PRIVATE ROOMS

The Swayne House is again open for business, under the management of Mrs. Adeneur. First-class rooms at moderate rates. Hot and cold baths free to guests.

Christian Science service will be held in the Oddfellows Hall on Sunday at 11 a.m. All welcome. On the the third Friday of each month at 8 p. m. testimonial meetings will be held in the same hall. Sunday school every Sunday morning.

English, Swiss and American watch and clock repairing. All work guaranteed. C. A. Adeneur, opposite Windsor Hotel, Greenwood.

WANTS, Etc.

FOR SALE OR TO RENT.—A first-class hotel. Apply at The Ledge office.

FOR SALE.—New farm wagons. 3, 3¼ and 3½ inch. Made in Canada. At Kinneys.

FOR SALE.—One thoroughbred Holstein bull calf, 5 months old. Registered. Call or address P.O. Box 54, Midway, B. C.

General Meeting

A general meeting of the Kettle River Game and Fish Association will be held Thursday afternoon, July 22, at 5 p. m., in the office of F. W. McLaine, Greenwood.

The wagon road up Boundary creek is being extended several miles.

Around Home

Fred Boyer has returned to the city.

Charles Haitch is the new chef at the Windsor.

BORN.—On July 20, to Mr. and Mrs. John Stymets, a son.

A. L. White came over by auto on Sunday from Princeton.

George B. Garrett is visiting relatives in Forest, Ontario.

Jim Bush has bought an Overland, and sold his Ford to George Evans.

R. B. Shendwell, of Victoria, inspected the Greyhound mine on Saturday.

Miss Vera and Muriel Redpath, of Nelson, are guests of friends in the city.

Mrs. Charles Norris and family, of Roseberry, arrived in town on Monday.

It was too slow in Nova Scotia for Sam Dunn so he is once more in Greenwood.

Walter G. Kennedy and bride returned from their honeymoon trip on Tuesday.

George H. Collins has bonded several mining claims in the Tulameen district.

Service in the Presbyterian Church, Sunday July 25th, at 7:30 p. m. All welcome.

On August 1st Hugh McGillvray will take of his white apron, and go to work at the smelter.

A marriage license was issued on July 19 to Robert Dragon, and Hazel Vincent, both of Phoenix.

Freight now reaches Greenwood in three days from Vancouver, over the Kettle Valley railway.

Several machines were put to work in the Mother Lode this week. The smelter will blow in in a day or two.

A marriage license was issued on July 20, to Wm. Bodinnar, of the Jewel mine, and Maria Olson, of Greenwood.

Alex. Matheson returned from the coast this month with money. His brother Jack is manager of a big fish company at Rupe.

In Princeton A. S. Black is buying furniture, and his friends in Greenwood are buying rice. All aboard for Wenatchee!

J. R. Jackson, M.P.P. took a carload of cattle to Nelson last week. Mr. Jackson is one of the cattle kings of the Boundary.

It is reported that work will start within 60 days, upon the building of the railway from Princeton to Copper Mountain.

Up Boundary creek, Archie Aberdeen and Scott McRae are cutting a government trail from the end of the wagon road to the summit.

The Kingston Komedy Ko., Entertainers, will play again this Wednesday evening in the Star Theatre, with an entire change of program.

Unofficially Greenwood is quite a military camp. The Home Guards drill three times a week; also a company of Italians, some of whom are old soldiers.

Julius Levy, the well-known cigar man was here on Monday. He reports business good in many towns, and says that his Bull Dog cigar is having a great sale.

An American Tournament will be held at the Greenwood Tennis Club courts on Saturday 21th inst. The annual handicap tournament will be held early in August, weather permitting.

Tom Walsh has opened a cigar store in the Kootenay Hotel building. He may add a stock of fruit later, although his many friends think that he should have opened up a box of oranges on the 12th.

There will be a concert and social in the Presbyterian church at Midway, Tuesday evening, August 10. Good program, and cake and ice-cream served free. Admission, adults, 50 ccents, children, 25 cents. Proceeds in aid of the church.

George H. Collins is again in the mining business, and was in Merritt recently, looking for a chance to bond properties. He talks about forming a company to operate many properties on the West Fork of the Kettle river, and build a stamp mill and concentrator at a central point in the district.

Many people at the coast are taking up land near Carmi and Beaverdell. The government sells it at a nominal price, and gives five years to make the first payment. One rancher came in the other day from Victoria. He had two dogs and a gun and will blaze a trail for his brother, who will arrive in another month.

Rich Placer on Rock Creek

The Eureka Placer Mining Co., which is operating on the North Fork of Rock Creek B. C., has been washing out considerable quantities of coarse gold of late, some of which has been brought to Molson the past week. Some of the gold flakes were almost as large as a dime, and had such a strike been made in Alaska or some other distant corner of the earth it would have caused a stampede. Frank Houghton, one of the owners of the property says the coarse gold is being taken from an old river bed and that they have as yet hardly gotten into the pay streak but are only just coming into the margin of the old river bed and have just reached the edge of bedrock. They have eight claims staked out, have installed a sluice box, and are taking water from a lake located on the hill about 200 feet above. The water having such a great fall makes it an ideal hydraulic mining proposition. A number of men are at work on the proposition and as soon as they get in a little further some big nuggets are expected to be encountered. A good deal of fine gold is being obtained from the surface sand and gravel which is being run through the sluice box, but the coarse gold is coming from the small space of bed-rock uncovered.

Three hack-loadss of Molson people drove over to the claims last Sunday and each member of the party took his turn at panning out the yellow metal.

All indications point to some rich diggings being opened up on the creek.—Molson Leader.

Bob Sues Sam

Does a grubstake hold good for one prospecting trip or indefinitely, is the principal question in the supreme court action brought by Robt. E. Allen, against S. N. Long of Francois Lake, B.C., in which the plaintiff demands a declaration that he is entitled to a one-half interest in the Silver Standard group of claims valued between one and two million dollars. It appears that during the spring of 1908 Allen grubstaked Long and sent him up north on a prospecting trip. During the trip Long staked eight claims in the Caribou mountains and because Allan had staked him. Long gave the plaintiff an interest. After doing assessment work on the group the proposition did not prove as promising as it first appeared and it was dropped.

Then in 1910 Geo. McBean and Samnel N. Long went out for a prospecting trip and staked what is known now as one of the richest "grounds" in this province, at New Hazelton. They sold six claims of the Silver Standard group of claims for $75,000 and now Allen has brought an action claiming that as he had grubstaked the defendant he is entitled to the first big find proving good that the defendant makes. It will be for the court to decide one of the most important questions in mining in this province and that is, "how long does a grubstake hold the man who is grubstaked responsible to the man who puts up the money for the prospecting trip?"—Omineca Herald.

The Busted Prospector group of 14 copper claims is being actively developed near Kitselas. The group is owned by Moody, Larkin, Lowery and others.

Western Float

Joe Downs died in Nelson this month.

Old potatoes are $13 a ton in New Westminster.

Princeton coal retails in Penticton for $7.50 a ton.

Milk is now delivered every morning in Quesnel.

Since the war began, 10,442 men have enlisted in B. C.

Much paper is being shipped from B. C. to Australia.

Gin pills reminds some people of a very popular vegetable.

Owing to lack of funds Chesaw will not hold a fair this fall.

Alex McCool has bought the Hotel Blanshard in Victoria.

Work has been resumed upon the Yankee Girl mines at Grand Forks.

James Smart died in Victoria. He was a prominent figure in Nelson 20 years ago.

The main line of the Canadian Northern railway will be in operation by September.

Western Canada will have a wheat crop this summer of about 240,000,000,000 bushels.

This summer has been very dry in the Yukon, which will make the oat crop rather light.

E. C. Shepherd died at Soda Creek last month. He had lived in the Cariboo for 50 years.

In Victoria about 750 school teachers are taking a special course at the High and Normal schools.

In Elko many of the people, owing to the hard times, have to live upon green peas and young ducks.

The telegraph rate between Whitehorse and Skagway, has been reduced from $1 to 50 cents for 10 words.

Hartley Williams died in Dawson last month. He was one of the best known "Sourdoughs" in the north.

All the provincial constables in the Fort George district recently joined the army, with the exception of the chief.

At Trail, James Williamson has hens laying eggs that were only hatched this year. Trail is the place for early birds.

This year a great many tourists saw the midnight sun at Fort Yukon. In June the sun does not set for several nights at that place.

Work has been resumed on the Maggie mine near Ashcroft and the shaft is down 300 feet. This mine was located over 20 years ago.

John A. Turner, of Victoria, has been appointed city clerk in Prince George. He ran for mayor in Victoria at one time, but was defeated.

The irrigation ditch at Oroville will be sixty-five miles long, and put water on 10,000 acres near that dry city.

B. O. Beam a Revelstoke C.P.R. engineer, has bought J. A. McKinnon's pool room and cigar store in Trail.

J. L. Stamford is again living in the ozone of Nelson. He has not made good some of his promises in connection with the Northwest Coal and Land Co.

A. L. Fortune died on his ranch near Enderby upon July 5, aged 85 years. He took up the ranch in 1866, in company with his partner from the Cariboo gold diggings.

A Seattle company has taken an option, upon some placer ground near Granite Creek. It is intended to expend $60,000 upon a hydraulic proposition if the options are taken up.

Jim Christie was wounded at one of the spring battles in Flanders. Jim is the only man who went through a boxing match with a grizzly bear and lived. That event happened to Jim in the Yukon some years ago.

Red Paddy has a ranch near Princeton, and is raising more than a crop of whiskers this year. He has some of the finest spuds this side of Ireland. Paddy is building a new house, and wants a wife who already has about 16 children.

Because they were caught out of season, the authorities in Alaska, made the Indians liberate 42 live foxes valued at $15,000. The redskins are liable to cause trouble over the affair, and several white men are missing, evidently being killed by the reds.

The Monarch mine at Field, recently shipped three carloads of zinc ore to Kansas City, and two carloads of lead ore to Trail. On the dump at that mine there is 20,000 tons of ore that will average 24 per cent. A zinc smelter in Canada would be of great advantage to mines of this kind.

CITY COUNCIL

The Council met on Monday evening.

Letters were received from J. Williamson re ranch, and from Com. McDougall respecting horses returned to the United States by customs officer. Both letters were fyled.

The school trustees interviewed the Council re the formation of a high school, and stated that it was impossible to make a success of the superior school which has been tried during the past year, and asked the Council to finance the prospect, which would cost about $900. The Mayor informed the board that the Council would consider the matter, and inform them in a few days what they would do.

The following accounts were ordered to be paid: The Ledge, $8; L. A. Smith & Co., $7.80; C. King, $7.

The water committee instructed that all reservoirs be cleaned, and clerk instructed to order repairs for hydrant. The special committee on Lynn creek reported part of the work done, and that McDonald had not been crossing the creek with cattle and promised that he would not do so, until he had completed the work outlined.

The Council adjourned until Wednesday evening when a special financial meeting will be held.

High Life in Peru

Prof. Alsworth Ross of the University of Wisconsin in an article in the Century Magazine entitled "Peru, the Roof of the Continent," tells of the difficulty of merely sustaining life in the nighest altitudes among the Andes. He says:

Life at Cerro de Pasco, nearly a league up, is as trying as life under a diving bell at the bottom of the ocean. The newcomer gasps for air like a stranded fish, and wakes up at night gulping mouthfuls out of the thin atsmophere. Three quick steps put you out of breath, and after climbing a flight of stairs you must sit down for a rest. "I know," panted a "tenderfoot how I feel when I'm eighty."

No employee is sent up by the company unless he has passed a physician's examination, but ocasionally one gets blue in the face and has to be sent down forthwith Thus the Inca Chronicle often has such items as, "Jake L., who returned here last April, has been sent home with his heart machinery in bad shape."

The young fellows play tennis and ball, and even indulge in track athletics; but the pace must be very slow. Singing is not popular, for you cannot get the breath to hold a note. Pneumonia is sure death here within forty-eight hours, so that the sufferer must be rushed down to sea level in a special train that costs the company $500. The typhoid patient, too, and the northern women must descend to Lima to bear their babies.

The mining company's Americans are usually big, athletic, deep-chested men, strong of jaw, sinewy of grip, and masterful of manner. They are well paid and looked after, but too many of them squander money and vitality in fighting off the demon of loneliness.

How Many For You?

How much sleep do we require? An old saying is. "Five hours requireth nature, but practice gives us seven, laziness nine and wickedness eleven.

Do not be a slackey. Be a patriot or take the brand.

When it comes to a gun play, Greenwood is like the old west.

In Canada the old song has a new title. It Is, Johnny Will Get His Gun.

In sending 600 soldiers to Mexico the United States is taking great chances, in thus weakening its army these dangerous and bloody times.

The patriot is the man who would defend his country against its enemies, equally as well as he would his home and family against a band of road agents or redskins.

There would have been no war if all the common soldiers of Germany had lived a few months in America. Through their ignorance of what freedom and civilization really is, they are fighting in a vain attempt to boost the Kaiser a few pegs ahead of Gott. Fools, and don't know it.

The Germans should not Russia way with the idea that they can grab Warsaw, with the same ease that a coon grabs a chicken in the dark of the moon. Warsaw Poland long before the Teutons could tell the difference between a stein of beer, and the shank of an overgrown bologna sausage.

All branches of the Canadian Patriotic Fund are being urged to try and secure more subscribers. In B. C. during May 1,509 families received relief, and if the war lasts much longer it will be necessary to raise more than is coming in, hence every effort should be made to increase the subscriptions to this laudable and humane Fund.

One of our local and most patriotic citizens says: "Do you people who have settled in this country, for the benefits you can derive by living here realize, that if you do not do your duty to the government, and help in every possible way towards a successful issue of the war, that you are robbing your own source of income. The Empire is succoring you, and to deny help is to act worse than an ghoul on the battlefield, and that a open enemy is a gentleman in comparison."

A Banker Suggests

William J. Battison, a wool expert of Boston, smiled at an argument over schedule K.

"The trouble is," he said, "that these disputants don't understand the American sheep industry. They remind me of Smithson's.

"Smithson's—that isn't their right name—are a Boston bank, and last year they financed a sheep ranch in the West.

"The manager of the bank was compelled to wire Smithson's in the spring: 'Lambing begins next month. If drought, conditions will result in total loss.'

"Smithson's wired back to the manager: 'Postpone lambing till further orders.'"—Exchange.

Slocan Mining

This week the Standard mill started running three shifts. Owing to the C.P.R. as yet being unable to furnish cars and barges promptly the shipments are only twelve cars weekly, or about 480 tons. It takes two days to load a barge of six cars. If the cars were put in promptly the shipments would average from 18 to 20 cars a week. It is not probable that the Steamer Slocan will be able to do this in addition to her regular service and also handle other Four mile shipments at the Silverton slip and wharf. With the large number of properties working in the vicinity of Silverton this season it is not improbable that the shipments from that point will reach between forty and fifty cars a week.

There is greater activity in mining in the vicinity of Sandon than there has been for twelve years. With a dozen shipping mines and three concentrators Sandon should soon begin to hum.

Work was started on the Queen Bess this week by Cunningham and Keane, who have a bond on the property. The Queen Bess adjoins the Idaho-Alamo group.

A shipment was made last week from the Enterprise, Ten-mile, by Ed. Shannon, Pat Maguire, Olaf Donvold and John Olson, who have a lease on the property.

It is expected that the Echo, adjoining the Standard group and under bond to J. H. Thompson, will shortly join the district shippers.

W. J. McMillan has a car of antimony ore ready for shipment from the Alps group on the North Fork of Carpenter creek.

About two cars of ore are ready for shipment at the Molly Hughes, one from the lease and one by the owner.

The Consolidated Mining and Smelting company has resumed work at the Ottawa mine near Slocan City.

Jack and J. D. McInnes have a car of ore ready for shipment at the Buffalo, Four-mile.

Eight men are employed by the Consolidated on the Lucky Thought, Four-mile.

The Wakefield, Four mile, will make a car shipment early this month.—Slocan Record.

Let's Be Up-to-Date

Observing the success of the Billy Sunday methods in the matter of conversion, "Puck" rises to suggest that the attempt be made to apply the same method to other church ceremonies and activities, proposing the following formulas:

Pastor (christening infant)—What do you want to call this hunk of excess baggage, Bo?

Presiding Parson—What miserable mutt giveth this skirt to be married to this gink?

The Bride's Father -I'm the guy.

Industrious usher—Slide, you ice-carts! Slide!

Passing the Plate—Come across with the iron men, you lowlived tightwads!

Sundy-School Superintendent—All of you little flivvers that want to swat Satan stand on one leg.

Where Was John?

A woman whose husband had been dead some years went to a medium, who produced the spirit of her dead husband.

"My dear John are you happy" said the widow to the spirit.

"I am very happy" John replied.

"Happier than you were on earth with me?" she asked.

"Yes was the answer, "I am far happier now than I was on earth with you."

"Tell me, John, what is it like in heaven?"

"Heaven:" said John, "I'm not in heaven."

Subscription List

For the purpose of presenting a machine gun to the 54th Kootenay-Boundary Battalion from the citizens of Greenwood and district.

A further list of subscriptions will be published next week. This is all received up to the time of going to press.

Chloroform

We owe the use of chloroform chiefly to Sir James Young Simpson, son of an obscure baker. At the age of 14, James entered Edinburgh University and at 19 he was a qualified surgeon; and at 21 he wrote M. D. after his name.

Before Simpson's day an operating room was like a butcher's shambles. A patient was laid, screaming with terror, on the operating table. Surgeons were unnerved and made awful "bungles" of their work. There is recorded one subject for amputation on whom the approaching horrors fell so vividly that at the glint of the operating knife he flung himself off the operating table and fled from the room. "Thank God, he's gone!" exclaimed the surgeon. Simpson was so horrified at the terrible agony a woman suffered under an operation that he nearly gave up his profession. In 1847 he used chloroform for the first time and thanked God for his discovery.

One would have thought the world would have run with joy over the lessening of human suffering. But the use of anaesthetics was bitterly opposed. It was contended that pain is a just infliction of the Most High which it is impious to avert. Nay, some divines went so far as to assert that the cries of those in pain are pleasing to God. Simpson met these gentry on their own ground by quoting from Genesis: "And the Lord God caused a deep sleep to fall upon Adam, and he slept; and He took one of his ribs and closed up the flesh thereof." Not to be beaten, the theologian replied that Dr. Simpson surely forgot that the deep sleep of Adam took place before the introduction of pain into the world, during his state of innocence.

At the birth of a royal prince, Queen Victoria used chooroform. After that it use was to some extent sanctioned. But in the Crimea the chief medical officer forbade its use: "Pain is a wholesome stimulus to a soldier," he said.

Far different is the case today. We have the consolation of knowing that on thousands of wounded heroes merciful oblivion has fallen in the hour of their agony owing to the labors of James Young Simpson.-- Ex.

WATER NOTICE.

(Diversion and Use.)

TAKE NOTICE that The British Columbia Copper Company, Limited, whose address is Greenwood, B.C., will apply for a licence to take and use six cubic feet per second of water out of Copper Creek, which flows southeasterly and drains into Boundary Creek, opposite town of Anaconda, B. C. The water will be diverted from the stream at a point about 22 chains S. W. from N. E. Cor. of Sec. 32, Twp 70 and will be used for smelter purpose upon the land described as that part of N. E. ¼ of N. E. ¼ of Section 32, Tp 70, part of the townsite of Anaconda and part of Lot 897 Group I, Osoyoos Division Yale District, comprising smelter site. This notice was posted on the ground on the 15th day of July, 1915.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Grand Forks, B. C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Building, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

The date of the first publication of this notice is July 22nd, 1915.

OFFICE PACIFIC HOTEL

Synopsis of Coal Mining Regulations.

COAL mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district inwhich the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon: If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

About Float.

Float is not a periodical. It is a book containing 86 illustrations all told, and is filled with sketches and stories of western life. It tells how a gambler cashed in after the flush days of Sandon; how it rained in New Denver long after Noah was dead; how a parson took a drink at Bear Lake in early days; how justice was dealt in Kaslo in '93; how the saloon man outprayed the women in Kalamazoo, and graphically depicts the roamings of a western editor among the tenderfeet in the cent belt. It contains the early history of Nelson and a romance of the Silver King mine. In it are printed three western poems, and dozens of articles too numerous to mention. Send for one before it is too late. The price is 25 cents, postpaid to any part of the world. Address all letters to
