Official Watch Inspector, Crows Nest Pass Division, C. P. R.

ST. EUGENE PROFITS

Moyie Leader: The profits of the St. Eugene Consolidated Mining company for the month of March amounted to the enormous sum of $77,600. This is according to the financial statement of the company recently issued by Manager James Cronin. This throws the profits of every other mine in *British Columbia in the shade, and is* more than the War Eagle and Center Star mines in Rossland earned in three months. The St. Eugene stands as the greatest silver-lead mine in Canada, and has few superiors on the American continent. It is shipping regularly over 100 tons per day and has mammoth ore reserves to draw from. Three hundred men are given steady employment at wages as good as that paid in any other mining district in the world, and the most kindly feeling prevails between employer and employes. Truly Moyie is a wonderful mining camp and as yet it is in its infancy.

AMALGAMATION ASSURED.

Rossland, May 8.—In an interview today G. S. Waterlow, the English millionaire director of the Le Roi Mining company, stated with considerable emphasis that the proposed merger of the big mines and smelters of the Trail creek district is practically an assured fact.

Accompanied by General Manager Cronin, of the Centre Star and War Eagle companies, Mr. Waterlow leaves for the east, where they will consult with T. G. Blackstock, the guiding spirit of the Gooderham-Blackstock interests in this section, and Sir Thomas Shaughnessey, president of the Canadian Pacific railway. The party may take with them A. J. McMillan, an official of the Le Roi company. It is expected that the merger will be an accomplished fact within 90 days. It will consolidate thirteen million dollars worth of mineral lands and reduction works into a company capitalized for only seven and a half million dollars, of which some one million and a half dollars will be cash for development purposes.

TO WORK COAL PROPERTY.

Crows Nest, B. C., May 3.—W. J. Langley and G. M. Judd, of Fort Steele, left here today for the Flathead to do development work on a large group of coal claims which they are interested in with Messrs. R. L. T. Galbraith and J. A. Harvey and others. They took with them three miners and a large supply of tools and provisions as they intend to work there all summer if prospects prove favorable. They were packed io by A. Good's pack train. A large amount of development work will be done in that section this summer. Mr. Good informed your correspondent that he is in receipt of letters from several parties who wish to be packed in soon. He intends to keep a large pack train steady on that trail this summer.

MORE WORK ON THE NORTH STAR.

The Herald is in possession of information to the effect that the North Star Mining company propose to commence work again on their property. This is good news indeed to the people of South East Kootenay, who all hold a tender feeling for that property. It will also be good news to the people to know that N. McLeod Curran will return to have charge of the work. Mr. Curran has been so long in this district that his departure was the source of universal regret and everybody will be pleased to know that he will soon be back here.

MEN OF MILLIONS.

New York, May 6.—Henry Clews has just given out an estimate he has made of the wealth of leading American millionaires. It follows:

John D. Rockefeller, $500,000,000.
Andrew Carnegie (115,000,000 given away), $250,000,000.
William Waldorf Astor (chiefly in real estate), $250,000,000.
John Jacob Astor, $75,000,000.
Gould family, of which George J. Gould's personal fortune represents $35,000,000, $150,000,000.
Marshall Field, $100,000,000.
Blair estates, $100,000,000.
W. K. Vanderbilt, $80,000,000.
Russell Sage, $80,000,000.
D. O. Mills, $75,000,000.
William Rockefeller, $75,000,000.
J. P. Morgan, $60,000,000.
James J. Hill, $60,000,000.
Henry H. Rogers, $50,000,000.
Henry Phipps, $45,000,000.
John D. Archibald, $40,000,000.
Henry M. Flagler, $40,000,000.
James B. Haggin, $40,000,000.
James Henry Smith, $35,000,000.
W. H. Telford, $20,000,000.
James Stillman, $15,000,000.
George F. Baker, $15,000,000.

MASSACRE OF JEWS.

St. Petersburg, May 9.—Sensational rumors are current here that there has been a three days' massacre of Jews at Zhilomir, capital of the province of Xolhynia, in southwestern Russia. The rumor has not been confirmed.

HON. JAMES SUTHERLAND.

TRIBUTES TO HIS WORTH FROM THE PREMIER AND MR. BORDEN.

Ottawa, May 5.—Hon. James Sutherland, minister of public works, who had been in ill health for some months died on Wednesday at his home in Woodstock, Ont.

The announcement of the minister's demise was made in the house of commons by Sir Wilfrid Laurier.

When the premier rose to announce the death of his trusted colleague he was completely overcome with emotion and stood for more than a minute before being able to utter a single word. The scene was one seldom witnessed in parliament. After vainly endeavoring to control his voice Sir Wilfrid very briefly, in tones that shook with feeling, expressed his sense of the deep loss that parliament and he himself had sustained. He felt sure he met with the wishes of both sides of the house by proposing an adjournment until Friday to allow of the members attending the funeral. The late minister of public works, he said, was one of the truest friends he had ever known.

Mr. Borden remarked that the prime minister's *emotion indicated more* clearly than words could, the loss sustained on this occasion, and the opposition joined in sympathy. The late minister had been a true and valued friend of his own since his entry to parliament in 1896. As a young member he had always met the greatest *kindness* and *cordiality* at his hands. On behalf of the opposition he desired to express his sympathy with the bereaved family and with Sir Wilfrid.

NAN STILL IN PRISON.

New York, May 8.—Nan Patterson's future is still uncertain. Bail has been provided for her but District Attorney Jerome has not yet decided what action he will take in her case. After a long conference with Messrs. Jerome and Rand, Miss Patterson's counsel today carried her the news that she must stay there for at least a week longer.

The prisoner bore the announcement well, although she had been led to believe that she might be granted her freedom either today or tomorrow.

At least two bondsmen are said to be ready to give *bail in any reasonable* amount, and counsel for Miss Patterson says the surety will be provided without delay, as soon as the district attorney expresses a willingness to.

CANADIAN TROOPS IN N. Y.

New York, May 8.—The ninth annual military tournament opened at Madison Square Garden tonight. Conspicuous among the military detachments were the Canadian Highlanders, the 91st regiment of Toronto, made a fine appearance.

INAUGURAL JULY FIRST

Edmonton, N. W. T., May 8.—The lieutenant-governor of Alberta will be sworn in here July 1st instead of having the inauguration of both provinces take place at Regina as at first intended. A fitting celebration is being arranged.

OLD FIRM AND NEW STORE.

W. F. Tate, the old reliable jeweler of the district, is still going ahead. This week he is moving his stock into new and larger quarters, the store formerly occupied by Mighton & Kelsall, and it is being put in shape to conform with his increased trade and larger stock. Mr. Tate does things on a liberal scale, and he is now preparing to give Cranbrook a store equal to the demands of a growing town and prosperous district. The new store will have a plate glass front, giving an attractive show window. The store room will be larger than the old one, and fitted up in a most attractive manner. In the rear will be an optical room fitted *especially for this class of delicate and* important work. When Mr. Tate is fully installed, with the improved conditions, and his corps of workers, Mr. Ross Tate, Mr. J. C. Kelly and Mr. Fred Tate, he will be ready to meet promptly all demands in his line.

RUSSEL REED COMING.

The people of Cranbrook are to bhave the treat of the season.

Through special arrangement with the management Mr. Russell Reed, the eminent young actor, and Miss *Juliette Chandler*, the clever little actress of the C. A. Place enterprises, will appear in John Drew and Mande Adams favorite comedy, "That Imprudent Young Couple," supported by a carefully picked cast of prominent players. "That Imprudent Young Couple" scored a tremendous success in Montreal, Toronto, Ottawa and Winnipeg, and the press is unanimous in its praises of the capable and proficient manner in which Mr. Reed and Miss Chandler handled their star parts. The company is making this initial western tour under the approval of John Drew, Miss Adams and the management of the Empire theater of New York.

LACROSSE MEETING.

The following report of the lacrosse meeting *held* in Cranbrook recently has been handed to the Herald for publication.

Delegatts from Cranbrook and Lethbridge only were present. R. J. Black represented Cranbrook and H. J. Skeith represented Lethbridge.

In the absence of the president and all the other officers Mr. H. J. Skeith was appointed chairman and minute secretary and the meeting was then declared open for business.

The minures of the meeting held in Frank, April 17, 1904, and the secretary-treasurer's report for the season 1904 were read.

Moved by Skeith, seconded by Black "That minutes of meeting held in Frank, April 17, 1904, as read be approved, and that secretary-treasurer's report for 1904 be adopted."

The election of officers for the season 1905 was then proceeded with and the following officers were elected:

Patroness, Mrs. George Levasseur, Fernie.

Honorary President, Mr. G. Erickson, Cranbrook.

President, Dr. R. C. McClure, Lethbridge.

First Vice-President, A. C. Liphardt, Fernie.

Third Vice-President, D. J. McSweyn, Cranbrook.

Secretary-Treasurer, A. Ripley, Lethbridge.

Council, R. C. Black, Cranbrook, W. C. Ives, Lethbridge.

Moved by Black, seconded by Skeith "That the amendment to Rule 13, Section 1, which reads as follows: 'After the word default in the sixth line of this section add the following words—and the club so defaulting shall be subject to a fine of $25, payable to the Association, and in the event of such fine not being paid previous to their next schedule match, said club shall be suspended from the Association and all rights thereto until such fine is paid, and the amount when so paid shall be used in liquidating the expenses incurred by the opposing club in connection with the match so defaulted, the balance, if any, to be placed in the funds of the Association,' be carried out to the letter for season 1905."

Moved by Black, seconded by Skeith "That ten days previous to a match the visiting team forward the names of three referees to the home team and that in case of dispute between those teams the appointment of referee for that game be referred to the president."

Moved by Skeith, seconded by Black "That Fernie be written by the secretary *re the payment of back dues*, etc., prior to their full reinstatement into the Crows Nest League for season 1905."

Moved by Skeith, seconded by Black "That a certified copy of the minutes of the meeting be sent to each club."

Moved by Black, seconded by Skeith "That players' certificates for each game be in the hands of the secretary fourteen days before each game, secretary to mail 50 blank certificates to each club within one week from date of meeting."

The following schedule for 1905 was then drawn up:

May 24th, Cranbrook at Fernie.
June 12th, Fernie at Lethbridge.
July 1st, Fernie at Cranbrook.
July 10th, Lethbridge at Cranbrook.
July 11th, Lethbridge at Fernie.
*August 7th, Cranbrook at Lethbridge.

*The date of this game between Cranbrook and Lethbridge is conditional so that it might be changed to the day of the annual sports in Lethbridge.

Mr. C. W. Green being present spoke on behalf of the Medicine Hat Lacrosse club in regard to their admittance to the Crows Nest League, but on being informed by the chairman that according to the constitution governing the Levasseur cup no teams outside of the boundaries, Kootenay Landing on the west and Lethbridge *on the east, could be eligible to take* part in the competition for said cup, his request was withdrawn.

As there was no further business to be transacted the meeting adjourned.

A. Ripley- Sec.-Treas.

GOOD TEMPLARS ELECT OFFICERS.

Cranbrook Lodge I. O. G. T. installed officers at their regular meeting Friday night as follows:

Chief Templar, B. H. Short.
Vice Templar, Mrs. Nobles.
Past Chief Templar, R. A. Macconnell,

CRANBROOK HERALD

By The Herald Publishing Company. Limited.

E. Simpson

Editor and Manager.

The Herald is worth $10 a year. It costs only $2. No man in South East Kootenay can afford to be without it, and everyone living outside of the district, who is interested in the progress of this section, should read it. It publishes the news while it s news. It is controlled absolutely by the publisher. No clique, party or individual dictates it policy. It don t try to please the people. It's desire is to publish a newspaper that will be a credit to the community. Send in your subscription and and you will be thankful ever afterward.

Advertising rates $1 per inch, single column, per month, no more and no less.

Reading matter 15 cents per line to non-advertisers, 10 cents per line to regular advertisere. Business locals five cents per line ach insertion.

If you desire to reach the people of South East Kootenay you must advertise in The Herald.

The Herald has a firstclass job plant, and its work is of the best. The Herald don't want charity. It wants a square deal on your job work. If we can't suit you in quality and price, kick, and send your work to some Cheap John house in the east that never spends a cent in Cranbrook.

1,000 a Week

That is the Guaranteed Circulation of the Cranbrook Herald

Press room and subscription lists open to investigation by advertisers at any time.

The Herald gives a dollar in value for a dollar in money. The advertiser has the right to know what he is receiving for his money. The Herald is one paper that courts investitigation.

ADHERE TO BUSINESS.

The town of Cranbrook, if incorporated, should be considered in the light of a company, with every property owner as a stock holder. If capitalized it would mean a company with a capital of several hundred thousand dollars.

Grant, then, by way of illustration, that such were the case, and that the election was simply an annual meeting of the company for the purpose of defining the business policy for the ensuing year and selecting a manager and his assistants.

What would be the principle object of those at the meeting who held stock in the company, as represented by their property holdings in the town?

Would it be to advance the personal interests of any one individual?

Would it be to see that one party or the other had the advantage in the selection of the directorate?

Would it be to see that this church or that church had the largest representation?

Or would the principal object of those present and taking part in the deliberations be the selection of men recommended by their business ability and known integrity?

Without a question of a doubt the latter object would absolutely dominate to the exclusion of all other ideas.

That will be the situation in Cranbrook at the time of the first election for mayor and council. Every man who has a dollar of interest in the town should take a broad, intelligent, fair minded view of the proposition and insist on the selection of a man for mayor who has the confidence of the people and who is recognized as the proper individual to safely inaugurate the affairs of Cranbrook as an incorporated town. Every man should stand firm on the proposition that each man elected as a councilman should be elected for his worth as a business man, a property owner and a citizen. Eliminate the political idea entirely. Cut out the question of friendships, and keep one object in view, the advancement of Cranbrook.

The Herald would like to see a general manager and board of directors, as it were, named by acclamation. In subsequent elections, naturally, there may arise differences of opinion as to the best policy to pursue for the good of the town, and these differences would result in the division of the people at election time. At present there is no difference of opinion made apparent, as the great majority want a sound, business like administration as a starter for Cranbrook. This can be easily secured if the people proceed along safe lines and refuse to listen to the agitator for political honors, political pap or political advantages.

Let every man stand up for Cranbrook.

EDITORIAL NOTES.

The blowing in of the Marysville smelter means the dawn of a new era for South East Kootenay.

The Hon. Frank Oliver is a western man and should understand the importance of mining. If he does, he will advocate the creation of the department of mines and the appointment of a minister for that department.

Nan Patterson will be allowed to go free and she is now receiving the congratulations of the people and all kinds of sympathy. But not a word of sympathy has been publicly given for the little widow who has lost husband and home on account of the acts of Nan Patterson. This is a funny world.

Organized labor is dealing itself another hard blow in the Chicago riots. The people will not sympathize with acts of violence.

When is East Kootenay to have that new judge?

W. C. Wells, of Palliser, has been mentioned as the next lieutenant-governor. He says he does not want the appointment but may take it to save trouble.

Ralph Connor, minister of the gospel and writer of fiction, preached a sermon at Winnipeg last Sunday on the subject, "The Perils of Our City." In the sermon he took occasion to lecture the society ladies of Winnipeg and closed with this declaration: "People are sick of sermons to young men; it is the women who need the homily."

"Eternal vigilance is the price of liberty," and the people of Cranbrook should understand that eternal vigilance will be the price of safety in municipal affairs. Cut out politics, cut out religion, relegate the bigot in either class to the rear, and demand men for the management of the town's affairs. The petty grafter will be in evidence, and the smooth worker for larger things at the people's expense will be showing his fine italian hand in due time. Cranbrook wants a business management of her affairs, and to secure such a management the demands of the different elements must be fairly considered.

Let every man think as he will, but no one yet ever saw a church that was a detriment to a community. Wherever a church spire points toward the skies, around that spire will be found a people doing good for humanity. Religion rests in the heart of every individual, and churches are material manifestations of that feeling, and are deserving of the encouragement of every citizen.

OBSERVATIONS

BY THE OLD MAN

The following advice is good enough for anyone to follow:

We have learned some things in the course of a long business life and still have a great many others to learn. But the chief thing we have learned can be condensed into one nugget of wisdom in three words—Talk It Over.

If thy business enemy offend thee, don't smite him on the cheek. Take him by the buttonhole in a friendly manner and—Talk It Over.

Someone tells you that Smith, down the street, has said or done something to your detriment. Perhaps he has and perhaps he has not. If he has your best policy is to prevent his repeating his remark or deed in the future. If he has not you don't want to do him an injustice even in your own mind. Put on your hat, leave your temper at home, go down and make a friendly call. Be neighborly, frank, open. Tell him the truth and ask him for equal frankness. Nine hundred and ninety-nine times out of a thousand the whole matter will be explained and straightened out in five minutes, and you will part as personal friends rather than as personal and business enemies. You will both feel better, you will live side by side in harmony; the earth will be brighter, the sunshine clearer, your own heart lighter, and mankind take on a more friendly aspect. Don't get mad and rush to your desk and send a scorching letter; be a man and a christian and go yourself and—Talk It Over.

The St. Eugene cleared over $77,000 for its owners last month. We would like to own that property just for one month.

The man with an ice cream girl is playing in hard luck this time of the year.

If a newspaper published all the news that floats around a town there would be a lot of people who would have to emigrate. And yet some of the very individuals who could not stand publicity themselves are the most rampant when some paper does publish an item derogatory to a man's character, and roll the morsel under their tongue with great satisfaction. There are mighty few of us who can stand free and unrestricted publicity, and the old saying about glass houses is a mighty good one to remember.

A good wife is the greatest blessing ever given to man.

It is not a pleasant task always to take upon one's shoulders the responsibilities of a civic office, but good men should be willing to make that sacrifice when asked. Cranbrook needs her best men in her first council, men who will be patriotic, men who will fight graft in every form, men who are broad minded, and men who have the courage of their convictions. Such men will do a great deal to promote the growth of Cranbrook and it is such men who are wanted when the election comes.

Perry Creek is an ideal spot these days and the people of Cranbrook who fail to visit that place are missing a grand opportunity. It is just fifteen miles to Old Town, a place of historic interest, where anyone can enjoy a day or a week. The scenery is magnificent, the drive out there is one of the best in this whole section of country, and within a few minutes walk one can see placer miners at work taking out virgin gold from the bed of the creek. Then, after tramping over the place one can stop when tired and go to the hotel kept by Mr. and Mrs. Burge, one of the finest places in all the Kootenays. You don't have to carry anything along when you go on a picnic to Perry creek, for a dinner at that hospitable place will make one glad that they went there. It is the kind of cooking that your mother gave you, and the only difficulty is one don't know when to stop. The place is a big log house that has been rebuilt this spring, and it is clean from one end to the other, and a most delightful resting place. Summer is now here and people who are looking for one or more days outing cannot find a better place than Perry Creek, where they can get the full benefit of the beauties of nature.

The greatest surprise to a girl who gets kissed the first time is that there is no taste to it.—Waterloo (Ill.) Times.

No taste to it! Well, by the hen feathers on Cupid's dart, but the Times man must be color blind in palate. They tell us, those who have tried it, that it tastes like the double distilled essence of honey spread thick on a piece of pumpkin pie. Away back in the dim and joyful years long ago, before we lost all our teeth and the cinch on the beauty prize, the prettiest girl in all the world told us with her own tongue that it felt like a covey of quails flying out of each ear, like a flock of angels pouring molasses down one's back. No taste to the first kiss? Great Scott! It would make a wooden Indian's hair dance and his toe nails quiver with ecstasy. The Times man must be an ice house.—Red Bud (Ill.) Pilgrim.

RAMBLING REVERIES

BY A DREAMER.

Home ought to be the place on earth in which to be frank and honest. If we are not candid with our selves and with our families around the family hearth, it cannot be expected that we will be so elsewhere.

Is it not highly amusing, if not provocative of wrath, to hear a man complain of his home being cheerless when he adds nothing to its happiness? A man is greatly responsible for the ozone of his home. The day to the wife may have been one of unusual care and hard work, but if the husband comes in cheerful from the field of his work outside, the weariness and careworn look will disappear from the wife's face. A few sharp words we can always excuse, for we always attribute them to overtaxed nerves, but we can find no plausible excuse for sullenness on the part of the husband.

A touch of kindness in this busy rush,
A proffered hand to help us fight the crush,
A cheerful word that soothes a heavy heart—
Have you of these small things assumed your part?

A GOODLY HERITAGE.

Nature in her silent, beautiful way teaches many lessons. She does not force a moral upon us. We may drink in her loveliness and take or leave the lesson as we please. A man must have something of the child in his heart to feel the splendor of the horizon, the magnificence of the stars, the mystery of the woods, the joyous dignity of fertile, sunlit meadows; and having the child's heart to feel, he will have the child's faith to see, and whatever his sorrow, nature shall heal it, whatever his perplexity nature shall solve it. Men have set their mark upon the woods and upon the hills. They have divided the lands and have said to the world, "This farm is mine." "Yonder woodland is yours," "the babbling brook and the beech-covered hillside belongs to your neighbor." But the first child of nature who chances that way without a penny in his pocket may have all the beauty and peace of this lovely landscape for the looking. Nature teaches us to live our own lives, to be ourselves. The petty cares of life hurry us away from the best that is within us. We cannot stop to think the noble thoughts, to live up to the heights of beauty. Nature says, "All these months I waited in serenity for the springtime. Without haste and without rest I have perfected each tiny bloom until the work is completed and the blossoming trees fill the land with perfume and color."

FOR HUSBANDS ONLY.

The money maker of the family has his own troubles—no one ever doubted that—but the housekeeper has a few, too, and it would not be out of place to give her a little consideration. The man of the house, therefore, might paste these suggestions in his hat, if he does not consider them impertinent.

Assume a cheerfulness even though you do not feel it on coming home in the evening.

Greet your wife with a smile, instead of an impatient inquiry as to when will dinner be ready.

Do not complain any more than is absolutely necessary about the toughness of the beef nor the comparative inferiority of the bread.

Do not tell your wife that you cannot imagine what she does with all the money she has to spend.

Do not ask her what she did with the dollar you gave her last month before you respond to her appeal for two-bits to send out and get some butter.

Do not tell her at once that you saw the prettiest woman you have seen for a long time in town that day as it will hurt her feelings.

Do not tell her she does not know how to handle the servants, or they would do better.

Do not say that the children are the worst behaved you ever saw.

MEETING OF LICENSE COMMISSIONERS.

There will be a meeting of the license commisioners in Cranbrook on Friday, May 19th. By mistake it was advertised on "Friday, May 17." Those interested will please notice the correction.

MR. GREEN VISITS CRANBROOK

The Hon. Mr. Green, commissioner of lands and works, paid an official and political visit to Cranbrook this week. He arrived on Tuesday evening from the west, registered at the Cranbrook hotel, and met quite a number of the members of his party that evening. The next morning, in company with Dr. King, the local member, V. Hyde Baker, J. F. Pinkham and Al Doyle the commissioner visited Marysville and Fort Steele returning to Cranbrook in the evening. This afternoon Mr. Green left for Fernie. Regarding any improvements in this district, and the building of the bridge over the St. Marys at or near Bayard, the commissioner could give the people no encouragement.

CONDUCTORS MEET.

Portland, May 9.—The first of the long list of notable gatherings to be held in Portland this year opened today with the assembling of the delegates to the biennial convention of the grand division of the Order of Railway Conductors. The gathering is attended by delegates and visitors representing every important line of railway in the United States, Canada and Mexico.

Today was given over to the formalities attending the opening of the convention. E. E. Clark, of Cedar Rapids, Iowa, the present head of the order, presided over the session. The visitors were cordially greeted on behalf of the city, the management of the Lewis and Clark exposition, and the Mt. Hood division, No. 91, of the order, which is acting as host to the convention. Brief addresses were delivered by Grand Chief conductor Clark, William J. Maxwell, the grand secretary-treasurer, and other prominent members of the order. These touched upon the past and present of the order and traced its history from the day in 1868 when a few conductors of the Illinois Central railway met at Amboy, Ill., and formed what they called a conductor's union, the parent body to the present organization.

The convention will be in session ten days or two weeks and much important business will be transacted. Reports will be presented showing that the order now extends throughout North America, that it consists of 463 divisions with an aggregate membership of 33,171. There are 30,000 members of the mutual benefit department. The reports will show also the results attained by the order in the way of securing higher wages and better conditions of labor for its members. The order is constitutionally opposed to strikes, but has, nevertheless, accomplished as much if not more for its membership than any other organized labor body.

The ladies of the Royal Club, the woman's auxiliary to the order, are also holding their convention here. This order consists of the wives and daughters of railroad conductors and has had a rapid growth since it was organized in Fort Wayne in 1888.

A CARD OF THANKS.

The undersigned, on behalf of the family, begs to offer his most sincere thanks to the people of Cranbrook and to Superintendents G. Erickson and R. R. Jamieson, and especially to Mr. and Mrs. McFarlane for their extreme kindness to them in the hour of their sad bereavement.

C. Cook.

THE CRANBROOK HERALD.

VOLUME 8. CRANBROOK, BRITISH COLUMBIA, THURSDAY, MAY 11, 1905 NUMBER 7

A Dollar in Value For a Dollar in Money

That is what every man asks for in this world, and self protection and self interest warrants the demand. The retail buyer demands it in his purchases, and the merchant who fails to give "a dollar value for a dollar in money" will soon be out of business.

The retailer, in turn, must seek the dollar value in all his purchases. Advertising is a part of his purchases. It is a recognized factor in building up and maintaining a business in Cranbrook, as well as in other towns. Results have demonstrated that the judicious advertiser has the advantage over the man who fails to advertise.

Therefore it behooves the business man to get his dollar value in buying his advertising. The Cranbrook Herald charges $1 per inch per month for its advertising space, and its circulation in the country tributary to Cranbrook guarantees a dollar in value for every dollar expended. An advertisement in the Herald brings results. This has been proven by all who try it, simply because the Herald is read by the people who patronize the Cranbrook merchants. The basis given by newspaper experts as to the number of readers for each paper printed is five. On that basis the Herald would have nearly 4,000 readers in the territory tributary to Cranbrook. But cut that down to 2,500, and that is fair and legitimate. That means that every issue of the Herald is read by 2,500 people who, during the year, make purchases of Cranbrook business men. That is why the Herald can give the dollar value for every dollar expended. The Phoenix Pioneer is one of the best papers in the province, but as an advertising medium for Cranbrook merchants its space would not be worth five cents per inch. The Golden Star is another excellent paper, but Cranbrook merchants could not afford to patronize its columns for the reason that it has no circulation in the territory tributary to Cranbrook. Neither of these papers could give the Cranbrook merchant the circulation. Circulation is the basis of value in estimating the worth of advertising. The Herald has the circulation, and, what is more, its lists are open to inspection by its advertisers at any time. The Herald is not asking for advertising on the basis of friendship, but simply from a cold business standpoint, from the standpoint of a dollar value for a dollar paid. The Herald circulation is not a pig in the poke proposition. Any advertiser can satisfy himself by the subscription books, and he is privileged to visit the press rooms and secure the proof by watching the counter as the papers are turned out.

A dollar value for a dollar paid is the policy of the Herald, and no Cranbrook advertiser can afford to overlook the fact.

F. E. SIMPSON,
Editor and Manager.

FIT-REFORM

Spring Sack Suits

No need to read fashion journals to know what is correct for spring wear.

Ten minutes time in the Fit-Reform Wardrobe takes the place of a week of reading.

Fit-Reform shows all the new things—that Dame Fashion wants her well-dressed men to wear.

Sack coats are longer — broader collars and lapels— for 1905.

Richest Scotch Tweeds and Irish Homespuns that Fit-Reform has ever shown.

Spring Sack Suits $15, $18, $20 up.

Fit-Reform

Only one Fit-Reform Wardrobe in this city—

REID & COMPANY . . CRANBROOK.

ADDITIONAL LOCALS

Harry Drew, of Kimberley, was in town yesterday.

A. Smith has gone to Ryan for the East Kootenay Lumber company.

Constable Morris is confined to the house with an attack of erysipelas.

Dr. F. E. King will move his office to his new residence on Armstrong avenue next Saturday.

G. Donahue and I. H. Wilson, of Wardner, came up Tuesday evening to attend the meeting of the K. of P. lodge.

The subject of the evening service in the Baptist church next Sunday will be "A Crowned Victor." All are cordially invited.

Some sneak thief broke into the club house of the golf club last Sunday night and stole a number of sweaters and a gold watch belonging to James Gill.

To Rent—House on Kain street, lot 36, block 24; 5 rooms, electric light, waterpipe in kitchen, newly papered and painted; rent $15. Apply to J. F. Armstrong.

William Stocks and family left today for Vancouver, where they will make their future home. The family will be missed in Cranbrook as they leave behind them a large circle of friends.

Short & Co., the painters and decorators, are kept busy, but their hands are not full. They can be depended on at any time, so give them a call when you need any PAPERING, PAINTING or KALSOMINING and it will be attended to at once.

The benefit ball to be held on the 23rd for Mrs. Thompson will be what is known as a "calico ball," but it is not absolutely necessary for every one to wear a print dress. Here in prosperous Cranbrook every lady is not the proud possessor of a calico dress.

Governor Hanson, of Wasa, was in town several days this week. The governor has his new hotel nearly done and is now putting in the furniture. When everything is complete there will be a big opening and a large number of Cranbrook people will attend.

W. Cline will have one of the finest barber shops in the Kootenays when he gets his new quarters all arranged. Mr. Cline is an old resident of Cranbrook and has always done a big business in his line, and when he is fully established in the new place his business will be greater than ever as he will be in a position to better take care of his trade.

Married, on April 26th, at the home of the bride's parents in Calgary, Mr. W. F. Pieper and Miss Grace M. Lane, Rev. Kirby officiating. Miss Cole, of Cranbrook, was bridesmaid. Mr. Pieper is well known in Cranbrook and is now an employe of the C. P. R. Miss Lane for a long time was in charge of the C. P. R. commercial telegraph office in this town where she became extremely popular with the public on account of her courteous treatment of the patrons of the office. The Herald joins with the many friends of the contracting parties in wishing them every prosperity and happiness.

A STRENUOUS WOMAN.

Mrs. J. E. Harris, of Nelson, B. C. was in town Tuesday and Wednesday of this week looking after her mining interests in this district. Mrs. Harris came to the Kootenays about seven years ago from the Coeur'd Alene country, and with a few hundred dollars started to take advantage of the knowledge she had gained of mines and mining during her residence in Idaho, and gradually became interested in a number of promising properties. The Harris group on Fish creek in the St. Marys valley is one of the best known copper properties in this section and will in time prove a great benefit to the whole district. One of the objects of Mrs. Harris' visit at this time was to see if anything could be done toward securing government action in getting a bridge built across the St. Marys at the head of the lake. She met the Hon. Robert Green here but did not receive much encouragement from him, so far as any work being done this year by the government. At the present time Mrs. Harris has a deal on with some Montana capitalists who expect to visit East Kootenay within a short time for the purpose of inspecting her property. There is no doubt but that the St. Marys valley will in time prove one of the greatest mineral zones in all of British Columbia. It is for this reason that the Herald has always urged the necessity of adequate roads and trails in that valley, and Mrs. Harris, who has given this subject a great deal of thought, says that the people of Cranbrook do not fully realize the importance to be attached to the development of that valley, as it is bound to be the source of greatly increased prosperity to Cranbrook, which is the natural supply point.

Synopsis of Regulations for disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 32 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding free miner's certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $5.00 per annum for an individual and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 1500x1500 feet by marking out the same with two legal posts, bearing location notices one at each end on the line of the lode or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid the locator may upon having a survey made, and upon complying with other requirements, purchase the land at $1.00 an acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres.

The person for a mining location shall provide for the payment of royalty at the rate of 2½ per cent of the product of the lock-up.

Placer Mining.—Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims generally are 100 feet square; entry fee, $5, renewable yearly. On the North Saskatchewan river claims are either bar or bench, the former being 50 feet long and extending between high and low water marks. The latter includes bar diggings, but extends back to the base of the hills or bluffs, but not exceeding 1,000 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have, or who may receive entries for coal diggings or bench claims, except on the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental, $10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds $10,000.

Dredging in the Yukon Territory.—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental, $10 per mile for first year, and $15 per mile for each subsequent year. Royalty same as placer mining.

Placer Mining in the Yukon Territory.—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being from 100 to 2,000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days, if the claim is within ten miles of mining recorder's office. One extra day allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the part consists of two, 1,500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee $10. Royalty at the rate of two and one half per cent on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of $2. A claim may be abandoned, and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least $200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

Petroleum.—All unappropriated Dominion lands in Manitoba, the Northwest Territories and within the Yukon Territory are open to prospecting for petroleum, and the minister may reserve for an individual or company having machinery on the land to be prospected, an area of 640 acres. Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well and such other land as may be determined, will be sold to the discoverer at the rate of $1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

W. W. CORY,
Deputy of the Minister of the Inter or Dept. Interior.

If a man's wife is a good baker, nothing

but the best flour is good enough for her. There can be no greater extravagance than the use of inferior flour.

Winchester Springs, Feb. 27th, 05.

"I read about Royal Household Flour which is purified by electricity. I also read about the woman paying freight 25 miles before she would be without it. Royal Household was not sold in our town, I was asking about it and my grocer told me to wait a day or two and he would get some, and I am glad I did so. My wife is a good baker and made good bread out of other flours, but what she has now made out of Royal Household is so far ahead that I would be willing to pay freight fifty miles instead of twenty-five, rather than go without it. There is no flour 'just as good' as Royal Household."

(Signed) JOHN HENDERSON.

Now, is there a single woman in the whole country who, after reading what Mr. Henderson says, will not at once send for the Royal Household recipes and give Royal Household Flour a trial. Mention this paper and address

THE OGILVIE FLOUR MILLS CO., LIMITED, MONTREAL.

CANADIAN NORTHWEST

S. A. O'Farrell in Sunday Oregonian:

I am writing now of the Canadian Northwest, of that country reaching from the Great Lakes to the Pacific and the Arctic Ocean. It did not raise a steer or grind a pound of flour when Gladstone was attempting to solve the Irish problem. There was not a mile of railroad, nor a steam engine, nor a plow from the Red River to the Yukon River thirty years ago. There was not a town between Lake Superior and the Pacific Ocean when Sir John Macdonald and Donald Smith and Sir William VanHorne conceived the great scheme of spanning the Western Canadian wilderness with a railroad. There never was a greater nor a bolder scheme than that It was running out a railroad at enormous cost through desert and wilderness and bridging mountains famed for glaciers, avalanches and untold terrors. But it was done, and it has made VanHorne and Sir John Macdonald and Donald Smith as immortal as the stars.

The plains and steppes of the Canadian Northwest are fast becoming the granary of the world. Within twenty years that vast country between the Great Lakes and British Columbia and the Yukon will be producing beef and flour and butter sufficient to feed all the people of Europe. It did not raise a pound of flour or beef thirty years ago, but last year it grew 80,000,000 bushels of wheat and tens of thousands of the finest steers. The fattest buffalo and the fleetest elk, and deer lived on those plains thirty years ago, and they were ideal lands for the Indian and the hunter. Now these vast plains are being gridironed with railroads and are being dotted with the pioneer homes of a happy and prosperous husbandry. In fact a vast empire or commonwealth has been born and is growing and flourishing, and great cities are already throbbing with life and energy where all was silence and the desert thirty years ago.

Winnipeg will, in my judgment, surpass Moscow and Vienna in population and importance within the present century. It is already a glorious city, and growing faster than even Chicago grew at a like stage of development. Calgary and Edmonton and Lethbridge and Brandon are a few among the few budding empire cities in this new country. By no possible stretch of imagination could the men who built the Canadian Pacific railroad have foreseen the wondrous growth and development of the country that they awakened into life, but it is their fame and glory and they achieved a work which all the statesmanship and wealth have failed to effect on the whole continent of Africa.

I am not unmindful of what Lord Cromer has done in Egypt, of his vast irrigation projects and of the few million acres of land which he has thus rescued from barrenness and desert. But here in the Canadian Northwest millions of acres are being reclaimed each year from wilderness and desert, and it is being all done without the aid of government or foreign capitalists. All the vast improvements of the harbor of Vancouver, its miles of splendid wharves and its immense railroad yards are due to the enterprise of the Canadian Pacific railroad. Comparisons are odious, but I cannot refrain from saying that the Canadian Pacific has done more in the last quarter of a century to reclaim desert and wilderness, to develop mines and to promote commerce and industry than the British government has been able to achieve in the whole of Africa, and that with the expenditure of billions. Take this beautiful city of Vancouver as a sample of what has been done.

It is the Pacific Ocean terminal for the first and greatest and most perfect transportation system in the world. I fully realize how staggering and dogmatic a statement such as this seems, but the Canadian Pacific railroad spans the continent from ocean to ocean and bears away merchandise to the ends of the earth in its own ships and brings back the silks and the rice and the spices of Asia, the wares of Europe and the wool and gold of Australia. Every Canadian Pacific steamer sailing the seas is loaded down with merchandise for Canada and the United States. Every Canadian Pacific steamer on the Atlantic is loaded down with freight for Chicago, St. Paul and Spokane, as well as for Winnipeg and Montreal. Freight shipped from Liverpool or Glasgow via Montreal or St. Johns Boston, and over the Canadian Pacific to Chicago, Salt Lake or St. Paul, is certain to reach its destination before freight shipped through New York from the same points. The reason, of course, is that the Canadian Pacific transportation system is a unit and simple and uniform. That is why the harbor of Vancouver has all the Australian and Oriental and Alaskan commerce that the Canadian Pacific can at present handle. The single line of railroad running through the mountains of British Columbia is really unable to cope with the traffic between Vancouver and the east. But this will soon be relieved, for another line will be built to connect with the Crows Nest Pass system, and this will give Vancouver three transcontinental railroads. I say three, for the Hill system is already here. The entire British navy could sail in and anchor in the harbor of Vancouver. All the great ocean liners of the Atlantic could come in here and tie up together at the wharves built by the Canadian Pacific to handle the mighty commerce that will soon center here. The millions upon millions that these improvements and wharves and terminals have cost have been paid for out of the receipts of the city lots sold by the railroad in this city.

It must be remembered that it was the Canadian Pacific railroad created Vancouver. It was only a fishing village and a lumber camp 20 years ago. It is now a city of 40,000 people. It will be unquestionably one of the great and famous cities of the world. There is not snow enough here one winter in ten to cover the sidewalks. In the first week of April the flowers are blooming in the gardens and the apple and peach and the pear trees are in blossom. There is more gold and copper and silver stored away in the mountains of British Columbia than in all the countries of the old world, Europe, Asia and Africa combined. The forests of British Columbia are of priceless value, its fisheries are the first in the world and its climate is incomparable. And then what a country for scenic grandeur and sublime natural beauty!

The first Sunday in April I glided over the Arrow Lakes in one of those superb tourist steamers belonging to the Canadian Pacific. From Robson, at the southern end, to Arrowhead, at the northern end, is 128 miles, and from end to end it is one continuous stretch of lake and wood and mountain scenery.

How ravishingly beautiful the placid emerald hue of the lake and the dark blue sky beyond the snow-capped mountains and the clouds! You could see reflected in the lake the lonely and lovely shores, the dark green woods rising along the mountain side of the snow line, the magnificent snowy peaks, sun-kissed and brilliant, and the azure sky and the mantling clouds. As I walked the deck on that first Sunday in April and saw panorama after panorama of glorious beauty unfold before me, I longed for the magic muse of Byron to sing the glories of this enchanting land. A day on the Arrow Lakes in the balmy spring time and in the sun of azure skies is worth ages of care and worry at the courts of kings. And Arrow are but types of the other wondrous lakes and mountains of British Columbia. Kootenay is greater and Slocan is lovelier. All the grandeur and beauty and sublimity of the rivers and lakes and mountains of Switzerland pale away before those of British Columbia. One trip from here to Kamloops along the Fraser river will reveal a hundred pictures that must live in the memory forever.

Had I the power I would transplant to the Pacific northwest half the teeming population of the overcrowded white man's country. There is room in Montana, Idaho, Oregon, Washington, British Columbia and the Canadian Northwest for 100,000,000 white folks. I mean there are bread and work and land and opportunity, and happy homes for 100,000,000 people. To be sure, the forest must be cleared, and the soil must be tilled, and the rock must be mined before the harvest is reaped or the treasure is won. But the raw material is here, and all that is needed is the bone and muscle and willing hands of horney-handed sons of toil. I have seen the sons of men earning their bread by the sweat of their brow in many lands; I have seen the toiler in Australia battling for existence in a sandy soil and burning suns. Twenty-five years ago I saw, with my own eyes, the hard lot of the toiler in the land of the pharoahs. I have lived in some of the great cities of Europe and watched the fierce struggle for existence, the heartbreaks, the hunger, the want and the poverty of millions, and the helplessness of governments or philanthropists in the face face of human suffering. And here I see homes and opportunities for all those millions, and I long to tell them that here, in this northwestern land, are hundreds of millions of acres of virgin soil waiting to be tickled with a hoe to burst into a harvest; that here in the bosom of the mountains is more fabulous treasure than that of Eldorado or of India; that here is a climate more salubrious, more invigorating and more delightful than any other, and in addition to all that, the most picturesque and enchanting river and lake and forest and mountain scenery in the world.

———o———

SCHOOL REPORT FOR APRIL.

During April there were 223 pupils in attendance at the public schools, 106 boys and 117 girls. By divisions the average daily attendance is as follows:

Division	Av. Daily Att.
1	20.95
2	43.14
3	41.50
4	41.05
5	36.32

The percentage of attendance was 80.71, a decrease from that of the previous two months.

There were 41 pupils who made perfect attendance during April, as follows:

Division 1—Amelia Turner, Tannis Reid, Edith Duncan, Annie Tisdale.

Division 2—Elfreda Drummond, Annie Muir, Joan Jones, Jessie Kennedy, Gertrude McDonald, Vera Patmore, Bella Taylor, John Welsh, Sybil White, Lilian Leask, Ross Slater, Daisy McCallum, Cecilia McConnell.

Division 3—Rachel Bardgett, Albert Barnhart, George Burkett, Arthur Fowler, Ruth Harvey, Lily McCowan, Charles Morrison, Bertie Murgatroyd, Inez Smith.

Division 4—Magloire Brault, Christopher McNeill, Ruby Nesbitt, Marcus Derr, Robert Derr, Olive White, Percy Bardgett, Marguerite Harvey, Fred Malpas, Wilfred Dallas, Nathan Barnhart, Willie Cleary.

Division 5—Gladys Ardiel, Wilfrid Brault, Lottie Leask.

BATHS.

Hot and cold private baths for ladies at Frank Godderies' barber shop. 6-4t

TO RENT.

Stock farm, 240 acres, on St. Marys river and Perry creek; 100 acres fenced; house, stable and abundance of water for irrigating. For terms, etc., apply to Beale & Elwell or to W. H. Bradlord, Bayard, B. C. 6-3t

LAND PURCHASE.

Take notice that two months after date we intend making application to the Chief Commissioner of Lands and Works for permission to purchase the following described land in South East Kootenay District:

Commencing at the northwest corner of Lot 5223, G. 1, K. D., running thence 80 chains west, thence 20 chains north, thence 80 chains east, thence 20 chains south to the point of commencement.

The Wattsburg Lumber Co., Ltd.,
7-9t — A. E. Watts, Agent.
Wattsburg, May 9, 1905.

TIMBER NOTICE.

Take notice that thirty days after date I intend to apply for a special license to cut and carry away timber from the following described lands in South East Kootenay:

Commencing at a post planted at the northeast corner of J. H. Spences timber license, No. 3499, Group 1; thence 40 chains south; thence 23.18 chains east; thence north along the west boundary of R. R. Jamieson's license, 38.17 chains, to the north boundary of the lands included in said license; thence east along the said north boundary of said license 40 chains, to the southwest corner of Lot 5982, Group 1; thence north 123.94 chains; thence west 103.18 chains to the east boundary of pre-emption No. 944; thence south 2.11 chains to the north side of G. K. March's license; thence east 20 chains to the northeast corner of the said G. K. March's license; thence south 40 chains along the east boundary of the said G. K. March's license; thence east 60 chains; thence south 80 chains; thence west 40 chains to the place of beginning, containing 640 acres of land more or less.

Dated April 24th, 1905.
6-5t — A. Hogarth.

NOTICE.

Notice is hereby given that 60 days after date I will apply to the Chief Commissioner of Lands and Works for permission to purchase the following described land in South East Kootenay:

Commencing at a post planted where the east boundary of Lot 7192 crosses the southern boundary of the Crows Nest Pass railway, thence south 40 chains, more or less, to the Moyie river; thence northerly along the Moyie river to the right of way of the said railway; thence along the said right of way in a northwesterly direction to the place of commencement.

18th April, 1905.
5-9t — Thos. Caven, H. H. McVittie, Agent.

NOTICE.

Notice is hereby given that sixty days after date I will apply to the Chief Commissioner of Lands and Works, Victoria, for permission to purchase the following described land in South East Kootenay district:

Commencing at a post planted on the east bank of the Kootenay river, at the northwest corner of Humphrey's claim in Lot 15, thence east 30 chains to the northeast corner of said Humphrey's claim, and still east from said corner 40 chains, thence north 40 chains, thence west to the Kootenay river 20 chains more or less, thence southwesterly following the course of the Kootenay river to the point of commencement, containing 120 acres more or less.

Dated this 21st day of March, 1905.
2-9t — John J. Grady.

NOTICE.

Take notice that I, Fred Drew, of Marysville, intend to apply to the Board of License Commissioners for Cranbrook district, at the first meeting held 30 days after the first publication of this notice, for a transfer from myself to George H. Wales of the license to sell intoxicating liquors at the Royal hotel in Marysville.

Dated April 24th, 1905.
5-4t — Fred Drew.

LOCAL NOTES
Picked Up About the City by Asking Questions of Many People.

READ WILSON'S ADD.

W. Sproule, of Marysville, was in town Sunday.

Strawberry plants for sale at Fink Bros.

Dr. Bishop, of Marysville, was in town over Sunday.

Fred Drew and family, of Marysville, were in town last week.

Fresh roasted peanuts at the Vancouver.

Two front offices, second floor Watts block, for rent. Apply to Mighton & Kelsall. 7-tf

Miss Ethel Peverlli returned Monday after a pleasant visit at Calgary and other points.

"Fit Reform" clothing, sold by Reid & Co., is a great success.

Miss Champler left last Monday for the coast, where she expects to live in the future.

Mrs. C. Gaskill, who has been in Cranbrook for the last few days, returned to Kimberley on Saturday.

The merchants of Grand Forks have arranged to give an half holiday once a week during the summer months.

E. G. Hazell was in town last Saturday. Mr. Hazell is doing quite an extensive lime business at Crows Nest.

The Breckenridge & Lund Coal company are arranging to sink a shaft on their coal property at Lubreck 350 or more feet.

Mrs. W. Cleary, who has been visiting friends in Kimberley for the past week, returned to Cranbrook last Saturday.

Wanted—Firstclass general servant highest wages paid. Mrs. T. W. Leask.

William Manahan, the well known railroad man, left last week for Detroit, Mich., where he will visit for several weeks.

Mr. R. T. Brymner, of the Bank of Commerce staff, returned last week from his trip to the Edmonton country and has now gone to Penticton.

James Leask, wife and children, of Gore Bay, Ont., arrived this week and will make their home in Cranbrook. Mr. Leask is a brother of Thomas and John Leask.

Arnold & Roberts have a handy telephone directory card which can be affixed to the speaking tube of the phone, which they will be pleased to give telephone users on application.

Messrs. Chenette & McCool opened their hotel at Fort Steele Junction Wednesday and they will give an opening ball tomorrow, Friday, evening. Quite a number from Cranbrook will attend.

Mrs. L. B. VanDecar wishes to inform her friends that she will be at home on the first and second Tuesday of each month instead of every Tuesday as heretofore.

Waterman's Ideal Fountain Pens are without question the best. Wilson, the jeweler, keeps them.

The Ladies' Guild of Christ church will hold a social evening on Wednesday, May 27th, at the home of Mrs. Hoadley (The Wilga). A cordial invitation is extended to all. Admission 25c.

Thomas Cole, of the Royal hotel, received a telegram on Wednesday announcing that his family had arrived at Montreal all right from Scotland and that they would arrive in Cranbrook next Sunday.

A full line of men's straw hats—a direct importation from England—at Reid & Co's. Prices from 25c up.

The East Kootenay conference of the Methodist church held at Fernie last week passed a resolution asking that the municipal act be so changed that no hotel keeper could be a candidate for mayor or alderman.

Harry VanDecar has been very successful this spring in raising chickens and ducks by the aid of an incubator. He has a large lot of the feathery tribe doing nicely, and they all seem as happy as if they had a mother.

Dr. L. C. Bishop has gone to Marysville to locate permanently. The doctor during the practice of his profession in Cranbrook made many strong friends who regretted his departure, but wish for him every degree of success in his new location.

There is great need of rain these on the ranches. In fact if there is not rain before long there will be a great shortage on all lands that are not irrigated. The light fall of snow last year left the ground with little moisture and rains are absolutely necessary now to protect the growing crops.

READ REID & CO'S. ADD.

Strawberry plants for sale at Fink Bros.

Max McSweyn, of Nelson, was in town this week.

On the last day of May all licenses for minets expire.

Ross Tate made a business trip to Moyie last Monday.

Born, Sunday, May 7, to Mr. and Mrs. A. Johnson, a son.

F. J. Smyth, of the Moyie Leader, was in town Monday evening.

Born, on Monday, May 8, to Mr. Mrs. R. S. McNeil, a daughter.

W. R. Beatty is improving his property facing the Canadian hotel.

Judge Forin held a short session of court in Cranbrook last Wednesday.

D. J. Elmer and Harry Dimmock, of Moyie, were in town on Wednesday of this week.

John Nichols, formerly of Jaffray, has gone to Windermere to get out a bunch of ties.

Dave Breckenridge came up from Wardner last Saturday on a brief business trip.

See Reid & Co's. gent's furnishing window. Hats worth $2.50 to $3.50 for 50 cents each.

Gus Cory is now running regularly on the passenger train from Medicine Hat to the Landing.

R. A. Yates, of the Otis Staples Lumber company, was in town Tuesday and Wednesday of this week.

Messrs. Mighton & Kelsall, the tobacconists, are making a very attractive place of their new quarters.

Fresh roasted peanuts at the Vancouver.

Sidney Coulton, who was formerly with Reid & Co., has been in town the past week visiting with old friends.

James McNeill, a former resident of Cranbrook, has returned and now has charge of the night shift at the Cranbrook.

H. T. Ceperley, of Vancouver, one of the big tyees of the insurance world, was in town a few days this week.

For Sale—A six room, two story house east of the creek, fitted with light and water, on easy terms. Apply to James Greer.

Mr. Tisdale has made a great improvement in his store since his removal and now has one of the finest stores in his line in this part of the country.

Young men, read the good advice Wilson, the jeweler, gives you.

Mrs. James Gill and children were all ready to leave last Monday for Vancouver but unfortunately Mrs. Gill was taken ill and her departure is delayed in consequence.

The Moyie Leader has purchased a new press and will enlarge its paper. This speaks well for Mr. Smyth, the proprietor, as it is evidence of prosperity.

There are several places in town that need the attention of the sanitary inspector. Cleanliness is next to Godliness, and the owners of this property are a long way from heaven.

J. A. Broley, of Fernie, was in town last Friday. Mr. Broley is of the firm of Broley Bros., the successful bidders on the new Bank of Commerce building, to be erected in Cranbrook.

Delicious ice cream at the Vancouver.

L. B. VanDecar will start work on the big addition to his hotel within a few days. When this addition is completed Mr. VanDecar will have the largest and best equipped hotel in this district.

James Bates, farmer, fisherman and gentleman of ease, has been making some splendid catches of trout in Moyie lake lately. He is an artist in that particular line, and there are few who can equal him in the number caught.

It is a matter of wonder to people who visit Cranbrook that a town like this has not a public hall commensurate with the size and importance of the town. A good town hall would prove a paying investment and one is sadly heeded here.

Delicious ice cream at the Vancouver.

J. Hanbury, of Brandon, Man., is in town looking after his interests at the North Star mill and Elko. Speaking of the new plant that he is putting in at Elko, Mr. Hanbury says that he expects to have everything in shape for operation within six weeks.

Cecil Prest left on Monday for Vancouver to attend the annual Methodist conference. He expects to be gone about ten days, and during his absence he will look up the latest in the way of photography in the large studios of the coast.

Dr. J. H. King made a professional visit to Ryan on Monday.

Jas. Arnold, of Arnold & Roberts, visited Ryan last Monday.

W. F. Tate, the jeweler, is moving this week into his new store.

Work has commenced on the old postoffice building, which is to be occupied by the Imperial bank. It will be entirely refitted and made as comfortable and attractive as carpenters can do it. Manager Pinkham is anxious to get into his new quarters as he and his staff are badly in need of additional room.

The general health of the community at the present time is better than it has been for the past four or five years. The doctors are finding less to do these days than ever before in the history of Cranbrook.

Fresh candies every week at the Vancouver.

The people should not forget the free reading room. This institution is very much appreciated by the people without homes, and those who have reading matter to contribute should not fail to remember the good they can accomplish in this way. And those who have a dollar or so to spare for a good cause should not forget that the reading room is worthy of any attention thay can bestow.

Strawberry plants for sale at Fink Bros.

The W. C. T. U. will hold a gospel meeting in the Presbyterian church on Sunday evening next, May 14th, at the close of the evening service. Rev. Fortune and other ministers of the town will address the meeting. Special music will be given by the united choirs of the several churches. The young men are specially invited to attend.

Fresh candies every week at the Vancouver.

Dr. S. K. Harvie, of Moyie, has purchased the drug store of W. J. Atchison in that town. Dr. Harvie is well known in this district and at Moyie he stands very high with the people. He has secured the assistance of a firstclass druggist and will give the business his personal attention, which is a guarantee that the people of Moyie will be well taken care of in that line. The Herald appreciates the fact that the people of Moyie regret the departure of Mr. Atchison but knows that they are to be congratulated on Dr. Harvie taking charge of the business.

JUMPED FOR SAFETY.

Engineer Chas. Yeandle was quite badly shaken up and considerably bruised Monday last. He was coming west "caboose bounce" and was running pretty fast in order to make Frank, where he had a meet on No. 32. When near Frank he rounded a curve and discovered a gang of section hands but a few yards ahead of him with the track torn up for the purpose of putting in new ties. Mr. Yeandle saw at a glance that they were too close to stop, shut off the engine, applied the air, shouted a warning to his fireman and then "hit the grit." In jumping he lit in a pile of rock and gravel but escaped without serious injury although his face and one side of his head was badly cut and bruised. The fireman did not hear Mr. Yeandle's warning and staid on the engine, escaping, without injury as the engine, after bumping along a short distance came to a standstill right side up. Mr. Yeandle was taken to the Frank hospital and after his face and head had been dressed was brought to Cranbrook, where he is now recuperating and shaking hands with himself to think that his injuries are no worse. It is claimed that the section men did not have either flagman or torpedoes out to warn approaching trains of the danger.

Goldstream Hotel
J. R. DOWNES, -

A Short Drive From Victoria

People of South East Kootenay who visit Victoria should not fail to visit Goldstream. It is the tourist's paradise.

LADIES' SUITS

NEWS OF THE DISTRICT . . . . .

Taken From East Kootenay Papers.

MOVIE.

(From the Leader.)

D. J. Elmer and Harry Dimock have located a ranch about four miles west of Yahk on the proposed Corbin line. They are now building a house on it.

Mrs. Dandurand is giving up the dining room and rooms at the Manhattan hotel on May 10th, and Mrs. Rod McDonald of Cranbrook will take charge on that date.

wife left Tuesday for Penticton, where wife left Tuesday for Penticton, where they have purchased a piece of land. The members of the Methodist congregation presented Mr. McDonald with a handsome bible prior to his leaving.

W. J. Atchison has disposed of his stock of drugs, stationery, etc., to Dr. S. K. Harvie, who will hereafter conduct the business. J. H. Baxter, a qualified druggist of Ontario, has accepted a position with the doctor and will be in chaege of the store.

The case of the Crown vs. the St. Eugene Consolidated Mining company for an infraction of the eight hour law came up for trial Tuesday, but as Thos. Morgan, the mining inspector, was not here to conduct the prosecution the case was adjourned until today. Mr. Cronin has placed the case in the hands of J. A. Harvey, the Cranbrook barrister and solicitor, and will fight it to the bitter end.

As soon as James Cronin received the telegram announcing Mr. Gooderham's death, he had the flag placed at halfmast on the flagpole near the company's office. Mr. Cronin was not aware that Mr. Gooderham was ill, and his death came as a shock to him "I thought Mr. Gooderham was enjoying the best of health," said Mr. Cronin Wednesday, "and I never for a moment suspected anything wrong. I had some important business with him and expected to meet him within two or three weeks. I deeply regret his death. He was a sound, practical man and it was a pleasure to have business dealings with him. He was quick in arriving at a conclusion and his judgment was always sound."

THE GUN CLUB.

The Moyie Gun club held its weekly shoot yesterday afternoon and the following is a list of the contestants and the number of clay pigeons broken by each out of a total of 25:

Campbell....18
Cameron....14
Armstrong....13

FERNIE.

(From the Free Press.)

The government bridge at Morrissey is completed and the government road superintendent is grading the approaches.

Rev. A. Dunn, who had an attack of grip at Cranbrook, came to Fernie on Monday quite recovered from his illness.

The customs collections at Fernie for the month of April amounted to $2,232.40 and the Inland revenue to $2,025.29 making a total of $4,257.69

A visitor from Michel this week reports excellent trout fishing in the Elk north of that town. He was fishing for 45 minutes and caught a basketful and he then stopped as he had no use for more fish.

Government Collector Joyce this week received the necessary forms in connection with the new tax on commercial travellers. Drummers coming into Fernie will henceforth be asked to show their licenses. The ordinary tax is $50 for six months and travellers selling liquors and cigars will pay double that amount.

E. G. Hazell has about a dozen men employed at his lime kiln at Crows Nest Lake, which is turning out a good quality of lime. Mr. Hazell has received a contract for supplying lime to the new smelter at Marysville for fluxing purposes. This smelter was put in operation this week.

Mayor Stork this afternoon at 3 o'clock presented the Fernie public school with a beautiful Canadian flag. Appropriate open air exercises marked the presentation as the flag was was unfolded to the breeze on the high flag pole.

The output at Coal Creek is now about 1500 tons per day. The upper district of No. 2 is working single shift and Nos. 1, 5 and 9 are still orking double shift. The new haulage plant for No. 2 will be completed by the end of next week when the rest of the mine will be operated.

George O'Brien, a fire boss at Coal Creek was fined $10 this morning for firing a shot with a naked light. The trial lasted two days and was fought out with some bitterness. The charge was laid by Inspector Morgan, who was one of the chief witnesses for the prosecution. H. W. Herchmer defended and L. P. Eckstein acted for the prosecution.

One of the possibilities for Fernie in the near future is the erection of a fine drill hall and armory by the government for the use of the two companies of East Kootenay Rifles. The government is spending large sums of money on the militia of Canada and the chances are bright for a good building in Fernie. Rossland and Nelson each support one company of Rifles and each has a fine drill hall. Fernie with its two companies should secure a good one. The new armory will be another substantial building for the city and the local companies will have no difficulty in keeping up their full complement as the advantages of indoor shooting, drill, and social dances will prove sufficient to make the militia a popular institution in Fernie.

FORT STEELE.

(From the Prospector.)

...Mrs. A. B. Fenwick returned Tuesday from a short visit at Cranbrook

Mr. and Mrs. L. W. Patmore, Cranbrook, were guests at the residence of Mr. and Mrs. H. Kershaw on Sunday last.

The interior of the Windsor hotel bar room has been renovated and now presents a most attractive appearance.

Several teams and quite number of men passed through Steele Tuesday on their way to the Skookum Chuck logging camps.

Mrs. W. F. Gurd and Miss Moss, of Cranbrook, were visiting at the residence of Mrs. Chas. Levett during the early part of this week.

Log driving on the Kootenay river will commence in a few days. Men are now engaged in putting booms across the sloughs and eddies to keep out the logs.

A report from Kimberley is to the effect that the North Star Mining company will immediately build a wagon road from the Star road to Stemwinder mine.

FOOTBALL AT MARYSVILLE.

Association football is booming in Marysville. On Wednesday of last week the Cranbrook boys were the guests of the smelter town and enjoyed a right royal time. The party was taken in hand on arrival by a committee who showed the sights of the place, afterwards repairing to the Falls View hotel where a repast was served by the proprietors, Messrs. Chenette & Neal, followed by a ball later in the evening. After luncheon a game of football was played, the standard of which may be judged from the fact that the picked eleven from Cranbrook had to be satisfied with a tie, the score being one each. If anything the play throughout was on the side of Marysville, the goal scored by Cranbrook being of the "shady" description. Marysville has reason to be proud of its football team and should encourage the boys in every way. An invitation has been extended to Marysville to visit Cranbrook on Victoria day, when an effort will be made to reciprocate for the good time afforded the Cranbrook contingent.

Spectator.

IS WELL SATISFIED.

Fort Steele, B. C., May 3, 1901:
Messrs. Beale & Elwell, Cranbrook:

Dear Sirs—I beg to acknowledge the receipt of your favor dated 29th, ult., with your cheque for $77.29 to cover our loss under policy No. 7173985. I thank you for the prompt manner in which you have handled the adjustment of my claim.

Yours Very Truly,
Wm. Carlin.

EAST KOOTENAY GROWS.

East Kootenay may fairly claim to be one of the most progressive of the mining sections of the province, says the B. C. Mining Record. It is a big district with large and valuable natural resources among which minerals take a prominent place. For years lack of transportation prevented development, but gradually this chief obstacle to the utilization of its resources has been and is still being overcome. First, the construction of the Crows Nest railway provided an outlet east and west for the coal and coke products of one of the most remarkable coal basis known. Next the Crows Nest Northern railway, now under the control of the Great Northern railway company, gave access via Jennings, Mohtana, and the Great Northern system, Idaho and Montana, to fuel from the Crows Nest Pass Coal company's collieries at Carbonado (Morrissey creek) and near Fernie (Coal Creek) and when completed to Michel will afford similar advantage to the coal mines there, which heretofore, when shipping their product to Montana, have had no alternative to the route via Lethbridge and the Sweet Grass and Great Falls line. Then, last year, the granting of the bounty on lead resulted in the reopening of the St. Eugene mine at Moyie, the most productive silver-lead mine in Canada; also to the remodeling and completion of the lead smelting works at Marysville and preparations for working the Sullivan Group company's mines near Kimberley. Now the survey of the route of the proposed Kootenay Central railway and the prospect of its construction are renewing interest in the mines of the Windermere division. Again, the preliminary work in progress in connection with the installation of a hydro-electric plant for the development of power on Bull river, in the neighborhood of Fort Steele, and the extension of hydraulic and other placer-mining operations on other streams in that section of East Kootenay, are adding their quota to the advancement of the mining industry of the district. In other ways, as well, development and progress are evident, so that it is manifest the characteristic optimism of the several newspapers published in East Kootenay has a substantial basis. That the most sanguine anticipations may speedily be realized and the enterprise displayed by those expending large sums of money be amply rewarded, are sentiments that will find ready concurrence among all well wishers of that highly favored district.

A PRINCELY CONCESSION.

Victoria, May 15.—A cable has been received here conveying the gratifying intelligence that the Western Canada Pulp & Paper Co., Ltd., capital £450,000, has been successfully floated in London. This is the culmination of negotiations which have extended, in several directions, over a number of years, and were previously several times on the eve of success.

Among the local men interested are H. B. Thompson, J. J. Shallcross and Percy Criddle, in Victoria, P. G. Shallcross, Dr. R. E. McKechnie and Geo. Cowan, in Vancouver; W. W. Beer and J. Laing Stocks in Nelson, and G. F. Beer, in Toronto.

These have been principally instrumental in promoting the new company that has been floated. They started in 1898 and have been steadily at work ever since. The preliminaries were expensive and involved extensive exploitation, surveys and investigation of conditions and markets. It is needless to say the promoters met with many setbacks and at times the outlook was most discouraging.

The various rights and properties acquired by the new company are as follows: (1) Two agreements with the chief commissioner of lands and works for British Columbia, for the granting of crown leases conferring the right to take timber for the manufacture of wood pulp and paper over 163,000 acres of forest land on the coast of British Columbia. (2) 3,000 acres (approximately) of freehold land, situated on both sides of Powell river, and extending from the sea to Powell lake. (3) Water rights, granted by the crown, to take water for power purposes from Powell river.

PRIZES FOR SCHOOLS.

New Westminster, May 16.—A British Columbia school exhibit is to be made one of the features of the Dominion exhibition. The educational advantages enjoyed by residents of this province, with various samples of results, will be shown to the people from other parts of the world, and in order that the display may be on as large a scale as possible it is necessary that teachers and pupils begin at once to prepare exhibits. Handsome prizes will be offered for collective displays and for individual work. These will include products of manual training, kindergarten, brush work, penmanship, drawing, composition, etc. The minister of education, who is deeply interested in the proposed exhibit, has been asked to permit the the superintendent of education to take charge of it.

THE CORBIN ROAD.

CHIEF ENGINEER ROBERTS SAYS TRAINS WILL BE RUNNING BY NEXT APRIL.

Contracts have been awarded to Spokane men for grading 16 miles of the Corbin road east from Bonners Ferry, Idaho, up the Kootenai river and north on the Moyie river. Twohy Bros. and Winters, Parsons & Boomer get the work. It includes three tunnels 300 or 400 feet long. The work will be started at once, and clearing of the right of way has been started. Twohy Bros. are sending their equipment, including two steam shovels, and Winters, Parsons & Boomer will send one steam shovel. The work is rather heavy and it is estimated that 1000 men will be employed.

E. J. Roberts, the chief engineer for the road said yesterday: "We shall be working 2000 men in 60 days. I think that the road will be running by the first of April. The route around Rathdrum, Idaho, and at Bonners Ferry, Idaho, is still unsettled."

D. C. Corbin, head of the Spokane International road, is in Washington, D. C., on business connected with the right of way over government land.

THE COLEMAN FIRE.

Blairmore Times: Yesterday morning shortly after nine o'clock fire was discovered in the rear part of the Myie block, Coleman. At once the alarm was given, the whistle at the works sounded, and promptly the miners and men around town responded. By the time however that the firefighters had rallied and had a hose stretched the fire had gained such headway that the building was doomed and the efforts were concentrated upon trying to save the adjoining buildings. The efforts to check the flames from spreading to the west were successful and the Evans block, although badly scorched, was saved. To the east, however, the firefighters found it impossible to stay the firefiend and building after building caught fire, making a clean sweep of that side of the street to the corner where the fire was stopped from crossing the street, and the P. Burns block saved. At times it looked as if the fire would cross the main street and nothing but hard work and the judicious use of water, of which there was a plentiful supply, saved the Coleman hotel from becoming a prey to the flames. As it was the heat was intense enough to break all of the plate glass windows in the front of that building besides giving it a good scorching.

In all five blocks were destroyed and rendered a total loss to their owners. It is understood that all were partly covered by insurance. The business men whose places were destroyed all managed to save most of their goods although in a more or less damaged condition.

Those who were burnt out are as follows: Fred Thompson, merchant tailor; S. J. Watson, druggist; A. Cameron, jeweler; D. J. McIntyre, gents' furnishings; Grant & Stauffer electricians and Frank Graham, barber shop and confectionery. Nothing but the grand fight put up by the citizens and the splendid water system lately put in at that town saved the whole of the business portion from becoming a seething mass of flames. As it is the fire losses will amount to over $10,000, which, besides putting so many out of business, is a very serious loss to the town of Coleman.

Whether the burnt district will be at once rebuilt or not is hard to say at the present time but no doubt before the summer is over the present site of the smoldering ruins will again be occupied by business houses.

"IMPERIAL LIMITED" JUNE 4.

Montreal, May 11.—Final arrangements have been made for this season's double daily service of the Imperial Limited transcontinental train. The service will be commenced on June 4, which date is nine days earlier than the trains started last season. This is due to the fact that the company has found it necessary to operate the trains at the beginning of June in order to accommodate the travel to and from the west. The passenger traffic between the Pacific coast and Montreal has been growing heavier each year. Last season it surpassed any previous year, and during the coming summer it is expected that the number of persons who will travel on these two trains will be greater than ever before. It is to meet this increase that the C. P. R. has prepared a schedule covering the season from June. The trains will be the same as those of last year with the exception that there will be an improvement in the sleeping car service. The most modern twelve section and drawing room cars will be used and the equipment will be uniform. In addition to this there will be double drawing room and compartment cars for special parties.

TAX ON DRUMMERS.

Victoria, May 16.—It is reported from Ottawa that the minister of justice is to be asked for an opinion on the constitutionality of the tax on commercial travelers in British Columbia.

SULLIVAN OWNERSHIP.

(From the Spokesman-Review.)

"Since selling my stock in the Federal Mining & Smelting company to the American Smelting and Refining company I am merely holding the office of president temporarily, and I hear that Fred Bradley, the head of the Bunker Hill and Sullivan, will be elected to succeed me," said Charles Sweeny yesterday, after his return from New York. "I sold out my Federal stock several weeks ago for $2,660,000 and at the same time George Gould and Mr. Rockefeller also sold out. I got $120 for my common and $100 for my preferred stock. The American Smelting and Refining company now holds a majority of Federal. There is no truth in the report that I have been trying to form a new combine of Coeur d'Alene mines outside the Federal group. Under the terms of a contract which I made when I sold I agreed not to operate in the Coeur d'Alenes.

"The Federal company owns control of the bonds in the Sullivan Group Mining Co., operating mines and a smelter near Marysville, B. C. Now, through its ownership of a control in the Federal, the American Smelting & Refining company becomes a dominant factor in the affairs of the Sullivan. I personally have no interest in the Sullivan.

"It was reported in New York that the American Smelting & Refining company has acquired the Bunker Hill & Sullivan at Wardner, Idaho.

"The American Smelting and Refining company is now behind this new American Smelters' Securities company, which is acquiring control of the smelters on the Pacific coast."

A BIG SAVING.

Phoenix Pioneer: Recently the Granby company completed the installation of mechanical chargers at the battery of six blast furnaces at the company's smelter, and it is no secret that this means, in round numbers, the saving of about 13 cents per ton on every ton of ore treated at this smelter when it is operated at its full capacity. Thirteen cents does not seem a very large sum to save, but when figured out on the basis of the ore treated at six furnaces in twelve months—say about 600,000 tons—it amounts to about $80,000—a respectable profit in itself.

THE MINE FIRE.

Blairmore Times: That portion of the Frank mine that was discovered to be on fire some time ago is still sealed up and it will be at least two weeks yet before it is unsealed. It is presumed that the fire has been smothered out but the company are taking no chances in opening it up too soon. In the meantime a large number of miners are working in other parts of the mine and a large amount of coal is being taken out and shipped.

BELIEVE IN ADVERTISING THE TOWN.

The business men of Armstrong have subscribed $600 toward the publication of a special booklet descriptive of that section of the province. There is some public spirit about the people of Armstrong and they deserve and no doubt will receive a rich reward for their live enterprise and foresight. They have set a worthy example for other places.

SMELTER AT FAIR.

New Westminster, May 16.—One of the latest attractions secured for the Dominion exhibition to be held here from September 27 to October 7 is an exhibit that will be illustrative of mining and smelting operations, arrangements for which have been made with the Hall Mines and Smelting company of Nelson, B. C.

O. R. T. CONVENTION.

Buffalo, May 15.—The annual convention of the Order of Railroad Telegraphers has adjourned to meet next year in Minneapolis. New offices of third and fourth vice-president were created, D. Campbell, of Toronto, Ont., being elected to the former position. President H. S. Perham, of St. Louis, and Secretary-Treasurer L. W. Quick, of St. Louis, were re-elected.

TO BE DOUBLE TRACKED.

Montreal, May 16.—Before leaving for Winnipeg tonight, second vice-president Whyte, of the C. P. R., announced that it had finally been definitely determined to double track the company's line between Fort William and Winnipeg, a distance of 427 miles. The work will occupy three years.

THE YUKON CLEANUP.

Dawson, Y. T., May 14.—The clean-up for the winter work is estimated at $1,500,000, and the result of the summer work will be about $5,000,000.

O. R. C. TO MEET AT MEMPHIS.

Portland, May 16.—Memphis, Tenn., was selected as the convention city for the Order of Railway Conductors two years hence.

CRANBROOK HERALD

By The Herald Publishing Company. Limited.

E. Simpson

Editor and Manager.

The Herald is worth $10 a year. It costs only $2. No man in South East Kootenay can afford to be without it, and everyone living outside of the district, who is interested in the progress of this section, should read it. It publishes the news while it is news. It is controlled absolutely by the publisher. No clique, party or individual dictates it policy. It don't try to please the people. It's desire is to publish a newspaper that will be a credit to the community. Send in your subscription and and you will be thankful ever afterward.

Advertising rates $1 per inch, single column, per month, no more and no less.

Reading matter 15 cents per line to non-advertisers; 10 cents per line to regular advertisers. Business locals five cents per line each insertion.

If you desire to reach the people of South East Kootenay you must advertise in The Herald.

The Herald has a firstclass job plant, and its work is of the best. The Herald don't want charity. It wants a square deal on your job work. If we can't suit you in quality and price, kick, and send your work to some Cheap John house in the east that never spends a cent in Cranbrook.

1,000 a Week

That is the Guaranteed Circulation of the Cranbrook Herald

Press room and subscription lists open to investigation by advertisers at any time.

The Herald gives a dollar in value for a dollar in money. The advertiser has the right to know what he is receiving for his money. The Herald is one paper that courts investitigation.

EDITORIAL NOTES.

The United States government will have a deficit this year of $30,000,000, yet under laws formed for their benefit. Carnegie and other billionaires are piling up their wealth at the expense of the public. A public trust is a private snap.

On the concession by the provincial government to a few men in the country of 166,000 acres of timber land a paper manufacturing company has been formed in England with a capital stock of $2,250,000. A government concession is worth something if it is the right kind.

All persons now frankly admit that the revival of mining in the Kootenays is due to the lead bonus.

The first contracts for the Corbin road have been let and work will begin at once. And yet only the other day the editor of the Herald was called a boomer because he insisted that the road would be built.

When it comes to doing much in the way of public improvements in a big district like this with only $5,000 to expend, it will take some financiering. Still, not much. The money will be spent as long as it lasts and then work will stop.

Fernie talks of borrowing $100,000 to put in sewer and water works systems. That town is going ahead on the municipal ownership policy.

Fred Stork, mayor of Fernie, pioneer hardware merchant of the town, and owner of the opera house, has evidently started a boycott on Editor Lowry, of the Ledge. We remember once in youthful days we were possessed with a desire to stir up a hornet's nest. We did it, and have never forgotten the incident.

It looks as if the incorporation of Cranbrook might be delayed.

We are indebted to our friend Mr. Goldie for the following skit on Missouri judges and Missouri justice: A new judge arose to address the jury and spoke as follows: "Gentlemen of the jury, charging a jury is a new business to me, as this is my first case. You have heard all the evidence as well as myself. You have heard what the learned counsel have said. If you believe what the counsel for the plaintiff have told you, your verdict would be for plaintiff; but if, on the other hand, you believe what the defendant's counsel has told you, then you will find a verdict for the defendant; but if you were like me and don't believe what either of them said, then I'll be d—d if I know what you'll do. Constable take charge of the jury."

The agent of the C. P. R. at Rossland recently billed a crate containing one hog to China Creek station. The China Creek agent received a crate that day containing an even dozen of animals generally known as pigs. He called down the Rossland agent for billing one hog when there were twelve, and the Rossland agent wanted to know if the China Creek agent had struck a new brand of booze. To further complicate matters a sawmill man to whom the hog was billed called for his hog and the China Creek agent wanted him to pay express on twelve hogs instead of one. This request was indignantly refused on the grounds that one, and only one hog had been sent for. Rate cards, traffic sheets and rules were carefully perused, but finally the express was delivered and the matter of payment left to arbitration. The Rossland agent was right. He shipped one log, but by the time the crate reached China Creek eleven little squealers had been born. Hence all the trouble.

It is better to be a booster than a knocker.

The Herald is still for Cranbrook.

There are very few people in the Cranbrook district who do not read the Herald. It gives the news of the district and that is what the people want.

There are some big political games being put up in Cranbrook just now. political ambition is an awful disease and it is keeping some men in Cranbrook awake nights. The gate keeper of hades rests easier than the man with the uncontrollable desire for office.

Participation in graft is like stain on a white wall. It won't rub off, and there are times when this fact becomes embarassing. There are men in East Kootenay who appreciate this fact.

Candidates for mayor and aldermen are hereby reminded that municipal honors may be some ways off after all.

Cranbrook may not be incorporated but the first committee that starts out to raise a subscription for a public improvement will have a hard time.

On the square, now, are you not glad that you live in Cranbrook?

HOUSTON A SPOILSMAN.

From John Houston's paper: John Houston has always proclaimed himself a spoilsman in politics. When holding office he has always given any patronage he controlled to his supporters. No one can charge that he has appointed inefficient or untrustworthy men to office, and kept them in office after they proved themselves inefficient or untrustworthy. No one can charge that he has given the patronage at his bestowal to his opponents, or that he allowed those to whom he gave his patronage to charge more than a fair price for what they sold the city or the province. This is practical politics, and it is practiced by every practical politician who holds office in Canada today, and no other kind of politicians ever had or will have office in Canada.

AN OLD PIONEER.

Wilmer Outcrop: Indian Agent R. R. L. T. Galbraith drove up last week to visit the reserves officially this valley. He visited the various towns and his many friends were all pleased to meet him again. Mr. Galbraith is one of the very earliest pioneers of the Kootenay and Columbia valleys and no man has done more towards the upbuilding of the country than he and certainly no one takes more keen delight in its progress and development. But his great desire during his many years of residence has been to see a railroad constructed the entire lenghth of these fertile valleys and it is evident that even this he is soon to realize, although he could give no information on the subject for publication.

THE CROW EXPRESS.

The eastbound express was derailed Sunday morning at Chin, a station between Lethbridge and Medicine Hat. The train ran into an open switch, and the locomotive and mail car left the rails.

The wreck took place about three o'clock in the morning and though the engineer saw that the switch was open, it was too late to bring the train to a standstill in time to escape the accident. He had sufficient time, however, to partially do so, and the result was that many of the passengers did not know of the accident till some time after it was over. By the breaking of a steam pipe Engineer Fisher had one leg scalded and was slightly bruised, but not seriously. No one else was injured.

SOLD THE SADDLE.

Three years ago Mike Quinlaven borrowed a saddle of Paul Handley at Kimberley and afterwards, it is charged, sold it. Quinlaven disappeared and last week he was apprehended in the Edmonton country and Constable Walker, of Fernie, went after him, bringing him back to Cranbrook this week. Today the prisoner was given a hearing and was remanded for trial on the evidence presented. Chief McMullin came down from Fernie to attend the hearing.

LOST HIS LEG.

(Fernie Ledge.)

Wm. Rich, while helping to raise a smokestack at Elko last Saturday met with a serious accident. A section of the stack fell on him crushing one of his legs so badly that it had to be amputated after his arrival at the hospital in Fernie. Rich is a fine young man and comes from Red Deer, Alberta.

INCORPORATION IN DOUBT

The report sent from the coast to the effect that an order in council had been passed authorizing the incorporation of Cranbrook. proves to have been premature. It would have gone through on the petition sent in last year had there been no protest. But some of the property owners and the owners of the Baker estate were against incorporation. A counter petition was sent to the coast and the matter was then referred back to Government Agent Armstrong to pass upon the assessed valuation on the original petition, it having been sent in on the 1904 assessment. The town site property is in the hands of three trustees and two ofthe trustees, representing the C. P. R. interests, signed the petition for incorporation, while the third trustee, representing the Baker estate interests in the townsite, signed the protest. If the government considers the first signatures as representing only half of the townsite property the petition would not be adequate and the proposition would have to be declared off at this time. Mr. Armstrong has made his report and returned it to the government today. Therefore it is reasonable to expect that the matter will be definitely settled next week.

THE LEDGE BOYCOTTED.

Fernie Ledge: Fred Stork, mayor of Fernie and owner of the local hall in which theatrical companies play, has boycotted the Ledge. The agent of the "Imprudent Young Couple" called ed at this office last week and instructed the manager to insert an ad announcing that his company would play in Stork's opera house on Friday evening. The ad was put in type when a telegram was received from the agent at Cranbrook instructing the Ledge to cancel all notices. When the show arrived in Fernie its manager informed the Ledge that Stork would not allow the company to play in his opera house if they advertised in the Ledge. It is unfortunate for Fernie that Stork sits in the mayor's chair for the outside world will think that we cannot tell the difference between a man and a syphax, and are liable to bunch us all in the same catalogue. We rather like Fred Stork and would be pleased to see him recover, although theatrical companies all over will probably hear of the boycott and leave Fred to sit on the throne alone in his great theater and listen to the rolling of the pumpkin seeds in the vacuum of his upper stope.

MINING NOTES.

C. M. Edwards came up from the placer ground on the upper Moyie on Monday to get a troublesome tooth extracted. He says that they have been ground sluicing for the past three weeks and that the prospects are very favorable.

Banks and Thompson are doing some great work on their property at Perry creek. They are now running a tunnel back in search of the paystreak and are doing very well with the gravel they are now handling.

Mr. Durrant, who is operating a steam plant on Perry cree, will move to the north side, where he will sink a shaft to rim rock. He abandoned his old location owing to the shifting sand that made the sinking of a shaft a difficult matter.

The hydraulic company at Perry creek have had considerable trouble with the syphon pipe that spans the gulch. This has been remedied and the flume put in good shape for work. Everything will be ready for active work within a few days.

There is enough gold in Wild Horse Perry creek and the upper Moyie that will be gotten out within the next ten or twenty years to pay off the debt of the Dominion.

The St. Marys valley is today one of the most promising mineral sections in all of Canada and the time is coming when its wealth will be enriching the people.

Those who are familiar with smelters and have visited the new one at Marysville are unanimous in the opinion that the Sullivan smelter will be one of the best onthe American continent, as it will be modern in every particular. And the Herald believes that the time will come when the people of this district will have reason to feel thankful that the smelter was built, as it is bound to prove a great incentive to further development of the rich prospects of this section.

The Sullivan mine will be working with a full force of men within a few weeks.

As soon as Neil McLeod Curran returns to the district, which will be some time this month, work will be resumed on the North Star mine.

TOO MANY CHINESE.

Golden Star: The Cranbrook Herald complains that there are too many Chinese in Cranbrook. This has been our contention all along with reference to the number of chinks in the province, but we fail to see just how we are going to dispose of them. It might be a good idea if some benevolently inclined individual would ship a few of them to eastern Canada and stock the market there, where the people who have bucked our anti-Chinese laws to a standstill in the immediate past. By all means give them a taste of the real yellow peril, and we guarantee that there will be no more opposition to our restriction on Asiati. immigration.

PORTLAND EXPOSITION NOTES.

The Lewis and Clark fair opens Thursday, June 1.

• • • •

Twelve notable organ recitals are scheduled for the Lewis and Clark exposition. The recitals will be held in the Auditorium, where a $10,000 pipe organ will be set up.

• • • •

H. G. Higinbotham, who was director-general of the Chicago world's fair, has accepted the invitation extended by the management to attend the opening exercises of the exposition on June 1st.

• • • •

Joseph Marvin, Alaskan commissioner for the United States government at the exposition is in receipt of a telegram from Governor Brady of Alaska telling him that a large exhibit of gold nuggets has been collected for exhibitiont Mr. Marvin has secured a special safe for storing the nuggets.

An interesting exhibit in the Mines and Metallurgy building at the exposition is now in course of construction. A miniature mountain is being constructed for the purpose of showing methods of coal mining in Washington. The mine will be tunnelled and a miniature car will run around the mountain and through the tunnels. The mountain is thirty feet long by twenty wide and is fifteen feet high.

• • • •

A single piece of native copper weighing 1000 pounds will be part of the mining display from Josephine county, Oregon at the exposition. The chunk of copper was taken from the Golden Standard ledge, the ores of which have been found to assay $18 a ton in gold and $22 in copper.

• • • •

The ornamental main entrance to the Lewis and Clark exposition has been completed and in a short time the old temporary gates will be torn away and the gatekeepers will be doing business at the bright new turnstiles. There are twelve turnstiles for entrance and eight for exit. The capacity of each entering turnstile is about forty persons per second, or even more in a rush. It is safe to figure that 500 persons may pass through these gates in a minute. Each turnstile records the number of people passing through, so that at the end of a day the total attendance may be figured up quite readily. There are three other entrances, one at Twenty-eighth street, near the Museum of Arts, one at the American Inn and the other at the northeast corner of the grounds, which will admit visitors coming by boat on the Williamette river to the Government Peninsula. The admission price has been fixed at fifty cents. Those who expect to be in Portland during the entire exposition season may purchase a season coupon ticket for $20 good for 137 admissions, or one good for fifty admissions for $12.50. The main entrance, which is at Twenty-sixth and Upshur streets, is reached by all street car lines and is only fifteen minutes ride from the heart of the city.

BIG TIME AT MARYSVILLE.

Marysville will hold its first celebration on the 24th and the people of Cranbrook should turn out in a body and attend. A fine program has been prepared for the day and in the evening there will be a dance. The new smelter is rapidly approaching completion and the people of Cranbrook will have a fine opportunity to see for themselves the magnitude of the work the Sullivan company has been carrying on the past year. There will be a warm football game between the Cranbrook Fire Brigade team and Marysville. There will be an interesting line of sports and the program can be found in this issue of the Herald. Close up work that day and buy a ticket for Marysville. A special train will leave here at 10:30 and there will be a rate so low that it will be cheaper than staying at home.

LITTLE HELPS.

National Magazine: Borax and water will brighten oilcloth.

Beeswax and salt will make rusty flatirons clean and smooth.

A little soda added to boiling vegetables will hasten their cooking and add to their tenderness.

When you wish to beat eggs quickly add a pinch of salt.

A good cleaner for gold or silver jewelry is a teaspoonful of ammonia in a cupful of water.

By adding a few drops of vinegar to the water when poaching eggs they will set more perfectly and quickly.

A little salad oil gradually added when mixing mustard for the table is a great improvement.

A cloth dipped in the white of an egg will brighten leather chairs and bindings.

A small piece of charcoal in a pot of boiling cabbage absorbs the odor.

A strong solution of nitric acid in an ounce of soft water will whiten piano keys.

WM. F. TATE & SON.

The firm of W. F. Tate has changed as Ross Tate, the elder son, has been taken in as a partner. This is a proper recognition of Ross Tate's industry and close attention to business. The firm will make every effort to meet the demands of the public in the jewelry line and in their new quarters will be in better shape than ever to do so. The Herald congratulates Ross on his promotion, and believes that he will make good for the confidence that his father has shown by this move.

MOYIE FEELS SLIGHTED.

Moyie Leader: Hon. Robt. Green, commissioner of lands and works, was paying the district a visit this week but gave Moyie the chilly go-bye.

Leckie Boots

are manufactured for men, who require boots for service and rough-and-tumble boys, whose parents find it almost impossible to keep their feet covered. They are all No. 1 leather honestlv made, and will give infinite satisfaction. Thousands who have worn them say that they are almost ironclad.

Ask your dealer to show them to you. If he should not have them send his name to
