Next Week, "SELF-DENIAL WEEK." Help the Army to Help the Fallen.

The Celebration and Stampede

Outline of Program Arranged Shows Preparations In Hand For Biggest Day Yet

With but three weeks to go until the 24th May celebration here becomes a reality, the various committees are getting things down to a good working basis. From the opening float parade until the last man is out at the evening ball game, the committees in charge of the day guarantee that every visitor to Cranbrook for that day will get full returns on anticipated enjoyment.

The Indians from the Windermere country, Tobacco Plains, Creston and our own from the Mission are joining in the morning parade in all their old time full dress togs, and this will be worth the seeing.

Arrangements are being made to have all those Indians with teepees encamped on the sports grounds for their meals, food for which is being supplied by the management. A number of people have signified their intention to enter decorated cars for the initial time, an dthe Canada Cycle and Motor Co. through its local agents, Patmore Bros. have donated three prizes for the best decorated bicycles in the parade. The first prize is one complete set of Dunlop Traction Cord tires and tubs, valued at $10.50; the second prize, one pair of Dunlop Imperial studded covers, valued at $5.50; and third prize, one acetylene lamp, valued at $4.00. The prizes are now on display at Patmore Bros.' store.

Cranbrook and Kimberley are matching feet in the morning for a football cup being put up by the Association, and this is followed by a junior ball game between the Cranbrook Juniors and either Creston or Fernie.

The afternoon program starts at 2 p.m. and will consist of the following items:

	1st	2nd
Bucking contest, for best rider	$100.00	$25.00
Horse giving best exhibition of bucking separate event from bucking contest	50.00	
Steer roping, best time, limit 90 seconds	50.00	25.00
100 yard dash	20.00	10.00
Squaw race, ½ m. heats	25.00	10.00
Indian race, ½ m. heats	40.00	20.00
White mans race, ½ m. heats	40.00	20.00

The 220 yard dash and the ½ mile open race have been eliminated and the money appropriated to trick riding and roping, which in the opinion of men wise in the way of stampedes will be one of the days big attractions and will fill in any waits that may occur. Real wild horses and steers have been arranged for, and the committee guarantees their performing abilities.

In the evening the senior ball teams of the district will meet in a good game of ball. Purses have not yet been decided upon, but it is thought that the best way to ensure a real game is to allow each team the privilege of bringing in a battery for the game, thus ensuring the spectators an interesting game. By present indications in the district league this will not be necessary, but the committee are offering sufficient purses to compensate each team for their expense.

Other sports will very likely be inserted to make the day a go from beginning to end, but the above is the gist of the day's entertainments. A big dance, and probably two, will wind up the festivities, and give the crowds of people in Cranbrook something to talk about.

Two expert trick riders and ropers are coming from the prairie and the management have been assured that their stunts are what passed as headliners at the last Calgary stampede July 25-31, 1919. A Roman standing race is also to be included in the exhibitions

The junior sports will be held on Tuesday the 23rd. More will be given regarding this in the next issue.

The case of Rex vs. Ferguson and Barrett has been up in county court here this week, before Judge Thompson. The defendants are charged with assault and robbery in connection with an affray which took place at a Chinese establishment at Yahk some time ago. Magistrate Leask committed the prisoners for trial, no defence being entered at that time. The case came up on Tuesday of this week and was adjourned to allow the court and counsel to inspect the premises in question. This took place on Wednesday, and the case was resumed today, Thursday. W. A. Nisbet is acting as crown prosecuter, and G. J. Sproull is defending.

ODDFELLOWS' BODIES ATTEND CHURCH SERVICE IN BIG COMPANY

Close upon a hundred strong, members of Key City Lodge, No. 42, and the affiliated Oddfellow organizations, Maple Leaf Rebekah Lodge, and Durham Encampment, marked the 103rd anniversary of the founding of the order in an appropriate and impressive manner by attending divine service at Knox Presbyterian Church on Sunday evening last. They gathered at the Auditorium for forlation in proper parade, under the direction of the Marshal, Bro. W. S. Johnson, P.G., and marched in a body to the church, returning later to the Auditorium in the same form.

An anthem "Evening and Morning" was rendered by the choir during the evening, and an Oddfellows' male quartette also gave a selection, "A Vesper Song," Bros. H. R. Hinton, I. Hannah, F. A. Williams and J. L. Palmer comprising the quartette.

Rev. E. W. MacKay, pastor of Knox Church, welcomed the members of the order, and in his sermon dwelt strongly upon the value of friendship in life, one of the strong tenets of the organization, and all that it has stood for in the past, and might stand for in the future. He also complimented the organization as a whole, intimating that a body which was able to weather the storms of a hundred and three years must be well established and stand for something worth while

BASEBALL LEAGUE

The first round of the Central School baseball league was played during this week resulting as follows:

A team, Malone Capt., played B team, Kennedy Capt., 21 runs to 10 runs.

C team, Brogan Capt., played D team, Godderis Capt., 14 to 13.

F team, Dow Capt., played E team, Sneddon Capt., 20 to 6.

The chief feature of the games has been the heavy hitting by the players. The game between C and D proved to be very close, four extra innings being played before the tie was broken. Harold Dow poled out 3 home runs out of four times at the bat. Godderis, Malone, Hartnell and Taylor rest easily in the three base clout class. Parker, Lewis, Genest and M. Horie are the star fly catchers to date. The fielding generally has been poor owing in part to the cold weather and the lack of form of players. This six team series should be of interest to all, for Cranbrook's future baseball prowess rests in the hands of these young enthusiasts. Parents are reminded that there is one game only per week for each player and this should not interfere with school or other duties that the boys may have to perform.

Born.—On Wednesday, May 3, at Cranbrook, B.C., to Mr. and Mrs. K. Machum, a son.

EXPLOSION AT SULLIVAN MINE, KIMBERLEY, INJURES TWO MINERS

Leo O'Brien, formerly of Rossland, where his mother resides, and Wm Kozak, miners employed in the Sullivan Mine, Kimberley, are in the Sacred Heart hospital in Spokane, where they are receiving treatment for injuries reecived recently in the course of their work in the mine.

A powder explosion, said to have been caused by a load of powder being set off when it was accidentally struck by a hammer, caused the unfortunate accident. Kozak may lose one of his eyes, and one of O'Brien's eyes is badly injured, both men receiving severe powder burns.

O'Brien, who only went to Kimberley recently, was a hard-working young man and quite popular with all his acquaintances. His mother is with him at Spokane and latest reports are to the effect that the two unfortunate men are getting along as well as could be expected.

On Thursday evening of last week the local lodge of Knights of Pythias held a very enjoyable social evening and dance, when a very good crowd was on hand to enjoy the program. Some visiting brethren were present and also contributed a good deal to the evening's enjoyment. Bro. Soderholm, of the local lodge, was in charge of the program as master of ceremonies, and the committee with the arrangements in hand were Bros. E. Rosevear, D. Baldwin, J. J. Delaney, H. J. Collier and H. Kummer. Those contributing to the program were Messrs. Maxey, Davis and Barbers, who rendered songs, stories and other entertaining features, Bro. J. Macdonald, who gave a recitation, and Mr. DeBoecke, of the Star Theatre, who contributed some violin solos. Dancing was enjoyed a little later and kept up till about 2 a.m., Smith's orchestra providing the music.

Salvation Army's Self-Denial Appeal

Making Appeal to Citizens of City and District for Three Hundred Dollars

The Salvation Army's annual self-denial appeal for funds to carry on their great social relief an rescue work takes place next week. The Army is no longer an experiment; the work is being carried on day after day in all quarters of the globe, rescuing the Magdalenes, giving practical assistance to those who have fallen by the wayside. This great work needs money, and seeing that the Army is a public asset there should be no reluctance in helping forward this noble work. It assists all, irrespective of religious belief. When the fallen girl comes to the Rescue home of the Salvation Army, it is not a question of whether she is a Protestant, Catholic, or of any other sect, or even if she is attached to any religion; the great question is, "Can we help you? If so, you are welcome." The same may be said of the relief work amongst the men. If a direlect piece of humanity wanders into the shelters or hostels, and is hungry or in need of a bed or clothing, he is given assistance. So surely it is the responsibility of all, of whatever creed held, to give some practical help to the Salvation Army during the Self-Denial appeal. General Booth, in writing an article referring to the Appeal in Western Canada, says the following:

"Can you spare five minutes? Stop and think that long with me.

"1st minute. Think what the state of the world would be today if the Salvation Army were to be removed. A well known social reformer once declared that if the Salvation Army were disbanded in London alone an immediate addition of 7,000 constables to the Metropolitan Police would be essential to the safety of the persons and property of comfortable classes.

"2nd minute. Think that 20,000 men and women have sacrificed their homes and abandoned their good positions and prospects to devote their lives as Army officers to taking salvation and hope and healing into the dark haunts of hundreds of towns and cities, as well as to millions of people in heathen lands. These must be maintained.

"3rd minute. Think that to alleviate human need in Canada West our four Rescue Homes, four Children's Homes, (a splendid new home has recently been opened in Calgary), three maternity hospitals, 125 Corps and outposts, and many other agencies, are dependent upon your help.

"4th minute. Think that one year in Canada West alone our social officers paid 2,188 visits to the police courts, interviewel over 2,000 prisoners, gave 2,259 meals and 1641 free beds to discharged prisoners.

"5th minute. Act. Having spent four minutes contemplating your personal obligations devote this last minute to putting aside a contribution to the Self-Denial Fund."

The Local Work

A great work has been done by the Army's efforts right here in our own city. Over three hundred dollars worth of clothing has been collected ani given to needy families, 95 free meals have been given, 75 visits to the local hospital, when over 5,000 free War Crys have been distributed to cheer the sick. Besides this the spiritual side of the Army's work has been carried on and during the past eight months thirty-five people have confessed conversion.

To the Business Men

The Army Officer does not intend to violate the rules of the Retail Merchants' Association, which prohibits the giving of donations from the store, but an appeal is being made through the mail which will give them an opportunity of giving to this great work.

To all, the Appeal is made, for to all the work of the Salvation Army is devoted. Give, and give liberally to the organization which in war and peace is "The Army of the Helping Hand," whose whole activities are prompted by that great principle, "Inasmuch as ye have done it unto the least . . . ye have done it unto Me."

The adjourned case against Chin Toy of this city, convicted some time in February or March by Magistrate Leask on an opium charge laid by the R.C.M.P., was up again this week on an appeal made by the defendant against the decision of the magistrate. The case was adjourned by Judge Thompson for about three weeks to look into some points in connection with a stipendary magistrate's jurisdiction in the case in question.

FUNERAL OF LATE MR. GEORGE SHAW, OF YAHK, ON SATURDAY LAST

The funeral of the late Mr. George Shaw, of Yahk, took place on Saturday, April 29th, from Christ Church at 3 p.m., Rev. F. V. Harrison officiating. Interment was made in Christ Church cemetery.

The deceased was a native of England and same to the country when a young man, working for a number of years as a C.P.R. locomotive engineer on the main line running out of Revelstoke.

When war broke out he and his family were visiting in England, and there he joined the Imperial Forces, with which he remained the entire four years of the war. Returning from overseas he took a position at Yahk, B.C., working as engineer for the C.P.R. Department of Natural Resources, and it was at that place he met his untimely death on April 27th. His death was due to an accident which caused almost instant death.

Deceased was forty-two years of age and leaves to mourn his loss a wife and two children, Isobel, aged fourteen, and Thomas, aged eleven, also a half-brother, Mr. William Stephenson, J.P., of Lake St. Ann, Alberta, who was unable to reach here in time for the funeral.

The late Mr. Shaw was a member of the Moyie Division No. 563 of the B. of L.E., having transferred last February.

All those who were acquainted with the late Mr. Shaw knew him to be a man of sterling worth and character and his many friends were grieved to hear of his untimely demise.

The sympathy of the community is extended to Mrs. Shaw and family in their sudden loss of a loving husband and father.

The pall bearers were: Messrs. G. M. Barney, J. S. Dunlop, F. Russell, J. J. Fennessy, D. Turner and W. J. Johnson, all being members of the B. of L.E.

The floral offerings were as follows: Family, star; Mr. and Mrs. A. J. Ratcliffe, wreath; Mr. and Mrs. A. Burge, Fort Steele, spray; Mr. and Mrs. A. S. Saunders, wreath; Mr. and Mrs. DeWolfe, spray; B. of L.F. and E., wreath; local branch G.W.V.A., spray; Yahk friends, pillow; B. of L. E., cross.

MEETING OF POLICE COMMISSION HELD ON TUESDAY THIS WEEK

The regular monthly meeting of the police commission was held on Tuesday evening at the city hall, with Mayor Genest in the chair, and Commissioners A. A. MacKinnon and A. Shankland present, amongst others also attending the meeting being Police Magistrate Leask, Alderman Santo and the Chief of Police.

Chief Halcrow submitted his report for the month of April showing that eleven persons were arrested during the month, and ten summonses were issued. The recommendation of the Chief that sign-posts be erected in the neighborhood of the schools and at the city limits cautioning motorists as to the speed limits, were approved by the Commissioners.

The regular monthly meeting of the school board is being held on Friday evening of this week. It is stated that the board has received the preliminary plans of the new addition from the architect, and given its approval to them, and more detailed plans and the specifications are now in course of preparation, upon the completion of which a call for tenders will in all liklihood be in order.

Katie Martin, daughter of Mr. and Mrs. J. L. Martin, Slaterville, suffered a bad accident one afternoon this week, when one of the massive oak desks in the post office fell forward, crushing her face. She had been sent to get the mail and it is supposed that a number of children were hanging on to the front of the desk, or swinging on it, causing it to fall forward. Extremely painful injuries resulted to the young victim of the mishap, her nose being broken and her forehead being cut, causing it to bleed profusely. Postmaster Harris conveyed her to the doctor's office, where Dr. MacKinnon attended to the injuries, and she was later taken to the hospital, where she is progressing as well as can be expected. By a strange coincidence another child in the same family is at the present time recovering from a broken nose, the result of a blow from a baseball bat. Beulah Hill, one of a group near the bench in the post office at the time it toppled over, was also caught as it fell but escaped injury. It is noticeable that after school is out the children frequent the post office in flocks and in an entirely unthinking way are sometimes liable to precipitate occurrences which develop a serious angle.

Golf Club Opening Wednesday Next

Attractive Course of Proceedings Arranged for Official Opening for Season

Committees of the Cranbrook Golf Club have been hard at work of late and have arranged an exceptionally attractive opening program for the Club, for the 1922 season, which will take place on Wednesday afternoon next. It is hoped that a large number of Cranbrook people will avail themselves of the opportunity of visiting the grounds, and going over the course, and also taking part in the competitions which have been arranged. These will be open to all, whether members of the club or not. Refreshments will be served during the afternoon, and music will be furnished by the orchestra of the Cranbrook Recreation Club.

Competitions have been arranged as follows:

1. Putting competition open to all.
2. Approach and put competition, open to all.
3. Driving competition, open to beginners only.

Suitable prizes will be awarded to the winners of each event.

TALK OF BY-ELECTION NOW WARMS UP WITH VISIT OF PREMIER

Conjectures Made as to Date of Contest in This Riding; Lining Up Candidates

The visit to the city this week of Premier John Oliver, of the provincial government, accompanied by Hon. Dr. Sutherland, newly elected minister of public works in the cabinet, and J. A. Buckham, Liberal M. L.A. for the Columbia riding, has given rise to much interesting comment in regard to the impending by-election contest in the Cranbrook riding. R. B. Beattie, elected M.P. for Kootenay East last December, but who later resigned in favor of Dr. King, also returned to his family here in the city this week.

Premier Oliver has been a busy man here since his arrival, and this evening, Thursday a meeting of the party supporters is being held in the Maple Hall, when it is presumed a conference will take place, the by-election most likely coming in for some consideration.

Rumor has already connected the name of J. J. Jackson very strongly with the Liberal nomination for the constituency, though other names are being mentioned, that of Mayor Genest being also spoken of for the honor. For the Conservative nomination it is no secret that Mr. N. A. Wallinger is being considered as a possibility, and it is believed if the matter were made unanimous Mr. Wallinger would accept. Mr. Thos. Caven, Conservative war-horse of many years standing, and also looked upon as a possibility, with a strong following at all times, is understood to be willing to give preference to Mr. Wallinger, if it is so desired when the proper time comes for an expression. The sole desire of the opposition forces at this time is to present a unanimous front, which will ensure a stiff election. What the intentions of the Progressive party are has not been learned, though it was stated some little time ago that it was not intended then to put up a candidate at the by-election.

The Conservative Association of this city is holding a meeting on Thursday night of next week at the G.W.V.A. Hall when delegates will be elected from the Association to the regular nominating convention for the riding, which will shortly be held.

Rev. F. V. Harrison, rector of Christ Church, spent last week-end at Fernie and Michel, where there are at present no Anglican incumbents. At Michel on Sunday evening he held service which was attended by the Oddfellows Lodge of that place, in commemoration of their 103rd anniversary. Mr. Harrison also paid a visit to Yahk this week to hold service there.

Rev. R. W. Lee leaves next week for Creston, where he will preside at the meetings of the district board of the Methodist Church, as district chairman. He will proceed straight on to the Coast where the B.C. Conference annual meetings will be held, and at which Mr. Lee will again act on the committee on stationing. One Sunday he will preach at the Grandview Methodist Church, the next at the Point Grey Church, returning to this city in time to conduct services the last Sunday in the month. Sunday, June 4th, will see the close of Mr. Lee's ministry of four years with the Methodist Church here.

CHILDREN'S SPORTS WILL AGAIN BE FEATURE OF 24th PROGRAM

The committee in charge of the 24th May Celebration are planning on another big day for the children of Cranbrook as a part of the program for Cranbrook's big annual day. As was the case last year there will be a field day for all school boys and girls on the day preceding the 24th if similar arrangements to that of last year can be made. This time, instead of giving miscellaneous prizes to the winners of the various events, a standard program of entries will be drawn up, and a junior track day, such as is held on a larger scale in the universities throughout the country, will take place.

To stimulate school spirit and keep the young people of the city patriotic to their school, a big challenge cup is being put up by the management, to be presented to the school obtaining the greatest number of points in proportion to the number of pupils enrolled. This is to be completed for on days authorized by the trustees of the cup, and will become the permanent property of the school winning it three times in succession. Cups are also to be given for such events as the boys' and girls' relay teams from the different schools to be governed by the same rules. Medals will also be given to the winners of the various events, and probably one each for the boy and the girl scoring the greatest number of points in the meet, with name, date and event inscribed upon them. Another medal will very likely be presented to the Boy Scout winning some special race, such as a Boy Scout handicap 100 yard dash. These plans will be published in detail the week before the holding of the meet, so that every boy and girl should start at once to get ready for a real good day on Tuesday, May the 23rd.

CONCERT AND DANCE ON FRIDAY LAST WAS A HUGE SUCCESS

The concert present d on Friday evening last under the auspices of the Anglican Sunday School afforded an unusual evening's entertainment.

The opening number was a signalling display by seven members of the Anglican Scout patrol. The full patrol then lined the stage and rendered a selection of songs.

Frank Hartnell played an excellent piano selection and mysteriously disappeared when encored. One of the most delightful numbers on the program was offered by the young ladies chorus made up as follows: Misses N. Wallinger, N. Home, I. Slye, V. Baxter, I. Parker, M. Burton, M. Home and E. Anderton. The charm and sweetness of their singing was a revelation to the audience. The splendid dancing of the Misses Harriet and Jean Home in an old fashioned Gavotte was encored to the echo. These two little maids show decided talent under Mrs. Van Braam, their instructress. Great amusement prevailed when the Beaver patrol appeared as colored gentlemen. They sang several old time plantation songs and their antics were put over in fine shape. The complete patrol to a man scored a decided hit. A short rural playette in two acts called "Crawford Dames" was presented inggirls,eachofw ni-B E andiatH in a very quaiot manner by the following girls, each of whom took her part splendidly: Miss Matilda Jenkyns, the daughter of the rector, Alleyn Wallinger; Mrs. Jamieson, sister-in-law to an earl, Hester Thompson; Mrs. Forester, widow of a major, Gwen Slye; Miss Pole, a friend of Miss Jenkyns, Marion Miles; Miss Mary Smith, Miss Jenkyns' young cousin, Winnifred Hayman; Miss Betty Barker, a retired milliner, Winnifred Beale; Martha, Miss Jenkyns' maid, Jean Wallinger; Peggy, Miss Barker's maid, Loraine Crane.

Miss Margaret Caven gave a Castanette Dance which was faultless in rythm and technique. This finished young dancer can lead in the best company in this branch of artistic dancing. Mrs. Bert Turner's singing was popularly received, as was also the violin solo by Mr. Turner. Miss C. Adkin appeared in an elocution number entitled "The Inventor's Wife," and for an encore recited "I beg your pardon, Monseur." Cranbrook is very oppreciative of her art and regrets that she is leaving for England once again.

We must not forget to mention the C.R.C. Jazz Orchestra, which did yeoman service during the evening by playing selections between the concert numbers, and also by playing for the dancing until the wee sma' hours.

As a result of the concert net proceeds of $100 have been placed to the credit of the New Rectory Fund.

April Report From Schools

Class Lists Give Standings For Past Month in School Grades

Class list for April.

ENTRANCE A

First Class—75% and over

Trilby Rebel 81.62, Lillian Jackson 81.42, Chester Roberts 80.78, Henry Godderis 80.71, Arthur Shankland 80.14, Marion Atchison 79.50, Esther Chalendar 78.00, Norman Parker 77.85, Hector Linnell 77.54, Gertrude Patmore 77.28, Doris Haynes 75.07.

CRANBROOK, BRITISH COLUMBIA
THURSDAY, MAY 4th, 1922

ANNUAL APPEAL OF "THE ARMY"

The wonderful success attained by the Salvation Army in its world-wide endeavors puts the movement to the fore as one of the greatest sociological movements in history. It had its inception in 1865 when a mission was founded in one of the poorest London districts by William Booth. In 1878 the Army took the title by which it has since been known, and in 1890 embarked upon its great social program for which it has since become famous. It works with methods that other bodies do not use; imposes a system of discipline upon its officer members that goes to show that the term embodied in its title is not used for show only; it works upon classes of the community which for whatever reason seem to be outside the pale of other bodies. These it does, and those who harbor any doubts as to whether the Army is really touching the heart of things, or whether it is merely working on the outskirts have only to look into the Army records.

The Army Self-Denial Week is an annual institution in which it is urged that by a little personal self-denial some help be given to the work of the Army. It is a small personal matter, and the price of a few cigars or a dance invested in humanity may show incomparable dividends when the harvest of the world is reaped.

CLOSING UP THE RANKS

Now that the first rumbling is being heard of the approach of the by-election in this provincial riding which has been pending since the removal of Dr. King to Ottawa, interest is reviving in the matter of provincial issues. This will be the third parliamentary election in the city and district within the past six months or so, and it develop into the most interesting for many reason.

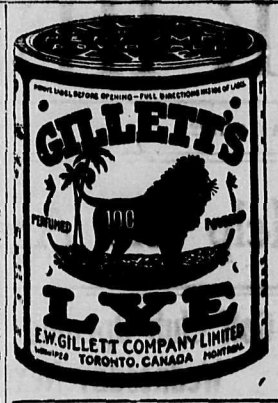
In the first place, this contest promises to be the most clear-cut of all the by-elections which have recently been held. There would seem to be some possibility at this time of bringing the government face to face with its record, without the distraction of any herrings drawn across the trail. There can be no Ymir road issue at this time, no steel bridges or east and west roads, or anything else in the shape of a mess of pottage put up that is likely to take the attention of the electorate off the bigger issues. The Premier, along with Minister of Public Works, the indispensable member of the cabinet at by-election time, who are now in the city, are doubtless conning the situation thoroughly to ascertain along what lines the fight will proceed. They will be well advised to let the election proceed on its merits, and endeavor to make a showing on their past record instead of trading on nebulous promises for the future.

Another factor in the contest is that from present indications the Conservative party is going into the fight one hundred It augers well for the party that per cent. facing the same way. it still numbers within its ranks men who are big enough to sink their own interests when the opportunity is presented thereby to advance the interests of the entire riding so far as the party is concerned. Even the staunchest party supporter will admit that it has been a long time since the same degree of unanimity has been apparent as at the present. One determination is everywhere apparent—to put up and support the man who will be most likely to get widespread support. It may be a little early yet to say so, but it looks as if this by-election is going to find a united opposition to the present government all pulling on the same end of the rope instead of working at cross-purposes, and it is the united heave that does things.

FROM THE VIEW-POINT OF OUR CONTEMPORARIES

Face Paint Versus Brains

The American people spend annually $750,000,000 for face powder, cosmetics and perfumeries, and $1,000,000,000 for education. It is interesting to note that the amount America spends annually for face powder and its accompaniments is almost as much as she spends for her entire educational system. Looks as if merica thought about as much of the outside of her head as of the inside. And as a matter of outstanding fact, the amount actually spent by America for face paint annually exceeds



all she pays for salaries in all the high schools, who are trying to get something into the heads of pupils in between times while they are applying paint on the surface.—The Christian Herald.

Freed From Politics

If the reparations commission could be free to act without its political hobbles it would undoubtedly arrange a settlement on a sound economic basis. For it knows as much about German finances as the Germans do. It knows the facts of production in Germany and the profits that are resulting from both foreign and domestic sales. It knows that German taxes are not as heavy as they are in France, and that the Germans are talking rot when they say that added taxation, as demanded by the Allies, would be unbearable.— Providence Journal.

Canada's Ambassador in Britain

Although Mr. P. C. Larkin, the new high commissioner of Canada, had only arrived in London late on Friday night, he was down at the offices in Victoria Street extremely early yesterday morning. He began to receive callers before the ordinary breakfast time of Park Lane, and commenced to deal with the hundreds of letters awaiting him. Under the new Canadian government the position of high commissioner has been considerably extended. In future all communications and activities, whether of a political or a commercial character, between Ottawa and Whitehall, will be transacted through the commissioner, who really assumes something like ambassadorial status. It was my privilege to be one of the first to call on Mr. Larkin. He told me that one of the first subjects he proposes to take up with the government is the removal of the embargo on the importation of Canadian cattle, on which subject, by the way, the minister of agriculture remains adamant.—Cardiff Western Mail.

Steve Nydokis, charged with theft from a dwelling house, had a preliminary hearing before Police Magistrate John Leask, last week, and on Tuesday, the 2nd, appeared before His Honor Judge Thompson when he elected for a speedy trial.

TWENTY YEARS AGO

Extracts from the Cranbrook Herald of this date, 1902.

Perry Creek promises to be one of the busiest sections in East Kootenay this summer, work on the mines beginning much earlier than usual.

Dr. Liver, of Elko, died on Saturday last, and burial will take place here this week. He formerly resided at Moyie.

A big bachelors' ball will be given by "the boys" very shortly, and no expense or pains will be spared to make the occasion a memorable one.

Marysville people are pressing the government for a school.

G. W. Reece has returned to the city after a six weeks' recuperation from his accident spent at his old home in Ontario.

A weekly stage will be put on between Fort Steele and the Windermere connecting with the boats at the north end and with the railway in the south.

Black Rick (zinc), Northport 37

WOMEN'S INSTITUTE

The usual monthly meeting was held in the Parish Hall on Tuesday. There was an extra good attendance, and the membership is still increasing, the roll registering 136 to date. The president gave a short talk on "Civics"—the 10th topic—money. Business consisted chiefly of a discussion of bazaar and flower show arrangements. It is proposed to hold the former on November 4th, and the latter August 24th. Full particulars will be announced later.

Mrs. Lyne, advisory board member, in rising to give an address, started out by remarking on the admirable way the meeting had been conducted that afternoon. The speaker then related some of the business discussions of the advisory board meetings held at Victoria on April 12 and 13, and from which she had just returned. One issue at stake confronting B.C. was the Oriental problem and monopoly. She urged we petition against any further immigration of the Yellow race. Apart from the Japanese and Chinese holding vast tracts of land, our fisheries are monopolized by them, also the potato industry at Ashcroft, timber, etc. The government will not allow any foreigner an acre in Japan, why should we differ here? The birthrate of Orientals was increasing tremendously, statistics showing the registration of births in 1910 to be 20, but in 1920 this had risen to 657.

The Chinese as lessees of land were chiefly store owners, who were not observant of the Sabbath by any choice. As the Anglo-Japanese treaty ends this year, this will be brought up at the spring session at Ottawa, the speaker emphasized the fact that now is the time to act, to recognize the Institute motto "For Home and Country," and back every project for its good, for only by co-operation can weight carry and great things be accomplished. Miss Clapp and Master Artie Shankland favored with vocal and pianoforte solos, both receiving a merited encore. Mrs. John Healey, who shortly purposes an extended trip to the Old Country, asked to be relived from secretarial duties, and Mrs. John Laurie was appointed secretary. The National Anthem was sung which brought the meeting to a close, following which the usual dainty tea, served by hostesses, terminated a pleasant afternoon.

WINDERMERE DISTRICT NOTES

Invermere, B. C., May 2.— A splendid Clydesdale stallion and a Shorthorn bull have recently been added to the live stock on the Dominion government Experimental Stationhere.

Mrs. W. Howard Cleland and children have left on a visit to relatives on the Coast.

Mr. Bertie Chubb left this week on a six months' visit to his home in England.

Representatives of the Progressive party throughout the local district have set a good movement on foot in the way of having monthly meetings for the discussion of subjects pertaining to the government of Canada and what effects the electorate. A paper or an address is given at each meeting and then the subject matter is fully discussed. A splendid paper on Modern Democracies as illustrated by Canada was given last Friday night by Dr. F. E. Coy.

WYCLIFFE NOTES

E. L. Staples returned on Tuesday from the Clarindale Stock Farm, at Vauxhall, where he was on a business trip.

V. Z. Manning, Inspector of Schools, paid a visit to the local temple of learning on Thursday last, and gives a very favorable report on school conditions in Wycliffe.

A. K. Leitch of Jaffray was a business visitor in Wycliffe last Friday.

Miss Frances Chelmick is visiting in Nelson, B.C., the guest of Miss May Brake.

Some forty little folks from Kimberley, under the leadership of the Rev. Evan Baker, gave a very enjoyable play entitled "The Crowning of the Fairy Queen," in the Club Hall on Friday night last. The children certainly did well and showed careful training and much credit is due both to them and to Mr. Baker.

Ted Crowe has accepted a position with the Kootenay Telephone Co. in Cranbrook, and left Wycliffe on Sunday to take up his new duties.

The baseball season starts next Sunday, May 7, when Yahk comes to Wycliffe for the opening game and Kimberley goes to Wardner, Cranbrook remaining idle. Lets all turn out and boost for a season of clean and interesting sport.

Bert—At the request of the Wycliffe public you are asked not to use the phone more than two consecutive hours at night as the rest of the natives of the village sometimes require the use of said telephone.

H. Telford, formerly of the Ross-Saskatoon Lumber Co., is in the city today. Mr. Telford has organized a company to take out pulp wood from the Wilson Creek country, about six miles above Natal on the Elk River. The company will flume the logs to the railroad, where they will be cut into pulpwood.—Fernie Free Press.

CRANBROOK MUSICAL SOCIETY NOTES

A large and representative meeting of the Society was held Tuesday evening at which the problems of the past month were straightened out and a clean slate prepared for future activities. The amount of enthusiasm shown at the meeting was quite noticeable and reflected the real spirit of optimism which has always manifested itself in the activities of the Society. A hearty vote of thanks was tendered Conductor Burton in appreciation of the manner in which he guided the Society's activities during the recent emergency. Mr. Burton replied briefly and stated that any effort that he may have given was deserving of no special praise and wished to state that in his efforts he had and would have, the whole-hearted support of the members.

From now on the practises of the orchestral and choral branches will be held jointly in the G.W.V.A. Hall on Tuesday evenings at at o'clock. Members of the choral branch please note.

Every Wednesday evening at 8 p.m. in the G.W.V.A. Hall has been decided on for permanent practice night for the band. The band is sure coming along fine and bids fair to become a finer and better band than was anticipated some three or four weeks back. Boost the band—it will boost Cranbrook in the very near future.

According to word received from the Coast this week to private individuals, there is some likilihood of the provincial by-election in this riding being brought on a little sooner than was previously announced, and the contest may be expected any time from the beginning of June on, it is stated.

Miss Helen Hodgson, of Nelson, daughter of Mr. and Mrs. A. W. Hodgson, of this city, made a favorable public appearance there on Sunday last, when she acted as accompanist at a recital given by the famous Hungarian violinist, Laszlo Schwartz. Her sympathetic accompaniments were referred to as being of great value to the soloists.

FORMER C.P.R. SUPT. HERE UNVEILS COMPANY MEMORIAL AT COAST

VANCOUVER, B.C., April 28.—To the blare of martial music, flags flying at half mast and an assemblage of some of the most prominent people in British Columbia, the Canadian Pacific Railway memorial erected in memory of company employees who gave their lives in the great war, was unveiled at noon today by C. S. Maharg, Divisional Superintendent at Vancouver, formerly of this city, who lost his only son in the war.

The ceremony proper began at 11.45 a.m. when the band of the 72nd Battalion played the National Anthem. The guard of honor was composed of fifty employees of the company, all veterans in uniform, and after inspecting them they were complimented on their smart turnout, by His Honor the Lieutenant-Governor, F. H. Peters, General Superintendent of the Canadian Pacific Railway in British Columbia then read a handsome engrossed address in which the war serices of employees of the company were set forth. This was presented to the Lieutenant-Governor.

The actual unveiling then took place and as the draped flags fell away from the statue the guard of honor saluted and the band played "O Canada." The Lieut.-Governor then delivered a short address, Right Rev. A. U. De Pencier, Bishop of New Westminster, pronounced the benediction and buglers sounded the Last Post. As the flags, which had been at half mast, were raised, the crowd sang the doxology and the ceremony was concluded.

Simultaneously m morial tablets were unveiled at Victoria, Nelson, Winnipeg and other centres.

COMMUNICATION

RE THE LIQUOR QUESTION

Cranbrook, B.C.,
April 27th, 1922.

Cranbrook Herald,
Cranbrook, B.C.
Dear Editor.

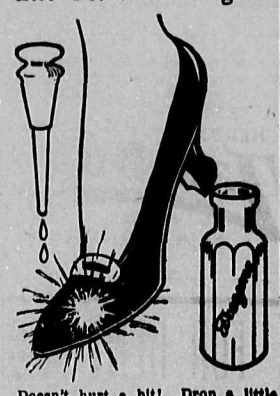
Now that the Provincial Government *is in the retail business selling* whiskey and beer and wines to the public, why should they tolerate so much competiiton, with many hotels selling and bootlegging, some of them serving it right over the bar the same as was done when the saloons were wide open? Of course we know that *if the laws of the province were* enforced that some of the "400" would land behind the bars for some little time; and if the Demon Rum should some day be stopped from taking a place in social life, right then is when the hungry profiteer would begin to howl, for his big profits would then be cut and a lot of the bloodsuckers of humanity would have to go to work. Why is it that the laws in regard to sanitation in the province are not enforced by the servants of the people—because it is contrary to the wishes of "big business?" We have all wondered what causes the awful unrest that is at present prevalent all over the world. Well, stop and think, first the industries are cutting wages and lengthening the hours of toil for the workers, all for more profits. We as workers have now got our standard of living below that of the Chinese and still they seek to put our standard still lower. And it is my candid opinion that the bootlegger in Cranbrook and vicinity must be protected in some way or they could not run as open as they do. So here is hoping that the powers that be will do their duty as required by the people.

J. L. Peterson.

British Columbia has many seed merchants, but much of the seed now being used comes from the States. This fact became apparent lately with comparison of import statements. Mail order houses on the other side are sending in glowing literature exploiting the merits of their seeds, and the catalogues are now flooding every agricultural part of B.C., while the local stores are wondering why their own seed sales are dull.

CORNS

Lift Off with Fingers



Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the callusses, without soreness or irritation.

FARMER PARTY OF B.C. COMES OUT WITH ITS PLATFORM

Farmer-Progressive Party of B.C. Declare It is Not in Class Movement

Following a recent organization meeting at Kamloops the Farmer-Progressive Party of British Columbia completed its platform. The party, says the official creed of the new political body, will be organized along lines sufficiently broad to allow all those who can not subscribe to the tenets of the Liberals and Conservatives to enroll under its banner.

The Farmer-Progressive party will hold a convention this summer to determine upon a new name. At this gathering the new body will also perfect its organization.

In issuing the platform the leaders of the new movement state emphatically that it is not in any sense a class movement. Agrarian government in British Columbia is not the ideal toward which the new Progressives will work, they declare.

The platform is as follows:

1.—We believe in the principles of organization, education and true co-operation.

2.—Right economy in the expenditure of all public monies and a thoroughly impartial investigation of the P.G.E. Railway question.

4.—The abolition of the system of party patronage.

4. A uniform freight, express and postage rate, per mile, throughout Canada.

5.—Establishment of a rural credit system.

6.—A uniform system of road building.

7.—*The conservation and development* of the natural resources of the people, such as a reforestation of land unfit for agricultural or grazing purposes, conservation of water power, etc.

8.—Equitable basis of assessment and taxation.

9.—Oriental question.—We advocate a strict policy of Oriental exclusion with the debarring of Orientals from the holding or leasing of land in British Columbia and would bring pressure to bear upon all civil and municipal authorities to enforce laws and building by-laws to raise standard of living of Orientals.

10.—That no government can be considered defeated except by a decided vote of want of confidence.

IRISH CONSTABULARY MEN WOULD SETTLE IN THE PROVINCE

Vancouver, April 29.—Several hundred former members of the Irish Constabulary want to settle on farms in British Columbia, and many enquiries are coming in from prospective settlers. The men were recently disbanded. They say living in Ireland is now unbearable, as their lives are threatened and they are being practically boycotted in some parts. The men have, with exceptions, very little capital, and want to know if the immigration office will assist them to locate on lands in British Columbia. *Their plight is said to be serious.* The men have only a superficial knowledge of farming, and few of them have trades. Some have written direct ect to the Premier, while others are writing to the various civic bodies, imploring aid in settling in this province.

CRANBROOK, BRITISH COLUMBIA
THURSDAY, MAY 4th, 1922

ANNUAL APPEAL OF "THE ARMY"

The wonderful success attained by the Salvation Army in its world-wide endeavors puts the movement to the fore as one of the greatest sociological movements in history. It had its inception in 1865 when a mission was founded in one of the poorest London districts by William Booth. In 1878 the Army took the title by which it has since been known, and in 1890 embarked upon its great social program for which it has since become famous. It works with methods that other bodies do not use; imposes a system of discipline upon its officer members that goes to show that the term embodied in its title is not used for show only; it works upon classes of the community which for whatever reason seem to be outside the pale of other bodies. These it does, and those who harbor any doubts as to whether the Army is really touching the heart of things, or whether it is merely working on the outskirts have only to look into the Army records.

The Army Self-Denial Week is an annual institution in which it is urged that by a little personal self-denial some help be given to the work of the Army. It is a small personal matter, and the price of a few cigars or a dance invested in humanity may show incomparable dividends when the harvest of the world is reaped.

CLOSING UP THE RANKS

Now that the first rumbling is being heard of the approach of the by-election in this provincial riding which has been pending since the removal of Dr. King to Ottawa, interest is reviving in the matter of provincial issues. This will be the third parliamentary election in the city and district within the past six months or so, and it develop into the most interesting for many reason.

In the first place, this contest promises to be the most clear-cut of all the by-elections which have recently been held. There would seem to be some possibility at this time of bringing the government face to face with its record, without the distraction of any herrings drawn across the trail. There can be no Ymir road issue at this time, no steel bridges or east and west roads, or anything else in the shape of a mess of pottage put up that is likely to take the attention of the electorate off the bigger issues. The Premier, along with Minister of Public Works, the indispensable member of the cabinet at by-election time, who are now in the city, are doubtless conning the situation thoroughly to ascertain along what lines the fight will proceed. They will be well advised to let the election proceed on its merits, and endeavor to make a showing on their past record instead of trading on nebulous promises for the future.

Another factor in the contest is that from present indications the Conservative party is going into the fight one hundred It augers well for the party that per cent. facing the same way. it still numbers within its ranks men who are big enough to sink their own interests when the opportunity is presented thereby to advance the interests of the entire riding so far as the party is concerned. Even the staunchest party supporter will admit that it has been a long time since the same degree of unanimity has been apparent as at the present. One determination is everywhere apparent—to put up and support the man who will be most likely to get widespread support. It may be a little early yet to say so, but it looks as if this by-election is going to find a united opposition to the present government all pulling on the same end of the rope instead of working at cross-purposes, and it is the united heave that does things.

FROM THE VIEW-POINT OF OUR CONTEMPORARIES

Face Paint Versus Brains

The American people spend annually $750,000,000 for face powder, cosmetics and perfumeries, and $1,000,000,000 for education. It is interesting to note that the amount America spends annually for face powder and its accompaniments is almost as much as she spends for her entire educational system. Looks as if merica thought about as much of the outside of her head as of the inside. And as a matter of outstanding fact, the amount actually spent by America for face paint annually exceeds

all she pays for salaries in all the high schools, who are trying to get something into the heads of pupils in between times while they are applying paint on the surface.—The Christian Herald.

Freed From Politics

If the reparations commission could be free to act without its political hobbies it would undoubtedly arrange a settlement on a sound economic basis. For it knows as much about German finances as the Germans do. It knows the facts of production in Germany and the profits that are resulting from both foreign and domestic sales. It knows that German taxes are not as heavy as they are in France, and that the Germans are talking rot when they say that added taxation, as demanded by the Allies, would be unbearable.— Providence Journal.

Canada's Ambassador in Britain

Although Mr. P. C. Larkin, the new high commissioner of Canada, had only arrived in London late on Friday night, he was down at the offices in Victoria Street extremely early yesterday morning. He began to receive callers before the ordinary breakfast time of Park Lane, and commenced to deal with the hundreds of letters awaiting him. Under the new Canadian government the position of high commissioner has been considerably extended. In future all communications and activities, whether of a political or a commercial character, between Ottawa and Whitehall, will be transacted through the commissioner, who really assumes something like ambassadorial status. It was my privilege to be one of the first to call on Mr. Larkin. He told me that one of the first subjects he proposes to take up with the government is the removal of the embargo on the importation of Canadian cattle, on which subject, by the way, the minister of agriculture remains adamant.—Cardiff Western Mail.

Steve Nydokis, charged with theft from a dwelling house, had a preliminary hearing before Police Magistrate John Leask, last week, and on Tuesday, the 2nd, appeared before His Honor Judge Thompson when he elected for a speedy trial.

TWENTY YEARS AGO

Extracts from the Cranbrook Herald of this date, 1902.

Perry Creek promises to be one of the busiest sections in East Kootenay this summer, work on the mines beginning much earlier than usual.

Dr. Liver, of Elko, died on Saturday last, and burial will take place here this week. He formerly resided at Moyie.

A big bachelors' ball will be given by "the boys" very shortly, and no expense or pains will be spared to make the occasion a memorable one.

Marysville people are pressing the government for a school.

G. W. Reece has returned to the city after a six weeks' recuperation from his accident spent at his old home in Ontario.

A weekly stage will be put on between Fort Steele and the Windermere connecting with the boats at the north end and with the railway in the south.

Black Rick (zinc), Northport 37

WOMEN'S INSTITUTE

The usual monthly meeting was held in the Parish Hall on Tuesday. There was an extra good attendance, and the membership is still increasing, the roll registering 136 to date. The president gave a short talk on "Civics"—the 10th topic—money. Business consisted chiefly of a discussion of bazaar and flower show arrangements. It is proposed to hold the former on November 4th, and the latter August 24th. Full particulars will be announced later.

Mrs. Lyne, advisory board member, in rising to give an address, started out by remarking on the admirable way the meeting had been conducted that afternoon. The speaker then related some of the business discussions of the advisory board meetings held at Victoria on April 12 and 13, and from which she had just returned. One issue at stake confronting B.C. was the Oriental problem and monopoly. She urged we petition against any further immigration of the Yellow race. Apart from the Japanese and Chinese holding vast tracts of land, our fisheries are monopolized by them, also the potato industry at Ashcroft, timber, etc. The government will not allow any foreigner an acre in Japan, why should we differ here? The birthrate of Orientals was increasing tremendously, statistics showing the registration of births in 1910 to be 20, but in 1920 this had risen to 657.

The Chinese as lessees of land were chiefly store owners, who were not observant of the Sabbath by any choice. As the Anglo-Japanese treaty ends this year, this will be brought up at the spring session at Ottawa, the speaker emphasized the fact that now is the time to act, to recognize the Institute motto "For Home and Country," and back every project for its good, for only by co-operation can weight carry and great things be accomplished. Miss Clapp and Master Artie Shankland favored with vocal and pianoforte solos, both receiving a merited encore. Mrs. John Healey, who shortly purposes an extended trip to the Old Country, asked to be relived from secretarial duties, and Mrs. John Laurie was appointed secretary. The National Anthem was sung which brought the meeting to a close, following which the usual dainty tea, served by hostesses, terminated a pleasant afternoon.

WINDERMERE DISTRICT NOTES

Invermere, B. C., May 2.— A splendid Clydesdale stallion and a Shorthorn bull have recently been added to the live stock on the Dominion government Experimental Stationhere.

Mrs. W. Howard Cleland and children have left on a visit to relatives on the Coast.

Mr. Bertie Chubb left this week on a six months' visit to his home in England.

Representatives of the Progressive party throughout the local district have set a good movement on foot in the way of having monthly meetings for the discussion of subjects pertaining to the government of Canada and what effects the electorate. A paper or an address is given at each meeting and then the subject matter is fully discussed. A splendid paper on Modern Democracies as illustrated by Canada was given last Friday night by Dr. F. E. Coy.

WYCLIFFE NOTES

E. L. Staples returned on Tuesday from the Clarindale Stock Farm, at Vauxhall, where he was on a business trip.

V. Z. Manning, Inspector of Schools, paid a visit to the local temple of learning on Thursday last, and gives a very favorable report on school conditions in Wycliffe.

A. K. Leitch of Jaffray was a business visitor in Wycliffe last Friday.

Miss Frances Chelmick is visiting in Nelson, B.C., the guest of Miss May Brake.

Some forty little folks from Kimberley, under the leadership of the Rev. Evan Baker, gave a very enjoyable play entitled "The Crowning of the Fairy Queen," in the Club Hall on Friday night last. The children certainly did well and showed careful training and much credit is due both to them and to Mr. Baker.

Ted Crowe has accepted a position with the Kootenay Telephone Co. in Cranbrook, and left Wycliffe on Sunday to take up his new duties.

The baseball season starts next Sunday, May 7, when Yahk comes to Wycliffe for the opening game and Kimberley goes to Wardner, Cranbrook remaining idle. Lets all turn out and boost for a season of clean and interesting sport.

Bert—At the request of the Wycliffe public you are asked not to use the phone more than two consecutive hours at night as the rest of the natives of the village sometimes require the use of said telephone.

H. Telford, formerly of the Ross-Saskatoon Lumber Co., is in the city today. Mr. Telford has organized a company to take out pulp wood from the Wilson Creek country, about six miles above Natal on the Elk River. The company will flume the logs to the railroad, where they will be cut into pulpwood.—Fernie Free Press.

CRANBROOK MUSICAL SOCIETY NOTES

A large and representative meeting of the Society was held Tuesday evening at which the problems of the past month were straightened out and a clean slate prepared for future activities. The amount of enthusiasm shown at the meeting was quite noticeable and reflected the real spirit of optimism which has always manifested itself in the activities of the Society. A hearty vote of thanks was tendered Conductor Burton in appreciation of the manner in which he guided the Society's activities during the recent emergency. Mr. Burton replied briefly and stated that any effort that he may have given was deserving of no special praise and wished to state that in his efforts he had and would have, the whole-hearted support of the members.

From now on the practises of the orchestral and choral branches will be held jointly in the G.W.V.A. Hall on Tuesday evenings at at o'clock. Members of the choral branch please note.

Every Wednesday evening at 8 p.m. in the G.W.V.A. Hall has been decided on for permanent practice night for the band. The band is sure coming along fine and bids fair to become a finer and better band than was anticipated some three or four weeks back. Boost the band—it will boost Cranbrook in the very near future.

According to word received from the Coast this week to private individuals, there is some likilihood of the provincial by-election in this riding being brought on a little sooner than was previously announced, and the contest may be expected any time from the beginning of June on, it is stated.

Miss Helen Hodgson, of Nelson, daughter of Mr. and Mrs. A. W. Hodgson, of this city, made a favorable public appearance there on Sunday last, when she acted as accompanist at a recital given by the famous Hungarian violinist, Laszlo Schwartz. Her sympathetic accompaniments were referred to as being of great value to the soloists.

FORMER C.P.R. SUPT. HERE UNVEILS COMPANY MEMORIAL AT COAST

VANCOUVER, B.C., April 28.—To the blare of martial music, flags flying at half mast and an assemblage of some of the most prominent people in British Columbia, the Canadian Pacific Railway memorial erected in memory of company employees who gave their lives in the great war, was unveiled at noon today by C. S. Maharg, Divisional Superintendent at Vancouver, formerly of this city, who lost his only son in the war.

The ceremony proper began at 11.45 a.m. when the band of the 72nd Battalion played the National Anthem. The guard of honor was composed of fifty employees of the company, all veterans in uniform, and after inspecting them they were complimented on their smart turnout, by His Honor the Lieutenant-Governor, F. H. Peters, General Superintendent of the Canadian Pacific Railway in British Columbia then read a handsome engrossed address in which the war serices of employees of the company were set forth. This was presented to the Lieutenant-Governor.

The actual unveiling then took place and as the draped flags fell away from the statue the guard of honor saluted and the band played "O Canada." The Lieut.-Governor then delivered a short address, Right Rev. A. U. De Pencier, Bishop of New Westminster, pronounced the benediction and buglers sounded the Last Post. As the flags, which had been at half mast, were raised, the crowd sang the doxology and the ceremony was concluded.

Simultaneously m morial tablets were unveiled at Victoria, Nelson, Winnipeg and other centres.

COMMUNICATION

RE THE LIQUOR QUESTION

Cranbrook, B.C.,
April 27th, 1922.

Cranbrook Herald,
Cranbrook, B.C.
Dear Editor.

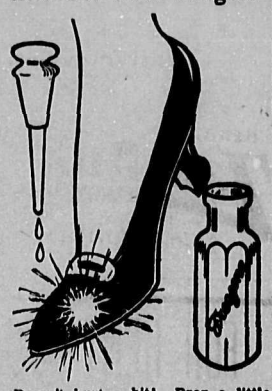
Now that the Provincial Government is in the retail business selling whiskey and beer and wines to the public, why should they tolerate so much competiton, with many hotels selling and bootlegging, some of them serving it right over the bar the same as was done when the saloons were wide open? Of course we know that if the laws of the province were enforced that some of the "400" would land behind the bars for some little time; and if the Demon Rum should some day be stopped from taking a place in social life, right then is when the hungry profiteer would begin to howl, for his big profits would then be cut and a lot of the bloodsuckers of humanity would have to go to work. Why is it that the laws in regard to sanitation in the province are not enforced by the servants of the people—because it is contrary to the wishes of "big business?" We have all wondered what causes the awful unrest that is at present prevalent all over the world. Well, stop and think, first the industries are cutting wages and lengthening the hours of toil for the workers, all for more profits. We as workers have now got our standard of living below that of the Chinese and still they seek to put our standard still lower. And it is my candid opinion that the bootlegger in Cranbrook and vicinity must be protected in some way or they could not run as open as they do. So here is hoping that the powers that be will do their duty as required by the people.

J. L. Peterson.

British Columbia has many seed merchants, but much of the seed now being used comes from the States. This fact became apparent lately with comparison of import statements. Mail order houses on the other side are sending in glowing literature exploiting the merits of their seeds, and the catalogues are now flooding every agricultural part of B.C., while the local stores are wondering why their own seed sales are dull.

CORNS

Lift Off with Fingers



Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the callouses, without soreness or irritation.

FARMER PARTY OF B.C. COMES OUT WITH ITS PLATFORM

Farmer-Progressive Party of B.C. Declare It is Not in Class Movement

Following a recent organization meeting at Kamloops the Farmer-Progressive Party of British Columbia completed its platform. The party, says the official creed of the new political body, will be organized along lines sufficiently broad to allow all those who can not subscribe to the tenets of the Liberals and Conservatives to enroll under its banner.

The Farmer-Progressive party will hold a convention this summer to determine upon a new name. At this gathering the new body will also perfect its organization.

In issuing the platform the leaders of the new movement state emphatically that it is not in any sense a class movement. Agrarian government in British Columbia is not the ideal toward which the new Progressives will work, they declare.

The platform is as follows:

1.—We believe in the principles of organization, education and true co-operation.

2.—Right economy in the expenditure of all public monies and a thoroughly impartial investigation of the P.G.E. Railway question.

4.—The abolition of the system of party patronage.

4. A uniform freight, express and postage rate, per mile, throughout Canada.

5.—Establishment of a rural credit system.

6.—A uniform system of road building.

7.—The conservation and development of the natural resources of the people, such as a reforestation of land unfit for agricultural or grazing purposes, conservation of water power, etc.

8.—Equitable basis of assessment and taxation.

9.—Oriental question.—We advocate a strict policy of Oriental exclusion with the debarring of Orientals from the holding or leasing of land in British Columbia and would bring pressure to bear upon all civil and municipal authorities to enforce laws and building by-laws to raise standard of living of Orientals.

10.—That no government can be considered defeated except by a decided vote of want of confidence.

IRISH CONSTABULARY MEN WOULD SETTLE IN THE PROVINCE

Vancouver, April 29.—Several hundred former members of the Irish Constabulary want to settle on farms in British Columbia, and many enquiries are coming in from prospective settlers. The men were recently disbanded. They say living in Ireland is now unbearable, as their lives are threatened and they are being practically boycotted in some parts. The men have, with exceptions, very little capital, and want to know if the immigration office will assist them to locate on lands in British Columbia. Their plight is said to be serious. The men have only a superficial knowledge of farming, and few of them have trades. Some have written direct ect to the Premier, while others are writing to the various civic bodies, imploring aid in settling in this province.

PLANTING OF THE VEGETABLE GARDEN

(Experimental Farms Note)

There are so many different phases of work to be considered in connection with the planting of a garden that one needs to have a thorough grasp of the proper procedure. The first operation to be conducted when weather conditions are right, is the preparation of the soil. Where the soil is of a sandy nature, there is little danger of injuring its physical make-up, but if the soil is of clay texture, working while too moist will cause puddling which would render the soil lumpy for that season. However, the cultivation given the garden prior to sowing the seed should be thorough in every respect, because upon this tillage will depend, to a very great degree, the success or failure of the garden.

To obtain the maximum returns *from any garden, it is necessary to* employ successful sowings of such crops as peas, beans, beets, carrots, radish and lettuce. The sowings should be regulated at intervals of a week or ten days apart so as to have a succession of tender fresh vegetables available throughout the season. The first sowings should be made as early as weather and soil conditions will permit and continued in succession until the last week of June.

Regarding the sowing of the seed, one must be careful to regulate in accordance with the season of the year. During the early part of the season, shallow planting is essential to quick germination, but as the season advances and the soil becomes warmed to a greater depth, it will be found necessary to increase the depth in the ground to which the seed is placed, bearing in mind, of course, that large and small seeds must be planted in depth in accordance with their size.

Whether the garden be large or *small, the ambition of every garden*er should be to obtain the most from the given area. This can be done by a system of double cropping, or catch cropping, using such quick maturing crops as radish and lettuce. The early maturing crops are sown between the rows of cabbage, cauliflower, tomatoes and potatoes, or as markers in the rows with the seed of slow germinating sorts such as parsnips or *beets, and are ready for use and gone* before the standard crops require the space for their development.

A few suggestions regarding the mode of procedure in connection with the growing of successional crops might not be amiss. In the first place let us consider peas. The first early sowing should be made using a smooth seeded variety such as Alacka or Early Morning Star. This type of pea can be sown very early when conditions for the wrinkled sorts would be entirely undesirable. It may be necessary to make a couple of sowings of the smooth sorts before it would be possible to sow the wrinkled peas. For the successional sowings of a wrinkled variety, use Thomas Laxton, this early sort has been found very desirable and possesses all round good qualities. If, however, a dwarf variety is desired, English Wonder is recommended, followed by American Wonder. With beans it has been found much better to use some early sort such as Round *Pod Kidney Wax for a golden podded* sort, and Early Red Valentine if a green podded variety is desired. Beans must be planted very early, therefore, the range of the season is not so great as in the case of the peas. Other recommended varieties are: Beet, Detroit Dark Red; Carrots, Chantenay; Raddish, Scarlet Turnip White Tip; Lettuce, Grand Rapids.

*All the plants that are to be trans*planted should be hardened off well in a cold frame prior to planting in the open. Select only the stockiest, well grown plants. Choose a dull day for planting or the evening towards sundown. In setting out all classes of plants, it is very important that the earth be firmly pressed about the roots. If loose planting is practised, the roots of the plants cannot form proper contact with the soil to obtain plant food and moisture.

Avoid crowded conditions in the garden. While it is desired to crop the land intensively, yet good judgment must be the guide in order to prevent strangulation of one plant by another or making conditions congenial for development of fungous diseases.

Railway News in Brief

Winnipeg.—A postal car service between Edmonton and Spirit River will be inaugurated within the next ten days according to a statement made by D. C. Coleman, president of the E., D. & B. C. railway. This service was authorized by the post-office department in November last but difficulties were encountered in getting the necessary equipment. Two cars will be ready next week and the service will be started immediately thereafter.

Montreal.—At a series of conferences held during the last few days at Windsor Station, at which representatives of Military District Number Four, Great War Veterans, Army and Navy Veterans, St. Andrew's Society, and St. George's Society were present, plans were discussed and formulated for the *forthcoming* visit to Canada of the band of His Majesty's Scots Guards, who are coming to Canada next May by consent of the King, to give a series of concerts for the benefit of the Great War Veterans' Association.

Vancouver.—C. P. R. steamship officials report the arrival of the steamship "Makura" at Vancouver, B.C., from Australia, New Zealand, Fiji and Honolulu, bringing in addition to a passenger list of notables, a miscellaneous cargo, including 14,200 carcasses of mutton and 500 tons of butter.

Among the passengers was David Clark, sheep and cattle king of Australia. Practically all the mutton and butter carried was from Mr. Clark's ranches in Australia. He owns countless thousands of sheep and cattle on his many ranges in the Commonwealth, and although decidedly modest about his accomplishments as a cattle man, he is considered one of the most prominent men in the business in Australia.

Banff.—The sleigh dog and whippet races at the Banff carnival were among them being Mrs. Drummond Davis, Mrs. Jim Brewster and Mrs. William Brewster. There is plenty of dog life in Banff. Every youngster seems to have a dog. Many of these faithful and amiable animals draw their little masters round in little cutters and seem very proud of themselves. One small boy drives a team of two, and comes gallopin down Banff Avenue in thrilling style.

Whippet racing in Western Canada is a comparatively new sport, and to Banff belongs the credit of starting it a few years ago at the carnival.

Montreal.—Two free scholarships covering four years' tuition in architecture, chemical, civil, mechanical or electrical engineering at McGill University, are offered by the Canadian Pacific Railway, subject to competitive examination, to apprentices and other employees enrolled on the permanent staff of the Company and under twenty-one years of age, and to minor sons of employees.

The competitive examination, which will be the regular entrance matriculation examination provided for in the Annual Calendar of the University, will be held at the University, Montreal, and at other centres throughout Canada, in June, 1922. The candidates making the highest average and complying with the requirements of admission will be awarded the Scholarships, and have the option of taking any of the above courses.

Scholarships will be renewed from year to year, to cover a period not exceeding four years, if, at the close of each session, the holder thereof is entitled, under the rules, to full standing in the next higher year.

In case a scholarship holder finds it necessary to interrupt his course for a year or more, notice must be given at the close of the session to the Railway Company and to the Dean of the Faculty of Applied Science of the University, in order that the scholarship may be open to other applicants.

In order to establish prior claim to the next available scholarship, notice of the student's intended return must be given to the Railway Company, and to the Dean of the Faculty of Applied Science, not later than January 1st, preceding the opening of the session in which such scholarship will be available.

Applications for certificates entitling eligible persons to enter the competition should be addressed to Mr. C. H. Buell, Staff Registrar and Secretary, Pension Department, Canadian Pacific Railway, Montreal. Copies of the Annual Calendar containing the *conditions of admission* and announcement of courses may be obtained upon application to the Registrar, McGill University, Montreal.

Certificate holders should apply, not later than May 10th, 1922, to the Registrar of the University, for admission to the examination, and such application must be accompanied by the Company's certificate of eligibility.

A circular making above announcement has been issued by Mr. *Grant Hall, Vice-President*, Canadian Pacific Railway.

CAMPERS AND HUNTERS SAID TO BE RESPONSIBLE FOR BIG FIRE LOSS

Most of the devastating forest fires in 1921 were caused by campers, fishermen and other travellers in the woods who showed gross carelessness in leaving their camp fires unextinguished and in throwing away lighted tobacco and matches. Canada paid with millions of dollars for the outings of thoughtless Canadians last summer. Quebec and New Brunswick are now considering a license system whereby every camper or sportsman would be required to take out a permit before entering forested districts. This may seem like a hardship on innocent recreation but until the Canadian camper shows some consideration for the security of the woods and some appreciation of the danger of fire such legislation [illegible]

DEBATING EXTENSION OF AMENDMENT TO THE CROW'S NEST AGREEMENT

For the information of Herald readers, the list of articles coming within the scope of the Crow's Nest agreement is here given: All green and fresh fruits, coal oil, cordage and binder twine, agricultural implements of all kinds, set up or in parts, iron, nails, spikes, horse shoes, wire, window glass, paper for building and roofing purposes, paints of all kinds and oils, livestock, woodenware, household furniture, grain and flour; these commodities to be affected in shipments in the case of grain and flour from western points to Fort William and Port Arthur, and in the case of the other articles mentioned *from those lake ports westward.*

Manufacturing interests and also the farmers bodies in the east and middle west are urging upon the government that the original Crow's Nest rate agreement, abrogated on account of the abnormal conditions during the war, be restored to status quo when the present amendment runs out shortly. Manufacturers and wholesalers at the Coast, however, are urging that the agreement be not enforced in its original form, as it would tend to discriminate further against the western interests, in favor of those in the east, who are already enjoying more favorable freight rates than here in the west.

The Bull River power, which was to have been turned on last Sunday, has been delayed owing to some flume trouble which developed when the water pressure was turned on. It will be several days before things will be in order.—Fernie Free Press.

Be on your guard against that early patch of eczema, which if unheeded, may lead to nights and days of fiery irritation! Watch for the first pimple and rash that may spell ugly disfigurement! Don't let that simple cut, bruise or burn, take "bad ways."

Examine your skin frequently and carefully, and treat the first sign of *disorder at once with Zam-Buk.*

The secret of Zam-Buk's power in creating a clear healthy skin is that it stimulates the cells to renewed activity, and rids the tissues of accumulated impurities. Nightly dressings with Zam-Buk soothe, soften and purify the skin, and *improve your appearance wonderfully.*

Unlike coarse lardy ointments and fatty creams, Zam-Buk contains active medicinal essences that sink *into* the skin and expel inflammation and itching irritation. Zam-Buk quickly replaces diseased tissue and grows healthy new skin.

For eczema, pimples, boils, abscesses, ringworm, poisoned wounds, bad legs, cuts, burns, scalds, or for piles Zam-Buk provides the unrivalled remedy.

THE BANKRPUTCY ACT

In the estate of Rebecca Weston, trading under the name of Weston's Bargain Store, authorized assignor, of Cranbrook, in the Province of British Columbia.

Notice is hereby given that on the 24th day of April, 1922, Rebecca Weston of Cranbrook did make an authorized assignment to the undersigned.

Notice is further given that the first meeting of creditors in the above estate will be held at the office of H. W. Herchmer, Baker Street, Cranbrook, B.C., on the 12th day of May 1922, at 2.30 o'clock in the afternoon.

To entitle you to vote thereat proof of your claim must be lodged with me before the meeting is held.

Proxies to be used at the meeting must be lodged with me prior thereto.

And further take notice that if you have any claims against the debtor for which you are entitled to rank, proof of such claim must be filed with me within thirty days from the date of this notice, for from and after the expiration of the time fixed by subsection 8 of section 37 of the said Act I shall distribute the proceeds of the debtor's estate among the parties entitled thereto having regard only to the claims of which I have then notice.

Dated at Cranbrook, B.C., this 27th day of April, 1922

M. A. BEALE,
Authorized Trustee

Official appointment was made this week from Victoria of Fred A. Small of this city as acting recorder for the Fort Steele Mining Division, and J. E. Kennedy, now in charge of the employment bureau here, to be registrar of votes.

DYED HER WRAP BLUE AND A SKIRT BROWN

Each package of "Diamond Dyes" contains directions so simple any woman can dye or tint her worn, shabby dresses, skirts, waists, coats, stockings, sweaters, coverings, draperies, hangings, everything, even if she has never dyed before. Buy "Diamond Dyes," — no other kind — then perfect home dyeing is sure because Diamond Dyes are guaranteed not to spot, fade, streak or run. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods.

Drop in Prices Causes Decrease

Value of Output From B.C. Mines Last Year Shows Decline

Victoria, B. C.,— British Columbia mines in 1921 produced minerals which brought in $28,066,641, according to the annual report of Hon. William Sloan, minister of mines, completed recently.

Although the average of metal prices for 1921 were 31 per cent lower than the average for 1920, the decrease in the value of the production for 1921 was only 21.06 per cent less than the actual value of the production of 1920, which was $35,543,084.

"This means that in 1920, on an average, the miners received nearly 50 per cent greater an amount than for a similar quantity of meals in 1921." Mr. Sloan explains.

"This is the financial handicap from outside sources that our miners have had to meet throughout the year, and few of them made a profit at these prices, so that the mining companies deserve great credit for the very good output they made."

Quantity production of some of the valuable minerals was greater last year than in 1920, although the price netted for the product was smaller. These are:

	Quantity	Value
Gold, ozs., placer,		
1921	11,660	$ 233,200
1920	11,080	221,600
Gold, ozs., lode,		
1921	135,663	2,804,154
1920	120,048	2,481,392
Lead, lbs.—		
1921	41,402,228	1,693,354
1920	39,331,218	2,816,115
Zinc, lbs.—		
1921	49,419,372	1,952,065
1920	47,208,268	3,077,979

"The results obtained will prove a very agreeable surprise and in comparison with other mining communities we should consider ourselves very fortunate," Mr. Sloan says.

Dealing with the prospects for an iron industry in this province, Mr. Sloan said:

"So far there has been no metallic iron produced in British Columbia, but it has been strongly advocated in many quarters that the conditions are favorable for the establishment of an iron-smelting plant somewhere on the coast. So far nothing definite has materialized, although there is apparently a prospect of such a plant being established.

"As is well known, there is on the coast, in the aggregate, an adequate supply of magnetite-iron ore, quite sufficiently free from impurities as to ply ore for such a plant.

NEW COMPANY BRINGING BACK WINDERMERE LAND TO CULTIVATION

(Special to the Herald)

Invermere, B.C., May 1.—In regard to the recent purchase by Dr. W. H. Gaddes of Vancouver and others of the interests of the Columbia Valley Orchards, Limited, at Edgewater, of their lands and irrigation project, it is of interest to review that at the height of the prosperity of that organization in the year 1913 Dr. Gaddes was the president and they had over three hundred acres under crop and had constructed over six miles of steel flumes, putting five thousand acres of land under mains and 300 acres under laterals. In the subsequent lean years which followed with the collapse of the Dominion Trust Company and the troubles of the World War, this all gradually went back to uncultivated land and nothing has been done with it worthy of the mention except keeping things in a state of fair repair until such time as the sale above mentioned was consumated. Already the work of bringing this back has been commenced. This will take in the neighborhood of three years as it will only be done gradually.

In addition to the above the company erected many handsome bungalows on their property and started a hotel. A system of domestic water was laid for all these buildings.

Rev. F. B. Atkinson, the rector, is in Vancouver enjoying a holiday.

The census of 1921 shows the Windermere Mining Division to have a population of 807, of whom 550 are males and 257 females.

Lake Windermere, the headwaters of the great Columbia river, was freed from ice this year for the first time on the 21st ult. The clearance generally averages tbout the 17th of April.

The B.C. and Alberta Power Co. suffered a heavy loss early this week when the transformers at their Bull River plant were burned out. Temporary transformers have been arranged for and it is expected that the plant will be running again in a couple of weeks. The three transformers burned were worth about $35,000, but it is expected that the salvage will be about half that amount.—Fernie Free Press.

LARGER ACREAGE TO BE SEEDED THAN LAST YEAR ON PRAIRIES

WINNIPEG, April 25.—The second weekly crop report issued today by the Agricultural Department of the Canadian Pacific Railway shows a considerable increase in acreage.

Favored with a continuance of present weather, plowing and seeding will be general in all three provinces by May 1st. This date is somewhat later than was the case in Manitoba and Saskatchewan last year, but with the uniformity, excellent moisture and soil conditions obtaining germination and early growth should be unusually rapid with the advent of warm growing weather due at any time now. Reports of commencement of spring operations are becoming frequent and are being received from widely scattered districts.

The report shows that seeding this year, although slightly later than last year, is earlier than in 1920.

Cool weather is delaying arrival of new spring pasture which is proving a heavy drain on food supplies for live stock.

There is some difficulty in securing necessary help as the wages offered are only from twenty-five to fifty dollars per month.

Plans are under way for combatting the grasshopper pest, as the eggs of this insect have been found in abundance.

On the E.D. and B.C. Railway it is expected that the acreage under wheat will be increased at the expens of oats, as the low price of the latter is instrumental in persuading farmers to go more extensively into wheat growing. Conditions are backward in Briti hsColumbia, but prospects are good as the condition of the land and orchards generally is all that would be desired.

LENIENCY SHOWN WHEN SPEEDING AUTOIST GIVES GOOD REASON

Before Magistrate Leask on Monday, May 1st, Joe Campbell appeared on a charge of operating an automobile at a greater rate of speed than 15 miles an hour on a highway in the city of Cranbrook. Mr. Campbell explained that he was taking a man from Wasa to the St. Eugene hospital, and in his anxiety to secure medical attention for his friend may have overlooked the speed. His Worship, in find the accused guilty, said he was inclined to be lenient and would assess the accused costs of the court. This was also the first case of the season and His Worship let it be known that future offenders would be severely dealt with.

H. H. STEVENS WILL NOT PUSH MATTER OF LEADERSHIP IN B.C.

OTTAWA.—Hon. H. H. Stevens is very non-committal with regard to his attitude towards the opposition leadership in British Columbia. He has become a valued lieutenant of Rt. Hon. Arthur Meighen in opposition as he was when in power, and the latter would be very reluctant to see him desert federal politics. What is certain is that he would not allow himself to be considered a candidate for the leadership in British Columbia in opposition to Mr. W. J. Bowser so long as the latter remained actively in politics.

"It would be wholly improper for me to discuss the question of party leadership in British Columbia," said Hon. Mr. Stevens. "In view of the fact that a party convention will be held this coming summer, and in any case so long as Mr. Bowser is the constitutional leader of the party, I consider it inadvisable to express any opinion on the subject at all."

POULTRY MEN WOULD UNITE WITH FARMERS' ORGANIZATION

The B.C. Poultry Men's Association seeks to affiliate with the farmers' organizations. The enquiry has been answered with the statement that there are several farmers' associations in this province, with the added suggestion that an amalgamation of all the organizations might be prolific of better results. The poultry men, it is inferred, seek to do away with the middleman and deal directly with the market, thus reducing prices for the ultimate buyer, while giving the poulterer a little more profit and direct action.

HON. MRS. SMITH INVITED TO AID WOMEN OF EMPIRE

VICTORIA, April 26.—Inviting the Hon. Mrs. Mary Ellen Smith to become a sort of Joan of Arc for the whole Empire, many organizations composed of women are inviting her to visit distant parts. It is possible the lady member of parliament may visit the Antipodes, the South African Free State and other parts in the crusade of womanhood. She is invited to take part in hundreds of meetings. It is possible she may also visit England.

U.S. CAPITALISTS ENQUIRE ABOUT SMELTER OPPORTUNITY

Vancouver, pril 29.—From Spokane comes a letter addressed to the city hall asking if British Columbia presents any new opportunities for the smelter industry. A similar letter was recently addressed to the Minister of Mines. The writer states he visited B.C. several weeks ago, with several other mining and smelting men, and was much impressed with the vast prospects extended by this province for that line of industry.

ON QUALITY ONLY

While we are firm adherents to the principle of using made in British Columbia goods at all times, we don't solicit patronage for Pacific Milk on that basis, but because of its superiority over milk put up anywhere in Canada.

Pacific is rich in pure cream, due, of course, to the natural richness of the fresh milk, and our improved process of evaporation and canning retains the sweet fresh cream flavor. It is better for cooking and baking than fresh milk or cream.

(1) Mountain climbing in the Canadian Pacific Rockies. The season is just starting and enthusiasts are already making plans for the year's climbs. Most of the parties set out from Banff, facilities for climbing the mountains in that neighborhood offering special attractions to those who have learned the delights of that sport.

(2) During his recent tour of India the Prince of Wales was appointed to the colonelcy of six Indian regiments. This is the first published portrait of the Prince wearing the uniform of colonel-in-chief of these regiments.

(3) The beautiful Basilica of Ste. Anne de Beaupre, destroyed by fire last month, the loss amounting to $1,200,000. The building contained a famous relic of Ste. Anne which reposed in a goldim shrine, and a great number of crutches which had been left by pilgrims cured there. Both shrine and relic were saved. It is announced the building will be replaced by a still more imposing structure.

(4) A new portrait of Dr. Randall Davidson, Archbishop of Canterbury, the titular head of the Anglican communion. It was taken at the time of Princess Mary's wedding and shows his Grace wearing a cope as did the other bishops present at the ceremony.

(5) Fishing time is here again and the anglers, hearing the call, are already busy getting the tackle into shape. This picture, taken in the Laurentians where good sport abounds, is typical of scenes the coming month will see enacted in all the accessible fishing grounds of Canada where lovers of the sport will take their first outing of the year.

(6) A friendly little Genet or Civet Cat, one of the most popular inmates of London, England's great Zoo. He comes from southern Europe and in some parts of South France and Spain is a household pet whose talents as a rat and mouse catcher make him deservedly popular.

(7) The famous shrine and relic of Ste. Anne of Ste. Anne de Beaupre. The arm with the hand clasped in the attitude of blessing and the figures on either side are of gold, the arm being a little larger than life-size. Inside the arm and seen through a glass covering is the relic, a piece of one of the arm bones of Ste. Anne, the mother of the Virgin Mary.

"Built-in-Canada"

Studebaker

LIGHT-SIX
Five-passenger, 40 horsepower, 112-inch wheelbase
Non-skid Cord Tires, front and rear wheels

IT is no longer necessary to buy an expensive automobile in order to obtain the essentials and comforts of the costly car.

Studebaker has settled that. You can now buy a LIGHT-SIX for only $1495, f. o. b. Walkerville, Ont., and get a car that rivals the higher priced ones in every advantage that goes to make up permanent satisfaction.

You want a serviceable car. The LIGHT-SIX has a 40-horsepower motor which is powerful, flexible and is practically free from vibration because of Studebaker's method of machining the crankshaft and connecting rods.

You want good looks. You get good looks in the LIGHT-SIX.

You want a comfortable car. The LIGHT-SIX has a roomy, comfortable body, mounted on long, substantial, semi-elliptic springs; and deep, restful cushions upholstered in genuine leather.

You want service. The LIGHT-SIX is built complete in Studebaker plants. It is not an experiment. Thousands of owners have found it dependable in every kind of service.

And you want refinements. Standard equipment on the LIGHT-SIX includes cowl ventilator operated from the instrument board; cowl parking lights at base of the windshield; inside and outside door handles; large, rectangular plate glass window in rear curtain; ignition lock and a thief-proof transmission lock, reducing the rate of insurance to LIGHT-SIX owners 15 to 20 per cent; and cord tires.

You can pay more and not get the satisfaction the LIGHT-SIX will give. But you can't get, for the same price, a value that is even comparable to the LIGHT-SIX.

Studebaker has been building quality vehicles and selling them at fair prices for 70 years.

Touring, $1495; 3-Passenger Roadster, $1495; Coupe-Roadster, $1925; Sedan, $2425. All prices f. o. b. Walkerville, Ont.

Wilson's Vulcanizing Works
BAKER STREET - - CRANBROOK, B.C.

. Local News.

Mrs. McCartney, of Yahk, spent the week-end with her sister here, Mrs. Alex. Brogan.

—

The Methodist Ladies Aid will meet at the home of Mrs. W. H. Wilson on Tuesday afternoon, May 9th, at 3 o'clock.

—

Mr. J. P. Fink was the speaker on Tuesday at the weekly Rotary luncheon, taking "Carpets" as his topic for the brief address.

—

Miss Dorothy Mackey, for some time with the Bank of Commerce here, relinquished her connection with that institution at the end of last month.

—

Your contribution is money wisely invested in sane and practical world-betterment efforts, if given to the Salvation Army Self-Denial Fund.

—

Mrs. F. G. Morris and little one are leaving this week-end for a visit of two months or so at the home of her father at Sceptre, Sask.

—

C. Godderis, dairyman of this city, suffered a mishap one day this week while on his milk route, losing about $12 or $15 worth of bottles to say nothing of the milk they contained.

—

Mrs. Richard Jarvis, of Yahk, arrived in the city Friday last and attended the funeral of Mr. Geo. Shaw on Saturday, returning to her home on Sunday.

—

R. J. Binning returned to the city on Wednesday from Calgary where he attended the funeral of his sister-in-law who recently passed away at Boston, Mass.

—

If arrangements now pending are carried through, R. J. Binning with his family will shortly be moving to Barrie, Ontario, where he will still engage in the photographic business.

—

The regular monthly meeting of the city council will take place on Tuesday evening of next week, May 9th, at the city hall. At this time the matter o fthe projected city park being father by the Rotary Club, will be laid before the city council.

—

A meeting of baseball enthusiasts will be held on Monday evening of next week in Delany & Sinclair's store Baker Street, when the formation of a city baseball league will be discussed. All interested in sport on the diamond should make a point to be present.

—

Mrs. J. M. Robertson returned this week to the city after having been called to Moose Jaw, Sask., by the death of her mother. To Mrs. Robertson fell the sad task of accompanying the remains back to Fort Elgin, Ontario. Mrs. Malcolm Horle of this city is another of the bereaved daughters in the family.

—

Work has been proceeding steadily on the improvements at the reservoir, in accordance with the by-law recently voted for that purpose. Construction of the second dam back in the narrows from the present reservoir has been completed, a concrete structure having been put in that can be converted to a dam of a permanent nature by adding to its height. A concrete intake has also been put in, the pipe from which will join the intake in the old reservoir.

—

The Oddfellows are getting plans drawn for alterations to the Auditorium that will change the entrance end of the building to conform properly with the fire regulations of the city, and at the same time provide a commodious lodge room in the space occupied by the present balcony. It is proposed at the present time to spend about $3,000 to include this work and other improvements to the hall, including work on the foundation, the dressing rooms and stage, and redecorating.

—

Miss Z. M. Birkett, of this city, sister of Mrs. T. M. Roberts, left this week for Calgary, where her marriage will take place at the home of another sister, to Mr. S. S. Rumsay, formerly of this city, but now of Lethbridge, where he is with the C.P.R. Before leaving the city Miss Birkett was entertained by a number of friends, Mrs. C. J. Little giving a shower for the bride-to-be, and Mrs. H. B. Hicks and Mrs. W. R. Grubbe also entertaining in her honor.

—

A case in connection with the cemetery which ought to be looked into if possible, and the offenders warned against its recurrence, came to light last week-end, and caused some pain to those upon whom it was perpetrated. Following a funeral at which some beautiful floral offerings were in evidence, it was the expressed desire of the bereaved that a photograph be taken of the newly made grave heaped up with the flowers. When the time came to get the pictures, however, it was found that many of the choicest flowers had been removed, and wild crocuses substituted in their place, taking away, of course, much of the original beauty. Some effort ought to be made to protect the cemetery from such sacrilegious inroads as this, from whatever motive the offenders acted.

The Right Time All the Time

The first purpose of any clock is to keep time accurately. But, how many of the clocks in your home are dependable? How many of them tell you the right time all the time?

Seth Thomas Clocks are built for accuracy from day to day and from year to year. They are handsome and flawlessly finished—but, first of all, they are time-keepers.

Let us show you Seth Thomas Clocks

Jeweler

Mr. and Mrs. E. A. Hill are spending a few days in Nelson this week.

—

Give to the Salvation Army during Self-Denial week. "The Army of the helping hand both in war and in peace."

—

Mrs. George Shaw and family, and Mrs. J. Harrison, of Yahk, were guests of Mrs. A. J. Ratcliffe, Garden Avenue, during their stay in the city.

—

A. L. McLatchie, representing the Protective Association of Canada, has been paying one of his periodical visits to the city this week.

—

Spring has come, in case no one knew by any other sign, the fountain outside the post office having made its appearance for the summer this week.

—

F. W. Burgess and A. S. Ward are two of the latest in and around the city to become automobile owners, and will soon be seen at the steering wheels of their cars.

—

John Cholditch has given a contract to Ross Carr for interior decoration work on the block at the corner of Baker Street and Cranbrook Street, occupied by Moffatt's Variety Store, Joe Marapodi, Arthur Bullock, and others.

—

Mr. S. Hembry suffered an attack of heart trouble early Tuesday morning that required medical attention, at has since been on the mend. The condition of Mrs. Hembry, whom has been seriously ill for some little time past, still remains unchanged.

—

An Illustrated Lecture under the auspices of the Woman's Mission Circle will be given in the Baptist Church next Thursday , May 11th, at 8 p.m. Forty-five slides representing native life and missionary scenes in India will be thrown on the canvas in illustration of the lecture. Collection for Missions. Come, see, hear and be interested.

—

Mr. Walter Bews, of Revelstoke, was a visitor in this city at the beginning of the week. As the provincial Prior for the Kootenay District, Mr. Bews is on the annual tour of the district and was entertained on Monday evening at a session of Selkirk Preceptory. Being mayor of his home city, Mr. Bews also took advantage of the occasion to visit at the city hall, making the acquaintance of the city officials, inspecting the fire department, and otherwise interesting himself in civic affairs here.

—

During Premier Oliver's visit to the city it would be in order for some one close in the party councils to ask a few pertinent questions as to the reasons held to be sufficiently grave to remove from office on one day's notice, and that by wire, an official of the government who enjoyed respect far and wide, and had the confidence of the people of the district in a measure which only continued years of residence and interest in the place can cultivate, and sterling service hold. Furthermore, why it is that the government will answer no communications with the person in question on thesubject. Is it a fit termination for eighteen years' of public service? If there is an offence, why not let the people know it, and satisfy their enquiries? Premier Oliver is interested enough in the workings of the liquor store here to inquire into its progress and business, why not in other matters of the public interest?

J. W. Carlson, storekeeper and postmaster of Wasa, was in the city on Tuesday on business.

—

Members of Cranbrook Lodge, No. 34, A.F. and A.M., will attend divine service in a body on Sunday morning next, May 7th, at the Presbyterian Church.

—

Mr. and Mrs. McLean are holdaying for a couple of weeks or so at the Coast but will be returning shortly when Mr. MacLean resumes work at the commercial telegraph office after his holiday.

—

A. K. Leitch of Jaffray was in the city today, and reports the East Kootenay Lumber Company moving out their last season's cut pretty steadily. The mill at Wardner started up a week or so ago, and the Lovering mill at Wasa was due to open up this week for the summer. While wages being paid at the mills this season are not high compared with other years, the rate seems generally in keeping with that obtaining on the prairies for farm work at this time.
