WASHINGTON: President Hoover will be reelected next Tuesday if the drift to him gains sufficient momentum. This is the opinion today of Secretary of Treasury Ogden L. Mills, who next to the President himself, is regarded as the G.O.P'S most effective campaigner. It is the first time that Mills has cast any doubt on the outcome.

LOS ANGELES: Senator Hiram W. Johnson, who bolted the Republican Party to support Gov. Roosevelt, will carry his campaign in behalf of the Democratic nominee into Southern California tonight with a speech in the Philharmonic Auditorium.

AUCKLAND N.Z: The four American tennis stars touring the orient are here, arriving Monday from Hawaii. The party includs Elsworth Vines, national champion, Wilmer Allison, Johnny Van Ryn and Keith Gledhimm. Allison and Van Ryn defeated their fellow travellers in a practice match 7,5, 6.2.

PORT AUX BARQUES MICH: The United States is singularly fortunate in having many distinguished women novelists, Prof. William Lyon Phelps of Yale University said in his annual lecture here for the benicfit of the Hubbard Memorial Hospital. He named Edna Ferber, Dorothy Canfield, Zona Gale, Edith Wharton, Willa Cather and Ellen Sedgwick, as the six best women novelists of the United States.

WASHINGTON: Both major political parties are finding the going lean during the 1932 campaign as compared with the more prosperous times of 1928, according to records just filed by the House of Representatives. They show the Republican Party is trying to wrest victory at the polls on receipts to date of $1,478,691. In 1928 it had $4,911,744 to do the work. An even greater falling off is being experienced by the Democratic Party which has received but $1,065,654. In 1928 it had a bankroll of $4,088,623.

WASHINGTON: Both political parties have turned their attention to wooing the women voter, believing that if the election proves close, she may de the decisive factor. The number of women voting regularly in the past has been far below the number of men. Voting women should go to the poles November 8th. They might easily dethrone the result in doubtful states.

VERA CRUZ MEXICO: Birth control became legally obligatory in the state of Vera Cruz today when the new civil code went into effect.

HAVANA CUBA: President Gerardo Machado had under consideration today the recommendation of the sugar Institude that Cubas 1933 crop be limited to 2,000,000 tons. The institude suggests that 1,115,000 tons be marketed in the United States, 735,00 tons in other countries and the balance consumed locally.

DES MOINES: The Chamber of Commerce here cites the fact that the first 10 months of 1932, wornout horses to the extent of 17,440 were purchased for shipment to Rockford Illinois, where the meat is packed for consumption by Europeans. Inedible portions are made into dog cat and Fox Food.

BUNNOS AIRES: A determination by Argentina to offset the effects of the Imperial Conference at Ottawa was seen here today with the announcement that Vice President Julio Roca would depart for London soon to return the visit made here some time ago by the Prince of Wales.

SANTIAGO CHILE: The government today authorized the importation of 15,000 tons of sugar from Peru and Cuba between December 1, 1932 and February 28, 1933. The Agricultural Society also recomended that the government purchase the entire 1933 wheat crop, stimulate planting of corn and prohibit exportation of oats and rye.

ENGLLEWOOD N. Y: Elizabeth Reeve Morrow, older sister of Ann Morrow Lindbergh, will marry Aubrey Niel Morgan, Welsh business man, whom she met during the London Naval Conference in 1930.
