Vol. 15. CRANBROOK, B.C., SATURDAY, JUNE 19, 1909. No. 25

Canadian Mines are Prosperous.

VICTORIA MAN VISITING SPOKANE TELLS OF WORK IN BRITISH COLUMBIA.

Coal Strike Depresses and Agreement far From Being Reached.

E. Jacobs of Victoria, B. C., secretary of the western branch of the Canadian Mining institute, and correspondent in British Columbia for the Engineering and Mining Journal of New York; the Mining Journal of London, England, and other mining journals, arrived in the city last evening by the Spokane Falls & Northern. He has been visiting a number of coal mines in Southern Alberta and the Crow's Nest Pass section of British Columbia, going thence to the St. Eugene mine at Moyie, and afterward to Northport, via Nelson.

Among other collieries visited by Mr. Jacobs were those of the International Coal & Coke Company at Bellevue, and Royal Collieries, limited, near Lethbridge, Alberta. These companies all have their head offices in Spokane. He also had a long talk at Cranbrook, B. C., with John Todhunter, who for some time past has been in charge of the coal lands of the Imperial Coal and Coke Company on Fording river, about 30 miles to the north of Michel, in which property Andrew Laidlaw and associates of this city are largely interested.

Owing to the strike of the coal miners work was at a standstill on all the mines, the owners or managers of which are members of the western Operators' association, and they are still idle, no agreement between the operators' association and the United mine Workers of America having yet been reached. At Coleman where the earnings of the Intercolonial company's miners have been generally higher than in any other coal mine in the country, the men have freely expressed their dissatisfaction at being compelled to be so long idle—they have been on strike nearly 11 weeks—while there is work awaiting them whenever the matter in dispute shall have been settled. The coal handling and power plant of this company has been brought up to date and its output capacity considerably increased—to between 2000 and 3000 tons—during the last year, so the present interruption to the work is much deplored by all concerned.

At the Maple Leaf, of which E. Dempsie is general manager, the tunnel is in about 1000 feet, in the course of driving which distance four seams of coal have been cut. No. 1. averages about eight feet in thickness, No. 2 fifteen feet, No. 3 four feet six inches. The last mentioned is at a vertical death of about 800 feet or nearly 1000 feet on its dip. It is proposed to make a raise in No. 4 to the surface and thus secure good ventilation and obviate for some time the necessity that would otherwise exist for putting in a blowing fan. There are two known seams further back in the mountain and the tunnel will be extended to cut these as well.

The company is already prepared to handle an output of 400 tons a day, and has tramway to railway and loading facilities for shipping that quantity. No 1 seam supplies most of the present output, but it is hoped to have No. 4 seam sufficiently developed within a year to enable a daily output of 1000 tons to be regularly made. Plans are being made by some well known coal mining engineers of a screening plant, and a 200 ton bin for slack coal. This plant will include shaking screens, picking belt and conveyor to slack bin.

The shut down came at a particularly unfortunate time for the Royal Collieries for development work had been well advanced, a tipple with all necessary plant built and installed and a branch railway constructed six miles to connect the mine with the Canadian Pacific company's Crow's Nest branch near Lethbridge.

When about to leave the coast on this trip Mr. Jacobs met James Cronin of Spokane at Vancouver and he learned from him that he was about to leave by his own pack train for the north, going from Ashcroft on the Canadian Pacific railroad main line via Caribao, up into the country through which the Grand Trunk railroad runs, and thence to the Babino range in the Skeena river district in which he has some silver lead claims under bond and which he is developing.

Mr. Jacobs will leave for Seattle this evening, going there to obtain particulars of the mineral exhibits at the A.Y.P. exposition for several mining journals.

Railway Buildings.

Railway building will be in active progress early next spring in the Kootenay valley, and before the close of 1910 locomotives will be running into the town of Fort Steele.

Obituary.

Mrs. Emmaline Mosman died at the residence of Mrs. Fred Howard, 56 Galm street, Watertown, Mass., on Wednesday, June 9th.

The deceased was the mother of Mrs A. B. Grace, and the great grandmother of little Miss Gracie Higgins.

Kootenay Central.

Surveyors, during the past week have been laying out and cross sectioning the route to be followed by the Kootenay Central from Jaffray to Fort Steele. It is said that actual construction will commence this fall or early in the coming spring.

The advent of the Kootenay Central will attract the attention of the farmer and home seeker and a new era of prosperity has undoubtedly dawned for the residents of the Kootenay valley.

DISTRICT MINING NEWS.

OF INTEREST TO THOSE ENGAGED IN THE DEVELOPMENT OF MINING INDUSTRY.

The big hydraulic mines on Perry Creek are in active operation, and it is to be hoped that when the season closes we shall see a larger yield of placer gold, than in the past.

Enough ore is in sight in the Sullivan group of mines to make them the largest producers and shippers in the province

The mining outlook in the St Mary's River district is more favorable, and with the natural impetus from the resumption of work at the Marysville smelter, the future looks easy.

The business men of Cranbrook are wide awake to the best interests of the mining industry in the territory tributary to this city.

Work continues on the Aurora and Society Girl mines at Moyie, and they bid fair to be numbered among the large mines of the Cranbrook district.

The development of the mining industry depends largely upon the men engaged in the search for mineral deposits and the development of them to a point at which capital is justified in taking hold and making them productive mines.

The present rate of consumption of copper is considered enormous. This fact alone leads to the assumption that the copper properties of the St. Mary's will be rapidly developed.

The development of the placer mines of Wild Horse Creek continues and the output of yellow metal will be larger this year than for several years.

Many inquiries have lately been made in relation to the operation of the Bull River Power and Mining Co. We can only say that a mill has been installed, that the big flume is being built, and the new town of Bull River Falls put on the market, and that some fifty men are employed in pushing the development of the big power plant.

In many ways the mining industry of the Cranbrook district during the past year has shown vitality and displayed great progress and promise. The outlook for 1909 is exceedingly bright.

May Have to Fight.

The new Turkish regime does not propose that Greece shall have possession of Crete, as seemed at one time probable. The island has been held by Great Britain, France, Russia and Italy under an arrangement that expires on July 31st. The Turks then propose to occupy it and declare their readiness to fight all comers, if necessary.

Commissioners Meet.

A meeting of the Cranbrook City Board of Licence Commissioners met on Tuesday afternoon at the city hall to consider applications for licenses. All hotel licenses in the city were renewed.

Logs in the Kootenay.

Not less than three million feet of logs are now in the Kootenay river from points north of Fort Steele. The booms at Fenwicks and at Wardner are now attaining immense proportions.

Bull River Falls.

The party of excursionists and capitalists from the United States who visited Bull River Falls on Monday are reported as being most favorably impressed with the large amount of development being done. They also secured a number of lots in the new town of Bull River Falls, which is expected to be the "Prince Rupert" of Southeast Kootenay.

Appointment.

By the appointment of a representative of the department of agriculture for east and west Kootenay the McBride government has given further evidence of its desire to assist the farming industry.

Trains From Ocean to Ocean.

A folder giving the time of all Soo line trains has been issued by the Canadian Pacific that is regarded as an innovation in railroad time tables. The folder is completely indexed and shows on one page the time of arrival and departure of trains from stations from the stations from the Atlantic to the Pacific.

Sees end of Coal Strike.

Fernie, B. C., June 15—The conciliation board sitting here today made a majority and minority finding in the case of the coal miners' strike. The president, the Rev. H. R. Grant, and F. H. Sherman, representing the miners, made a finding which excludes the closed shop principle and discrimination clauses and recommends an agreement along the lines of the old one.

The report made by Colin Macleod, representing the operators, differs from the majority, but in what particulars is not known.

CRANBROOK VS MOYIE.

LOCAL BOYS WIN IN THE NINTH INNINGS--GAME CLOSE AND EXCITING.

Coming from behind in the last half of the eighth inning the Cranbrook nine overcame a two run handicap obtained by the Moyie team in the early stages of the game played on Saturday evening last. The Cranbrook nine got off wrong in the first inning permitting the Moyie team to get one run which looked like a winning lead, but they finished like a Montana cyclone.

The first seven innings were bitterly contested, Moyie having one run looked like a winner, Cranbrook piling up nothing but goose eggs, and giving Moyie a dose of whitewash in five innings. In the first of the seventh Moyie got another run, and in the last half Moyie scored their first run. In the eighth Moyie got nothing, and Cranbrook, after two men having been retired, scored two men, winning the game.

The score tells it all:

Moyie	1 0 0 0 0 0 1 0 0—2
Cranbrook	0 0 0 0 0 0 1 2—3

Jim Bates as umpire filled the bill to the satisfaction of everybody. McDonald took many chances and in every instance delivered the goods. A fly to left field was caught after running fifty yards.

Billy Matthews played centre field like a league player and was there with the stick in the seventh innings.

It would be unjust to single out individual players when every man of both teams were playing good ball, but we cannot refrain from giving some credit to those who took chances, desperate chances, to win the game for the home team.

A Moyie man said that Wyndel was rattled. He was told that Wyndel had nerve enough to chill a cake of ice and was never rattled.

Neilson went to bat four times and hit the sphere every time.

Miller had hard luck in batting. He did not seem to place his drives in the right spot. Both pitchers and catchers did excellent work in their respective positions.

Fully five hundred people witnessed the game.

Not Yet Forgotton.

DEFERRED ELECTIONS A MEAN POLITICAL DEVICE.

British Columbia has not yet forgotten the protest of last autumn against the system of deferred elections, one of the meanest political devices now in existence. Public memory will be kept alive by the fact that the Dominion government avows its intention of persisting in hanging on to this advantage. The Conservative members of parliament formally protested during the session. Mr. Burrill moved the resolution condemning the practice. and he was supported by Mr. Goodeve and Mr. Barnard. The government reply did British Columbia the exact injustice which Mr. Goodeve pointed out was contained in the act of which complaint was made; it declared to all the world that British Columbia is so wild a province, has such imperfect means of communication, in a word is so uncivilised that the election cannot be held within the ordinary time allowance. For a province which is striving to attract capital, and insisting that it is the peer of any of the provinces in confederation this is a particularly damaging advertisement; but the government not only refused to make amends, but repeated the libel in plain words. As it was pointed out in exceptional cases a more liberal time allowance could be given and the writs could be telegraphed, but the government was determined to preserve the paltry advantage which involves the discrediting of British Columbia.

Faust.

The advance sale of seats for the performance of grand opera at the auditorium Thursday night, is now in progress at Cranbrook, and people can hardly afford to withhold their generous support, and demonstrate their appreciation of the enterprise of those who have been instrumental in bringing to this city what is unquestionably the most important musical organisation ever seen west of Winnipeg. Grand Opera in English is entertainment of the highest class and it is seldom vouchsafed music lovers of other than the largest cities. Managing director George S. Starling has been more than three years perfecting the Boston Grand Opera Company, and the organisation is the only complete one presenting the master works of music in the English language. It is really a double company, for their are two sets of principals, a precaution quite necessary when the strain upon the voices in rendering the great works of the masters is considered. Winnipeg critics have been unanimous in praise of the company and of the splendid manner in which the operas have been presented. Among the principals of international renown with Boston Grand Opera Co. are Madam Judith M. Francini, prima donna soprano, a woman young in years but who has devoted her life to the study of the leading roles in Grand Opera. She has a repertoire of more than thirty operas, and will be seen here on the 24th in "Faust."

Will Open Monday.

The Royal Bank of Canada will open for business Monday next, under the management of Mr. W. A. Schwartz. W. W. Lumsden will asct as accountant and teller.

Fresh Strawberries at Stewart's arriving daily.

Marysville B. C.

THE SMELTER TOWN OF SOUTHEAST KOOTENAY—MINING ON THE ST. MARY'S AND LAKE.

Marysville is one of the growing towns of Southeast Kootenay. It enjoys the honor of having the first and only smelter in the district.

The smelter at Marysville is one of the most important industries in the Cranbrook district, and when it resumes operations, whirh is expected in the near future, will give employment to a large number of men. Its capacity is about 300 tons per day, the ore being supplied from the Sullivan group of mines located at Kimberley.

Marysville is situated at the confluence of the St. Mary's river and Mock Creek. It is the Gateway to the vast mineral district known as the St. Mary's Lake and River District. All roads and trails from every mining camp in this region centre at Marysville.

In the vicinity of Marysville are immense forest reserves and lumbering is carried on to a large extent and is one of its important industries

It will pay the careful investor to keep his eyes on Marysville and the rich mineral which surrounds it, as from now on its growth will be rapid and constant as the mines are being developed into a producing stage. As soon as the Sullivan group of mines, and the smelter resumes operations, which will be in a few weeks, the business of Marysville will be important and steadily increase. Keep your eyes on the smelter city.

The Cranbrook Alpine Club.

The second annual excursion to Modnt Baker will take place on July 1st. The committee is already at work making arrangements and this year quite a lot are making applications for a place with the party. In all probability the main body of the club will leave the night before about seven, and will be driven out to the base, where a camp will be made and a late supper served. The camp fire concert will then be held and the yarns will be told and a good time enjoyed. Breakfast will be had at an early hour in the morning, so that the climb can be made before the sun gets to business. A circular will be issued to all who intend to go with instructions as to what to take. All who wish to go are requested to give their names to either of the following who form the committee: Dr. E. W. Connolly, Mr. C. Baker, Mr. Muir or Rev. Hughes.

Proportional Representation.

Mr. Monk and Mr. Burrill, two members of the party which is labelled "Conservative,j' declared for a fixed and stated date for elections, for portional representation, and for the telegraphing of writs; the two former of these would be distinctly radical changes in our method of government, and the third would constitute a sensible improvement in our way of doing our election business. The party labelled "Liberal" would have nothing to do with them. The plain fact is that the Canadian party labelled "Conservative" at present contains a radical wing which is larger, is more active, and is more influential in the counsels of the party, than is the case with any radical element which may still remain in the "Liberal" party.

Death of Mrs. James Clark.

We regret to record the death of Mrs. James Clark which took place at Fort Steele on Monday last.

About two weeks ago Mrs. Clark had an attack of apoplexy and although everything that could be was done by her medical attendant Dr. Watt to restore her to health, she succumbed to the disease and passed away quietly at an early hour Monday last.

Mrs. Clark, who came of an old Scotch family in the north of Ireland, took up her residence at Fort Steele about thirteen years ago,, where her brothers the Messrs. Galbraith, the pioneers and early settlers of the district, had been doing business from the time gold was discovered in 1864.

She was a general favorite with all those who made her acquaintance. She had read extensively and had a taste for literature, and was of a sweet and gentle disposition.

She was a devout member of St. John's church and her seat was seldom vacant when her health permitted her to be present.

The funeral took place from the church of St. John the Divine Tuesday at two o'clock and was largely attended by friends of the deceased who came from all parts of the district.

The beautiful and impressive service of the episcopal church was read by the rector of Christ's church Cranbrook, the Rev. C. P. Flewelling, in the church and at the cemetery.

The late Mrs. Clark leaves a husband, a sister Mrs. Charles Clark and brother R. L. T. Galbraith, residing at Fort Steele; a son in Dalston and a brother at Oneida, N.Y.

Corpus Christi Sunday.

A large number of Cranbrookites visited St. Eugene Mission Sunday last to view and participate in the celebration of Corpus Christi Sunday. Services were held in the church in the forenoon. A party of Kootenay Indians, in gala attire, firing guns, headed the procession, then followed the children of the Mission school, then followed the priests under a canopy, after them indians forming a long procession. At many places along the route were erected arches of evergreens, and at each arch a salute was fired. The Indian schyol band played a number of selections during the parade.

London Naval Conference.

BRITISH COLUMBIA WANTS THE COAST PATROLLED BY CANADIAN SHIPS.

The visit of Sir Frederick Borden and Mr. Brodeur to the naval conference in London, it is to be expected will result in the establishment of some form of naval force, by means of which British Columbia can see her coastal waters patrolled by Canadian ships of the best type. It now is time to insist upon one thing. The prospects of the coming Canadian navy must not be imperilled by the being turned over to the tender mercies of Mr. Brodeur and his wonderful marine department. That eminent statesman found his department in bad shape, had two years in which to reorganise it and then was caught by the Cassels commission with his department as rotten es ever. Apart j(om the special

from the special unfitness of the marine department it must be remembered that its name really is a misnomor. Its business is to build lighthouses, place buoys and otherwise help navigation. Its fishery protection boats are useless for naval purposes. The Australian method should be studied. In the Commonwealth there is one method of defence, and he has under him two departments, one for the management of the land militia and the other for the management of the naval force. The minister manages both departments and they are linked by a Council of Defence over which the minister presides and upon which sit the senior officers of both the naval and military branches. In this way both services are enabled to understand and help each other, and to form their plans in harmony. Australia has led the way in the matter of a naval force and her example should be followed by Canada.

Premier McBride's Visit.

On June 30th the people of this city will have an opportunity to welcome Hon. Richard McBride to Cranbrook.

Mr. V. Hyde Baker has received a letter from the premier asking him to meet the premier at Golden on June 28th. Mr. McBride will be accompanied by Hon. Thomas Taylor, minister of public works.

Mr. Baker will leave Cranbrook about the 26th inst. in his "White Steamer," so as to be at Golden as early as possible.

Mr. McBride is making his usual yearly trip to interior towns, partially on a tour of inspection and partially to make himself acquainted with the people. Mr. Taylor is making his first inspection of the public works in Southeast Kootenay.

Mr. McBride and Mr. Taylor will receive a hearty welcome in Cranbrook, where he has a host of acquaintances, and his visit to this city will not be of a partizan nature, but one that every loyal citizen can unite to do him honor.

SAY VOT VAS DAT.

Prince Rupert has its Excitement

Just before the big blast went off at 11.45 this morning, an old gentleman strolled down the middle of Rupert Road. He was a stranger. His face was ruddy, and his beard shaped like a spade. Presently he had the road to himself, and while others stood in doorways or disappeared, he came to a stop and gazed thoughtfully at the sky. Several onlookers yelled at him, but it didn't occur to him that he was the object of attention. He just stood looking skyward and as he gazed a full blown smile came to illuminate his fatherly countenance. Then crashed the blast. He spun around and that smile faded away like breath from off a razor. Rocks came clattering on the roofs, and some that came further he was obliged to dodge. Then when the last had hit the roadway, he ran under the eaves of the nearest building, and with strong foreign accent, asked of those assembled there, "Say vot vas dat?"

Band Concert.

The city band will render the following program on Monday evening next:

Concert March, "The Jersey Carnival," Lieberfeld.

Waltz, "Sweet Remembrance," St. Clair.

Trombone Solo, "Longing for you Sweetheart," C. M. Chapel, by W. H. Wilson.

Grand selection of "Irish Airs"—Godfrey.

Processional, "The Silver Trumpets," Viviani.

By request, selection "Remicks Hits No. 5," Bodewalt Lampe.

Intermezzo, "The Rainbow," Wenrich.

Trumpet and Drum Fanfare "Chilcothian,"—Hall.

"The Maple Leaf for Ever."

God Save the King.

The New Public School.

Work on the public school is progressing rapidly. The mould for the concrete foundation is completed and the machine for mixing the concrete installed. A track has been laid from the machine around the building and cars carry the material and dump it in place. It is expected that it will take about three weeks to complete the foundation and three months to complete the builsing.

The steam heating apparatus is also on the ground ready for installation.

The trustees are to be congratulated for their promptness in completing all the necessary arrangements for the construction of this important building.

WEDDING BELLS.

SUTHERLAND—LEITCH.

A very pretty wedding took place in Knox church on Thursday when the Rev. C. O. Main united in marriage Miss Lou McFarlane Leitch to Mr. James Gordon Sutherland.

The church was prettily decorated with evergreens and lilacs, the chancel being buried with ferns, carnations and evergreens. Festoons of evergreens hung from the walls in every direction from which were suspended a number of beautiful white bells. Mesdames Mighton and Worden were the decorators.

The church was filled with the friends of the contracting parties and Mr. George Leitch and Mr. D. J. McSweyn acted as ushers.

Promptly at ten o'clock, Rev. C. O. Main, pastor, accompanied by the groom and Mr. Watson Hall, the groomsman, entered into the vestry and took positions in front of the altar. With the opening strains of the wedding march the bridal party came from the rear of the church to the altar, led by Mr. D. J. McSweyn and Miss Ella Leitch, the bridesmaid, followed by Mr. Archie Leitch and the bride.

After the ceremony the bridal party repaired to the vestry and signed the register.

The bride wore a handsome gown of white crepe de poplin in empire style with yoke and sleeves of tucked dotted net and drop pearl trimmings. The long train hung gracefully in a watteau plait from beneath the net veil, which was fastened to the hair with orange blossoms. The bride carried a shower bouquet of bride roses, with long tulle streamers.

Miss Ella Leitch, the bridesmaid was gowned in a pale silk crepe de chene, with handsome bolero and silk streamers. Her hat was of cream Milan straw with bows of pale pink silk and large pink roses. Her bouquet was pink roses, tied with tulle.

After the bridal party departed from the church the guests retired, a large number repaired to the residence of the bride's father to attend the reception, where refreshments were served and the bride and groom received the congratulations and the good wishes of their many friends.

The groom's present to the bride was a handsome broach set with diamonds and pearls. To the bridesmaid he presented a gold cross pendent, to the groomsman a set of gold cuff links, and to each of the usher gold tie pins. Presents from the friends of the bride and groom were numerous and costly.

The bride's travelling costume was of navy blue taffeta silk, empire style heavily braided with blue, and the coat was of brown laidies cloth handsomely braided. Her hat was in tuban style trimmed in brown to match coat.

Mr. and Mrs. Sutherland left on the noon train for Spokane, Seattle and other coast cities. They will be away on their honeymoon for about six weeks, and on their return will occupy the former residence of Mr. E. C. Home.

AT Bull River.

One hundred and eighty-six excursionists from Illinois, Minnesota and North Dakota visited the new town of Bull River Falls on Monday last. The party arrived, by special train, at Wardner on Sunday evening and from their they were conveyed by stages and wagons to the falls city.

The party were much pleased with their trip to Bull River, and a number took away with them specimens of placer gold which they panned out.

It took thirty passengers to transport the visitors to Bull River. A number of Cranbrook citizens went to Wardner on the early morning train to accompany the visitors to the new town, but they were too late, the party leaving Wardner at 3 a.m.

The party left during Monday night over the Great Northern railway for Seattle and other coast cities.

Lawn Social.

A very successful lawn social under the auspices of the Ladies Aid of the Methodist church was held on the lawn of Mr. J. A. Harvey. Though there had been a great deal of rain all day, towards evening the weather cleared up and the lawn was in fine shape. The attendance was large, the illumination of the tree gave a very pleasing effect to the lawn, as well as furnishing light for the Cranbrook band as they dispersed the music which was enjoyed by all those who were present. The ladies were kept busy supplying the demand of good things which were for sale. Among the pleasing attractions of the evening was a balloon ascension which took place about 9.45. As the balloon went up it was watched with interest by all present for about five minutes, before it disappeared. All present enjoyed the evening very much and the ladies expressed themselves well pleased in every way.

DROWNED AT TRAIL.

Trail, June 17—A sad accident occurred on the Columbia river here today, when Andrew H. Thompson, the ferry keeper, was drowned while bringing some people to the city. The stream was running very swiftly and grave doubts were expressed as to the wisdom of crossing. The ferry had just been moved and new roads made on both sides of the river to lessen the danger. However, the boat today got out of control and the rapidly revolving gear knocked Mr. Thompson into the river where he disappeared after a few vain struggles. Search is now being made for the body. Deceased was about 53 yeats of age and leaves a family of four children.

Monster Locomotive.

CANADIAN PACIFIC JUST COMPLETING THE BIGGEST ENGINE EVER BUILT IN CANADA.

The Canadian Pacific is just completing the biggest locomotive which has ever been built in Canada. It was designed by H. H. Vaughn, and is being built at the Angus shops. This monster locomotive is 70 feet from end to end, and with the loaded tender weighs nearly two hundred tons, and will exert a tractive force of 36,000 pounds, as compared with 30,000 for the largest ordinary consolidation freight engine.

The boiler, which is about the size of two ordinary engine boilers, contains the equivalent of 4,000 feet of heating surface and will develop 2200 horsepower. The engine is of the Mallet articulated type, and is practically two engines under one big boiler. It will be tried out this week, and then be sent west for use on the heavy grades in the Rocky mountains. If it proves a success a number of similar size will be built.

Garden Party.

The Young Ladies Guild of Christ Church held a garden party and sale of work in the rectory grounds Thursday night, which were prettily decorated for the occasion. The booths had a very gay and artistic appearance, and were well filled with articles both ornamental and useful, for they contained many things required both by ladies and gentlemen, all of which were the results of the hard work and clever fingers of the Guild.

Perhaps the features of the evening were the Maypole dance and the Japanese drill in both of which the girls did themselves proud and their teachers must have been delighted by the frequent bursts of applause which broke forth from the large audience. As the Maypole was circled again and again in bewildering and graceful evolutions, or, as the pretty maidens dressed in kimonas and wearing the flowers of the "Flowery Kingdom," marched backwards and forwards and singing as they went a chorus from the Geisha.

Miss May Brown also gave a very clever exhibition of club swinging.

The members of the Guild wish to thank heartily their many friends who so kindly made this their first attempt at raising money for a new church organ, so successful All will be glad to learn that the evening's entertainment resulted in the generous sum of $132.00.

Additional Locals.

Monday was pay day on the Crow's Nest line of the C.P.R.

The fire brigade were out Thursday evening for their usual weekly practice.

The Hose team were out on Thursday getting in shape to have a run on Dominion day.

John Hutchison left on Friday for Nelson where he will meet the Boston Opera Co., and for the present act as treasurer of the company.

E. J. Cann of Calgary, representing the Brunswicv Balke Co., of Chicago, was in town Friday.

A. Sutherland of Nelson and J. H. Small of Vancouver were guests at the Cranbrook Friday.

W. R. Austie of Nelson was in the city Friday.

John Cholditch was at Wardner Friday last on business.

An eclipse of the sun took place on Thursday evening at 5 p.m., which was witnessed by a number of citizens in Cranbrook.

The filling in and grading of Baker street was commenced this week, and from now on will be pushed as rapidly as possible.

The Palm is now located near the auditorium.

Fishing parties were out in full force on Sunday last and though the water was high several good catches were reported.

P. Lund, manager of the Crows Nest Lumber Co., of Wardner, was at Cranbrook Friday on his return from an eastern business trip.

Mr. J. T. Burns, of Burns brothers, who has been east on a visit, returned to Cranbrook Friday. He was accompanied by Mrs. Burns.

The fire brigade has a pair of handsome bay horses on trial. They are but six years old and weigh a little over 1300 pounds.

A. S. Goodeve, M.P., accompanied by Harry Wright, ex-M.P.P., were in town Friday attending a banquet at the Cranbrook Hotel, in honor of Mr. J. A. Harvey, K.C.

J. G. McCallum was at Fernie this week on matters pertaining to the construction of the government building in that city, for which he has the contract.

Honored at Home.

One of the most pleasant social events of the past week was a banquet at the Cranbrook Hotel tendered to J. A. Harvey, K. C., who is about to leave Cranbrook to engage in business at Vancouver.

A large number of merchants and citizens were present as well as many others from neighboring towns.

A. S. Goodeve, M.P., of Rossland, and Harry Wright, ex-M.P.P. of Nelson, were in attendance.

FERNIE.

DISTRICT LEDGER.

J. F. Armstrong, government agent was in the City on Monday and Tuesday.

Prepare for the first of July, and make it a record sporting event for our city.

Born—June 7th, 1909, at 114 Dallas Road, Victoria, to Mr. and Mrs. C. D. McNab, a daughter.

A fire occurred at Gateway Monday night at the house of Sam Harrison who was burned out of Fernie on the 1st of August last. Harrison was engaged building a small dike near his property at the time, when the house took fire and was entirely consumed.

FERNIE FREE PRESS.

The Elk River is again a stream of modest dimensions and is no longer making a run on the bank.

H. M. & W. A. Whiddington drew the plans for the new Central Office of the Cranbrook Telephone Co.

The Creek has dropped again after its abnomal run and the danger to dwellings in French camp and Welsh camp is now passed.

The Fernie District Game Protective Association is now interesting itself in a campaign for the more efficient protection of wild fowl.

Fairy Creek falls are a dream of *loveliness these days. The little* climb up the gulch is well repaid by a view of this charming little cataract. It is a pity that a good horse trail has not been made to the falls long ago.

A peculiar accident happened at No. 5 mine early this week. A man had his pants ripped from hip to foot as *though cut by a knife, but strange to* say beyond a bruise no skin was broken.

The Cranbrook Telephone Co. are erecting their central office here on the Hunter lot north of Judge Whimster's residence. The heavy pole line that will extend to the prairie is being planted from the Cranbrook end.

MOYIE LEADER.

The water in the lake has fallen several feet in the last few days.

A four ton safe came yesterday for the imperial bank of Canada, and was installed.

A Mason's sheepskin apron believed to be a thousand years old was brought to Tacoma by a sailor the other day. It was found on a mummy in foreign lands.

A real live ghost has been seen nightly on the St. Eugene flume south of the mill. A man who was looking over the flume has thrown up *his job, and says he would not work* there for $1,000 a day. He says he is certain it is either a ghost or the devil.

TO RENT.

On Cranbrook street, near Hyde *street, a two room cottage partially* furnished. Apply on the premises.

Repeat it—"Shiloh's Cure will always cure my coughs and colds."

CRESTON REVIEW

Has the celebration been shelved? Or do we take it that Labor day will be Creston's day this year.

Jim Jeffries' trainer says his man is now fit to knock the block off Massa Johnson.

Port Hill and Creston will play at baseball on Sunday next. The match will be played at G. Huscroft's ranch.

While reports from other fruit growing centres are discouraging, the Creston crop will be a bumper. Truly this is a wonderful climate.

Moyie celebrates on Dominion day. A high old time is promised. There will be a big bunch of Creston folk there. Let's all go.

Geo. de Vere Hunt of Cranbrook, who owns five acres addition to the Creston townsite, was in town Monday and Tuesday, leaving afterwards for Nelson.

During the fruit season the Dominion government have arranged to publish a weekly report, and this will be sent to any one desirous of obtaining a copy. Write to the Fruit Department, Ottawa.

The offices of the Creston Telephone Co. are now completed and operations will shortly be conducted from that central. The promised improvements are now well under way. Men are digging holes for the posts for the new system, and the poles are now on the ground.

MICHEL REPORTER.

Board of Trade meets on Tuesday evening. It is hoped that those who have held aloof, will try and be present.

The Canadian club held a meeting on Monday night, when committees were appointed to look after everything in connection with the Dominion day celebration at Michel prairie.

*Domanako Bantreo, a workman em*ployed on the Great Northern, slipped from a hand car on Tuesday and had two small bones broken in his left leg. He was removed to the hospital.

Methodist Church.

SUNDAY, JUNE 20.

The morning service commences at eleven. Sunday School and Bible Classes at three. Young men and women are cordially invited to these classes; it is a good way to spend a profitable hour. League prayer service at 7 in the outer vestry, open to *all. Evening service at 7.30. During* the hot weather the services are always kept within the hour, and the building is kept as cool as possible. On Sunday evening the pastor will continue the subject commenced last Sunday, viz: "The Golden Rule," and will ask and endeavor to answer the question, Is it possible to live up *to The Golden Rule under the existing* conditions of society and commercial life?

Services will be held in the open air during the summer as opportunity permits, and all are invited to join in this work of ministering to those who do not attend the church.

On Monday, the longest day of the year, an entertainment will be given in the gymnasium to commence at nine. The program will include two good sketches entitled: "Unappreciated Genius," and "Saved." The first deals with a would be author who let her household duties go unattended while she spent her time in writing a book; the second deals with the *reclaiming of a drunkard. There* will be some good numbers besides, and a very pleasant time may be looked for.

Tuesday—The League will have supper at the old time place on Pooley avenue. Hot water and milk supplied, all members and friends please bring baskets. Supper at 6.30

Thursday—*Prayer service at 8.*

Friday—Choir practice at 8.

Rev. R. Hughes will preach at Wycliffe schoolhouse on Sunday afternoon at three, and at the two lumber camps in the Wasa district on Tuesday and Wednesday evening June 22 and 23. Any magazines or periodicals are appreciated by the men in *camp, and all who contribute these* are asked to kindly leave them at the parsonage before the above dates.

THE BOYS' BRIGADE

The drills will be discontinued now until the Brigade goes into camp. Announcements will be made as soon as the management have been able to make the necessary arrangements.

DONT PHYSIC YOURSELF

It is a Tonic you want! Physicing lowers the system and makes it more susceptible to disease. The winter months have been a great strain upon your vitality and unless you put the blood in good condition all manner of evils will overtake you. PSYCHINE is the Greatest of Tonics and should be taken by every one at this season of the year. PSYCHINE assists the gastric juices and ferments in their digestion of the food, cleanses the mucous membrane of the Stomach, and has an *invigorating and beneficial effect on the muscles* and nerves. For Catarrh of the Stomach, Ulceration or Weak Stomach, Dyspepsia, the use of PSYCHINE is strongly advisable.

PSYCHINE acting on the Stomach restores it to a healthy condition, *then acts through the stomach upon all the vital organs, creates an appetite, bringing* renewed vitality and strength to the entire system and enables it to throw off disease of every kind. It is the greatest health-giver known to medical science.

Send to Dr. T. A. SLOCUM, Limited, Toronto, for a Free Sample to-day. All druggists and stores sell PSYCHINE at 50c and $1 per bottle.

PSYCHINE (PRONOUNCED SI-KEEN) THE GREATEST OF TONICS FOR HEALTH AND ENERGY

Presbyterian Church.

SUNDAY, JUNE 20.

Morning service at 11 o'clock.

Sunday School and bible classes at 3 p.m. Evening service at 7.30.

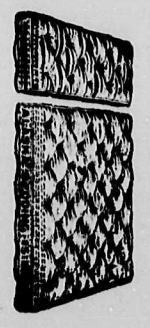
C. L. Cowan of Wardner will preach at both services in the absence of the pastor who will officiate at the opening of a new Presbyterian church in Wardner.

In the absence of the pastor there will be no communicants class this Sunday.

Not a Candidate.

"I am not a candidate for the honor of lieutenant-governor, said Mr. Wm. Sloan, ex-member of parliament of Nanaimo, when interviewed Monday at the Hotel Vancouver. "It is now more than a fortnight since I *left Ottawa* and the matter was not discussed during my stay there."

He called on various political friends during the day and left for home in the evening.



FURNITURE

THERE IS SO MUCH in Furniture that can't be seen that sharp practices are difficult to detect until use has proved the goodness or badness of the article. Woods, making, finishes—all may be juggled by adepts in the making of Furniture. And there are some manufacturers who make nothing else but furniture with good looks enough to sell itself, but with no intrinsic worth to make it give years of service. The kind we sell courts critical comparison. It is all—every piece of it—backed by our guarantee, and with the further safeguard to you of

Your Money Back If You Want It

THE RAZOR OF PERFECTION

NO HONING—NO GRINDING

NO MORE RAZOR TROUBLES

NO NEW BLADES

NO ANNUAL TAX

365 CLEAN SHAVES EVERY YEAR

EVERLASTING SHAVING COMFORT

Will Last a Lifetime.

CARBO MAGNETIC RAZORS have revolutionized razor making—they are TEMPERED BY ELECTRICITY, which is OUR OWN EXCLUSIVE SECRET PROCESS—the steel used in their manufacture is of the finest English and Swedish make. This wonderful discovery is the result of years of experiment and study, and at last there has been produced a razor that will shave any beard, NO MATTER HOW TOUGH.

ELECTRIC TEMPERING adds CARBON to the steel; whereas tempering by fire, (the only other method known for centuries) DESTROYS the CARBON which is the life of steel. All other makes of razors must be HONED AND GROUND often, as their blades will NOT hold an edge any length of time. CARBO MAGNETIC RAZORS do not require HONING or GRINDING during a lifetime in private use; they are all tempered alike, every part of their blades being subjected to the same AMPERES OF ELECTRICITY. CARBO MAGNETIC RAZORS are ground FIVE times by the HAMBURG METHOD, the most expensive grinding known.

YOUR DEALER will deliver to you one of these CARBO MAGNETIC RAZORS on 30 days' trial, without obligation on your part to purchase—take advantage of this opportunity. Break away from the barber habit! You will save $50.00 annually.

Call on our representatives in your town, and request a copy of "Hints On Shaving"—This booklet illustrates the correct razor position for shaving every part of the face (ACTUAL PHOTOGRAPHS TAKEN FROM LIFE)—it also tells you HOW TO STROP A RAZOR PROPERLY; should our dealer be out of them, drop us a card, and we will send you one by return mail.

CERTIFICATE OF THE REGISTRATION OF AN EXTRA-PROVINCIAL COMPANY.

"Companies Act, 1897"

I HEREBY CERTIFY that the "Seippel Timber Company" has this day been registered as an extra-provincial company under the "Companies Act 1897" to carry out or to affect all or any of the objects of the Company to which the legislature of British Columbia extends.

The head office of the company is situate at Stillwater, Minnesota.

The amount of the capital of the company is one hundred thousand dollars, divided into one thousand shares of one hundred dollars each.

The head office of the company in this province is situate at the city of Cranbrook, and Alexander B. Macdonald, Barrister-at-law, whose address is Cranbrook, B.C., is the attorney for the company. Not empowered to issue and transfer stock.

The time of the existence of the company is thirty years from the 27th day of August, 1906.

The Company is limited.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 31st day of March, one thousand nine hundred and nine.

(L.S.) S. Y. WOOTTON,
Registrar of Joint Stock Companies.

The object for which this company has been established and registered are:—

To do all kinds of manufacturing and trading business; to purchase, own, hold and dispose of timber and all the products of timber; to carry on and conduct a general logging, lumbering and manufacturing business; to erect, buy and sell saw-mills, shingle-mills, planing mills, and all other mills and factories; to establish, operate, buy and sell lumber yards; to purchase, own, hold, manufacture, sell and deal in any and all kinds of goods and wares, merchandise and personal property of every character and description; to own, buy, sell, lease and improve lands wherever situate; to build, equip, and manage water flumes for the transportation of wood, lumber, timber and timber products, and to do all such business as may be incidental thereto. 18-4

NOTICE TO CONTRACTORS

Court House, Fernie.

Sealed Tenders, superscribed "Tender for Court House, Fernie, B. C.," will be received by the Hon. the Minister of Public Works up to noon of Wednesday, the 9th day of June 1909, for the erection and completion of a Concrete and Brick Court House at Fernie, B. C.

Plans, specifications, contract and forms of tender may be seen on and after the 10th day of May, 1909, at the offices of the government agent at Fernie; the government agent at Nelson; and at the Public Works department, Victoria, B. C.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Hon. the Minister of Public Works, for a sum equivalent to ten per cent. of the amount of the tender, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

F. C. GAMBLE,
Public Works Engineer.
Public Works Department,
Victoria, B.C., May 4th, 1909. 22

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

Dr. Shoop's Restorative

BEATTIE & ATCHISON.

STEADY EMPLOYMENT

—o—

For a reliable local salesman representing Canada's Oldest and Greatest Nurseries in Cranbrook and adjoining country.

The popularity of our stock which is grown on limestone soil, making our trees and bushes hardier and longer-lived than coast grown stock, is acknowledged by experienced fruit growers.

We make a specialty of growing stock for British Columbia and ship in carload to that province.

A permanent situation to right man, with territory reserved.

Pay weekly; free outfit. Write for particulars.

"King Edward salts his rivals at Epsom," will do lor a display head all right.

• • • •

Every young man should love and cherish his sister, and if he has no sister should borrow some one else's.

• • • •

The favorite flower with the girls *in Cranbrook* are the forget-me-not and the double tu-lips.

• • • •

It isn't necessary for a man to be an acrobat to tumble to the fact that advertising pays in the Prospector.

• • • •

Hon. R. L. Borden has accepted an invitation to attend the Dominion Day banquet in London. He sailed on *the 13th inst.*

• • •

Sir Wilfrid Laurier is of the opinion that Wm. Sloan is the only man in this provioce who can oust Richard McBride from power.

• • • •

There is not a spot from British Columbia that can produce the fertile soil found here in the Cranbrook district.

• • • •

Wonderful growing weather continues in the Cranbrook district. Pasture is excellent, and the prospects for a large hay crop are most favorable.

• • • •

There is a large area of land in the Kootenay valley available for settlement, either for grazing or agricultural purposes.

• • • •

The merchants of Cranbrook find business generally ahead of last year. Prospects are sufficiently satisfactory at the present time.

• • • •

This going out of your way to kick a fellow who has kicked you is very poor judgment. Getting even is an expensive luxury; it costs money. Don't do it.

• • • •

Placing your first advertisement is like laying the foundation to a building—it is the beginning of what may terminate in a great enterprise. Moral—Advertise in The Prospector.

• • • •

The general opening up of the Kootenay and Columbia valley, which has so long been waiting for the iron horse, will undoubtedly develop trade, and the Cranbrook merchant will keep his weather eye open to this development.

• • •

The early bird catches the worm, but what are you going to do with the fool birds—"Grit newspapers"—who think that every piece of political wire is a worm? Just think of old Bill Sloan as the early worm, caught by the Ottawa bird.

• • • •

If some of the farmers who are at present looking for good farms would take up land in Southeast Kootenay, especially in the vicinity of Cranbrook, where they would have practically no competition for their products, they would show good judgment and make no end of money.

• • • •

The people of Cranbrook extend an *invitation to the travelling public to* visit the town and district. As a summer resort the district is without a rival and cannot be surpassed. It is a sportsman's paradise. Game in season, large and small are abundant and the mountain streams are well stocked with trout.

• • • •

It is announced that Sir Wilfrid Laurier is to continue in the leadership of the Liberal party indefinitely and that he will again appeal to the electors four years hence in that capacity. Like P. T. Barnum, Patti and other celebrities he will become noted *for the number of his last appearances.*—Hedley Gazette.

• • • •

A terrible charge has been brought against a coast lumber milling firm *by a gentleman who professes* to know to wit that the said firm have been selling lumber direct to the consumer on the prairies instead of passing it through the hands of the local retailer and leaving his palms well well greased by the process. This it seems, is violating the ethics of the lumber business, an offence apparently akin to that of being "inharmonious."

• • • •

The British prime minister declines to regard the American navy as a possible enemy to be taken into account in maintaining the "two power" standard." Geographical reasons were the ostensible ones for giving different consideration than is accorded to the fleets of Germany and of France. But the United States undoubtedly *remembers* that an American commodore said, "blood is thicker than water." Fraternal warfare between the two great English-speaking peoples would be a catastrophe unparalleled in the history of civilisation. Statesmanship shows its wisdom in cultivating mutual confidence in the people of the two imperial nations.

• • • •

The American invasion of the prairie provinces is assuming proportions that would be amasing if it were not so well understood that as our neighbors begin to understand the advant*ages of residence in Canada* they find the attraction in Canada irresistible. Last year, according to the statistics sixty thousand Americans settled in Canada, bringing with them sixty million dollars worth of property; and the indications for this year are seventy-five thousand and seventy-five million respectively. Perhaps the value placed on the newcomers is exaggerated, but even dropping several millions referred to above it will be realised that this immigration is the best that has been attracted to the Dominion.—Columbian.

• • • •

It is not at all surprising that the mining, lumbering and agricultural section tributary to Cranbrook is attracting the attention of conservative capitalists. The field is a large one and capital has been looking to the Southeast Kootenay as a place to invest their money. That this is true is evidenced by the mining promoters who have been engaged in all branches of mining during the past few years, the lumbermen who have been engaged in the business, and the agriculturists who have located in the *Kootenay valley, have all reached the* conclusion of this portion of British Columbia is the place they have been looking for and that Cranbrook is the centre of a vast district with a most promising show of mineral, of forests and agricultural lands.

• • • •

In all mention of mines of Southeast Kootenay in the eastern papers the name of the Prospector always appears. This is as it should be for the Prospector and the Government offices are located at Cranbrook, the natural centre of this vast district.

• • • •

Complaint is made that the Canadian mint is not coining silver, whereas there is a great deal of United States coin in circulation in the Dominion. As everyone knows a silver dollar is really not worth a dollar, and only passes for that amount because the law of the United States says it shall be taken at that value up to a certain amount. Hence, on every United States dollar circulated in Canada the United States government has made a profit, and we confess to being unable to see any very good reason why the Canahian government should not supply its own people with all the silver currency they require. A silver half dollar is a very nice coin. There is an indisposition on the part of some eastern folk to carry them. They would rather have a dirty one dollar bill than two silver half dollars, which is an astonishing exhibition of taste. Let us have more halves and quarters coined. Let us also have a new five cent piece. The present coin of that denomination is too small.—Victoria Colonist.

Moral Reform Council.

—o—

A well attended meeting of the above council was held in the Presbyterian schoolroom on Friday evening, June 11th. The names of J. S. Kennedy, J. Beeton and F. Patton, representatives appointed by the trainmen, were added to the roll. A committee was appointed to see to the printing of a combined constitition and membership card together with the printing of the petition to the board of police commissioners concerning the colony of vice in the city. The report of a committee to make the final arrangements for the circul*ation of a petition among* the ratepayers was adopted. The recommendation was that twelve men be appointed to be responsible for the canvass of the entire list of ratepayers and that they report to the council within two weeks.

The following is the text of the petition:

To the Board of Police Commissioners, Cranbrook, B. C.:

Whereas, at a meeting of the Moral and Social Reform Council of Cranbrook, held at the court house Friday, May 28th, 1909, it was deemed desirable to circulate a petition for *signatures* by the qualified ratepayers of the municipality of Cranbrook, requesting the board of Police Commissioners to take action in the way of removing from the city all houses of ill-fame, and the prosecution of any and all parties conducting same or being inmates or frequenters thereof,

And whereas, a resolution was introduced and passed at a previous meeting of said council authorising the circulation of such petition,

And whereas the toleration of houses of this character within the municipality or elsewhere is contrary to law and in direct violation of the criminal code, and exercises a most baneful influence on the whole community,

And whereas the receipt of revenue *by the municipality from these houses* of ill fame in the way of monthly fines imposed is contrary to law and against all principals of morality,

And whereas intoxicating liquor is sold in said houses, contrary to law,

We therefore, the undersigned ratepayers residing in the city of Cranbrook, do hereby petition the Board of police commissioners acting through the chief of police of the city of Cranbrook, to give at once to all keepers and inmates of the said houses (the same being known by the fines collected as hereinbefore referred to) written notice that all sale of in*toxicating liquors in said houses* must be forthwith discontinued, and that within two months from the service of such notice all of said keepers and inmates, if found continuing in violation of the law, as aforesaid, will thereafter be rigorously and continuously prosecuted, so long as such violation of the law continues.

Dated at Cranbrook this 10th day of June, 1909.

READ THE PROSPECTOR.

Put a little "Sunshine" in your home

An old-fashioned, ill-working furnace is a non-producer.

It consumes the coal, but through leaks and cracks wastes the heat.

It is not economy to have such a furnace in your own home, or in your tenant's home.

If you are thinking of building you should be interested in Sunshine Furnace. It adds 100 per cent. to home comforts.

As soon as you let the contract for your house decide on your furnace. The "Sunshine" man will be pleased to tell you just how the rooms ought to be laid out with an eye to securing greatest heat from the smallest consumption of coal.

If you want to experiment with the question don't specify "Sunshine."

If you want to settle the question specify "Sunshine."

Fortune Telling

Does not take into consideration the one essential to woman's happiness—womanly health.

The woman who neglects her health is neglecting the very foundation of all good fortune. For without health love loses its lustre and gold is but dross.

Womanly health when lost or impaired may generally be regained by the use of Dr. Pierce's Favorite Prescription.

This Prescription has, for over 40 years, been curing delicate, weak, pain-wracked women, by the hundreds or thousands and this too in the privacy of their homes without their having to submit to indelicate questionings and offensively repugnant examinations.

Sick women are invited to consult Dr. Pierce by letter *free.* All correspondence held as sacredly confidential. Address World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

DR. PIERCE'S GREAT FAMILY DOCTOR BOOK, The People's Common Sense Medical Adviser, newly revised up-to-date edition—1000 pages, answers in *Plain English* hosts of delicate questions which every woman, single or married, [illegible] to know about. [illegible] in wrapper to any address on receipt of [illegible] stamps to cover mailing only, or in cloth binding for 50 stamps.

No Anxiety.

Some petty larceny thieves stole a number of potted plants from the porch of Wes. Cline's residence Wednesday night.

We can fix you up in Hose for the lawn and garden. Good quality and low in price and any length. Try us. PATMORE BROS.

The big safe for the Royal bank of Canada was being put in Thursday. Worden of the City Transfer Co. had the job.

Considerable interest is being shown among local enthusiasts in the big fair which will be held in Cranbrook this fall.

The Cranbrook Agricultural Association held a meeting on Friday evening in the committee room of the Cranbrook hotel.

Two more lots of those Swell Wagner and Fulton Go-carts just in. A pleasure to show these goods.—PATMORE BROS.

Dr. Lewis Hall and wife, brother of Dr. Hall of this city, were guests of honor at the opening of the Seattle fair. Dr. Lewis Hall is mayor of Victoria.

W. D. Hill returned Tuesday from a trip to the coast. "Billy" says that he is feeling fine, that his health was improved very much since his sojour at the coast.

The Germans are getting up an enormous fleet, and the brother of the emperor says it is necessary, so as to preserve peace. How long is this travesty on peace to be played ?

The result of the baseball game between the C.P.R. apprentices and the Cranbrook juniors played last Wednesday evening, ended at a score of 17-10 in favor of the juniors.

Reports from the interior say that Hon. Richard McBride and Hon. Mr. Taylor are meeting with a warm reception from the citizens of the interior of the province.

There are signs and tokens that the preparations of the conservatives for a general election this fall are no less thorough because they are silently made.

Wm. Sloan, ex-M.P., who is spoken of as a possible leader of the provincial liberal party, will be like many candidates who come up for election, flattened at the poll.

C. H. Allison left Sunday night on a business trip to the far east. Mrs. Allison went west on a summer trip to Seattle and other coast cities. She wi,l be away for three months.

There was something doing in the restricted district Wednesday night. One man had his head split open, another was laid out, being struck with a stone and another badly bruised while engaged in a fist fight.

There was a large attendance at the concert given by the city band Monday night and the music provided was much appreciated. The band is making rapid progress and is showing a great improvement on every public appearance.

ANCHOR BRAND FLOUR MAKES GOOD BREAD

Plums, Peaches, Cherries at Stewart's today.

N. Stabler of Peterboro, A. Carney of Kaslo, E. E. Brooks of Spokane, and T. C. Gray of Vancouver were guests at the Cranbrook Thursday.

M. Phillips of Elko was in town Friday. He is one of the oldest of "old timers" in the district, having come to the Kootenays in the early sixties.

Mrs. R. Dore of San Francisco arrived in Cranbrook Monday. Mrs. Dore is here looking after her mining interests which are located on Wild Horse Creek.

B. C. Cucumbers and Tomatoes at Stewart's.

The usual meeting of the Epworth League was held on Tuesday evening. A very interesting paper was given by Miss G. McDonald. To these weekly meetings everybody is heartily welcome.

The time is approaching when candidates for the provincial legislature are to be talked about and it is worth while for the voters of this riding to look the ground over carefully with a view to selecting men who are equal to the duties.

Some considerations concerning the development of the Jaws was the subject of a paper read before the medical society. There are lots of persons who are developing their jaws, and who have very little concern for the feelings of others in the process of this development.

Mr. and Mrs. Bateman arrived in the city on Thursday from Sarnia, Ontario, and will take up residence with Mr. F. E. Corrison. Miss Jessie and Master Edward Corrison also arrived from Port Arthur, Ont., where they have been staying with relatives since the death of Mrs. Corrison.

Mr. and Mrs. R. E. Beattie met with an accident on Sunday last while driving to the ranch of W. J. Atchison. The shaft of the buggy broke and the horse became frightened and ran. The buggy striking a stump, threw Mr. Beattie out, continuing down the road striking a tree, throwing Mrs. Beattie and her baby violently to the ground. Mrs. Beattie sustains a fracture of her collar bone, and the baby was badly bruised.

Leave your order for Preserving Berris at Stewart's—Creston Berries next week.
