ASK TIME TO CONSIDER

St. Eugene People Want Another Week—Will Decide by Friday August 17th.

Last week the mill men at the St. Eugene made a request for an eight hour day, and asked for an answer from the company by August 10th. Manager Aldridge has asked for another week in which to consider the matter, and we understand the men, or a majority of them, were favorable to this and that his request was granted. Mr. Aldridge wished to confer with the mine owners in the Coeur d'Alenes before reaching a decision.

It seems there is considerable difference between the profits made by the Coeur d'Alene silver mine owners and those of British Columbia. So much so is this that the mine owners in the Coeur d'Alenes get nearly $30 a ton more for their product than those of this province. This will probably be taken into consideration in arriving at a decision. However the fact still remains that mill men are as scarce as hen's teeth and they are masters of the situation, for the present at least. The time limit asked for will expire next Friday, August 17th.—Moyie Leader.

Lawn Tennis.

Messrs Beale and Pinkham travelled to Fernie on Saturday last to try conclusions with the lawn tennis experts of that city. Both in the doubles and singles they did credit to themselves winning every set played.

Some pretty interesting play was witnessed in several sets notably, that with Dr. Higgins and Mr. Herchmer, but the Cranbrook pair were too heavy for their opponents and won handily. In all 71 games were played, and only 19 were lost by the visitors. It is to be hoped that Fernie will send up some players to try the balance of the Cranbrook club.

The tournament of the Cranbrook club is very nearly over, the gentlemen's doubles being the only unfinished round. Miss Marjory Armstrong won the ladies singles by defeating Mrs. Elwell in the finals. Mr. T. Gallon by defeating Mr. N. Wallanger in the finals repeated his victory of last year in the handicap, which in the mixed doubles he also won with Miss Armstrong as his partner. In the ladies doubles the Misses Armstrong won after a very hard match with Mesdames Elwell & Hoskins.

A great deal of interest has been taken in the games, the dispersing of afternoon teas, so kindly provided by the ladies proving a sure attraction, and a great addition to sociability.

A Card of Thanks.

Members of the Miners Orchestra wish to thank the parties advising them not to associate with black minstrel men when in the city. They realize the fact that their faces would turn black

The Lighthouse Keeper's Mistake.

Christiania, Norway, August 16.—The report of the investigation of certain charges against the keeper of the lighthouse at the mouth of the Christiana Fjord has brought to light the farcical details of a curious misunderstanding. Some time ago King Edward sent a donkey as a present to his little grandson, the Crown Prince Olaf of Norway. The donkey was sent on the steamer Montebello, and the captain got instructions to look well after the animal. On arrival outside the Christiania fjord the captain signalled to the lighthouse "All Right", but received no signal in reply. He then gave orders to signal "ass" on one mast and "all right" on the other. But there was still no reply.

As it is very important that signals from vessels passing the lighthouse should be reported properly, the captain complained to the authorities. The investigation showed that at the moment the Montebello passed the lighthouse the signalman on duty was busy at the telephone. After he had finished his conversation he saw the second signal flying, "Ass, All Right!". He took it as a personal insult from the captain and did not consider it necessary to report it to the proper authorities or to reply to the signal. The matter has caused a great deal of amusement in this city, particularly in marine circles.

STEAMBOAT RACE

Which is the Greyhound of the Upper Columbia—The Ptarmigan or Gian.

To settle the above question a match for $100 a side between the S. S. Ptarmigan and Capt. Northcote Cantlie's motor launch, the Gian, has been arranged. The start will be made at 8 o'clock on Sunday morning at the Wilmer landing, and the first boat to pass the boom at Golden wins the prize. The proceeds are to be given to the Golden Hospital. This will be the most exciting contest in the history of the Upper Columbia river, and with the respective captains steering their own racers we may be sure that the friendly contest will be forced to a finish. From all we can gather it will be a most evenly contested race as the difference in time of the two boats down the river is very close. The winner will be announced at The Outcrop Palace by a special correspondent directly after the contest is ended.—Wilmer Outcrop.

A Dastardly Act.

Lethbridge, Aug. 14.—A dastardly attempt was made yesterday morning to destroy the residence and probably the entire family of John Scott, a railway employee here, by dynamite.

The building was badly wrecked by the explosion. But no one was injured.

No motive can be advanced but the police have a suspect under arrest.

The Hose Team.

The Moyie hose team has been organized with E. O. Kamm as manager. The boys run on an average of two evenings a week and they are well satisfied with the progress they are making. They fully expect to go to Cranbrook Labor Day and bring home the Harvie cup and $150 cash prize that is hung up. Manager Kamm will pick his team from the following who have been training. In choosing, speed, of course, will be the main qualification: Geo. Trainer, Chester Cobb, Harold Scott, Herb Lowes, A. J. Dandurand, Harry Stewart, W. J. Feltham, D. J. Elmer, E. A. Hill, S R. Wormington, Wm. Keast and Mr. Lalund. Mr. Kamm will run with the team.—Moyie Leader.

Bush Fires.

Bush fires are still raging in this district. Probably the worst was that which was burning between the track of the North Star branch and the Mission. This fire has been burning steadily for over a week and a large amount of valuable timber has been destroyed. A large fire on St. Joseph creek close to town last Saturday gave the fire brigade several hours hard work and a number of residences were endangered, and would have been destroyed but for the prompt arrival of the brigade.

BIG FIRE AT KINGSVILLE

King Lumber Plant Partially Destroyed—400,000 Feet of Lumber Consumed.

The outbuildings and 400,000 feet of dressed lumber was destroyed by fire at Kingsville Saturday.

Word was received at Cranbrook Saturday last that the big milling plant of the King Lumber Co., at Kingsville was in danger of being totally destroyed by fire. At 6 p.m. word was received that all buildings, including the office, blacksmith shop, cookhouse and barns were on fire. The workmen put up a strenuous fight with the means at hand and eventually succeeded in saving the mill and its contents.

The origin of the fire is unknown. A first report stated that it started from a small bush fire. Another that a spark from a passing engine set the fire agoing.

The loss amounts to about $8,000 covered by an insurance of $2,000. The buildings are being rebuilt, and the mill will be running as usual next week.

Placing the Mikado's Banner.

London, August 18.—Garter King-at-Arms Sir Scott-Gatty visited St. George's Chapel, Windsor Castle, the other day and placed in position the banner of the Emperor of Japan as a member of the Order of the Garter, the Insignia of which he was invested with a few months ago by Prince Arthur of Connaught on behalf of the Sovereign of the Order, King Edward, The banner bears a chrysanthemm in gold on a scarlet ground with a gold fringe. The banners of the King of Wurttemberg and the Crown Prince of Sweden were also placed in position.

Pilgrimage to Sacred Shrine.

Boston, Mass., August 17.—A large number of pilgrims will start from here this evening under the direction and leadership of the Rev. J. J. McCafferty on a pilgrimage to the shrine of Ste. Anne de Beaupre, Canada, to pray for the intercession of that Saint. The pilgrimage is undertaken annually under the auspices of the League of the Sacred Heart of St. Thomas Church, Jamaica Plain.

Armed Invasion Into Canada.

Ottawa, Ont., August 18.—About twelve hundred officers and men of the New York militia and a number of companies of various militia regiments in other Eastern States arrived here, bearing their arms by permission of the Canadian Government. The occasion is the annual visit at the British Army and Navy Veteran Association, of Boston, Mass The soldiers pay their own fare and defray their own expenses on the trip, but officers and men of the Ottawa garrison have arranged an elaborate program for the entertainment of their visitors.

A Handsome Trophy.

W. F. Tate & Son have manifested a deep interest and consideration for the Fire Brigade this week, as evidenced by a look into their store window. There will be seen a handsome silver "Firemen's Speaking Trumpet". This stands about twenty inches in height and rests on a base of about eight inches. It is presented to the Fire Brigade, and is to be run for "by competition" by teams on the "Crow" in hub-and-hub races. The first team winning it three times becomes the owner of the trumpet.

The Fire Brigade deserves all the encouragement they can receive and we congratulate W. F. Tate & Son on their enterprise The boys are loyal to our city, turn out regularly to practice and show a deep interest in the protection of property. Cranbrook has stood by them in the past and now comes another manifestation of appreciation. We believe the boys will ably defend the trumpet and keep it in the city.

LABOR DAY CELEBRATION

Committee Meets and Transact the Following Business.

The Labor Day Committee met on Monday evening and transacted the following business.

President Wm. Small in chair, records of last meeting were read and adopted. The reports of sub committees re place of holding events was read, and after discussion the following resolution was made by Harry White seconded by T. Boyter.

"Whereas some of the business men of Cranbrook, and some of the members of the committee have strongly opposed holding this years celebration in the usual place, on the grounds on the hill west of the railway tracks. Whereas, this committee having carefully considered different other locations for holding the sports on Labor Day, and whereas, the committee feel it their bounded duty to choose a place where competitors in the different events will have ample room, and the visitors from neighboring towns and camps, with the residents of Cranbrook will have the privilege of witnessing the different events with the utmost freedom and ease. Be it resolved that all the sports with the exception of the parade and hose reel race be pulled off on the vacant ground adjacent to the grove at the east end of Baker street, and be it further resolved that any motion or motions conflicting with this resolution heretofore on the minutes be hereby recinded

An amendment to the above resolution was moved by Mr. W. Rollins, seconded by E. H. Small, that, the mining and lumbering events be pulled off near the grove at east end of Baker street, and that all other events be pulled off on Lewis street and vicinity. The amendment was carried.

A communication from the Clark Rolla Troupe was read and on motion placed on file.

Mr. Grace reported that the Gun Club would prefer having a silver cup as a prize. The report was received, and it was ordered that the suggestion of the Gun Club be carried out.

On motion of Mr. Grace seconded by Mr. Rollins, the secretary was instructed to send special invitations to Fernie and Moyie Fire Brigades to participate in the wet hose contest.

The sub-committees were given full authority and instructions to make preparations for carrying out their events in place specified upon the minutes of this meeting.

Mr. White, the secretary, was instructed to visit Moyie in the interests of the celebration, expenses of the trip to be paid by committee. The meeting adjourned to meet on Monday evening, August 24th, or if necessary at call of the president

Canadian Yacht Wins.

Rochester, N. Y., Aug. 14.—The yacht races for the Fisher cup were concluded yesterday afternoon, when the Zoraya, the Canadian challenger, took the second race, defeating the Iroquois, representing the Rochester Yacht club, holder of the trophy. The Zoraya represented the Royal Canadian Yacht club, of Toronto.

The race was over a windward and leeward course of 18 miles, nine miles out and back. The start was delayed owing to lack of wind, but at 12.20 the breeze freshened up to about nine miles an hour, and the start was made.

The official time of start was Iroquois 12:20:21, Zoraya 12:20:34. The Iroquois got the best of the start. The Zoraya passed her in a short time and held it thereafter. The American boat was skillfully handled, but was outsailed on all points.

SATURDAY, AUGUST 18, 1906.

THE Grit politicians of this province must be proud of their record in digging up mare's nests. During last session they announced in scare heads that the McBride government was tottering to an ignominious fall, and almost announced the exact date of the tumble. They unearthed that awful Kaien island deal, and referred repeatedly to the "band of adventurers, male and female," rolling it under their tongues like a sweet morsel they also trotted out the horrible Pendray deal, the leading spirits being the Victoria Times and Vancouver World, followed by the lesser lights. But they should now, one and all, be able to crawl into an exceeding small hole, for they knew that their dire prognostications would turn out to be so much hot air, and the commissions appointed to investigate the deals found nothing wrong. Latterly they have been busy preparing for an election, but they seem to be the only ones that know any thing about it. It is a case of the blind leading the blind.—Phoenix Pioneer.

A number of pot hunters were out Saturday last, breaking the law, by killing chickens out of season. A fair warning is given to these would be sports and hunters, that if caught, they will get the full extent of the punishment provided by the game laws of the province.

* * *

The various performances of Organizer Simpson, Opposition leader J. A. Macdonald, and Comrade Hawthornthwaite leave the impression that they are *much disturbed, as to when* there will be a general provincial election, and the race seems to be who can get in the finest and most deadly work before such an event takes place.

* * *

If the people seeking land only knew of the resources of Southeast Kootenay, they would be flocking here faster than ever

* * *

Present indications are that the Opposition party in this province will have a long and interesting campaign before there is a general election.

* * *

With Fred Simpson organizing the Liberal party in this province, and J. A. Macdonald and Comrade Hawthornthwaite *doing the "guessing act"* we must be approaching an election or a session of the Legislative assembly.

* * *

In common with all the other ridings in this province Cranbrook should do her duty. The Conservatives of this riding should let no other consideration stand in the way of endorsing the McBride government. There is but one way to endorse McBride and his administration, and that is, when the provincial *election* takes place, to elect a Conservative member for Cranbrook riding.

The more pleasing and pleasant our government can make farm life the better it is for the government. Our cities are overcrowded with worthless loafers who might be honorable and respectable farmers. The rural route is one of the things that has been provided to make farm life more desirable and attractive, and as we all have to live off the farmers nothing should be left undone that could be done to make the farm inviting.

MAY MOULD HOUSES

Edison Proposes To Cast Concrete Cottages.

New York, August 8.—Whole houses moulded in a single casting out of solid concrete, which will provide cosy homes for workingmen at a cost from one-fifth to one-forth of what the average mechanic pays today, is a goal which Thomas A. Edison is striving to reach by plan he is confident will work out successfully.

Combined with economy of construction and maintenance the inventor aims to embrace architectural beauty and practical indestructibility in the project, by which he expects to revolutionize present methods of erecting the poor mans home. He intends next year to make the first practical experiments in moulding solid concrete houses in a new village near Warren Cove, N.J. just across the Delaware river from Easton, Pa. One of the big Edison industrial establishments is situated there, and he purposes to erect homes by the new process for the families of the hundreds of employs of the plant.

Describing in detail the plan he has devised, Edison said: "I purpose, after obtaining the designs, to have metallic moulds made to correspond with them.

The mould for each house will be made in detachable parts. There will be separate plates and small moulds that can be screwed together easily to form one mould for an entire house. That a fine finish may be obtained the inside surface of the parts will be nickel plated.

"After a mould for a whole house is set up, it will be a very simple matter to pump concrete into every nook and cranny. The pumping process will not require more than a few hours. After four days that at most will be necessary for the hardening of the concrete the parts of the mould will be unscrewed and taken off, and a solid concrete house will remain."

The inventor says that under ordinary circumstances the concrete dias will not cost more than from $500 to $600 apiece.

"When my plan is actually put to practical use," he said, "mechanics earning $2.50 a day can live as well, so far as the quality and convenience of their homes is concerned, as men now earning $10 a day. It costs now about $2,000 to build a frame villa of the size and with the convenience of the proposed concrete houses. It costs now about $3,000 to put up a brick house of the same description. Neither a frame nor a brick house is anything like so durable as the concrete houses will be. To reproduce one of them in stone would cost $15,000."

Ottawa in a Ferment.

There is reason to believe that the proposal to make Ottawa, as the Canadian capital, a national district similar to that of Washington, is assuming a definite and serious shape, and there is strong probability that the residents of the city and the people of the Dominion will, ere long, be called upon to make a pronouncement on the question. The suggestion has been made from time to time in an inconsequential manner, but only since the appointment by the government of the Ottawa improvement commission and the splendid effect of that appointment has any serious thought been given to it.

At the close of the last session of parliament the matter was incidentally debated in the senate and since then it has been a subject of discussion in influential circles.

Naturally the question is one of great importance to the people of the city. One of the objections will be the loss of the electoral franchise. The district of Ottawa, say ten miles square and taking in both sides of the river, would be deprived of representation in both the federal and provincial parliaments. The city council and other municipal bodies would be abolished and a commission, appointed by the federal authorities, substituated. There would be a complete change in the taxation, but this would probably be to the benefit of the ratepayers. The possibility of Ottawa's industrial growth being stunted when governed by a commission naturally leaning towards making the city a legislative and residential centre, would also have to be given serious consideration.

G. O. Buchanan has finished his labors for the fiscal year as lead bounty commissioner. The total shipments for the year ending June 30, 1906, were 25,700 ton, a decrease of about 1,500 tons from the figures of the preceding year The shrinkage is explained by Mr. Buchanan as due to shut down of the St. Eugene after the fire in the Lake Shore mine last fall and the inactivity of the Slocan. The Sullivan mine was in constant operation, whereas during 1904-5 it was worked for only four months, but its shipments were not sufficient to make up the difference. The price of lead, which has long been above the bounty limit, appears not to greatly stimulate operations in Slocan.

The gelogical survey and the mines branch of Canada, heretofore attached to the interior department, have now been placed under the charge of Hon. M. Templeman, the minister of inland revenue. At the next session of parliament consideration will be given to the matter of naking the mines branch an individual department with Hon. Templeman at its head as minister of mines. The change is commendable, as the mines branch will be better able to continue its good work in investigating and encouraging the development of Canada's vast mineral resources.
