60c per lb. this week

George Millard arrived home on Friday 1st from Victoria.

Pte. Carl Thulin of Campbell River was in town for a time yesterday.

Mr. W. A. Hames and family left on Friday last for Royston for the season

Mrs. R. B. Dixon and daughters of Headquarters are home from Bellingham.

Clean your carpets electricly. Electric Vacuum Cleaners for sale or to rent. Apply Clinton S. Wood.

John Aitken the popular telegraph operator is enjoying a three weeks' vacation. Mr. D. C. Shubert of Vancouver is here relieving him.

Mrs. K. Grieve of Vancouver has arrived here, and will spend the summer camping at the beach with her brother, Harry Loggie and his family.

Mrs. C. H. Williams and daughter Rosalie havve returned from a visit to Vancouver and Seattle. Her daughter, Grace who has just graduated from the Lincoln High School at Seattle, returned with them.

Fierce fires are raging in the burned over lands north-east of here. About 1500 acres have been covered. While very little damage is being done the blaze was too close to Grieve's mill for comfort on several occasions. Great clouds of smoke and ashes are still drifting over Courtenay.

Charles London, who for a number of years kept a store at Comox, was a visitor in town over the holiday. He is buying barberry bark for an Old Country firm, and left for Campbell River and Alert Bay on Tuesday morning.

Maple Leaf Theatre.

SATURDAY JULY 6.

ETHEL CLAYTON
—IN—
"SOULS ADRIFT"
With Milton Sills.

Story by Andrew Soutar. Directed by Hrley Knoles.

Love, hate and the desire for revenge on a desert island! A proud, wealthy society debuante, and a handsome but impecunious second engineer of a yacht, in a fascinating situation!

Elma Raybourne, chief character in the World picture Brady Made, "Souls Adrift," is a young socety girl who has broken off her engagement with a brilliant young inventor khom her faather has robbed of the fruits of his invention. This character is played by charming Ethel Clayton. While on a trip in her father's yacht Elma finds that the second engineer is Micha Steele, he former fiancee. Shortly after this discovery there is an explosion in the hold of the vessel and the craft sinks rapidly. Elma is carried to a row boat by Micah. In time they reach a desert island and there strange things occur—different from the things that are supposed to genehally occur in cases of this character. Milton Sills appears as Micah Steele in this production and all the other members of the cast are brilliant film players. " Souls Adrift"will be the attraction at the Maple Leaf Theatre on Saturday night. Make it a point to see this picture, as it is a thoroughly delightful entertainment, pleasing throughout, and leaving a good taste in the mouth.

"The Painted Dol."

One of the biggest deals in motion picture history is disclosed in the statement that American-Canadian rights to the celebrated Russian Art Films have been acquired by Pathe.

The first of these big features to be released will be "The Panted Doll" in which Ivan Mozukin, the biggest theatrical figure in Russia; Mme Lesienco, who created "Vampire roles" in that country and Tanya Fetner, star. This picture which may be truly said to represent the very pinacle of motion picture art, will be shown here as soon as negotiations now pen-Russian Art Films were first announced much interest has been aroused, nd there has been considerable speculation as to what American company would acquire therghts. Before contracts were signed the Pathe film committee reviewed many of the pictures. The reports of this committee were so enthusiastic that Mr. Burst saw the pictures himself. He was so impressed by the truly wonderful acting, the strong stories, the fine lighting effects and photography, the costly sets and the able direction that he felt much enthusiasm would be created for the pictures with the very first release—that the public would appreciate the fact that a new note in photographic art had been struck with no uncertain hand.

Miss B. Woodhus, of Oyster River, was visiting here last week.

Mrs. Birkett, of Nanaimo is visiting with her daughter, Mrs. S. J. Piercy.

An abortive attempt was made to revive the old Board of Trade on Friday evening ast.

Pte Leslie Wood was up from Esquimault over the holiday with his brother Clinton Wood.

Rev. Dr. Unsworh, of Nanaimo conducted the services at the Presbyterian church on Sunday evening last. Rev. Mr McGuire will preach on Sunday next.

Mr. T. Yoneda, of the tailoring firm of S. Oda & Co., returned to Courtenay last week after a five months, visit to Japan. While there he married a Japanese lady whom he has brought with him

A notification has been received from the British authorities to the effect that the parce post service for prisoners of war in Turkey or Bulgaria is at present suspended. Until this service is resumed no parcels can be forwarded to prisoners of war in Turkey or Bulgaria, and persons desiring to help prisoners of war in these countries are advised to forward remittances to them. These can be sent by means of post office money orders which are issued free of commission. Pariculars as to how to proceed may be obtained from postmasters of accounting offices. Any parcels for prisoners of war in these countries which may be intercepted in the course of transmission will be returned to the senders, providing the name of the senders is given on the parcel.

LAZO.

Lorrie MacNeal of Vancouver, is visiting with Mrs. C. H. Pigott.

Hugh Stewart, M. L. A. addressed the United Farmers of Lazo on Saturday evening last on Drainage. It was estimated that it would cost about $500 to open up the creeks and drain the surrounding land, and it was decided to ask the government to make a loan of $500 for the purpose. A committee composed of Messrs. Beard, Church, and Piggot was appointed to put the deal throughif possible.

THURSDAY JULY 4, 1918

Bolsheviki doctrines have brought Russia down from one of the greatest food producing countries on the globe to a condition of starvation. Drunk with liberty which they did not understand, filled with idealistic notions bout the equality of man, and lacking individual initiative production in Russia has practically ceased, according to the evidences reaching the outside world. Transportation and distribution is so disorganized that even were the peasants of the land producing their usual amount of foodstuffs, the people of the manufacturing population would still be without the necessary food supplies to sustain them in safety and comfort. Unless the people of Russia steady down and organize themselves or allow other authorties to organize them, there is the possibility of one of the most stupendous disasters to a nation and a great people that ever occurred in history. Without authority for whom they have fear or respect the Russian peasant seems to be without motive or initiative. We read of peasants in their anger against the property holding class of the late aristocratic regime, destroying not only the personal effects of the nobility and the owning class, but the very crops which they had themselves under the former social organization produced for the nation at large. In their reaction agains property owning, they have destroyed the goose that laid the golden eggs. We read of peasants in certain villages having gone to such extremes as to seize the cattle of the local land owner, now exposed, flay them alive and turn them loose. Without the old motive of compulsion to cultivate the land for the landowner, now that the land has reverted to the peasants and the homeless are the owners, they have neglected to work and to produce the necessaries of life. To such a pass is the nation drifting, that recent despatches have reported that the so-called government of present day Russia is sending plenipotentiaries to China, the formerly despised and so-called decadent neighbor to the east to make arrangements for provisions to tide them over next winter. It is difficult to imagine China, one of the most densely populated areas of the world, living largely on rice and very meagre fare having sufficient supplies to feed 150,000,000 people in starving Russia.

Bolshevism is sometimes quoted in this country as an ideal worthy of imitation. The pass to which Russia has drifted is a warning that Bolshevism and insanity are not very far apart. The nation that will weather the storm of this war the best is the nation that organizes most efficiently and disciplines itself most strictly. Production must be carried on to the limit of our power. Destructive criticism and petty fault-finding are weaknesses and dangers. Unity of purpose and constituted leadership is essential. It is a case of a long pull, a strong pull altogether. Men must be found for the army, for munition making and for food production. Non-essential industries must provide men for essential industries. Women in this country must take the places of men to the limit of their power when called upon. Farmers must recognize the necessities of war and the public in general must unite to save the harvest of 1918.

Eat less Bread

NOTICE

All persons indebted to the estate of Francis John Henry Everett, late of Courtenay, B.C., who died intestate on the 6th day of July, 1917, must forthwith settle such indebedness with the undersigned, and all persons having any accounts or claims against the said estate mus present the same to the undersigned on or before the 3rd day of August, 1918 and such accounts or caims must be duly proved by affidavit of statutory declaration.

Dated this 25th day of June 1918.

PUBLIC NOTICE

Military Service Act, 1917.

Men 19 and 20 Years of Age.
Harvest Leave.
Leave of Absence on Ground of Extreme Hardship.
Procedure to obtain Leave of Absence.

Men Nineteen and Twenty Years of Age.

It has come to the attention of the Government that there is a widespread impression that young men of nineteen years, and those who became twenty since October 13, 1917, as well as those who may become nineteen from time to time and who have been or will be called upon to register under the Military Service Act, are to be immediately called to the colours.

This impression is quite incorrect. No date has yet been fixed for calling upon such men to so report for duty, nor has the question been brought before the Cabinet for decision. In view of the need of labour on the farm, it is most unlikely that consideration will be given to the matter until after the harvest is over, although of course the Government's action must be determined primarily by the military situation.

There is no further obligation incumbent upon young men of the ages above mentioned who have registered or who do so hereafter, until they receive notice from the Registrars.

Harvest Leave.

Some enquiries have been received as to the possibility of granting harvest leave to such troops as may be in the country at that time. No definite assurance can be given on this point as advantage must be taken of ships as they become available. On the other hand, harvest leave will be given if at all possible.

Leave of Absence on Grounds of Extreme Hardship.

It is desired that the Regulations respecting leave of absence in cases of hardship should be widely known and fully understood. Such leave will be granted in two cases:— (a) where extreme hardship arises by reason of the fact that the man concerned is either the only son capable of earning a livelihood, of a father killed or disabled on service or presently in service overseas, or in training for such service, or under treatment after returning from overseas; or the only remaining of two or more brothers capable of earning a livelihood (the other brother or brothers having been killed or disabled on service, or being presently in service overseas, or in training for overseas or under treatment after his or their return from overseas); brothers married before 4th August, 1914, living in separate establishments and having a child or children not to be counted, in determining the fact that the man is the "only" remaining son or brother; (b) where extreme hardship arises by reason of exceptional circumstances such as the fact that the man concerned is the sole support of a widowed mother, an invalid father or other helpless dependents.

It is to be noted that in all these cases the governing factor is not hardship, loss or suffering to the individual concerned, but to others, that is, members of his family or those depending upon him.

Procedure to obtain leave of absence.

A simple system for dealing with these cases has been adopted. Forms of application have been supplied to every Depot Battalion and an officer of each battalion has been detailed whose duty it is to give them immediate attention. The man concerned should on reporting to his unit state that he desires to apply for leave of absence on one or more of the grounds mentioned and his application form will then be filled out and forwarded to Militia Headquarters, Ottawa. In the meantime, if the case appears meritorious, the man will be given provisional leave of absence for thirty days so that he may return home and continue his civil occupation while his case is being finally disposed of.

ISSUED BY DEPARTMENT OF MILITIA AND DEFENCE,
DEPARTMENT OF JUSTICE.

At the eighth annual convention of Holstein breeder s held aat Duncan last Thursday, week, thirty members were present. Dr.Tolmie in the course of his remarks said that the registrations had gratly increased, last year's figures being Holsteins, 12,019; Ayrshires, 4,368; Jerseys, 1,703; Gurnsey, 183; and French-Canadian cattle 327. Auctions had shown very wonderful results. He quoted averages of $2,073 on 143 catle; $53,200 being top price; at Worcester, Mass., and of $1,096 on 143 cattle at Retroit, top price being around $20,000.

Frank Giolma, the returned soldier candidate at Victoria was returned by an overwelming majority. Only about a quarter of the avvavilable vote was cast, the women voted solidly for Giolma, wh o was formerly a newspaper man.

There was no meeting of the City Counci on Tuesday evening owing to the lengthy meeting of the Electric Light Committe with Mr. Graham, the manager of the Collieries Co.

Don't Waste Food.

The Order-in-Council against waste, making it an offence subject to heavy penalties, wou'd apply if food were wasted in any of the following ways:

(1.) If food fit for human use is wilfully or negligently damaged or or thrown away. This applies to proprietors of hotels, clube, restaurants, cafes,, steamships, dining cars, etc., managers of institutions, church societies, or lobes, private householders or other persons who destroy or discard good food; also to wasteful picnic parties, or travellers; also to hunters, fishermen, etc., who neglect to save game or fish secured by them.

(2.) If the person having control of food omits to take any precaution which shoud reasonably be taken for its preservation. This applies to persons anywhere who allow food to spoil if it could be saved by cooking, canning, or other treatment, also to careless and wasteful cooks; also to farmers, grdeners, or other producers who neglect to potect grain, produce, or other food against deterioration or oss; also to merchants who al'ow candy fruit or other food to spoil by exposure in windows, or open to flies, dust, moisture, etc. aso to persons who, through careess storage, leave *food accessible to rats, mice, or other* vermin; also to handlers who cause waste by careless packing or shipping also to public and private carriers, who are negligent and cause waste or deterioriation.

(3.(If any one procures for any purpose a greater quantity than is reasonaby required any part becomes unfit for human food. This applies to dealers and others, including private household ers who hoard food, if any of it spoils because of inadequate storage facilities or for any other reason; also fo persons who, through careless buying purchase more for current consumption than they require.

(4) If the person who has the disposal of food unreasonably retains it *until it goes bad. This applies to* producers, dealers or private individuals who fail to market or otherwise uals who fail to market or otherwise dispose of food in excess of their own requirements in time to prevent waste; aso to those who refuse to sell at loss, if current prices require, in order to avoid food waste. The penalties are a fine of not ess than $100 or more than $1000, or imprisonment for up to three months, or both fine and imprisonment. In the case of dealers imprisonment. In the case of dealers waste may also rsult in cancellation of he Canada Food Board license.

"Every Dog Has His Day."

War is responsible for many new and unexpected industries not the least of which is the manufacture of knitting wool from the combings of dogs. A few laies conceived the idea from utilizing the combings in this way and after lorg and patient *experimenting* the process of spinning was perfected. Scientists have become interested in the discovery and a small room in the Victoria and Albert Museum has been set aside for an exhibit of the work. Important propositions have come from the commercial world which was quick to see the possibilities, of this new industry but while the war lasts there is no commercial side to the undertaking.

Long-ha'red dogs furnish the material used and wool of unusual silkiness and softness is spun from their combings. A pale, gold sock light as silk but whose warmth is instantly real'zed when the sock is held to the chek or against the hand was knitted from the combings of a Pekinese. The *whitest and softest of socks for the* wounded come from the combings of a white poodle. Cardigans or hard-wearing socks of soft grey are furnished by the old English sheen dog. Black as jet, stainless and glossy is the wool given by the curly retriever.

Collies, cockers, Chows, and Pomerarians, Barzois and Yorkshires, perky or dignified all yield the most delightfl wool. Lightness and softness and warmth, are truly admirable qualities in wool bt this new kind possesses unheard of wearing qualities. Absolute proof of this is given in a grey cardigan which has been in the front line continuously since last autumn and washed repeatedly without showing the least sign of wear.

Lady Algernon Gordon and Lady Gosfford conceived the idea and have been able to put it into practical use by the help of Lord Algernon Gordon Gordon Lennox, who is treasurer of the British Dogs Wool Association, as these workers style themselves. Other workers are Lady Bland-Sutton, Lady Leslie, Mrs. Scaramanga, Mrs. Le Gros, Mrs. McKenzie Owen, and Mr. E. W. Jaquet, secretary of the Kennel Club, and Miss L. Smythe, hon. secretary.

The Ladies Auxiliary of St. Josephs Hospital are holding a bazaar and garden fete in the hospital grounds on July 17th, at 2 p. m. There will be needlework booths, fish ponds, country store, ice cream, and soft drinks, and candy. Afternoon tea and supper will be served. Sports and bathing will be held during the afternoon. There will be an open air concert in the afternoon, which wil be repeated in he evenirg. There wil l also be cards and other amusements. The day will be finished up by a dance in the evening at the Elk Hotel at 9.30. **Gentlemen 75c, Ladies 25c,** refreshments free. A free boat will meet parties coming from Cumberland at Royston wharf, returning later.

ROYSTON FETE DAY A GREAT SUCCESS.

The Royston Fete Day was the most successful field day yet held in this district. Three car loads came up from Union Bay and seven from Cumberland and Bevan, have been run free by the Collieries Co. Besides these many came from [illegible] and [illegible] doing all the time. The sporting programme was well contested and brought out a full and new list of winners. The ladies in charge of the refreshment pavilions deserve unstinted credit for the great amount of hard work they gotthrough, especially Mrs. J. R. Johnston, who manufactured the ice cream. The tug of war was very interesting event, and was won by the Boom camp team. The total receipts were $1100.00.

The following is the list of prize winners:

There was no fat man's race. No one loves a fat man anyway.

Girls race under 10—1st Martha Boyd; 2nd, Nettie Marshall; 3rd, Minnie Harrigan.

Boys race under 10—1st Alex. Clark 2nd Harper Baikie; 3rd Tedas Totao.

Girls race unde 16—1st Grace Horwood; 2nd Ruth Paikie; 3rd Florence Wood.

Boys under 16—1st W. Keper; 2nd A. Thompson; 3rd Jack Fouracre.

Men's open 100 yards—1st P. McLaughlin; 2nd G. Brown; 3rd, R. Martin.

Returned Soldiers race—1st — Peacock; 2nd Geo Barrass; 3rd R. Rushford and R. Monte.

Baseball game —won by Headquarters.

Motor Boat race—not competed for

Tug of war—Won by Boom Camp team

Swimming Races.

Men's 100 yds—C. Formby; 2nd V. Kirchner; 3rd W. Smith.

Ladies 60 yds—Miss A. Kilpatrick; 2nd Miss Mary Suton;

Boys under 17—1st H. Stevens; 2nd T. Simms; 3rd H. Roy.

Diving—1st H. Roy; 2nd V. Kirchner; 3rd F. Dalby.

Greasy pole—Divided between W. R. Smith and Willie Mitchell.

Log Rolling contest—1st R. Martin; 2nd J. Donnelly; 3rd J. Kentura.

Whole Wheat Bread.

One cup whole or graham flour (breakfast cup, 1 cup white flour, 1 teaspoon salt, 1 teaspoon sugar, 1 teaspoon soda, and 1 teaspon of cream of tartar. Mix alltogether and moisten with milk to form a stiff dough; form into loaf and bake. All whole wheat flour may be used if desired. This bread can be made very quickly and is exceedingly nice; in fact, I havemade no ordinary white bread for some time past as we much prefer the whole wheat or oatmeal.—Mrs. Mary Neal, Secretary Colwood Women's Institute.

[illegible] ye' Responsibility

In view of the lack of farm labor Managers of factoriet and industries of all kinds should plan to release all men and women they possibly can who are willing to help with the harvest. The agricultural industry is of prime importance to the world today.

A Simple Proposition

Here is the McClary Sunshine Furnace proposition.

McClary's heating engineers will give you advice and estimates of cost of correct heating plant free. When you purchase a Sunshine Furnace, McClary's engineers will provide you proper plans for installing it the McClary way by which they will guarantee satisfactory results.

Gallons of ink and acres of paper are sometimes used to convey the thought summed up in this chart which states facts.

Out of 9,706 consecutive sales, 8,550 purchasers regard the Ford car as a necessity in other agricultural or industrial activity. Only 11.95 per cent of these cars are being used, other than primarily for business. Prepare to meet business competition by buying a Ford.

E. C. Emde,

Dealer, Courtenay

All hopes centre on the 1918 crop of North America. Of all the crops the wheat crop is most vitalr The Canadian wheat crop estimates for 1918, issued by the census and the Statistical Branch, put the increased wheat area at 1,324,850 acres and 425,600 acres increase in oats. Unofficial estimates from those in close touch with conditions in the West, place the increased wheat area ot over 2,000,000 acres in the prairie provinces alone. Given rain there will be an immense grain crop in the West, in fact, increased grain crops throughout the Dominion. The only anxiety then will be as to the harvest. Where are the men to come from? Some will come from the United States, no doubt, because their harvest operations nre over earlier than ours, but it is said that 50,000 men will be needed in the west alone. People of towns will have to organize their affairs so as to get out on the farms when the time comes. Other wise the harvest will be only partially saved and every grain of foodstuffs will be wanted. The acreage in Canada is the highest ever recorded,
