MINE HORROR AT NANAIMO

Nearly 60 Men Entombed by Disaster.

FIRE THEN BREAKS OUT

Twenty-five are Saved Before Fire Stops Work of Rescuers.

Nanaimo, Oct. 5.—Thirty men are now known to be dead as a result of an explosion in No. 2 mine at Extension this morning. Up to 7 o'clock this evening eight bodies have been recovered and identified.

The work of rescue still continues, but it is not expected that any more bodies will be recovered before morning, as the portion of the mine where the explosion occurred is badly wrecked, the brattice work being torn down, and the rescuers are very badly hampered by gas. The majority of the men killed were old residents of the district and were all well known.

Victoria, Oct. 5.—A fire damp explosion in a mine at Extension, a camp sixty miles from here, this morning wrecked No. 3 level of No. 2 mine, owned by the Wellington Colliery company, head of which is Lieutenant-Governor James Dunsmuir. The smashed timbers caught fire before rescuers could reach the scene and of the sixty men of the night shift below at the time, thirty were imprisoned. Of these only six had been taken out, dead, late tonight by search parties of volunteers, who are risking their lives as they are in constant danger of a second explosion and poison from black damp. There is no hope for the others, but as the gas is rapidly being driven from the mine and as progress is made against the flames, it is expected that all of the bodies will be recovered.

MISSING MEN PROMINENT.

Most of the men were old residents of Extension, and the total number affected by the disaster will reach one thousand. Many of those believed to be still in the mine workings are prominent in the mining district.

The explosion is the worst disaster of its kind in the history of the locality

Mr. Dunsmuir seen tonight would make no statement. He goes to the mine to-morrow. Ralph Smith, M. P., and Mayor Nicholson, of Ladysmith, a town nearby, were in Victoria tonight. They fear they have relatives among the missing.

A relief train has has been sent from Ladysmith, but the fire in the wrecked slope may stop the progress of the rescue work. The women and children are clustered in a drizzle of rain awaiting definite news of loved ones.

Alexander Shaw, a brother of John Shaw, inland revenue agent of this city and foreman of the mine, who was reported to be missing, is now on the surface directing the operations of the rescue party, but at present there is no indications of the fire being extinguished. The residents of Nanaimo have been prevented from going to Extension and only the rescuers, miners and officials are on the scene.

TERRIFIC EXPLOSION.

A miner who reached Ladysmith at noon from the mine said that as he and his father were leaving the mine, bringing out their gear, an explosion occurred. The shock was terrific. The stoppings were blown out and the doors unhinged. The effects of the explosion were confined to the slope where it occurred. All the men in the other slopes and levels escaped.

MOURNING AT LADYSMITH.

Ladysmith, Oct. 5.—Ladysmith is wailing tonight for its dead, and is a sad grief stricken community. From the time the telephone message gave the first bulletin of the disaster this morning, and the train came down the hill from the mine to take doctors and rescuers, sorrow has followed upon sorrow. The bereaved women and relatives are being kept back from the mines and the officials are keeping silent, but at intervals comes news that causes agonizing shrieks in a miner's home.

The first bodies brought to the surface of the slope hidden in its covering was the corpse of James Molyneux, a vocalist who has often pleased Ladysmith audiences. He was unmarried. The next body brought to the surface was Robert White, a miner, which was followed quickly by his brother-in-law's body, Tom. O'Connell, a well known athlete and recently elected manager of the Ladysmith football team. The sister was told that both husband and brother were dead and sunk sobbing into a chair. Another victim, Fred Ingham is the third son that Mrs. Ingham has lost in mining accidents and the third she has mourned because of mine explosions.

The coming of the train from Victoria was followed by sad incidents. A number of the relatives of missing men were among the passengers. Miss Ingham fell shrieking when told that her brother was lost and was carried wailing bitterly up the hill.

DEATH ROLL NOW THIRTY.

Ladysmith, Oct. 6.—The following bodies have been recovered:-

Thomas O'Connell, single.
Andrew Moffatt, married; three children.
James Ewart, married, one child.
Robert Marshall, single.
William Robertson, married, wife visiting at Seattle.
William Quinn, single.
Edward Dunn, single.
James Molyneux, single.
Howard Taylor, single.
William Davidson, single.
Alexander Melos, a Montenegrin.
Thomas Thomas, single.
Peter Nolan, single.
William Kesserich, single.
James, Kesserich, single.
Thompaon, Parkin, married, two children.
John Bullitch, colored, married; with family.
Charles Scuff, single.
Wynn Steele, married.
Robert White, married, six children
James Ismaster, single.
Fred. Ingham, single.
Alexander McLennan, married.

The men still in the mine and who are dead are: Oscar Nayman, a Finn; Charles Salo, Finn: Mike Vaszolovitch, Slav: Fred Ramilovitch, Slav: R. L. Ramilovitch, Slav: George Vargovich, Crotian: and E. S. Selden.

CAUSE IS MYSTERIOUS.

As to the cause of the explosion, the question as yet remains unsolved At 6:30 yesterday morning the following report was written in the books of the company.

"Tuesday, Oct. 5. 6:30 a.m.

"Examined all working places; found all in good condition."

HUGH FULTON.
WM. COSIER.

Two hours after the above was written explosion was felt in nearly every portion of the mine, and the race for life was on. According to the tales of those who were working in the vicinity and who succeeded in reaching safety, no great shock was felt by them; but the rush of the air, the swinging aside of brattice, and a dull rumble, gave notice to all experienced miners that an explosion of great force had taken place somewhere within the bowels of the earth, and the only safe place was in the open air away from the poisonous fumes which were sure to work their way through and permeate the atmosphere. It scarcely needed the appearance of excited firebosses shouting warnings and imperative commands to clear out, for all who could do so started for the open as rapidly as possible, and even then some who heard the warning were too late and were overtaken by the deadly fire-damp. Others, too excited, perhaps, or too ignorant of the workings of the mine, were only saved by the heroic work of Alex. Shaw, boss of No. 2, who, working his way back and forth from place to place, as could only be done by a man who knew every inch of the workings, pointed out the way to safety to those who had almost given up hope of life and to some who were nearly overcome with gas.

AIG TIMBER DEAL

Large Tract on Vancouver Island Sold to New York Concern.

New York, Oct. 5.—One of the largest individual timber deals in the history of Western Canada has just been closed whereby the American Finance and Securities company of New York purchases from the Canadian Pacific railway 54,000 acres of timber lands on Cowichan lake, British Columbia. This is said to be the finest tract of timber remaining in British Columbia. The timber, which consists largely of fir, is of an unusually dense growth. Experts who were employed by the New York company report that the timber averages more than 90,000,000 feet of merchantable timber. Cowichan lake is about 100 miles north of Seattle and 22 miles from the nearest point on the Nanaimo and Esquimalt railway, a branch of the Canadian Pacific.

Borden's Plans

Ottawa, Oct. 8.—R. L. Borden left for Halifax today, to consult with the leaders of the Conservative party On his way back he will meet the leaders of the party in Montreal and Quebec. After that he will probably go to Toronto.

FOR NAVY IN CANADA

$3,000,000 a Year for Sea Defenses.

FLEET OF 12 VESSELS

Scheme Also Contemplates Drydock and Ship Building Plant.

Ottawa, Oct. 7.—It is understood that the Canadian government's bill respecting naval defense to be brought before the coming session of parliament will provie for a total expenditure of about $20,000,000 during the next six or seven years, the yearly appropriation being about $3,000,000. Present plans contemplate a fleet of a dozen war vessels, consisting of cruisers, torpedo boats and destroyers.

Drydocks and a Canadian shipbuilding plant capable of building and repairing the largest class of war vessels are contemplated. It is stated that three vessels of the new fleet will be placed on the Pacific coast and nine on the Atlantic.

CANADIAN BRANCH

Milwaukee Road to Build From Missoula to Crow's Nest Pass.

Missoula, Mont., Oct. 5.—That president A. J. Earling and the directors of the Milwaukee road are more convinced than ever that a road from Missoula to the Crow's Nest country in Canada is feasible, and that work on such a line will be commenced in the spring and continued until it is completed, was stated here on the return of the members of the party from a trip of inspection which extended by automobile, wagon and pack train to Kalispell, Blackfoot, Swan river and Swan Lake route. Tenders for a contract will be called for during the winter months, recommendations for the construction of the line having been forwarded to the east. The directors announced that thay were more than pleased with the country to be opened up. The tract from the Crow's Nest Pass to Kalispell has already been gone over and found satisfactory.

Mammoth C P. R. Locomotive

In the course of about a month there will appear on the Pacific division of the C.P.R. one of the most remarkable locomotives on the continent of America, and the heaviest engine in Canada. It will be operated between Revelstoke and Field, and will be devoted exclusively to the hauling of freight trains, it being the aim of the railway to handle more cars per train over that section of the road than is now possible with existing power.

The new engine will be a Mallet articulated compound, and with tender coal and water will weigh over two hundred tons. The engine alone weighs over 365,000 poonds. This Mallet locomotive really consists of two engines, as the boiler is divided in the middle. The body is very long and in order to enable the engine to readily take curves, it is provided with a flexible joint located in the middle of the boiler.

In the past it has been found impossible to put heavier power in the old type of engine in service for the reason that bridges would not stand the extra weight confined in the short body of the old type of locomotive. The new, long body type, spreads the weight over a greater length of rail and thus enables the heavier and much more powerful engine to operate over bridges with perfect safety.

SOCIETY GIRL MINE

Mining Operations Confined to No. 2 Tunnel.

(Moyie Leader.)

Prospects for the Society Girl Mining company seem to be getting brighter every day. J. P. Farrell, the secretary-treasurer of the company, when asked concerning the property this morning, said:

"Our mining operations have been confined to the No. 2 tunnel, which is now in eight hundred and twenty-five feet. Anticipating a resumption of ore shipments, a wagon road connecting No. 2 tunnel with the old road has just been completed. This piece of new road is almost a mile in length."

Continuing Mr. Farrell said to many who inspected the property the surface indications impressed them as being very similar to those of the famous Hercules mine in the Coeur d'Alenes.

"Having ore in the upper workings carrying 58 per cent lead, 67 ounces in silver and 7 per cent copper. We reasonably look for high grade ore in the No. 2 tunnel. We have ten men employed, most of whom are working driving this tunnel. A new blacksmith shop has just been built at the entrance of this. Our people are not waiting for some one to hand them a bundle containing a fortune, for we have the backing of that class who know a good thing when they see it. It is now a question of months, and perhaps weeks. I believe this will be a case of history repeating itself. Miners and muckers today; mineowners and capitalists tomorrow. Now is the time to get in on the ground floor."

Canada and the U. S. Tariff

Canada is not worrying over the possible action of President Taft under the provisions of the new tariff law which empowers him to place countries levying export duties or granting preferences, in which the United States does not share, under the ban of a surtax or of the maximum import duties. Under present conditions any interruption in the movement of trade will hurt the Republic more than the Daminion, which has already weathered a worse storm from the same quarter. The result of the previous attempt to restrict Canadian trade taught the Dominion that there were other and more profitable markets in the world and enabled the Canadian people to realize their own economic independence. What they did in hope, when the future seemed dark enough, they will do if necessary, with the confidence of assurance.

More particularly with regard to the prohibition of pulp wood exports now in force in Ontar ioand Quebec, is there no likelinood that the existing practice will be altered. The forests are among the more valuable resources of these provinces and with the results of the foolish policy of the United States patently before them, their governments and people are at one as to the necessity of for conservation. They also perceive the advantage of utilizing their forest for the creation of home industries and the effect of the prohibition has already been favorable in that direction. Yesterday's World contained a news item from Prescott, stating that as an outcome of the export restrictions a company is being formed for the purpose of starting a pulp mill in a vacant starch factory. Canada's tariff policy will be adapted to her own interests and not to the notion of her neighbors.—Toronto World.

Wilson--Ouilette Wedding

The marriage of Miss Alice Ouilette, a popular young lady of this city, to Mr. R. E. Wilson, a prominent railway man, also of Cranbrook, took place at the St. Eugene hospital chapel on Friday morning, October 1st, Rev. Father L. Choinel officiating. Miss Mary Ouilette, sister of the bride, was bridesmaid, while Mr. Belanger was the best man. Miss Ouilette is a niece of Mr. Harry Robichaud, the well known conductor. After a visit to the principal coast cities Mr. and Mrs. Wilson will return to Cranbrook, where they will begin housekeeping at once.

Elevators are Full of Grain

The A. R. & I. Company are bringning in about twenty thousand bushels of wheat per day, says the Lethbridge Herald, and the shipping has got nicely started. Very little has come as yet from Cardston, as threshing there is just commencing. At Raley and Spring Coulee all the elevators are full, and they are taking every car they can secure.

Farmers down there have tanks holding about a carload, in which they store their grain for the time. The tanks are light and can be hauled from place to place.

Demands Peace

London, Oct. 5.—Lord Rosebery, in a letter declining to address further meetings on the budget, says:

"To make any further speeches of amplification and reply, would simply involve my return to political controversy from which I have long withdrawn and to which I hope never to return.

Jeffries to Fight

According to Auto, a Paris sporting paper, James J. Jeffries has made the announcement that he will probably fight Jack Johnson for the heavyweight championship on April 10 or 11 at San Francisco.

Marquis of Graham Here

Ottawa, Oct. 6.—The Marquis of Graham, son and heir of the Duke of Montrose, one of the oldest Scottish families, is in the city. He is now on a tour of Canada.

RIGH OFFICIAL QUITS OFFICE

B. C. Legislature May Be Dissolved by Premier.

WEALTH IS $15,000,000

Retiring Lieutenant Governor Will Retire From Active Business.

Vancouver, Oct. 5.—Announcement of the dissolution of the British Columbia legislature will probably be made within a week by Premier McBride. James Dunsmuir, the retiring lieutenant-governor, is the richest man in the province, his fortune being estimated at more than $15,000,000. The Canadian Pacific railroad recently purchased from him several hundred thousand acres of land on Vancouver island and the Esquimalt & Nanaimo railroad, and is said to be negotiating for the remaining Dunsmuir lands and the great colleriers, it being Mr. Dunsmuir's purpose to retire from active business. F. C. Wade, a Vancouver lawyer, is his probable successor as governor.

The railroad situation is hastening Premier McBride's appeal to the country. It is to decide some important questians regarding these lines that the Premier wishes to address himself after his government shall have been sustained at the polls, as he believes it will be. The government will undoubtedly submit to the meeting of the new legislature in February some proposal to assist the coming of the Canadian Northern.

PRAIRIE IS VERY DRY

Wainwright Sends Out Men to Help the Settlers.

Wainwright, Oct. 7.—The entire Giltedge district, 16 miles north, has been swept by flames. P. Luter lost his house and effects. W. Gallagher lost his house, while Matthews lost his stable, oats and hay. C. Lyons lost hay and cattle. It is the fiercest fire in the history of the dictrict, the flames leaping forty feet fireguards. The settlers have been fighting the flames for a week, but have but little chance of stopping the fire as the country is as dry as tinder.

SMOKE IS UNBEARABLE

Fierce fires are raging north of the town since early in the day, and the smoke is unbearable on the streets. Citizens are expected to be called out to fight the fires before the morning.

The fire which was burning near Buffalo park, south of here yesterhay is now under control, being surrounded by fire-guards, and will gradually die. There is no danger of flames entering the park.

Fifty men have just left for a point north of town to assist the citizens in fighting the prairie fires.

ANCIENT APPLE LORE

This Fruit Was Popular With Adam and Eve.

The following is from the National Apple Show Bulletin and Premium List, published by the management of the forthcoming apple show at Spokane:

"The apple has been intimately associated with the history of mankind from the earliest ages.

"Itholds an important place in the literary tradition and fable of the human race, and upon occasion has helped to make the history of nations and to enrich the biographies of kings.

"The Bible, one of the oldest known records of human thought, mentions the apple most prominently in the quaint drama in the Garden of Eden. There are numerous text references to it in the Old Testament, and Solomon says of it 'As the apple tree among the trees of the wood, so is my beloved among the sons', and again, 'Stay with flagons, comfort me with apples.'

"Among the Greeks the apple was known and honored, and there is frequent mention of it in the charming mythology of the period of Athenian ascendency. Homer, at his best, sings of it, the Trojan war becomes concerned with it, and both the Iliad and the Aeneid of Virgil make extensive use of its symbolism.

"The beautiful legend of the search for the apples of Hesperides and of the Labors of Hercules ans Atlas to secure the trophies—is one of the best known in Greek mythology. Hippomenies won the famous foot race and Atalantas' heart with the charmed apples of Venus.

"The Roman Tactitus tells us of the prominence of the apple among the German tribes and the early Goths. The Norse 'Sagas' sing the apple's praises in rough melody, the old Scotch clansmen choose it for a badge of honor, and the remains of apples have been found among the bones of prehistoric men upon the shores of the Swiss lakes.

STORY OF WILLIAM TELL.

"The story of William Tell and the dramatic struggle between Austria and Switzerland immortalized in Schiller's epic poem and Rossini's beautiful opera is always remembered by the feat of Tell in shooting the apple from his son's head.

"Apples came early into Britain with the Roman invaders, and were brought to America centuries later by the English colonists. The story goes that the young ladies of the court dropped apple seeds into the pockets of the gentlemen who were about to cross the seas, as the most valuable assets for life in a wild, new land.

"No fruit has come into more popular general favor, attained a more universal distribution, or been put to a greater variety of uses than has the apple. There are now over 1,000 varieties known to pomologists and new varieties appear continually as the study of the fruit develops. It is known in all lands and to nearly all races, even the savages of the tropics.

"The apple is unsurpassed as an article of food and commerce. It is available at all seasons and may be baked, boiled, stewed, fermented, and cooked and preserved in hundreds of different forms. It may be made into liquor, perfumery, medicine, dye and dried fruit.

"The apple has developed from the wild, acrid crab of ancient and savage times, into one of the leading natural foods of modern civilization. It occupies the high position due a rich, universal, diversified and comparatively cheap food.

G. T. P. AND GRAIN CROP

General Manager Says His Road Will Carry Ten Million Bushels

Edmonton, Oct. 5.—F. J. Chamberlin, general manager of the G. T. P. arrived in the city unexpectedly yesterday and took a look over the railway situation. In company with Mr. Mann, division engineer, he inspected the work on the G. T. P., shops in the north end of town and called on the mayor at the city offices regarding the closing of the streets between blocks 16 anh 17 so as to give the G. T. P., a continuous mile of yards.

In answer to an inquiry as to what assistance the G. T. P., would give towards the moving of this year's grain crop, Mr. Chamberlin said the new continental line would move ten million bushels of grain this year between Edmonton and Winnipeg. A week or two ago the cars of grain began to move from points about Wainwright eastward to Winnipeg.

LAURIER'S DENIAL

Says G. T. P. Did Not "Request" Oriental Labor be Imported.

Ottawa, Oct7.—Attention has been aroused by Sir Wilfrid Laurier's telegram to the labor men of British Columbia asserting that no request had been made for the importation of Oriental labor, and the positive statements of Sir Charles Rivers Wilson and Mr. Hays on the day of their interview with the Premier. The G. T. P., officers have affirmed that the sunject was under consideration. Sir Wilfrid Laurier is very clever in his use of words and all that his denial amounts to is that no formal "request" had been officially served upon the government. But the evidence is overwhelmning that the subject has been broached.

Veteran Dies

Montreal, Oct. 5.—Lieutenant Colonel Harry Payn, formerly commanding officer of the Seventieth regiment and the first officer to graduate from Wolseley barracks, died at his home, Fircroft, in Westminster, last night, aged 63. He took an active part in military matters, and served as a captain in the Riel rebellion.

Nothing In It

Toronto, Oct. 6.—"Nothing in it," said Mr. D. D. Mann, vice-president of the Canadian Northern Railway company, when shown a dispatch from Winnipeg to the effect that the Canadian Northern had acquired the Duluth & Northern Minnesota road to Cuenflint, Minn.

A low tariff Liberal press and a high tariff Liberal Government living on terms of sublime friendship and confidence is indeed a spectacle which defies duplication, remarks the Winnipeg Telegram. The one talks in terms of free trade and the other acts in terms of protection.

MUNICIPAL COUNCIL MET

Wednesday Evening In Council Chambers.

BY-LAW 66 CARRIED

J. C. McKenzie Appointed Superintendent of City Water Works.

A meeting of the Municipal Council was held on Wednesday evening in the Council chamber. There were present His Worship Mayor Fink, and aldermen Hunt, Ryan, Jackson and Johnson.

Records of last regular meeting were read, and on motion of aldermen Hunt and Johnson, were adopted as read.

A communication from Harvey, McCarter & Macdonald, re the closing of a lane on Baker hill was referred to the City Solicitor, with instructions, that if all persons owning propetty abuting on the lane give thier consent in writing to the Council, the matter would then receive due consideration.

Communication from Harvey, McCarter & Macdonald, re the Leask property situated on Baker street, was also referred to the City Solicitor with power to act.

Finance Committee made their regular monthly report, and recommended that accounts, as presented to the amount of $5,001 be paid.

On motion of aldermen Hunt and Jackson, the accounts of the Electric Light Co., and the Telephone Co., as presented by the finance committee, be paid. Alderman Ryan not voting.

On motion of alderman Hunt and Jackson, the accounts of the Fink Mercantile Co., were ordered paid, Mayor Fink not voting.

On motion of aldermen Jackson and Hunt, the accounts as presented by the finance committee, not otherwise provided for, be paid.

Moved by aldermen Ryan and Johnson, that by-law No. 66 be reconsidered, finally passed, and adopted.—Carried.

It was moved by aldermen Ryan and Hunt, that the action of the Mayor and City Clerk, in securing an assistant to the City Clerk, be confirmed.—Carried. Alderman Jackson voted in the negative.

Moved by aldermen Jackson and Johnson, that J. C. McKenzie be appointed Superintendent of City Water Works, with a salary the same as he was paid by the Water Supply Co.

Council adjourned at 11-30 on motion of aldermen Ryan and Johnson.

Making Good Progress

The Kootenay Telephones Lines Ltd., are making rapid progress with the installation of their new system throughout Southeast Kootenay. The pole gang will have the sticks set up to Crow's Nest within two weeks and start back this way with the work of wiring. Another crew of linemen will carry the wires from Cranbrook eastward. The Alberta Government line is being extended from Coleman to Crow's Nest and we should have long distance connection with Edmonton, Calgary, Lethbridge and intermediate points within six weeks. Before the end of the year Medicine Hat will probably be listed on our long distance schedule.

The new big switchboard of the Kootenay Telephone Lines has been set up in the offices here and the local lines will be swung onto it on Sunday. The new switchboard is a marvel of mechanical ingenuity and will afford a much superior service to that which could be given on the old board.

In granting the privileges of the city, Fernie availed herself of an opportunity of getting a service that will be second to none in Canada.—Fernie Free Press.

He Was a Good Runner

One night this week any person out between the hour of eleven and twelve would have witnessed a runner, practicing for the next holiday sports. It was not the intention of the party when he started out to practice, but circumstances alter cases. It looked as though some one was chasing him as he came down Pallett Avenue, half clothed and disappeared into his quiet home a much disappointed man. It pays one to mind their own business no matter how hard it is to do so.

The man who is always sticking his nose in somebody elses business often comes out at the wrong end.

NOT ON TIME

The Prospector did not get out on time this week, owing to the setting up of the "objections to the voting lists" not being in early enough, and the fact that these names had to be published this week.

POLAR CONTROVERSY

A suit by Dr. Cook to recover damages from Commander Peary for allegedly slanderous and defamatory statements regarding the plaintiff's discovery of the North Pole would be a perfectly logical proceeding.

The courts are now appealed to to settle controversies of all kinds. They take cognizance of contested claims to priority of invention; why not of discovery? It is quite conceivable that had injuctions been in use at the beginning of the sixteenth century the heirs of Columbus might have applied for a court order to protect the discoveries against the infringement of Americus Vespucci.

Assuming that the action is brought, we may expect an examination of Esquimaux and other witnesses, *including explorers*, amateurs and "Mutual friends" intrusted with records; the introduction of expert evidence by prosecution and defense; a 10,000-word hypothetical question covering the whole field of Polar exploration, and the eventual submittal of the case to a jury whose verdict, failing an appeal to a higher *court, would be accepted as quieting* title to the Pole.

Examinations of Dr. Cook's astronomical observations and other data by geodetic surveys and Danish universities are all very well. But for a conclusive decision recourse may properly be had to the verdict of a jury of American peers.

In the approaching provincial election Harry Wright is spoken of as the Conservative candidate in the City of Nelson. Mr. Wright is probably better suited for the position than any other man in Nelson from a political standpoint. He has already had the experience of one term in the house and for eleven years has been connected with the government in official and unofficial capacities. He has learned the business from the ground up and that is greatly in his favor. Green men are more apt to make mistakes in politics than those of experience. As gold commissioner for a vast territory in around Nelson he has for a long time attended to the affairs of a busy office in an efficient manner satisfactory alike to the people and government of this great province. We need young energetic and experienced men in the legislative assembly at Victoria, and Harry Wright certainly travels in that class. He brings enthusiasm to his work and that is one of the prime factors in making a public man a credit to his country, his city and his constituents. —Greenwood Ledge.

It is a singular fact that when the autumn leaves begin to fall, the thoughts of men turn towards elections, with the same unfailing regularity with which, in the spring of the year, the young person of the male sex hunts up a new list of best girls for the season. At the present moment, for no very definite reason, the air is full of rumors of an approaching election. Our morning and evening daily contemporaries are talking to each other in a most improper way, vague hints are reported to have been dropped by various public men and are being enlarged upon by men who are not quite so publike but would like to be, and, most ominous sign of all, John Oliver is sliding around the Province with the same feverish activity—but *not the noiselessness—of a lump of* butter on a hot plate. The Week has no information, accurate or otherwise, to contribute to the existing state of things. This much is certain, if there is any provincial election pending, it is more likely that its principal issue will be something very important connected with railways. *There is one other thing that* is very certain, and that is that the present Provincial Government will be returned to power. Their record since they assumed the reins of office in 1903 has been a magnificent one, and productive of great prosperity and advancement throughout the province. Their task has not been an easy one, for they had to rectify the mistakes of incompetent predecessors, but the work has been very thoroughly done. They have earned the confidence of the people of this province, and the confidence of the outside world of investment and finance. They will have their sure and certain reward when the voters mark their ballots.—Victoria Week.

Its a cinch that Dr. Cook's book will be a better seller than Peary's. The detailed account of his thrilling struggle to get back to civilization when he and his two faithful Eskimos destitute of supplies, ammunition and fuel, lived the life of primitive cave men, will make a narrative of absorbing interest.

Having sailed north in a ship named after the man who, according to Dooley, was "alone in Cuba," naturally Peary insisted on being alone at the Pole.

The Hudson-Fulton celebration has not been in vain. Among New York's varied and manifold resources it has revealed thirty-eight bagpipers, all Scots.

The tariff duty on imported Chinese josses raises a question as to whether it is a home manufacture or a religion it is sought to protect.

Visitors to the city are respectfully requested not to mistake the Government building for the home of the Board of Trade.

The difference is that the Mauretania smashes records without sacrificing lives.

Have you seen the comet?

Minister—And the child's name, madam?

Mother (firmly,)—Name him Frederick Robert Cook Peary Smith. I am not going to take any chances.

ARTIC ITEMS

(London Punch.)

Tourist—The tourist season opened early this year, our first visitor arriving on April 6. It will be remembered that last year the rush for the Pole commenced on April 21.

To Let—The North Pole (just off) *old-fashioned* snow bungalow standing on its own floe. One kitchen-bed-sitting-room. Suit family of nine. Southern exposure on four sides.

Wanted—Great Northern Hotel, Peary Avenue, night porter; hours September to March; six months' holiday annually; Protestant, sober; sleep out; salary to suitable man two walrus tusks and eight dried penguin per month.

Can any lady recommend single-handed housemaid for small family in ice cave; must help with fur repairing, but all thawing sent out.

Blubber—For indegestion try our Pasteurized Jersey Whale Blubber; no cooking required; sold only in two-pond blocks.

Candles—The most suitable present used as an illuminant one of our carefully matured tallow candles. If *used as an illuminant one of* odr candles will maintain a one-candle-power light until consumed; if used as a condiment it will supply more than three times as much nourishment as an equal bulk of whalebone.

TO RENT.

5 roomed Cottage, close to the new school. Electric light, water and 'phone. Apply

CRANBROOK, B.C

WELCOME WORDS TO WOMEN

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over 40 years' experience—a skilled and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as sacredly confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce holds that these distasteful examinations are generally needless, and that no woman, except in rare cases, should submit to them.

Dr. Pierce's treatment will cure you right in the privacy of your own home. His "Favorite Prescription" has cured hundreds of thousands, some of them the worst of cases.

It is the only medicine of its kind that is the product of a regularly graduated physician. The only one good enough that its makers dare to print its every ingredient on its outside wrapper. There's no secrecy. It will bear examination. No alcohol and no habit-forming drugs are found in it. Some unscrupulous medicine dealers may offer you a substitute. Don't take it. Don't trifle with your health. Write to World Dispensary Medical Association, Dr. R. V. Pierce, President Buffalo, N. Y.—take the advice received and be well.

Tax Sale Notice

Sale of Lands for Unpaid Taxes in the Fort Steele Assessment District, Province of British Columbia

I HEREBY GIVE NOTICE that on Tuesday, 12th of October, A.D. 1909 at the hour of ten o'clock in the forenoon, at the Court House, Cranbrook, B. Kootenay Steel Range

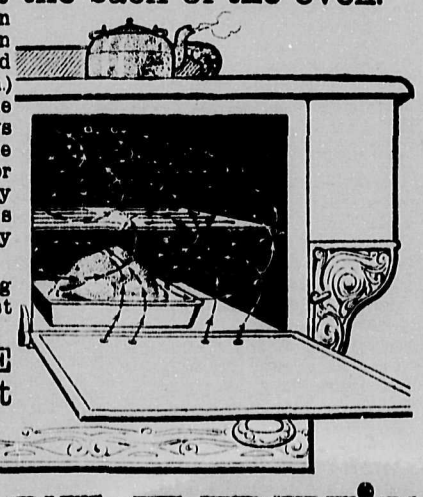
Fresh air is introduced into the Kootenay oven through a series of vents at the bottom of the oven door, and the cooking fumes carried out through another series of vents at the back of the oven.

(Arrows in illustration show method of ventilation.) The air in the oven is always kept pure. The natural flavor of every article is completely retained

Everything tastes most delicious.

FREE Booklet on request.



McCLARY'S

FOR SALE BY PATMORE BROS.

Cranbrook Electorial District

EAST KOOTENAY
(DISTRICT LOCAL NEWS)

FERNIE.

FERNIE FREE PRESS.

The boilers for the Power Plant are expected to arrive Monday.

A crew of bears did an assessment on the grub pile of the Fernie coal syndicate that control a bunch of coal lands near the North Kootenay Pass in Alberta. The commissariat formation was pockety and pinched out.

The Great Northern will run a special excursion to Baynes Lake on October 17th, leaving at 10 a. m. and returning at 5 p. m., the regular rate being reduced to fare and one-third. The object of the excursion is to make the people of Fernie more familiar with the big fruit country which is opening to the south of us. Refreshments will be served at the club house.

DISTRICT LEDGER.

Harry Gorrie shot a mountain goat at Aldrich Creek, weighing about 400 pounds last week, and David and Matthew Gorrie shot a fine deer at Jaffray.

Excavation for the new Royal Hotel has been started at the corner of Cox and Baker streets.

A Mounted Police officer was up here on Wednesday to get some fellow the local police had nabbed and who was wanted in Alberta.

All the papers are speaking very highly of the San Francisco Opera company which plays here on the 13. They are old favorites with Fernie and should have full house audiences.

MOYIE LEADER.

A street fakir held foth last Tuesday evening and disposed of the usual amount of junk. As is always the case several were hypnotized by the smooth talk and were "stung."

One shift at the St. Eugene concentrator was laid off the first of the month, but it is the opinion this arrangement is only temporary. The mill is run from 12 midnight until 8 in the morning, and from 8 in the morning until 4 in the afternoon, and all repair work is done from 4 in the afternoon until 12 midnight. Ten or 15 men were laid off on account of the change.

Fire broke out in the dry room at the International Hotel shortly after midnight Saturday and the building was gutted. The fire brigade turned out promptly and did good work. Messrs. Taylor & Bonner estimate the loss at $350. The fire is supposed to have caught from a candle burning through the candlestick and dropping to the floor. Several miners lost all their change of clothing.

CRESTON REVIEW

Judge Wilson, of Nelson, was shaking hands with old friends on the station platform Monday, on his way east.

There has been no frosts as yet this year to injure the tomato crops at Creston.

By an official proclamation of the government, Monday, October 25, has been set apart as Thanksgiving Day.

Brock Moran and Billy Taylor, who have been hunting up the Kootenay river for the past week, returned hence on Wednesday evening. They were quite successful in bringing back a lot of fine specimens of the feathered tribe, but report that they could find no trace of the wild man, who was reported to be at large.

MICHEL REPORTER.

A horse was killed in No. 8 mine on Saturday.

Horses from the mines at Morrissey, have been shipped in for use here.

The telephone linemen have been steadily at work, and it wont be long till we hear a local "Hello."

Tenders for the construction of the waterworks here will be called for next week.

The autumn tints on the mountains add great beauty to the scenery throughout the Pass.

The farmers of the Elk have had excellent crops this season and the vegetables are very plentiful. All their products find a ready market here, and there is a heavy demand for more.

Frisco Opera Company

"The Gay Parisienne," which will be the offering of the San Francisco Opera Company at the Auditorium Tuesday, October 12, was originally played at the Duke of Yorks Theatre London, Eng., by Chas. Frohman. It was the opening piece at that theatre and had a remarkable successful run owing to tde many excellent parts and its world of humor. Miss Lois Frear, endeared to all Londoners, sprang into fame and fortune in a single night by her work in "The Gay Parisienne". Naturally the production by the San Francisco Opera Company has been brought up to date and gives Teddy Webb the major portion of the work to do. In the first act he has a duett, with Mabel Day, entitled "Tweedeidum and Tweediedee" that is excellently well done and the "Cock-a-doodle-doo" quartet in which Mr. Webb is assisted by the Misses Day and Leicester and Will H. Smith is a comedy scream. Those two songs as far as fun is concerned are probably the biggest hits of the piece, but Mabel Day's wonderfully flexible voice is heard to advantage in an interpolated number, the Polonaise from "Mignon." James Stevens "I Love the Last one best of all", is another gem as in "Shine on Harvest Moon," sung by Georgia Campbell, niece of May Irwin. A fine mechanical and electrical effect is the moon used in Miss Campbell's number. Will H. Smith, the English comedian and producer, assisted by the Misses Henry and Graham, have a dancing number that would be a hit anywhere. Space will not permit of a more extended mention of the many entertaining features of the Gay Parisienne. Suffice it to state that Manager Healy claims that it will excell in entertaining qualities all former offerings of this really talented company.

Bernier's Journey

Ottawa, Oct. 6.—Nothing is known here as to the claim that certain members of Capt. Bernier's crew made the Northwest passage for the first time in sixty years more than is contained in press despatches received from Quebec, Capt. Bernier's report not having yet been received at the department. The officials are therefore somewhat in the dark as to what Capt. Bernier claims to have done. That the trip made was an overland journey is, however, perfectly clear, and this does not of course not constitute what is recognized as a Northwest passage, which must be made by a ship. If the route is ever to become of value, commercially, it must be as a water route and not as a land route. It is possible that Capt. Bernier, in putting forward his claim, is not aware of the feat of Amundsen, the Norwegian explorer, who some years ago made the round trip. As near as can be recalled here, Amundsen came out to civilization with the story of his successful trip just about the time and possibly a little later than the date of Bernier's departure for the north. It is quite possible, therefore, that Capt. Bernier has never heard that the Northwest passage was conquered in recent years by a Norwegian.

Foley's Canadian Girl Chocolates

A box of chocolates is the always-acceptable gift to girls of all ages. The youngest love them and no man should ever think his wife is past the chocolate stage.

But the girls of no age will "stand" for poor chocolates. They want the best and the best is Foley's "Canadian Girl"—the rich, exquisitely flavored real chocolate chocolates.

Made of purest ingredients, flavored with the natural grated fruit, they are in every way the most delicious confections sold.

Foley's "Canadian Girl" Chocolates are the best for the girls of the West. Buy a box and see for yourself.

In Dainty Boxes wherever good Candy is Sold.

A despatch from Ottawa states that F. C. Wade, K. C., will probably be appointed Lieutenant-Governor of British Columbia in a few days.

Vancouver proposes to erect a memorial to the honor of David Oppenheimer, a former mayor. Mr. Oppenheimer was a well known visitor to East Kootenay in the early days.

John Wolf, left last week for Fort Steele to engage in business. He is sure that the K. C. R. will be under construction this fall, somebody told him so.

James Bates, and Frank Dickinson left on Thursday on a trip to the new game preserves on the headwaters of Elk river. Mr. Bates as game warden will post notices reficent black faced rams heads from

Scotty Buchanan, of the Wentworth Hotel has received two magnificent b.ack faced rams heads from Scotland, which attracted considerable attention during the past week.

When the city took over the water works system the City Council, after due deliberation, decided to charge a double rate for those living outside of the city limits and using the water. The reason for this is apparent when explanation is given. Those living inside of the corporation are subjected to certain property taxes to pay for municipal improvements, including the purchase of the water works, while those living outside do not have to pay anything along this line. For this reason those outside have no grievance, since they are getting the privileges and paying altogether less than the taxpayer inside of the corporation.
