AROUND HOME

C. J. Carlson left on Tuesday morning for Alaska.

Miss Silvia Price returned on Sunday from a week's visit in Penticton.

Remember the Norris Auction Sale at Midway on Saturday. Sale commences at 10 a.m.

BORN—At the Greenwood and District Hospital, on April 14th, to Mr. and Mrs. H. N. Cox, a son.

N. E. Morrison and T. Crowley arrived from Trail on Saturday where they spent part of the holidays.

Mrs. Bruce and daughter, Madonna, returned on Tuesday from a few days visit with friends in Nelson.

Thos. Williamson has returned to Crescent Valley after spending the holidays at his home in Anaconda.

Miss Vera Kempston and Pat Kempston are back in town from spending the Easter holidays in Bridesville.

Jim White, of Bonnington, is taking a few weeks holiday in town and is the guest of his father, F. J. White.

BORN—At the Greenwood and District Hospital, on April 9th, to Mr. and Mrs. W. Hatton, of Rock Creek, a daughter.

The bills will be out for the Kettle Valley Auction next week. There will be a detailed list of most everything for sale.

A. C. Mesker was in town from Midway on Tuesday and reports that he has leased his ranch on the Main River to W. S. Abel, of Christian Valley.

Mr. and Mrs. D. McPherson and family, of Grand Forks, were visitors to town on Sunday. Mr. McPherson delivered a new Ford Sedan to H. T. Newmarch.

The Automobile Association of British Columbia has its first member in Greenwood in the person of G. S. Walters who hopes to get several additional members in the near future.

Mrs. N. J. Agnew arrived from Portland, Ore., on Wednesday afternoon and is the guest of her daughter, Mrs. A. Legault. Mrs. Agnew was accompanied by Mrs. L. Smith, of Seattle, Wash.

D. McKinnon has bought out F. Haverty's interest in the firm of McKinnon & Haverty, Grand Forks, the deal being consumated last week. Mr. McKinnon announces a 10 day Stock Reducing Sale commencing May 15th.

Mr. and Mrs. J. E. Hoy will move up to their residence on the No. 7 road next month after spending the winter in town. Mr. Hoy has rented his house to B. J. Wagner, of Idaho, who is interested in the D. A. at Deadwood.

R. Dodd has rented the Guess Block and has opened up a pool room in connection with his barber shop. The building has been renovated and adds greatly to the appearance of Copper St. This is an asset to the town as the young men and others will now have a place to spend their leisure hours.

The annual meeting of the Greenwood District Rod and Gun Club will be held in the Kettle Valley School on Friday, April 23rd at 8 p.m. President, G. S. Walters, who recently attended the Allied Fish and Game Association meeting in Kelowna, will give his report. It is hoped there will be a large attendance.

The official opening of the courts of the Greenwood Tennis Club will take place on Saturday, April 17th at 3 p.m. All interested in the game are invited to attend. Beginners, both school children and others, will be given an opportunity on this occasion to play with the senior players. Refreshments will be served by the ladies.

At the request of the Mayor and Council, citizens generally are asked to make a special effort this year to clean up their yards and adjoining vacant lots. Gangs of men will be employed on the streets on April 27th and 28th. Wagons and trucks will haul away all piled up rubbish. Let everyone don their overalls and make Greenwood beautiful.

City Council

The City Council met in regular session on Monday evening, Mayor Gulley presiding and present Ald. Taylor, King, Peterson and Mowat.

The Finance committee submitted an account from A. N. Whiteside covering legal work done in connection with the lighting system. After considerable discussion this was ordered to be returned to the city trustee for consideration.

An application for rental of the Kennedy building for the purpose of a restaurant was referred to the Building committee for decision.

Clean-up days were set for April 27th and 28th, Ald. Mowat being appointed to take charge an inaugurate a movement for as much volunteer work as possible. Ald. Peterson offered his services and the use of his truck which was gladly accepted by the Council. The Mayor strongly condemned the practise of some citizens allowing rubbish to accumulate around their premises in anticipation of the Council removing same gratis at the end of the year. One of the Aldermen suggested that the Council offer a monetary prize for the best kept garden and premises during the present year, but it was thought by the rest of the Council that the city was not in a position to afford this and that most householders after seeing this mentioned would be prepared to improve the appearance of their lots without any thought of money consideration.

Bylaws one and two were given final reading and passed.

Appointment of pound-keeper was left in the hands of the Pound committee and in view of complaints already to hand there will be strict enforcement of this bylaw after this week. It is hoped that the few cow owners in the city limits will endeavor to properly herd their animals and not inflict on the rest of the community what they consider is a nuisance and annoyance.

Reports of Street and Water committees were presented and their recommendations accepted.

E. F. Keir says that fur farming is all the go on his ranch these days. He has named the place the Cedar Glen Fur Farm, on which there are now over 50 pedigreed Chinchilla rabbits, all of the very best stock. He also has a pair of pedigreed silver black foxes and on the morning of April 7th there arrived 5 baby Cedar Glen silver black foxes. All seem to be doing well.

Users of gasoline should remember that the Gasoline Tax is still effective in this province. Buyers must pay this tax to the vendors, as the tax is payable in the first place by the large oil companies on all gasoline imported into the province. All persons claiming exemption from this tax under the gasoline act must have paid the tax to the vendors and must make application for refund in the usual way on forms supplied by the local Government Agent.

Rip Van Winkle's famous beauty nap wasn't even a wink of sleep compared to the snooze that Old Dad Time treats himself to in "The Lost World," which the manager of the Greenwood Theatre has booked for Friday and Saturday, April 23rd and 24th. In this Sir Arthur Conan Doyle's story Father Time breaks every sleeping record in all literature—or screenature. He snores away for 10,000,000 years. Film magazines herald this picture as one of the sensations of motion picture history. One magazine going as far as to say "The greatest film yet made." There are 11 reels and the price of admission will be 75c and 35c.

The Grand Forks Gazette says: "The new garage building of the McPherson Garage Company, Limited, was opened the first of the week and becomes quite an attractive addition to the business places on Bridge street. Built on cement foundation with full size basement for the storage of cars, the frame superstructure is completed with stucco, which while new locally is an altogether pleasing effect. The interior is modern in appointments with office and show room in the front and repair shop at the rear. The new building reflects the enterprise of the manager, D. McPherson, M. L. A., who is the district agent for the Ford cars, of which he has already received his third carload shipment this season."

Midway News

J. McKaracher, of Vancouver, was visiting old timers here this week.

BORN—At Midway, to Mr. and Mrs. Chas. Bing, a daughter, on April 13th.

Mrs. T. Hartland, of Grand Forks, is visiting her daughter, Mrs. E. Lund.

Mrs. Harold Erickson and children have returned from a visit in Grand Forks.

Miss P. Roberts, of Vancouver, is visiting her brothers, Arthur and Frank, of Myers Creek.

The Farmers entertainment and dance will be held on Friday, April 30th. The Farm Women are providing a real good supper.

The many implements that will be put up for sale at the Norris Auction, Midway, on Saturday, warrant your attention, if you are looking for bargains.

Mrs. W. Salmon will leave on Thursday's train for Vancouver. She expects to bring back her daughter, Gwendolyn, who has been seriously ill in the General Hospital. Miss Salmon's health is much improved.

The following officers were elected for the Farm Women's Local at their meeting on April 3rd: President, Mrs. J. Richter; Vice Pres., Mrs. James Bush; Secretary, Mrs. H. Pannell; Treasurer, Mrs. E. Hawkes; Directors, Mrs. C. J. Lundy, Mrs. E. Lund, and Mrs. H. Erickson.

Christian Valley Notes

M. Schenck left for Rock Creek on Thursday.

Mr. and Mrs. Abel left the Valley last week.

H. A. Tanner is expecting his sons up this spring.

C. Noren made a business trip to Westbridge on Friday.

Mrs. F. O. Petterson may return to the Valley from Greenwood.

Mrs. August Lindgren spent the holidays in Grand Forks and Greenwood.

Miss Richards, teacher at the school, spent the holidays in Nelson and Spokane.

The bobbed hair craze has hit the Valley, only two remaining unbobbed and they are absolutely hopeless.

Miss Burns, a former teacher in the Valley, has returned to Fruitvale, after spending Easter with Mrs. Joe Christian.

A most enjoyable dance was held at the school house on March 7th in honor of Miss Burns. The party continued until about 12:30.

Greenwood and District Hospital

The Board of Managers very thankfully acknowledge receipt of the following subscriptions. Anyone wishing to subscribe, kindly call at the office, or mail, to Chas. King, Sec.-Treas., when receipts will be given and amounts acknowledged in the current issue of The Ledge.

Previously acknowledged	$1698.20
W. C. Murray, Trail	5.00
Total	$1703.20

Donations for March

Mrs. A. Dorman, cream and jam; D. Smith, buttermilk; Miss V. Kempston, sugar and cream set; Mrs. Christensen, bread; Mrs. Moore, fruit; Mrs. J. McDonell, milk; Mrs. H. T. Newmarch, magazines.

Mining Notes

Penticton men were examining this week the Republic group, the Helen, and the Bonnie Belle, owned by Ola Lofstad.

J. W. Clark has resumed operations on the Providence dump and expects to make regular shipments to the Trail smelter.

The cattle and farm implements at the Kettle Valley Auction will be located near Mr. Gane's Store, and will be sold after Major Davies' effects are all disposed of.

RED ROSE TEA
"is good tea"
Over 30 years a standard wherever good tea is liked.

Stop The Flood

The problem of erecting an effective dam to stem the flood of United States publications, already large and steadily rising, pouring into Canada and tending to Americanize our social thought, national ideals and policies, has for some time occasioned serious consideration on the part of Canadian publishers, and is now giving concern to people who are in no way identified with the publishing business.

A large section of the Canadian people not strongly opposed to restrictive policies based on the protective principle, while others dislike the idea of placing a ban on the free interchange of reading matter, and all are more or less averse to the adoption of any policy which might be interpreted as unfriendly by our next door neighbors. But, as pointed out in last week's article in this column, the situation has become a very serious one not only for Canadian publishers, but for Canada as a national entity.

Prohibition of United States publications is not to be thought of, except in the case of those which overstep the bounds of morals and decency in their flagrant attempts at sensationalism to whet the appetites and appeal to the morbidness of their readers. The United States should itself place a ban on these, and if it fails to do so there is no reason in the world why Canada should not protect itself by taking such action. Such publications are not necessary to any people. They serve no good or useful purpose, and are wholly harmful.

A suggestion recently advanced and now being widely discussed is that, while not placing any obstacle in the way of United States papers and magazines entering Canada, a tax should be imposed on the advertising matter contained in them. Canada is used as a "dumping" ground for these magazines and papers largely for the purpose of increasing circulation, thereby boosting advertising rates and revenue for the publishers and providing an avenue through which United States manufacturers and others can attractively place their wares before the Canadian public. These magazines are sold in Canada at a price considerably below the cost of production, and tons of them are carried annually by the Canadian post office department at an actual loss to the Government.

That these American publications are circulated in Canada solely in order to obtain additional distribution of these advertisements is fairly well demonstrated by the fact that in their literary contents little or no attempt is made to cater to the views and tastes of Canadian readers. They are "American," in the United States acceptation of that word, through and through.

Take the current issue of one of the weekly publications which has a very large circulation in Canada. It consists of 240 pages, printed on book paper, and each copy weighs over a pound and a half. It retails for five cents, or less than the cost of the white paper. Of the 240 pages, 94 are devoted to reading matter and illustrations all, with the exception of the front cover, printed in black ink. The other 146 pages are advertisements, and 64 of these are full page advertisements printed in all the colors of the rainbow, and then some—reds, blues, greens, purples, browns, yellows, pinks, mauves and varying shades and combinations of these colors. In a word, this magazine is mainly an advertising catalogue, and a beautifully attractive one at that, of United States goods.

If all this advertising matter entered Canada as a catalogue, or as straight advertising matter, thousands of dollars would have to be paid on it in Customs duties, but coming in under the guise of a magazine it is practically duty free. And in addition the Canadian post office distributes a large percentage of it for a purely nominal sum. It would cost these United States advertisers millions of dollars annually to themselves print and distribute this matter in Canada.

Therefore, it is argued, and with reason, that while United States magazines should still be allowed free entry into Canada, a tax should be imposed on the advertising matter contained in them somewhat comparable to the amount that would be collected if such advertising was sent in as such and not as part of magazine.

The effect, of course, would be a decided decrease in the number of such publications sent into Canada because the publishers, having to pay this tax, would be obliged to sustain the loss, or increase their subscription price in this country to cover it, and circulations would automatically drop. If the tax did not have this effect, then it would at least increase our national revenues.

Canadians may naturally object to paying largely increased prices through Customs duties imposed on foreign-made articles they require to purchase, and on Canadian-made goods the price of which is advanced under cover of tariff protection, but they are not likely to object to a tax being placed on the advertising propaganda of United States concerns canvassing for business in the Dominion.

Freak Linguistic Case

A freak linguistic case came to light at Honolulu recently in the court of domestic relations. Robert Soares, born there and now 11, cannot speak the language of Hawaii; that is, English, nor can he speak Portuguese, the language of his forebears. He is a fluent speaker of Japanese, however. He has lived with a Japanese couple since his parents deserted him.

The Oil for the Farmer.—A bottle of Dr. Thomas' Eclectric Oil in the farm house will save many a journey for the doctor. It is not only good for the children when taken with colds and croup, and for the mature who suffer from pains and aches, but there are directions for its use on sick cattle. There should always be a bottle of it in the house.

More illiterate hod-carriers reach the top of the ladder than men with college degrees.

Children Cry for

Fletcher's CASTORIA

MOTHER:— Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of Chas. H. Fletcher.
Absolutely Harmless - No Opiates. Physicians everywhere recommend it.

Upper Air Currents

Scientist Says Region of Upper Strata Has Tropical Climate

Discussion of the observation of meteors, made during a lifetime by W. F. Denning, the English amateur astronomer, has revealed a totally new aspect of the upper air, according to Professor H. H. Turner.

"It has been known for some time," says Professor Turner, that the temperature, which falls rapidly as we ascend for the first few miles, ceases to fall about eight miles up. This is beyond the reach of aeroplanes and balloonists, but not beyond that of exploring toy balloons. Even their information, however, has a limit short of twenty miles.

"Meteors have now extended our knowledge up to fifty miles and have shown that the atmosphere becomes actually hotter in a certain region of these upper strata; the climate becomes tropical as regards temperature. We may confidently expect important consequences to follow this new clue."

SIXTEEN YEARS USE OF BABY'S OWN TABLETS

Has Shown One Mother There is Nothing to Equal Them

A constant use of Baby's Own Tablets for their children has proven to thousands of mothers that they are without an equal for babyhood and childhood ailments. One mother, Mrs. C. W. Jackson, R.R. 1, Gilford, Ont., writes:—"We have used Baby's Own Tablets ever since our first baby was born sixteen years ago. We have fine healthy children and the Tablets is the only medicine they received in their early years. Our baby is one and a half years old, is walking and talking and weighs 25 pounds. Baby's Own Tablets is the only medicine he has ever had."

Baby's Own Tablets are guaranteed to be absolutely safe for even the newborn babe. They are free from opiates and narcotics; act as a gentle laxative on the stomach and bowels and thus relieve constipation and indigestion; break up colds and simple fevers and make baby healthy and strong.

You can get Baby's Own Tablets from your druggist or direct by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Through Service For Steamship Passengers

Canadian Pacific Railway Inaugurates Through Tourist Sleeping Car Service

For the convenience of western passengers enroute to the Old Country, the Canadian Pacific Railway have inaugurated a through tourist sleeping car service from Winnipeg to Saint John, N.B.

These cars will leave Winnipeg on "The Imperial" at 10.00 a.m. every Tuesday until April 20th, providing through service to the ship's side at Saint John.

This service will prove extremely popular with passengers from the prairie provinces, eliminating as it does, changing trains at Montreal.

The Poor Man's Friend.—Put up in small bottles that are easily portable and sold for a very small sum, Dr. Thomas' Eclectric Oil possesses power in concentrated form. Its cheapness and the varied uses to which it can be put make it the poor man's friend. No dealer's stock is complete without it.

Lloyds Have Difficulty Estimating Auto Risks

Insurance Kings Admit Startling Increase In Accidents

A legal battle over the payment of large claims by Lloyds' underwriters for taxicab accidents in New York City has been averted by a compromise in London between Ernest Miller, treasurer of the Yellow Taxicab Corporation and Lloyds' representative.

The hazards of automobile accidents in America have amounted so rapidly with the increase of motor traffic during the years immediately following the World War that even Lloyds had difficulty in estimating the risks, according to Mr. Miller.

Difficulties ensued over the payment of claims, and the Yellow Taxi Corporation started suits in British courts against nineteen British underwriters. Upon intimations that a settlement was possible, Mr. Miller went to London. The claims were compromised at a figure understood to be $265,000.

The Chinese use safety first methods in shoeing a horse, the mild-mannered beast being securely straightjacketed for the occasion.

"Keep inside those fire-lines, there!" "But I'm a reporter." "Well, if you want to know anything about the fire, read tomorrow's paper."

A man is sometimes compelled to put up with those he does not love—pawnbrokers, for instance.

Minard's Liniment for dandruff

Builds up weak bodies

"Headaches, nervousness and dizzy spells were frequent. I wasted to 89 lbs. After sixth bottle of Tanlac, weigh 101 lbs., eat and sleep normally again, have no aches or nervousness." Mlle. Jeanne Aubin, 1946 Chateaubriand Ave., Montreal.

From Mother Nature's storehouse we have gathered the roots, barks and herbs which are compounded, under the famous Tanlac formula, to make Tanlac.

If your body is weak and undernourished, if you can't sleep or eat, have stomach trouble or burning rheumatism, just you see how quickly Tanlac can help you back to health and strength.

Don't delay taking Tanlac another day. Stop at your druggist's now and get a bottle of this, the greatest of all tonics. Take Tanlac Vegetable Pills for constipation.

England Talks To Chicago

Message Broadcast From Rugby Was Relayed By Phone

When William H. Safford answered his telephone he was startled to hear the operator calmly say:

"Hold the line for Rugby, England, please."

A moment later he heard the voice of his son-in-law, Arthur A. Oswald, whom he knows to be in England.

For twenty minutes the conversation continued, Mr. Oswald, who designed and built the Rugby radio telephone station for the British Postal Service, telling his father-in-law of the success of the venture.

The message, broadcast from Rugby, was pickd up by an unknown station on the Maine coast and relayed by telephone to New York and thence to Chicago. It was reported to be the first time a telephone conversation had been carried between Europe and Chicago, although such communication had been established with cities on the Atlantic coast.

Drives Out Rheumatism Subdues Lumbago

Brings Ease and Comfort to the Sufferer at Once

NERVILINE

A King Over Pain

Those who seek permanent relief from the grinding pain of Rheumatism and Lumbago should read the letter of F. E. Normand, from Georgetown, who writes:

"I was fairly crippled with aching joints and Rheumatism. Nerviline must have been what I needed, because it cleared up my trouble quickly."

"If you need a reliable, strong, penetrating pain remedy, one you can depend on, get a 35c bottle of Nerviline to-day; it will make you well quickly.

Advertising His Profession

A campaigner was constantly interrupted by a man in the crowd who kept shouting out, "Liar!" After about the twentieth repetition the speaker paused and fixed his eyes on his tormentor. "If the gentleman who persists in interrupting," he said, "will be good enough to tell us his name instead of merely shouting out his calling, I am sure we shall be all very much pleased to make his acquaintance."—Christian Register.

There are 9,577 electric signs in New York City.

Use MURINE FOR EYES
IRRITATED BY SUN, WIND, DUST & CINDERS

WRITE FOR FREE EYE CARE BOOK MURINE CO. CHICAGO, U.S.A.

Hemorrhoids

That Shockingly Painful Affliction

There are few of us who have not suffered from this trouble, but little do we realize that in most cases it is due to our own neglect.

Medical authorities agree that Hemorrhoids (piles) could be largely avoided were one to assist nature by observing nature's laws.

Hemorrhoids are most frequently brought about as a result of constipation. Therefore, assist nature by assuring an easy passage of the waste matter, and this can best be done by the use of *Nujol*.

Nujol simply softens the waste matter, and thus permits regular, easy elimination, without any overtaxing of the intestinal muscles.

Nujol, the scientific internal lubricant, replaces the lack of nature's lubricant, and obviates the possibility of constipation.

Ask your druggist for *Nujol* today and remember—look for the name "*Nujol*" in red on both bottle, label and package.

House Adopts MacPhail Motion

Resolution to Produce Productive Work For Penitentiary Inmates

After brief debate, the house at Ottawa adopted a resolution moved by Miss MacPhail that the administration of penitentiaries be amended to provide:

(1) Sufficient productive work to keep the inmates employed;

(2) That a share of the proceeds go to dependents, and in case of no dependents such share to be held in trust until release.

Miss MacPhail moved a similar resolution last session, but it was talked out.

Hon. Ernest Lapointe, minister of justice, supported the resolution, which was adopted without opposition amid applause.

Miss MacPhail explained it was her purpose to provide only for the production of goods needed by the Federal Government.

The resolution had been presented last year and had received very favorable comment. She believed it would have been adopted if the 6 o'clock adjournment had not arrived too soon.

"DIAMOND DYES" COLOR THINGS NEW

Just Dip to Tint or Boil to Dye

Each 15-cent package contains directions so simple any woman can tint soft, delicate shades or dye rich, permanent colors in lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings—everything!

Buy Diamond Dyes—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

A Queer Family Group

Chickns, Deer and Cat Live Together In Kansas Zoo

Perhaps the queerest family group lives in the Atchison Zoo, Kansas. In a pen live Dixie, buck deer, six chickens, and a big yellow alley cat. At night the deer curls up in its shelter and the cat and chickens hover in close proximity absorbing the warmth from the deer's body.

At feeding time the deer pushes its muzzle into the feed trough and then lets the chickens pick the bits of bran and grain from its face. And the cat has forgotten how to wash its face and hands. Dixie gives the cat a thorough tongus bath regularly.

London's Oldest Industry

Whitechapel Foundry Has Been Casting Bells For Over 600 Years

Probably the oldest industry in the metropolitan area of London is that of making church bells. A foundry in Whitechapel has been casting bells for over six hundred years, and is still so supreme that the whole world sends to it, or to another almost equally old firm at Croydon on the outskirts of London, when a reliable and true peal or carillon is to be constructed.

The ease with which corns and warts can be removed by Holloway's Corn Remover is its strongest recommendation. It seldom fails.

Saw Queen Victoria's Wedding

London Woman Aged 101 Remembers Many Historic Incidents

The oldest inhabitant of the city of London is Mrs. Emma Oliver, aged 101. This, however, does not mean that she is the oldest woman in the vast metropolis of London, but that she is the oldest in the "City," which is the business section and the original nucleus of London. Among the historic incidents she has seen are the wedding of Queen Victoria in 1840, and the Duke of Wellington's funeral. She also witnessed in 1864 the hanging of five pirates at Old Bailey.

Northern Ireland Has Many Autos

Northern Ireland, although better served by railways than the Irish Free State, has an automobile for every forty inhabitants. In Southern Ireland there is only one motor vehicle for every eighty inhabitants.

Toasting bread converts the starch into a more easily digested substance, dextrose.

An optimist can derive much pleasure from thoughts of troubles which do not trouble him.

First impressions are seldom correct—so the proofreader tells us.

To Advertise Canada Abroad

Special Canadian Supplement of the Christian Science Monitor

What Canada needs at the present time more than anything else is advertising in those other countries of the world where there is capital looking for investment and people looking for opportunities to get away from forbidding conditions and establish themselves where they will have a new chance in the new world.

This country has got everything that the surplus men and the surplus money of older nations may be looking for—everything in the way of opportunity for the investment of capital and where landless people can acquire homesteads and set up enterprising communities.

The time is ripe for Canada to present her case to the world and in securing this foreign advertising, we believe the special Canadian supplement to The Christian Science Monitor which will be issued next month will do important service. There will be an issue of 250,000 copies, of which 100,000 will circulate in the United States, 50,000 in Europe and Australia and 100,000 in Canada, largely for mailing abroad.—Toronto Star.

The Best Medicine I Have Ever Taken

So Says Mr. Arthur Simmons Of Dodd's Kidney Pills

P.E.I. Man Used Them For Sore Back and Headaches

Miscouche, P.E.I.—(Special).—That Backache and Headaches are caused by weak kidneys and that the right way to treat them is to use Dodd's Kidney Pills, is again shown by the experience of Mr. A. Simmons, a well-known and highly respected resident of this place.

"Dodd's Kidney Pills have been a great help to me. Before I started to take them I had severe pains in my back and suffered with terrible headaches. I felt well after I had taken the first box and now I am taking them all the time. They are the best pills I have ever taken."

The work of the kidneys is to strain the impurities out of the blood. It is necessary work if the body is to be kept healthy. It is a trying work, for the kidneys are constantly in contact with the seeds of disease.

Find Ammunition Cache In Dublin

Two tons of high explosives, 285 live bombs and hand grenades, 5,000 spare parts of bombs, 5,000 pounds of rifle ammunition and 10,000 detonators in addition to bombing machinery, have been found in a stable in North King Street, Dublin.

It is said that woman shares man's grief, doubles his joys and trebles his expenses.

LEG SORES

ARE CURABLE. If you suffer from Leg Sores or Varicose Ulcers, I will send you ABSOLUTELY FREE a copy of my famous book that tells how to be rid of these troubles for all time by using my remarkable painless treatment. It is different from anything you ever heard of, and the result of over 35 years specializing. Simply send your name and address to Dr. H. J. WHITTIER, Suite 29, 421 East 11th Street, Kansas City, Mo.

On Threshold Of Great Things

Canada Now Facing An Era Of Abundant Prosperity

"Canada is on the threshold of great things," declared Sir Henry Thornton, president of the Canadian National Railways, who was formerly general manager of the Great Eastern Railway in England, and also an executive officer of the Pennsylvania Railway, in a recent address to the Ottawa Council Knights of Columbus, according to the press report of his remarks.

"I am charged with being an optimist on things Canadian," continued Sir Henry. "I plead guilty because I know I am right. All civilization has suffered from the effects of the great war in blood and treasure. The white race must pull up its socks and start about the job of repairing the damage done in as effective and prompt a way as possible. We have done well in Canada, however, and our currency is on a parity with that of the most opulent nation in the world. Last year we had an abundant crop. Out west the people are optimistic, happy and prosperous. Bankers all over the country see better times. Mineral areas are being opened in many parts of the country. Millions are being invested daily in Canada. In one section of Quebec alone over 100 millions of money is being put to work, and here some 1,300,000 horsepower is being developed. Is it reasonable to suppose that business men or the financial interests would put hundreds of millions into a country that does not offer assurance of good returns? Canada is on the up grade," said Sir Henry.

Motor Run On Charcoal

Fuel Cost Only $2.35 For Trip of 450 Miles

A Swedish-built motor truck, equipped with a charcoal-burning generator and carrying a load of two and a half tons, has completed a trial trip between Malmoe and Stockholm, a distance of 450 miles. The total fuel cost is declared to have been approximately $2.35.

Experiments with charcoal generators have been going on in Sweden for some time, as well as with the use of a mixture of gasoline and wood alcohol. Both methods are said to have been perfected for commercial purposes. Sweden has no domestic petroleum supply.

Largest National Park

Jasper National Park in Northern Alberta, with an area of 4,400 square miles, is one of the largest "playgrounds" in the world. A part of this reserve to the north of the central section is still unexplored, but the park is being rapidly opened up by the construction of trails and highways.

THIS WOMAN NOW WELL

Her Suffering Relieved and Health Restored by Lydia E. Pinkham's Vegetable Compound

Toronto, Ontario.—"I am certainly very grateful for the benefit I have received from Lydia E. Pinkham's Vegetable Compound, also the Sanative Wash and the Liver Pills. In the early spring I was suffering so much from loss of blood that I thought I would never be any better as doctor's medicine relieved me only for the time being. I saw the Vegetable Compound advertised in the 'Toronto Star,' and I find the Vegetable Compound Tablets the best for me. I have been taking them since Spring, and I intend keeping them by me all the time. After reading your Private Text-Book I saw it was necessary to use Lydia E. Pinkham's Sanative Wash, and I can safely say I feel a different woman. My friends remark how well I look. I am a very busy woman, but I am ready at all times to boost your medicines."—Mrs. CHARLES GIFFIN, 949 Landsdowne Avenue, Toronto, Ontario.

You may be having an experience similar to Mrs. Giffin's and will be interested to know what she did. Every sick woman can feel confident that Lydia E. Pinkham's Vegetable Compound will help her, since we are told that it does help 98 out of every 100 women who take it.

Sold by druggists everywhere. C

Is Phantom City Mirage?

Residents On Maine Coast Cannot Account For Phenomenon

A phantom city plays a part in the legendary history of the Penobscot River. Fogs at that point on the Maine coast are very thick and cold.

When the fog does part, however, the golden walls of the phantom city of legend may be seen among the dark pine trees of the wooded shore.

Its streets are paved with ivory and pearl, gardens of glowing fruits and flowers surround its palaces, and bright banners fly from its tall towers. Drum-beats and bugle calls are heard, and its lofty spires glitter against the clouds. Then, as suddenly as it has appeared, it vanishes in the enfolding fog.

When the farmers and shipbuilders along the Penobscot were more credulous than they are today, more than one expedition set out to find the lost city, only to behold sombre evergreens and a tangle of wild briers, on the heights of Mount Desert. The suggestion has been made that it was a mirage of Montreal or Quebec, or some other large city many miles away; but this does not account for drums and bugles or strange flags bearing an unknown device.

Still less does it explain the Indian tradition that the rich and beautiful metropolis of a highly civilized white race once stood on the spot. Nor does it explain the name, Norembega, by which it was known among the Indians.

Why Allenby Chose A Military Career

Failed In Examination For Indian Civil Service Says Field Marshal

Another interestnig story tells how Lord Allenby owed his career of success as a soldier to a youthful failure in an entirely different walk of life. The episode formed the subject of an autobiographical reference during the presentation of the freedom of the City of London to the victor of Palestine:

The city chamberlain, Adrian Pollock, in an address of eulogy, had said that the field marshal was not originally intended for a military career, as from Haileybury, where he was educated, he had successfully passed the difficult examination for the Indian Civil Service, but the lure of the army proved too great, and he threw over the coveted opportunity he had won by his talents and industry.

It was a picturesque story, but the field marshal quickly spoilt it by telling the bald, blunt and less romantic truth. He had tried to pass the examination for the Indian Civil Service but, with the best of assistance, he had failed. He was happy then that he had failed, otherwise he would not have been standing there to receive that great honor.

That was full recompense for anything that might have happened to him then, he said.—Bystander, in Toronto Globe.

Urge Autoists To Save Birds

Motorists have been appealed to to try to avoid accidentally killing birds when travelling through the country side. It was discovered on a stretch through one of the middle states, that more than fifty birds had been killed by automobiles, due to the birds flying against the machine. It is argued that motorists could avoid killing the birds to a certain extent. Many of the fliers are not killed outright and if given aid could be resuscitated.

The Jazzy Typewriter

Instead of tapping out pages of letters with not even a sentence to relieve the monotony, girls at a certain college in London learn typewriting to the accompaniment of fox-trots and stirring military marches. If a girl has a good sense of rhythm, this system is said to hasten the early stages of training in a remarkable way.

Cat Worries Sheep

It is rarely that farmers experience trouble through cats worrying sheep, but George Sperson, of East Grey, Ont., reports that recently he was forced to kill a cat which had worried two sheep to death.

After you observe the way women treat a shop girl, the manners of a five-ton truck don't seem so bad.

But few people feel like doing today the things that they put off yesterday.

Venture Was Successful

Iowa Photographer Made Trip Around World Alone In Small Boat

Harry Pidgeon, the Iowa photographer who studied navigation in the public library, built himself a 34-foot yawl and sailed it around the world single-handed, came to New York to receive the Blue Water Medal of the Cruising Club of America, awarded once in five years for the most remarkable accomplishment in deep water navigation.

When Pidgeon docked his little boat, "Islander," at San Pedro last November 1, it was just four years since he grasped the tiller and steered eastward out of the harbor, with the jeers of "lunatic" and "crazy landlubber" ringing in his ears—his farewell from skeptic sailors on the west coast.

Thirty-eight thousand miles of water passed under the keel of the "Islander" before she nosed into San Pedro harbor again. Whales had browsed her thin sides and nearly capsized her when she was becalmed off the Cape of Good Hope. Heavy seas had whipped her rigging and found it sturdy. Once the wind shifted and she ran ashore on the South-east African coast, while her master was below taking his watch. Even cupid tried to steer her into marital seas, but the woman in Natal who wanted to stay aboard was left behind.

And when Pidgeon docked his craft last November, his remark was "Who's looney now?" to the sailors who scoffed at his idea.

The decision of the Crusing Club of New York to award him the famous blue water medal is his final triumph.

Science Plans A Superman

Not An Impossibility Says Editor of Science Service

Creation of a superman by chemists is not an impossibility, according to Dr. Edwin E. Slosson, editor of science service.

In an address to the Washington members of the American Chemical Society, Dr. Slosson told how bees created their queen by feeding the cells or larvae a kind of jelly-like mixture extracted from flowers.

The bees, he said, wanted their queen to be bigger, stronger and better than themselves, and this jelly-like mixture produced that result.

He suggested chemists might learn of what this substance was made and by feeding it to human beings might be able to produce a superman.

Might Run Past

"Of all the fool questions I've had to answer in forty-two years on this railroad," snorted a grizzled conductor on the train from Copake Falls to New York City, "that old woman up there just popped the prize winner.

"'Conductor,' she said, worried to death she's goin' to get lost, 'are you sure this train stops at Grand Central Station?'

"'If we don't ma'am,' I told her, 'you'll never know it.'"—New York Evening World.

A Super-Centenarian

Ireland, famous breeding ground of hale and hearty old men, has produced a super-centenarian. He is William Smith, of Dromara, County Down, and has celebrated his 125th birthday. He was middle aged, according to ordinary standards, when he went on to fight in the Crimean War. His most strenuous exercise nowadays is walking a mile each Friday to receive his pension.

"Henry, will you move my trunk upstairs?"

"Which one, love?"

"All of them; then I'll be sure to get the right one."

"On the level, will this fliv run?"

"On the level, not so good, but you should see her coast."

Cuticura Soap Shampoos Keep The Scalp Healthy

Regular shampoos with a suds of Cuticura Soap and hot water, preceded by light applications of Cuticura Ointment, are most effective. They do much to cleanse the scalp of dandruff, allay irritation, stimulate circulation and promote the healthy condition necessary to a luxuriant growth of hair.

Sample Each Free by Mail. Address Canadian Depot: "Stenhouse, Ltd. Montreal." Price, Soap 25c. Ointment 25 and 50c. Talcum 25c. Cuticura Shaving Stick 25c.

Tibet City Bars Electricity

Rulers of Lhasa Refuse to Allow Modern Improvements

Lhasa, the forbidden city of Tibet, does not want electric lighting. Its rulers, the lamas, are afraid that the light of modern knowledge might be spread by the introduction of modern machinery, and that would be fatal to their authority. To run an electric plant in Lhasa would call for education among the operatives and involves contact with the outside world.

Hence the massacre of a party transporting 300 tons of electrical equipment intended for use in the forbidden city. Every member of the convoy was killed and the machinery was destroyed and thrown over a precipice.

It is an uncomfortable, but not a poor, country. The population remains almost stationary for the reason that there is no immigration; polyandry is common and celibacy prevails among the lamas, who number about 500,000 in a total of something like 6,500,000 people.

Nobody wants to migrate to a land where the temperature often varies in a single day from roasting heat to below freezing point. The industries are primitive and will remain so while the lamas are in control.

But even Tibet will not be able indefinitely to resist the march of progress. The killing of the young Tibetan who was educated in England, and who wanted to bring electric lighting to his people, will not end the search for knowledge. Others will be inspired rather than deterred by his fate and in time break down the barriers of ignorance.

Smallest Watch In World

Timepiece Made By Vancouver Watch maker Keeps Perfect Time

Walter Lett, Vancouver watchmaker, claims to have produced the smallest watch in the world after two years of labor.

Made for and mounted on a tie-pin, the watch can be covered easily by a silver five-cent piece. Alongside of a regular railroad watch the tie-pin timepiece is about one-fifteenth the size of the regular watch.

The delicacy of Mr. Lett's task may be appreciated when it is stated that the screws used would carry 250 threads to the inch, and that it would take 30,000 of them to make a pound. Similar screws, placed on a white sheet of paper, show without a powerful glass, as mere specks, much smaller in length than the width of a pin-head.

The watch, in its entirety, weighs three and one-half pennyweight, or 84 grains. Yet it ticks right along and keeps perfect time. Mr. Lett made the special magnifying glass required is the manufacturing of the watch and made also what is believed to be the only dial indicator of measurement, which gives the exact dimensions of the thinnest sheet of paper.

Little Helps For This Week

I will help thee, saith the Lord. Isa. xli., 14.

There ran a whisper through the list ening sky,
"Look up and fear not, do thy work in joy;
Train nerve and sinew in the glad employ
Of simple souls that neither strive nor cry;
Drink happy draughts of love that will not cloy;
Life shall not fail thee, for thy Lord is nigh."

When do we lift each other up? Must we gain a height first, or can we reach up our feebleness together to the hands that do offer us a mighty help from on high? Near-doing, and near-living, and near-loving, these life particles make the great heaven, as the little polarized atoms of light, all magnetized one way, make the great blue in which the stars burn forever.—Adeline T. D. Whitney.

Dog Makes Spectacular Leap

A little terrier caused a stir on the liner Berengaria at Southampton recently. The dog broke away from his leash and many persons on deck joined in an attempt to catch him, but he jumped into the sea 85 feet below, and had to be rescued by occupants of a small boat.

The man who is too poor to lend his friends money will never have many enemies.

Minard's Liniment used by physicians

Looking For Better Times

Irish Believe Fairies Are Back and Will Bring Good Luck

The horns of Elfland have been heard blowing recently near Milltown, Ireland, and hundreds of people have been travelling daily to a clump of bush, recently cut down, whence the unearthly music is said to proceed. Many declare they could hear strange haunting melodies.

As the story goes, a horse was saved from the Blackwater River, and two young men told the owner they saw it being driven furiously by a veritable leprechaun—a little man in red.

At the cutting of a thornbush, Elfin music was heard, while there are several persons who claim they picked up tiny candles.

The old folks say Ireland never has seen good times since the fairies departed, and that now that they have returned, brighter days may be expected.

ALWAYS TIRED OUT

People Who Feel Like This Need the Help of a Tonic

The dictionary defines a tonic as a medicine that increases the strength and gives vigor to the system. That tells why Dr. Williams' Pink Pills are a real tonic. Thousands of men and women are ailing to-day, not sick in bed, but without ambition to do a full day's work, though they are forced to keep on. They are always tired or nervous; do not sleep well, and awake in the morning unrefreshed. Many have headaches, backaches and stomach trouble. Such people need the tonic help of Dr. Williams' Pink Pills. The beneficial effects of this medicine reaches the whole system. Dr. Williams' Pink Pills do more than relieve the symptoms—they remove the cause. Mrs. E. Virginia Gray, Tofield, Alta., has proven the value of this medicine and says:—"I can sincerely recommend Dr. Williams' Pink Pills for a tired and run-down condition of the system. I have followed the nursing profession for a number of years and after a few weeks of hard or trying cases I take two or three boxes of Dr. Williams' Pink Pills, and always with the very best results. The pills also proved a great boon to my daughter at a trying age, and I have seen splendid results follow their use in other cases."

Dr. Williams' Pink Pills are sold by all medicine dealers or sent by mail at 50 cents a box by The Dr. Williams Medicine Co., Brockville, Ont.

Advertise the Prairie Climate

Instead of apologizing for the western climate, and pointing out compensating advantages, we should advertise it and make it known as an asset. If the health of the people is any guide to the virtues of the weather they enjoy, Saskatchewan's climate cannot be excelled. The death rate is lower here than anywhere else on earth.—Saskatoon Star.

Consistence is a jewel which the pawnbroker refuses to recognize.

Silent contempt is responsible for many an unblacked eye.

Nurse's Advice Rid Her Of Pimples

Brooklyn. Mrs. Minnie Fenstere writes:—"My pimples and black heads got so bad I feared it was eczema. I confided in a nurse friend of mine. I had been troubled with constipation and indigestion for some time. She advised me to try Carter's Little Liver Pills. You can see by my picture that the treatment has done wonders; and I am now free from constipation.

Chronic constipation many times causes pimples. Carter's Little Liver Pills encourage the bowels to eliminate the poisons.

Thinks Women Should Take Aeroplane Flights

Would Allay Fears Regarding Aviation Opinion of Officers

Twelve reserve officers of the Eighth Corps Area who have made a report to Major-Gen. Ernest Hinds, commander on reserve training, San Antonio, Texas, believe woman's place is in the air as well as the home.

The officers recommended that all reserve officers of the Air Service be placed on active duty, without pay and allowances, at certain intervals, to permit their wives to take aeroplane flights with competent pilots.

"This suggestion is offered with the idea that such action will stimulate the enthusiasm of the Air Service Reserve, and will reduce the objection now so prevalent on the part of their families to flying," the report said.

Clever Artist Was Handless

Trained Himself To Hold Brush and Pencil With Toes

Alexander Alexander, who although born without hands gained a considerable reputation as an artist, has just died at Edinburgh.

On several occasions he had paintings hung at exhibitions of the Royal Scottish Academy, in one year two pictures being accepted.

Since boyhood he had trained himself to hold brush or pencil with his toes.

When a valuable miniature, about one inch in size, by a famous Italian artist, was defaced, Mr. Alexander undertook the delicate work of restoration, and completed it in 12 days.

"But," she protested. "I've been told that you are a reformed rake."

"'Tis false!" he replied vehemently. "Why, I've never even thought of reforming."

Genuine BAYER ASPIRIN

Proved safe by millions and prescribed by physicians for

Colds Headache Neuritis Lumbago
Pain Neuralgia Toothache Rheumatism

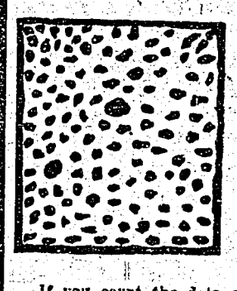
DOES NOT AFFECT THE HEART

Safe — Accept only "Bayer" package which contains proven directions.

Handy "Bayer" boxes of 12 tablets
Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

$500 IN CASH Prizes



1st Prize $100

Make Your Town Spotless

A spotless and well-kept town is a people's best asset. If all of us—if every citizen—would care for the city street in front of his residence, what a lot could be done to keep the city spotless What this town—your town—my town—need is that each citizen should take a good look at himself—at his home property and business property—at his front yard and back yard—at the street in front of his place—and ask himself if he has done or is doing his part to make a town beautiful out of it.—Okanagan Commoner, Enderby.

The Greenwood City Council has decreed that the annual Cleap-up Days this year will be April 27th and 28th. Everybody is expected to do their duty.

Rock Creek Items

Miss Doreen Hamilton, who has been ill, is now much improved.

Mr. Parsons, custom's officer, of Chesaw, was a visitor to town on Friday.

Mrs. A. Bonnett and son of Nicholson Creek, were visiting in Grand Forks last week.

Miss Barker, teacher of Myncaster school, has returned from attending the Easter vacation at Nelson.

Slim Johnson and John Fernstrom, of Nicholson Creek, are cutting timber for McCelvey on Myers Creek.

Service in the Rock Cteek Anglican Church on Sunday, April 18th at 11 a.m. Sunday School at 10:15 a.m.

The Misses Mary Kerr, Cecilia Hallstrom and Vera Walmsley, of Greenwood, attended the dance on Friday evening.

Captain and Mrs. K. R. Davies, of Nicholson Creek Chateau, were visitors to Grand Forks on Wednesday of last week.

The annual meeting of the Greenwood District Rod and Gun Club will be held in the Kettle Valley School at 8 p.m. on Friday, April 23rd.

Don't forget your cups if you want a drink of coffee at the Norris Auction on Saturday in Midway. You needn't bring any plates as you will have a chance to buy some.

Lewis Brew left on Wednesday's train for Nelson, where he has secured a position with the Hudson Bay Mining Co. Kettle Valley will surely be lonesome without Lewis.

The golf medal competition which was played on Easter Monday, on the Kettle Valley links was won by Douglas Hamilton, first, and Ed. Richter, second. The Bogey competition will be played on April 18th.

The Rock Creek baseball team played their first game this season on April 11th, on the home diamond. The visiting team came from Chesaw who were assisted by several of Midway's best players. The visitors won by 15 to 4.

A Dance in aid of the Rock Creek Baseball Club will be held in Riverside Hall, Rock Crek, on Friday, April 23rd. Bush's orchestra will supply the music. Adults $1.00, children 50c., including supper. A good time guaranteed.

Miss Dolly Pittendrigh, of Rhone, who has been spending the Easter holidays with her sister, Mrs. Gannon, in Spokane, returned on Saturday evening's train, accompanied by her sister, Onie, who has been ill for almost a year, and is still unable to walk.

E. S. Hemming and H. J. Hemming, of Beaverdell, nephews of Mrs. Ed. Hatton, returned last week from a three months trip to the Old Country. The constant rain there did not appeal to them, after having sampled for a couple of years, the delightful climate of British Columbia.

Major and Mrs. R. Gray, of Kettle Valley, gave an old time card party at their residence on Thursday evening, to the many pioneers of the Valley, in honor of Captain and Mrs. Davies, who are leaving shortly for England. There were six tables of cards and at 12 o'clock a most dainty supper was served and after it was partaken of, Mrs. Gray sang several songs in a most charming manner. The enjoyable affair came to close after singing "For they are jolly good fellows."

The Rock Creek Junior W. A. Fancy Dress Dance held in Riverside Hall on Friday evening, was a great success, the hall being filled with merry makers from the surrounding district and the U.S. boundary. The childrens costumes were very lovely, the Two Little Girls in Blue, the Turkish Lady, Highland Lassie, Pierrett, Shepherdess and Red Riding Hood being exceptionally pretty. The grand march was held at 9:30 with 36 children taking part, after which the prize winners were announced as follows: Best dressed girl, Elsie Gane, who was simply perfect as an early Victorian Lady; best dressed boy, Charlie Warrington, as a fierce bold Pirate; two comic prizes, girls, Rachel Johns and Phyllis Wheeler, as the Gold Dust Twins, acted their part wonderfully and caused many screams of laughter. Great credit for the costumes and make-up is due Mrs. Arthur Rusch, who certainly had a very difficult task. The original costume, girls, was awarded to Ruth Whiting, who looked lovely as a Chinese lady, while Billy Kayes received the prize for the most original boy, as Felix the Black Cat. His costume was very good and he made a lively pussy. Many thanks are due to Mr. and Mrs. Romstead, of Ferry, J. H Bush, of Midway, and others, who supplied the music voluntarily. They played in turns and certainly helped to make the dance enjoyable. The door receipts amounted to $72.50. Great credit is due the Junior W. A. and their superintendent, Mrs. R. Norris, in coming forward so nobly to help the church, which is in great need of funds. After expenses are paid the balance will go to the wardens for church use, as the Rock Creek church is practically called upon to support the biggest share of the Diocesan expenses. The dance has been asked to be made an annual event.

Doris Kenyon and Milton Sills in "I Want My Man"

a dramatic sensation with a master's touch to be shown at the Greenwood Theatre on Saturday, April 17th.

Through Rose Colored Spectacles

Too often Life Insurance is regarded solely as a means of protection for dependents. It is that. But a more sensible way to look at it is to regard it not only as the means to insure protection for dependents in the event of death, but in addition to provide for one's own comfort in later life.

The Confederation Life Association provides this dual insurance in the form of a Peerless Policy which has been found to meet the requirements of the business and professional man.

We should like to send you a booklet entitled, "The Peerless Policy." It describes this dual plan of insurance precisely. Write for a copy.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partly free, permits are available for settlers, campers and travellers, up to ten head.

"Provincial Elections Act"

GRAND FORKS - GREENWOOD ELECTORAL DISTRICT

NOTICE IS HEREBY GIVEN that I shall, on Monday, the 17th day of May, 1926, at the hour of 10 o'clock in the forenoon, at the Court-House, Greenwood, hold a Sitting of the Court of Revision for the purpose of revising the List of Voters for the said Electoral District, and of hearing and determining any and all objections to the retention of any name on the said List, or to the registration as a voter of any applicant for registration; and for the other purposes set forth in the "Provincial Elections Act."

Dated at Greenwood, B.C. this 6th day of April, 1926.

P. H. MCCURRACH,
Registrar of Voters
Grand Forks - Greenwood
Electoral District.

TO END OF DECEMBER, 1924

Has produced Minerals as follows: Placer Gold, $77,382,953; Lode Gold, $118,473,190; Silver, $68,824,579; Lead, $70,548,578; Copper, $187,489,378; Zinc, $32,171,497; Miscellaneous Minerals, $1,431,349; Coal and Coke, $260,880,048; Building Stone, Brick, Cement, etc., $42,225,814; making its Mineral Production to the end of 1924, show an

Aggregate Value of $859,427,386
Production for the Year Ending December, 1924, $48,704,604

The Mining Laws of this Province are more liberal, and the fees lower, than those of any other Province in the Dominion, or any colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown Grants.

Full information together with Mining Reports and Maps, may be obtained gratis by addressing—

THE HON. THE MINISTER OF MINES
VICTORIA, British Columbia.

N.B. Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B.C. Reports of the Geological Survey of Canada, Pacific Building, Vancouver, are recommended as valuable sources of information.
