GENERAL FLOAT

Nelson will hold a celebration on Dominion Day.

In Fernie they give "O. B. Joyful" dances.

The last census gives Seattle a populatioofn 313,781.

Boys grow most rapidly in their 17th year; girls in their 15th.

The Royal Bank of Canada is opening a branch in Cranbrook.

A whole carload of St. Eugene ore will be on exhibition at the Seattle fair.

Bob Edwards is moving the Eye Opener from Calgary to Toronto.

James Cronin was in Vancouver the other day enroute to his claims up in the Babine district.

Sturgeon 9 feet long and weighing 350 pounds have been caught in the Kootenai river near Bonners Ferry.

The value of the Trail smelter's product for April was $507,008, establishing a new record for the plant.

The newest hat creation is the "bell," so named from its shape. It is a developement of the "waste paper basket" and the "peach."

The Chicago city council has removed the limit on the height of women's hats. They have passed an ordinance to the effect that all awnings must be eight feet six inches above sidewalks, so as to enable women to wear hats of any shape or size that pleases their fancy.

Children Had A Picnic.

Nearly all of the children in town Victoria Day were taken to Aldridge and were given a free hand to enjoy themselves. Many of the parents and others also went along and had an equal amount of fun with the children. There were about one hundred in the bunch. Mr. MacKay generously donnated the boat "Echo" and this was towed to the foot of the lake by two gosoline launches. At the grounds there were games and various sports, and plenty of refreshments for all. A. L. McIntyre and Miss Pike, of the public school, did everything possible to make the time pleasant for the children. Ben Evans and "Dick" Brown gave the use of their launches and towed the big boat to the foot of the lake and back to town again, and everyone who attended wish to thank them for their splendid work.

Two New Cottages.

P. F. Johnston, of the Moyie hotel, is having two neat cottages built on his lot on Tavistock street, about opposite the school house. Work on the buildings is well under way. Each will be 24x24 feet, with a wing 12x12 feet. Calder Bros. have the contract.

Farewell for Mr. Collis.

There will be a farewell given to Rev. Mr. Collis in the Methodist church next Tuesday evening commencing at 8 o'clock. Price of tea will be 25 cents.

Rev. R. E. Collis will leave next Wednesday for Vernon, where he will have charge of a church for three or four months. He will leave there in October and will attend college in Toronto.

Another Store for Moyie.

About June 10th Crowe Bros. & Co., will open a store in the Conrad building on south Victoria street, in the location formerly occupied by J. W. Fitch. They will handle groceries, gents' furnishings and dry goods.

Moyie Has a Bank.

The Imperial Bank of Canada has established a branch in Moyie. As temporary quarters a room in the Central hotel facing on Queen's avenue will be occupied, but it is the intention to select a lot in a good location and put up a building. There are two sites under consideration. One is on the corner of Victoria street and Queen's avenue, next to R. Campbell's store, and the other is on the corner opposite the Kootenay hotel. Either location will be in the centre of the business part of town. This branch will be under the jurisdiction of the Imperial Bank at Cranbrook, and J. F. M. Pinkham will be the manager. He will come up to Moyie several times each week. One of the men to be stationed here is C. E. Swannell of Nelson. The fixtures for the bank are being installed and the institution will be ready for business next Monday or Tuesday.

Lodges Elect Officers.

The following officers were elected by the Odd Fellows and Knights of Pythias at their regular meetings held this week:

ODD FELLOWS.

Louis Collin, noble grand; Fred Ege, vice grand; F. J. Smyth, secretary; N. W. Burdett, treasurer. Trustees—H. Sait, H. J. Lowes and A. G. Monkhouse.

KNIGHTS OF PYTHIAS.

P. J. McAlpine, chancellor commander; Cecil McMillan, vice-chancellor; A. J. Flood, prelate; B. E. Taylor, master of works; E. A. Hill, keeper of records and seals; A. S. Roberts, master of finance; C. A. Foote, master of exchequer; A. Gill, master at arms; J. Walters, inner guard; Jas. Peacock, outer guard. Trustees—A. G. Monkhouse, C. A. Foote, K. D. Stinson.

The New Postoffice.

Postmaster R. A. Smith has given Moyie a splendid postoffice building. It is 18x40 with a 12 foot ceiling, and is substantially finished both inside and outside. It is one of the best lighted places in town. Calder Bros. were the contractors. Mr. Smith intends putting in a stock of stationery, cigars, fruits, etc.

Opening Icecream Parlor.

E. G. Gwynne has taken over the agency for the Hazelwood icecream from J. H. Hawke and will open an icecream parlor in his store in the portion formerly occupied by the postoffice. He has ordered his fixtures and expects to have them installed in a week or ten days, when he will be open to handle this branch of the business.

Boat and Rod Club.

At a meeting held last Wednesday evening a Boat and Rod club was formed in Moyie. R. Campbell is president and Hugh Ross is secretary-treasurer. The club will work for the better promotion of boating and fishing, and will act as an information bureau for those wishing to come here for outings during the summer months.

Aurora Meeting Called.

Circular letters are being mailed to the shareholders of the Aurora Mining and Milling Company, Limited, notifying them of the ordinary annual meeting of the company which will be held in McGregor hall, Moyie, on Tuesday, June 8th, at 7 o'clock p. m.

Goodeve Coming Home.

A. S. Goodeve, is on his way home from Ottawa, and will reach Rossland today or tomorrow.

LOCAL ASSAYS

There are no idle men in Moyie.

J. L. Gibbons is moving to his farm in the Kootenay valley.

Wm. McDougall, draughtsman at the St. Eugene, will leave with his wife for the east shortly.

Arthur Sampson, chief constable for South East Kootenay, was up from Fernie this week.

There are still some patches of snow to be seen on the mountain tops opposite Moyie.

Don't allow your miners' licence to lapse. Have it renewed before May 31st.

Mrs. S. F. Morley, of Cranbrook, was spending a few days in Moyie the guest of Mr. and Mrs. Kempston.

J. Seigle of Michel will open a store in the Hanson building on south Victoria street, better known as the Flatiron building.

Walter Laing's building opposite the Hotel Kootenay is to be moved down back of the hotel on the property of Wm. Mills.

Algot Johnson has moved his laundry from the Peterson place, opposite the Moyie hotel, to the Marks cabin, where hand laundry was located.

The interior of P. Burns & Co.'s meat market is receiving a coat of paint and the appearance of the place is improved greatly. It is being done in white.

FOR SALE—No. 9 cook stove, almost new, heating stove, bedstead, spring and mattress, four chairs, center table, chairs and cooking utensils. Apply at Leader office.

The members of the Moyie junior baseball team are getting active. They will come out some of these days with a brand new outfit that will astonish the natives.

Presbyterian church. Services on Sunday at 11 a. m. and 7:30. Evening subject "The Victorious Life." Mrs. H. Deagon, and Mr. Paton will sing a duet. Everybody invited.

Rev. P. A. Peterson of the Scandinavian church, held service at the Manhattan hotel last Saturday evening, and spoke in his native tongue. Sunday evening he conducted the regular service in the Presbyterian church, and spoke in English.

Rev. R. E. Collis will preach his farewell sermon on Sunday evening. The subject will be "The Way to Get On in life." Services at 11 a. m. and 7:30 p. m. Strangers will be made heartily welcome at both services.

Preparing for the Big Day.

The next meeting to further discuss plans for Moyie's big celebration on Dominion Day will be held next Monday evening in McGregor hall. Everything is going along smoothly, and the various committees are doing the work laid out for them. The grounds at Aldridge park have been enlarged and are being put in good shape. They will probably be fenced by the day of celebration. The baseball and football games will be the big events, but there will be an abundance of lesser attractions.

Call for Tenders.

Sealed tenders are called for the building of a lodge room and opera house by Wildey Lodge No. 44, I. O. O. F. Plans and specifications can be seen at R. Campbell's store on and after Monday, May 31st. All tenders for the work must be in by Monday noon, June 7th.

BUILDING COMMITTEE.

An Ordained Man.

The Rev. J. W. Miller, B. A., the new pastor for the Methodist church, is an ordained man. He is expected here to preach on the first Sunday in June.

We are showing a nice assortment of
SUMMER - - - - - HOSIERY
in plain and fancy in a large range of colours and patterns. Our men's fancy brown half hose in Florenza silk has been one of our best sellers.

In SUMMER - - UNDERWEAR
we are complete in such lines as French Balbriggan and Pourous Knit. Just a little early for these but we have also a line a little heavier in a mixture of cotton and wool.

MacEachern & Macdonald.

Inspected Moyie's School.

A. Sullivan, the newly appointed inspector of schools for this district, was here during the week. So far as the teaching was concerned, he was well pleased with the progress the children were making in both departments, but was surprised to find such wretched school accommodations. In the junior department some 60 children are huddled together, and the room has neither good light nor ventilation. The conditions in the senior room are not so bad, but are far from perfect. Inspector Sullivan and the three trustees went into the matter thoroughly, and came to the conclusion that the only way out of the difficulty is to procure a new site and put up a two story building with four rooms.

Use Tailings As Ballast.

The tailings from the St. Eugene concentrator are to be put to good use. The C. P. R. is at present putting in a siding on the west side of the track near the old slime plant and will load cars from the big pile of tailings which has accumulated. These tailings will be used as ballast on various parts of this division of the road, and will be the finest kind of material for this purpose. There will be practically no end to the supply, for about 400 tons of this material is carried off from the mill in a flume to the dump on the west side of the track every 24 hours.

Fast Trains for K. V. Ry.

Creston Review:—It is rumored that the Great Northern Railway intend running fast trains over the Kootenay Valley railway, between Kuskanook and Bonners Ferry, to connect with the G. N. for Spokane and the Kootenay lake boats at Kuskanook. A section foreman and a large crew of men are now putting the track in good shape for traffic below Creston.

Opening the Seattle Fair.

At 11 o'clock next Tuesday the gates of the A.-Y.-P. exposition at Seattle will be thrown open to the public. The investment of the fair stands the promoters over a million and a half dollars. A full return of the investment made by stockholders is not anticipated, but the exposition officials believe from 50 to 75 per cent will be returned and a big effort is to be made to that end.

The New Hall and Opera Hall.

The building committee for the Odd Fellows hall and opera house are calling for tenders in this week's Leader. On and after next Monday the plans and specifications can be seen at R. Campbells store, and tenders must be in by noon on Monday, June 8th

The Cranbrook Races.

Over 150 people from Moyie attended the races and games at Cranbrook on May 24th and 25th. The special train accommodations were better than ever before, and the trains were run on the schedule time advertised. But it is safe to say that the majority of the people from here were as much or more interested in the baseball and football games as they were in the races.

The Moyie baseball team and Moyie football team won victories over the Cranbrook teams. In the baseball game the score was 5 to 4, and the football match was 1 to 0.

In the baseball match some clever work was done by Ray Crissler, formerly of Spokane, the pitcher for the Moyie team. In the game which lasted two hours 15 were struck out by him, and he only allowed five scattered hits. He also pitched himself out of the hole several times. The line-up of the team was: Grady, catcher and captain; Crissler, pitcher; Kamm, first base; Seaton, second base; Holland, third base; Helsley, short stop; Kelly, left field; Crowe, center field; McIntyre, right field.

In the football match neither side scored in the first half. Ten minutes before the finish Potter scored for the home team. The lineup was: Perkins, goal; Chamberlain and Gill, backs; M. Marshall, Potter and Wilson, half backs; Crowe, Hillary, B. Marshall, Weaver and Kemp, forwards; Herb Jackson, traine.

May Not Be of Moyie.

In the Stettler (Alberta) Independent of May 19th is an account of the suicide of a Frank Swan, age 21 years, at Red Willow not far from that town. The body was found in a water tank of a ploughing outfit with which he was working. The young man evidently first cut his throat and then jumped into the tank.

It is known that Frank Swan who lived in Moyie is in the vicinity of Stettler with his brother Harry, but there is nothing to show conclusively that he is the party referred to. The report says he had lived at home with his parents at Red Willow.

C. P. R. Rates to A.-Y.-P.

As will be seen by the company's adv. in another column, the C. P. R. will give a rate to the Seattle fair from Moyie of $25 for the return trip, final return limit 60 days. The sale of tickets starts today.

FOR SALE—Eleven hundred and ten shares of Moyie Water stock. Price 30 cents a share. Apply to F. J. Smyth

JANE CABLE

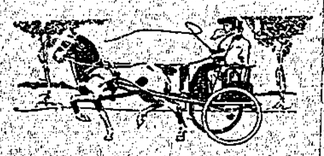
By

GEORGE BARR McCUTCHEON,

Author of "Beverly of Graustark," Etc.

Copyright, 1906, by Dodd, Mead & Company.

(Continued.)



CHAPTER II.

THE general manager of the Pacific, Lakes and Atlantic Railroad system had had a hard struggle of it. He who begins his career with a shovel in a locomotive cab usually has something of that sort to look back upon. There are no roses along the pathway he has traversed. In the end, perhaps, he wonders if it has been worth while. David Cable was a general manager. He had been a fireman. It had required twenty-five years of hard work on his part to break through the chrysalis. Packed away in a chest upstairs in his house there was a grimy, greasy, unwholesome suit of once blue overalls. The garments were just as old as his railroad career, for he had worn them on his first trip with the shovel. When his wife implored him to throw away the "detestable things" he said, with characteristic humor, that he thought he would keep them for a rainy day. It was much simpler to go from general manager to fireman than vice versa, and it might be that he would need the suit again. It pleased him to hear his wife sniff contemptuously.

David Cable had been a wayward, venturesome youth. His father and mother had built their hopes high with him as a foundation, and he had proved a decidedly insecure basis, for one night in the winter of 1863 he stole away from his home in New York. Before spring he was fighting in the far southland, a boy of sixteen carrying a musket in the service of his country.

At the close of the civil war Private Cable, barely eighteen, returned to his home, only to find that death had destroyed its happiness. His father had died, leaving his widowed mother a dependent upon him. It was then philosophically he realized that labor alone could win for him, and he stuck to it with rigid integrity. In turn he became brakeman and fireman. Finally his determination and faithfulness won him a fireman's place on one of the fast New York Central "runs." If ever he was dissatisfied with the work, no one was the wiser.

Railroading in those days was not what it is in these advanced times. Then it meant that one was possessed of all the evil habits that fall to the lot of man. David Cable was more or less contaminated by contact with his rough, ribald companions of the rail, and he glided moderately into the bad habits of his kind. He drank and "gamboled" with the rest of the boys; but, by nature not being vicious and low, the influences were not hopelessly deadening to the better qualities of his character. To his mother he was always the strong, good hearted, manly boy, better than all the other sons in the world. She believed in him. He worshiped her, and it was not until he was well up in the twenties that he stopped to think that she was not the only good woman in the world who deserved respect.

Up in Albany lived the Widow Coleman and her two pretty daughters. Mrs. Coleman's husband died on the battlefield, and she, like many women in the north and the south, after years of moderate prosperity was compelled to support herself and her family. She had been a pretty woman, and one readily could see where her daughters got their personal attractiveness.

Not many doors from the boisterous little eating house in which the railroad men snatched their meals as they went through, the widow opened a book and news stand. Her home was on the floor above the stand, and it was there she brought her little girls to womanhood. Good looking, harum scarum Dave Cable saw Frances Coleman one evening as he dropped in to purchase a newspaper. It was at the end of June, in 1876, and the country was in the throes of excitement over the first news of the Custer massacre on the Little Big Horn river.

Cable was deeply interested, for he had seen Custer fighting at the front in the sixties. Frances Coleman, the prettiest girl he had ever seen, sold him the newspaper. After that, he seldom went through Albany without visiting the little book shop.

Tempestuous, even arrogant in love, Cable, once convinced that he cared for her, lost no time in claiming her, whether or no. In less than three months after the Custer massacre they were married.

Defeated rivals unanimously and enviously observed that the handsomest fireman on the road had conquered the most outrageous little coquette between New York and Buffalo. As a matter of fact, she had loved him from the start; the others served as thorns with which she delightedly pricked his heart into subjection.

The young husband settled down, renounced all of his undesirable habits and became a new man with such surprising suddenness that his friends marveled and—derided. A year of happiness followed. He grew accustomed to her frivolous ways, overlooked her merry whimsicalities and gave her the "full length of a free rope," as he called it. He was contented and consequently careless. She chafed under the indifference, and in her resentment believed the worst of him. Turmoil succeeded peace and contentment, and in the end David Cable, driven to distraction, weakly abandoned the domestic battlefield and fled to the far west, giving up home, good wages and all for the sake of freedom, such as it was. He ignored her letters and entreaties, but in all those months that he was away from her he never ceased to regret the impulse that had defeated him. Nevertheless he could not make up his mind to go back and resume the life of torture her jealousy had begotten.

Then the unexpected happened. A letter was received containing the command to come home and care for his wife and baby. At once David Cable called a halt in his demoralizing career and saw the situation plainly. He forgot that she had "nagged" him to the point where endurance rebelled; he forgot everything but the fact that he cared for her in spite of all. Sobered and conscience stricken, he knew only that she was alone and toiling; that she had suffered uncomplainingly until the babe was some months old before appealing to him for help. In abject humiliation he hastened back to New York, reproaching himself every mile of the way. Had he but known the true situation he would have been spared the pangs of remorse and this narrative never would have been written.

(To be Continued.)

Walking Over the Fire.

On the anniversary of the twentieth day after the death of Imam Hussain, which fell recently, the usual ceremony of walking over the fire, which is held annually at Mushirabad, a suburb of Hyderabad, took place in the presence of a crowd which was greater than in past years. "Walking over the fire," is a wonderful sight. Two or three carloads of firewood are gathered in an open space in front of the "Ashoorkhana," and at midnight the wood is set on fire. This takes about two hours to burn, and the heat is so great that no one can stand within a distance of at least a dozen yards from the fire. After the fire has burnt out, the live charcoal is spread out evenly on the ground in the form of a circle. When everything is ready, two men jump barefooted into the fire and walk across the fiery carpet, not once, but at least a dozen times. The heat from the glowing embers is fiercer than when the wood was burning. The example of the two men is followed by several hundreds. The strangest feature of the ceremony is that not a single man receives any injury. Even children of all ages jump into the fire and run across it without the least hesitation, and all seem to be at home. The only effects after passing through the ordeal seems to be that one perspires profusely.

Marianne Farningham Dead.

Thousands residing in Canada have read at some time or other those novels which appeared in weekly form in The Christian World, and were afterwards reproduced in book form at the customary price of three shillings and sixpence, and have had a most extensive reading in the novel religious world only equalled by those of Edna Lyall and other authors of the serio-religious school which has found such a following among the religious readers of to-day. Miss Hearn, better known as Marianne Farningham to readers of religious papers for the last half century, died a few days ago in a boarding-house at Barmouth, to which she was taken a day or two ago before her death on her arrival from Northampton. She was 74 years old. Miss Farningham was editress of The Sunday School Times, and for 52 years she never missed a contribution either of prose or verse to the Christian World, for which she wrote her first poem in 1857. Many of her verses have become standard hymns, which are sung every Sunday in thousands of churches throughout the world.

Longshoreman George.

Lord George Hamilton is known by a few of his intimates as "Longshoreman George." The name is the sequel of an old joke. One night, many years ago, Lord George had to respond at a dinner to the toast of the Admiralty, but between the toast and his speech a well-known comic singer was called upon for a song. This genius chose "The Longshoreman," with its chorus, declaring that its "hero ain't no sailor bold, and he never was upon the sea."

Accounted For.

Old Lady (rather deaf)—"Are you any relation to a Mr. Green?"

Green—"I am Mr. Green."

Old Lady—"Ah! Then that explains the extraordinary resemblance."

Cruel Suspicion.

"Bliggins is a great reader. He invariably buys a newspaper before getting on a street car."

"I have noticed the paper," answered Miss Cayenne. "But I am not so sure he reads it. Maybe he holds it up because he's too polite to see a lady standing."—Washington Star.

His Qualifications.

Hyker—Bilkins has asked the president to give him an English consulship.

Pyker—So? On what does he base his claims?

Hyker—On his ability to speak the English language.—Chicago News.

His Wish.

The Weary One—Hang it! I wish he'd stop talking in my sleep.—Harper's Weekly.

Nothing Definite.

The detective was trying to get a clew.

"When your husband left you," he said, "did he drop any intimation as to where he might be going?"

"No, sir," answered the sharp chinned, thin lipped woman. "All he said was that he wanted to get away, that he was going to get away, and he didn't care a durn where he went."—Chicago Tribune.

ROOSEVELT VERSUS TOLSTOI

Latter Wrote That Bryan Represented the Party of Peace in the United States

New York.—Ex-President Roosevelt, in the current number of the Outlook, combats the statement credited to Count Leo Tolstoi that Bryan represented the party of peace in the last presidential campaign. On this point Mr. Roosevelt says: "Now, there was but one plank in the platform of either political party in 1908 which contained any element of menace to the peace of the world. This was the plank in the Bryanite platform which demanded the immediate exclusion by law of all Asiatic laborers, and therefore Japanese.

"Coupled with this is the utterly meaningless plank about the navy, which, however, was intended to convey the impression that we ought to have a navy only for the defence of our coasts, that is, a merely 'reserve navy,' or in other words, a quite worthless navy."

Discussing Tolstoi, the ex-president expresses the opinion that the Russian writer has swayed or dominated only the feeble folk and the fantastic folk, "and that his influence over men of action has not been great."

"Strong men may gain something from Tolstoi's 'moral teachings,'" declared the ex-president, "but only on condition that they are strong enough and sane enough to be repelled by those parts of his teachings which are foolish or immoral."

Germany's Huge Army

London.—Speaking at a large meeting at High Wycombe, in support of the movement for the territorial force, Field-Marshal Lord Grenfell said that it was necessary at the present moment that Britain should be in a complete state of preparation. He was afraid that our system in the past had been rather to wait until a storm arose and then to prepare, or complete, our preparations for war.

He had the honor of accompanying the king on his late visit to Berlin and he there saw an army of 21,000 men of the German emperor's troops, and it made him realize what the rest of the German army of two or three million men must be. While we were waiting for the storm to arise, Germany had, since the war with France, been steadily preparing and perfecting their training, educating their officers, and making their enormous machines of war. In view of the great upheaval in the east at the present moment, this was not the time when Britain should be in anything but a state of preparedness. He would not say much about invasion, although he like Lord Roberts and other military commanders, firmly believed in the possibility of invasion. That was a question which should not be left entirely to military experts, but one in which the whole country should be interested.

Maintain the Open Door

Pekin.—A final agreement has been reached between the Russian and Chinese authorities for the settlement of the disputed administration of Harbin and other points in the Russian railway zone in North Manchuria. The issue was first raised by the refusal of Mr. Fisher, the American consul, to recognize the Russian railway company's efforts to exercise sovereign power in disregard to China's sovereignty. Great Britain and Germany joined with America in protesting against the Russian threats to close the establishments to foreigners as well as Chinese unless they paid the taxes levied by the railway administration. The Japanese were officially passive, but really sympathetic with the Russians, hoping to apply the Russian theory to their South Manchurian railway zone. The negotiations were transferred to Pekin and have been proceeding for several weeks. The result is the full recognition of China's sovereignty. The administration will recognize and respect the open door principle and protect the rights of the nationals and other powers.

May Get Inspection Division

Ottawa.—The government has not yet definitely considered what action will be taken to meet the request of the western grain men's deputation which was here last month to urge government ownership of terminal elevators, encouragement of the Pacific grain export route, and the establishment of a new inspection division. Until the session is over the minister will not have time to deal thoroughly with the question, but on the question of inspection regulations it is understood the government will take steps to meet the requests of the deputation. With regard to taking over terminal elevators or the erection of an elevator at Vancouver nothing has been decided and enabling legislation in any case would have to be deferred till next session.

Labor Trouble at Edmonton

Edmonton, Alta.—The Builders' exchange has decided not to consider the new agreement put forward by the journeymen carpenters, and have declared for the open shop, to go into effect at once. The builders decline to recognize the carpenters' unions, and it is not likely that union men will work with non-unionists, and a big strike is threatened. The old agreement, which called for 42 cents an hour and an eight-hour day, ran out on May 1. The carpenters now ask 50 cents an hour, which the exchange refuses to consider, although they say they are ready to sign up the same scale as last year.

Alberta May Have Automatic Phones

Calgary.—With a view to investigating the advantages of the automatic telephone system, which if found satisfactory will be adopted throughout the province of Alberta, Hon. W. H. Cushing, minister of public works has left for Chicago and other American cities where the Strowger system is in operation. It is the intention of the government to considerably extend the telephone system in the province this year.

A Big Deal in the Yukon

Vancouver.—It is understood that the Dawson City waterworks and electric light, with the Sourdough coal mines, as well as other mining interests in the Klondyke, have been acquired by a New York syndicate for about half a million dollars. One of the principal vendors is Dan McGillivray, a Nova Scotian, of Seattle, who has amassed a fortune in the Yukon.

A Well-Trained Servant

The new servant had never once been within the walls of a theatre until the kind mistress gave her a ticket one evening for a popular play. She was willing enough to go, of course, and went, but caused great astonishment by returning home before nine o'clock. The story is best finished by repeating the conversation between the kind mistress and the new maid. "Didn't you go to the theatre?" "Indeed, I did that, mum, an' it was mighty fine." "But why did you not see the play out?" "Indeed, I did, mum. There were gran' ladies in the boxes, and illigant gintlemen next me, an' I had a lovely seat, an' enjoyed meself lookin' at the splendid pictures as much as anybody. But when they took the picture up, an' some ladies come in an' began discussin' family matters, I come away. Sure, it wasn't for the likes of me to sit an' listen to family secrets. I hope I know me place better than that, mum."

Untamable Tasmanian Wolf

About as untamable an animal as ever came into captivity has been added to the London (Eng.) collection in the form of a Tasmanian wolf. The new arrival, the first of its kind received for a long time, hates mankind with a deathless hatred and makes no pretence of gentler feelings. It lies coiled up in the remotest corner of its den all day, even the offer of food being an excuse for an outburst of boundless fury.

The tiger of the southern continent owes humanity little gratitude. There has been war between them since they first met. Somewhat smaller than a wolf in size, with a dog-like face, a long tapering tail and in color grayish brown, with the hinder part of the back and loins marked by black cross bands, the thylacine, to give it its scientific name, is a very distinctive animal.

Could Account for But Two

This story was told at a church banquet at Atchison. A boarder complained to the proprietor of a hotel that he had found hair in the ice cream, hair in the honey and hair in the apple sauce.

"That is queer," said the proprietor, "but I think that the hair in the ice cream must have come from shaving the ice; the hair in the honey, of course came from the comb; but I can't understand how the hair got into the apple sauce. I picked the apples myself and they were all Baldwins."

Not to be Beaten

A lady gave a children's party, to which a little boy of four was invited. The next day he was giving some account of the fun, and said that every little visitor had contributed, either song or recitation, music or dance, for the pleasure of the rest. "Oh, dear, Jack!" said his mother. "How very unfortunate you could do nothing!" Jack (with bravado)—"Yes, I could. I was not to be beaten, so I just stood up and said my prayers."

Booker Washington, at a meeting in New York, attended by Mr. Taft, told a story which is likely to cling to the portly president. An old negress cook in the south, who had cooked a delicious dinner for Mr. Taft during his recent visit, was asked if she did not feel greatly honored at cooking for such a great man.

Aunty replied: "Neber done heerd ob him befor. Know nothin' about him except he do look as if he been reg'lar at his meals."

An Enviable Post

"My dear," said the banker to his only daughter, "I have noticed a young man attired in a dress suit in the drawing-room two or three evenings each week of late. What is his occupation?" "He is at present unemployed, father," replied the fair girl, a dreamy, far-away look in her big blue eyes; "but he is thinking seriously of accepting a position of life companion to a young lady of means."

"I understand that Buzzer expressed great regret when his motor car hit that lady the other day."

"Yes, indeed. He broke one of his new brass lamps."

California ranks first among the Pacific coast states in the amount of electric power generated, with Washington second and Oregon third.

A GUARANTEE OF SAFETY

Most of the "soothing" syrups and powders advertised to cure the ills of babies and young children contain poisonous opiates, and an overdose may kill the child. Baby's Own Tablets are sold under the guarantee of a government analyst that they contain no opiate or harmful drug. They can be given with absolute safety to a new born child. They cure all those minor ailments originating in disordered stomach or bowels. Mrs. F. Young, River Hebert, N.S., says:—"I have used Baby's Own Tablets for constipation and stomach trouble and when my baby was teething, and have found them the best medicine I know of for these troubles." Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Fred—My dear Dora, let this thought console you for your lover's death. Remember that other and better men than he have gone the same way.

Bereaved One—They haven't all gone, have they?"

Holloway's Corn Cure takes the corn out by the roots. Try it and prove it.

We produce only about one genius in a century, but a great and increasing number of those who can make a noise like a genius.—Puck.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Graves' Worm Exterminator.

But three days elapses between the time the salmon leaves the Pacific ocean to ascend the Washington rivers and the time it at it is nearly canned, ready for shipment.

Ask for Minard's and take no other.

A balloon flight of 1,192 miles, from Vincennes, France, to Korostychew, Russia, in 1900, has never been surpassed.

W. N. U., No. 742

H. B. CO. SELECTS LAND

LOCATING PARTIES ARE SENT OUT TO GET CHOICE PARCELS

Balance of Company's Share of About 320,000 Acres of Dominion Government's Land to be Taken Up This Summer—Party Will Travel Some Five Thousand Miles on Their Trip Through North Country

Edmonton.—The selection of approximately 500 sections of land, or about 320,000 acres, the balance of the Hudson's Bay Co.'s share of the Dominion government lands, already surveyed, north of the Saskatchewan river, which will be picked from the choicest of the land not already fyled upon as homesteads, will be made by four parties of Hudson's Bay land men who are outfitting this week at various points in the northwest, including Edmonton.

The party which is now outfitting in Edmonton, consists of only two men, H. A. Bayne, of Winnipeg, son of A. Bayne, inspector of lands for the Hudson's Bay company, and E. Matheson, surveyor, of Winnipeg. They will pick their share of the 500 sections, or just what sections they can locate within the time set them, from the rich country tributary to the Grand Trunk Pacific surveyed line to the McLeod river, and also along the Pembina river to the Athabasca. Leaving Edmonton, the party will go straight west to the McLeod river.

They will not begin to look for their choice pickings until they reach the McLeod. Most of the land from the city west to this river has been once seized upon by the hordes of homesteaders and settlers that followed the surveys of the Grand Trunk Pacific. But there is a huge chunk of virgin country west of the McLeod and along the east side of the Pembina river, that will receive the close inspection of the party, and they expect to make some rich selections in this particular part of the country.

Working back along the Pembina, the two men will come east and probably strike Lac la Biche country before their summer's work is done.

They will travel four or five thousand miles before they reach the capital again. And they will have combed for the Hudson's Bay company at least a couple of hundred sections of the choicest of the lands in the whole country, to the northwest and northeast, tributary to Edmonton.

The Slaughter in Turkey

Adana.—The estimates of from 20,000 to 25,000 Christians killed by Mohammedans in the province of Adana made a fortnight ago must be revised. It is now asserted that the number can hardly reach more than 10,000. Thousands who were supposed to have been killed in the country districts have since come into some of the larger towns for relief.

Nearly 50,000 persons have received assistance from the foreign and Turkish relief committees or officials at Adana, 22,000 at Marash, 14,000 at Hadjin, 30,000 at Mersina, 2,000 at Latakia, 4,000 at Tarsus and a comparatively large number at Aintab and Alexandretta.

Fugitives from the villages or settlements exaggerated their estimates, through their fears, the extent of the slaughter. There still remains, however, the fact that frightful brutality was practiced, especially towards the women.

The Mohammedan figures of about 20,000 Mohammedans killed in this province must also be reduced.

Japan Will Enforce Immigration Laws

Victoria, B. C.—Nakamura, the Japanese consul general to Canada, who has arrived here, in an interview said Japan will strictly adhere to the immigration arrangements made with Canada and the United States, the restrictions being now strictly enforced. There are few applications for passports and few Japanese are going to South America. Emigration from Japan now is mostly to Korea and Manchuria. Mr. Nakamura was formerly secretary at the Washington legation.

Japanese Are Pleased

London, Eng.—The Morning Post's Japanese correspondent expresses warm appreciation at the reception the Japanese sailors received at Vancouver. They say it affords a ready proof that the subjects of the mikado are accepted by the colonial subjects of King Edward in the most friendly fashion as the partners of agreement, the benefits many of which have not yet been fully realized.

Coal Strike Conciliation Board

Ottawa.—The board of conciliation and investigation established to inquire into the difficulty of the western coal operators and coal miners in Southern Alberta and Eastern British Columbia, and endeavor to adjust the same, consists of Rev. R. N. Grant, Fernie; Colin Macleod, Macleod, and F. H. Sherman, Taber.

Barrett to Hang July 14

Edmonton. — Gary R. Barrett, charged with the murder of Deputy Warden Stedman, of Alberta penitentiary, on April 15 last, was found guilty and sentenced to hang July 14 next. He took the sentence calmly. An appeal may be made to the minister of justice at Ottawa.

Count Boni to Come West

Montreal.—The Canadian Pacific railway has received a communication from Count Boni De Castellaine, former husband of Anna Gould, asking that arrangements be made for guides, etc., for a hunting trip after big game in the Rocky Mountains in the end of July.

Will Entertain Australians in London

London.—At the request of the Atlantic Union, Whitelaw Reid, the American ambassador, and Mrs. Reid will soon give at Dorchester house a big reception for Australians. This function will be in the nature of a return for the welcome accorded the American fleet in Australian waters last year.

B. C. Man Succeeds Preston

Victoria.—The steamer Empress of Japan, which sailed for Hong Kong and way ports a few days ago, had among her passengers G. A. Harris, of Vernon, B. C., appointed trade agent to Japan to replace W. T. R. Preston, transferred to Holland.

Zoo on Handkerchiefs

Every now and then fashion decrees that there shall be a zoological outbreak. This season it takes the form of every kind of winged, horned and four-footed creature.

On handkerchiefs, umbrellas, blotting books, bags and notepaper there are creeping, crawling, flying insects, birds and beasts. It is the fashion of the moment to have something of the kind on all one's belongings.

Beetles and butterflies appear on dainty handkerchiefs, swallows and mice and lady birds and owls meander over stationery; dragons and peacocks are emblazoned on sofa cushions, kittens and Teddy bears decorate the tops of umbrellas, while possible and impossible creatures are utilized as hat pins.

Women would appear to have a penchant for natural history. At one time there was a craze for stuffed kittens that crawled over photograph frames and another which caused women to wear the heads and coils of various dead creatures slung about their necks and depending from muffs, while their waists and wrists were adorned or disfigured with coiled serpents.

Dr. J. D. Kellogg's Dysentery Cordial is compounded specially to combat dysentery, cholera morbus and all inflammatory disorders that change of food or water may set up in the stomach and intestines. These complaints are more common in summer than in winter, but they are not confined to the warm months, as undue laxness of the bowels may seize a man at any time. Such a sufferer will find speedy relief in this Cordial.

"Sad about the church organ being burned down, wasn't it?"

"Why couldn't they put it out?"

"Because none of the firemen could play on it?"

Minard's Liniment used by Physicians.

"Only think," exclaimed Fenderson, "of the many uses to which paper is now put!"

"I know," replied Noodleby; "I was at the theatre the other night, and I was told it was all paper. And it was a fine substantial-looking structure, too."

The largest gold nugget in the world was found in Australia, weighed 2,195 ounces, and was valued at $43,500.

SUNLIGHT SOAP

JUST THINK!

With half the labor, and at half the cost of other soap, Sunlight does the whole washing in half the time, yet without injuring the most delicate fabric.

How to Live 1,000 Years

Dr. John Fair, head of Boston's newest cult, the "New Life," is certain that he has discovered the secret of how to live not only for a hundred but to exist not only for a hundred years but for a thousand years without pain or sickness. He says 250,000 people have enlisted under his banner. Here are his rules for living to be 1,000 years old:

"Always dress in white. Make it the prime principle of life. I believe there should be a universal law making it a crime for any person to be attired in black or dark apparel.

"Do not think of death, do not believe in death.

"Live principally upon vegetables and nuts. Abjure meats, milk and flesh of all kinds, as well as all stimulants.

"Sleep eight hours daily, exercise eight hours, and work eight hours.

"A man's most critical hour in the day is the thirty minutes before and after meals. He should absolutely stop work a half hour before each meal, and must not resume work until a half hour after each meal.

"Each person should be alone for a half hour each day, not necessarily asleep, but to get his mind in a condition of natural and perfect repose.

"Sleep with your bedroom windows open every night all your living days. Always have a draft in your room.

SPRING WEARINESS

Are you feeling languid and all run down? Is it hard for you to pull yourself together, and does everything seem too much trouble for you? Are you feeling irritable and bad tempered? No wonder if you are. The months of winter have tried you sorely and robbed you of more vitality than your system has been able to replenish. You are in need of a good tonic which will revive you and bring back that old-time vim and energy. PSYCHINE will do this.

Mr. James Stoliker, of Ridgetown, says:—"THERE IS LIFE IN EVERY DOSE. I cannot speak too highly of PSYCHINE, for it is the greatest medicine I ever used. I was just about 'All in' when I began the treatment, and in 3 months I was as right as ever. It is a great tonic for weak and run-down people. There seems to be new life in every dose." You cannot do without PSYCHINE at this time of the year. It is a necessity and will banish that run-down feeling, languor, etc., and give you new life. Send to DR. T. A. SLOCUM, Limited, Spadina Ave., Toronto, for a sample to-day, or purchase a bottle from your local Druggists or Dealer.

PSYCHINE is sold everywhere at 50c. and $1.00 per bottle.

PSYCHINE (PRONOUNCED SI-KEEN) THE GREATEST OF TONICS FOR HEALTH AND ENERGY

Real English SUITS and OVERCOATS to Measure from $5.14 to $20.

Cut in Latest London and New York Style, whichever preferred. No matter what part of the dominion you live in, we undertake to supply you with a smart, comfortable Suit, fitting you perfectly, or otherwise to refund your money in full. The process is simple, merely fill in a post card and address same to us as below, asking for our latest assortment of materials. Together with patterns, we send you fashion-plates and complete instructions for accurate self-measurement, tape measure, all sent free and carriage paid. We dispatch your order within seven days, and if you do not approve, return the goods, and we will refund the money.

SUFFERED 5 YEARS WITH RHEUMATISM

Unable to Work for a Year—Cured by Gin Pills.

I have been troubled with Rheumatism for 5 years, one of which I have been unable to do any work whatever. Have spent much money on other remedies until I purchased from my druggist, L. T. Pest, Kingston, one box Gin Pills on his recommendation. The result was beyond my expectations. The first box banished all traces of Rheumatism. I now keep Gin Pills in the house and take one occasionally. My sincere thanks are due you for your wonderful remedy which has done so much for me.

GEO. VANDEWATER, Kingston, Ont.

Friendly letters like the above, reach us every day. No other remedy has ever had so many unsolicited testimonials in so short a time. There can be no question about it—Gin Pills do cure the Kidneys. 50c. a box—6 for $2.50. At dealers or direct.

Dept. N.U., National Drug & Chemical Co., Limited, Toronto. 121

EARLY ADVERTISEMENTS.

England Took a Long Time to Realize the Value of Printing.

One of the first English printed advertisements was a handbill or poster got out by Caxton in 1480 and reading:

"Pyes . . . of Salisbury . . . good and chepe . . . if it please any man spirituel or temporel to bye."

This was not a baker's advertisement, Caxton had printed "Pyes" or clerical rules telling how the clergy at Salisbury dealt with the changing date of Easter, and as the clergy could read he was bold enough to print advertisements of his "Pyes."

For two centuries after it was introduced printing, which should have boomed advertising — if advertising depended primarily upon printing — had little or no effect upon it. The public had to be reached by the rebus over the shop, the public criers in towns, and by boys in front of stalls calling "What d'ye lack, master? What d'ye lack?"

Even the newspapers, when the civil wars in England in the seventeenth century brought them forth—and they began to develop readers, had an extraordinarily small effect in developing advertising. Book notices, rewards for the arrest of runaway servants and quacks began to appear about 1652. And a little later the germ of modern advertising began to develop, in the "Mercurius Politicus," "The Kingdom's Intelligencer," and the "Publick Advertiser" and others in an effort to introduce tea, coffee and chocolate into England, thus:

Tea: "That excellent and by all Physitians approved China drink called by the Chineans Teha, by other Nations Tay, alias Tee."

Coffee: "The grain or berry called coffee, growing only upon little trees in the deserts of Arabia. Brought from thence and as drunk generally throughout all the Grand Seignor's dominions. It is a simple, innocent thing composed into a drink."

And chocolate: "An excellent West India drink called Chocolate."

The contrast between popular dependence upon advertising then and now cannot be better shown than by the experience after the great London fire. In 1666 London was practically wiped out by fire. The printer of The London Gazette, with almost prophetic acumen, offered his columns for notices of new locations of shops. But though practically every important shop in the city was moved, there was absolutely no response to this offer. The old locations had never been known through the newspapers, so why should anyone look there for the men?

Salting the Flock.

Sheep that have been a long time without salt are apt to make themselves sick eating too much of it when the opportunity comes. Be regular in feeding it to them, or, better still, provide a box to which the flock can have access at all times. They will help themselves and will eat only such as is good for them.

FISH FOR THE PRAIRIES

Important Move by the Dominion Government is Welcomed by Pacific Coast Fishermen

Vancouver, B. C.—In order to encourage the development of the Canadian fishing industry on the Pacific coast, where the bounty system prevailing in the Atlantic maritime provinces does not obtain, the Dominion government recently passed an order-in-council granting a rebate of one-third of the express rates on all shipments of fresh fish billed from here by Canadian fishing companies or Canadian fishermen to any point in Alberta, Saskatchewan and Manitoba. This rebate or bonus applies to any variety of sea fish caught in Canadian waters, including salmon, halibut, oysters, crabs and clams.

Vancouver fishing firms and dealers are jubilant over the proposed system of rebates authorized at Ottawa. They declare that it will drive American competition out of the three provinces and will also tend to stimulate the consumption of sea fish there. The prairie market hitherto has been a small one, but with the rapid increase of population is one of great possibilities.

Divorce Question in the Senate Again

Ottawa.—Senator Wm. Ross, of Halifax, offered a resolution to the senate declaring against divorce by parliament and favoring divorce courts instead. He had offered a similar motion last week, but it was ruled out on the ground that it was not in proper form. Senator Ross protested against a divorce by act of parliament.

Senator Ellis, seconding the motion said divorce was in operation in Canada, so it was not necessary to decide whether it was desirable or otherwise. Four provinces had divorce courts and for the others the senate was the divorce court. In his opinion the senate should rid themselves of that duty.

Senator Power disputed Senator Ross' argument that the Catholic Bible could be read to permit divorce. Senator Power favored the present system because it made divorces difficult to obtain, and thereby restricting them. Were a divorce court established in Ontario there would be twenty times as many divorces as at present.

Senator Ross—What about the poor?

Senator Power said that poor people did not seem to qualify for divorce as wealthy people did. Senator Ross withdrew his motion, saying he only wanted an expression of opinion.

Western Elevator Company Extending

Calgary.—According to a statement made by H. F. Gillespie, of the Great West Grain Elevator company, of Brandon, nineteen new grain elevators are to be erected at different points throughout Alberta.

Macleod, Granum, Claresholm, Cayley, Staveley, Nanton, High River, Crossfield, Carstairs, Red Deer, Alix, Erskine, Stettler, Camrose, Bawlf, Daysland, Killam, Strome and Sedgewick are the towns chosen and work is to be commenced on the new elevators within a few weeks. The head office will be established in Calgary.

There is $2,500,000 capital behind the Great West Elevator company, which in reality is the National Elevator company, of Buffalo, N. Y., which recently absorbed the Brandon concern.

Suffragettes' Novel Method

London.—Shut out of the House of Commons by the police, the suffragettes have found a new method of getting literature into the hands of the nation's legislators. Chartering a steam launch, which they aggressively labelled Dreadnought, and putting a band on board, a party of women steamed up the river a few days ago to a point opposite the houses of parliament. Here the boat stopped and the women attracted the attention of the members on the terraces by singing "The Marseillaise." Suddenly there was fired from the launch a broadside of rockets. These burst above the terraces, and a snowstorm of handbills fluttered down over the members.

Protecting Seal Rookeries

Victoria, B. C.—Russia has sent commissioners to the Copper Islands and Japanese seal rookeries to collect data regarding the sealing industry in North Pacific waters and investigate the incursions of Japanese railways on the Russian seal, according to advices received here. When their report is received the negotiations with the Japanese government for a treaty for the protection of seal and otter in the North Pacific are to be renewed. Incidentally it is reported Russia will sent representatives to Great Britain and the United States to approach the officials at London with a view of making the treaty now in force between Great Britain and the United States, applicable also to Russia and Japan.

Italian Gypsies for the West

Montreal.—Something closely akin to consternation reigned in Windsor station when a party of gypsies from Florence, Italy, about twenty in number, were taken from the Laurentic and put in a car bound for Saskatchewan. They were the most uncivilized and unclean lot ever seen at the Windsor. The women are decked in all colors dear to the hearts of the Florentine wanderers. The men were attired in a manner fearful and wonderful to behold. When asked by a bystander if they were anarchists they smiled and bowed.

Bush Fires in Saskatchewan

Winnipeg.—The Dominion immigration department has received word that bush fires are now raging around South Bohemia, Boulder, Willow Branch, Gravelburg, Leoville and Limerick, all in Saskatchewan. The extent of the damage is not reported.

Carnegie Visiting Italy

Naples.—Andrew Carnegie arrived here on Saturday, and was received by Signor Capellini in the name of the University of Bologna. The signo has arranged that Mr. Carnegie be received by King Victor Emmanuel on Monday.

Bringing Children to Canada

Liverpool.—The Allan liner Carthaginian sailed on the 22nd inst. with 130 of Birmingham's street-bred children, consisting of 85 boys and 45 girls.

TOO MANY WOMEN SUFFER IN SILENCE

When the Blood is Weak or Out of Order Disease is Inevitable.

Many women go through life suffering in silence—weak, ailing and unhappy. The languor and aloofness of girls and young women, with headaches, dizziness and fainting spells; the nervous ailments, back pains and failure of strength of wives and mothers; the trials that come to all women at the turn of life, are caused usually by impoverished, watery blood. Dr. Williams' Pink Pills for Pale People have helped more women to the joy of good health and robust strength than any other medicine in the world. These Pills actually make new, rich, red blood which reaches every part of the body, feeds the starved nerves, strengthens every organ, and makes weak girls and women bright and well. Mrs. A. Eagles, Dundas Ont., says:—"I am writing this letter out of gratitude to let you know the great benefit Dr. Williams' Pink Pills have been to me. From the time I was a girl I suffered from weakness and fainting spells—was always doctoring, but it did not help me. As I grew older I seemed to grow worse. My blood seemed literally turned to water. Sometimes I would faint as often as twice in a day. I suffered from indigestion. I could not walk upstairs without stopping to rest on the way, and my heart would palpitate so violently as to produce a smothering sensation. I grew so weak that people thought I was in consumption. I was in this dreadful condition when Dr. Williams' Pink Pills were brought to my attention, and I began taking them. The first sign of benefit I noticed was an improvement in my appetite. Then I began to grow stronger, the color began to return to my face, the fainting spells disappeared and gradually I was brought to a condition of more perfect health than I had ever enjoyed before. This is what Dr. Williams' Pink Pills have done for me, and that they have been of lasting benefit is proved by the fact that it is several years since they restored my health, and I have remained strong and well ever since."

Dr. Williams' Pink Pills are a cure for all troubles due to impure or watery blood, such as anaemia, rheumatism, neuralgia, headaches and backaches, indigestion, St. Vitus' dance, paralysis, etc. Sold by medicine dealers or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Cut of Danger

The millionaire had been very ill, but the doctor's smile was cheerful and encouraging. "At last, my dear sir," he said, grasping the patient's nerveless hand, "at last I am happy to say that you are completely out of danger." "No risk of a relapse?" "None whatever." "Break it gently to my poor nephew," whispered the invalid faintly.

No Luck

"Things never happen just right," said the moody man. "The pianist in the flat above me has a sore throat and the girl who is training to sing in grand opera has just sprained her wrist."

The largest pontoon bridge in the world is in India, connecting Calcutta with Howa, an important railroad terminal and cotton and manufacturing center.

The residue from the garbage incinerating furnaces of several of the smaller English cities is mixed with quicklime and water and made into a fair quality of bricks and building blocks.

Suspicious

"Ah, those golden tresses charm me," Said he in his sweetest tone. Then he added: "Tell me, darling, Is it all your very own?"

How's This?

NUMBER 23 THE PROPRIETARY

TORONTO TALKS IMPERIALISM

Many a Noble Sentiment Eloquently Expressed Before the Australasian Delegates

Toronto.—Clear cut and emphatic was the expression of public opinion tendered the delegates of the imperial press conference to be held in London next month, at a banquet held in the National club in honor of the visiting delegates from Australia.

There was no quibbling or hesitation in regard to the policy that the most representative gathering of Toronto's professional and commercial interests considered should dominate the conference in its disposition of the subject of the future of the empire.

The growth of the imperialistic doctrine and the unanimity and enthusiasm of Toronto's business men regarding the future of Great Britain had never been given more apt illustration, and the evident pleasure with which the visitors heard the elucidation of the strong imperial sentiment and witnessed its reception, served to create a common feeling of brotherhood that found vent in the display of the warmest patriotic zeal.

The banquet was given by the Toronto daily press and the Canadian Manufacturers' association.

Great White Plague on the Increase

Washington.—That the vigorous campaign against tuberculosis has failed to check the great white plague was the startling charge made by Nathan Strauss, the New York philanthropist, at the fifth annual meeting of the National Association for the Study and Prevention of Tuberculosis. Mr. Strauss backed up his assertion by official statistics from the New York health department, showing an increase of 33 per cent. in two years in cases of tuberculosis in the city that Dr. Koch described as leading the whole world in the fight against the disease. The reason of this failure to make headway, Mr. Strauss declares, was the neglect of the mischief wrought by the tuberculosis dairy cow. Citing the results of scientific investigation and his own 18 years' experience in saving lives, he summed up by saying that the abolition of tuberculosis will begin when it is made a crime to sell milk unless it comes from tuberculosis-tested cows or has been properly pasteurized.

Armenians Massacred

Maraah, Asiatic Turkey.—Distressing accounts continue to be received here from the countryside of Armenian villages being assailed by bands of Mohammedans, who, acting on the supposition that the Armenians were rising against the government, were quick to strike the first blow.

The men have been killed whenever found within reach of knife or bullet. The girls received no consideration, and some of them were carried off to become the wives or slaves of rich men. Houses were sacked and then burned and farm animals were driven off.

In other towns, notably Yanksoun, where the Armenians were well supplied with rifles, they fought day and night and kept off large numbers of besiegers. There are probably 14,000 refugees in Maraah.

Canon of Westminster to Face Charges

New York.—A special to the Tribune from New Haven says: The Rev. H. Herbert Henson, canon of Westminster and rector of St. Margaret's, London, has left Yale for Boston, to sail hurriedly to England, to face charges preferred by Bishop Gore of the Church of England, who accuses him of having violated ecclesiastical law by occupying a nonconformist pulpit in a workingmen's institute in Birmingham, England. Canon Henson is known in the religious world as a broad churchman, and he preached to the nonconformists after the local Church of England authorities had refused their permit.

Alberta Elections

Edmonton, Alta.—It is probable that writs for the deferred elections for the legislature fr Peace River and Athabasca, two large northern constituencies, will be issued at once, and that the elections will be held in the first week in June. A. T. Brick, retiring member in Peace River, will be opposed by J. K. Cornwall. Fletcher Bradin will probably be returned by acclamation in Athabasca.

Stoessel Has Appoplexy

Paris.—The St. Petersburg correspondent of the Petit Journal says that General Stoessel, who was condemned to death for surrendering Port Arthur to the Japanese, which sentence was subsequently commuted to life imprisonment, was stricken with appoplexy when he learned that the petition for full pardon had been rejected by the czar a few days ago. His condition is said to be very grave.

Vancouver Soldiers Going to Seattle

Vancouver.—After a trip to Seattle, where he made preliminary arrangements in connection with the visit of the Vancouver militia corps to the Alaska-Yukon-Pacific exposition, Col. F. W. Boultbee, commanding the 6th regiment D.C.O.R., returned to Vancouver and announced that all doubt as to the visit of Vancouver's citizen soldiers to the big fair is now removed.

Miners and Conciliation Board

Lethbridge.—F. H. Sherman acts for the miners and Colin Macleod for the operators on the conciliation board to settle the great coal strike. It is reported authentically that there was a conference between Mr. Macleod and Mr. Sherman, but they failed to agree upon the choice of a chairman and the minister of labor has been asked to intervene.

Tunisian Not Badly Damaged

Montreal.—The Allan line steamship Tunisian, which put into St. John's, Newfoundland, leaking as a result of too close contact with the ice in the vicinity of Cape Race, has been examined and was found not to be seriously damaged. Temporary repairs will be effected and the steamer with her 1,001 passengers will leave for Montreal.

Attack U. S. Copyright Legislation

Berlin.—The Berlin Copyright Convention, as revised by the Berlin Conference last November, passed its first and second reading in the Reichstag. The discussion called out a very sharp attack upon the copyright legislation of the United States.

BAD LEG FOR 60 YEARS.

Zam-Buk Works a Complete Cure.

Mrs. J. Minett, of 192 Thurbers Avenue, Providence, Rhode Island, has been cured by Zam-Buk of a bad leg, which had defied all remedies for sixty long years. She says:—"When a child of eight, I was bitten on the leg by a dog. A doctor cauterised the place, but it never healed up soundly, and I have suffered with an ulcerated leg for over sixty years. This occurred in England, and many English doctors tried in vain to heal the sore. At one time I was an in-patient at the East Suffolk Hospital for a long period, and for three years I was in and out of hospitals. I was continually in pain, and the sore would not heal, but continued to discharge. Twelve months ago I came out here to my daughter, and during the voyage I had to keep my bed. The ship's doctor examined my leg, and gave me a plaster, which I had to take off again as it made the pain so intense. When I reached my daughter's house, she sent for a medical man, who said nothing could ever do it any good, and although I tried other American doctors, they did me no good. They said my leg would never be well.

"One day my youngest daughter brought home a box of Zam-Buk, and induced me to try it. With the first application I seemed to find ease, and further treatment with Zam-Buk did me so much good that I sent for a proper supply. I kept on with the Zam-Buk treatment, and soon saw that the wound was getting better. The discharge was reduced, and the pain was eased. I persevered with the Zam-Buk, and, to cut a long story short, it effected a cure. It is marvellous to think that, after suffering for sixty years, Zam-Buk has been able to make my leg perfectly sound."

Zam-Buk is a combination of power and purity. Purely herbal, it is superior to all known remedies for chronic sores and wounds, eczema, salt rheum, ringworm, eruptions, varicose ulcers, cuts, burns, bruises, skin diseases. It also cures piles. All Druggists and Stores sell at 50c. a box, or post-free from Zam-Buk Co., Toronto, for price. Three boxes for $1.25.

After the Airship Wreck

Reporter—What was the cause of the accident?

Descending Passenger.—Nobody seems to know. The captain thinks it was a derelict or an uncharted skyscraper.

Eyes Are Relieved by Murine

when irritated by Chalk Dust and Eye Strain, incident to the average School Room. A recent Census of New York City reveals the fact that in that City alone 17,928 School Children needed Eye Care. Why not try Murine Eye Remedy for Red, Weak Weary, Watery Eyes, Granulation, Pink Eye and Eye Strain? Murine doesn't Smart, Soothes Eye Pain. Is compounded by Experienced Physicians; Contains no Injurious or Prohibited Drugs. Try Murine for Your Eye Troubles. You will like Murine. Try it in Baby's Eyes for Scaly Eye lids! Druggists Sell Murine at 50c. The Murine Eye Remedy Co., Chicago. Will Send You Interesting Eye Books Free.

About one gallon of fuel alcohol can be distilled from three gallons of molasses.

Illiteracy among the negroes of the United States is seven times as common as among the whites.

Meerschaum, when freshly mined, is so soft that it may be used for soap, giving a plentiful, cleansing lather.

A Simple and Cheap Medicine.—A simple, cheap and effective medicine is something to be desired. There is no medicine so effective a regulator of the digestive system as Parmelee's Vegetable Pills. They are simple, they are cheap, they can be got anywhere, and their beneficial action will prove their recommendation. They are the medicine of the poor man and those who wish to escape doctors' bills will do well in giving them a trial.

"People praise my work," said the artist, boastingly. "And they laugh at mine," rejoined the sad-faced party, "but I don't mind." "What is your line?" queried the artist. "I'm a professional humorist," replied the other.—Chicago Daily News.

The Plowboy Bard

The garden seed air seed; all right—
That's righter than it's wronger—
But when we puts 'em outa sight
They can't be seed no longer.

The Uses of Bile in Indigestion

Bile is quite as important as are the gastric juices in the process of digestion.

Chronic indigestion disappears when an active liver supplies bile in sufficient quantities.

You think of bile as something disagreeable and poisonous, something to be well rid of. In the blood the bile is poisonous and harmful, but the liver takes the bile out of the blood and pours it into the intestines, where it fulfills a most important mission.

Without bile human life is short for.

Bile hastens the passage of the food along the alimentary canal.

Bile neutralizes the acid which passes from the stomach to the intestines.

Bile prevents the fermentation of food in the intestines, which in turn causes gas, wind, flatulency.

Bile, in short, is Nature's cathartic and maintains a regular and healthful process of digestion and of elimination of waste matter by way of the bowels.

But to have a regular flow of bile the liver must be kept healthy and active and just here is where Dr. A. W. Chase's Kidney-Liver Pills come in, for they are definite, specific and direct in their action on the liver.

It is only by setting the liver right that constipation can ever be cured. It is only by making the liver healthy that biliousness and bilious, sick headaches can be thoroughly overcome. It is only by making the liver active that the most difficult cases of indigestion and dyspepsia will ever vanish.

A single box of Dr. A. W. Chase's Kidney-Liver Pills at 25 cts. a box will convince you of their extraordinary merit. One pill a dose, at all dealers, or Edmanson, Bates & Co., Toronto.

Half Million Worthless Paper

St. John's, Que.—An amazing series of manipulations of the funds of the Banque St. John's was brought out at the trial of Hon. P. H. Roy on a number of charges in connection with the wrecking of the bank. A "black list" of worthless paper was produced amounting to $573,919, much of which was made up of notes discounted by Roy to his own credit, and which were signed by men of little worth.

One transaction was exposed in which a bailiff who had formerly been in Roy's employ had given the bank president notes to the extent of $73,000, which had been cashed by Roy, but were worthless. The bailiff when called, stated that when he made these notes for Mr. Roy he was not worth more than $1,500, and that it had been arranged with Mr. Roy that he was never to pay anything on the notes.

Another note made by the president's brother, C. S. Roy, was endorsed "E. M.," and it was stated that its proceeds had been used in Roy's attempt to be elected mayor of Montreal last election.

Lumber Firm Moving

Minneapolis.—The F. H. Stoltze interests of St. Paul, embracing companies with a combined rating of two millions, will move their business to Minneapolis as soon as satisfactory quarters can be found. Fred. H. Stoltze operates a line of lumber and coal yards at many northwestern points. Stoltze is also interested with E. A. Konantz in the North American Lumber and Supply company, which operates a line of yards in Saskatchewan and Alberta. He is the principal stockholder in the Pioneer Lumber company of Lethbridge, Alta., which does a yard business. Canadian lands and investments make up a portion of the interests and the line companies do a hardware trade at some stations.

Railway Construction Being Rushed

Edmonton.—Grading on the G. T. P. between the Pembina and Macleod rivers is now in full swing, and by September next the grading will be completed to the Macleod river. There are 52 miles of the right of way yet to be graded. Six camps have been established, and about 400 men and 300 teams are engaged on the grading work. The camps include three of Foley, Welch & Stewart, and the camps of Contractors Callendar, P. Hansen and Parr. It is expected that the grading will be completed in about four months.

WESTERN CANADA SHAKEN BY EARTHQUAKE

Calgary.—Two slight earthquake shocks were felt in the city on Saturday night and Sunday morning, but it was only in the top stories of high buildings that it was noticed, and neither one was sufficient to cause any alarm.

The first shock occurred at about 9.30 on Saturday night and lasted for about 30 seconds. The second at one o'clock Sunday morning was of shorter duration and not so noticeable.

Telegraph communications from the east report disturbances in that quarter, but no material damage has been done.

The earthquake shock was felt at Winnipeg lasting 30 seconds. The quake is also reported from many places in Saskachewan and Alberta. In some places the people fled from their houses in alarm. Houses rocked and crockery rattled and broke. Points from which the reports are received show the disturbance covered an extensive area. Reports from North Dakota, Minnesota and Montana say the shock was felt there. Such an occurrence was never felt in this part of Canada before.

Halibut Industry Being Extended

Vancouver, B. C.—The investment of $2,000,000 in the halibut industry with Prince Rupert for a base, is planned by a wealthy English syndicate recently organized. Mr. Sylvester Swettenham, brother of Sir Frank Swettenham, who is associated with business enterprises with which the banking house of Messrs. Glynn, Mills, & Co. is concerned, has reached here on a mission in connection with the proposed enterprise. He also plans to establish numerous salmon canneries along the Skeena river.

Girl Graduates Oppose Separation

Toronto.—A resolution passed by the Toronto university senate in favor of a separate college for women was opposed by the undergraduates. Of two hundred and thirty-eight seen, two hundred and thirty were signatories to a petition that "We, women students of the university college, have heard with much regret of the vote in senate to give us separate college. We feel that such a step would be very much to the disadvantage of the university, and especially to women."

Manitoba Temperance Workers Active

Winnipeg.—Not content with the arrangements they have made for Manitoba the temperance workers in Winnipeg are now engaged in securing signatures petitioning the city council to put a vote to the people at the municipal elections in December next on the temperance question. The civic bylaws provide that a vote shall be taken providing twenty-five per cent. of the ratepayers sign the petition.

First Chinese Consul

Ottawa.—Information has been received that the first Chinese consul in Canada, Kung Hsin Chao, sails from Liverpool on the C. P. R. steamship Empress of Ireland on June 18. It is not known whether he will reside in Ottawa or on the Pacific coast.

Honor of Colony and Motherland

Sydney, N. S. W.—Premier Fisher intimates that he is negotiating with the home government regarding the measures for defence which would dove-tail with British plans and tend to protect the honor of both Australia and the motherland.

Hindus in Canneries

Vancouver, B. C.—A prominent northern canner made the statement that owing to the scarcity of Chinese labor, Hindus will be largely employed in salmon packing. They will not be allowed to come in contact with fish.

INDEED THEY ARE WONDERFUL

WHAT THOS. McDONALD SAYS OF DODD'S KIDNEY PILLS.

He Had Lame Back, Kidney Disease and Heart Flutterings, and One Box Cured Him.

Shubenacadie, Hants Co., N. S. (Special).—"I suffered from Lame Back, Kidney Disease and Heart Flutterings, caused by cold and a strain, for three years. I was looking over some papers and saw Dodd's Kidney Pills advertised and I bought one box which completely cured me. Dodd's Kidney Pills are wonderful."

That is the simple, straightforward statement of Mr. Thomas McDonald, a well known resident of this place. It shows how quickly Dodd's Kidney Pills cure Kidney Disease when taken in its earlies stages. Lame Back is one of the first symptoms of sick Kidneys. Heart Flutterings is another symptom. It is caused by blood, from which the sick Kidneys have failed to strain the impurities, increasing the work of the heart. Dodd's Kidney Pills make the sick Kidneys well, the lame back disappears, the blood is purified, the heart is relieved and the flutterings stop.

If the case is of long standing, it may take longer to cure it, but Dodd's Kidney Pills never fail to do it.

Out of Date

A workman, who was paid by time, was suspected by his wife of not giving her all his pay at the end of the week. She consulted a neighbor, who advised her to get a ready reckoner. This she procured, and when next he handed her his wages she asked him "Are ye sure that's all, Geordie?" "Of course," he replied. "Because I have been looking up a ready reckoner, and I should get more." "Let me see it." He looked at it for a minute, and contemptuously threw it back to her. "That's no use; it's last year's."

"How do you do, sare?" said a Frenchman to an English acquaintance. "Rather poorly, thank you," answer the other. "Nay my dear sare," said the Frenchman; "don't thank me for your illness; I cannot help it."

Usually

He who tries to be all things to all men usually ends by being nothing to nobody.—Chicago News.

Tommy—What is a retainer, pa?

Tommy's Father—A retainer, my son, is the money people pay to us lawyers before we can do any work.

Tommy—Oh, I see. It's like those slot gas meters. The people have to pay their money before they get any gas.

Helping Them Out

"Your cousin's medical practice, I suppose, doesn't amount to much yet?"

"No. I'm sorry to say. We relatives do all we can, however, but, of course, we can't be ill all the time!"

"She—Jack told me that that hospital was built entirely at his expense. Is it possible?

He—Well, Jack's uncle cut him off with a hundred pounds, and left the rest of his money to build the hospital."

Airing your troubles will not mitigate them.

The manufacture of oleomargarine and other artificial butters is one of the leading industries of Holland.

There's one sure thing, and that is that you can't be sure of anything.

Away With Depression and Melancholy.—These two evils are the accompaniment of a disordered stomach and torpid liver and mean wretchedness to all whom they visit. The surest and speediest way to combat them is with Parmelee's Vegetable Pills, which will restore the healthful action of the stomach and bring relief. They have proved their usefulness in thousands of cases and will continue to give relief to the suffering who are wise enough to use them.

Dolly—We had to practice Chopin for three hours to-day, mamma!

Mrs. Parvenoo—Really, my dear, shoppin' is all very well, but your papa sent you to the ladies' hacademy to learn music an' that sort o' thing!"

Keep Minard's Liniment in the house.

King Leopold of Belgium has offered a $5,000 prize for the best treatise to be brought out this year.

"I have an heirloom on this table," said the landlady, "that has come down to me through four generations." "I thought so," mused the new boarder. "Why don't you get a different butter dealer."—Cleveland Leader.

A WINDSOR LADY'S APPEAL

To All Women: I will send free, with full instructions, my home treatment which positively cures Leucorrhoea, Ulceration, Displacements, Falling of the Womb, Painful or Irregular Periods, Uterine and Ovarian Tumors or Growths, also Hot Flushes, Nervousness, Melancholy, Pains in the Head, Back or Bowels, Kidney and Bladder Troubles, where caused by weakness peculiar to our sex. You can continue treatment at home at a cost of only about 12 cents a week. My book, "Woman's Own Medical Adviser," also sent free on request. Write to-day. Address Mrs M. Summers, Box H.I., Windsor, Ont.

Chaplain—What brought you here?

Prisoner—Youth, sir.

Chaplain—Youth! Why, you look to be fifty if a day!

Prisoner—I'm past that. It was the youth of my lawyer that did it.

Sores Flee Before It.—There are many who have been afflicted with sores and have driven them away with Dr. Thomas' Eclectric Oil, which acts like magic. All similarly troubled should lose no time in applying this splendid remedy, and there is nothing like it to be had. It is cheap, but its power is in no way expressed by its low price.

Jobbery

Another important difference between government jobs and glory is that there are not enough of them to go round.—Indianapolis News.

A Poor Weak Woman

As she is termed, will endure bravely and patiently agonies which a *strong man* would give way under. The fact is women are more patient than they ought to be under such troubles.

Every woman ought to know that she may obtain the most experienced medical advice *free of charge* and in *absolute confidence* and privacy by *writing to* the World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y. Dr. Pierce has been chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., for *many* years and has had a wider practical experience in the treatment of women's diseases than any other physician in this country. His medicines are world-famous for their astonishing efficacy.

The most perfect remedy ever devised for weak and delicate women is Dr. Pierce's Favorite Prescription.

IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.

The many and varied symptoms of woman's *peculiar* ailments are fully set forth in Plain English in the People's Medical Adviser (1008 pages), a newly revised and up-to-date Edition of which, cloth-bound, will be mailed *free* on receipt of 50 one-cent stamps to pay cost of mailing *only*. Address as above.

REV. REID'S LETTER.

There is considerable adverse criticism on the letter of Rev. W. D. Reid, B. D., which was published in the Montreal Witness of May 7th, and a copy of which appeared in the Leader last week. As a law abiding community Moyie will stand comparison with any town in Canada, and the police records will show that there is very little trouble here. Sometimes month after month passes without even the necessity of an arrest, and when he says the town is sadly under the domination of whiskey he is overreaching the truth. Some events have transpired within the past week or two which clearly demonstrates this fact. The hotel men paid little attention to Rev. Reid's coming, and probably paid less attention to his going, and no one here will believe for a moment that they "had their minions all primed and loaded for the Sky pilots," or rather the two "hoisting gears," as they called us." The two evangelists visited a cabin and found six men who had been "rushing the can." Wonderful, wasn't it to find such a situation in a western town? But one of these is described as a "boss gambler," another a "blasphemous Jew," another an escaped murderer," and another a "drunken socialist who had studied for the priesthood." Every person in Moyie knows the men referred to. Possibly they do embibe too freely for their own good at times and possibly some of them gamble at times, and some of them have been known to swear, but all of them are working men and have put in the greater part of their lives mining and prospecting. Some of them have owned and still own valuable mining property, and all of them have done their share in helping to develop this fair western country. All of them are honest, and the lives and purses of the evangelists were in no danger whatever. What if one was a socialist and studied for the priesthood? Men have been known to study law, to study medicine and to even study for the ministry and then take up some other vocation in life.

Mr. Reid made a good impression and many friends while in Moyie, and it is to be regretted that he caused a letter to be published after leaving here that will tend to put the town in an unjust light with eastern people. It will not effect the people in the west. They know better.

Moyie's new postoffice is a beauty.

Moyie has a bank. Sound good, doesn't it?

Moyie's baseball and football teams are powers to be reckoned with.

The man who sings his own praises generally has a pretty bum voice.

The people of Seattle are advertising the A.-Y.-P. as the fair that will be ready. The same can be said of Moyie's Dominion Day celebration.

You can not be a pessimist and an advance agent of prosperity at the same time. Do not carry your goods in a hearse if you wish to sell them.

When Moyie gets her new school building, which she must of necessity do, what's the matter with turning the old building into a gymnasium?

Commencing next week the Moyie Leader will discontinue using a patent and will print all of the paper at home. Another indication of the prosperity of the town.

Ledge:—One way to build up a town is to give the ranchers who trade in it the same price for their produce that you pay for imported goods. In this way you get the trade of the ranchers, and the only losers are the transportation companies. It is a good plan to occasionally look beyond the trough.

The Center Star's Profits.

Rossland Miner: The profits for the Centre Star mine alone, for the month of April were $30,500 and the general strengthening of metal quotations is having an encouraging effect on the operations of the Consolidated Mining and Smelting company. In addition to heavy shipments of pig lead to Eastern Canada, China and Japan, the company shipped 250 tons to Australia.

Isn't It the Truth?

Fernie Ledger: When a reporter meets a man on the street and asks "What's the news?" that man will invariably reply "Oh, nothing new." When he reads the next issue of the paper, and finds that something he did know is not there he wonders what is the matter with it.

More About Mary.

Mary had a little hat,
Not bigger than a stopper;
But Mary soon got rid of that,
Her present hat's a whopper.
