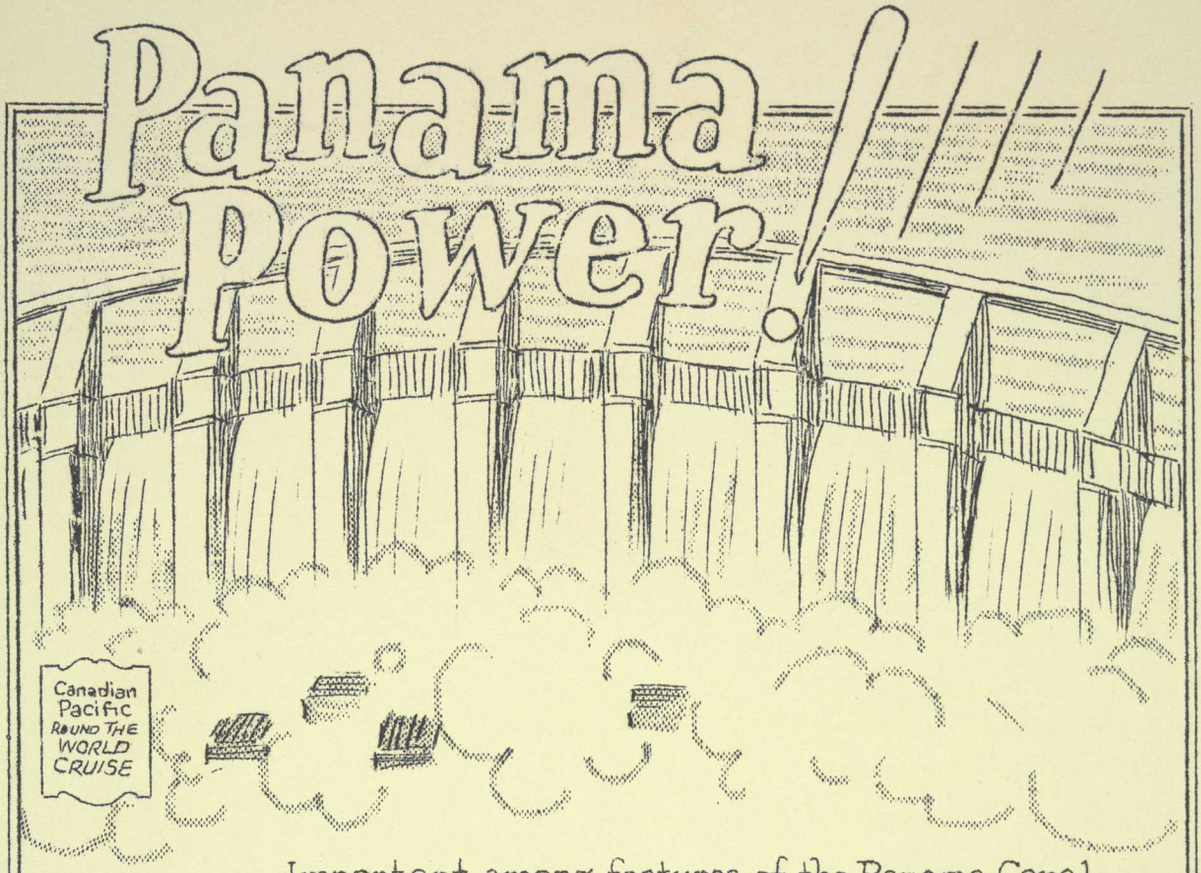
We have, this afternoon, seen many places of interest, being constantly reminded of the historical background of the West Indies - for it was this group that Columbus discovered in 1492 – here is where the pirates of old carried on – Sir Francis Drake, Elizabeth's champion of *Armada days*, visited here – and in Cuba still remains the influence of Spain. We have looked upon the oldest European building in the *New World* - La Fuerza Fortress...

Particularly appealing is the "Happy Havana" spirit, evidenced on every side in the friendly greetings of the people.

Tomorrow afternoon, we depart for New York.

Canadian Pacific
ROUND THE WORLD CRUISE

(FOR REFERENCE DURING LECTURE)



Important among features of the Panama Canal is Gatun Dam, a long, low, broad ridge constructed across the Valley of *Río Chagres* to form Gatun Lake.

The Dam is provided with a Spillway of 14 gates near Gatun Locks to waste the excess water of the Lake.

On the east bank of the Spillway is the famous HYDROELECTRIC STATION of 13,140 kilowatt capacity, using the water of Gatun Lake for the generation of electricity.

Over a high-voltage transmission line that parallels the Panama Railroad across the Isthmus, electric power is distributed to the towns, canal locks, shops, pumping stations, coaling stations, refrigerating plants and numerous other uses throughout the Canal Zone.

(FOR REFERENCE DURING LECTURE)

At the request of many among us who witnessed the "Mock Wedding" in the evening of March 23rd, we give herewith the words of the "Lohengrin Wedding Song" (with apologies to Richard Wagner).

Words by Miss Theodora Booth.

Sung by Miss Frances Swab.

Here comes the bride
 Get on to her stride
And will you look at her Dad
 by her side!
Here they all are,
 Come from afar
Now she will always be his
 guiding star.

Now from this day
 She gets his pay
Oh, how they'll squabble on
 life's sunny way.
Now watch the groom
 March down the room
Up through the aisle he comes
 straight to his doom.

She is a peach
 He is a screech
And she is way up far out of
 his reach.
Little Tom Thumb
 His day is done
And he will never be quite
 number one.

He gently sighed
 Oh, be my bride,
Wandered around till he found
 her port side.
Now fore or aft
 You've got me daft
We'll leave the "EMPRESS" and
 take to a raft.

Of Course - We are going to the

ROUND THE WORLD CRUISE

Steaming overnight from Honolulu, our Good Ship *Empress of Scotland* arrived Saturday morning, 19th of March, 1927, at Hilo, where we went ashore for a dream day on Hawaii, the largest island of the Hawaiian group..

In motor cars, we journeyed from Hilo to Onomea Arch, Rainbow Falls, - then 31 miles (climbing 4,000 feet) to Hawaii National Park for a view of the volcanic wonders.. We saw the tree molds, Uwekahuna Bluff, the sulphur bank, Kilauea Iki, the lava tube and Kilauea Crater .....

At the Volcano House where we stopped for luncheon was one of the most pleasing entertainers encountered during our cruise - a little child, dancing on the lanai, gave us her charmingly graceful interpretation of the Hawaiian *Hula*...

The Hawaii County Band rendered *Aloha* as we were leaving the pier to sail toward San Francisco.

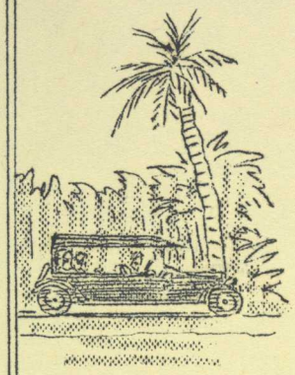
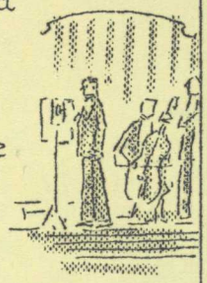
"Truly Fascinating"



Our Good Ship *Empress of Scotland* passed through the Golden Gate and docked at Pier 32, Friday morning, 25 March, 1927.



We went on the Thirty Mile Drive, during which we saw Pacific Heights, The Presidio, Lincoln Park, Palace of the Legion of Honour, Cliff House, Seal Rocks, Golden Gate Park, the Museum, Japanese Garden, the Aquarium ~ then via Ocean Boulevard to St. Francis Woods, over the famous Twin Peaks Drive, - to Mission Dolores and the Civic Centre...

In the evening, our Cruise Lecturer broadcast the story of our "great adventure" from KPO, assisted by Miss Frances Swab, soloist, and the *Empress of Scotland* orchestra... we also enjoyed a Dinner Dance at the Palace Hotel.

Never shall we forget Saturday afternoon when we departed for Panama.

Almost All Aboard!

NEW YORK
December 2, 1926

At 12 noon today, we start on the Canadian Pacific Round-the-World Cruise aboard the *Empress of Scotland*.

Happy excitement prevails. Our fellow passengers are coming up the gang-plank amid an avalanche of luggage, flowers and *Bon Voyage* packages.

Very soon the whistle will blow and we shall be on our way ~ more than four months of delightful foreign travel with this palatial ship as a floating home.

Passengers will receive
copies of more than 200 Original

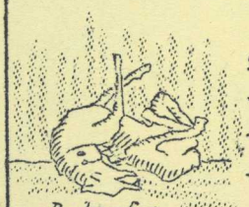
Looking Backward 1847 Years!

A Wine Vat "There's Nothing In It"

One of the most interesting features of our three days' stop at Naples, Italy, (December 18-20, 1926) on the Canadian Pacific *ROUND-THE-WORLD-CRUISE*, was the included shore excursion to Pompeii.

Special trains picked us up within a few yards of the *Empress of Scotland* and carried us along many miles of colourful countryside to the site of Pompeii, the old Roman city which was buried in pumice and ashes from an eruption of Vesuvius in 79 A.D. and discovered in 1748.



Body of a Dog "Cast in Agony"

We explored several acres of Pompeii's houses, shops, temples, public baths, the amphitheatre,- streets where pavement bears the marks of Roman chariot wheels,- the bakery where carbonized loaves of bread were found in an oven,-··· the museum containing the preserved bodies of unfortunate inhabitants and other findings of the excavation work undertaken in 1763 and continued today, bringing to light the customs of almost 2,000 years ago.

"Optional Excursion":

Memogram of VESUVIUS

Monday
December 20, 1926

For three weeks, Mount Vesuvius has been threatening to erupt and, now that the *Empress of Scotland* is here, the performance is actually started.

A large number of us from the Canadian Pacific *Round-the-World-Cruise* took advantage of the excursion going up to the rim of the volcano.

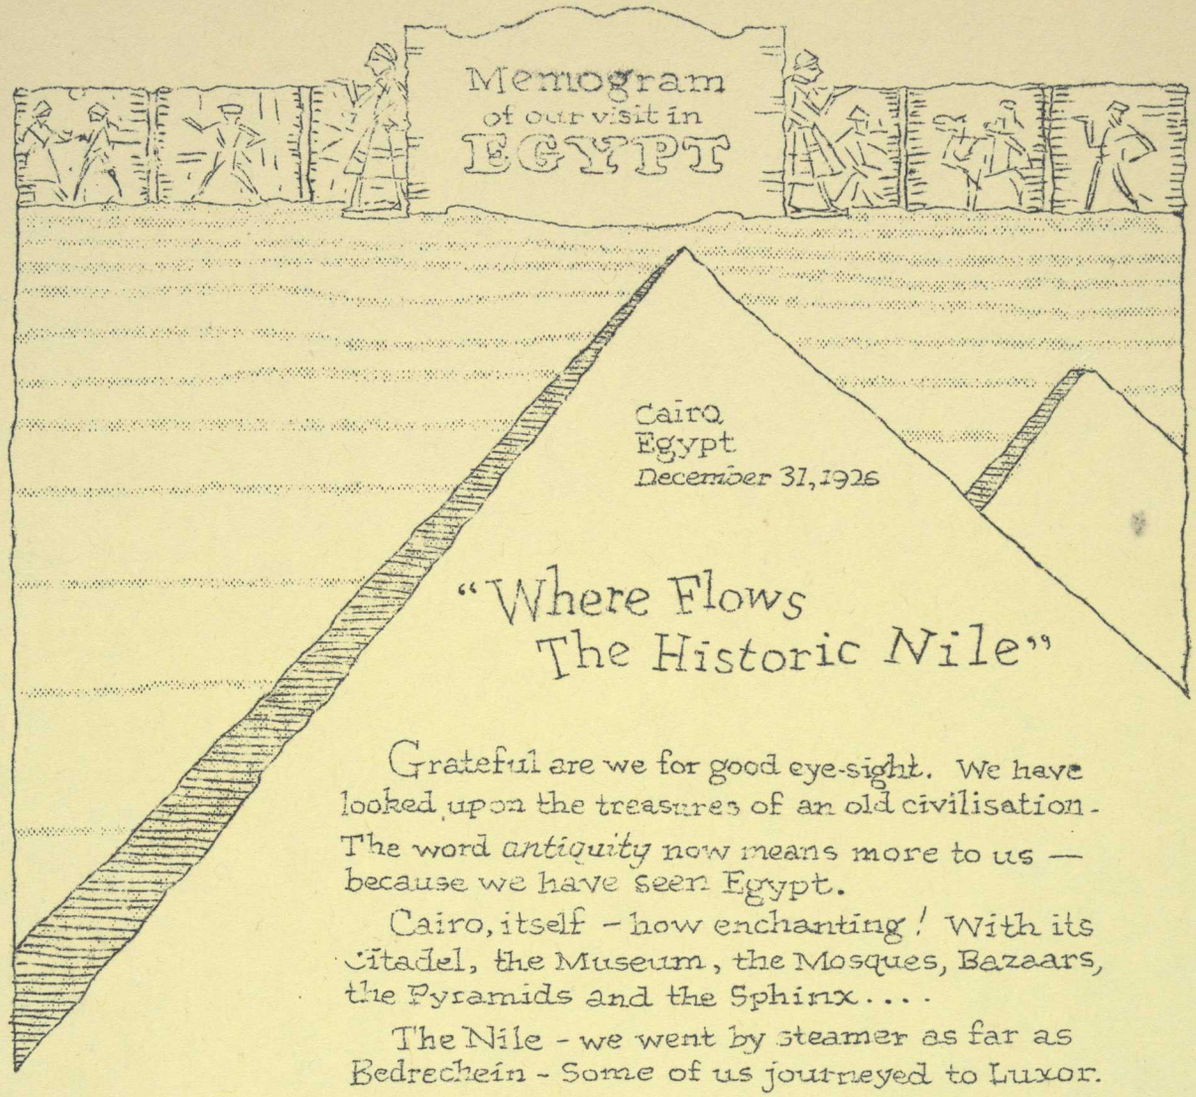
Canadian Pacific ROUND-THE-WORLD-CRUISE



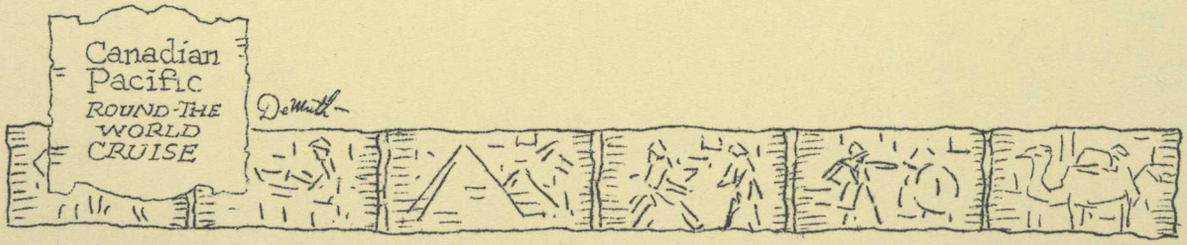
Grateful are we for good eye-sight. We have looked upon the treasures of an old civilisation. The word *antiquity* now means more to us — because we have seen Egypt.

Cairo, itself – how enchanting! With its Citadel, the Museum, the Mosques, Bazaars, the Pyramids and the Sphinx....

The Nile – we went by steamer as far as Bedrechein – Some of us journeyed to Luxor.

And the *Night on the Desert* – Oh!

Tomorrow, we depart by train to rejoin the *Empress of Scotland* and sail on to those strange ports that lie "east of Suez".



"SOUTHERN CROSS AHOY!"

The Constellation of CENTAURUS and CRUX, better known as *The Southern Cross* will be clearly visible on our starboard beam from 3 to 6 A.M. during the next few mornings.

This group of stars is the most useful in the Southern Hemisphere; navigators employ it in determining latitude when POLARIS, the *North Star*, is below the horizon.

"BETEL-NUT"

Throughout the East Indies, the chewing of betel leaf, areca nut and lime is a wide-spread habit among natives of the lower classes...

This accounts for their red teeth and lips – and the stains you see on the pavements...

The dark-skinned young man of style usually carries his personal betel-nut case wherever he goes.

ROUND THE WORLD CRUISE

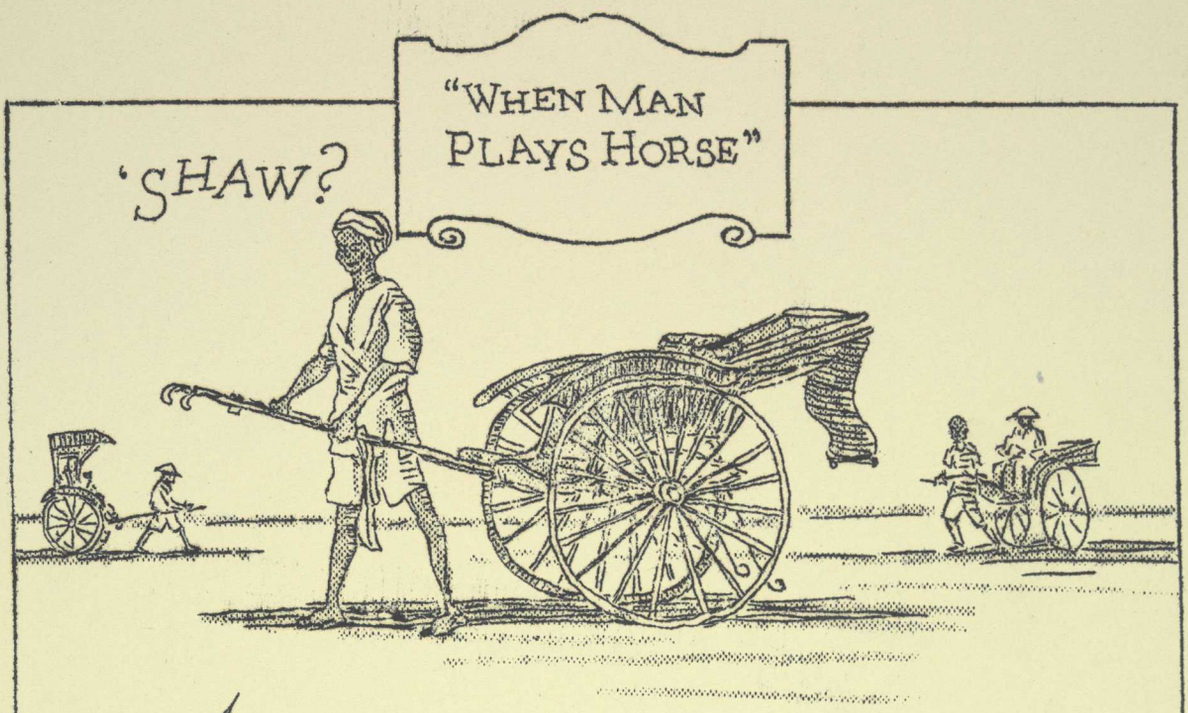
Tuesday, January 25, 1927

D. 60



An American missionary named Globe, who, living near Yokohama in 1869, converted a baby carriage into a vehicle in which his invalid wife could travel about, pulled by a native servant, is credited with the invention of the *jin-rik-sha*..

Its Japanese etymology is given as *jin*, man; *riki*, power; *sha*, vehicle; - "man-power-vehicle. Various countries of the Far East spell the name differently, - "rickshaw, riksha, rikisha, ricsha"..

We have already, on our Cruise, seen this unique vehicle in common use in Ceylon.. We shall see them in Singapore with seats wide enough to hold two people; in Hongkong, the wheels have quite heavy wooden spokes; farther north in China, we shall find more graceful vehicles with wire spokes and pneumatic rubber tires; those of Japan are higher and travel more slowly.

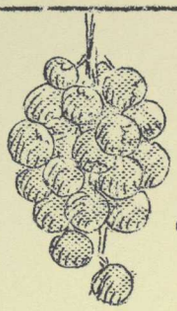
SUMATRA ISLAND

Which we visited on the 28th of January, 1927,
Extends *six degrees* on both sides of the equator
Is 960 miles long, 220 miles wide at widest point
Has an area of 161,612 miles
Is *four times* as large as Java
Is *fourteen times* as large as Holland
Has about 100 volcanoes, twelve of them active
The population is 5,852,135

Canadian Pacific
ROUND THE WORLD CRUISE

Tropical Fruits of Java which you may safely eat..

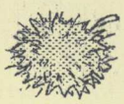


Mangosteen

Merchants offer them tied in clusters...

The *Mangosteen* is round, deep purple, thick skin, about 2 inches in diameter..

← Inside is white, juicy meat in about 5 segments.

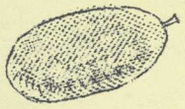


about 2 inches in diameter

Rambutan

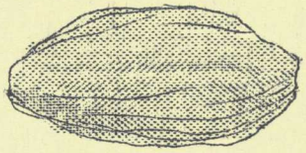
Looks like a red burr, with green spines... Rind comes off easily.. Inside is juicy, white, semi-transparent meat around a smooth core.

Souw



Brown, thin skinned pear-like fruit..

Papaya



Green, about six inches long. Of melon type.. to be cut open with knife.. yellow meat with small, black, round seeds.

Mango

3 inches long

Yellow when ripe - juicy meat around long, flat core.

Duku

Looks like large olive; leathery rind... 1 inch in diameter Inside is much like that of *Rambutan*.

Lanzone

Yellow skin.. about 1 inch in diameter.. Meat is in segments

— And there is also a popular fruit, named *Durian*, that has an odor resembling, but stronger than that of limburger cheese.....

Batik Work

In "The Garden of the East"

The *Empress of Scotland* brought us to Batavia on Sunday morning, the 30th of January in 1927...

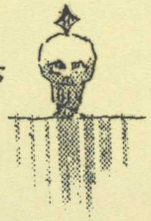
The Sacred Cannan

Java is one of the most picturesque countries we have visited. Although smaller than Cuba, this island supports 35-million people - it is the most densely populated land in the world.

We saw the historic spots of Old Batavia and the upper city, Weltevreden.. Another delightful excursion was the motor-drive to Buitenzorg for an inspection of the botanical gardens...

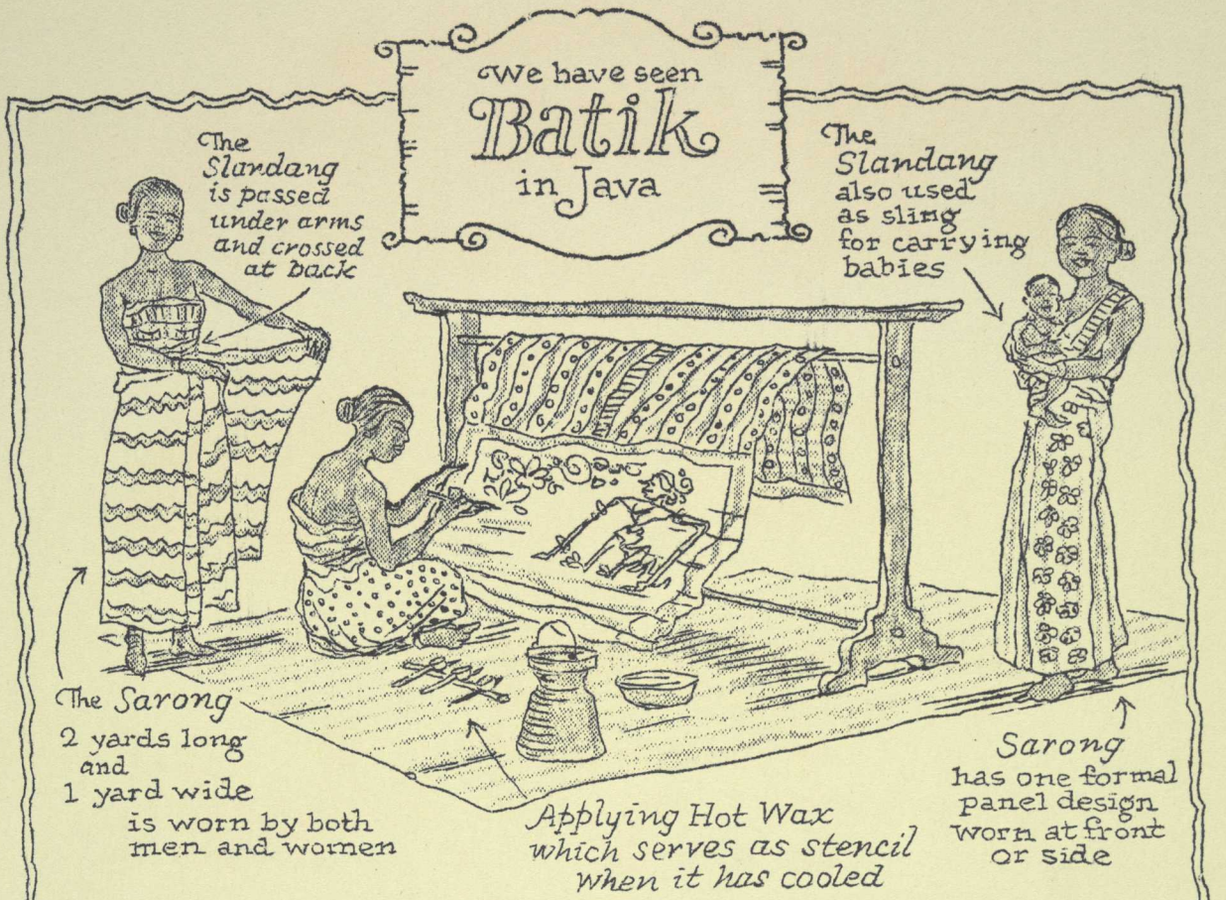
Monday evening, we sailed away to go north across the equator to Singapore in the Straits Settlements.

Peter Elberfeld's Skull



Native Gamelan Orchestra

Canadian Pacific ROUND THE WORLD CRUISE



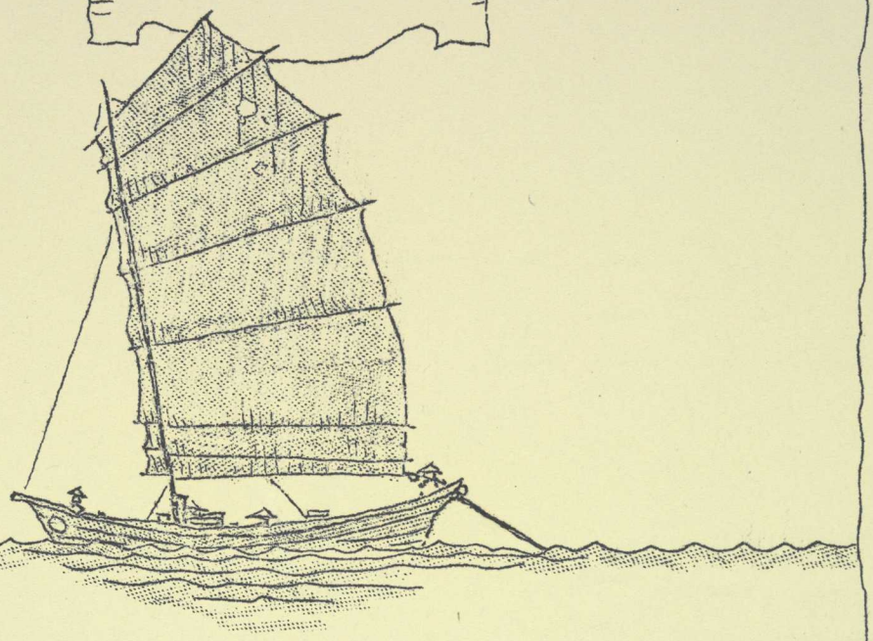
Real Batik (called *battek* in Java) is cotton cloth bearing patterns of native design applied by a stencil process. Here is a brief explanation: To that part of the cloth desired to remain free of dye, a hot, brown wax like *gum arabic* is applied through a "fountain pen" type of tapering funnel. Thick or thin lines or dots can be made with this instrument. The cloth is then dipped or brushed with dye – the wax removed later by steaming. Protecting layer of wax must be applied for each dyeing, of which there may be over a dozen ... a slow process.

Java's merchants, to meet the increasing demand, sell cleverly counterfeited "batik" printed in Japan and Germany.

The *Kam Kapala*

A square handkerchief tied around men's heads like a turban..

JUNK!



Today - the third of February in 1927 - when the *Empress of Scotland* was leaving Singapore, many of us saw, for the first time, a *Junk*...

Later - along the coast of China, we shall see several different types of junks - those strange-looking ships with ribbed sails - high sterns and eyes painted on their bows...

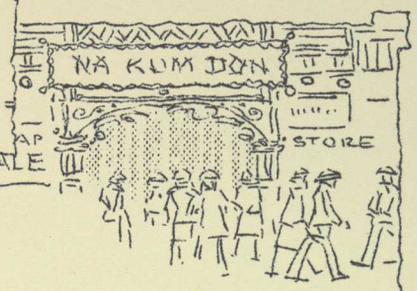
Chinese explain "if he no have got eye - no can see - no can walkee?"... superstition....

Some of our own sailors, not so long ago, would refuse to sail on a ship that did not have a figure-head..

Canadian Pacific
ROUND THE WORLD CRUISE

SINGAPORE RACIAL TYPES

Willing to work



Chinese are the most numerous - almost 80% of the population.....
Many Chinese are millionaires - owning rubber plantations, tin mines and shops.

Malays and *Javanese* are next in point of numbers...
Tropical races - better fitted than the Chinese for standing the heat - but they are not inclined to work hard - they follow *light* occupations, such as driving, clerical employment and domestic service.....

There are three dominant types of *Hindus* seen in Singapore...

The *Bengali*, like the *Sikh*, makes a good policeman.

The *Tamil* is the black, thin, skeleton-like creature engaged mostly in repairing roads.

The *Chetty*, whom you probably noticed walking through the streets bareheaded and barefooted.. He is the hated money lender.

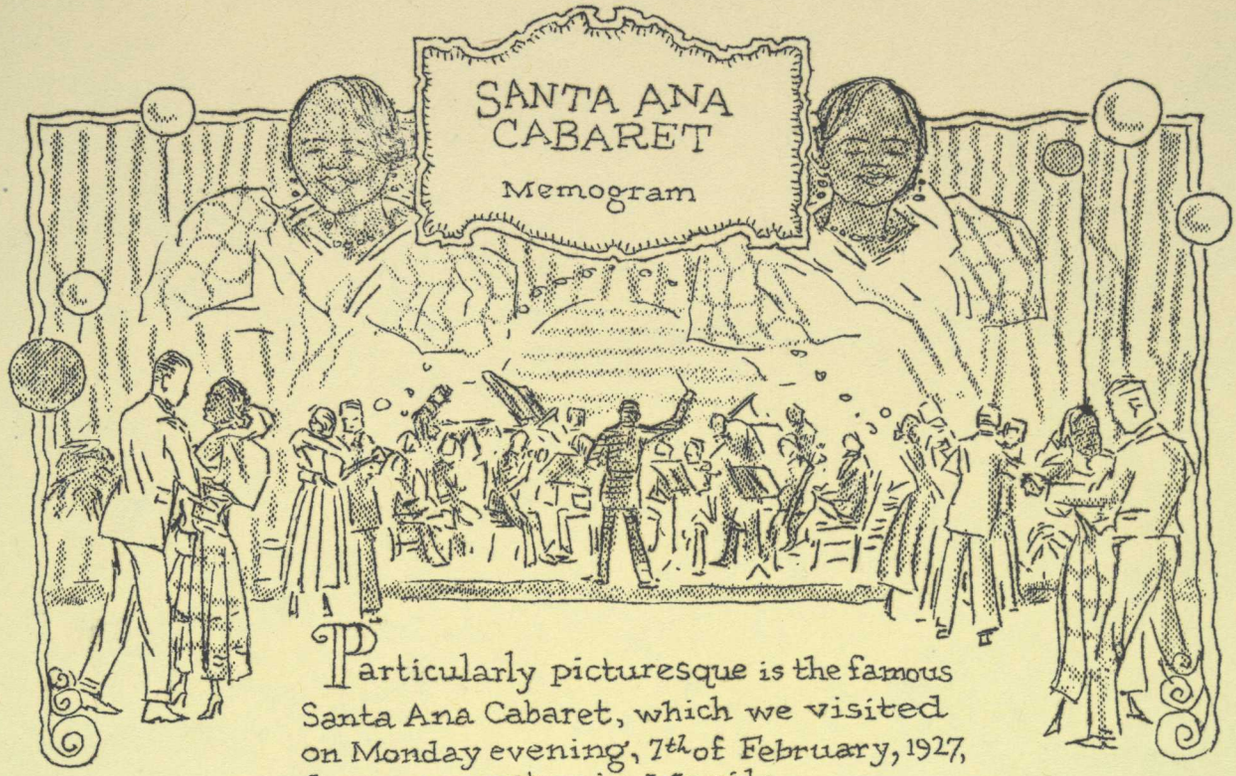
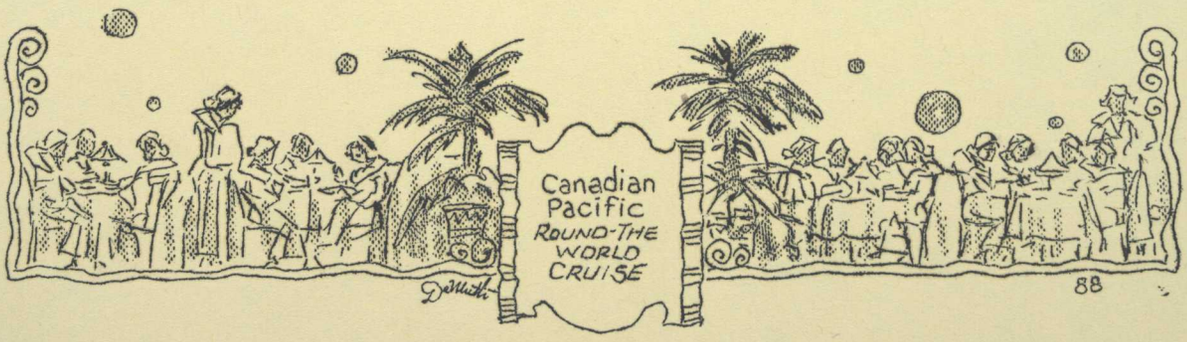
WELCOME
BON VOYAGE
In
"The Pearl of the Orient"
Our visit at Interesting Manila was one continuous round of pleasure from the time the Empress of Scotland arrived at the new and marvelous Pier 7, on the morning of Monday, 7th of February, 1927.
The shore excursions in Manila, to Fort William McKinley, Bilibid, Santa Ana and Montalbon Gorge gave us pleasant impressions of the Philippines. We are sorry that our stay was not longer.
Departing from Manila, yesterday afternoon (8th of February), we are due to arrive at Hongkong tomorrow..
Canadian Pacific
ROUND THE WORLD CRUISE



Particularly picturesque is the famous Santa Ana Cabaret, which we visited on Monday evening, 7th of February, 1927, during our stay in Manila...

Santa Ana is said to be the largest cabaret in the world - - it has been developed by John Canson from a modest nipa-roofed dancing pavilion into the show-place of the Orient. Here we saw the charming *bailarinas*, Filipinas who are professional dancing partners, dressed in beautiful native costumes... Their graceful dancing is delightful.



HONGKONG

Memogram

The *Empress of Scotland* came here on Thursday morning, the 10th of February in 1927...

Have we been happy? YES! On numerous excursions by motor car - around the Island - to the Peak - through New Territory..

Not forgetting the Hongkong Hotel and the Repulse Bay Hotel - where that splendid dance party was given for us, Thursday evening..

Rickshas - sedan chairs - and *just a little bit of* - SHOPPING..

We sail tomorrow evening, Sunday, the 13th of February.

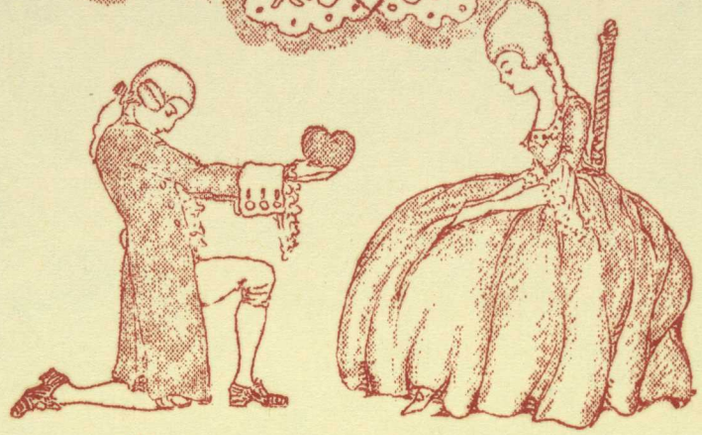
ROUND THE WORLD CRUISE

St. Valentine's Day

1927



Through smoke of Mt. Vesuvius
And Egypt's desert sands,
O'er bounding waves of distant seas
And many foreign lands,
From west of stern Gibraltar
Far east of Palestine,
I've searched half round the world
for *you*
To be my Valentine...

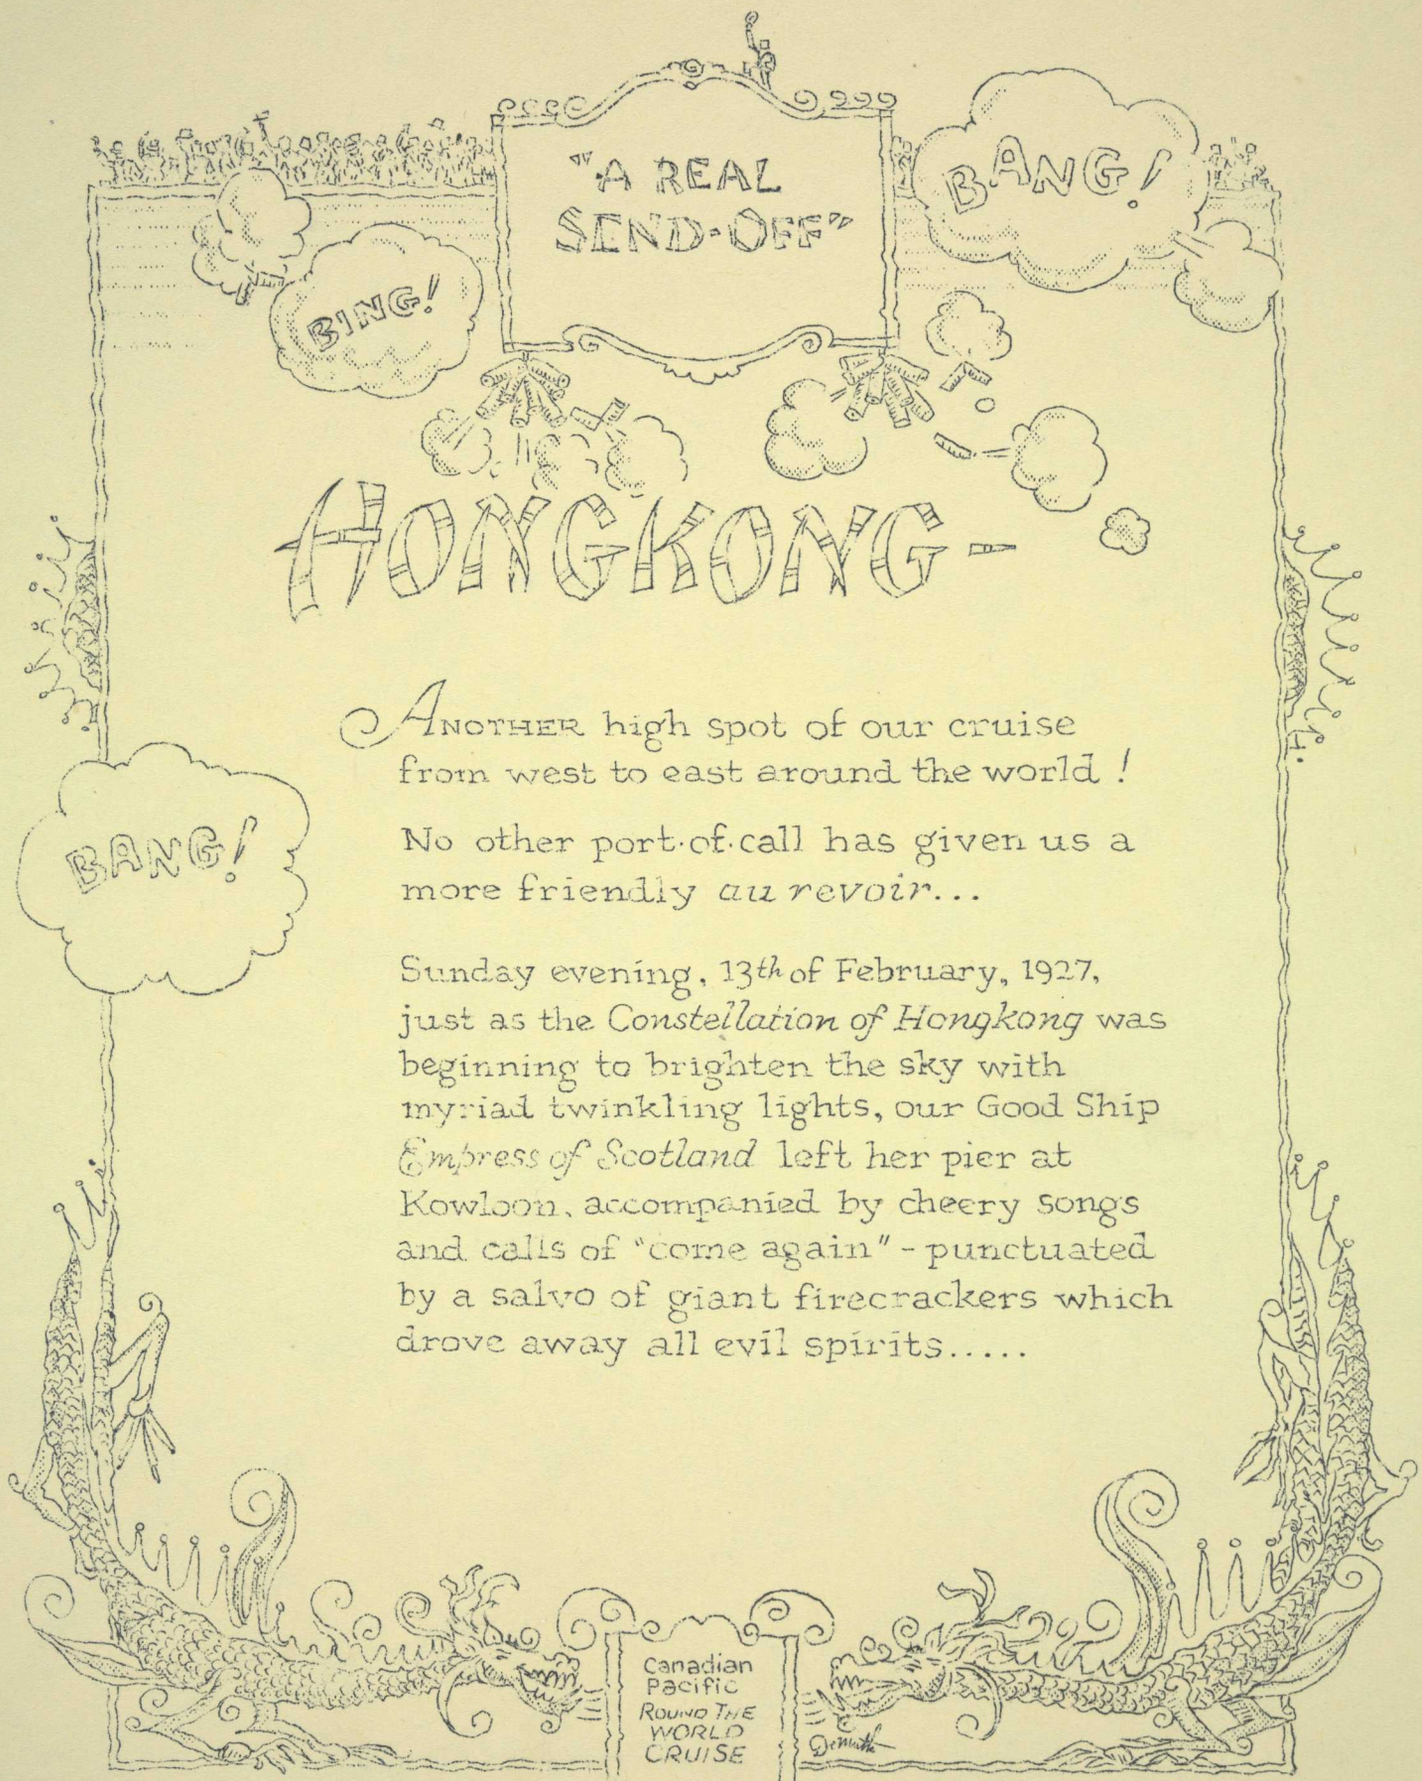
Now come and dance
All merry folk
The party has begun
With strains of stately melody
To honor Washington...



HONGKONG -

ANOTHER high spot of our cruise from west to east around the world!

No other port-of-call has given us a more friendly *au revoir*...

Sunday evening, 13th of February, 1927, just as the *Constellation of Hongkong* was beginning to brighten the sky with myriad twinkling lights, our Good Ship *Empress of Scotland* left her pier at Kowloon, accompanied by cheery songs and calls of "come again" - punctuated by a salvo of giant firecrackers which drove away all evil spirits.....

Something to Remember!

20th of February, 1927 - at Chinwangtao, we left the *Empress of Scotland* to board our special train, the finest in all China... We sped 252 miles.....
Ours the largest group other than an invading army ever to enter China's greatest walled city.
Ours a fortunate and happy party... *fortunate* because we were almost alone in making this city of wonders during these turbulent days *and happy* because we could not be otherwise than happy in the bracing air and the bright sunshine of Peking...
Then off for Japan on the 25th of February.

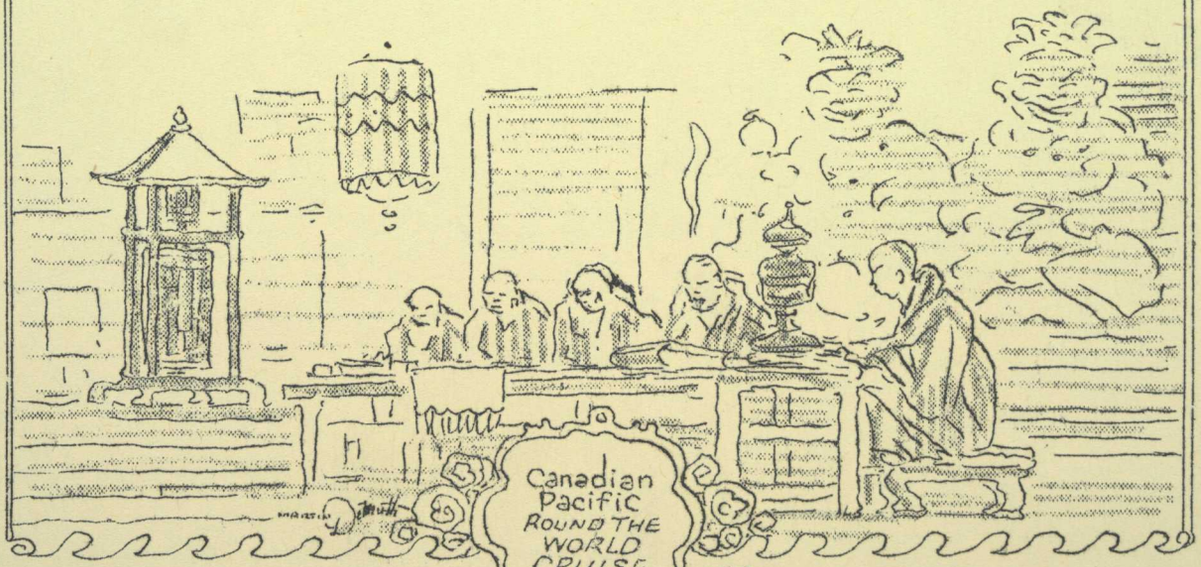
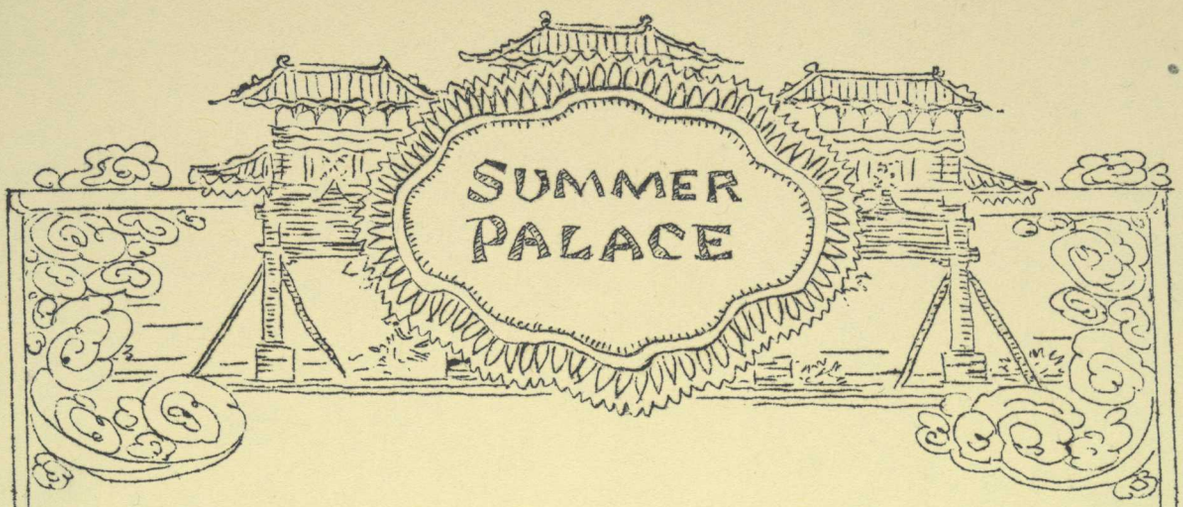
LAMA TEMPLE

In Peking, we visited the *Lamasery of Eternal Peace*, official residence of the *Living Buddha*... There we saw a reproduction of Tibetan and Mongolian monastic life.. An outstanding object of interest was the giant Buddha, 60 feet high, said to have been carved from a single tree trunk.. We saw the prayer wheels, believed to say 1000 prayers at each turning... And we heard the priests chant in their abnormally deep, bass tones: "OM - MANI - PADMI - OM - - "
Great is the Flower of the Lotus...



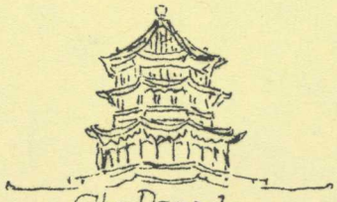
While in Peking, we visited the most holy spot of Old China, *Tien-tan*, and saw where, not so long ago, the Chinese Emperor, *Son of Heaven*, came to worship, taking on his own shoulders the sins of his people.....

We stood on the Altar of Heaven, the centre of which is believed to be the very centre of all the Universe.

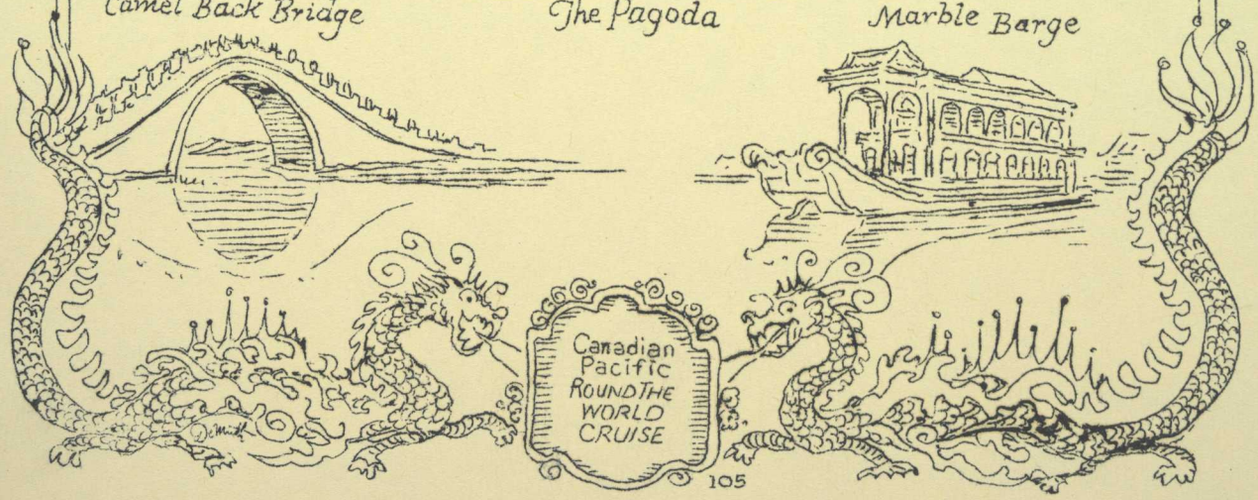


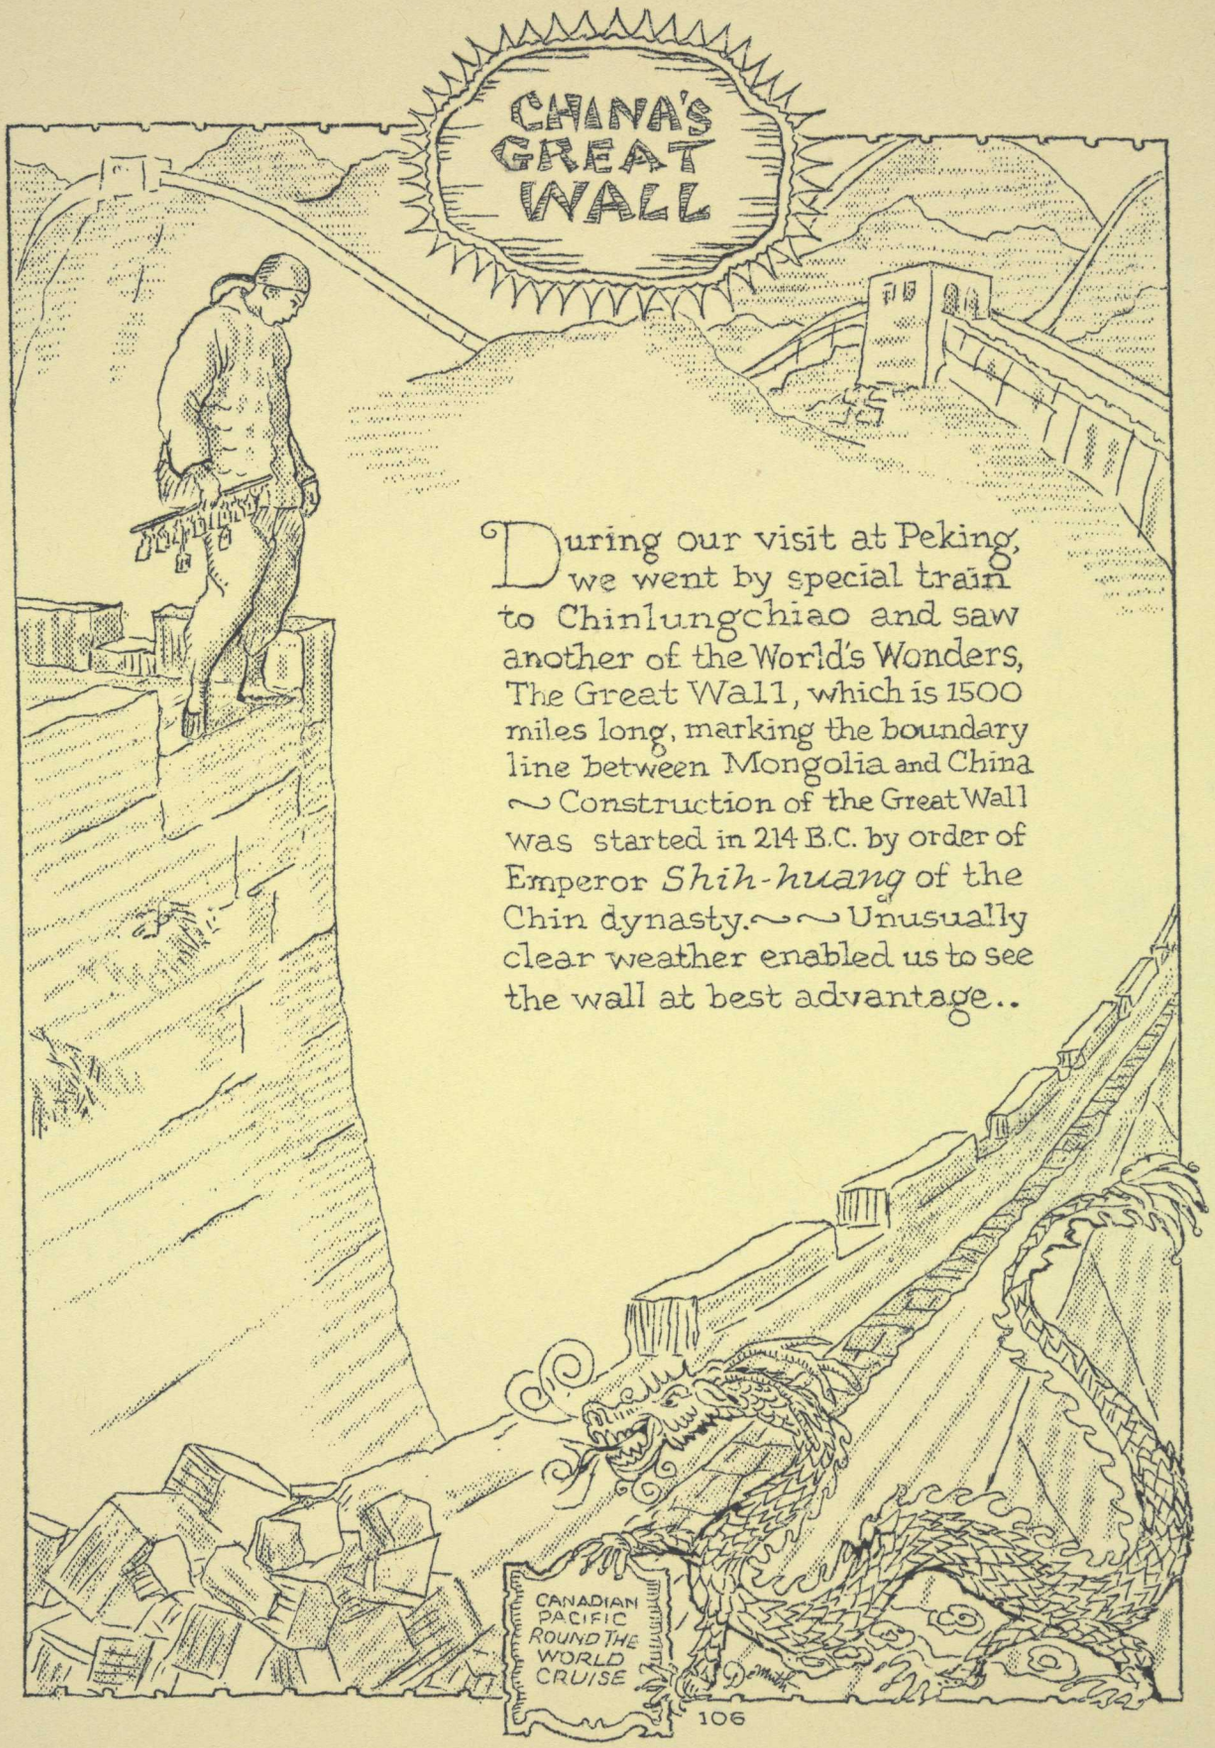
Our Peking visit included a motor trip to the *Garden of Peaceful Enjoyment*, where is situated the Summer Palace of the late Empress Dowager of China...

Bordering a lotus-grown lake are many beautiful buildings formerly used for the Imperial residence during the hot summer months. The powerful personality of the Empress Dowager is evidenced in the large array of structures designed for her own enjoyment; the most conspicuous among these is the Marble Barge.



The Pagoda





CHINA'S GREAT WALL
During our visit at Peking, we went by special train to Chinlungchiao and saw another of the World's Wonders, The Great Wall, which is 1500 miles long, marking the boundary line between Mongolia and China ~ Construction of the Great Wall was started in 214 B.C. by order of Emperor *Shih-huang* of the Chin dynasty. ~ ~ Unusually clear weather enabled us to see the wall at best advantage..

A Master Artisan at Work

Boarding our special train on the pier alongside the *Empress of Scotland* at Kobe, we glided through 26 miles of scenery to Kyoto, former capital of Old Nippon.. By motor car, we visited Buddhist Temples and Shinto Shrines - the Imperial Palace Grounds and Coronation Buildings. We also drove to Arashiyama, the famous scenic resort.

We remained overnight in Japanese Hotels - the Myako and the Kyoto. By ricksha, we visited numerous shops and witnessed actual production of masterpieces in cloisonné, lacquer, damascene and Satsuma work. Then by special train to Nara...

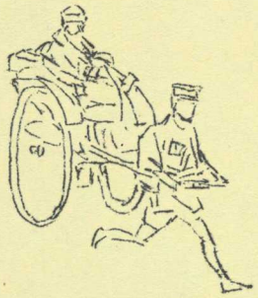
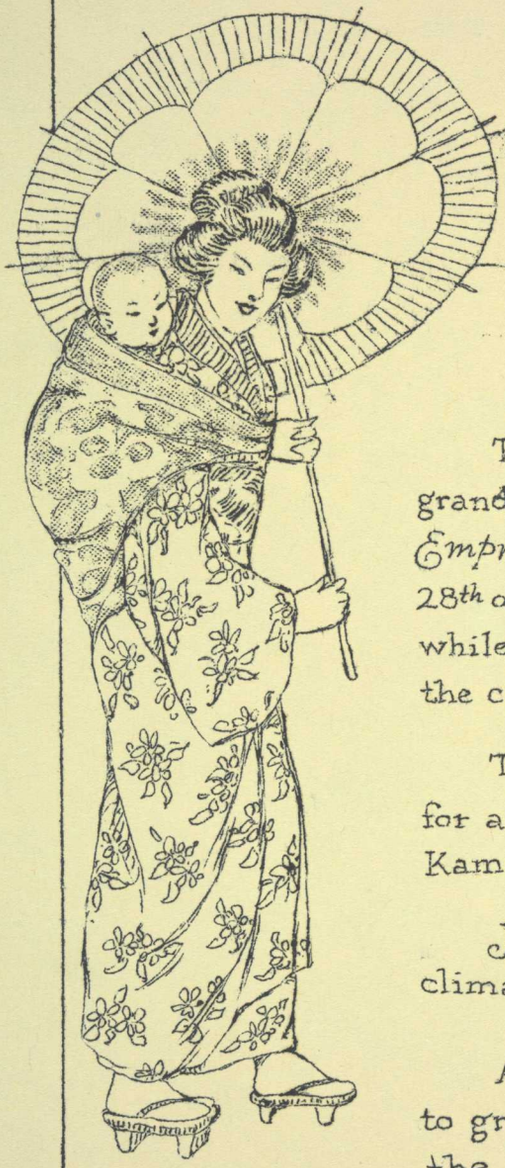
"Like Fairyland"

NARA
JAPAN



Arriving by special train from Kyoto, we were greeted with rickshas which conveyed us to the Nara Hotel for luncheon ~ entertainment ~ and then through the Park ~ huge Cryptomeria trees too beautiful *almost* to be true ~ we fed the sacred deer ~ about 700 of them ~ ~ and along the way ~ lanterns, toriis, shrines, the Bell, the Big Buddha, the five-story Pagoda ~ ~ ~ or were we only dreaming?

JAPAN



Through the Inland Sea, resplendent in grandeur, to Kobe, where our Good Ship *Empress of Scotland* remained from the 28th of February to the 4th of March, 1927, while we went on shore excursions to the cities of Kyoto and Nara.....

Then away we sailed to Yokohama for a visit of four days, 5th to 8th of March.. Kamakura - Tokyo - Nikko !

Japan has truly been the magnificent climax of our Wonder Cruise...

And *now* to the Hawaiian Islands to greet the sunshine of spring in the land of *Aloha*.

Canadian Pacific

NOW - WE MAY SAY "KEKKO"!

By special train from Yokohama to Imaichi ~ then by motor car five miles along the stately avenue of Cryptomeria trees to Nikko ..... *Magnificent* Nikko with its *Ieyasu Shrine*, *Iemitsu Mausoleum*, *Futarasan Shrine*, the red lacquered *Sacred Bridge* supremely beautiful in their white mantles of snow...

Geishas dancing in the evening... We spent the night at the Kanaya Hotel.

Yes, we may say "Kekko" (magnificent) for we have seen Nikko.

"Twinday"

The Good Ship *Empress of Scotland*, while steaming from Yokohama to Honolulu, crossed the *International Date Line* at North Latitude 30°, 20′, on Monday, 14th of March, 1927. As we had been advancing our clocks while moving eastward "against the sun", it was necessary, upon crossing the 180th Meridian (where *days begin*), to add one extra day, *Meridian Day*, to our calendar; otherwise we would be one day in advance of the Western Hemisphere.

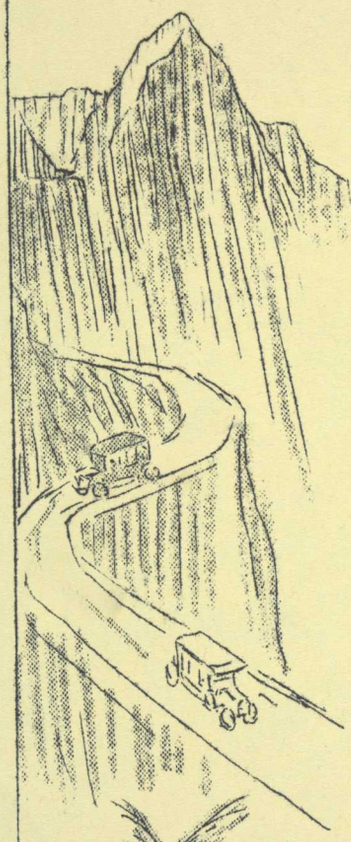
In the "Paradise of the Pacific"



The *Empress of Scotland* arrived here on Wednesday afternoon, 16th of March, 1927, one day earlier than scheduled, thereby giving us additional time in the *Land of Aloha*...

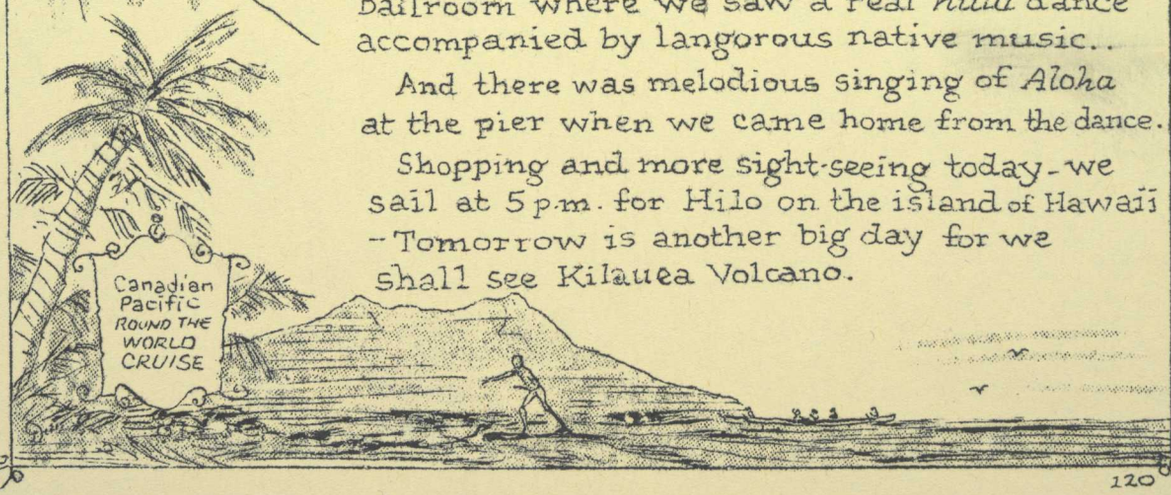
Yesterday morning, Thursday, we made the 86 mile motor trip around the Island (Oahu), our party being specially permitted to pass over a section of highway, which, during the present repair work, is closed to traffic. We stopped at Nuuanu Pali for the splendid view of the country below - We visited the Mormon Temple - the Haleiwa Hotel - and stopped at a plantation.....

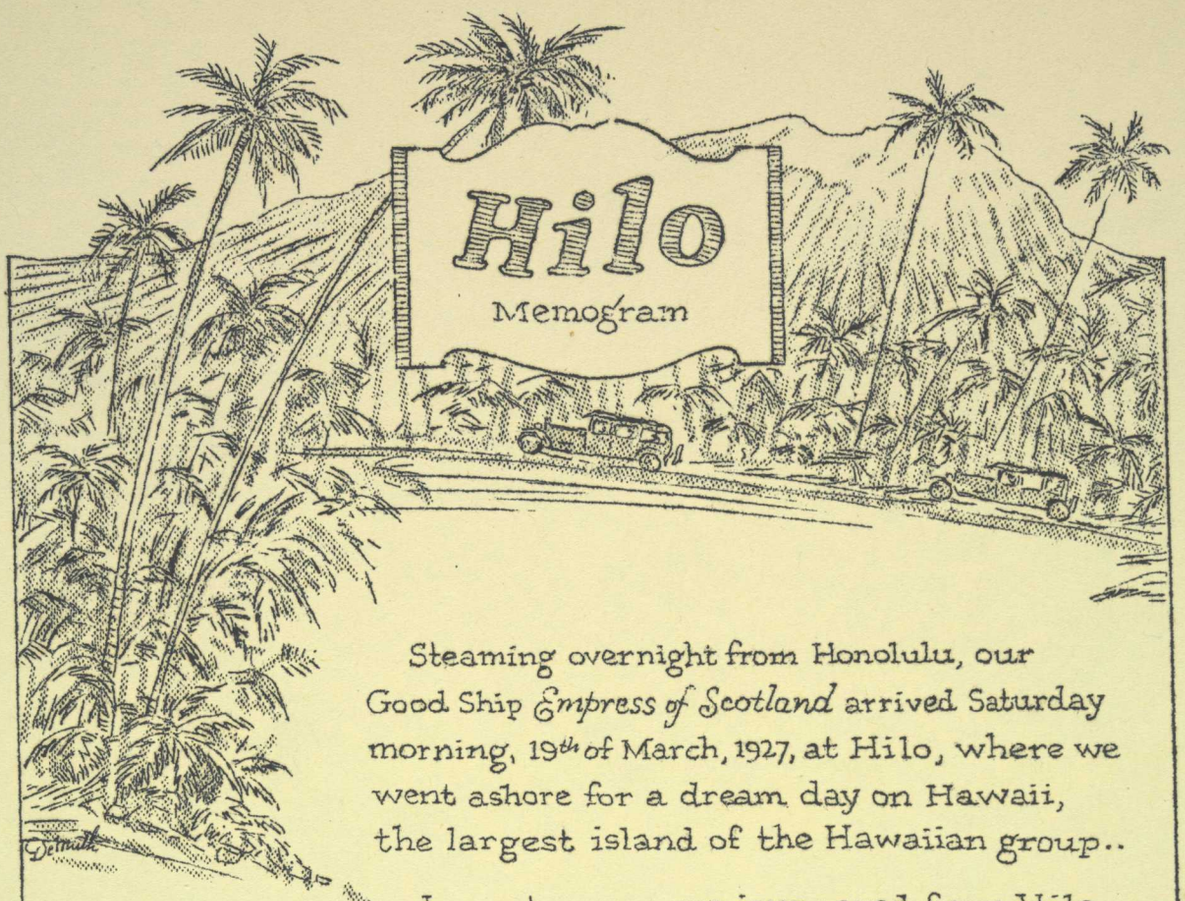
Luncheon at the recently constructed Royal Hawaiian Hotel - *the last word in hotels* - on Waikiki Beach - a delightful afternoon - bathing - surf riding...

Then dinner at the Royal Hawaiian again - followed by a dance in the sumptuous ballroom where we saw a real *hula* dance accompanied by langorous native music..

And there was melodious singing of *Aloha* at the pier when we came home from the dance.

Shopping and more sight-seeing today - we sail at 5 p.m. for Hilo on the island of Hawaii - Tomorrow is another big day for we shall see Kilauea Volcano.



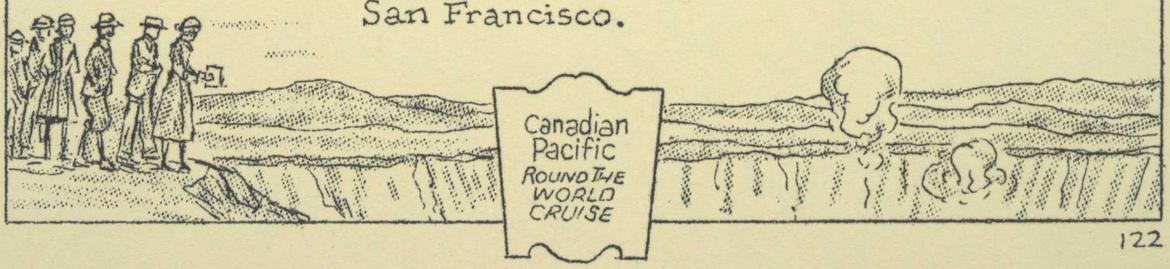


Steaming overnight from Honolulu, our Good Ship *Empress of Scotland* arrived Saturday morning, 19th of March, 1927, at Hilo, where we went ashore for a dream day on Hawaii, the largest island of the Hawaiian group..

In motor cars, we journeyed from Hilo to Onomea Arch, Rainbow Falls, - then 31 miles (climbing 4,000 feet) to Hawaii National Park for a view of the volcanic wonders.. We saw the tree molds, Uwekahuna Bluff, the sulphur bank, Kilauea Iki, the lava tube and Kilauea Crater.....

At the Volcano House where we stopped for luncheon was one of the most pleasing entertainers encountered during our cruise - a little child, dancing on the lanai, gave us her charmingly graceful interpretation of the Hawaiian *Hula*...

The Hawaii County Band rendered *Aloha* as we were leaving the pier to sail toward San Francisco.



MONKEY PHILOSOPHY

"See no evil...

"Hear no evil...

"And never admit
you are seasick."
