To Give Gov.-Gen. Address

Official Reception Will Take Place at Gov't Building, It is Decided

TO DECORATE CITY

At a meeting on Monday night called by the city council, at which representatives from various bodies in the city were invited, to further arrangements for the visit of the Governor-General of Canada, Baron Byng, to the city on Thursday next, it was decided if possible to have the official reception take place outside the government building. This was thought to be a better arrangement than having the address presented at the station platform, where space is limited.

Major H. B. Hicks, for the G.W.V.A., suggested that a platform be erected near the station on which the official reception could be held and the address of welcome presented, if it was decided to hold the official ceremony there. It was later decided however, to get the permission of the government agent to hold the reception at the government building, as being a more suitable place, and if possible to have a committee arrange for fitting decorations.

The mayor was authorized to appoint a committee representing different organizations to proceed with these arrangements, with power to add to their number. Major Hicks was appointed for the G.W.V.A. G. Salter for the Boy Scouts, W. R. Grubbe for the Board of Trade, and Alderman F. M. MacPherson for the city council, and the clerk was instructed to write the Women's Institute to have them name a member.

Notice will also be given declaring a half holiday from nine o'clock on the day of the Governor-General's visit till one o'clock, to permit everyone participating in the welcome to be accorded to the distinguished visitor

The loyal address of welcome to be presented by the mayor to the Governor - General will be written by Mr. Billy Robson of the employment office, who is an adept at this work.

War veterans are being requested to assemble to take part in the arrangements and provide an escort, and since it is now proposed to have the party leave the station, and proceed down to the government building, it would be well if the merchants could co-operate and make a display of bunting and flags, in order to put a festive appearance on that part of the town, in keeping with the occasion.

According to the present understanding of the arrangements, the Governor-General and his party are due to arrive at 11 a.m. local time, and will remain about two hours. The party, after the first formal greetings are extended, will be taken in cars to the government building, where the civic welcome will be extended to his excellency in the form of an address to be presented by the Mayor. The Boy Scouts will act as a guard of honor and the Veterans will also have a prominent place in the proceedings. The band will be present to provide music suitable to the occasion, and if it is found possible a children's choir will be formed to sing the National Anthem and "O Canada." Probably by the time the official proceedings are over an hour or more of the scheduled stay of the party will have been taken up, and if it is thought acceptable, an invitation will be extended to the Governor-General to inspect the local G.W.V.A. quarters.

The city is procuring bunting to use for decorating the government building appropriately, and it is understood the C.P.R. is making preparations to decorate in the vicinty of the station. The desire is to have the merchants and others along Baker Street particularly, co-operate in the matter of decorating, so that the route of the vice-regal party will take on a fitting appearance to greet the representative of the monarch of the realm to the city.

GROCERY STORE MOVES INTO NEW QUARTERS THIS WEEK

Co-Operative Takes Big Step Forward in Establishing New Location

In spite of the fact that the alterttions to the Rex Theatre building were carried out in full view of the passers-by on Norbury Avenue, it was quite a revelation to most people who went into the store on Tuesday, when the Co-Operative Society re-opened in their new location, to note the roomy quarters, and the general first class appearance of the place. The new and attractive front, the well appointed and newly decorated interior combine to give a good impression of the place, and there is no doubt that for attractiveness, the Co-Operative now stands high among the grocery stores of the city, a factor which counts for a great deal in that line besides which the handiness of the new location to the center of the city is counted on to add its quota to the new business which it is expected the move will bring the concern.

The rear of the store has been cut off to provide ample warehouse room, and a rest room has also been put in for the use of lady patrons, which may also be used for directors' meetings. This will later be carpeted and furnished and the necessary plumbing connections put in to make it complete in every respect. Plenty of basement room is also available for frostproof storage, with very little additional work.

WEDDING

CASSIDY-DAVEY

A quiet wedding took place on Thursday morning of this week at the Methodist Parsonage, when Mr. James Cassidy, son of Mr. and Mrs. J. H. Cassidy, Burwell Avenue, and Miss Nellie Davey, of this city were united in marriage. The bride is the sister of Mrs. T. H. Bailey, formerly of this city and now of Kimberley. Attending the couple at the ceremony, which was performed by Rev. B. C. Freeman, were Mr. and Mrs. T. H. Bailey.

A wedding luncheon was partaken of after the ceremony at the home of the groom's parents following which the young couple were to leave on a honeymoon trip by motor up towards Windermere and Banff. The groom, who is with the C.P.R., is also one of the Melody Makers' Orchestra, and the young couple have many friends among the young people who extend to them every good wish.

OPEN BRANCH OFFICE

Messrs. Nisbet & Graham are opening a branch office in Kimberley. The location of the office will be above the T. Summers store, in the K.P. Hall The office will be opened on Tuesday, August 5th, and on each Wednesday during the month thereafter.

Resume of E. Koot. Mining

Annual Report of District Engineer Reviews Year's Activities

MANY SMALL SHIPPERS

District No. 5, or the Eastern Min-Kootenay, comprised of the Golden, Windermere and Fort Steele Mining Divisions, and West Kootenay. The headquarters office of the district is in the city of Revelstoke.

Production

This past year marks a substantial increase in the production of lead and zinc, which may be looked forward to as being maintained at such high level for some years to come; the principal reason being that for the first time the Sullivan mine has had the necessary equipment for the handling and treatment of the large tonnage it is capable of producing.

The new concentrator at Kimberley was completed in August and is referred to elsewhere in this report. The operation of this plant was soon reflected in an increase of lead and zinc concentrates to be treated at the smelter and refineries of the Consolidated Mining & Smelting Company at Tadanac, wherein preparation had been made in many improvements and enlargements; while, to meet future power plant at Bonnington Falls, on Kootenay River, is being increased by 60,000 horsepower.

Prospecting

Prospecting during the last few years seems to hold its own and some good finds have been made, but the work has mostly been confined to old locations in the heart of the most thoroughly prospected areas; very little having been undertaken in virgin country remote from transportation facilities.

During the year a considerable amount of new work has been undertaken in various parts of the district and a number of new companies have been organized.

The Stemwinder Mining Company was incorporated during the year, the intention being to build a 100-ton mill for the treatment of the Stemwinder ore in the Fort Steele division.

Shipments of exceptionally rich gold ore by leasers, from the I.X.L., at Rossland, stirred up a little excitement and resulted in work being undertaken at several adjoining properties.

Generally speaking, conditions during the year have been very satisfactory to mine operators, there being no pronounced shortage of labor, no strikes and a good market for the predominant metals of the district.

Golden Mining Division

This division had rather a quiet season in mining activities, which have been confined principally to the operations of a few of the old time prospectors of the district.

The Alpha Mines Syndicate, after doing a considerable amount of work on the property at the head of the Bobbie Burns Creek, closed down early in the season.

It has been reported that in all probability the Canadian Pacific Railway will develop power for the electrification of their mountain section at Surprise rapids on the Columbia some 25 miles north of Beavermouth. If this should eventuate it should give an impetus to prospecting in the surrounding country, where a number of claims were staked in the early days.

The Giant property, comprising 5 claims, is located at an elevation of 3,350 feet above sea level and at a distance of seven miles by wagon road from the railway at Spillimacheen. Except for a little work done by leasers the property has been lying idle for a number of years.

The Hidden Treasure property adjoins the Giant group to the east and

(Continued on Page Six)

Return From Holiday Tour

Mr. and Mrs. H. R. Hinton and family, and Mr. and Mrs. E. C. Kuhnert and family are among the recent tourists from this city to make the circle tour. They left two weeks ago and went by way of the Crow's Nest, stopping at Pincher Creek, where a brother of Mr. Hinton's joined them with his car. They struck cool and wet weather between Waterton Lakes and Banff and Lake Louise but nevertheless had an enjoyable trip. They returned on Wednesday evening.

INDIAN AGENCY HERE IS TRANSFERRED; NEW OFFICIAL TAKES CHARGE

On Friday last Mr. Eneas Small took charge of the Kootenay Indian Agency here, succeeding Mr. H. F. Helmsing, who has been transferred to the Indian Agency at Kamloops. It was announced some time ago that Mr. Helmsing was being transferred to Kamloops, but the announcement of Mr. Small's appointment was not made at that time, and he only took charge last week.

Mr. and Mrs. Helmsing and family left on Sunday for Kamloops, their furniture and household goods having been sent ahead of them. They have made many friends during their stay in the city, and their removal from the city is one of the contingencies of official life that sometimes come, no matter how much friends regret it. Mrs. Helmsing's musical talent had been very freely given in support of many worthy objects, her accompaniments being much sought after. Cranbrook's loss in this respect is Kamloops' gain and it will probably not be long before she has established there an equally pronounced niche in the musical activities of the city.

The territory and Indian population embraced in the care of the Kamloops agency under Mr. Helmsing will be much larger than here, and his move must therefore be considered in the light of a promotion.

Mr. Small, who takes over here, is no stranger to the district, having been here in the early days, and more recently residing at the Coast, Calgary and Creston. Since their return to the city some time ago, Mr. and Mrs. Small have been welcomed by many old friends.

First Returns From Queens

"Princess Vimy" Has Small Lead at First Count; Two Still to Hear From

Only two Queens had been heard from at noon on Thursday, in connection with the Queen Contest for the Rotary Playground Festival. Of these two, "Princess Vimy," the G.W.V.A. candidate was in the lead with 3,025 votes, winning the bonus of 25 votes for the highest week-end total. Very close behind was "Princess Royal," the Western Grocers' nominee, with 2,775 votes. Returns had not been made from the Gyros or the Elks on behalf of their candidates, but it is known their tickets are getting an exceedingly wide circulation, and when their returns are made it is quite possible that either one may step into first place.

Plans in connection with the big event to take place August 13 to 16 continue to move ahead. The first shipment of playground material being installed by the Rotary Club in the park for the children is now here, and will be installed right away. It consists of a giant stride, teeter-totters, ocean wave and other contrivances that bring joy and excitement to the kiddies. The ground at the park is now being prepared for this apparatus.

The booths at the carnival are to be arranged horseshoe shape, and in the centre will be the open air dancing platform, where continuous dances will be run every evening. Attractions are to be put on every evening by local organizations, and on the Gyros' night there are to be boxing bouts, the principal event in which will be an exhibition between Messrs. Broley and Gilker, two local boys who are guaranteed to put up a good exhibition.

Musician Leaves For New Field

Mr. G. E. Bower, late musical director of the Cranbrook Musical Society, and leader of the Knox Church choir, with Mrs. Bower, left on Wednesday evening for Lethbridge, where they will in future reside, Mr. Bower having taken a position of larger scope there. Their daughter, Miss Ruth Bower, who has been visiting in Calgary will join her parents in Lethbridge. Their son who is now with the C. P. R., has been acting at various points as assistant station agent.

Elks' Big Day Is Next Week

Kiddies and Parents Invited to Children's Day Picnic On Wednesday

GOOD TIME CERTAIN

The day — next Wednesday; the time—11 a.m.; the place— near old King mill; the occasion—Elks' Children's Day.

Preparations are now coming to a head for the big day the local Elks have planned for the kiddies of Cranbrook for several weeks past and they desire it known that they want every kiddie in Cranbrook, without any distinctions whatever, to be there.

Preparations are being made to look after not less than twelve hundred children, and if there are more than that the Elks will be better pleased. It is also to be understood that the parents are welcome too, so that a happy crowd is anticipated. No one need fear to let their children attend as every care will be taken to exercise proper supervision.

The site of the picnic is to be on the flat, just above the old King mill site, where there is plenty of shade, and the Elks committee have been busy clearing the place. A number of tents will be put up for use in handling the refreshments, etc., and those who have been out to the place agree that it is admirably suited for the purpose.

The children are to meet at the city park at 11 o'clock on Wednesday morning. They will be marshalled and probably taken up to the vicinity of the station, where a flag-raising ceremony is to be gone through. From there they will be taken out in cars to the picnic grounds, along with any parents who may be going along.

First on the program will be a picnic lunch, and during the afternoon there will plenty doing to keep the children occupied. There are to be games of all kinds, children's dances, sports and a burlesque baseball game between the Elks and the Rotarians.

The list of sports planned on is given below:

GIRLS RACES	1st	2nd
3 to 4	.50	.25
4 to 6	.50	.25
6 to 8	.75	.50
8 to10	.75	.50
10 to 12	1.00	.75
12 to 14	Prizes to be	
14 to 16	decided later	

BOYS RACES		
3 to 4	.50	.25
4 to 6	.50	.25
6 to 8	.75	.50
8 to 10	.75	.50
10 to 12	1.00	.75
12 to 14	Prizes to be	
14 to 16	decided later	

Sack Race open to boys from 8 to 16
Egg & Spoon Race open to boys and girls 8 to 16.
Needle and Thread Race open to boys and girls from 8 to 16.
Obstacle Race open to all comers.
High Jump Running Broad Jump
Rotary and Elks Baseball Game
Ladies' Race Fat Men's Race
Tug-of-War—Elks vs. All comers
Three Legged Race

In the evening at the Auditorium the dance takes place, and the big event in connection with this will be the drawing for the Ford car, the ticket sale for which the Elks have been pushing vigorously of late.

Police Commission Meeting Thursday

A meeting of the police commission is to be held this evening, Thursday, and it is stated that a number of citizens will be present to enquire into the circumstances surrounding the detention of the two women from the United States, whose release was arranged for last week-end. In this connection the Herald has received a letter from a correspondent, which only came to hand a short time before going to press, and which for lack of time and space cannot appear in this issue.

Water Situation Continues Grave

The water situation continues to get more serious as the dry weather goes on. The water in the reservoir has now gone below the spillway, cutting off entirely the water in the creek below. Further curtailment of lawn and garden services is considered imminent to partly meet the situation.

DEPARTMENT GIVES OUT RESULTS OF FINAL EXAMINATIONS

Good Showing Made By Both Public and High School Pupils Locally

The published results of the high school and entrance examinations given out from Victoria last week-end were received with a good deal of satisfaction here, especially the high school results, where out of a senior matriculation class of thirteen, one hundred per cent. of successes were obtained, an achievement unique in the history of the Cranbrook high school at least for a number of years past. Great credit is due to Principal H. L. Porter, it is felt, for this degree of success, which is gratifying alike to the parents, the trustees, and the teachers. Mr. Porter put in a great deal of hard work, but did not hope to achieve quite this measure of success.

A large entrance class will be passed up into the high school and even allowing for those who will drop out, with the outside pupils which are expected, it is likely the first year high school will have to be split up into two classes, and the second year kept into one.

The examination results were as follows:

Cranbrook—Josephine L. Pascuzzo, 407; Phyllis P. Thompson, 407; Joseph Diebolt, 397; Audrey L. McKowan, 392; Marion C. Miles, 389, Jessie M. Brown 386; Dorothy M. Spence, 382; Donald R. S. Burton, 376; Edgar J. Sanderson, 365; Hilliard W. Simpson, 357; Thomas A. Collings, 355; Hazel G. Campbell, 354; Netty E. Johnston, 353; Margaret McInnis, 353; William M. Taylor, 351; Etta McGill, 345; Selina Dixon, 343; Doris E. Mackenrot, 343; John C. Metcalfe, 341; William M. Dargie, 345; Harriet and Jean Home, 335; Birthel A. Benson, 334; Marian Z. Williams, 324; William G. Spence, 322; Robt. J. Taylor, 322; Cyril V. Harrison, 317; Colvin McBurney, 311; James R. McFarlane, 308; Allan F. Gill, 307; Ethel Neilly, 300; Allan Shaw, 300; Graham S. Travis, 300.

Promoted on Recommendation:—Pearl M. Saunders, Catherine A. Harrison, Marion I. Kummer, Raymond H. Brown, Herbert Laurie, Elsie R. Erickson, Daniel S. Brake, Margaret Willis, Edith M. Carlyle Dorothy E. Shaw, Elizabeth G. Miller, Fraser C. MacKay, Lillian C. Lewis, John Henderson, Florence E. Finley, William P. Wolfe, Harry F. Heise, Nancy B. Nisbet, Effie L. Charboneau, Pearl H. Gooderham, Ernest J. Laurie, Leslie V. Sainsbury, James M. Dalziel, John D. Barber, Melville W. Reade, Malcolm J. Horie.

Bull River Bridge—Margaret E. Neily, 303; William R. Douglas, 300; Lilian M. Jones 300.

Fort Steele—Kenneth W. Jolliffe, 363; Albert T. Richardson, 352; Arthur S. Nichol, 339.

Kimberley—Ida A. Hanington, 300.

Wattsburg—Frances M. Trusler,, 364; Marguerite E. Trusler, 305.

Wardner: Martha T. Hellman, 300.

Wycliffe — Margaret J. McClure, 321; Dorothy J. McClure, 302.

High School Results

Cranbrook high school normal entrance—Dorothy K. Leask, Geneva C. Puffer, Myrtle E. Garden (Sup); Jun. Matriculation: Evelyn Anderton, Idella M. Baxter, Winnifred Burdett, Lawrence W. Campbell, Nora A. Home, Dorothy C. McKowan, Alexander W. Nisbet, William R. Selby, James A. Taylor (Sup); Gertrude Thompson.

Private Study—completed junior matriculation, Marguerite Clark, Richard L. Davis, Norman S. Wasson, Nellie V. Lewis.

A record was established by the Nelson high school, when out of the 48 students trying in three classes only one failure was recorded. Two classes, the semi-matriculation and the normal entrance classes scored 100 per cent.

Case Closes This Week

Women Detained Here For 2 Months or So, To Leave This Week for States

TRANSPORTATION SENT

The case of the two women, an aged mother and her daughter, who were detained here through the entanglement of officialdom's red tape procedure, came to a head last week-end, when the public generally seem to have been awakened to the position the women had been placed in, through the delay of the immigration authorities in acting in the matter. The police could do nothing further, having taken what steps they could to expedite the matter, and none are more glad to be relieved of the responsibility for the safekeeping of the two women than the police themselves.

On Saturday last they were released from the jail, where they had been detained, on representations being made to the provincial police and recognisances being provided for their safe keeping, in case their appearance was required. They were then placed in the care of the Salvation Army officers, where they have since been housed.

Word also came that transportation was being provided for them by relatives at Dayton, Ohio, though efforts to trace relatives through addresses given by the women themselves to the police, had previously proved futile. On Monday morning, G. T. Moir, C.P.R. agent, received instructions from the district passenger office at Calgary, to issue first class tickets to Dayton, Ohio, with sleeper accommodation, and to provide a sum of money besides. On Tuesday morning, Chief Constable Mortimer, of the provincial police received a message from N. F. Brand, United States consul at Fernie, that the women were to be routed by way of North Portal, Saskatchewan, and the Soo Line, and at Fernie would be given papers to the immigration officers at the border. It was expected they would be leaving this city about Tuesday, but later it transpired that sleeper accommodation could not be provided before Friday and it is expected they will be leaving on the evening train that day.

Thus will close a case that excited a good deal of comment when the facts became known. It is unfortunate that the two women will take away with them an impression of official procedure that is not likely to create within them much admiration for official institutions.

CORPORATION OF THE CITY OF CRANBROOK

CIVIC HALF HOLIDAY - THURSDAY AUGUST 7th

In order to afford as many as possible an opportunity to participate in the welcome to His Excellency Baron Byng, of Vimy, Governor-General of Canada, who is to visit this city on Thursday morning next, August 7th, a civic half holiday has been proclaimed on that day, from 9 a.m. to 1 p.m. It is earnestly requested that this be observed as far as possible for this purpose.

KIMBERLEY NEWS NOTES

Mrs. Nick McKenzie and family, of the Concentrator, motored to Moyie on Sunday.

A number of Kimberley people took in the dance at Wycliffe on Friday night.

Jack Taylor and Mr. Brady were in town on business on Friday.

A number of young folks from Cranbrook have been selling tickets on the streets the past week for the different Carnival Queens—they have been quite successful in disposing of a number of books.

What might have proved to be a very serious fire was started on the hillside just back of the station on Friday last about five o'clock, and but for the aid of a number of volunteers would soon have got beyond control. However, the fire was very soon extinguished.

List your property with Martin Bros. 35tf

Gus Nelson returned on Friday from his trip to the prairie, taking in Banff, Calgary and Edmonton.

Bill Aitchison and B. J. Walsh were Cranbrook visitors over the week-end.

The Fernie team which came up to take the measure of the locals on Sunday afternoon got it, to the tune of 4-3. Both teams played good ball from start to finish. There was not a very large attendance at the game owing to so many other events taking place that day.

Jim Kelly was a visitor to Cranbrook on Sunday.

We are pleased to see that Miss Winnie Burdette and Miss Geneva Puffer were successful in passing the normal entrance examinations.

George Smith spent Sunday at his home in Moyie.

Before deciding on that new building or that repair work, see Geo. R. Leask, the Pioneer Builder of Kimberley and Cranbrook. 18tf

Miss Myrtle Garden was the guest of Miss Geneva Puffer for a few days.

Floyd Irwin was among those who attended the dance on Wednesday evening, before returning to Nelson.

Mrs. Alex Home left on Monday to join her husband at the coast for a few weeks.

C. A. Foote and Bob Turner left on Monday morning for a few days holiday at Fairmont.

Mr. Tom Summers and two sons, Lorne and Tom, were in Cranbrook on Sunday.

Sunday was an ideal day for the Oddfellows picnic at Wasa Lake, when thirty cars from town made the trip. A jolly time was spent by both young and old. Bathing was the main attraction but in addition there were plenty of good things to eat and at the close of the day everyone returned home in a happy frame of mind. A number of cars from Cranbrook were also there.

500 Sun Life Policy Holders at Kimberley are reminded that the company has recently added a new policy. Your local agents, Martin Bros., of Cranbrook, have specialized in the life business for fifteen years, and can advise you about this new policy and serve you in any other life insurance matters. 11tf

Henry Baystrom was a visitor in town for a few days.

Mr. Phillips was a business visitor to Kimberley this week.

All those who attended the dance given by the Recreation Club at the Orpheum theatre had a good time. There was a big crowd, quite a number having motored in from Cranbrook and other outside points.

Don't forget the dance at the concentrator Friday night, August 1.

BORN.—On Tuesday, July 29th, to Mr. and Mrs Geo. Aiken, of Kimberley, at the St. Eugene Hospital, Cranbrook, a son.

Miss Sadie Whitehead, of Moyie, is the guest of Miss Helen Bonner this week.

Mrs. C. Selby of Cranbrook, has joined her husband here and they have now taken up their residence at the Sullivan mine. Their son, William was one of the successful pupils who passed in the recent high school normal entrance exams.

Mr. and Mrs. C. Cooke of McDougall Heights are leaving for Banff and the Windermere country on Thursday, by motor; they will be gone about two weeks.

Sullivan Lodge, No. 35, I.O.O.F., Kimberley, put on a great picnic at Wasa Lake on Sunday last. The day was a delightful one for a picnic and the water was just right. About thirty cars left Kimberley, all crowded, and the scene at the beach was like an English Bank holiday. Almost every one took to the water and thoroughly enjoyed the day. The ladies provided the customary feast for all, and certainly surpassed themselves in supplying everything one could wish for.

The Kimberley Amateur Athletic Association at their last meeting decided that in the event of one of the Kimberley football teams winning the East Kootenay league, that the winning team shall be sent to Nelson or Trail to play the winners of the West Kootenay for the Blaylock cup. This is to be an annual affair, the play offs alternating between east and west irrespective of who holds the cup. The local Amateur Association will back the team up to the amount of $250 for expenses for the trip.

OLD BASEBALL RIVALS TO CLASH AGAIN ON SUNDAY

There will be a baseball game at Kimberley on Sunday next, at 2.30 when Kimberley and Wycliffe will clash again. A good crowd is hoped for when these old rivals clash again, and some classy baseball is expected.

FIRE AT JEWELL MILL LAST WEEK IS DISASTROUS

Loss at Caithness When Plant is Destroyed Will Reach About $30.000

The fire in the early hours of Friday morning last, which destroyed the lumber mill of the Jewell Lumber Company, at Caithness, did damage that will reach $30,000 it is stated. The origin of the fire is unknown, but it started in the boiler house and though the alarm was quickly given by the night watchman, the flames could not be controlled, and the plant was soon reduced to ashes and blackened machinery.

While the sawmill part had not been in use for some time, this being the location of the boiler house, the planing mill was being operated, deriving its power from the boilerhouse. The logs were being sawn at the Jewell mill situated a few miles out of Fort Steele, and taken to the planing mill at Caithness for finishing, and the lumber in the yard there was also being gut through the planing mill.

The Jewell Company has also been unfortunate in this respect before, it being recalled that they suffered a fire loss some years ago, losing another plant. In the case of the fire at Caithness last week, the loss is understood to be about half covered by insurance carried by Cranbrook and Fernie companies.

CRANBROOK TENNIS PLAYERS BEAT FERNIE; INTER-CLUB GAMES

(From the Fernie Free Press)

Under most ideal weather conditions another inter-club tennis match was staged during the week-end between the Fernie and Cranbrook tennis clubs.

The result was a decided defeat for Fernie as the Cranbrook players showed a great deal of skill in the handling of the racquet and gave both players and spectators much pleasure by their performance. The matches were as follows:

Doubles—

C. Hunsley and A. P. Sanborn vs. G. P. Simpson and A. Raworth. Fernie won, 6-4; 4-6; 6-4.

G. S. Appleyard and E. Frey vs. Dr. W. A. Fergie and D. A. MacDonald. Fernie lost, 8-6; 6-4.

Singles—

C. Hunsley vs. G. P. Simpson. Fernie lost. 6-4; 6-1.

A. B. Sanborn vs. Dr. W. A. Fergie, Fernie lost 6-3; 4-6; 7-5.

G. S. Appleyard vs. D. A. Macdonald. Fernie lost, 6-1; 6-3.

E. Frey vs. A. Raworth. Fernie lost, 6-2; 6-3.

Calgary.—Crop conditions in Southern Alberta are excellent, according to reports received here. The hot weather following on the recent rains has brought the growing grain along very rapidly and the outlook is considered decidedly optimistic. Lethbridge reports that with a July rain there is bound to be a bumper crop, while Cardston reports say that crops were never better.

Vancouver.—The interest of western Canadian dairy farmers in the shipping of dairy products through Vancouver to the British and Oriental markets, is evidenced by the recent tentative anouncement of the Saskatchewan Co-Operative Creameries, Ltd., that they are contemplating the construction of a cold storage plant in this city to handle this class of merchandise.

Vancouver.—A plant for the manufacture of a special paint and composition for use on ships is to be established in Vancouver, according to information given out by Sir William Maxwell, of London, who is here in the interests of a British company which supplies a large proportion of the anti-fouling paint used on ships all over the world.

FORT STEELE NOTES

(Held over from last week).

Mrs. Cretney, who has been camping at the Springs, had the misfortune to break her leg at the ankle, and was taken to the hospital on Sunday, where she is doing as well as can be expected.

A service was held in the community church on Sunday evening last, the preacher being Rev. W. T. Tapscott. It does seem a pity the people of this district are so apathetic where church service is concerned.

R. R. Wilson, mining engineer, and a resident of Victoria, B.C., along with A. B. Fenwick,, left on Saturday for Perry Creek.

P. McGuire, mining man, of Slocan City, was in town for a few days last week.

Sam Brander returned home last week.

Mr. Wragge, of Wragge & Hamilton, barristers, of Nelson, spent a few days in town on business, last week.

DeWolf & Ham, contractors, of Cranbrook, are to start work on the big flume for the Wild Horse Creek Gold Mining Company, on Monday.

Mr. R. Richardson was in Cranbrook on business, on Saturday.

Mr. Ted Cretney is being converted to the belief that misfortunes never come singly. At the time that he was in Cranbrook with Mrs. Cretney, who had just suffered a broken leg the barn on his ranch caught fire and was a total loss.

F. Houghton, an old-timer of Fort Steele, is spending a few days in the town.

Hay harvest is in full swing in the district. Mr. J. Crookes has a quantity of rye cut; the Branders are also cutting. Taken generally the hay will be very light this season, it having been so dry on the benches in addition to which, there being such little snow last winter the river did not rise sufficiently to give the bottom land all it needed in moisture.

WASA NOTES

Mr. Charles Rowell is the chief cook at the Kootenay River plant, superceding Mr. Rochette some time ago.

Mr. Knight and sister, accompanied by Mr. Attree, all of Fort Steele, were Sunday visitors to Wolf Creek, the guests of Mr. and Mrs. Charles Buckless.

Mack and Jack Horie have become established at Wolf Creek and are engaged in learning the lumbering industry. The boys are quite enthusiastic in their venture.

Mr. Stewart Jeffrey and aunt, Mrs. James Crowe, with her son Banford, were a motor party to Rock Lake on Monday last.

Lewis Castellano, who has been taking treatment in Cranbrook for some time, is convalescing. He is employed at the Kootenay River Co's plant.

Mr. and Mrs. L. Magrath were visitors to Cranbrook on Sunday, to attend the funeral of the late Mr. Peter Jeffrey.

W. F. George of the Kootenay River plant, spent the week-end at his home in Cranbrook.

Murdock Matheson, teamster, left the Kootenay River base of operations after a period of several weeks as teamster.

Jack McDonald returned to Wasa after a period of two weeks spent in the environs of Cranbrook.

Billie Leask and Ernie Stinson are sporting a Ford bug these days much to the comfort of the joy riders themselves.

Miss Ethel Barr, daughter of Mr. and Mrs. Harry Barr, left for Salt Lake City, Utah, some few days ago to visit relatives, and will spend the summer months sojourning in the Northwest.

Mr. Eddie Bickford, who has been spending much of his time of late on the main line, has returned to Wasa and is at present haying for Mr. H. Barr.

Hughie McGillis, of Rock Lake, was a Cranbrook visitor over the week-end.

Stuart Brock, chief accountant and scaler for the Kootenay River Lumber Co., is spending a few days in Cranbrook.

Jack Moore formerly with the Lovering Lumber Co., has cast in his lot with the Kootenay River people, as trimmerman, at the Wolf Creek plant.

Mr. Wm. McFadden, scaler for the Lovering Lumber Co., at Wasa, is contemplating a trip to Winnipeg and the East in the near future.

Mr. Graf and Mr. Ted Swanson are now loading cars for the Kootenay River Lumber Co., on the K.C. railway near Wasa.

Mr. Charles Barrett is recuperating nicely from his injury received some time ago, and is on deck as utility man for the Kootenay River Company on Wolf Creek.

A fine sprinkle of rain greeted the Wasa district on Monday and cooler weather prevails as a result.

There is a report current that the Leask Lumber Company will rebuild a mill on upper Wolf Creek soon. This indicates the immediate resumption of operations by this company.

TWENTY YEARS AGO

Extracts from The Cranbrook Herald of this date, 1903.

Last Friday a serious fire destroyed the building known as the Victoria Hotel, near the station, and opposite Vroom & Dezall's blacksmith shop. Damage in all amounting to $11,000 was done.

A special train of five coaches, a freight car and the superintendent's car, left on Monday morning with the happy crowd taking in the Sunday School picnic at Wardner.

Two parties of engineers are now in the field near Fort Steele, locating the line for the proposed Kootenay Central Railway.

3,000 tons of ore were shipped from the St. Eugene mine at Moyie in the month of July.

By defeating Lethbridge in a series of games, the Cranbrook lacrosse team has won the Lavasseur Cup, and the team got a great reception on returning here.

FRIDAY, AUGUST 1st, 1924

A DISTINGUISHED VISITOR

An unusual appropriateness attaches itself to the visit of Baron Byng of Vimy, Canada's Governor-General, to the city next week. The title of his earldom signifies what his name is mostly connected with in the public mind, and his visit here falls in the same week as the tenth anniversary of the outbreak of the war that gave him the opportunity for such distinguished service. He has had a distinguished career in the army, and his connection with the Canadian contingent as one of its commanders was naturally looked upon as a fitting prelude to a term in a vice-regal capacity after the war. The choice was looked upon as a particularly happy one for all concerned, and the Governor-General has been getting a royal welcome during the progress of his ofcial tour, not the least enthusiastic in welcoming him being the veterans who a few years ago were serving under him.

Has the passing of a decade since the smouldering fires of international illwill burst forth into flame brought nearer the time of amity among nations, or is this an unattainable ideal? If Germany was vanquished on the field of battle, has she not proved more than a match for the allied diplomats in the ecomomic conferences, and the post-war battle of notes on the reparations question? Has Germany not been able to capitalize her deflated currency in the struggle for revived world-wide trade?

Perhaps progress is very slow, but there has been some attempt at disarmament among the powerful nations of the world, and there has been no attempt to make use of the occupation of a portion of Germany by allied armies other than to secure the smooth working of industrial undertakings that were essential. Germany is now a nation in default in regard to reparations payment, but instead of demanding payment in full at the point of the sword, the problem of how it shall be done is being settled round the table.

It may be slowly, ever so slowly; but is not the world moving towards universal peace?

STILL THE AFTERMATH

The more the after effects of the election are considered, the more unjustifiable it seems to become that the Liberal party, with scarcely more than thirty per cent. of the popular vote behind it, should be back in power, bolstered up just at the critical juncture by the count of the absentee vote, which awarded them four seats more. It is true that one, that of Mackenzie, has been restored to the Conservatives, the judge deciding that the returning officer's decision in regard to a large number of rejected ballots was indefensible. In Vancouver the irregularities were so pronounced that there is a plan being formulated whereby the Conservatives and the Provinical Party unite in an appeal for a new election there, which would mean the unseating of the entire six members. With prospects that the opposition forces would be more or less united in the case of a second election, the government is not likely to take any steps to meet the demand, though this course would only add to the distrust felt of it.

One thing is certain in all the haze of rumor and report, and that is that the riding of Cranbrook is not going to be laid on the altar and sacrificed to machine politics. The duly elected member here is not to be allowed to efface himself in favor of anyone else. A similar incident following the last federal election is still fresh in mind, and what was an outrage against public opinion then would certainly not be countenanced now, even if it were desirable for the sake of political expediency. Cranbrook is not lending itself to any saw-off that will put one leader in unopposed, pairing off with some other riding.

It is plain to see why the government's election orafory was directed so strongly against the two opposition factions. It was to keep alive the feeling of distrust between them, to foster illwill, so as to make remote the possibility of an alliance between them. They were successful insofar as they were able to assume power again on account of the split opposition vote, but the lesson is so obvious that it is only a matter of time when the two main elements in opposition, but little apart in their platforms, united in a common opposition to the government, and separated only in regard to a few personalities—it will not be long before they are brought together by force of circumstances, a consummation least of all desired by the government, for whom it will surely spell defeat.

NOTE AND COMMENT

At the Windermere Fair, it has been arranged that on the second day His Honor the Lieutenant-Governor of the Province, Hon. W. C. Nichol, will be present to officially open the exhibition. This happens but two days before the fair is scheduled to open here. It is possible that if representations were made the Lieutenant-Governor might be induced to perform a similar office here, giving the fair a status that would help it immensely in the matter of attendance and interest.

DISTURBANCE ON SATURDAY NIGHT; THREE ARRESTS MADE

As a result of a fracas at the Montana Cafe on Saturday night, three men, of no fixed abode, found themselves in the hands of the police this week. Mike Houlihan had been creating a nuisance in the cafe and the police were called to quell the disturber. He put up some resistance, and two friends of his upstairs, hearing the fracas going on, came down and joined in, endeavoring to obstruct the police and release their friend. Constables Roberts and Johnson were handling the situation, and with some assistance from A. K. Leitch, who happened to be passing the scene of the affray, the three men were lodged in jail. Houlihan was charged with resisting arrest, and creating a disturbance in the cafe. Jim Jeffries, who lived up to his name, was charged with obstructing the police in making an arrest, and Russell Tierney was charged with obstructing the police and another charge was laid against him for assaulting the police.

The cases came up before Magistrate Leask on Wednesday, when the prisoners were committed to stand for trial.

WINDERMERE PUPILS GAIN STANDING IN MUSICAL EXAMS

(Special to the Herald)

Invermere, B.C., July 26. — The reports of the recent local examinations by the Associated Board of the Royal Academy of Music and the Royal College of Music, of London, England, have just been received by Miss Dora K. Bodecker relative to her pupils in the Windermere district. Out of the number who tried, no less than six received 100 per cent. in marks for ear training, while little Mary Lillian Butterfield came near drawing 100 per cent. on her full line of subjects.

The results of the passing are as shown:

Primary Grade: Pianoforte; Mary Lillian Butterfield, Carmen DaCosta, and Bernice E. Thompson, all of Wilmer.

Elementary Grade: Pianoforte; Marvin Tunnacliffe and Phyllis Fern Larrabee, also of Wilmer.

Lower Division: Pianoforte; Esmond Taylor of Invermere and Frances E. Forster of Wilmer.

Grammar of Music: Susan O. Nixon and Esmond A. Taylor of Invermere.

BOY SCOUT CAMP TO BE HELD NEXT MONTH PLACE NOT SETTLED

The annual Boy Scout camp will take place this year from August 18 to 30, arrangements to this end now being under way. The location of the camp has not yet been finally settled but Premier, Wasa, and McBain's' Lakes are among the locations being considered, and definite announcement regarding this can be expected later. A number of boys leaders are expected to spend some time at the camp including Messrs. G. Salter, F. Constantine, F. G. Morris and others, to provide for adequade supervision. The cost of the outing will be $7.00 per boy.

Sidelights on a Great Industry

Three Pillars Of The Industry

PROGRESS OF PROVINCE DUE TO MAINTENANCE OF HUGE PURCHASING POWER

Vast Developments by Land and Sea Due to the Initiative of Lumbermen

There are three great spending forces in the British Columbia forest industries with its purchasing power of $100,000,000 per annum.

1. The timberholder — the pioneer investor in the raw material.
2. The Logger— the harvester of the timber crop.
3. The Manufacturer— the builder up of markets.

Upon the unimpeded functioning of these branches depends the fair progress of British Columbia's vital industry. A setback to one spells disaster to all three.

The timberholders of the province, faced with fire and storm risks against which there is no insurance, have contributed over $45,000,000 to the provincial treasury during the last fifteen years. A world's record in similar taxation.

The loggers spend annually large sums on costly equipment to keep pace with modern science and overcome the ever varying obstacles that nature puts in their paths. Eight hundred miles of private railroads, now in actual operation, is one memorial of this energy.

The manufacturers of lumber, shingles, pulp and paper, boxes and other forest products are also forced to expend millions every year on new machinery to maintain the efficiency of their plants. In that way alone can they meet the keen world competition and justify their product. The British Columbia lumber manufacturers by dint of strenuous market extension work, have increased their export shipments twelvefold in ten years. Their efforts have been indisputably the main factor in building up the sea ports of British Columbia.

This series of articles communicated by the Timber Industries Council of British Columbia.

Good Progress on Gold Creek Work

Considerable progress had been made at the first of the week on the Gold Creek water project, the big city undertaking which Jas. Broley now has in hand. About fifty men were working there, and some 4,000 feet of excavation had been completed. A steam shovel is being brought in to add to the equipment, and was expected to arrive during the week.

CAR HITS LITTLE ONE; CHILD RECOVERS FROM SATURDAY MISHAP

On Saturday, little Alice Kay, daughter of Mr. and Mrs. Gus Kay, met with an accident on Armstrong Avenue that might have resulted very much more seriously, but which as it was proved quite serious enough.

Accompanying her mother down town, the little one ran across the street, and being called back, turned to retrace her steps. In the meantime, Eneas Hogarth, driving carefully along, had seen the child run across in front of him, but had not seen her turn to come back. One of the fenders of the big Studebaker car hit the child in the forehead and she fell to the ground. Fortunately she was knocked clear, so that the wheels of the car did not pass over her. She was taken home immediately and given attention but later lapsed into unconsciousness, when her condition was watched with some anxiety. Fortunately she appears to have escaped with no serious injury, and on Monday had become quite lively again.

T. C. Rees, of Calgary, a representative of the well known printers' supply house of Miller & Richard, was a business visitor in the city over the week- end. He was accompanied by Mrs. Rees, and they were taking unusual pleasure out of the trip by touring through from Calgary. They came by way of the Crow's Nest, and Mr. Rees commented on the good roads found west of Coleman on the trip, which continued all the way west practically to Yahk, but the stretch from there on to Creston was quite the reverse, it was found. Returning to Cranbrook on Saturday, they left later that day to return to Calgary by way of the Windermere and Banff, anticipating a very pleasant finale to their long trip in going over the new road.

LOCAL HAPPENINGS

Mr. and Mrs. D. C. Ryan and Mrs. Scare are leaving on Thursday of this week for Banff for a few days. On their return Ellsworth Ryan and his aunt, Mrs. Scare, will be leaving for Colburn, Idaho, on a holiday.

Mr. and Mrs. J. M. Clark and son left Thursday for Lake Couchiching, Ontario, where Mr. Clark will attend conferences of Y.M.C.A. secretaries to be held in camp there. They expect to be away about a month.

Alderman and Mrs. G. D. Carlyle and family returned at the beginning of the week from Vancouver, where they have spent an enjoyable holiday, Mr. Carlyle being much benefitted from the treatment for his injured foot. He lost no time in getting back into things, attending a council meeting on Monday evening, and going back to his run on the Kootenay Central on Thursday morning.

"By the look of these Banff skies it ain't going to rain no more," said Wendall Hall, author of this famous song, as he boarded a Canadian Pacific train eastbound last Friday, after spending two days at the Banff Springs Hotel. This was Mr. Hall's first visit to this summer resort and, in fact, to the Canadian northwest, and in his quiet manner he expressed his admiration for the overwhelming beauty of the Canadian Rockies. Accompanied by his pretty auburn-haired wife, the noted song writer registered as W. Hall and wife, and while his songs were being played in the ball room he danced unidentified. Not a single guest knew who he was until the open-top observation car, his after his departure. As he boarded banjo tucked under his right arm, he waved his left hand and said, "I wish I could write a song about this," sweeping his hand toward the lofty snow-covered peaks of the mountains.

Mrs. Edward Birce of Cranbrook, who has recently returned from a trip to Rochester, Minn., has been the guest of her brother-in-law and her sister, Mr. and Mrs. William Laughton, Park Street, for the past couple of weeks, leaving for her home yesterday morning by the Crow boat. She was accompanied by her son, Harvey, who has been visiting here for several weeks past. While here Mrs. Birce was the honored guest at a small tea given by her sister, Mrs. Laughton.—Nelson News.

The chief of the city police was a passenger to Nelson on Saturday last, escorting a prisoner who had been sentenced by Magistrate Leask to three months. This was the man named Roach, who stole a clock at the Imperial Hotel. He was up before the magistrate last year for issuing bogus cheques, but had been allowed out on suspended sentence on agreeing to go to work and let his wages go to make up the money he had obtained by means of his cheques. He had therefore to be dealt with a little more severely at this time.

J. Fred Spalding, of Fernie, Tourist Commissioner for the Association of Southern Alberta and B.C. towns who have been engaged in putting the Red Trail, the Canadian Circle Tour, on the map through the medium of booklets, maps and other means, was a visitor in the city last Friday for a short time. He has just returned from a trip to the towns at the other end of the trail, in the Waterton Lakes section. Big developments are likely to take place in the Waterton Lake Park, he states, Mark Rogers, Lethbridge capitalist having already commenced the erection of a number of chalets there, in an effort to popularize the place for tourist traffic. Most of the towns in that vicinity, he states are already members of the Tourist Association, realizing the value of a steady flow of tourist traffic to any district and appreciating what the Tourist Association's advertising has accomplished toward this end.

SOCIAL & PERSONAL

The East Kootenay Power Co. has put on a large number of men at Elko during the past couple of weeks and are rushing work on the completion of their big dam.—Fernie Free Press.

We carry a full line of Men's Women's and Misses' Shoes.
W. F. DORAN.
Our low prices win every time.

One might think that the local Board of Trade might take some action toward bringing about an adjustment of the labor troubles in this camp. There are hundreds of men in Fernie who are willing and anxious to return to work if some equitable arrangement could be arrived at with the Coal Company. —Fernie Free Press.

THE DRESSMAKING SHOPPE 19 ARMSTRONG AVENUE.

Mr. and Mrs. G. F. Collins returned the end of last week from a holiday of two or three weeks at Vancouver. Their holiday was marred somewhat by their being participants in an auto accident, when a big B.C. E.R. bus, in which they were riding, collided at Edmonds with a car, from the effects of which a woman in the smaller car later died.

Prospects are bright for an early settlement of the coal miners' strike in the Crows Nest Pass and Alberta. Hon. James Murdock, minister of labor is expected to arrive there within the next ten days or two weeks, and will meet a delegation of officers from District 18, U.M.W. of A., and from the Western Coal Operators' Association, in an endeavor to reach some sort of an agreement. In all probability the meeting will be held in Calgary on August 8, and if successful the miners will start work on August 15.

Provincial Constable H. Martin arrived in Nelson Wednesday night from Alice Arm, Atlin district, en route to Kimberley, in the Cranbrook police district, having been transferred there.—Nelson News.

FOR SALE — International Cream Separator, in good condition, $30. Barber Chair, $35. Apply B. Weston, Baker Street, Cranbrook. 9

G. F. Johnson, city auditor, of Fernie, was in the city last week-end for a short time on business.

To the long distance tourist cars which have been noted on the streets recently must be added others from New York State, Maine, and Ontario, while another was seen on Thursday of this week from far away Hawaii which would seem to indicate that the ocean is no bar to tourists who are set on seeing this part of the continent. Several auto caravans have also been seen, veritable houses on wheels, where something more than ordinary car comfort is aimed at.

Have that car overhauled as soon as possible before the rush starts. Far more satisfactory in every respect. See the Kootenay Garage. 1

The Elks in large numbers visited the Boy Scout camp at McBain's Lake on Sunday, and on Wednesday the Rotary Club and a large number of citizens paid the boys a visit and gave them a fine treat. There are over seventy boys in the camp and the work of keeping things moving is taxing the efforts of Scoutmaster Donaldson and his assistants to the limit. However, the boys are doing fine.—Fernie Free Press.

If you are figuring on New Tires for your car this spring it will pay you to call on Wilson's Vulcanizing Works and get prices. We sell gasoline, oil, accessories and Second Hand Tires and Tubes. 1tf

Robert Potter, of the Herald, is this week enjoying a holiday, the first respite from his work for close on two years. On Friday last, Mr. and Mrs. Thomas Frazzell and son arrived by car from Seattle on a visit with Mr. and Mrs. Potter, the latter being a sister of Mr. Frazzell. They left the following morning for Banff and Lake Louise, returning on Monday evening, and left on Tuesday for Spokane and Seattle. Mr. and Mrs. Potter will also proceed on to Vancouver, returning some time next week by train.

The Fernie baseball team visiting at Wycliffe and Kimberley last Sunday, divided the honors in the two games. They lost the first game to the redoubtable Kimberley nine 4-3, but got the better of the Wycliffe nine in the second game by 6-2.

For expert workmanship in charging and overhauling batteries, Phone Service Garage, No. 34. We call for and deliver batteries. 1tf

A recent raid by the provincial police on the district known in the vernacular as "Hill 60" resulted in considerable fines being taken in from the women concerned. One fine of fifty dollars was imposed on the principal offender, and her two associates were fined $25 each.

Mr. W. H. Holland, the owner of the Fairmont Hot Springs property, and being interested in the Phoenix mining claims, among other things in the Windermere district, when on his way from England recently to this district, was taken ill while at Winnipeg, and returned to England without coming further west.

The provincial police are commencing a drive against automobile drivers operating their cars recklessly or while under the influence of liquor. A party from Lumberton recently found it quite a costly experience to have indulged in a few drinks while taking a car ride. It is reported from the provincial police office that one man was sentenced to jail for ten days for driving a car while intoxicated; another was fined ten dollars for allowing a drunken man to drive his auto; still another was fined ten dollars for driving to the common danger, and two others were fined fifty dollars each for being drunk in an automobile. The police are emphatic in stating that cases of this kind will be severely dealt with, and also cases of reckless or careless driving. A case of infringement of the rules of the road was reported by a constable from the Kimberley road and resulted in the driver being fined $1.00 and costs, amounting to about $12.00.

For service on Nash and Star cars see their agents, Ratcliffe & Stewart, opposite Post Office, Cranbrook, B.C. 20tf

There were over 200 applicants to fill 2 vacant positions on the Greenwood teaching staff.

Mr. and Mrs. C. W. Pocock were passengers on the westbound train on Saturday, on their way to Penticton and Vancouver for a holiday of two weeks or so.

Death came quietly to the home of Thomas Prentice, manager of the Crow's Nest Trading Company, early on Sunday morning, when Mrs. Prentice passed peacefully into the great beyond after a lingering illness. The funeral, which took place from Christ Church on Tuesday, was one of the largest ever held in the city and the floral tributes were so numerous that it was necessary to provide a special car for their conveyance. The sympathy of the entire comunity goes out to Tom, little Billy and other sorrowing relatives in their sad bereavement. —Fernie Free Press

CALGARY "Y" BOYS CLOSING ENJOYABLE WINDERMERE CAMP

(Special to the Herald)

Invermere, B.C., July 26.—After two weeks of the most perfect weather for camping, the visiting boys of the Y.M.C.A. are preparing to strike camp and take the express automobile back to their homes in Calgary. The time has been one long delight to most of these young people. Many of them have never before been right within the heart of the great Canadian Rockies for any length of time. In this particular part the valley is wider than is frequently the case and the mountains, though beautiful are yet not of the gigantic and rocky type seen elsewhere. Here, they are beautifully moulded as may be said and are such as lend themselves more easy of ascent than if they towered above the timber line. Away in the distance may be seen those whose rocky heights tower to over ten thousand feet and they are there in numbers. Then in the Lake Windermere district, for a boys camp such as this there opens a boundless number of routes for short hikes to interesting spots, spots but little known, but which abound in historical interest wrapped up in the early doings of this mining division.

The boys have climbed Mount Swansea, which towers nearly three thousand feet above them at the back of their camp; they have searched for arrowheads and Indian relics on the sand dunes in the vicinity of the camp, they have gone fishing, they have taken canoe trips and day in and day out, whenever they were allowed by camp director Reg. T. Rose, they have individually and collectively had a swim in the warm waters of Windermere Lake or paddle along the sand beach at their tent doors.

The site of the camp was most admirably chosen. It is on a field of some dimensions which borders on the eastern shore of Lake Windermere. With a gentle slope the field comes toward the water's edge until it loses itself beneath the waters of the lake and passes on in that form into deep water. A crystal stream emerges from the low woods a little off from the camp proper and flares out and loses itself in the porous ground adjacent. Further back are the sand dunes and dry flats, which possibly centuries before were occupied by Indians whose progeny left here before white men entered but who have left behind many evidences of occupation in the way of Keek-Willie rings, camp fire deposits, chipped stone from the manufacture of implements and an occasional arrowhead. Two miles from their camp is the old-time village of Windermere, lying on its beautiful site facing out on to the lake. Here is the famous stolen church which zealous and devout worshippers removed from Donald when its halcyon days were over. Across the lake some three miles on the opposite shore is the settlement of Invermere, with its shops and attractions, not forgetting the David Thompson Memorial Post and the C.P.R. bungalow camp.

Close by them is "Edenhowe," the estate of Captain Donald Adams, of the Imperial forces in India, of which Mr. Mat Craik is the guardian. Mr. Craik is a veteran of the Fenian raid of the 60s and 70s and also an old time wanderer of the western plains of the United States from amongst the Mandans and other warlike tribes. There is not an uninteresting moment for any boy who chums up with Mr. Craik.

Amongst other hikes the boys have gone up the Toby Creek road towards Paradise, under the direction of that veteran hiker, Mr. Charles D. Ellis, of Windermere; they have climbed to the heights of Mount Swansea and seen the new lookout station of the forestry branch and the deep sunken shafts and the ruins of the buildings of the old Swansea mine; they have gone south up the river and the chan-Landing and from there hiked up to the well known Fairmont Hot Springs and enjoyed the plunge in the swimming basin. The weather which has prevailed has been fine throughout, warm days, but not too hot; just sufficient in the way of showers of rain to lay the dust but not soak any person to the skin, all these with the excitement of the great pall of smoke which came from large but very distant forest fires, heightened as night fell by the lurid glare which lighted the southern sky from the blazing trees. All these were features and incidents in the life of the boys. On Sunday evening there was church parade to the stolen church at Windermere, to worship and to listen to the words of Scoutmaster Rev. F. B. Atkinson.

As a side issue, Mr. R. Randolph Bruce's strawberry bed and raspberry patch at Pynelogs were betimes placed at the disposal of those who cared for ripe luscious small fruits.

A baseball game with the local Indians on the Athalmer diamond finished the athletic feats of the boys' visit.

During their stay here the boys have been under the command of Mr. Reg. T. Rose, of Calgary, that city's Y.M.C.A.Boys' Work secretary, who holds the title of camp director. Mr. Roy H. Begg, the physical director at the Calgary "Y" was associate camp director.

The boys in attendance were: Allison Thomas, Herchmer Poyntz, Don White, Tom Petley, John Jamieson, Ken McCallum, George McFarlane, Barry Easton, Bill Peters, Ralph Hay, Percy Heselton, John Rounce, Stan. Conquest, Tom Bewick, George Bradley, Theodore Fisher, Les Sheraton, Cecil Wray, George Routledge, Jim McDougall, Frank Thompson, Jack Hutton, Don Little, Owen Conquest, and Frank Glover, cook.

One of the features of the camp was a visit by Mr. Leonard A. Wide, citywide secretary of the Y.M.C.A., of Nottingham, England, who is out in this country in the interests of immigration.

LAKE WINDERMERE NOTES

(Special to the Herald)

Amongst the visitors to Lake Windermere district who have come in by automobile to pay a visit here are Mr. Owen, manager of the Fernie branch of the Imperial Bank of Canada, who was accompanied by Mrs. Owen and children; Mr. Byron Harmon of Banff, who along with Mr. J. Murray Gibbon had been spending some time in the adjacent mountains. Mr. Gibbon is the chief of the publicity department of the C.P.R., Montreal, and is making his annual tour through this part, taking a particular interest in the first pow-wow of the Trail Riders of the Canadian Rockies.

General M. L. Hornby, of Surrey, England, who has large holdings both here and in the Lethbridge country, arrived by automobile from Cranbrook on Saturday evening. He is accompanied by Mrs. Hornby. The General is looking over his estate with the end in view of further development. It is more than likely he will take up his residence here until the opening of spring.

Mrs. A. E. Fisher, who for a number of weeks has been a patient in the St. Eugene Hospital at Cranbrook, has come home to convalesce.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free permits are available for settlers, campers and travellers up to ten head.

RESUME OF EAST KOOTENAY MINING

(Continued from Page One)

was first prospected as early as 1895. At an elevation of 3,800 feet a large open cut some four feet high and 30 feet deep marks the early attempts at mining a surface exposure of copper carbonates, from which, it is reported, some twenty tons of good grade ore was shown.

Windermere Mining Division

In the Windermere there has been about the usual amount of activity among the prospects, but no startling new developments have taken place.

The Paradise Mine, the old standby, which keeps the district on the map, as far as production is concerned, has had a good year and its output compares very favorably with that of other years. This years work consisted of 123 feet of drifting, 157 feet of sinking, 198 feet of raising and 1432 feet of stoping. The tonnage shipped to Trail totals 1,057 tons of silver-lead ore.

Work was also done at the Nettie M., on Toby Creek, where the old workings were cleaned out and timbered.

Phoenix Group:—It is reported that R. S. Gallop, an old timer in the district, has interested W. H. Holland in Fairmont Springs, in the development of his property, known as the Phoenix Group, at the head of Gallop, or South fork of Horsethief Creek.

J. P. Farnham, of New York, spent a few weeks on the properties of the Ptarmigan Mines at the head of McDonald Creek, where he made a very thorough investigation, after having had the ice cleaned out of the tunnels and the old open cuts dug out. Whether this will result in any further work being undertaken is not known.

Across Horsethief Creek, not far from the 15 mile post, J. McCullough and Larabee Bros. have been working on a low grade lead-zinc deposit. It is reported that they have built a short length of road to the property and are now building a cabin near their workings.

The White Cat Group, owned by J. C. Pitts, of Invermere, consists of 4 Crown-granted claims—namely, the Ground Floor, Heavenly Twins No.1 Heavenly Twins No. 2, and the White Cat. It is situated on Slade Creek about twenty four miles from the railway. The location is an old one, and like many others in this district, has been lying idle for a number of years; its inaccessibility during the period of development no doubt was a discouraging factor.

The installation of a light tram will be necessary to transport the ore from the workings to the trail in the creek bottom, some 600 feet below. It is understood that the property has been bonded to an Alberta company and that work will be resumed next year as soon as weather conditions will permit.

Relief Group—This group, comprising the Relief No. 1 and the Relief No. 2, is owned by Malcolm McCraik, of Invermere, and is situated on the southerly slope of Slade mountain, extending to the summit of the divide between Slade and law Creeks. From the base of the mountain the distance from the railway is approximately 23 miles. From the creek valley, the trail to the workings leads up a steep and rugged mountain side far above the timber line, and ends 600 feet below the tunnel in which work is being done.

The elevation of this tunnel is 9,350 feet above sea level. In 1917 a carload of ore was extracted from the outcrop at a short distance above the tunnel. This ore, consisting of lead carbonates and galena, was lowered a sack at a time to the end of the trail, but owing to heavy transportation costs, very little profit was made. W. R. and M. MacNeil, who were working the property under the terms of a lease, hoped to develop enough ore to warrant the erection of a light tram to the end of their rawhide trail. According to recent reports the development did not come up to expectations and they abandoned the property.

The Isaac Mine is being operated by the Invermere Mines, Limited, under the management of J. J. Coughlan, Jr. Six men were employed by the company and it is intended to continue operations until the weather gets too severe, probably toward the end of December. Work will then be discontinued till the spring (when the danger from slides is over), and the ore will be rawhided and hauled when there is sufficient snow on the trail and the roads. Thirty tons of ore was shipped.

Steele Group—This group was not operated during the year owing to lack of capital to carry on the development work. Shipments totalling 221 tons were made.

Fort Steele Mining Division

The immense concentrator at Kimberley, having a rated capacity of 3,000 tons per day, and built by the Consolidated Mining & Smelting Co.,, of Canada, was completed during August. This is probably one of the finest plants of its kind on the continent. Its design embodies the latest approved methods of fine grinding and treatment by the Mineral Separation and oil flotation process. The buildings, made of steel and reenforced concrete , are of excellent proportions throughout, allowing easy access to all the various types of equipment for inspection and repair, as well as room for additions where such are most likely to be needed.

The concentration of the complex lead-zinc ore of the Sullivan mine has occupied the attention of the company's metallurgists for a number of years and the installation of this plant was not undertaken until the results of experimental work allowed full anticipation of all details in connection with its design that would give the best separation and recovery of the metals at the least possible cost.

The satisfactory operation of the plant since power was first turned on fully demonstrates the wisdom of this policy.

When the plant was visited early in November, 1923, two thousand tons a day was being milled, which yielded approximately 250 tons of lead concentrates, averaging 68 to 70 per cent. lead, and 350 tons of zinc concentrates, averaging 42 to 44 per cent. zinc.

A metallic content of lead and zinc of 21 per cent. is aimed at for mill-feed.

Owing to a slight shortage of power the full thirty-six tables were not being used. This power shortage is only temporary and will be remedied as soon as the power plant at Elko, now under course of construction, is completed.

A camp-site for the men employed at the mill has been estblished on the flat at the base of the hill and within a convenient distance. Here substantial houses are being erected for the higher officials and good accommodation is afforded for the married and single men.

Many improvements have been made since last year, including the completion of the bunkhouses and cottages at the lower camp, where the married and single employees of the company are provided with the usual comforts and conveniences of modern times. Near the tunnel, the bins are of pleasing proportions and and at once significant of the immense flow of ore that is necessary to satisfy the new concentrator.

For some distance in from the portal, the tunnel known as the No.3900-foot level has been lined with concrete. Concrete posts replace the timber and steel I beams the caps. New mine tracks have been laid with 45 lb. steel, the gauge being 36 inches. Storage battery locomotives are used in development tunnels, while electric motors are used on the main haulage ways.

The 3,900-foot level is now into the hill for a distance of 11,000 feet. Development of the north ore body is being proceeded with and preparations are well under way for mining this immense ore body on a commensurate scale. Its length has not yet been determined by underground workings, but sufficient work has been done to demonstrate the existence of an immense tonnage between the 3900-foot level and the upper workings; between these the distance on the dip of the vein is about 1500 feet, in which length the vein swells a width of 170 feet. The ore deposit along this part of the vein consists of a massive body of iron, lead, and zinc sulphides. A long crosscut is now being driven due west in the foot-wall side; from this, tunnels parallel to the strike of the vein and about three hundred feet apart will be driven. From these tunnels ore chutes will be driven at an angle of 65 degrees, or normal to the dip of the evin. On the sill-floor mechanical shovellers will be employed to load the ore into the cars. Higher up in the stope the ore will be loaded into chutes by means of drag scrapers, which are now being employed in other parts of the mine. In order to support the roof of the stope, which dips at an angle of about 23 degrees to the east, pillars 100 feet square will be left at regular intervals.

At the present time about 1200 tons a day are being mined from the 3900 foot level and some 800 tons from the upper workings. All told about 600 men are employed at the mine and 50 at the concentrator.

The Stemwinder property, which is situated on Mark Creek at a distance of about half a mile westerly from the Sullivan tunnel, was originally owned by Sir Donald Mann and Sir William Mackenzie, deceased. It is understood that the property has now been acquired by the Stemwinder Mining Company, Limited, recently incorporated and that mining and milling operations will be conducted under the management of O. C. Thompson of Kimberley.

The workings are principally confined to a small area of ground in the creek bottom and consist of several tunnels driven into the hill in a southerly direction at a short distance above the creek level, also a seventy foot shaft sunk near the creek. These workings disclose the presence of a highly mineralized zone consisting principally of iron sulphides, with which are associated values in silver, lead and zinc.

To further explore the lateral and vertical extent of the ore, diamond drill holes were put down in recent years by the Federal Mining & Smelting Company, who had an option on the property. This work, together with the underground development, gives evidence that there is a large tonnage of probable ore, which runs sufficiently high in silver, lead and zinc to yield a good margin of profit if concentratde.

It is understood that arrangements have been completed for the erection of a 100-ton concentrator next spring.

The North Star property is situated on the south side of Mark Creek at a point almost due south of and opposite to the Sullivan mine. The elevation of the workings is 2560 ft. while the upper workings of the Sullivan are about 4,600 feet above sea level, and as the Sullivan vein strikes about north and south the two deposits may be closely related, although this has so far not been established by the development.

The property has had an interesting history, having first been opened up as early as 1895 by the North Star Mining Company, who are the present owners. At this time the ore body is said to have consisted of a deposit of galena lying in a basin almost at the surface, and is described as one of the largest and most compact bodies of galena ever found in the province. After this ore was mined out, exploratory work failed to prove its continuity or to locate new ore bodies, and in 1904 the mine was reported to be worked out. However, subsequent operations revealed the presence of large tonnages of good grade carbonate ore around the edges of the old stopes and overlying the galena ore body. Considerable tonnages of this ore were mined over a period of four or five years and a large bulk of it is said to have carried over 22 per cent. lead and 15 oz. of silver to the ton. After the property had been lying idle for a number of years it was taken over under the terms of a lease by O. C. Thompson and associates in 1918 and from this time till 1920 over 16,000 tons of lead-carbonate ore was shipped from the dumps and shallow surface diggings. The property is equipped with a Halliday aerial tram which is in good running order. It is proposed to work the property in conjunction with the Stemwinder should the contemplated concentrator at the latter property be installed.

The Aurora mine is situated on the west shore of Moyie Lake at a point almost opposite the St. Eugene mine. The property comprises a group of five claims and is owned by I. B. Sanborn, of Portland, Oregon, and associates. It is situated at a distance of about two miles from Aldridge, on the Canadian Pacific Railway.

A limited amount of drifting done from the bottom of the shaft discloses pockets of ore but no continuous body of ore of any appreciable dimensions.

A winze sunk from the upper workings connects with a drift on this vein, run from the end of a 20 foot crosscut from the main vein.

Since the Guindon group was visited in 1917 work has been confined to a lower tunnel driven into the hill from a point near the lake shore for a distance of four hundred feet in a westerly direction. About four tons of ore shipped from this part of the workings yielded average values of sliver, 7 oz. to the ton; lead 23 per cent.; zinc, 9 per cent. This level is connected with an upper level by an 80 foot shaft.

F. Guindon, of Moyie, who is one of the principal owners of the property, worked in the St. Eugene for many years and his knowledge of the large ore bodies that existed at this latter mine has been an incentive to explore the ground on the opposite side of the lake in the hope of finding a repetition of conditions. So far he has been unsuccessful but deserves a large amount of credit for the amount of work he has personally accomplished.

The Railway Mine Group comprises five claims, situated near the wagon road about five miles south of Moyie. The finding of iron stained material carrying traces of silver, lead and zinc, and lying under the detritus from the quartzite bluffs forming the crest of the ridge led to prospecting in an endeavor to find its source of origin. As the covering of detritus consisted of large angular fragments of quartzite and increased in depth as the work advanced, progress was slow and laborious. The work done during the summer consisted of the driving of several open-cuts, which showed a layer of iron-stained dirt lying immediately under the broken quartzite and on top of a compact glacial wash. Samples of the dirt at the side of the open-cut gave the following values, silver 1 oz., to the ton; lead 0.4 per cent. zinc, 0.5 per cent.

The Copper Belt Group, comprising a group of three claims, namely, Tillicum, Rob Roy, and Copper Belt, is controlled by W. S. Santo, of Cranbrook. The claims are situated on 6-Mile Hill, lying between the Cranbrook - Fort Steele road and the railway; hence excellent transportation facilities are available. The strata in the immediate vicinity of the workings are freely exposed in a bluff above the tunnel.

Among other activities in this Division the following may be mentioned: J. Angus was engaged during the season in doing further exploratory work on a silver-lead prospect situated on Hellroaring Creek. The Evans Brothers are reported to have done further work on their copper property, known as the Evans Group, on Whitefish Creek. Dewey Brothers continued development work at the Mystery Group on Alki Creek, which is also a copper property. J. F. Huchcroft directed further work on the Park group, near Marysville, from which 14 tons of silver-lead ore was shipped. At the Homestake, on Perry Creek, the workings were cleaned out and further exploratory work was done under the direction of N. A. Wallinger of Cranbrook. D. McIntosh is reported to have a small crew working at the Brenda Group, on Copper Creek near Skookumchuck.

Placer-Mining

On Wildhorse Creek the property of the Gamble Mining Company and other placer ground has been acquired by the Wild Horse Creekk Mining Company, in which Commander Pilcher and others are associated. The big ditch taking water from a point higher up on the main creek, is being overhauled and a new flume built, which work was being done in a substantial and workmanlike manner. Besides this, camp buildings are being erected and everything put in shape for next season's hydraulic operations. During previous years the scarcity of water has always been a serious handicap, but no danger of any serious water shortage is anticipated as soon as the new source of supply for the monitors is available. Every precaution is being taken by the company to ensure the success of the enterprise and if the values and yardage come up to expectations, the Wildhorse will again become a scene of placer-mining activity over an extended period.

On Perry Creek, A. J. Palmquist had a small crew of men working during the season. It is understood that he intends to put in a dam above the falls, but what progress has been made in this direction is not known.

LAKE WINDERMERE NOTES

(Special to The Herald)

Invermere, B.C., July 26.—Among others who attended the first powwow of the Trail Riders of the Canadian Rockies, who went from this part to the camp, were Mrs. Walter Nixon, the well known Guide and Miss Madelaine Turner who often officiates in that capacity. Both have done thousands of miles on horseback over the trails of the Rocky Mountains, and both are back, each wearing the gold badge of the new association. They made the trip from here and back with saddle horses and packs an expedition which kept them riding for at least five days each way.

—

Nature has a peculiar way of balancing things which is all her own. during last summer and through the winter an epidemic swept through the district destroying the domestic cat, and there was hardly a household but what mourned the loss of a domestic pet. This year the compensations and the disadvantages are apparent in the predominating increase in squirrels, gophers and mice. These are the disadvantages, but on the other hand, the trees and bushes surrounding the homes are full of birds nesting and bringing forth their offspring in peace and safety. A similar consequence is reported from the western prairies. There the coyotes roamed in numbers and the jack rabbit and the birds were kept down by them. A time came when by reason of the high price paid for his pelt, and the bounty, it was a profitable pursuit to hunt the coyote. This has resulted in the cutting down of their number and the consequent increase in the jack rabbit family.

—

The boys from the roarin' camp, those from the Y.M.C.A., who for a couple of weeks have made Brown's Bay be joyful, have gone back to their homes in the city, returning on Saturday per express truck over the Banff-Windermere road. There were some twenty-three in the number and in spite of bad omens they mostly say they will be coming around again.

—

Let those who believe in omens mark this. The last meeting of the Windermere District Board of Trade was its Thirteenth Annual; it was called for 13 o'clock on the thirteenth of the month. The record shows that thirteen members responded. Result: notice of motion calling for the discussion as to whether the Board should dissolve. There's luck in odd numbers in some cases but in this one it looks as though it might turn out to be a twenty-three.

—

Commander Arnold Sandwell's pleasure passenger carrying launch was christened the Helen B on Saturday. Mrs. William Wier was the sponsor, and broke a bottle of real champagne across her bows. The workmanship in her building and the ingenious manner in which the machinery from a Ford touring car has been converted into the power plant for this lake going craft reflects considerable credit on her owner, who was also her builder.

—

Word has just been received from Mr. M. J. Lorraine, of Alhambra, California, that his book, entitled "The Columbia unveiled," will be offered for sale about the middle of September at the price of $3.50. Mr. Lorraine, it may be remembered, bought lumber at Wardner in the early summer of 1921, built himself a 16 foot dinghy at Canal Flat, left that place in June of that year by himself, and navigated the whole of the Columbia river to its mouth, arriving at Astoria at the mouth of the "Great River of the West" some time in November of that year. Mr. Lorraine holds the distinction of being the one and the only person who made the continuous trip all the way by water over the fourteen hundred miles of the Columbia river from source to mouth.

—

On the evening of Saturday, the sixth of August, the members of the Windermere District Board of Trade which has been in existence overt thirteen years, will assemble to discuss a notice of motion as to whether or not the Board will be dissolved.

—

On the evening of the 2nd of August, the ratepayers of the Athalmer and the Invermere school districts, will assemble to make the final consummation of the union of the two school districts into the status of a consolidated school district. At present, each district, and they both border, has its own school and its individual teacher. It is hoped under the suggested arrangement to erect a two roomed school in some central place and have the combined attendance placed under the direction of two teachers in the one building.

—

It is reported that Jack Davey, well known camp cook in south-east Kootenay, and late restaurant keeper here, died recently at his new home in Summerland, B.C.

At the Movies

"THE COMMON LAW" A GREAT PICTURE WITH STRONG LOVE APPEAL

"The Common Law," which is the big feature picture at the Star Theatre this week-end, Friday and Saturday, is one of the outstanding films of the season. Besides the strong cast, it has a powerful theme, one that is constantly talked about, and about which there is eternal questioning.

Louis Neville—artist and aristocrat, is working on a great mural decoration which he had been commissioned to paint for a theatre when pretty Valerie west applies to him for employment as a model. Not realizing that she is a novice and not a profesional, he motions her to the dressing room and indicates that she is expected to disrobe and pose for him in the nude. Poor Valerie is almost overcome with shame at the mere idea, but overcomes her scruples after a desperate struggle. Neville engages her as his regular model and their mutual liking soon ripens into love. Neville's sister, Lily, hears of her brother's infatuation for his model. Thinking that he may disgrace the family name, she calls on Valerie and declares that if she persists in her affair with Neville she will ruin his life. Valerie promises that she will not marry him.

Weeks go by and Valerie persists in her avoidance of Neville. On New Year's Eve she joins a gay party and Neville, who is there also, discovers Valerie standing on a banquet table, throwing roses at the crowd. He starts to leave the restaurant, but Valerie deserts her companions, follows him from the room and insists on accompanying to his studio.

Once there Neville asks Valerie to marry him, but remembering her promise to his sister, she refuses. He urges her to become his wife, and she declares that she will do so under the common law. He indignantly declines to accept such a sacrifice from her, but when he realizes that she will not come to him in any other way, he reluctantly consents, and she sets June first as the day on which she will come to him.

Neville visits his family in his beautiful country home, and endeavors to persuade them to welcome Valerie as a daughter-in-law, but is repulsed.

Valerie, visiting in the country, is overtaken by a violent storm. She takes shelter in an empty lodge which is owned by Cardemon, the fiance of Lily Neville,. While she is there, Cardemon enters and seizes her in his arms. Valerie struggles, breaks loose, and lashes him furiously across the face with a dog whip. She rushes from the lodge out into the raging storm, and arrives eventually at the Neville homestead. They take her in and the doctor assures them that while Valerie is unharmed physically she has undoubtedly suffered a severe nervous and mental shock. He adds that he has just been treating Cardemon whose face bears welts which might have come from a whip similar to that which he has just taken from Valerie's clenched hand.

The next morning the room occupied by Valerie is found vacant, and Neville searches everywhere for her, but weeks pass and he is unable to obtain the slightest clue as to her whereabouts. On the night of June first Neville's father calls on him in his studio. While he is there Valerie comes to keep her bargain. Mr. Neville assures her that the family will welcome her as his son's wife and begs her to forgive their former attitude. He closes the door behind him as Neville takes Valerie into his arms.

"THE GUILTY ONE" SHOWS HOW HARD IT IS TO REFORM A CROOK

How hard it is to break away from associates of a shady nature is shown very pointedly in "The Guilty One," which will be seen at the Star on Wednesday and Thursday of next week, as the mid-week feature.

Well did Mother McGinn understand the temptations which lurked about San Francisco, because her husband who found it a field for operations, landed in jail where he died.

She brought up her child, Mary, in ignorance of the kind of a life her father had led, sending her to school from which she was later dismissed as an undesirable because she innocently aided in the escape of Boston Blackie, a clever crook.

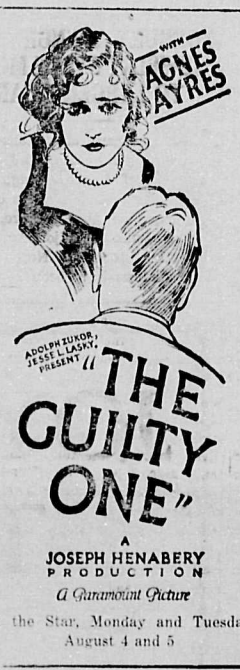
This accidental meeting grew to love and a promise by Blackie, that he would "go straight."

Fate again stepped in and Mary again meets Blackie at the home of her mother. Seeing the woman he loves in such a background, Blackie's love crumbles away and he again finds the ways of the gang easiest. Mary overhearing the gang planning a robbery and desperate lest he be put behind the bars again, hits upon a scheme to force him to give up this kind of life.

She appears in their dive in Chinatown and insists she, like her father, has crook blood in her veins.

Mary plans a fake robbery. Blackie becomes infuriated at her intentions to become involved in the workings of the gang and at the last moment he refuses to go through with the robbery and decides to give up the underworld life for ever.

In the meantime one of the gang had turned stool pigeon and discloses to the police the whereabouts of Blackie. The house is surrounded and through a clever coup, Blackie gets the "drop" on the prison warden but declines to take unfair advantage. The warden, realizing the good deed, gives Blackie his parole and Mary and he are later united and go the straight way.



At the Star, Monday and Tuesday, August 4 and 5

DO YOUR WORK AT NIGHT? THEN SEE THIS PICTURE AT THE STAR

Men who are prone to work a lot at night should be interested in the picture "Through the Dark" to be seen at the Star Theatre Monday and Tuesday next, for it shows how the best of intentions are liable to be misunderstood.

Irene Short is the young wife of an ambitious architect who believes in working at night. The wife, persuaded by another married couple who find their amusement in the cafes, goes out with them, accompanied by Davies, a wealthy man about town. Davies tells the wife he is chairman of a committee which is to pick the architect for a wonderful museum building. To help her husband to get this appointment the wife continues her innocent friendship.

A publication begins to hint of the affair between the wife and Davies. It prints a story.

Both the husband and the brother of the girl are infuriated. Separately they proceed to Davies' apartment.

Police find Davies murdered. The brother is captured running excitedly from the house while it is proved the husband was also with Davies who appeared much agitated upon his arrival. Both are enmeshed in a net of circumstantial evidence. Who is the guilty one?

The pair are taken into custody, and an examination brings out the individual story of every one concerned. At the critical moment Irene tells a suppositions story that can be reconciled to the stories of the others—it ends with a dramatic accusation and forces a confession.

LUMBERTON CHIPS

The Old Nutts and the Hard Nutts of the Lumberton Sawdust League fought out one of the league games on last Tuesday evening, the final score being 13-3 in favor of the Old Nutts, and it was some game. Several changes had been made in the lineup and some good playing resulted. Paul was on third after his very strenuous trip around the loop and did well considering the circumstances. Second baseman, Manager Robson had a ripping time of it while Gasoline Avery distinguished himself for the Hard Nutts out in the left field. Jake went away disappointed, for Bob Mitchell managed to protect him from receiving any balls out in the right field, so Jake's fielding average is still untarnished, but his stealing sort of put a damper on his glory. The game on Thursday night between the Soft Nutts and the Old Nutts wound up in a 6-5 win for the latter and also netted them first place in the league unless the Hard Nutts take it upon themselves and insist on playing off the tie game. The game was close from the start and was tie up until the end of the first of the seventh when the winning run was shoved across the plate. There were no double plays recorded but the game was fast and was well over before the light became too bad to play by. The final game of the schedule will be played some time this week between the Hard and Soft Nutts, which might result in a tie for second place. Fred Andrew is chief of the fire department and also one of the main cogs of the Hard Nutts so it seems a little odd that he should call a fire drill on Tuesday evening, which is the time chosen for the final game, must be that he is stalling for time. The winner of the prunes has not yet been announced.

Mr. Roy Issler celebrated his natal day last Tuesday evening. He had several of his friends in to help him celebrate the occasion.

Miss Waldo, who has been spending the past month at the home of her sister, Mrs. H. Conroy, returned to her home in Regina last week.

Mr. C. Deboise, who had the misfortune to break his arm while employed in the lath mill some time ago, left for his home in Regina last week.

Mr. D. F. White, better known as "Dart," who has been employed as camp clerk at camp 2 for the past year and a half, left for Longview last week, where he will seek employment.

Mr. Hall, of Calgary, secretary of the Alberta Pacific Grain Co., was a Lumberton visitor last week. During Mr. Hall's stay he made a trip up to camp 1 and looked over the operations of the B.C. Spruce Mills.

Mr. Frank Wilson, representative for the Simmonds Saws, spent several days in Lumberton last week as the guest of Mr. and Mrs. G. C. Robson.

The regular weekly meeting of the Lumberton Club was held last Wednesday evening. Cards were played during the early part of the evening, prizes being awarded to the following: Mrs. J. A. Jones and Mrs. G. S. Smith ladies' first and consolation respectively and Messrs. E. Wood and and W. Griffiths taking the same relative positions for the men. A delightful lunch was served by the committee in charge which was followed by dancing until midnight. The social committee has made plans for a hard time which will take place this Wednesday evening.

Mrs. G. Smith and Miss Millington of Cranbrook, spent last Wednesday afternoon and evening at the home of Mr. and Mrs. O. N. Jacobson.

Mrs. L. T. Dwelley and daughters, Phyllis and Constance, left for Vancouver on Monday of this week, where they will visit with Mrs. Dwelley's mother. Mr. Dwelley accompanied them as far as Nelson, returning on Tuesday's train.

An interesting ball game was held on the Lumberton diamond last Sunday afternoon when the Vics and the Yahk team met. The game resulted in a win for the Vics by a score of 7-3. The game was attended by a good crowd of Lumberton people as well as a large contingent of rooters from both Yahk and Cranbrok.

Misses Gene and Kathlen Downey of this town left for Nelson on Monday of this week where they will be employed.

Andy Christensen, who is employed in the power house, is confined to his home this week owing to a slight illness. Pat thinks it is due to the strenuous game Andy played on first one day last week.

The Lumberton ball team journeyed to Wardner last Sunday and played a return game on the latter's diamond. The score was somewhat altered from the previous game and the position now is a win to each. The score of Sunday's game was 7-3. Thompson of Wardner had the local aggregation biting at his high ones and managed to pull through with a win. The final and deciding game will be played a week from this Sunday on the Lumberton diamond and the locals are anxious to make it the second win over Wardner. Bob Mitchell pitched a good game for Lumberton but he was not accorded the support he should have had. The following is the lineup:

Lumberton

Roy Issler, Roy Joyce, rf; Shorty Mills, 2b; Jim Mason, c; Bob Mitchell, p; Pat Downey, ss; Les Dwelley, lf; Adolphe Woodske, cf; Lyle Klug, 1b; Pete Tabahak and Bob Waterston, 3b.

Wardner

P. Hurry, rf; Sam Thompson, ss; Ben Eubree, 2b; H. Thompson, p; B. Markle, 1b; E. Thompson, rf; Scanlon, cf; Jack Dowe, 3b.

Harvey Piper, manager of the Lumberton ball team, has scheduled a game with the Concentrator, at Kimberley, for the coming Sunday, to be played at Kimberley.

Jap Walton, Ole Olson and Harry Whitehouse, three of Lumberton's enthusiastic fishermen motored to Gold Creek on Sunday in quest of som of the members of the finny tribe. They did not succeed in catching the limit but they certainly solved the mystery of the Gold Creek bridge. Jap was the main spectator and has not fully recovered. In the future the three of them might take a motion picture camera and a pair of field glasses to conduct their observations a little farther and cover a little more territory. Ole and Harry are of the opinion that Jap does not really need them for he does very well without under the conditions.

After the game at Wardner last Sunday, the members of the Lumberton ball team stopped in Cranbrook for supper. Shorty Mills and Cave Caverley started things when Shorty executed some gymnastic stunts on the street while Cave considerately passed the hat for what he said was an ice cream fund for those present. The ice cream did not materialize for Cave invested in some queen tickets instead. Stan must have been the instigator of the affair for he happens to be the young lady's champion in Lumberton. Cave is up against it, for he can be called on two charges either for misappropriation of funds or for desecrating the Sabbath in Cranbrook especially since a collection was taken on the broad high road.

Misses Frances and Margaret Trussler successfully passed their entrance exams, and are now quite happy that it is all over.

Pat Walsh is a little worried these days for his ball team is somewhat disorganized owing to the interference of the law last Sunday evening in Cranbrook. Andy, Flash Corbett and Bert Dobson are also on the sick list, so he is hoping that Tom won't start any activity for some time, at least until Pat can assemble his forces again.

Lumberton has a deserted appearance on Sunday during this warm weather for picnics are numerous. Green Bay being about the most popular place for the picnicers. The water is fine for swimming and the distance is only a few miles. Munroe is also very popular, especially with the fishermen. Last Saturday evening John Bakken, Fred Holton and Andrew Lindman left for Munroe and spent Saturday evening and all day Sunday on the Lake. They succeeded in landing a fine mess of trout, Fred catching one that measured twenty inches.

Henry Geigerich, Jr., has accepted a position with the Engineer Mine at Atlin, as surveyor and assayer. He left on Monday morning for Vancouver, from where he sailed yesterday. This is a gold property and has been in litigation for some time back, and is now being worked again.—Kaslo Kootenaian.

Ratcliffe & Stewart, the local agents for the Nash Motor Co., are in receipt of good news in regard to the new 1925 models of this popular car. Their principals assure them that it will far surpass anything as yet produced in the auto line, and that descriptive literature with regard to it will soon be ready for distribution. Persons considering the purchase of a new car would do well to make enquiries of the Nash agents here before making a choice. 23

WOMEN'S INSTITUTE

The regular monthly meeting of the Women's Institute will be held in the K.P. Hall, on Tuesday, August 5th, at 3 p.m. **A full attendance is expected.**

There is a

Dr Scholl

Appliance or Remedy For Every Foot Trouble

YOU ARE INVITED

To attend the Free Demonstration to be given in this store by one of Dr. Scholl's Foot Experts, on

AUGUST 18th and 19th

If you have tired, aching feet, come and consult with this expert. It will cost you nothing for the advice. You may require some appliance to remove the trouble, but if you do not require any you will be told so.

Many persons have come to us complaining of having rheumatism in their feet and legs. After examination it was found that fallen arches were the cause of all the pain and trouble.

"If my feet would only quit aching, I would just feel fine," is a remark we often hear. In nine cases out of ten a foot appliance will remove the aching.

Come and get the free advice anyway.

AUGUST 18th and 19th

THE FINK MERCANTILE CO. LTD. CRANBROOK B.C. MAIL ORDER HOUSE

NORBURY AVENUE JEWELRY STORE MOVES TO LARGER QUARTERS

The necessary alterations to the place having been completed, the jewelry store of A. Earle Leigh was on Wednesday moved from its old location next the Star Theatre, to the Haslam Building, adjoining the Co-Operative store, on Norbury Ave. The windows have been changed to allow of adequate displays, which can be shut in, and lighting has been arranged from the top. The interior has been newly decorated, more lighting fixtures have been put in, and at the rear of the store rooms have been provided for other purposes.

The store opened on Thursday in its new location, and by the move gains greatly increased floor space, giving more adequate room for the display of goods.

Norbury Avenue is showing substantial progress as a business street in the changes that have taken place there this week.

The new style of postoffice money order came into use at the first of the month, and those who receive them are notified that unless they are presented for payment within thirty days of issue, at least a month's delay will occur while the postmaster writes Ottawa to get the necessary authorization to pay overdue orders.
