VOL. 18 CRANBROOK, B.C, SATURDAY MORNING, APRIL 6th 1912 No: 14

Terrorized by Armed Strikers

Invade Camps and Demand Meals

Vancouver, Apzil 2.—Over six hundred strikers, many of whom were armed with revolvers, shotguns, rifles and clubs, yesterday drove off station men from the grade on Burns & Jordan's contract on the Canadian Northern railway at Yale and compelled them to stop work. Similar incidents are reported to have occurred all along the line for 20 miles in the camps of Cunningham & Chew. The station men have hitherto refused to listen to appeals of the Industrial workers of the World leaders and only yielded through fear of being maltreated.

SHOT BY CONSTABLES.

Information received today at the engineering offices of the Canadian Northern railway in Vancouver, is to the effect that the strikers have also committed other illegal acts, indicating that the trouble promises to become more acute as they get out of funds. They are charged with invading several of the camps and compelling the cooks, under threats, to serve them with free meals or be thrown into the Fraser. The police thus far have made no arrests,though one striker had his leg broken by a constable's bullet.

On Saturday night 70 men nearly all Austrians, descended on the camp of Martin Wilson, a sub-contractor, operating east of Spences bridge. They were armed with clubs and stones and intimidated the camp cook declaring that he must stop providing meals for the men who had not quit work. They put out the fires in the cook house and threatened to throw the cook into the river if he relighted them.

SUPPLY WAGONS HELD UP.

A force of strivers stopped the supply waggns of Grant, Smith & Keary sub-contractors, which were on their way from Spences bridge to the firms camps with feed for the horses. The teams were taken out of the wagons and the drivers ordered to leave the supplies on the road. This order was enforced.

Walking delegates of the Industrial Workers of the World on Saturday proceed from camp to camp along the grade reading a proclamation calling on the men to quit work. Contractors state that in no case so far reported did any of the strikers make a demand for higher wages. They declare the men merely threw down their tools and gave no reason for their action.

F. Handy, division engineer at Waltachin, about 50 miles east of Spences Bridge, reports that strikers were acting in an ugly manner along his division. They have, he reports, run station men off the grounds and forced them to furnish them with free meals.

INTERVIEW PREMIER.

Representatives of the contractors at work on the line of the Canadian Northern railway had an interview with the premier and the attorney-general today with reference to the situation that has been caused by the striking construction men between Hope and Kamloops in the Fraser valley. The view of the situation was set fourth by T. H. White, chief engineer of construction; J. M. Mercer, superintendent of the Northern Construction company; Angus McDonnell, of Grant, Smith & Co., Robert Twohy and Alexander Kellet.

The gist of their explanation was that the trouble originated really last Agust, when a couple of representatives of the Industrial Workers of the World established themselves at Lytton and began persuading the men to join that organization. Entrance fee was $1 each and the dues 50 cents per month. As the money came in from these sources, secretaries and other agitators were employed and permanent headquarters were established at Lytton. The contracwere aware that these things were going on but had no idea of the progress that the mischief had run until on Thursday last. The contractors alleged that, as a matter of fact, there were not more than 20 active agitators engaged in the whole business. The men made no demand for increased wages or anything else. They simply quit their work and as the crowd increased they went from camp to camp persuading or coercing others to quit until the whole 6,000 men along the construction line were idle. About 1,000 of these men are still in camp and are being fed at the contractors expense, as they all say that they are quite willing to go to work again if given adequate protection. The other men are hanging about in large numbers in the neighborhood, while several have apparently left and gone to the coast. Unless protection is afforded at once the contractors declare that they will not be able to keep their good men together and the result would be that their gangs would be completely depleted and the work of construction would simply have to be done over.

WILL GIVE PROTECTION.

The premier in answer assured them that any men who wanted to go to work would be given full protection in so doing. He added that Superintendent Campbell of the provincial police would be sent to Yale immediately, where he would consult with Inspector Smith who will be on the ground with men and protect any of the men that wished protection. Having thus looked into the situation Superintendent Campbell will take whatever steps are adjudged necessary for the preservation of the peace and for the protection of any of the men who may desire to return to work.

As a matter of fact the government has already a considerable force of special police on the ground. The extra men were sent out today, one from Victoria, one from New Westminster and one from Abbottsford. There are also two provincial policemen at Yale, two at Lytton, two at Spences Bridge, two at Ashcroft and two at Savona. Although there have been many rumors of disorder or threatened disorder at different points the only case which has been reported to the government is that of Spences Bridge where a special officer shot a striker in the leg. This man was sworn in by a justice of the peace and was in the pay of the contractors. His case comes under the attorney-general's department in the matter of shooting. The executive of the Industrial Workers of the World at Yale has telegraphed the attorney-general suggesting that the saloons should be closed until the trouble has been settled. Superintendent Bampbell left for the field of disturbance tonight.

Loan Society's Report

The annual report of the loan company heretofore known as the Canadian Birbeck Investment & Savings Company is to hand. It appears that the company's affairs are in an even more than usually flourishing condition, and in view of the fact, the name Birbeck has been long identified in Great Britain with the business of taking deposits its inclusion in the corporate name of the Canadian Company has been felt to be of detriment to it. The Canadian Birkbeck Company having made a rule not to accept money on deposit. There is absolutely no connection between the old country corporation and the Canadian corporation, the similiarity of names has caused a great number of people to imagine that they were in fact identified. For these reasons the Canadian company has decided to change its name and an act of parliament has been obtained changing the name of the company to the Canadian Mortgage Investment Company.

This company has for many years freely loaned money in Cranbrooy. It has, in fact, showed a special leaning towards Cranbrook investments, and its assistance through its excellent medium of building loans, has been an important factor in the up-building of Cranbrook, particularly as a town of handsome residences.

Crushed by Rocks

On Friday last, a cavein in No. 1 mine south, at Coal Creek resulted in the death of Wm. Whitele, an Englishman, from Lancaster, and serious injury to two other miners.

Wm. Corlett's ribs were fractured, and another man, name unknown, had his leg badly crushed by the falling rock.

An Italian working in the same room was missing for a time. It was thought that he had been caught beneath the cavein, but it was later learned that he had escaped.

Whitele was about 33 years old, it was said leaves a family in Lancaster, England.

What citizen is there in our city who does not feel some degree of self pride in its welfare? That cannot call to mind some meritorious advantage which could be spoken of to advantage when ever an opportunity is afforded them? Who is there among our people who has not the patriotism in their veins to stand boldly up in defense of and contradict any statement made that he knew would prove injurious to our town and people? Who does not wish to have it said of them when they are gone that the city and community in which they lived has been made some better by them having lived in it?

City Council Meet

Reception of Board of Trade Delegates $5000.00 Grant asked for

City Pay Day changed to 15th of month

Future Council Meetings to be held 2nd monday in month instead of 1st monday as heretofore

A meeting of the City Council was held in the Council Chamber on Monday afternoon. Mayor A.C. Bowness presided, with Aldermen Johnson, Clapp and Atchison in attendance.

Minutes of last regular monthly meeting was read and on motion adopted as read.

There being a delegation from the Board of Trade in waiting, permission was granted them to address the council. Mr. W. F. Gurd, chairman of the delegation, briefly outlined what the Board of Trade was doing and what they proposed doing along the lines of publicity; also trying to show the council the possibilities of the district and the dire need of having a publicity man, who would devote the whole of his time to the work. But to do this it was first necessary to have a guarantee of income and a certain amount of surplus guaranteed for advertising and travelling expenses and the reason that the delegation was instructed to wait on the council at this time was to ask them to donate the sum of $5,000 for this purpose.

Mr. Ira Manning, also a member of the delegation said: that there was a real need for such a man to look after the packing of fruit for the market, as for instance there was a case that arose last fall where a man with others had grown so much fruit that the local market for the time was over-crowded, and some had to be shipped to Calgary. The man being inexperienced, knew very little about packing and had to get what assistance he could. Now if this publicity man could be had, one of his duties would be to keep posted on market conditions, and inform the grower where he could find the best market, also the best manner of packing fruit, thus giving the farmers of the district the necessary information that would place them in condition that they might compete with the older and more experienced fruit growers.

Mr. P. Lund, of Wardner, addressed the council, and during his somewhat lengthy remarks said that the council and people should give the proposition their heartiest support. I am confident that Southeast Kootenay will develope from now on very rapidly and it is important that such a matter should be attended to at once.

I have some 240 acres in Wardner, and the same in Marysville, that are growing garden produce at the present time under the most adverse conditions because they are subjected to the two extremes of the climate, hot and cold, and still they are to be very favorably compared with the best in the district.

Mr. O'Connell, manager of the Royal Bank said that he was very much in favor of the proposition and that so far as the financial end of it was concerned that it should not be allowed to hinder the people from taking it up. It was a public question and should be treated in a public spirit.

Mayor Bowness in response, said: that personally he was in favor of the project, but the sum asked for, $5,000 was he thought a little too large, not in itself, but in respect to local improvements that were being planned for the coming year. Nothing, however, could be done until the estimates for the coming year were prepared, then they, the council, would be in condition to know if the city finances would warrant it being done. But he wanted to say to them that he could not give them very much hopes of this amount being granted, however, he would put the matter before the council at the proper time for their earnest consideration.

Mr. Gurd thanked the Mayor and council for their patient hearing and their courteous attention, but before retiring would say that although the sum of $5,000 may seem large, it was only a very small amount to be devoted to this purpose, when compared with what other cities were doing along this line. Thank you.

The question of having a cleaning day for the city was brought up but after much discussion it was decided not to have a special day, but that the health officer and the chief of police would see that everyone who had allowed garbage and rubbish to accumulate on their premises would be instructed to have it removed at once. It was suggested that this must be done by May 1st.

Another matter was brought to the attention of the council, that was of importance to the welfare and safety of the public and city, was that certain lanes and streets were practically blocked, night and day, by unsightly rigs and cumbersome materials. That there was certain people utilising the public highway for the storage of their waste material, and rigs, that should be placed on vacant lots, or at least from off the public streets. Cases were cited where at times there was only room for one vehicle to pass, and it was felt that, owing to the increasing traffic that is connected with Cranbrook's industrial commerce, and also the large automobile traffic, a stop should be made, and the by-law affecting this matter, should be rigidly enforced.

It was also brought to the attention of the council of several cases whese large crates of goods were opened on Baker street and the paper packing was allowed to fly all over the street and even the crating was left on the edge of the sidewalk for a considerable time, often to the inconvenience to pedestrians and traffice.

Dog owners who have not as yet obtained their licenses should be on the lookout as the pound keeper has been instructed to enforce the by-law.

Council adjourned until Thursday afternoon.

THURSDAY'S SESSION.

At the adjourned meeting of the City Council held Thursday afternoon, there were present Mayor Bowness, and Aldermen Clapp, Johnson, Cameron and Erickson.

The Finance Committee presented their regular monthly report and recommended that the following accounts be paid:

City Engineers Pay-roll	$ 732.69
City Officials	345.00
Fire Department	250.00
Police Department	470.00
School Board	1294.00
City Clerk Sundries	76.65
Herald Pub. Co	6.50
H. J. Garvey	6.35
Ira Foster	5.00
Empire Electric	33.40
Fink Mercantile Co	30.75
J. D. McBride	21.40
Ward & Harris	21.15
Herald Pub. Co	51.50
T. N. Parrett	29.15
Davis Laundry	1.00
Cranbrook Electric Light Co	238.60
Arnold & Roberts	125.00
McLeod Bros	42.00
Frank Dezall	2.80
W. E. Worden	85.60
C.P.R. freight S. B.	95.95
Kootenay Telephone Co	17.95
Empire Electric	3.00
Davis Electric	2.60
F. Parks & Co	4.05
W. S. Bell (Poll Clerk)	10.00
Roberts. T. (Ret. Offi)	25.00
F. Parks & Co	22.20
Sewerage Pay roll	277.00
Cranbrook Foundry	712.50
W. E. Worden	7.25
Total	$5,057.24

In reference to the account of the School Board $1,975.00 there was an item for $681.00 to V. Hyde Baker, for lands purchased in Block 45, which was referred back. This account was not felt to be in order as the city council are satisfied that they should have been consulted before such a purchase was made and officially they have no knowledge as to what the land is to be used for, and before any money of the ratepayers is expended, they feel it encumbent upon them to know what this expenditure is for, and another feature against this purchase of land is that it is located outside of the city limits, and while not opposed to the actions of the School Board in any way as regards the work that they are doing towards the educational advancement of the city yet they feel they have a right to know when such matters involves the ratepayers.

It was moved by Aldermen Erickson and Cameron that the City Engineer check up the installing of the sewerage work weekly, and report same to the council monthly.—Carried.

Aldermen Clapp and Erickson moved that the regular meetings of the Council be held on the second Monday of each month, at 2 p. m. local time and that the pay-day for the city be the 15th of the month, instead of the 10th as heretofore.—Carried.

Moved by Alderman Clapp and Johnson, that the City Clerk be authorized to enter into an agreement with the Burrough's Adding Co., for the purchase of an adding machine.—Carried.

It was also determined that the by-law governing the storage of explosives within the city limits be strictly enforced. This was specially brought to the attention of the council because of buildings inside the limits of the city containing a large amount of gasoline, which, from its proximity to other dwellings has been a matter of considerable anxiety. The council will give notice to the parties concerned, also to all others, and have this dangerous liquid removed, and the by-law strictly enforced.

It was announced that estimates were being considered for the laying of cement sidewalks on Baker street at a cost of $3.00 per running foot for a walk 12 feet wide.

A special meeting will be held on Wednesday next for the purpose of considering the estimates for the ensuing year.

Council adjoutned.

Fires Revolver in Commons

An extraordinary occurrence took place recently in the British House of Commons, which for a few minutes caused the greatest consternation among the members and the crowd of visitors in the lobbies. A man, whose clerical attire was partly concealed by an overcoat, suddenly discharged a revolver in the air. He was immediately seized by a police constable, who pinned his arms to his side and prevented him from firing another shot, the weapon was taken from him and he was conveyed to Cannon Row police station and charged with wilfully discharging a revolver in the houses of parliament.

He had been sitting in the hall about three hours and the strangeness of his behavior had attracted attention. As he was being removed he shouted an incoherent statement to the effect that he was the Messiah. The police believe that he is a curate It is understood that for some time he has been suffering from hallucinations. He is also understood to be the author of a book entitled "Tolstoy and the Messiah."

According to persons who were present in the central hall, he was heard to say that the Messiah was coming and that the government would not let him in. One sentence overheard was to the effect that all workmen were to throw down their tools, and "this" (meaning the revolver) was to be the signal.

No one appears to have been hurt by the discharge of the revolver, and so far as has been ascertained, no damage was done to the building. The bullet discharged has not been found. It is supposed to be buried in the ornamental plaster work of the wall. The revolver, a somewhat heavey and serviceable looking weapon with a long barrel, was taken from him by a member of the police force. The revolver contained five undischarged ball cartridges, and others were found in his pockets.

On being taken into custody the man described himself as a licensed preacher and stated that the reason for his action was that the government was suppressing the teachings of Tolstoy on the Messiah. He also declared at Cannon Row police station that he came to London specially to see the prime minister and that he discharged the revolver to call his attention to his grievances. He is a strong well built man about 32 years of age.

Rocks Tumble at Frank

During the first of this week large rocks started to roll down the sides of Turtle Mountain and striking miners' cottages crashed through the roofs, but injuring no one, as the places were empty. While these rocks came from west of the danger zone it has not served to ease the minds of residents. Dozens of families and a few merchants moved to other points this week.

The federal government has reported to the Provincial government that the district is unsafe and it is up to the provincial government to act. The latter is moving slowly, believing there is no danger and not wishing to force the abandonment of not less than $3,000,000 worth of valuable mining machinery, workings and buildings. But every day the people look with anxious eyes to the lofty slope and fear a greater disaster than that of nine years ago at Frank when 92 people were buried 32 feet beneath a mass of rock and mud.

British Miner Finish Balloting

Indications Point to Immediate Settlement.

London, April 3.—The balloting of the miners on the question of terminating the coal strike has finished, but the official returns will not be available until tomorrow. Apparently there will be a small majority against the resumption of work.

Under the rule of the Miners' federation a two-thirds majority is necessary to authorize a national strike. This point has not arisen heretofore and which ever way it is decided it probably will cause dissension and delay and possibly a split in the federation.

Meanwhile more than 50,000 miners have resumed work and if the decision is against restarting the mines it is certain that thousands who are desirour of working will disregard it

King George, Queen Mary, and the Queen mother have contributed $5,000 each for the relief of distress.

SOLDIERS WILL PROTECT MINES

London, April 4.—A later report is to the effect that troop trains were held in readiness for instant departure. Engines were attached and cars loaded with complete equipment and supplies. The big transport automobiles of the engineers were fitted out and it was stated that all the fighting forces in Great Britain is ready on a giving signal to move to the coal districts. Premier Asquith has made it plain that if the men will not return to work he will send plenty of soldiers to the mines so that owners can make good their boasts that they can operate with nonunion men if protected.

ADVERSE MAJORITY GROWS.

At 6 o'clock tonight the miners' union headquarters announced the referendum vote on whether the miners shall return to work under the terms of the minimum wage scale law stood: Against 135,000, for resumption, 123,000; majority against, 12,000. Many miners who voted to accept the law have already returned to the pits, it being estimated that there were less than 40,000 at work today. If the decision is against going to work the operators are counting on wholesale desertions from the union.

Varsity Boat Race

London, March 31.—The annual boat race between Oxford and Cambridge was rowed from Putney to Mortlake at 11:45 yesterday morning but the race was officially declared void, owing to both boats being water-logged. Oxford finished the journey after emptying their boat but Cambridge gave up. The time made by Oxford was 29 minutes 38 seconds.

The race was rowed in bright weather but there was a strong breeze which in itself was as good as two lengths to whoever won the toss. The latter fell to the Oxford crew who chose the Surrey side.

OXFORD LEADS.

In the first minute Cambridge was stroking 38 to the minute and Oxford 36. Oxford led right from the start. At Craven steps they led by nearly half a length, at Crabtree wharf by four and a half lengths rowing 28 to Cambridge 31. When they reached Harrod's stores, Cambridge abandoned the race owing to their boat swamping and they returned to the shore on the umpires' boat. Oxford paddled along slowly and finished much exhausted in the official time of 29 minutes 38 seconds.

At Chiswick eyot the Oxford crew who were probably unaware of Cambridge's fate also found their boat water-logged. They took an unprecedented course, tilting and wading ashore emptying their boat and then resumed the journey, the race was afterwards declared "no race."

At an early hour this morning the towing paths and other points of vantage along the riverside began to fill with tens of thousands who annually attend the great aquatic struggle between the selected oarsmen from the two old universities. The Oxford crew which had been favorites for some time even strengthened its position at the last moment. Guy Nickalls and other famous old blues and other experts, however, were of the opinion that although they considered the dark blues a better crew, the great odds offered on them were unjustified.

The public was somewhat influenced in favor of the Oxford men by the fact that R. C. Bourne had stroked his crew to victory in three preceding races and it expected him to establish a record by winning the fourth successive race. Boat houses on the Surrey side of Putney bridge were naturally the centre of the greatest throng and the crowd made a bright picture as everybody sported light or dark blue ribbons. When the shells were carried down the slips by the crews and placed in the water the Oxford men were seen to be a much heavier set than their opponents. Their average weight was 175 pounds against 166 pounds for Cambridge.

The presidents of the Oxford and Cambridge boat clubs have decided that the race shall be rowed over again on Monday April 1.

The Oxford crew by hugging the shore kept out of the roughest water until they reached Chiswick. Their coach ordered them to bail the shell but they were unable to do so or misunderstood the order; instead of bailing they went ashore which is a clear breach of rules.

Season Closed.

At midnight on the 31st of March the hunting season closed in British Columbia, with the exception of bears which may be shot till the hot weather comes and the fur has no value.

On the first of May the fishing season opens, and fishermen are busy in getting their tackle in shape. There is no provincial law regulating fishing, owing to a conflict between the Dominion and provincial laws, the province dropped the fishery question and the Dominion statutes set the date for the opening season for trout as May 1st.

Many Deposits

Not a single Liberal was elected on March 28 in the provincial elections. Out of a house of 42 Premier McBride will have 40 supporters. Many of the defeated Liberals lost their deposits. A late return places Dier in the lead by four votes, so that only two opposition seats will be occupied by the Socialists in the next legislature.

All along it had been conceded that the Conservatives would win, and no less than nine of the followers of Mr. McBride were returned by acclamation. In Vancouver, Ellis was the only Liberal to lose his deposit, while the men on the Liberal ticket with him had very narrow shaves from the same fate. Dr. McGuire led the poll and all the other Conservatives were within 100 votes of him. The city vote was slightly smaller than last election. Hon. W. J. Bowser led the poll last year with 5,388 and McGuire this year got 5,088.

Premier McBride ran 500 ahead of his ticket. H. C. Brewster, the Liberal leader, lost in Victoria.

Gifford defeated Mackenzie in New Westminster by majority of nearly 700, and Mackenzie defeated Oliver, Socialist by 400 majority.

The triumph of the Conservatives over the Liberals is the largest in history.

Lorne Campbell administered to Taylor a crusing defeat, the latter saving his deposit by one vote.

In Vancouver there is a difference of 1,000 between the vote of H. H. Watson the lowest Conservative and Ralph Smith the highest Liberal.

The Socialists getting about 1,000 votes each, all losing their deposits.

Harold Forster defeated Harry Parson's by 18 votes.

Honest John Oliver, old time warhorse, and provincial leader for the Liberal part, lost in Delta, and is reported to have lost his deposit.

Y. M. C. A. NOTES.

A special social evening is announced to take place in the Y.M.C.A. on Tuesday evening April 9th, when a good programme will be given under the direction of the Methodist Church Young Peoples Society.

Mr. C. R. Sayer of the Canadian west committee will be present and give a brief address; Supt. Price of Calgary, and local Supt. W. J. Urea may also be on the programme as speakers.

Full announcement will be made in a few days as to programme, but something of interest will be on tap from 8 to10:30 Tuesday evening, and the last item will be not the least, as refreshments are always in order.

Last week the five pin contest closed with the following result:

R. Koffmier won 1st place with a score of	136
J. McCallum 2nd.	121
E. Hallsall, 3rd.	109
W. S. Johnstone, 4th.	106

IN THE DOUBLES.

J. Milne & E. Myers	1138
A. Porter & J. S. Teet	1117
H. Stephens & A Porter	1087
J. Thompson & J. S. Teet	1080
H. Stephens & W. Stephens	1075

This week so far J. Milne leads in the singles with 219 and J. S. Teet, in the three strings with 587, though these scores are expected to be passed easily before the week ends.

Many other good records have been made in each event, but space prevents all from being mentioned.

The full men team, and married men, are events for next week.

Session Ends

Ottawa, April 1.—The first session of the 12th Canadian parliament is over. At 4 o'clock this afternoon his royal highness, the Duke of Connaught, governor-general, in the senate chamber read the formal speech from the throne which contains the announcement that the labors of the legislators are finished for this year.

18th Year CRANBROOK, B.C., APRIL, 6. No.14

In that well known publication published solely in the interests of advertising, and recognized as the original British Magazine of publicity—"Advertising" it says "much has been said about the philosophy of the whole page advertisement, and it is hardly necessary to repeat the well known fact that whole page, or large advertising is by far the cheapest form of advertising." This is a truth that should be borne in mind by all merchants at this time when the summer is opening out and the finer weather has come to stay. Just the right time to clean the winter goods off the shelves to make room for other goods of a more seasonable kind.

• • • •

There is a crying need of the Fire and Police committee taking up the privileges of pedestrians, and more particularly the children. Numerous complaints are coming into our office on account of cyclists using the sidewalks to the inconvenience of many. It is about time that this was stopped, Only a few days ago, but for the presence of mind of two gentlemen several children would have been injured by one of these sidewalk riers. Children when leaving school crowd the walks of Cranbrook street, they also run after and climb on passing vehicles, they pay but little attention to coming or going teams, and someday some one will be seriously injured, the police should put a stop to this.

• • • •

There are numerous enquiries pouring into the city this week to various friends of outsiders regarding the land in the immediate vicinity, and can well be taken as an index of the interest that is being taken in the future of this city and district. People, the investing public, the land seeker and settler, all are interested in and enquiring what Cranbrook has and what it can do in the way of raising fruit and garden produce,and a market for same. Enquiries in respect to agriculture are not lacking, and the earnestness with which local people, as well as the Board of Trade are taking all these matters up will undoubtedly prove of benefit to the whole community. Everyone is encouraged to do what they can for the general good of all and it is a point in favor of the citizens of Cranbrook and District that they are forgetting self and working for the general good.

• • • •

Some undeveloped possibilities of advertising were touched upon by Sir Ashton Lister, who speaking at the luncheon of the agricultural show at Bristol, England, mentioned the case of a west of England farmer, who was surprised on visiting London, to find apples, which he had regarded as practically worthless, nicely packed for sale at four shillings a dozen. Sir Ashton went on to emphasize the need there was not only to develope the producing side of agriculture, but also to develop the selling and advertising side. It is indeed astonishing to know that so much Colonial and American fruit is sold in England to the detriment of British fruit growers, but this side of things could be speedily remidied if British farmers would engage in some kind of co-operative advertising enterprise.—There is a deep lesson in the above which all Kootenay fruit growers can take well to heart at this stage of the game. Co-operation is essential if the outer world is to realize the worth of this producing country.

• • • •

Fruit growing is another of the industries that until recently kept in the back-ground, and yet at all the previous agricultural shows held in Cranbrook and district, and many elsewhere Cranbrook growers have been successful in carrying off numerous prizes, not alone for quality and richness, but size and abundance. Apples and strawberries being a specialty with all kinds of garden produce a close second. Several stretches of land more suitable and profitable for fruit raising, or other agricultural purposes is now being placed upon the market. All the real estate dealers of Cranbrook as well as many of the citizens will at any time be willing to tell what they know of the possibilities of the fruit producing land, that is admitted to be the best agricultural land that has been placed upon the market, and products of the soil always find a ready sale. The city is growing rapidly as an industrial centre; it already is well known to have a large payroll, and is destined to be the metropolis, and distributing centre, as well as the banking and commercial centre for the whole of the Kootenay valley. No one can do better than locate here it virtually is the actual "Star of Possibilities for the West."

• • • •

Cranbrook "The Star City of the Kootenays," has long been regarded as a centre more particularly for the lumbering industries that stands at its very walls; as well as a centre for a large mining community. These interests have not been lessened nor have they in any way slackened their hold on Cranbrook as their pivot point but rather have they increased the capital expended also the number of men employed are growing size and number respectively. This factor must not be lost sight of in the apparently new enterprises that are arising in this district and growing in strength and prominence through the modern means of advertising. Agriculture, that old reliable supporter of all industrial centres is not a new departure in the district, the earlier settlers ploughed the ground, and reaped their harvest, their sons, and sons' sons followed suit, but now the district is growing, better markets are here for the produce and larger fields of land are being cultivated. There are very large stretches of some of the finest soil to be found in the west only waiting for the plough to bring it to usefulness. Land prices are very low just now but are slowly and surely rising in value. There never could be a better time than the present for anyone to take up a stretch and do their turn at the soil.

BOARD OF TRADE HOT AIR.

One of the largest gatherings in the history of the Board of Trade took place in the Council Chamber last Tuesday evening and for a time it looked as though something might be doing, and that the Board, at last got down to real business in the interests of the general community at large. But as we are informed by the Secretary of the Board "There was nothing much doing, nothing more or less that shooting of a lot of hot air." One after another express their opinion on various subjects, and we are told that "it didn't amount to much."

If this is the kind of information that is being given to those who find it impossible to attend, and who desire to know what is going on in matters of interest to the city at large, the rate payers might well go to the city council for information as to what the Board are going to do with the $5,000 that they have requested the council to grant. "Nothing doing". Yet the Board wants a $5,000 grant, and will appeal to the ratepayers for it; they will ask the ratepayer to pass a by-law giving them this amount. We are of the opinion that all necessary information should be given to this matter, as well as with all other transactions of the Board, for without this information the rate-payers of Cranbrook may well and truly say: "Nothing doing."

For the good of the city and of the district let us have men at the head of affairs on the Board who are earnest in their work and desirous of doing good, and letting the people know that they are doing good in the interest of the city.

The Home Circle Column

Pleasant Evening Reveries—A Column Dedicated to Tired Mothers as They Join the Home Circle at Evening Tide

Thoughts from the Editorial Pen

All the world over Easter is a season of great rejoicing as everything begins to cast off the dinginess of winter and nature herself exhibits the spirit of resurrection.

• • • •

The Easter festival of our forefathers covers a period of fifteen days The week beginning with Easter Sunday was almost entirely given over to sport and games and general merry making.

• • • •

Easter is a moveable festival. It is always the first Sunday after the full moon which happens upon or next after the twenty-first day of March, and if the full moon happens on a Sunday, Easter day is the Sunday following.

The sacred festival of Easter has been appropriately termed "The Queen of Festivals." It has been observed from the foundation of the Christian religion, and is celebrated in every part of the Christian world with great solemnity and devotion.

• • • •

There are many superstitions connected with Easter Sunday which are significant of the season, and are almost as imperative as laws. One of these is the necessity of having something new to wear on this day in order to insure happiness for the coming year. Hence the Easter bonnet.

• • • •

Palestine, the spot where the resurrection we commemorate took place, is supremely emblematic of the season, because there the spring suddenly bursts forth and all the verdue and flowers spring up as though a magic wand had been waved over the land, for the excessive dreariness of winter is broken in the orient when it is still winter in western lands.

• • •

Of all the holidays of the year Christmas and Easter stands more prominently on the page of history than any others. Throughout all the initiations and vicissitudes that have entered into the worlds' history durthe past two thousand years, the two festivals that commemorate respectively the birth and resurrection of the Man of Nazareth still shine with a luster that remains unfaded after a lapse of twenty centuries.

• • • •

While Easter reminds us of the resurrection, it may benefit us all to call fresh to memory a few facts regarding the burial of the Son of God. Joseph was that day, mourner, sexton, and livery man. Had the entire charge of the whole occasion. Only four people attended the burial of the King of the Universe. Let this be consolatory to those who through small means or lack of large acquaintance, have but little demonstration of grief at the grave of their dead. It is not necessary. A long line of glittering equipages, two rows of silver handles, casket of costly wood, pall bearers, scarfed and gloved, are not necessary.

EASTER IN ATHENS.

The story of the resurrection is told at Athens amid a blaze of silver and gold. For some time before Easter, Athens wears a picturesque aspect. This is due in great part to the number of the shepherds who, with their flocks, have come down from the mountains and are camped in every available open space, engaged in selling their lambs. There is no family so poor as not to break the long lenen fast with an Easter lamb, the value of which is about a dollar, a veritable massacre of the innocents is going on. It is late on Saturday night that the real Easter celebration take place.

An immense crowd fills all the approaches to the cathedral and such parts of the church as are not kept clear. Without, a raised platform has been erected and decorated with evergreens.

In the cathedral the royal princess, the ministers of state and the high functionaries of the kingdom assemble to attend the midnight service. As the hour of midnight approaches, the metropolitan with his assistants, preceded by the cross and banners, advance with lighted tapers. The various notabilities light their tapers from that of the arch bishop, and so the sacred fire is communicated to the crowd.

As the midnight hour sounds and Easter succeeds the last day of lent, the metropolitan, a blaze of silver and gold with his tiara, the silver gospel, and the episcopal crozier, ascends the platform outside the church and proclaims to the assembled people the tidings, "Christ has risen."

• • • •

EASTER PLANT LEGENDS.

The Christian legends connected with plants generally explain their behavior during Passion week. The aspen still shivers with remorse because when Christ passed, it had boldly faced the heavens instead of bowing its head in company with the other trees. The Savior cast one look on it and the memory of that sorrowful glance is handed down even to this generation.

The willow was used for the scourages and ever since has drooped its arms in misery. The elder is commonly supposed to be the tree upon which Judas hanged himself, and it is not even to be touched as firewood However, it affords a safe refuge in a storm, for not even lightning will deign to strike it. A fungus that grows on the elder and is now known as Jew's ears was originally called Judas' ears.

The wood sorrel was standing at the foot of the Cross and received some drops of the precious blood. These she still carries. The Italians have the same legend and call this little blossom "alleluia," as if the very flowers rejoice in the great gift of the world. The scarlet anemone too, is said to bear the stains of Christ's blood.

Election Aftermath

The opposition in the new Provincial Legislature will consist of two lonely Socialists. The Liberal party will be without a single representative.

The "Big Four" at Victoria were returned at Victoria.

As a revenue producer, Liberals and Socialists, are ever ready at provincial elections to donate to the provincial treasurer.

The result of the Provincial elections is a personal tribute to the Hon. Richard McBride, the premier statesman of British Columbia.

Mr. R. H. Pooley, at Esquimalt, won out by a majority of 212 and caused four opponents to lose their deposits.

Cranbrook elected Mr. Thos Caven by acclamation. The Liberals and Socialists saved their deposits by not placing candidates in the field.

Hon. W. R. Ross, at Fernie won a notable victory, by an increased majority, in the coal city of Kootenay.

Eighteen Liberals were in the field, not one elected, and at least nine lost their deposits.

Owing to some mistake made on the part of those sending the telegraphic bulletins Parker Williams, Socialist candidate for Newcastle was reported as defeated, but as a matter of fact was re-elected and with Mr. Place of Nanaimo gives an opposition of two Socialists. No mistake, however was made as to Liberals, for they all went down to defeat.

Are in Great Demand

This Store extends you a most hearty invitation to call and examine the extensive and well selected stock now being displayed.

CAMPBELL'S CLOTHING, as usual, contains all the features found in the better grade of ready to wear clothing, the Style, Fit, Quality and highest grade workmanship are all contained in Campbell's. This Season Styles are all that one could wish for.

We believe our FURNISHING DEPARTMENT never contained a larger and more varied selection than it now offers. The Latest Novelties in Men's Neckware, Shirts, Hats, Gloves, Fancy Vests, and Hosiery are now being offered.

THE INVICTUS SHOE — GEO. A. SLATER MAKER

Stream rising on Lot 2793.
Streams on Lot 10089.
Creek one mile south of South Fork of Elk River.
Stream rising on Lot 5249.
Creek on east side Townsite of Farowell; and all unnamed springs, streams, creeks, ponds, gulches, and lakes tributary to or in the vicinity of the above-named streams.

Take notice that each and every person, partner-ship company, or municipality who, on the said 12th day of March, 1909, had water rights on any of the above-mentioned creeks, is directed to forward on or before the 27th day of April, 1912, to the Controller of Water Rights at the Parliament Buildings at Victoria, a memorandum of claim in writing as required by section 28 of the said Act as amended. Printed forms for such memorandum (Form No. 19) can be obtained from any of the Water Recorders in the Province.

The said Board of Investigation will then proceed to tabulate such claims.

After the claims have been tabulated by the Board, notice will be given of the places and days on which evidence and argument will be heard at local points.

Dated at Victoria this 5th day of March, 1912.

By order of the Board of Investigation.

J. F. ARMSTRONG,
Acting Controller of Water Rights. 11-5t

TO CANADIAN ARCHITECTS.

Competition for New University Buildings to be Erected at Point Grey Near Vancouver, British Columbia.

The Government of British Columbia invite Competitive plans for the general scheme and design for the proposed new University, together with more detailed Plans for the buildings to be erected first at an estimated cost of $1,500,000.

Prizes of $10,000 will be given for the most successful Designs submitted

The designs to be sent in by July 31st, 1912, addressed to

THE MINISTER OF EDUCATION
Parliament Buildings,
9-6t. Victoria, British Columbia.

CRANBROOK LAND DISTRICT
(District of East Kootenay.)

I, Frank Henry Pearson of Fort Steele in the Province of British Columbia, intend to apply for permission to purchase seventy-five acres of land bounded as follows:—

Commencing at a post planted 30 chains east of the north east corner of lot 125 on the east bank of an island; thence following the shore down stream to its most southerly point; thence up stream in an easterly and northerly direction to its northerly extremity; thence following the west bank to the point of commencement.

Dated this 14th day of March, 1912.
12-9t. F. H. PEARSON.

WATER NOTICE.

For a License to take and use Water.

NOTICE is hereby given that the Columbia and Kootenay Railway and Navigation Company will apply for a license to take and use three feet of water out of Linklater Creek, which flows in a south-easterly direction through Lots 328 and 326 and empties into Kootenay River near the International Boundary.

The water will be diverted at a point on said creek about 900 feet west of the eastern boundary of Lot 328 and will be used for irrigation purposes on the land described as Subdivision 6 of Lot 326.

This notice was posted on the ground on the 11th day of March, 1912.

The application will be filed in the office of the Water Recorder at Cranbrook, B. C.

Objections may be filed with the said Water Recorder or with the Controller of Water Rights, Parliament Buildings, Victoria, B. C.

WATER NOTICE.

For a License to Take and Use Water

NOTICE IS HEREBY GIVEN that the Columbia and Kootenay Railway & Navigation Company will apply for a license to take and use three feet of water out of Linklater Creek which flows in a south easterly direction through Lots 328 and 326 and empties into Kootenay River near the International Boundary.

The water will be diverted at a point on said creek about 900 feet west of the eastern boundary of lot 328 and will be used for irrigation purposes on the land described as subdivision 5 of Lot 326.

This notice was posted on the ground on the 11th day of March, 1912.

The application will be filed in the office of the Water Recorder at Cranbrook, B. C.

Objections may be filed with the said Water Recorder or with the Controller of Water rights, Parliament Buildings, Victoria, B. C.

Why Come to Canada?

A new phase of the nation-wide exodus from the United States, the effect of which are now being felt with daily increasing force in Canada is pointedly shown up in the current issue of Winnipeg Once-a-Week, under the caption, "Still Trekking Northward—and Why." It has been shown according to recent press dispatches, that no less than 75,000 American farmers came to Western Canada between July 1910 and July 1911, and hundreds of thousands before that time, this great army of home seekers bringing with them about $1,000 per capita. "No wonder," says the correspondent, "There is grave concern now felt in American commercial centres in view of this situation, and that United States officials are engaged in a desperate search for arguments that might dissuade their fellow country men from a well-formed purpose," The correspondent asserts however, that there is a serious flaw in this method of procedure on the part of the United States authorities, inasmuch as while their attention is being concentrated so vigorously upon this great publicity campaign, designed to advertise the advantages and opportunities open in the states, another powerful array of forces is to be found engaged with equal determination in a campaign of a different sort—"a rather loud and blatant campaign, which has raised serious question in the minds of many Americans as to whether, after all, life is not too short to be spent in its entirety under guard, and surrounded by din and tumult and the alarms of demagogues and agitators"

The correspondent then takes up the notorious dynamite conspiracy recently unearthed as a result of the McNamara trial at Los Angeles, and which had ramifications in all the great industrial centres of the United States. Under these conditions it is easily understood why large numbers of thoughtful Americans are carefully considering the question whether life and property are not just a bit more secure under the guarantees and safeguards of the Dominion government. However, were these attacks upon the established order of organized society merely the output of the loafer and the street corner agitator, peace-loving Americans would feel no special cause for alarm. the case takes on an entirely different aspect, however, when men holding positions of power and leadership in public life assume the role of demagogues and conduct a systematic campaign of social and political upheaval year after year—and especially every fourth year. "It is in view of an approaching national election," concludes the correspondent, "that many foresighted Americans today are regarding it expedient to turn their faces northward; and from present indications the movement during the coming season appears likely to break all records" As if in confirmation of these statements, J. S. Dennis, head of the Natural Resources department of the C. P. R. has just announced that from careful estimates he looks to see 200,000 Americans settle in Western Canada in 1912.

If you want carbon paper, tracing paper, typewriter paper or any other old kind of paper, come to the Prospector office and your wants shall be supplied. If its made of paper we have it or can get it. And if it's made with type and printers ink, we are the boys to make it.

CRANBROOK LAND DISTRICT
(District of East Kootenay.)

Take notice that I John Armour of Cranbrook, occupation Merchant, intend to apply for permission to purchase the following described lands:

Commencing at a post planted at the North West corner of Lot No. 6117; thence west 60 chains, thence south 80 chains, thence east 20 chains thence north 40 chains, thence east 40 chains, thence north 40 chains to place of commencement, containing 320 acres more or less.

Governor of Bermuda

London, April 3.—Lieut. Gen. Sir George Mackworth Bullock, has been appointed governor of Bermuda, to succeed the late Lieut. Gen. Sir Frederick Walter Kitchener, whose death occurred at HaKilton on March 7. Gen. Bullock was born in 1851. He has seen service in India, South Africa and was major general commanding in Egypt 1905-08.

Premier visits England

Premier McBride leaves for London on April 14 and will be back in Victoria before the end of May. Returning he will spend a few days at Ottawa with the object of taking up with the Dominion government several important matters, among them being the proposed bridging of Seymour narrows. While in London he will take up, among other matters, the question of providing more suitable accommodations for the work of the agent-general's office. It is also proposed to enlarge the scope of the agent-general. He hopes during his absence also to adjust the differences in respect to the British Columbia Electric railway and certain of its franchises.

Takes Easter Holiday

Ottawa, April 4.—The premier leaves today for New York and Hot Springs to be away for two weeks. During his absence Hon G. E. Foster will be acting premier. Other ministers will disperse to their several homes for the Easter holidays and there is not likely to be a full sitting of the cabinet until the middle of the month.

Sir Wilfrid Laurier on Monday will speak at Quebec at the banquet of the Quebec branch of the Commercial Travellers' Association.

Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that 98 per cent. of all women treated by Dr. Pierce or his able staff, have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half-a-million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the first of specialists in the treatment of women's diseases.

Every sick woman may consult us by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them. Write without fear as without fee, to World's Dispensary Medical Association, Dr. R. V. Pierce, President, 663 Main Street, Buffalo, N. Y.

DR. PIERCE'S FAVORITE PRESCRIPTION

Council to be Commended

The city council are worthy of commendation for the very creditable manner in which they are looking after the city's interests. A case well worth mentioning where a branch body of the city, though authorized to spend money in certain directions and charge the same to the rate-payers, have no authority to buy real estate outside the city limits and then send in the bill to the council for payment without a word of explanation as to where the said real estate was, or for what use it was intended.

The matter was brought to the attention of the council by an account presented to the finance committee for payment amounting to $1,975.00 and included an item for $681.00 for real estate. This real estate was found to be about half a mile outside of the city limits, in block 45. If land is desired, and really needed for School purposes, it could be obtained within the city limits, and in all probability more serviceable.

The school board are already drawing on the school district to the extent of 5 mills and there is a certain surplus allowed which is put under the heading of extraordinary expenses, and this payment is supposed to come under this head. As this money is to be paid by the city, it is absolutely essential for the school board to first consult with the council as to the merits of such an expenditure, and then ascertain if the city is able to pay the same without encroaching on other improvements now in progcess in the city.

We have been informed by one of the trustees, that the provincial government had granted to the school board sufficient money to build the proposed school to be ezected on the land in question, i. this is true, and with the manual tcaining expenditure the board will have in the neighborhood of $17,500 for manual school repairing and finishing the present school house, and the erection of the proposed new school building outside the municipality. It might be a benefit to the ratepayers of the Cranbrook school distzict, and the citizens of Cranbrook city to ascertain just what the school board want, and what they propose doing.

Cranbrook St. Needs Attention

It is up to the Board of Works to make some improvement on Cranbrook street. For the past six years there has been nothing done, and the small lake, just below the School House has became a nuisance, the rocks piled up on each side of the street are monuments to the disgraceful conditions which exist; the bridge is in bad shape, and is a menace and source of danger, to the school children who are daily compelled to cross it. The sidewalk on the north side of the street are decayed, not wide enough, and a disgrace to the city. Cement sidewalks are very nice, look well, but we want decent walks on Cranbrook street before we are taxed for cement walks which will not be laid in the outlying districts for several years.

Additional Locals

Mr. E. Paterson, left on Thursday on a business trip to the far east.

BORN.—At the Cottage hospital, Tuesday April 2nd,to Mr. and Mrs. Wm. Nesbit, a daughter.

H. S. Waters, late accountant at the Royal Bank left this week for Halifax, N.S.

Miss B. Murgatroyd, stenographer at the Royal Bank has been confined to her home this week on account of sickness.

H. A. Hasewood, left for Vancouer, very suddenly on Tuesday; there are a number of people around town who will regret his departure.

W. Laidlaw, who has been taking in the prairie provinces for the past two weeks returned to Cranbrook Wednesday.

Karl C. Clark of Fredericton, N.B. has accepted a position with the Beattie-Murphy Co. Mr. Clark is an experienced stationery and wall paper man, and will have charge of this branch of the firms business.

It is with regret that we have to report the illness of Mr. W.J.B. Guerard, of the Auditorium. Mr. Guerard has been suddenly taken with an attack of la grippe, and it is to be hoped that he will be speedily restored to health.

Tke deatk o: Benjamin W. Huckle occurred at Vancouver on March 12th 1912. The funeral service was held from the undertaving parlors of Center & Hanna, last Friday afternoon under the auspices of Cascade lodge A.F. & A.M.. The late Mr. Huckle was formerly a resident of this district, having came to Fort Steele in the early ninties. He was a South African veteran, a member of the Strathcona Horse.

Allen Players at Cranbrook

The Auditorium has been the home of the famous "Allen Players" and their musical adherents, "The Royal Hungarian Quartette.

Mr. Allen is to be congratulated on retaining Miss Verna Felton as the leading lady of his company. Miss Felton, is a great favorite with Cranbrook theatre-goers and the Allen Player are sure of crowded house when they sojourn at Cranbrook.

The personal of the company consists of artists, with reputation second to no performers in the Alberta circuit. Mr. Kennedy as leading man can not be improved on, and we have no hesitation in saying that the Allen Players, is the best stock comthat has ever played at Cranbrook.

Miss Felton in the "Divorcans" was a marvel, and showed great histronic talent in the way she personated "Cyprienne". Mme De Prunelles, Mrs P. R. Allen as Mille De Valfontaine proved a favorite with the audience.

Miss Marie Thompson has found a place in the admiration of the people by her excellent way of handling her various roles during the week. Miss Gladys Hudars can always count on receiving a good reception when she appears before a Cranbeook audience, she delighted the audience with her songs, esnecially "Where the River Shannon Flows."

Tonigh the company will play under "Two Flags" with Miss Felton as "Cigarette" and a treat is in store for all who see it.

Charles Grasley, Senior.
E. G. Stahl, Agent.

Dated Feb. 24, 1912. 14-4-9t

Elko Notes

The whirr of the "Auto" is now a familiar sound in Elko. The genial proprietor of the Elk Hotel turns roud the city loaded with all kinds of wayfarers, and the children are not forgotton. They wear the smiles that won't come off when they sit in the auto.

A large addition is to be added to the Columbia Hotel soon, and under the proprietor ship of Mr. James Thomson it is bound to prosper.

Miss Allen Hernie, spent the week end as usual in Elko, the guest of Mr. and Mrs Thomson.

So there are five Socialists in Elko according to the vote, quite a number in such a small place. The Hon. Mr. Ross, however, has been returned, surely something will now be done to get a water supply for Elko, promises, however rashly made at an election time often vanish away. Speaking of the water supply a gentleman suggested to the writer to appeal to the preacher to pray for it; "The prayers of the righteous avialeth much," but, just wait until the church is built, then the goats and the sheep will be separated.

With an automobile running, the picture show, and baseball, poolplayers did not feel their loss so much on Sunday.

A gentleman asked the writer where they were to find twelve men and true, to run the church in Elko. Why I felt insulted; the citizens of Elko are all good and will tune their voice to praise Zion, just as much as they will shout at a Hockey or a baseball match. Long faces and and sour demeanours do not make Christians.

That a certain man has earned for himself the name of "Ballot-Box" Taylor, Those in the know are having a good laugh over it.

With the starting up of the North Star Mill, quite a number of new faces are to be seen in Elko.

Mrs. William Todhunter, Fernie. visited her mother in Elko last week.

To-night "Camille" Saturday Matinee "The Lottery Man" Saturday Night "Under Two Flags"

PRICES 25, 50, & 75 SATURDAY MATINEE 25 & 50

"Home to Roost"

"Apple-green west and an orange bar,
And the crystal eye of a lone, one star
And "Child, take the shears and cut what you will,
Frost tonight—so clear and dead still."
—Edith M. Thomas in Harper's

Pale-green piffle and orange bunk,
And the ragged rhyme of one mad or drunk,
You must confess this approaches Miss
Edith's verse—but we can't sell this.-Buffalo News.

Crushed-pumpkin dawn and a lemon squeeze—
Child, lead your mother out-doors to sneeze,
At stuff like this we could never fail,
But, we'd never dare offer this sale.—Houston Post.

Alice-blue cheese and a plate of tripe,
And fourteen chinamen hitting the pipe.
Verses like this make a bosom throb—
I hope it won't cause me to lose my job.—Milwaukee Sentinel

Salmon-hued vests and a pale-blue tie,
Child, keep your fingers out of the pie:
Christmas is near. If I sell this, girlie,
You can do some of your shopping early.—Detroit Free Press

A glass of old cheese and a plate of ale.
Sammy run out—get some suds in the pail.
I feel that I am getting them bad and worse,
Since I tried to unravel Miss Editd's verse.—Ex.

A pink tomcat and heaving seas.
A sailor old and purple D. T.'s
Stuff like this I can write with my feet.
But what in the world doth Edith eat.—Ottawa Free Press

Plasterer's Hair and a chocolate eclair.
Child, how your father's pants do wear!
My barmie noddle is working prime—
Like to sell this at a nickle a line!—Fernie Free Press.

Yellow floor paint and pure white enamel,
Child, dost thou think your dad a camel?
This wasn't written by Thomas Marks—
Of course you will buy your paint from PARKS.
