Two steamers, weekly, capacity 1200 tons a month.

Tugs and scows for towing and lightering, large storage accommodation on the wharf. Telephone 94.

H. DARLING, Manager.

FREE MILLING GOLD,

There are free-milling gold claims on Texada Island which can be obtained on terms that require merely the purchase of small stamp-mill to obtain a large share in the claims. For particulars write to J. P. Lawson, Van Anda.

OF LOCAL INTEREST.

"A chiel's amang ye takin' notes
An', faith, he'll prent it."—Burns.

J. J. Palmer was at Marble Bay last week in the interest of his mine.

:o:

Walter Planta has returned from the Klondike.

:o:

The local, saying you can save 5 per cent. by sending to Ford's grocery, should have read, you can save from 15 to 20 per cent. Write to him for prices and see.

:o:

J. Schroeder left on the 24th for Vancouver where he will enter the employ of J. J. Palmer of the Toronto Type Foundry.

:o:

Order your next suit from Dan Stewart Vancouver's Leading Tailor Fit and workmanship guaranteed. 130 Cordova, opposite Savoy Hotel.

:o:

Mr. Jessop returned to Van Anda last week. The Cobbledick dredge at Lytton, has ceased operations, and he is therefore taking a holiday. Mrs. Jessop has gone to Kentucky to visit friends and relatives.

:o:

If you want a first-class tailor-made suit, before Xmas holidays, without the expense of going to Vancouver to get fitted, drop a postal card to W. McLeod, Van Anda. He will call on you, take your measure and make a suit that fits.

:o:

Charles B. Rabson has returned to Van Anda from Atlin, where he has been prospecting during the summer. He has a number of nuggets with him from his claims in that district. According to Charlie all you have to do up there is pick up a hand full of earth and sort out the nuggets. Charlie, however, is known to have an extremely vivid imagination, and probably told Atlinites the same of Texada. We are glad to see that he is looking as jovial and poetical as ever.

:o:

THEY WENT AND GOT MARRIED.

Sam Martin and Mrs. Welsh went to Vancouver about the first of the month and were married by Rev. McLaren, pastor of St Andrews church.

REWARD FOR BRAVERY.

John Campbell received a medal last Friday. It is made of silver and bears the stamp of the queen's head to-gether with a flag and wreath of maple leaves. It is hung by a ribbon of red and white stripes, and is a reward for bravery in the Fenian Raid of 1866. Though long in coming it is welcome as a beautiful souvenir of that stirring event.

:o:

JUST A LITTLE RAMBUNCTIOUS.

The Texada's residents came very near being brought up on a serious charge last week. They were in a hilarious mood and under the impression that the Marble Bay barroom was closed too early they burst in the door. After an explanation, however, of what their intentions were they were merely charged with drunk and disorderly conduct and fined $2.50 and costs.

:o:

ALL ARE ANGELS.

So Mr. Dunsmuir and the Provincial Government seem to think.

In reference to the custody of two men last week we would draw attention to the high compliment shown by Mr. Dunsmuir and the Provincial Government to Texada Island. In nearly every section of the province, with half the population of Van Anda alone, the government finds it necessary to fear that all are not angels and erect a jail and supply equipments for looking after culprits. But not so with Texada Island. They seem to have implicit confidence in our inhabitants. They allow not even the breath of suspicion to flit through their brains in regard to behavior on the island. All Texadans and all who come to Texada are above suspicion! We ask them for a jail for fear some one might come who might not be as good as we are, but we do not get it even for that. We do not even get a pair of handcuffs. If a murder were to be committed on the island and we were to tie the man's hands with bits of rope and string and send him to somewhere where there is a jail and handcuffs we doubt if the authorities would allow him to be incarcerated because he was brought from Texada Island. Or if imprisoned he would only have to prove he was living on Texada Island to assure them of his innocence. To have them place such implicit confidence in the inhabitants of our island is certainly complimentary. But it has its inconveniences. And when an islander shatters our faith in this local millenium and we find ourselves without a place to put the culprit or a handcuff with which to manacle him, we almost wish our representative in the local house could suspect us just a little.

Thomas E. Walsh Sells Out His Camp Bird Mine at Ouray, Col.

Denver, Col., Sept. 17.—It was announced to-day that Thomas E. Walsh would receive $13,000,000 for his Camp Bird mine at Ouray, Colorada, from a syndicate of English and American investors, headed by Alfred Belt, the South African diamond king, and J. Pierrepont Morgan. It is said a draft covering the first payment is now on deposit at the First National Bank. John Hayes Hammond, the mining engineer, arrived at Ouray to-day to make a final examination of the mine on behalf of the syndicate.

There are Copper claims which can be obtained to work on percentage-of-production agreement without any cash payment. The only money required being for the purchase of tools necessary in working. And yet experienced miners work for mere wages. For particulars write to J. P. Lawson.

A LARGE NUGGET.

:o:

The Consolidated Cariboo Hydraulic Mining Company, Ltd., of Bullion, Cariboo district, B. C., completed the cleanup for the second run on the October 1st and have shipped the result thereof in one large ingot of solid gold, weighing 9,040 troy ounces (753 lbs 4 ounces) valued at $154,765.00. This, we are informed, is the product of a run of 68 days washing with 2756 miners inches of water, and is probably the largest ingot of gold ever shipped east across the continent from an hydraulic mine.
