WANTED AT ONCE

Party to Contract load logs on cars at C. P. R. Siding, Greenwood. Apply J. ROYLANCE.

Of Local Interest

Thos. Rowe of Trail, is visiting in town.

Mr. and Mrs. Joseph Christian and family of Christian Valley, were visitors in town on Friday.

J. B. Desrosier, of Osoyoos, was a visitor to town on Sunday.

Dr. W. H. Wood returned on Monday afternoon from a visit to Spokane.

Murray Walters, of Vancouver, is visiting his grandmother, Mrs. Wm. Walters.

Mr. and Mrs. Chas. Nichols and children were visitors to Grand Forks on Monday.

Miss Laura Hibbard, R.N., of Hanna, Alta., has joined the staff of the District Hospital.

George Marshall, auditor, paid an official visit to the local Court House on Wednesday.

Francis and Tim Jenkin, of Trail, are guests of Lewis Keir at the Cedar Glen Fur Farm.

Mr. and Mrs. F. L. Peterson spent the week-end holiday with friends at Christina Lake.

W. P. Miller, of California, was renewing acquaintances in town during the week-end.

Alec Purkis left on Sunday for Beaverdell, where he has a position at the Wellington mine.

Mr. and Mrs. F. A. Johnson were in Nelson for the Jubilee holiday, being motored over by Mr. Nordman.

Miss Ruth Axam left on Wednesday morning to spend a holiday with friends in Vancouver and Victoria.

Mr. and Mrs. Wm. McIntominey and two children, were guests at the Pacific Hotel during the week-end.

Mis Carter, RN., who has been asisting at the District Hospital, left for her home in Grand Forks on Monday.

J. DeLisle, of Bridesville, attended the Dance in Greenwood on Friday. On the return trip he was accompanied by Mr. and Mrs. Emery DeLisle of Midway.

Two mining men from Seattle, Wash., have examined the Vendella mine and everything looks very favorable to them.

Greenwood is having its share of the tourist traffic. Last week there were cars in town from Quebec and Massachusetts.

Reggie and Kenneth Skilton, Joe Price, and Frank Campolieto motored to town from South Slocan for the Jubilee holidays.

The three Morrison brothers, Allan, Neil, and George, left for Boston on Monday, where they will visit their sisters and brother.

Mr. and Mrs. S. B. Hamilton and son, Ronald, returned on Sunday evening from spending the first, second and third in Penticton.

Mrs. H. T. Newmarch and two children Oliver and Cicley, left on Friday morning to spend a holiday with Mrs. Newmarch's mother in Vancouver. Mr. Newmarch motored them as far as Princeton, returning by way of Penticton, arriving home Sunday evening.

Council Has Busy Sessions

A special meeting of the City Council was held on Thursday evening, June 30th, Mayor Gulley, Aldermen Morrison, Forshaw and Taylor being in attendance to consider an application for rental of power lines to the Providence mine. After consideration of the effect this would have regarding the proposed alterations to the lighting system authorized at the last meeting it was agreed to postpone a decision until the regular meeting on July 5th. At this meeting with Ald. King also present, a comprehensive scheme was outlined by Mr. A. Legault, of the West Kootenay Power Co., whereby three sections of streets now carrying high tension lines could be placed on the ordinary lighting lines both for supplying the City needs and carrying power to the Providence could be carried on one main line. It was decided that this work be done and Mr. Legault's offer to commence at once on the extension between the two ends of Government St. was readily accepted. This will eliminate the high tension lines now running along Kimberley Avenue and enable power to be furnished for pumping operations in a very short time. The balance of the alterations will be proceeded with at a later date.

A check will be made on consumers on the flat rate following the report of certain householders exceeding their allowance of lights and consumers in arrears of payment, either for water or light, will have service discontinued after due notice.

The Water committee recommended the purchase of a number of high pressure wooden sleeves for use on some of the wooden main joints which are constantly leaking. The City Clerk submitted a comparison of the cost of these sleeves and their increased efficiency with the cost and doubtful utility of the clamps hitherto used for this purpose.

At the request of Ald. Forshaw a copy of the Traders' Licenses Bylaw in effect at Grand Forks was obtained through courtesy of that City's officials.

The Greenwood City bylaw is almost similiar and instructions were given for licenses to be collected from all transcient traders covered in the bylaw.

A decision was made to hold in reserve for a future industrial site, the City lots lying between the C.P.R. line and Boundary Creek on the stretch between the Greenwood St. and Deadwood St. bridges.

Mrs. Dan McLeod, son and daughter, Roddy and Marion, motored over from Trail and spent the week-end with Mrs. Geo. Clerf.

Mrs. J. W. MacDougall and son Francis, of Grand Forks, and Mrs. Roy Conner, of Wenatchee, are visiting Mrs. W. B. Stewart for a few days.

Wm. Rusch and John Puz, of Midway, are patients in the District Hospital, recovering from the effects of a motorcycle accident on the Midway road a few days ago.

Ed. McGrade, of Stave Falls, was visting his sister, Mrs. Wm. Madden, during the week-end. Mr. McGrade left on Sunday for his home accompanied by his daughter, Rose.

Mr. and Mrs. S. E. Wilson returned to Rossland last week, Mr. Wilson was here relieving at the South Kootenay Power station during the absence of Charles Nichols on his holiday.

Mr. and Mrs. L. Rouiser and daughter, Juilette, of Kalispell, Mont., have arrived in town and expect to remain here. It is ten years since the Rouiser family left Greenwood.

Mr. and and Mrs. G. H. Bawtinheimer left for their home in Armstrong on Monday morning after a few days visit with their son-in-law and daughter, Mr. and Mrs. W. H. Bryan.

Juan Puddy returned Friday last from a three days business trip to Spokane. Mrs. N. L. Hingley and two children, Alice and George, and Mrs. M. Maloney returned with Mr. Puddy.

Mrs. J. Mallalue, Mrs. H. S. Wilson, Miss Margaret Wilson and Master Bobbie Mallalue, of Vancouver, are spending the holidays with their cousin, W. C. Wilson. These people claim that all the joys of living are not confined to the Coast City. Riding horseback and climbing mountains in the Boundary certainly have their thrills.

Richard Thomas Alty, father of Mrs. Wm. Walmsley, died from natural causes at noon on Tuesday while taking lunch at the home of his son, T. E. Aulty, with whom he lived in Trail. He was 65 years old, and a native of Lancaster, England. He is survived by his widow, one daughter, Mrs. Wm. Walmsley of Greenwood, and by his son. The sympathy of a large circle of friends in this district goes out to them in their great loss.

The decorations on the various buildings, in town, for the Diamond Jubilee, were very good and certainly made our little town look "all dressed up" for this wonderful occasion. The Court House was possibly the gayest looking of the lot although both the Post Office and Hospital were almost equally as good. Quite a number of local cars were also decorated for this occasion, but Mr. and Mrs. Geo. S. Walters' car deserves special mention as its "holiday attire" was not only a pleasant sight but showed that great trouble had been taken to make it so very festive looking.

Diamond Jubilee Celebration

Canada's Sixtieth Anniversary was memorably observed on the Kettle Valley Hockey Grounds near Ingram Bridge, on Friday, July 1st, when the residents of this district gathered to celebrate this great event. The weather was ideal, the crowd large and enthusiastic. On all sides the highest commendation was heard, as no efforts were spared by the committee to carry out the minutest details. The grounds were in good shape for all events, and the program was carried out in regular order. Children's sports occupied the forenoon and at 1 p.m. those present gathered around the flag pole flying the Union Jack, to hear the address of the day delivered by Mr. H. Bruce, a pioneer of this district and a native of Canada. Mr. Bruce referred to the early history of Canada; also compared the methods of harvesting the crops when he was a boy and at the present time when modern machinery has lightened the farmers work. The speaker closed with a few remarks to the children after which the Confederation Medals were presented to the school children.

In looking over the crowd many Old-Timers were noticed, among them being James Copland, a resident of the Bridesville Road, who first set his foot at Rock Creek over 67 years ago. Jimmy, as he is familiary known, was in a reminiscent mood and the stories of the early days were very interesting. D. R. McElmon, another Old-Timer, came down from Beaverdell to take part in the Celebration. D. R. has voted ever since Confederation.

After the Medals were presented, a few more events were called, including a pillow fight on a bar. This undoubtedly was one of the best small events of the day, as the crowd seemed to get considerable enjoyment out of each fight.

The Baseball game between Republic and Midway was won by the former by a score of 6 to 2. In the first inning Republic got one run, while Midway made two runs the total for the game. In the second the American team added three more; also getting one in the 5th and one in the 8th. From the start of the 3rd to the last out in the 9th, the crowd was treated to one of the best games played in this section this year. Eveleth pitched good ball for Midway and had good support from his team-mates. Bowman was on the mound for Republic and had fairly good control, although he walked several men.

Geo. Gray of Greenwood, and Mr. Pickering of Chesaw, were the umpires.

Stake Race.—1st, Frank Bubar; 2nd, Wm. Bruce.

The day was brought to a close by a Dance in the Masonic Hall, Greenwood, in the evening. It was largely attended, and everyone had a real good time. Bush's Orchestra excelled itself and as in the past they were very liberal with their encores.

The day was also a financial success, a greater amount being raised than was expected and in this case the District Hospital will greatly benefit, as the surplus will go to this institution.

The Celebration committee will publish a Balance Sheet in the next issue.

Some people find money in "Old Clothes," others can see nothing but moths and shreds in "Old Clothes." Come to the Greenwood Theatre on Saturday, July 16th and we will show you fun and happiness in "Old Clothes" because Jackie Coogan is in 'em.

En route from Princeton to Merritt, a car driven by H. Lambert overturned while rounding a curve, smashing both hind wheels and otherwise damaging the car. The occupants, Mrs. J. L. Coles, her mother and daughter and Miss Fee all of Princeton, miraculously escaped uninjured.

BAYER

Genuine ASPIRIN

Proved safe by millions and prescribed by physicians for

Colds Headache Neuritis Lumbago
Pain Neuralgia Toothache Rheumatism

DOES NOT AFFECT THE HEART

Safe — Accept only "Bayer" package which contains proven directions.

Handy "Bayer" boxes of 12 tablets
Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Outdoors

The editor of this column steps aside this week to give place to the following "Four Minute Essay" by Dr. Frank Crane, and to commend it to all readers as well worthy of adoption:

A good dose of Outdoors would cure almost anything.

Quit wearing a hat and let your hair Outdoors, for that bald spot.

Go barefoot, and your feet will slip back ten years.

Take off your clothes and lie on the sand in the sun, acquire a rich tan, and you will become healthy as a savage.

Go Outdoors and find a appetite. It's out there somewhere.

Go Outdoors and get rid of Nerves. They live in the house.

Other rats and mice that infest houses are Dyspepsia, Constipation, Liver Complaint, Peplessness and Insomnia.

Not only Bodily Ailments, but all other kinds of plagues and nuisances are house creatures.

Creeds were all made in stuffy rooms. Religion, faith, hope, love, and courage inhabit the woods and meadows, sail the seas, and seek wind and sun.

Jesus taught Outdoors. Ecclesiastical Councils are held behind closed doors. The decline of religion is traceable from the Sermon on the Mount in the asphyxiating Meeting-House.

Education ought to be Outdoors. My favorite dream is the University of Outdoors, where pupils go shoeless and hatless and learn under the stars.

This University would teach the child how to be as healthy as a panther. And healthy bodies would obviate most neurasthenic intellectual vagaries.

Where but Outdoors can you learn Botany, Geology, Astronomy, and the like. Real Science lives Outdoors, as much as Leap-Frog.

Play Outside. Prisoner's Base is better than Whist.

Even kissing is better Outdoors. Copenhagen is much better for your general system than twosing on the parlor sofa. When you chase a girl half a mile to kiss her you realize what real Kissing is.

Eating is better Outdoors. A horse is healthier than a man because a horse has to walk after every bite of grass he gets.

Outdoors is the solution of the Prison problem. From cell to sunshine means from the destruction to the reconstruction of the human waste-heap.

Insane patients who are violent when locked up become peaceable Outdoors.

Children thrive Outdoors and pine in the house.

Outdoors is cheap and plenty.

God made Outdoors; man made Indoors.

And God lives Outdoors; in man-made edifices—Idols.

New Device for Motor Cars

Electric Brake Will Use Less Current Than Horn

The near future may see the adoption of an electric brake system on passenger cars that will require the least energy on the part of the driver to stop the heaviest type of machine within a short distance.

This type of brake is being manufactured for use on heavy trucks and trailers, and is being found more practicable than the mechanical type.

The apparatus requires less electricity to operate all four brakes on a heavy passenger car than is needed to run one headlight or to blow the horn once, it is said.

Whether the corn be of old or new growth, it must yield to Holloway's Corn Remover.

A button on the steering wheel, with which headlights can be dimmed, is said to lessen the risk of accident.

An electric shoe-polishing machine that shines both shoes automatically and in only three minutes, has been developed.

Owns Pig With Two Mouths

Alberta Farmer Says Animal is Otherwise Normal

C. E. Henninger, a farmer, is the proud owner of a freak member of the swine family. The pig in question was born with two mouths, has two sets of teeth and two tongues but does not require double the amount of fodder. One of the mouths is stationary but both tongues move in unison. The creature appears to be normal in all other respects.

On one day the Henninger Farm saw an increase of thirty-nine animals within three hours. In all 28 pigs, a colt and ten chicks were born within that time.

"If every rancher had a similar increase, the country would be soon overstocked," Mr. Henninger humorously observed.

For Both House and Stable. — There is a good deal of similarity, physically speaking, between human beings and the lower animals. Both are subject to many ailments arising from inflammation and to all manner of cuts and bruises. Dr. Thomas' Eclectric Oil is an entirely reliable remedy for such ailments and mishaps in both human beings and the lower orders of animals.

Borden's
EAGLE BRAND
CONDENSED MILK

—is simply pure cow's milk from selected herds, preserved with granulated sugar after part of the natural water content of the milk has been taken away.

Plan to Shorten Voyage

Passengers Will Be Catapulted in Seaplanes From French Liner

Passengers will soon be catapulted in seaplanes from the deck of the Ile De France, latest addition to the French Line fleet to cut short the voyage across the Atlantic ocean, it is announced in a cable to the French Line.

The cable came from the Ile De France, which was en route to the United States on her maiden voyage. The plans call for the seaplanes being shot from the liner off the Grand Banks whence they will carry passengers to seaboard cities of the United States and Canada.

The seaplanes will not be added until the liner has made several trips.

At a depth of 66 feet the water of the Dead Sea is twice as salt as it is on the surface, and at 1,000 feet three times as salt.

Keep Minard's Liniment near at hand

Prince Favors Playgrounds

Glad to See Movement to Provide Place for Poorer Children

The British National Playing Fields' Association, which has issued an appeal for "£1,000,000 and many acres," states that there are in England 4,000,000 boys and girls who are without such facilities and that many great cities have not a single football field or cricket pitch for the use of the poorer youths. The King on his birthday placed two of the Royal paddocks at Hampton Court, containing about six acres, at the disposal of the Association. In the absence of the Duke of York, who is president, the Prince of Wales on his return from the Derby visited a broadcasting station and gave a wireless talk in support of the movement.

As a lover of games himself, the Prince said that he was really glad to see on foot a movement to provide proper playing fields for these 4,000,000 boys and girls and that he hoped soon to see the day when not one of them could say, "I have nowhere to play."

Drives Out Rheumatism Subdues Lumbago

Brings Ease and Comfort to the Sufferer at Once

NERVILINE

A King Over Pain

Those who seek permanent relief from the grinding pain of Rheumatism and Lumbago should read the letter of F. E. Normand, from Georgetown, who writes:

"I was fairly crippled with aching joints and Rheumatism. Nerviline must have been what I needed, because it cleared up my trouble quickly."

"If you need a reliable, strong, penetrating pain remedy, one you can depend on, get a 35c. bottle of Nerviline today; it will make you well quickly.

Arrangements For Dairy Convention

Inter-provincial Meeting Will Be Held in Regina Next February

A convention in which the dairy interests of the four Western provinces will participate will be held in Regina at the Hotel Saskatchewan, February 7-10, 1928. This was decided by the board of directors of the Saskatchewan Dairy Association at a recent meeting. The Saskatchewan organization will be hosts to the interprovincial gathering.

A general convention committee was appointed at the directors' meeting and convention arrangements are already under way. A feature of the gathering will be the number of outside speakers who will address the members and practical educational demonstrations.

A new idea is being introduced at the 1928 convention when prizes will be offered for the best judging by teams of three boys or girls in an interprovincial competition in which all four western provinces will be represented. At one session addresses will be made to the convention by boys and girls under the age of 16.

The First Economy

A young man proposed to a girl and was accepted. After their first tender transports were over they fell into serious talk.

"Now that we are engaged," said the girl, "we must begin to economize. Promise me, darling, that you won't do anything you can't afford."

The young man laughed grimly.

"If I promised you that," he said "I'd have to break off our engagement."

Mabel—You know George, you'd make a wonderful fireman.

George (surprised)—Why?

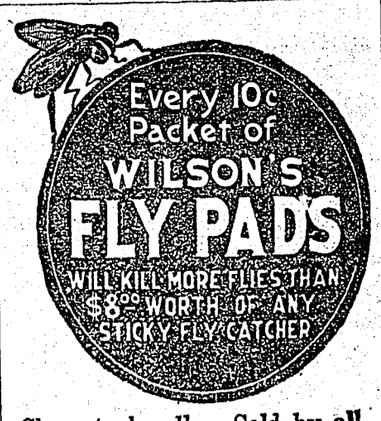
Mabel—Because you've always got your eyes on the hose.

DYSENTERY WAS SO BAD BECAME ALARMED

Mrs. Wallace Pepper, R.R. No. 6, Simcoe, Ont., writes:—"Last summer I was very bad with dysentery. I lost my appetite, and had such severe pains in my abdomen they made me very faint. I passed blood which greatly alarmed me, so I hurried to the doctor. He told me the quickest way to get rid of it would be to take

"I took only part of a bottle and was completely relieved. I feel I cannot recommend it too highly."

This wonderful bowel complaint remedy has been on the market for the past 80 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.



Clean to handle. Sold by all Druggists, Grocers and General Stores

Manless Plow Is Simple

Automatic Machine Hailed as Revolution in Farming World

Apparently, the automatic plow, the tractor that works itself, is quite simple, much more so than preliminary notices said of it. A more detailed report says it is constructed of three pieces of wood, a few bolts, a spring, a piece of aluminum shaped like a huge spoon. It was hailed at the Nebraska Agricultural College as a potential revolution in the farming world. It will enable the tiller of the soil to go to the cinema or drink cider or sleep while his fields are being plowed. It will soon be put on the market at a cost if a few dollars. It is the invention of F. L. Zybach of Grand Island, Neb.

To use this device, a farmer must first attach a plow to his tractor and cut a furrow around the outer rim of his field, making the corners rounded instead of square. Then he fastens Zybach's invention to the steering wheel of the tractor, putting the spoon-end in the furrow. He starts the tractor, climbs out. The tractor, guided along the furrow by Zybach's invention, continues to make shorter and shorter trips around the field, until it comes to a stop in the middle.

Tests of the device, it is declared, produced plowing like clockwork. But when Zybach was first experimenting with a crude model, his neighbors warned him not to let the tractor get loose and destroy any of their property. Once he set the machine to plow all night. The neighbors came over at midnight and implored him to stop it.

WEAK, LISTLESS GIRLS

Need Such a Tonic as Dr. Williams' Pink Pills to Restore Health

When a girl in her teens becomes pale and sallow, especially if at the same time she shows inclination to tire easily, a listlessness and inattention to her work or studies, she needs Dr. Williams' Pink Pills, a tonic which directly and specifically corrects the condition from which she is suffering. A chemical analysis of the blood of such a girl would show it to be deficient in just the elements Dr. Williams' Pink Pills can supply. But an analysis of the blood is not needed—the physical signs are plain. Among these signs are a pallor of the cheeks and lips, dark circles under the eyes easily tired and breathless after slight exertion. Poor appetite, headaches, and sometimes fainting spells follow; often the patient is nervous and is startled at the least noise. In all run-down conditions there is no other tonic will build you up so quickly and so surely as Dr. Williams' Pink Pills. The statement of Miss Dorothy Lumblin, Bush Island, N.S., will bring hope to other weak girls. She says:—"I wish from my heart I could persuade every person who is in a run-down condition to give Dr. Williams' Pink Pills a trial. About a year ago I was a weak girl suffering from impoverished blood and a run-down system, with many of the attendant symptoms. I had often read of Dr. Williams' Pink Pills and decided to take them, and after using six boxes I feel as well and strong as ever. Dr. Williams' Pink Pills will be my standby in the future if ever my blood needs building up again, and I shall always find pleasure in recommending them to others."

You can get these pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Selling Deer Antlers

Reindeer have shed their antlers and native herdsmen at Nome, Alaska are busily gathering and transporting them to the coast for shipment to the south. The bone material is valuable for many articles of manufacture.

Japan's department of education sanctioned a plan to solicit fifty cents from each school child for the purchase of dolls to be sent to American children in return for their doll gifts to the Japanese.

Great Britain, Canada, France and Italy have paid bonuses to their world war veterans.

Are you acquainted with any man who flatters his wife?

If a man is out of his head he is apt to put his foot in it

Urge Vaccination to Prevent Tuberculosis

French Doctors Would Have New Vaccine Given to All Children

The success obtained by the use of the anti-tuberculosis vaccine developed by Dr. Albert Calmette of the Pasteur Institute has led to a movement among French medical authorities in favor of the universal vaccination of children.

Results just tabulated up to the present year show that from 21,000 cases of vaccination with the Calmette vaccine, which is known as "BCG," there have occurred only 1 per cent. of deaths from tuberculosis, while the tubercular mortality among unvaccinated children is shown by medical statistics to reach 26 per cent.

Professor Calmette explains that his vaccine does not inoculate the patient with the disease, but "suggests" the disease and rouses anti-tubercular bacilli to activity. This has been done through use of vaccine obtained through reducing the virulence of the tuberculosis bacilli by the inbreeding of weakened bacilli until an innocuous vaccine is evolved which is only strong enough to suggest tuberculosis in the system.

Early experiments were made with laboratory animals, and then with monkeys, over a period of thirteen years before the scientists of Pasteur Institute felt sure enough of the harmlessness of the vaccine to test the effect upon man. The vaccine need not be injected, but may be administered in food.

Despite the apparent success of this vaccine, French doctors report a general hostility upon the part of the public to anti-tubercular vaccination, the same objections being advanced as those opposing vaccination for smallpox and typhoid. But an increasing number of physicians are becoming interested and the use of the vaccine has already spread to all countries of Europe.

Boosting Poultry Congress

Official in U.S. Department of Agriculture is Native-born Canadian

A native-born Canadian, who, offered a wider opportunity for service in his chosen field than his own country was able to place before him, and who has made good, is Dr. Morley A. Jull, poultry husbandman in the United States department of agriculture.

It was with gratification that Canadian officials, who are carrying out the work or organizing the World's Poultry congress of 1927, learned Dr. Jull had been chosen chairman of the United States national committee, for they knew both Dr. Jull and his accomplishments. As head of this important committee, Dr. Jull has been carrying on a splendid work, and his enthusiasm has already brought assurance of over two thousand official delegates from the United States, in addition to whom there will be several thousand other members and associate members of congress.

Dr. Jull is a native of Burford, Ont., where he was born on August 26, 1885. He is a graduate of Ontario Agricultural College, 1908 (B.S.A.); of McGill university in 1919 (M.Sc.); and of University of Wisconsin in 1922 (Ph.D.). In 1908-09 he was connected with West Virginia experiment station, and during the next two years was with the British Columbia Agriculture department. From 1912 to 1923 he was head of the poultry department of Macdonald college, when, at the request of the secretary of agriculture for the United States he entered the service of that country. He is an official delegate from the United States to the World's Poultry Congress to be held in Ottawa from July 27 to August 4.

Russia Building Airplanes

Equipment of Soviets Increased by Sixty New Machines

An increase of more than sixty aeroplanes in the aerial forces of the Soviet union is announced as the result of a country-wide campaign conducted under the watchword, "Our answer to Chamberlain."

(This refers to the breaking off of diplomatic relations with Russia by Great Britain).

Reports from 23 provincial cities published at Moscow announced the intention of the various unions in those places to construct from one to twelve aeroplanes each.

Leningrad leads in the building program.

Many mothers have reason to bless Mother Graves' Worm Exterminator, because it has relieved the little ones of suffering and made them healthy.

English scientists are experimenting with an electric machine designed to eliminate the dense fogs which visit London.

Costs little but always effective

First Yokeless Egg

Adolph Goldberg is an egg candler; he has been one for 30 years. But not until the other day did he ever see an egg without a yolk. He took it to the Museum of Natural History, New York, where officials agreed that it was the first on record.

Dust Causes Asthma. Even a little speck too small to see will lead to agonies which no words can describe. The walls of the breathing tubes contract and it seems as if the very life must pass. From this condition Dr. J. D. Kellogg's Asthma Remedy brings the user to perfect rest. It relieves the passages and normal breathing is firmly established again. Hundreds of testimonials received annually prove its effectiveness.

Greatest Menace to Motorists

The two greatest menaces to the safety of motorists are the speed mania and the level crossing. When it is properly appreciated that roads are not race tracks and that level crossings are a species of death trap, the number of fatal accidents caused by the automobile will become practically negligible, at least in comparison with what has been the case the last few years.

UNIVERSITY OF MANITOBA
WINNIPEG

Offers, among others, the following Courses:

Through its FACULTY OF ARTS AND SCIENCE courses leading to the degrees of B.A. and M.A.; and B.Sc., including B.Sc. (Phar.), and M.Sc.
Through its FACULTY OF ENGINEERING AND ARCHITECTURE courses leading to the degrees of B.Sc. (C.E.), B.Sc. (E.E.), M.Sc., and B.Arch.
Through its FACULTY OF MEDICINE courses leading to the degrees of M.D. and C.M.
Through its FACULTY OF AGRICULTURE AND HOME ECONOMICS courses leading to the degrees of B.S.A. and B.Sc. (H.E.)
Through MANITOBA LAW SCHOOL, an affiliated institution, a course leading to the degree of LL.B.

A Huge Task

Lighthouses and Buoys Have to be Inspected and Cared for Every Year

Every good housekeeper knows what spring house cleaning means, it is something every well domesticated woman regards almost as a religious rite. Very few people, however, ever think that there is also a most important "Spring Cleaning" of the sea necessary.

Buoys, lighthouses, lightships and a hundred accessories have to be thoroughly overhauled, painted and otherwise cared for, under the capable supervision of Trinity House Corporation, which has had charge of such matters since the year 1514. Every year from March until the end of June, Trinity House tenders are very busy indeed.

Repainting the buoys is not such a simple job as it sounds, for these are the signposts of the sea roads, and upon their accurate colors and markings and shapes depends the safety of sea-going vessels, conveying as they do many and varied meanings to the mariner. Though buoys are long-lived, a certain number have, of course, to be renewed each spring from the storeroom of Trinity House, at Blackwall, in London.

Here may be seen hundreds of spare buoys of all sorts and sizes — gas, whistling and bell buoys, conical and spherical buoys, and a host of other shapes and types, each destined to serve a specific purpose in the service of navigation.

The inspection of lighthouses made during each spring is another tremendous task, for, though they are fixed structures, the constant buffeting of the breakers and the never-ceasing erosion of the atmosphere naturally make inroads upon the masonry.

In the case of a lighthouse built on a promontory, the work of restoration is not a difficult propositions; but on an isolated rock such as the Bishop's Rock Light off the Scilly Isles, or the Fastnet Light off Cape Clear in Ireland, the work usually occupies many weeks or even months—the last-named lighthouse being very appropriately known as the "Out-post of Europe."

Repairing, renovating and repainting the exterior of lighthouses constitutes one of the most dangerous tasks that the workmen of the sea are called upon to perform. They are forced to toil on narrow, swinging platforms at a height from fifty to a hundred and fifty feet above sea level, their crazy supports being frequently buffeted by sudden gusts of wind, when the slightest carelessness in the manipulation of lifelines or similar tackle may easily send the men crashing to death on the rocks below.

Then there is the danger of a sudden storm arising, making a hazardous adventure of the effort to reach a place of safety, as the men swing precariously at the mercy of the elements.

Yet the work must go on — a work little understood by the landsmen, and hardly to be appreciated except by those who, going down to the sea in ships, rely upon the efficiency of both the lighthouses and their keepers.

DRAGGING-DOWN PAINS RELIEVED

Woman Suffered Nearly a Year. Lydia E. Pinkham's Vegetable Compound Brought Her Health

Moose Jaw, Sask.—"I am going to try to tell you what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered very badly with dragging-down pains and inflammation, also pains in my right side over my hip and down my whole side into my leg. I had it nearly a year when I went to a doctor and he said I would have to have an operation. But my mother said to take Lydia E. Pinkham's Vegetable Compound as it saved her life years before. I took two bottles and I found I was better, so I kept on taking it and also used Lydia E. Pinkham's Sanative Wash. I have had two more children since then and am perfectly well. I used to have to lie down two or three times a day, and now I do all my housework without trouble. I always keep the Vegetable Compound in the house as I find a dose now and then helps me. I am willing for you to use this letter any way you see fit and I will answer letters. If I can help any other woman I'd be only too glad to try."—Mrs. ESTHER HOUGHTON, 414 Morse Square, Moose Jaw, Saskatchewan.

Lydia E. Pinkham's Vegetable Compound is a dependable medicine for all women.

For sale by druggists everywhere. C

Peopling the West

Canadian Colonization Association Locate Over Two Thousand Families in Past Two Years

"Through the activities of the Canada Colonization Association during the past two years 2,012 families have been established on farms, totalling 488,092 acres, in Western Canada, adding a rural population equal to the city of Lethbridge," said Colonel J. S. Dennis, of Montreal, President of the Association, at the opening of its new quarters in the Royal Bank Building at Winnipeg. "From the beginning of the present year to the end of May," said Col. Dennis, "351 families have been placed on 85,205 acres—122 in Manitoba, 125 in Saskatchewan and 104 in Alberta. The large percentage of the farms have been sold equipped and their value is approximately $20,000,000.

All Wool Stocks Sold

Canadian Co-operative Wool Growers Dispose of 1926 Clip

"All wool stocks accumulated in 1926 have been sold," announces G. E. O'Brien, general manager of the Canadian Co-operative Wool Growers. Despite unfavorable market conditions the 1926 clip has been placed and the decks cleared for the 1927 wool. Among the shippers to the Co-operative are the Prince of Wales, a neighbor, the Earl of Minto, Dr. F. S. Tolmie, former Federal Minister of Agriculture, Hon. John S. Martin, Ontario Minister of Agriculture, Hon. E. D. Barrow, British Columbia Minister of Agriculture, the Dominion Experimental Farms, the Agricultural Universities, Colleges, Schools and Provincial Institutions, as well as the Canadian Pacific Railway Demonstration Farms.

Growth of Import Trade

Canada's Exports Are Increasing at a Rapid Rate

"One of the most notable developments in Canadian industry is the steady growth of export trade and, with this progress, improved shipping and banking facilities, increased interest in overseas exhibitions, a more intensive study of foreign markets, export procedure and export costs," according to the report of the commercial intelligence committee of the Canadian Manufacturers' Association, presented at the annual convention. Statistics were given to show that Canada's exports have increased in value from $168,927,301 in 1900 to $1,274,362,118 in 1926—a gain of 670 per cent. During the same time exports of manufactured goods increased 2,926 per cent.

Platinum Produced in Canada

Platinum produced in Canada in 1926 totalled 8,521 ounces, or an increase of 1,000 over the year before, according to the Dominion Bureau of Statistics.

"Heathens" are dwellers upon heaths. The word heathen acquired its meaning from the fact that at the introduction of Christianity into Germany the wild dwellers on the heaths "longest resisted the truth."

The bark of the holly is almost as thin as paper. Trees have been known to die from a bruise.

Examinations Reveal Ignorance

Answers Given By Scholars Are Sometimes Amusing

The following schoolboy howlers are really worth publishing as studies of the psychology of their authors. For instance, a boy who declared that a fugue "is what you get in a room full of people when all the windows and doors are shut" moved on the same mental plane as the other who defined "mosquito" as "the child of black and white parents."

"A Soviet," it appears "is a cloth used by waiters in hotels"; "Fallacy is another name for suicide"; "a polygon is a dead parrot"; "Philosophy increases thirty-two feet per second," are other good examples of this kind.

Sometimes the culprit hits by accident on a profound truth. "Genius is an infinite capacity for picking brains," for example.

More subtly entertaining are the inventions, evasions and delicacies of the more advanced, who have perforce accepted the burden of concealing their ignorance rather than displaying their knowledge. This class is naturally less numerous.

The best known specimen is the answer to the question: "What do you know about Elijah?"—"We do not know much about this holy man, but we do know that he once went for a cruise with a widow."

A short examination essay on a certain Shakespearian play closed with the astounding statement that the King "went on ironing his trousers," and this was ultimately traced to a sentence in the summary of the plot, which told the student that the King "continued to press his suit."

Experiments Yield Remarkable Results

Famous Surgeon Sees Hope of Immunity From Cancer

"I am in hopes that means of immunizing people against cancer will be discovered," said Dr. William J. Mayo, American surgeon, in an interview at London. He is visiting this country to exchange views with leading surgeons and physicians.

He cited the extraordinary results of the experiments carried out by Dr. Maud Slye, Chicago woman doctor, who is able, he said, by selective breeding, to breed mice which will in no circumstances develop cancer despite all efforts to introduce it into them. On the other hand, she is able he declared, to breed mice which will inevitably be born with cancer.

"These experiments," said Dr. Mayo, "with the others conducted by Dr. Gye and Professor Blair Bell lead logically to the idea of cancer prevention as well as the discovery of the cause. Medical science has massive evidence to prove that the relief of all sources of chronic irritation does much to prevent cancer and that early operations effect cures."

For Rheumatic Pains. — The pains and aches of Sciatica and Rheumatism should be treated with Dr. Thomas' Eclectric Oil. The soothing and healing properties of this famous remedy have been demonstrated for fifty years. Use it also for inflammatory pains, cuts, scratches, bruises and sprains, either in human beings or the lower animals.

British Columbia Wants Agreements Revised

Says Those Existing Between Province and Dominion Out of Date

Preparations are under way at the Parliament buildings, Victoria, for the interprovincial conference to be held in Ottawa this year at the call of the Federal government. Under the direction of Hon. J. D. MacLean, acting premier, officials are preparing detailed information to support the views of this province, to be presented by the two members of the provincial government. This information is designed to show that the existing agreements between the Province and the Dominion are out of date and require alteration in several directions. The conference is planned for early in November.

A machine which produces motions similar to those of an earthquake has been invented in Japan, to test different types of construction.

In 200 tests recently made, the average ash can was found to contain fifty per cent. of coal.

Odoscope is Newest Invention

Amazing Medical Apparatus Made by German Scientist

An amazing medical apparatus which automatically signals whether one is in good health or not has reached London, and is being used with remarkable success by a West End specialist.

Named the Odoscope, it is the invention of a German scientist, and in certain circumstances enables ordinary diagnosis to be entirely dispensed with.

A pressure of the finger on a tiny hole and the instrument instantly records with unerring accuracy the state of the patient's health.

An interested enquirer who tested it found that he was deficient in three important salts. Not only that, but the apparatus actually traced out in alphabetic character the dash or sign of the salt in question.

The miracle machine is the result of a long series of experiments based upon the discovery that in the sun, air and earth and in the protoplasmic organization of man, the creation and death of all life is dependent upon 16 different rays.

In the Odoscope there are 16 tiny holes, each one of which tells by vibrations which biodic salts are deficient in the blood of the individual signalling, and so denotes the state of the health.

An Enviable Position

Practically no Tuberculosis Among Dairy Cattle in Fraser Valley

Dr. W. H. McKenzie, superintendent of the Dominion health of animals branch, in British Columbia, is of opinion that tuberculosis among dairy cattle in the Fraser Valley, B.C., will be practically eradicated within a year. Last year almost 8 per cent. were infected on test; this year's inspection showed a reduction of infection to 1.11 per cent. Next year he expects the reactors will be lower than one-half of one per cent. in this area. That is the rate officially regarded as T.B. free. Testing of herds from Hope to North Bend has been done, and of the 42,500 tested this year only 430 were condemned. Last year 4,338 out of 46,989 reacted. This year he says, farmers in the Fraser Valley, realizing the value of healthy herds welcomed the veterinarians who conducted the test.

Had Several Reasons

A minister who had not been long appointed to a church in the South of Scotland asked one lady how she liked his preaching.

"I didna like it at a'," she answered.

"And, pray, why not," he asked.

"Weel, in the first place," she answered, "ye read yer sermon; an', in the second place, ye didna read it weel; an', in the third place, it wasn't worth the readin'."

Children Cry For "Castoria"

Especially Prepared for Infants and Children of All Ages

Mother! Fletcher's Castoria has been in use for over 30 years to relieve babies and children of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep without opiates.

The genuine bears signature of

Chas. H. Fletcher.

Importance of Agriculture

Employs More People in Canada Than Other Industry

Agriculture employs more people than any other industry in Canada. The latest available statistics show that 1,041,618 persons were employed when the figures were taken. Manufacturing came next with 546,657. There were 3,183,169 persons over 10 years of age gainfully employed in the Dominion, of which 2,683,010 were men and 490,150 women. These figures show that 47.5 per cent of the total population was engaged in some gainful occupation.

Waiting works wonders — if you keep busy while waiting.

The Emden in the Pictures

German War Film Being Shown in London

Evidence that feeling engendered by the War is dying down is forthcoming from the fact that a German film illustrating the exploits of the Emden is being shown in London by an English firm who are best known as the distributors of the British war films "Ypres" and "Mons." Some people consider that they have taken a bold step in booking his wholly German war picture, but the film is so good and so impartial that there is no reason why British audiences should not welcome it on its merits.

The story begins with the Emden's departure from Tsingtau at the outbreak of war, and winds up with a remarkably vivid portrayal of her final battle with H.M.S. Sydney, off Cocos' Island. It is as restrained and as fair as any of the British war films, and has a stronger narrative force than any except that of Zeebrugge, without any unnecessary exaggeration of the glory or of the horrors of actual fighting, the War is shown from the angle of the crew of the German raider, and particularly from that of one young officer, a reservist in business at Tsingtau, who meets his own wife as a passenger on one of the captured British steamers, is put in command of the captured British crews, and eventually dies during the bombardment by the Sydney.

Enough glimpses of her various exploits are shown to give one a pretty good idea of her touch-and-go career, and the co-operation of the German admiralty has ensured an authentic naval atmosphere. One episode is omitted. That is the interval during the Cocos Battle when the Sydney, seeing the Emden hopelessly stranded, went off to capture her coal tender, the Buresk, before returning to enforce on Captain Von Muller an honorable surrender. The British are treated quite fairly; there is no "hate" anywher in the picture.—London Correspondence in Free Press.

NO MEDICINE LIKE BABY'S OWN TABLETS

For Either the Newborn Babe or the Growing Child

There is no other medicine to equal Baby's Own Tablets for little ones — whether it be for the newborn babe or the growing child the Tablets always do good. They are absolutely free from opiates or other harmful drugs and the mother can always feel safe in using them.

Concerning the Tablets, Mrs. John Armour R. R. 1, South Monaghan, Ont., says:—"We have three fine, healthy children, to whom, when a medicine is needed, we have given only Baby's Own Tablets. The Tablets are the best medicine you can keep in any home where there are young children."

Baby's Own Tablets are a mild but thorough laxative which regulate the stomach and bowels; banish constipation and indigestion; break up colds and simple fever and make teething easy. They are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Conan Doyle's Early Struggles

First Twelve Years of Literary Career Were Hard

Sir Arthur Conan Doyle, who was 68 years old recently, is fond of recalling his own early struggles for the encouragement of budding story-tellers. Though he had a short story published in "Chamber's Journal" — first encourager of so many famous writers—when only 19, he wrote for three years after that without an acceptance, and his early books brought but a small financial return. During the first twelve years of his literary career, indeed, he never made more than £58 per annum by his pen, and the first of the famous Sherlock Holmes series he sold outright, after numerous publishers had rejected it, for £25.

Girls Won in Competition

The one and only man in the buttermaking class at the Bath and West Agricultural Show took his hand at the churn when he competed against over a dozen shingled and silk-stockinged dairymaids—and lost. The man was E. J. K. Elliott, from the Somerset Farm Institute, Bridgwater, and the class was for students who had been through a course of instruction in buttermaking at a county school.

Ambulance Surgeon—What brought on the fit?

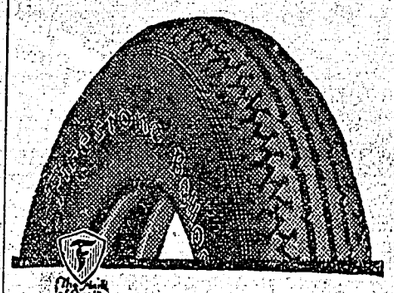
Neighbor—The poor fellow's new car had just been delivered, and when he came out he saw a butterfly tramping over the paintwork.

One thorn of experience is worth a dozen buds of advice.

Minard's Liniment for earache.

Experimenting on Dental Serum

That dentists soon may be injecting serums to prevent tooth decay is the prediction of a specialist in Chicago Dr. C. N. Johnson, who is experimenting on such a preparation. Tooth decay, he says, is the most common ailment known.



Enjoy a Real Tour on Gum-Dipped Tires

When you tour on Gum-Dipped Tires all roads seem equally good. There is nothing to compare with the smooth, sure performances of these big, low-pressure tires. Jolts and vibrations disappear. Stretches of rough going cannot disturb you or harm the mechanism and well-built structure of your car.

If it is slippery and muddy underfoot, Gum-Dipped Tires, having double the road contact, cling to the road and hold the car unwaveringly to a true, straight course. On grades there is extra traction; at sharp curves or in quick stops you will have perfect control of wheel and brake. Skidding is almost impossible.

Through the development of the exclusive Gum-Dipping process, Firestone has tremendously increased tire mileage in balloon tires. This insulates and impregnates every fibre of every cord with rubber, reduces internal heat and friction and delivers thousands of extra miles with added comfort and safety.

Ask any Firestone Dealer to show you the structure of Balloon Gum-Dipped Tires and to tell you their advantages. He is an authority on this type of tire and is in a position to serve you better and save you money. See him to-day.

Firestone Builds the Only Gum-Dipped Tires

Little Helps For This Week

Behold, we count them happy which endure.—James v. 11.

Well, to suffer is divine;
Pass the watchword down the line,
Pass the countersign, "Endure!"
Not to him who rashly dares,
But to him who nobly bears,
Is the victor's garland sure.
—John Greenleaf Whittier.

If, for some of us, and sometimes for all of us, action cannot mean doing, then remember bearing too is action,—oftenest its hardest part.
—William Channing Gannett.

Endure and dare, true heart; through patience, joined with boldness, come we at a crown encircled with a thousand blessings.
—Spanish Proverb.

Miller's Worm Powders act mildly and without injury to the child, and there can be no doubt of their deadly effect upon worms. They have been in successful use for a long time and are recognized as a leading preparation for the purpose. They have proved their power in numberless cases and have given relief to many children, who, but for the good offices of this compound, would have continued weak and enfeebled.

Mrs. Smith—Did you know that your former maid is with us now?

Mrs. Smythe—You don't say so!

Mrs. Smith—Don't be frightened I only believe half what she tells me.

Pity may be akin to love, but a girl isn't willing to accept it as a substitute.

PIMPLES ON FACE ITCHED BADLY

Skin Became Scaly. Arms Later Affected. Cuticura Heals.

"I suffered from pimples that broke out all over my face. They were large and red, and itched so badly that I scratched them until they would bleed. My skin became scaly and started to peel off, especially around my mouth. Later my arms became affected with pimples.

"I began using Cuticura Soap and Ointment and they helped me. I continued the treatment and in about two weeks I was healed." (Signed) E. M. Bradley, 185 Queen St., Charlottetown, P. E. I., Aug. 11, 1926.

Use Cuticura Soap, Ointment and Talcum to promote and maintain skin purity, skin comfort and skin health; the Soap to cleanse and purify, Ointment to soothe and heal, and Talcum to powder and refresh.

Sample Each Free by Mail. Address Canadian Depot: "Stenhouse, Ltd., Montreal." Price, Soap 25c. Ointment 25 and 50c. Talcum 25c.
Cuticura Shaving Stick 25c.

School Board Meets

The Trustees of the Greenwood Superior School held a meeting in the City Hall on Wednesday of last week, at which school affairs were discussed. Mr. N. E. Morrison will remain as principal and Miss Vera Kempston will again be in charge of the primary room. Miss Ruth Axam who has been in charge of the Spencer School during the past term has been chosen to preside over Division II formerly in charge of Mr. T. Crowley, who has resigned.

The Trustees decided to have some kalsomining done and also renovate the interior of the school, the work to be completed before the fall term commences.

Midway News

The Midway baseball team plays at Wauconda on Sunday

Mrs. Harold Moll, of Kimberley, was over for the Jubilee holidays.

Miss Nora Jackson and Miss Annie Thomet were visitors to Greenwood today.

Miss Inez Erickson, of Republic, has been visiting Miss Helen Nystrom for a few days.

Mr. and Mrs. James Bush and daughters, Lela and Mayneen motored to Spokane on July 2nd.

The Ladies Aid will hold their monthly meeting on Friday, July 8th, at 2:30 p.m., in the Old School.

Miss Lucile Evans was the guest of Miss Virginia Riley, of Norwegian Creek, for a few days last week.

Mr. and Mrs. Harry Clark and family, of Seattle, are visiting the former's parents, Mr. and Mrs. T. A. Clark.

The Annual Public School Meeting will be held on Saturday, July 9th at 7 p.m. Kindly make it a point to be there. It is to your interest to do so.

Midway won from Orient at Curlew on the 4th, by a score of 4 to 0. Owing to rain the final game with Curlew was called off. This game will be played after the league season.

Mr. and Mrs. John Melton and family, of Bucoda, Wash., were the guests of Mr. and Mrs. H. Strauss over the holidays. Mr. Welton is a nephew of Mrs. Strauss.

This seasons conditions have been ideal for the flat, although it has been famed for grasshoppers, some of the finest potatoes are being harvested from the garden of Henry Strauss. Henry Pannell is also engaged in cutting a good crop of rye hay.

Kettle Valley Golf Notes

It is understood that the Penticton Golf Club will play a competitive visit to the local Golf Club sometime in the fall.

The Oliver Golf Links is progressing rapidly and promises to be an excellent course. Some visitors from there played on the Kettle Valley Links on July 3rd. Osoyoos has also got a course, but it is only in the making and promises well.

In the Bogey Spoon competition on the Kettle Valley Links, Gregory and Leslie tied, the final to be played later. The first four were:—H. W. Gregory 3 down; R. O. Leslie 3 down; S. B. Hamilton 6 down, and A. Roberts 6 down.

Three Americans from Massachusetts played 18 holes on the local Golf Course on July 3rd and were well pleased with the links. More people are visiting this popular course than last year. The greens have been reoiled and rolled and are in good condition.

H. Douglas Hamilton met with a painful accident on the 3rd instant, when he had his left eyebrow cut. Mr. Hamilton was playing golf on the Kettle Valley Course, when on driving off at the 8th T, his ball ricochetted back striking him on the left eyebrow. Miss Swanson, Matron of the District Hospital, who was on the course, rendered first aid, and later Dr. A. Francis put six stitches in the wound.

Dr. E. J. Rothwell, aged 57 years, Liberal member of the British Columbia Legislature, for New Westminister, who became suddenly ill about two weeks ago while motoring on a holiday trip through the Cariboo district, died in the Hospital at Quesnel on Wednesday, June 29th.

The "Confederation Special" containing 200 delegates from United Churches of Eastern Cities of Canada passed through Greenwood at an early hour on Tuesday morning. They are touring under the auspices of "The New Outlook," the official organ of the United Church of Canada.

The Marketing Bill

The United Farmers will hold their monthly meeting in the Farmers' Hall, Midway, on Saturday, July 9th, at 2 p.m. Mr. D. McPherson, the local member, will be present and will give an address on the marketing bill. Mr. Paul C. Black, of Grand Forks, district horticulturist, will also give an address on dairying. It is hoped that all the farmers in the district will make an effort to be present.

Brief Facts About Fairbanks' "Don Q."

The new Douglas Fairbanks screen feature "Don Q, Son of Zorro" is a supreme melodrama.

It is a modern story, laid in Spain, with most of the action taking place in Madrid.

Action-plus, with lightning swordplay, stunts, athletic achievements humor and romance merge ceaselessly.

The scenic background is the most elaborate and pretentious imaginable for the period. Fairbanks leaps as it were from castle to castle.

The plot is founded on "Don Q's Love Story" by K. and Hesketh Prichard, adapted for the screen by Jack Cunningham.

The story positively has nothing to do with the Cervantes hero, "Don Quixote" or his windmill troubles.

Mary Astor, young, beautiful and accomplished, has the leading feminine role.

"Don Q, Son of Zorro" comes to the Greenwood Theatre on Friday and Saturday, July 8th and 9th. Dance after the Show on Friday.

I'd rather be a Could Be,
If I could not be an Are,
For a Could Be is a Maybe
With a chance of touching par.

I'd rather be a Has Been,
Than a Might Have Been by far,
For a Might Have Been, has never been,
But a Has, was once an Are.

Forestry Association Lecture Tour and Show

The Canadian Forestry Association are conducting a Lecture Tour and Moving Picture Show through the Southern Interior District during this month and will be travelling through this district between July 19th and 21st. Shows have been arranged for the following places on the dates menitoned:—

Tuesday, July 19th, Midway in the evening.

Wednesday, July 20th, Rock Creek in the afternoon and Beaverdell in the evening.

Thursday, July 21st, Greenwood in the afternoon.

The Forestry Association is kept up by public subscription and Shows that they put on are entirely free. There is no charge for admission nor is there any collection after the Show.

Rock Creek and District

The Martin Auction will be held at G. B. M. Gane's Store on Saturday, July 16th at 2 p.m.

Mr. and Mrs. H. L. T. Martin motored over from Kimberley last week and spent a few days in the district, being the guests of Major and Mrs. R. Gray.

A Grand Benefit Dance will be held at Riverside Hall, Rock Creek, on Friday, July 22nd, 1927, commencing at 8:30 p.m. Sterling & Lloyd's Celebrated Orchestra will supply the music. Adults $1.00, Local School Children under 14 years 50c. Supper included. Come and help a good cause, and have a real good time.

Mr. and Mrs. Juan Lewis, Sr., Mr. and Mrs. J. A. Abraham and son, Howard, Mr. and Mrs. Juan Lewis, Jr., of Spokane, Wash., and Miss Margaret Jardine of Seattle, Wash., motored up from Spokane and spent the 4th of July with Mr. and Mrs. Geo. Lord at Rock Creek.

Independent

A lawyer who advertised for a chauffeur, when questioning a negro applicant, said: "How about you, George; are you married?"

"Naw, suh, boss; naw, suh. Ah makes my own livin'." Ex.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning reulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, toria, B. C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to the value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown Lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is $5 per acre. Further information regarding purchase or lease of Crown Lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled, and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority given to established owners. Stock owners may form associations for range management. Free, or partly free, permits are available for settlers, campers and travellers, up to ten head.

BRITISH COLUMBIA

The Mineral Province of Western Canada

TO THE END OF DECEMBER, 1926

Has produced Minerals as follows: Placer Gold, $78,018,548; Lode Gold, $126,972,318; Silver, $80,787,003; Lead, $106,976,442; Copper, $209,967,068; Zinc, $50,512,557; Coal and Coke, $284,699,133; Structural Materials and Miscellaneous Minerals, $50,175,407; making its mineral production to the end of 1926 show an

Aggregate Value of $988,108,470

Production for the year ending December, 1926, $67,188,842

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing:

THE HON. THE MINISTER OF MINES,
VICTORIA, British Columbia.

N. B.—Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B. C. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.

Reports covering each of the Six Mineral Survey Districts are published separately, and are available on application.
