J. R. DOWNES,

A Short Drive From Victoria

People of South East Kootenay who visit Victoria should not fail to visit Goldstream. It is the tourist's paradise.

NOTICE.

Take notice that I, William Small, of Cranbrook, intend to apply to the Board of License Commissioners for Cranbrook district, at the first meeting held 30 days or more after the first publication of this notice, for a transfer from myself to Peter Matheson, of the license to sell intoxicating liquors at the Imperial hotel in Cranbrook.

Dated July 12, 1905.
16-4t William Small.

ADDITIONAL LOCALS

M. B. King made a trip to Frank on Tuesday.

F. Angers, of Marysville, was in town Wednesday.

Mr. Lundie and J. McCollum were fishing in Swansea Wednesday.

J. McKenzie, of Medicine Hat, is visiting in Cranbrook this week.

R. D. Hope, of Spokane Junction, was in town a few days this week.

Mr. and Mrs. R. H. Bohart, of the Wardner hotel, were in town to-day.

Born—Thursday, July 20, 1905, to Mr. and Mrs. B. McGoldrie, a daughter.

Dave Griffith, of Fort Steele Junction, was in town a few days this week.

Mr. T. A. Corley, of Montreal, is in town on business and is registered at the Cos.

Frank Parks, of J. D. McBride's hardware store, has gone to Winnipeg for a few weeks.

The Herald is under obligations to Thomas Rooks for favors rendered regarding the Fernie fire.

Harry Wilson, of Hamilton, Ont., is visiting his brother who is working in the superintendent's office.

V. Liddiacoat arrived to-day from Spokane and will locate in Cranbrook again. Vince has a host of friends here who were glad to see him back.

Mr. George J. Phillipps, editor of the Vancouver Catholic Record, registered at the Cosmopolitan hotel on Tuesday.

A. C. Watkins, formerly a clerk in the Canadian Bank of Commerce, returned to Cranbrook last week after two year's stay in England.

Engineer Neal, who has been running the transfer engine at Michel the past four months came up this morning for a few days visit with Cranbrook friends.

Died—At St. Eugene hospital, on July 26, 1905, after a lingering illness, Pearle Dorothy, daughter of Mr. and Mrs. John Ewin, aged four years and eight months.

R. Tapping, owner and manager of the Revelstoke opera house, has been in Cranbrook and vicinity the past week, accompanied by his son. Mr. Tapping is representing an American nursery company.

J. P. Fink and family returned last week from a month's holiday trip to the coast and Spokane. Mr. Fink says they had a most delightful trip and that the visit to the exposition was one that well repaid them.

C. E. Reid left last week for a trip of three weeks to the coast where he will join Mrs. Reid, who has been there for the past month. Mr. Reid has not had a vacation for some time and felt the need of recreation.

Mr. and Mrs. T. Perrault, of Renfrew, Ont., arrived last week from Vancouver where they have been visiting for some time. Mr. and Mrs. Perrault are visiting at the home of their daughter, Mrs. Eldon Cathcart.

Wanted—An accountant employed during the day would keep a few sets of books where work could be done evenings and Sundays. Straightening out tangled accounts a specialty. Terms reasonable. Address Herald office.

Government Agent Armstrong and Don McKay, superintendent of roads and trails for this district, visited Perry Creek on Monday to look over what improvements were necessary. They found a great many trees blown down across the road.

Joseph Sterritt, who has been confined to his home the past month with a severe attack of fever, was out on the streets Tuesday for the first time. He is badly pulled down and suffered a loss in weight of 30 pounds while he was sick.

Misses Jessie and Lou Leitch A. C. Cook and E. Patterson are camping on the shore of the lake at Moyie. Miss Jamieson, of Calgary, D. J. McSweyn and James Arnold will join the party to-morrow or Saturday. Mrs. A. Leitch spent to-day with the young people.

William Jones, one of the machinists in the C. P. R. shops, seriously injured his foot Wednesday of last week by having it caught under a plank on which a driving box fell. He was taken home in a rig and given prompt medical attention and is getting along nicely.

For the past month the local ministers have united in holding a brief open air service on Baker street in the evenings at the close of the regular services in the churches. These meetings are well attended as a rule and many stop to listen who are never seen in a church.

Mr. and Mrs. G. T. Rogers, Miss Delahaye and Miss Wilmot left Tuesday for the coast. They were joined at Cranbrook by Mr. and Mrs. W. Colpman, of Lethbridge. The party, with the exception of Miss Wilmot, will go to Portland and to other towns on the coast. Miss Wilmot will go to New Westminster, where she will visit relatives for a few weeks.

George Leask has returned from his trip to Spokane, and says that his family will arrive in Cranbrook some time this week.

Brakeman George Andrews has been transferred to Medicine Hat. He and Mrs. Andrews left last week for their new home.

The Manahans and P. Crothers have returned from their trips east, and McCullogh came down from Bayard yesterday, all to remain in town until after the Lethbridge lacrosse game.

G. H. Thompson, the solicitor, returned last week from an extended visit to eastern points. Mr. Thompson says that the effete east is all right and a pleasant place to visit, but that to one who has lived in Cranbrook and enjoyed the beauties of this climate, returning here is like coming home.

Nelson Entwiste has opened a shoe shop on Hanson avenue opposite McArthur's store. He is a workman of long experience and asks for his share of the patronage. Read his card in this issue of the Herald.

day after spending two weeks in Creek, Alta., returned home on Tuesday after spending two weeks in Cranbrook.

D. J. Elmet, of Moyie, was in town Tuesday and Wednesday hustling for business. He says that from Yahk south on the right-of-way of the new road everything is lively. There are three new hotels, one at Yahk owned by Frank Clapp, one at Spokane Junction, managed by Mr. Pringle, and one at Hamilton, the boundary, owned by J. Swinnarton.

H. B. Gilmour, of Vancouver, the big-hearted and good natured machinery representative, has been in town several days this week. Speaking of the report that the straits at the time of the salmon run were thronged with man-eating sharks, Mr. Gilmour said: "That was all a fake. There were one or two mud sharks and that was about all, but I suppose that it made a good newspaper story."

Mr. and Mrs. M. McEacheran and Miss McEacheran left yesterday for their former home in Belfast, P. E. I. It has been fifteen years since Mr. McEacheran left the Island, and eight years since he came to Cranbrook. He was with the bridge gang at Macleod when work was started on the section house in Cranbrook, and being a house carpenter he was sent here on that work. Indulging in a few reminiscences that day before he left, Mr. McEacheran said: "I was most favorably impressed with Cranbrook when I first saw it, although there were only eighteen buildings in the town at the time, including shacks. I remember I bought a copy of the Herald and the rest of the boys in the crowd would not believe that the paper was printed in town."

L. B. VanDecar and wife returned last Friday from their trip to the coast. They had a very pleasant trip and speak well of the Portland exposition. Speaking of one phase of their trip, Mr. VanDecar said that he was surprised to meet so many people who knew so little about British Columbia and East Kootenay. "They have some fine country in Washington and Oregon but there is nothing there I would trade for Cranbrook and East Kootenay. Our banana climate with its cool nights would open the eyes of some of those people, and after living here for a while they would never want to leave here. Mrs. VanDecar and I were both glad to get back to Cranbrook. It looked mighty good to us."

ALMOST A FIRE.

Cranbrook had a narrow escape from fire last Monday evening about six o'clock. J. Manning was returning to the store after dinner and happened to notice smoke coming from the second story of George Kennedy's blacksmith shop. He sounded the alarm and although there were only a few people on the street at that hour the hose reel under the direction of Vic Rollins and pulled by willing hands was at the place within three minutes after the alarm sounded with a good stream of water ready for business. The fire was confined to a box of excelsior that had become ignited and was soon extinguished. Situated as the building is in the middle of a block crowded with buildings, if the fire had gotten a good start, it might have swept the town. Messrs. Fink and Bradley, who hurried from their homes when the alarm sounded, with all the fire boys who could get there, worked like trojans, spoiled their clothes, got wet and received for all of that some blame and little praise. Cranbrook has the best bunch of volunteer fire fighters in western Canada and the people should appreciate them and their efforts.

THE LETHBRIDGE GAME.

The lacrosse boys leave on Sunday for Lethbridge to be in line for Monday's league game. The boys are in good form, and feel confident of bringing victory back with them. They will be accompanied by quite a number of lacrosse cranks.

COAL IN THE OKANAGAN

A. W. McVITTIE MAKES PROMISING DISCOVERY.

A. W. McVittie, P.L.S., who has just returned from a visit to the Okanagan reports his discovery there of a seam of bituminous coal 52 inches in thickness. The discovery was made seven miles from the shore of Okanagan lake on the west side and about nine miles from Okanagan landing. It is in such a position, Mr. McVittie declares, that it can be mined economically and a road can be made to the lake of a two per cent grade, less than eight miles in length.

The coal is found in what appears to be an oligocene formation which is a formation existing between the Eocene and Miocene, all of comparatively recent geological date. The coal, nevertheless, is not lignite, but is purely bituminous, very hard but burning with little or no residuum. The place of discovery shows but little of the formation, it appearing clean cut between a tremendous thickness of basaltic rocks and on the other side by a recent granite formation. Dr. Dawson, the eminent Canadian geologist, said in his map of this country that the formation was known to contain seams of bituminous coal, but none of sufficient thickness had been discovered to be of any commercial value. Mr. Dawson's assistant at that time, Mr. McEvoy, now geologist for the Crows Nest Pass Coal company, also notes the same appearance.

This is the only coal that has been found in the neighborhood although there have been some seams discovered in the Similkameen further west in the Nicola valley.

At present there is no coal burned in that vicinity and wood is practically the only fuel. The steamboats on the lake are using coal brought from the coast and Mr. McVittie naturally thinks that herein a market will be found for his find. Mr. McVittie has located the whole visible formation which comprises an area of five square miles and is now interesting himself in forming a company and thinks he will have little difficulty in disposing of much of the stock of Vernon itself, where the residents have greatly interested themselves in the discovery.

Mr. McVittie, until the railroad is a realized factor in the development of the western country, is only raising sufficient capital to ensure a supply for the local market. This he intends to do this summer and by this time next year hopes to have the local market regularly supplied. With the advent of the railroad further development will be necessary. As the dip of the seams, which altogether measure about 10 feet of coal, 25 or 30 degrees, no hoisting will be necessary and a working tunnel will give about 2,000 feet of coal elevation above it. Quite a supply will be available when the demand arises, as it must with the gridironing of the Okanagan and Similkameen with railways.

ROSS—DUNLAP.

Married—On Wednesday, July 26th, at the home of the bride's parents at MacLeod, Alta., Miss Dunlap, and Mr. Albert Ross, of Cranbrook, Rev Jefferies officiating. Mr. and Mrs W. F. Tate, of this city were in attendance. The bride is one of MacLeod's attractive young ladies who will be missed by her large circle of friends in that town. Mr. Ross, the groom, is in the car repair department of the C. P. R., and one of the most popular employees of this division. For a great many years he has been stationed at Cranbrook, but recently he has been removed to Sirdar, where the happy couple will take up their residence. Perhaps there is not a man on this part of the road who has more friends than Mr. Ross, not only among those with whom he works, but with the people generally. Last Sunday he was asked to meet the members of the Carmen in their hall, and when he got there he found a bunch of his friends awaiting him. Mr. McGowan, as spokesman for the party presented him with several magnificent pieces of silver and the following address :—

Cranbrook, B. C., July 23, 1905.

Mr. Bert Ross, Sirdar :—

We the undersigned wish to convey to you our most hearty congratulations on the occasion of your approaching marriage and hope that in departing from the estate of single blessedness, you may live to enjoy the happiness and comfort that married life ought to bring. We beg to offer you these presents as a token of the high esteem and friendship in which you are held by us :

J. Wright, J. Sims, J. McDonald, J. Sneddon, J. Laurie, J. S. Brake, J. Rowe, F. Johnson, A. Shankland, G. Abbott, J. Sproule, W. Shotten, H. J. Argue, W. Pettet, A. McCowan, P. Sproule, W. Smith, W. Twohey, M. McEachern, E. Johnson, I. Ryckman, R. Sawerel, J. Smith, C. A. Abbott.

Others present had words of congratulation and the meeting adjourned with a general expression of good wishes.

KOOTENAY DAY AT PORTLAND

Monday, August 7, has been set apart for "Kootenay Day" at the Lewis and Clark Exposition at Portland, and F. L. Greenough, traveling representative of the exposition was in the city on Wednesday for the purpose of arousing local interest in the matter. He stated that while this special day was called "Kootenay Day," it was the intention of the fair management to include both the Crows Nest and boundary districts also under the same head. The original dates for British Columbia special days were named for early in July but realizing that these dates would interfere to a great extent with the various Dominion Day celebrations and that a great number of people would wish to go at a later date, the above named date was agreed upon.

The matter of sending as large delegations as possible to be in attendance at the fair on this date is being taken up by the various boards of trade in Nelson, Rossland and other cities throughout this section and a large attendance seems to be assured.

Mr. Greenough is very enthusiastic over the outlook for the success of the exposition and states that the attendance is steadily increasing. Nearly half a million admissions were recorded for the month of June and the present average is about twenty thousand daily.

The special day feature is attracting a great deal of attention and a large number of cities, districts and states are taking advantage of this method of exploiting their resources and advantages before the large crowds that are daily pouring into the exposition from all sections of the United States and Canada.

Mr. Greenough goes to Fernie from this city and from thence back to Grand Forks and the boundary country.

THE LEGION OF FRONTIERSMEN.

This is an organization that is aimed to extend over all of the English possessions, and to include frontiersmen of every type. It is being organized for sport but will be prepared for war. Mr. Roger Peacock, the novelist and frontiersman, planned the Legion, and the Earl of Lonsdale founded it. Southeast Kootenay should prove a rich field for securing members for such an organization. C. C. Whebell, of Cranbrook, is interesting himself in the matter, and anyone applying to him in person or by letter, will receive all the information they desire. A. Watts, of Wattsburg, is also interested, and has had considerable correspondence with parties in the Old Country relative to the best mode to proceed in Western Canada to push along the organization. He will also be glad to assist in the matter.

The idea is a good one, and should meet with the approval of the people. There are at least 200 or 300 in this district who would be eligible, and no time should be lost in getting the movement started right here in Cranbrook.

NEW RAILWAYS NEAR CRANBROOK.

With all the talking of the construction of the new railways in the province, the struggle for subsidies, very little is known of the two roads being built right here at Cranbrook without bonus and without legislative action. The Staples lumber company have completed grading a road about eight miles long, extending from the North Star branch across the prairie to Cherry creek. The work will cost quite a bunch of money but has been pushed forward without anything being said by anyone. The other road is one that will connect the Robinson-McKenzie mill with the Crow, and work is also progressing on that. The people around Cranbrook are peculiar, inasmuch as they go ahead with enterprises of this character without asking government favors.

THANKS "HUTCH."

My Dear Mr. Hutchison: I thank you very much for the cheque forwarded me by the Canadian Casualty Co. for the full term of my indisposition resulting from the accident to the rig on July 1st. Judging by the promptness and courtesy of the firm you represent, I feel sure they will prove a popular safeguard against the everyday "mishaps that flesh is heir to," and I, for one, thank them and yourself for the prompt, businesslike way you have dealt with me.

I am, sir, yours very cordially,
F. Clifford Harris.

BOOTHS AT THE CELEBRATION.

The celebration committee have decided to charge $15 for the booth privileges on the grounds on Labor Day, and only those who have licenses in town to be permitted to receive the privilege. The rent of the one booth on the ground will be let to the highest bidder.

NOTICE.

Thirty days after date I intend to apply to the Chief Commissioner of Lands and Works at Victoria, B. C., for a special license to cut and carry away timber from the following described lands, situate in South East Kootenay.

Commencing at a post planted at the south-west corner of lot 5464, thence west forty chains, thence south 60 chains, more or less to the northern boundary of L. Cahill's timber license, thence following said boundary east to the right-of-way of the B. C. Southern Railway, thence following said right-of-way in a northerly direction to the southern boundary of lot 5464, thence west to place of commencement, containing 640 acres, more or less.

W. N. Clark.
Dated June 30th, 1905. 16-5t

R. A. Macconnell
Undertaker

HOT WEATHER AND WIND.

This section of the country has been in it with the rest of the world for hot weather the past week. In the east the heat has been so severe that the authorities of New York city have allowed the people in the tenement districts to sleep on the grass in the parks, and in consequence thousands have crowded the open places every night. Quite a number, exhausted by heat and loss of sleep, while sitting in the windows in the high buildings met death by falling to the pavement below. Although the weather has been unusually hot in this district the past week, yet every night has been cool and that has enabled the people to get a good rest and recuperate. For the past few days the streets have been well sprinkled every hour in the business portion of the town and those having water and hose at private residences have kept the buildings and grounds cooled in the same manner. But here there is no such heat that causes prostrations like they have in the east, and it lasts only a few days. Saturday night for about ten or fifteen minutes one might have thought that they lived down in Texas or Kansas, as Cranbrook was visited with what is looked upon in this country as a hurricane, although in the country where they have severe windstorms, that of Saturday night would be only a gentle zephyr. What added to the terrifying conditions here was the fact that the transformer on the electric light line on the main street burned out, and the plant had to be shut down, placing the whole town in total darkness just when the wind was at its highest. A few signs were blown down, a few windows broken, but there was no serious damage, but some inconvenience due to the necessity of hustling for lights.

IN THE COUNTY COURT OF KOOTENAY HOLDEN AT FORT STEELE,

Between :

W. J. MASSEY, Plaintiff,
—and—
MAY BLACK GILLIER and J. M. RICHARDSON, Defendant.

To May Black Gillier, of Cranbrook, B. C.:

Take notice that a plaint has been entered and a summons issued against you in the above County Court by W. J. Massey, of Vancouver, B. C., for the sum of $195, being for goods sold and delivered, and an order has been made that the publication of a notice of the entry of such plaint in the "Cranbrook Herald" shall be deemed to be service of the summons upon you.

And take notice that the time within which you shall be at liberty to enter a dispute to this action shall be within eight days after the 17th day of August next.

J. F. Armstrong,
Registrar.

Dated at Cranbrook, B. C., this 25th day of July, A.D., 1905. 18-4t

LAND NOTICE.

Take notice sixty days after date I intend to apply to the Hon. the Chief Commissioner of Land and Works at Victoria for permission to purchase the following described land, beginning at a post on the east bank of Moyie river in the East Kootenay district, at the south east corner of lot 7103, marked B. C. St. Clair's south west corner post; thence north 20 chains; thence east 20 chains; thence south 20 chains; thence west 20 chains, to point of beginning, containing 40 acres, more or less.

16-9t B. C. St. Clair.
Yahk Station, June 25, 1905.

TIMBER NOTICE.

Take notice that thirty days after date we intend to apply to the Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands situate in East Kootenay District, B. C., commencing at the north-west corner of King Mercantile Co.'s South African Land Grant (Trooper Hammond) running west 80 chains, south 80 chains, east 80 chains, north 80 chains, to point of commencement.

The King Lumber Mills, Ltd.
M. B. King, Manager.

TIMBER NOTICE.

Thirty days after date I will apply to the Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands: Commencing at a post situated on the west bank of the north fork of Michel creek, opposite D. McArthur's north west corner post on the trail running to M. McInnes' mine and running 60 chains north along bank of said creek; thence 80 chains west; thence 80 chains south; thence 80 chains east; thence 20 chains north to the place of commencement, containing 640 acres, more or less.

17-5t W. H. Gibson.

Synopsis of Regulations for disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 2 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding free miner's certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $5.00 per annum for an individual and from $20 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 1500x1500 feet by marking on the same with location posts, bearing location notices one at each end on the line of the lode or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid the locator may upon having a survey made, and upon complying with other requirements, purchase the land at $1.00 an acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of royalty at the rate of 2½ per cent of the product of the location.

Placer Mining.—Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims generally are 100 feet square; entry fee, $5, renewable yearly. On the North Saskatchewan River claims are either bar or bench, the former being 100 feet long and extending between high and low water marks. The latter includes bar diggings, but extends back to the base of the first bank, but not exceeding 1,000 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, and subject to the rights of all persons who have, or who may receive entries for bar diggings or bench claims, except on the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental, $10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds $10,000.

Dredging in the Yukon Territory.—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the 18th day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental, $10 per mile for first year, and $10 per mile for each subsequent year. Royalty same as placer mining.

Placer Mining in the Yukon Territory.—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line of general direction of the creek or gulch, the width being from 100 to 2,000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days, if the claim is within ten miles of mining recorder's office. One extra day allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,500 feet in length, and if the party consists of two, 1,500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee $10. Royalty at the rate of two and one half per cent on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of $2. A claim may be bonded, and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least $200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Territorial Gazette.

Petroleum.—All unappropriated Dominion Lands in Manitoba, the Northwest Territories and within the Yukon Territory are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospected, an area of 640 acres. Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well and such other land as may be determined, will be sold to the discoverer at the rate of $1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

W. W. CORY
Deputy of the Minister of the Interior
Dept. Interior.

THE LEAD DUTY

JAMES CRONIN EXPRESSES HIS VIEWS ON THE PROBABLE RESULTS.

James Cronin, manager of the St. Eugene mine of Moyie, and the Centre Star and War Eagle of Rossland, talks as follows on the duty on lead and probable effect on the mining industry of the Kootenays:—

Rossland, July 7.—Quite the most important piece of news received here for many a long day, which is of import to this camp, was that published *this morning in The Nelson* Daily News as to the decision of the Ottawa government to immediately levy a duty upon the products of lead imported into this country. The duty will have an effect upon the camp and upon the Kootenay district which is incalculable. The first and immediate effect must be the increase of the capacity of the lead refinery at Trail. The lead refinery there, under most adverse conditions, conditions which included a period during which lead was never lower in the European market, when the American smelter trust practically debarred all British Columbia ores, when the lead mining industry seemed to be upon the down grade, was started up on an entirely new process, that of the electrolytic refining.

The new process has proved itself to be one of the most perfect, if not the most perfect, of all the various processes which deal with the refining of lead ores. Despite adverse conditions, conditions that are known to all, the Trail refinery has already once doubled its plant and probably will have to do so once again within the very near future.

The situation may be less gauged by the upshot of an interview kindly granted to-day by James Cronin manager of the War Eagle and Centre Star and of the St. Eugene, to your correspondent. He said:

"Yes, the prompt action of the liberal government has done much towards helping the mining situation in the Kootenay. We have now something solid, and what is more, something permanent. Its results should be seen immediately and its results will be more and more apparent as the time goes on.

"For the last year, according to the figures given by G. O. Buchanan and published recently in your paper the output of the province, on which a bounty was paid by the federal government, was 27,000 tons. Of this amount 11,000 tons were sold in Europe and 16,000 tons marketed through the local smelters. This year there will be no such 11,000 tons of bounty ore sold in Europe. The bounty on export ore has ceased. Then it is the province of the smelters to dispose of, to market, the whole production. That is to say at least 27,000 tons.

"That is the problem, indeed. Now the total amount of lead used in Canada is about 16,000 tons. The new duties, which cover practically the whole of the Canadian market, will allow the Trail smelters and the other smelters to dispose of, in the Dominion, about 13,000 tons. Perhaps I am too conservative in saying that the new duties, one way or another, will only cover 13,000 tons but I like to be on the safe side. There are numberless ways in which the products of lead may and do yet come into Canada. Speaking as one of the outnside public I put down that leakage at 3000 tons.

"Last year, therefore, there were marketed in Europe 11,000 tons, in Canada 7,000 tons, and in the Orient, China and Japan, 9,000 tons. The new duties will give an added market in the dominion of 6,000 tons. Very well, then, it is apparent that during the year to come the marketer has to dispose of 27,000 tons, putting the production of lead at the same figure production of lead at the same figure as that of last year. For this he has a market in Canada of 13,000 tons, in the Orient 9,000 tons and then there still remains a surplus of 5,000 tons which have to be disposed of, in Canada, in Europe, or in the Orient.

"Now, I have already explained that in the Orient the market was for 9,000 tons, and in Canada 7,000 tons, to which may now be added the additional 6,000 which is coming to *us through* the effect of the lead duties which are now being imposed. The European market, available to us during the last fiscal year, because of the bounty, is now apparently cut off. The problem seems, therefore, to be insoluble. But this is by no means the case.

"It must be remembered that the Orient market is something new to us. Not long since we had no share in it. Now we have. That market is due to the energy and acumen of W. H. Aldridge Why, I do not know, but it is true nevertheless, that the chief competitor of the British Columbia lead ores in the Orient market, Australia, is apparnetly dropping out of the competition and W. H. Aldridge is evidently the master of the situation. Australia is shipping to Orient and elsewhere. Therefore we may look to an increased market in *the Orient. Whether that will* absorb the extra 5,000 tons, of which we have to dispose this year, remains to be seen. Mr. Aldridge could probably answer that question better than I. But you may remain secure upon this point, which is, that the St. Eugene will not curtail its shipments of ore because of the new duty or because of the cessation of the bounty upon exported lead ore. It is far more likely to increase the output.

"And this leads us into the question of the European market. But be it remembered, before entering in upon an intricate subject, that when *the Orient is considered it must be* regarded as the natural market of this country. Canada is nearer to the Orient than is any other country of the hemisphere in which we are living. The only possible competitor is the United States. But the United States is not a comptitior. Its production of lead is about equal to the demand. In fact it is slightly short and some lead has to be imported. Europe cannot compete. It is too far away. We can market our lead more advantageously than can Europe. Australia can be a competitor, but as I have already said, Australia is finding markets for its shipments other than the Orient.

"Now, European smelters are getting from all over the world much higher grade silver ore. Any smelter man will tell you that in order to profitably smelt this, lead ore is wanted. But it must be lead ore of a high grade, 60 per cent. or over, otherwise the shipper is paying for much silica in his transportation rates. Lead ore of the description alluded to is favorably quoted by the European smelters. It is the dry ores that have to pay the high rates, just the reverse of the condition that obtains in this country. Hence the European smelters are giving a much more favorable rate than is paid by the local smelters. Again the price of lead is climbing up. Four years ago the price was around £17 or £18. Now it is higher than it has been for years past and is near £14, consequently mines which possess high grade ores might find it more profitable to ship to Europe than to ship locally. When the mines can make $5 to $6 better profit by shipping abroad than in having the output treated at home patriotism is liable to have to take a back seat.

"On the other hand it is to be remembered that the bounty on lead obtains up to nearly £16. When lead has gone over £12 10s, it is the same to the lead producer because of the sliding scale of the bounty, as far as his pocket is concerned, up till the time it reaches £15 16s, 3d. Still the whole thing is a matter of figuring. The smelters here will have to come down to their prices. The Huntington-Heberlein process, the ability of getting a constant and regular supply of ore, may help them in doing this. Probably it will. The market, as I have shown you, will take care of itself. On the whole the imposition of the duty will result in a permanent good to the lead mining industry of the dominion.

"As to the other phase of the subject, that of fluxing of dry ores, that also is important. The ore of the Centre Star and of the War Eagle will run about 1 per cent. in copper, the War Eagle probably a little better than that figure, the Le Roi probably better still. But to get clean slags it is necessary that the copper contents of the ore should be at least two per cent. If that is not there then there is necessary the admixture of either more copper or of lead. Hence the greater production of lead in the Trail and other smelters will permit of the cheaper reduction of dry ores, whether those are gold-copper or silver-lead ores, heavily intermixed with silica. For the reduction of lead a certain amount of silica is necessary. Hence the Rossland silicious ores will find that it is to their advantage to be smelted in a reduction works that is handling lead, especially such silicious ores as are low in copper percentages.

"So it will be perceived that the question has an infinite number of ramifications and cannot be considered alone from any one point of view. But you may take this as a summary: The St. Eugene is more likely to increase than to decrease its output, *that the Wat Eagle and Centre Star* will ship just as usual, that I, as a layman, have no doubt as to the market being found, and that the increased price of lead will open the European market possibly merely temporarily, and that the duties on the imported products of lead will give a permanent advantage, which cannot be lost, as long as they remain in force, to the mining industry."

CONDUCTOR IS FINED.

Moose Jaw, July 25.—Conductor S. D. McMicken of the C.P.R., was prosecuted before a magistrate here yesterday on the charge of the theft of $3 in fares. He was fined $30 and $100 costs, or imprisonment for one month.

FISHING FOR BIG ENGINE.

Spokesman-Review: Receding water in the Kootenay river has exposed the tip of the stack on the ill-fated engine No. 1063, which plunged into the river near Katka, Idaho, in last April, carrying Engineer Brokaw to death. Yesterday an examination of the surroundings was made to determine whether or not the sunken machine could be raised in the immediate future. The result had not been communicated to Spokane up to last night.

The sunken engine is of the EA class and weighs 287,000 pounds. Its value is approximately $16,000, and an estimate has been made that repairs not to exceed $2,000 will put the locomotive in service again. No special difficulty is expected in removing it from its present resting place at the bottom of the rushing Kootenay. The steam wrecking crane from Spokane will be used in the work.

Great Northern railroad men are looking forward to the raising of No. 1063 with melancholy interest. It is believed the body of the unfortunate Engineer Brokaw will be found in the cab or pinned beneath the ponderous machine. It is explained that, although reports were made that Mr Brokaw was seen struggling in the river at the scene of the accident, the accuracy of these reports is doubtful because of the excitement prevailing at the time. The Great Northern has spared no pains to recover the body, but without avail. Many now suspect that Mr. Brokaw never escaped from his engine, and that the raising of the machine will prove the correctness of this theory.

THE ST. EUGENE.

Moyie Leader: The new mammoth 30-drill air compressor at the St Eugene was set in motion this week. It is one of the largest pieces of mining machinery in East Kootenay, and makes the other compressors in the same building look like infants. The new plant was made by the Jenckes Machine company, of Sherbrooke, Ont., and has a capacity of 3,000 feet of air per minute. It will furnish power for 30 Rand machine drills, bringing the number of these drills used in the mine up to 50. The two old compressors together only furnish power for 20 drills, so it will be seen that the new plant is a third larger than the two old ones combined. It required an addition to the building of 60x60 feet to make room for the new boilers, which have a combined capacity of 500 horse power.

Unfortunately the carload of Rand drills and some other equipment for the mine has been delayed on the road, and until it arrives the working force will not be materially increased. When these machines arrive another 100 men will be put to work, mostly on development.

The shipments from the mine show no falling off, and the property never looked better than now.

THE BIG EDDY MILL BURNED.

Revelstoke Herald: On Tuesday afternoon fire destroyed the saw and planing mills of the Revelstoke Lumber Company at the Big Eddy. About twenty minutes past one o'clock fire broke out in the boiler room of the mill. The flames spread so rapidly that it soon became evident that the mill was doomed. A telephone message was at once sent to the city for help which was readily responded to. No. 2 fire brigade was called out and under the directions of Chief Foote, a large supply of buckets was quickly secured and rushed to the scene of the conflagration by the C. P. R. yard engine. But for the *timely arrival of this party on* the ground the huge piles of lumber in the yard, worth thousands of dollars, would also have been destroyed. The Big Eddy mills were considered to comprise one of the best plants in the district and the loss to the company is considerable, besides being the means of throwing a hundred men temporarily out of employment.

CRANBROOK BASEBALL CLUB.

One evening last week the baseball enthusiasts of Cranbrook met at the Cranbrook and organized a baseball club with the following officers:—

Hon. Pres.—Dr. King.
President—E. H. Small.
Vice-President—Thos Caven.
Manager—V. P. Rollins.
Secretary—F. Bailey.
Treasurer—W. A. Rollins.
Captain—Walter Miller.

Cranbrook has some fine baseball timber and should get up a winning club. A series of games will be arranged for and it is time now for the bleachers to practice rooting.

T. EATON HESITATES

To open his Winnipeg branch when he heard that the BIG SALE of the Co-operative Stores was still on. We have been told many times that our

MODERATE PRICES

was keeping thousands of dollars in Cranbrook that otherwise would go to Eaton, but we did not think it would annoy the poor old man to this extent. He has said some hard things about us, "But it was ever thus." The successful business house is sure to be evil spoken of by its competitors. He has made little success in business who has failed to make enemies of his opposition. Eaton is too far away to do us any bodily harm, and we have nothing much to fear, so will continue selling at that same old BIG SALE CUT until every line in our GENTS' FURNISHING DEPARTMENT is reduced to normal conditions.

Cranbrook Co-operative Stores

"$10.00 Reward"
To any Engineer, Fireman or Workingman who can find a better Overall or Jacket than Toronto Detroit Special brand. We give a check daily for a suit. They wear like a pigs nose. Mr. Fincke is a practical man of 10 years experience as a manufacturer of men's made garments has made Work garments for high grade trade.

Detroit

OUR M. P. P.

The popularity of our MONTHLY PAYMENT PLAN has been no surprise to us. Cranbrook is kept up by WAGE EARNERS. Men who find a great advantage in paying for their FURNITURE by monthly payments, as they know each month just what they can afford.

OUR PLAN

is the most flexible of all the invented schemes along the line, as we can accommodate the smallest income. If you have a home to furnish, drop in and let us talk the matter over, don't be backward. Perhaps you only need one or two pieces, such as a PIANO, BOOKCASE, WRITING DESK, HALL STAND, MORRIS CHAIR. It don't matter to us, if it is one piece or a dozen you want, whether your bill is $5 or $100, we will arrange to accommodate you as to the payments. Don't delay, have the comforts and the joy of a well furnished home while you are paying for it. You may never have it if you wait until you have the cash to pay down.

Cranbrook Co-operative Stores

SHIRT-WAIST SUITS

We have a few white and colored shirt-waist suits in sizes from 34 to 38 which we will sell at one-third off regular prices:

LOCAL NOTES

Picked Up About the City by Asking Questions of Many People.

Mrs. Pettit is seriously ill at her home.

Boiled ham received weekly at G. T. Rogers.

W. B. Atchison visited Fort Steele last Thursday.

Eric Tate is in Wardner the guest of Roger Lund.

Mrs. John Derall returned Tuesday from Medicine Hat.

Miss Tanhauser was a Fort Steele visitor last Thursday.

Miss Jeffaries and Cecil Jaffaries are visiting at Cowley.

Master Mechanic Cardell, of Calgary, was in town Friday.

W. R. Ross, of Fernie, was in town on legal business last Tuesday.

For Rent—Two rooms in the Morrison house. Also stable to rent. 16

V. Hyde Baker returned the first of the week from a trip to the coast.

R. L. T. Galbraith, of Fort Steele, was a Cranbrook visitor last Saturday.

Ed. Fulljames returned Tuesday from a trip as far east as Medicine Hat.

Webster Burton, formerly of Moyie, is visiting in town for a couple of days.

Mr. Young has opened a barber shop in the block just north of the Royal hotel.

A. B. and Tom Fenwick and A. Clark, of Fort Steele, were in town Tuesday.

Two front offices, second floor Watts block, for rent. Apply to Beale & Elwell. 7-tf

Miss Marie Hanson, of Sioux City, Iowa, is the guest of Mrs. F. E. Simpson.

Second hand typewriter for sale. A bargain. Apply Arnold & Roberts.

Miss Lottie Nelson, of Buffalo, N. Y., is visiting her cousin, Mrs. Eldon Cathcart.

For Sale—New Cleveland bike, semi racer, price $25. Can be seen at C. P. R. house.

Mrs. H. White and her son Freddie returned on Wednesday from their trip to the coast.

Arthur Johnson, of the Herald staff, is back at work after a week's vacation in Creston.

Charley Brenner is assisting in C. E. Reid & Co.'s drug store during the absence of Mr. Reid.

Dr. King made a trip over the "Corbin" road from Spokane Junction to Yahk last week.

J. Swinnarton came up from Hamilton Tuesday. He reports business good at his new hotel.

Don't foeget to put in that furnace before the cold weather sets in. See us at once. Patmore Bros.

Wanted—An up-to-date filer and saw mill man. Apply to Fernie Lumber Company, Ltd., Fernie, B. C.

Mrs. S. McDonald visited in Nelson last wek, and was accompanied by Mrs. Frank Johnson, of Creston.

If you need any garden hose, give us a call. We have it at all prices.
Patmore Bros.

Have you seen Wilson's new line of Souvenir Spoons with a cut of the newly finished station in the bowl?

Our $1.75 watches for boys are having a great sale, and are without question the best in B. C. Wilson the jeweler.

J. Netterfield and bride returned Tuesday from their trip to Trail, Rossland and other towns in West Kootenay.

Beale & Elwell are selling an accident policy especially for lumbermen, which is very popular and most adaptable.

The new C. P. R. station is nearly ready for occupancy. It is one of the handsomest stations on the Crows Nest line.

Miss Cunningham, who has been the guest of Mr. and Mrs. G. T. Rogers the past two weeks, returned on Tuesday to Nelson.

C. Spilstead, of Kimberley, was in town several days this week looking after business for the Kimberley Manufacturing company.

If you want to rent a house it will pay you to see Beale & Elwell who are offering them all the way from $6 to $35 per month.

T. M. Roberts is making a trip over the line as far as Ryan this week with Mr. Cross in the interest of the firm of Arnold & Roberts.

L. H. Moffatt, a prominent mining man of Rossland, is in town on business and visiting his friends Mr. Hagerman and Miss Webster.

James Neil, of the Falls View hotel, Marysville, was in town yesterday.

Mrs. P. Chenette, of Marysville, was in Cranbrook Wednesday.

A. T. Clark and his little brown grip were in town yesterday. Mr. Clark says that Moyie will yet be one of the best towns in the district.

Mrs. J. Edgar Dickson will be at home on Thursday and Friday afternoons, August 3rd and 4th, at the Caslake residence on Garden avenue.

J. Harris returned the first of the week from his trip to the Edmonton country and says that in his opinion that section will be a very prosperous one.

At a postponed meeting held last Saturday G. T. Rogers was elected as one of the school directors and James Greer elected to succeed himself.

Mr. Robison, formerly of Fort Steele, and well known as "Monte Carlo," arrived in town Monday from Edmonton where he is now in business.

Rev. Westman left on Monday for a hurried trip to Manitoba to be absent until August 5. Next Sunday the Methodist pulpit will be filled by lay talent.

Reports say that Kimberley is improving and that in a short time there will be quite a number of men added to the present force in the Sullivan mine.

Miss Gertie Williams returned from the coast with Mr. and Mrs. Van-Decar and will remain in Cranbrook for some time with her brother Milton Williams.

Mrs. Joseph Tanhauser will move over from Fort Steele to Cranbrook and keep house for her two daughters. They have secured the house formerly owned by the Pettits.

Walter Edwards returned to-day from Montreal where he went to attend a meeting of the Board of Adjustment of B. of L. E. He says that the heat in the east was intense.

Patmore Bros. for McCleary's "Famous" Kootenay Ranges. We can please you as to quality and price.
Patmore Bros.

Pastor J. L. Sloat will be home to conduct services in the Baptist church on Sunday, both morning and evening. Subject for evening will be "Come and See." The public cordially invited.

Married.—Saturday morning at the Methodist parsonage, Mr. George Phillips and Miss Alice M. Williams, of Fort Steele, Rev. J. P. Westman officiating. The Herald extends best wishes.

S. E. Oliver, of Nelson, one of the pioneers of Cranbrook, was in town this week. Mr. Oliver has a fruit ranch right near Nelson that is rapidly developing into a very valuable property.

Trail News: Mr. J. Netterfield and bride of Cranbrook arrived in the city on Thursday on their honeymoon trip. While here they are the guests of Mr. and Mrs. L. Tyson. Mr. Netterfield is well known here having at one time had charge of the P. Burns & Co.'s meat market. At present he is a prosperous hotel keeper in Cranbrook. Last night a number of his old Trail friends gave a most enjoyable dance in Dolan's hall in his honor.

UNLUCKY FERNIE

THE TOWN WAS VISITED BY A $50,000 FIRE LAST NIGHT.

Fernie seems to be fated. Last night the town was visited by a disastrous fire that resulted in a loss of about $50,000. One whole block was destroyed except the new brick building of the Canadian Bank of Commerce. William Eschwig lost the Great Northern hotel but saved most of the contents. Elliott & Sheppard, hardware dealers, were heavy losers, their loss footing about $20,000 with only $9,000 insurance. The Free Press office was totally destroyed and the fine equipment of the paper was a mass of twisted and burned ruins this morning. There were many other losses, most of them of a serious nature. This morning at 8 o'clock, when the editor of the Herald stood at the ruins and saw the wreck the fire had wrought he could not but feel sorry for the town that has had such hard luck the past two years, and yet he felt that since the last terrible experience the city council and the Coal company had been negligent in not improving the means of fighting fire in that town. The force of water from the hose as shown this morning would not send a stream over an ordinary coal shed, and it was due to this same weakness that prevented the fire boys from stopping the fire last year. If there had been the slightest wind last night the whole of the main street would have been swept again. As it was only the heroic efforts of a few brave men who mounted to the top of the Waldorf hotel and cut away the burning cornice prevented that building from being a total loss and spreading the flames to the rest of the town.

All of the furnishings of the Waldorf hotel were taken out, as were the goods in many of the stores on the main street. Bleasdell's drug store and Blundell's grocery store, just across the steeet from the Free Press building, had their plate glass windows broken by the heat and narrowly escaped destruction. It is generally conceded that the fire originated in a tailor shop in the Free Press building, but no one seemed to know how. Mr. Wallace of the Free Press saved his books and some of the furniture in his front office, but that was all.

The losses and insurance were hastily estimated this morning by Mr. Watson, of the Free Press, as follows:—

G. W. Carruthers, tailor, $500, no insurance.

Free Press, $8,000, with $4,000 insurance.

Sheppard & Elliott, hardware, $20,000 with $9,000 insurance.

Free Press building, owned by G. G. Henderson, $5,000 with $4,000 insurance.

B. C. Furniture company, $3,000 with it fully covered by insurance.

Great Northern hotel, William Eschwig, proprietor, $13,000, about $9,000 insurance.

Building occupied by Great Northern ticket office, owned by Eschwig $800.

C. P. Demaurez, jeweler, got out most of stock but some stolen. Loss on building, $1,500, no insurance.

Cuthbert block, $1,000, well covered by insurance.

C. C. Wright, jeweler, saved all of stock.

Laidley's tailor shop, saved stock.

The Waldorf, William Eschwig, proprietor, front badly damaged but loss not heavy.

A NOVEL SOUVENIR SPOON.

W. H. Wilson, the jeweler, has shown his enterprise by having manufactured from his own special design a souvenir spoon showing the new C. P. R. station in the bowl. For beauty, attractiveness and uniqueness nothing finer has ever been seen in the country. Drop in and ask to see one whether you want to purchase or not.

I. O. O. F. INSTALL OFFICERS.

Key City Lodge, I. O. O. F., No. 42, installed officers last Monday evening, the work having been delayed by the absence of two of the officials from the city. The following officers were installed:—

N. G.—Scott McDonald.
V. G.—F. H. McKay.
R. S.—Charles Smith.
P. S.—J. A. Ferguson.
Treas.—J. P. Fink.

After the installation the members indulged in refreshments and a social hour.

WIRELESS RAILWAY CO.'Y

OF PHILADELPHIA, U. S. A.

JOHN HUTCHISON & CO.

ARE AGENTS FOR WESTERN CANADA

We have a small block of this stock for sale at $3, the par value is $5.

The Pullen Surface Contract System of Electrical Car Propulsion is a system that has been thoroughly tested and proven in the last year and a half of service, and is rapidly coming into use by the railroad people.

The company is arranging for a large factory now to build the appliances with which to equip roads that want to use the system. The stock we are offering for sale is to be applied for that purpose. The present price is $3 per share, which is the original or ground floor basis. It will not remain at that figure long, but will go to par, $5, in the near future without doubt.

Dangers of Defective Plumbing.

Defective plumbing permits the entrance into the house of sewer gas bearing germs of contagious diseases to which the human system readily succumbs.

Sewer gas is not necessarily generated in the sewer, but is frequently created in the plumbing system within the home and enters the apartments through defective fixtures.

If in doubt, consult us regarding the piping and replacing defective fixtures with "Standard" Porcelain Enameled Ware—acknowledged as the best sanitary equipment.

The Handley Livery Stables

NEWS OF THE DISTRICT . . . . .

Taken From East Kootenay Papers.

MOYIE.

(From the Leader.)

Joseph Neiderstadt was in Cranbrook Monday.

Mr. and Mrs. A. Stephenson were in Cranbrook Monday.

Wm. Tierney and Geo. Geo. Ragsdale were up from Cranbrook Wednesday.

A. T. Clark picked eight gallons of strawberries on his farm on the west side of the lake one day this week.

Mrs. Wes. Cline was up from Cranbrook Wednesday.

It is said that a lady barber intends locating in Moyie.

Mrs. Tope is still in the hospital at Cranbrook and her condition is not much improved.

The C. P. R. has at last made arrangements with the water company for water which will be piped from the main on Victoria street to the station.

The editor of the Leader yesterday received a piece of wedding cake with the compliments of Mr. and Mrs. Darbyshire, of Creston. Mrs. Darbyshire was formerly Miss Jane Moore.

P. A. O'Farrell, private secretary to F. Augustas Heinze, of Butte, Mont., and one of the most brilliant descriptive writers in the west, spent a day here this week with Mr. and Mrs. Cronin.

Eddie Desaulnier, son of Ed. Desaulnier, of the Central hotel, is in Moyie spending his vacation. Eddie has been attending college in Montreal for several years. Oniase Desaulnier, his cousin, is also here on a visit.

Patrick Sullivan, soldier, patriot, politician and orator, is again in Moyie. "Sully" has been in Nelson for the past six months assisting Warden Lemmon in conducting the affairs of the institution over which he presides. After a short visit here he will journey to Cranbrook, where he is anxious to meet Baldy Morris, Tom Caven, Simpson, Beattie and a host of his other friends.

Special Constable A. D. Drummond, of Michel, has been promoted to the permanent force of tht Province. He has been transferred to Fernie and Constable Sampson takes his place at Michel. The provincial force of S. E. Kootenay is short two men now. One is needed at Coal creek and another at Yahk.

This week E. N. MacBeth sold his express, dray, ice, coal and wood business to Chas. Livesley, who will hereafter conduct the business.

FERNIE.

(From the Free Press.)

G. L. Pearson leaves to-morrow on a visit to his former home in Newcastle, Pa.

Rev. Mr. Lundie, of Cranbrook, was in the city this week enjoying a holiday. He is delighted with the fishing about Fernie.

The work on the big reservoir has been suspended temporarily until the huge roller now being constructed is completed. The ground is cleared of stumps and Mr. Oldland expects to resume work on Monday.

H. Oldland is now at work with his men opening up the ditch for the water main leading from the reservoir to the city. A car load of 12 inch pipes arrived from the Coast but the work of laying them on Pellatt avenue will be delayed until the arrival of certain fittings that are required for the cross pipes.

The many friends and acquaintances of Frank Sample, of Fernie, will be glad to learn that the report persistently circulated during the past two weeks that he had suicided in Seattle is incorrect. E. G. Hazell, of this city, received a letter from Mr. Sample dated three days ago at Seattle and according to it Mr. Sample is contracting in Seattle and is doing well.

The new owners of the Cedar Valley sawmill property are getting things into shape for cutting and they expect to be operating the mill in a couple of weeks. When in full swing they will employ about 100 men. A force of 30 men are now at work cleaning up around the mill, getting out timber, etc. A number of directors are expected to arrive in a few days. A spur is to be put in from the G. N. track. This property is in the hands of people who will make the most of it and its success is assured.

On Monday evening of this week W. H. Switzer, accountant for the Bank of Commerce here, received word of his promotion to the management of the Princeton branch, with instructions to proceed there immediately. The next morning W. S. Keay, R. W. Coulthard, A. J. Mott and other intimate friends of Mr. Switzer interested themselves in getting up a farewell banquet and inside of a few hours they had $300 collected for this purpose. The banquet took place at the hotel Fernie on Tuesday evening and considering the short notice on which is was prepared it was the most successful event of its kind ever held in Fernie. "Switz" is liked by everybody and each person present tried to outdo the other in heaping encomiums upon their departing guest. Mr. Ross, on behalf of the gathering, presented Mr. Switzer with a purse containing $200.

BLAIRMORE

(From the Times.)

The Canadian Metal Co., of Frank, have bonded some valuable zinc properties in the Ainsworth camp in B. C. and will at once thoroughly develop them.

I. Loughheed started on Wednesday with a force of men to put in the trail from here to the south Fork to connect with the old trail up the South Fork into the Flathead country.

On Tuesday evening T. Ede, our local barrister, left on a trip to New Orleans, La. It was an open secret before Thomas left that it was his intention to bring back a life partner with him.

AROUND COLEMAN.

While Coleman may not be said to be booming but the town is climbing steadily to the front rank of the Pass towns and it is safe to say that no other town in this section has accomplished as much as Coleman in the same length of time. Although not yet two years old Coleman has to-day the best class of buildings and some of the finest and best stocked business establishments in the Pass. That her citizens are of a most enterprising class is evidenced by the fact that they have a fine church, a bank, are building a school, have water-works and electric lights and have the only live board of trade in this section. Coleman was brought into existence by the opening up of the mines of the International Coal & Coke company at that point and the building of their large plant and coke ovens there. This company while conservative has accomplished a most stupendous amount of development work in their mines besides installing a complete and modern coal mining plant, more than capable of handling 2,000 tons of coal per day in less than two years. They have 100 coke ovens in operation and the ground prepared for a large number more. Employment is given by this company to a large number of men thus insuring the business men of the town a steady payroll. That Coleman is assured of a bright future no one who is the least familiar with operations of the coal company or their magnificent property doubts for one moment.

WINDERMERE

(From Wilmer Outcrop.)

Mr. and Mrs. D. P. Kimpton have returned to Golden from their wedding trip and are expected up the valley soon.

Frank Nickelson was arrested Saturday evening charged with stealing $39 from Eric Sundin at Athalmer on Monday night, July 10th. He elected to be tried by a jury and was allowed out on $800 bail on two sureties.

C. Tower has in his Windermere garden a number of apple and cherry trees which he has grown from seed. This spring he transplanted them and they all show a very healthy growth. The trees are now two years old and will be watched with interest.

H. P. Johnson, of Kaslo, was in town Monday. He came over the divide and has been working on the Hill Top and Humboldt claims, on the north fork of Toby creek, when he has uncovered some fine looking ore. So pleased was he with the showing that he bought some supplies and has gone up the hill to further develop his property.

C. M. Keep returned to Wilmer on Monday from Portland, Oregon, where he is managing a banking business. Mr. Keep will spend a few weeks here and says he will put a force of men to work on the Silver Belt mine, situated on Spring creek, to take out a few carloads of the high grade ore of that property. He expressed himself as pleased with the prospects of early railway construction and believes this will prove a good mining camp when the road is completed.

The steamer Ptarmigan was delayed on her down trip until Tuesday morning owing to the wind on the lake. Sunday morning she started from the head of the lake with a boom of 22,000 saw logs for the Columbia River Lumber company, but the wind was against her and the boom had to be let loose and drifted back. In the evening, however, the wind ceased and the boom was brought down, and on Monday the logs were turned loose in the river, filling it up for over a mile. Foreman Osler and his crew of men are now driving them down to the mill at Golden.

Chas. Cartwright has disposed of his ranch on the hill east of Athalmer to Judge Forin, of Nelson, the sale bring made by M. Carlin, of Golden. Judge Forin is to be here on Saturday to complete the deal. It is stated that the Judge intends building a summer residence on the lake front and extensively planting fruit trees on his new possession. The consummation of this deal is regarded by the people of this valley as of considerable significance for the reason that it is evident that Judge Forin considers this a more desirable locality to reside in than the much vaunted Kootenay lake or Nelson district, with all its advertised fruit growing land, scenery, climate and other advantages. At any rate the fact will have some bearing and the valley a good citizen.

Leading Business Houses of Marysville, The Smelter City...

Marysville has come into her own. The town now has a permanent payroll and is the gateway of the St. Marys valley. The Herald can heartily indorse the following business houses;

Central Hotel The leading hotel in the St. Marys valley.
