Of Local Interest

Blue Grouse hunting season closes on Saturday, Oct. 15th.

Staff-Sergeant J. A. Fraser of Penticton, was in town today.

P. Bowsher is spending a week's holiday at his home in Oyama.

Don't miss the Hospital Dance in the Masonic Hall on Friday, Oct. 21st.

George Bryan returned on Tuesday evening from a few days trip to Spokane.

R. Morris has returned to Vancouver from a few days visit with friends in this district.

The Sunday School in the United Church will be held at 2:30 p.m. instead of 10:30 a.m.

Hon. R. B. Bennett, K.C., has been selected as leader of the Conservative party in Canada.

W. C. Wilson is located in Victoria. Bill is missed by a large circle of friends in Greenwood.

Mass will be celebrated in the Catholic Church, Greenwood, on Sunday, October 16th at 11 o'clock.

Gordon Jenks and Ted Hinchcliffe left this morning for Vancouver after a hunting trip in this district.

Corporal McKenzie of the Game Department with headquarters in Nelson was a visitor in town today.

Be sure and be at the Ladies Hospital Auxiliary Dance on Friday, Oct. 21st in the Masonic Hall, Greenwood.

The New York Yankees won the world's baseball championship by defeating the Pirates of Pittsburg in four straight games.

Miss Lottie Haw returned to her home in Grand Forks on Wednesday after a pleasant holiday spent with Mr. and Mrs. E. F. Keir.

Any person desiring an auto trip to Vancouver by paying half the travelling expenses kindly call at The Greenwood Ledge office.

Miss M. E. Stocks, R.N., has received the appointment of Matron of the Greenwood and District Hospital, succeeding Mrs. H. W. Gregory, who recently resigned.

Posters are now out for the Concert in Riverside Hall, Rock Creek, under the auspices of the Rock Creek Women's Auxiliary. A Dance will follow the concert.

Rev. A. Walker will give a new interpretation of Jonah on Sunday evening in the United Church, Greenwood. It is certain to prove very interesting and it is hoped there will be a large congregation.

The pupils of the Christain Valley School had a holiday on Wednesday, a skunk having visited the School the night previous made the building untenable for that day.

Constable W. B. Stewart has been transferred to Lillooet and will leave for that town in a few days. He is succeeded by W. R. Powers of Lillooet, who has arrived in town accompanied by Mrs. Powers and two children.

The team of horses at the Douglas Hamilton Auction at Kettle Valley on Saturday weigh 2300 lbs. The saddle horse weighs 900 lbs. These two items are worth your attention. The harness will also be sold.

A. J. Jackson, of Oroville, Wash., and a pioneer of Greenwood, was renewing acquaintances in town during the week-end. He was accompanied by his daughter, Helen and son, Sidney. The latter person is associate editor of the Oroville Gazette.

A quiet wedding was soleminized at the Manse on Saturday, Oct. 8th, when Rev. A. Walker united in marriage Howard Field and Vester Elizabeth Thorndike both of Chesaw, Wash. The groom's mother and the bride's father and sister were present.

John L. White and Miss Violet Smart were married in Vancouver on Sept. 13. They will make their home at 250 Government street, Victoria. The Greenwood Ledge joins with a large circle of friends in the Boundary in extending congratulations.

The Ladies of the Altar Society of the Catholic Church are holding a Bazaar in the new Auxiliary Hall (old tailor shop), on Saturday, October 29th commencing at 2 p.m. There will be home cooking and fancy work; also fish pond for children. Tea will be served in the afternoon and evening and after the picture show. The gold watch and bedspread will be drawn for at 4:30 p.m.

Loomis, Leo Eade, John Contesso, John Johnson, Burke, Idaho; Joe Husman, Midway; Mrs. L. McKay, Rock Creek; W. K. Gwyer, Penticton; F. H. Fox, city; W. A. Drayton, New York; J. E. White, A. Doyle, A. Fenwick, Fort Steele; W. W. Lazaroff, Trail.

Greenwood and District Hospital

The Directors of the above Hospital very thankfully acknowledge receipt of the following subscriptions:

Previously acknowledged	$3116.30
Donation from the Women's Institute, Midway, per Mrs. E. Hawkes.....	42.00
Total	$3158.30

Successful Fair at Rock Creek

The ninth annual Fall Fair at Riverside Hall, Rock Creek, was held last Friday on a day of beautiful sunshine. The previous weather conditions put farmers in arrears with their work and a considerable number remained home to avail themselves of the fine weather. There were 383 entries with 75 competitors. The display was better than expected. The vegetable exhibits and the ladies department were the largest and best in the show. A feature was the very high quality of the exhibits. The home cooking section attracted much attention. Childrens exhibits were clever particularly the modelling. The flower display was excellent considering the lateness of the season. The poultry list was small, but some very fine birds were judged. The black silver foxes, Chinchilla and silver black rabbits exhibited by Lewis Keir of the Cedar Glen Fur Farm, Midway road, were much admired. The tame young cougar held on a leash by Mrs. Kayes was the centre of attraction during the afternoon.

Great interest was taken this year. A large crowd attended and enjoyed looking over the exhibits which were artistically arranged by the energetic Fair committee.

The judges were:

Fruit, Vegetables and Field Crops, R. P. Murray, Penticton, assisted by P. C. Black, of Grand Forks.

Poultry and other live stock, Wm. Liddicoat, Grand Forks; A. L. Landon, Nelson; D. Corbishley, Penticton.

Ladies Exhibits, Mrs. R. D. Kerr, Mrs. C. J. Lundy, Midway; Mrs. A. Porter, Myncaster.

The prize winners follow:

Section A—Apples

Wealthy.—1st, Mrs. F. B. Pearce; 2nd, Geo. Lord; 3rd, J. C. Madge.

McIntosh Red.—1st, J. C. Madge; 2nd, Geo. Lord.

Wagner.—2nd, J. C. Madge.

Johnathan.—2nd, J. Caldwell.

Snows.—1st, Bubar Bros.; 2nd, J. C. Madge.

Northern Greening.—2nd, J. Caldwell.

Any other variety.—1st, Bubar Bros.; 2nd, J. C. Madge.

Crabs

Transcendent.—1st, H. Whiting; 2nd, J. C. Madge.

Hyslop.—2nd, Bubar Bros.

Section B—Vegetables

Potatoes (white).—1st, A. Johnson; 2nd, J. Caldwell.

Potatoes, Carmen.—1st, S. Bubar; 2nd, W. Hatton.

Potatoes, Early Rose.—2nd, A. Johnson.

Potatoes, any other variety.—1st, E. F. Wilson; 2nd, J. Lindsay.

Carrots, intermediate.—1st, Frank Richter; 2nd, J. Madge.

Carrots, short.—1st, J. Richter.

Turnips.—1st, Capt. Brew; 2nd, Mrs. A. D. McLennan.

Parsnips.—1st, H. Whiting; 2nd, A. Johnson.

Cabbage, winter.—1st, A. Johnson; 2nd, J. Madge.

Cabbage, red.—2nd, H. Whiting.

Cauliflower.—2nd, Miss Nora Jackson.

Onions.—1st, E. F. Wilson; 2nd, A. Johnson.

Beets.—1st, A. Johnson; 2nd, H. Whiting.

Beans.—2nd, W. J. McCelvey.

Corn, squaw.—2nd, A. D. McLennan.

Corn, any other variety.—1st. J. Madge; 2nd, J. Lindsay.

Herbs.—2nd, Mrs. Rusch.

Onions, pickling.—2nd, E. F. Wilson.

Cucumber.—2nd, Mrs. Rusch.

Tomatoes.—2nd, Frank Richter.

Squash.—1st, Miss Nora Jackson; 2nd, E. F. Wilson.

Pumpkin.—2nd, J. Lindsay.

Marrows.—1st, E. F. Wilson; 2nd, Mrs. G. Pitman.

Citrons.—2nd, Miss Nora Jackson.

Section C—Field Produce

Fall wheat.—2nd, G. Harpur.

Oats.—2nd, A. D. McLennan.

Sheaf oats.—1st, A. Johnson; 2nd, Frank Richter.

Sheaf wheat.—1st, Frank Richter; 2nd, W. Hatton.

Beets, sugar.—1st, J. Madge; 2nd, A. D. McLennan;

Carrots, red.—1st, A. Johnson; 2nd, A. D. McLennan.

Carrots, white.—2nd, J. Lindsay.

Turnips.—1st, A. E. Bonnett.

Mangolds.—1st, E. F. Wilson; 2nd, Capt. Brew.

Bailed timothy.—2nd, Frank Richter.

Section D—Dairy Produce

Butter.—1st, Mrs. E. Madge; 2nd, Mrs. J. Madge.

Cheese.—1st, Mrs. J. Madge; 2nd, Mrs. W. J. McCelvey.

Eggs, white.—1st, Mrs. S. Bubar; 2nd, Mrs. A. E. Bonnett.

Eggs, brown.—1st, Mrs. F. Bubar; 2nd, Mrs. A. D. McLennan.

Chicken, dressed.—1st, Mrs. J. Lindsay; 2nd, Mrs. J. Madge.

Section E—Ladies Exhibits

Bread (Purity Flour).—1st, Mrs. J. Madge; 2nd, Mrs. W. J. McCelvey.

Bread (Royal Household).—1st, Mrs. J. Madge; 2nd, Mrs. E. Richter.

Bread, brown.—1st, Mrs. E. Richter; 2nd, Mrs. G. Lord.

Tea biscuits.—1st, Mrs. B. Gane; 2nd, Mrs. J. Madge.

Fruit cake.—1st, Mrs. A. D. McLennan; 2nd, Mrs. F. B. Pearce.

Fancy cake.—1st, Mrs. G. Lord; 2nd, Miss E. O'Donnell.

Cinnamon rolls.—Mrs. W. J. McCelvey. Special prize by Rawleigh's.

Collection of jellies.—1st, Mrs. W. Hatton; 2nd, Mrs. J. Lindsay.

Collection of jams.—1st, Mrs. J. Madge; 2nd, Mrs. W. Hatton.

Marmalade.—1st, Mrs. F. E. Glossop; 2nd, Mrs. W. Hatton.

Collection of canned fruits.—1st, Mrs. H. Whiting; 2nd, Mrs. W. Hatton.

1 qt. cherries.—1st, Miss B. Hatton; 2nd, Mrs. H. Whiting.

1 qt. raspberries.—1st, Mrs. H. Whiting; 2nd, Miss B. Hatton.

1 qt. apricots.—1st, Mrs. H. Whiting; 2nd, Mrs. J. Madge.

1 qt. pears.—1st, Mrs. J. Madge; 2nd, Mrs. H. Whiting.

1 pt. peaches.—1st, Mrs. J. Madge; 2nd, Mrs. H. Whiting.

1 pt. plums.—1st, Mrs. H. Whiting; 2nd, Mrs. J. Lindsay.

Bottle of home made wine.—1st, Mrs. A. D. McLennan; 2nd, Mrs. J. Lindsay.

Collection canned vegetables.—1st, Mrs. W. Hatton; 2nd, Mrs. J. Madge.

Collection pickles.—2nd, Mrs. J. Lindsay.

Soap.—1st, Mrs. W. O'Dnnell; 2nd, Mrs. J. Madge.

6 button holes.—1st, Mrs. Olson; 2nd, 2nd, Miss Jackson.

Bedspread.—1st, Mrs. W. O'Donnell; 2nd, Mrs. A. D. McLennan.

Crochet yoke.—1st, Mrs. Olson; 2nd, Mrs. Kayes.

Crochet towel ends.—1st, Mrs. Fisher; 2nd, Mrs. M. E. Gane.

Crochet doyley.—1st, Mrs. A. D. McLennan; 2nd, Mrs. Warnock.

Knitted lace.—2nd, Mrs. A. D. McLennan.

Knitted wool sweater.—2nd, Mrs. F. B. Pearce.

Knitted scarf.—2nd, Mrs. M. E. Gane.

Table cloth.—2nd, Mrs. Olson.

Large doyley.—Mrs. Ormiston, special prize.

Table centre.—1st, Mrs. Olson; 2nd, Mrs. McKay.

Cushion top.—1st, Mrs. J. Madge; 2nd, Miss Jackson.

Painting on velvet.—2nd, Mrs. J. Lindsay.

Oil painting.—1st, Mrs. J. Lindsay; 2nd, Mrs. E. Richter.

Water color.—1st, Mrs. J. Lindsay; 2nd, Mrs. Thompson.

Hooked rug.—1st, Mrs. Kayes; 2nd, Mrs. Rusch.

Flowers

Asters.—1st, Mrs. Rusch; 2nd, Major R. Gray.

Turkeys

Best turkeys, (hen).—1st, W. J. McCelvey.

Best turkey, (yearling).—1st, W. J. McCelvey.

Childrens competition

Best pullets (2).—1st, Victor Madge.

Lincoln Sheep

1st, W. Hatton; 2nd, T. N. Walker.

Webb-McCreath Nuptials

A marriage of local interest took place in St. John's Church, Vancouver, on Wednesday, Oct. 12th, when Miss Gladys Allan McCreath, youngest daughter of Mr. James McCreath of Greenwood, became the bride of Mr. William Arthur Webb, of Vancouver. The contracting parties are well known in Greenwood. The Greenwood Ledge extends felicitations.

Veterans Masquerade

In view of the Dominion Thanksgiving being held on Monday the 7th Nov., the Great War Veterans have decided to hold there Annual Masquerade Dance on that date. Full details will appear on bills at an early date, when a list of prizes for the various costumes will be announced. The Veterans are holding a meeting on Saturday, October 15th at 7 p.m. at the Court House. All War Veterans interested are requested to attend.

Examined Providence Mine

James Wilson and L. R. Loomis, of Burke, Idaho, who have a lease on the Providence mine inspected that property on Monday, accompanied by A. J. Morrison. Pumping operations are going on satisfactorily.

Kettle Valley Golf

The Tombstone Competition which was postponed last week will be played on Oct. 16th. Entrance fee 25c.

RED ROSE TEA "is good tea"

You must try RED ROSE ORANGE PEKOE. A little higher price than other teas, but a real difference in quality. Now packed in *Aluminum.*

Higher Education In Canada

During the month of October two notable celebrations have occurred in Canada,—the centenary of the University of Toronto, the original charter of which was granted by King George IV. in 1827, and the golden jubilee of the University of Manitoba. Needless to say, both anniversaries were marked by interesting ceremonies and attended by many distinguished men and women. Well deserved tributes to the part played by these institutions of higher learning in the religious, political, scientific and economic life of Canada were voiced. Indeed, the influence of the older of these two great institutions has been felt throughout the United States as well as Canada.

Considering the population of Canada, and the number, size, and financial strength of Canadian universities, it is not only surprising but a distinct tribute to these bodies that they occupy such a relatively high place among the universities of the world. All of Canada's universities are still young in years, but their standards are high and their achievements noteworthy. Their graduates are to be found all over the globe doing some of the best of the world's work.

For example, it is revealed by a recent survey of medical colleges in North America made by Rockefeller Foundation that the Medical College of the University of Toronto ranks first, with Harvard University second, John Hopkins University, Baltimore, third, and McGill, Montreal, fourth, a truly remarkable showing for Canada. Instead of Canadians having to go abroad in order to obtain the best in University training, the reverse is true, and hundreds of United States students are annually enrolled in Canadian institutions. Even from the British Isles come students to take the engineering courses at McGill, and to pursue their medical studies in Canada.

It was from the medical college of Toronto University that Dr. F. G. Banting gave his wonderful discovery of insulin to the world, while many of the great engineering feats in Canada during the last fifty years, and in other parts of the world as well, are due to the genius of Canadian University trained engineers.

From the earliest days, education has been given the very forefront in every Canadian programme. It has dominated the thought and inspired the policies of the Canadian people. The result is seen in the character of the people, in the strength of our public institutions, and in the growing importance of Canada in world affairs.

The younger universities of these Western Provinces are worthily upholding the traditions and standards of the older institutions and will play an equally important part in the upbuilding of the West and in the contributions they will make to the life of the Dominion. Particularly in their research, survey, and extension departments is work of the most vital interest to this country being performed. The strides being made in the development of agriculture along scientific lines, and in overcoming plant pests, such as rust, will not only mean untold millions to the farmers of the West, but will result in a general raising of the standard of living, of cultural equipment, and of the level of prosperity throughout Canada.

In one of the three prairie provinces at the present time, one in every four of the population is attending school. In a small Western city or approximately 40,000 population there is at present enrolment in public and separate schools, high schools, colleges, and other institutions of learning no less than 10,000 students. The writer has not the data but no doubt the same statement can be made of other Provinces and cities in the West. The heaviest single item of taxation borne by the people is for education, but it is borne gladly and without complaining. In fact, it is a matter of pride and the boast of the West.

No other subject, no other department of the Government, is watched more closely than education. It is well that this should be so, because in the intelligence, the training, the character of the younger generation lies the hope, the future of this great country. Here is to be found the basic foundation of all that is fine and worthwhile in life, and upon such foundation rests the strength and greatness of any people or nation.

Believe Animals Can Think

Clever Training Not Altogether Responsible For Their Intelligence

Belief that animals can think was expressed by some delegates to the International Congress for Psychic Research at Paris although others were inclined to believe that clever training was responsible for manifestations indicating thought on the part of animals.

Charles Richet, president of the congress, although expressing unwillingness to declare his views without qualification, said "that it would be very daring to say categorically that human existence is entirely different from that of animals. We certainly find evidence of thought in animals," he said, "and the time will come, I think, when we will discover a chain of connection between biology, physiology and metaphysics.

Latest Radio Invention

System Of Tuning Receivers Without Touching the Dial

An electric device contained in a little box which can be carried about the house or placed on the arm of a chair has been invented for the purpose of tuning a radio set no matter whether it be in the living room, attic or cellar. There are no intervening wire or mechanical connections between the receiving set and the control box. The inventors are Bowden Washington, formerly of the United States Navy and Wilson Aull, Jr.

The receiver can be controlled from any spot convenient to the operator withoua manipulation of the tuning dials of the receiver proper. It is pointed out by the inventors that the main set can thus be installed in an out-of-the-way place and forgotten until a tube replacement or a maintenance adjustment must be effected.

Had Own Airplane

Princess Lowenstein-Wertheim, the passenger in the missing St. Raphael, took up flying many years ago, and during the war owned an aeroplane of her own—a fact which sometimes made the authorities look at her askance, for she had an Austrian name, even though she acquired it only by marriage, which terminated in the death of her husband in 1899. The Princess was 60 last year, despite her youthful appearance.

The bungalow got its name in India. Early British residents built one-room, partitioned dwellings, called them "bungalows" from the Hindu word "bangla," meaning thatched hut.

The electric chair has something to do with deterring criminals but the proper place to start is in the high chair.

Minard's Liniment for Lumbago.

Canadian Poet Honored

Halifax Girl Named In Recent Shakespeare Verse Competition

Mary Seton, of Halifax, N.S., is among those who are placed in the order of merit in the poems in English section of the Shakespeare verse competition promoted by the Poetry Society and incorporated in aid of the Memorial Theatre fund at Stratford-on-Avon.

The competition has attracted a world-wide interest, poems being submitted in many languages. A sonnet by Frank Beresford, of Wolverhampton, England, was placed first in the English Poems Section.

Why Hobble Along On Sore Corns?

Don't cut corns with an old razor. Infection followed often by death may result from paring corns with an infected knife. Quick, safe relief comes from using Putnam's Corn Extractor. If afflicted with corns, calluses or sore footlumps, use "Putnam's"—it's reliable and sure to shrivel up the corns so they drop right off. No pain, no soreness, but quick relief from sore corns comes to all who use Putnam's Painless Corn Extractor. 25c. at all dealers.

Englishman Has Odd Farm

Specializes In Butterflies and Ships Them All Over Country

Nowadays there are many kinds of farms, but the oddest is probably the Butterfly farm. Mr. L. W. Newman's remarkable establishment in Kent, England, sends thousands of butterflies and moths to all part of the country. In Yorkshire there is a butterfly farm at Burniston, near Scarborough. Mr. Newman specializes in British specimens alone, but at Burniston all manner of exotic species are included. In the late summer display of Indian silk moth and other beautiful foreign races is a thing to be remembered.

A FAMILY MEDICINE

A Welland Lady Tells Of the Value Of Dr. Williams' Pink Pills In Her Home

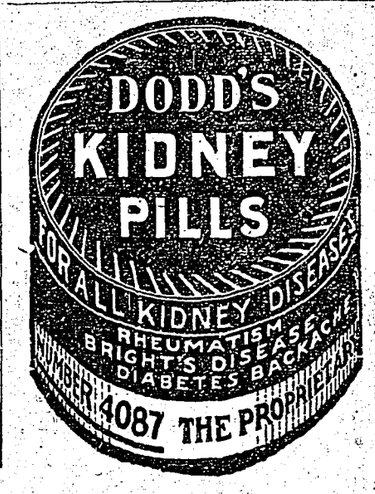
"I have many reasons for praising Dr. Williams' Pink Pills," says Mrs. George L. Swick, R.R. No. 2, Welland, Ont. "My first experience with this medicine was in my girlhood, when, following an attack of scarlet fever, I was left in a badly run down condition and the pills restored me to good health. Later in my married life I had a severe attack of rheumatism. The pain in my right arm and shoulder was so bad that I could not dress myself without help. Again I resorted to Dr. Williams' Pink Pills, and again they proved a blessing to me, as soon the rheumatic pains and stiffness disappeared and there has been no return of the trouble. Dr. Williams' Pink Pills have also been of great benefit to my children. One of my boys was threatened with St. Vitus dance. His limbs and face would twitch and jerk. I gave him the pills, and again they did not fail, as under the treatment the trouble ceased. I have also given the pills to my little girl, who was anaemic, and in this case also with the greatest benefit. Naturally when I hear anyone complaining of not feeling well I recommend Dr. Williams' Pink Pills as I know of no other medicine to equal them in building up the blood and restoring health."

Take Dr. Williams' Pink Pills for anaemia, rheumatism, indigestion, neuralgia and other nervous troubles. Take them as a tonic if you are not in the best physical condition, and cultivate a resistance that will keep you well and strong. You can get these pills from any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The person who walked across the street was once called a pedestrian. Now, unless he moves pretty smartly, he is often referred to as "the deceased."

Good-bye Asthma. Persons suffering from that extremely trying trouble known as asthma know what it is to long with all their hearts for escape as from a tyrant. Never do they know when an attack may come and they know that to struggle unaided is vain. With Dr. J. D. Kellogg's Asthma Remedy at hand, however, they can say good-bye to their enemy and enjoy life again. It helps at once.

The saxophone was named after its inventor, Antoine Joseph, Saxe, of Belgium and Paris, who invented several reed instruments about 1840.



Newspaper Association Executive

S. J. Dornan, Alameda, secretary-treasurer of Saskatchewan Weekly Newspaper Association.

Newspaper Men Foregather

Eleventh Annual Convention Of Saskatchewan Weekly Newspaper Association

Regina.—In point of attendance and in general enthusiasm the eleventh annual convention of the Saskatchewan Division of the Canadian Weekly Newspaper Association was the most successful gathering of the organization yet held. Organized in 1916, the Association has been steadily increasing in strength, and now is able to boast of a membership of one hundred per cent. No small amount of credit for this success is due to the untiring work of the energetic secretary, S. J. Dornan, of Alameda.

The sessions were held in the Hotel Saskatchewan, where excellent accommodation was provided for the holding of meetings as well as for entertainment. Regina was unanimously chosen as the meeting place for the 1928 convention.

On Thursday a luncheon as given by the Regina Board of Trade, and a dinner was tendered by the Saskatchewan Government, after which the delegates were the guests of the Toronto Type Foundry Co., at a theatre party. The Saskatchewan Wheat Pool management gave a luncheon on Friday and on Friday evening the Weekly Newspaper Association were hosts at a dinner, at which the president-elect, Mr. McCullough, of Weyburn, presided.

Officers were elected for the coming year as follows: T. H. McCullough, Weyburn, president; Hon. President, Hon. S. J. Latta; Hon. Vice-President C. R. McIntosh, M.P., North Battleford; vice-president, S. R. Moore, Swift Current; secretary-treasurer, S. J. Dornan, Alameda. Executive: E. Garrett, Watrous; S. N. Wynne, Yorkton; G. W. Smallwood, Kinistino; T. E. Scriver, Wolseley; H. G. Shelldrake, North Battleford, and C. J. Allbon, Asquith.

S. N. Wynne, Yorkton, recently elected president of the Canadian Association, was the speaker at Thursday afternoon's session. During the course of his remarks, Mr. Wynne read an extract from the report of the British Columbia Association in which a strong tribute was paid to the Saskatchewan division.

Declares People Are Affected By Sunspots

Largely Responsible For Crime Waves Says Russian Professor

The day is not far off, in the opinion of Prof. Alexander Tchijevsky, of Moscow University, when a judge, in estimaating the degree of guilt of a person convicted of crime, will demand to know the meteorological and astronomical conditions obtaining at the time the crime was committed.

Tchijevsky claims to have discovered a decided relation between sunspot activity and human frailty. In a report prepared for the Moscow Psychological Laboratory he writes:

"The nearer a crime is to the time when sun-spot activity reaches its maximum, the less is the responsibility of the guilty person for the crime committed. Judges in pronouncing sentences should bear in mind and act accordingly."

Sun-spots, he says, "produce an enormous amount of electrons, which on reaching the earth cause the aurora borealis, magnetic storms and other phenomena of nature. They also operate on the nervous system of man and bring marked changes in his emotions and impulses."

The driver may lose control of his car, but the credit corporation that looks after his instalments—never.

Conceit is deceptive, but it is rarely perceptive.

Minard's Liniment for Toothache.

There are many ointments but ONLY ONE Zam-Buk

THE GREAT HERBAL SKIN BALM

In Memory Of Col. Ham

Tablet Is Unveiled At Montreal By Women's Press Club

Tribute to the memory of Colonel George Ham, who in his day was one of the most widely-known and popular citizens of Canada, was paid recently at Montreal by the Canadian Women's Press Club, when Miss May S. Clendennan, president of that organization, unveiled a tablet to Colonel Ham in the Windsor street station of the Canadian Pacific Railway. The tablet reads:

"To the memory of Colonel George Henry Ham, official of the Canadian Pacific Railway, who died in Montreal April 16, 1926. This tablet is erected by the Canadian Women's Press Club in grateful recognition of his services as their founder and friend. He was a gallant gentleman and great of heart."

Latest Contribution To Science Of Advertising

Device Projects Images For Five Miles On Cloud Bank

A glorified "magic lantern," said to be capable of projecting photographs and signs on to the clouds, is the latest contribution to the science of advertising.

The device, still in its laboratory form, consists of a powerful searchlight mounted behind a series of lenses and a slide holder. The whole apparatus resembles a cannon, and is able to project images for a distance of five miles on a cloud bank.

The image is visible for miles around while a revolving screen in front of the muzzle of the projector can be used to produce color-changing effects.

The Oil For the Farmer.—A bottle of Dr. Thomas' Eclectric Oil in the farm house will save many a journey for the doctor. It is not only good for the children when taken with colds and croup, and for the mature who suffer from pains and aches, but there are directions for its use on sick cattle. There should always be a bottle of it in the house.

Cost Of Bushel Of Wheat

United States show that the highest cost of producing a bushel of wheat in North America was at a town in Minnesota; the cost was $2.23. The lowest cost was at the home town of ex-Premier Greenfield, in the Peace River; the cost was 54 cents.

Minardd's Liniment for Asthma.

Gratitude is the fond recollection of the heart.

Sodium Sulphate Plant

New Plant In Saskatchewan Will Have a Capacity Of Nearly 70,000 Tons Yearly

In a report to Commissioner T. M. Molloy, of the Bureau of Labor and Industries, W. H. Hastings, the bureau's engineer, states that the new sodium sulphate plant north of the town of Fusilier, which is west of Kerrobert, will have a capacity of nearly 70,000 tons yearly. The power plant is finished and in operation, and the machinery is fast being placed in the dryer and other buildings.

A new method of making crystal on the lakes has been worked out by C. Heathcote, the designer and manager. When formed the crystal will be harvested and a stock pile built on the lake itself. The crystal will be trucked to the plant at Fusilier as required.

Two separate products or grades of material will be made, the coarse product for the paper industry and a finer, purer product for use in the glass and dye industries, especially in the latter.

There are two other sodium sulphate plants in the province, these being at Dunkirk and Hardene.—Regina Leader.

Sleep is the great nourisher of infants, and without peaceful sleep the child will not thrive. This cannot be got if the infant be troubled with worms. Miller's Worm Powders will destroy worms and drive them from the system, and afterwards the child's rest will be undisturbed. The powders cannot injure the most delicate baby, and there is nothing so effective for restoring the health of a worm-worn infant.

Taking No Chances

An old Scotchman lay dying. He called his wife to the bedside and gave her full instructions as to his funeral and the friends to be invited. "And Jean," he concluded, "after I am buried ye must bring them all back to the house and give them a good glass of whiskey to drink the memory of their departed friend—and, as I'll no be there myself, I'll tak' mine now."

The Poor Man's Friend.—Put up in small bottles that are easily portable and sold for a very small sum, Dr. Thomas' Eclectric Oil possesses power in concentrated form. Its cheapness and the varied uses to which it can be put make it the poor man's friend. No dealer's stock is complete without it.

Lighting an American match in Peru may cause a fine of $20. A Swedish match company has a monopoly on the sale of matches in that country.

Proved safe by millions and prescribed by physicians for

Headache	Neuralgia
Pain	Neuritis
Colds	Lumbago
Toothache	Rheumatism

DOES NOT AFFECT THE HEART

WARNING! Beware of Counterfeits

There is only one genuine "ASPIRIN" tablet. If a tablet is offered as "ASPIRIN" and is not stamped with the "Bayer Cross"—refuse it with contempt—it is not "ASPIRIN" at all! Don't take chances!

Safe

Accept only "Bayer" package which contains proven directions.

Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Triumph For Noctovision

Transmitting Image Over 200 Miles Biggest Experiment Yet Made

Sitting in a darkened room at the top of the Motograph House, Upper Street, Martin's Lane, W.C., one night recently, a Daily News reporter saw the face of a Daily News colleague which had been transmitted over 200 miles of space from the Education Office at Leeds, by means of J. L. Baird's new Noctovision apparatus.

This was the biggest experiment ever made in Noctovision. Previously images had been transmitted only over short distances.

"While the reporter in London watched the face of his colleague flit in staccato lines across a narrow strip of ground glass which served as a screen," the Daily News man says, "I spoke to him on the telephone. He sat in a room at Leeds. I asked him to move the receiver, grasp it in his left hand and take the telephone away from the front of his mouth. He obeyed all my requests and I was able to watch and check his movements.

"The image was sufficiently clear for me to recognize faces, though a certain amount of distortion appeared inevitable.

"Mr. Baird explained to me over the 'phone during the demonstration that Noctovision is an improvement on television.

"'In television,' he said, 'the subjects sits in a brilliant light, whereas in Noctovision the apparatus and the subject are in total darkness. The transmission through space is done by the invisible infra-red rays.'

"Hitherto by means of television we have sent figures from Glasgow — a distance of 400 miles—but this is the first occasion we have used Noctovisn over so great a distance at 200 miles."

A Novel Bungalow

Englishwoman Has House Built From Cars Of Former Royal Train

Miss Niola Tree, the actress, has one of the most novel bungalows in England. Her seaside home near Bognor has been built from the royal train formerly used by the King and Queen. Princess Mary spent her honeymoon in these cars when she married Viscount Lascelles in 1922. The saloon car is now Miss Tree's dining room. It is decorated with inlaid wood, while the sleeping couches are of satin wood with bright blue blinds. There are three carriages in all, painted white, set as three sides of a square forming a court. Here Miss Tree has planted a flower garden which she tends herself.

"On your way, stay a day," is Chicago's new welcome for tourists. As a bit of advice, a Detroit paper adds: "Hear a gun, cut and run."

THEY SUFFER NO MORE

Two Women Owe Health to Lydia E. Pinkham's Vegetable Compound

St. Adolphe, Manitoba.—"I was very weak and had great pains during my periods so that I could not sweep the floor. The pains were in the right side and extended to the left and then downwards. It seemed as if the body was heavy and upside down. It is for these troubles I took the Vegetable Compound. I saw about it in a paper and one woman prevailed on me to take it. It has helped me in every way, the pains are less, and I have more appetite. It is a pleasure to recommend Lydia E. Pinkham's Vegetable Compound to other women."—Mrs. J. L. COURCHAINE, St. Adolphe, Manitoba.

Found Great Relief

Toronto, Ont.—"I am at the Change of Life with hot flashes, dizziness, weakness and nervousness. I had head noises and was short of breath. I was this way about six months when I read about Lydia E. Pinkham's Vegetable Compound in the newspapers. I have taken eight bottles so far and found great relief."—Mrs. R. J. SALMON, 112 Lawlor Ave., Toronto, Ont.

Basks In Fictional Glory

But Hero Of Deadwood Dick Stories Does Not Like It

Deadwood Dick, pictured in rousing western fiction a half century ago as a hard riding fast-shooter, who always "got his man," asserts he never killed a white man.

Richard William Clark is Deadwood Dick's real name. He is 79 years old now, and assistant keeper of a tourists' park near Deadwood. He earned the swashbuckling name in the glamorous days of the 70's, when he roamed the Black Hills.

Ned Buntline, writer of "dime thrillers," enthroned Deadwood Dick in an unforgettable place in the minds of those who liked their reading fast and furious. His novels, with the quiet Dick shooting his way through them, began circulating in 1877.

But the same Deadwood Dick, with his age wrinkled face creasing in a smile and his old eyes sparkling says it was all a mistake.

He has always been a peace loving man, he insists. He remembers many Indian encounters in the days when he was a stage coach driver, but he declares there are no notches for white men on the stock of his shooting iron.

Of that colorful quartette of 1876 fame — Calamity Jane, Wild Bill Hickok, Preacher Smith and Deadwood Dick—only the latter remains to know the popularity and fame that have come down through the years.

Clark doesn't like to bask in his fictional glory, but necessity forces him to attend rodeos and frontier festivals throughout the west, where he cashes in to some degree on his romantic history.

He came to the Black Hills in 1874 as a government scout with General George Custer. In 1876 he rode the famous pony express from Pierre to Deadwood, and in the following year was a guard on the stage coach from Bismarck, N.D., to Deadwood.

World Is Progressing

Little Notice Taken Now When Terrific Speed Is Attained

A mile in two minutes was once thought miraculous speed for a horse. Many persons can remember the public's amazement when a passenger train first registered a mile a minute.

Now comes Lieutenant Williams with a seaplane, which unofficially has done better than four miles a minute and may yet clip close to five.

Aeronautic engineers tell us that a sustained gait of five miles a minute in the air is entirely feasible mechanically, and may one day be matter of fact.

Truly, progress is swift in these times.

Woman Climber Succeeds

English Writer Conquers Highest Mountain Peak In Africa

Kilimanjaro, the highest mountain in Africa, which rises more than 19,000 feet, has been climbed for the first time by a woman. She is Sheila MacDonald, 22-year-old London writer.

Miss MacDonald was accompanied by two experienced mountaineers, William West and Major Lennox-Browne. When nearing the summit Lennox-Browne was obliged to abandon the climb becauuse of exhaustion but Miss MacDonald insisted upon finishing with West.

Preferred Quiet Dinner

In order to keep up with the times, they engaged a pianist at the local hotel to play a selection of popular music during dinner. An old gentleman, who was sitting near and who was obviously annoyed by the innovation, said to the pianist in a loud whisper:

"Would you mind playing something by request?"

"Certainly not," replied the artiste.

"Then go outside and play a game of dominoes until I've finished my dinner."

"What's become of that fellow Smith who was known as the perfect driver?"

"He met Jones, who was the imperfect one."

Love and pain are more or less chummy.

The man who has but one shirt is short on change.

Scientists Prove That Earth Tides Exist

Action Of Sun and Moon Causes Crust To Rise and Fall Like the Ocean

The earth's crust rises and falls in tides like the ocean, as a result of the attractive action by the sun and moon. Dr. Walter D. Lambert, Coast and Geodetic Survey scientist, asserted in a report prepared for presentation to the International Geodetic and Geophysical Union at Prague, Czecho-Slovakia.

The precise measurements of the "earth tides" have never been obtained, he said, because of complicated computations and lack of proper instruments, but scientists have established their existence beyond doubt and have partially traced their periodical movements.

While it is difficult to "exaggerate the distance to which the secondary effects of the ocean tides may be felt," Dr. Lambert added, "it is perhaps not too much to say that there is probably no place on earth so remote from the ocean that its earth tides are unaffected by ocean tides." It has been shown, he declared, that the tides in the Atlantic have an appreciable effect at Williams Bay, Wisconsin, about 800 miles away.

The Advance Of Science

Believes That a Vast Future Awaits Further Investigation

That a "new science has taken its place among the classic sciences" is the conclusion of Prof. Charles Richet, of Paris, widely known physiologist, in reviewing the result of the international congress of psychic research just closed.

"For a long time yet," he writes in Le Journal, "there will be contests and contradictions, but what science has not passed through these phases of hesitation and error? We are now aware that there are vibrations other than those we know of today.

"We know nothing, or almost nothing, of the immense universe which encircles us, which quivers around us quite close to us. Who knows if it is not going to modify our existence, our conception of life and even our ideas of human society.

"But we shall not allow ourselves to be misled. We shan't take smoke for the flame. The next congress at Athens in 1930 will bring us fresh documents. A vast future opens to us in the next quarter century."

A Dangerous Practice

Motorist Needs Good Clear Space For Cutting In

As a rule, cutting in is the most dangerous practice on our highways today. Cutting in near the crest of a hill or on a curve is extremely hazardous, and even when passing a swift-moving car on the level one needs a good clear space ahead in order to get safely back into the line of traffic. One can hardly tell how fast cars are travelling when they are aproaching from the opposite direction, and even a considerable gap soon closes up when cars are meeting at the rate of 30, 40 or 50 miles an hour.

New Provincial Highway

Two survey parties have just started to mark about 3,000 miles of Saskatchewan provincial highways, one working west from the Manitoba boundary, and the other working east from the Alberta boundary. It is expected the work of marking the 40 provincial routes will be completed next summer.

Princeton University students have a chance to actually observe the variation in the earth's rotation. This is done by checking the motion of a ball weighing 1,400 pounds which is hung at the end of a 60-foot quarter-inch steel rod.

"He put on speed, thinking he could beat the train to it."

"Did he get across?"

"He will as soon as the tombstone maker has it finished."

A Man Of Rare Attainment

Honored politically and professionally, during his lifetime, Dr. R. V. Pierce, whose picture appears here, made a success few have equalled. He was the originator of that great herbal tonic, Dr. Pierce's Golden Medical Discovery, the sale of which has, each succeeding year, been greatly increased.

When you feel weak, tire easily, become discouraged quickly and sometimes feel like giving up the struggle, just ask your nearest druggist for Dr. Pierce's Golden Medical Discovery, or "G.M.D.," in fluid or tablets.

Users everywhere laud its praises.

Send 10 cents for trial pkg. of tablets to Dr. Pierce's Laboratory in Bridgeburg, Ontario.

The brisk, pungent taste of Red Rose Tea is kept at its best in the bright, sanitary aluminum package. You will never find now the flat, stale taste which is so often complained of in tea packed in inferior containers. 6T

Empire's Finest Building

New Bank Of England Designed To Last a Thousand Years

A unique procedure has been adopted to advance the building of the new Bank of England. Every Monday certain governors of the bank now meet the architect, a representative of the constructors, and other experts, to discuss precisely what work will be done before the following Monday.

This novel "works committee" is exercising such infinite care over every detail of the world's most famous bank that the building of it is expected to take at least ten years.

The most astonishing feature about the work is the almost uncanny secrecy with which it is being done. Every day thousands of enquiring spectators, many of them visitors from the United States and overseas, peer through the doorways without becoming more than dimly aware of the great monument that is slowly coming to perfection.

Within a hundred yards or so of the bank, buildings have subsided and collapsed. The bank itself has no fear of such a catastrophe, for its foundations are being laid as firm and solid as the Rock of Gibraltar.

The cost of the new bank is estimated today at $25,000,000. It will house, in addition to the ordinary offices and business of the bank, the credit of Great Britain in the form of those big blocks of pure gold, generally known as bullion, which are stored in the long, vaulted strong-rooms.

The new Bank of England will be the finest building in the British Empire and it is being built to last at least a thousand years.

Scheme Is Being Supported

All Provinces Interested In Agricultural Jubilee Says Hon. W. R. Motherwell

Canada's agricultural jubilee is going over big, according to Hon. W. R. Motherwell, Federal Minister of Agriculture, who announces that the co-operation of the various provinces is being assured and that the tremendous growth of the Dominion's eight billion dollar basic industry will be shown in all its varied phases. The Royal Winter Fair at Toronto, which opens on November 16 and continues until November 24, has been selected as the scene for the celebration of the epoch making agricultural event.

Hon. Mr. Motherwell, says that he is greatly encouraged by the interest of agriculturists from one end of the Dominion to the other and feels assured that agriculture will at last come into its own in recognition by the mass of the people of the country as the vital factor in our National prosperity.

"I feel," said the minister, "that Canada's agricultural jubilee will show to the citizens of this great Dominion and to the world at large just what is the basis of our National greatness. In this sixtieth year of the confederation of the provinces it seems to me but fitting that the industry which has made the nation great should have this recognition."

One Reason For Advertising

Change In Market Makes It Imperative For Business Success

If the same people always lived in the same place and kept on doing the same things, then it might not be necessary to keep on advertising day after day, month after month, and year after year. But they don't. Part of America's market dies every day and a new part takes its place. Families not only change their living places, but they change their buying habits. The pay envelope of today is not spent exactly the same as the pay envelope of five years ago was spent, nor will the pay envelope of next year be spent exactly as the pay envelope of this week. One advertising man has these figures about the changes that take place in our markets in a single year: 2,500,000 babies start their earthly careers: 400,000 high school students discover that a diploma is no opening sesame to a job; 1,250,000 couples decide that two can live cheaper than one; 2,000,000 families get the wanderlust; 1,400,000 people shake off the "mortal coil."

To play a bigger part in the markets of tomorrow you must keep in front of the public your wares of today—and every day. Your goods will not interest the public unless you see to it that they do. How can you do this without keeping on advertising.

Only a fool indulges in violent exercises when he needs rest.

Preserving India's Sacred Trees

Huge Banyans Are Principal Attraction At Royal Botanical Garden

One of the attractions of the Royal Botanical Garden at Sibpur, India, is its huge banyan trees. One of the largest of these trees has had to undergo a surgical operation for fungus growths. The present age of the tree is about 158 years, but according to Dr. King, the superintendent, it is much older. The circumference of the trunk, in 1923, at a height of about 5½ feet, was about 51 feet, the crown about 1,000 feet, and the number of aerial roots about 601, which are actually rooted down in the ground.

It is a pity that the main trunk was rotten and had to be cut down, leaving a wide gap at the centre. The dome-shaped outline of the tree from a distance presents a grand picture.

The tree is religiously regarded by the Hindus, and gives shade to many weary visitors, specially during the hot months of May and June. The "bar" is called banyan as it used to give shelter to the merchants (Benya or Banik) during the old days, when there were no railways and other arrangements for transporting goods.

Attempts are being made to keep this oldest tree of the Royal Botanic Garden alive by removing the infested branches, and by aerating the aerial roots and manuring. A few young plants have been planted to fill up the gap at the centre, and efforts will be made to graft the branches of the new plants to the older ones. The ground under the tree is being raised to keep off the floods during the rains and thus protecting the aerial roots from being waterlogged.

NO BETTER MEDICINE FOR LITTLE ONES

Is What Thousands Of Mothers Say Of Baby's Own Tablets

A medicine for the baby or growing child—one that the mother can feel assured is absolutely safe as well as efficient—is found in Baby's Own Tablets. The Tablets are praised by thousands of mothers throughout the country. These mothers have found by actual experience that there is no other medicine for little ones to equal them. Once a mother has used them for her children she will use nothing else. Concerning them Mrs. Charles Hutt, Tancock Island, N.S., writes: "I have ten children, the baby being just six months old. I have used Baby's Own Tablets for them for the past 20 years and can truthfully say that I know of no better medicine for little ones. I always keep a box of the Tablets in the house and would advise all other mothers to do so."

Baby's Own Tablets are sold by all medicine dealers or will be mailed upon receipt of price, 25 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont.

Little Helps For This Week

I have chosen thee in the furnace of affliction.—Isaiah xlviii. 10.

Who watched the artist paint a porcelain cup
Did wonder when he gathered brushes up,
And said, "My task is done."
That on the toy's fine rim,
A border black and grim
Contrasted hatefully with gentle tint
Of pink and azure, blond and beryl hint,
And mocked those threads of sun,
That made the cup a prize
To ravish royal eyes.
"Why leave this scowl of black?" one dared inquire.
The artist answered, "Clay must taste the fire,
And by that test be tried."
Snatched from the furnace heat,
Transfigured and complete,
The dazzling gift comes crowned with aureole gleam,
Its black all changed to gold. So, like a dream,
Heart said to heart that sighed,
Grief may be joy at last,
When life's fierce test has passed.

The child of God is assured that all things work together for good; in this is plainly included the pledge that chastisements and afflictions shall eventually prove a blessing.

—J. W. Alexander.

New Varieties Of Apple

Apples are Canada's leading commercial product in fruit. Since 1888 when seed was imported from Riga, on the Baltic Sea, continuous efforts have been made to originate new and better varieties of apple for Canada. In a recent report of the Horticultural Division of the Dominion Experimental Farms descriptions of 18 new varieties named during 1925 are supplied.

For years Mother Graves' Worm Exterminator has ranked as a reliable worm preparation and it always maintains its reputation.

At the spiritualist's: "So you want to call up the spirit of your late mother-in-law?"

"Yes. It wasn't enough for her to plague the life out of me, but just before her death she hid my pipe."

Relieves Sore Throat—Minard's Liniment.

Children's Colds

Best Treated Externally

THAT'S why modern mothers prefer Vicks—it cannot upset delicate stomachs. Rubbed on throat and chest, it acts two ways at once:

(1) Its healing vapors, released by the body heat, are inhaled direct to the air passages;

(2) It "draws out" the soreness like an old-fashioned poultice.

VICKS VAPORUB

OVER 17 MILLION JARS USED YEARLY

Made Of Good Stuff

A dollar watch which had been imbedded in solid concrete for 12 years was discovered by a workman employed on a bridge gang at Iola, Kansas. It was exposed when a block of concrete was broken in two and began ticking as soon as it was wound.

Neuralgia

The maddening pain will succumb to applications of Minard's.

MINARD'S "KING OF PAIN" LINIMENT

Was Taken As Security

Valuable Diamond Ring Found In Hotel Safe After Fifteen Years

Searching an old safe in the Queen's Hotel, Toronto, before offering it at auction, Thomas Jenkins found among a number of old papers, a three-stone diamond ring that has been lost for more than 15 years. The ring will be sold and the proceeds will go to the McGaw and Winnett estates.

Years ago the ring was taken as security for a debt from a guest of the hotel when he was leaving without funds to meet his account. Shortly afterwards the old safe was abandoned, and when the ring was searched for later it could not be found.

The ring has three high-grade diamonds, each weighing more than a carat, and at present prices has a value of about $950, it is estimated.

CHOLERA, CRAMPS, PAINS IN THE STOMACH RELIEVED BY

Mrs. D. Leavitt, Back Bay, N.B., writes:—"Last summer my children were very ill with cholera and suffered severely from cramps and pains in their stomachs. I tried several remedies, but nothing seemed to do them any good. A friend of mine told me to try Dr. Fowler's Extract of Wild Strawberry. I got a bottle and gave them a few doses and they soon found relief. Now I will never be without it in the summer months."

Don't Accept a Substitute

This preparation has been on the market for 80 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

The figure 3854 is a mysterious one. For instance, add the following: Year of your birth, your age, year of your marriage, number of years married—result, 3854. Always.

PIMPLES ON FACE 6 MONTHS

Itching and Burning Severe. Cuticura Heals.

"I had pimples on my face for about six months. They were hard, large and red and scaled over. The itching and burning were so severe that I could not keep from scratching the eruptions, which became quite sore. My face looked so bad that I was ashamed.

"I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. It helped me so much that I purchased more, and after using six cakes of Cuticura Soap and three boxes of Cuticura Ointment I was completely healed." (Signed) Mrs. Dill, Box 9, Viceroy, Sask., Nov. 6, 1926.

Give Cuticura Soap and Ointment the care of your skin.

Sample Each Free by Mail. Address Canadian Depot: "Stenhouse, Ltd., Montreal." Price, Soap 25c. Ointment 25 and 50c. Talcum 25c. Cuticura Shaving Stick 25c.

List of Gifts

The following is the list of gifts received by Mr. and Mrs. Alec J. Purkis: Mr. and Mrs. H. J. Purkis, piano; Mr. and Mrs. Collins, Miami, cheque; Miss Collins, Miami, oriental tapestry; Mr. and Mrs. Homersham, Nelson, inlaid tray; Mr. H. Summersgill, cut glass fruit bowl; Dr. and Mrs. A. Francis, hand painted cream, sugar and compote, and crochet doyley; Mr. Juan Puddy, hand painted marmalade jar; Mr. E. A. Wanke, six hand painted dessert plates; Mr. and Mrs. S. B. Hamilton, bon bon dish and stand; Mr. and Mrs. H. Hartley, china berry set; Mr. F. J. White, hand painted bowl; Mr. and Mrs. G. Boug, pyrex casserole, syrup jug and stand; Mrs. Beatrice Hamilton, two hand painted cups and saucers; Mr. and Mrs. A. J. Morrison, green and gold sandwich plate, and fruit dish; Mr. and Mrs. T. W. Clarke, Beaverdell, pair brass candlesticks and candles; Mr. and Mrs. J. L. Bush, Midway, silver pepper and salt; Mr. and Mrs. C. Nichols, silver, sugar and cream; Miss Gladys Nichols, egg whisk; Mrs. H. Thomas, linen towel; Mrs. C. W. Bubar, turkish towels; Mr. and Mrs. G. W. A. Smith, linen breakfast cloth and enamel sauce pan; Miss R. Axam, bean jar; Mrs. A. R. Royce, pair layer cake tins; Master Allen Fraser, cake tin; Master Donald Smith, rolling pin; Mr. and Mrs F. Fraser; silver tea pot stand and candle holder; Mr. and Mrs. T. M. Gulley, pyrex pie plate, syrup jug and stand; Mr. W. C. Wilson, crown derby cup and saucer; Mrs. M. Axam, cream jug; Binkie Fraser, wooden spoon; Mr. and Mrs. G. B. Taylor, two crown derby cups and saucers; Mrs. W .B. Stewart, hand-painted biscuit jar; Miss Vera Willoughby, Nelson, picture; Mr. and Mrs. J. H. Goodeve, four china cups and saucers; Mr. and Mrs. W. H. Bryan, silver tea pot stand; Mrs. H. Pannell, Midway, hand painted dessert plate; Mr. and Mrs. R. Lee, china berry set; Mrs. Thos. Moore, pyrex teapot; Mr. and Mrs. J. Price, two jardiners; Mr. and Mrs. J. Skilton, lustre sugar and cream; Mrs. T. Hartland, flower vase; Miss Vera Kempston, china spoon tray; Miss Renie Skilton, pyrex casserole; Rev. and Mrs. A. Walker and Goldie, silver candlesticks and pair guest towels; Mr. and Mrs. A. Sater, silver mounted pyrex casserole and six china cups and saucers; Mr. and Mrs. Wm. Walmsley, bedspread; Mr. and Mrs. E. Pope, ½ doz. maderia serviettes and fern pot; Mr. and Mrs. F. L. Peterson, hand embroidered linen pillow slips; Miss E. McDonald; silver bread tray; Miss C. Emery, silver pie server, and china cup and saucer; Mrs. G. D. Sutherland, two china cups and saucers; Mr. and Mrs. L. Bryant, silver ladel and table runner and glass bowl; Mrs. S. J. Roylance, set embossed brass flower holders; Miss M. E. Stocks, silver mounted butter dish; Dr. W. H. Wood, silver cruet set; Mrs. F. A. Johnson, silver mounted cut glass pepper and salt; Mr. and Mrs. R. Forshaw, silver mounted pyrex pie plate; Mr. and Mrs. H. W. Gregory, ½ doz. silver soup spoons and tea caddy; Mrs. R. Skilton, flower candle holders; Mrs. Ellen Hallett, wicker arm chair; Mr. and Mrs. G. S. Walters, coffee perculator; Mrs. W. Clark, mixing bowl, Mrs. Ellen Trounson, two crown derby cups and saucers and pair of turkish towels; Miss D. C. Caldwell, china cup and saucer.

Midway News

The Kettle River is higher now than it has been at this time in 28 years.

Born.—At Ferry, Wash., to Mr. and Mrs. Boyd Nichols, a son on Oct. 11th.

Miss Vera Kempston, of Greenwood, was the guest of Mrs. E. DeLisle during the week-end.

A. L. Landon, District Poultry Instructor, was in town last Friday judging the Junior Poultry Club stock.

The June 3rd Sports committee met in the Farmer's Hall on Tuesday night. The cup question was amicably settled.

An American buyer was in the district a few days ago and bought considerable cattle for shipment to the Coast.

Mrs. Emil Lund and son, Tommy, were the guests of Mr. and Mrs. Lewis Bryant in Greenwood during the week-end.

Midway was in the storm belt on Sunday afternoon, when lightning and thunder was followed by a rain which made a lake out on the flat.

An enjoyable 500 party was held in the Old School House on Tuesday evening. It was very well attended. The first prize was won by Mrs. Harold Erickson and the booby J. L. Bush. Dainty refreshments were served by Mrs. J. L. Bush and Miss Mary Barker. The next party will be held on Tuesday, October 25th.

Miss Gwennie Salmon was the guets of honor at a pretty wedding shower held by the Ladies Aid in the Old School last Wednesday. The gifts were presented to the lucky young lady in a full-rigged sailing ship, manned by kewpies. This arrangement was in the capable hands of Mrs C. J. Lundy. Guessing games and poetical contests were held during the afternoon. A dainty tea was served by the Ladies Aid.

A farewell party was given in honor of Mr. and Mrs. Emil Lund in the Old School House on Tuesday, Sept. 27th, by the members of the Ladies Aid. About 50 were present including a number from Greenwood. Whist and 500 were played also other games. A pleasing event of the evening was the presentation of a silver berry spoon from the Ladies Aid. On receiving the gift Mrs Lund in a few appropriate words thanked the members. J. H. Bush responded and in his few remarks said that the town were losing a good family when the Lunds will leave for their new home in Fauquier. Mr. Lund on behalf of Mrs. Lund and himself thanked the Ladies Aid and friends for the very nice evening extended to them.

Rock Creek and District

Mr. and Mrs. A. Porter, of Myncaster, paid a visit to town on Friday.

Mrs. H. Douglas Hamilton, of Kettle Valley, is on a few days visit to Vernon.

Mr. and Mrs. Harold Martin of Trail, were the guests of Mr. and Mrs. J. C. Madge on Sunday.

There will be Service in the Anglican Church, Kettle Valley, on Sunday, October 16th at 11 a.m.

Mr. and Mrs. T. W. Clarke, Mr. and Mrs. Francis Cousins were among the Beaverdell visitors to town on Friday.

Mr. and Mrs. Harold Martin of Trail, are on a two weeks holiday here. All their many friends were pleased to see them again.

Miss Jessie Caldwell of Mission, arrived at Kettle Valley on Monday's afternoon train to visit her father and brother here for a few weeks.

On Sunday, October 2nd, Mr. and Mrs. W. Clark of Rock, celebrated their China Wedding anniversary. They received congratulations from their many friends.

Major and Mrs. F. Glossop, of Kettle Valley, celebrated the anniversary of their Silver Weddinng on Saturday, October 1st, They received hearty congratulations and good wishes from their friends in the Valley.

Among the many visitors from Midway on Friday were: Mrs. R. D. Kerr, Mrs. C. J. Lundy, Mrs. J. R. Jackson, the Misses Gladys and Nora Jackson, Mr. and Mrs. H. Pannell, Mrs. W. Pretzman, and Mrs. J. G. McMynn.

There arrived on the Friday morning train from Belfast, Ireland, the young nephew and niece of Captain and Mrs. Brew of Kettle Valley. They intend to take up their permanent residence here and they seem greatly interested in their new home.

A Harvest Festival was held in the Rock Creek Anglican Church, Kettle Valley, on Sunday. The interior of the Church was most beautifully decorated for the occasion with sheaves of wheat, flowers, vegetables and fruit. The service and sermon was very much enjoyed.

J. M. Bozarth, of Bridesville, has sold his ranch and intends to go to the Peace River district where he will make his home. Mr. Bozarth has a son and daughter living there who have been residents of that district for some time. He will be accompanied by his son Richard and his family.

Mrs. Bryan Palmer of Kettle Valley gave a delightful party at her residence on Wednesday evening last in honor of her daughter and son-in-law, Mr. and Mrs. Harold Martin of Trail. The guests arrived at 8 o'clock and spent the evening playing the popular game of 500. Mrs. G. B. M. Gane won the prize for the highest number of points. Mrs. E. Richter won the ladies booby. E. P. Beckett was the winner of the gents prize and Frank Richter the gents booby. After cards a most delicious supper was served, the guests leaving for their respective homes with many thanks to the charming hostess for giving one of the most enjoyable party's of the season.

Rock Creek held its ninth Annual Fall Fair on Friday. The entries were not so large as usual, perhaps owing to the farmer's being busy with their grain, but, however, from the ladies view their department was certainly a great success. The gretat display of butter; eggs, poultry (dressed), bread, and the splendid display of wonderful cakes which would have done credit to any first-class confectioner. It was almost impossible for the judges to pick out the best for the exhibits were all good. The canned fruit, jams, jellies and vegetables was a treat to see. The fancy work, embroidery, crochet work and knitting was lovely. A scarf knitted by Mrs. M. E. Gane took first prize. The hoked rugs were all beautiful and everyone deserved to have a prize, but that of course, would have been impossible,as there were only two prizes given. The lady judges were splendid. They were Mrs. R. D. Kerr, Mrs. C. J. Lundy, of Midway, and Mrs. A. Porter, of Myncaster. Great credit is due to them for the excellent way in which they made their awards. The Women's Institute were very fortunate in being able to get such capable judges. Afternoon tea was served by Mesdames Clark, Kayes, Rusch, and Pearse and they certainly were kept busy. The Dance in the evening was well attended and everyone enjoyed themselves. Bush's four-piece orchestra were in good form and kept the dancers on the move. A most delicious supper was served by Mrs. F. E. Glossop and Mrs. W. Clark and their work during the day is certainly deserving of special mention. The members of the Institute are commended for their untiring work in bringing their section to such a favorable termination.

Anyone in need of pumps should examine those for sale at the Douglas Hamilton Auction at Kettle Valley on Saturday.

A country town boasting a long history, somewhat recently installed traffic signs under newly-adopted traffic regulations.

Not long after a certain pastor complained that all the young couples were passing his door and getting other clergymen to marry them He finally asked a newly-wedded pair who were his staunch adherents why they went elsewhre to get married. In reply they poited to a sign in front of his house: "No Hitching Here."

The Dairy Cows at the Douglas Hamilton Auction at Kettle Valley on Saturday are worth your attention. They are of good class their yields of butter fat proclaim them so.

"DOUG'S NEW TREAT"

Douglas Fairbanks is again the cinema pioneer. In this instance he is exploring the realm of color photography, and it is said that "The Black Pirate," the screen production he is now releasing is easily another outstanding novelty.

It was made after five months of preliminary scientific research. In addition to its actual color, it glows with the color of romance and adventure,of heaving ships and rolling seas, pieces-of-eight and plank-walking pirates. It will quicken the pulse of everyone who has read and dreamed of the days of piracy. The Technicolor process by which this film is being made stands as another triumph for American ingenuity. "The Black Pirate" comes to the Greenwood theatre on the 14th and 15th of October.

The hay to be sold at the Douglas Hamilton Auction at Kettle Valley on Saturday is good quality it being harvested before the wet weather set in.

Childrens Poultry Club

The result of the Childrens Poultry Competition held under the auspices of the Rock Creek Women's Institute is as follows:

1st. Jean Johnson.
2nd. Charlie Bubar.
3rd. Christine Brew.
4th. Pearl Lindsay.

The judges were A. L. Landon, of Nelson, and Wm. Liddicoat, of Grand Forks.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning reulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, toria, B. C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to the value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown Lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is $5 per acre. Further information regarding purchase or lease of Crown Lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled, and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority given to established owners. Stock owners may form associations for range management. Free, or partly free, permits are available for settlers, campers and travellers, up to ten head.

BRITISH COLUMBIA

The Mineral Province of Western Canada

TO THE END OF DECEMBER, 1926

Has produced Minerals as follows: Placer Gold, $78,018,548; Lode Gold, $126,972,318; Silver, $80,787,003; Lead, $106,976,442; Copper, $209,967,068; Zinc, $50,512,557; Coal and Coke, $284,699,133; Structural Materials and Miscellaneous Minerals, $50,175,407; making its mineral production to the end of 1926 show an

Aggregate Value of $988,108,470

Production for the year ending December, 1926, $67,188,842

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing:

THE HON. THE MINISTER OF MINES,
VICTORIA, British Columbia.

N. B.—Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B. C. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.

Reports covering each of the Six Mineral Survey Districts are published separately, and are available on application.
