Dingman—McLean.

A very pretty home wedding was solemnized on Tuesday of this week, June 26th, when Rev. J. P. Westman united in the holy bonds of matrimony Mr. Phillip P. Dingman and Miss Henrietta McLean, daughter of Mr. and Mrs. J. McLean of Hanson avenue. The house was beautifully decorated for the occasion and presented a very attractive appearance. At two o'clock the bride entered the room leaning upon the arm of her father. She looked charming in a beautiful gown of white silk organdie trimmed with lace, and carried a beautiful bóquet of carnations. She was attended by Miss Lillian Taanhauser, who was very daintly attired in a dress of flowered silk organdie, and carried a beautiful shower boquet.

Mr. Dingman, the groom, is very popular in town, and is a steady worker for the C. P. R. He has a host of friends. He was supported by Mr. W. A. Gordon. The presents were numerous and costly, which showed the high esteem in which the couple are held in town. Miss McLean has only been in the city for one year, and during that time has won her way into the affections of many. After the ceremony all sat down to a sumptuous repast which was in waiting in the dining room.

The couple took the afternoon train for coast cities, where they will spend two or three weeks. Upon their return they will take up residence on Hanson avenue. The Prospector joins a host of friends in wishing the bride and groom many years of happy married life.

Dominion Day.

Cranbrook will celebrate Canada's next birthday on Monday next at Moyie. An excellent programme has been arranged. All the sports will be well represented, the most important being the wet test hose race between Cranbrook and Moyie, and the drilling contest.

Will be at Fernie July 4.

A strenuous time may be expected at Fernie on July 4th, when the Cranbrook lacrosse team will play a team from Frank, Alta. For the wet hose contest, the Cranbrook fire brigade have entered a hose company, and will try conclusions with Fernie and a company from Moyie.

Strike at North Star.

It is reported that a new strike of silver-lead ore has been made in the North Star mine. The new strike has been located in the quartz ledge west of the old workings in the mine, and the vein is said to have a width of three feet. Twelve men are now employed at the mine, and inside of ten days the compressor will be in operation, when the force will be increased to eighteen men.

Police Court Report.

A number of circus attaches were up before the "beak" on Tuesday charged with being drunk and stealing.

Those charged with being drunk got off scott free. One Fred Glaser pocketed a small teapot while feasting at a Jap restaurant, and was fined $10 and costs or thirty days on the road gang. Jack Kelly, charged with stealing silverware from a house that sports a red light, was committed for trial. J. Sanders, a vagrant, was given twelve hours to get out of the city.

Summer School and Camp.

Rev. J. P. Westman made a trip to Elko this week on Wednesday to make arrangements for a summer school and camp to be held in that place. The idea is to combine study with pleasure. So far over fifty have decided to go. A good site has been chosen and arrangements are being made for accommodation. An interesting programme has been arranged and will be announced later. Any persons wishing to spend a good enjoyable week at an ideal spot should let Rev. J. P. Westman know, so that room can be reserved.

South Wales Visited.

Cardiff, Wales, June 27.—Violent earthquake shocks were experienced throughout south Wales at 9.45 this morning. Houses rocked, and many of the cheaper ones were damaged. Hundreds of chimneys fell, pictures were shaken from the walls, occupants of dwellings were thrown to the ground and people fled from their houses, shrieking in panic, with visions of the San Francisco disaster before them. Though there were many narrow escapes from falling chimneys and houses, there were no casualties.

Shocks were also felt at Bristol, Ilfracombe and elsewhere. They were accompanied by loud rumblings.

HAVE LET CONTRACT

For New Business Block of the Fink Mercantile Co.

The contract for the construction of a business block for the Fink Mercantile Co. was let on Wednesday to Kerr & Campbell of Fernie. The new building will be constructed of cement, and will be 52x100 feet, two stories in height, and will be the most substantial and modern building in Southeast Kootenay. The cost of the building alone will be in the neighborhood of $20,000, and including the price of lots, fixtures, etc., will represent a total outlay of $30,000. It will be as near fireproof as it is possible to make it, and will be completed by October 1st.

Launching of the New Hampshire

Camden, N. J., June 30.—The new American battleship New Hampshire was successfully launched this morning at the yard of the New York shipbuilding company. Governor John McLane of New Hampshire and his staff, as well as several hundred prominent citizens of that state, were present at the launching. The New Hampshire is a sister ship of the Kansas, which was launched last August, and will be one of the most powerful of that class of fighting ships afloat.

KOOTENAY CENTRAL RAILWAY

Parliament Will Extend Time of Subsidy Granted in 1903

A dispatch from Ottawa says that the Hon. Mr. Emmerson, minister of railways, has given notice of forty-three resolutions in respect to subsidies, which will be voted this session. These sums provided for are all re-votes, there being no new subsidies on the list. The total figures reach $9,399,900, divided among the various provinces as follows:

Quebec	$3,574,100
Ontario	2,925,880
Maratime Provinces	1,679,600
Western Canada	1,203,200

The following are the proposed railways in British Columbia that will be benefitted by this re-vote of subsidy:

Wellington to Union Bay, 55 miles, $176 000.

Kootenay Central, Golden to the International boundary, 186 miles, $595,200.

Kettle River Valley, Grand Forks, up North Fork of Kettle river, 50 miles, $160,000.

The all important question is, when will the K. C. R. be constructed? Will the extension of the subsidy also mean a delay of several years before the road is completed.

Time of Construction—Section 12 of chapter 71 of the statutes of 1901 is repealed, and the following is substituted therefor:—

"12. If the construction of the railway is not commenced, and fifteen per cent. of the amount of the capital stock is not expended thereon, within three years from the passing of this Act, or if the railway is not finished and put in operation within six years from the passing of this Act, the powers conferred upon the company by parliament shall cease and be null and void as respects so much of the railway as then remains uncompleted.

It would seem from the above Act that the company have at least three years to complete the road, and possibly the re-enactment of its subsidy act will extend the time of the granting of the present subsidy from 1906 until 1909, when the charter expires.

The subsidy act referred to above was assented to October 24th, 1903, and section 66 of the act reads as follows:—To the Kootenay Central Railway Company, for a line of railway from Golden to the international boundary line, via Windermere and Fort Steele, crossing the Crow's Nest railway at or near Elko, not exceeding 186 miles.

The conditions of the above subsidy were that the road should be commenced within two years from the first day of August, 1903, and completed within a reasonable time, not to exceed four years from the said first day of August, to be fixed by the governor in council.

The road was commenced in January of this year, and ten miles of the road completed ready for the steel, or 15 per cent. of the capital stock expended. It would now seem that the Kootenay Central company have succeeded in getting their subsidy act re-enacted upon, so as to make it conform with the reading of their charter, giving them at least three years more in which to complete the railway.

We wonder what the people of the upper Columbia and Kootenay valleys will think now as to when the road will be completed and what they have to say about this extension of time granted.

Sale of a Historic Chateau.

Paris June 28.—The chateau of Vizille will be sold at auction today. The castle was bought a few years ago by an English syndicate and used as a hotel and club. It was in one of the halls of this castle that the deputies of the municipalities of Dauphiny met on July 1, 1788, and hastened the revolution by demanding the convocation of the general states. It is situated southeast of Grenoble and was long owned by the Casimir-Perier family.

An American Marathon Race

Chicago, Ill., June 30. — In connection with the championship games which are held here today under the auspices of the A. A. U., a Marathon race will be run this afternoon. Nearly two score runners are entered for the event, among them the best amateur long distance runners of the United States and Canada. The start will be made on Sheridan Road, near Evanston and the finish will be at Marshall Field, where several laps of the track will be run in full view of the audience witnessing the championship games. A fine cup will be given the winner and trophies to the first six to finish. Fancy diamond medals will be given to the first two.

Of Interest to Fruit Growers.

Thos. A. Bryden, president of the B. C. Fruit Growers' Association, accompanied by two members, Messrs. Metcalfe and Smith, will attend here on Saturday, July 7th, for the purpose of giving practical demonstrations in the art of planting fruit trees, and also of pruning same. They will arrive by the 3.30 p.m. train and will then proceed to William Hamilton's fruit farm, where they hope they will have a crowd to meet them, who will benefit by their exposition of the best methods of tree planting and pruning. In the evening of the same date they will deliver a lecture in Patmore hall on scientific fruit farming and also on all cognate subjects. The chair will be taken at 8 p. m., and the trouble will start immediately after.

Board of Trade Meeting.

A meeting of the Cranbrook board of trade was held in the council chamber Thursday evening. Minutes of last meeting were adopted as read. Committee appointed to interview C. P. R. re branch line from Elko to Baynes lake, reported progress and were asked to follow the matter up.

The secretary read a report from the publicity committee of the Hundred Club, together with account of expenses in connection with same. The report of committee was referred back with instructions to have the matter printed and published at the earliest moment.

The following accounts were ordered to be paid: E. Elwell, trip to Windermere, $94.40; Jos. Ryan, writing up pamphlet, $10.

The committee appointed to solicit subscriptions to defray expenses of delegates to Calgary and Winnipeg, re Kootenay Central reported a deficiency of $1.10, which was ordered to be paid out of the general funds of the board.

It was moved by G. T. Rogers, seconded by Dr. Bell, that the secretary be instructed to write to the newly organized board of trade at Marysville, expressing the good wishes and co-operation of this board.

The publicity committee were authorized to accept advertisements for the pamphlet from such merchants in this city who may wish to do so and arrange for charges therefor.

The gentlemen who have given us their names for the Hundred Club and who have not yet paid in their subscription are requested to do so as soon as possible.

FIERCE FIRE IN SANDON

Fifteen Houses on Cody Avenue Wiped Out.

Sandon, June 25.—A fire started in Archie McDonald's house on Cody avenue about 10:45 this morning, spread at an alarming rate and before it could be got under control, had wiped out all the dwelling houses from H. F. Pound's to William Davidson's, fifteen in all.

The fire was started by a son of Archie McDonald's who had been playing with matches in a bedroom.

The flames secured a good hold before the fire was discovered and by the time the firemen were on the spot they had already spread to an adjoining house. The firemen made a great fight but they were unable to stay the spread of the flames up the avenue and only a favorable wind saved the fire from running down into the business portion of the town.

At McLeod's cottage the fire was stopped from traveling further up the gulch by a bucket brigade.

About 1:30 P.M. the wind changed and blew down on the town, but by this time the fire was fairly well under control and no fears for the safety of the business section were entertained.

The fire crossed the Cody track of the Kaslo & Slocan railway and spread through the timber, running to summit of the mountain.

At 6 o'clock, when this message was filed, the fire was confined to the hillsides and the town was considered to be out of danger.

Among those who lost their homes in today's blaze, in addition to Archie McDonald, were H. F. Pounds, city clerk Lyons and William Davidson, M. P. P. In all cases the houses were completely destroyed with their contents.

The fire loss is estimated at about $12,000 or $15,000, with very little insurance.

Government Building.

The plans for combined provincial and civic building have been received by Mayor Rogers. Tenders for the excavation and construction of the basement will be called for next week.

Flock of Eagles.

Fernie will be flooded with Eagles next week. The great celebration on Tuesday and Wednesday, July 3rd and 4th, under the auspices of the local Aerie, is attracting widespread interest and the attendance from all parts of the interior promises to be very large. A special feature of the celebration will be the election of a queen, to whom will be presented a valuable diamond ring and a purse of gold. A beautifully mounted eagle is to be presented to the outside aerie having the largest number of members present. The eagles know how to entertain, and the Fernie brethren mean to show the visitors that they have been well trained.

Caledonians On Wi' Me.

The regular meeting of the Caledonian society was held in Patmore hall Wednesday evening. After the usual preliminaries the picnic to Wild Horse creek was discussed. Arrangements were made to meet at the hall and start at 8 a. m. on Monday, July 2nd. The ladies of the society have generously promised the baskets and the gentlemen the conveyances. After a pleasant evening and the singing of Auld Lang Syne, the indoor gatherings were adjourned for three months. Outings will be the mode of entertainment for the three months of summer.

SATURDAY, JUNE 30, 1906.

WE take it for granted that parents are as much, if not more, interested in the advancement of their children at school as are the teachers and no teacher takes delight in a pupil's failure. The management simply wishes to call the attention of the parents to the facts in the case and urgently request, no demand, that nothing be allowed to interfere with the progress of their children in school work.

We presume that some people think newspaper men are persistent dunners. Let a farmer place himself in a similar position and see if he would not do the same. Suppose that he raises a thousand bushels of corn and his neighbor should come and buy, and the price was one dollar or less, and says, "I will pay the amount in a few days." As the farmer does not want to be small about the matter, he says, "All right." Another comes the same way, and another, until the whole thousand bushels of corn is trusted to a thousand different people and no one of the different persons concerns himself about it, and it is a small amount they owe the farmer and of course that will not help him any. He does not realize that the farmer has frittered away his entire crop of corn, and that its value is due in a thousand little driblets, and that he is seriously embarassed, in his business, because his debtors treat it as a little matter But if all would pay him promptly, which they could as well as not, it would be a large sum to the farmer and enable him to carry on his business without difficulty.

We got so many new subscribers last week, after ordering our paper, that most of our exchanges had to be slighted. We would say by way of apology that we hope the same thing may happen often.

* * *

There is no reasonable excuse for any man to live in a town if he doesn't like it. If you have no word of commendation to say for your town, its institutions or people, emigrate. You won't stop the town clock by going away. The church bells will have the same musical ring, the little dogs will play just as well, and the pure air, bright sunshine and sparkling water will have the same health-giving properties. Speak a good word for your neighbor, if you can; if you cannot, don't everlastingly enlarge on their faults. If you have become thoroughly disgruntled move away; go somewhere where things will suit you

* * *

The editor who can please every one is not suited for this earth, but is entitled to wings. Human nature is so constituted that some of our readers would like to have us feed them on scandal; some would like to have us tell the unvarnished truth about them, while others would kill us if we did. It is a comforting thought to the editor to know that the Lord Himself did not please every one while on earth. We labor hard to entertain and please our subscribers but that we should occasionally fail is to be expected, but you will always find us willing to be forgiven.

True, there are no merchant princes, and as often found in the larger cities, but at the same time the town is remarkably free from the class that is watched with tender solicitude by the wholesale houses, and whose devious ways cause much foreboding to their numerous creditors.

Will Instal Power Plant.

James Burwell, of Hermon & Burwell, Vancouver, hydraulic engineers, was in Nelson after a visit to East Kootenay in the interest of the St. Mary's River Power company, which has been formed by Charles Mackay, of Nelson.

Mr. Burwell's detailed report on the results of his examination will not be available for some time, but he has intimated that it is favorable to the prosecution of the scheme.

The firm of Hermon & Burwell had charge of the construction of the power plant at Lake Coquitlam for the B.C. Electric company, which was constructed at a cost of $1,500,000.

Mr. Mackay, seen yesterday about prospects, said that they hold a record for 25,000 inches of water in the St. Mary's river. They will develop sufficient power to light all cities and operate mines in the vicinity. Their markets will include the town of Kimberley and its neighboring mines, the city of Cranbrook, Fort Steele, Moyie and all its mines, including the St. Eugene.

Associated with Mr. Mackay in the enterprise are Robert Campbell, James A. McDonald and J. D. Kay, master mechanic of the St. Eugene mines, all of Moyie; W. Hanwell, of Port Hammond, and Mrs. H. Ross and L. Shaw, of Vancouver.

The St. Marys river is the only large water course in that part of East Kootenay, and all hope of the development of cheap power on a large scale depends upon the success of this enterprise, a success of which Mr. Mackay and his associates are already confident.

Of But Few Days.

Man that is born of his parents is of few days and full of microbes. He goeth to school when a youngster and gets the seat of his pants paddled for something he didn't do until he is sick at heart. He groweth up like a weed in a back yard, and soon reaches the age when he is composed largely of feet, freckles and an appetite for pie. About the time he gets too long for short trousers and not long enough for long one he goeth away to college, learneth how to monkey with a three dollar mandolin and play whiskey poker. He cometh home a bigger fool than ever and marrieth a sweet young thing whose pa is supposed to be wealthy, but whom he subsequently ascertaineth, couldn't buy a prize rooster at a country fair. He worrieth along from year to year, gradually acquiring offsprings, until his house resembles a Sunday school class just before Christmas. He fretteth through the day and lieth awake nights trying to figure out how to keep himself and his dependent population out of the poor house. Efforts are rewarded by having his daughters run away and get married and bring him home a nice son-in-law every few days to feast at his board. His sons grow up and call him governor and set him back a five spot every day or two. About the time he has acquired enough lucre to make it worth while for his heirs to quarrel over, he contracts a cold and is hurried away before he has time to have a talk with his family. His sons blow in his estate on bad whiskey and plug hats, and his wife puts the finishing touches to his career by marrying the hired man.

Dominion Day at Moyie.

Moyie's big annual celebration will be held on Monday, July 2. The prizes, in several events, will be larger than usual.

Special trains will be run from Cranbrook and Ryan to Moyie, and the Cranbrook brass band will be in attendance.

Moyie expects to have a better celebration than ever, and all arrangements are being completed for the accommodation of everyone.

Among the Craft.

The following is a list of officers elected by the Grand Lodge A. F. & A. M. for the ensuing year: Grand master, J. H. Schofield, Trail; deputy grand master, F. Bowser, Vancouver; senior grand warden, W. K. Houston, Victoria; junior grand warden, H N. Rich, Ladner; grand chaplain, H. C. F. Clinton, Vancouver; grand treasurer, H. H. Watson, Vancouver; grand secretary, H. Brett, Victoria; grand tyler, A. Gothard, Vancouver. J. D. McBride was appointed district deputy grand master for Southeast Kootenay.

Sinners Rebuked.

Rev. Dr. Rowe, a leading liberal of the east, hits the nail on the head concerning the talk in regard to the Hon. R. F. Green when he wrote the following letter, which appeared in the Daily Times of Friday of last week:

To the Editor:—I do not see how any good purpose can be served by the campaign at present being directed against the chief commissioner of lands and works. It may be "good politics" (though I doubt it), but it certainly is not fair play to indulge in insinuations and inuendo regarding the character of a public man, and especially when he has asked that his department shall be investigated by a judicial commission.

I hold no brief for Mr. Green. I know nothing as to the merits of the charges made against him but I do know that it is not creditable in any person or journal to deal in covert slander, to deliberately attempt to ruin the reputation of a public man, in the hope of gaining thereby political advantage.

Moreover, as I have said, I do not think it is "good politics." When the organs of a party pursue such a course they reveal their doubts as to the strength of their own party's claims upon the confidence of the people. Mr. Green and the government should be judged by their records, and when their opponents adopt a course of action likely to prevent an unprejudiced judgment it looks very much as if the latter were afraid of the facts.

Certainly if the methods in question are to be understood as properly indicating the sentiment and policy of the provincial Liberal party it will not be easy for lovers of fair play to wish for, much less to promote, its success.

The St. Eugene Mine

"There is now more ore in sight in the St. Eugene mine than we have ever had," James Cronin remarked while in conversation with the Leader representative. "True, we are cutting down the grade and shipping a lower quality of ore and concentrates than we did some time ago, but this is made feasible by the company owning its own smelting plant. Heretofore we have been shipping only the higher grade stuff, but now we are putting through the mill everything that carries values. This is operating the mine as it should be operated, and it will make it better all round."

Wm. White, who arrived this week from Bisbey, Arizona, has been made superintendent, to fill the position until recently occupied by Geo. Clothier. Mr. White was one of the first miners ever employed at the St Eugene and worked there when he and Mr. Cronin constituted the whole force. He spent two years in Colorado and three years in South Africa since leaving here six years ago. "Billy" is a miner of the first rank, and an all round good fellow, and the Leader is pleased to see him promoted to his present position.

Imitation, they say, is the sincerest flattery. Have you noticed how our style of advertising has been imitated. Even to the very words.

Well its not hard to imitate our advertising, but to imitate our Clothing is a very different proposition. We show pictures of our Clothing and they are actual pictures drawn from actual garments.

The artist is not allowed to deviate one iota from the original garment. That's very different from going to an engraver and saying "Give us a swell Clothing Cut". Very different.

We have arranged with our artist to produce for your inspection, Mr. V. A. Rollins dressed in one of the New 20th Century up-to-date suits. Watch for Vic.

Total	1,870	30,411

Maybe Yes! Maybe No!!

The Cranbrook Herald says: "Writing syndicate editorials may be easy work, but they do not always meet the case," or words to that effect. The people of Cranbrook must have been rubbing it into Brother F. E. Simpson these days. Never mind; if Dr. King gets too busy to run in next elections, probably the editor of the Herald might be induced to offer himself in the opposition cause. In that case we should see, what we should see.—Nelson Canadian.
