Freetown Jan 28/58

Dear Mother,

I think there is a post to-morrow so hope this reaches it. To-morrow A.M. at 8 a car will pick me up & I go to a place called Bo about 150 miles or so out into the country. I expect it will be even better than Freetown and very dusty. However I guess a little hardship is good for me.

I have seen the hospitals here. Unfortunately the Matron is ill in Hospital. I met her just briefly to-night. That accounts for her not meeting me. The Director of Medical Services & his wife have been very kind and I had lunch at their home to-day.

I will be back in Freetown Fri afternoon. Have dinner with a Sierra Leone doctor & his wife who used to be in W.H.O. He is now Minister of Lands here.

Then I leave for Accra at 10 Sat a.m. I won't have much time to think about the heat!

Haven't seen a daily paper since Jan 22nd. It's terrible being so out of touch. I hope it will be better in Accra.

Must crawl under my mosquito net now.

Love,

Lyle
