PRIVATE ROOMS

The Swayne House is again open for business, under the management of Mrs. Adeneur. First-class rooms at moderate rates. Hot and cold baths free to guests.

Christian Science service will be held in the Oddfellows Hall on Sunday at 11 a.m. All welcome. On the third Friday of each month at 8 p. m. testimonial meetings will be held in the same hall. Sunday school every Sunday morning.

WANTS, Etc.

FOR SALE or TO RENT.—A first-class hotel. Apply at The Ledge office.

FOR SALE —New farm wagons. 3, 3¼ and 3½ inch. Made in Canada. At Kinneys.

FOR SALE.—One thoroughbred Holstein bull calf, 5 months old. Registered. Call or address P.O. Box 54, Midway, B. C.

LOST. — Between Nicholson creek and Greenwood, a navy blue ladies coat. A. O. Johnson of Phoenix will pay a liberal reward for its return.

A Delicate Way

Kenneth was discussing the football team of which he was a member, and said to the girl:

"You know young Barker? Well, he's going to be our best man before long."

"Oh, Kenneth," she cried, "what a nice way to propose to me."

Around Home

Wm. Wilson was in Fairview last week.

R. N. Adams returned from Princeton on Monday.

Miss Katie McMillan, of Nelson, is on a visit to relatives in the city.

J. A. Greaves, druggist, of Cranbrook, was in the city on Monday.

James McCreath, Ken Frith, and Geo. Murray were in Phoenix on Monday.

R. H. Whitford, watchman at the Carmi mine, Carmi, was in town last week.

Geo. Craig, of Okanagan Falls, arrived on Tuesday, to take a position with Lee & Bryan.

Trout fry is being put in the Kettle river and Boundary creek from the Dominion hatcheries.

BORN.—At the Jubilee hospital, Victoria, to Rev. and Mrs. J. H. Hobbins, on June 25, a daughter.

Mrs. W. W. Craig, of Okanagan Falls, was the guest of friends in Greenwood last week.

A concert and social will be held in the Presbyterian church at Midway, Tuesday evening, August 10.

Barney Morris, the hockey player returned from Victoria this week, and will work in the Granby mine.

Dan McLeod has enlisted in the 54th. In Company with Bill Chaison he will leave for Vernon in a few days.

Miss Marie Goodeye, of McGrath, Alta., is visiting her brother J. H. Goodeve, on her way home to Victoria.

Mrs. Wm. Lawson accompanied by her daughter, Miss Esther, left on Friday morning last, for several weeks visit in Vancouver.

Robt. Lee, left on Saturday for Cobden, Ont., where he was called on account of the death of his father. He will be away about a month.

Mr. S. C. Studd, of Midway, will preach in the Presbyterian church next Sunday, July 18, at 11 a. m., in exchange with Mr. Munro.

English, Swiss and American watch and clock repairing. All work guaranteed. C. A. Adeneur, opposite Windsor Hotel, Greenwood.

DENTISTRY.—Dr. Guy, of Grand Forks, will be at the Pacific hotel in Greenwood, prepared to do all kinds of dental work, from July 5 to 17.

Geo. Wharton, road master for the C.P.R. with headquarters in Grand Forks has been transferred to Golden. Mr. Walker, of Golden succeeds him.

Harry Hook and family have returned to Greenwood from Copper Mountain. Mr. Hook will resume his former position as assayer at the Greenwood smelter.

Len Wenerstrom came in on Wednesday last from Salt Lake City and left the next day for Princeton, where he will be in the employ of the B. C. Copper Co.

Wm. E. Maclean, inspecting engineer, of the Mainland Fire Underwriters' Association, of British Columbia, was in town on Monday, testing the city's water system.

The Farmers Institute of Rock Creek held a pic-nic at McLennans ranch last Saturday. They were delighted with the appearance of the governments experimental farm.

The Midway School Board have bought five acres of ground, for their new school house from B. Lequime. The government will erect the building this summer at a cost of over $2,000.

R. N. Adams will move his wife and family to Princeton, where he has bought a livery business from Neil Huston. In that city he will also conduct a flour and feed store. He will still run his business in Greenwood, under the management of E. Foyle Smith.

A. R. Mann, druggist, of Grand Forks, will leave for Victoria this week, where he has been accepted as dispenser on the unit of the R. M. C. now being organized there. His brother Ed. Mann, of Prince Rupert, will look after the Mann Drug Co. store, Grand Forks.

J. L. Stamford's name is again being mentioned in Nelson in connection with mining. Is this the same man who was connected with that failure some years ago, called the Northwest Coal and Land Co? If so, some people who lost money in that scheme would like to see him.

Charles Blank has donned the white apron, and once more smiles at the world from behind the bar at the Windsor.

Harry Bretzins writes to The Ledge from Hazelton and says that the report of his death is greatly exaggerated. He has rode on a water wagon for three years, and his chances of living were never better. He is in the pink of condition and looks like a four time winner. He hopes that this news will cheer up those who mourned his demise, and trusts that The Ledge will soon obtain another wing.

Lieutenant Loring's Death

News of Lieut. R. N. Loring in the Honor Roll at the front reached Greenwood this week. He was killed in action in Flanders on June 16th. Lieut. Loring was known in Greenwood as "Plum." He has given his all, his life, for his country, and all are justly proud of him.

He was the first to volunteer in this district, and by his noble example was a great incentive to others of our great countrymen to respond to their country's call.

While his familiar figure and cheery face were amongst us, we always found him essentially plucky. His association with all kinds of games and sports and the spirit in which he entered these contests, comfirmed this. He was always a good sportsman and grit to the core, and it is certain that these qualifications, so characteristic of the nation to which he belonged, were apparent in the heroic fight he made for his country and her honour.

Greenwood is proud of her heroes and of Lieut. Loring in particular. We are grieved at his death, but proud of his patriotism and heroism.

The sympathy of Greenwood is extended to his family, and we are honored to associate ourselves with this glory.

Lieut. Loring at one time was accountant for F. W. McLaine of this city.—Com.

Tom Johnston Dead

Thomas G. Johnston, one of the proprietors of the Hotel Penticton in Penticton, died suddenly last Monday, aged 42 years. Last month he had suffered from liver trouble and a fatty condition of his heart. He was in good health on Monday and played billiards in the afternoon. Complaining of a headache he went to his room, and his partner, Bill Mason, found him dead two hours later. The deceased was born in Orillia, Ontario, where his parents still reside. He had a brother in Toronto, and a sister in Sudbury. In the boom days Tom mined at Sandon and Slocan City in the Slocan, but for the past eleven years had been a resident of Penticton. This summer he and his partner, Mike Gaynor, began work on a group of silver claims near Princeton. Tom's friends were legion, for he was one of the most jovial and best hearted men who ever left home to enrich the manhood of the great west.

And He Got The One

A traveller, whose train had stopped at a town famous for its buns, beckoned to a small boy on the platform, and, giving him ten cents, told the little fellow to bring him a bun and buy one for himself with the other nickel.

The boy soon returned. Calmly eating a bun he handed five cents to the astonished traveller, remarking:

There was only one left Boss."

Western Float

Ginseng is being grown in Hazelton.

Bob Green would like to be premier of B. C.

At Revelstoke in May, 66 miners licenses were issued.

In this province many a Liberal will vote for W. J. Bowser.

Japan is now making toys for the world instead of Germany.

This year the sockeye season on the Skeena river opened on June 20.

Eleven former pupils of the Kaslo schools have enlisted for the war.

A Rossland hotel now runs a free auto bus for the benefit of its guests.

C. B. Daniels has been appointed police magistrate for Prince George.

John Barrett committed suicide at Smithers last month by cutting his throat.

Some cherries were recently shipped from Kaslo to the soldiers in Vernon.

In Sandon only one or two men are left who played the wheel in that camp 20 years ago.

Jim Cronin has resumed work on his claims on the Babine range, in the Hazelton district.

For snow sheds the Kettle Valley railway is buying 13,000,000 feet of lumber at the coast.

Counterfeit 25 cent pieces are being circulated in Rossland, and other towns of the interior.

Jack Kirkup is now government agent at Nanaimo, having been transferred from Alberni this month.

Mrs. Simms of Jap Inlet, Parcher Island, planted potatoes on April 23, that were ready for eating on May 24.

Safety in the home is a necessary as in the factory. Care can prevent accidents to the children as well as to the father.

All the bartenders in Rupe belong to the union, but they will sell a drink to a non-union man if he has the price, or a gilt-edged finger.

The 48th Battalion has gone to Europe from Victoria. It is commanded by Colonel Holmes, formerly of Kaslo, and Captain John L. Retallack is paymaster.

Many prospectors this summer are scanning the hills around Rossland. There will be more good claims found in that district before many months, as well as in the Slocan.

The conduct of the Austrian prisoners of war, who are building the Monashee wagon road is highly satisfactory. They do their work well, and give no trouble to the guards.

Last month a man giving his name as J. Young cut his throat with a razor. He was despondent because he could not enlist at Vernon upon account of his teeth. He fought in the Boer war.

The writer has received a letter from Kaslo telling about interesting phases in the careers of Bob, and John, but at present it would serve no good purpose to publish it, and might wound the pride of some innocent people.

Miss Hazel Fleener, formerly of Kaslo is now soloist in one of the leading churches in Minneapolis, and will sing at many concerts in the United States this year. Miss Fleener studied music in Germany before the war, and will yet make Kaslo famous.

W. A. Smith writing to his brother in Rossland, from the mouth of hell in France says, that they captured several wounded German soldiers, two of them who had been shot by their own officers, because they refused to bayonet British soldiers. This shows that there are still some noble men among the common soldiers of Germany.

Although the general impression is that the Trout Lake division is a high grade country, it will probably be found, and at no distant date, that its biggest producers will be the low grade properties. The problem of raising capital and the milling of the lower grade ores, appears to be more difficult of solution than the discovery of ore bodies. This matter, will however, be adjusted in due time, and all who are in any acquainted with the resources of the district do not hesitate in expressing the opinion that such a wonderfully mineralized area must in time become a big producer, particularly of silver, lead and zinc, and poessibly gold and copper as well.—Kaslo Kootenaian.

GIVES MACHINE GUN

Greenwood District Gives One Gun, And May Give Another, Great Enthusiasm In City

The Committee in charge of the work in connection with providing a machine gun to the 54th Kootenay-Boundary Battalion reported at a meeting yesterday. Collections in Greenwood alone amounting to nearly $800. It was found that many citizens had not been approached and consequently an estimate of $1,000 was put as Greenwoods total. The Jewel-Denero mines reported collections of $281, and it was decided to make every effort now to supply a second gun, as no subscription returns have as yet been received from the rest of the Greenwood riding, and it is felt that with earnest efforts no difficulty should be experienced in raising a second thousand dollars. This it is felt speaks volumes for the spirit of sacrifice and patriotism of this district. The Committee ask for every help in their effort to raise sufficient funds to present this second gun to our local regiment.

Letter From Scotland

The following letter addressed to the teachers and pupils, of the Greenwood school, from the Military Hospital, The Castle, Edinburgh, of date of June 24, was received in Greenwood last week:

My Dear Friends

We are very grateful for the gift of magazines you have so kindly sent from British Columbia. Although so far away you have proved that there still remains the wondrous fellow-feeling which "makes the whole world kin."

You may be sure it gives my comrades and myself pride and pleasure to know that you think of us, as well as, your own gallant relatives and friends, who have come to our assistance, and are doing so well in Flanders and the Dardanelles.

I am sure that nothing finer has ever been, or will be recorded, than the gallant charge of the Canadian Brigade, who, after being forced to retire by gas, retook their guns and trenches at Hill 60.

We are all so proud of them!

The Newfoundlanders were stationed here for some time and earned the praise of everyone for their good behaviour and smartness.

They have gone now and I am quite sure they will give a good account of themselves wherever they go.

The following join me in wishing you all ever success:

Jno. Philip, Scots Guards; Pte. W. McFarlane, 2nd Royal Scots; Pte. R. Brown, Scots Greys; Pte. W. Bryson, A. and S. Highlanders; L. C., R. Hall, A. and S. Highlanders; B. Trimmer, and R. Gurt; Pte. H. Walker, 2nd Royal Scots; Pte. F. Craig, A. S. C.; L. C., P. Henerie, 2nd Seathforth Highlanders; 9717 James Campbell, A. and S. Highlanders; H. McWilliams, K. O. S. B.; Pte. Robt. Munroe, Black Watch.

Descent of Man

Position Wanted:—A young person, having received an excellent education including writing, geography, history, mathematics, dance music, and art, would like to enter a respectable family to do washing and ironing—Saline County (Mo.) News.

THE LEDGE

THE WHITE PLAGUE

In a speech in England that eminent Canadian physician, Sir William Osler says:

"Tuberculosis may be put into three groups. All of us who are here come in the first. If I had an instrument here with which I could look into the chest or the abdomen of each of you, the the probability is that in ninety per cent. of you would be found somewhere a small area of tubercolosis. So widespread is the bacillus that practically all humans by the time they become adults harbor the germs of the disease.

"Why don't you die? Because we are not guinea pigs or rabbits, we have obtained a certain immunity. But the germ is in us, though negative, and with all of us there is the possibility of slipping into the two other groups.

"The second group comprises those in whom the disease is active enough to produce symptoms, but in whom there is the possibility of arrest or cure, with restoration to working health. Those in the third group are doomed, the disease progresses week by week, month by month, year by year, and from one year to five sees the end.

"When workers have living wages, when the house becomes the home, when the nation spends on food what it spends on drink, then, instead of hundreds of thousands, there will be millions in the first group, with practically immunity. The enemy has been traced to its very stronghold, which is defended by the three allies, poverty, bad housing and drink."

WAR AND DISEASE

If microbes were used instead of shells the war in Europe would soon be at an end. As it is 80 per cent. of the deaths in the present war are caused by disease, and 20 per cent. by gunfire and steel. This same proportion obtained during the Russ-Turk war in 1877, and the losses in the Boer war from disease were enormous. The Japanese are the only people who ever reversed this order of things in warfare. In their war with Russia where one man of their troops died from disease, four died from wounds caused by shot, shell or steel. The wars of the future may be carried on with microbes, and the soldiers be armed with little bottles, filled with the bacillus of the most deadly disease. These could be shot into the enemy with the hypo syringe, or sprinkled over their food when they were asleep. This method of warfare would save the grass from being reddened with blood, and do away with the annoying noise and smoke that now prevails at all battles. We think that the present mode of warfare is very rude, crude and ungentlemanly. It would be much nicer for our brave soldiers to carry sponges and chloroform, and slip through the lines at night and chloroform the enemy to death. The result would be the same, and it would do away with the horrors of war.

Man is the only animal who will not quit eating when he is sick.

When not eaten with meat celery is a nerve tonic, and helps to kill rheumatism.

Many merchants are dumb when it comes to talking through a newspaper at so much per inch.

In every town there lives a man or two, who if bit by a viper, twould cause the viper's death.

If you are too fat quit eating for a month. This is a sure cure, and you will make money by following our advice.

On July 2, Sir Charles Tupper was 94 years young. Being a Conservative all his life probably had something to do with it.

In California a doctor has found a tiny insect that will kill all houseflies. We hope that the insect will come north before all the sugar, butter and baldheads have been eaten.

We have occasionally in this world of flesh and passion met a lady so sweet, so angelic, and so spiritual, that she would perfume a boquet of roses, instead of being perfumed by them.

For the benefit of the younger generation, we will say that the American war of 50 years ago, was fought by two million officers and one private. That war was a great event and made the north look blue for four years, although there are more than a million souls today in America who never heard about it.

Foundation

Mining is the fundamental civilizing industry of the world. It is the foundation upon which all commercial progress is based; it dominates every line of endeavor and has a deciding influence over human destiny.

Without the mines, there would be no railroads or steamships and commerce would be at a standstill. There would be no circulating media of a fixed value based on gold, and methods of barter used by primitive man might still be in vogue. The arts and crafts would be practically nil. The printer, minus metal press and type, could no longer supply the world with literature and newspapers would be unknown. Telegrams, cablegrams and telephones are words that would be eliminated from the English language. And our friends across the water would have to resort to clubs instead of shrapnel if they were determined to exterminate one another. The farmer, lacking agricultural implements, could not garner his crops unless he pulled them up by the roots. Dug-outs or flimsy wooden structures would supplant the modern skyscrapers with their altitudinous towers. Everybody who had a desire to live would have to take up farming and stockraising in order to support and clothe himself.

Taking all facts into consideration, the West is to be congratulated upon possessing an industry of such vital importance to society.

Agricultural districts may boast of their fertile farms; manufacturing communities may be self-laudatory over their immense productions, and financial centres may swell with pride over the far-reaching power of their gold. But coming right down to facts, they all owe their being to the mining industry.—Denver Mining Record.

Didn't Locate Here

What has become of the old-fashioned freckle-faced boy who always had one big toe tied up in a rag and who always had two bull's eyes in the seat of his pants and who always said "Yes Sir" and "No Sir, when you spoke to him?—Cincinnati Enquirer.

Women and War

Mr. Ruskin, at a close of a lecture on war, made the following remarks to the ladies present: "Only by your command, or by your permission, can any war take place among us. And the real final reason for all the poverty, misery, and rage of battle through Europe is simply that you women, however good and religious, however self-sacrificing for those whom you love, are too selfish and too thoughtless to take pains for any creature out of your immediate circles. Let every Christian woman who has conscience towards God vow that she will mourn for His killed creatures. Let every lady in the happy classes of civilized Europe simply vow that, while any cruel war proceeds, she will wear black—with no jewel, no ornament, and I tell you again no war would last a week.

German General—"Shell that cathedral!"

Aide—"That is not a cathedral, general. That is a brewery."

German General—"Ach, himmel! What an awful mistake I almost made!"

Annual Meeting

The Annual General Meeting of the Greenwood City Waterworks Co., will be held in the Company's office at Greenwood on Tuesday the 27th day of July 1915 at 10 o'clock in the morning, for the transaction of the general business of the company and the election of a Board of Directors.

H. C. CUMMINS,
Manager.

TENDER FOR MINERAL CLAIM FORFEITED TO THE CROWN

SEALED TENDERS will be received by the undersigned up to 12 o'clock noon on Thursday 19th of August 1915 for the purchase of the undermentioned mineral claim forfeited to the Crown. All tenders must be at least equal to the upset price as given below, which represents the taxes, costs, interest etc., and Crown Grant fees and advertising. The name of the mineral claim is "Cordick" Lot 625, situate in the Greenwood Mining Division. Upset price $221.10. Each tender must be accompanied by a certified cheque payable at par at Penticton. The cheque of any unsuccessful tenderer will be returned at once.

JAMES R. BROWN,
Government Agent,
Fairview, B. C.

Dated at Fairview, B. C.,
7th July, 1915

OFFICE PACIFIC HOTEL

Synopsis of Coal Mining Regulations.

COAL mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district inwhich the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

About Float.

Float is not a periodical. It is a book containing 86 illustrations all told, and is filled with sketches and stories of western life. It tells how a gambler cashed in after the flush days of Sandon; how it rained in New Denver long after Noah was dead; how a parson took a drink at Bear Lake in early days; how justice was dealt in Kaslo in '93; how the saloon man outprayed the women in Kalamazoo, and graphically depicts the roamings of a western editor among the tenderfeet in the cent belt. It contains the early history of Nelson and a romance of the Silver King mine. In it are printed three western poems, and dozens of articles too numerous to mention. Send for one before it is too late. The price is 25 cents, postpaid to any part of the world. Address all letters to
