Gov't Library

The Mining Review.

VOL. 5.—NO. 51. 52 SANDON, B. C., SATURDAY, JUNE 14, 1902. $2.00 PER YEAR.

Town Jottings.

John Docksteader was in the city this week insuring.

The Rev. Mr. White, of Nelson, was in the city Monday.

Mr. and Mrs. Thos. Jalland are in the city visiting friends.

The C. P. R. summer service will commence tomorrow.

The K. & S. Company are putting in new ties on the track within the city.

E. A. Brown is spending this week in the Boundary district surveying the outlook.

J. M. Harris left on Monday for an extended visit of several weeks at his old home in Virginia.

Mr. Chas. Culver is going over to the Rambler shortly to take charge of the mill there for a time.

J. S. Carter, C. P. R. travelling passenger agent, was a caller at the Mining Review office this week.

Geo. B. McDonald continues under the doctor's care, but no serious turn in his ailment is looked for.

The new bunkhouses, stables and stores at Power's camp in McGuigan basin are just about completed.

Dr. Hendryx is expected here by the first of July, when the season's work at the Last Chance will be mapped out.

Mr. Tattrie and Mr. McLeod left on Tuesday's train to see if they can pick up suitable farm land in the Okanagan country.

A poor fellow with both of his legs taken off just below the knees, has been in town for some days selling shoe laces for a living.

If any of the mine owners have work to let by contract, they can hear o parties willing to undertake it by applying to the Mining Review.

The Rev. Mr. Purdy, who used to preach in the Presbyterian here, is now "spelling" the church at Rossland, while the regular minister is visiting.

The bachelor ladies are getting up a coronation dance, which will be held on Thursday evening, June 26th. Tickets are $2, including a good supper.

R. F. Green, the opposition whip in the legislature, was presented with a gold watch and chain the other day, for his services to the opposition, as whip.

We have the necessary blanks at the Review office, if there are any parties within reach who want to get onto the provincial voters' list for next elections.

A. R. Heyland left on Wednesday for Cariboo Creek to do surveying on the Chieftan group, which is owned by P. Burns, of Calgary, and Geo. Clark, of this city.

The Sandon Forwarding Company brought in 24 head of mules by train from the Okanagan on Monday. Most of them will now go into the packing business.

It will cost the city at least $150 to $200 to pay the damage done the Minnesota Silver Company's flume. So much for self-will, which with some members of the council supercedes law.

Nakusp is built on an ancient glacial morraine. L. McNaught, of Halcyon Springs, expresses the opinion that this morraine is to geologists one of the most interesting features of glacial history.

John Gable who has been with J. M. Harris for well on to six years, has quit the town, and gone to the Rambler mine to take charge of all timbering operations. Mr. Gable is a steady, capable man, respected highly by all classes, and his loss will be felt in many ways, in musical circles among the others.

J. J. Devanport, of Spokane, who was an owner in Slocan mining properties in the early days, was in the city this week observing the changes in the interval. He was connected with the Dardanelles and Fisher Maiden when they were first opened up. He still holds several interests around Sandon that are likely to pay him well.

There is a feeling there may be an interesting legal case shortly in regard to the Silver Bell. Nels Nelson who was, and still claims to be, part owner, was arrested in Kaslo last week as being of unsound mind. If it is proved that he is insane and that he was in that condition when the judgment sale of the Silver Bell took place, it will be a case for litigation.

Hill Bros. who sold out their sawmills near Rosebery a few weeks ago, were the pioneers in this district, and many of the old-timers are under a debt of gratitude to them for favors in times of need. They are first-class men in all respects, and it is to be hoped they will take up some other enterprise in the Slocan to keep them here, as the district cannot well afford to lose them.

P. J. Hickey has men at work rebuilding the flume within the city's flume torn out some days ago by order of the city council. If the council had power to tear it out then, they have the power to prevent rebuilding now, which they are not exercising. The fact is they know now they exceeded their authority then, and for which the taxpayers will yet have to pay the piper, but it is "bucking the council" for this paper to say so.

A wealthy citizen of San Francisco had occasion to call a friend by telephone, and was greatly taken with the sweet and gentle voice of the girl, who was on that line at central just then. He took the trouble to find her out, saw that she was as sweet as her voice. He proposed, was accepted, and she is now going for a wedding trip to Europe with her husband. Now then, hello girls, spend your spare cash in voice culture and always sing your sweetest when the male voices wobble the wire.

Mining at the Ruth.

The Ruth mine is in a good position for working on a large scale. The mill is working with five men, and is in excellent running shape. The bunkhouses have been overhauled. The road to the lower tunnel is finished and is ready for traffic. The Hope, one of the group, has been under steady development all last winter with a small force, and when rawhiding started ore was shipped. Since the mine started up a staff of probably 40 men have been employed in and around the mine. It is expected that considerable of the ore on the Ruth dump will be put through the concentrator. So far no shipments have been made since started. The payroll will likely be increased in time, as stoping was commenced this week, which looks like as if shipments were to commence shortly. Different reports in the different newspapers speak well of the Hope's showings, from a prospect worked in recent years. At the present time in the tunnel there is a fine showing of carbonates, from a strike reported last fall. Operations at this property were commed the last of May.

Ten Inches Ore Struck at Monitor.

The last strike at the Monitor, to which we alluded to last week, is very significent. It occurred in a crosscut to No. 5, the lowest tunnel, 20 feet above the C. P. R. track. The strike consists of 10 inches of clean ore, equaling in value the best product in the mine, which is saying a great deal. At this point the ledge was reached 408 feet from the mouth of the crosscut, of 220 feet. This is another assurance for the Slocan values improve with depth.

Hotel Reco Arrivals.

D. P. Kane, H. Giegerich, S. Keeling, A. B. Anderson, A. R. Heyland, Kaslo; E. C. Bremner, St. Paul; W. M. Holden, Portland; H. White, J. B. Choate, J. S. Carter, V. H. Cass, Nelson; W. M. Trout, J. J. Devanport, T. Thwaite, Spokane; D. Bremner, L. Alexander, New Denver.

Sandon Ore Shipments.

The following are the ore shipments from Sandon for the week:

Mine.	Tons.
Payne	120
Slocan Star	90
American Boy	60
Total	270

The miners gave a dance in their hall on Thursday for the benefit of the Fernie sufferers. The receipts from Sandon will help matters out some.

Mines and Mining.

The Reco mine is packing down ore for shipment.

The Wakefield has resumed operations with a force of 15 men.

Arrangements are being made to work the Capella during the summer.

The Last Chance will put 50 men to work about first of July.

John Valance is working the Boulette group of claims up the North Fork.

J. C. Ryan has purchased a half interest in the Silver Bell, Little Bell Fraction and Hub from Pat McCue.

The electric light plant at the Rambler is being put in shape for use. Light will be generated to the concentrator, bunkhouses and office.

Geo. Petty is packing supplies up to the Bachelor group on North Fork. Extensive development will be done on these claims this summer.

The Lenora, a claim situated near the Blue Bell, will be developed this summer. A small force of men will be put to work.

F. L. Christie and associates have three men at work on the Slocan Queen above the Slocan Star and adjoining it. The indications are said to be quite promising.

The workings of the Ivanhoe are all looking well, and a little ore is taken out in the upraises and development, but general stoping cannot be undertaken with prices so low and expenses as high as they are.

Nothing new is the report of the Slocan Star this week. A little development is now under way, but the property is in fine form to ship heavily if all conditions were suitable. An office will be erected at the concentrator, the lumber is being teamed to the mine. There are 25 men on the payroll.

Sluicing at the Wonderful.

W. W. Warner is at present taking out a large lot of surface ore at the Wonderful, sluicing. This surface ore extends from 15 to 35 feet deep, showing that depth of wash since the cropping was deposited. The ledges carry great bodies of concentrating ore that cannot well be mined without a mill in these days of low prices.

Joe Joe on the North Fork.

The Joe Joe group, a North Fork property, has commenced development work this week. Considerable work has been done on this property so far. Trial shipments were sent out some two years ago and netted good returns. The owners of this property are Dr. Hendryx and Thos. Trenarey, the doctor having secured his interest over a year ago.

The Mining Review.

SATURDAY, JUNE 14, 1902.

CHANGE CONDITIONS.

In the Slocan the present is a period of great uncertainty, hope and fear, about equally balanced, being the chief pulsations of the community. There are many who believe we are on the eve of an improvement in the conditions of the last 18 months or more, and there are others again who confess they cannot see the day breaking in any direction. Some seem buoyed with the hope the American Smelter Trust is soon to take a hand in the business affairs to break the monotony; but we must confess we can see but little in this. The heavy duties against Canadian lead entering the United States for consumption practically shuts out hope from that quarter, and with refining begun in Canada, the trust can do but little for us smelting and refining in bond, as they could only then give us the markets to which we have now free and equal access. Besides this again, it is the belief of most people that if the trust did make offers for our minerals, it would be for a term of years, which would debar us from any advances that might take pace in foreign markets during the currency of our contracts, which might leave our last condition worse than our first.

It appears to us the only thing for our producers to, is as far as possible, so arrange conditions that our average mine can ship at a moderate profit, say one with 60 ozs. of silver and 65 per cent lead. If wages, machinery and other supplies, freight and treatment, and government demands, were at such prices that such a property, with silver at 52 and lead at $1.40 could pay a moderate profit, the whole question would be solved. The mine of lower values, except where very favorably situated, would, of course, have to discontinue business, while all others, which would constitute a sufficient number to give renewed life to the country, would be making interest at different rates. Where wages might be affected to bring about such conditions, they should be raised when prices improved, which is the rule with the labor market the world over. Of course, such a stand would run foul of the opposition of certain interests, but no reform for the betterment of humanity was ever made that did not encounter opposition in some quarters. We are speaking now, not for the capitalist or the laborer, but for the country as a whole. It was lines like these that Mr. Chris. Foley recommended when he was here, and in simply extending his position, we cannot be accused of unfair dealing.

MIRROR, SCALES, ETC.

There was a man. And his mirror said "sallow skin." And the scales said "losing weight." And his friends did wag their heads as he passed by. But being a prudent man he forthwith swallowed daily certain pleasant doses of Scott's Emulsion.

Then his mirror said "ruddy face." And the scales sunk beneath his weight. And his friends looked upon him with amaze.

(NOTE.—This is no fable—but is true history),

We'll send you a little to try, if you like.
SCOTT & BOWNE, Chemists, Toronto

It looks now as if the government was going to do what this paper has for a long time contended it should do—remove the two per cent. mineral tax. In the House last week Minister of Mines Prior acknowledged it bore heavily on some mines, and a commission would be appointed to look into the matter fully. No one will deny what some of the House have frequently said that in paying this tax many properties were not paying a higher rate, value of property considered, than were farm lands or business properties; but this is not the point. Every interest of the country is lagging because mining is not progressing as it should. The removal of this tax is not then more to enable the owners to make a little money than it is to give new life to all the other industries and business interests of the country. The proper thing for the government to do, when the prices of minerals are as low, as they are, is to exempt the mines from taxation altogether, timber dues and the like until they get well on their feet, barring a moderate rate on unworked crown granted properties, and let the farmers, the minor industries and the business people who profit by the mines working, pay a little more into the provincial treasury. We are quite satisfied no one in any of these three interests would complain of a little more taxation, if he only had a good business; and that can only be secured by improving the mining conditions. Scores of men, we can badly afford to lose, are leaving these parts every week because of lack of that employment they would be sure to get at home, if only the mines were working. By all means put the mines on their feet, and any loss that might be incurred thereby in the shape of provincial revenue, will be more than fully made up by the new life instilled into other interests.

Fantastic stories have been written of magic mirrors in which the future was revealed. If such a thing were possible many a bright-faced bride would shrink from the revelation of herself, stripped of all her loveliness. If there is one thing which would make a woman shrink from marriage it is to see the rapid physical deterioration which comes to so many wives. The cause is generally due to womanly diseases.

Lost health and lost comeliness are restored by the use of Dr. Pierce's Favorite Prescription. It cures irregularity and dries weakening drains. It heals inflammation and ulceration, and cures female weakness.

"It is with the greatest pleasure that I tell you what Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery' have done for me," writes Mrs. Emma L. Bankes, of 1952 North 7th Street, Harrisburg, Pa. "They have done me a world of good. I had female weakness for six years; sometimes would feel so badly I did not know what to do, but I found relief at last, thanks to Dr. Pierce for his kind advice. I have this medicine still in my house and will always keep it."

If you are led to the purchase of "Favorite Prescription" because of its remarkable cures of other women, do not accept a substitute which has none of these cures to its credit.

Free. Dr. Pierce's Medical Adviser, paper covers, is sent *free* on receipt of 31 one-cent stamps to pay expense of customs and mailing *only*. Or for cloth-bound volume send 50 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

Another dollar of insurance cannot be got in the place, which is a grand inducement for prospective business places when the mining interests revive as they will shortly, some of the few risks now in force are threatened with withdrawal, and all because we have no fire protection. There is in the place an efficient system, but it will not be employed to give service because some of the council have "a fight on" with some of the members of the Water Company. Of course to gratify this fight feeling the city and the business people must suffer, perhaps lose all they have again. Some of the members of the Water Co. owe taxes, and the city owes them water rates. Meetings have been called to adjust the differences, but we are informed the members of the council chosen to attend them never put in an appearance. To settle all, the council is becoming a cat's paw in the hands of some one else, for further fighting purposes threatening a new system, without a dollar in the treasury, and owing heavily to the sinking fund and other past due accounts. This paper has pointed out the fallacy of all this, and for its pains, it is deprived of any share of the city printing, though a contract-in-law has been made with us. We are accused in turn of "bucking the city;" but we ask the property holders in all fairness who is doing the bucking? This paper or the city council? If a fire takes place, and no water, all will know, aldermen included, who has been bucking.

NOTICE.

Notice is hereby given that 30 days from date I intend to apply to the Honorable Chief Commissioner of Lands and Works, Victoria, B. C., for a special license to cut and carry away timber from the following described lands: 1st, commencing at a post marked J. H. Lavelley's north-west corner post, situated near the mouth of the West Fork of Wilson Creek, thence east 80 chains, thence south 80 chains, thence west 80 chains, thence north 80 chains to place of beginning, containing 640 acres. Dated this 14th day of May, 1902.

J. H. LAVELLEY.

2nd. Commencing at a post marked J. H. Lavelley's north-west corner post, situated on the north side of the west fork of Wilson Creek, about four miles from the forks, thence east 80 chains, thence south 80 chains, thence west 80 chains, thence north 80 chains to place of beginning, containing 640 acres.
Dated this 14th day of May, 1902.

J. H. LAVELLEY.

NOTICE.

Notice is hereby given that 30 days from date I intend to apply to the Honorable Chief Commissioner of Lands and Works, at Victoria, B. C., for a special license to cut and carry away timber from the following described lands: 1st, commencing at a post marked Thos. Chew's north-east corner post, situated on the north side of the West Fork of Wilson Creek, near A. McPherson's north-west post, of second notice of application, thence south 40 chains, thence west 160 chains, thence north 40 chains, thence east 160 chains to place of beginning, containing 640 acres.
Dated this 16th day of May 1902.

THOS. CHEW.

2nd. Commencing at a post marked Thos. Chew's north-east post, situated on the north side of the West Fork of Wilson Creek, about 12 miles from the forks, thence south 80 chains, thence west 80 chains, thence north 80 chains, thence east 80 chains to place of beginning, containing 640 acres.
Dated this 16th day of May, 1902.

THOS. CHEW.

NOTICE.

Notice is hereby given that 30 days from date I intend to apply to the Honorable Chief Commissioner of Lands and Works, at Victoria, B. C., for a special license to cut and carry away timber from the following described lands: 1st, commencing at a post marked A. McPherson's north-east post, situated near J. H. Lavelley's north-west post, of application No. 2, thence south 40 chains, thence west 160 chains, thence north 40 chains, thence east 160 chains to place of beginning, containing 640 acres.
Dated this 15th day of May, 1902.

A. McPHERSON.

2nd. Commencing at a post marked A. McPherson's north-west post, situated on the north side of the West Fork of Wilson Creek, about eight miles from the forks, thence east 80 chains, thence south 80 chains, thence west 80 chains, thence north 80 chains to place of beginning, containing 640 acres.
Dated this 15th day of May, 1902.

A. McPHERSON.

NOTICE.

Notice is hereby given that 30 days from date I intend to apply to the Honorable Chief Commissioner of Lands and Works, at Victoria, B. C., for a special license to cut and carry away timber from the following described lands: 1st, commencing at a post marked Geo. Chew's south-east post, situated on the south side of the west branch of Wilson Creek, about 14 miles from the forks, thence west 80 chains, thence north 80 chains, thence east 80 chains, thence south 80 chains to place of beginning, containing 640 acres.
Dated this 19th day of May, 1902.

GEO. CHEW.

The Canadian Northwest

HOMESTEAD

REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or Northwest Territories, excepting 8 and 26, which has not been homesteaded, reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years, to the extent of one quarter section of 160 acres, more or less.

ENTRY.

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the Local Agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for ordinary homestead entry.

HOMESTEAD DUTIES.

Under the present law homestead duties must be formed in one of the following ways, namely:

(1) By at least six months, residence upon and cultivation of the land in each year during the term of three years;

(2) If the father or the mother (if the father is deceased) or any person who is eligible to make a homestead entry, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the law as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his first homestead, on a certificate for the issue of such patent countersigned in the manner prescribed in the Dominion Lands Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence on the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the law as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENTS.

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homstead Inspector. Before making application for the patent the settler must give six month's notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION.

New-arrived immigrants will receive at the Immigration Office at Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them; and full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia may be obtained upon application to the Secretary at the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

JAMES A. SMART,

Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad or any other corporations and private firms in Western Canada.

Figures Talk.

The fifth annual meeting of the shareholders of the Crow's Nest Pass Coal Company was held in Toronto on March 7th.

The net profit of the year after paying all operation expenses and all charge of every kind amounted to $207.848.39. After paying a dividend at the rate of 10 per cent per annum, a balance of $28.-142.89 was carried forward to the credit of profit and loss.

This company's assets are their coal mines and the townsite of Fernie. Four years ago this company had no transportation facilities, and their stock sold as low as 11 cents per share. Today their stock is selling at $90.

The Similkameen Valley Coal Company, Limited, assets are coal mines, timber, water power, agricultural and horticultural land, city water works, electric light plant, and the townsite of Ashnola, surrounded by the following resources:—Gold, copper, silver, lead, iron, lime, fire clay, platinum, and a fine stock raising country, and it is the smelter centre of the Similkameen valley with a climate all that could be asked. Today you can secure an option on this company's stock by paying 10 cents per share down and 10 cents per month until fully paid, with non-forfeiture clause. This price is subject to a 25-cent advance without notice, as soon as transportation is assured. The present price is $1.10 per share. Do not wait until it is too late, but get in on the ground floor and make a handsome profit. A purchaser of 100 shares now, may gain a profit of $8.990. Crow's Nest shares as an example. This would be a fair profit on an investment of $10 per month for 11 months. We invite the fullest inspection of the company's affairs by intending purchasers. For further information apply to the Similkameen Valley Coal Company, Limited, Head Office Nelson, B. C.; Room "A," K.W.C. block, Baker st., Nelson, B.C.

Your Clothes Are Old...

Then why not get the best to be had in the country for the money. An immense stock of the best goods and latest patterns now on hand. You will be convinced by calling on

J. R. CAMERON, Sandon, The Leading Merchant Tailor in the Kootenay Country

NOTICE.

To John H. Gray and to any and all others to whom he may have transferred his interest in the Pansy and Violet mineral claims situated on Payne mountain, in the Slocan Mining Division of West Kootenay District, British Columbia:

Take notice that I, D. E. Sprague, a co-owner in each of the said Pansy and Violet mineral claims, have expended $102.50 in doing and having recorded the annual assessment work on the said Pansy mineral claim for the year ending July 29th, 1901, as required by section 24 of the Mineral Act, and $102.50 in doing and having recorded the annual assessment work on the said Violet mineral claim for the year ending August 9th, 1901, as required by section 24 of the Mineral Act, and that if within ninety days from the date of the first publication of this notice you fail or refuse to contribute your proportion of the said expenditure, being one-eighth of the amount expended in respect of each of the said mineral claims, amounting to $12.80 in respect of each of said claims, together with all costs of advertising, your interest in the said claims will become vested in me the undersigned, under the provisions of section 4 of the "Mineral Act, Amendment Act, 1900."

The address for payment of the said moneys to me the said D. E. Sprague is, care of McAnn & Mackay, Barristers, Kaslo, B. C.

Dated the 11th day of March, 1902.

D. E. SPRAGUE.

Certificate of Improvements.

NOTICE.

IRELAND Mineral Claim, situate in the Slocan Mining Division of West Kootenay District. Where located: On Tributary creek, adjoining Minnie Ha Ha, above Sandon.

Take notice that I, A. R. Heyland, of Kaslo, B. C., as agent for George Kydd, of Nelson, B. C., Free Miner's Certificate No. 50150, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 87, must be commenced before the issuance of such Certificate of Improvements.

Dated this 7th day of May, 1902.

WEST BAKER STREET, NELSON, B.C.

LUMBER

Having purchased and taken over Hill Bros. Mill, Lumber and Timber Limits for an Eastern syndicate, we wish to say to all who require timber or lumber, mouldings, casings, etc., that we have on hand a quantity of good seasoned material, and we are prepared to cut to order any bills that may be required on the shortest notice possible. We hope by strict attention to business and fair dealing to be able to satisfy the requirements of this district. Trusting that we may be favored with your patronage, I am, yours truly,

W. B. STRATHEARN, Manager.

Here and There.

It has been reported in a few quarters the American Smelting Trust has advanced an offer to close a five years contract with the silver mine operators on the American side for their silver values at 60 cents per ounce, with no limitation in the output. If this has a trace of truth in it, the trust manipulators must anticipate a rise in the price of the white metal. We hope there is a semblance of truth in the report as it would materially help the Slocan, but somehow or other these reports creep in and give a momentary bouyancy to the country at large.

The Montreal Star of the 31st inst in referring to the veterans in the field of Canadian sports devotes quite a space to, and gives a good likeness of, George Ransom, accountant of the Payne mine here. We reproduce the sketch, viz: Mr. George F. Ransom is a life member of the M. A. A. A. and another one of the youthful veterans in the field of sports, in which the present abounds. He was from quarter mile to long distance cross country runner on snowshoes, 1891 to 1895, and a winner of the Club Cup. He played centre forward in the M. A. A. A. water polo team 1894-95, and was also winner in several swimming races. He was captain and secretary St. Anne's Boating Club, 1894-5, and of the war canoe, winning the championship (paddling). He was secretary of the M. A. A. A. bowling department for a while, and had a single string record of 288 out of 300. He played football (Montreal) in 1896. His heart is still with Montreal, although in British Columbia, mining. He is curing at present.

FOR OVER FIFTY YEARS.

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children when teething. If disturbed at night and broken in your rest by a sick child, suffering and crying with pain of cutting teeth. Send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for children teething. It will relieve the poor, little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cured diarrhoea, regulates the stomach and bowels, cures Wind Colic, softens the gums and reduced Inflammation, and gives tone and energy to the system "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price 25c. a bottle. Sold by all druggists throughout the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup."

Certificate of Improvements.

NOTICE.

GRACIE, MINNIE, LITTLE ESTELLA FRACTION AND TORNADO Mineral Claims, situate in the Slocan Mining Division of West Kootenay District.

Where located: About two miles south west of Sandon.

Take notice that the Selkirk Mining and Milling Company, Limited Liability, Free Miner's Certificate No. B 52336, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of each of the above claims.

And further take notice that action, under section 37, must be commenced before the issuance of such Certificate of Improvements.

Dated this 26th day of May, A. D. 1902.

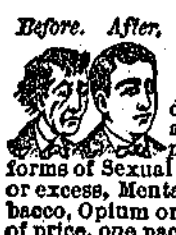
The Mining Review.

SATURDAY, JUNE 14, 1902.

There are to be found in this country, but more especially in the mining districts, all classes and conditions of men, the one extreme being as sensible and as whole souled a lot as are to be found under the sun, and the other the worst of anarchists. It is much to be regretted that a section of our press and business men so prostitute the end of justice as to cater to the wiles of the latter for the few dollars that may be made out of their immediate business. This class of people think that justice can only be measured out to capitalists when their possessions are subjected to the worst forms of pillage and plunder and all men are brought down to the same level. Instead of clapping such men on the shoulders for the immediate dollar made out of them, how much better it would be for the section of the press and the business men referred to to show these people their mistake, that no country can prosper where capital and labor are not conceded equal rights and are equally protected. If these people could get neither the press nor the people to endorse their pecularity a change for the better would be sure to follow; they would at length be brought to the conviction there was something wrong in their radical opinions, and a change for the better would result.

What opaque skulls some people have anyway! The gulchite says that if the single tax was in force in Sandon the business men would not be compelled to pay out all their profits for ground rent. In the single tax, as Henry George defined it, and, of course, no one is responsible for the way irresponsible fledgelings define it, the taxes would be graded according to the value of the business transacted on the lots. The best business lots would then pay the highest taxes of the landlord, and raise the rents of the tenant. It does not require even one ounce of brains to understand this.



Wood's Phosphodine,

The Great English Remedy. Sold and recommended by all druggists in Canada. Only reliable medicine discovered. *Six packages guaranteed* to cure all forms of Sexual Weakness, all effects of abuse or excess, Mental Worry, Excessive use of Tobacco, Opium or Stimulants. The rooms are well furnished.
The bar is stocked with best wines liquors and cigars.

IT'S BUSINESS

To be well dressed. To know that you are dressed in a smart, stylish suit gives you confidence in yourself and enables you to better transact your business.

Our big business has been built up on HIGH CLASS CLOTHING, the BEST BOOTS AND SHOES men can manufacture. In our buying for spring our aim was to have the best $15.00 suits ever offered, and we have them. Your tailor will ask you $30.00 or $35.00 for the same suits, and you cannot buy them ready to wear elsewhere at any price.

WHY?

Because we buy direct from the mills in England and Scotland and manufacture all our clothing—spent thirty years in learning how.

We have everything that a man or boy wants to wear from the sole of the foot to the crown of the head.

A carload of Trunks and Valises just arrived—values; call and see. Prices to suit all.

Dominion of Canada.

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the North-West Territories, and the Yukon Territory.

COAL.

Coal lands may be purchased at $10.00 per acre for soft coal, and $20.00 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at such rates as may from time to time be specified by order in council shall be collected on the gross output.

QUARTZ.

Persons of eighteen years and over and joint stock companies holding free miner's certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $10.00 per annum for an individual, and from $50.00 to $100.00 per annum for a company, according to capital.

A free miner having discovered mineral in place may locate a claim 150 x 1500 feet by marking out the same with two legal posts, bearing location notices, one at each end on the line of the lode or vein.

The claim shall be recorded within fifteen days days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5.00.

At least $100.00 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500.00 has been expended or paid the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory of an area not exceeding 100 acres

The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

PLACER MINING, MANITOBA, AND THE N. W. T., EXCEPTING THE YUKON TERRITORY.

Placer mining claims generally are 100 feet square; entry fee $5.00 renewable yearly. On the North Saskatchewan river claims are either bar or bench, the former being 100 feet long and extending between high and low water mark. The latter includes bar diggins, but extends back to the base of the hill or bank, but not exceeding 1,000 feet. Where steam power is used, claims 200 feet wide may be obtained.

DREDGING IN THE RIVERS OF MANITOBA AND THE N. W. T., EXCEPTING THE YUKON TERRITORY.

A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have, or who may receive entries for bar diggings or bench claims, except on the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental $10.00 per annum for each mile of river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds $10,000.00.

DREDGING IN THE YUKON TERRITORY.

Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental, $100.00 per mile for first year, and $10.00 per mile for each subsequent year. Royalty, ten per cent on the output in excess of $15,000.00.

PLACER MINING IN THE YUKON TERRITORY.

Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being from 1,000 to 2,000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days if the claim is within ten miles of mining recorder's office. One extra day allowed for each additional ten miles or fraction.

The person or company staking a claim, and each person in his or its employment, except house servants, must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim 1,000 feet in length, and if the party consist of two, 1,500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee is $15.00. Royalty at the rate of five per cent charged on the gross output of the claim, with the exception of an annual exemption of $5,000.00, any number of claims by purchase, and free miners, not exceeding ten in number, may work their claims in partnership, by filing notice and paying fee of $2.00. A claim may be abandoned and another obtained on the same creek, gulch or river, by giving notice and paying fee.

Work must be done on a claim each year to the value of at least $200.00, or in lieu of work payment may be made to the mining recorder each year for the first three years of $200.00 and after that $400.00 for each year.

A certificate that work has been done or fee paid must be obtained each year; if not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made, and publishing notices in the Yukon Official Gazette.

HYDRAULIC MINING, YUKON TERRITORY.

Locations suitable for hydraulic mining, having a frontage of from one to five miles, and a depth of one mile or more may be leased for twenty years, providing the ground has been prospected by the applicant or his agent; is found to be unsuitable for placer mining: and does not include within its boundaries any mining claims already granted. A rental of $150.00 for each mile of frontage, and a royalty of five per cent on the gross output, less an annual exemption of $25,000, are charged. Operations must be commenced within one year from the date of the lease, and not less than $5,000.00 must be expended annually. The lease excludes all base metals, quartz and coal, and provides for the withdrawal of unoperated land for agricultural or building purposes.

PETROLEUM.

Al unappropriated Dominion lands shall, after the first of July, 1901, be open to prospecting for petroleum. Should the prospector discover oil in paying quantities he may acquire 640 of available land, including and surrounding his discovery, at the rate of $1.00 an acre, subject to royalty at such rate as may be specified by order in council.

Three Forks Items.

M. Gintzburger, manager of the Monitor, has returned from his trip to the coast.

Hugh Niven, of the Miners' Exchange hotel at Three Forks, has purchased the Hotel Slocan from Arthur Mullen of that place. The hotel has been renovated, and the rooms, table and bar are strictly up to date. A fair share of the patronage is solicited.

A miner named Joseph Fortin, who had been working at the Monitor, died suddenly at Three Forks on Sunday last. As a consequence of his sudden death, some considered an inquest advisable, which was held before Coroner Lilly on Monday. It was then learned he died of natural causes of heart failure. He was buried by the Sandon Miners' union.

Albert Preston, a well known prospector who has made Three Forks his headquarters for some time, was brought to Nelson yesterday afternoon by Constable Black, of New Denver, charged with insanity. Since his arrest Preston has betrayed symptons of lunacy, but he is not violent, and is not unlikely that a period of treatment in the asylum at New Westminster might effect his cure. He will be brought before Magistrate Crease for examination.—Nelson News.

Blue Bird Bonded.

A number of Spokane men have taken a bond on the Blue Bird, which property adjoins the Reco and Goodenough mines. The bond has been under consideration for some time. It is one of the first claims located in the district. It was bonded over a year ago to Scott McDonald, who died three weeks later. Since then the property has remained idle. Prior to bonding the property to Scott McDonald it was operated by the Blue Bird Mining Company. About $50,000 worth of ore has been taken from this property. It is a silver lead proposition. E. M. Sandilands, who has charge of the work, will start up with a few men. About the 15th of next month some of the new management are expected here to look over the Blue Bird.

Alta Lodge, No. 29.

A. F. AND A. M.

Regular Communication of the lodge. Meets first Thursday in each month at 8 p. m. Visiting brethren cordially invited.
