Yale Bye Election

I take this opportunity of thanking the Electors of Yale for the honour they have done me in electing me as their representative in the House of Commons.

Especially do I want to convey my thanks to all those who worked for me, hoping that later on I shall be able to meet them again personally.

GROTE STIRLING.

AROUND HOME

Service in St. Jude's Church on Sunday, Nov. 16th at 7 30 p. m.

Mrs. Herbert Snell, of Brookmere, is visiting friends in town.

BORN—To Mr. and Mrs. A. Lucente, a daughter, on Nov. 1st.

John Wyder returned to town on Monday afternoon from Hedley.

Miss Nellie Hamarstadt, of Penticton, is the guest of Mrs. A. J. Morrison.

Miss Barbara Jackson of Trail, spent Thanksgiving at her home near Midway.

R. J. Muir, of Penticton, salesman for the Fuller Brush Co., is spending a few days in town.

Roy Spencer was renewing acquaintances in town on Sunday on his way to Kimberley.

Miss Helen Crause, of Kerr Creek, has taken a position in the Greenwood and District Hospital.

Scouts and Cubs meet in the Fire Hall every Friday night at 7.30 o'clock.

G. A. Rendell motored in from Salmon Arm on Thursday and left for Trail on Saturday morning.

Mrs. G. J. Wright, of Nelson, spent a few days in town this week the guest of Mrs. Lester McKenzie.

Mrs. G. C. Killam returned to here home in Seattle on Saturday after a few days visit with Mr. and Mrs. James Muir.

The Laffalot Girls Club Concert and Dance on Friday, Nov. 21st, will be held in aid of the Greenwood and District Hospital.

Miss Lillian E. Bawtinheimer, of Quesnel, has arrived in town to take over the duties as matron of the Greenwood and District Hospital.

Geo. H Gray, manager of the Greenwood Theatre, has announced that he will give a special show in aid of the Greenwood District Hospital. Date of show to be announced later.

W. M. Skilling, of the B. C. Telephone Co., Nelson, was in town on Wednesday. Mr. Skilling was making a farewell call at the local telephone office previous to his departure for the coast.

Shoes for the whole family at Reduced prices. 10% off on any pair of shoes in the house. See our Great West Saddlery Company Cruiser. Good value at $9.00 on sale at $6.50. Brown's, Midway, B.C.

The five months old baby of Mr. and Mrs. Wm. Johns, of Riverside, died on Sunday night after a two weeks illness. Burial took place in the Greenwood cemetery on Tuesday, Rev. W. R. Walkinshaw officiating.

It is hoped that all the Ladies of Greenwood and District will attend the Meeting to be held at the Hospital (today) Thursday at 3 p.m. to form a Womens Hospital Guild, to take charge of all matters pertaining to the Hospital that usually falls to their lot.

The B. C. Telephone Company has combined the commerical, plant and traffic departments in Kootenay and Boundary and in future these department will be in charge of a district superintendent, H. S. Nicholson, of Victoria having been appointed to the position.

D. D. Munroe, of Vancouver, trustee for the city of Greenwood paid an official visit to the city offices during the week. Mr. Munroe went thoroughly into the city's finances and expressed himself as being well pleased with the way the Council is conducting the affairs of the city.

The home of Mr. and Mrs. J. M. Bella was the scene of a gay party last Friday when they entertained a number of young people in honor of Miss Mabel Axam who is home from Vernon on a holiday visit to her mother. The evening was very enjoyably spent in games and dancing and everybody reports Mr. and Mrs. Bella an ideal host and hostess.

Greenwood and District Hospital

A meeting of the Board of Directors of the Greenwood and District Hospital was held on Saturday, Nov. 8th at 3 p.m.

Dr. A. Francis was present and gave a report of the amount of work that had been accomplished. He stated that the Operating Room was finished and that most of the equipment had arrived. The bedrooms were partly furnished and the arrival of the blankets, and also sheets that are being hemmed by the ladies of the district, were expected at once. The stoves and kitchen furniture were in place, and on the arrival of the Matron, Miss Lillian E. Bawtinheimer, who was expected by the 12th, inst., would no doubt hasten the completion of the finishing touches.

There was considerable business transacted, the financial report was accepted. It was arranged that the secretary issue a circular letter to all the members of the Board, authorising them to collect subscriptions; and also to acknowledge all subscriptions to the Hospital in The Ledge, but not necessarily the amount that each person may subscribe. Gifts of supplies and all other articles are to be also acknowledged.

List of Hospital Subscribers

Lewis Clerf, Allen H. Fraser, A. N. Mowat, C. King, G. S. Walters, T. M. Gulley, Mark Christensen, Mrs. J. Hallstrom, J. A. Fraser. The above are monthly subscribers.

King Edward Lodge, No. 28, A. F. & A. M.	$100.00
Great War Veterans	128.55
A. Legault	10.00
Mrs. I. V. Shillcock	10.00
G. S. Walters (in addition to monthly subscription)	5.00

The Board wishes to acknowledge a generous gift of furniture and stoves from James Kerr valued at $150.00.

There are other substantial amounts to hand which will be acknowledged next week.

Masquerade Dance

Thanksgiving Day-Armistice Day was fitting celebrated in Greenwood with a Masquerade Dance at which their was a big crowd. Bush's four piece orchestra rendered the music in their usual acceptable manner and the ladies who provided the supper had everything well arranged. The boys, too, who waited on the tables are deserving praise. The judges were D. D. Munroe, of Vancouver, W. H. Dobson, of Calgary, and J. Skilton and they had a very difficult task. Mrs. T. W. Clarke, of Carmi, dressed as a Spanish lady was awarded the first prize. Mrs. G. S. Walters won the comic prize for ladies as Prof. de Nu Danse. This costume was original and caused the greatest attraction and laughter. R. Taylor as an Indian was the best dressed gent while K. M. Spence as John Barlycorn won the best gents comic.

PROCEEDS AND EXPENDITURE

Admission tickets	$151.00
Supper tickets	60.75
Received from Ladies Com.	2.80
Total received	214.55

The expenditures amounted to $86 leaving a balance for the Hospital of $128.55.

Norman McDonald, of Nelson, district plant chief of the B. C. Telephone Co., has been transferred to Vancouver.

The public is greatly interested in the concert and dance to be held in the Greenwood Theatre on Friday, Nov. 21st at 8 p.m. sharp. The Laffalot Girls Club will present a one act farce entitled "Old Maids Convention" also singing and dancing. The proceeds will go to the Hospital. Admission, adults 50cts; children 25cts; reserved seats 75cts. Dance and supper 25cts.

An interesting feature of the Thanksgiving Service in the Presbyterian Church last Sunday, was the formal presentation of the Deeds for the Manse. Mrs. Geo. Ingiis, in a neat and appropriate speech pointed out the value of the gift to us as a poople emphasizing the fact that the grant from Home Mission Funds would, in future be considerably reduced because of the thoughtful gift of Mr. and Mrs. D. McIntosh.

Westbridge News

Mr. and Mrs. McCutcheon have moved into their new home this week. "Long may their Lum Reek."

George S. Palmer, of the Soldiers' Pension Board, spent this week visiting many of the returned men in the Valley.

Charlie Noren was a visitor at the Hotel on Saturday. He was on his way to visit his family in Christian Valley.

John Rusk visited Westbridge for his winter's supplies. He brought the sad news of the death of his parrot 'Polly.'

The deer season has opened in earnest this week, the hunters along the Main River having secured at least fourteen good specimens.

Thursday's polling day kept the Hotel lively with its many visitors and reunions of old friends, but it lacked the zest and pep peculiar to a Provincial Election. In spite of the cold day the voters turned out well.

Midway News

The Ladies Aid will hold their Bazaar on Saturday next 15th inst commencing at 3 p.m. Afternoon tea will be served. Attractions for the children. Farm produce, Fancy Work, etc. Everything moderately priced.

A Whist Drive will be held on Friday 21st inst., in the Old School House. Cards till 10.30 followed by a Dance. Under the auspices of Ladies Aid.

Mining Notes

Hon. William Sloan, minister of mines and provincial secretary, gives out the information that British Columbia leads the world in zinc production. The output has jumped twenty per cent. in two years. The production of lead has doubled in three years, while all branches of the mining industry are in a healthy condition.

Mr. Kalbfleisch, of Spokane, vice-president of the Eholt Mining Co., accompanied by C. R. Garris, superintendent, were in town the first of the week and inspected the Combination mine, the company's property, with a view to resuming operations at an early date.

Road to be Kept Open

Don't put your cars away as arrangements have been made to keep the road between Rock Creek and Greenwood open for traffic this winter. This will be a great convenience to the residents of this section.

Public Meeting

A meeting of all interested in the skating rink will be held in the Court House on Monday next at 8 p.m. to discuss the advisability of again running the rink this winter. The rink committee will give last year's financial report. This meeting is for adults only.

"As your daughter has just promised to marry me, I'd like to know if there is any insanity in the family."

"I'll say there is!"—N.Y.C.L. Magazine.

Our Natural Resources And The Cost Of Production

In the course of one of the series of addresses made by him during his tour of Western Canada, Premier Mackenzie King said: "The only way to solve problems is to reduce, if possible, the cost of production—the cost of living."

No one is likely to take exception to this statement except that many people will say that the qualifying words, "if possible," should be eliminated. Few things are impossible of achievement if men are determined in their efforts to reach any desired end. So far as bringing about a reduction in the costs of production in Canada, and therefore in the cost of living, there can be no question but that it is possible. As Rotarians say, it can be done.

But it is not going to be done if such a large percentage of Canadian manufacturers continue to pursue their present policy of importing enormous quantities of raw materials, or semi-manufactured articles, for use in their finished products, and which could be obtained from Canada's own great wealth of natural resources and the whole process of manufacture carried out in Canada instead of only a part of it.

Canada's adverse balance of trade with the United States is largely made up of importations by Canadian manufacturers of materials and supplies which could be obtained and produced within Canada. Too many Canadian manufacturers prefer to follow the "easy way" of importation instead of utilizing a portion of their own capital in the development for use of the natural resources of this Dominion. As a result both the cost of production and of living is too high.

And then these finished products of Canadian factories, containing a large percentage in many instances of United States materials, are protected by heavy Customs duties against competition by similar articles made wholly in the United States. At the same time hundreds of these factories, Canadian so-called, because they are located on Canadian soil, are nothing but branch factories of United States concerns erected on this side of the line in order to escape payment of Customs duties and to secure the benefits of the Canadian Preferential Tariff in Empire markets. In other words, in the case of hundreds of factories Canadian citizens are paying abnormally high prices because of a Customs tariff maintained to protect these United States offshoots from their parent concerns across the line.

Costs of production and of living in Canada will begin to tumble when Canada begins to make full use of its own natural resources, but not until then. Canadians cannot expect lower costs so long as their own manufacturers go on importing raw materials and semi-manufactured articles—upon which, of course, profits are first levied, as well as transportation and tariff charges—instead of developing and making use of our own natural resources. Even in the case of many of our natural products now being developed, they are shipped in a raw state to the United States and brought back in a semi-manufactured or completed state, instead of Canada's own capitalists and industrial leaders providing for their complete manufacture in this country.

United States owners of branch factories in Canada are naturally quite content to bring in raw or semi-manufactured materials from the United States, and get the bulk of the duty rebated to them when such materials are used in producing a finished article in this country. But Canadian manufacturers should not be content, although most of them appear to be.

Inasmuch as the development and production for use of our own natural resources offers the only sure method of reducing production and living costs, and also presents the only means through which necessary wealth is to be produced to ultimately pay off Canada's great war debt and thus reduce the heavy taxation burden, which, by the way, is also a big factor in keeping up production and living costs, it would appear to be the duty of the Canadian Government and Parliament to immediately tackle the problem of effecting a rapid development of these Canadian resources.

Instead of allowing heavy rebates on United States and other foreign materials when used in manufactures in Canada, why not try the plan of largely reducing the Customs protection afforded all manufacturers where the article manufactured is not made wholly out of Canadian materials. This would have the effect of providing real protection for bona fide Canadian goods, prove a stimulus to employment, and compel United States branch factories in this country to use Canadian raw materials.

Most important of all it would assist to bring about the development of our own natural resources, which development, let it be emphasized, is essential to the economic independence and national progress and prosperity of this Dominion.

Prospective Land Buyers

Americans Purchasing Lands In Northern Agricultural Districts

Accompanied by agents of the colonization department of the Canadian National Railways from St. Paul, two parties of American land buyers comprising twelve persons, left Winnipeg recently to visit the Humboldt and Tisdale districts, where they will inspect Canadian National lands with an idea of settling. This is only one of several parties brought in this year by the colonization department, all of whom bought lands, either from the railway or private owners. These people came from Iowa, Illinois and Minnesota.

The Skyscraper Hospital

Patients On Upper Floors Will Get Country Air

Healing the sick in St. Luke's Hospital, Chicago, will go under conditions equalled only in the country or in the mountains, although the hospital is located in one of the most congested business districts of the city and on the busiest boulevard.

Because it is a skyscraper hospital towering 19 stories, the tallest in the world, patients treated in rooms above the tenth floor will escape the odors, noise and flies which inhabit the lower stratum of air. Thus the convalescent will find himself in an atmosphere as favorable as the resort retreat.

CHILDREN CRY FOR

Fletcher's CASTORIA

MOTHER:— Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of Chas. H. Fletcher.
Proven directions on each package. Physicians everywhere recommend it.

New British Plane Best Ever Built

Two Years Ahead of Other Nations Says Expert

"I have been astounded at the result of the two-seater light aeroplane competition," said a member of the air council and one of the greatest aviation experts in England. "In this branch of aviation we are two years ahead of any other nation."

"No more efficient aeroplane than the Beardmore aeroplane (which won the chief prize) has ever left the earth," stated Lt.-Col. W. A. Bristow, the aeronautical consulting engineer, who kept the records of the competitions.

"Margin of speed is a very good standard of efficiency in an aeroplane, and this machine has a very wide margin. It can fly at about 90 miles an hour. It can rise from the ground quickly and pull up slowly.

"With a two-gallon tin of petrol a light aeroplane will take two people from London to Eastbourne in an hour."

"DIAMOND DYE" IT A BEAUTIFUL COLOR

Perfect home dyeing and tinting guaranteed with Diamond Dyes. Just dip in cold water to tint soft, delicate shades, or boil to dye rich, permanent colors. Each 15-cent package contains directions so simple any woman can dye or tint lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings, everything new.

Buy "Diamond Dyes"—no other kind—and tell your druggist whether the material you wisl to color is wool or silk, or whether it is linen, cotton, or mixed goods.

Canadian History In France

Formation of Historical Society at Versailles Marked By Interesting Event

Descendants of the great Frenchmen who made early Canadian history were the guests of Sir Campbell Stuart, managing director of the Times Publishing Company, at a luncheon given in the Hall of Battles of the Versailles Palace to celebrate the formation of the "Canadian History Society in France."

The society was formed in order to further the collection from French families of documets bearing on Canadian history.

The guests included Senator Raoul Dandurand, representing the Government of Quebec; Duc de Levis-Mirepoix, president of the new society and a descendant of Chevalier De Levis, who succeeded Montcalm in command of the French forces; Marquis de Montcalm, a descendant of General Montcalm; the Duke of Connaught; a delegation of persons prominent socially in Great Britain; and many French Governmental officials and literary persons.

Hon. H. S. Ileland, representing the Canadian Government, toasted France. Premier Herriot responded on behalf of France, and the Duke of Connaught delivered a mesasge from King George.

Clark's Beans with Pork

are ready to serve, are deliciously flavoured, perfectly cooked and "Canada Approved" and because they save trouble, fuel and time, and cost but little, you should frequently serve Clark's Beans with Pork.

"Let the Clark Kitchens help you."

Fish For Saskatchewan Lakes

Fifty-four Lakes In Province Are Stocked With Fish This Season

Parent fish and fry were distributed among 54 lakes in the province of Saskatchewan during the present summer from provincial hatcheries, and reports now being received indicate that the distribution was successfully accomplished and the fish are thriving. Fish have never before been so widely distributed in the province. Among the fish distributed were over 20,000,000 whitefish; 17,000,000 perch; over 7,000,000 Thurlow Cisco; and over 3,000,000 pickerel.

To insure school children protection from motor cars Los Angeles is building a series of tunnels under streets by means of which children can cross boulevards in safety.

The central hall of London's Law Courts recently was cleaned and redecorated for the first time in 45 years.

Seed Grain Survey

Reports To Be Made Regarding Shortages In Seed Grain

Announcement has been made by the Winnipeg representative of the Dominion seed branch to the effect that a survey is being commenced to find out where the shortages are in oats and barley for seed and where there are surpluses. Reports will be made regarding seed wheat at the same time, but wholesale shortages are not expected in this grain as with the coarser cereals. W. F. Blakeman, who makes the announcement, has just returned from a conference of the branch officials in Ottawa, and he states that arrangements are going forward with all speed, in view of the situation arising out of early frosts and bad weather.

World Still Produces Heroes

Forty-eight Medals Awarded By the Carnegie Hero Fund

Three silver medals and 45 bronze medals were awarded by the Carnegie Hero Fund memorial at its fall meeting at Pittsburg, in recognizing acts of heroism.

Thirteen of the heroes lost their lives, and to the dependents of eight of these, pensions aggregating $7,140 a year were granted. In addition, in 32 other cases, awards totalling $30,000 were granted for educational and other purposes.

HIS HEART WEAK HIS NERVES BAD

Mr. Elwin Connell, Porterville, Ont., writes:—"My nerves were in a very bad condition and the least little thing would irritate me very much.

My heart was weak, and after the slightest exertion it would start to flutter

A Friend Advised Me To Take Milburn's Heart and Nerve Pills

so I got six boxes and took them regularly, and since then I have not had the slightest sign of any trouble with either my heart or nerves, and I will always recommend H. & N. Pills to all those who are suffering from any form of heart or nerve trouble."

You can procure Milburn's Heart and Nerve Pills from any druggist or dealer.

They are put up only by The T. Milburn Co., Limited, Toronto, Ont.

Record In Construction

What is said to be a world's record in grain elevator construction is the claim for the Spillers big 20,000,000-bushel capacity structure at Vancouver. In 45½ days the work-house and bins were completed.

An Oil that is Famous.—Though Canada was not the birthplace of Dr. Thomas' Eclectric Oil, it is the home of that famous compound. From here its good name was spread to Central and South America, the West Indies, Australia and New Zealand. That is far afield enough to attest its excellence, for in all these countries it is on sale and in demand.

He Knew Well Enough

Teacher.—"Now, children, what is 'above par?'" Johnny.—"Please, sir, ma!"

Good roads in the United States now cover half a million miles.

GIN PILLS FOR THE KIDNEYS

Proper functioning of the kidneys is essential to good health. Gin Pills correct all Kidney troubles. Get a box to-day, and be well.

Sees England's Sun Setting

Plea For England and United States To Stand Together

Declaring that "the government of the world has passed into America's hands," Cecil Roberts, British war correspondent and editor of the Nottingham Journal, in an address at Chicago added:

"All we ask of you is not to act too quickly.

"You are going to have in America a new phase—a phase in which the mental and intellectual will clash with the physical and industrial," he said. "If they cannot combine without physical struggle, God alone can save the nation.

"England and America stand as the last two units in the trial of civilization," he added. "Our 'England's' sun is about to set—but it will be a glorious sunset.

Liquor Smuggling To Cease

Take Steps to Prevent Illicit Liquor Supplies Going to U.S. From Alberta

If bordering states in Uncle Sam's land are getting their illicit liquor supply from Lethbridge and other Southern Alberta towns where liquor vendor stores are located, their supply is likely to be cut off to a large extent as a result of efforts of Commissioner Dinning and the staff of the liquor control branch.

His department he said was not in business to supply liquor to those illegally running it into parts where liquor may be sold only illegally and a drive to stop it, as far as possible, is now on.

Hot Foot Bath Takes Off Corns

The sting comes right out, all the pain goes away, the corn lifts out by the roots. This is the actual result that comes from using Putnam's Corn Extractor. There is a hot foot bath treatment described in each package. You won't be disappointed. Putnam's is a sure thing for removing corns, callouses, foot lumps, etc. Accept no substitute. 25c at all dealers.

PUTNAM'S Corn Extractor

Naval Wars In Future

Nations May Stake Everything On the Issue of a Single Battle

Naval strength, in the last analysis, must be measured as "the blow a ship's gun can deliver at long ranges," Secretary Wilbur declared in a radio Naval Day address at Washington. Efforts to acquire a "homogenous fleet" for the United States will be unavailable, he asserted, unless the gun elevating machinery on United States battleships is improved to permit all main batteries to reach an average maximum elevation.

"Subject to the construction of the treaty for the limitation of armaments, we are asking Congress to authorize the necessary changes to permit this elevation," the secretary said. "We anticipate that future naval wars will be fought in great fleet actions, where a nation will stake everything upon the issue of a single battle."

New Treatment For Diphtheria

Claim Disease Can Be Stamped Out In One Generation

After years of study and experimenting, diphtheria and scarlet fever have at last been conquered by the medical world, Dr. Abraham Zingher, New York, said in an address at Milwaukee.

"A new and harmless toxin, called Toxoid, has been developed for the treatment of diphtheria," Dr. Zingher said. "This Toxoid gives immunity to those treated with it. So far as is known this immunity is permanent. A child one year old can be immunized for life.

"Diphtheria, which last year claimed 20,000 lives in the United States, can be stamped out entirely in a generation," Dr. Zingher said.

Swine Breeders' Competition

Prizes Go To Manitoba and Saskatchewan Entries

First and second prizes for the best pair of hogs in the competition of the Canadian Swine Breeders' Association, held at Brandon, was won by the estate of Sir William Van Horne, East Selkirk, Man. One Saskatchewan winner was featured in this competition. Ninth prize was awarded to the department of public works, Regina.

Prior to the judging, the first lecture under the Manitoba Swine Breeders' bacon hog short course, was held. J. Wilde, of the Dominion livestock branch at Ottawa, opened the session by a demonstration lecture on "Cured Wiltshire Sides."

The centipede doesn't mind being told that he has one foot in the grave.

Minard's Liniment Relieves Neuralgia

This is the Baking Powder that You can always rely upon.

MADE IN CANADA
SOLD AND RECOMMENDED BY GROCERS EVERYWHERE

Canada's Trade With Cuba

Received Over Two Million Dollars For Potatoes Exported Last Year

Potatoes are an article of import into Cuba in which Canadians are interested. In round numbers, Cuba imports yearly about four million bushels of potatoes of which almost one-half come from the United States, with Canada's sales a close second. The total value of these imports last year was $5,482,283. The value of the imports from the United States was $2,816,385, and the value of those from Canada was $2,449,054. Belgium was third, with $66,255; Holland fourth, with $37,409; Great Britain fifth, with $36,885; and the Canary Islands sixth, with $32,625.

Worms, by the irritation that they cause in the stomach and intestines, deprive infants of the nourishment that they should derive from food, and mal-nutrition is the result. Miller's Worm Powders destroy worms and correct the morbid conditions in the stomach and bowels that are favorable to worms, so that the full nutriment of the child is assured and development in every way encouraged.

Why the Question Is Raised

Having started the war and made a hash of it, Germany naturally resents the onus of being responsible for wrecking Europ.

Had Germany triumphed in the field, there would never have been any international controversy as to who started the war.—Toronto Telegram.

Worms cause fretfulness and rob the infant of sleep, the great nourishers. Mother Graves' Worm Exterminator will clear the stomach and intestines and restore healthfulness.

Women Boxers In Hull

Boxing is prohibited in Hull, Eng., except for women. As a result, feminine exhibitions of the "manly art" are now attracting hundreds of fans to various ringsides every weekday night. Hull is developing a crop of women boxers to send to America.

If straightened out, an ounce of spider web would extend 350 miles.

MRS. SARAH WILSHAW

HAVE YOU A DAUGHTER? IF YOU HAVE, THIS ARTICLE WILL INTEREST YOU!

Hamilton, Ont.—"Dr. Pierce's Favorite Prescription is the best medicine I have ever known for the building up of girls and women who are run-down in health. It has been taken by different members of my family with great success. My daughters have been wonderfully helped during motherhood by taking Favorite Prescription; it is the best medicine the expectant mother can take for health and strength. And after having the influenza my granddaughter was left in a very bad way and nothing in the way of medicine gave her any help until she began taking Doctor Pierce's Favorite Prescription, and thru the use of this medicine her health was completely restored, and she is as well as ever."—Mrs. Sarah Wilshaw, 405 Cannon St., E.

Go to your neighborhood drug store at once and obtain this Prescription of Dr. Pierce's, in tablets or liquid, or send 10 cents to Dr. Pierce's Laboratory in Bridgeburg, Ont., for trial package.

Postal Charges On Parcels To Britain Have Been Raised

The postal charges on parcels exchanged between Great Britain and Canada have been raised by the British postal authorities, according to the weekly bulletin issued by the post office from Ottawa under date of October 25.

The information contained in the bulletin is as follows:

"Postmasters are informed that a cable has been received from the British postal authorities advising that it is necessary to raise the postal is necessary to raise the postal charges on parcels exchanged with Canada. As a consequence parcel post rates to Great Britain on and after Nov. 1st will be 24c for the first pound and 18c for each succeeding pound or fraction thereof.

Flowing Language

"How is your son getting on at college." "He must be doing pretty well in three courses. I have just paid for three courses—$10 for Latin, $10 for Greek and $100 for Scotch."

There is a flat, concrete slab over the unpretentious grave of "Buffalo Bill" Cody on top of Lookout Mountain in Colorado.

Birthplace Of Two Admirals

Bronze Tablet Unveiled At Preston, N.S., By Historical Society

The birthplace of two admirals of the royal navy, Philip A. Westphal, 1782-1880, and Sir George A. Westphal, 1783-1875, both of whom were many times in action, the latter having been wounded at the victory of Trafalgar, was marked by a bronze tablet unveiled at Preston, near Halifax, by the Nova Scotia historical society.

Requisite on the Farm—Every farmer and stock-raiser should keep a supply of Dr. Thomas's Eclectric Oil on hand, not only as a ready remedy for ills in the family, but because it is a horse and cattle medicine of great potency. As a substitute for sweet oil for horses and cattle affected by colic it far surpasses anything that can be administered.

British Air Service Safe

It is a scant five years since that aeroplanes began to ply regularly between London and Paris. Since then British planes have flown a distance of 4,000,000 miles and carried 50,000 passengers with the loss of only six lives.

A new type of cactus with long, thorny leaves resembling snakes has been found in South America.

Genuine BAYER ASPIRIN

Insist on BAYER TABLETS OF ASPIRIN

Unless you see the "Bayer Cross" on tablets you are not getting the genuine Bayer product proved safe by millions and prescribed by physicians 24 years for

Colds	Headache
Pain	Neuralgia
Toothache	Lumbago
Neuritis	Rheumatism

Accept only "Bayer" package which contains proven directions.

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Order Your Farm Help Now

TO BE OF SERVICE to Western Canadian farmers and help to meet their needs in securing competent farm help, the CANADIAN PACIFIC RAILWAY will continue its farm help service during 1925 and will include in this service, as last year, the supply of women domestics and boys.

Through experience in the last two years, the Company is now in touch with a number of good farm laborers in Great Britain, Norway, Sweden, Denmark, France, Holland, Switzerland and other European countries and can promptly fill applications for farm help.

In order to have the help reach Canada in time for the spring operations, farmers requiring help must get their applications in early, to enable us to secure the help needed.

Blank application forms and full information regarding the service may be obtained from any C.P.R. agent or from any of the officials listed below. THE SERVICE IS ENTIRELY FREE OF CHARGE.

WORLD HAPPENINGS BRIEFLY TOLD

Dr. Micheal Gavrilovicha, Jugo Slavian minister to Great Britain, is dead.

Napoleon Lebruen, of Levis, Quebec, was crushed to death when the steam crane of which he was the engineer overturned, pinning him to the ground.

H. S. Allen, of Raymond, and W. G. Smith, of Cardston, have shipped five thousand lambs to Fort William for winter feeding on screenings.

Major Pedro Zanni, the Argentine aviator, has decided to abandon his attempted flight across the Pacific Ocean.

Prominent members of the German colony at Constantinpole have purchased the French daily Volonte. The newspaper will be printed in the German language.

There are now more tourists crossing from the United States to Canada by automobile than by train, according to officials of the U.S. Customs Department.

Edward Elliot, a cartman of Blyth, drove his cart under a radio aerial, caught his chin under a wire and accidentally cut his throat. It was England's first radio fatality.

During September 109,135,000 pounds of sea fish were landed on the Atlantic and Pacific coasts according to the Department of Marine and Fisheries.

The protocol for the pacific settlement of international disputes drafted by the Assembly of the League of Nations at its last session has been signed by Paraguay, it was announced at league headquarters.

Beginning January 1, calculations as to the weights, measures or values of commodities imported into Rumania must be given in the metric system, according to a government announcement.

Law stamps amounting to eighty cents were attached to the will of Frank Francis whose estate was probated in the surrogate coure, Toronto. The amount of the will was one dollar and the inheritance goes to his widow.

No surgical operation is necessary in removing corns if Holloway's Corn Remover be used.

Coal and Waterpower

Waterpower Development In Canada Results In Saving of Coal

A recent study of the total coal consumption for all purposes in the United States and Canada, taking the average over the past five years, shows that the average coal consumption per capita is 20 per cent. less in Canada than in the United States. Considering that the climate of Canada is colder than the average of the United States the opposite result might be expected and analysis shows that this result is mainly due to the saving of coal in industries by waterpower development. The waterpower development in Canada is now 350 h.p. per 1,000 of population as against 95 h.p. in the United States.

A Good Yield

Red Bobs Wheat Went Forty Bushels Per Acre On Alberta Farms

Nels Linden, of the Crooked Lake district, near Wetaskiwin, has one of the best crops in the community this year. He threshed a few days ago and had 1,000 bushels of Red Bobs wheat off 25 acres, or an average of 40 bushels to the acre. On another area of eight acres he threshed 420 bushels of Red Bobs, or over 52 bushels to the acre. He also had quite a large field of Marquis which went 40 bushels to the acre. It was all good quality grain, and Mr. Linden expects to sell it for seed.

Princesses Good Shopkeepers

Take to Work Although Brought Up In Palaces

The business rivalry among foreign Princesses who have shops in London is strong and bitter. Greeks, Russians and Rumanians have a good try for each other's clients, and things wax hot and scathing in consequence. These foreigners make excellent shopkeepers. They are good linguists, splendid designers and most painstaking with their customers. Though brought up in palaces, they have fallen in with their new work as though to the manner born.

Close Mexican Consulates In Britain

The only diplomatic tie which bound the British and Mexican Governments was severed with the closing of all the Mexican consulates in Great Britain. This action was the result of Mexico's decision that her representatives could not carry out their duties with self respect after the breakdown of the attempt to re-establish official relations between the two countries.

Minard's Liniment Used by Physicians

CUTS BURNS & SCALDS

All Need Zam-Buk

The real danger is that when the cuticle or outer skin is damaged or removed the sensitive flesh is exposed to the inflammatory action of the air and to the poisonous influence of germs and dirt. The first thing to

AVERT COMPLICATIONS

is to coat the flesh over with a thin layer of Zam-Buk, which has great antiseptic, purifying and healing powers. Burns and scalds should be treated and bandaged up very quickly. Zam-Buk speedily banishes pain, allays all inflammation and grows new healthy skin.

Zam-Buk is so reliable and so useful that it has been aptly called "A Surgery in a Two Inch Box." 50c. box, 3 for $1.25, dealers everywhere.

Zam-Buk

ENDS PAIN · GROWS NEW SKIN

Socialist Fallacies

Killing of Individual Incentive and Initiation Is Bad For Everyone

The ridiculous notion of reducing everyone to a dull dead level must be abandoned. Allowance must be made for special and superior ability in enterprise, otherwise the incentive which forms the very life-blood of industry would be absent. Workers must admit that the most successful of industrial enterprises, from the point of view of the employee as well as that of the employer are those conducted by men who, in adding to their own wealth, add also to wealth of others. If individual incentive and initiative were discouraged, as would be the case by preventing these qualities from being rewarded, which is in accordance with the doctrines preached by some Labor extremists, the workers themselves would suffer the most. The man who makes a success of business makes a success of it for those he employs as well as for himself.—Adelaide Chronicle.

A GRATEFUL LETTER

From a Lady Made Well by Dr. Williams' Pink Pills

"I wish from my heart I could persuade every person who is run-down in health to give Dr. Williams' Pink Pills a trial." Thus writes Mrs. Louie Mitchell, Oak Point, Man., who further says: "About a year ago I was a weak woman, suffering from a run-down system and impoverished blood. Any little exertion would cause my legs to tremble and my heart to throb violently. I could not sweep a room of walk fifty feet without being exhausted. Then I began taking Dr. Williams' Pink Pills and after taking only six boxes I am as well and strong as ever. I can walk and run without stopping every few seconds gasping for breath as previously. Dr. Williams' Pink Pills will be my stand-by in the future if ever my blood needs building up again, and I shall always find pleasure in recommending them to anyone needing a tonic.

There are many troubles due to weak, watery blood which can easily be overcome by a fair use of Dr. Williams' Pink Pills. The sole mission of this medicine is to enrich and purify the blood and when that is done all the varied symptoms of anaemia disappear, and good health returns. You can get these pills through any dealer in medicine or by mail at 50 cents a box by writing The Dr. Williams' Medicine Co., Brockville, Ont.

B.C. Lumber Exports

Lumber exports from Vancouver for the first nine months of 1924 totalled more than 323,000,000 feet, more than 100,000,000 feet in excess of the total for the same period of 1923.

One of the most curious fish found in European waters is the red gurnard, which emits a sound like a crow.

SUNDAY SCHOOL LESSON

NOVEMBER 16

PETER'S CONFESSION

Golden Text: Thou are the Christ, the Son of the living God. Matthew 16.16.

Matthew 16.13, Now when Jesus came into the parts of Cæsarea.

The Text Explained and Illumined

Views About Jesus, verses 31, 14. Jesus and his disciples had journeyed as far as the neighborhood of Cæsarea Philippi when he suddenly asked them, "Who do men say that the Son of Man is?" As recorded by Mark and Luke, the question was, "Who do men say that I am?" It is not thought that the phrase "The Son of man" was associated in the popular mind with the idea of the Messiah. Had it been, Jesus would not have used it as He did early in His ministry. Jesus here used it, seemingly, to keep the question as to who He was undecided. The disciples answered that some thought he was John the Baptist (as Herod said, Mt. 14.2); some, that he was Elijah; and others, Jeremiah or some other of the prophets. "Did you ever think of the vast difference there is between the characters of Elijah and Jeremiah?" questions Dr. G. H. Morrison. "The one is ardent, enthusiastic, fierce sometimes. The other is the prophet of the tender heart and tears. And the remarkable thing is that the common people should have taken these types, which are so wide apart, and should have found in both the character of Christ. In other words, the impression which Jesus made was that of a complex, inclusive personality. You could not exhaust him by a single prophet. It took the range of the greatest to portray His character." Dr. Morrison then devotes a chapter of one of his books to pointing out qualities of different natures which harmonized in the human nature of Christ.

Abolish Diseases

Predicted That Time Will Soon Come When All Diseases Will Be Eliminated

The head of a great American chemical manufacturing concern predicts the end of all disease in fifty years. He included the dread cancer within the scope of his prophecy, which he bases on the progress now being made in chemical science.

The prediction does not come within the realm of the impossible. In fact, many unversed in chemistry or medicine have long been confident that mankind would soon conquer the last of its disease enemies. This confidence has been sctrengthened and rewarded by the progress made in the battle against tuberculosis and the virtual elimination of disease epidemics in Canada and the United States.

Chemicals have long been employed effectively in the destruction of the enemies of vegetable life. Why should they not be as effective against the germs which prey upon human life? Already chemistry and surgery have made great headway against disease. —Montreal Herald.

No Complaints

South African Boers Are Satisfied With Protection Given By Britain

(Since the return of Hertzog to power in South Africa there has been no further talk of secession) The Boers are a hard-headed folk, and while some of them at times may become impatient under British domination, they understand that the easy, tolerant hand of Britain in their affairs is much to be preferred to the thing that would happen if that hand, and the protection that goes with it, were to be withdrawn.—Detroit Free Press.

American Sespicion

Philadelphia Ledger, Usually Sensible, Gets a Queer Kink

So long as the league attends to its own business and that of its members, its actions do not concern us. That is the way for it to keep its American friends. It cannot keep them by threatening American rights and sovereignity. Coercion is not the way; yielding to Japan is not the way. The Japanese half-victory at Geneva is significant. One more turn has been given the screws by which Europe is resolved to coerce us into the league.—Philadelphia Ledger.

Exports To France

Canada's exports to France during the years 1922 and 1923 were more than double those of the previous year, according to a government bulletin. The increase was due principally to cereals, dried and tinned fish, sugar, wood pulp, steam and other engines. French exports to Canada showed only a small increase.

An Unusual Hobby

According to a man who served under him during the war, Lord Thomson, the air minister, now on his way back from Iraq, possesses an unusual hobby. Given the cork of a champagne bottle, he can tell the kind, the quality, the year and, in short, the history of the wine it once held in bounds.

Manitoba Butter

$759,929 Realized From Sale of Product In Month Of August

Manitoba's output of butter for the month of August realized the sum of $759,929, according to an announcement of the provincial dairy commissioner. The manufacture during the month totalled 2,302,815 pounds, or 572,298 pounds in excess of the same month in 1923. During August some 593,320 pounds of butter were exported, more than 50 per cent. of which went to the British Isles. It is estimated by the commissioner that from 23,000 to 25,000 farmers contributed to this production.

All Night with Asthma. Everyone knows how attacks of asthma often keep their victims awake the whole night long. Morning finds him wholly unfitted for a day of business, and yet, business must still be carried through. All this night suffering and lack of rest can be avoided by the prompt use of Dr. J. D. Kellogg's Asthma Remedy, which positively does drive away the attacks.

The Yellow Sea of China is popularly supposed to be so called because of its muddiness, but scientists have proved that it derives its color from a multitude of minute living organisms.

News from the Legislature

Victoria, Nov. 12.—All doubts as to whether or not the Oliver Government would be able to carry on during the session of the Legislature now in progress were set at rest when the House adjourned over the week-end for the Thanksgiving Day Holiday. While several minor issues only came up for consideration, still the experienced observer of things political had little difficulty in observing that Labor is behind the administration, and even Conservatives will not oppose many of the measures which are on the agenda. The restored confidence which has been expressed among business augurs well for the industrial and commercial future of British Columbia and the beginning of 1925 should usher in a new era of genuine prosperity for the Pacific Province.

Important financial information regarding the affairs of the province is contained in information given the Legislature by the new Finance Minister, Hon. J. D. MacLean. The gross debt of British Columbia on November 1 was $76,738,000 and after deducting sinking funds, the value of P. G. E. Ry. stock and revenue-producing debt, the net debt was found to be only $41,622,000. The government still has power, under existing loan bills, to borrow $5,174,000.

Despite the adverse criticism leveled at the government for holding by-elections in Nelson and North Okanagan, and the charges that public money was being wasted thereby, to the tune of tens of thousands of dollars, it is shown officially that the two by-elections only cost $3,000.

Premier Oliver has asked the Legislature to endorse a resolution providing for a bill to give the government power to dispose of the P. G. E. Railway if an advantageous offer is received. The bill, if passed—and it seems certain to—will provide that a land grant will be made. There is every likelihood that following the Federal railway conference early in the year. British Columbia will be relieved of this railway burden.

Wild Horses in Picture

Breaking in one hundred wild horses without a moment's notice was the unexpected task which confronted "The Light That Failed" company which George Melford took to Guadalupe in Northern California to make dramatic desert scenes for his Paramount production of Rudyard Kipling's story, which comes to the Greenwood Theatre on Saturday, Nov. 15th. Desert warriors were to ride these horses in attacking the isolated outpost of British soldiery. When it was time to saddle the horses it was found that practically all of them were unbroken. British ex-cavalry men who were present for the battle scenes were assigned to ride the wild horses.

Some interesting facts were made public by E. J. Belleisle, superintendent of the fish and game department of the Province of Quebec, when in Montreal recently. The province is now teeming with wild life, he says, mainly because of its conservation policy, whereby preserves are rented to fish and game clubs on the understanding that they appoint wardens. There are 500 such clubs employing a total of over 1,000 wardens.

The Trans-Canada Limited, crack transcontinental express of the Canadain Pacific Railway, completed its last run of the season on September 17th, and will not be operated again until next May. The train, which is the fastest long-distance express in North America, covered 758,748 miles in the season, or three times the distance between the earth and the moon, in its 238 runs, and carried the equivalent of 95,000 passengers for varying distances.

The new wing of the Chateau Lake Louise, the Canadian Pacific Railway's hotel at Lake Louise, one of the choicest beauty spots in the Rockies, is now under construction to replace that portion destroyed by fire some months ago. It will be a nine-storey, fire-proof, steel-frame structure of stucco, brick and stone, richly furnished in the best style of a mountain hotel, and will contain 280 bedrooms, bringing the total in the hotel up to 390.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

Here and There

A contract has been let in Alberta for the erection of fifty cottages for Hebrideans who are coming in the spring, on the main line of the Canadian Pacific Railway, between Edmonton and Red Deer, and on the Hardisty line, as far east as Strome.

The dances, customs and folklore of Old Quebec are still alive and show no signs of decline. Thousands of persons recently witnessed a performance of these at the Monument National, Montreal, and joined heartily in the well-known choruses which have made the picturesque aspect of Quebec world-famous.

The piledriver Tarzan is rapidly nearing completion at the B.C. Marine, Vancouver, B.C., and will be ready for launching soon. This piledriver will be the largest in the world. It is being built for the Sydney Junkins Company for use in the construction of the new pier B-C for the Canadian Pacific Railway.

Erected at the cost of $200,000, one of the handsomest marine terminals of the Canadian Pacific Railway was recently completed at Victoria, B.C. The terminal houses the general offices of the British Columbia Coast Service of the Canadian Pacific. The main building is 122 feet long, 54 feet wide and three storeys high, with a fourth storey erected centrally over the structure.

Russia will never again rival Canada as a wheat exporter, according to L. W. Lyde, Professor of Geography at London (England) University. He believes that grain growing in future lies with the Canadian farmer. Russia cannot properly supply its own needs. Prewar export of wheat was purely artificial, drawn, not from a natural surplus, but from the needs of a very poor and ignorant peasantry.

A twenty per cent increase in the business over the Dominion Atlantic Railway, serving Nova Scotia, was the approximate summary of the summer's travel recently given by F. G. J. Comeau, General Traffic Agent of the line. This is attributable to the growing appreciation of the beauties of the Annapolis Valley and the charm of the Evangeline county among tourists everywhere.

An extensive programme is being prepared in connection with the winter sports activities of the Chateau Frontenac, the Canadian Pacific Railway's famous hotel at Quebec. E. Des Baillets, newly appointed sports director for the hotel, is planning the formation of the Frontenac Winter Club and the holding of competitions in curling, ski-ing, ski-joring, skating and other pastimes of the season.

Surprise packets in the shape of crates containing two lions, a male cub and a full grown female, constituted the most interesting shipment handled by the Montreal and Toronto offices of the Dominion Express Co. this year. The animals, exchanged for specimens of Canadian deer, recently arrived from Dublin and were dispatched over Canadian Pacific lines to their destination, the zoological gardens at Toronto. Needless to say, they were carefully handled.
