VOLUME 16 | CRANBROOK, BRITISH COLUMBIA, SATURDAY, JULY 30, 1910 | NUMBER 31

THE NEW LIQUOR ACT

Stringent Measure Effective August 1.

LICENSE FEES RAISED

Number of Licenses Lawful—Sunday Closing—No Liquor in Prohibited Hours.

As the new liquor law of British Columbia takes effect August 1st and is to be strictly enforced thereafter, the following is a comurehensive abstract of the law.

The new act governing the sale of and traffic in intoxicating liquors in this province, passed at the last session of the legislature, and declared by legal experts to be the most stringent, drastic and at the same time practical piece of liquor legislation on any statute book of a British Dominion, comes into force and effect throughout British Columbia on the first of August, and will be strictly and impartially enforced from that date. It passed the local parliament (which must be recognized as representing undeniably the will of the people of the province which had just elected its members) by unanimous vote, and therefore crystallizes the well-considered views of British Columbia today on the subject of liquor law. To attempt to introduce any other prohibitory or regulation system until this new law of the land, enacted with unanimity by a legislature fresh from the people, has been fairly tested in practice, would be not only irrational but a gratuitous insult to constituted authority, and to the people by which that authority is created.

Not only are the fees for almost every form of license increased under under the new act, but the penalties prescribed for infringements are made much more severe than of yore; and the number of licenses which may be held in any one district is limited in a way not even hinted at in past legislation. The first part of the new act applies to the granting of the various licenses, and holds good only in the unorganized districts, cities and other municipalities being, of course, governed in this respect by the provisions of the Municipal Clauses Act, or, as in the case of Vancouver, a private charter. The remainder of the act applies to the whole of the province.

The first new provision af the act is one empowering the government to appoint an inspector of licenses for British Columbia. His jurisdiction will extend alike over organized and unorganized districts and chartered cities, and his deputies, ex-officio will be the chiefs of police in the police districts. It will be his duty to inspect all licensed premises, to report upon all applications for licenses and generally to see that the law is honestly and strictly enforced throughout the entire province.

In cities and organized districts the fixing of the license fees is to a certain extent necessarily at the discretion of the local authorities, but in the unorganized districts, which come under direct control of the local Province, license fees are advanced from $200 to $300 per annum. The number of hotel licenses for the retail sale of liquor in each district is limited, and the standard of accommodation demands of all such licensed premises is very materially raised, the license fee being at the same time increased. Under the old act the hotel license fee in a district of upwards of 200 inhabitants was set $200; in a district of 100 inhabitants at $125; and in a district of less than 100 inhabitants at $75. According to the new art the fee in the districts of upwards of 1000 inhabitants is set gt $300; in districts from 500 to 1000 population at $200; and in districts of less than 500 population at $125. The securing of a hotel license under the new act tne fee in the districts of much harder matter than under the old regulations, In the first place before any license can be granted, a petition must be presented to the licensing guthorities in favor of granting of such license, which petition must be signed by two-thirds of the householders living within three miles of the spot where it is proposed to establish the licensed hotel, no foreigners being permitted to appear as petitioners, and wives and children being counted in the total population from which a two-thirds majority; petition is required. It is further enacted that until a locality has an adult white population of more than 1000, not more than three hotel licenses may in any event be granted. Once the locality has attained a population of 10000, a fourth license may be added; and after that, an additional license for every new thousand of population, always upon a two thirds petition of the interested residents.

Part III of the new Act, which deals with the taking of orders for liquor by commercial travellers and with the licensing of steamships and railway cars for the sale of liquor, is little changed from the old Act, the principal exception being that the fee for license on steamships is increased from $100 to $150. It is further enacted that special licenses which might under the old Act occasionally be granted to steamships for excursions or similar special occasions, shall hereafter under no circumstances be issued.

Part IV of the Act, which deals with Sunday closing and prohibited hours, enacts only that all bars and places for the sale of liquor must be securely locked from 11 o'clock each Saturday night until 5 o'clock Monday morning, this regulation applying to cities, municipalities, organized or unorganized districts, and preemptorily placing a stoppage upon the trade heretofore constituting the most important factor of the roadhouses. No mention is made of week day hours of opening or closing, the understanding being that regulations in this respect are to be made by the local authorities or to conform therewith. Under the old Act it was possible for thirsty souls to secure drinks during prohibited hours by merely registering at a hotel abd thereby posing as a bona fide guest. Under the new act this is impossible. It is stipulated that bona-fide travellers may have liquor with their meals, such liquor to be consumed only in the dining room. Just what constitutes a bona-fide traveller is specificially defined so as to exclude the toper who registers merely for the sake of getting a drink; and it is specifically enacted that excursionists shall not be considered as travellers. The list of those to whom hotel keepers are forbidden to sell liquor is infinitely more comprehensive under the new Act then under the old. Not only are bartenders forbidden to supply liquor to recognized dipsomaniacs, but it is also made an offence to provide with liquor, either by sale, gift or barter, "persons notoriously of drunken habits," "persons addicted to drunken debauches or sprees," and "persons who openly and notoriously waste their money in liquor and riotous living to the detriment of their families or those dependent upon them". It is further forbidden to sell liquor to minors, vagrants or tramps, prostitutes, Indians and chauffeurs operating any vehicles plying for public hire."

The facilities for blacklisting any person to whom it may appear desirable that liquor should not be sold, are infinitely extended; hereafter it is to be within the power of the Superintendent of Provincial Police, the License Inspector, or any Chief of Police, upon confidential communication in such premises made to him, to interdict the sale of liquor to "any person resident or sojourning witnin the Province of British Columbia who by excessive drinking of liquor, misspends, wastes or lessens his estate, or injures his health, or endangers or interrupts the peace or happiness of his family." The penalty for infringement of the act is a fine of not less than $100 and not more than $300, or in default imprisonment for not more than nine months. Under the old act the penalty for infringement of the regulations was cumulative, running for the first offense from $50, to $250; for the second offense from $200 to $300, and for the third from $500 to $1000; it was found that under the old regulations the cumulative nature of the fines seldom came into play beyond the second offence, the licensing authorities usually refusing to renew the license of the holders who had been twice convicted of infringements of the regulation. For this reason the equally heavy penalty for all offenses whether first, second or subsequent, has now been adopted.

There are also included in the new license law the following essential new features:

The Superintendent of Police has the right at any time to cancel or suspend any license in the Province.

Every hotel must have a bar-room entirely separate and apart from any other room, also a separate sitting room, and separate dining room.

Every hotel must have at least seven guest rooms, with minimum floor space of 700 square feet, and comfortably furnished.

Ventilation and facilities for egress in the event of fire must be provided to the satisfaction of the inspector; also accommodation for the licensee's family, kitchen, and stabling for at least six horses.

No one may hold a license who has lost that privilege within three previous years, or who has been convicted of a criminal offense.

All bar-rooms in the Province (either in cities, towns, or unorganized districts) must close on Saturdays at 11 p. m. and remain closed, and so as to afford gn open view to the public. until 5 a. m. Monday.

No liquor may be adulterated, rebottled, or refilled, and officers may at any time take samples for analysis.

No sale of liquors may at any time be made to "joy riders," that is pleasure-riders, motoring or driving, and not bona fide travellers.

No woman may be served with liquor in any public bar-room.

No gaming may be permitted on any licensed premises, nor any nickel-in-the-slot device.

No officer or member of the crew of any stegmship may be served with drinks at the bar of such steamship.

Such in abstract is the new license law of British Columbia, coming into force and operation with the month of August.

"This law is made for enforcement" says the Attorney-General, and it will be enforced impartially and thoroughly.

BULL RIVER CANYON

At the Falls of Bull River, just above the canyon the Bull River Power Company have constructed a flume a mile and a quarter in length and will harness the power of the falls, installing a power plant capable of developing 10,000 horse power.

Where Blind Pigs Operate

Although it is practically assured that the advocates of Local Option in the administration of liquor matters intend to test the feeling of Prince Rupert citizens as to the introduction of the "Canada Temperance Act" better known as the "Scott Act" in that city, it is a vietual certainty that if they do the verdict will be anything but encouraging to these intemperates of the temperance party," says a well-known barrister of the G. T. P. at present visiting this city on professional business. "Prince Rupert has had a taste of how impossible it is to prevent or control illicit liquor selling under the "no license system", this gentleman continued, "conditions there were approximately the same before the incorporation of the city as they would be under the Scott Act rule—but for the important fact that the police power was available and active in endeavoring to prevent the sale of liquor.

"Yet we have definite knowledge that upwards of seventy "blind pigs" were operated at one time, and the proprietors maintained a regular staff of spotters, paying wages of $3 a day to keep eyes upon the police and advise of their proximity. It certainly was enough too, to destroy the health of the patrons of these dives—the awful stuff they served as liquor by stealth. Paying no license fees and constantly taking their chances of being heavily fined, vended some of the most awful concoctions that a depraved palate ever endured.

"It may be fairly said that when the proposition was put up to the Province of British Columbia as to whether or not local administration of the liquor traffic should be initiated provincially, our district voted "yes." But that did not by any means suggest that the residents favored any such law as the Scott Act. It so happens that by the incorporation of the city, Prince Rupert obtained the same opportunity as it would had the Local Option plebiscite carried—that of locally deciding as to the most practical method of liquor administration. And with an experience of "no license" very fresh in mind, the citizens gt the first opportunity afforded by the initial civic election, proclaimed for the entire ticket committed to high license and strict regulation—the principle embodied in the new provincial liquor traffic act which comes into force next month."

Mr. and Mrs. W. J. DeBeck, of Vancouver, are expected to arrive today for a short visit with their many friends in this city.

THE GAME LAWS

Regulations Governing the Killing of Game for 1910

Following are the regulgtions made under the Game Act for the open and close season during 1910.

Grouse of all kinds, in the Fernie and Cranbrook electoral districts may be shot only during the month of October.

Prairie chicken may be shot throughout the Province during the month of October.

Ducks, geese and snipe may be shot throughout the mainland between 1st day of September and 28th day of Febrdary, both days inclusive.

Game of all kinds are reserved in the Elk River reserve, in the South-east Kootenay district.

FROM THE GAME ACT

No minor under the age of sixteen years, unless accompanied by his parent, or guardian is allowed to carry fire arms for any purpose whatsoever.

Arrangements of Train Crews

The C. P. R. passenger engines on the Crow now run from Cranbrook to Lethbridge and back, instead of running to Crows Nest and return.

By thus doubling these two subdivisions, the railway company accomplishes the same object that was aimed at by the recent contemplgted change by which the passenger and engine crews were to run from Medicine Hat to Macleod and from Macleod to Cranbrook. No train crews have to move from Cranbrook, as they would have to, if the latter proposed arrangements had been carried out.

By doubling up these divisions the saving in engines is made, but the same number of crews are still on the run, four being assigned to Cranbrook and four to Lethbridge.

Moyie Shut Out

Mallory was invincible on Tuesday evening, while Cranbrook hit Bragaw freely and won the game 8 to 0.

Moyie's hits went to waste, for not a single man reached the third bag during the game, and only two singles were recorded. Star ball was played, but the visitors were outclassed.

Cranbrook played professional ball, and scored 8 runs, had six base hits, and a home run to their credit. Not once during the game did Mallory give tne Miners a show to make a run. The fielding was snappy, and the big crowd was full of enthusiasm This was the game of the season.

A feature of the game occurred in the 7th when McWha was put out at first by Lundberg who slipped to the base, while McWha was standing along side of, and watching the "good old bear."

Another feature was Mallory's home run in the 5th.

Following is the score by innings:

Moyie	0 0 0 0 0 0 0 0 0	0
Cranbrook	4 0 0 2 1 1 0 0	8

WILL BUILD CONCENTRATOR

AURORA A BIG MINE

Shareholders Visit Property—Express Satisfaction of Development Work

A large number of Cranbrook share holders of the Aurora mine visited the property on Sunday last.

The party consisted of Arnold Raworth, Geo. Legsk, G. Corey, John Reed, E. Brown, W. B. McFarlane, F. Dunn, J. Stevens, A. C. Bowness, G. Anderson, J. C. Mackay, and several others.

The inspecting party had quite an experience while crossing the lake, the waves showing white caps and quite rough, though to many the trip was very pleasant.

Upon reaching the mine the party were met by the genial manager Mr. Harry Dimmock, who kindly escorted the party through the workings of the mine. Everything was found in excellent condition, a large amount of ore in sight, a ledge from four to six feet in width, and over 3,000 tons of ore on the dump. The party returned late in the evening, tired, but well pleased with the conditions existing at the mine.

The Aurora mine is located on the west side of Lake Moyie opposite the town of Moyie, and the famous St. Eugene mine, approximately in the line of the strike of the St. Eugene and Lake Shore veins, and which is popularly considered to be an "extension", and which has been demonstrated to be true, by the development work performed on the Cambrian mine.

The property is located close to the shore of the lake, and cuts up the hill with a strike similar to the St. Eugene. At an elevation of some 200 feet, a tunnel has been driven in along the strike of the vein for a distance of 480 feet. A stope has been raised above the level, having a maximum height, above the level, of some 85 feet, and a maximum length of 125 feet; between this large stope and the mouth of the tunnel the tunnel has been run through two smaller ore bodies of ore, the exact dimensions of which have not been ascertained. The face of the tunnel is approximately 275 feet vertically below the surface. About 160 feet vertically above the main tunnel level, and almost above the big stope on that level, a shaft has been sunk to a depth of 75 feet, from which a drift has been run to the west for 180 feet, in which a considerable amount of ore was encountered, leading to the expectation that the ore in the main stope may continue up to that level. Some 50 feet vertically below the main tunnel and a few feet above the lake level, sufficient only for a dump, another tunnel has been driven for a distance of 385 feet, following a vein varying from two to six feet in width, the face of this tunnel, at the present time is in a very high grade of clean ore.

The ore is galena, with some lead carbonates, carrying silver very similar in character to the St. Eugene ore, the ratio of lead units to ounces of silver being about as 1 is to 2, and carries a little zinc blende; the gangue is quartz. The better grade of ore will run about 28 per cent lead and 10 ounces in silver, but the mass of the ore will require concentration. The vein is quite regular and varies in width from 2 foot to 6 feet, with the face of the tunnel now carrying a fullbreast of clean ore.

It is the intention of the Company to install a 50 ton concentrator as soon as possible, the order for the same is now in the nands of the manufacturers. The building will be constructed so as to admit of a large extension of the concentration plant.

At present the company employs about a dozen men, but this force will be increased as soon as the concentrator is installed.

The Aurora, like the St. Eugene is destined to be one of the largest silver lead mines in Canada.

Corbett has man to Fight Johnson

Jas. J. Corbett has an "unknown" under cover who he hopes will show Jeffries lost to Jack Johnson at Reno Hugh McIntosh, the Australian promoter, who staged the fight between Johnson and Tommy Burns, has been sufficiently impressed to put out a challenge in behalf of the unknown, backed by a $5,000 forfeit to be used later as a side bet. If Johnson declines the offer is open to any other man worthy to be considered a candidate for heavyweight honors. Corbett refuses to make known the identity of his protege, and there is some doubt in sporting circles that he has anything more specific in mind than a desire to see Johnson licked.

McIntosh, who is now in New York, says in his challenge: "The unknown will be named by James J. Corbett, and will also be trained by him, the fight to take place in the United States, England or Australia, and I agree to offer a purse the amount of which to exceed that offered by any person.

"As an evidence of good faith I am willing to deposit the sum of $5,000 as a guarantee with Timothy Sullivan or any other responsible person the same deposit to go as a side bet if desired. The only stipulation I make is that the contest be twenty rounds or over.

CRANBROOK IS SAFE

No Danger From Bush Fires

WARDEN'S STATEMENT

Only Danger is Inside City Limits Which is Under Control of Chief of Fire Brigade

Fire Warden Benson states that the fires surrounding the city are all under control, and that the only damage done so far is to the timber. The fire south of the town is now practically out and the ranches in that direction are safe. The fire out near the "Japs" sawmill is under control and unless some unforeseen accident takes place will do no further damage. The fire in the Canyon east of the prairie is not spreading and citizens need feel no alarm from this fire. Outside the city limits, Warden Bensen has a large crew of men engaged in watching these fires and is giving them no chance to get the upper hand.

Sunday afternoon, just after 214 had passed through, the freight shed at Moyie was discovered to be on fire, and in quick time was reduced to ashes. Owing to the fact that that many members of the Fire Brigade were at Aldrich, witnessing a ball game, the home guard had about all they could do to handle the fire, and prevent its spreading to the station. A spark from a passing locomotive ignited the platform of the station but was extinguished.

Millions For Coal

Victoria, B. C., July 19.—The entire holdings of the Pacific Coal Mine Co., Ltd., on Vancouver Island have been purchased by the C. P. R. for $4,000,000,000. John Arbuthnot, president of the company, is now enroute to Montreal to complete the deal. The option upon the cpmpany's holdings was taken some few months ago shortly after the announcement of purchase of Dunsmuir interests by the C. N. R.

IMPORTANT INDUSTRIES

The signs of the times certainly indicate that Cranbrook is one of the most progressive cities in the interior, and our business men realize this and are prepared to meet every contingency. The most recent addition to our business houses is the Quain Electrical Supply Co. This firm handles all kinds of electrical commodities such as lamps, shades, irons, fans, toasters, coffee percolators, hot water heaters, warming pans, chafing dishes, sewing machine motors, in fact all sizes of motors up to 25 horse power. The very latest electrical commodity is the washing machine and wringer combined, and it is not only a labor saver, but also a money saver, being able to do all the family washing in a very short time for a few cents. The Quain Electrical Supply Co., are prepared to do all kinds of wiring, and installing at short notice, having a competent staff for all kinds of work. A visit to this emporium is very interesting and Mr. Quain is only too willing to show and demonstrate any or all of the very latest electrical devices that are handled by his firm.

A MONEY-BACK HAIR GROWER DANDRUFF CURE

Read what Mrs. H. Lawrence, 158 W. 17th street, Holland, Mich., writes about the marvelous results obtained from the use of Parisian Sage, the delightful hair tonic, which is now on sale all over Canada.

"For several months my hair had been falling out, and dandruff also appeared. I used some so-called hair tonics and renewers, but never received any relief from the scalp disease until I procured Parisian Sage, and used it for about two weeks. Parisian Sage made the hair stop falling out, and caused it to grow in quite heavily, stopped the dandruff, and made the scalp cool, clean and comfortable. It also leaves the hair silky, and does mot make it stiff or sticky. I endorse the use of Parisian Sage. It is all right."—October 30, 1908.

Beattie-Murphy Co., are the agents for Parisian Sage in Cranbrook, and they think so well of it that they guarantee it to cure dandruff, stop falling or splitting hair or itching of scalp, in two weeks, or money back. It will make any woman's hair soft and luxuriant in a few days. Price 50 cents a large bottle at Beattie-Murphy or direct, all charges prepaid from the Canadiam makers, the Giroux Mfg. Co., Fort Erie, Ont.

UNION LABEL

HITS THE ENEMY.

The suggestion that Mr. Borden in his Ontario speeches should discuss some topic other than the government's failings comes almost regularly from the Liberal press of Canada. The fact has its meaning. The opposition leader is hitting the enemy where it feels it has no defence.

MATERIAL FOR ISSUES.

The Laurier government continues to give the opposition material for issues. At the moment a promise to *remove from* the public pay lists those immigration officials who persecute hard working newcomers and insult and browbeat Canadians returning to their home land would be calculated to make many decent-minded men vote for the makers.—*Fredericton Gleaner.*

UNBLUSHING SPENDTHRIFTS.

The members of the Laurier government who preached economy in opposition have placed themselves on record as an aggregation of unblushing spendthrifts and profligates. With an excess revenue of hundreds of millions over that enjoyed by their predecessors in office, they actually have the audacity in the last few years to increase the national debt by nearly $88,000,000. Many national and imperial reasons exist why such a political combination should be turned out of office.—Toronto News.

FOR HONEST GOVERNMENT.

The success of Leader Borden's tour of Ontario, the convincing effect of his searching criticism of government methods, his scathing arraignment of the misdeeds of the leaders of the New Liberalism, the "horrible" examples of administrative waste, negligence and graft he could bring forward as proven by parliamentary records and investigations, and the patriotic nature of his appeal for honest government, clean methods of *administration and a statesmanlike* appreciation of Canada's problems in relation to the Empire, caught the interest of the electorate he addressed and brought him into close touch with large and representative audiences. The tour was a success viewed *from every standpoint.* The only criticism that the government press could offer was that Mr. Borden has been devoting too much time to discussing the government failings, and that there were greater issues for a political leader to present to the people.

This is to be expected from the Laurier press. Mr. Borden was hitting a sore spot for the government newspaper organs. The best of the Liberal journals are ashamed of the methods so unblushingly adopted by the new Liberalism at Ottawa. They would greatly prefer that Mr. Borden would outline some of his policies that they might be available for the Ottawa Liberal politicians too adapt to their own purposes. They have in the past done the opposition leader this honor.

The independent press recognize that Mr. Borden's tour was one in which he preached effectively the *gospel of honest government.* And honest government is what Canada lacks today. The Toronto News says of the campaign of enlightenment Mr. Borden has undertaken:

"The tour of Old Ontario, which Mr. Borden has just made by way of *preparation for the next general* election may fairly be characterized as having been remarkably successful. With one exception, the audiences which he addressed were large and enthusiastic. The people were interested and cordial.

"*It is increasingly evident that the* people at large have come to regard him as the next Prime Minister. Thousands now feel that the day of his succession cannot long be postponed and they greet him accordingly. Everywhere is to be found a growing confidence in his prospects, increasing disgust of many Liberals with the acts of official Liberalism. At all points prominent citizens have turned out to hear and meet the Opposition leader. He has shown a greater facility than ever before in getting into close touch with his audience. His hearers have responded heartily, and numbers have remained after each meeting to shake hands and make his personal acquaintance."

When Mr. Borden tours the West next year he will come thrice armed to storm the castle of decaying Laurierism. He will have the knowledge that there is behind him a great body of sound Ontario opinion, opposed to the exploitation of the country for mere party ends, that the Dominion wants progressive government to go hand in hand with clean government, and that the West *has noted* his *stand on patriotic* issues, and appreciates his sterling worth and sane political outlook.

LICENSE TO AN EXTRA-PROVINCIAL COMPANY.

COMPANIES ACT.
(July 1st, 1910.)

CANADA:

Province of British Columbia.
No. 4A-1910.

THIS IS TO CERTIFY that "THE JOHN L. CASSIDY COMPANY" (Limited) is authorised and licensed to carry on business within the Province of British Columbia, and to carry out or effect al, or any of the objects of the Company to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company is situate at the City of Montreal, in the Province of Quebec.

The head office of the Company in this Province is situate at Cranbrook and W. F. Gurd, Barrister-at-law of Cranbrook aforesaid, whose address is Cranbrook aforesaid, is the attorney for the Company.

The amount of the capital of the Company is Five Hundred Thousand dollars divided into Five thousand shares.

GIVEN under my hand and Seal of Office at Victoria, Province of British Columbia this sixth day of July, one thousand (L.S.) nine hundred and ten.

"J. P. McLEOD"
Acting Registrar of Joint-Stock Companies.

The objects for which this Company has been established and licensed are:—

The manufacturing, selling and dealing in wholesale and retail all *kinds of earthenware, crockery, china,* glass-ware, silverware, lamp goods, cutlery and fancy goods generally.

To purchase, take over and lease, or otherwise acquire any lands, machinery, works or property that may be useful for the purposes of the *company;*

To erect and construct buildings, works and machinery in connection with the purposes of the company.

To purchase or otherwise acquire any other properties, rights and interests for any of the purposes aforesaid;

To acquire any trade marks, industrial designs, patents, patent rights, licenses, privileges or authorities for or in respect of any invention which may be useful to the company;

To mortgage, pledge, sell, let or dispose of any of the lands, works, trade marks, industrial designs, patents, patent rights or other properties of the company;

To hold and own shares and securities in other companies carrying on any business of a like nature, and to sell or otherwise deal with the same;

To take and acquire and hold security of any nature or kind, real or personal for debts, liabilities or obligations to the company, incurred or to be incurred, in respect of the purposes and objects of the company.

To do any and all matters and things necessary, fit or proper in and about the purchase, sale, importa*tion and manufacture of goods,* wares and merchandise, and generally to carry on the business of wholesale and retail dealers in all kinds of earthenware, crockery, china, glassware, silverware, lamp goods, cutlery and fancy goods generally;

To enter into partnership or into any arrangement for sharing profits, union of interests, co-operation, joint adventure, reciprocal consession or otherwise with any person, firm or company carrying on or engaged in or about to carry on or engage in any business or transaction which this company is authorized to carry on or engage in, or any business or transaction capable of being conducted so as to directly or indirectly benefit this company and to lend money or credit to, and to aid by guarantee, endorsement or otherwise any such person, firm or company, and to take or otherwise acquire shares and securities of any such company and to sell, hold, re-issue, with or without guarantee or otherwise deal with the same.

THE WATER SUPPLY COMPANY LTD.

NOTICE OF DISSOLUTION

The affairs of the Company having been fully wound up and the liquidator having made an account showing the manner in which the said winding up was conducted, which account is attached hereto, and the property of he Company having been disposed of, notice is hereby given that a general meeting of the shareholders of the Company will be held at the Company's office at Cranbrook, British Columbia, at the hour of five o'clock in the afternoon on the 8th day of August, 1910, for the purpose of considering the said account and any explanation that may be given by the Liqidator.

Dated this 8th day of July, 1910.

Look at the man above. He's SHAKING an ordinary furnace. He bends nearly double, exerts all his strength, works up a prespiration, and gets a sore back.

Now, look at the woman. She stands nearly erect, gently moves the lever to and fro, a few inches, and the ashes are dropped into the Sunshine ash-pan. This is called ROCKING DOWN. It's so easy a child can do it.

Which method do you prefer? Why, Rocking Down, of course.

Go to our agent in your locality. Let him show you the many other time-saving, labor-saving and fuel-economizing features of the Sunshine. Order him to install the Sunshine with a *guarantee* to heat your home to your entire satisfaction.

McClary's Sunshine Furnace

BORN—At Cranbrook, Mrs. Bent's private hospital, on Sunday July 24, to Mr. and Mrs. Arnold Williams, a daughter.

Mr. Geddes, of the Imperial bank staff, returned on Saturday from a three weeks holiday spent at Banff and Calgary.

Quite a number of citizens were making anxious enquiries where the fire was on Saturday last when the fire whistle was being tested.

C. E. Finch, and Charles Gibbertson, of Corbin, were in the city several days this week, on business connected with their lumber industry.

Messrs. Percy gnd Carl Baugh, of Summerby, Sask., spent Tuesday visiting their cousins, Messrs. Patmore Bros.

The gold watch put up by the Foot Ball club was won by Robert Garvey of the Cranbrook Trading Company's staff.

A. C. Bowness' new house on Norbury avenue is being rushed as rapidly as possible and when completed will be a credit to that residential part of the city.

The Epworth League held a picnic on Tuesday evening in the bush at the end of Pooley street, and a very pleasant time was spent by those present.

A. H. Nesbitt had the misfortune on Monday last to have one of the large trucks, used in moving the fire hall, rno over his right foot, severely crushing it.

The East Kootenay Produce and Provision House have a fine, large sign on top of their building advertising the buggies, wagons and sleighs they carry in stock.

A number of stock-holders in the Aurora mine went to Moyie Sunday to inspect their holdings and were very much pleased with the appearance of the property, and the work being done.

R. S. Aikins, of The Palm, has installed his new electric ice cream freezer and can turn out first class ice cream in large quantities on very short notice. "Bobbie" is up-to-date, and his ice cream is first class, none better.

W. A. Ravestyne, lormerly of the Express Co's., staff of this city, returned on Saturday from a trip to the old country. Mr. Ravestyne has accepted a position as messenger on the boats running from Revelstoke to Robson.

Haven't heard the Fire Whistle gt 12 o'clock. Wonder what's the matter.

TO RENT, furnished rooms, all conveniences, private home, apply to The Prospector office.

During the past week a serious fire has been raging south of the city and a lot of valuable timber has been destroyed. Among the heavy losers is John Reed, superintendent of government roads, who has lost about 170 acres of valuable timber.

Tuesday the Cranbrook Intermediates journeyed to Moyie to play the Moyie intermediate team. The game was fast and clean, except when the catcher of the Moyie team hit the Cranbrook first baseman with his knee. This play was totally uncalled for. The score was 2 to 1 in favor of Moyie.

Thimble berries at Stewart's today, they are very choice.

What might have been a serious shooting affair occurred on Armstrong avenue Monday evening. Some boys were fooling with a 22 revolver and used a neighbors woodshed as a target. The lady of the house was in the shed at the time and the bullet passed through a few inches over her head.

Choice cantaloupe and watermelons at Stewart's

Sir Wilfrid Laurier will tour British Columbia next month. In his itinerary, we find no mention of his stopping at Cranbrook. He will leave Kootenay Landing at noon Tuesday, August 30, enroute for Lethbridge. The only chance that the citizens of Cranbrook will have of seeing the Premier, will be the short time, that it will take to change engines.

Mrs. Halsall, of Killam, Alta., arrived in the city Tuesday and left immediately for Wycliffe to assist in the search for her sister Miss Agnes Smith who has been missing for the past two weeks. Up to the present no trace has been received, though large searching parties have looking over the adjacent country, assisted by many Kootenay Indians.

Go to Stewart's for fresh buttermilk. He receives daily shipments of Hazelwood double jersey buttermilk.

The pictures at the Opera House this week are worthy of special mention and those who have not attended have missed a treat. Mr. Fraser has been untiring in his efforts to give his patrons the very best films possible and his efforts are deserving of more appreciation. The opera season will soon be opening up and Mr. Fraser has alreay booked several of the best companies on the road.

Choice Peaches, Pears, Plums, and Apples at Stewart's today.

The East Kootenay Produce and Provision House have completed the store for their retail trade department and have laid in a complete stock of groceries and canned goods of all kinds. The very best blends of teas and coffees, butter and eggs and fresh fruits. It is the aim of Mr. Murray to give his customers the best value for their money, all he asks is to be given a trial and he will convince you of the fact.

Hazelwood Ice Cream at Stewart's today. Strawberry Vanilla, and Lemon flavors.

The Presbyterian Sunday School held their annual picnic on St. Marys prairie Tuesday afternoon. We understand a very enjoyable time was spent by all who attended.

F. E. Simpson returned last Friday from a trip to Kamloops and Vancouver. He expects to remove about the first of August to Kamloops. "Old Man" Simpson's removal will be a distinct loss to this city, and Mrs. Simpson's absence will be felt in social and fraternal circles. Mrs. Simpson has been an indefatigable worker in the interests of the Rebekahs and her departure will be keenly felt by her large circle of friends in this city. The Prospector joins in wishing Mr. and Mrs Simpson every success in their new home.

The body of the late Agnes Smith was found on Thursday afternoon in the St. Mary's river near the St. Eugene Mission.

The executive of the Cranbrook Agricultural association are sparing no pains to make the fair this year a success. Strong committees have beeo appointed and every energy is being put forth to arouse an interest in the general public. "Let's all boost."

Messrs. Worden & Nesbitt have the fire hall removed and placed on its site on Norbury avenue. The work has been accomplished very quickly and without any serious mishap. The main building was placed within six inches of its site witnout any hitch.

"We would respectfully suggest" remarks one of the interesting Interior papers, "that Prince Rupert or Chilliwack send an exhibit of 'blind pigs' to the Dry Farming Fair at Spokane this Fall. These creatures flourish in the "dry" districts, and Prince Rupert or Chilliwack should be able to make an interesting and instructive display."

The East Kootenay Butcher Co., have purchased P. Woods & Co's meat market in this city, and will take possession on August 1st. This firm is comuosed of Messrs. F. W. McDonald, former manager of the local branch of P. Burns & Co., and D. Doyle of Nelson. We are informed on the best of authority that this firm is in no way connected with P. Burns & Co.

The Cranbrook Base Ball club left on 213 Thursday. The following is the schedule of games they expect to play. Two games with Nelsan, one with Trail, one w th Rossland, and two with a team at Colville, Wash. They also expect to play several games before returning to Cranbrook The boys have putting up the best kind of ball all this season, and will maintain their record while on their tour. The Prospector, together with a large number of base ball enthusiasts, join in wishing them every success on their trip.

The office of the Kootenay Telephone Lines and the Cranbrook Electric Light Co., are undergoing transformation and when completed will be very convenient. The former private office is being made into a long distance office as the growing demand in this department is such as to render a seperate switch board necessary. These companies believe in considering the requirements of their patrons and keeping abreast of the demands made upon them. When the alterations are completed Cranbrook will have one of the most up-to-date telephone exchanges between Winnipeg and the coast.

No Man is Stronger Than His Stomach

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition needed to make strength.

Such a man should use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, invigorates the liver, strengthens the kidneys, nourishes the nerves, and so GIVES HEALTH AND STRENGTH TO THE WHOLE BODY.

You can afford to accept a *secret* nostrum as a substitute for this non-alcoholic medicine of KNOWN COMPOSITION, not even though the urgent dealer may thereby make a little bigger profit. Ingredients printed on wrapper.

"AWL RIGHT

Is what you'll say to our story. It's simple but instructive,—Besides all that is refreshing. It's

Soda and Other Soft Drinks

that we refer to. They are healthy going and invigorating on these hot days. They are best and purest from our bottling works. The best yet.
